Table of Contents**SPECTRUM BRANDS, INC.****Notes to Condensed Financial Statements (Unaudited)****(Amounts in thousands, except per share figures)****1 DESCRIPTION OF BUSINESS**

Spectrum Brands, Inc., a Delaware corporation (*Spectrum Brands* or the *Company*), is a global branded consumer products company. Spectrum Brands Holdings, Inc. (*SB Holdings*) was created in connection with the combination of Spectrum Brands and Russell Hobbs, Inc. (*Russell Hobbs*), a global branded small appliance company, to form a new combined company (the *Merger*). The Merger was consummated on June 16, 2010. As a result of the Merger, both Spectrum Brands and Russell Hobbs are wholly-owned subsidiaries of SB Holdings and Russell Hobbs is a wholly-owned subsidiary of Spectrum Brands. SB Holdings trades on the New York Stock Exchange under the symbol *SPB*.

In connection with the Merger, Spectrum Brands refinanced its existing senior debt, except for Spectrum Brands 12% Senior Subordinated Toggle Notes due 2019 (the *12% Notes*), which remain outstanding, and a portion of Russell Hobbs existing senior debt through a combination of a new \$750,000 United States (*U.S.*) Dollar Term Loan due June 16, 2016 (the *Term Loan*), a new \$750,000 9.5% Senior Secured Notes maturing June 15, 2018 (the *9.5% Notes*) and a new \$300,000 ABL revolving facility due June 16, 2014 (the *ABL Revolving Credit Facility*). (See also Note 6, Debt, for a more complete discussion of the Company's outstanding debt.)

On February 3, 2009, Spectrum Brands, at the time a Wisconsin corporation, and each of its wholly owned U.S. subsidiaries (collectively, the *Debtors*) filed voluntary petitions under Chapter 11 of the U.S. Bankruptcy Code (the *Bankruptcy Code*), in the U.S. Bankruptcy Court for the Western District of Texas (the *Bankruptcy Court*). On August 28, 2009 (the *Effective Date*), the Debtors emerged from Chapter 11 of the Bankruptcy Code. As of the Effective Date and pursuant to the Debtors' confirmed plan of reorganization, Spectrum Brands converted from a Wisconsin corporation to a Delaware corporation. Prior to and including August 30, 2009, all operations of the business resulted from the operations of the Predecessor Company. In accordance with ASC Topic 852: *Reorganizations*, the Company determined that all conditions required for the adoption of fresh-start reporting were met upon emergence from Chapter 11 of the Bankruptcy Code on the Effective Date. However in light of the proximity of that date to the Company's August accounting period close, which was August 30, 2009, the Company elected to adopt a convenience date of August 30, 2009, (the *Fresh-Start Adoption Date*) for recording fresh-start reporting.

Unless the context indicates otherwise, the term *Company* is used to refer to both Spectrum Brands and its subsidiaries prior to the Merger and SB Holdings and its subsidiaries subsequent to the Merger. The term *Predecessor Company* refers only to the Company prior to the Effective Date and the term *Successor Company* refers to Spectrum Brands or the Company subsequent to the Effective Date.

The Company is a diversified global branded consumer products company with positions in seven major product categories: consumer batteries; small appliances; pet supplies; electric shaving and grooming; electric personal care; portable lighting; and home and garden control.

Effective October 1, 2010, the Company's chief operating decision-maker decided to manage the businesses in three vertically integrated, product-focused reporting segments: (i) Global Batteries & Appliances, which consists of the Company's worldwide battery, electric shaving and grooming, electric personal care, portable lighting business and small appliances primarily in the kitchen and home product categories (*Global Batteries & Appliances*); (ii) Global Pet Supplies, which consists of the Company's worldwide pet supplies business (*Global Pet Supplies*); and (iii) Home and Garden Business, which consists of the Company's home and garden and insect control businesses (the *Home and Garden Business*). The current reporting segment structure reflects the combination of the former Global Batteries & Personal Care segment (*Global Batteries & Personal Care*), which consisted of the worldwide battery, electric shaving and grooming, electric personal care and portable lighting business, with substantially all of the former Small Appliances segment, which consisted of the Russell Hobbs businesses acquired on June 16, 2010 (*Small Appliances*), to form Global Batteries & Appliances. In addition, certain pest control and pet products included in the former Small Appliances segment have been reclassified into the Home and Garden Business and Global Pet Supplies segments, respectively. The presentation of all historical segment reporting herein has been changed to conform to this segment reporting.

The Company's operations include the worldwide manufacturing and marketing of alkaline, zinc carbon and hearing aid batteries, as well as aquariums and aquatic health supplies and the designing and marketing of rechargeable batteries, battery-powered lighting products, electric shavers and accessories, grooming products and hair care appliances. The Company's operations also include the manufacturing and marketing of specialty pet supplies. The Company also manufactures and markets herbicides, insecticides and repellents in North America. The Company also designs, markets and distributes a broad range of branded small appliances and personal care products. The Company's operations utilize

manufacturing and product development facilities located in the U.S., Europe, Asia and Latin America.

Table of Contents**SPECTRUM BRANDS, INC.****Notes to Condensed Financial Statements (Unaudited) - Continued**

(Amounts in thousands, except per share figures)

The Company sells its products in approximately 120 countries through a variety of trade channels, including retailers, wholesalers and distributors, hearing aid professionals, industrial distributors and original equipment manufacturers and enjoys name recognition in its markets under the Rayovac, VARTA and Remington brands, each of which has been in existence for more than 80 years, and under the Tetra, 8-in-1, Spectracide, Cutter, Black & Decker, George Foreman, Russell Hobbs, Farberware and various other brands.

2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: These condensed consolidated financial statements have been prepared by the Company, without audit, pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (SEC) and, in the opinion of the Company, include all adjustments (which are normal and recurring in nature) necessary to present fairly the financial position of the Company at January 2, 2011 and September 30, 2010, and the results of operations and cash flows for the three month periods ended January 2, 2011 and January 3, 2010. Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP) have been condensed or omitted pursuant to such SEC rules and regulations. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended September 30, 2010. Certain prior period amounts have been reclassified to conform to the current period presentation.

Significant Accounting Policies and Practices: The condensed consolidated financial statements include the condensed consolidated financial statements of SB Holdings and its subsidiaries and are prepared in accordance with GAAP. All intercompany transactions have been eliminated.

The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Discontinued Operations: On November 11, 2008, the Predecessor Company board of directors (the Predecessor Board) approved the shutdown of the growing products portion of the Home and Garden Business, which included the manufacturing and marketing of fertilizers, enriched soils, mulch and grass seed. The decision to shutdown the growing products portion of the Home and Garden Business was made only after the Predecessor Company was unable to successfully sell this business, in whole or in part. The shutdown of the growing products portion of the Home and Garden Business was completed during the second quarter of the Company s fiscal year ended September 30, 2009.

The presentation herein of the results of continuing operations has been changed to exclude the growing products portion of the Home and Garden Business for all periods presented. The following amounts have been segregated from continuing operations and are reflected as discontinued operations for the three month period ended January 3, 2010:

	2010
Net sales	\$
Loss from discontinued operations before income taxes	\$ (2,512)
Provision for income tax expense	223
Loss from discontinued operations, net of tax	\$ (2,735)

Assets Held for Sale: At January 2, 2011 and September 30, 2010, the Company had \$12,668 and \$12,452, respectively, included in Assets held for sale in its Condensed Consolidated Statements of Financial Position (Unaudited) consisting of certain assets primarily related to a former manufacturing facilities in Ningbo, China and in Brazil.

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

Intangible Assets: Intangible assets are recorded at cost or at fair value if acquired in a purchase business combination. Customer lists and proprietary technology intangibles are amortized, using the straight-line method, over their estimated useful lives of approximately 4 to 20 years. Excess of cost over fair value of net assets acquired (goodwill) and trade name intangibles are not amortized. Goodwill is tested for impairment at least annually, at the reporting unit level with such groupings being consistent with the Company's reportable segments. If an impairment is indicated, a write-down to fair value (normally measured by discounting estimated future cash flows) is recorded. Trade name intangibles are tested for impairment at least annually by comparing the fair

Table of Contents

SPECTRUM BRANDS, INC.

Notes to Condensed Financial Statements (Unaudited) - Continued

(Amounts in thousands, except per share figures)

value with the carrying value. Any excess of carrying value over fair value is recognized as an impairment loss in income from operations. The Company's annual impairment testing is completed at the August financial period end.

Accounting Standards Codification (ASC) Topic 350: *Intangibles-Goodwill and Other*, (ASC 350) requires that goodwill and indefinite-lived intangible assets be tested for impairment annually, or more often if an event or circumstance indicates that an impairment loss may have been incurred. Management uses its judgment in assessing whether assets may have become impaired between annual impairment tests. Indicators such as unexpected adverse business conditions, economic factors, unanticipated technological change or competitive activities, loss of key personnel, and acts by governments and courts may signal that an asset has become impaired.

The Company's goodwill and indefinite lived trade name intangibles were tested in conjunction with the Company's realignment of reportable segments on October 1, 2010. The Company concluded that the implied fair values of its reporting units, which are the same as the Company's reporting segments, and indefinite lived trade name intangible assets were in excess of the carrying amounts of those assets, under both the Company's prior reportable segment structure and the current reportable segment structure, and, accordingly, no impairment of goodwill or indefinite lived trade name intangibles was recorded.

Shipping and Handling Costs: The Company incurred shipping and handling costs of \$51,270 and \$36,461 for the three month periods ended January 2, 2011 and January 3, 2010, respectively. These costs are included in Selling expenses in the accompanying Condensed Consolidated Statements of Operations (Unaudited). Shipping and handling costs include costs incurred with third-party carriers to transport products to customers as well as salaries and overhead costs related to activities to prepare the Company's products for shipment from its distribution facilities.

Concentrations of Credit Risk: Trade receivables subject the Company to credit risk. Trade accounts receivable are carried at net realizable value. The Company extends credit to its customers based upon an evaluation of the customer's financial condition and credit history, and generally does not require collateral. The Company monitors its customers' credit and financial condition based on changing economic conditions and makes adjustments to credit policies as required. Provision for losses on uncollectible trade receivables are determined principally on the basis of past collection experience applied to ongoing evaluations of the Company's receivables and evaluations of the risks of nonpayment for a given customer.

The Company has a broad range of customers including many large retail outlet chains, one of which accounts for a significant percentage of its sales volume. This customer represented approximately 24% and 21% of the Company's Net sales during the three month periods ended January 2, 2011 and January 3, 2010, respectively. This customer also represented approximately 12% and 15% of the Company's Trade accounts receivable, net at January 2, 2011 and September 30, 2010, respectively.

Approximately 49% and 51% of the Company's Net sales during the three month periods ended January 2, 2011 and January 3, 2010, respectively, occurred outside the United States. These sales and related receivables are subject to varying degrees of credit, currency, political and economic risk. The Company monitors these risks and makes appropriate provisions for collectibility based on an assessment of the risks present.

Stock-Based Compensation: On the Effective Date all of the existing common stock of the Predecessor Company was extinguished and deemed cancelled, including restricted stock and other stock-based awards.

In September 2009, the Successor Company's board of directors (the Board) adopted the 2009 Spectrum Brands Inc. Incentive Plan (the 2009 Plan). In conjunction with the Merger, the 2009 Plan was assumed by SB Holdings. As of September 30, 2010, up to 3,333 shares of common stock, net of forfeitures and cancellations, could have been issued under the 2009 Plan. After October 21, 2010, no further awards may be made under the 2009 Plan if (as described in greater detail below) a majority of the holders of the common stock of the Company eligible to vote thereon approve the Spectrum Brands Holdings, Inc. 2011 Omnibus Equity Award Plan (2011 Plan) prior to October 21, 2011.

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

In conjunction with the Merger, the Company assumed the Spectrum Brands Holdings, Inc. 2007 Omnibus Equity Award Plan (formerly known as the Russell Hobbs, Inc. 2007 Omnibus Equity Award Plan, as amended on June 24, 2008) (the 2007 RH Plan). As of September 30, 2010, up to 600 shares of common stock, net of forfeitures and cancellations, could have been issued under the 2007 RH Plan. After October 21, 2010, no further awards may be made under the 2007 RH Plan if (as described in greater detail below) a majority of the holders of the common stock of the Company eligible to vote thereon approve the 2011 Plan prior to October 21, 2011.

Table of Contents**SPECTRUM BRANDS, INC.****Notes to Condensed Financial Statements (Unaudited) - Continued**

(Amounts in thousands, except per share figures)

On October 21, 2010, the Company's Board of Directors adopted the 2011 Plan, subject to shareholder approval prior to October 21, 2011 and the Company intends to submit the 2011 Plan for shareholder approval in connection with its next Annual Meeting. Upon such shareholder approval, no further awards will be granted under the 2009 Plan and the 2007 RH Plan. 4,626 shares of common stock of the Company, net of cancellations, may be issued under the 2011 Plan. While the Company has begun granting awards under the 2011 Plan, the 2011 Plan (and awards granted thereunder) are subject to the approval by a majority of the holders of the common stock of the Company eligible to vote thereon prior to October 21, 2011.

Under ASC Topic 718: Compensation-Stock Compensation, (ASC 718), the Company is required to recognize expense related to the fair value of its employee stock awards.

Total stock compensation expense associated with restricted stock awards recognized by the Company during the three month periods ended January 2, 2011 and January 3, 2010 was \$5,554, or \$3,610, net of taxes, and \$3,196, or \$2,078, net of taxes, respectively.

The Company granted approximately 1,423 shares of restricted stock units during the three month period ended January 2, 2011. Of these grants, 15 restricted stock units are time-based and vest over a one year period and 18 restricted stock units are time-based and vest over a three year period. The remaining 1,390 shares are restricted stock units and are performance and time-based with 640 shares vesting over a one year period and 750 shares vesting over a three year period. The total market value of the restricted shares on the date of the grant was approximately \$40,969.

The fair value of restricted stock is determined based on the market price of the Company's shares on the grant date. A summary of the status of the Company's non-vested restricted stock as of January 2, 2011 is as follows:

Restricted Stock	Shares	Weighted Average Grant Date Fair Value	Fair Value
Restricted stock at September 30, 2010	695	\$ 25.23	\$ 17,536
Granted	1,408	28.80	40,549
Vested	(323)	22.36	(7,222)
Restricted stock at January 2, 2011	1,780	\$ 28.57	\$ 50,863

Reorganization Items: In accordance with ASC Topic 852: *Reorganizations*, reorganization items are presented separately in the accompanying Condensed Consolidated Statements of Operations (Unaudited) and represent expenses, income, gains and losses that the Company has identified as directly relating to its voluntary petitions under Chapter 11 of the Bankruptcy Code. See Note 2, Voluntary Reorganization Under Chapter 11 in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2010 for additional information regarding the Chapter 11 filing and subsequent emergence. Reorganization items expense, net for the three month period ended January 3, 2010 is summarized as follows:

Legal and professional fees	2010 \$3,536
Provision for rejected leases	110

Reorganization items expense, net	\$3,646
-----------------------------------	---------

Acquisition and Integration Related Charges: Acquisition and integration related charges reflected in Operating expenses in the accompanying Condensed Consolidated Statements of Operations (Unaudited) include, but are not limited to transaction costs such as banking, legal and accounting professional fees directly related to the acquisition, termination and related costs for transitional and certain other employees, integration related professional fees and other post business combination related expenses associated with the Company's acquisitions.

The following table summarizes acquisition and integration related charges associated with the Merger incurred by the Company during the three month periods ended January 2, 2011 and January 3, 2010 are as follows:

Table of Contents**SPECTRUM BRANDS, INC.****Notes to Condensed Financial Statements (Unaudited) - Continued**

(Amounts in thousands, except per share figures)

	2011	2010
Legal and professional fees	\$ 2,395	\$ 2,431
Employee termination charges	3,752	
Integration costs	10,130	
Total Acquisition and integration related charges	\$ 16,277	\$ 2,431

Additionally, the Company incurred \$178 of legal and professional fees associated with the acquisition of Seed Resources, LLC (Seed Resources) during the three month period ended January 2, 2011. (See Note 14, Acquisitions for information on the Seed Resources acquisition.)

3 OTHER COMPREHENSIVE LOSS

Comprehensive loss and the components of other comprehensive loss, net of tax, for the three month periods ended January 2, 2011 and January 3, 2010 are as follows:

	Three Months	
	2011	2010
Net loss	\$ (19,746)	\$ (60,249)
Other comprehensive loss:		
Foreign currency translation	(4,074)	(1,115)
Valuation allowance adjustments	643	(1,100)
Net unrealized gain (loss) on derivative instruments	4,179	(1,204)
Net change to derive comprehensive loss for the period	748	(3,419)
Comprehensive loss	\$ (18,998)	\$ (63,668)

Net exchange gains or losses resulting from the translation of assets and liabilities of foreign subsidiaries are accumulated in the accumulated other comprehensive income (AOCI) section of Shareholders' equity. Also included are the effects of exchange rate changes on intercompany balances of a long-term nature and transactions designated as hedges of net foreign investments. The changes in accumulated foreign currency translation for the three month periods ended January 2, 2011 and January 3, 2010 were primarily attributable to the impact of translation of the net assets of the Company's European operations, primarily denominated in Euros and Pounds Sterling.

4 INVENTORIES

Inventories for the Company, which are stated at the lower of cost or market, consisted of the following:

	January 2, 2011	September 30, 2010
Raw materials	\$ 73,278	\$ 62,857
Work-in-process	23,050	28,239
Finished goods	415,972	439,246

\$ 512,300 \$ 530,342

5 GOODWILL AND INTANGIBLE ASSETS

Goodwill and intangible assets for the Company consist of the following:

Total Intangible Assets, net at January 2, 2011	\$ 1,072,491	\$ 434,640	\$ 239,092	\$ 1,746,223

Intangible assets subject to amortization include proprietary technology, customer relationships and certain trade names. The carrying value of technology assets was \$59,145, net of accumulated amortization of \$8,468 at January 2, 2011 and \$60,792, net of accumulated amortization of \$6,305 at September 30, 2010. The Company trade names subject to amortization relate to the valuation under fresh-start reporting and the Merger. The carrying value of these trade names was \$142,799, net of accumulated amortization of \$6,901 at January 2, 2011 and \$145,939, net of accumulated amortization of \$3,750 at September 30, 2010. Remaining intangible assets subject to amortization include customer relationship intangibles. The carrying value of customer relationships was \$691,850, net of accumulated amortization of \$47,300 at January 2, 2011 and \$705,151, net of accumulated amortization of \$35,865 at September 30, 2010. The useful life of the Company's intangible assets subject to amortization are 8 years for technology assets related to the Global Pet Supplies segment, 9 to 17 years for technology assets associated with the Global Batteries & Appliances segment, 15 to 20 years for customer relationships of Global Batteries & Appliances, 20 years for customer relationships of the Home and Garden Business and Global Pet Supplies, 12 years for a trade name within the Global Batteries & Appliances segment and 4 years for a trade name within the Home and Garden Business segment.

Amortization expense for the three month periods ended January 2, 2011 and January 3, 2010 is as follows:

Three Months	
2011	2010

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

Proprietary technology amortization	\$ 1,649	\$ 1,545
Customer relationships amortization	9,530	8,791
Trade names amortization	3,140	31
	\$ 14,319	\$ 10,367

The Company estimates annual amortization expense for the next five fiscal years will approximate \$55,630 per year.

6 DEBT

Debt consists of the following:

In connection with the Merger, Spectrum Brands (i) entered into a new senior secured term loan pursuant to a new senior credit agreement (the Senior Credit Agreement) consisting of a \$750,000 U.S. Dollar Term Loan due June 16, 2016 (the Term Loan), (ii) issued \$750,000 in aggregate principal amount of 9.5% Senior Secured Notes maturing June 15, 2018 (the 9.5% Notes) and (iii) entered into a \$300,000 U.S. Dollar asset based revolving loan facility due June 16, 2014 (the ABL Revolving Credit Facility) and together with the Senior Credit Agreement, the Senior Credit Facilities) and the Senior Credit Facilities together with the 9.5% Notes, the Senior Secured Facilities). The proceeds from the Senior Secured Facilities were used to repay Spectrum Brands then-existing senior term credit facility (the Prior Term Facility) and Spectrum Brands then-existing asset based revolving loan facility, to pay fees and expenses in connection with the refinancing and for general corporate purposes.

The 9.5% Notes and 12% Notes were issued by Spectrum Brands. SB/RH Holdings, LLC, a wholly-owned subsidiary of SB Holdings, and the wholly owned domestic subsidiaries of Spectrum Brands are the guarantors under the 9.5% Notes. The wholly owned domestic subsidiaries of Spectrum Brands are the guarantors under the 12% Notes. SB Holdings is not an issuer or guarantor of the 9.5% Notes or the 12% Notes. SB Holdings is also not a borrower or guarantor under the Company s Term Loan or the ABL Revolving Credit Facility. Spectrum Brands is the borrower under the Term Loan and its wholly owned domestic subsidiaries along with SB/RH Holdings, LLC are the guarantors under that facility. Spectrum Brands and its wholly owned domestic subsidiaries are the borrowers under the ABL Revolving Credit Facility and SB/RH Holdings, LLC is a guarantor of that facility.

Senior Term Credit Facility

The Term Loan has a maturity date of June 16, 2016. Subject to certain mandatory prepayment events, the Term Loan is subject to repayment according to a scheduled amortization, with the final payment of all amounts outstanding, plus accrued and unpaid interest, due at maturity. Among other things, the Term Loan provides for a minimum Eurodollar interest rate floor of 1.5% and interest spreads over market rates of 6.5%.

The Senior Credit Agreement contains financial covenants with respect to debt, including, but not limited to, a maximum leverage ratio and a minimum interest coverage ratio, which covenants, pursuant to their terms, become more restrictive over time. In addition, the Senior Credit Agreement contains customary restrictive covenants, including, but not limited to, restrictions on the Company s ability to incur additional indebtedness, create liens, make investments or specified payments, give guarantees, pay dividends, make capital expenditures and merge or acquire or sell assets. Pursuant to a guarantee and collateral agreement, the Company and its domestic subsidiaries have guaranteed their respective obligations under the Senior Credit Agreement and related loan documents and have pledged substantially all of their respective assets to secure such obligations. The Senior Credit Agreement also provides for customary events of default, including payment defaults and cross-defaults on other material indebtedness.

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

The Term Loan was issued at a 2.00% discount and was recorded net of the \$15,000 amount incurred. The discount is being amortized as an adjustment to the carrying value of principal with a corresponding charge to interest expense over the remaining life of the Senior Credit Agreement. During the Company's fiscal year ended September 30, 2010 (Fiscal 2010), the Company recorded \$25,968 of fees in connection with the Senior Credit Agreement. The fees are classified as Debt issuance costs within the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) and are amortized as an adjustment to interest expense over the remaining life of the Senior Credit Agreement. In connection with voluntary prepayments of \$70,000 of term debt during the three month period ended January 2, 2011, the Company recorded accelerated amortization of portions of the unamortized discount and unamortized Debt issuance costs totaling \$3,581 as an adjustment to increase interest expense.

