NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollar amounts in Millions Except Per Share Amounts)

(Unaudited)

(1) BACKGROUND AND BASIS OF PRESENTATION

Convergys Corporation (the Company or Convergys) is a global leader in relationship management. The Company provides solutions that drive value from the relationships its clients have with their customers. Convergys turns these everyday interactions into a source of profit and strategic advantage for the Company's clients. For over 25 years, the Company's unique combination of domain expertise, operational excellence and innovative technologies has delivered process improvement and actionable business insight to clients to enhance their relationships with customers.

Prior to June 1, 2010, the Company had three reportable segments, Customer Management, Information Management and Human Resources Management (HR Management). In March 2010, Convergys signed a definitive agreement to sell its HR Management line of business for approximately \$100. The sale substantially closed on June 1, 2010. Beginning June 1, 2010, the Company began earning transition services revenues for services provided to the buyer under agreements lasting from three to eighteen months, reflected in Corporate and Other in Note 16. In connection with the sale of the HR Management line of business, the Company reorganized its reportable segments into two segments: Customer Management, which provides agent-assisted services, self-service, and intelligent technology care solutions, and Information Management, which provides business support system (BSS) solutions. See Note 16 for information about these segments.

Certain balances in prior years have been reclassified to conform to the current year presentation.

The accompanying Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial reporting (U.S. GAAP) and U.S. Securities and Exchange Commission (SEC) regulations, and, in the opinion of management, include all adjustments necessary for a fair presentation of the results of operations, financial position and cash flows for each period shown. All adjustments are of a normal and recurring nature. Certain information and footnote disclosures normally included in Financial Statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted. Interim Consolidated Financial Statements are not necessarily indicative of the financial position or operating results for an entire year. These interim Consolidated Financial Statements should be read in conjunction with the audited Financial Statements and the Notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010, filed on February 25, 2011.

(2) RECENT ACCOUNTING PRONOUNCEMENTS

In October 2009, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2009-13, Multiple-Deliverable Revenue Arrangements, (amendments to FASB ASC Topic 605, Revenue Recognition) (ASU 2009-13) and ASU 2009-14, Certain Arrangements That Include Software Elements, (amendments to FASB ASC Topic 985, Software) (ASU 2009-14). ASU 2009-13 requires entities to allocate revenue in an arrangement using estimated selling prices of the delivered goods and services based on a selling price hierarchy. The amendments eliminate the residual method of revenue allocation and require revenue to be allocated using the relative selling price method. ASU 2009-14 removes tangible products from the scope of software revenue guidance and provides guidance on determining whether software deliverables in an arrangement that includes a tangible product are covered by the scope of the software revenue guidance. ASU 2009-13 and ASU 2009-14 should be applied on a prospective basis for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010, with early adoption permitted. The Company adopted ASU 2009-13 and 2009-14 effective January 1, 2011. Adoption of these Standards did not have a material impact to the Company's consolidated results of operations and financial position.

(3) DIVESTITURES

HR Management

In March 2010, the Company signed a definitive agreement to sell its HR Management line of business and, in June 2010, the Company substantially completed the sale of this business to NorthgateArinso, the Human Resource division of Northgate Information Solutions Limited, for approximately \$100. The consideration received at closing consisted of approximately \$80 in cash and a zero coupon note issued by NorthgateArinso in the principal amount of \$15. The note is payable in increments of \$5 on the second anniversary of closing and \$10 on the third anniversary of closing. The completion of the sale of certain foreign HR Management operations closed in the third and fourth quarters of

2010 and resulted in an additional \$5 in cash received. Final settlement of working capital

Table of Contents

adjustments resulted in cash payments by Convergys of approximately \$7 during the fourth quarter of 2010. In connection with and at the time of the completion of the sale in June 2010, the Company made cash payments of \$28.2 for certain obligations of the HR Management business, the impact of which is included in cash flows from operating activities of discontinued operations.

After final post-close adjustments, the gain on the sale of HR Management recorded in 2010 was \$35.2 pretax and \$5.6 after tax. For the three and six months ended June 30, 2010, the Company recorded a preliminary gain on sale of \$7.8, including \$30.2 of tax expense. Upon completion, the sale of HR Management was a taxable transaction that resulted in \$29.6 being recorded for the combined federal, state and foreign income taxes. The gain on sale included the elimination of \$67.1 of goodwill and intangible assets. The high effective tax rate on the transaction was largely due to substantially lower tax basis in goodwill as compared to book value.

As a result of the sale of the HR Management line of business, the operating results, and assets and liabilities related to HR Management have been reflected as discontinued operations for all periods presented. For prior periods, certain costs that had been previously allocated to the HR Management segment are now included in continuing operations. These costs were \$2.9 and \$9.1 for the three and six months ended June 30, 2010, respectively, and are reflected in Corporate and Other in Note 16. Beginning June 1, 2010, the Company began earning transition services revenues for services provided to the buyer under agreements lasting from three to eighteen months. For the three and six months ended June 30, 2011, the Company earned \$5.0 and \$11.3, respectively, in revenue under these transition services agreements. The results of the HR Management business included in discontinued operations for the three and six months ended June 30, 2010, respectively, are summarized as follows:

	Three Months Ended June 30, 2010	Six Months Ended June 30, 2010
Revenue	\$ 42.0	\$ 107.0
Income before tax - Operations	11.3	25.5
Gain on disposition	38.0	38.0
Income before income taxes	49.3	63.5
Income tax expense:		
Expense related to operations	2.9	7.4
Expense related to gain on disposition	30.2	30.2
Income from discontinued operations, net of tax	\$ 16.2	\$ 25.9

There were no remaining assets or liabilities related to the HR Management business at December 31, 2010. Cash flows generated from the discontinued operations are presented separately in the Company's consolidated statements of cash flows.

Finance and Accounting outsourcing line of business (F&A)

In January 2011, the Company completed the sale of F&A for approximately \$10. The gain on the sale amounted to \$7.0 pretax, recorded within Other income, net in the Consolidated Statements of Income and Comprehensive Income, and \$4.3 after tax in 2011. The gain on the sale included the elimination of \$2.6 of goodwill and other intangible assets. The results of operations of F&A and the sale of F&A are not material to the Company's results of operations or financial condition, and therefore, are not reflected as discontinued operations for the periods presented.

(4) EARNINGS PER SHARE AND SHAREHOLDERS' EQUITY*Earnings per Share*

The following is a reconciliation of the numerator and denominator of the basic and diluted earnings per share (EPS) computations:

Table of Contents

		Continuing Operations		Discontinued Operations		Total

Diluted EPS	124.8	\$ 66.6	\$ 0.53	\$	\$	\$ 0.53
Three Months Ended June 30, 2010						
Basic EPS	123.9	\$ 11.2	\$ 0.09	\$ 16.2	\$ 0.13	\$ 0.22
Effect of dilutive securities:						
Stock-based compensation arrangements	2.1					
Diluted EPS	126.0	\$ 11.2	\$ 0.09	\$ 16.2	\$ 0.13	\$ 0.22
Six Months Ended June 30, 2010						
Basic EPS	123.6	\$ 36.8	\$ 0.30	\$ 25.9	\$ 0.21	\$ 0.51
Effect of dilutive securities:						
Stock-based compensation arrangements	2.4		(0.01)			(0.01)
Diluted EPS	126.0	\$ 36.8	\$ 0.29	\$ 25.9	\$ 0.21	\$ 0.50

The diluted EPS calculation for the three and six months ended June 30, 2011 excluded the effect of 3.9 million outstanding stock options, and for the three and six months ended June 30, 2010 excluded the effect of 5.7 million outstanding stock options, respectively, because their effect is anti-dilutive. As described more fully in Note 9, the Company issued approximately \$125.0 aggregate principal amount of 5.75% Junior Subordinated Convertible Debentures due 2029 (2029 Convertible Debentures). The 2029 Convertible Debentures are convertible, subject to certain conditions, into shares of the Company's common stock at an initial conversion price of approximately \$12.07 per share, or 82.82 shares per one thousand in principal amount of debentures. There were 1.2 million dilutive shares related to the 2029 Convertible Debentures for the three and six months ended June 30, 2011.

Shareholders' Equity

The Company repurchased 1.5 million shares during the three months ended June 30, 2011 at an average price of \$13.14 per share for a total of \$19.5, and 2.9 million shares during the six months ended June 30, 2011 at an average price of \$13.46 for a total of \$38.7. As of June 30, 2011, the Company has the authority to repurchase 1.8 million additional common shares pursuant to current authorizations.

(5) INVESTMENT IN CELLULAR PARTNERSHIP

As of June 30, 2011, the Company maintained a 33.8% limited partnership interest in the Cincinnati SMSA Limited Partnership which qualifies as significant under the Securities and Exchange Commission Regulation S-X, Article 1, Rule 1-02(w). Unaudited income statement information reported by the Cincinnati SMSA Limited Partnership (the Partnership), a provider of wireless communications in central and southwestern Ohio and northern Kentucky, is presented in the following table, along with a summary of the amounts recorded in the Company's consolidated financial statements. The Company accounts for its interest in the Partnership under the equity method of accounting. Under Rule 3-09 of Regulation S-X, the Company filed audited financial statements for Cincinnati SMSA Limited Partnership for the year ended December 31, 2010 with its Form 10-K on February 25, 2011.

Table of Contents

Since the Partnership was organized as a limited partnership, the partners are responsible for income taxes applicable to their share of taxable income generated by the Partnership. The net income of the Cincinnati SMSA Limited Partnership reflected in the following table does not include any provision for income taxes incurred by the partners.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Revenues	\$ 184.8	\$ 160.2	\$ 359.8	\$ 313.4
Income from operations	28.8	34.8	61.2	74.4
Net income	28.6	33.7	60.8	72.2

The Company also owns a 45.0% interest in the Cincinnati SMSA Tower Holdings LLC, an operator of cellular tower space (collectively referred to along with the Cincinnati SMSA Limited Partnership as the Cellular Partnerships). We account for our interests in this limited liability company under the equity method of accounting. The Company's equity in earnings of equity method investees for the three and six month periods ended June 30, 2011 and 2010, respectively, is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Convergys' equity in earnings of Cincinnati SMSA Limited Partnership	\$ 10.6	\$ 11.4	\$ 20.5	\$ 24.5

See Note 17, Subsequent Events, for additional information regarding the sale of the Company's interests in the Cellular Partnerships on July 1, 2011.

