< Cautionary Statements with Respect to Forward-Looking Statements >

This document may contain forward-looking statements that are based on management's expectations, estimates, projections and assumptions. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results may differ materially from what is forecast in forward-looking statements due to a variety of factors, including, without limitation: general economic conditions in the Company's markets, particularly government agricultural policies, levels of capital expenditures, both in public and private sectors, foreign currency exchange rates, continued competitive pricing pressures in the marketplace, as well as the Company's ability to continue to gain acceptance of its products.

1. Review of Operations and Financial Condition

1. Review of operations

(1) Summary of the results of operations for the six months under review

For the six months ended September 30, 2008, revenues of Kubota Corporation and subsidiaries (collectively the Company) increased ¥11.3 billion (2.0%), to ¥572.3 billion from the corresponding period in the prior year, due mainly to an increase in overseas revenues in Internal Combustion Engine & Machinery, while the domestic revenues were slightly decreased.

In the domestic market, revenues decreased ¥6.1 billion (2.3%), to ¥259.6 billion from the corresponding period in the prior year. Revenues in Internal Combustion Engine & Machinery slightly decreased. Sales of construction machinery declined substantially, while sales of farm equipment and engines increased. Revenues in Pipes, Valves, and Industrial Castings increased due mainly to sales increase of ductile iron pipes, while sales of industrial castings decreased. Revenues in Environmental Engineering increased. However, revenues in Other decreased.

In overseas markets, revenues increased ¥17.4 billion (5.9%), to ¥312.7 billion from the corresponding period in the prior year. Revenues in Internal Combustion Engine & Machinery increased mainly due to sales increase of farm equipment and engines, even though sales of construction machinery declined. Revenues in Pipes, Valves, and Industrial Castings substantially increased due to sales increase of ductile iron pipes. Revenues in Environmental Engineering decreased, while revenues in Other increased. As a result, the ratio of overseas revenues to consolidated revenues rose 2.0 percentage points, to 54.6% compared with the corresponding period in the prior year.

Operating income decreased ¥7.0 billion (9.4%), to ¥68.1 billion from the corresponding period in the prior year. Operating income in Internal Combustion Engine and Machinery decreased mainly due to appreciation of the yen and price hikes of materials. Operating income in Pipes, Valves, and Industrial Castings decreased owing to sharp price hikes of raw materials. Although operating loss in Environmental Engineering decreased due to an increase in revenues, operating income in Other decreased due to a decreased sales of vending machines.

Income from continuing operations before income taxes, minority interests in earnings of subsidiaries, and equity in net income of affiliated companies decreased ¥10.3 billion (13.5%), to ¥65.9 billion.

Income taxes were ¥25.8 billion (representing an effective tax rate of 39.1%), and net amount of minority interests in earnings of subsidiaries and equity in net income of affiliated companies to deduct was ¥4.4 billion. As a result, net income was ¥35.7 billion, ¥7.3 billion (16.9%) lower than the corresponding period in the prior year.

Table of Contents**Kubota Corporation
and Subsidiaries****(2) Review of operations by industry segment****1) Internal Combustion Engine and Machinery**

Revenues in Internal Combustion Engine and Machinery were ¥421.1 billion, 3.1% higher than the corresponding period in the prior year, comprising 73.6% of consolidated revenues. Domestic revenues decreased 1.1%, to ¥127.7 billion, and overseas revenues increased 5.0%, to ¥293.4 billion. This segment comprises farm equipment, engines and construction machinery.

In the domestic market, the demand for farm equipment was lackluster caused by sharp price hikes of fuel and agricultural materials. In this circumstance, the Company made efforts to stimulate the market by way of the active introduction of new products and implementation of aggressive promotional sales activity. As a result, sales of tractor and farm equipment increased from the corresponding period in the prior year.

Sales of engines increased steadily due to expansion of sales to domestic manufacturers of construction and industrial machinery. On the other hand, sales of construction machinery decreased due to a decrease in sales to construction machinery rental companies affected by weakening investment in construction.

