PROXY STATEMENT

ANNUAL MEETING OF SHAREHOLDERS TO BE HELD

TUESDAY, APRIL 19, 2011

CNB Financial Corporation (the Corporation or the Holding Company) is a Pennsylvania business corporation and a financial holding company registered with the Federal Reserve Board and having its principal offices at CNB Bank, Clearfield, Pennsylvania 16830. The subsidiaries of the Corporation are CNB Bank (the Bank), CNB Securities Corporation, Holiday Financial Services Corporation, County Reinsurance Company and CNB Insurance Agency.

The enclosed proxy is being solicited by the Board of Directors of the Corporation for use at the Annual Meeting of Shareholders to be held April 19, 2011. The cost of preparing, assembling and mailing the notice of annual meeting, proxy statement and form of proxy is to be borne by the Corporation. In addition to the solicitation of proxies by use of mail, directors, officers or other employees of the Corporation may solicit proxies personally or by telephone and the Corporation may request certain persons holding stock in their names or in the names of their nominees to obtain proxies from and send proxy material to the principals and will reimburse such persons for their expenses in so doing. Directors, officers, or other employees so utilized will not receive special compensation for such efforts. The date on which this Proxy Statement and the accompanying form of proxy was mailed to shareholders was March 18, 2011.

A quorum for the transaction of business at the annual meeting will require the presence, in person or by proxy, of shareholders entitled to cast at least a majority of the votes that all shareholders are entitled to cast on a particular matter to be acted upon at the meeting. Abstentions are counted as shares present for determination of a quorum but are not counted as affirmative or negative votes and are not counted in determining the number of votes cast on any matter.

The enclosed proxy is revocable at any time prior to the actual voting of such proxy by the filing of an instrument revoking it, or a duly executed proxy bearing a later date, with the Secretary of the Corporation. In the event your proxy is mailed and you attend the meeting, you have the right to revoke your proxy and cast your vote personally. All properly executed proxies delivered to us pursuant to this solicitation will be voted at the meeting in accordance with your instructions, if any. Unless otherwise directed, proxies will be voted FOR the election as directors of the nominees named under the caption Proposal 1. Election of Directors and herein, FOR ratification of the appointment of our independent auditors for the year 2011, FOR approval of the compensation of the named executive officers and FOR the 3 Year alternative noted in Proposal 4. The Board of Directors is not aware of any other matters which will be presented for action at the meeting, but the persons named in the proxies intend to vote or act according to their discretion with respect to any other proposal which may be presented for shareholder action.

Under current New York Stock Exchange (NYSE) rules, which govern NYSE brokerage members, the proposal to ratify the appointment of independent auditors (Proposal 2) is considered a discretionary item. This means that brokerage firms may vote in their discretion on this matter on behalf of clients who have not furnished voting instructions in accordance with NYSE rules. In contrast, the proposal to elect directors (Proposal 1) and proposals relating to say-on-pay (Proposal 3) and say-on-frequency (Proposal 4) are non-discretionary items. This means brokerage firms that have not received voting instructions from their clients on these matters may not vote on these proposals. These so-called broker non-votes will not be considered in determining the number of votes necessary for approval and, therefore, will have no effect on the outcome of the vote for these proposals.

The Board of Directors fixed the close of business on March 7, 2011, as the record date (the Record Date) for determining shareholders entitled to notice of, and to vote at, the meeting. The only securities of the Corporation entitled to vote at the meeting consist of 12,267,082 shares of common stock outstanding on the Record Date.

In the election of directors, each shareholder or a duly authorized proxy will have the right to vote the number of shares owned for each of the directors to be elected. The nominees with the highest number of votes will be elected. There is no cumulative voting in the election of directors. The affirmative vote of a majority of the votes cast by all shareholders entitled to vote on the matter is required for the approval of all other matters and the shareholders will have one vote for each share held.

On the Record Date, all executive officers and directors of the Corporation as a group (16 persons) beneficially owned 888,518 shares, or 7.2% of the total number of shares outstanding (including shares acquirable within 60 days of the Record Date).

PROPOSAL 2. RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

The Audit Committee of the Board of Directors is responsible for selecting the Corporation's independent auditors. At its meeting held on March 2, 2011, the Audit Committee appointed Crowe Horwath LLP (Crowe) as the independent auditors for the 2011 fiscal year. Although shareholder approval for this appointment is not required, the Board is submitting the selection of Crowe for ratification to obtain the views of shareholders. If the appointment is not ratified, the Audit Committee will reconsider its selection.

In making the appointment of Crowe as the Corporation's independent auditors for the fiscal year 2011, the Audit Committee considered whether Crowe's provision of services other than audit services is compatible with maintaining independence as our independent auditors and decided that the provision of such services is compatible with maintaining independence.

The Board of Directors unanimously recommends a vote FOR ratification of the appointment of independent auditors.

PROPOSAL 3. ADVISORY VOTE ON EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act added Section 14A to the Securities Exchange Act of 1934, which requires that we provide our shareholders with the opportunity to approve, on a non-binding advisory basis, the compensation of our named executive officers as disclosed in this Proxy Statement in accordance with the compensation disclosure rules of the Securities and Exchange Commission.

Edgar Filing: CNB FINANCIAL CORP/PA - Form DEF 14A

As described in greater detail under the heading Compensation Discussion and Analysis, we seek to align the interests of our named executive officers with the interests of our shareholders. Our compensation programs are designed to reward our named executive officers for the achievement of short-term results and long-term growth, while at the same time avoiding the encouragement of unnecessary or excessive risk-taking.

The Corporation is presenting the following proposal, which gives you as a shareholder the opportunity to endorse or not endorse our compensation program for named executive officers by voting for or against the following resolution (a "say-on-pay" vote). While the vote on the resolution is advisory in nature and therefore will not bind us to take any particular action, our Board of Directors intends to carefully consider the shareholder vote resulting from the proposal in making future decisions regarding our compensation program.