(6) EMPLOYEE BENEFIT PLANS

The Company sponsors a frozen defined benefit pension plan, which included both a qualified and non-qualified portion, for eligible employees (the Cash Balance Plan) in North America. The Company has recorded a liability of \$79.4 and \$80.6 as of June 30, 2011 and December 31, 2010, respectively, for the Cash Balance Plan. In addition, the Company sponsors an unfunded defined benefit plan for certain eligible employees in the Philippines. The Company has recorded a liability of \$12.0 and \$9.5 as of June 30, 2011 and December 31, 2010, respectively, for the Philippines Plan. Components of pension cost for these plans are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Interest cost on projected benefit obligation	\$ 3.0	\$ 3.1	\$ 6.0	\$ 6.2
Service cost	1.0	0.6	1.9	1.3
Expected return on plan assets	(2.8)	(3.1)	(5.6)	(6.1)
Amortization and deferrals - net	1.7	1.7	3.5	3.2
Pension cost	\$ 2.9	\$ 2.3	\$ 5.8	\$ 4.6

The Company contributed \$3.8 to fund the Cash Balance Plan during the first six months of 2011 and expects to contribute an additional \$6.8 during the third quarter of 2011.

The Company also sponsors a non-qualified, unfunded executive deferred compensation plan and a supplemental, non-qualified, unfunded plan for certain senior executive officers. Components of pension cost for the unfunded executive pension plans are as follows:

Table of Contents

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Service cost	\$ 0.2	\$ 0.3	\$ 0.3	\$ 0.7
Interest cost on projected benefit obligation	0.3	0.5	0.7	1.0
Curtailment loss			(1.5)	2.3
Amortization and deferrals - net		(0.1)		(0.1)
Pension cost	\$ 0.5	\$ 0.7	\$ (0.5)	\$ 3.9

The Company recognized a \$1.5 curtailment benefit during the first quarter of 2011 related to the resignation of a senior executive. The Company recognized a \$2.3 curtailment loss during the first quarter of 2010 related to the termination of the employment of the former President and Chief Executive Officer of the Company.

The Company sponsors postretirement health and life insurance plans for certain eligible employees. The plan provides eligible employees and retirees with the opportunity to direct an amount of their compensation or pension benefits to cover medical, dental and life insurance programs of their choice for their benefit and the benefit of their dependents. The plan covers both active and retired eligible employees of the Company and its subsidiaries. Employees' eligibility to participate in the plan is based upon their date of hire. During the second quarter of 2011, the Company amended certain components of the postretirement health and life insurance plans to reduce certain benefits. The plan amendments constitute negative amendments. As a result of the plan amendments, the accumulated postretirement benefit obligation has decreased approximately \$20 from December 31, 2010, the impact of which will be recognized as a reduction to net periodic benefit cost over the remaining future service years of the active participants over a weighted-average period of approximately 3 years.

(7) RESTRUCTURING2010 Restructuring

As discussed more fully in the Restructuring footnote of Notes to Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2010, during 2010, the Company initiated a restructuring plan and incurred a total charge of \$36.7 consisting of \$22.4 of severance-related charges and \$14.3 of facility-related charges. The \$22.4 of severance-related charges were comprised of \$13.3 at Customer Management and \$3.0 at Information Management, largely to reduce headcount and align resources to future business needs, and \$6.1 at Corporate to further simplify operations and to reflect the impact of the sale of the HR Management line of business. For both the three and six months ended June 30, 2010, the Company recorded a charge of \$17.6, including \$10.8 of severance-related charges and \$6.8 of facility-related charges. The \$10.8 of severance-related charges were comprised of \$8.5 at Customer Management and \$2.3 at Corporate. The full-year severance charge of \$22.4 is largely being paid in cash pursuant to the Company's existing severance policy and employment agreements. When completed, these actions will affect approximately 1,000 professional employees and approximately 1,400 non-salaried employees worldwide and are expected to be mostly completed by the end of 2011. The facility-related charge of \$14.3 relates to lease rent accruals and penalties for properties that have closed as the result of consolidating facilities and shifting capacity. The charge is equal to the future costs associated with the facility, net of proceeds from any probable future sublease agreements. The fair value measurement utilized internal discounted cash flows, which is a Level 3 input. The Company used estimates, based on consultation with the Company's real estate advisors, to determine the proceeds from any future sublease agreements. The Company will continue to evaluate these estimates in recording the facilities abandonment charge. Consequently, there may be additional reversals or charges relating to these facility closures in the future. Therefore, facility-related reserves are maintained on a facility basis rather than a restructuring charge event basis. At June 30, 2011, the facility-related restructuring reserve for all reserved facilities had an outstanding balance of \$17.1, which will be paid out over several years until the leases expire.

Restructuring liability activity for the 2010 severance plan, the balance of which is included within Payables, deferred revenue and other current liabilities on the Company's balance sheets, consisted of the following:

	2011
Balance at January 1	\$ 12.4
Severance payments	(7.8)
Balance at June 30, 2011	\$ 4.6

2009 Restructuring

During 2009, the Company initiated restructuring plans of \$43.3 to reduce headcount and align resources to future business needs. The severance actions were completed as of March 31, 2011. The facility-related charge relates to lease rent accruals for

Table of Contents

properties that have closed as the result of consolidating facilities, consistent with the methodology discussed in connection with the 2010 restructuring. The facility-related restructuring reserve related to this charge is encompassed within the total outstanding facility balance of \$17.1 referred to above, which will be paid over several years until the leases expire.

Facilities Restructuring

Restructuring liability activity for the facilities plans consisted of the following:

	2011
Balance at January 1	\$ 20.7
Facility payments	(3.6)
Balance at June 30, 2011	\$ 17.1

(8) STOCK-BASED COMPENSATION PLANS

The Company's operating results for the three and six months ended June 30, 2011 included long-term incentive plan expense of \$4.8 and \$8.6, respectively, compared to \$3.9 and \$9.4, respectively for the same periods in 2010. Long-term incentive plan expense includes: (a) incentive plan expense that is paid in cash based on relative shareholder return and (b) stock compensation expense. Stock compensation expense for the three and six months ended June 30, 2011 was \$4.7 and \$8.4, respectively, compared to \$4.4 and \$10.2, respectively, for the same periods in 2010.

Stock Options

A summary of stock option activity for the six months ended June 30, 2011 is presented below:

Shares in Millions Except Per Share Amounts	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Weighted Average Fair Value at Date of Grant (per share)
Outstanding and exercisable at January 1, 2011	5.7	\$ 31.66	1.1	\$ 12.16
Exercised	(0.2)	11.67		
Forfeited/cancelled	(2.2)	42.43		
Exercisable at June 30, 2011	3.3	\$ 25.92	1.1	10.15
Unvested at January 1, 2011				
Granted	0.7	13.79	9.6	4.06
Forfeited/cancelled				
Outstanding unvested at June 30, 2011	0.7	\$ 13.79	9.6	4.06
Outstanding at June 30, 2011	4.0	\$ 23.80	2.7	\$ 9.10

Approximately one-half of the stock options granted during 2011 vest in two years and the remaining vest in three years. The weighted average fair value at grant date of \$4.06 per option granted included assumptions of a strike price of \$13.79, a 31.11% implied volatility and an expected term of 4.5 years. These option grants resulted in stock compensation expense of \$0.5 in the first six months of 2011.

Restricted Stock Awards

Edgar Filing: CONVERGYS CORP - Form 10-Q

During the six months ended June 30, 2011, the Company granted 1.4 million restricted stock units at a weighted-average fair value of \$13.78 per share. Included in this amount were 0.5 million performance-based restricted stock units granted at the fair value of \$13.77 per share, equal to the Company's share price at grant date, that vest upon the Company's satisfaction of certain financial performance conditions. The 2011 grants provide for payout based upon the extent to which the Company achieves certain EBITDA targets, as determined by the Compensation and Benefits Committee of the Board of Directors for this award, over a two-year period. Payout levels range from 50% to 200% of award shares earned. No payout can be earned if performance is below the minimum threshold level. Compensation cost related to these 2011 grants will be adjusted based upon expected performance as compared to defined targets.

Table of Contents

During the six months ended June 30, 2010, the Company granted 2.1 million restricted stock units at a weighted average fair value of \$11.49 per share. Included in this amount were 0.8 million market-based restricted stock units granted at the fair value of \$11.37 per share that vest upon the Company's satisfaction of certain market conditions (relative shareholder return versus the S&P 500 return) as of December 31, 2012. Compensation cost related to these 2010 grants is not adjusted based upon variance from initial assumptions made regarding expected performance. The Company used a Monte Carlo simulation model to estimate the fair value for market-based restricted stock units issued during 2010. The assumptions used in this model for the awards are noted in the table below. Expected volatilities for the 2010 performance awards are based on historical volatility and daily returns for the three-year period ended January 1, 2010 of the Company's stock and S&P 500 companies. The total stock return for the Company over the performance period is based on comparing Convergys' average closing price from the fourth quarter of 2009 with the average expected closing price for the fourth quarter of 2012. For the 2010 performance awards, the total stock return of the S&P 500 companies is computed by comparing the average closing price of the S&P 500 companies from the fourth quarter of 2009 with the average expected closing price for the fourth quarter of 2012. The risk-free interest rate for the expected term of the award is based on the U.S. Treasury yield curve in effect at the time of grant.

	June 30, 2010
Expected volatility	56.0%
Expected term (in years)	3.0
Risk-free interest rate	1.4%

The total compensation cost related to non-vested time-based and performance-based restricted stock units not yet recognized as of June 30, 2011 was approximately \$18.7 and \$10.7, respectively, which is expected to be recognized over a weighted average of 1.5 years and 1.1 years, respectively. Changes to non-vested time-based and performance-based restricted stock and restricted stock units for the six months ended June 30, 2011 were as follows:

Time-based Restricted Stock Units

Shares in Millions Except Per Share Amounts	Number of Shares	Weighted Average Fair Value at Date of Grant
Non-vested at December 31, 2010	1.9	\$ 10.76
Granted	0.9	13.78

(9) DEBT AND CAPITAL LEASE OBLIGATIONS

Debt and capital lease obligations consist of the following:

	June 30, 2011	December 31, 2010
Revolving credit facilities	\$	\$
2029 Convertible Debentures	57.0	56.6

Long-term debt	\$ 121.5	\$ 119.3

On March 11, 2011, the Company entered into a \$300 Four-Year Competitive Advance and Revolving Credit Facility Agreement (the New Credit Facility). The New Credit Facility replaces the Company's \$400 Five-Year Competitive Advance and Revolving Credit Facility Agreement (the Prior Credit Facility), dated as of October 20, 2006 and as amended subsequently, among Convergys and a group of financial institutions. In connection with Convergys' entry into the New Credit Facility, Convergys terminated the Prior Credit Facility. There were no balances outstanding under the Prior Revolving Facility at March 11, 2011 or December 31, 2010.

