PRELIMINARY PROSPECTUS SUPPLEMENT

(to Prospectus dated May 12, 2010)

5,890,123 Shares

Solar Capital Ltd.

Common Stock

We are an externally managed finance company. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in leveraged companies, including middle-market companies, in the form of senior secured loans, mezzanine loans and equity securities.

We were formed in February 2007 as Solar Capital LLC, a Maryland limited liability company, and commenced operations in March 2007. On February 9, 2010, Solar Capital LLC was merged with and into Solar Capital Ltd., an externally managed, non-diversified, closed-end management investment company that has elected to be treated as a business development company under the Investment Company Act of 1940, or the 1940 Act. We are managed by Solar Capital Partners, LLC. Solar Capital Management, LLC provides the administrative services necessary for us to operate.

Edgar Filing: Solar Capital Ltd. - Form 497

This is an offering of 5,890,123 shares of our common stock by the selling stockholders named in this prospectus supplement. See **Selling Stockholders**. We will not receive any proceeds from the sale of shares of common stock by the selling stockholders, including pursuant to any exercise by the underwriters of their option to purchase additional shares.

Our common stock is listed on the NASDAQ Global Select Market under the symbol **SLRC**. On May 11, 2010, the last reported sales price on the NASDAQ Global Select Market for our common stock was \$23.50 per share.

This prospectus supplement and the accompanying prospectus contains important information about us that a prospective investor should know before investing in our common stock. Please read this prospectus supplement and the accompanying prospectus before investing and keep it for future reference. We are required to file annual, quarterly and current reports, proxy statements and other information about us with the Securities and Exchange Commission. This information is available free of charge by contacting us by mail at 500 Park Avenue, 5th Floor, New York, NY 10022, by telephone at (212) 993-1670 or on our website at <http://www.solarcapltd.com>. The Securities and Exchange Commission also maintains a website at <http://www.sec.gov> that contains such information. Information contained on our website is not incorporated by reference into this prospectus supplement and the accompanying prospectus, and you should not consider that information to be part of this prospectus supplement and the accompanying prospectus.

An investment in our common stock is very risky and highly speculative. Shares of closed-end investment companies, including business development companies, frequently trade at a discount to their net asset value. In addition, the companies in which we invest are subject to special risks. See Risk Factors beginning on page 16 of the accompanying prospectus to read about factors you should consider, including the risk of leverage, before investing in our common stock.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement and the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Per Share	Total(1)
Public Offering Price	\$	\$
Sales Load (Underwriting Discounts and Commissions)	\$	\$
Proceeds to Selling Stockholders (before expenses) (2)	\$	\$

- (1) The selling stockholders have granted the underwriters a 30-day option, which we refer to as the over-allotment option, to purchase from the selling stockholders up to an additional 883,519 shares of our common stock at the public offering price, less underwriting discounts and commissions (sales load). If the over-allotment option is exercised in full, the total public offering price will be \$ _____ and the total underwriting discounts and commissions (sales load) will be \$ _____. We will not receive any proceeds from this offering. All underwriting discounts and commissions (sales load) will be borne by the selling stockholders identified in this prospectus supplement. See **Underwriting**.
- (2) We estimate that we will incur approximately \$386,545 in offering expenses in connection with this offering. Stockholders will indirectly bear such expenses as investors in Solar Capital Ltd.

The underwriters expect to deliver the shares on or about _____, 2010.

ABOUT THIS PROSPECTUS SUPPLEMENT

You should rely only on the information contained in this prospectus supplement and the accompanying prospectus. Neither we nor the underwriters have authorized any other person to provide you with different information from that contained in this prospectus supplement or the accompanying prospectus. If anyone provides you with different or inconsistent information, you should not rely on it. This prospectus supplement and the accompanying prospectus do not constitute an offer to sell, or a solicitation of an offer to buy, any shares of our common stock by any person in any jurisdiction where it is unlawful for that person to make such an offer or solicitation or to any person in any jurisdiction to whom it is unlawful to make such an offer or solicitation. The information contained in this prospectus supplement and the accompanying prospectus is complete and accurate only as of their respective dates, regardless of the time of their delivery or sale of our common stock. This prospectus supplement supersedes the accompanying prospectus to the extent it contains information different from or additional to the information in that prospectus.

This document is in two parts. The first part is this prospectus supplement, which describes the terms of this offering of common stock and also adds to and updates information contained in the accompanying prospectus. The second part is the accompanying prospectus, which gives more general information and disclosure. To the extent the information contained in this prospectus supplement differs from the information contained in the accompanying prospectus, the information in this prospectus supplement shall control. You should read this prospectus supplement and the accompanying prospectus together with the additional information described under the heading, Available Information before investing in our common stock.

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights some of the information in this prospectus supplement and the accompanying prospectus. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under "Risk Factors" and the other information included in the accompanying prospectus and the documents to which we have referred.

We were formed in February 2007 as Solar Capital LLC, a Maryland limited liability company, and commenced operations in March 2007. On February 9, 2010, Solar Capital LLC was merged with and into Solar Capital Ltd., a Maryland corporation, which we refer to as the "Solar Capital Merger," concurrent with the pricing of our initial public offering. Except where the context suggests otherwise, the terms "we," "us," "our" and "Solar Capital" refer to Solar Capital LLC prior to the Solar Capital Merger, and Solar Capital Ltd. after the Solar Capital Merger. In addition, the terms "Solar Capital Partners" or "investment adviser" refer to Solar Capital Partners, LLC, and "Solar Capital Management" or the "administrator" refers to Solar Capital Management, LLC.

In this prospectus supplement and the accompanying prospectus, we use the term "leveraged" to refer to companies of any size with non-investment grade debt outstanding or, if not explicitly rated, those which we believe would be rated as non-investment grade based on their leverage levels and other terms. In addition, we use the term "middle-market" to refer to companies with annual revenues between \$50 million and \$1 billion.

As part of the Solar Capital Merger, approximately 26.65 million shares and \$125 million in senior unsecured notes (the "Senior Unsecured Notes") were issued to the existing unitholders of Solar Capital LLC. Michael S. Gross, our Chief Executive Officer, and Bruce Spohler, our Chief Operating Officer, collectively purchased 600,000 shares of our common stock in connection with the consummation of our initial public offering. The shares were sold to Messrs. Gross and Spohler at the same offering price paid by investors in our initial public offering pursuant to a private placement transaction exempt from registration under the Securities Act of 1933, as amended, or the Securities Act (the "Concurrent Private Placement").

Solar Capital

Solar Capital Ltd., a Maryland corporation formed in November 2007, is a closed-end, externally managed, non-diversified management investment company that has elected to be treated as a business development company ("BDC") under the 1940 Act. In addition, for tax purposes we have elected to be treated as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code").

On February 9, 2010 we priced our initial public offering, selling 5.68 million shares, including the underwriters' over-allotment, at a price of \$18.50 per share. Concurrent with our initial public offering, management purchased an additional 0.6 million shares through the Concurrent Private Placement, also at \$18.50 per share.

Immediately prior to our initial public offering, through a series of transactions Solar Capital LLC merged with and into Solar Capital Ltd., leaving Solar Capital Ltd. as the surviving entity. Solar Capital Ltd. issued an aggregate of approximately 26.65 million shares of common stock and \$125 million in Senior Unsecured Notes to the existing Solar Capital LLC unit holders in connection with the Solar Capital Merger. Solar Capital Ltd. had

S-1

Table of Contents

no assets or operations prior to completion of the Solar Capital Merger and as a result, the books and records of Solar Capital LLC have become the books and records of the surviving entity.

Solar Capital LLC, a Maryland limited liability company, was formed in February 2007 and conducted a private placement of units of membership interest (units) in March 2007, at such time a total of 81.70 million units were outstanding. Solar Capital Investors, LLC, an entity funded by the management of Solar Capital Partners, the Company's investment adviser, acquired approximately 3.33 million units in connection with the initial private placement. In addition, in connection with the initial private placement, certain funds managed by Magnetar Financial LLC (Magnetar) and certain entities affiliated therewith (collectively, the Magnetar entities), acquired approximately 35.00 million units.