RESOLVED, that the shareholders approve, on an advisory basis, the compensation of the Corporation's named executive officers, as disclosed in the Compensation Discussion and Analysis, the compensation tables, and the related narrative executive compensation disclosures contained in the Proxy Statement.

The Board of Directors unanimously recommends that shareholders vote FOR the proposal.

PROPOSAL 4. ADVISORY VOTE ON THE FREQUENCY OF THE VOTE ON EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act added Section 14A to the Securities Exchange Act of 1934, which requires that we provide our shareholders with the opportunity to vote, on a non-binding advisory basis, for their preference as to how frequently to vote on future advisory votes on the compensation of our named executive officers as disclosed in accordance with the compensation disclosure rules of the Securities and Exchange Commission.

Shareholders may indicate whether they would prefer that we conduct future advisory votes on executive compensation once every one, two or three years. Shareholders also may abstain from casting a vote on this proposal. Shareholders will not be voting to approve or disapprove the recommendation of the Board of Directors.

The Board of Directors values constructive dialogue on executive compensation and other important governance topics with our shareholders. The Board believes an advisory vote every 3 years will provide an effective way to obtain information on shareholder sentiment about our executive compensation program by allowing adequate time for the Corporation to respond to shareholders' feedback and engage with shareholders to understand and respond to the vote results.

This vote is advisory in nature and therefore will not bind us to adopt any particular frequency. However, our Board of Directors intends to carefully consider the shareholder vote resulting from the proposal in determining how frequently we will hold "say-on-pay" votes.

The Board of Directors unanimously recommends that shareholders vote FOR the 3 Year alternative set out in the proxy card.

OTHER MATTERS

The Board of Directors does not intend to bring any other matters before the annual meeting and does not know of any matter which anyone proposes to present for action at the meeting. However, if any other matters properly come before the meeting, the persons named in the accompanying proxy, or their duly constituted substitutes acting at the meeting, will be authorized to vote or otherwise act thereon in accordance with their judgment.

CORPORATE GOVERNANCE

Meetings and Committees of the Board of Directors

The Board of Directors held thirteen meetings during 2010. One of the thirteen was a special meeting where the Board conducted director education. Nine directors attended the 2010 annual meeting of shareholders. Each incumbent director attended at least 75 percent of the aggregate of (i) the total number of meetings held by the Board of Directors during the period that the individual served and (ii) the total number of meetings held by all committees of the Board on which the individual served during the period that the individual served.

The Board of Directors of the Corporation and the Board of Directors of the Bank have a number of joint committees that serve both the Corporation and the Bank. These include an Audit Committee, an Executive Compensation/Personnel Committee and a Corporate Governance/Nominating Committee.

Audit Committee. The Audit Committee met four times in 2010. The Audit Committee appoints the Corporation's independent accountants, reviews and approves the audit plan and fee estimate of the independent public accountants, appraises the effectiveness of the internal and external audit efforts, evaluates the adequacy and effectiveness of accounting policies and financial and accounting management, approves and evaluates the internal audit function, pre-approves all audit and any non-audit services, and reviews and approves

the annual and quarterly financial statements. The members of the Audit Committee are Jeffrey S. Powell, Chairman, Robert W. Montler, Deborah Dick Pontzer and Charles H. Reams. The Corporation's Board adopted a written charter for the Audit Committee on May 3, 2001. The charter is reviewed annually by the Audit Committee and no changes were made in 2010. The charter is available on the Corporation's website at www.bankcnb.com.

In the opinion of the Corporation's Board, the members of the Audit Committee do not have a relationship with the Corporation or any of its affiliates that would interfere with the exercise of independent judgment in carrying out their responsibilities as directors. None of them is or has for the past three years been an employee of the Corporation or any of its affiliates; no immediate family members of any of them is or has for the past three years been an executive officer of the Corporation or any of its affiliates; and they otherwise meet the standards for independence required by NASDAQ.

The Corporation's Board of Directors has determined that the Audit Committee does not have a financial expert serving on the Committee, as defined by the Securities and Exchange Commission (SEC). While members have an understanding of financial statements as well as the ability to assess the proper application of accounting estimates, accruals and reserves, no member possesses in-depth knowledge of generally accepted accounting principles. The Committee has the authority to engage legal counsel or other experts or consultants as it deems appropriate to carry out its responsibilities, at the Corporation's expense.

The Audit Committee must pre-approve all permitted non-audit services performed by the Corporation's external audit firm. The Audit Committee may delegate such authority to a subcommittee, provided that any decisions of the subcommittee are presented to the full Audit Committee at its next scheduled meeting.

The Audit Committee has submitted the following report for inclusion in this Proxy Statement:

The Audit Committee has reviewed the audited financial statements for the year ended December 31, 2010 and has discussed them with management. The Audit Committee has also discussed with Crowe the matters required to be discussed by Statement on Auditing Standards No. 61. The Audit Committee has received the written disclosures and the letter from Crowe required by applicable requirements of the Public Company Accounting Oversight Board regarding Crowe's communications with the Audit Committee, and has discussed with Crowe their independence. Based on this, the Audit Committee recommended to the Board that the audited financial statements be included in CNB Financial Corporation's Annual Report on Form 10-K for the fiscal year ended December 31, 2010 for filing with the SEC.

Submitted by the Audit Committee:

Jeffrey S. Powell, Chairman
Deborah Dick Pontzer

Robert W. Montler
Charles H. Reams

This report of the Audit Committee shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Exchange Act of 1934 and shall not be deemed filed under that Act.

Executive Compensation/Personnel Committee. The Executive Compensation/Personnel Committee consists of the following independent directors as defined by NASDAQ rules: James B. Ryan, Chairman; Dennis L. Merrey; Robert W. Montler and Jeffrey S. Powell. The Committee met seven times during 2010. See Compensation Determination Process for more information about the Executive Compensation/Personnel Committee.

