2010 saw many changes in Acorn. After twelve years since Robert and I founded Acorn, we both returned to more active management roles in the Company in October last year. We have since been working hard on re-positioning Acorn based on the Company's core values and re-evaluating Acorn's various business lines to steer the Company back to growth. Much of the restructuring is still taking place as we expect the process to continue into the early part of 2011. said Mr. Don Yang, CEO and President of Acorn. We aim to build Acorn as the premium media and branding company in China. Through a focus on media efficiency, a gauge on which we intend to measure all parts of the company's business, we can effectively improve Acorn's overall profitability while expanding its media and industry presence. With Robert's success in running Oaklawn, a Japan-based TV direct sales operator, and Acorn's existing media resources, we are optimistic of Acorn's ability to regain its growth momentum.

Business Results for the Fourth quarter of 2010:

Direct sales of mobile handsets demonstrated accelerated growth for the fourth quarter of 2010. Revenues grew 366.1% from \$7.4 million for the fourth quarter 2009 to \$34.5 million for the fourth quarter of 2010.

Non-TV direct sales, including sales from the Company's third party bank channels, outbound calls, catalogs and ecommerce remained a key growth driver of the Company's direct sales business and an important vehicle for leveraging the Company's extensive proprietary customer database and reducing volatility of sales and dependence on advertising expenditure. Third party bank channel sales increased 35.7% to approximately \$14.3 million from approximately \$10.6 million for the same period last year. The Company continues to deepen its relationships with domestic banks to directly market to their credit card holders, expanding its geographical footprint in China.

Table of Contents**Financial Results for the Fourth Quarter of 2010:**

Direct sales contributed 80.8% of total net revenues, or \$57.2 million, for the fourth quarter 2010, an increase of 34.2% from \$42.6 million for the fourth quarter last year, mainly due to increased mobile handset sales led by Gionee's A320 model.

Distribution sales net revenues decreased 20.3% year-over-year to \$13.6 million in the fourth quarter 2010 from \$17.1 million in the fourth quarter 2009, primarily due to decreased sales of Ozing from a market-wide slowdown in the Electronic Learning Products line.

The table below summarizes the gross revenues from the three best selling product categories for the direct sales platform, distribution network and total direct and distribution sales, respectively:

| | Three Months Ended December 31, 2010 (in thousands of US dollars) |
|--|--|
| Direct sales | |
| Mobile handsets | 34,474 |
| Collectibles | 7,011 |
| Cosmetics | 5,355 |
| Distribution sales | |
| Electronic learning product (Ozing) | 6,786 |
| Mobile handsets | 2,964 |
| Electronic dictionary (Meijin) | 2,313 |
| Total direct and distribution sales | |
| Mobile handsets | 37,438 |
| Electronic learning product (Ozing) | 7,202 |
| Collectibles | 7,011 |

Cost of sales for the fourth quarter of 2010 was \$49.8 million, a 61.6% increase from \$30.8 million for the fourth quarter of 2009, primarily due to a higher percentage of sales in the quarter contributed by mobile handsets, which generally have higher product costs, and a \$7.5 million inventory provision in the fourth quarter of 2010.

Gross profit for the fourth quarter of 2010 was \$21.0 million, a decrease of 27.4% compared to \$28.9 million for the fourth quarter of 2009. Gross margin was 29.6% in the fourth quarter of 2010, compared to 48.3% in the same period of 2009.

Gross profit from direct sales for the fourth quarter 2010 decreased 9.3% to \$21.7 million from \$23.9 million for the fourth quarter of 2009. Gross margin for direct sales for the fourth quarter of 2010 was 37.9%, compared to 56.2% in the same period last year. The decrease in gross margin was largely due to a shift in product mix to include more mobile handset sales in the fourth quarter of 2010, an increased proportion of the non-TV direct sales which have lower margins compared to TV direct sales, and the inventory provision in the fourth quarter of 2010.