Table of Contents

SPECTRUM BRANDS, INC.

Notes to Condensed Financial Statements (Unaudited) - Continued

(Amounts in thousands, except per share figures)

At January 2, 2011 and September 30, 2010, the aggregate amount outstanding under the Term Loan totaled \$680,000 and \$750,000, respectively.

On February 1, 2011, the Company completed the refinancing of its Term Loan, which had an aggregate amount outstanding of \$680,000, with a new Senior Secured Term Loan facility (the New Term Loan) at a lower interest rate. The New Term Loan issued at par and has a maturity date of June 16, 2016, includes an interest rate of LIBOR plus 4%, with a LIBOR minimum of 1%.

9.5% Notes

At both January 2, 2011 and September 30, 2010, the Company had outstanding principal of \$750,000 under the 9.5% Notes maturing June 15, 2018.

The Company may redeem all or a part of the 9.5% Notes, upon not less than 30 or more than 60 days notice at specified redemption prices. Further, the indenture governing the 9.5% Notes (the 2018 Indenture) requires the Company to make an offer, in cash, to repurchase all or a portion of the applicable outstanding notes for a specified redemption price, including a redemption premium, upon the occurrence of a change of control of the Company, as defined in such indenture.

The 2018 Indenture contains customary covenants that limit, among other things, the incurrence of additional indebtedness, payment of dividends on or redemption or repurchase of equity interests, the making of certain investments, expansion into unrelated businesses, creation of liens on assets, merger or consolidation with another company, transfer or sale of all or substantially all assets, and transactions with affiliates.

In addition, the 2018 Indenture provides for customary events of default, including failure to make required payments, failure to comply with certain agreements or covenants, failure to make payments on or acceleration of certain other indebtedness, and certain events of bankruptcy and insolvency. Events of default under the 2018 Indenture arising from certain events of bankruptcy or insolvency will automatically cause the acceleration of the amounts due under the 9.5% Notes. If any other event of default under the 2018 Indenture occurs and is continuing, the trustee for the 2018 Indenture or the registered holders of at least 25% in the then aggregate outstanding principal amount of the 9.5% Notes may declare the acceleration of the amounts due under those notes.

The 9.5% Notes were issued at a 1.37% discount and were recorded net of the \$10,245 amount incurred. The discount is being amortized as an adjustment to the carrying value of principal with a corresponding charge to interest expense over the remaining life of the 9.5% Notes. During Fiscal 2010, the Company recorded \$20,823 of fees in connection with the issuance of the 9.5% Notes. The fees are classified as Debt issuance costs within the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) and are amortized as an adjustment to interest expense over the remaining life of the 9.5% Notes.

12% Notes

On August 28, 2009, in connection with emergence from the voluntary reorganization under Chapter 11 and pursuant to the Plan, the Company issued \$218,076 in aggregate principal amount of 12% Notes maturing August 28, 2019. Semiannually, at its option, the Company may elect to pay interest on the 12% Notes in cash or as payment in kind, or PIK. PIK interest is added to principal upon the relevant semi-annual interest payment date. Under the Prior Term Facility, the Company agreed to make interest payments on the 12% Notes through PIK for the first three semi-annual interest payment periods. As a result of the refinancing of the Prior Term Facility the Company is no longer required to make interest payments as payment in kind after the semi-annual interest payment date of August 28, 2010. Effective with the payment date of August 28, 2010 the Company gave notice to the trustee that the interest payment due February 28, 2011 would be made in cash.

The Company may redeem all or a part of the 12% Notes, upon not less than 30 or more than 60 days notice, beginning August 28, 2012 at specified redemption prices. Further, the indenture governing the 12% Notes require the Company to make an offer, in cash, to repurchase all or a portion of the applicable outstanding notes for a specified redemption price, including a redemption premium, upon the occurrence of a change

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

of control of the Company, as defined in such indenture.

At January 2, 2011 and September 30, 2010, the Company had outstanding principal of \$245,031 under the 12% Notes, including PIK interest of \$26,955 added to principal during Fiscal 2010.

The indenture governing the 12% Notes (the 2019 Indenture), contains customary covenants that limit, among other things, the incurrence of additional indebtedness, payment of dividends on or redemption or repurchase of equity interests, the making of certain investments, expansion into unrelated businesses, creation of liens on assets, merger or consolidation with another company, transfer or sale of all or substantially all assets, and transactions with affiliates.

Table of Contents

SPECTRUM BRANDS, INC.

Notes to Condensed Financial Statements (Unaudited) - Continued

(Amounts in thousands, except per share figures)

In addition, the 2019 Indenture provides for customary events of default, including failure to make required payments, failure to comply with certain agreements or covenants, failure to make payments on or acceleration of certain other indebtedness, and certain events of bankruptcy and insolvency. Events of default under the indenture arising from certain events of bankruptcy or insolvency will automatically cause the acceleration of the amounts due under the 12% Notes. If any other event of default under the 2019 Indenture occurs and is continuing, the trustee for the indenture or the registered holders of at least 25% in the then aggregate outstanding principal amount of the 12% Notes may declare the acceleration of the amounts due under those notes.

The Company is subject to certain limitations as a result of the Company's Fixed Charge Coverage Ratio under the 2019 Indenture being below 2:1. Until the test is satisfied, Spectrum Brands and certain of its subsidiaries are limited in their ability to make significant acquisitions or incur significant additional senior credit facility debt beyond the Senior Credit Facilities. The Company does not expect its inability to satisfy the Fixed Charge Coverage Ratio test to impair its ability to provide adequate liquidity to meet the short-term and long-term liquidity requirements of its existing businesses, although no assurance can be given in this regard.

In connection with the Merger, the Company obtained the consent of the note holders to certain amendments to the 2019 Indenture (the Supplemental Indenture). The Supplemental Indenture became effective upon the closing of the Merger. Among other things, the Supplemental Indenture amended the definition of change in control to exclude the Harbinger Capital Partners Master Fund I, Ltd. (Harbinger Master Fund) and Harbinger Capital Partners Special Situations Fund, L.P. (Harbinger Special Fund) and, together with Harbinger Master Fund, the HCP Funds) and Global Opportunities Breakaway Ltd. (together with the HCP Funds, the Harbinger Parties) and increased the Company's ability to incur indebtedness up to \$1,850,000.

During Fiscal 2010, the Company recorded \$2,966 of fees in connection with the consent. The fees are classified as Debt issuance costs within the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) and are amortized as an adjustment to interest expense over the remaining life of the 12% Notes effective with the closing of the Merger.

ABL Revolving Credit Facility

The ABL Revolving Credit Facility is governed by a credit agreement (the ABL Credit Agreement) with Bank of America as administrative agent (the Agent). The ABL Revolving Credit Facility consists of revolving loans (the Revolving Loans), with a portion available for letters of credit and a portion available as swing line loans, in each case subject to the terms and limits described therein.

The Revolving Loans may be drawn, repaid and reborrowed without premium or penalty. The proceeds of borrowings under the ABL Revolving Credit Facility are to be used for costs, expenses and fees in connection with the ABL Revolving Credit Facility, for working capital requirements of the Company and its subsidiaries, restructuring costs, and other general corporate purposes.

The ABL Revolving Credit Facility carries an interest rate, at the Company's option, which is subject to change based on availability under the facility, of either: (a) the base rate plus currently 2.75% per annum or (b) the reserve-adjusted LIBOR rate (the Eurodollar Rate) plus currently 3.75% per annum. No amortization will be required with respect to the ABL Revolving Credit Facility. The ABL Revolving Credit Facility will mature on June 16, 2014. Pursuant to the credit and security agreement, the obligations under the ABL credit agreement are secured by certain current assets of the guarantors, including, but not limited to, deposit accounts, trade receivables and inventory.

The ABL Credit Agreement contains various representations and warranties and covenants, including, without limitation, enhanced collateral reporting, and a maximum fixed charge coverage ratio. The ABL Credit Agreement also provides for customary events of default, including payment defaults and cross-defaults on other material indebtedness.

During Fiscal 2010, the Company recorded \$9,839 of fees in connection with the ABL Revolving Credit Facility. The fees are classified as Debt issuance costs within the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) and are amortized as an adjustment to interest expense over the remaining life of the ABL Revolving Credit Facility.

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

As a result of borrowings and payments under the ABL Revolving Credit Facility at January 2, 2011, the Company had aggregate borrowing availability of approximately \$149,954, net of lender reserves of \$28,972.

At January 2, 2011, the Company had outstanding letters of credit of \$36,464 under the ABL Revolving Credit Facility.

As a result of borrowings and payments under the ABL Revolving Credit Facility at September 30, 2010, the Company had aggregate borrowing availability of approximately \$225,255, net of lender reserves of \$28,972.

(Amounts in thousands, except per share figures)

7 DERIVATIVE FINANCIAL INSTRUMENTS

Derivative financial instruments are used by the Company principally in the management of its interest rate, foreign currency and raw material price exposures. The Company does not hold or issue derivative financial instruments for trading purposes. When hedge accounting is elected at inception, the Company formally designates the financial instrument as a hedge of a specific underlying exposure if such criteria are met, and documents both the risk management objectives and strategies for undertaking the hedge. The Company formally assesses, both at the inception and at least quarterly thereafter, whether the financial instruments that are used in hedging transactions are effective at offsetting changes in the forecasted cash flows of the related underlying exposure. Because of the high degree of effectiveness between the hedging instrument and the underlying exposure being hedged, fluctuations in the value of the derivative instruments are generally offset by changes in the forecasted cash flows of the underlying exposures being hedged. Any ineffective portion of a financial instrument's change in fair value is immediately recognized in earnings. For derivatives that are not designated as cash flow hedges, or do not qualify for hedge accounting treatment, the change in the fair value is also immediately recognized in earnings.

Under ASC Topic 815: *Derivatives and Hedging*, (ASC 815), entities are required to provide enhanced disclosures for derivative and hedging activities.

The Company's fair value of outstanding derivative contracts recorded as assets in the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) were as follows:

Asset Derivatives		January 2, 2011	September 30, 2010
Derivatives designated as hedging instruments under ASC 815:			
Commodity contracts	Receivables Other	\$ 3,165	\$ 2,371
Commodity contracts	Deferred charges and other	1,765	1,543
Foreign exchange contracts	Receivables Other	50	20
Foreign exchange contracts	Deferred charges and other	416	55
Total asset derivatives designated as hedging instruments under ASC 815		\$ 5,396	\$ 3,989
Derivatives not designated as hedging instruments under ASC 815:			
Foreign exchange contracts	Receivables Other	44	
Total asset derivatives		\$ 5,440	\$ 3,989

The Company's fair value of outstanding derivative contracts recorded as liabilities in the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) were as follows:

Liability Derivatives		January 2, 2011	September 30, 2010
Derivatives designated as hedging instruments under ASC 815:

Cash Flow Hedges

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of AOCI and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses on the derivative, representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness, are recognized in current earnings.

The following table summarizes the impact of derivative instruments on the accompanying Condensed Consolidated Statements of Operations (Unaudited) for the three month period ended January 2, 2011, pretax:

Derivatives in ASC 815 Cash Flow	Amount of Gain (Loss) Recognized in AOCI on Derivatives (Effective Portion)	Location of Gain (Loss) Reclassified from AOCI into Income (Effective Portion)	Amount of Gain (Loss) Reclassified from AOCI into Income (Effective Portion)	Location of Gain (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)	Amount of Gain (Loss) Recognized in Income on Derivatives (Ineffective Portion and Amount Excluded from Effectiveness Testing)

(Amounts in thousands, except per share figures)

Derivative Contracts

For derivative instruments that are used to economically hedge the fair value of the Company's third party and intercompany foreign exchange payments, commodity purchases and interest rate payments, the gain (loss) is recognized in earnings in the period of change associated with the derivative contract. During the three month periods ended January 2, 2011 and January 3, 2010, the Company recognized the following respective gains (losses) on derivative contracts:

	Location of Gain or (Loss) Recognized in Income on Derivatives		
Derivatives Not Designated as			
Hedging Instruments Under ASC 815	2011	2010	
Commodity contracts		42	Cost of goods sold
Foreign exchange contracts	9,058	(1,830)	Other (income) expense, net
Total	\$ 9,058	\$ (1,788)	

Credit Risk

The Company is exposed to the default risk of the counterparties with which the Company transacts. The Company monitors counterparty credit risk on an individual basis by periodically assessing each such counterparty's credit rating exposure. The maximum loss due to credit risk equals the fair value of the gross asset derivatives which are primarily concentrated with a foreign financial institution counterparty. The Company considers these exposures when measuring its credit reserve on its derivative assets, which was \$83 and \$75 at January 2, 2011 and September 30, 2010, respectively. Additionally, the Company does not require collateral or other security to support financial instruments subject to credit risk.

The Company's standard contracts do not contain credit risk related contingent features whereby the Company would be required to post additional cash collateral as a result of a credit event. However, the Company is typically required to post collateral in the normal course of business to offset its liability positions. At both January 2, 2011 and September 30, 2010, the Company had posted cash collateral of \$2,363 related to such liability positions. In addition, at both January 2, 2011 and September 30, 2010, the Company had posted standby letters of credit of \$4,000 related to such liability positions. The cash collateral is included in Current Assets - Receivables-Other within the accompanying Condensed Consolidated Statements of Financial Position (Unaudited).

Derivative Financial Instruments*Cash Flow Hedges*

The Company uses interest rate swaps to manage its interest rate risk. The swaps are designated as cash flow hedges with the changes in fair value recorded in AOCI and as a derivative hedge asset or liability, as applicable. The swaps settle periodically in arrears with the related amounts for the current settlement period payable to, or receivable from, the counter-parties included in accrued liabilities or receivables, respectively, and recognized in earnings as an adjustment to interest expense from the underlying debt to which the swap is designated. At January 2, 2011, the Company had a portfolio of USD-denominated interest rate swaps outstanding which effectively fixes the interest on floating rate debt, exclusive of lender spreads as follows: 2.25% for a notional principal amount of \$300,000 through December 2011 and 2.29%

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

for a notional principal amount of \$300,000 through January 2012. At September 30, 2010, the Company had a portfolio of U.S. dollar-denominated interest rate swaps outstanding which effectively fixes the interest on floating rate debt, exclusive of lender spreads as follows: 2.25% for a notional principal amount of \$300,000 through December 2011 and 2.29% for a notional principal amount of \$300,000 through January 2012 (the U.S. dollar swaps). The derivative net loss on these contracts recorded in AOCI by the Company at January 2, 2011 was \$(2,144), net of tax benefit of \$1,314. The derivative net (loss) on the U.S. dollar swaps contracts recorded in AOCI by the Company at September 30, 2010 was \$(2,675), net of tax benefit of \$1,640. At January 2, 2011, the portion of derivative net losses estimated to be reclassified from AOCI into earnings by the Company over the next 12 months is \$862, net of tax.

The Company periodically enters into forward foreign exchange contracts to hedge the risk from forecasted foreign denominated third party and intercompany sales or payments. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Euros, Pounds Sterling, Australian Dollars, Brazilian Reals, Canadian Dollars or Japanese Yen. These foreign exchange contracts are cash flow hedges of fluctuating foreign exchange related to sales or product or raw material purchases. Until the sale or purchase is recognized, the fair value of the related hedge is recorded in AOCI and as a derivative hedge asset or liability, as applicable. At the time the sale or purchase is recognized, the fair value of the related hedge is reclassified as an adjustment to Net sales or purchase price variance in Cost of goods sold. At January 2, 2011 the Company had a series of foreign exchange derivative contracts outstanding through June 2012 with a contract value of \$239,830. At September 30, 2010 the Company

Table of Contents**SPECTRUM BRANDS, INC.****Notes to Condensed Financial Statements (Unaudited) - Continued****(Amounts in thousands, except per share figures)**

had a series of foreign exchange derivative contracts outstanding through June 2012 with a contract value of \$299,993. The derivative net loss on these contracts recorded in AOCI by the Company at January 2, 2011 was \$(2,638), net of tax benefit of \$1,091. The derivative net (loss) on these contracts recorded in AOCI by the Company at September 30, 2010 was \$(5,322), net of tax benefit of \$2,204. At January 2, 2011, the portion of derivative net losses estimated to be reclassified from AOCI into earnings by the Company over the next 12 months is \$2,850, net of tax.

The Company is exposed to risk from fluctuating prices for raw materials, specifically zinc used in its manufacturing processes. The Company hedges a portion of the risk associated with these materials through the use of commodity swaps. The hedge contracts are designated as cash flow hedges with the fair value changes recorded in AOCI and as a hedge asset or liability, as applicable. The unrecognized changes in fair value of the hedge contracts are reclassified from AOCI into earnings when the hedged purchase of raw materials also affects earnings. The swaps effectively fix the floating price on a specified quantity of raw materials through a specified date. At January 2, 2011 the Company had a series of such swap contracts outstanding through September 2012 for 12 tons with a contract value of \$23,794. At September 30, 2010, the Company had a series of such swap contracts outstanding through September 2012 for 15 tons with a contract value of \$28,897. The derivative net gain on these contracts recorded in AOCI by the Company at January 2, 2011 was \$3,214, net of tax expense of \$1,716. The derivative net gain on these contracts recorded in AOCI by the Company at September 30, 2010 was \$2,256, net of tax expense of \$1,201. At January 2, 2011, the portion of derivative net gains estimated to be reclassified from AOCI into earnings by the Company over the next 12 months is \$2,066, net of tax.

Derivative Contracts

The Company periodically enters into forward and swap foreign exchange contracts to economically hedge the risk from third party and intercompany payments resulting from existing obligations. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Euros or Australian Dollars. These foreign exchange contracts are fair value hedges of a related liability or asset recorded in the accompanying Condensed Consolidated Statements of Financial Position (Unaudited). The gain or loss on the derivative hedge contracts is recorded in earnings as an offset to the change in value of the related liability or asset at each period end. At January 2, 2011 and September 30, 2010 the Company had \$305,185 and \$333,562, respectively, of such foreign exchange derivative notional value contracts outstanding.

8 FAIR VALUE OF FINANCIAL INSTRUMENTS

ASC Topic 820: *Fair Value Measurements and Disclosures*, (ASC 820), establishes a new framework for measuring fair value and expands related disclosures. Broadly, the ASC 820 framework requires fair value to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. ASC 820 establishes market or observable inputs as the preferred source of values, followed by assumptions based on hypothetical transactions in the absence of market inputs. The Company utilizes valuation techniques that attempt to maximize the use of observable inputs and minimize the use of unobservable inputs. The determination of the fair values considers various factors, including closing exchange or over-the-counter market pricing quotations, time value and credit quality factors underlying options and contracts. The fair value of certain derivative financial instruments is estimated using pricing models based on contracts with similar terms and risks. Modeling techniques assume market correlation and volatility, such as using prices of one delivery point to calculate the price of the contract s different delivery point. The nominal value of interest rate transactions is discounted using applicable forward interest rate curves. In addition, by applying a credit reserve which is calculated based on credit default swaps or published default probabilities for the actual and potential asset value, the fair value of the Company s derivative financial instruments assets reflects the risk that the counterparties to these contracts may default on the obligations. Likewise, by assessing the requirements of a reserve for non-performance which is calculated based on the probability of default by the Company, the Company adjusts its derivative contract liabilities to reflect the price at which a potential market participant would be willing to assume the Company s liabilities. The Company has not changed its valuation techniques in measuring the fair value of any financial assets and liabilities during the year.

The valuation techniques required by ASC 820 are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect market assumptions made by the Company. These two types of inputs create the following fair value hierarchy:

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

- Level 1 Unadjusted quoted prices for identical instruments in active markets.
- Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Table of Contents**SPECTRUM BRANDS, INC.****Notes to Condensed Financial Statements (Unaudited) - Continued**

(Amounts in thousands, except per share figures)

Level 3 Significant inputs to the valuation model are unobservable.

The Company maintains policies and procedures to value instruments using the best and most relevant data available. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls must be determined based on the lowest level input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability. In addition, the Company has risk management teams that review valuation, including independent price validation for certain instruments. Further, in other instances, the Company retains independent pricing vendors to assist in valuing certain instruments.

The Company's derivatives are valued using internal models, which are based on market observable inputs including interest rate curves and both forward and spot prices for currencies and commodities.

The Company's net derivative portfolio as of January 2, 2011, contains Level 2 instruments and represents commodity, interest rate and foreign exchange contracts.

	Level 1	Level 2	Level 3	Total
Assets:				
Commodity contracts	\$	\$ 4,930	\$	\$ 4,930
Total Assets	\$	\$ 4,930	\$	\$ 4,930
Liabilities:

Foreign exchange contracts, net		(24,591)	\$	(24,591)
Total Liabilities	\$	\$ (30,085)	\$	\$ (30,085)

The Company's net derivative portfolio as of September 30, 2010, contains Level 2 instruments and represents commodity, interest rate and foreign exchange contracts.

	Level 1	Level 2	Level 3	Total
Assets:				
Commodity contracts	\$	\$ 3,914	\$	\$ 3,914
Total Assets	\$	\$ 3,914	\$	\$ 3,914
Liabilities:				
Interest rate contracts	\$	\$ (6,627)	\$	\$ (6,627)
Foreign exchange contracts, net		(38,111)	\$	(38,111)
Total Liabilities	\$	\$ (44,738)	\$	\$ (44,738)

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

The carrying values of cash and cash equivalents, accounts and other receivables, accounts payable and short-term debt approximate fair value. The fair values of long-term debt and derivative financial instruments are generally based on quoted or observed market prices.

Goodwill, intangible assets and other long-lived assets are also tested annually or if a triggering event occurs that indicates an impairment loss may have been incurred using fair value measurements with unobservable inputs (Level 3). (See also Note 2, Significant Accounting Policies Intangible Assets, for further details on impairment testing.)

The carrying amounts and fair values of the Company's financial instruments are summarized as follows ((liability)/asset):

9 EMPLOYEE BENEFIT PLANS**Pension Benefits**

The Company has various defined benefit pension plans covering some of its employees in the U.S. and certain employees in other countries, primarily the United Kingdom and Germany. These pension plans generally provide benefits of stated amounts for each year of service. The Company funds its U.S. pension plans in accordance with the requirements of the defined benefit pension plans and, where applicable, in amounts sufficient to satisfy the minimum funding requirements of applicable laws. Additionally, in compliance with the Company's funding policy, annual contributions to non-U.S. defined benefit plans are equal to the actuarial recommendations or statutory requirements in the respective countries.

The Company also sponsors or participates in a number of other non-U.S. pension arrangements, including various retirement and termination benefit plans, some of which are covered by local law or coordinated with government-sponsored plans, which are not significant in the aggregate and therefore are not included in the information presented below. The Company also has various nonqualified deferred compensation agreements with certain of its employees. Under certain of these agreements, the Company has agreed to pay certain amounts annually for the first 15 years subsequent to retirement or to a designated beneficiary upon death. It is management's intent that life insurance contracts owned by the Company will fund these agreements. Under the remaining agreements, the Company has agreed to pay such deferred amounts in up to 15 annual installments beginning on a date specified by the employee, subsequent to retirement or disability, or to a designated beneficiary upon death.

