NASDAQ OMX and ICE Offer

Deutsche Börse Offer

REGULATORY

MANAGEMENT /  
GOVERNANCE

MARKET EFFICIENCIES

Creates new pan-European equity trading platform with locally-governed exchanges with the ability to effectively compete and innovate

Creates a new force in European derivatives which will enhance competition

Credible management teams with proven ability to integrate businesses and realize synergies

More balanced approach to governance

Strategically responsive to evolving market dynamics

Greater benefits for customers and investors

Reduces fragmentation of US equity markets

Common clearing technology used in European derivatives

Reduces competition in European equity and derivatives markets

Higher stockholder approval (75% of Deutsche Börse shares must be tendered)

High transaction break-up fee

Significant implications for Paris and London markets

Consolidations by Deutsche Börse and NYSE

Euronext have resulted in write downs of over \$2.5 billion in the last three years

Continued fragmentation of US equity market

Increased execution risk complexities

STOCKHOLDER VALUE

Greater absolute value -

\$41.95 per share

Proposal represents a 11% premium to the Deutsche Börse offer

(1)

Stronger potential upside given superior growth prospects and significant, realizable combined synergies of \$740 million

annually

Lower absolute value

Lower premium for NYX stockholders

Less certain long-term prospects

Only \$583 million of total annual expense synergies and \$133 million in annual revenue synergies

Lower probability of synergy realization

**Key Stockholders Issues**

A Superior Proposal is available to stockholders, reflecting a 11% premium or \$1.1 billion of additional value (as of 5/6/2011)

The  
actions  
of

the  
NYSE  
Euronext  
Board  
hide  
behind  
Delaware  
case  
law,  
rather  
than  
align  
with  
the  
interests  
of  
its  
stockholders

Antitrust risks exist in both transactions, though only NASDAQ OMX and ICE included a reverse break-up fee. For the NYSE Euronext / Deutsche Börse (DB) transaction, NYSE Euronext stockholders are still required to vote before antitrust approvals or conditions are determined

HSR review of proposal is underway and NASDAQ OMX and ICE have received and are responding to a Second Request for information in connection with NASDAQ OMX's filing

The Deutsche Börse agreement allows for discussions and due diligence to occur in the event NYSE Euronext receives a proposal that may possibly be determined to be superior, yet NYSE Euronext refuses to engage with NASDAQ OMX / ICE

The strategy for the lower-value combination with Deutsche Börse has not been articulated or differentiated from the current strategy, which has underperformed

3-year  
EPS  
CAGR  
of  
(8)%  
for  
NYSE  
Euronext  
and  
(6)%  
for  
Deutsche

10  
A Strategically Superior Offer  
GLOBAL GROWTH  
PROSPECTS  
MANAGEMENT TRACK  
RECORD  
MARKET EFFICIENCIES

Creates two entrepreneurial global exchanges that will remain highly nimble to better capitalize on international growth opportunities

Creates a leading global, end-to-end derivatives franchise with a more diverse product set spanning energy, commodities, interest rates, credit and foreign exchange products

Proven ability to successfully integrate businesses  
Consistently meet or exceed synergy targets on or ahead of schedule

Top performers in the industry, delivering double-digit revenue and earnings growth in the last three years

Facilitates deeper liquidity pools, greater market stability, better price discovery and greater transparency in the U.S. equity markets

Strengthens European equity markets by creating a new, truly pan-European equity trading platform

Will maintain a competitive European derivatives market run on a highly efficient and proven trading platform

×

Results in a conglomerate with dual headquarters, reducing its ability to quickly respond to evolving market dynamics and business opportunities

×

Results in high concentration in European derivatives with high product concentration in interest rate products

×

Acquisitions have resulted in write downs of over \$2.5 billion combined in the last three years

×

Proven inability to realize stated synergies in prior acquisitions

×

Underperformed the industry, posting negative revenue and earnings growth in the last three years

×

Onerous governance and management structure

×

Continued fragmentation of U.S. equity market

×

Increased execution risks

×

Will create a derivative behemoth with over 90% share

#### FRANCHISE VALUE

Creates two pure play global exchanges run by separate best-in-class operators in cash equities and derivatives