Convergys has two borrowing options available under the New Credit Facility: (i) a competitive advance option which will be provided on an uncommitted competitive advance basis through an auction mechanism and (ii) a revolving credit option which will be provided on a committed basis. Under each option, amounts borrowed and repaid may be re-borrowed subject to availability. Borrowings under the New Credit Facility bear interest at one of the rates described in the New Credit Facility. The New Credit Facility includes certain restrictive covenants including maintenance of interest coverage and debt-to-EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) ratios (as defined in the New Credit Facility). The Company's interest coverage ratio, defined as the ratio of EBITDA to consolidated interest expense, cannot be less than 4.00 to 1.00 as determined on a rolling four quarter basis. The Company's debt-to-EBITDA ratio cannot be greater than 3.00 to 1.00 until December 31, 2012 and 2.75 to 1.00 after December 31, 2012. The New Credit Facility also contains customary representations and warranties. In the event of a default, the lenders may terminate the commitments and declare the amounts outstanding, and all accrued interest, immediately due and payable. The maturity date of the New Credit Facility is March 11, 2015 except that, upon the satisfaction of certain conditions, Convergys may extend the maturity date by one year twice during the term. Convergys will pay an annual facility fee regardless of utilization. At June 30, 2011 the facility was undrawn. The Company was in compliance with all covenants at June 30, 2011.

In December 2004, Convergys issued \$250.0 in 4.875% Unsecured Senior Notes (4.875% Senior Notes) due December 15, 2009. In the fourth quarter of 2009, the Company announced an exchange offer (Exchange Offer), under the terms of which the Company offered to exchange one-thousand twenty dollars in principal amount of its new 5.75% Junior Subordinated Convertible Debentures due September 2029 (2029 Convertible Debentures) for each one-thousand dollars in principal amount of its 4.875% Senior Notes. Convergys issued a total of \$125.0 aggregate principal amount of the 2029 Convertible Debentures in exchange for \$122.5 of the 4.875% Senior Notes. The 2029 Convertible Debentures are convertible, subject to certain conditions, into shares of the Company's common stock at an initial conversion price of approximately \$12.07 per share, or 82.82 shares of the Company's common stock per one thousand dollars in principal amount of Debentures. Upon conversion, the Company will pay cash up to the aggregate principal amount of the converted 2029 Convertible Debentures and settle the remainder of the conversion value of the Debentures in cash or stock at the Company's option. The conversion rate will be subject to adjustment for certain events outlined in the indenture governing the Debentures (the Indenture). The conversion rate will increase for a holder who elects to convert this Debenture in connection with certain share exchanges, mergers or consolidations involving the Company, as described in the Indenture. The 2029 Convertible Debentures, which pay a fixed rate of interest semi-annually, have a contingent interest component that will require the Company to pay interest based on the trading price of the Debentures exceeding a specified threshold at specified times, commencing on September 15, 2019, as outlined in the Indenture. The maximum amount of contingent interest that will accrue is 0.75% per annum of the average trading price of the Debentures during the periods specified in the Indenture. The fair value of this embedded derivative was not significant at June 30, 2011 or 2010.

During 2009, the Company entered into a \$125.0 asset securitization facility collateralized by accounts receivables of certain of its subsidiaries, of which \$50.0 was scheduled to expire in June 2010 and \$75.0 expires in June 2012. The \$50.0 that was scheduled to expire in June 2010 was extended through June 2011. During June 2011, the Company renegotiated the terms of the agreement, increasing the purchase limit to \$150.0 and extending the terms to June 2014. The asset securitization program is conducted through Convergys Funding Inc., a wholly-owned bankruptcy remote subsidiary of the Company. As of June 30, 2011, the Company has borrowings of \$45.0 under this facility. As of December 31, 2010, the Company had borrowings of \$85.0 under this facility.

Edgar Filing: CONVERGYS CORP - Form 10-Q

The Company leased an office complex in Orlando, Florida, under an agreement that expired in June 2010 (the Orlando lease). On June 30, 2010, the Company refinanced this lease arrangement. The new facility provides for a new lease period of five

Table of Contents

years, and upon termination or expiration of the new facility, the Company is required to either purchase the property for \$55.0 or arrange to have the office complex sold to a third party (the terms of the lease provide the Lessor with a residual value guarantee from the Company of up to \$47.0). The Company accounts for the new facility as a capital lease. At June 30, 2010, the Company recorded a capital lease obligation and property of \$55.0 related to this facility. Including the \$55.0 obligation for the Orlando facility, total capital lease obligations were \$60.1 and \$58.0 at June 30, 2011 and December 31, 2010, respectively.

Other debt of \$10.7 and \$10.7 at June 30, 2011 and December 31, 2010, respectively, consisted of miscellaneous domestic and international borrowings.

At June 30, 2011, future minimum payments of the Company's debt arrangements are as follows:

Remainder of 2011 and 2012	\$ 53.2
2013	0.7
2014	6.7
2015	55.2
2016	
Thereafter	125.0
Total	\$ 240.8

(10) COMMITMENTS AND CONTINGENCIES**Commitments**

At June 30, 2011, the Company had outstanding letters of credit of approximately \$34 and other bond obligations of approximately \$2 related to performance and payment guarantees. The Company believes that any guarantee obligation that may arise will not be material. The Company also has purchase commitments with telecommunications providers of approximately \$15 for the remainder of 2011.

At June 30, 2011, the Company had outstanding performance bond obligations of approximately \$39 related to performance and payment guarantees for the Company's former HR Management line of business. Subsequent to completion of the sale of the HR Management business, the Company continues to be responsible for these bond obligations. As part of the gain on disposition the Company recognized a liability equal to the present value of probability weighted cash flows of potential outcomes, a level 3 fair value measurement. Although NorthgateArinso is obligated to indemnify the Company for any and all losses, costs, liabilities and expenses incurred related to these performance bonds, as of June 30, 2011 the Company maintains a liability of approximately \$1 for these obligations.

Contingencies

The Company from time to time is involved in various loss contingencies, including tax and legal contingencies that arise in the ordinary course of business. The Company accrues for a loss contingency when it is probable that a liability has been incurred and the amount of such loss can be reasonably estimated. At this time, the Company believes that the results of any such contingencies, either individually or in the aggregate, will not have a materially adverse effect on the Company's results of operations or financial condition. However, the outcome of any litigation cannot be predicted with certainty. An unfavorable resolution of one or more pending matters could have a materially adverse impact on the Company's results of operations or financial condition in the future. At

Table of Contents

June 30, 2011, the Company believes it is adequately reserved for all legal contingencies.

Several related class action lawsuits were filed in the United States District Court for the Northern District of Texas in 2001 on behalf of purchasers of common stock of Intervoice, Inc. (Intervoice) during the period from October 12, 1999 through June 6, 2000 (the Class Period). Plaintiffs filed claims, which were consolidated into one proceeding under Sections 10(b) and 20(a) of the Exchange Act and SEC Rule 10b-5 against Intervoice (a subsidiary of the Company since 2008) as well as certain named former officers and directors of Intervoice on behalf of the alleged class members. In the complaint, plaintiffs claim that Intervoice and the named former officers and directors issued false and misleading statements during the Class Period concerning the financial condition of Intervoice, the results of a merger with another company and the alleged future business projections of Intervoice. Plaintiffs have asserted that these alleged statements resulted in artificially inflated stock prices.

The District Court dismissed the plaintiffs' complaint because it lacked the degree of specificity and factual support to meet the pleading standards applicable to federal securities litigation. On appeal, the United States Court of Appeals for the Fifth Circuit affirmed the dismissal in part and reversed in part. The Fifth Circuit remanded a limited number of issues for further proceedings in the District Court. In 2006, the District Court granted the plaintiffs' motion to certify a class of purchasers of Intervoice stock during the Class Period. Intervoice appealed and in 2008, the Fifth Circuit vacated the District Court's class-certification order and remanded the case to the District Court for further consideration. In October 2009, the District Court denied the plaintiffs' motion to certify a class. In January 2010, the Fifth Circuit granted the plaintiffs' petition for permission to appeal the denial of class certification. The Company and the plaintiffs signed a term sheet to settle and terminate the lawsuit. The District Court has granted preliminary approval of the parties' joint stipulation of settlement and has scheduled a hearing for September 27, 2011 to consider a motion for final approval of the settlement. The Company expects that the settlement will not have a material adverse impact on the Company's results of operations or financial condition and believes its reasonable range of loss does not exceed amounts accrued at June 30, 2011.

(11) FAIR VALUE DISCLOSURES

U.S. GAAP defines a hierarchy which prioritizes the inputs in measuring fair value. The three levels of the fair value hierarchy are as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument; and Level 3 inputs are unobservable inputs based on the Company's assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

At June 30, 2011 and December 31, 2010, the Company had foreign currency forward contracts measured at fair value. The fair values of these instruments were measured using valuations based upon quoted prices for similar assets and liabilities in active markets (Level 2) and are valued by reference to similar financial instruments, adjusted for terms specific to the contracts. There were no transfers between the three levels of the fair value hierarchy during the six months ended June 30, 2011 and 2010. The assets and liabilities measured at fair value on a recurring basis as of June 30, 2011 and December 31, 2010 were as follows:

	June 30, 2011	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Derivatives				
Foreign currency forward contracts (asset position)	\$ 29.4		\$ 29.4	
Foreign currency forward contracts (liability position)	\$ 4.1		\$ 4.1	

Table of Contents

	December 31, 2010	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Derivatives				
Foreign currency forward contracts (asset position)	\$ 38.8		\$ 38.8	
Foreign currency forward contracts (liability position)	\$ 8.0		\$ 8.0	

Fair values of cash equivalents and current accounts receivable and payable approximate the carrying amounts because of their short-term nature. The fair value of short-term debt approximates its recorded value because of its short-term nature. Based on quoted market prices at June 30, 2011, the fair value of the \$125.0 of the Company's 2029 Convertible Debentures is \$180.7.

(12) FINANCIAL INSTRUMENTS

The Company is exposed to a variety of market risks, including the effects of changes in foreign currency exchange rates and interest rates. Market risk is the potential loss arising from adverse changes in market rates and prices. The Company's risk management strategy includes the use of derivative instruments to reduce the effects on its operating results and cash flows from fluctuations caused by volatility in currency exchange and interest rates.