Other Benefits

Under the Rayovac postretirement plan, the Company provides certain health care and life insurance benefits to eligible retired employees. Participants earn retiree health care benefits after reaching age 45 over the next 10 succeeding years of service and remain eligible until reaching age 65. The plan is contributory and, accordingly, retiree contributions have been established as a flat dollar amount with contribution rates expected to increase at the active medical trend rate. This plan is unfunded. The Company is amortizing the transition obligation over a 20-year period.

Under the Tetra U.S. postretirement plan the Company provides postretirement medical benefits to full-time employees who meet minimum age and service requirements. The plan is contributory with retiree contributions adjusted annually and contains other cost-sharing features such as deductibles, coinsurance and copayments.

The Company's results of operations for the three month periods ended January 2, 2011 and January 3, 2010 reflect the following pension and deferred compensation benefit costs:

Components of net periodic pension and other deferred compensation benefit costs	Three Months	
	2011	2010
Service cost	\$ 781	\$ 725
Interest cost	2,557	1,813

The Company sponsors a defined contribution pension plan for its domestic salaried employees, which allows participants to make contributions by salary reduction pursuant to Section 401(k) of the Internal Revenue Code. Prior to April 1, 2009 the Company contributed annually from 3% to 6% of participants' compensation based on age or service, and had the ability to make additional discretionary contributions. The Company suspended all contributions to its U.S. subsidiaries defined contribution pension plans effective April 1, 2009 through December 31, 2009. Effective January 1, 2010 the Company reinstated its annual contribution as described above. The Company also sponsors defined contribution pension plans for employees of certain foreign subsidiaries. Company contributions charged to operations, including discretionary amounts, for the three month periods ended January 2, 2011 and January 3, 2010 were \$1,411 and \$99, respectively.

10 INCOME TAXES

The Company files income tax returns in the U.S. federal jurisdiction and various state, local and foreign jurisdictions and is subject to ongoing examination by the various taxing authorities. The Company's major taxing jurisdictions are the U.S., United

Table of Contents**SPECTRUM BRANDS, INC.****Notes to Condensed Financial Statements (Unaudited) - Continued****(Amounts in thousands, except per share figures)**

Kingdom and Germany. In the U.S. federal tax filings for years prior to and including the Company's fiscal year ended September 30, 2006 are closed. However, the federal net operating loss carryforward from the Company's fiscal year ended September 30, 2006 is subject to Internal Revenue Service (IRS) examination until the year that such net operating loss carryforward is utilized and that year is closed for audit. The Company's fiscal years ended September 30, 2007, 2008, 2009, and 2010 remain open to examination by the IRS. Filings in various U.S. state and local jurisdictions are also subject to audit and to date no significant audit matters have arisen.

In the U.S. federal tax filings for years prior to and including Russell Hobbs fiscal year ended June 30, 2008 are closed. However, the federal net operating loss carryforward from Russell Hobbs fiscal year ended June 30, 2008 is subject to IRS examination until the year that such net operating loss carryforward is utilized and that year is closed for audit. Russell Hobbs fiscal year ended June 30, 2009 remains open to examination by the IRS. Filings in various U.S. state and local jurisdictions are also subject to audit and to date no significant audit matters have arisen.

11 SEGMENT RESULTS

Effective October 1, 2010 the Company began managing its business in three vertically integrated, product-focused reporting segments; (i) Global Batteries & Appliances; (ii) Global Pet Supplies; and (iii) the Home and Garden Business. See Note 1, Description of Business, for additional information regarding the Company's realignment of its reporting segments.

Global strategic initiatives and financial objectives for each reportable segment are determined at the corporate level. Each reportable segment is responsible for implementing defined strategic initiatives and achieving certain financial objectives and has a general manager responsible for the sales and marketing initiatives and financial results for product lines within that segment.

Net sales and Cost of goods sold to other business segments have been eliminated. The gross contribution of intersegment sales is included in the segment selling the product to the external customer. Segment net sales are based upon the segment from which the product is shipped.

The operating segment profits do not include restructuring and related charges, acquisition and integration related charges, reorganization items expense, net, interest expense, interest income, and income tax expense. In connection with the realignment of reportable segments discussed above, as of October 1, 2010 expenses associated with certain general and administrative expenses necessary to reflect the operating segments on a standalone basis and which were previously reflected in operating segment profits, have been excluded in the determination of reportable segment profits. Accordingly, corporate expenses primarily include general and administrative expenses and global long-term incentive compensation plans which are evaluated on a consolidated basis and not allocated to the Company's operating segments. All depreciation and amortization included in income from operations is related to operating segments or corporate expense. Costs are identified to operating segments or corporate expense according to the function of each cost center.

All capital expenditures are related to operating segments. Variable allocations of assets are not made for segment reporting.

The financial information presented herein reflects the impact of all of the preceding segment structure changes for all periods presented.

Segment information for the three month periods ended January 2, 2011 and January 3, 2010 is as follows:

	Three Months	
	2011	2010
<i>Net sales to external customers</i>		
Global Batteries & Appliances	\$ 696,572	\$ 428,671

12 RESTRUCTURING AND RELATED CHARGES

The Company reports restructuring and related charges associated with manufacturing and related initiatives in Cost of goods sold. Restructuring and related charges reflected in Cost of goods sold include, but are not limited to, termination and related costs associated with manufacturing employees, asset impairments relating to manufacturing initiatives, and other costs directly related to the restructuring or integration initiatives implemented.

The Company reports restructuring and related charges relating to administrative functions in Operating expenses, such as initiatives impacting sales, marketing, distribution, or other non-manufacturing related functions. Restructuring and related charges reflected in Operating expenses include, but are not limited to, termination and related costs, any asset impairments relating to the functional areas described above, and other costs directly related to the initiatives implemented as well as consultation, legal and accounting fees related to the evaluation of the Predecessor Company's capital structure incurred prior to the Bankruptcy filing.

The following table summarizes restructuring and related charges incurred by segment for the three month periods ended January 2, 2011 and January 3, 2010:

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

	Three Months	
	2011	2010

2009 Restructuring Initiatives

The Company implemented a series of initiatives within the Global Batteries & Appliances segment, the Global Pet Supplies segment and the Home and Garden Business segment to reduce operating costs as well as evaluate the Company's opportunities to improve its capital structure (the Global Cost Reduction Initiatives). These initiatives include headcount reductions within each of the Company's segments and the exit of certain facilities in the U.S. related to the Global Pet Supplies and Home and Garden Business segment. These initiatives also included consultation, legal and accounting fees related to the evaluation of the Company's capital structure. The Company recorded \$3,729 and \$7,721 of pretax restructuring and related charges during the three month periods ended January 2, 2011 and January 3, 2010, respectively, related to the Global Cost Reduction Initiatives. Costs associated with these initiatives, which are expected to be incurred through January 31, 2015, are projected to total approximately \$66,200.

Global Cost Reduction Initiatives Summary

The following table summarizes the remaining accrual balance associated with the 2009 initiatives and the activity during the three month period ended January 2, 2011:

	Termination Benefits	Other Costs	Total
Accrual balance at September 30, 2010	\$ 6,447	\$ 4,005	\$ 10,452
Provisions	2,232	32	2,264

(Amounts in thousands, except per share figures)

2008 Restructuring Initiatives

The Company implemented an initiative within the Global Batteries & Appliances segment to reduce operating costs and rationalize the Company's manufacturing structure. These initiatives include the plan to exit the Company's Ningbo, China battery manufacturing facility (the Ningbo Exit Plan). The Company recorded \$(150) and \$696 of pretax restructuring and related charges during the three month periods ended January 2, 2011 and January 3, 2010, respectively, in connection with the Ningbo Exit Plan. The Company has recorded pretax restructuring and related charges of \$29,378 since the inception of the Ningbo Exit Plan, which are now substantially complete.

Ningbo Exit Plan Summary

The following table summarizes the remaining accrual balance associated with the 2008 initiatives and the activity during the three month period ended January 2, 2011:

	Other Costs
Accrual balance at September 30, 2010	\$ 491
Provisions	26
Cash expenditures	(95)
Accrual balance at January 2, 2011	\$ 422
Expensed as incurred ^(A)	\$(176)

^(A) Consists of amounts not impacting the accrual for restructuring and related charges.

2007 Restructuring Initiatives

In Fiscal 2007, the Company began managing its business in three vertically integrated, product-focused reporting segments; Global Batteries & Personal Care (which, effective October 1, 2010, includes the appliance portion of Russell Hobbs, collectively, Global Batteries & Appliances), Global Pet Supplies and the Home and Garden Business. As part of this realignment, the Company's Global Operations organization, previously included in corporate expense, consisting of research and development, manufacturing management, global purchasing, quality operations and inbound supply chain, is now included in each of the operating segments. In connection with these changes the Company undertook a number of cost reduction initiatives, primarily headcount reductions, at the corporate and operating segment levels (the Global Realignment Initiatives). The Company recorded \$1,986 and \$(2,177) of pretax restructuring and related charges during the three month periods ended January 2, 2011 and January 3, 2010, respectively, in connection with the Global Realignment Initiatives. Costs associated with these initiatives, which are expected to be incurred through June 30, 2011, relate primarily to severance and are projected at approximately \$91,300, the majority of which are cash costs.

The following table summarizes the remaining accrual balance associated with the Global Realignment Initiatives and the activity during the three month period ended January 2, 2011:

Global Realignment Initiatives Summary

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

	Termination Benefits	Other Costs	Total
Accrual balance at September 30, 2010	\$ 8,721	\$ 2,281	\$ 11,002

(Amounts in thousands, except per share figures)

The following table summarizes the expenses as incurred during the three month period ended January 2, 2011, the cumulative amount incurred to date and the total future expected costs incurred associated with the Global Realignment Initiatives by operating segment:

	Global Batteries & Appliances	Home and Garden Business	Corporate	Total
Restructuring and related charges during the three month period ended January 2, 2011	\$ (8)	\$	\$ 1,994	\$ 1,986
Restructuring and related charges since initiative inception	\$ 46,661	\$ 6,762	\$ 37,150	\$ 90,573
Total future restructuring and related charges expected	\$	\$	\$ 725	\$ 725

2006 Restructuring Initiatives

The Company implemented a series of initiatives within the Global Batteries & Appliances segment in Europe to reduce operating costs and rationalize the Company's manufacturing structure (the European Initiatives). These initiatives, which are substantially complete, include the relocation of certain operations at the Ellwangen, Germany packaging center to the Dischingen, Germany battery plant and restructuring its sales, marketing and support functions. The Company recorded no pretax restructuring and related charges during both the three month periods ended January 2, 2011 and January 3, 2010 in connection with the European Initiatives. The Company has recorded pretax restructuring and related charges of \$26,965 since the inception of the European Initiatives.

The following table summarizes the remaining accrual balance associated with the European Initiatives and the activity during the three month period ended January 2, 2011:

European Initiatives Summary

	Termination Benefits	Other Costs	Total
Accrual balance at September 30, 2010	\$ 1,801	\$ 47	\$ 1,848
Cash expenditures	(124)	(37)	(161)
Non-cash items	(53)	(1)	(54)
Accrual balance at January 2, 2011	\$ 1,624	\$ 9	\$ 1,633

13 COMMITMENTS AND CONTINGENCIES

The Company has provided for the estimated costs associated with environmental remediation activities at some of its current and former manufacturing sites. The Company believes that any additional liability in excess of the amounts provided of approximately \$9,360, which may result from resolution of these matters, will not have a material adverse effect on the financial condition, results of operations or cash flows of the Company.

In December 2009, San Francisco Technology, Inc. filed an action in the Federal District Court for the Northern District of California against the Company, as well as a number of unaffiliated defendants, claiming that each of the defendants had falsely marked patents on certain of its products in violation of Article 35, Section 292 of the U.S. Code and seeking to have civil fines imposed on each of the defendants for such claimed violations. The Company is reviewing the claims but is unable to estimate any possible losses at this time.

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

Applica Consumer Products, Inc., (Applica) a subsidiary of the Company is a defendant in NACCO Industries, Inc. et al. v. Applica Incorporated et al., Case No. C.A. 2541-VCL, which was filed in the Court of Chancery of the State of Delaware in November 2006. The original complaint in this action alleged a claim for, among other things, breach of contract against Applica and a number of tort claims against certain entities affiliated with the HCP Funds. The claims against Applica related to the alleged breach of the merger agreement between Applica and NACCO Industries, Inc. (NACCO) and one of its affiliates, which agreement was terminated following Applica s receipt of a superior merger offer from the HCP Funds. On October 22, 2007, the plaintiffs filed an amended complaint asserting claims against Applica for, among other things, breach of contract and breach of the implied covenant of good faith relating to the termination of the NACCO merger agreement and asserting various tort claims against Applica and the HCP Funds. The original complaint was filed in conjunction with a motion preliminarily to enjoin the HCP Funds acquisition of Applica. On December 1, 2006, plaintiffs withdrew their motion for a preliminary injunction. In light of the consummation of Applica s merger

Table of Contents

SPECTRUM BRANDS, INC.

Notes to Condensed Financial Statements (Unaudited) - Continued

(Amounts in thousands, except per share figures)

with affiliates of the HCP Funds in January 2007 (Applica is currently a subsidiary of Russell Hobbs), the Company believes that any claim for specific performance is moot. Applica filed a motion to dismiss the amended complaint in December 2007. Rather than respond to the motion to dismiss the amended complaint, NACCO filed a motion for leave to file a second amended complaint, which was granted in May 2008. Applica moved to dismiss the second amended complaint, which motion was granted in part and denied in part in December 2009.

The trial is currently scheduled for February 2011. The Company may be unable to resolve the disputes successfully or without incurring significant costs and expenses. As a result, Russell Hobbs and Harbinger Master Fund have entered into an indemnification agreement, dated as of February 9, 2010, by which Harbinger Master Fund has agreed, effective upon the consummation of the Merger, to indemnify Russell Hobbs, its subsidiaries and any entity that owns all of the outstanding voting stock of Russell Hobbs against any out-of-pocket losses, costs, expenses, judgments, penalties, fines and other damages in excess of \$3,000 incurred with respect to this litigation and any future litigation or legal action against the indemnified parties arising out of or relating to the matters which form the basis of this litigation. The Company is reviewing the claims but is unable to estimate any possible losses at this time.

Applica is a defendant in three asbestos lawsuits in which the plaintiffs have alleged injury as the result of exposure to asbestos in hair dryers distributed by that subsidiary over 20 years ago. Although Applica never manufactured such products, asbestos was used in certain hair dryers distributed by it prior to 1979. The Company believes that these actions are without merit, but may be unable to resolve the disputes successfully without incurring significant expenses which the Company is unable to estimate at this time. At this time, the Company does not believe it has coverage under its insurance policies for the asbestos lawsuits.

The Company is a defendant in various other matters of litigation generally arising out of the ordinary course of business.

The Company does not believe that any other matters or proceedings presently pending will have a material adverse effect on its results of operations, financial condition, liquidity or cash flows.

14 ACQUISITIONS

Russell Hobbs

On June 16, 2010, the Company consummated the Merger, pursuant to which Spectrum Brands became a wholly-owned subsidiary of SB Holdings and Russell Hobbs became a wholly owned subsidiary of Spectrum Brands. Headquartered in Miramar, Florida, Russell Hobbs is a designer, marketer and distributor of a broad range of branded small household appliances. Russell Hobbs markets and distributes small kitchen and home appliances, pet and pest products and personal care products. Russell Hobbs has a broad portfolio of recognized brand names, including Black & Decker, George Foreman, Russell Hobbs, Toastmaster, LitterMaid, Farberware, Breadman and Juiceman. Russell Hobbs customers include mass merchandisers, specialty retailers and appliance distributors primarily in North America, South America, Europe and Australia.

The results of Russell Hobbs operations since June 16, 2010 are included in the Company's Condensed Consolidated Statements of Operations (Unaudited). Effective October 1, 2010, substantially all of the financial results of Russell Hobbs are reported within the Global Batteries & Appliances segment. In addition, certain pest control and pet products included in the former Small Appliances segment have been reclassified into the Home and Garden Business and Global Pet Supplies segments, respectively.

In accordance with ASC Topic 805, *Business Combinations* (ASC 805), the Company accounted for the Merger by applying the acquisition method of accounting. The acquisition method of accounting requires that the consideration transferred in a business combination be measured at fair value as of the closing date of the acquisition. After consummation of the Merger, the stockholders of Spectrum Brands, inclusive of the Harbinger Parties, owned approximately 60% of SB Holdings and the stockholders of Russell Hobbs owned approximately 40% of SB Holdings. Inasmuch as Russell Hobbs was a private company and its common stock was not publicly traded, the closing market price of the Spectrum Brands common stock at June 15, 2010 was used to calculate the purchase price. The total purchase price of Russell Hobbs was approximately \$597,579 determined as follows:

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

Spectrum Brands closing price per share on June 15, 2010	\$ 28.15
Purchase price Russell Hobbs allocation 20,704 shares(1)(2)	\$ 575,203
Cash payment to pay off Russell Hobbs North American credit facility	22,376
Total purchase price of Russell Hobbs	\$ 597,579

Table of Contents**SPECTRUM BRANDS, INC.****Notes to Condensed Financial Statements (Unaudited) - Continued**

(Amounts in thousands, except per share figures)

- (1) Number of shares calculated based upon conversion formula, as defined in the Merger Agreement, using balances as of June 16, 2010.
- (2) The fair value of 271 shares of unvested restricted stock units as they relate to post combination services will be recorded as operating expense over the remaining service period and were assumed to have no fair value for the purchase price.

Preliminary Purchase Price Allocation

The total purchase price for Russell Hobbs was allocated to the preliminary net tangible and intangible assets based upon their preliminary fair values at June 16, 2010 as set forth below. The excess of the purchase price over the preliminary net tangible assets and intangible assets was recorded as goodwill. The preliminary allocation of the purchase price was based upon a valuation for which the estimates and assumptions are subject to change within the measurement period (up to one year from the acquisition date). The primary areas of the preliminary purchase price allocation that are not yet finalized relate to the certain legal matters, amounts for income taxes including deferred tax accounts, amounts for uncertain tax positions, and net operating loss carryforwards inclusive of associated limitations, and the final allocation of goodwill. The Company expects to continue to obtain information to assist it in determining the fair values of the net assets acquired at the acquisition date during the measurement period. The preliminary purchase price allocation for Russell Hobbs is as follows:

Current assets	\$ 307,809
Property, plant and equipment	15,150
Intangible assets	363,327
Goodwill (A)	120,079
Other assets	15,752
Total assets acquired	\$ 822,117
Current liabilities	142,046
Total debt	18,970
Long-term liabilities	63,522
Total liabilities assumed	\$ 224,538
Net assets acquired	\$ 597,579

(A) Consists of \$25,426 of tax deductible Goodwill.

Preliminary Pre-Acquisition Contingencies Assumed

The Company has evaluated and continues to evaluate pre-acquisition contingencies relating to Russell Hobbs that existed as of the acquisition date. Based on the evaluation to date, the Company has preliminarily determined that certain pre-acquisition contingencies are probable in nature and estimable as of the acquisition date. Accordingly, the Company has preliminarily recorded its best estimates for these contingencies as part of the preliminary purchase price allocation for Russell Hobbs. The Company continues to gather information relating to all pre-acquisition contingencies that it has assumed from Russell Hobbs. Any changes to the pre-acquisition contingency amounts recorded during the measurement period will be included in the purchase price allocation. Subsequent to the end of the measurement period any adjustments to pre-acquisition contingency amounts will be reflected in the Company's results of operations.

Certain estimated values are not yet finalized and are subject to change, which could be significant. The Company will finalize the amounts recognized as it obtains the information necessary to complete its analysis during the measurement period. The following items are provisional and subject to change:

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

amounts for legal contingencies, pending the finalization of the Company's examination and evaluation of the portfolio of filed cases;

amounts for income taxes including deferred tax accounts, amounts for uncertain tax positions, and net operating loss carryforwards inclusive of associated limitations; and

the final allocation of Goodwill.

Table of Contents

SPECTRUM BRANDS, INC.

Notes to Condensed Financial Statements (Unaudited) - Continued

(Amounts in thousands, except per share figures)

ASC 805 requires, among other things, that most assets acquired and liabilities assumed be recognized at their fair values as of the acquisition date. Accordingly, the Company performed a preliminary valuation of the assets and liabilities of Russell Hobbs at June 16, 2010. Significant adjustments as a result of that preliminary valuation are summarized as followed:

Inventories An adjustment of \$1,721 was recorded to adjust inventory to fair value. Finished goods were valued at estimated selling prices less the sum of costs of disposal and a reasonable profit allowance for the selling effort.

Deferred tax liabilities, net An adjustment of \$43,086 was recorded to adjust deferred taxes for the preliminary fair value allocations.

Property, plant and equipment, net An adjustment of \$(455) was recorded to adjust the net book value of property, plant and equipment to fair value giving consideration to their highest and best use. Key assumptions used in the valuation of the Company's property, plant and equipment were based on the cost approach.

Certain indefinite-lived intangible assets were valued using a relief from royalty methodology. Customer relationships and certain definite-lived intangible assets were valued using a multi-period excess earnings method. Certain intangible assets are subject to sensitive business factors of which only a portion are within control of the Company's management. The total fair value of indefinite and definite lived intangibles was \$363,327 as of June 16, 2010. A summary of the significant key inputs were as follows:

The Company valued customer relationships using the income approach, specifically the multi-period excess earnings method. In determining the fair value of the customer relationship, the multi-period excess earnings approach values the intangible asset at the present value of the incremental after-tax cash flows attributable only to the customer relationship after deducting contributory asset charges. The incremental after-tax cash flows attributable to the subject intangible asset are then discounted to their present value. Only expected sales from current customers were used which included an expected growth rate of 3%. The Company assumed a customer retention rate of approximately 93% which was supported by historical retention rates. Income taxes were estimated at 36% and amounts were discounted using a rate of 15.5%. The customer relationships were valued at \$38,000 under this approach.

The Company valued trade names and trademarks using the income approach, specifically the relief from royalty method. Under this method, the asset value was determined by estimating the hypothetical royalties that would have to be paid if the trade name was not owned. Royalty rates were selected based on consideration of several factors, including prior transactions of Russell Hobbs related trademarks and trade names, other similar trademark licensing and transaction agreements and the relative profitability and perceived contribution of the trademarks and trade names. Royalty rates used in the determination of the fair values of trade names and trademarks ranged from 2.0% to 5.5% of expected net sales related to the respective trade names and trademarks. The Company anticipates using the majority of the trade names and trademarks for an indefinite period as demonstrated by the sustained use of each subjected trademark. In estimating the fair value of the trademarks and trade names, Net sales for significant trade names and trademarks were estimated to grow at a rate of 1%-14% annually with a terminal year growth rate of 3%. Income taxes were estimated at a range of 30%-38% and amounts were discounted using rates between 15.5%-16.5%. Trade name and trademarks were valued at \$170,930 under this approach.