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in leveraged middle market companies in the form of senior secured loans, mezzanine loans and equity securities. From time to time, we may also invest in public companies that are thinly traded. Our business model is focused primarily on the direct origination of investments through portfolio companies or their financial sponsors. Our investments generally range between \$20 million and \$100 million each, although we expect that this investment size will vary proportionately with the size of our capital base. We are managed by Solar Capital Partners. Solar Capital Management provides the administrative services necessary for us to operate. In addition, we may invest a portion of our portfolio in other types of investments, which we refer to as opportunistic investments, which are not our primary focus but are intended to enhance our overall returns. These investments may include, but are not limited to, direct investments in public companies that are not thinly traded and securities of leveraged companies located in select countries outside of the United States.

As of March 31, 2010, our long term investments totaled \$839.0 million and our net asset value was \$730.4 million. Our portfolio was comprised of debt and equity investments in 33 portfolio companies and our income producing assets, which represent 92.2% of our total portfolio, had a weighted average annualized yield on a fair value basis of approximately 13.9%. Also as of March 31, 2010, the companies in our portfolio for which we had debt investments were levered 4.9 times EBITDA (earnings before interest, taxes, depreciation, and amortization) through our investment tranche on a fair value weighted average basis. Our debt investments had a fair value weighted average price of 93.9 percent of par value.

During the three months ended March 31, 2010, we originated approximately \$44.6 million of investments in one new and one existing portfolio company. We also received principal repayments of approximately \$95.1 million and sold securities in 3 portfolio companies for approximately \$20.5 million. Since March 31, 2010, we have received proceeds of approximately \$50 million from the early repayment of debt investments in two portfolio companies.

About Solar Capital Partners

Solar Capital Partners is controlled by Michael S. Gross, our chairman and chief executive officer, and is led by Mr. Gross and Bruce Spohler, our chief operating officer, and is supported by a team of 12 dedicated investment professionals, including Brian Gerson, Cedric Henley and David Mait. We refer to Messrs. Gross, Spohler, Gerson, Henley and Mait as Solar Capital Partners' senior investment professionals. Solar Capital Partners' investment team has extensive experience in the private equity and leveraged lending industries, as well as significant contacts with financial sponsors operating in those industries. The investment team led by Messrs. Gross and Spohler has invested in 54 different portfolio companies for Solar Capital, which investments involved an aggregate of more than 46 different financial sponsors, through March 31, 2010. Since Solar Capital's inception, these investment professionals have used their relationships in the middle-market financial sponsor and financial intermediary community to originate direct investment opportunities.

Edgar Filing: Solar Capital Ltd. - Form 497

Mr. Gross, the former chairman and chief executive officer of Apollo Investment Corporation, a publicly traded business development company that he founded, has over 20 years of experience in the private equity,

S-2

Table of Contents

distressed debt and mezzanine lending businesses and has been involved in originating, structuring, negotiating, consummating and managing private equity, distressed debt and mezzanine lending transactions.

Mr. Gross is also a founder and a former senior partner of Apollo Management, L.P., a leading private equity firm. During his tenure at Apollo Management, L.P., Mr. Gross was a member of the investment committee that was responsible for overseeing more than \$13 billion of investments in over 150 companies. Between February 2004 and February 2006, Mr. Gross was the president and chief executive officer of Apollo Investment Corporation, a publicly traded business development company that he founded and on whose board of directors and investment committee he served as chairman from February 2004 to July 2006. Under his management, Apollo Investment Corporation raised approximately \$930 million in gross proceeds in an initial public offering in April 2004, built a dedicated investment team and infrastructure and invested approximately \$2.3 billion in over 65 companies in conjunction with 50 different private equity sponsors. Mr. Gross was also the managing partner of Apollo Distressed Investment Fund, L.P., an investment fund he founded in 2003 to invest principally in debt and other securities of leveraged companies.

Mr. Gross also currently serves on the boards of directors of three public companies, and in the past has served on the boards of directors of more than 20 public and private companies. As a result, Mr. Gross has developed an extensive network of private equity sponsor relationships as well as relationships with management teams of public and private companies, investment bankers, attorneys and accountants that we believe should provide us with significant business opportunities.

We also rely on the more than 20 years of experience of Mr. Spohler, who has served as our chief operating officer and a partner of Solar Capital Partners since inception. Previously, Mr. Spohler was a managing director and a former co-head of U.S. Leveraged Finance for CIBC World Markets. He held numerous senior roles at CIBC World Markets, including serving on the U.S. Management Committee, Global Executive Committee and the Deals Committee, which approves all of CIBC World Markets' U.S. corporate finance debt capital decisions. During Mr. Spohler's tenure, he was responsible for senior loan, high yield and mezzanine origination and execution, as well as CIBC World Markets' below investment grade loan portfolio in the United States. As a co-head of U.S. Leveraged Finance, Mr. Spohler oversaw over 300 capital raising and merger and acquisition transactions, comprising over \$40 billion in market capitalization.

In addition to Messrs. Gross and Spohler, Solar Capital Partners' senior investment professionals include Messrs. Gerson, Henley and Mait, each of whom has extensive experience in originating, evaluating and structuring investments in the types of middle-market companies we currently target. Solar Capital Partners' senior investment professionals have an average of over 20 years of experience in the private equity and leveraged lending industries.

Solar Capital Partners' senior investment professionals have been active participants in the primary and secondary leveraged credit markets throughout their careers. They have effectively managed portfolios of distressed and mezzanine debt as well as other investment types. The depth of their experience and credit market expertise has led them through various stages of the economic cycle as well as several market disruptions.

Market Opportunity

Solar Capital invests primarily in senior secured loans, mezzanine loans and equity securities of leveraged companies organized and located in the United States. We believe that the size of the leveraged company market, coupled with the demands of these companies for flexible sources of capital at attractive terms and rates, create an attractive investment environment for us.

Middle-market companies have faced increasing difficulty in accessing the capital markets. While many middle-market companies were formerly able to raise funds by issuing high-yield bonds, we believe this

S-3

Table of Contents

approach to financing has become more difficult in recent years as institutional investors have sought to invest in larger, more liquid offerings. In addition, many private finance companies that, until recently, financed their lending and investing activities through securitization transactions have lost that source of funding and cut back lending significantly.

There is a large pool of uninvested private equity capital likely to seek additional capital to support their private investments. We believe there is a large pool of uninvested private equity capital available to middle-market companies. While we expect the rate of investment to be slower than in prior periods, we expect that private equity firms will continue to be active investors in middle-market companies and that these private equity firms will seek to supplement their investments with senior and junior debt securities and loans and equity co-investments from other sources, such as Solar Capital.

Middle-market companies are increasingly seeking private sources for debt and equity capital. We believe that many middle-market companies prefer to execute transactions with private capital providers such as Solar Capital, rather than execute high-yield bond or equity transactions in the public markets, which may necessitate increased financial and regulatory compliance and reporting obligations. We expect that the volume of domestic public-to-private transactions, as well as the number of companies selecting a sale alternative versus raising capital in the public equity markets as a means of increasing liquidity, will remain large.

Consolidation among commercial banks has reduced the focus on middle-market business. We believe that many senior lenders have de-emphasized their service and product offerings to middle-market companies in favor of lending to large corporate clients, managing capital markets transactions and providing other non-credit services to their customers. We believe this has resulted in fewer key players and the reduced availability of debt capital to the companies we target.

Current disruptions within the credit markets generally have brought a reduction in competition and a more lender-friendly environment. Current credit market dislocation has caused many of the alternative methods of obtaining middle-market debt financing to significantly decrease in scope and availability while demand for financings has remained robust. We believe the segment's strong growth prospects, combined with the growing demand for the capital and corporate finance and advisory services we offer, creates an attractive investment environment for us.