Greater potential upside given superior growth prospects and significant realizable combined synergies

Offers investors cash and over 60% exposure to the high growth derivatives sector

×

Results in a conglomerate of businesses run by management with failed integration history

×

Limited upside given uncertain long-term prospects and lower probability of synergy realization

×

Offers investors no cash and over 60% exposure to cash equities and other businesses

The NASDAQ OMX/ICE offer is strategically superior to the proposed Deutsche Börse/NYSE Euronext combination and will unlock greater long-term value for NYSE Euronext stockholders and all market participants

NASDAQ OMX / ICE

Deutsche Börse / NYSE Euronext

11  
A Fair and Balanced Merger Agreement  
1)  
Why  
is  
March  
2012

set  
as  
the  
merger  
agreement  
termination  
date?

The  
March  
2012  
deadline  
is

simply  
a  
holdover  
from  
the  
date

included in the Deutsche Börse agreement for their own timelines. If NYSE Euronext I has concerns about the date, we would  
to discussing them with the NYSE Euronext board.

2)

What  
are  
the  
financing  
conditions?

There  
are  
no  
financing  
conditions.

NASDAQ  
OMX

and  
ICE  
are  
required

to  
show  
up  
with  
the  
funds  
at  
closing.

3)

Why  
include  
a  
change

in  
Fiduciary  
Recommendation?

This  
provision  
mirrors  
that  
included  
in  
the  
Deutsche  
Börse  
agreement  
and  
addresses requirements of Delaware law.

4)  
Why include a double  
Break-Up Fee?

If a bidder tops the NASDAQ OMX/ICE deal once NASDAQ OMX/ICE have paid the break-up fee to Deutsche Börse we should not be left empty-handed on a net basis.

5)  
Why  
does  
NYSE  
Euronext  
not  
have  
the  
right  
to  
Specific  
Performance?

However,  
we  
not  
e  
that  
NYSE  
Euronext  
has  
no  
right  
to  
specific  
performance in the Deutsche Börse agreement, either. We look forward to discussing this with the NYSE Euronext Board.

6)  
What  
improvements  
did  
you

make?

In addition to a financially superior offer, we have added a \$350mm reverse break-up fee payable in the event of a failure to obtain antitrust or competition approvals and removed the burdensome force the vote obligation to which NYSE

Euronext agreed with Deutsche Börse. Furthermore, we only require approval by holders of a majority of the outstanding NA and ICE shares, unlike the DB / NYSE transaction, which is conditioned on tender by the holders of at least 75% of the outstanding shares.

Without the benefit of a dialog with the NYSE Euronext Board, NASDAQ OMX and ICE presented a fair and balanced Merger Agreement based largely on the existing Deutsche Börse agreement. The companies remain open to discussing and addressing any legitimate concerns NYSE Euronext has on execution and to negotiating a merger agreement that is acceptable to each of our companies

12

DB's Additional Synergies Are Not Credible

NYSE Euronext investors should be highly skeptical that after two years of exploratory merger discussions, including more than six months dedicated to finalizing the transaction, NYSE Euronext has suddenly found a reported \$100 million in additional synergies

This

increase  
appears

not

to

be

a

matter

of

sharpening

a

pencil,

but

an

unexplained

shift

in

strategy

The discovery that initial synergies were understated by one-third comes after receiving a Superior Proposal from NASDAQ OMX and ICE that achieves greater synergies

If there are additional synergies to be found after the merger economics have been agreed, then it has to come at the expense of NYSE Euronext stockholders because there has been no increase in the price they are being offered

NYSE

Euronext

should

describe

these

newly-found

synergies

in

detail

in

order

to

support

the

credibility

of

these

revised estimates, particularly in light of commitments to retain two technology platforms and two headquarters

Increasingly it appears that NYSE Euronext is more focused on protecting the transaction than its stockholders

NASDAQ OMX and ICE have described in detail our proven and focused long-term strategy from which stockholders would benefit and our companies demonstrated outperformance relative to their proposed strategy of creating a financial supermarket

We look forward to having the same opportunity when the NYSE Euronext Board agrees to due diligence