Corporate Governance/Nominating Committee. The Corporate Governance/Nominating Committee met four times during 2010. The Committee consists of the following independent directors as defined by NASDAQ rules: Dennis L. Merrey, Chairman; Robert E. Brown; James B. Ryan; and Peter F. Smith. The Committee was established by resolution of the Board of Directors. Its function is to recommend to the Board candidates for nomination for election to the Board of Directors. Any shareholder who wishes to have the Committee consider a candidate should submit the name of the candidate, along with any biographical or other relevant information that the shareholder wishes the Committee to consider and the consent of such candidate evidencing his or her willingness to serve as a director, to the President of the Corporation at the address appearing on the Notice of Annual Meeting no later than November 17, 2011. All recommendations are subject to the process described below.

The Committee has the responsibility of reviewing and evaluating candidates for election or appointment to the Board of Directors. The process utilized by the Committee to recommend a candidate consists of first reviewing formal expressions of interest by interested individuals which have been communicated to the Committee. In addition, the Committee obtains input from shareholders, directors and management regarding other potential candidates who have not indicated an interest in a Board position.

Utilizing the selection criteria set forth below, the Committee selects a candidate and then conducts an interview in order to further evaluate the individual. Subsequent to the interview the Committee meets to determine whether to recommend the candidate to the Board of Directors for election or appointment. The Board of Directors, exclusive of non-independent directors, either accepts or rejects the Committee recommendation.

The Committee utilizes various selection criteria to evaluate a candidate for election or appointment to the Board of Directors including, among others, the following minimum criteria:

1. Residency within the market area of CNB Bank.
2. Ability and willingness to commit time necessary to fulfill Board and committee duties.
3. Strong interest in or familiarity with the financial services industry.
4. Successful background in a business or profession representing a business or profession suitable to our business plan within the Bank's market area. Comparing new candidates to the current Board ensures that the Board has a diverse group of individuals through different professions, experience, education or skill.
5. Character and reputation.

Under the Bylaws: (i) no shareholder is eligible to serve as a director who does not own at least 1,000 unencumbered shares of the Corporation's common stock; (ii) no incumbent director may be proposed for nomination to the Board of Directors without approval of 25% of the Board; and (iii) no shareholder, not an incumbent director, may be proposed for nomination to the Board of Directors without approval of two-thirds of the Board.

Directors Dennis L. Merrey and Joseph B. Bower, Jr. are ex-officio members of all committees if not otherwise named, except the Audit, Corporate Governance/Nominating and Executive Compensation/Personnel Committees as to Mr. Bower.

The committee has a charter, a copy of which is available on the Corporation's website at www.bankcnb.com.

Communications With Directors

Any shareholder who wishes to communicate with the directors (or with any individual director) should send a letter to the directors as follows: ATTN: Corporate Secretary - Communication to Directors, CNB Financial Corp., PO Box 42, Clearfield, PA 16830-0042. The Corporate Secretary will regularly forward all such correspondence to the directors.

Risk Oversight

Risk identification and management are essential elements for the successful management of the Corporation. In the normal course of business, the Corporation is subject to various types of risk, including interest rate, credit, and liquidity risk. These risks are controlled through policies and procedures established throughout the Corporation, which are monitored and reviewed by the Board in accordance with established Corporation policies.

Interest rate risk is the sensitivity of net interest income and the market value of financial instruments to the direction and frequency of changes in interest rates. Interest rate risk results from various repricing frequencies and the maturity structure of the financial instruments owned by the Corporation. The Corporation uses its asset/liability management policy and systems to control, monitor and manage interest rate risk. Such policies and systems are monitored by the Asset/Liability Committee of the Board, which meets four times per year.

Credit risk represents the possibility that a customer may not perform in accordance with contractual terms. Credit risk results from loans with customers and the purchase of securities. The Corporation manages credit risk by following an established credit policy and through a disciplined evaluation of the adequacy of the allowance for loan losses. Also, the investment policy limits the amount of credit risk that may be

Edgar Filing: CNB FINANCIAL CORP/PA - Form DEF 14A

taken in the securities portfolio. Such policies and systems are monitored by both the Asset/Liability Committee of the Board and the Loan Committee of the Board, which meets bi-monthly.

Liquidity risk represents the inability to generate or otherwise obtain funds at reasonable rates to satisfy commitments to borrowers and obligations to depositors. The Corporation has established guidelines within its asset liability management policy to manage liquidity risk. These guidelines include contingent funding alternatives. Such guidelines are monitored by the Asset/Liability Committee of the Board.

Board Leadership Structure

The Corporation has elected to have two separate individuals as CEO and Chairman. The Corporation believes that this separation facilitates the independence of the Board and is appropriate for the size and structure of the Corporation.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This discussion and analysis focuses on the Corporation's Executive Officers, who are named in the tables below and who are referred to as our *named executive officers* or *NEOs*. We summarize our philosophy, the strategy and the major details of the Corporation's approach to compensating our NEOs.

Executive Summary

Our compensation strategy has been developed over several years with guidance and oversight of the Executive Compensation Committee along with the input and observations of management as well as that of compensation and benefits consultants.

Our expectation is that our senior management team should drive performance and produce above average returns for shareholders. To achieve that goal, our executive compensation approach is benchmarked, both as to pay and as to performance, and weighted heavily towards results. In return for achieving above average performance, we expect to reward our NEOs with at or above average compensation and benefits.

Provided below are key Corporation performance and executive compensation highlights for 2010:

Credit Quality Standards were compared to the credit quality standards of our peer group under the BHCPR as well as established standards based on historical performance of the Corporation including the ratio of non-performing assets to total assets (NPAs/TAs), loan losses, & delinquency

NPAs/TAs of 0.99%, for 2010, compared to BHCPR data of 3.48%

Other Financial Performance measures: Strong performance as compared to BHCPR data specifically related to operating efficiencies, average assets to personnel and reductions to non-interest expenses as compared to corporate historical and budgeted data.