Furthermore, we believe that given the credit market uncertainty, Solar Capital has a greater opportunity to move beyond middle-market deals into larger transactions, as banks are less willing to commit capital. We believe these larger deals can be structured with more attractive terms such as lower leverage, higher yields, better covenants, and longer duration than was typical before the current market dislocation.

Therefore, we believe that there is an opportunity to invest in senior secured loans, mezzanine loans and equity securities of leveraged companies and that we are well positioned to serve this market.

Competitive Advantages and Strategy

We believe that we have the following competitive advantages over other providers of financing to leveraged companies:

Management Expertise

Edgar Filing: Solar Capital Ltd. - Form 497

As managing partner, Mr. Gross has principal management responsibility for Solar Capital Partners, to which he currently dedicates substantially all of his time. Mr. Gross has over 20 years of experience in leveraged finance, private equity and distressed debt investing. Mr. Spohler, our chief operating officer and a partner of Solar Capital Partners, has over 20 years of experience in evaluating and executing leverage finance transactions.

S-4

Table of Contents

We believe that Messrs. Gross and Spohler have developed a strong reputation in the capital markets, and that this experience provides us with a competitive advantage in identifying and investing in leveraged companies with the potential to generate returns. We believe that our investment team has extensive experience in the private equity and leveraged lending industries, as well as significant contacts with financial sponsors operating in those industries. We believe that our investment team has a proven track record of valuing companies and assets and negotiating transactions.

In addition to Messrs. Gross and Spohler, Solar Capital Partners' senior investment professionals include Messrs. Gerson, Henley and Mait, each of whom has extensive experience in originating, evaluating and structuring investments in the types of middle-market companies we currently target. Solar Capital Partners' senior investment professionals have an average of over 20 years of experience in the private equity and leveraged lending industries.

Solar Capital Partners' senior investment professionals have been active participants in the primary and secondary leveraged credit markets throughout their careers. They have effectively managed portfolios of distressed and mezzanine debt as well as other investment types. The depth of their experience and credit market expertise has led them through various stages of the economic cycle as well as several market disruptions.

Investment Portfolio

Our portfolio investments consist of portfolio companies that have strong cash flows and have maintained financial and operating performance despite the recent economic climate. As of March 31, 2010, 100% of our total portfolio value was comprised of performing assets. The majority of our assets have been seasoned, which has allowed us to gain a solid understanding of our borrowers and the industries in which they compete. Additionally, over time, we have established productive relationships with our portfolio companies.

Investment Capacity

The proceeds from our initial public offering and the Concurrent Private Placement, the borrowing capacity under our credit facility and the expected repayments of existing investments provide us with a substantial amount of capital available for deployment into new investment opportunities. We believe we are well positioned for the current marketplace. We believe that in the current economic environment financing needs of many companies will increase while funding options are limited, allowing us to capitalize on favorable investment opportunities.

Solar Capital's Limited Leverage

As of March 31, 2010, our outstanding debt was approximately 13.5% of total assets, making us one of the least levered publicly traded business development companies. We believe our relatively low level of leverage provides us with a competitive advantage, allowing us to anticipate providing a consistent dividend to our investors as proceeds from our investments are available for reinvestment as opposed to being consumed by debt repayment. To the extent borrowing conditions improve and leverage becomes available on more attractive terms, we may increase our relative level of debt in the future. However, we do not currently anticipate operating with a substantial amount of debt relative to our total assets. Furthermore, by maintaining prudent leverage levels, we believe we will be better positioned to weather future market downturns.

Proprietary Sourcing and Origination

We believe that Solar Capital Partners' senior investment professionals' longstanding relationships with financial sponsors, commercial and investment banks, management teams and other financial intermediaries provide us with a strong pipeline of proprietary origination opportunities. We believe the broad expertise of Solar

S-5

Table of Contents

Capital Partners' senior investment professionals and their ability to draw upon their average of 20 years of investment experience enable us to identify, assess and structure investments successfully. We expect to continue leveraging the relationships Mr. Gross established while sourcing and originating investments at Apollo Investment Corporation as well as the financial sponsor relationships Mr. Spohler developed while he was a co-head of CIBC World Markets' U.S. Leveraged Finance Group.

Our investment team's strong relationship network is enhanced by the collaborative role Solar Capital plays in the private equity industry. We offer tailored solutions to our portfolio companies, and we believe that this role provides us with greater deal flow as opposed to being viewed as a competitor bidding for control stakes. Because Solar Capital is not associated with a private equity firm, we are not precluded from partnering with most of the top tier financial sponsors.

These direct investments enable us to perform more in-depth due diligence and play an active role in structuring financings. We believe that effectuating the transaction terms and having greater insight into a portfolio company's operations and financial picture assist Solar Capital in minimizing downside potential, while reinforcing Solar Capital as a trusted partner who delivers comprehensive financing solutions. Since our inception, Solar Capital Partners has sourced investments in 54 different portfolio companies for Solar Capital, which investments involved an aggregate of more than 46 different financial sponsors, through March 31, 2010.

Versatile Transaction Structuring and Flexibility of Capital

We believe our senior investment professionals' broad expertise and ability to draw upon their extensive experience enable us to identify, assess and structure investments successfully across all levels of a company's capital structure and to manage potential risk and return at all stages of the economic cycle. While we will be subject to significant regulation as a business development company, we will not be subject to many of the regulatory limitations that govern traditional lending institutions such as banks. As a result, we believe that we can be more flexible than such lending institutions in selecting and structuring investments, adjusting investment criteria, transaction structures and, in some cases, the types of securities in which we invest. We believe financial sponsors, management teams and investment banks see this flexibility as a benefit, making us an attractive financing partner. We believe that this approach enables us to procure attractive investment opportunities throughout the economic cycle so that we can make investments consistent with our stated investment objective even during turbulent periods in the capital markets.

Emphasis on Achieving Strong Risk-Adjusted Returns

Solar Capital Partners uses a disciplined investment and risk management process that emphasizes a rigorous fundamental research and analysis framework. Solar Capital Partners seeks to build our portfolio on a bottom-up basis, choosing and sizing individual positions based on their relative risk/reward profiles as a function of the associated downside risk, volatility, correlation with the existing portfolio and liquidity. At the same time, Solar Capital Partners takes into consideration a variety of factors in managing our portfolio and imposes portfolio-based risk constraints promoting a more diverse portfolio of investments and limiting issuer and industry concentration. Our value-oriented investment philosophy focuses on preserving capital and ensuring that our investments have an appropriate return profile in relation to risk. When market conditions make it difficult for us to invest according to our criteria, we are highly selective in deploying our capital. We do not pursue short-term origination targets. We believe this approach enables us to build an attractive investment portfolio that meets our return and value criteria over the long term.

We believe it is critical to conduct extensive due diligence on investment targets. In evaluating new investments we, through Solar Capital Partners, conduct a rigorous due diligence process that draws upon investment experience, industry expertise and network of contacts of our senior investment professionals, as well

Table of Contents

as the other members of our investment team. Among other things, our due diligence is designed to ensure that a prospective portfolio company will be able to meet its debt service obligations.

We have the ability to invest across an issuer's capital structure, which we believe enables us to provide comprehensive financing solutions for our portfolio companies, as well as access the best risk-adjusted opportunities. The overall transaction size and product mix is based upon the needs of the customer, as well as our risk-return hurdles. We also focus on downside protection and preservation of capital throughout the structuring process.

Deep Industry Focus with Substantial Information Flow

We concentrate our investing activities in industries characterized by strong cash flow and in which Solar Capital Partners' investment professionals have deep investment experience. During his time with the Apollo entities, Mr. Gross oversaw investments in over 200 companies in 20 industries. As a result of their investment experience, Messrs. Gross and Spohler, together with Solar Capital Partners' other investment professionals, have long-term relationships with management consultants and management teams in the industries we target, as well as substantial information concerning those industries. Solar Capital Partners' investment team also has significant experience in evaluating and making investments in the industries we target. We believe that the in-depth experience of Solar Capital Partners' investment team in investing throughout various stages of the economic cycle provides our investment adviser with access to ongoing market insights in addition to a powerful asset for investment sourcing. See *Business Investments* in the accompanying prospectus.