Table of Contents

Gross loss from distribution sales for the fourth quarter of 2010 was \$0.7 million, compared to a gross profit of \$4.9 million for the fourth quarter of 2009. The gross loss was mainly due to the inventory provision for Ozing products and Yiyang Yukang mobile handsets.

Advertising expenses were \$14.6 million for the fourth quarter of 2010, compared to \$14.0 million for the fourth quarter of 2009. Gross profit over advertising expenses, a benchmark Acorn uses to measure return on multiple sales platforms, was 1.43 in the fourth quarter of 2010, down from 2.07 in the fourth quarter of 2009.

Other selling and marketing expenses increased 11.5% to \$11.8 million in the fourth quarter of 2010 from \$10.5 million in the fourth quarter of 2009. The increase was mainly due to the increased salaries and benefits and catalog printing and delivery costs.

General and administrative expenses were \$7.8 million for the fourth quarter of 2010, a 33.5% increase from \$5.8 million in the fourth quarter of 2009. The increase was largely due to the increase in salaries and benefits.

Impairment expenses of \$15.2 million were recognized due to the impairment of the distribution network from the acquisition of Yiyang Yukang in the fourth quarter of 2009. The Company had no such expense in the fourth quarter of 2010.

Other operating income, net, was \$1.4 million for the fourth quarter of 2010, compared to \$2.0 million in the fourth quarter of 2009. The decrease was mainly due to the decreased subsidy income.

As a result, operating loss was \$11.9 million in the fourth quarter of 2010, compared to an operating loss of \$14.7 million in the fourth quarter of 2009.

Other income was \$0.5 million for the fourth quarter of 2010, compared to \$0.5 million in the fourth quarter of 2009.

Income from extraordinary items, net of tax, was \$0.8 million for the fourth quarter of 2010. This was mainly due to the reversal of the business combination liability of Yiyang Yukang after reducing to zero the carrying amounts of certain acquired assets. The company had no such income in the fourth quarter of 2009.

Share-based compensation expenses were \$43,979 for the fourth quarter of 2010 due to unexpected forfeitures, compared to share-based compensation expenses of \$7,873 for the same period last year.

Table of Contents

Loss from continuing operations was \$9.4 million in the fourth quarter of 2010, compared to a loss of \$10.6 million in the fourth quarter of 2009.

Net loss attributable to Acorn was \$8.7 million in the fourth quarter of 2010, compared to a net loss of \$10.7 million in the fourth quarter of 2009.

Diluted loss per ADS from continuing operations were \$0.32 and \$0.36 for the fourth quarters of 2010 and 2009, respectively.

As of December 31, 2010, Acorn's cash and cash equivalents, restricted cash and short-term investments totaled \$104.2 million, compared to \$124.7 as of September 30, 2010. The decrease in cash balance was mainly due to the payment of \$20.5 million in dividends to Acorn's shareholders.

Resignation of Director and Chief Financial Officer

Effective on February 26, 2011, Mr. Ying Wu resigned from the Company's board of directors for personal reasons.

In addition, the Company announced the resignation of its acting CFO, David He, effective on February 28, 2011. The Company has initiated a search for a qualified CFO to replace Mr. He.

Fiscal Year 2010 Results:

Direct sales contributed 66.8% to total net revenues, or \$195.8 million, for 2010, an increase of 22.1% from \$160.4 million last year, mainly due to the increase in mobile handset sales led by Gionee's A320 model.

Distribution sales net revenues decreased 23.4% year-over-year to \$97.4 million in 2010 from \$127.2 million last year, primarily due to decreased sales of Ozing from a market slowdown in the Electronic Learning Products line.