Compensation Highlights

Summarized below are highlights with respect to executive compensation in 2010:

Continued to measure both absolute and relative performance in our annual bonus (helping to ensure a more balanced and risk appropriate program)

Continued to provide a significant portion of executive compensation in incentive-based pay (helping to ensure a pay-for-performance alignment)

Made stock-based grants to select executives to help retain and align the executives with the long-term interests of the Corporation and shareholders

With the assistance of an independent consultant, examined the competitiveness of executive compensation to ensure it meets our objectives of attracting, retaining and motivating executives.

As part of evaluating compensation, the Committee tracks NEO compensation as a percentage of Net Income. Provided below is a six-year trend of NEO compensation (base salaries and bonuses) as a percentage of Net Income:

Executive Salaries and bonuses as a % of Net Income	2010 - 9.1%
	2009 - 13.8%
	2008 - 16.2%
	2007 - 9.9%
	2006 - 9.6%
	2005 - 9.7%

Compensation Determination Process

The Role of the Executive Compensation Committee

The Executive Compensation Committee is composed of four non-employee, independent directors (as defined in the NASDAQ Corporate Governance Rules) selected from the Board of Directors of the Corporation.

The Committee has the overall responsibility for reviewing, establishing, and administering policies which govern NEO compensation programs. It determines the compensation of the NEOs for recommendation to the entire Board. In discharging these responsibilities, the Committee seeks to maintain a position of equity with respect to the balancing of interests of the shareholders with those of the NEOs.

The Executive Compensation Committee does not have a charter. The Executive Compensation Committee meets regularly regarding compensation issues and regularly receives input for its independent compensation consultant, Pearl Meyer & Partners, or PM&P.

The Role of the Compensation Consultant

The Executive Compensation Committee has the sole authority to retain and terminate a compensation consultant and to approve the consultant's fees and all other terms of the engagement. The Committee has direct access to outside advisors and consultants throughout the year.

Since 2008, the Committee has relied on the services of compensation consulting firm Pearl Meyer & Partners for compensation advice.

The Committee selected and retained the services of Pearl Meyer & Partners (PM&P), an independent outside consulting firm specializing in NEO and board compensation for assistance based on PM&P's expertise. Services include conducting benchmarking studies, establishing compensation guidelines, designing incentive programs, assisting with proxy disclosure, and providing insight on emerging best practices. The consultant reports directly to the Committee and carries out its responsibilities to the Committee. The Committee has reviewed all services provided by Pearl Meyer & Partners in 2010, and has determined that Pearl Meyer & Partners is independent with respect to the SEC standards as well as Corporate policy.

The Role of Management

At the request of the Committee, NEOs of the Corporation or Bank may be present at Committee meetings for discussion purposes. However, they have no involvement in the decisions made by the Committee, nor do they have a vote on any matters brought before the Committee.

The Executive Compensation Committee meets with the Chief Executive Officer to discuss his performance and compensation package, but ultimately decisions regarding his package are made solely based upon the Committee's deliberations, as well as input from the compensation consultant, as requested. The Executive Compensation Committee considers recommendations from the Chief Executive Officer, as well as input from the compensation consultant as requested, to make decisions regarding other NEOs.

Competitive Benchmarking

Although the Committee reviews competitive market data annually, a comprehensive assessment may be undertaken every few years. The frequency of the comprehensive reviews will reflect the competitive landscape as well as our own growth. To assist in making 2010 compensation decisions, PM&P was engaged by the Executive Compensation Committee, in December 2009, to conduct a comprehensive review of its NEO total compensation program. The purpose of the review was to provide an independent and objective analysis of all elements of compensation (individually and in aggregate) relative to market and peer group practices. An assessment of the pay mix and the pay for performance relationship were also presented to the Committee.

The primary data source used in examining the competitive market for the NEOs is information publicly disclosed by a peer group of other publicly traded financial corporations. A peer group was developed by PM&P using objective parameters that reflect banks of similar size, geographic region, and business model (factors that influence NEO compensation in banks). PM&P excluded banks in large metropolitan areas as they are not similar to the Corporation. The peer group was approved by the Executive Compensation Committee. Peer groups are reviewed and updated as appropriate, since the comparable banks may change depending on acquisitions and business focus of the bank or our peer institutions. Overall, the goal is to have 20-24 comparative financial corporations that provide a market perspective for NEO total compensation.

The following 21 financial institutions, listed by asset size from largest to smallest, comprise the peer group used in the 2009 review conducted by PM&P (Overall, the Corporation's assets approximated the 50th percentile of the peer group):

Financial Institutions, Inc.	Center Bancorp
Canandaigua National Corporation	ACNB Corporation
Alliance Financial Corporation	Wilber Corporation
First National Community Bancorp	Franklin Financial Services
First Chester County Corporation	Unity Bancorp
Citizens & Northern Corporation	Bridge Bancorp
First of Long Island Corporation	Chemung Financial
VIST Financial Corporation	First Keystone Corporation
Royal Bancshares of Pennsylvania	Codorus Valley Bancorp
Orrstown Financial Services	Penns Wood Bancorp
Shore Bancshares	

In addition to the peer group data, the consultant used survey sources to identify general compensation trends. The data reflected banks representing similar asset size and region to the Corporation.

In the fall of 2010, PM&P conducted another comprehensive review of the Corporation's total compensation program. Similar to the analysis conducted in 2009, peer group and survey data were employed. As part of the process, PM&P reviewed the Corporation's peer group for continued appropriateness and recommended the exclusion of three banks: First Keystone Corporation and Penns Wood Bancorp (due to smaller asset size as compared to the Corporation) and First Chester County Corporation (due to recent acquisition). In addition, six financial institutions, of similar size and geographic region were recommended to add including Arrow Financial Corporation, First Citizen's Banc Corp, First United Corporation, LNB Bancorp, Peapack-Gladstone Financial Corporation, and Summit Financial Group. The recommendations were approved by the Executive Compensation Committee and the resulting peer group included 24 financial institutions with a median asset size that approximates the Corporation's asset size.