13

NASDAQ OMX and ICE have delivered significant earnings growth through successful acquisitions and integrations, despite a challenging macro economic environment

16  
Key Points for NYX Stakeholders to Consider  
What NYSE Euronext Will Tell You  
The Reality  
NASDAQ / ICE  
PROPOSAL FACES  
UNACCEPTABLE

## ANTITRUST RISKS

NASDAQ OMX / ICE proposal recognizes the global nature of competition for listings and trading and the dramatic increase in off-exchange trading

A combined NASDAQ OMX / NYSE will create a global listing franchise that can attract issuers from around the world, create deeper and more liquid markets, improve transparency, increase market access and connectivity, enhance effectiveness of regulation and create a better advocate for issuers on regulatory matters

The U.S. listings business is tightly regulated by the SEC Listing location is independent of where a stock actually trades HSR review of NASDAQ OMX and ICE proposal is underway and both NASDAQ OMX and ICE are responding to a Second Request for information in connection with their filings

The DB proposal will be subject to a lengthy and extensive regulatory and competition review due to combined Euronext / Liffe market position in European derivatives and provides no protection for NYSE Euronext stockholders in the event that DB fails to receive regulatory approval

Unlike the DB proposal, NASDAQ OMX / ICE proposal includes a \$350mm reverse breakup fee in the event of a failure to obtain required antitrust or competition approval

The NASDAQ OMX / ICE proposal will not survive review by antitrust regulators

antitrust issues regarding U.S. listings cannot be overcome

Potential European competition issues with DB proposal will be easily resolved

Distinguishing Between NYSE Euronext's Stated Myths vs. the Reality

## REVERSE BREAKUP

### FEE IS ILLUSORY

The reverse breakup fee is illusory as the fee would merely offset NYSE Euronext's termination fee paid to DB NASDAQ OMX and ICE will pay the termination fee to DB provided for in the business combination agreement and the reverse breakup fee of \$350mm will be an incremental fee to NYSE Euronext stakeholders if antitrust and competition approvals were not obtained

17  
Key Points for NYX Stakeholders to Consider  
DB PROPOSAL  
DELIVERS GREATER  
LONG-TERM  
STAKEHOLDER  
VALUE

NASDAQ OMX / ICE proposal offers far greater long-term value from synergy opportunities

\$740mm of anticipated synergies vs. DB proposal of \$533mm (revised to \$728mm) NYSE Euronext and DB management have been unable to realize stated synergies in past acquisitions NYSE Euronext and DB's poor integration and execution have resulted in meaningful value destruction for shareholders with over \$2.5bn of write-downs since 2008

NASDAQ OMX / ICE proposal creates two global exchanges under proven and specialized management teams with strong track records of achieving synergies and integrating acquisitions

NASDAQ  
OMX  
and  
ICE  
have  
superior  
track  
records  
of  
creating  
stakeholder  
value

both have delivered double-digit earnings growth over the past 3 years while NYSE Euronext's and DB's businesses have declined

Size  
and  
being  
a  
diversified  
conglomerate  
does  
not  
ensure

success or an increase in shareholder value  
NYSE acquired Euronext for \$10bn -  
the same value DB is