Longer Investment Horizon

Unlike private equity and venture capital funds, we will not be subject to standard periodic capital return requirements. Such requirements typically stipulate that the capital of these funds, together with any capital gains on such invested funds, can only be invested once and must be returned to investors after a pre-agreed time period. We believe that our flexibility to make investments with a long-term view and without the capital return requirements of traditional private investment vehicles provides us with the opportunity to generate favorable returns on invested capital and enables us to be a better long-term partner for our portfolio companies.

Risk Factors

The value of our assets, as well as the market price of our shares, will fluctuate. Our investments may be risky, and you may lose all or part of your investment in us. Investing in Solar Capital involves other risks, including the following:

We have a limited operating history of only three years;

We are dependent upon Solar Capital Partners' key personnel for our future success;

We operate in a highly competitive market for investment opportunities;

Edgar Filing: Solar Capital Ltd. - Form 497

The lack of liquidity in our investments may adversely affect our business;

We may borrow money, which would magnify the potential for gain or loss on amounts invested and may increase the risk of investing in us;

To the extent we use debt to finance our investments, changes in interest rates will affect our cost of capital and net investment income;

There will be uncertainty as to the value of our portfolio investments;

We may experience fluctuations in our quarterly results;

S-7

Table of Contents

We will become subject to corporate-level income tax on all of our income if we are unable to qualify as a regulated investment company, or RIC, under Subchapter M of the Internal Revenue Code of 1986, as amended, which we refer to as the Code, which would have a material adverse effect on our financial performance;

We cannot assure you that the market price of shares of our common stock will not remain below our net asset value per share;

Our common stock price may be volatile and may decrease substantially;

There is a risk that our stockholders may not receive distributions or that our distributions may not grow over time;

Sales of substantial amounts of our common stock in the public market may have an adverse effect on the market price of our common stock; and

Regulations governing our operation as a business development company affect our ability to, and the way in which we, raise additional capital. As a business development company, the necessity of raising additional capital may expose us to risks, including the typical risks associated with leverage.

See **Risk Factors** beginning on page 16 of the accompanying prospectus and the other information included in the accompanying prospectus, for additional discussion of factors you should carefully consider before deciding to invest in shares of our common stock.

Operating and Regulatory Structure

Immediately prior to the pricing of our initial public offering, Solar Capital LLC was merged with and into Solar Capital Ltd., a Maryland corporation that is an externally managed, non-diversified closed-end management investment company which has elected to be treated as a business development company under the 1940 Act. As a business development company, we are required to meet regulatory tests, including the requirement to invest at least 70% of our total assets in qualifying assets. Qualifying assets generally include, among other things, securities of eligible portfolio companies. Eligible portfolio companies generally include U.S. companies that are not investment companies and that do not have securities listed on a national exchange. See **Regulation as a Business Development Company** in the accompanying prospectus. We may also borrow funds to make investments. In addition, we intend to elect to be treated for federal income tax purposes, and intend to qualify annually thereafter, as a RIC under Subchapter M of the Code. See **Material U.S. Federal Income Tax Considerations** in the accompanying prospectus.

Our investment activities are managed by Solar Capital Partners and supervised by our board of directors. Solar Capital Partners is an investment adviser that is registered under the Investment Advisers Act of 1940, as amended, or the Advisers Act. Under our investment advisory and management agreement, which we refer to as the Investment Advisory and Management Agreement, we have agreed to pay Solar Capital Partners an annual base management fee based on our gross assets as well as an incentive fee based on our performance. See **Investment Advisory and Management Agreement** in the accompanying prospectus. We have also entered into an administration agreement, which we refer to as the Administration Agreement, under which we have agreed to reimburse Solar Capital Management for the allocable portion of overhead and other expenses incurred by Solar Capital Management in performing its obligations under the Administration Agreement, including furnishing us with office facilities, equipment and clerical, bookkeeping and record keeping services at such facilities, as well as providing us with other administrative services. See **Administration Agreement** in the accompanying prospectus.

Table of Contents

THE OFFERING

Common Stock Offered by the Selling Shareholders	5,890,123 shares plus 883,519 shares issuable pursuant to the over-allotment granted to the underwriters.
Common Stock Currently Outstanding	Approximately 33,030,641 shares.
Use of Proceeds	We will not receive any proceeds from the sale of the shares of common stock covered by this prospectus supplement.
Distributions	To the extent that we have income available, we intend to distribute quarterly dividends to our stockholders. The amount of our dividends, if any, will be determined by our board of directors. Any dividends to our stockholders will be declared out of assets legally available for distribution. Our first quarterly dividend of \$0.34 per share was paid on April 1, 2010 to holders of record as of March 18, 2010. On May 4, 2010, the Board of Directors declared a dividend of \$0.60 per share payable on July 2, 2010 to stockholders of record on June 17, 2010. Shares offered in this prospectus supplement will be entitled to receive this dividend payment. We anticipate that the dividend will be paid from post-offering taxable earnings, including interest and capital gains generated by our investment portfolio. However, if we do not generate sufficient taxable earnings during the year, the dividend may constitute a return of capital. The specific tax characteristics of our dividends will be reported to shareholders after the end of each calendar year.
Taxation	We intend to elect to be treated for federal income tax purposes, and intend to qualify annually thereafter, as a RIC under Subchapter M of the Code. As a RIC, we generally will not have to pay corporate-level federal income taxes on any ordinary income or capital gains that we distribute to our stockholders as dividends. To obtain and maintain our RIC tax treatment, we must meet specified source-of-income and asset diversification requirements and distribute annually at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any. See <i>Distributions</i> and <i>Material U.S. Federal Income Tax Considerations</i> in the accompanying prospectus.
Investment Advisory Fees	We pay Solar Capital Partners a fee for its services under the Investment Advisory and Management Agreement consisting of two components – a base management fee and an incentive fee. The base management fee is calculated at an annual rate of 2.00% of our gross assets, which includes any borrowings for investment purposes. The incentive fee consists of two parts. The first part is calculated and payable quarterly in arrears and equals 20% of our pre-incentive fee net investment income for the immediately preceding quarter, subject to a preferred return, or hurdle, and a catch up feature.

Table of Contents

The second part is determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Advisory and Management Agreement) in an amount equal to 20% of our realized capital gains, if any, on a cumulative basis from inception through the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees. See [Investment Advisory and Management Agreement](#) in the accompanying prospectus.

Administration Agreement

We reimburse Solar Capital Management for the allocable portion of overhead and other expenses incurred by Solar Capital Management in performing its obligations under the Administration Agreement, including furnishing us with office facilities, equipment and clerical, bookkeeping and record keeping services at such facilities, as well as providing us with other administrative services. In addition, we reimburse Solar Capital Management for the fees and expenses associated with performing compliance functions, and our allocable portion of the compensation of our chief financial officer and any administrative support staff. See [Administration Agreement](#) in the accompanying prospectus.

Trading

Shares of closed-end investment companies frequently trade at a discount to their net asset value. The risk that our shares may trade at a discount to our net asset value is separate and distinct from the risk that our net asset value per share may decline. We cannot predict whether our shares will trade above, at or below net asset value.

License Agreement

We have entered into a license agreement with Solar Capital Partners, pursuant to which Solar Capital Partners has agreed to grant us a non-exclusive license to use the name Solar Capital. See [License Agreement](#) in the accompanying prospectus.