Competitive Compensation Guidelines

As a result of the 2010 competitive benchmarking study, the consultant provided market competitive guidelines that support the Corporation's total compensation philosophy. The guidelines reflect market competitive base salaries, short term incentive targets (as a percentage of base salary), and long-term incentive targets (as a percentage of base salary).

The 2010 competitive compensation guidelines are summarized below.

Title	Competitive Compensation Guidelines		
	Base Salary	Target Annual Incentives	Target Long-Term Incentive
President & CEO	\$355,000	30%-40%	25%
Principal Financial Officer & Treasurer	\$180,000	25%-30%	15%
EVP & Chief Lending Officer	\$180,000	25%-30%	15%
EVP & Chief Credit Officer	\$165,000	25%-30%	15%
SVP of Operations & Assistant Secretary	\$230,000	25%-30%	20%

Based on the results of the competitive analysis and competitive guidelines shared by PM&P, the Corporation's 2010 base salaries and long-term incentives for its NEOs are generally below competitive guidelines, while target annual incentives are generally in line with the market.

Compensation Philosophy

Compensation Objectives

The primary objectives of the executive compensation program are to:

Edgar Filing: CNB FINANCIAL CORP/PA - Form DEF 14A

Produce superior operating results for the Corporation by attracting, retaining, and motivating key executives whose experience, expertise, and ability will assure that our overall corporate objectives are met or exceeded.

Align the financial interest of the NEOs and shareholders through incentive-based compensation; and

Provide a total compensation program that recognizes individual contributions as well as overall business results.

Compensation Elements

Our executive compensation program is designed to be simple, straightforward and fair, and consists of the following elements:

Base Salary;

Annual Incentives;

Stock-based compensation;

Nonqualified deferred compensation;

Participation in the Corporation's retirement plans; and

Perquisites.

Target Pay and Mix for Compensation Elements

The Executive Compensation Committee reviews both total compensation and each element of compensation when making pay decisions and recommendations to our Board. Although actual compensation can be above or below targets based on individual and Corporation performance, retention considerations and executive experience, we generally target within a reasonable range of the 50th percentile of the market, from an opportunity perspective.

In allocating compensation among these elements, our program is designed to provide a balance of:

Fixed and variable/ performance-based compensation;

Cash and equity compensation;

Short-term (annual) and long-term (multi-year) performance;

Performance of corporate strategic goals, shareholder value, and individual contributions; and

Absolute performance (our own goals) and relative performance (compared to industry).

This balanced approach helps to mitigate the influence of any one element of compensation which might be considered to drive excessive risk taking.

Elements of Compensation Details

The Corporation's compensation program consists of six main elements: base salary, annual incentives, stock-based compensation, participation in the Corporation's non-qualified deferred compensation plans, participation in the Corporation's retirement plans, and perquisites. The following section summarizes the role of each element, how decisions are made and the resulting 2010 decision process as it relates to our NEOs.

Base Salary

The Corporation believes that a competitive salary is essential and that it should produce between 50 percent and 70 percent of a NEOs total compensation, depending upon his or her position, experience in his or her current position as well as the financial services industry, and ability to drive performance.

Our compensation consultant, Pearl Meyer & Partners provides pay range guidelines based on its competitive assessment considering a composite of market data from the custom proxy peer group as well as other data sources of banking compensation information. Our competitive range reflects +/-15% of the market median. The Committee uses this range in making ongoing base salary decisions for each NEO.

In December of each year, the Committee reviews and sets each NEOs base pay to reflect competitive market conditions, individual experience, expertise, and performance relative to attainment of corporate goals and objectives such as earnings per share, return on assets, return on equity and various asset quality measurements. Input from the Chief Executive Officer is considered in setting the salaries of other NEOs while the Committee is solely responsible for determining the Chief Executive Officer's salary.

2010 Decisions

In December 2009, the Executive Compensation Committee reviewed the NEOs salaries considering the market range for the position and the relative salaries of the executive team, as well as competitive market conditions, individual performance and contributions. The following salary adjustments were made for the NEOs in December 2009.

President & Chief Executive Officer Joseph B. Bower, Jr. The Committee approved an adjustment increasing his salary from \$205,500 to \$250,000 (increase of 22%), as a result of his promotion from Executive Vice President & Chief Operating Officer to President & CEO, effective 12/31/09.

Principal Financial Officer & Treasurer Charles R. Guarino The Committee approved a market adjustment increasing his salary from \$102,000 to \$110,000 (increase of 8%).

Executive Vice President & Chief Lending Officer Richard L. Sloppy The Committee approved a market adjustment increasing his salary from \$138,000 to \$145,000 (increase of 5%).

Executive Vice President & Chief Credit Officer Mark D. Breakey The Committee approved a market adjustment increasing his salary from \$135,000 to \$145,000 (increase of 7%).

Senior Vice President of Operations & Assistant Secretary Vincent C. Turiano joined the corporation in November of 2009 with a base salary of \$135,000.

Annual Incentives

The primary objective of our annual incentive program is to motivate and reward key members of management for achieving specific corporate, department, and individual goals that support our strategic plan. Through our 2010 NEO Incentive Plan, we offer a select group of key executives, whose efforts largely determine the achievement of corporate goals and objectives, an annual cash bonus opportunity. For each NEO there are individual and group objectives, which vary among executives according to their areas of responsibility. In general, however, we set a minimum target or targets, expressed as performance in excess of the median for a peer group of similar corporations which must be met before any bonus can be earned. The major component in the plan is Return on Average Assets (ROA). The target established is an ROA that exceeds the peer group at plus 0.10%. We compare the Corporation's performance to that of financial institutions with assets between \$1.0 billion and \$3.0 billion that are not Internal Revenue Code Subchapter S Corporations as contained in the Bank Holding Company Performance Report, prepared by the Federal Reserve Board.