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

The Company valued a trade name license agreement using the income approach, specifically the multi-period excess earnings method. In determining the fair value of the trade name license agreement, the multi-period excess earnings approach values the intangible asset at the present value of the incremental after-tax cash flows attributable only to the trade name license agreement after deducting contributory asset charges. The incremental after-tax cash flows attributable to the subject intangible asset are then discounted to their present value. In estimating the fair value of the trade name license agreement net sales were estimated to grow at a rate of (3)%-1% annually. The Company assumed a twelve year useful life of the trade name license agreement. Income taxes were estimated at 37% and amounts were discounted using a rate of 15.5%. The trade name license agreement was valued at \$149,200 under this approach.

The Company valued technology using the income approach, specifically the relief from royalty method. Under this method, the asset value was determined by estimating the hypothetical royalties that would have to be paid if the technology was not owned. Royalty rates were selected based on consideration of several factors including prior transactions of Russell Hobbs related licensing agreements and the importance of the technology and profit levels, among other considerations. Royalty rates used in the determination of the fair values of technologies were 2% of expected net sales related to the respective technology. The Company anticipates using these technologies

Table of Contents**SPECTRUM BRANDS, INC.****Notes to Condensed Financial Statements (Unaudited) - Continued**

(Amounts in thousands, except per share figures)

through the legal life of the underlying patent and therefore the expected life of these technologies was equal to the remaining legal life of the underlying patents ranging from 9 to 11 years. In estimating the fair value of the technologies, net sales were estimated to grow at a rate of 3%-12% annually. Income taxes were estimated at 37% and amounts were discounted using the rate of 15.5%. The technology assets were valued at \$4,100 under this approach.

Supplemental Pro Forma Information

The following reflects the Company's pro forma results had the results of Russell Hobbs been included for all periods beginning after September 30, 2009.

	THREE MONTHS	
	2011	2010
Net sales:		
Reported Net sales	\$ 861,067	\$ 591,940
Russell Hobbs adjustment		248,689
Pro forma Net sales	\$ 861,067	\$ 840,629
(Loss) income from continuing operations:		
Reported (Loss) income from continuing operations	\$ (19,746)	\$ (57,514)
Russell Hobbs adjustment		19,373
Pro forma Loss from continuing operations	\$ (19,746)	\$ (38,141)

Seed Resources, LLC

On December 3, 2010 the Company completed the \$10,524 cash acquisition of Seed Resources, LLC (Seed Resources). Seed Resources is a leading wild seed cake producer through its Birdola premium brand seed cakes. This acquisition was not significant individually. In accordance with ASC 805, the Company accounted for the acquisition by applying the acquisition method of accounting. The acquisition method of accounting requires that the consideration transferred in a business combination be measured at fair value as of the closing date of the acquisition.

The results of Seed Resources operations since December 3, 2010 are included in the Company's Condensed Consolidated Statements of Operations (Unaudited) and are reported as part of the Global Pet Supplies business segment. The preliminary purchase price of \$12,200, including a \$1,100 trade name intangible asset and \$10,029 of goodwill, for this acquisition was based upon a preliminary valuation. The Company's estimates and assumptions for this acquisition are subject to change as the Company obtains additional information for its estimates during the respective measurement period. The primary areas of the purchase price allocation that are not yet finalized relate to certain legal matters, income and non-income based taxes and residual goodwill.

15 RELATED PARTY TRANSACTIONS*Merger Agreement and Exchange Agreement*

On June 16, 2010 (the Closing Date), SB Holdings completed the Merger pursuant to the Agreement and Plan of Merger, dated as of February 9, 2010, as amended on March 1, 2010, March 26, 2010 and April 30, 2010, by and among SB Holdings, Russell Hobbs, Spectrum Brands, Battery Merger Corp., and Grill Merger Corp. (the Merger Agreement). As a result of the Merger, each of Spectrum Brands and Russell Hobbs became a wholly-owned subsidiary of SB Holdings. At the effective time of the Merger, (i) the outstanding shares of Spectrum Brands common stock

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

were canceled and converted into the right to receive shares of SB Holdings common stock, and (ii) the outstanding shares of Russell Hobbs common stock and preferred stock were canceled and converted into the right to receive shares of SB Holdings common stock.

Pursuant to the terms of the Merger Agreement, on February 9, 2010, Spectrum Brands entered into support agreements with the Harbinger Parties and Avenue International Master, L.P. and certain of its affiliates (the Avenue Parties), in which the Harbinger Parties and the Avenue Parties agreed to vote their shares of Spectrum Brands common stock acquired before the date of the Merger Agreement in favor of the Merger and against any alternative proposal that would impede the Merger.

Table of Contents

SPECTRUM BRANDS, INC.

Notes to Condensed Financial Statements (Unaudited) - Continued

(Amounts in thousands, except per share figures)

Immediately following the consummation of the Merger, the Harbinger Parties owned approximately 64% of the outstanding SB Holdings common stock and the stockholders of Spectrum Brands (other than the Harbinger Parties) owned approximately 36% of the outstanding SB Holdings common stock.

On January 7, 2011, the Harbinger Parties contributed 27,757 shares of SB Holdings common stock to Harbinger Group, Inc. (HRG) and received in exchange for such shares an aggregate of 119,910 shares of HRG common stock (the Share Exchange), pursuant to a Contribution and Exchange Agreement (the Exchange Agreement). As a result of the Share Exchange, (i) HRG owns approximately 54.4% of the outstanding shares of SB Holdings common stock and the Harbinger Parties own approximately 12.7% of the outstanding shares of SB Holdings common stock, and (ii) the Harbinger Parties own 129,860 shares of HRG common stock, or approximately 93.3% of the outstanding HRG common stock.

In connection with the Merger, the Harbinger Parties and SB Holdings entered into a stockholder agreement, dated February 9, 2010 (the Stockholder Agreement), which provides for certain protective provisions in favor of minority stockholders and provides certain rights and imposes certain obligations on the Harbinger Parties, including:

for so long as the Harbinger Parties own 40% or more of the outstanding voting securities of SB Holdings, the Harbinger Parties and HRG will vote their shares of SB Holdings common stock to effect the structure of the SB Holdings board of directors as described in the Stockholder Agreement;

the Harbinger Parties will not effect any transfer of equity securities of SB Holdings to any person that would result in such person and its affiliates owning 40% or more of the outstanding voting securities of SB Holdings, unless specified conditions are met; and

the Harbinger Parties will be granted certain access and informational rights with respect to SB Holdings and its subsidiaries. Pursuant to a joinder to the Stockholder Agreement entered into by the Harbinger Parties and HRG previously, upon consummation of the Share Exchange, HRG became a party to the Stockholder Agreement, subject to all of the covenants, terms and conditions of the Stockholder Agreement to the same extent as the Harbinger Parties were bound thereunder prior to giving effect to the Share Exchange.

Certain provisions of the Stockholder Agreement terminate on the date on which the Harbinger Parties or HRG no longer constitutes a Significant Stockholder (as defined in the Stockholder Agreement). The Stockholder Agreement terminates when any person (including the Harbinger Parties or HRG) acquires 90% or more of the outstanding voting securities of SB Holdings.

Also in connection with the Mergers, the Harbinger Parties, the Avenue Parties and SB Holdings entered into a registration rights agreement, dated as of February 9, 2010 (the SB Holdings Registration Rights Agreement), pursuant to which the Harbinger Parties and the Avenue Parties have, among other things and subject to the terms and conditions set forth therein, certain demand and so-called piggy back registration rights with respect to their shares of SB Holdings common stock. On September 10, 2010, the Harbinger Parties and HRG entered into a joinder to the SB Holdings Registration Rights Agreement, pursuant to which, effective upon the consummation of the Share Exchange, HRG will become a party to the SB Holdings Registration Rights Agreement, entitled to the rights and subject to the obligations of a holder thereunder.

Other Agreements

On August 28, 2009, in connection with Spectrum Brands emergence from Chapter 11 reorganization proceedings, Spectrum Brands entered into a registration rights agreement with the Harbinger Parties, the Avenue Parties and D.E. Shaw Laminar Portfolios, L.L.C. (D.E. Shaw), pursuant to which the Harbinger Parties, the Avenue Parties and D.E. Shaw have, among other things and subject to the terms and conditions set

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

forth therein, certain demand and so-called piggy back registration rights with respect to their Spectrum Brands 12% Notes.

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

In connection with the Mergers, Russell Hobbs and Harbinger Master Fund entered into an indemnification agreement, dated as of February 9, 2010 (the Indemnification Agreement), by which Harbinger Master Fund agreed, among other things and subject to the terms and conditions set forth therein, to guarantee the obligations of Russell Hobbs to pay (i) a reverse termination fee to Spectrum Brands under the merger agreement and (ii) monetary damages awarded to Spectrum Brands in connection with any willful and material breach by Russell Hobbs of the Merger Agreement. The maximum amount payable by Harbinger Master Fund under the Indemnification Agreement was \$50,000 less any amounts paid by Russell Hobbs or the Harbinger Parties, or any of their respective affiliates as damages under any documents related to the Mergers. No such amounts became due under the Indemnification

(Amounts in thousands, except per share figures)

Agreement. Harbinger Master Fund also agreed to indemnify Russell Hobbs, SB Holdings and their subsidiaries for out-of-pocket costs and expenses above \$3,000 in the aggregate that become payable after the consummation of the Mergers and that relate to the litigation arising out of Russell Hobbs' business combination transaction with Applicia Incorporated.

16 NEW ACCOUNTING PRONOUNCEMENTS

Business Combinations

In December 2007, the Financial Accounting Standards Board (the FASB) issued new accounting guidance on business combinations and noncontrolling interests in consolidated financial statements. The objective is to improve the relevance, representational faithfulness and comparability of the information that a reporting entity provides in its financial reports about a business combination and its effects. The guidance applies to all transactions or other events in which an entity (the acquirer) obtains control of one or more businesses (the acquiree), including those sometimes referred to as true mergers or mergers of equals and combinations achieved without the transfer of consideration. The guidance, among other things, requires companies to provide disclosures relating to the gross amount of goodwill and accumulated goodwill impairment losses. In April 2009, the FASB issued additional guidance which addresses application issues arising from contingencies in a business combination. The Company adopted the new guidance beginning October 1, 2009. The Company completed the Merger during Fiscal 2010 and acquired Seed Resources on December 3, 2010. (See Note 14, Acquisitions, for information relating to the Merger and the Seed Resources Acquisition.)

Employers' Disclosures about Postretirement Benefit Plan Assets

In December 2008, the FASB issued new accounting guidance on employers' disclosures about assets of a defined benefit pension or other postretirement plan. It requires employers to disclose information about fair value measurements of plan assets. The objectives of the disclosures are to provide an understanding of: (a) how investment allocation decisions are made, including the factors that are pertinent to an understanding of investment policies and strategies; (b) the major categories of plan assets; (c) the inputs and valuation techniques used to measure the fair value of plan assets; (d) the effect of fair value measurements using significant unobservable inputs on changes in plan assets for the period; and (e) significant concentrations of risk within plan assets. The Company adopted this new guidance at September 30, 2010, the fair value measurement date of its defined benefit pension and retiree medical plans. (See Note 9, Employee Benefit Plans, for the applicable disclosures.)

Table of Contents

17 CONSOLIDATING FINANCIAL STATEMENTS

On the Effective Date, pursuant to the Plan, Spectrum Brands, with its domestic subsidiaries as guarantors, issued the 12% Notes under the 2019 Indenture for the benefit of holders of allowed claims with respect to the Predecessor Company's then-existing senior subordinated notes. See Note 2, Voluntary Reorganization Under Chapter 11, in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2010, for further details of the Bankruptcy Cases. In connection with the Merger, Spectrum Brands, with its domestic subsidiaries and SB/RH Holdings, LLC as guarantors, issued the 9.5% Notes under the 2018 Indenture. (See Note 6, Debt, for further information on the 12% Notes and the 2019 Indenture and the 9.5% Notes under the 2018 Indenture.)

The following consolidating financial statements illustrate the components of the consolidated financial statements of the Successor Company and the Predecessor Company. Investments in subsidiaries are accounted for using the equity method for purposes of illustrating the consolidating presentation. Earnings of subsidiaries are therefore reflected in the Company's and guarantor subsidiaries' investment accounts and earnings. The elimination entries presented herein eliminate investments in subsidiaries and intercompany balances and transactions. Separate consolidated financial statements of the guarantor subsidiaries are not presented because management has determined that such financial statements would not be material to investors.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Introduction**

Spectrum Brands, Inc., a Delaware corporation ("Spectrum Brands"), is a global branded consumer products company. Spectrum Brands Holdings, Inc. ("SB Holdings") was created in connection with the combination of Spectrum Brands and Russell Hobbs, Inc. ("Russell Hobbs"), a global branded small appliance company, to form a new combined company (the "Merger"). The Merger was consummated on June 16, 2010. As a result of the Merger, both Spectrum Brands and Russell Hobbs are wholly-owned subsidiaries of SB Holdings and Russell Hobbs is a wholly-owned subsidiary of Spectrum Brands. SB Holdings trades on the New York Stock Exchange under the symbol "SPB".

In connection with the Merger, we refinanced Spectrum Brands' existing senior debt, except for Spectrum Brands' 12% Senior Subordinated Toggle Notes due 2019 (the "12% Notes"), which remain outstanding, and a portion of Russell Hobbs' existing senior debt through a combination of a new \$750 million Term Loan due June 16, 2016 (the "Term Loan"), a new \$750 million 9.5% Senior Secured Notes maturing June 15, 2018 (the "9.5% Notes") and a new \$300 million ABL revolving facility due June 16, 2014 (the "ABL Revolving Credit Facility") and together with the Term Loan, the "Senior Credit Facilities" and together with the 9.5% Notes, the "Senior Secured Facilities").

As further described below, on February 3, 2009, we and our wholly owned United States ("U.S.") subsidiaries (collectively, the "Debtors") filed voluntary petitions under Chapter 11 of the U.S. Bankruptcy Code (the "Bankruptcy Code"), in the U.S. Bankruptcy Court for the Western District of Texas (the "Bankruptcy Court"). On August 28, 2009 (the "Effective Date"), the Debtors emerged from Chapter 11 of the Bankruptcy Code. Effective as of the Effective Date and pursuant to the Debtors' confirmed plan of reorganization, we converted from a Wisconsin corporation to a Delaware corporation.

Unless the context indicates otherwise, the terms the "Company", "Spectrum", "we", "our" or "us" are used to refer to SB Holdings and its subsidiaries subsequent to the Merger and Spectrum Brands prior to the Merger, as well as before, on and after the Effective Date. The term "Old Spectrum" refers only to Spectrum Brands, our Wisconsin predecessor, and its subsidiaries prior to the Effective Date.

Business Overview

We are a diversified global branded consumer products company with positions in seven major product categories: consumer batteries; pet supplies; home and garden control products; electric shaving and grooming; small appliances; electric personal care; and portable lighting.

Effective October 1, 2010, our chief operating decision-maker decided to manage our businesses in three vertically integrated, product-focused reporting segments: (i) Global Batteries & Appliances, which consists of our worldwide battery, electric shaving and grooming, electric personal care, portable lighting business and small appliances primarily in the kitchen and home product categories ("Global Batteries & Appliances"); (ii) Global Pet Supplies, which consists of our worldwide pet supplies business ("Global Pet Supplies"); and (iii) Home and Garden Business, which consists of our home and garden and insect control businesses (the "Home and Garden Business"). The current reporting segment structure reflects the combination of the former Global Batteries & Personal Care segment ("Global Batteries & Personal Care"), which consisted of the worldwide battery, electric shaving and grooming, electric personal care and portable lighting business, with substantially all of the former Small Appliances segment, which consisted of the Russell Hobbs businesses acquired on June 16, 2010 ("Small Appliances"), to form Global Batteries & Appliances. In addition, certain pest control and pet products included in the former Small Appliances segment have been reclassified into the Home and Garden Business and Global Pet Supplies segments, respectively. The presentation of all historical segment reporting herein has been changed to conform to this segment reporting.

We manufacture and market alkaline, zinc carbon and hearing aid batteries, herbicides, insecticides and repellants and specialty pet supplies. We design and market rechargeable batteries, battery-powered lighting products, electric shavers and accessories, grooming products and hair care appliances. With the addition of Russell Hobbs we design, market and distribute a broad range of branded small household appliances and personal care products. Our manufacturing and product development facilities are located in the United States, Europe, Latin America and Asia. Substantially all of our rechargeable batteries and chargers, shaving and grooming products, small household appliances, personal care products and portable lighting products are manufactured by third-party suppliers, primarily located in Asia.

We sell our products in approximately 120 countries through a variety of trade channels, including retailers, wholesalers and distributors, hearing aid professionals, industrial distributors and original equipment manufacturers ("OEMs") and enjoy strong name recognition in our markets under the Rayovac, VARTA and Remington brands, each of which has been in existence for more than 80

Table of Contents

years, and under the Tetra, 8-in-1, Spectracide, Cutter, Black & Decker, George Foreman, Russell Hobbs, Farberware and various other brands.

Global and geographic strategic initiatives and financial objectives are determined at the corporate level. Each business segment is responsible for implementing defined strategic initiatives and achieving certain financial objectives and has a general manager responsible for sales and marketing initiatives and the financial results for all product lines within that business segment.

Our operating performance is influenced by a number of factors including: general economic conditions; foreign exchange fluctuations; trends in consumer markets; consumer confidence and preferences; our overall product line mix, including pricing and gross margin, which vary by product line and geographic market; pricing of certain raw materials and commodities; energy and fuel prices; and our general competitive position, especially as impacted by our competitors' advertising and promotional activities and pricing strategies.

Results of Operations**Fiscal Quarter Ended January 2, 2011 Compared to Fiscal Quarter Ended January 3, 2010**

In this Quarterly Report on Form 10-Q we refer to the three months ended January 2, 2011 as the Fiscal 2011 Quarter and the three months ended January 3, 2010 as the Fiscal 2010 Quarter.

Net Sales. Net sales for the Fiscal 2011 Quarter increased to \$861 million from \$592 million in the Fiscal 2010 Quarter, a 46% increase. The following table details the principal components of the change in net sales from the Fiscal 2010 Quarter to the Fiscal 2011 Quarter (in millions):

	Net Sales
Fiscal 2010 Quarter Net Sales	\$ 592
Addition of Russell Hobbs as a result of the Merger	248
Increase in Global Batteries & Appliances Remington branded product sales	21
Increase in Global Batteries & Appliances consumer battery sales	13
Increase in Portable Lighting product sales	4
Decrease in Pet supplies sales	(4)
Foreign currency impact, net	(13)
Fiscal 2011 Quarter Net Sales	\$ 861

Consolidated net sales by product line for the Fiscal 2011 Quarter and the Fiscal 2010 Quarter are as follows (in millions):

	Fiscal Quarter	
	2011	2010
Product line net sales		
Addition of Russell Hobbs - small appliances	\$ 243	\$
Addition of Russell Hobbs - pet supplies	4	
Addition of Russell Hobbs - home and garden control products	1	
Consumer batteries	248	244
Pet supplies	133	137
Electric shaving and grooming products	98	87
Electric personal care products	82	76
Home and garden control products	26	26
Portable lighting products	26	22
Total net sales to external customers	\$ 861	\$ 592

Global consumer battery sales increased \$4 million, or 2%, primarily driven by increased North American Net sales of \$13 million, which was partially offset by unfavorable foreign exchange translation of \$8 million. The increase within North America was driven by sales with a major

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

customer. The \$4 million, or 3%, decrease in pet supplies sales is primarily attributable to continued softness in the aquatics business due to macroeconomic factors and unfavorable foreign exchange translation of approximately \$1 million. Electric shaving and grooming products increased \$11 million, or 13%, primarily due to increased sales within Europe and North America of \$6 million and \$5 million, respectively. Electric personal care sales increased \$6 million, or 9%, due to increased sales in Europe of \$11 million, tempered by a \$3 million sales decline in North America and unfavorable foreign exchange translation of \$2 million. Home and garden control product sales were flat during the Fiscal 2011 Quarter compared to the Fiscal 2010 Quarter.

Table of Contents

The \$4 million, or 15%, increase in portable lighting sales was primarily driven by increased sales with a major customer as a result of new product launches.

Gross Profit. Gross profit for the Fiscal 2011 Quarter was \$299 million versus \$184 million for the Fiscal 2010 Quarter. Our gross profit margin for the Fiscal 2011 Quarter increased to 34.8% from 31.2% in the Fiscal 2010 Quarter. The increase in gross profit is primarily attributable to the Merger, which contributed \$72 million of gross profit in the Fiscal 2011 Quarter, and the non-recurrence of a \$34 million inventory revaluation charge we recognized associated with our adoption of fresh-start reporting upon emergence from Chapter 11 of the Bankruptcy Code. Inventory balances were revalued at August 30, 2009 resulting in an increase in such inventory balances of \$49 million. As a result of the inventory revaluation, we recognized \$34 million in additional cost of goods sold in the Fiscal 2010 Quarter. The increase in gross profit margin is also primarily due to the non-recurrence of the \$34 million inventory revaluation charge recognized in the Fiscal 2010 Quarter as previously discussed.

Operating Expense. Operating expenses for the Fiscal 2011 Quarter totaled \$230 million versus \$166 million for the Fiscal 2010 Quarter representing an increase of \$64 million. The increase in operating expenses during the Fiscal 2011 Quarter is primarily attributable to the Merger, which contributed \$49 million of operating expenses in the Fiscal 2011 Quarter. Also contributing to the increase in operating expenses was a \$14 million increase in Acquisition and integration related charges primarily related to the Merger. See *Acquisition and Integration Related Charges* below, as well as Note 2, Significant Accounting Policies *Acquisition and Integration Related Charges*, to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for additional information regarding our acquisition and integration related charges.

Segment Results. As discussed above, we manage our business in three reportable segments: (i) Global Batteries & Appliances; (ii) Global Pet Supplies; and (iii) our Home and Garden Business.

The operating segment profits do not include restructuring and related charges, acquisition and integration related charges, reorganization items expense, net, interest expense, interest income and income tax expense. In connection with the realignment of reportable segments discussed above, as of October 1, 2010 expenses associated with certain general and administrative expenses necessary to reflect the operating segments on a standalone basis and which were previously reflected in operating segment profits, have been excluded in the determination of reportable segment profits. Accordingly, corporate expenses primarily include general and administrative expenses and global long-term incentive compensation plans which are evaluated on a consolidated basis and not allocated to our operating segments. All depreciation and amortization included in income from operations is related to operating segments or corporate expense. Costs are identified to operating segments or corporate expense according to the function of each cost center.

All depreciation and amortization included in income from operations is related to operating segments or corporate expense. Costs are allocated to operating segments or corporate expense according to the function of each cost center. All capital expenditures are related to operating segments. Variable allocations of assets are not made for segment reporting.