offering for both NYSE and Euronext

Merger-of-equals structure gives stakeholders

exposure to the strongest global exchange group

The DB proposal delivers greater capital efficiency

savings to the market participants

DB and NYSE Euronext have a strong track record of

delivering on synergies and efficiently integrating

acquisitions

NASDAQ OMX / ICE proposal may offer higher short-

term value but will result in significantly lower long-

term value for stakeholders

Distinguishing Between NYSE Euronext's Stated Myths vs. the Reality

SYNERGIES

EXPECTED IN NYX /

DB COMBINATION

ARE CONSERVATIVE

After sharpening their pencils, NYSE and DB found 100

million in additional synergies. Total synergies could

reach approximately 500mm (\$728mm) compared with

\$740mm in the NASDAQ OMX/ICE proposal

NYSE and DB have historically failed to achieve targeted

synergy levels and implementation timing

DB failed to integrate the ISE technology platform 3 years

following the transaction

NYSE failed to realize over \$100mm in promised synergies in

the Euronext acquisition

NASDAQ OMX and ICE management teams have proven

track records of achieving synergies and integrating

acquisitions

Any additional synergies now discovered represent lost value

for NYX stockholders with no change in merger economics

What NYSE Euronext Will Tell You

The Reality

18

Key Points for NYX Stakeholders to Consider

Distinguishing Between NYSE Euronext's Stated Myths vs. the Reality

NASDAQ OMX / ICE

PROPOSAL IS

STRATEGICALLY

UNATTRACTIVE AND

LACKING IN  
BUSINESS LOGIC

NASDAQ OMX / ICE proposal creates two nimble entrepreneurial global exchanges run by two best-in-class operators in cash equities and derivatives that are better positioned to compete globally and adapt to rapidly changing industry dynamics

NASDAQ OMX / ICE proposal unlocks greater value and provides stakeholders with exposure to two leading pure play exchanges and over 60% exposure to the high growth derivatives sector, while the DB proposal offers exposure to a single exchange that will likely receive a conglomerate discount

A combined DB / NYSE Euronext will be an inefficient, bureaucratic

supermarket  
exchange

model

with

an

entrenched management team

Combination with DB is consistent with NYSE

Euronext's long-term strategy

Breaking up NYSE Euronext into its pieces will destroy value and create an unattractive portfolio of businesses

Globally diversified exchanges are more competitive and provide superior value for stakeholders

NASDAQ OMX would be highly concentrated in cash equities which is becoming a low-growth, low-margin business

NYSE EURONEXT IS

NOT FOR SALE

The proposed DB transaction is not a sale of the NYSE Euronext but rather a merger-of-equals

The NASDAQ OMX / ICE proposal is a takeover that undervalues the pieces of the company

The DB / NYSE transaction is a low-premium takeover (only a 10% premium to unaffected share price at announcement)

DB will control the Board and each Board Committee; DB CEO will be responsible for group strategy and global relationship management; DB President will become Deputy CEO and President of the combined entity; DB CFO will become CFO of the combined entity

If NYSE's different businesses are undervalued as claimed, then NYSE has grossly mismanaged its businesses and has failed to pursue a strategy that increases shareholder value

What NYSE Euronext Will Tell You

The Reality

19  
Key Points for NYX Stakeholders to Consider  
NASDAQ OMX / ICE  
PROPOSAL WILL  
RESULT IN  
UNACCEPTABLE JOB  
LOSSES

The NASDAQ OMX / ICE proposal destroys the  
invaluable

human

capital

at

NYSE

Euronext

NASDAQ OMX will close the NYSE floor

The majority of synergies in the NASDAQ OMX / ICE

proposal will be realized through job losses in New

York

NASDAQ OMX is committed to preserving the NYSE floor

Consistent with the cultures at NASDAQ OMX and ICE, as well

as in prior transactions, NYSE Euronext employees will be

evaluated based on a pure meritocracy as this serves the best

interests of the combined business and ultimately creates

shareholder value

The majority of synergies will be derived from eliminating

redundant technologies and systems -

not employees

DB has stated that job losses will be minimal in Germany

which leaves the U.S. as the primary venue for down-sizing in

order to achieve the announced synergy targets

Distinguishing Between NYSE Euronext's Stated Myths vs. the Reality

What NYSE Euronext Will Tell You

The Reality

U.S. IS NOT AT RISK

OF LOSING ITS

COMPETITIVENESS

IN

THE GLOBAL

MARKETS

The U.S. equities market is currently efficient and

successfully competing on a global basis

Developing global capabilities are more important

than building an American stronghold

From 1995 to 2010, listings on U.S. exchanges shrank by 38%

from 8,000 to 5,000 while listings on non-U.S. exchanges grew

by 74% from 23,000 to 40,000

Since 2006, only 9 of the 100 largest IPOs listed in the U.S.