Dividend Reinvestment Plan

We have adopted an [opt out](#) dividend reinvestment plan. If your shares of common stock are registered in your own name, your distributions will automatically be reinvested under our dividend reinvestment plan in additional whole and fractional shares of common stock, unless you [opt out](#) of our dividend reinvestment plan so as to receive cash dividends by delivering a written notice to our plan administrator. If your shares are held in the name of a broker or other nominee, you should contact the broker or nominee for details regarding opting out of our dividend reinvestment plan. Stockholders who receive distributions in the form of stock will be subject to the same federal, state and local tax consequences as stockholders who elect to receive their distributions in cash. See [Dividend Reinvestment Plan](#) in the accompanying prospectus.

Certain Anti-Takeover Measures

Our charter and bylaws, as well as certain statutory and regulatory requirements, contain certain provisions that may have the effect of discouraging a third party from making an acquisition proposal for us.

Table of Contents

These anti-takeover provisions may inhibit a change in control in circumstances that could give the holders of our common stock the opportunity to realize a premium over the market price for our common stock. See "Description of Securities" in the accompanying prospectus.

Available Information

We are required to file periodic reports, current reports, proxy statements and other information with the SEC. This information is available at the SEC's public reference room at 100 F Street, NE, Washington, D.C. 20549 and on the SEC's website at <http://www.sec.gov>. The public may obtain information on the operation of the SEC's public reference room by calling the SEC at (202) 551-8090. This information is also available free of charge by contacting us at Solar Capital Ltd., 500 Park Avenue, 5th Floor, New York, NY 10022, by telephone at (212) 993-1670 or on our website at <http://www.solarcapltd.com>.

Table of Contents**FEES AND EXPENSES**

The following table is intended to assist you in understanding the costs and expenses that you will bear directly or indirectly. We caution you that some of the percentages indicated in the table below are estimates and may vary. Except where the context suggests otherwise, whenever this prospectus supplement and the accompanying prospectus contains a reference to fees or expenses paid by us or Solar Capital, or that we will pay fees or expenses, you will indirectly bear such fees or expenses as an investor in Solar Capital Ltd.

Stockholder transaction expenses:

Sales load borne by us (as a percentage of offering price)	None (1)
Offering expenses borne by us (as a percentage of offering price)	0.28%(2)
Dividend reinvestment plan expenses	None (3)

Total stockholder transaction expenses (as a percentage of offering price)	0.28%(2)
--	----------

Annual expenses (as a percentage of net assets attributable to common stock):

Base management fee	2.39%(4)
Incentive fees payable under our Investment Advisory and Management Agreement	2.89%(5)
Interest payments on borrowed funds	2.07%(6)
Other expenses (estimated)	0.88%(7)

Total annual expenses (estimated)	8.23%
-----------------------------------	-------

Example

The following example demonstrates the projected dollar amount of total cumulative expenses that would be incurred over various periods with respect to a hypothetical investment in our common stock. In calculating the following expense amounts, we have assumed that our annual operating expenses would remain at the levels set forth in the table above and have excluded performance-based incentive fees. See Note 6 below for additional information regarding certain assumptions regarding our level of leverage.

	1 Year	3 Years	5 Years	10 Years
You would pay the following expenses on a \$1,000 investment, assuming a 5% annual return	\$ 56	\$ 162	\$ 267	\$ 527

- (1) All underwriting discounts and commissions (sales load) will be borne by the selling stockholders.
- (2) The offering expenses of this offering are estimated to be approximately \$386,545. The offering expenses as a percentage of the offering price of shares to be sold in this offering is based on the last reported sales price of our common stock on the NASDAQ Global Select Market on May 11, 2010.
- (3) The expenses of the dividend reinvestment plan are included in other expenses.
- (4) Our base management fee under the Investment Advisory and Management Agreement is based on our gross assets, which is defined as all the assets of Solar Capital, including those acquired using borrowings for investment purposes, and assumes the base management fee remains consistent with the annualized fee incurred for the three months ended March 31, 2010. See Investment Advisory and Management Agreement in the accompanying prospectus.
- (5) Assumes that annual incentive fees earned by our investment adviser, Solar Capital Partners, remain consistent with the annualized incentive fees earned by Solar Capital Partners for the three months ended March 31, 2010. The incentive fee consists of two parts:

Edgar Filing: Solar Capital Ltd. - Form 497

The first part, which is payable quarterly in arrears, equals 20% of the excess, if any, of our Pre-Incentive Fee Net Investment Income that exceeds a 1.75% quarterly (7.00% annualized) hurdle rate, which we refer to as the Hurdle, subject to a catch-up provision measured at the end of each calendar quarter. The first part of the incentive fee is computed and paid on income that may include interest that is accrued but not yet received in cash. The operation of the first part of the incentive fee for each quarter is as follows:

no incentive fee is payable to our investment adviser in any calendar quarter in which our Pre-Incentive Fee Net Investment Income does not exceed the Hurdle of 1.75%;

S-12

Table of Contents

100% of our Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the Hurdle but is less than 2.1875% in any calendar quarter (8.75% annualized) is payable to our investment adviser. We refer to this portion of our Pre-Incentive Fee Net Investment Income (which exceeds the Hurdle but is less than 2.1875%) as the catch-up. The catch-up is meant to provide our investment adviser with 20% of our Pre-Incentive Fee Net Investment Income, as if a Hurdle did not apply when our Pre-Incentive Fee Net Investment Income exceeds 2.1875% in any calendar quarter; and 20% of the amount of our Pre-Incentive Fee Net Investment Income, if any, that exceeds 2.1875% in any calendar quarter (8.75% annualized) is payable to our investment adviser (once the Hurdle is reached and the catch-up is achieved, 20% of all Pre-Incentive Fee Investment Income thereafter is allocated to our investment adviser).

The second part of the incentive fee equals 20% of our Incentive Fee Capital Gains, if any, which equals our realized capital gains on a cumulative basis from inception through the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees. The second part of the incentive fee is payable, in arrears, at the end of each calendar year (or upon termination of the Investment Advisory and Management Agreement, as of the termination date). For a more detailed discussion of the calculation of this fee, see Investment Advisory and Management Agreement in the accompanying prospectus.

- (6) We may borrow funds from time to time to make investments to the extent we determine that the economic situation is conducive to doing so. The costs associated with our outstanding borrowings are indirectly born by our investors. For purposes of this section, we have computed interest expense using the average balance outstanding during the year ended, and the LIBOR rate on, March 31, 2010 and the interest rate on our amended and restated Senior Secured Revolving Credit Facility of LIBOR plus 3.25%. We have also included the estimated amortization of fees incurred in establishing our amended and restated Senior Secured Revolving Credit Facility. We also have approximately \$125 million of the Senior Unsecured Notes outstanding. For purposes of this section we have included estimated annual interest expense as well as the amortization of any deferred costs associated with the Senior Unsecured Notes. As of March 31, 2010, we had no borrowings outstanding and \$270 million remaining available to us under our revolving credit facility. We may also issue preferred stock, subject to our compliance with applicable requirements under the 1940 Act.
- (7) Other expenses are based on the annualized amounts for the three months ended March 31, 2010 and include our overhead expenses, including payments under our Administration Agreement based on our allocable portion of overhead and other expenses incurred by Solar Capital Management in performing its obligations under the Administration Agreement. See Administration Agreement in the accompanying prospectus.

The example and the expenses in the tables above should not be considered a representation of our future expenses, and actual expenses may be greater or less than those shown. While the example assumes, as required by the SEC, a 5% annual return, our performance will vary and may result in a return greater or less than 5%. The incentive fee under the Investment Management Agreement, which, assuming a 5% annual return, would either not be payable or would have an insignificant impact on the expense amounts shown above, is not included in the example. This illustration assumes that we will not realize any capital gains (computed net of all realized capital losses and unrealized capital depreciation) in any of the indicated time periods. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an incentive fee of a material amount, our expenses and returns to our investors would be higher. In addition, the example assumes no sales load and estimated offering expenses of \$386,545. Also, while the example assumes reinvestment of all dividends at net asset value, participants in our dividend reinvestment plan will receive a number of shares of our common stock, determined by dividing the total dollar amount of the dividend payable to a participant by the market price per share of our common stock at the close of trading on the dividend payment date, which may be at, above or below net asset value. See Dividend Reinvestment Plan in the accompanying prospectus for additional information regarding our dividend reinvestment plan.