Global strategic initiatives and financial objectives for each reportable segment are determined at the corporate level. Each reportable segment is responsible for implementing defined strategic initiatives and achieving certain financial objectives and has a general manager responsible for the sales and marketing initiatives and financial results for product lines within that segment. Financial information pertaining to our reportable segments is contained in Note 11, Segment Results, to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q.

Adjusted EBITDA is a metric used by management and frequently used by the financial community which provides insight into an organization's operating trends and facilitates comparisons between peer companies, since interest, taxes, depreciation and amortization can differ greatly between organizations as a result of differing capital structures and tax strategies. Adjusted EBITDA can also be a useful measure of a company's ability to service debt and is one of the measures used for determining our debt covenant compliance. Adjusted EBITDA excludes certain items that are unusual in nature or not comparable from period to period. While we believe that adjusted EBITDA is useful supplemental information, such adjusted results are not intended to replace our GAAP financial results and should be read in conjunction with those GAAP results.

Below is a reconciliation of GAAP Net Income (Loss) to Adjusted EBITDA by segment for the Fiscal 2011 Quarter and the Fiscal 2010 Quarter:

Fiscal 2011 Quarter

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

	Global Batteries & Appliances	Global Pet Supplies	Home and Garden Business (in millions)	Corporate / Unallocated Items(a)	Consolidated Spectrum Brands
Net Income (loss)	\$ 79	\$ 13	\$ (7)	\$ (105)	\$ (20)
Income tax expense				35	35

(a) It is our policy to record Income tax expense and interest expense on a consolidated basis. Accordingly, such amounts are not reflected in the operating results of the operating segments.

Global Batteries & Appliances

	2011	2010
	(in millions)	
Net sales to external customers	\$ 697	\$ 429
Segment profit	\$ 93	\$ 48
Segment profit as a % of net sales	13.4%	11.3%
Segment Adjusted EBITDA	\$ 111	\$ 106
Assets at January 2, 2011 and September 30, 2010	\$ 2,345	\$ 2,477

Segment net sales to external customers in the Fiscal 2011 Quarter increased \$268 million to \$697 million from \$429 million during the Fiscal 2010 Quarter, a 62% increase. The Merger accounted for a Net sales increase of \$242 million in the small appliances product category during the Fiscal 2011 Quarter. Unfavorable foreign currency exchange translation impacted net sales in the Fiscal 2011 Quarter by approximately \$13 million. Consumer battery sales for the Fiscal 2011 Quarter increased to \$248 million when compared to sales of \$244 million in the Fiscal 2010

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

Quarter. The increase in sales is attributable to increases within North America, driven by a major customer, which was partially offset by unfavorable foreign exchange translation of \$8 million. Net sales of electric shaving and grooming products in the Fiscal 2011 Quarter increased by \$11 million from their levels in the Fiscal 2010 Quarter, primarily due to increases within Europe and North America of \$6 million and \$5 million, respectively. Net sales of electric personal care products in the Fiscal 2011 Quarter increased by \$6 million compared to the Fiscal 2010 Quarter due to increased sales in Europe

Table of Contents

of \$11 million, tempered by a \$3 million sales decline in North America and unfavorable foreign exchange translation of \$2 million. The electric shaving and grooming and personal care products net sales growth was attributable to a combination of new product introductions, product line extensions and expanded in-store promotions. Net sales of portable lighting products for the Fiscal 2011 Quarter increased to \$26 million as compared to sales of \$22 million for the Fiscal 2010 Quarter. This increase was primarily driven by increased sales with a major customer as a result of new product launches.

Segment profitability in the Fiscal 2011 Quarter increased to \$93 million from \$48 million in the Fiscal 2010 Quarter. Segment profitability as a percentage of net sales increased to 13.4% in the Fiscal 2011 Quarter compared from 11.3% in the Fiscal 2010 Quarter. The increase is due to the segment profit realized from the Merger of \$12 million and the non-recurrence of a \$19 million increase in cost of goods sold due to the revaluation of inventory in connection with our adoption of fresh-start reporting upon emergence from Chapter 11 of the Bankruptcy Code that we recognized during the Fiscal 2010 Quarter. Furthermore, segment profit has increased as a result of our cost reduction initiatives announced in Fiscal 2009 and our global realignment initiatives announced in January 2007. See *Restructuring and Related Charges* below, as well as Note 12, Restructuring and Related Charges, to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for additional information regarding our restructuring and related charges.

Segment Adjusted EBITDA in the Fiscal 2011 Quarter was \$111 million compared to \$106 million in the Fiscal 2010 Quarter. The increase in Adjusted EBITDA is mainly driven by the efficient cost structure now in place from our cost reduction initiatives announced in Fiscal 2009 coupled with increases in market share in certain of our product categories.

Segment assets at January 2, 2011 decreased to \$2,345 million from \$2,477 million at September 30, 2010. The decrease is primarily due to the impact of unfavorable foreign currency translation. Goodwill and intangible assets, which are directly a result of the revaluation impacts of fresh-start reporting and the Merger, at January 2, 2011 decreased slightly to \$1,339 million from \$1,355 million at September 30, 2010.

Global Pet Supplies

	2011	2010
	(in millions)	
Net sales to external customers	\$137	\$ 137
Segment profit	\$ 16	\$ 1
Segment profit as a % of net sales	11.8%	1.0%
Segment Adjusted EBITDA	\$ 22	\$ 24
Assets at January 2, 2011 and September 30, 2010	\$844	\$ 839

Segment net sales to external customers in the Fiscal 2011 Quarter were flat at \$137 million compared to the Fiscal 2010 Quarter. The Merger accounted for a Net sales increase in the companion animal business of \$4 million during the Fiscal 2011 Quarter. This was offset by continued softness in the aquatics business due to macroeconomic factors and unfavorable foreign exchange translation of approximately \$1 million.

Segment profitability in the Fiscal 2011 Quarter was \$16 million versus \$1 million in the Fiscal 2010 Quarter. Segment profitability as a percentage of sales in the Fiscal 2011 Quarter increased to 11.8% from 1.0% in the same period last year. The increase in segment profitability for the Fiscal 2011 Quarter was mainly attributable to the non-recurrence of a \$14 million increase in cost of goods sold due an inventory revaluation charge associated with our adoption of fresh-start reporting that we recognized during the Fiscal 2010 Quarter.

Segment Adjusted EBITDA in the Fiscal 2011 Quarter was \$22 million compared to \$24 million in the Fiscal 2010 Quarter. The slight decline in Adjusted EBITDA is driven by product mix and modest remaining expenses from the companion animal recall we announced in the fourth quarter of our fiscal year ended September 30, 2010.

Segment assets at January 2, 2011 increased to \$844 million from \$839 million at September 30, 2010. The increase is primarily due to the acquisition of Seed Resources, LLC during the Fiscal 2011 Quarter, which was partially offset by the impact of foreign currency translation. Goodwill and intangible assets, which are directly a result of the revaluation impacts of fresh-start reporting, the Merger and the acquisition of Seed Resources, LLC increased slightly to \$603 million at January 2, 2011 from \$602 million at September 30, 2010.

Home and Garden Business

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

	2011	2010
	(in millions)	
Net sales to external customers	\$ 27	\$ 26
Segment profit	\$ (7)	\$ (10)
Segment profit as a % of net sales	(24.9)%	(36.5)%
Segment Adjusted EBITDA	\$ (3)	\$ (4)
Assets at January 2, 2011 and September 30, 2010	\$ 500	\$ 496

Segment net sales to external customers in the Fiscal 2011 Quarter increased slightly to \$27 million from \$26 million in the Fiscal 2010 Quarter. The Merger accounted for a Net sales increase of \$1 million during the Fiscal 2011 Quarter. The first quarter of

Table of Contents

the fiscal year is generally a period of internal inventory building in advance of the Home and Garden Business segment's major selling season, typically in the spring and summer months. First quarter net sales for the Home and Garden Business segment are typically less than 9 percent of full-year net sales.

Segment profitability in the Fiscal 2011 Quarter increased to a loss of \$(7) million from a loss of \$(10) million in the Fiscal 2010 Quarter. Segment profitability as a percentage of sales in the Fiscal 2011 Quarter increased to (24.9)% from (36.5)% in the same period last year. This improvement in segment profitability was attributable to the non-recurrence of a \$2 million increase in cost of goods sold due to an inventory revaluation charge associated with our adoption of fresh-start reporting that we recognized during the Fiscal 2010 Quarter.

Segment Adjusted EBITDA in the Fiscal 2011 Quarter was \$(3) million compared to \$(4) million in the Fiscal 2010 Quarter.

Segment assets at January 2, 2011 increased slightly to \$500 million from \$496 million at September 30, 2010. Goodwill and intangible assets, which are substantially a direct result of the revaluation impacts of fresh-start reporting, at January 2, 2011 decreased slightly to \$411 million from \$413 million at September 30, 2010.

Corporate Expense. Our corporate expense in the Fiscal 2011 Quarter was \$11 million compared to \$12 million during the Fiscal 2010 Quarter. Corporate expense as a percentage of consolidated net sales for the Fiscal 2011 Quarter was 1.3% and 2.0% for the Fiscal 2010 Quarter. The decrease is primarily due to decreased incentive accruals coupled with savings from the global realignment announced in the fiscal year ended September 30, 2007, which was partially offset by increased stock compensation expense of \$2 million in the Fiscal 2011 Quarter compared to the Fiscal 2010 Quarter.

Acquisition and Integration and Related Charges. Acquisition and integration related charges reflected in Operating expenses include, but are not limited to transaction costs such as banking, legal and accounting professional fees directly related to the acquisition, termination and related costs for transitional and certain other employees, integration related professional fees and other post business combination related expenses associated with our acquisitions.

We incurred \$16 million of Acquisition and integration related charges during the Fiscal 2011 Quarter in connection with the Merger which consisted of the following: (i) \$2 million of legal and professional fees; (ii) \$4 million of employee termination charges; and (iii) \$10 million of integration costs. We incurred \$2 million of Acquisition and integration related charges during the Fiscal 2010 Quarter in connection with the Merger which consisted of legal and professional fees.

The Company incurred de minimis acquisition and integration related charges associated with the acquisition of Seed Resources, LLC during the Fiscal 2011 Quarter.

Restructuring and Related Charges. See Note 12, Restructuring and Related Charges, to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for additional information regarding our restructuring and related charges.

The following table summarizes all restructuring and related charges we incurred in the Fiscal 2011 Quarter and the Fiscal 2010 Quarter (in millions):

	2011	2010
Costs included in cost of goods sold:		
Latin America initiatives:		
Termination benefits		\$ 0.2
Ningbo Exit Plan:		
Other associated costs	(0.1)	0.6
Global Cost Reduction Initiatives:		
Termination benefits	0.1	0.2
Other associated costs	0.6	0.6
Total included in cost of goods sold	\$0.6	\$ 1.6
Costs included in operating expenses:		
Global Realignment:

Other associated costs	0.8	6.3
Total included in operating expenses	\$5.0	\$ 4.8

Table of Contents

	2011	2010
Total restructuring and related charges	\$5.6	\$ 6.4

We have implemented a series of initiatives in the Global Batteries & Appliances segment in Europe to reduce operating costs and rationalize our manufacturing structure (the European Initiatives). In connection with the European Initiatives, which are substantially complete, we implemented a series of initiatives within the Global Batteries & Appliances segment in Europe to reduce operating costs and rationalize our manufacturing structure. These initiatives include the relocation of certain operations at our Ellwangen, Germany packaging center to the Dischingen, Germany battery plant and restructuring Europe's sales, marketing and support functions. We recorded no pretax restructuring and related charges during the Fiscal 2011 Quarter and the Fiscal 2010 Quarter in connection with the European Initiatives. We have recorded pretax restructuring and related charges of approximately \$27 million since the inception of the European Initiatives.

In Fiscal 2007, we began managing our business in three vertically integrated, product-focused reporting segments; Global Batteries & Personal Care (which, effective October 1, 2010, includes the appliance portion of Russell Hobbs, collectively, Global Batteries & Appliances), Global Pet Supplies and the Home and Garden Business. As part of this realignment, our global operations organization, which had previously been included in corporate expense, consisting of research and development, manufacturing management, global purchasing, quality operations and inbound supply chain, is now included in each of the operating segments. In connection with these changes we undertook a number of cost reduction initiatives, primarily headcount reductions, at the corporate and operating segment levels (the Global Realignment Initiatives). We recorded approximately \$2 million and \$(2) million of pretax restructuring and related charges during the Fiscal 2011 Quarter and the Fiscal 2010 Quarter, respectively, in connection with the Global Realignment Initiatives. Costs associated with these initiatives, which are expected to be incurred through June 30, 2011, relate primarily to severance and are projected at approximately \$92 million.

During Fiscal 2008, we implemented an initiative within the Global Batteries & Appliances segment to reduce operating costs and rationalize our manufacturing structure. These initiatives, which are substantially complete, include the exit of our battery manufacturing facility in Ningbo, China (Ningbo) (the Ningbo Exit Plan). We recorded de minimis pretax restructuring and related charges during the Fiscal 2011 Quarter and approximately \$1 million of pretax restructuring and related charges during the Fiscal 2010 Quarter, in connection with the Ningbo Exit Plan. We have recorded pretax restructuring and related charges of approximately \$29 million since the inception of the Ningbo Exit Plan.

During Fiscal 2009, we implemented a series of initiatives within the Global Batteries & Appliances segment, the Global Pet Supplies segment, and the Home and Garden Business segment to reduce operating costs as well as evaluate our opportunities to improve our capital structure (the Global Cost Reduction Initiatives). These initiatives include headcount reductions within all our segments and the exit of certain facilities in the U.S. related to the Global Pet Supplies and the Home and Garden Business segments. These initiatives also included consultation, legal and accounting fees related to the evaluation of our capital structure. We recorded \$4 million and \$8 million of pretax restructuring and related charges during the Fiscal 2011 Quarter and the Fiscal 2010 Quarter, respectively, related to the Global Cost Reduction Initiatives. Costs associated with these initiatives, which are expected to be incurred through January 31, 2015, are projected at approximately \$59 million.

Interest Expense. Interest expense in the Fiscal 2011 Quarter increased to \$53 million from \$49 million in the Fiscal 2010 Quarter. The increased interest expense in the Fiscal 2011 Quarter is primarily related to the increased debt that was acquired in conjunction with the Merger as well as an increased principal balance on our 12% Notes. See Note 7, Debt, to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for additional information regarding our outstanding debt.

Reorganization Items. During the Fiscal 2010 Quarter, we, in connection with our reorganization, and subsequent emergence under Chapter 11 of the Bankruptcy Code, recorded Reorganization items expense of \$4 million, which are primarily professional and legal fees.

Income Taxes. Our effective tax rate on income from continuing operations is approximately 229% for the Fiscal 2011 Quarter. Our effective tax rate on a loss from continuing operations was approximately (64)% for the Fiscal 2010 Quarter. We have had changes of ownership, as defined under Internal Revenue Code (IRC) Section 382, that continue to subject a significant amount of our U.S. federal and state net operating losses and other tax attributes to certain limitations. Under ASC Topic 740: *Income Taxes*, (ASC 740) we, as discussed more fully below, continue to have a valuation allowance against our net deferred tax assets in the U.S., excluding certain indefinite lived intangibles.

At January 2, 2011, we are estimating that at September 30, 2011 we will have U.S. federal and state net operating loss carryforwards of approximately \$1,196 million and \$1,043 million, respectively, which will expire through years ending in 2032, and we will have foreign net operating loss carryforwards of approximately \$200 million, which will expire beginning in 2011. Certain of the foreign net operating losses have indefinite carryforward periods. At September 30, 2010 we had U.S. federal and state net

Table of Contents

operating loss carryforwards of approximately \$1,087 million and \$936 million, respectively, which, at that time, were scheduled to expire through years ending in 2031. At September 30, 2010 we had foreign net operating loss carryforwards of approximately \$195 million, which at the time were set to expire beginning in 2011. Certain of the foreign net operating losses have indefinite carryforward periods. Limitations apply to a substantial portion of the U.S. federal and state net operating loss carryforwards in accordance with IRC Section 382. As such, we estimate that approximately \$296 million of our federal and \$463 million of our state net operating losses will expire unused.

The ultimate realization of our deferred tax assets depends on our ability to generate sufficient taxable income of the appropriate character in the future and in the appropriate taxing jurisdictions. We establish valuation allowances for deferred tax assets when we estimate it is more likely than not that the tax assets will not be realized. We base these estimates on projections of future income, including tax planning strategies, in certain jurisdictions. Changes in industry conditions and other economic conditions may impact our ability to project future income. ASC 740 requires the establishment of a valuation allowance when it is more likely than not that some portion or all of the deferred tax assets will not be realized. In accordance with ASC 740, we periodically assess the likelihood that our deferred tax assets will be realized and determine if adjustments to the valuation allowance are appropriate. As a result of this assessment, we determined that a full valuation allowance is required against the tax benefit of our net deferred tax assets in the U.S. and China, excluding certain indefinite lived intangibles. In addition, certain other subsidiaries are subject to valuation allowances with respect to certain deferred tax assets. During the Fiscal 2011 Quarter we increased our valuation allowance against net deferred tax assets by approximately \$18 million. Our total valuation allowance, established for the tax benefit of deferred tax assets that may not be realized, was approximately \$349 million and \$331 million at January 2, 2011 and September 30, 2010, respectively. Of this amount, approximately \$317 million and \$300 million relates to U.S. net deferred tax assets at January 2, 2011 and September 30, 2010, respectively and approximately \$31 million relates to foreign net deferred tax assets at both January 2, 2011 and September 30, 2010, respectively.

We recognize in our financial statements the impact of a tax position, if that position is more likely than not of being sustained on audit, based on the technical merits of the position. At January 2, 2011 and September 30, 2010, we had approximately \$11 million and \$13 million, respectively, of unrecognized tax benefits. At January 2, 2011 and September 30, 2010, we had approximately \$5 million and \$6 million, respectively, of accrued interest and penalties related to uncertain tax positions.

Discontinued Operations. On November 11, 2008, the board of directors of Old Spectrum approved the shutdown of the growing products portion of the Home and Garden Business, which includes the manufacturing and marketing of fertilizers, enriched soils, mulch and grass seed, following an evaluation of the historical lack of profitability and the projected input costs and significant working capital demands for the growing product portion of the Home and Garden Business during Fiscal 2009. We believe the shutdown is consistent with what we have done in other areas of our business to eliminate unprofitable products from our portfolio. We completed the shutdown of the growing products portion of the Home and Garden Business during the second quarter of Fiscal 2009. Accordingly, the presentation herein of the results of continuing operations excludes the growing products portion of the Home and Garden Business for all periods presented. See Note 2, Significant Accounting Policies-Discontinued Operations, of Notes to Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for further details on the disposal of the growing products portion of the Home and Garden Business.

The following amounts related to the growing products portion of the Home and Garden Business have been segregated from continuing operations and are reflected as discontinued operations during the Fiscal 2010 Quarter:

	2010
Net sales	\$
Loss from discontinued operations before income taxes	\$ (2.5)
Provision for income tax expense	0.2
Loss from discontinued operations, net of tax	\$ (2.7)

Liquidity and Capital Resources**Operating Activities**

For the Fiscal 2011 Quarter cash used by operating activities totaled \$51 million as compared to a use of \$31 million in the Fiscal 2010 Quarter. Cash used by continuing operations during the Fiscal 2011 Quarter was \$50 million, compared to cash used by continuing operations of \$23 million in the Fiscal 2010 Quarter. This change was primarily the result of a \$17 million change in operating assets and liabilities and a decrease

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

in income after non-cash items of \$14 million. Cash used by operating activities of discontinued operations was di minimis in the Fiscal 2011 Quarter, compared to cash use of \$8 million during the Fiscal 2010 Quarter. The operating activities of discontinued operations were related to the growing products portion of the Home and Garden Business. See *Discontinued Operations*, above, as well as Note 2, Significant Accounting Policies-Discontinued Operations, of Notes to

Table of Contents

Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for further details on the disposal of the growing products portion of the Home and Garden Business.

We expect to fund our cash requirements, including capital expenditures, interest and principal payments due in Fiscal 2011 through a combination of cash on hand and cash flows from operations and available borrowings under our ABL Revolving Credit Facility. Going forward our ability to satisfy financial and other covenants in our senior credit agreements and senior subordinated indenture and to make scheduled payments or prepayments on our debt and other financial obligations will depend on our future financial and operating performance. There can be no assurances that our business will generate sufficient cash flows from operations or that future borrowings under the ABL Revolving Credit Facility will be available in an amount sufficient to satisfy our debt maturities or to fund our other liquidity needs. In addition, the current economic crisis could have a further negative impact on our financial position, results of operations or cash flows. See Item 1A. Risk Factors, for further discussion of the risks associated with our ability to service all of our existing indebtedness, our ability to maintain compliance with financial and other covenants related to our indebtedness and the impact of the current economic crisis.

Investing Activities

Net cash used by investing activities was \$18 million for the Fiscal 2011 Quarter. For the Fiscal 2010 Quarter net cash used by investing activities was \$5 million. The \$13 million increase in cash used by investing activities is due to the cash use of \$10 million, net of cash acquired, in conjunction with the Seed Resources, LLC acquisition in Fiscal 2011 coupled with increased capital expenditures for continuing operations of \$3 million.

Financing Activities

Debt Financing

In connection with the Merger, we (i) entered into a new senior secured term loan pursuant to a new senior credit agreement (the Senior Credit Agreement) consisting of the \$750 million Term Loan, (ii) issued \$750 million in aggregate principal amount of 9.5% Notes and (iii) entered into the \$300 million ABL Revolving Credit Facility. The proceeds from the Senior Secured Facilities were used to repay our then-existing senior term credit facility (the Prior Term Facility) and our then-existing asset based revolving loan facility, to pay fees and expenses in connection with the refinancing and for general corporate purposes.

The 9.5% Notes and 12% Notes were issued by Spectrum Brands. SB/RH Holdings, LLC, a wholly-owned subsidiary of SB Holdings, and the wholly owned domestic subsidiaries of Spectrum Brands are the guarantors under the 9.5% Notes. The wholly owned domestic subsidiaries of Spectrum Brands are the guarantors under the 12% Notes. SB Holdings is not an issuer or guarantor of the 9.5% Notes or the 12% Notes. SB Holdings is also not a borrower or guarantor under the Company's Term Loan or the ABL Revolving Credit Facility. Spectrum Brands is the borrower under the Term Loan and its wholly owned domestic subsidiaries along with SB/RH Holdings, LLC are the guarantors under that facility. Spectrum Brands and its wholly owned domestic subsidiaries are the borrowers under the ABL Revolving Credit Facility and SB/RH Holdings, LLC is a guarantor of that facility.

Senior Term Credit Facility

The Term Loan has a maturity date of June 16, 2016. Subject to certain mandatory prepayment events, the Term Loan is subject to repayment according to a scheduled amortization, with the final payment of all amounts outstanding, plus accrued and unpaid interest, due at maturity. Among other things, the Term Loan provides for a minimum Eurodollar interest rate floor of 1.5% and interest spreads over market rates of 6.5%.