A combined NASDAQ OMX / NYSE will strengthen the U.S.

market while increasing its global competitiveness

A combined NASDAQ OMX / NYSE will ensure that the U.S.

remains a relevant financial center and a focus of U.S. capital

formation

20

Key Points for NYX Stakeholders to Consider

NASDAQ OMX DOES  
NOT HAVE ENOUGH  
COMMITTED  
FINANCING IN THE  
EVENT OF A

**DOWNGRADE**

NASDAQ OMX's post-transaction capital structure will result in a downgrade of its credit rating which will trigger the repayment of the assumed NYSE Euronext debt

NASDAQ OMX will be unable to fund the additional financing requirement

NASDAQ OMX has received fully committed financing from a syndicate of banks including Bank of America, Nordea Bank AB (publ), Skandinaviska Enskilda Banken AB (publ) and UBS Investment Bank

NASDAQ OMX can obtain the necessary financing in the event of a downgrade since pro forma leverage levels would remain unchanged

NASDAQ OMX is committed to a prudent use of leverage to finance the transaction and is focused on maintaining its investment grade rating

Distinguishing Between NYSE Euronext's Stated Myths vs. the Reality  
What NYSE Euronext Will Tell You

The Reality

**NASDAQ OMX WILL  
BE HIGHLY LEVERED  
WITH NO STRATEGIC  
FLEXIBILITY**

The NASDAQ OMX / ICE proposal will burden the new company with high levels of debt

Levered NASDAQ OMX will be strategically limited and unable to compete going forward due to high debt burden

NASDAQ OMX and ICE are committed to a prudent use of leverage

NASDAQ OMX is focused on maintaining its investment-grade credit rating and expects to reach its target leverage ratio of 2.5x within 18 months of closing

NASDAQ OMX has a strong track record of achieving synergies much faster than expected and using excess cash flow to pay down debt ahead of schedule

Key Points for NYX Stakeholders to Consider

Distinguishing Between NYSE Euronext's Stated Myths vs. the Reality

NASDAQ OMX / ICE

PROPOSAL IGNORES

TAX LEAKAGE FROM

BREAKUP OF

**BUSINESS**

**NASDAQ OMX / ICE**

**PROPOSAL WILL NOT**

**BE TAX-FREE TO**

**STAKEHOLDERS**

The NASDAQ OMX / ICE proposal will result in a taxable transaction to NYX stakeholders

NASDAQ OMX and ICE expect their proposal can be structured as a tax-free transaction to NYSE Euronext stakeholders with respect to the stock consideration to be issued, subject to due diligence and the co-operation of NYSE Euronext

The NASDAQ OMX / ICE proposal will result in a significant taxable event to the pro forma businesses that will destroy shareholder value

NASDAQ OMX and ICE have studied publicly available information regarding the NYSE/Euronext combination in 2007 and do not anticipate a significant tax cost associated with the separation of the European derivatives business in the proposed transaction, subject to confirmation through due diligence

Further, the DB/NYSE Euronext Combination Agreement contemplates a restructuring of the European businesses from U.S. to European ownership which may face similar tax issues and thus, may reflect their own view that any tax leakage is not prohibitive

**What NYSE Euronext Will Tell You**

**The Reality**

The Facts: Execution Risk

Proven ability to successfully  
integrate businesses

Consistently met or exceeded  
synergy targets on or ahead of  
schedule

No write downs in past acquisitions

Acquisitions have resulted in write downs of over \$2.5 billion combined in the last three years

Proven inability to realize stated synergies

Sudden new found synergies by NYX are not credible

REGULATORY

APPROVAL RISK

HSR review is well underway

Second request for information is currently in process

No expected competition issues in Europe

\$350mm reverse breakup fee if antitrust approval not received

Subject to a lengthy and extensive regulatory and competition review in Europe

NYX shareholders will have no clarity on decision prior to NYX shareholder vote

No protection for NYX stockholders in the event that DB

fails to receive regulatory approval

NYX shareholders will be forced to vote without any certainty around regulatory approvals in Europe under the DB proposal. NASDAQ OMX and ICE are clearly best-in-class integrators which results in much less operational execution risk than proposed DB combination. NASDAQ OMX and ICE have a demonstrated ability to achieve superior financial results.

(1) EBITDA is a non-GAAP number calculated by taking operating income and adding back D&A, merger related expenses and