In overseas markets, sales of tractors increased. Sales of tractors in North America decreased due to a stagnation of the housing related markets in the U.S. In Asia outside Japan, sales of tractors sustained high rates of growth, centering on Thailand. Sales of tractors in Europe also increased steadily due to aggressive promotional sales activities. Sales of farm machinery increased sharply owing to a significant business expansion in China. On the other hand, sales of engines remained almost the same level as the corresponding period in the prior year. As for sales of construction machinery decreased slightly due to decline in sales in North America.

2) Pipes, Valves, and Industrial Castings

Revenues in Pipes, Valves, and Industrial Castings increased 5.9%, to ¥92.6 billion from the corresponding period in the prior year, comprising 16.2% of consolidated revenues. Domestic revenues increased 2.7%, to ¥76.3 billion, and overseas revenues increased 24.0%, to ¥16.3 billion. This segment comprises pipes and valves (ductile iron pipes, spiral welded steel pipes, plastic pipes, and valves), and industrial castings.

In the domestic market, sales of ductile iron pipes increased owing largely to the price-raising. Sales of plastic pipes increased in spite of declining demand. Sales of spiral welded steel pipes also increased. On the other hand, sales of industrial castings decreased substantially due to decreased sales of ductile tunnel segment.

In overseas markets, export sales of ductile iron pipes to the Middle East were brisk, while sales of industrial castings were sluggish.

3) Environmental Engineering

Revenues in Environmental Engineering increased 20.1%, to ¥23.4 billion from the corresponding period in the prior year, comprising 4.1% of consolidated revenues. Domestic revenues increased 24.8%, to ¥21.3 billion, and overseas revenues decreased 13.0%, to ¥2.1 billion. This segment consists of environmental control plants and pumps.

In the domestic market, sales of the Waste Engineering increased largely, and Water & Sewage Engineering products increased steadily. On the other hand, sales of all products were less than the corresponding period in the prior year in overseas markets.

4) Other

Revenues in Other decreased 22.8%, to ¥35.2 billion from the corresponding period in the prior year, comprising 6.1% of consolidated revenues. Domestic revenues decreased 24.1%, to ¥34.3 billion, and overseas revenues increased 149.6%, to ¥0.9 billion. This segment comprises vending machines, electronic-equipped machinery, air-conditioning equipment, construction, septic tanks and other business.

Edgar Filing: KUBOTA CORP - Form 6-K

Sales of vending machine decreased in this segment due to the decreased demand for cigarettes-vending machine with the function of age-identification, for which the temporary demand was very high level in the prior year. In addition, sales of condominiums in the fiscal year were absent because shares of the subsidiary which conducted condominium business were partially sold and the subsidiary changed into an affiliated Company in the prior year. Sales of construction and septic tanks also decreased.

-4-

Table of Contents**Kubota Corporation
and Subsidiaries****2. Financial condition****(1) Assets, liabilities and shareholders' equity**

Total assets at the end of September 2008 amounted to ¥1,506.1 billion, an increase of ¥41.8 billion (2.9%) compared with those at the end of March 2008. As for assets, current assets increased largely. The primary reason for this increase was an increase in trade accounts resulting from a large reduction in sales of trade accounts in North America. As for liabilities, although interest-bearing debt increased largely due to a decrease in sales of trade accounts, trade notes and accounts payable decreased. An increase in total shareholders' equity were modest compared with an increase in recorded net income affected by a decrease in accumulated other comprehensive income. Shareholders' equity ratio was 43.7%, 0.6 percentage points lower than the prior year end.

(2) Cash flows

Net cash used in operating activities during the six months under review was ¥8.1 billion, as compared to ¥45.8 of net cash provided by operating activities in the corresponding period in the prior year. Total net cash provided by operating activities largely decreased due to a sharp reduction in sales of trade accounts, in addition to a decrease in net income and an increase in inventories.

Net cash used in investing activities during the six months under review was ¥42.8 billion, an increase of ¥6.4 billion from the corresponding period prior year. In addition to an increase in purchases of fixed assets, combined effect of increase in finance receivables and collection of finance receivables resulted in increase in net cash used in investing activities.

Net cash provided by financing activities during the six months under review was ¥45.8 billion, as compared to ¥3.0 of net cash used in financing activities in the corresponding period in the prior year. Total net cash provided by financing activities largely increased due to increases in short-term borrowings and long-term debt resulted from a reduction in sales of trade accounts in North America.