FORWARD-LOOKING STATEMENTS AND PROJECTIONS

This prospectus supplement contains forward-looking statements that involve substantial risks and uncertainties. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about Solar Capital, our current and prospective portfolio investments, our industry, our beliefs, and our assumptions. Words such as anticipates, expects, intends, plans, believes, seeks, estimates, would, should, targets, projects, and variations of these words and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties, and other factors, some of which are beyond our control and difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements, including without limitation:

an economic downturn could impair our portfolio companies' ability to continue to operate, which could lead to the loss of some or all of our investments in such portfolio companies;

a contraction of available credit and/or an inability to access the equity markets could impair our lending and investment activities;

interest rate volatility could adversely affect our results, particularly if we elect to use leverage as part of our investment strategy;

currency fluctuations could adversely affect the results of our investments in foreign companies, particularly to the extent that we receive payments denominated in foreign currency rather than U.S. dollars; and

the risks, uncertainties and other factors we identify in Risk Factors and elsewhere in this prospectus supplement and in our filings with the SEC.

Although we believe that the assumptions on which these forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions also could be inaccurate. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this prospectus supplement should not be regarded as a representation by us that our plans and objectives will be achieved. These risks and uncertainties include those described or identified in Risk Factors and elsewhere in this prospectus supplement. You should not place undue reliance on these forward-looking statements, which apply only as of the date of this prospectus supplement. The forward-looking statements and projections contained in this prospectus supplement are excluded from the safe harbor protection provided by Section 27A of the Securities Act of 1933, as amended, or the Securities Act.

Table of Contents

USE OF PROCEEDS

We will not receive any proceeds from the sale of the shares of common stock covered by this prospectus supplement.

S-15

Table of Contents**SELLING STOCKHOLDERS**

The following table sets forth:

The name of each selling stockholder;

The number of shares of common stock and the percentage of the total shares of common stock outstanding that each selling stockholder beneficially owned as of May 11, 2010;

The number of shares of common stock beneficially owned by each selling stockholder that are being offered under this prospectus supplement; and

The number of shares of common stock and the percentage of total shares of common stock outstanding to be beneficially owned by each selling stockholder following the offering contemplated by this prospectus supplement.

The information regarding the identity of the selling stockholders and their affiliations, including their beneficial ownership of shares of our common stock, is based solely on information provided by or on behalf of the selling stockholders.

S-17

Table of Contents**UNDERWRITING**

Citigroup Global Markets Inc., J.P. Morgan Securities Inc., Morgan Stanley & Co. Incorporated, Deutsche Bank Securities Inc., and SunTrust Robinson Humphrey, Inc. are acting as joint bookrunning managers of the offering and as representatives of the underwriters named below. Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus supplement, each underwriter named below has agreed to purchase, and the selling stockholders have agreed to sell to that underwriter, the number of shares set forth opposite the underwriter's name.

Underwriter	Number of Shares
Citigroup Global Markets Inc.	
J.P. Morgan Securities Inc.	
Morgan Stanley & Co. Incorporated	
Deutsche Bank Securities Inc.	
SunTrust Robinson Humphrey, Inc.	
BMO Capital Markets Corp.	
BB&T Capital Markets, a division of Scott & Stringfellow, LLC	
RBC Capital Markets Corporation	
Ladenburg Thalmann & Co. Inc.	
 Total	

The underwriting agreement provides that the obligations of the underwriters to purchase the shares included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the shares (other than those covered by the over-allotment option described below) if they purchase any of the shares.

The underwriters propose to offer some of the shares directly to the public at the public offering price set forth on the cover page of this prospectus supplement and some of the shares to dealers at the public offering price less a concession not to exceed \$ _____ per share. If all of the shares are not sold at the initial offering price, the representatives may change the public offering price and the other selling terms. The representatives have advised us that the underwriters do not intend to confirm sales to discretionary accounts.

The selling stockholders have granted to the underwriters an option, exercisable for 30 days from the date of this prospectus supplement, to purchase from the selling stockholders up to 883,519 additional shares of common stock at the public offering price less the underwriting discount. The underwriters may exercise the option solely for the purpose of covering over-allotments, if any, in connection with this offering. To the extent the option is exercised, each underwriter must purchase a number of additional shares approximately proportionate to that underwriter's initial purchase commitment.

In connection with this offering, the Magnetar entities have agreed that, until February 10, 2011, they will not, without our prior written consent, dispose of or hedge an aggregate of 3,931,875 shares of our common stock or securities convertible or exchangeable for shares of our common stock. We may in our sole discretion release the Magnetar entities from this lock-up agreement at any time without notice. Each of the selling stockholders named in this prospectus supplement (including the Magnetar entities) have also agreed that for a period of 90 days from the date of this offering, they will not, without the prior written consent of Citigroup Global Markets Inc. and J.P. Morgan Securities Inc., dispose of or hedge any shares of our common stock or securities convertible or exchangeable for shares of our common stock. We and each of our officers and directors, including Messrs. Gross and Spohler, have agreed to similar lock-up restrictions for a period of 90 days from the date of this

Edgar Filing: Solar Capital Ltd. - Form 497

offering. Such lock-up restrictions do not supplement, replace, or otherwise amend any lock-up agreements previously entered into by us, by the selling stockholders (other than the Magnetar entities) or by our officers and directors with Citigroup Global Markets Inc. or J.P. Morgan Securities Inc. Citigroup Global Markets Inc. and J.P. Morgan Securities Inc., in their sole discretion, may release any of the securities subject to a lock-up agreement to which they are a party at any time without notice.

S-18

Table of Contents

Our common stock is listed on the NASDAQ Global Select Market under the symbol SLRC .

The following table shows the underwriting discounts and commissions that the selling stockholders are to pay to the underwriters in connection with this offering. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase from the selling stockholders additional shares of common stock. This offering will conform with the requirements set forth in Financial Industry Regulatory Authority Rule 2310. In compliance with such requirements, the underwriting discounts and commissions in connection with the sale of securities will not exceed 8% of gross proceeds of this offering.

	Paid by the Selling Stockholders	
	No Exercise	Full Exercise
Per share	\$	\$
Total	\$	\$

In connection with the offering, one or more of the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, syndicate covering transactions and stabilizing transactions. Short sales involve syndicate sales of common stock in excess of the number of shares to be purchased by the underwriters in the offering, which creates a syndicate short position. Covered short sales are sales of shares made in an amount up to the number of shares represented by the underwriters' over-allotment option. In determining the source of shares to close out the covered syndicate short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. Transactions to close out the covered syndicate short involve either purchases of the common stock in the open market after the distribution has been completed or the exercise of the over-allotment option. The underwriters may also make naked short sales of shares in excess of the over-allotment option. The underwriters must close out any naked short position by purchasing shares of common stock in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of bids for or purchases of shares in the open market while the offering is in progress.

The underwriters may also impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when Citigroup Global Markets Inc. or J.P. Morgan Securities Inc. repurchases shares originally sold by that syndicate member in order to cover syndicate short positions or make stabilizing purchases.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the common stock. They may also cause the price of the common stock to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriters may conduct these transactions on the NASDAQ Global Select Market or in the over-the-counter market, or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our portion of the total expenses of this offering will be \$386,545.

The underwriters have performed investment banking and advisory services for us and our affiliates from time to time for which they have received customary fees and expenses. The underwriters may, from time to time, engage in transactions with and perform services for us and our affiliates in the ordinary course of their business. Each of the underwriters (other than Deutsche Bank Securities Inc. and Ladenburg Thalmann & Co. Inc.) acted as underwriters in our initial public offering.