2010 Decisions

The 2010 NEO annual incentives are outlined below in tables and summary, based on weighting, targets and payouts.

Stock-Based Compensation

We believe that our NEOs should be invested in the Corporation and share the risks and rewards of all shareholders. The purpose of the Corporation's stock-based compensation program is to align NEOs with the long-term interests of the Corporation and shareholders, encourage stock ownership, and enhance our ability to retain top performers.

During 2010, we have used the award of restricted common stock under the 2009 Stock Incentive Plan, vesting equally in four annual installments, as a means of compensating NEOs while making the full benefit of the award conditional upon remaining with the Corporation for the near future. We believe this strategy establishes a tie to the shareholders as well as provides for the retention of our NEOs.

Decisions regarding the size of stock-based awards are made after careful consideration of corporate and individual performance, market data, retention considerations, impact on dilution, and existing equity holdings of each NEO.

We will not time or select the grant dates of any stock-based awards in coordination with our release of material non-public information, nor will we have any program, plan or practice to do so.

2010 Decisions

The 2010 grants awarded in January are summarized below in our Grants of Plan Based Awards table herein. All shares vest equally over four annual installments.

Named Executive Officer	Restricted Stock Award # of Shares	Restricted Stock Award Value (1)	% of Base Salary
Joseph B. Bower, Jr.	2,000	\$ 29,960	12%
Charles R. Guarino	400	\$ 5,992	5%
Richard L. Sloppy	1,100	\$ 16,478	11%
Mark D. Breakey	1,100	\$ 16,478	11%
Vincent C. Turiano	0	\$ 0	0%

(1) Restricted stock award value computed in accordance with ASC Topic 718.

Non-Qualified Deferred Compensation Plans

We believe that deferred compensation plays an important role in retaining NEOs, as well as assisting them provide for retirement. For that reason, we provide:

Supplemental Executive Retirement Plan (SERP) The Corporation adopted the SERP to make up approximately, the difference between the benefit that would have been paid, using the formula in the pension plan and in the savings plan, and the benefit that can be paid under the plans, because of Internal Revenue Service limits imposed on benefits payable or compensation covered under such plans. Participants in this plan are selected by the Executive Compensation Committee and approved by the Board of Directors. Currently, Mssrs. Bower, Breakey, and Sloppy are participants. See Pension Benefits and Supplemental Executive Retirement Plan sections herein for additional information on the plan.

Executive Deferred Compensation Plan NEOs can participate in the plan, which allows them to defer up to 10% of base compensation and 100% of annual incentive until a date in the future, generally, upon termination of employment. Deferrals are deemed to be invested in Corporation common stock, and the value of a participant's account generally tracks the performance of actual common stock. The Corporation provides no inducement (match or discretionary contribution) for NEOs who participate but believes that this phantom stock arrangement helps align the interest of participants with that of shareholders.

Retirement Plan

Edgar Filing: CNB FINANCIAL CORP/PA - Form DEF 14A

The Corporation also maintains a 401(k) Savings Plan and Non-Contributory Pension Plan to help retain employees and provide for their retirement. See [Pension Benefits](#) for additional information on the plan.

Perquisites

The Corporation provides select executives with perquisites that the Executive Compensation Committee believes are reasonable and consistent with its overall compensation philosophy.

Specifically, the Corporation provides Mr. Bower the use of a vehicle as well as payment of club dues, both of which are taxable income. The Corporation also provides payment of club dues for Messrs. Guarino, Sloppy, Breakey, and Turiano, which are included in their taxable income.

The Committee believes that these individuals have appropriate business needs for the perquisites to assist them in the performance of their respective job duties.

Employment Contracts

The Committee believes that the Corporation's continued success depends, to a significant degree, on the skills and competence of certain members of our senior management team. The Corporation and the Bank have entered into an executive employment agreement with Mr. Bower and the Bank has entered into executive employment contracts with Messrs. Breakey and Sloppy (collectively, the Employment Contracts). These Employment Contracts are intended to ensure that the Corporation and the Bank will continue to maintain and retain experienced senior management.

The Employment Contract for Mr. Bower provides for an initial three-year term and the Employment Contracts for Messrs. Breakey and Sloppy provide for an initial one-year term. All three Employment Contracts provide that the contract shall automatically renew for successive terms of one year unless either party gives the other party ninety days written notice of his or its intent not to renew the contract prior to the end of the then current term. The initial term of the Employment Contract for Mr. Bower expires on December 31, 2012. The Employment Contracts for Messrs. Breakey and Sloppy have been automatically extended to a December 31, 2011 expiration date.

The Employment Contracts provide for a base salary to be established annually by the Board of Directors and for annual increases, stock, stock options/rights and bonuses as may from time to time be awarded by the Board of Directors. The Employment Contracts also provide certain fringe benefits, including a family country club membership for each of Messrs. Bower, Breakey and Sloppy (the Senior Executives) as well as an automobile for Mr. Bower. Each Employment Contract contains a covenant not to compete against the Corporation and the Bank, their parent, affiliates or subsidiaries during the term of employment and for three years following termination of employment. In addition, each Employment Contract contains a covenant to protect the Corporation's and the Bank's confidential information.