The Senior Credit Agreement contains financial covenants with respect to debt, including, but not limited to, a maximum leverage ratio and a minimum interest coverage ratio, which covenants, pursuant to their terms, become more restrictive over time. In addition, the Senior Credit Agreement contains customary restrictive covenants, including, but not limited to, restrictions on our ability to incur additional indebtedness, create liens, make investments or specified payments, give guarantees, pay dividends, make capital expenditures and merge or acquire or sell assets. Pursuant to a guarantee and collateral agreement, we and our domestic subsidiaries have guaranteed their respective obligations under the Senior Credit Agreement and related loan documents and have pledged substantially all of their respective assets to secure such obligations. The Senior Credit Agreement also provides for customary events of default, including payment defaults and cross-defaults on other material indebtedness.

The Term Loan was issued at a 2.0% discount and was recorded net of the \$15 million amount incurred. The discount is being amortized as an adjustment to the carrying value of principal with a corresponding charge to interest expense over the remaining life of the Senior Credit

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

Agreement. During the fiscal year ended September 30, 2010 (Fiscal 2010), we recorded \$26 million of fees in connection with the Senior Credit Agreement. The fees are classified as Debt issuance costs within the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) and are amortized as an adjustment to interest expense over the remaining life of the Senior Credit Agreement. In connection with voluntary prepayments of \$70 million of term debt during the Fiscal 2011

Table of Contents

Quarter, we recorded accelerated amortizations of portions of the unamortized discount and unamortized Debt issuance costs totaling \$4 million as an adjustment to interest expense.

At January 2, 2011 and September 30, 2010, the aggregate amount outstanding under the Term Loan totaled \$680 million and \$750 million, respectively.

At January 2, 2011, we were in compliance with all covenants under the Senior Credit Agreement.

On February 1, 2011, we completed the refinancing of our Term Loan, which, at that time, had an aggregate amount outstanding of \$680 million, with a new Senior Secured Term Loan facility (the *New Term Loan*) at a lower interest rate. The New Term Loan, issued at par and with a maturity date of June 16, 2016, includes an interest rate of LIBOR plus 4%, with a LIBOR minimum of 1%. The New Term Loan reduces scheduled principal amortizations to approximately \$7 million per year, contains a one-year soft call protection of 1% on refinancing but none on other voluntary prepayments, and has the same financial, negative (other than a more favorable ability to repurchase other indebtedness) and affirmative covenants and events of default as the former Term Loan.

9.5% Notes

At both January 2, 2011 and September 30, 2010, we had outstanding principal of \$750 million under the 9.5% Notes maturing June 15, 2018.

We may redeem all or a part of the 9.5% Notes, upon not less than 30 or more than 60 days notice at specified redemption prices. Further, the indenture governing the 9.5% Notes (the *2018 Indenture*) requires us to make an offer, in cash, to repurchase all or a portion of the applicable outstanding notes for a specified redemption price, including a redemption premium, upon the occurrence of a change of control of the Company, as defined in such indenture.

The 2018 Indenture contains customary covenants that limit, among other things, the incurrence of additional indebtedness, payment of dividends on or redemption or repurchase of equity interests, the making of certain investments, expansion into unrelated businesses, creation of liens on assets, merger or consolidation with another company, transfer or sale of all or substantially all assets, and transactions with affiliates.

In addition, the 2018 Indenture provides for customary events of default, including failure to make required payments, failure to comply with certain agreements or covenants, failure to make payments on or acceleration of certain other indebtedness, and certain events of bankruptcy and insolvency. Events of default under the 2018 Indenture arising from certain events of bankruptcy or insolvency will automatically cause the acceleration of the amounts due under the 9.5% Notes. If any other event of default under the 2018 Indenture occurs and is continuing, the trustee for the 2018 Indenture or the registered holders of at least 25% in the then aggregate outstanding principal amount of the 9.5% Notes may declare the acceleration of the amounts due under those notes.

The 9.5% Notes were issued at a 1.37% discount and were recorded net of the \$10 million amount incurred. The discount is being amortized as an adjustment to the carrying value of principal with a corresponding charge to interest expense over the remaining life of the 9.5% Notes. During Fiscal 2010, we recorded \$21 million of fees in connection with the issuance of the 9.5% Notes. The fees are classified as Debt issuance costs within the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) are amortized as an adjustment to interest expense over the remaining life of the 9.5% Notes.

At January 2, 2011, we were in compliance with all covenants under the 9.5% Notes and the 2018 Indenture.

12% Notes

On August 28, 2009, in connection with emergence from the voluntary reorganization under Chapter 11 and pursuant to the Plan, the Company issued \$218 million in aggregate principal amount of 12% Notes maturing August 28, 2019. Semiannually, at its option, the Company may elect to pay interest on the 12% Notes in cash or as payment in kind, or *PIK*. *PIK* interest is added to principal upon the relevant semi-annual interest payment date. Under the Prior Term Facility, we agreed to make interest payments on the 12% Notes through *PIK* for the first three semi-annual interest payment periods. As a result of the refinancing of the Prior Term Facility, we are no longer required to make interest payments as payment in kind after the semi-annual interest payment date of August 28, 2010. Effective with the payment date of August 28, 2010 we gave notice to the trustee that the interest payment due February 28, 2011 would be made in cash.

We may redeem all or a part of the 12% Notes, upon not less than 30 or more than 60 days notice, beginning August 28, 2012 at specified redemption prices. Further, the indenture governing the 12% Notes require us to make an offer, in cash, to repurchase all or a portion of the applicable outstanding notes for a specified redemption price, including a redemption premium, upon the occurrence of a change of control, as

defined in such indenture.

Table of Contents

At January 2, 2011 and September 30, 2010, we had outstanding principal of \$245 million under the 12% Notes, including PIK interest of \$27 million added during Fiscal 2010.

The indenture governing the 12% Notes (the 2019 Indenture), contains customary covenants that limit, among other things, the incurrence of additional indebtedness, payment of dividends on or redemption or repurchase of equity interests, the making of certain investments, expansion into unrelated businesses, creation of liens on assets, merger or consolidation with another company, transfer or sale of all or substantially all assets, and transactions with affiliates.

In addition, the 2019 Indenture provides for customary events of default, including failure to make required payments, failure to comply with certain agreements or covenants, failure to make payments on or acceleration of certain other indebtedness, and certain events of bankruptcy and insolvency. Events of default under the indenture arising from certain events of bankruptcy or insolvency will automatically cause the acceleration of the amounts due under the 12% Notes. If any other event of default under the 2019 Indenture occurs and is continuing, the trustee for the indenture or the registered holders of at least 25% in the then aggregate outstanding principal amount of the 12% Notes may declare the acceleration of the amounts due under those notes.

In connection with the Merger, we obtained the consent of the note holders to certain amendments to the 2019 Indenture (the Supplemental Indenture). The Supplemental Indenture became effective upon the closing of the Merger. Among other things, the Supplemental Indenture amended the definition of change in control to exclude the Harbinger Capital Partners Master Fund I, Ltd. (Harbinger Master Fund) and Harbinger Capital Partners Special Situations Fund, L.P. (Harbinger Special Fund) and, together with Harbinger Master Fund, the HCP Funds) and Global Opportunities Breakaway Ltd. (together with the HCP Funds, the Harbinger Parties) and increased the Company s ability to incur indebtedness up to \$1,850 million.

During Fiscal 2010 we recorded \$3 million of fees in connection with the consent. The fees are classified as Debt issuance costs within the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) and are amortized as an adjustment to interest expense over the remaining life of the 12% Notes effective with the closing of the Merger.

At January 2, 2011, we were in compliance with all covenants under the 12% Notes and the 2019 Indenture. However, we are subject to certain limitations as a result of our Fixed Charge Coverage Ratio under the 2019 indentures being below 2:1. Until the test is satisfied, we and certain of our subsidiaries are limited in their ability to make significant acquisitions or incur significant additional senior debt beyond the Senior Credit Facilities. We do not expect the inability to satisfy the Fixed Charge Coverage Ratio test to impair our ability to provide adequate liquidity to meet the short-term and long-term liquidity requirements of our existing business, although no assurance can be given in this regard.

ABL Revolving Credit Facility

The ABL Revolving Credit Facility is governed by a credit agreement (the ABL Credit Agreement) with Bank of America as administrative agent (the Agent). The ABL Revolving Credit Facility consists of revolving loans (the Revolving Loans), with a portion available for letters of credit and a portion available as swing line loans, in each case subject to the terms and limits described therein.

The Revolving Loans may be drawn, repaid and reborrowed without premium or penalty. The proceeds of borrowings under the ABL Revolving Credit Facility are to be used for costs, expenses and fees in connection with the ABL Revolving Credit Facility, for working capital requirements of the Company and its subsidiaries, restructuring costs, and other general corporate purposes.

The ABL Revolving Credit Facility carries an interest rate, at our option, which is subject to change based on availability under the facility, of either: (a) the base rate plus currently 2.75% per annum or (b) the reserve-adjusted LIBOR rate (the Eurodollar Rate) plus currently 3.75% per annum. No principal amortizations are required with respect to the ABL Revolving Credit Facility. The ABL Revolving Credit Facility will mature on June 16, 2014. Pursuant to the credit and security agreement, the obligations under the ABL credit agreement are secured by certain current assets of the guarantors, including, but not limited to, deposit accounts, trade receivables and inventory.

The ABL Credit Agreement contains various representations and warranties and covenants, including, without limitation, enhanced collateral reporting, and a maximum fixed charge coverage ratio. The ABL Credit Agreement also provides for customary events of default, including payment defaults and cross-defaults on other material indebtedness.

During Fiscal 2010 we recorded \$10 million of fees in connection with the ABL Revolving Credit Facility. The fees are classified as Debt issuance costs within the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) and are amortized as an adjustment to interest expense over the remaining life of the ABL Revolving Credit Facility.

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

As a result of borrowings and payments under the ABL Revolving Credit Facility at January 2, 2011, we had aggregate borrowing availability of approximately \$150 million, net of lender reserves of \$29 million.

Table of Contents

At January 2, 2011, we had outstanding letters of credit of \$36 million under the ABL Revolving Credit Facility.

As a result of borrowings and payments under the ABL Revolving Credit Facility at September 30, 2010, we had aggregate borrowing availability of approximately \$225 million, net of lender reserves of \$29 million.

At January 2, 2011, we were in compliance with all covenants under the ABL Credit Agreement.

Interest Payments and Fees

In addition to principal payments on our Senior Credit Facilities, we have annual interest payment obligations of approximately \$71 million in the aggregate under our 9.5% Notes and annual interest payment obligations of approximately \$29 million in the aggregate under our 12% Notes. We also incur interest on our borrowings under the Senior Credit Facilities and such interest would increase borrowings under the ABL Revolving Credit Facility if cash were not otherwise available for such payments. Interest on the 9.5% Notes and interest on the 12% Notes is payable semi-annually in arrears and interest under the Senior Credit Facilities is payable on various interest payment dates as provided in the Senior Credit Agreement and the ABL Credit Agreement. Interest is payable in cash, except that interest under the 12% Notes is required to be paid by increasing the aggregate principal amount due under the subject notes unless we elect to make such payments in cash. Effective with the payment date of August 28, 2010, we elected to make the semi-annual interest payment scheduled for February 28, 2011 in cash. Thereafter, we may make the semi-annual interest payments for the 12% Notes either in cash or by further increasing the aggregate principal amount due under the notes subject to certain conditions. Based on amounts currently outstanding under the Senior Credit Facilities, and using market interest rates and foreign exchange rates in effect at January 2, 2011, we estimate annual interest payments of approximately \$57 million in the aggregate under our Senior Credit Facilities would be required assuming no further principal payments were to occur and excluding any payments associated with outstanding interest rate swaps. We are required to pay certain fees in connection with the Senior Credit Facilities. Such fees include a quarterly commitment fee of up to 0.75% on the unused portion of the ABL Revolving Credit Facility and certain additional fees with respect to the letter of credit subfacility under the ABL Revolving Credit Facility.

Equity Financing Activities

During the Fiscal 2011 Quarter, we granted approximately 1.4 million shares of restricted stock to our employees and our directors. All vesting dates are subject to the recipient's continued employment with us, except as otherwise permitted by our Board of Directors or in certain cases if the employee is terminated without cause. The total market value of the restricted shares on the date of grant was approximately \$41 million which represented unearned restricted stock compensation. Unearned compensation is amortized to expense over the appropriate vesting period.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Contractual Obligations and Commercial Commitments

There have been no material changes to our contractual obligations and commercial commitments as discussed in our Annual Report on Form 10-K for Fiscal 2010.

Critical Accounting Policies and Critical Accounting Estimates

Our Condensed Consolidated Financial Statements (Unaudited) have been prepared in accordance with generally accepted accounting principles in the United States of America and fairly present our financial position and results of operations. There have been no material changes to our critical accounting policies or critical accounting estimates as discussed in our Annual Report on Form 10-K for Fiscal 2010.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk Factors

We have market risk exposure from changes in interest rates, foreign currency exchange rates and commodity prices. We use derivative financial instruments for purposes other than trading to mitigate the risk from such exposures.

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

A discussion of our accounting policies for derivative financial instruments is included in Note 7 to our Condensed Consolidated Financial Statements (Unaudited) filed with this report, Derivative Financial Instruments.

Table of Contents

Interest Rate Risk

We have bank lines of credit at variable interest rates. The general level of U.S. interest rates, LIBOR and Euro LIBOR affect interest expense. We use interest rate swaps to manage such risk. The net amounts to be paid or received under interest rate swap agreements are accrued as interest rates change, and are recognized over the life of the swap agreements as an adjustment to interest expense from the underlying debt to which the swap is designated. The related amounts payable to, or receivable from, the contract counter-parties are included in accrued liabilities or accounts receivable.

Foreign Exchange Risk

We are subject to risk from sales and loans to and from our subsidiaries as well as sales to, purchases from and bank lines of credit with third-party customers, suppliers and creditors, respectively, denominated in foreign currencies. Foreign currency sales and purchases are made primarily in Euro, Pounds Sterling, Brazilian Reals and Canadian Dollars. We manage our foreign exchange exposure from anticipated sales, accounts receivable, intercompany loans, firm purchase commitments, accounts payable and credit obligations through the use of naturally occurring offsetting positions (borrowing in local currency), forward foreign exchange contracts, foreign exchange rate swaps and foreign exchange options. The related amounts payable to, or receivable from, the contract counter-parties are included in accounts payable or accounts receivable.

Commodity Price Risk

We are exposed to fluctuations in market prices for purchases of zinc used in the manufacturing process. We use commodity swaps, calls and puts to manage such risk. The maturity of, and the quantities covered by, the contracts are closely correlated to our anticipated purchases of the commodities. The cost of calls, and the premiums received from the puts, are amortized over the life of the contracts and are recorded in cost of goods sold, along with the effects of the swap, put and call contracts. The related amounts payable to, or receivable from, the counter-parties are included in accounts payable or accounts receivable.

Sensitivity Analysis

The analysis below is hypothetical and should not be considered a projection of future risks. Earnings projections are before tax.

At January 2, 2011, the potential change in fair value of outstanding interest rate derivative instruments, assuming a 1 percentage point unfavorable shift in the underlying interest rates would be a loss of \$0.3 million. The net impact on reported earnings, after also including the reduction in one year's interest expense on the related debt due to the same shift in interest rates, would be a net loss of \$0.2 million.

At January 2, 2011, the potential change in fair value of outstanding foreign exchange derivative instruments, assuming a 10% unfavorable change in the underlying exchange rates would be a loss of \$54.5 million. The net impact on reported earnings, after also including the effect of the change in the underlying foreign currency-denominated exposures, would be a net gain of \$11.1 million.

At January 2, 2011, the potential change in fair value of outstanding commodity price derivative instruments, assuming a 10% unfavorable change in the underlying commodity prices would be a loss of \$2.9 million. The net impact on reported earnings, after also including the reduction in cost of one year's purchases of the related commodities due to the same change in commodity prices, would be a net gain of \$0.3 million.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) pursuant to Rules 13a-15(b) and 15d-15(b) under the Exchange Act as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of such date, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable SEC rules and forms, and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

Changes in Internal Control Over Financial Reporting. There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls. Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that the Company's disclosure controls and procedures or the Company's internal controls over financial

Table of Contents

reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Litigation

In December 2009, San Francisco Technology, Inc. filed an action in the Federal District Court for the Northern District of California against the Company, as well as a number of unaffiliated defendants, claiming that each of the defendants had falsely marked patents on certain of its products in violation of Article 35, Section 292 of the U.S. Code and seeking to have civil fines imposed on each of the defendants for such claimed violations. The Company is reviewing the claims and intends to vigorously defend this matter but, as of the date of this Quarterly Report on Form 10-Q, cannot estimate any possible losses.

Applica Consumer Products, Inc. (Applica), a subsidiary of the Company, is a defendant in NACCO Industries, Inc. et al. v. Applica Incorporated et al., Case No. C.A. 2541-VCL, which was filed in the Court of Chancery of the State of Delaware in November 2006.

The original complaint in this action alleged a claim for, among other things, breach of contract against Applica and a number of tort claims against certain entities affiliated with the Harbinger Parties. The claims against Applica related to the alleged breach of the merger agreement between Applica and NACCO Industries, Inc. (NACCO) and one of its affiliates, which agreement was terminated following Applica's receipt of a superior merger offer from the HCP Funds. On October 22, 2007, the plaintiffs filed an amended complaint asserting claims against Applica for, among other things, breach of contract and breach of the implied covenant of good faith relating to the termination of the NACCO merger agreement and asserting various tort claims against Applica and the HCP Funds. The original complaint was filed in conjunction with a motion preliminarily to enjoin the HCP Funds' acquisition of Applica. On December 1, 2006, plaintiffs withdrew their motion for a preliminary injunction. In light of the consummation of Applica's merger with affiliates of the HCP Funds in January 2007 (Applica is currently a subsidiary of Russell Hobbs), the Company believes that any claim for specific performance is moot. Applica filed a motion to dismiss the amended complaint in December 2007. Rather than respond to the motion to dismiss the amended complaint, NACCO filed a motion for leave to file a second amended complaint, which was granted in May 2008. Applica moved to dismiss the second amended complaint, which motion was granted in part and denied in part in December 2009.

The trial is currently scheduled for February 2011. The Company intends to vigorously defend the action, but may be unable to resolve the disputes successfully or without incurring significant costs and expenses. As a result, Russell Hobbs and Harbinger Master Fund have entered into an indemnification agreement, dated as of February 9, 2010, by which Harbinger Master Fund has agreed, effective upon the consummation of the Merger, to indemnify Russell Hobbs, its subsidiaries and any entity that owns all of the outstanding voting stock of Russell Hobbs against any out-of-pocket losses, costs, expenses, judgments, penalties, fines and other damages in excess of \$3 million incurred with respect to this litigation and any future litigation or legal action against the indemnified parties arising out of or relating to the matters which form the basis of this litigation.

Applica is a defendant in three asbestos lawsuits in which the plaintiffs have alleged injury as the result of exposure to asbestos in hair dryers distributed by that subsidiary over 20 years ago. Although Applica never manufactured such products, asbestos was used in certain hair dryers distributed by it prior to 1979. The Company believes that these actions are without merit and intends to vigorously defend the action, but may be unable to resolve the disputes successfully without incurring significant expenses. As of the date of this Quarterly Report on Form 10-Q, the Company cannot estimate any possible losses. At this time, the Company does not believe it has coverage under its insurance policies for the asbestos lawsuits.

The Company is a defendant in various matters of litigation generally arising out of the ordinary course of business.

Table of Contents

Item 1A. Risk Factors

Forward-Looking Statements

We have made or implied certain forward-looking statements in this Quarterly Report on Form 10-Q. All statements, other than statements of historical facts included in this Quarterly Report, including the statements under Management's Discussion and Analysis of Financial Condition and Results of Operations regarding our business strategy, future operations, financial condition or performance, estimated revenues, projected costs, projected synergies, prospects, plans, litigation, contingent liabilities and objectives of management, as well as information concerning expected actions of third parties, are forward-looking statements. When used in this Quarterly Report, the words future, believes, expects, projects, anticipates, intends, plans, estimates, could, should, would, will, may, or similar expressions are also intended to identify forward-looking statements, although not all forward-looking statements contain such identifying words.

Since these forward-looking statements are based upon our current expectations of future events and projections and are subject to a number of risks and uncertainties, many of which are beyond our control and some of which may change rapidly, actual results or outcomes may differ materially from those expressed or implied herein, and you should not place undue reliance on these statements. Important factors that could cause our actual results to differ materially from those expressed or implied herein include, without limitation:

the impact of our substantial indebtedness on our business, financial condition and results of operations;

the impact of restrictions in our debt instruments on our ability to operate our business, finance our capital needs or pursue or expand business strategies;

any failure to comply with financial covenants and other provisions and restrictions of our debt instruments;

our ability to successfully integrate the business acquired in connection with the combination with Russell Hobbs and achieve the expected synergies from that integration at the expected costs;

the impact of expenses resulting from the implementation of new business strategies, divestitures or current and proposed restructuring activities;

the impact of fluctuations in commodity prices, costs or availability of raw materials or terms and conditions available from suppliers, including suppliers' willingness to advance credit;

interest rate and exchange rate fluctuations;

the loss of, or a significant reduction in, sales to a significant retail customer(s);

competitive promotional activity or spending by competitors or price reductions by competitors;

the introduction of new product features or technological developments by competitors and/or the development of new competitors or competitive brands;

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

the effects of general economic conditions, including inflation, recession or fears of a recession, depression or fears of a depression, labor costs and stock market volatility or changes in trade, monetary or fiscal policies in the countries where we do business;

changes in consumer spending preferences and demand for our products;

our ability to develop and successfully introduce new products, protect our intellectual property and avoid infringing the intellectual property of third parties;

our ability to successfully implement, achieve and sustain manufacturing and distribution cost efficiencies and improvements, and fully realize anticipated cost savings;

the cost and effect of unanticipated legal, tax or regulatory proceedings or new laws or regulations (including environmental, public health and consumer protection regulations);

public perception regarding the safety of our products, including the potential for environmental liabilities, product liability claims, litigation and other claims;

the impact of pending or threatened litigation;

changes in accounting policies applicable to our business;

government regulations;

the seasonal nature of sales of certain of our products;

the effects of climate change and unusual weather activity; and

Table of Contents

the effects of political or economic conditions, terrorist attacks, acts of war or other unrest in international markets. Some of the above-mentioned factors are described in further detail in the section entitled "Risk Factors" set forth below. You should assume the information appearing in this Quarterly Report on Form 10-Q is accurate only as of January 2, 2011 or as otherwise specified, as our business, financial condition, results of operations and prospects may have changed since that date. Except as required by applicable law, including the securities laws of the U.S. and the rules and regulations of the SEC, we undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise to reflect actual results or changes in factors or assumptions affecting such forward-looking statement.

Table of Contents

RISK FACTORS

Any of the following factors could materially and adversely affect our business, financial condition and results of operations and the risks described below are not the only risks that we may face. Additional risks and uncertainties not currently known to us or that we currently view as immaterial may also materially and adversely affect our business, financial condition or results of operations.