Edgar Filing: Solar Capital Ltd. - Form 497

Citibank, N.A., an affiliate of Citigroup Global Markets Inc., is a lender and administrative agent under our Credit Facility. In addition, Citigroup Global Markets Inc. acted as the sole lead bookrunner and the sole lead arranger for the amendment of our Credit Facility in February 2010. Citigroup Global Markets Inc. and J. P.

AVAILABLE INFORMATION

We have filed with the SEC a registration statement on Form N-2, together with all amendments and related exhibits, under the Securities Act, with respect to our shares of common stock offered by this prospectus supplement. The registration statement contains additional information about us and our shares of common stock being offered by this prospectus supplement.

We are required to file with or submit to the SEC annual, quarterly and current periodic reports, proxy statements and other information meeting the informational requirements of the Exchange Act. You may inspect and copy these reports, proxy statements and other information, as well as the registration statement and related exhibits and schedules, at the Public Reference Room of the SEC at 100 F Street, NE, Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an Internet site that contains reports, proxy and information statements and other information filed electronically by us with the SEC which are available on the SEC's website at <http://www.sec.gov>. Copies of these reports, proxy and information statements and other information may be obtained, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing to the SEC's Public Reference Section, Washington, D.C. 20549. This information will also be available free of charge by contacting us at Solar Capital Ltd., 500 Park Avenue, 5th Floor, New York, NY 10022, by telephone at (212) 993-1670, or on our website at <http://www.solarcapltd.com>.

Solar Capital Ltd.

Common Stock

We are an externally managed finance company. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in leveraged companies, including middle-market companies, in the form of senior secured loans, mezzanine loans and equity securities.

We were formed in February 2007 as Solar Capital LLC, a Maryland limited liability company, and commenced operations in March 2007. On February 9, 2010, Solar Capital LLC was merged with and into Solar Capital Ltd., an externally managed, non-diversified, closed-end management investment company that has elected to be treated as a business development company under the Investment Company Act of 1940, or the 1940 Act. We are managed by Solar Capital Partners, LLC. Solar Capital Management, LLC provides the administrative services necessary for us to operate.

The selling stockholders named in this prospectus are subject to lock-up agreements. This registration statement has been filed to register the resale of the approximately 26.65 million shares of common stock issued to Solar Capital LLC unit holders prior to our initial public offering, the 0.60 million shares purchased by management in a private offering concurrent with our initial public offering, and shares distributed pursuant to our dividend reinvestment plan in relation to the aforementioned shares. We have committed to use our commercially reasonable efforts to obtain effectiveness of this registration statement within 120 days from the date of our initial public offering. Assuming effectiveness of this registration statement, approximately 17.5 million shares, 4.9 million shares, and 4.9 million shares of common stock will generally be free of resale restrictions upon the expiration of lock-up periods of 120 days, 180 days and 365 days from the date of our initial public offering, respectively.

Upon the expiration of these lock-up periods, the selling stockholders named in this prospectus may offer, from time to time, up to 27,327,475 shares of our common stock. The selling stockholders may sell the shares held for their own account or the shares may be sold by donees, transferees, pledgees or other successors in interest that receive such shares from the selling stockholders as a gift or other non-sale related transfer. The shares of common stock may be offered at prices and on terms to be described in one or more supplements to this prospectus.

Our common stock is listed on the NASDAQ Global Select Market under the symbol SLRC. On May 7, 2010, the last reported sales price on the NASDAQ Global Select Market for our common stock was \$21.74 per share.

This prospectus contains important information about us that a prospective investor should know before investing in our common stock. Please read this prospectus before investing and keep it for future reference. We are required to file annual, quarterly and current reports, proxy statements and other information about us with the Securities and Exchange Commission. This information is available free of charge by contacting us by mail at 500 Park Avenue, 5th Floor, New York, NY 10022, by telephone at (212) 993-1670 or on our website at <http://www.solarcapltd.com>. The Securities and Exchange Commission also maintains a website at <http://www.sec.gov> that contains such information. Information contained on our website is not incorporated by reference into this prospectus, and you should not consider that information to be part of this prospectus.

An investment in our common stock is very risky and highly speculative. Shares of closed-end investment companies, including business development companies, frequently trade at a discount to their net asset value. In addition, the companies in which we invest are subject to special risks. See Risk Factors beginning on page 16 to read about factors you should consider, including the risk of leverage, before investing in our common stock.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

This prospectus may not be used to consummate sales of shares of common stock unless accompanied by a prospectus supplement.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we have filed with the Securities and Exchange Commission, or SEC, using the shelf registration process. Under the shelf registration process, which constitutes a delayed offering in reliance on Rule 415 under the Securities Act of 1933, as amended, or the Securities Act, the selling stockholders named herein may offer, from time to time, up to an aggregate of 27,327,475 shares of our common stock on the terms to be determined at the time of the offering. Shares of our common stock may be offered by the selling stockholders at prices and on terms described in one or more supplements to this prospectus. This prospectus provides you with a general description of the shares of our common stock that the selling stockholders may offer. Each time a selling stockholder uses this prospectus to offer shares of our common stock, we will provide a prospectus supplement that will contain specific information about the terms of that offering. A prospectus supplement may also add, update or change information contained in this prospectus. Please carefully read this prospectus and any such supplements together with the additional information described under Available Information and in the Summary and Risk Factors sections before you make an investment decision. A prospectus supplement may also add to, update or change information contained in this prospectus.

Table of Contents

SUMMARY

This summary highlights some of the information in this prospectus. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under Risk Factors and the other information included in this prospectus and the documents to which we have referred.

We were formed in February 2007 as Solar Capital LLC, a Maryland limited liability company, and commenced operations in March 2007. On February 9, 2010, Solar Capital LLC was merged with and into Solar Capital Ltd., a Maryland corporation, which we refer to as the Solar Capital Merger, concurrent with the pricing of our initial public offering. Except where the context suggests otherwise, the terms we, us, our and Solar Capital refer to Solar Capital LLC prior to the Solar Capital Merger, and Solar Capital Ltd. after the Solar Capital Merger. In addition, the terms Solar Capital Partners or investment adviser refer to Solar Capital Partners, LLC, and Solar Capital Management or the administrator refers to Solar Capital Management, LLC.

In this prospectus, we use the term leveraged to refer to companies of any size with non-investment grade debt outstanding or, if not explicitly rated, those which we believe would be rated as non-investment grade based on their leverage levels and other terms. In addition, we use the term middle-market to refer to companies with annual revenues between \$50 million and \$1 billion.

As part of the Solar Capital Merger, approximately 26.65 million shares and \$125 million in senior unsecured notes (the Senior Unsecured Notes) were issued to the existing unitholders of Solar Capital LLC. Michael S. Gross, our Chief Executive Officer, and Bruce Spohler, our Chief Operating Officer, collectively purchased 600,000 shares of our common stock in connection with the consummation of our initial public offering. The shares were sold to Messrs. Gross and Spohler at the same offering price paid by investors in our initial public offering pursuant to a private placement transaction exempt from registration under the Securities Act of 1933, as amended, or the Securities Act (the

Concurrent Private Placement). The shares being offered in this prospectus are the approximately 26.65 million shares issued in the Solar Capital Merger and the 600,000 shares issued in the Concurrent Private Placement, together with 80,163 shares issued thereon under our dividend reinvestment plan.

Solar Capital

Solar Capital Ltd., a Maryland corporation formed in November 2007, is a closed-end, externally managed, non-diversified management investment company that has elected to be treated as a business development company (BDC) under the 1940 Act. In addition, for tax purposes we have elected to be treated as a regulated investment company (RIC) under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code).

On February 9, 2010 we priced our initial public offering, selling 5.68 million shares, including the underwriters over-allotment, at a price of \$18.50 per share. Concurrent with our initial public offering, management purchased an additional 0.6 million shares through the Concurrent Private Placement, also at \$18.50 per share.