The Company serves many of its U.S.-based clients using contact center capacity in the Philippines, India and Canada. Although the contracts with these clients are typically priced in U.S. dollars, a substantial portion of the costs incurred to render services under these contracts are denominated in Philippine pesos (PHP), Indian rupees (INR) or Canadian dollars (CAD), which represents a foreign exchange exposure. The Company has hedged a portion of its exposure related to the anticipated cash flow requirements denominated in these foreign currencies by entering into forward exchange contracts and options with several financial institutions. These instruments mature within the next 30 months and had a notional value of \$487.2 at June 30, 2011 and \$571.6 at December 31, 2010. The derivative instruments discussed above are designated and effective as cash flow hedges. The following table reflects the fair values of these derivative instruments:

	June 30, 2011	December 31, 2010
Forward exchange contracts and options designated as hedging instruments:		
Included within other current assets	\$ 18.3	\$ 19.5
Included within other non-current assets	11.1	19.2
Included within other current liabilities	3.5	7.2
Included within other long-term liabilities	0.6	0.8

The Company recorded deferred tax expense of \$9.9 and \$12.0 related to these derivatives at June 30, 2011 and December 31, 2010, respectively. A total of \$15.4 and \$18.7 of deferred gains, net of tax, related to these cash flow hedges at June 30, 2011 and December 31, 2010, respectively, were accumulated in Other Comprehensive Income (OCI) (Loss) (OCL). As of June 30, 2011, deferred gains of \$14.8 (\$9.2 net of tax), on derivative instruments included in accumulated OCI are expected to be reclassified into earnings during the next twelve months. The following table provides the effect of these derivative instruments on the Company's Consolidated Financial Statements for the three and six months ended June 30, 2011 and 2010:

Table of Contents

	Gain (Loss) Recognized in OCI on Derivative (Effective Portion)	Gain (Loss) Reclassified from Accumulated OCL into Income (Effective Portion)	Location of Gain (Loss) Reclassified from Accumulated OCL into Income (Effective Portion)

Six Months Ended June 30, 2010			
Foreign exchange contracts	\$ (2.0)	\$ (0.3)	- Cost of providing services and products sold and Selling, general and administrative

The amount recognized related to the ineffective portion of the derivative instruments was not material for the six months ended June 30, 2011.

The Company also enters into derivative instruments (forwards) to economically hedge the foreign currency impact of assets and liabilities denominated in nonfunctional currencies. During the six months ended June 30, 2011, a loss of \$0.5 was recognized related to changes in fair value of these derivative instruments not designated as hedges, compared to a gain of \$1.5 for the same period in 2010. The gains and losses largely offset the currency gains and losses that resulted from changes in the assets and liabilities denominated in nonfunctional currencies. These gains and losses are classified within Other income, net in the accompanying Consolidated Statements of Operations and Comprehensive Income. The fair value of these derivative instruments not designated as hedges at June 30, 2011 was not material to the Company's Consolidated Balance Sheet.

A few of the Company's counterparty agreements related to derivative instruments contain provisions that require that the Company maintain collateralization on derivative instruments in net liability positions. The aggregate fair value of all derivative instruments in liability position on June 30, 2011 is \$4.1 for which the Company has no posted collateral. Future downgrades in the Company's credit ratings and/or changes in the foreign currency markets could result in collateral to counterparties.

(13) INCOME TAXES

The liability for unrecognized tax benefits was \$83.7 and \$84.4 at June 30, 2011 and December 31, 2010, respectively, and is included in other long-term liabilities in the accompanying Consolidated Balance Sheets. The total amount of unrecognized tax benefits that would affect income tax expense if ever recognized in the Consolidated Financial Statements is \$73.0. This amount includes interest and penalties of \$17.1. The Company believes that it is reasonably possible that the total amount of unrecognized tax benefits will decrease by \$5 to \$10 in the next twelve months based upon the anticipated resolution of audits; however, actual developments in this area could differ from those currently expected.

Table of Contents

The effective tax rate on net income from continuing operations was 28.0% and 29.3% for the three and six months ended June 30, 2011, respectively, which represents a more stabilized run rate compared to 9.7% and 27.0% in the same periods last year.

(14) GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill increased to \$820.7 at June 30, 2011 from \$820.5 at December 31, 2010. The increase was largely the result of foreign currency movements, partially offset by the \$2.2 reduction to goodwill from the sale of the Finance and Accounting outsourcing line of business. Intangible assets (including software and customer relationships) decreased to \$60.7 at June 30, 2011 from \$69.1 at December 31, 2010, principally due to normal amortization. As of June 30, 2011, the Company's total identifiable intangible assets, acquired primarily through business combinations, consisted of the following:

	Gross Carrying Value	Accumulated Amortization	Net
Software (classified with Property, Plant & Equipment)	\$ 88.7	\$ (62.9)	\$ 25.8
Trademarks	12.0	(9.1)	2.9
Customer relationships and other intangibles	152.7	(120.7)	32.0
Total	\$ 253.4	\$ (192.7)	\$ 60.7

The intangible assets are being amortized using the following amortizable lives: five to eight years for software, four years for trademarks and seven to twelve years for customer relationships and other intangibles. The remaining weighted average depreciation period for software is 4.5 years. The remaining weighted average amortization period for trademarks, customer relationships and other intangibles is 5.9 years. Amortization of software is included within depreciation expense as the underlying assets are classified within property, plant and equipment.

Trademarks, customer relationships, and other intangibles amortization expense was \$4.8 and \$5.2 for the six months ended June 30, 2011 and 2010, respectively, and is estimated to be approximately \$10 for the year ended December 31, 2011. The related estimated expense for the five subsequent years ended December 31 is as follows:

2012	\$ 9
2013	7
2014	3
2015	3
2016	2
Thereafter	6

(15) PAYABLES AND OTHER CURRENT LIABILITIES

(17) SUBSEQUENT EVENTS

On June 2, 2011, the Company announced an agreement for the sale of its holdings in the Cellular Partnerships (See Note 5 for information regarding the Cellular Partnerships) to AT&T. Convergys owns limited partnership interests of 33.8% of the Cincinnati SMSA Limited Partnership and 45% in the Cincinnati SMSA Tower Holdings LLC. AT&T is the general partner and a limited partner of both Cincinnati SMSA Limited Partnership and Cincinnati SMSA Tower Holdings LLC with a partnership interest of approximately 66% and 53%, respectively. The sale closed on July 1, 2011, and the Company received approximately \$320 in cash proceeds. The Company will also receive the regular quarterly distributions from the Cellular Partnerships for the second quarter of 2011 in the third quarter of 2011. The Company expects a net gain on the sale of its interests in the Cellular Partnerships of approximately \$264, or \$170 net of tax.

ITEM 2.

MANAGEMENT DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(Dollar amounts in Millions Except Per Share Amounts)

BACKGROUND

Convergys Corporation (the Company or Convergys) is a global leader in relationship management. We provide solutions that drive value from the relationships our clients have with their customers. Convergys turns these everyday interactions into a source of profit and strategic advantage for our clients. Our unique combination of domain expertise, operational excellence and innovative technologies has delivered process improvement and actionable business insight to clients to enhance their relationships with customers.

Prior to June 2010, we had three reportable segments, Customer Management, Information Management and Human Resources Management (HR Management). In March 2010, we signed a definitive agreement to sell the HR Management line of business to NorthgateArinso, the HR division of Northgate Information Solutions, for approximately \$100 with \$85 paid in cash at closing and \$15 in cash over three years. The sale substantially completed on June 1, 2010, for which we received approximately \$80 in cash as well as a zero coupon note in the principal amount of \$15. The sales of certain foreign operations of the HR Management business were completed during the third and fourth quarters of 2010, resulting in a receipt of an additional \$5 in cash. Final settlement of working capital adjustments resulted in cash payments to NorthgateArinso of approximately \$7 during the fourth quarter of 2010. In connection with the sale of the HR Management line of business, we reorganized our reportable segments into two segments: Customer Management, which provides agent-assisted services, self-service, and intelligent technology care solutions, and Information Management, which provides business support system (BSS) solutions. See Note 16 for information about these segments.

As a result of the sale of the HR Management line of business, the operating results and assets and liabilities related to HR Management have been reflected as discontinued operations for all periods presented. Certain costs previously allocated to the HR Management segment that do not qualify for discontinued operations accounting treatment are reported as costs from continuing operations within Corporate and Other. These costs previously allocated to HR Management that are now included in Corporate and Other within selling, general and administrative costs were \$2.9 and \$9.1 for the three and six months ended June 30, 2010. Beginning June 1, 2010, we began earning transition services revenues for services provided to the buyer under agreements lasting from three to eighteen months. For the three and six months ended June 30, 2011, we earned \$5.0 and \$11.3, respectively, in revenue under these transition services agreements, which is reflected in Corporate and Other compared to \$4.1 in the second quarter of 2010. These revenues largely offset the related costs described above. While the length of the transition services agreements vary depending upon the type of service provided, we have taken and continue to take actions to reduce these costs and our expectation is that we will eliminate the underlying costs as the transition services are completed.

The total gain on the sale of HR Management amounted to \$35.2 pretax and \$5.6 after-tax. The sale of HR Management was a taxable transaction that resulted in \$29.6 being recorded for the combined federal, state and foreign income tax obligation. The high effective tax rate on the transaction was largely due to substantially lower tax basis in goodwill as compared to book value.

Customer Management

Our Customer Management segment partners with clients to deliver solutions that enhance the value of their customer relationships, turning the customer experience into a strategic differentiator. As an end-to-end single-source provider of self-service, agent-assisted and proactive care, we combine consulting, innovative technology and agent-assisted services to optimize the customer experience and strengthen customer relationships.

Agent-related revenues, which account for approximately 90% of Customer Management revenues for the six months ended June 30, 2011, are typically recognized as services are performed based on staffing hours or the number of contacts handled by service agents using contractual rates. In a limited number of engagements where the client pays a fixed fee, we recognize revenues based on the specific facts and circumstances of the engagement, either using the proportional performance method or recognizing the entire amount upon final completion of the engagement. Customer Management remaining revenues are derived from the sale of premise-based and hosted automated self-care and technology solutions. License, professional and consulting and maintenance and software support services revenues recognized from sale of these advanced speech recognition solutions are recognized pursuant to authoritative guidance for software revenue recognition.

Edgar Filing: CONVERGYS CORP - Form 10-Q

During the six months ended June 30, 2011, Customer Management revenues increased 5% to \$928.1 compared to the prior year period. Customer Management operating income and operating margin were \$69.5 and 7.5%, respectively, compared with \$41.8 and 4.6%, respectively, in the prior year period, which included \$17.6 of restructuring charges. Information Management

Our Information Management segment serves clients principally by providing and managing complex business support system (BSS) solutions.