Risks Related to the Merger

Significant costs have been incurred in connection with the consummation of the Merger and are expected to be incurred in connection with the integration of Spectrum Brands and Russell Hobbs into a combined company, including legal, accounting, financial advisory and other costs.

We expect to incur one-time costs of approximately \$23 million in connection with integrating the operations, products and personnel of Spectrum Brands and Russell Hobbs into a combined company, in addition to costs related directly to completing the Merger described below. These costs may include costs for:

employee redeployment, relocation or severance;

integration of information systems;

combination of research and development teams and processes; and

reorganization or closures of facilities.

In addition, we expect to incur a number of non-recurring costs associated with combining our operations with those of Russell Hobbs, which cannot be estimated accurately at this time. We incurred approximately \$87 million of transaction fees and other costs related to the Merger. Additional unanticipated costs may yet be incurred as we integrate our business with that of Russell Hobbs. Although we expect that the elimination of duplicative costs, as well as the realization of other efficiencies related to the integration of our operations with those of Russell Hobbs, may offset incremental transaction and transaction-related costs over time, this net benefit may not be achieved in the near term, or at all. There can be no assurance that we will be successful in our integration efforts. In addition, while we expect to benefit from leveraging distribution channels and brand names across both companies, we cannot assure you that we will achieve such benefits.

We may not realize the anticipated benefits of the Merger.

The Merger involved the integration of two companies that previously operated independently. The integration of our operations with those of Russell Hobbs is expected to result in financial and operational benefits, including increased revenues and cost savings. There can be no assurance, however, regarding when or the extent to which we will be able to realize these increased revenues, cost savings or other benefits. Integration may also be difficult, unpredictable, and subject to delay because of possible company culture conflicts and different opinions on technical decisions and product roadmaps. We must integrate or, in some cases, replace, numerous systems, including those involving management information, purchasing, accounting and finance, sales, billing, employee benefits, payroll and regulatory compliance, many of which are dissimilar. In some instances, we and Russell Hobbs have served the same customers, and some customers may decide that it is desirable to have additional or different suppliers. Difficulties associated with integration could have a material adverse effect on our business, financial condition and operating results.

Integrating our business with that of Russell Hobbs may divert our management's attention away from operations.

Successful integration of our and Russell Hobbs' operations, products and personnel may place a significant burden on our management and other internal resources. The diversion of management's attention, and any difficulties encountered in the transition and integration process, could harm our business, financial conditions and operating results.

Risks Related To Our Emergence From Bankruptcy

Because our consolidated financial statements are required to reflect fresh-start reporting adjustments to be made upon emergence from bankruptcy, financial information in our financial statements prepared after August 30, 2009 will not be comparable to our financial information from prior periods.

All conditions required for the adoption of fresh-start reporting were met upon emergence from Chapter 11 of the Bankruptcy Code on the Effective Date. However, in light of the proximity of that date to our accounting period close immediately following the Effective Date, which was August 30, 2009, we elected to adopt a convenience date of August 30, 2009 for recording fresh-start reporting. We adopted fresh-start reporting in accordance with the Accounting Standards Codification (ASC) Topic 852: *Reorganizations*, pursuant to which our reorganization value, which is intended to reflect the fair value of the entity before considering liabilities and approximate the amount a willing buyer would pay for the assets of the entity immediately after the

Table of Contents

reorganization, was allocated to the fair value of assets in conformity with Statement of Financial Accounting Standards No. 141, *Business Combinations*, using the purchase method of accounting for business combinations. We stated liabilities, other than deferred taxes, at a present value of amounts expected to be paid. The amount remaining after allocation of the reorganization value to the fair value of identified tangible and intangible assets was reflected as goodwill, which is subject to periodic evaluation for impairment. In addition, under fresh-start reporting the accumulated deficit was eliminated. Thus, our future statements of financial position and results of operations are not be comparable in many respects to statements of financial position and consolidated statements of operations data for periods prior to the adoption of fresh-start reporting. The lack of comparable historical information may discourage investors from purchasing our securities. Additionally, the financial information included in this Annual Report on Form 10-K may not be indicative of future financial information.

Risks Related To Our Business

Our substantial indebtedness may limit our financial and operating flexibility, and we may incur additional debt, which could increase the risks associated with our substantial indebtedness.

We have, and we expect to continue to have, a significant amount of indebtedness. As of January 2, 2011, we had total indebtedness under our Senior Secured Facilities, the 12% Notes and other debt of approximately \$1.8 billion. Our substantial indebtedness has had, and could continue to have, material adverse consequences for our business, and may:

require us to dedicate a large portion of our cash flow to pay principal and interest on our indebtedness, which will reduce the availability of our cash flow to fund working capital, capital expenditures, research and development expenditures and other business activities;

increase our vulnerability to general adverse economic and industry conditions;

limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;

restrict our ability to make strategic acquisitions, dispositions or exploiting business opportunities;

place us at a competitive disadvantage compared to our competitors that have less debt; and

limit our ability to borrow additional funds (even when necessary to maintain adequate liquidity) or dispose of assets.

Under the Senior Secured Facilities and the indenture governing the 12% Notes (the 2019 Indenture), we may incur additional indebtedness. If new debt is added to our existing debt levels, the related risks that we now face would increase.

Furthermore, a substantial portion of our debt bears interest at variable rates. If market interest rates increase, the interest rate on our variable rate debt will increase and will create higher debt service requirements, which would adversely affect our cash flow and could adversely impact our results of operations. While we may enter into agreements limiting our exposure to higher debt service requirements, any such agreements may not offer complete protection from this risk.

Restrictive covenants in the Senior Secured Facilities and the 2019 Indenture may restrict our ability to pursue our business strategies.

The Senior Secured Facilities and the 2019 Indenture each restrict, among other things, asset dispositions, mergers and acquisitions, dividends, stock repurchases and redemptions, other restricted payments, indebtedness and preferred stock, loans and investments, liens and affiliate transactions. The Senior Secured Facilities and the 2019 Indenture also contain customary events of default. These covenants, among other things, limit our ability to fund future working capital and capital expenditures, engage in future acquisitions or development activities, or otherwise realize the value of our assets and opportunities fully because of the need to dedicate a portion of cash flow from operations to payments on debt. In addition, the Senior Secured Facilities contain financial covenants relating to maximum leverage and minimum interest

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

coverage. Such covenants could limit the flexibility of our restricted entities in planning for, or reacting to, changes in the industries in which they operate. Our ability to comply with these covenants is subject to certain events outside of our control. If we are unable to comply with these covenants, the lenders under our Senior Secured Facilities or 12% Notes could terminate their commitments and the lenders under our Senior Secured Facilities or 12% Notes could accelerate repayment of our outstanding borrowings, and, in either case, we may be unable to obtain adequate refinancing outstanding borrowings on favorable terms. If we are unable to repay outstanding borrowings when due, the lenders under the Senior Secured Facilities or 12% Notes will also have the right to proceed against the collateral granted to them to secure the indebtedness owed to them. If our obligations under the Senior Secured Facilities and the 12% Notes are accelerated, we cannot assure you that our assets would be sufficient to repay in full such indebtedness.

Table of Contents

The sale or other disposition by Harbinger Group Inc., the holder of a majority of the outstanding shares of our common stock, to non-affiliates of a sufficient amount of the common stock of SB Holdings would constitute a change of control under the agreements governing Spectrum Brands' debt.

Harbinger Group Inc. (HRG) owns a majority of the outstanding shares of the common stock of SB Holdings. The sale or other disposition by HRG to non-affiliates of a sufficient amount of the common stock of SB Holdings could constitute a change of control under the agreements governing Spectrum Brands' debt, including any foreclosure on or sale of SB Holdings' common stock pledged as collateral by HRG pursuant to the indenture governing HRG's \$350 million 10.625% Senior Secured Notes due 2015. Under the Term Loan and the ABL Revolving Credit Facility, a change of control is an event of default and, if a change of control were to occur, Spectrum Brands would be required to get an amendment to these agreements to avoid a default. If Spectrum Brands was unable to get such an amendment, the lenders could accelerate the maturity of each of the Spectrum Brands Term Loan and the ABL Revolving Credit Facility. In addition, under the indentures governing the 9.5% Notes and the 12% Notes, upon a change of control of SB Holdings, Spectrum Brands is required to offer to repurchase such notes from the holders at a price equal to 101% of principal amount of the notes plus accrued interest or obtain a waiver of default from the holders of such notes. If Spectrum Brands was unable to make the change of control offer or obtain a waiver of default, it would be an event of default under the indentures that could allow holders of such notes to accelerate the maturity of the notes.

We face risks related to the current economic environment.

The current economic environment and related turmoil in the global financial system has had and may continue to have an impact on our business and financial condition. Global economic conditions have significantly impacted economic markets within certain sectors, with financial services and retail businesses being particularly impacted. Our ability to generate revenue depends significantly on discretionary consumer spending. It is difficult to predict new general economic conditions that could impact consumer and customer demand for our products or our ability to manage normal commercial relationships with our customers, suppliers and creditors. The recent continuation of a number of negative economic factors, including constraints on the supply of credit to households, uncertainty and weakness in the labor market and general consumer fears of a continuing economic downturn could have a negative impact on discretionary consumer spending. If the economy continues to deteriorate or fails to improve, our business could be negatively impacted, including as a result of reduced demand for our products or supplier or customer disruptions. Any weakness in discretionary consumer spending could have a material adverse effect on our revenues, results of operations and financial condition. In addition, our ability to access the capital markets may be restricted at a time when it could be necessary or beneficial to do so, which could have an impact on our flexibility to react to changing economic and business conditions.

In 2010, concern over sovereign debt in Greece, Ireland and certain other European Union countries caused significant fluctuations of the Euro relative to other currencies, such as the U.S. Dollar, and concerns about sovereign debt levels in certain of these countries continue. Destabilization of the European economy could lead to a decrease in consumer confidence, which could cause reductions in discretionary spending and demand for our products. Furthermore, sovereign debt issues could also lead to further significant, and potentially longer-term, economic issues such as reduced economic growth and devaluation of the Euro against the U.S. Dollar, any of which could adversely affect our business, financial conditions and operating results.

We may not be able to retain key personnel or recruit additional qualified personnel whether as a result of the Merger or otherwise, which could materially affect our business and require us to incur substantial additional costs to recruit replacement personnel.

We are highly dependent on the continuing efforts of our senior management team and other key personnel. As a result of the Merger, our current and prospective employees could experience uncertainty about their future roles. This uncertainty may adversely affect our ability to attract and retain key management, sales, marketing and technical personnel. Any failure to attract and retain key personnel, whether as a result of the Merger or otherwise, could have a material adverse effect on our business. In addition, we currently do not maintain key person insurance covering any member of our management team.

We participate in very competitive markets and we may not be able to compete successfully, causing us to lose market share and sales.

The markets in which we participate are very competitive. In the consumer battery market, our primary competitors are *Duracell* (a brand of Procter & Gamble), *Energizer* and *Panasonic* (a brand of Matsushita). In the electric shaving and grooming and electric personal care product markets, our primary competitors are *Braun* (a brand of Procter & Gamble), *Norelco* (a brand of Philips), and *Vidal Sassoon* and *Revlon* (brands of Helen of Troy). In the pet supplies market, our primary competitors are Mars, Hartz and Central Garden & Pet. In the Home and Garden Business, our principal national competitors are Scotts, Central Garden & Pet and S.C. Johnson. Our principal national competitors within the small appliances market include Jarden Corporation, DeLonghi America, Euro-

Table of Contents

Pro Operating LLC, Metro Thebe, Inc., d/b/a HWI Breville, NACCO Industries, Inc. (*Hamilton Beach*) and SEB S.A. In each of these markets, we also face competition from numerous other companies. In addition, in a number of our product lines, we compete with our retail customers, who use their own private label brands, and with distributors and foreign manufacturers of unbranded products. Significant new competitors or increased competition from existing competitors may adversely affect our business, financial condition and results of our operations.

We compete with our competitors for consumer acceptance and limited shelf space based upon brand name recognition, perceived product quality, price, performance, product features and enhancements, product packaging and design innovation, as well as creative marketing, promotion and distribution strategies, and new product introductions. Our ability to compete in these consumer product markets may be adversely affected by a number of factors, including, but not limited to, the following:

We compete against many well-established companies that may have substantially greater financial and other resources, including personnel and research and development, and greater overall market share than us.

In some key product lines, our competitors may have lower production costs and higher profit margins than us, which may enable them to compete more aggressively in offering retail discounts, rebates and other promotional incentives.

Product improvements or effective advertising campaigns by competitors may weaken consumer demand for our products.

Consumer purchasing behavior may shift to distribution channels where we do not have a strong presence.

Consumer preferences may change to lower margin products or products other than those we market.

We may not be successful in the introduction, marketing and manufacture of any new products or product innovations or be able to develop and introduce, in a timely manner, innovations to our existing products that satisfy customer needs or achieve market acceptance.

Some competitors may be willing to reduce prices and accept lower profit margins to compete with us. As a result of this competition, we could lose market share and sales, or be forced to reduce our prices to meet competition. If our product offerings are unable to compete successfully, our sales, results of operations and financial condition could be materially and adversely affected.

We may not be able to realize expected benefits and synergies from future acquisitions of businesses or product lines.

We may acquire partial or full ownership in businesses or may acquire rights to market and distribute particular products or lines of products. The acquisition of a business or of the rights to market specific products or use specific product names may involve a financial commitment by us, either in the form of cash or equity consideration. In the case of a new license, such commitments are usually in the form of prepaid royalties and future minimum royalty payments. There is no guarantee that we will acquire businesses or product distribution rights that will contribute positively to our earnings. Anticipated synergies may not materialize, cost savings may be less than expected, sales of products may not meet expectations, and acquired businesses may carry unexpected liabilities.

Sales of certain of our products are seasonal and may cause our operating results and working capital requirements to fluctuate.

On a consolidated basis our financial results are approximately equally weighted between quarters, however, sales of certain product categories tend to be seasonal. Sales in the consumer battery, electric shaving and grooming and electric personal care product categories, particularly in North America, tend to be concentrated in the December holiday season (SB Holdings' first fiscal quarter). Sales of our small electric appliances peak from July through December primarily due to the increased demand by customers in the late summer for back-to-school sales and in the fall for the holiday season. Demand for pet supplies products remains fairly constant throughout the year. Demand for home and garden control products sold through the Home and Garden Business typically peaks during the first six months of the calendar year (SB Holdings' second and third fiscal quarters). As a result of this seasonality, our inventory and working capital needs fluctuate significantly during the year. In addition,

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

orders from retailers are often made late in the period preceding the applicable peak season, making forecasting of production schedules and inventory purchases difficult. If we are unable to accurately forecast and prepare for customer orders or our working capital needs, or there is a general downturn in business or economic conditions during these periods, our business, financial condition and results of operations could be materially and adversely affected.

Table of Contents

We are subject to significant international business risks that could hurt our business and cause our results of operations to fluctuate.

Approximately 49% of our net sales for the Fiscal 2011 Quarter were from customers outside of the U.S. Our pursuit of international growth opportunities may require significant investments for an extended period before returns on these investments, if any, are realized. Our international operations are subject to risks including, among others:

currency fluctuations, including, without limitation, fluctuations in the foreign exchange rate of the Euro;

changes in the economic conditions or consumer preferences or demand for our products in these markets;

the risk that because our brand names may not be locally recognized, we must spend significant amounts of time and money to build brand recognition without certainty that we will be successful;

labor unrest;

political and economic instability, as a result of terrorist attacks, natural disasters or otherwise;

lack of developed infrastructure;

longer payment cycles and greater difficulty in collecting accounts;

restrictions on transfers of funds;

import and export duties and quotas, as well as general transportation costs;

changes in domestic and international customs and tariffs;

changes in foreign labor laws and regulations affecting our ability to hire and retain employees;

inadequate protection of intellectual property in foreign countries;

unexpected changes in regulatory environments;

difficulty in complying with foreign law;

difficulty in obtaining distribution and support; and

adverse tax consequences.

The foregoing factors may have a material adverse effect on our ability to increase or maintain our supply of products, financial condition or results of operations.

Adverse weather conditions during our peak selling season for our home and garden control products could have a material adverse effect on our Home and Garden Business.

Weather conditions in the U.S. have a significant impact on the timing and volume of sales of certain of our lawn and garden and household insecticide and repellent products. Periods of dry, hot weather can decrease insecticide sales, while periods of cold and wet weather can slow sales of herbicides.

Our products utilize certain key raw materials; any increase in the price of, or change in supply and demand for, these raw materials could have a material and adverse effect on our business, financial condition and profits.

The principal raw materials used to produce our products including zinc powder, electrolytic manganese dioxide powder, petroleum-based plastic materials, steel, aluminum, copper and corrugated materials (for packaging) are sourced either on a global or regional basis by us or our suppliers, and the prices of those raw materials are susceptible to price fluctuations due to supply and demand trends, energy costs, transportation costs, government regulations, duties and tariffs, changes in currency exchange rates, price controls, general economic conditions and other unforeseen circumstances. In particular, during 2007 and 2008, we experienced extraordinary price increases for raw materials, particularly as a result of strong demand from China. Although we may increase the prices of certain of our goods to our customers, we may not be able to pass all of these cost increases on to our customers. As a result, our margins may be adversely impacted by such cost increases. We cannot provide any assurance that our sources of supply will not be interrupted due to changes in worldwide supply of or demand for raw materials or other events that interrupt material flow, which may have an adverse effect on our profitability and results of operations.

We regularly engage in forward purchase and hedging derivative transactions in an attempt to effectively manage and stabilize some of the raw material costs we expect to incur over the next 12 to 24 months; however, our hedging positions may not be effective, or may not anticipate beneficial trends, in a particular raw material market or may, as a result of changes in our business, no longer be useful for us. In addition, for certain of the principal raw materials we use to produce our products, such as electrolytic manganese dioxide powder, there are no available effective hedging markets. If these efforts are not effective or expose us to above average costs for an extended period of time, and we are unable to pass our raw materials costs on to our customers, our future profitability may be

Table of Contents

materially and adversely affected. Furthermore, with respect to transportation costs, certain modes of delivery are subject to fuel surcharges which are determined based upon the current cost of diesel fuel in relation to pre-established agreed upon costs. We may be unable to pass these fuel surcharges on to our customers, which may have an adverse effect on our profitability and results of operations.

In addition, we have exclusivity arrangements and minimum purchase requirements with certain of our suppliers for the Home and Garden Business, which increase our dependence upon and exposure to those suppliers. Some of those agreements include caps on the price we pay for our supplies and in certain instances, these caps have allowed us to purchase materials at below market prices. When we attempt to renew those contracts, the other parties to the contracts may not be willing to include or may limit the effect of those caps and could even attempt to impose above market prices in an effort to make up for any below market prices paid by us prior to the renewal of the agreement. Any failure to timely obtain suitable supplies at competitive prices could materially adversely affect our business, financial condition and results of operations.

We may not be able to fully utilize our U.S. net operating loss carryforwards.

At January 2, 2011, we are estimating that at September 30, 2011 we will have U.S. federal and state net operating loss carryforwards of approximately \$1,196 million and \$1,043 million, respectively. These net operating loss carryforwards expire through years ending in 2032. As of January 2, 2011, our management determined that it continues to be more likely than not that the net U.S. deferred tax asset, excluding certain indefinite lived intangibles, will not be realized in the future and as such recorded a full valuation allowance to offset the net U.S. deferred tax asset, including Spectrum Brands' net operating loss carryforwards. In addition, Spectrum Brands has had changes of ownership, as defined under Section 382 of the Internal Revenue Code of 1986, as amended (the "IRC"), that continue to subject a significant amount of Spectrum Brands' U.S. net operating losses and other tax attributes to certain limitations. We estimate that approximately \$296 million of our federal and \$463 million of our state net operating losses will expire unused due to the limitation in Section 382 of the IRC.

As a consequence of the Salton-Applica Merger, as well as earlier business combinations and issuances of common stock consummated by both companies, use of the tax benefits of Russell Hobbs' loss carryforwards is also subject to limitations imposed by Section 382 of the IRC. The determination of the limitations is complex and requires significant judgment and analysis of past transactions. Our analysis to determine what portion of Russell Hobbs' carryforwards are restricted or eliminated by that provision is ongoing and, pursuant to such analysis, we expect that a significant portion of these carryforwards will not be available to offset future taxable income, if any. In addition, use of Russell Hobbs' net operating loss and credit carryforwards is dependent upon both Russell Hobbs and us achieving profitable results in the future. The Russell Hobbs' net operating loss carryforwards are subject to a full valuation allowance at January 2, 2011.

If we are unable to fully utilize our net operating losses, other than those restricted under Section 382 of the IRC, as discussed above, to offset taxable income generated in the future, our results of operations could be materially and negatively impacted.

Consolidation of retailers and our dependence on a small number of key customers for a significant percentage of our sales may negatively affect our business, financial condition and results of operations.

As a result of consolidation of retailers and consumer trends toward national mass merchandisers, a significant percentage of our sales are attributable to a very limited group of customers. Our largest customer accounted for approximately 24% of our consolidated net sales for Fiscal 2011 Quarter. As these mass merchandisers and retailers grow larger and become more sophisticated, they may demand lower pricing, special packaging, or impose other requirements on product suppliers. These business demands may relate to inventory practices, logistics, or other aspects of the customer-supplier relationship. Because of the importance of these key customers, demands for price reductions or promotions, reductions in their purchases, changes in their financial condition or loss of their accounts could have a material adverse effect on our business, financial condition and results of operations.

Although we have long-established relationships with many of our customers, we do not have long-term agreements with them and purchases are generally made through the use of individual purchase orders. Any significant reduction in purchases, failure to obtain anticipated orders or delays or cancellations of orders by any of these major customers, or significant pressure to reduce prices from any of these major customers, could have a material adverse effect on our business, financial condition and results of operations. Additionally, a significant deterioration in the financial condition of the retail industry in general could have a material adverse effect on our sales and profitability.

In addition, as a result of the desire of retailers to more closely manage inventory levels, there is a growing trend among them to purchase products on a "just-in-time" basis. Due to a number of factors, including (i) manufacturing lead-times, (ii) seasonal purchasing patterns and (iii) the potential for material price increases, we may be required to shorten our lead-time for production and more closely anticipate our retailers' and customers' demands, which could in the future require us to carry additional inventories and increase our working capital and related financing requirements. This may increase the cost of warehousing inventory or result in excess inventory becoming difficult to manage, unusable or obsolete. In addition, if our retailers significantly change their inventory

Table of Contents

management strategies, we may encounter difficulties in filling customer orders or in liquidating excess inventories, or may find that customers are cancelling orders or returning products, which may have a material adverse effect on our business.

Furthermore, we primarily sell branded products and a move by one or more of our large customers to sell significant quantities of private label products, which we do not produce on their behalf and which directly compete with our products, could have a material adverse effect on our business, financial condition and results of operations.