The Employment Contracts also provide for severance payments in the event a Senior Executive is terminated without cause, regardless of whether such termination is in connection with a change of control, or voluntarily terminates employment under certain specific circumstances following a change of control. Following such a termination of employment, Mr. Bower will be entitled to receive a lump sum cash payment equal to 2.99 times his base salary for the year in which his employment ends and Messrs. Breakey and Sloppy will be entitled to receive a lump sum cash payment equal to 2.50 times his base salary for the year in which his employment ends. Additionally, Mr. Bower would be entitled to receive a payment in the amount of 2.99 times the average incentive bonus paid over the preceding three year period. Messrs. Breakey and Sloppy will be entitled to receive a payment in the amount of 2.50 times the average incentive bonus paid over the preceding three year period. The potential payments that would have occurred assuming a change of control event at December 31, 2010 were \$929,093 for Mr. Bower, \$440,059 for Mr. Breakey and \$425,579 for Mr. Sloppy.

Cash and benefits paid to a Senior Executive under the Employment Contracts together with payments under other benefit plans following a change of control may constitute an excess parachute payment under Section 280G of the Code, resulting in the imposition of a 20% excise tax on the recipient and the denial of the deduction for such excess amounts to the Corporation or the Bank. The Employment Contracts do not provide for tax indemnity for any such potential excise taxes that may be due by the Senior Executives.

Impact of Accounting and Tax

The Executive Compensation Committee and Management consider the accounting and tax (individual and corporate) consequences of the compensation plans prior to making changes to the plans.

Section 162(m) of the Internal Revenue Code may limit our ability to deduct for U.S. federal income tax purposes compensation in excess of \$1,000,000 paid to our CEO and other NEOs in any one fiscal year. In the Corporation's case, base salary, annual incentives, and time vested restricted shares are not considered performance-based vehicles and would not be a deductible compensation expense.

The Executive Compensation Committee has considered the impact of the Financial Accounting Standards Board ASC Topic 718 (formerly known as FASB Statement 123R) on the Corporation's equity incentives as a key retention tool.

Reducing the Possibility of Excess Risk-Taking

The Executive Compensation Committee has determined that the risks arising from the compensation policies and practices for employees of the Corporation are not reasonably likely to have a material adverse effect on the Corporation as a whole.

The Executive Compensation Committee noted several design features of the Corporation's cash and stock-based incentive programs that reduce the likelihood of excessive risk-taking:

The program design provides a balanced mix of cash and equity, annual and long-term incentives.

We set performance goals that we believe are reasonable in light of past performance and market conditions.

We balance absolute performance goals and relative performance goals in our annual bonus program.

Equity grants typically vest over a four-year period to encourage our NEOs to maintain a long-term perspective.

We use restricted stock because restricted stock retains value even in a depressed market and NEOs will be less likely to take unreasonable risks to get, or keep, options in-the-money.

The Executive Compensation Committee has a downward discretion over incentive program payouts.

The annual bonus has a maximum payout level that is 40% target.

For compensation benchmarking purposes, we employ an appropriate peer group derived from a standardized process.

Compensation Committee Report

The Executive Compensation/Personnel Committee met with management to review and discuss the Compensation Discussion and Analysis disclosures in this Proxy Statement. Based on such review and discussion, the Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and incorporated by reference in the Corporation's Form 10-K for the 2010 fiscal year, and the Corporation's Board of Directors has approved that recommendation.

(2) Reflects shares of restricted stock awarded under the 2009 Stock Incentive Plan valued at the dollar amount recognized for financial reporting purposes in accordance with ASC Topic 718. The shares of restricted stock that remain subject to forfeiture entitle the named executive officer to all of the rights of a shareholder generally, including the right to vote the shares and receive any dividends that may be paid thereon. The shares of restricted stock awarded vest equally over a four-year period. The shares continue to be subject to risk of forfeiture, which will lapse upon vesting. Accelerated vesting will occur and restrictions will lapse in the event that certain change in control events or normal retirements occur.

(3) Amount represents cash payments made under the Corporation's Equity Incentive Plan in the respective year.

(4) The Change in Pension Value includes the CNB Bank Employee's Savings and Profit Sharing Plan and Trust as described in this Proxy Statement and excludes the employee's contributions. This Plan is in place for all eligible employees and contribution amounts are standard for all participants.

(5) Figures stated in this column include contributions to the CNB Bank Employee's Savings and Profit Sharing Plan and Trust as well as term life insurance premiums which are reflected in Pension Benefits Table.

(6) It is the policy of the Corporation to pay dues to certain service and social organizations for the executive officers. The incremental cost of these benefits was minimal and the aggregate amount of such compensation did not exceed \$10,000 for any named executive officer for any of the years shown.

Stock Incentive Plan

The CNB Financial Corporation 2009 Stock Incentive Plan (the "2009 Stock Incentive Plan") was initially adopted by the Corporation's Board of Directors and subsequently approved by its shareholders at its annual meeting held in 2009. Certain full or part-time employees of the Corporation, any parent, subsidiary or affiliate thereof, or persons who serve the Corporation or an affiliate as a director, are eligible to receive awards under the 2009 Stock Incentive Plan. Awards may be granted under in the form of non-statutory stock options or restricted stock awards. The 2009 Stock Incentive Plan provides that the option exercise price for each share of common stock covered by a stock option will not be less than the fair market value of a share of common stock on the date the option is granted and that the term of the option may not exceed ten years from the grant date. For this purpose, fair market value is determined by reference to the closing price of the common stock on the date of grant or, if the grant date is not a trading day, the trading day immediately preceding the grant date.

Restricted stock awards will become vested pursuant to the terms of the applicable restricted stock award agreement. All awards of restricted stock reflected in the Outstanding Equity Awards at 2010 Fiscal Year-End table reflect a four-year vesting schedule (25% per year).

During 2010, the Executive Compensation Committee approved additional restricted stock grants to certain named executive officers to encourage sustained long-term growth. These awards are reflected above in the Grants of Plan-Based Awards in 2010 table.

(1) The Supplemental Executive Retirement Plan is described below. This plan is offset by tax-free earnings from Bank owned life insurance.