License and related support and maintenance fees, which accounted for 43% of Information Management revenues for the six months ended June 30, 2011, are earned under perpetual and term license arrangements. We invoice our clients for licenses either up-front or monthly based on the number of subscribers, events or units processed using the software. Fees for support and maintenance normally are charged in advance either on an annual, quarterly or monthly basis. The accounting for our license and support and maintenance arrangements can be complex and requires a significant amount of judgment. Some of the factors that we must assess include: the separate elements of the arrangement; vendor-specific objective evidence of fair value for the various undelivered elements of the arrangement; whether the software fees are fixed or determinable; whether the fees are considered collectible and whether services included in the arrangement represent significant production, customization or modification of the software. Professional and consulting services for installation, implementation, customization, migration, training and managed services accounted for 41% of Information Management revenues for the six months ended June 30, 2011. The professional and consulting fees are either invoiced monthly to our clients based on time and material costs incurred at contractually agreed upon rates or, in some instances, for a fixed fee. Information Management remaining revenues consist of monthly fees for processing client transactions in Information Management data centers and, in some cases, the clients' data centers. These data processing revenues are earned and recognized based on the number of invoices, subscribers or events that are processed by Information Management using contractual rates.

During the first six months of 2011, Information Management revenue was \$156.8, a 2% decrease compared to the prior year. Information Management operating income and operating margin were \$13.7 and 8.7%, respectively, compared with \$16.3 and 10.2%, respectively, in the prior year period.

RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the condensed Consolidated Financial Statements and segment data. Detailed comparisons of revenue and expenses are presented in the discussions of the operating segments, which follow the consolidated results discussion. Results for interim periods may not be indicative of the results for subsequent periods or the full year.

Three Months Ended June 30, 2011 versus Three Months Ended June 30, 2010

Consolidated revenues for the second quarter of 2011 were \$551.6 compared to \$528.2 for the comparable period last year, primarily reflecting revenue increase in Customer Management. Operating income for the second quarter of 2011 was \$38.1 compared to operating income of \$7.8 in the prior year, including \$17.6 of restructuring charges and \$2.9 of HR Management related costs that did not qualify for reporting as discontinued operations in the second quarter of 2010 as well as approximately \$5 of insurance recoveries in excess of costs incurred in the second quarter of 2011. We earned revenue under transition services agreements subsequent to the sale of HR Management of \$5.0, compared to \$4.1 in the prior year, which largely offset the continuing HR Management related costs. We have taken and continue to take actions to reduce these costs and our expectation is that we will substantially eliminate the underlying costs as the transition services are completed.

As a percentage of revenues, the cost of providing services and products sold was 62.8% compared to 60.5% during the corresponding period last year, reflecting our continued investment in incremental resources for new programs expected to deliver future revenue. Selling, general, and administrative expenses in the second quarter of 2011 decreased to \$130.6 compared to \$141.0 in the second quarter of 2010. As a percentage of revenues, selling, general and administrative expenses were 23.7% in the second quarter of 2011 compared to 26.7% in the second quarter of 2010 reflecting cost reduction actions previously taken, the \$5 of net insurance recoveries in the second quarter of 2011 and the \$2.9 of HR Management related costs incurred during the second quarter of 2010. Compared to the prior year, the \$4.6 decrease in depreciation expense reflects a lower depreciable asset base.

Edgar Filing: CONVERGYS CORP - Form 10-Q

As discussed in more detail under the heading **Restructuring Charges** we recorded a restructuring charge of \$36.7 during 2010, including \$17.6 during the second quarter of 2010 mostly related to the realignment of resources, including headcount and facilities, to expected revenues and the sale of the HR Management business.

During the second quarter of 2011, we recognized income from our investment in the Cellular Partnerships of \$10.0 compared to \$11.7 in the prior year. Second quarter 2011 income is net of \$1.2 incurred in connection with the sale of our interests in the Cellular Partnerships, comprised of our 33.8% interest in Cincinnati SMSA Limited Partnership and our 45% interest in the Cincinnati SMSA Tower Holdings LLC, to AT&T, the general partner and a limited partner in both partnerships, for \$320 in cash proceeds at closing. The sale of our interests in the Cellular Partnerships closed on July 1, 2011. We anticipate recognition in the third quarter of 2011 of a pre-tax gain on sale of approximately \$264, or approximately \$170 net of tax. Other income for the second quarter of 2011 improved to \$0.2

Table of Contents

compared to expense of \$1.7 in the prior year primarily due to lower foreign exchange losses in 2011. Interest expense improved to \$4.3 from \$5.4 in the prior year reflecting a lower level of debt outstanding throughout the second quarter of 2011. Our effective tax rate on net income from continuing operations was 28.0% for the three months ended June 30, 2011, which represents a more stabilized run rate compared to 9.7% in the same period last year. As mentioned in our 2010 Annual Report on Form 10-K, the tax holiday in India expired on March 31, 2011. The impact of this expiration is expected to be mitigated by expansion in other jurisdictions with lower tax rates.

As a result of the above, second quarter 2011 income from continuing operations and income from continuing operations per diluted share were \$31.7 and \$0.26, respectively, compared with \$11.2 and \$0.09, respectively, in the second quarter of 2010.

The results from discontinued operations in 2010 include the operating results of the HR Management business that were discontinued as a result of the sale of the business as well as the preliminary gain on the sale of the business recorded in the second quarter of 2010 of \$7.8, net of tax expense of \$30.2. Income from discontinued operations, net of tax and income from discontinued operations per diluted share for the three months ended June 30, 2010 was \$16.2 and \$0.13, respectively.

Second quarter 2011 net income and earnings per diluted share were \$31.7 and \$0.26, respectively, compared with \$27.4 and \$0.22, respectively, in the second quarter of 2010.

Six Months Ended June 30, 2011 versus Six Months Ended June 30, 2010

Consolidated revenues for the first six months of 2011 were \$1,096.2 compared to \$1,074.2 for the comparable period last year, reflecting a revenue increase in Customer Management and \$11.3 of revenue earned under transition services agreements subsequent to the sale of HR Management compared to \$4.1 in the prior year, partially offset by a revenue decrease in Information Management. Operating income for the first half of 2011 was \$75.1 compared to operating income of \$29.9 in the prior year, including \$17.6 of restructuring charges in the second quarter of 2010, \$6.2 of severance and other transition costs associated with the change in the CEO of the Company in February 2010, \$9.1 of HR Management related costs that did not qualify for reporting as discontinued operations in the first half of 2010, and \$5 of insurance recoveries in excess of costs incurred in the second quarter of 2011, partially offset by the negative impact of a client bankruptcy in the first quarter of 2011. The transition services revenue above largely offsets the continuing HR Management related costs. We have taken and continue to take actions to reduce these costs and our expectation is that we will substantially eliminate the underlying costs as the transition services are completed.

As a percentage of revenues, the cost of providing services and products sold was 62.5% compared to 59.7% during the corresponding period last year, reflecting our investment in incremental resources for new programs expected to deliver future revenue as well as the negative impact of a client bankruptcy during the first quarter of 2011. Selling, general, and administrative expenses in the first half of 2011 decreased to \$262.4 compared to \$299.6 in the first half of 2010. As a percentage of revenues, selling, general and administrative expenses were 23.9% in the first six months of 2011 compared to 27.9% in the first six months of 2010 as a result of cost reduction actions previously taken, the \$9.1 of HR Management related costs incurred during the first six months of 2010 and the \$5 of net insurance recoveries in the second quarter of 2011. The 9% decrease in research and development costs compared to the prior year primarily reflects reductions within the Customer Management segment. Compared to the prior year, the \$9.0 decrease in depreciation expense reflects a lower depreciable asset base.

As discussed in more detail under the heading **Restructuring Charges** we recorded a restructuring charge of \$36.7 during 2010, including \$17.6 during the second quarter of 2010 mostly related to the realignment of resources, including headcount and facilities, to expected revenues and the sale of the HR Management business.

During the first half of 2011, we recognized income from our investment in the Cellular Partnerships of \$20.2 compared to \$25.0 in the prior year. Income for the first half of 2011 is net of \$1.2 incurred in connection with the sale of our interests in the Cellular Partnerships, as discussed above. Other income of \$7.8 was primarily due to pre-tax gain of \$7.0 on the sale of the Finance and Accounting outsourcing line of business during the first quarter. Other income of \$6.6 in the first six months of 2010 included the impact of a \$13.0 reduction to a non-operating accrual. Interest expense improved to \$8.9 from \$11.1 in the prior year reflecting a lower level of debt outstanding throughout the first half of 2011. Our effective tax rate on net income from continuing operations was 29.3% for the six months ended June 30, 2011 compared to 27.0% in the same period last year. As mentioned in our 2010 Annual Report on Form 10-K, the tax holiday in India expired on March 31, 2011. The impact of this expiration is expected to be mitigated by expansion in other jurisdictions with lower tax rates.

As a result of the above, first half 2011 income from continuing operations and income from continuing operations per diluted share were \$66.6 and \$0.53, respectively, compared with \$36.8 and \$0.29, respectively, in the first half of 2010.

Edgar Filing: CONVERGYS CORP - Form 10-Q

The results from discontinued operations in 2010 include the operating results of the HR Management business that were discontinued as a result of the sale of the business as well as the preliminary gain on the sale of the business recorded in the second quarter of 2010 of \$7.8, net of tax expense of \$30.2. As a result of the foregoing, income from discontinued operations, net of tax and income from discontinued operations per diluted share for the six months ended June 30, 2010 were \$25.9 and \$0.21, respectively.

Table of Contents

Total first half 2011 net income and earnings per diluted share were \$66.6 and \$0.53, respectively, compared with \$62.7 and \$0.50, respectively, in the first half of 2010.

Non-GAAP Measures for the Three and Six Months Ended June 30, 2011 versus Three and Six Months Ended June 30, 2010

In order to assess the underlying operational performance of the continuing operations of the business, we provide non-GAAP measures in the table below that exclude the following: 1) the gain on the sale of the Finance and Accounting outsourcing line of business of \$7.0 during the first half of 2011, reported within other income; 2) certain costs previously allocated to the HR Management business that are now included in continuing operations as discussed above and in more detail in Note 3 of the Notes to Consolidated Financial Statements; these costs were \$2.9 and \$9.1 in the three and six months ended 2010, respectively; 3) a reduction of non-operating accruals by \$13.0 during the first half of 2010, which is reported within other income; 4) restructuring charges of \$17.6 included within the three and six months ended June 30, 2010; and 5) severance and other transition costs associated with the change in the CEO of the Company in February 2010, which resulted in a negative impact to first-quarter 2010 results from continuing operations of \$6.2.

We use operating income, income from continuing operations, net of tax and earnings per share data excluding the above items to assess the underlying operational performance of the continuing operations of the business for the year and to have a basis to compare underlying results to prior and future periods. Adjustments for these charges are relevant in evaluating the overall performance of the business. Limitations associated with the use of these non-GAAP measures include that these measures do not include all of the amounts associated with our results as determined in accordance with GAAP. Management compensates for these limitations by using both the non-GAAP measures (operating income, income from continuing operations, net of tax and diluted earnings per share excluding these charges) and the GAAP measures (operating income, income from continuing operations, net of tax and diluted earnings per share) in its evaluation of performance. There are no material purposes for which we use these non-GAAP measures beyond those described above.