The table below summarizes the gross revenues from the three best selling product categories for the direct sales platform, distribution network and total direct and distribution sales, respectively:

| | Year Ended December 31, 2010 (in thousands of US dollars) |
|--|---|
| Direct sales | |
| Mobile handsets | 101,907 |
| Cosmetics | 26,110 |
| Collectibles | 18,040 |
| Distribution sales | |
| Electronic learning product (Ozing) | 48,671 |
| Mobile handsets | 23,168 |
| Electronic dictionary (Meijin) | 14,859 |
| Total direct and distribution sales | |
| Mobile handsets | 125,074 |
| Electronic learning product (Ozing) | 54,673 |
| Cosmetic | 26,233 |

Table of Contents

Cost of sales for 2010 was \$181.7 million, a 20.6% increase from \$150.6 million last year, primarily due to higher sales of mobile handsets which generally have higher product costs in the year.

Gross profit for 2010 was \$111.5 million, a decrease of 18.6% compared to \$137.0 million last year. Gross margin was 38.0% for 2010, compared to 47.6% last year.

Gross profit from direct sales for 2010 decreased 4.3% to \$88.8 million from \$92.8 million last year. Gross margin for direct sales for 2010 was 45.4%, compared to 57.9% last year. The decrease in gross margin was mainly due to a shift in product mix to include more mobile handset sales, a decrease in gross margin for cosmetics, an increase in lower-margin non-TV direct sales in 2010 and an inventory provision taken in the fourth quarter of 2010.

Gross profit from distribution sales for 2010 decreased 48.6% to \$22.7 million from \$44.1 million last year. Gross margin for distribution sales for 2010 was 23.3%, compared to 34.7% last year. The decrease was primarily due to a lower gross margin for Ozing as a result of increased discounts to Acorn's distributors and an inventory provision taken in the fourth quarter of 2010.

Advertising expenses were \$58.5 million for 2010, compared to \$61.0 million last year. Gross profit over advertising expenses, a benchmark Acorn uses to measure return on multiple sales platforms, was 1.91 in 2010, down from 2.24 last year.

Other selling and marketing expenses increased 1.0% to \$43.4 million in 2010 from \$43.0 million last year.

General and administrative expenses were \$25.4 million for 2010, a 18.5% decrease from \$31.2 million for 2009. The decrease was mainly due to the decline in share-based compensation expenses and litigation expenses.

Expenses related to impairment of intangible assets were \$15.2 million in 2009. The Company had no such impairment in 2010.

Other operating income, net, was \$3.0 million for 2010, compared to \$6.0 million last year. The decrease was largely due to the decline in subsidy income.

Table of Contents

As a result, operating loss was \$12.8 million for 2010, compared to an operating loss of \$7.5 million last year.

Other income was \$4.0 million for 2010, compared to \$1.7 million last year. This was mainly due to an increase of 1.8 million in investment income.

Share-based compensation expenses were \$0.2 million for 2010, compared to share-based compensation expenses of \$1.8 million last year.

Loss from continuing operations was \$7.2 million for 2010, compared to a loss of \$3.3 million last year.

Net loss attributable to Acorn was \$6.4 million for 2010, compared to a net income of \$11.9 million last year.

Diluted loss per ADS from continuing operations was \$0.25 and \$0.10 for 2010 and 2009, respectively.

Fiscal Year 2011 Business Outlook:

Acorn's main initiatives for fiscal year 2011 include developing its media platform, improving media efficiency and allocating more media resources to its proprietary brands, while strengthening existing cooperation with local banks and developing new third party bank relationships to further expand non-TV direct sales. The Company also expects continued growth from mobile handset direct sales as it strengthens its strategic partnership with Gionee.

For fiscal year 2011, the Company expects to reach revenue between \$340 million and \$380 million and net income from continuing operations to be between \$8 million and \$10 million.

These estimates are subject to change. Also, Acorn reminds investors that its operating results in each period are impacted significantly by the mix of products and services sold in the period and the platforms through which they are sold. Consequently, in evaluating the overall performance of Acorn's multiple sales platforms in any period, management also considers metrics such as operating margin and gross profit return on advertising expenses.