As a result of our international operations, we face a number of risks related to exchange rates and foreign currencies.

Our international sales and certain of our expenses are transacted in foreign currencies. During the Fiscal 2011 Quarter, approximately 49% of our net sales and 47% of our operating expenses were denominated in foreign currencies. We expect that the amount of our revenues and expenses transacted in foreign currencies will increase as our Latin American, European and Asian operations grow and, as a result, our exposure to risks associated with foreign currencies could increase accordingly. Significant changes in the value of the U.S. dollar in relation to foreign currencies will affect our cost of goods sold and our operating margins and could result in exchange losses or otherwise have a material effect on our business, financial condition and results of operations. Changes in currency exchange rates may also affect our sales to, purchases from and loans to our subsidiaries as well as sales to, purchases from and bank lines of credit with our customers, suppliers and creditors that are denominated in foreign currencies.

We source many products from, and sell many products in, China and other Asian countries. To the extent the Chinese Renminbi (RMB) or other currencies appreciate with respect to the U.S. dollar, we may experience fluctuations in our results of operations. Since 2005, the RMB has no longer been pegged to the U.S. dollar at a constant exchange rate and instead fluctuates versus a basket of currencies. Although the People's Bank of China regularly intervenes in the foreign exchange market to prevent significant short-term fluctuations in the exchange rate, the RMB may appreciate or depreciate within a flexible peg range against the U.S. dollar in the medium to long term. Moreover, it is possible that in the future Chinese authorities may lift restrictions on fluctuations in the RMB exchange rate and lessen intervention in the foreign exchange market.

While we may enter into hedging transactions in the future, the availability and effectiveness of these transactions may be limited, and we may not be able to successfully hedge our exposure to currency fluctuations. Further, we may not be successful in implementing customer pricing or other actions in an effort to mitigate the impact of currency fluctuations and, thus, our results of operations may be adversely impacted.

A deterioration in trade relations with China could lead to a substantial increase in tariffs imposed on goods of Chinese origin, which potentially could reduce demand for and sales of our products.

We purchase a number of our products and supplies from suppliers located in China. China gained Permanent Normal Trade Relations (PNTR) with the U.S. when it acceded to the World Trade Organization (WTO), effective January 2002. The U.S. imposes the lowest applicable tariffs on exports from PNTR countries to the U.S. In order to maintain its WTO membership, China has agreed to several requirements, including the elimination of caps on foreign ownership of Chinese companies, lowering tariffs and publicizing its laws. China may not meet these requirements, it may not remain a member of the WTO, and its PNTR trading status may not be maintained. If China's WTO membership is withdrawn or if PNTR status for goods produced in China were removed, there could be a substantial increase in tariffs imposed on goods of Chinese origin entering the U.S. which could have a material negative adverse effect on our sales and gross margin.

Our international operations may expose us to risks related to compliance with the laws and regulations of foreign countries.

We are subject to three EU Directives that may have a material impact on our business: Restriction of the Use of Hazardous Substances in Electrical and Electronic Equipment, Waste of Electrical and Electronic Equipment and the Directive on Batteries and Accumulators and Waste Batteries, discussed below. Restriction of the Use of Hazardous Substances in Electrical and Electronic Equipment requires us to eliminate specified hazardous materials from products we sell in EU member states. Waste of Electrical and Electronic Equipment requires us to collect and treat, dispose of or recycle certain products we manufacture or import into the EU at our own expense. The EU Directive on Batteries and Accumulators and Waste Batteries bans heavy metals in batteries by establishing maximum quantities of heavy metals in batteries and mandates waste management of these batteries, including collection, recycling and disposal systems, with the costs imposed upon producers and importers such as us. Complying or failing to comply with the EU Directives may harm our business. For example:

Although contracts with our suppliers address related compliance issues, we may be unable to procure appropriate Restriction of the Use of Hazardous Substances in Electrical and Electronic Equipment compliant material in sufficient quantity and quality and/or be able to incorporate it into our product procurement processes without compromising quality and/or harming our cost structure.

Table of Contents

We may face excess and obsolete inventory risk related to non-compliant inventory that we may continue to hold in fiscal 2010 for which there is reduced demand, and we may need to write down the carrying value of such inventories.

We may be unable to sell certain existing inventories of our batteries in Europe.

Many of the developing countries in which we operate do not have significant governmental regulation relating to environmental safety, occupational safety, employment practices or other business matters routinely regulated in the U.S. or may not rigorously enforce such regulation. As these countries and their economies develop, it is possible that new regulations or increased enforcement of existing regulations may increase the expense of doing business in these countries. In addition, social legislation in many countries in which we operate may result in significantly higher expenses associated with labor costs, terminating employees or distributors and closing manufacturing facilities. Increases in our costs as a result of increased regulation, legislation or enforcement could materially and adversely affect our business, results of operations and financial condition.

We may not be able to adequately establish and protect our intellectual property rights, and the infringement or loss of our intellectual property rights could harm our business.

To establish and protect our intellectual property rights, we rely upon a combination of national, foreign and multi-national patent, trademark and trade secret laws, together with licenses, confidentiality agreements and other contractual arrangements. The measures that we take to protect our intellectual property rights may prove inadequate to prevent third parties from infringing or misappropriating our intellectual property. We may need to resort to litigation to enforce or defend our intellectual property rights. If a competitor or collaborator files a patent application claiming technology also claimed by us, or a trademark application claiming a trademark, service mark or trade dress also used by us, in order to protect our rights, we may have to participate in expensive and time consuming opposition or interference proceedings before the U.S. Patent and Trademark Office or a similar foreign agency. Similarly, our intellectual property rights may be challenged by third parties or invalidated through administrative process or litigation. The costs associated with protecting intellectual property rights, including litigation costs, may be material. For example, several million dollars have been spent on protecting the patented automatic litter box business over the last few years. Furthermore, even if our intellectual property rights are not directly challenged, disputes among third parties could lead to the weakening or invalidation of our intellectual property rights, or our competitors may independently develop technologies that are substantially equivalent or superior to our technology. Obtaining, protecting and defending intellectual property rights can be time consuming and expensive, and may require us to incur substantial costs, including the diversion of the time and resources of management and technical personnel.

Moreover, the laws of certain foreign countries in which we operate or may operate in the future do not protect, and the governments of certain foreign countries do not enforce, intellectual property rights to the same extent as do the laws and government of the U.S., which may negate our competitive or technological advantages in such markets. Also, some of the technology underlying our products is the subject of nonexclusive licenses from third parties. As a result, this technology could be made available to our competitors at any time. If we are unable to establish and then adequately protect our intellectual property rights, our business, financial condition and results of operations could be materially and adversely affected.

We license various trademarks, trade names and patents from third parties for certain of our products. These licenses generally place marketing obligations on us and require us to pay fees and royalties based on net sales or profits. Typically, these licenses may be terminated if we fail to satisfy certain minimum sales obligations or if we breach the terms of the license. The termination of these licensing arrangements could adversely affect our business, financial condition and results of operations.

We license the use of the *Black & Decker* brand for marketing in certain small household appliances in North America, South America (excluding Brazil) and the Caribbean. Sales of *Black & Decker* branded products represented approximately 14% of our total consolidated revenue in the Fiscal 2011 Quarter. In December 2007, BDC extended the license agreement through December 2012, with an automatic extension through December 2014 if certain milestones are met regarding sales volume and product return. The failure to renew the license agreement with BDC or to enter into a new agreement on acceptable terms could have a material adverse effect on our financial condition, liquidity and results of operations.

Claims by third parties that we are infringing their intellectual property and other litigation could adversely affect our business.

From time to time in the past we have been subject to claims that we are infringing the intellectual property of others. We currently are the subject of such claims and it is possible that third parties will assert infringement claims against us in the future. An adverse finding against us in these or similar trademark or other intellectual property litigations may have a material adverse effect on our business, financial condition and results of operations. Any such claims, with or without merit, could be time consuming and expensive, and may require us to incur substantial costs, including the diversion of the resources of management and technical personnel, cause product delays or require us to enter into licensing

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

or other agreements in order to secure continued access to necessary or desirable intellectual property. If we are deemed to be infringing a third party's intellectual property and are unable to continue using that intellectual property as we had been, our business and results of operations could be harmed if we are unable to successfully develop non-infringing alternative intellectual property on a timely basis or license non-infringing alternatives or

Table of Contents

substitutes, if any exist, on commercially reasonable terms. In addition, an unfavorable ruling in intellectual property litigation could subject us to significant liability, as well as require us to cease developing, manufacturing or selling the affected products or using the affected processes or trademarks. Any significant restriction on our proprietary or licensed intellectual property that impedes our ability to develop and commercialize our products could have a material adverse effect on our business, financial condition and results of operations.

Our dependence on a few suppliers and one of our U.S. facilities for certain of our products makes us vulnerable to a disruption in the supply of our products.

Although we have long-standing relationships with many of our suppliers, we generally do not have long-term contracts with them. An adverse change in any of the following could have a material adverse effect on our business, financial condition and results of operations:

our ability to identify and develop relationships with qualified suppliers;

the terms and conditions upon which we purchase products from our suppliers, including applicable exchange rates, transport costs and other costs, our suppliers' willingness to extend credit to us to finance our inventory purchases and other factors beyond our control;

the financial condition of our suppliers;

political instability in the countries in which our suppliers are located;

our ability to import outsourced products;

our suppliers' noncompliance with applicable laws, trade restrictions and tariffs; or

our suppliers' ability to manufacture and deliver outsourced products according to our standards of quality on a timely and efficient basis.

If our relationship with one of our key suppliers is adversely affected, we may not be able to quickly or effectively replace such supplier and may not be able to retrieve tooling, molds or other specialized production equipment or processes used by such supplier in the manufacture of our products.

In addition, we manufacture the majority of our foil cutting systems for our shaving product lines, using specially designed machines and proprietary cutting technology, at our Portage, Wisconsin facility. Damage to this facility, or prolonged interruption in the operations of this facility for repairs, as a result of labor difficulties or for other reasons, could have a material adverse effect on our ability to manufacture and sell our foil shaving products which could in turn harm our business, financial condition and results of operations.

We face risks related to our sales of products obtained from third-party suppliers.

We sell a significant number of products that are manufactured by third party suppliers over which we have no direct control. While we have implemented processes and procedures to try to ensure that the suppliers we use are complying with all applicable regulations, there can be no assurances that such suppliers in all instances will comply with such processes and procedures or otherwise with applicable regulations. Noncompliance could result in our marketing and distribution of contaminated, defective or dangerous products which could subject us to liabilities and could result in the imposition by governmental authorities of procedures or penalties that could restrict or eliminate our ability to purchase products from non-compliant suppliers. Any or all of these effects could adversely affect our business, financial condition and results of operations.

Class action and derivative action lawsuits and other investigations, regardless of their merits, could have an adverse effect on our business, financial condition and results of operations.

We and certain of our officers and directors have been named in the past, and may be named in the future, as defendants of class action and derivative action lawsuits. In the past, we have also received requests for information from government authorities. Regardless of their subject matter or merits, class action lawsuits and other government investigations may result in significant cost to us, which may not be covered by insurance, may divert the attention of management or may otherwise have an adverse effect on our business, financial condition and results of operations.

Table of Contents

We may be exposed to significant product liability claims which our insurance may not cover and which could harm our reputation.

In the ordinary course of our business, we may be named as a defendant in lawsuits involving product liability claims. In any such proceeding, plaintiffs may seek to recover large and sometimes unspecified amounts of damages and the matters may remain unresolved for several years. Any such matters could have a material adverse effect on our business, results of operations and financial condition if we are unable to successfully defend against or settle these matters or if our insurance coverage is insufficient to satisfy any judgments against us or settlements relating to these matters. Although we have product liability insurance coverage and an excess umbrella policy, our insurance policies may not provide coverage for certain, or any, claims against us or may not be sufficient to cover all possible liabilities. Additionally, we do not maintain product recall insurance. We may not be able to maintain such insurance on acceptable terms, if at all, in the future. Moreover, any adverse publicity arising from claims made against us, even if the claims were not successful, could adversely affect the reputation and sales of our products. In particular, product recalls or product liability claims challenging the safety of our products may result in a decline in sales for a particular product. This could be true even if the claims themselves are ultimately settled for immaterial amounts. This type of adverse publicity could occur and product liability claims could be made in the future.

We may incur material capital and other costs due to environmental liabilities.

We are subject to a broad range of federal, state, local, foreign and multi-national laws and regulations relating to the environment. These include laws and regulations that govern:

discharges to the air, water and land;

the handling and disposal of solid and hazardous substances and wastes; and

remediation of contamination associated with release of hazardous substances at our facilities and at off-site disposal locations.

Risk of environmental liability is inherent in our business. As a result, material environmental costs may arise in the future. In particular, we may incur capital and other costs to comply with increasingly stringent environmental laws and enforcement policies, such as the EU Directives: Restriction of the Use of Hazardous Substances in Electrical and Electronic Equipment, Waste of Electrical and Electronic Equipment and the Directive on Batteries and Accumulators and Waste Batteries, discussed above. Moreover, there are proposed international accords and treaties, as well as federal, state and local laws and regulations, that would attempt to control or limit the causes of climate change, including the effect of greenhouse gas emissions on the environment. In the event that the U.S. government or foreign governments enact new climate change laws or regulations or make changes to existing laws or regulations, compliance with applicable laws or regulations may result in increased manufacturing costs for our products, such as by requiring investment in new pollution control equipment or changing the ways in which certain of our products are made. We may incur some of these costs directly and others may be passed on to us from our third-party suppliers. Although we believe that we are substantially in compliance with applicable environmental laws and regulations at our facilities, we may not always be in compliance with such laws and regulations or any new laws and regulations in the future, which could have a material adverse effect on our business, financial condition and results of operations.

From time to time, we have been required to address the effect of historic activities on the environmental condition of our properties or former properties. We have not conducted invasive testing at all of our facilities to identify all potential environmental liability risks. Given the age of our facilities and the nature of our operations, material liabilities may arise in the future in connection with our current or former facilities. If previously unknown contamination of property underlying or in the vicinity of our manufacturing facilities is discovered, we could be required to incur material unforeseen expenses. If this occurs, it may have a material adverse effect on our business, financial condition and results of operations. We are currently engaged in investigative or remedial projects at a few of our facilities and any liabilities arising from such investigative or remedial projects at such facilities may have a material effect on our business, financial condition and results of operations.

We are also subject to proceedings related to our disposal of industrial and hazardous material at off-site disposal locations or similar disposals made by other parties for which we are responsible as a result of our relationship with such other parties. These proceedings are under CERCLA or similar state or foreign jurisdiction laws that hold persons who arranged for the disposal or treatment of such substances strictly liable for costs incurred in responding to the release or threatened release of hazardous substances from such sites, regardless of fault or the lawfulness of the original disposal. Liability under CERCLA is typically joint and several, meaning that a liable party may be responsible for all of the costs incurred in investigating and remediating contamination at a site. We occasionally are identified by federal or state governmental agencies as being a potentially responsible party for response actions contemplated at an off-site facility. At the existing sites where we have been notified of

Edgar Filing: Spectrum Brands, Inc. - Form 10-Q

our status as a potentially responsible party, it is either premature to determine if our potential liability, if any, will be material or we do not believe that our liability, if any, will be material. We may be named as a potentially responsible party under CERCLA or similar state or foreign jurisdiction laws in the future

Table of Contents

for other sites not currently known to us, and the costs and liabilities associated with these sites may have a material adverse effect on our business, financial condition and results of operations.

Compliance with various public health, consumer protection and other regulations applicable to our products and facilities could increase our cost of doing business and expose us to additional requirements with which we may be unable to comply.

Certain of our products sold through, and facilities operated under, each of our business segments are regulated by the EPA, the FDA or other federal consumer protection and product safety agencies and are subject to the regulations such agencies enforce, as well as by similar state, foreign and multinational agencies and regulations. For example, in the U.S., all products containing pesticides must be registered with the EPA and, in many cases, similar state and foreign agencies before they can be manufactured or sold. Our inability to obtain, or the cancellation of, any registration could have an adverse effect on our business, financial condition and results of operations. The severity of the effect would depend on which products were involved, whether another product could be substituted and whether our competitors were similarly affected. We attempt to anticipate regulatory developments and maintain registrations of, and access to, substitute chemicals and other ingredients, but we may not always be able to avoid or minimize these risks.

As a distributor of consumer products in the U.S., certain of our products are also subject to the Consumer Product Safety Act, which empowers the U.S. Consumer Product Safety Commission (the "Consumer Commission") to exclude from the market products that are found to be unsafe or hazardous. Under certain circumstances, the Consumer Commission could require us to repair, replace or refund the purchase price of one or more of our products, or we may voluntarily do so. For example, Russell Hobbs, in cooperation with the Consumer Commission, voluntarily recalled approximately 9,800 units of a thermal coffeemaker sold under the *Black & Decker* brand in August 2009 and approximately 584,000 coffeemakers in June 2009. Any additional repurchases or recalls of our products could be costly to us and could damage the reputation or the value of our brands. If we are required to remove, or we voluntarily remove our products from the market, our reputation or brands could be tarnished and we may have large quantities of finished products that could not be sold. Furthermore, failure to timely notify the Consumer Commission of a potential safety hazard can result in significant fines being assessed against us. Additionally, laws regulating certain consumer products exist in some states, as well as in other countries in which we sell our products, and more restrictive laws and regulations may be adopted in the future.

The FQPA established a standard for food-use pesticides, which is that a reasonable certainty of no harm will result from the cumulative effect of pesticide exposures. Under the FQPA, the EPA is evaluating the cumulative effects from dietary and non-dietary exposures to pesticides. The pesticides in certain of our products that are sold through the Home and Garden Business continue to be evaluated by the EPA as part of this program. It is possible that the EPA or a third party active ingredient registrant may decide that a pesticide we use in our products will be limited or made unavailable to us. We cannot predict the outcome or the severity of the effect of the EPA's continuing evaluations of active ingredients used in our products.

In addition, the use of certain pesticide and fertilizer products that are sold through our global pet supplies business and through the Home and Garden Business may, among other things, be regulated by various local, state, federal and foreign environmental and public health agencies. These regulations may require that only certified or professional users apply the product, that users post notices on properties where products have been or will be applied or that certain ingredients may not be used. Compliance with such public health regulations could increase our cost of doing business and expose us to additional requirements with which we may be unable to comply.

Any failure to comply with these laws or regulations, or the terms of applicable environmental permits, could result in us incurring substantial costs, including fines, penalties and other civil and criminal sanctions or the prohibition of sales of our pest control products. Environmental law requirements, and the enforcement thereof, change frequently, have tended to become more stringent over time and could require us to incur significant expenses.

Most federal, state and local authorities require certification by Underwriters Laboratory, Inc. ("UL"), an independent, not-for-profit corporation engaged in the testing of products for compliance with certain public safety standards, or other safety regulation certification prior to marketing electrical appliances. Foreign jurisdictions also have regulatory authorities overseeing the safety of consumer products. Our products may not meet the specifications required by these authorities. A determination that any of our products are not in compliance with these rules and regulations could result in the imposition of fines or an award of damages to private litigants.

Public perceptions that some of the products we produce and market are not safe could adversely affect us.

On occasion, customers and some current or former employees have alleged that some products failed to perform up to expectations or have caused damage or injury to individuals or property. Public perception that any of our products are not safe, whether justified or not, could impair our reputation, damage our brand names and have a material adverse effect on our business, financial condition and results of operations.

Table of Contents

If we are unable to negotiate satisfactory terms to continue existing or enter into additional collective bargaining agreements, we may experience an increased risk of labor disruptions and our results of operations and financial condition may suffer.

Approximately 20% of our total labor force is employed under collective bargaining agreements. One of these agreements, which covers approximately 12% of the labor force under collective bargaining agreements, or approximately 2% of our total labor force, is scheduled to expire on September 30, 2011. While we currently expect to negotiate continuations to the terms of these agreements, there can be no assurances that we will be able to obtain terms that are satisfactory to us or otherwise to reach agreement at all with the applicable parties. In addition, in the course of our business, we may also become subject to additional collective bargaining agreements. These agreements may be on terms that are less favorable than those under our current collective bargaining agreements. Increased exposure to collective bargaining agreements, whether on terms more or less favorable than existing collective bargaining agreements, could adversely affect the operation of our business, including through increased labor expenses. While we intend to comply with all collective bargaining agreements to which we are subject, there can be no assurances that we will be able to do so and any noncompliance could subject us to disruptions in our operations and materially and adversely affect our results of operations and financial condition.

Significant changes in actual investment return on pension assets, discount rates and other factors could affect our results of operations, equity and pension contributions in future periods.

Our results of operations may be positively or negatively affected by the amount of income or expense we record for our defined benefit pension plans. GAAP requires that we calculate income or expense for the plans using actuarial valuations. These valuations reflect assumptions about financial market and other economic conditions, which may change based on changes in key economic indicators. The most significant year-end assumptions we used to estimate pension income or expense are the discount rate and the expected long-term rate of return on plan assets. In addition, we are required to make an annual measurement of plan assets and liabilities, which may result in a significant change to equity. Although pension expense and pension funding contributions are not directly related, key economic factors that affect pension expense would also likely affect the amount of cash we would contribute to pension plans as required under the Employee Retirement Income Security Act of 1974, as amended.

If our goodwill, indefinite-lived intangible assets or other long-term assets become impaired, we will be required to record additional impairment charges, which may be significant.

A significant portion of our long-term assets consist of goodwill, other indefinite-lived intangible assets and finite-lived intangible assets recorded as a result of past acquisitions. We do not amortize goodwill and indefinite-lived intangible assets, but rather review them for impairment on a periodic basis or whenever events or changes in circumstances indicate that their carrying value may not be recoverable. We consider whether circumstances or conditions exist which suggest that the carrying value of our goodwill and other long-lived assets might be impaired. If such circumstances or conditions exist, further steps are required in order to determine whether the carrying value of each of the individual assets exceeds its fair market value. If analysis indicates that an individual asset's carrying value does exceed its fair market value, the next step is to record a loss equal to the excess of the individual asset's carrying value over its fair value.

The steps required by GAAP entail significant amounts of judgment and subjectivity. Events and changes in circumstances that may indicate that there is impairment and which may indicate that interim impairment testing is necessary include, but are not limited to: strategic decisions to exit a business or dispose of an asset made in response to changes in economic; political and competitive conditions; the impact of the economic environment on the customer base and on broad market conditions that drive valuation considerations by market participants; our internal expectations with regard to future revenue growth and the assumptions we make when performing impairment reviews; a significant decrease in the market price of our assets; a significant adverse change in the extent or manner in which our assets are used; a significant adverse change in legal factors or the business climate that could affect our assets; an accumulation of costs significantly in excess of the amount originally expected for the acquisition of an asset; and significant changes in the cash flows associated with an asset. As a result of such circumstances, we may be required to record a significant charge to earnings in our financial statements during the period in which any impairment of our goodwill, indefinite-lived intangible assets or other long-term assets is determined. Any such impairment charges could have a material adverse effect on our business, financial condition and operating results.