Three Months Ended June 30, 2011 versus Three Months Ended June 30, 2010**Revenues**

Customer Management revenues for the second quarter of 2011 were \$469.6, a 5% increase from the second quarter of 2010. Revenues from the communications vertical increased 12% from the second quarter of 2010 due to volume increases with several large clients. Revenues from the technology vertical increased 28% from the second quarter of 2010 due to new projects with existing clients and program expansions. Revenues from the financial services vertical decreased 7% from the second quarter of 2010, primarily reflecting project completions and volume reductions. Other revenues, which are comprised of clients outside of Customer Management's three largest industries, decreased 11% from the second quarter of 2010. This decrease is primarily attributable to a short-term program with the U.S. Census Bureau that was completed in 2010, partially offset by revenue from several new programs.

Costs and Expenses

Customer Management total costs and expenses of \$432.3 decreased 1% from the second quarter 2010 costs of \$438.1. Customer Management cost of providing services and products sold during the second quarter of 2011 increased 9% to \$301.8 from the second quarter of 2010. As a percentage of revenues, cost of providing services and products sold was 64.3%, compared to 62.0% in the prior year period, primarily reflecting our investment in incremental resources for new programs expected to deliver future revenue. Selling, general and administrative expenses of \$110.4 in the second quarter of 2011 decreased 10% as compared to \$122.2 during the same period in 2010 reflecting cost reduction actions previously taken and \$5 of insurance recoveries in excess of costs incurred during the second quarter of 2011. Research and development costs of \$3.6 decreased \$1.1 compared to the second quarter of 2010 primarily due to reductions in headcount. Depreciation expense of \$14.7 declined \$2.7 from the prior year quarter reflecting a lower depreciable asset base.

As discussed in more detail under the heading *Restructuring Charges* we recorded a restructuring charge of \$22.6 for Customer Management during 2010, including \$15.3 during the second quarter of 2010. The second quarter charge was comprised of \$8.5 of severance and \$6.8 of facility-related charges, mostly related to the realignment of resources to expected revenues.

Operating Income

As a result of the foregoing, Customer Management second quarter 2011 operating income and margin were \$37.3 and 7.9%, respectively, compared to \$8.0 and 1.8%, respectively, in the second quarter of 2010.

Six Months ended June 30, 2011 versus Six Months Ended June 30, 2010**Revenues**

Customer Management revenues for the first half of 2011 were \$928.1, a 2% increase from the first half of 2010. Revenues from the communications vertical increased 5% from the first half of 2010 reflecting higher volumes with several clients. Revenues from

technology vertical increased 20% from the first half of 2010 due to new projects with existing clients and program expansions. Revenues from the financial services vertical decreased 11% from the first half of 2010, primarily reflecting volume reductions and program completions. Other revenues, which are comprised of clients outside of Customer Management's three largest industries, decreased 5% from the first half of 2010. This decrease is primarily attributable to the completion of a short-term program with the U.S. Census Bureau in 2010 and volume reductions with existing clients, partially offset by revenue earned from new clients.

Costs and Expenses

Customer Management total costs and expenses of \$858.6 decreased by 1% from the first half of 2010 costs of \$867.9. Customer Management cost of providing services and products sold during the first half of 2011 increased 7% to \$593.3 from the first half of 2010. As a percentage of revenues, cost of providing services and products sold was 63.9% compared to 61.0% in the prior year period, reflecting our investment in incremental resources for new programs expected to deliver future revenue and the negative impact of a client bankruptcy in the first quarter of 2011. Selling, general and administrative expenses of \$224.5 in the first half of 2011 decreased 10% as compared to \$249.9 in the prior period reflecting cost reduction actions previously taken and the \$5 of net insurance recoveries in the second quarter of 2011, partially offset by incremental investment in sales and marketing efforts. Research and development costs of \$7.5 decreased \$2.7 compared to the first half of 2010 primarily due to reductions in headcount. Depreciation expense of \$29.6 decreased \$4.6 from the prior year due to a lower depreciable asset base.

As discussed in more detail under the heading, Restructuring Charges, we recorded a restructuring charge of \$22.6 for Customer Management during 2010, including \$15.3 during the first half of 2010. The first half charge was comprised of \$8.5 of severance and \$6.8 of facility-related charges, mostly related to the realignment of resources to expected revenues.

Operating Income

As a result of the foregoing, Customer Management first half of 2011 operating income and margin were \$69.5 and 7.5%, respectively, compared to \$41.8 and 4.6%, respectively, in the first half of 2010.

Non-GAAP measures for the Three and Six Months Ended June 30, 2011 versus Three and Six Months Ended June 30, 2010

In order to assess the underlying operational performance of the continuing operations of the business, we provide non-GAAP measures in the table below that exclude restructuring charges of \$15.3 incurred within the second quarter of 2010 to better align resources with future business growth.

The Company uses operating income excluding the restructuring charges to assess the underlying operational performance of the continuing operations of the business for the year and to have a basis to compare underlying operating results to prior and future periods. Adjustments for these charges are relevant in evaluating the overall performance of the business. Limitations associated with the use of these non-GAAP measures include that these measures do not include all of the amounts associated with our results as determined in accordance with GAAP. Management compensates for these limitations by using both the non-GAAP measure, operating income excluding the charge, and the GAAP measure, operating income, in its evaluation of performance. There are no material purposes for which we use these non-GAAP measures beyond those described above.

Three Months Ended June 30, 2011 versus Three Months Ended June 30, 2010**Revenues**

Information Management revenues of \$77.0 during the second quarter of 2011 remained consistent with the corresponding period last year. Data processing revenues of \$11.3 decreased 29% from the corresponding period last year reflecting project completions. Professional and consulting revenues of \$34.2 increased 12% from the second quarter of 2010 primarily due to services performed subsequent to the completion of the transition of an existing client to a new platform and increased client volumes, partially offset by project completions. License and other revenues of \$31.5 were consistent with the corresponding period last year.

Costs and Expenses

Information Management total costs and expenses were \$70.5, a 3% increase from the second quarter of 2010. Compared to the prior year, Information Management cost of providing services and products sold during the second quarter of 2011 increased 4% to \$41.1. As a percentage of revenues, cost of providing services and products sold was 53.4% in the second quarter of 2011, compared to 50.9% in the second quarter of 2010 reflecting the shift in revenue mix from higher margin data processing revenue to lower margin professional and consulting revenue. Selling, general and administrative expenses of \$16.2 in the second quarter of 2011 increased 7% compared to the prior year period. As a percentage of revenues, selling, general and administrative expenses were 21.0% in the second quarter of 2011, compared to 19.5% in the prior year period, reflecting an investment in sales efforts, partially offset by cost reduction efforts. Research and development costs of \$9.4 were consistent with the second quarter of 2010. Depreciation expense of \$3.2 decreased \$0.5 from the prior year quarter due to a lower depreciable asset base.

Operating Income

As a result of the foregoing, Information Management operating income and operating margin during the second quarter of 2011 were \$6.5 and 8.4%, respectively, compared with \$9.4 and 12.1%, respectively, during the second quarter of 2010.

Six Months Ended June 30, 2011 versus Six Months Ended June 30, 2010**Revenues**

Information Management revenues of \$156.8 during the first half of 2011 decreased 2% from the corresponding period last year. Data processing revenues of \$25.1 decreased 24% from the corresponding period last year reflecting project completions. Professional and consulting revenues of \$64.1 increased 5% from the corresponding period last year of \$60.8 primarily due to services performed subsequent to the completion of the transition of an existing client to a new platform and increased client volumes, partially offset by project completions. License and other revenue increased 2% from the corresponding period last year due to the timing and volume of license sales.

Costs and Expenses

Information Management costs and expenses were \$143.1, a 1% decline from the first half of 2010. Compared to the prior year, Information Management's cost of providing services and products sold during the first half of 2011 of \$83.4 remained consistent. As a percentage of revenues, costs of providing services and products sold was 53.2% in the first half of 2011, compared to 52.3% in the first half of 2010 reflecting the shift in revenue mix from higher margin data processing revenue to lower margin professional and consulting revenue. Selling, general and administrative expenses of \$33.3 in the first half of 2011 increased 3% as compared to \$32.3 in the prior

year period due to an incremental investment in sales efforts, partially offset by cost reduction actions previously taken. As a percentage of revenues, selling, general and administrative expenses were 21.2% in the first half of 2011 compared to 20.1% in the prior year period. Research and development costs of \$19.0 remained consistent with the first half of 2010. Depreciation expense of \$6.3 decreased \$1.3 from the prior year period due to a lower depreciable asset base.

Operating Income

As a result of the foregoing, Information Management operating income and operating margin during the first half of 2011 were \$13.7 and 8.7%, respectively, compared with \$16.3 and 10.2%, respectively, in the first half of 2010.

RESTRUCTURING CHARGES**2010 Restructuring**

During 2010, we initiated a restructuring plan and incurred a total charge of \$36.7 consisting of \$22.4 of severance-related charges and \$14.3 of facility-related charges. The \$22.4 of severance-related charges were comprised of \$13.3 at Customer Management and \$3.0 at Information Management, largely to reduce headcount and align resources to future business needs, and \$6.1 at Corporate to further simplify operations and to reflect the impact of the sale of the HR Management line of business. For both the three and six months ended June 30, 2010, we recorded a charge of \$17.6 including \$10.8 of severance-related charges and \$6.8 of facility-related charges. The \$10.8 of severance-related charges were comprised of \$8.5 at Customer Management and \$2.3 at Corporate. The full-year severance charge of \$22.4 is largely being paid in cash pursuant to the Company's existing severance policy and employment agreements. When completed, these actions will affect approximately 1,000 professional employees and approximately 1,400 non-salaried employees worldwide and are expected to be mostly completed by the end of 2011. The facility-related charge of \$14.3 relates to lease rent accruals and penalties for properties that have closed as the result of consolidating facilities and shifting capacity. The charge is equal to the future costs associated with the facility, net of proceeds from any probable future sublease agreements. We used estimates, based on consultation with the Company's real estate advisors, to determine the proceeds from any future sublease agreements. We will continue to evaluate these estimates in recording the facilities abandonment charge. Consequently, there may be additional reversals or charges relating to these facility closures in the future. Therefore, the Company reviews facility-related reserves on a facility basis rather than restructuring charge basis. At June 30, 2011 the facility-related restructuring reserve for all reserved facilities had an outstanding balance of \$17.1, which will be paid out over several years until the leases expire.