Immediately prior to our initial public offering, through a series of transactions Solar Capital LLC merged with and into Solar Capital Ltd., leaving Solar Capital Ltd. as the surviving entity. Solar Capital Ltd. issued an aggregate of approximately 26.65 million shares of common stock and \$125 million in Senior Unsecured Notes to the existing Solar Capital LLC unit holders in connection with the Solar Capital Merger. Solar

Capital Ltd. had

1

Table of Contents

no assets or operations prior to completion of the Solar Capital Merger and as a result, the books and records of Solar Capital LLC have become the books and records of the surviving entity.

Solar Capital LLC, a Maryland limited liability company, was formed in February 2007 and conducted a private placement of units of membership interest (units) in March 2007, at such time a total of 81.70 million units were outstanding. Solar Capital Investors, LLC, an entity funded by the management of Solar Capital Partners, the Company's investment adviser, acquired approximately 3.33 million units in connection with the initial private placement. In addition, in connection with the initial private placement, certain funds managed by Magnetar Financial LLC (Magnetar) and certain entities affiliated therewith (collectively, the Magnetar entities), acquired approximately 35.00 million units.

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in leveraged middle market companies in the form of senior secured loans, mezzanine loans and equity securities. From time to time, we may also invest in public companies that are thinly traded. Our business model is focused primarily on the direct origination of investments through portfolio companies or their financial sponsors. Our investments generally range between \$20 million and \$100 million each, although we expect that this investment size will vary proportionately with the size of our capital base. We are managed by Solar Capital Partners. Solar Capital Management provides the administrative services necessary for us to operate. In addition, we may invest a portion of our portfolio in other types of investments, which we refer to as opportunistic investments, which are not our primary focus but are intended to enhance our overall returns. These investments may include, but are not limited to, direct investments in public companies that are not thinly traded and securities of leveraged companies located in select countries outside of the United States.

As of March 31, 2010, our long term investments totaled \$839.0 million and our net asset value was \$730.4 million. Our portfolio was comprised of debt and equity investments in 33 portfolio companies and our income producing assets, which represent 92.2% of our total portfolio, had a weighted average annualized yield on a fair value basis of approximately 13.9%.

During the three months ended March 31, 2010, we originated approximately \$44.6 million of investments in one new and one existing portfolio company. We also received principal repayments of approximately \$95.1 million and sold securities in 3 portfolio companies for approximately \$20.5 million.

About Solar Capital Partners

Solar Capital Partners is controlled by Michael S. Gross, our chairman and chief executive officer, and is led by Mr. Gross and Bruce Spohler, our chief operating officer, and is supported by a team of 12 dedicated investment professionals, including Brian Gerson, Cedric Henley and David Mait. We refer to Messrs. Gross, Spohler, Gerson, Henley and Mait as Solar Capital Partners' senior investment professionals. Solar Capital Partners' investment team has extensive experience in the private equity and leveraged lending industries, as well as significant contacts with financial sponsors operating in those industries. The investment team led by Messrs. Gross and Spohler has invested in 54 different portfolio companies for Solar Capital, which investments involved an aggregate of more than 46 different financial sponsors, through March 31, 2010. Since Solar Capital's inception, these investment professionals have used their relationships in the middle-market financial sponsor and financial intermediary community to originate direct investment opportunities.

Mr. Gross, the former chairman and chief executive officer of Apollo Investment Corporation, a publicly traded business development company that he founded, has over 20 years of experience in the private equity, distressed debt and mezzanine lending businesses and has been involved in originating, structuring, negotiating, consummating and managing private equity, distressed debt and mezzanine lending transactions.

Table of Contents

Mr. Gross is also a founder and a former senior partner of Apollo Management, L.P., a leading private equity firm. During his tenure at Apollo Management, L.P., Mr. Gross was a member of the investment committee that was responsible for overseeing more than \$13 billion of investments in over 150 companies. Between February 2004 and February 2006, Mr. Gross was the president and chief executive officer of Apollo Investment Corporation, a publicly traded business development company that he founded and on whose board of directors and investment committee he served as chairman from February 2004 to July 2006. Under his management, Apollo Investment Corporation raised approximately \$930 million in gross proceeds in an initial public offering in April 2004, built a dedicated investment team and infrastructure and invested approximately \$2.3 billion in over 65 companies in conjunction with 50 different private equity sponsors. Mr. Gross was also the managing partner of Apollo Distressed Investment Fund, L.P., an investment fund he founded in 2003 to invest principally in debt and other securities of leveraged companies.

Mr. Gross also currently serves on the boards of directors of three public companies, and in the past has served on the boards of directors of more than 20 public and private companies. As a result, Mr. Gross has developed an extensive network of private equity sponsor relationships as well as relationships with management teams of public and private companies, investment bankers, attorneys and accountants that we believe should provide us with significant business opportunities.

We also rely on the more than 20 years of experience of Mr. Spohler, who has served as our chief operating officer and a partner of Solar Capital Partners since inception. Previously, Mr. Spohler was a managing director and a former co-head of U.S. Leveraged Finance for CIBC World Markets. He held numerous senior roles at CIBC World Markets, including serving on the U.S. Management Committee, Global Executive Committee and the Deals Committee, which approves all of CIBC World Markets' U.S. corporate finance debt capital decisions. During Mr. Spohler's tenure, he was responsible for senior loan, high yield and mezzanine origination and execution, as well as CIBC World Markets' below investment grade loan portfolio in the United States. As a co-head of U.S. Leveraged Finance, Mr. Spohler oversaw over 300 capital raising and merger and acquisition transactions, comprising over \$40 billion in market capitalization.

In addition to Messrs. Gross and Spohler, Solar Capital Partners' senior investment professionals include Messrs. Gerson, Henley and Mait, each of whom has extensive experience in originating, evaluating and structuring investments in the types of middle-market companies we currently target. Solar Capital Partners' senior investment professionals have an average of over 20 years of experience in the private equity and leveraged lending industries.

Solar Capital Partners' senior investment professionals have been active participants in the primary and secondary leveraged credit markets throughout their careers. They have effectively managed portfolios of distressed and mezzanine debt as well as other investment types. The depth of their experience and credit market expertise has led them through various stages of the economic cycle as well as several market disruptions.

Market Opportunity

Solar Capital invests primarily in senior secured loans, mezzanine loans and equity securities of leveraged companies organized and located in the United States. We believe that the size of the leveraged company market, coupled with the demands of these companies for flexible sources of capital at attractive terms and rates, create an attractive investment environment for us.

Middle-market companies have faced increasing difficulty in accessing the capital markets. While many middle-market companies were formerly able to raise funds by issuing high-yield bonds, we believe this approach to financing has become more difficult in recent years as institutional investors have sought to

Table of Contents

invest in larger, more liquid offerings. In addition, many private finance companies that, until recently, financed their lending and investing activities through securitization transactions have lost that source of funding and cut back lending significantly.

There is a large pool of uninvested private equity capital likely to seek additional capital to support their private investments. We believe there is a large pool of uninvested private equity capital available to middle-market companies. While we expect the rate of investment to be slower than in prior periods, we expect that private equity firms will continue to be active investors in middle-market companies and that these private equity firms will seek to supplement their investments with senior and junior debt securities and loans and equity co-investments from other sources, such as Solar Capital.

Middle-market companies are increasingly seeking private sources for debt and equity capital. We believe that many middle-market companies prefer to execute transactions with private capital providers such as Solar Capital, rather than execute high-yield bond or equity transactions in the public markets, which may necessitate increased financial and regulatory compliance and reporting obligations. We expect that the volume of domestic public-to-private transactions, as well as the number of companies selecting a sale alternative versus raising capital in the public equity markets as a means of increasing liquidity, will remain large.

Consolidation among commercial banks has reduced the focus on middle-market business. We believe that many senior lenders have de-emphasized their service and product offerings to middle-market companies in favor of lending to large corporate clients, managing capital markets transactions and providing other non-credit services to their customers. We believe this has resulted in fewer key players and the reduced availability of debt capital to the companies we target.