Retirement Plan

The Corporation maintains a 401(k) Savings Plan and Non-Contributory Pension Plan (together, the CNB Bank Employee's Savings and Profit Sharing Plan and Trust and referred to herein as the Plan). The Plan permits eligible employees to make pre-tax contributions up to 70% of salary. Employees 21 years of age or over with a minimum of one year full time service are eligible for matching contributions by the Corporation at 100% of elective contributions not to exceed 3% of plan salary plus 50% of elective contributions that exceed 3% of plan salary but do not exceed 5% of plan salary. A Profit Sharing Non-Contributory Pension Plan is in place for employees 21 years of age or over with a minimum of one year full time service and allows employer contributions of 6% based on current year's compensation plus 5.7% of the

compensation in excess of \$106,800, subject to a \$245,000 salary limit. The Corporation's total contributions to the Plan were approximately \$350,000 for the 401(k) Savings Plan and \$641,000 for the Profit Sharing Non-Contributory Pension Plan component.

Supplemental Executive Retirement Plan

The Bank has adopted a non-qualified supplemental executive retirement plan ("SERP") for certain executives of the Bank to compensate those executive participants in the Bank's Pension Plan and Savings Plan whose benefits are limited by Section 415 of the Code (which places a limitation on annual benefits at \$195,000 in

2010) or Section 401(a)(17) of the Code (which places a limitation on compensation at \$245,000). The SERP provides the designated executives with retirement benefits generally equal to the difference between the benefit that would be available under the Pension Plan and Savings Plan but for the limitations imposed by Code Sections 401(a)(17) and 415 and that which is actually funded as a result of the limitations.

Pre-retirement survivor benefits are provided for designated beneficiaries of participants who do not survive until retirement in an amount equal to the lump sum actuarial equivalent of the participant's accrued benefit under the SERP. Pre-retirement benefits are payable in 20 equal annual installments. The SERP is considered an unfunded plan for tax and ERISA purposes. All obligations arising under the SERP are payable from the general assets of the Bank.

The SERP plan also provides for termination and change of control benefits. These payments would be made per the agreements in a lump sum payment to the designated executive. Three executives currently have this benefit. If a termination or change of control would have occurred at December 31, 2010, the following amounts would have been paid: Mr. Bower - change of control \$1,721,154; Mr. Breakey - change of control \$689,696; and Mr. Sloppy - termination \$301,007, change of control \$337,990.

The following table depicts the change in value of the Nonqualified Deferred Compensation for the named executive officers occurring during 2010.

(1) The amount reported in executive contributions is not reported as 2010 compensation in the summary compensation table.

(2) The amount reported in the aggregate balance has not previously been reported as compensation in the summary compensation table.

Directors and Executives Deferred Compensation Plan

We have established the Directors and Executive Deferred Compensation Plan. Annually, outside directors can elect to defer up to 100% of their director compensation and executives can defer up to 10% of their base compensation and 100% of all bonuses. All deferred compensation will be a general liability of the Corporation and Bank, respectively. This is a phantom stock plan whereby any appreciation or depreciation in each participant's account value will reflect precisely CNB Financial Corporation common stock performance including cash dividends. Deferred compensation will serve as a funding source for a trust. Investments are expected to closely match the appreciated or depreciated liability. Distributions are received in lump sum or a ten year annuity upon normal retirement, death, or disability. Any variance will be adjusted by an expense or gain to the Corporation or Bank. In addition to the tax advantages to the participants, they are each additionally incented toward the general performance of the Corporation's common stock. Accounting treatment for this plan is subject to the ASC Topic 718.

Termination and Change in Control Benefits

As discussed under Employment Contracts and Supplemental Executive Retirement Plan, above, the Corporation provides additional benefits to certain named executive officers in the event of retirement or termination of employment in certain circumstances and in the event of a change in control. We have summarized and quantified the estimated payments under the agreements, assuming a termination event occurred on December 31, 2010, below.

Executive Compensation/Personnel Committee Interlocks and Insider Participation

The members of the Executive Compensation/Personnel Committee are Messrs. Ryan (Chairman), Merrey, Montler and Powell. No person who served as a member of the Committee during 2010 was a current or former officer or employee of the Corporation or any of its subsidiaries or, except as disclosed below, engaged in certain transactions with the Corporation required to be disclosed by regulations of the SEC. Additionally, there were no compensation committee interlocks during 2010, which generally means that no executive officer of the Corporation served as a director or member of the compensation committee of another entity, one of whose executive officers served as a director or member of the Executive Compensation/Personnel Committee of the Corporation.

From time to time, the Bank may make residential, consumer or commercial loans to its directors and executive officers and related persons. These loans are made in the ordinary course of business, are made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with persons not related to the Corporation or the Bank, and neither involve more than normal risk of collectability nor present other unfavorable features.

COMPENSATION OF DIRECTORS

Members of the Corporation's Board of Directors who are not employees of the Corporation or a subsidiary of the Corporation are paid a monthly retainer fee of \$633 and also \$300 for attendance at each Board meeting and \$300 for attendance at each committee meeting. The Chairperson is also paid a \$650 monthly retainer fee. Members of the Bank's Board of Directors who are not employees of the Corporation or a subsidiary of the Corporation are paid \$550 for attendance at each Board meeting and \$300 for attendance at each committee meeting. Committee Chairpersons were paid \$400 for each meeting attended. The chairpersons of the Executive Compensation and Audit Committees are paid a quarterly retainer of \$500. All Bank directors are paid a \$633.33 monthly retainer.

Fees are reviewed annually by the Executive Compensation Committee for recommendation to the Board. The Committee reviews relevant peer group data similar to that used in the executive compensation review. The Committee also considers the board member's ownership of our common stock. The Committee believes that the amount of ownership by the Board is important and better aligns the interests of the Board with that of the shareholder base. The Committee believes that an appropriate compensation is critical to attracting, retaining and motivating directors who have the qualities necessary to direct this Corporation and who meet the guidelines referred to on page 7.