Restructuring liability activity for the 2010 severance plan, the balance of which is included within Payables, deferred revenue and other current liabilities on the Company's balance sheets, consisted of the following:

	2011
Balance at January 1	\$ 12.4
Severance payments	(7.8)
Balance at June 30, 2011	\$ 4.6

The restructuring actions, when completed, will result in cost reductions in excess of \$50 on an annualized basis. The impact of this benefit will be spread across our operating expenses, particularly within the selling, general and administrative expense and cost of providing services and products sold captions of our Consolidated Statements of Operations and Comprehensive Income (Loss). When completed, the severance actions are expected to result in cash savings in excess of \$40 on an annualized basis. We do not believe that the impact on liquidity is material.

2009 Restructuring

During 2009, we initiated restructuring plans of \$43.3 to reduce headcount and align resources to future business needs. The severance actions were completed as of March 31, 2011. The facility-related charge relates to lease rent accruals for properties that have closed as the result of consolidating facilities, consistent with the methodology discussed in connection with the 2010 restructuring. The facility-related restructuring reserve related to this charge is encompassed within the total outstanding facility balance of \$17.1 referred to above, which will be paid over several years until the leases expire.

Edgar Filing: CONVERGYS CORP - Form 10-Q

The restructuring actions taken resulted in cost reductions in excess of \$50 in 2010. The impact of this benefit was spread across our operating expenses, particularly within the selling, general and administrative expense and cost of providing services and products sold captions of our Consolidated Statements of Operations and Comprehensive Income (Loss). These actions also had a positive cash flow impact in the range of \$20-\$25 in 2010.

Table of Contents**Facilities Restructuring**

Restructuring liability activity for the facilities plans consisted of the following:

	2011
Balance at January 1	\$ 20.7
Facility payments	(3.6)
Balance at June 30, 2011	\$ 17.1

CLIENT CONCENTRATION

During the first six months of 2011, our three largest clients accounted for 40.9% of our revenues, compared to 37.3% in the same period of 2010. We serve AT&T, our largest client with 21.4% of revenues in the first six months of 2011 as compared to 22.5% of revenue in the same period in the prior year, under several Customer Management and Information Management contracts. We serve DirecTV and Comcast Corporation, our second and third largest clients, under Customer Management contracts. Volumes under certain of our long-term contracts are subject to variation based on, among other things, the spending by clients on outsourced customer support and subscriber levels.

BUSINESS OUTLOOK

Convergys revised expectations for the full year 2011 are now:

Customer Management 2011 revenue to exceed \$1.875 billion;

Information Management 2011 revenue of \$0.33 billion to \$0.34 billion;

GAAP EPS of \$2.30 to \$2.43;

Non-GAAP EPS of \$0.92 to \$1.05;

EBITDA of \$539 million to \$559 million;

Adjusted EBITDA of \$275 million to \$295 million;

Free cash flow to exceed net income in 2011, excluding the Cellular Partnership sale impacts.
Reconciliation tables of prior to revised 2011 guidance are below:

Adjusted to reflect the improving overall performance of the business and the Cellular Partnerships sale impact, which will substantially increase Convergys full-year GAAP EPS and EBITDA:

Gain on sale of \$1.38 EPS and \$264 EBITDA will be reported in the third quarter;

Equity earnings of approximately \$0.16 EPS and \$30 EBITDA is being removed from guidance;

Adding \$0.08 to the low end and \$0.06 to the high end of the non-GAAP EPS guidance range; adding \$10 to the low end of the Adjusted EBITDA guidance range.

Note that Convergys prior guidance did not include the Cellular Partnerships sale gain and included the Cellular Partnerships earnings for the full year.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Liquidity and Cash Flows

We believe that Convergys has adequate liquidity from cash and expected future operating cash flows to fund ongoing operations, invest in the business and make required debt payments for the next twelve months. In addition, expected future cash flows provide additional ability to invest in the business.

Edgar Filing: CONVERGYS CORP - Form 10-Q

Cash flow from operating activities generally provides us with a significant source of funding for our investing and financing activities. Cash flow from operating activities totaled \$102.0 in the first six months of 2011 compared to \$112.2 in the same period last year, which included \$19.9 of cash flows used by discontinued operations. The decline in the current year largely was due to an increase in the net implementation spending in the current year and the timing of working capital requirements. Days sales outstanding at June 30, 2011 was 59 days compared to 63 days at June 30, 2010. This performance measure is computed as follows: receivables, net of allowances, divided by average daily revenue. Our net cash provided by operating activities for the first six months of 2011 and 2010 included \$19.6 and \$20.9, respectively, of cash received from the Cellular Partnerships. As we have received distributions from the Partnerships in excess of our initial investment, cash flows are classified as operating as they represent return on investment rather than return of invested capital.

Cash flow used in investing activities was \$27.3 during the first six months of 2011, which included \$10.0 from the sale of the F&A line of business. Cash flow provided by investing activities was \$46.2 during the six months of 2010, which included \$76.8 from discontinued operations. Funds used in investing activities include capital expenditures of \$37.3 and \$27.3 for the six months ended June 30, 2011 and 2010, respectively. The decrease in the amount received from investing activities in the current year was largely due to \$79.2 in cash received at the close of the sale of the HR Management business in June 2010.

Cash flow used in financing activities was \$79.5 during the first six months of 2011 compared to \$360.4 during the first six months of 2010. During the first half of 2011, we repurchased 2.9 million shares of the Company's common stock for \$38.7 and repaid \$40.4 on our outstanding borrowings. During the first six months of 2010, we repaid the entire \$400.0 outstanding balance on our revolving credit facility. At June 30, 2011, the Company had borrowings of \$45.0 under the accounts receivable securitization facility.

We use free cash flow and adjusted free cash flow to assess the financial performance of the Company. We define free cash flow as cash flows from operating activities less capital expenditures. We further define adjusted free cash flow as free cash flow excluding the operating cash impact of the sale of the HR Management business in the first half of 2010. A reconciliation of the GAAP measure, net cash provided by operating activities, to the non-GAAP measures, free cash flow and adjusted free cash flow, is as follows:

Table of Contents

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Net cash provided by operating activities under U.S. GAAP	\$ 67.2	\$ 63.7	\$ 102.0	\$ 112.2
Capital expenditures, net	(19.6)	(12.9)	(37.3)	(27.5)
Free cash flow (a non-GAAP measure)	\$ 47.6	\$ 50.8	64.7	84.7
Payments made to settle obligations of HR Management in connection with and upon substantial completion of the sale of the business		28.2		28.2
Adjusted free cash flow (a non-GAAP measure)	\$ 47.6	\$ 79.0	\$ 64.7	\$ 112.9

Free cash flow, as defined above, was \$64.7 and \$84.7 for the first six months of 2011 and 2010, respectively. Free cash flow includes cash payments of \$28.2 made to settle obligations of the HR Management business for the three and six months ended June 30, 2010. Excluding this item, adjusted free cash flow for the six months ended June 30, 2011 and 2010 was \$64.7 and \$112.9. The decrease in adjusted free cash flow of \$48.2 from the prior year was due to lower cash generated from operating activities during the first six months of 2011 primarily as a result of the timing of working capital requirements, an increase in net implementation spending and higher capital expenditures.

We believe that free cash flow and adjusted free cash flow are useful to investors because they relate the operating cash flow of the Company to the capital that is spent to continue and improve business operations, such as investment in the Company's existing businesses. Further, free cash flow and adjusted free cash flow facilitate management's ability to strengthen the Company's Balance Sheet, to repay the Company's debt obligations and to repurchase the Company's common shares. Limitations associated with the use of free cash flow and adjusted free cash flow include that they do not represent the residual cash flow available for discretionary expenditures as they do not incorporate certain cash payments including payments made on capital lease obligations or cash payments for business acquisitions. Management compensates for these limitations by utilizing both the non-GAAP measures, free cash flow and adjusted free cash flow, and the GAAP measure, cash flows from operating activities, in its evaluation of performance. There are no material purposes for which we use these non-GAAP measures beyond the purposes described above.

We define adjusted EBITDA, as earnings from continuing operations before interest, taxes, depreciation and amortization, and excluding the \$7.0 gain on sale of the Finance and Accounting outsourcing line of business in the first half of 2011, and excluding the HR Management related impacts, CEO transition costs and non-operating reserve reduction in the first half of 2010. Excluding these items, adjusted EBITDA was \$143.2 for the six months ended June 30, 2011 compared to \$137.9 for the same period in prior year. Adjusted EBITDA for the second quarter of 2011 was \$71.8 compared with \$66.6 in the prior year period.

A reconciliation of the GAAP measure, earnings from continuing operations, to the non-GAAP measures, EBITDA and Adjusted EBITDA is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Income from Continuing Operations, net of tax under U.S. GAAP	\$ 31.7	\$ 11.2	\$ 66.6	\$ 36.8
Depreciation and Amortization	23.5	28.3	47.1	56.5
Interest expense	4.3	5.4	8.9	11.1
Income tax expense	12.3	1.2	27.6	13.6
EBITDA (a non-GAAP measure)	71.8	46.1	150.2	118.0
Restructuring charges		17.6		17.6
Gain on sale of Finance and Accounting outsourcing line of business			(7.0)	
CEO transition costs				6.2
HR Management related costs not qualifying as Discontinued Operations		2.9		9.1
Non-operating reserve reduction				(13.0)

underlying performance relative to other companies in the industry. Adjusted EBITDA should not be considered in isolation or as a substitute for income from continuing operations, net of tax, or other income statement data prepared in accordance with GAAP and our presentation of adjusted EBITDA may not be comparable to similarly-titled measures used by other companies. Management uses both the non-GAAP measure, adjusted EBITDA, and the GAAP measure, income from continuing operations, net of tax, in its evaluation of underlying performance. There are no material purposes for which we use this non-GAAP measure beyond the purposes described above. This non-GAAP measure should be considered supplemental in nature and should not be construed as being more important than comparable GAAP measures.

Capital Resources, Off-Balance Sheet Arrangements and Contractual Commitments

At June 30, 2011, total capitalization was \$1,397.5, consisting of \$172.8 of short-term and long-term debt and \$1,224.7 of equity. The total debt-to-capital ratio was 12.4% at June 30, 2011, compared to 15.1% at December 31, 2010.

On March 11, 2011, we entered into a \$300 Four-Year Competitive Advance and Revolving Credit Facility Agreement (the New Credit Facility). The New Credit Facility replaces our \$400 Five-Year Competitive Advance and Revolving Credit Facility Agreement (the Prior Credit Facility), dated as of October 20, 2006 and as amended subsequently, among Convergys and a group of financial institutions. In connection with our entry into the New Credit Facility, we terminated the Prior Credit Facility. There were no balances outstanding under the Prior Revolving Facility at March 11, 2011 or December 31, 2010.