As a result, including the effect of exchange rate, cash and cash equivalents at the end of September 2008 were ¥82.0 billion, a decrease of ¥6.8 billion from the prior year-end.

3. Prospect for the fiscal year under review

The Company revised upward a forecast of revenues for the year ending March 31, 2009 by ¥15.0 billion, to ¥1,135.0 billion from the previous forecast, which was released in May 13, 2008, in consideration of sales performance of the first half of this fiscal year.

In the domestic market, revenues in Pipes, Valves and Industrial Castings are expected to increase, and revenues in Environmental Engineering are estimated at the same level as in the prior year. On the other hand, revenues in Internal Combustion Engine and Machinery are forecast to decrease due to sales decline in construction machinery. Revenues in Other are also forecast to decrease due to sales decline in vending machine. Accordingly, total domestic revenues are forecast to decrease from the prior year.

Overseas revenues are also forecast to decrease from the prior year. The Company forecasts lower revenues of Internal Combustion Engine and Machinery in North American and European markets due to worsening market conditions.

The forecast of operating income remains unchanged at ¥110.0 billion from the previous forecast. Income from continuing operation before income taxes, minority interests in earnings of subsidiaries, and equity in net income of affiliated companies is forecast to decrease ¥5.0 billion, to ¥105.0 billion, from the previous forecast. Net income is also forecast to decrease ¥5.0 billion, to ¥58.0 billion, from the previous forecast. (These forecasts are based on the assumption of an exchange rate of ¥104=US\$1.)

Edgar Filing: KUBOTA CORP - Form 6-K

(In millions of yen)

	Previous Forecasts on May 13, 2008	Revised Forecasts	Change		Prior year (Year ended March 31, 2008)

4. Other information

(1) Changes in number of material subsidiaries

None

(2) Adoption of simplified accounting procedures or specific accounting procedures for consolidated quarterly financial statements

Income tax expense for the six months ended September 30, 2008 was calculated using reasonably estimated annual effective tax rate for this fiscal year.

(3) Changes in accounting principles, procedures and presentations for consolidated financial statements

1) Changes due to the revision of accounting standards

Since April 1, 2008, the Company has adopted SFAS No. 157, Fair Value Measurements . This statement defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurement. The adoption of this statement did not have a material impact on the Company's consolidated result of operations and financial position.

2) Changes in matters other than 1) above.

None

(4) Assumptions for going concern

None

Notice on interim dividend

Please be advised that Kubota Corporation (hereinafter the Company) resolved at the Board of Directors Meeting held on November 7, 2008 that the Company would pay interim dividend.

1. Details of interim dividend

	Interim dividend of this fiscal year	Interim dividend of the prior year
Record date	September 30, 2008	September 30, 2007
Interim dividend per ADS	¥35	¥30
Amount of dividend	¥8,945 million	¥7,733 million
Date of payment	December 5, 2008	December 5, 2007
Resource of interim dividend	Retained earnings	Retained earnings

2. Reasons for raising interim dividend

The Company raised the annual dividend per ADS from ¥60 to ¥70 in the prior year. Based on the annual dividend of the prior year, the Company decided to pay a half of the prior year's annual dividend as interim dividend of this fiscal year.

(Reference)

	Interim dividend	Year-end dividend	Annual dividend (per ADS)
This fiscal year			
(Year ending March 31, 2009)	¥35	To be determined	To be determined
The prior year			
(Year ended March 31, 2008)	¥30	¥40	¥70

< Cautionary Statements with Respect to Forward-Looking Statements >

Edgar Filing: KUBOTA CORP - Form 6-K

This document may contain forward-looking statements that are based on management's expectations, estimates, projections and assumptions. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results may differ materially from what is forecast in forward-looking statements due to a variety of factors, including, without limitation: general economic conditions in the Company's markets, particularly government agricultural policies, levels of capital expenditures, both in public and private sectors, foreign currency exchange rates, continued competitive pricing pressures in the marketplace, as well as the Company's ability to continue to gain acceptance of its products.