We have two borrowing options available under the New Credit Facility: (i) a competitive advance option which will be provided on an uncommitted competitive advance basis through an auction mechanism and (ii) a revolving credit option which will be provided on a committed basis. Under each option, amounts borrowed and repaid may be re-borrowed subject to availability. Borrowings under the New Credit Facility bear interest at one of the rates described in the New Credit Facility. The New Credit Facility includes certain restrictive covenants including maintenance of interest coverage and debt-to-EBITDA ratios (as defined in the New Credit Facility). The Company's interest coverage ratio, defined as the ratio of EBITDA to consolidated interest expense, cannot be less than 4.00 to 1.00 as determined on a rolling four quarter basis. Our debt-to-EBITDA ratio cannot be greater than 3.00 to 1.00 until December 31, 2012 and 2.75 to 1.00 after December 31, 2012. The New Credit Facility also contains customary representations and warranties. In the event of a default, the lenders may terminate the commitments and declare the amounts outstanding, and all accrued interest, immediately due and payable. The maturity date of the New Credit Facility is March 11, 2015 except that, upon the satisfaction of certain conditions, we may extend the maturity date by one year twice during the term. We will pay an annual facility fee regardless of utilization. At June 30, 2011 the facility was undrawn. We were in compliance with all covenants at June 30, 2011.

In December 2004, we issued \$250.0 in 4.875% Unsecured Senior Notes (4.875% Senior Notes) due December 15, 2009. During the first nine months of 2009, we retired approximately \$58.2 of the outstanding debt. In the fourth quarter of 2009, we announced an exchange offer (Exchange Offer), under the terms of which the Company offered to exchange one-thousand twenty dollars in principal amount of its new 5.75% Junior Subordinated Convertible Debentures due September 2029 (2029 Convertible Debentures) for each one-thousand dollars in principal amount of its 4.875% Senior Notes. We issued a total of \$125.0 aggregate principal amount of the 2029 Convertible Debentures in exchange for \$122.5 of the 4.875% Senior Notes. Following the settlement of the exchange, approximately \$70.1 aggregate principal amount of the 4.875% Senior Notes remained outstanding that was fully paid in December 2009. The entire balance of the 2029 Convertible Debentures was outstanding as of June 30, 2011 and December 31, 2010.

During 2009, we entered into a \$125.0 asset securitization facility collateralized by accounts receivables of certain of our subsidiaries, of which \$50.0 was scheduled to expire in June 2010 and \$75.0 expires in June 2012. The \$50.0 that was scheduled to expire in June 2010 was extended through June 2011. During June 2011, the Company renegotiated the terms of the agreement, increasing the purchase limit to \$150.0 and extending the terms to June 2014. The asset securitization program is conducted through Convergys Funding Inc., a wholly-owned bankruptcy remote subsidiary. The asset securitization facility does not qualify for sale treatment under the authoritative guidance for the accounting for transfers and servicing of financial assets and extinguishments of liabilities. Accordingly, the accounts receivable and related debt obligation will remain on our Consolidated Balance Sheet. At June 30, 2011 and December 31, 2010, we had borrowings of \$45.0 and \$85.0, respectively, under this facility.

The company leased an office complex in Orlando, Florida, under an agreement that expired in June 2010 (the Orlando lease). On June 30, 2010, we refinanced this lease arrangement. The new facility provides for a new lease period of five years, and upon termination or expiration of the new lease facility, we are required to either purchase the property for \$55.0 or arrange to have the office complex sold to a third party (the terms of the lease provide the Lessor with a residual value guarantee from us of up to \$47.0). We accounted for the new facility as a capital lease. At June 30, 2010, we recorded a capital lease obligation and property of \$55.0 related to this facility.

During the first half of 2011, we repurchased 2.9 million shares of our common stock for \$38.7 pursuant to outstanding authorizations. The timing and terms of any future transactions depend on a number of considerations including market conditions and our liquidity. At June 30, 2011, the Company has the authority to repurchase an additional 1.8 million common shares.

At June 30, 2011, we had outstanding letters of credit of approximately \$34 and other bond obligations of approximately \$2 related to performance and payment guarantees. We believe that any guarantee obligation that may arise will not be material. We also have purchase commitments with telecommunications providers of approximately \$15 for the remainder of 2011.

At June 30, 2011, we had outstanding performance bond obligations of approximately \$39 related to performance and payment guarantees for the Company's former HR Management line of business. Subsequent to completion of the sale of the HR Management business, the Company continues to be responsible for these bond obligations. As part of the gain on disposition we recognized a liability equal to the present value of probability weighted cash flows of potential outcomes. Although NorthgateArinso is obligated to indemnify us for any and all losses, costs, liabilities and expenses incurred related to these performance bonds, as of June 30, 2011 we maintain a liability of approximately \$1 for these obligations.

We believe that it is reasonably possible that the unrecognized tax benefits of \$83.7 will decrease between approximately \$5 and \$10 in the next twelve months based upon the resolution of audits; however, actual developments in this area could differ from those currently expected.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to a variety of market risks, including the effects of changes in foreign currency exchange rates and interest rates. Market risk is the potential loss arising from adverse changes in market rates and prices. Our risk management strategy includes the use of derivative instruments to reduce the effects on our operating results and cash flows from fluctuations caused by volatility in currency exchange and interest rates. In using derivative financial instruments to hedge exposures to changes in exchange rates and interest rates, we expose ourselves to counterparty credit risk. We manage exposure to counterparty credit risk by entering into derivative financial instruments with highly-rated institutions that can be expected to perform fully under the terms of the agreements and by diversifying the number of financial institutions with which we enter into such agreements.

Interest Rate Risk

At June 30, 2011, we had \$104.6 in outstanding variable rate borrowings and \$68.2 in outstanding fixed rate borrowings. The carrying amount of our variable borrowings reflects fair value due to their short-term and variable interest rate features. Based upon our exposure to variable rate borrowings, a one percentage point change in the weighted average interest rate would change our annual interest expense by approximately \$1.

We sometimes use interest rate swaps to hedge our interest rate exposure. These instruments are hedges of the variability of cash flows to be received or paid related to a recognized asset or liability. These contracts are entered into to protect against the risk that the eventual cash flows resulting from such transactions will be adversely affected by changes in interest rates. There were no outstanding interest rate swaps covering interest rate exposure at June 30, 2011.

Foreign Currency Exchange Rate Risk

We serve many of our U.S.-based clients using contact center capacity in the Philippines, India and Canada. Although the contracts with these clients are typically priced in U.S. dollars, a substantial portion of the costs incurred to render services under these contracts are denominated in Philippine pesos (PHP), Indian rupees (INR) or Canadian dollars (CAD), which represents a foreign exchange exposure. As of June 30, 2011, we have hedged a portion of our exposure related to the anticipated cash flow

Table of Contents

requirements denominated in these foreign currencies by entering into forward contracts with several financial institutions to acquire a total of PHP 15,775.2 at a fixed price of \$334.4 through December 2013, INR 6,772.2 at a fixed price of \$146.1 through December 2013 and CAD 7.2 at a fixed price of \$6.8 through December 2011. The fair value of these derivative instruments as of June 30, 2011 is presented in Note 12 of the Notes to Consolidated Financial Statements. The potential loss in fair value at June 30, 2011 for such contracts resulting from a hypothetical 10% adverse change in all foreign currency exchange rates is approximately \$49. This loss would be mitigated by corresponding gains on the underlying exposures.

Other foreign currency exposures arise from transactions denominated in a currency other than the functional currency. We periodically enter into forward exchange contracts that are not designated as hedges. The purpose of these derivative instruments is to protect the Company against foreign currency exposure pertaining to receivables, payables and intercompany transactions that are denominated in currencies different from the functional currencies of the Company or the respective subsidiaries. As of June 30, 2011, the fair value of these derivatives was not material to the Consolidated Balance Sheet.

Critical Accounting Policies and Estimates

See ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations in our annual report for the year ended December 31, 2010 on Form 10-K for a discussion of our critical accounting policies and estimates.

As discussed in our 2010 annual report on Form 10-K for the year ended December 31, 2010, for a very limited number of our arrangements, we have not had sufficient Vendor Specific Objective Evidence (VSOE) of fair value of undelivered elements in multiple-element contracts, principally related to support and maintenance on contracts within our Information Management segment and, to a lesser degree, the Relationship Technology Management line of business within our Customer Management segment. As a result, on these contracts, revenue for the entire arrangement, including license fees, if any, and related professional and consulting fees, has been deferred and recognized over the term of the support and maintenance period. There may be cases in which there is VSOE of fair value of the undelivered item but no such evidence for the delivered items. In these cases, the residual method is used to allocate the arrangement consideration. Under the residual method, the amount of consideration allocated to the delivered items equals the total arrangement consideration less the aggregate VSOE of fair value of the undelivered elements. We evaluated the impact of the adoption of ASU 2009-13, Multiple-Deliverable Revenue Arrangements and have concluded that adoption does not have a material impact to our consolidated results of operations and financial position due to the limited applicability to these types of contracts.

There have been no material changes to our critical accounting policies and estimates in 2011.

ITEM 4. CONTROLS AND PROCEDURES

The Company's Chief Executive Officer and Chief Financial Officer evaluated, together with the Company's General Counsel, Chief Accounting Officer and other key employees, the effectiveness of design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Act)) as of the end of the quarter ended June 30, 2011. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report such that the information required to be disclosed by the Company in the reports that it files or submits under the Act is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure, and are effective to ensure that such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There were no significant changes in the Company's internal control over financial reporting, or in other factors, that occurred during the period covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 1A. RISK FACTORS

See ITEM 1A. Risk Factors in our annual report for the year ended December 31, 2010 on Form 10-K for a discussion of our risk factors. There have been no material changes to our risk factors in 2011.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There were no unregistered sales of equity securities during the second quarter of 2011 or from June 30, 2011 through the date of filing of this report. We repurchased 2.9 million shares of our common stock for \$38.7 during the six months ended June 30, 2011, including 1.5 million shares for \$19.5 during the three months ended June 30, 2011, as summarized in the following table:

	Shares repurchased	Average price per share
January 2011		\$
February 2011	42,809	13.92
March 2011	1,343,495	13.80
April 2011	368,109	13.88
May 2011	338,000	13.78
June 2011	775,570	12.52
Total	2,867,983	\$ 13.46

All repurchases were made pursuant to a publicly announced program. At June 30, 2011, the Company remained authorized under this program to repurchase up to 1.8 million additional common shares.
