FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements, which reflect our current views with respect to, among other things, our operations and financial performance. You can identify these forward-looking statements by the use of words such as outlook, believes, expects, potential, continues, may, will, should, seeks, approximately, predicts, intends, plans, estimates, anticipates these words or other comparable words. Such forward-looking statements are subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. We believe these factors include, but are not limited to, those described under the caption Risk Factors in our Annual Report on Form 10-K and this Quarterly Report on Form 10-Q. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this Quarterly Report on Form 10-Q. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

SPECIAL NOTE REGARDING THE REGISTRANT

In connection with our initial public offering of our Class A common stock in February 2007, we effected a reorganization of our business, which had previously been conducted through HFF Holdings LLC (HFF Holdings) and certain of its wholly-owned subsidiaries, including Holliday Fenoglio Fowler, L.P. and HFF Securities L.P. (together, the Operating Partnerships) and Holliday GP Corp. (Holliday GP). In the reorganization, HFF, Inc., a newly-formed Delaware corporation, purchased from HFF Holdings all of the shares of Holliday GP, which is the sole general partner of each of the Operating Partnerships, and approximately 44.7% of the partnership units in each of the Operating Partnerships (including partnership units in the Operating Partnerships held by Holliday GP) in exchange for the net proceeds from the initial public offering and one share of Class B common stock of HFF, Inc. As of March 31, 2012, HFF Holdings had exchanged an additional approximately 54.9% of the partnership units in each of the Operating Partnerships for shares of Class A common stock of the Company pursuant to the Exchange Right (as defined in this Quarterly Report on Form 10-Q). Following this reorganization, HFF, Inc. became and continues to be a holding company holding partnership units in the Operating Partnerships and all of the outstanding shares of Holliday GP. As of March 31, 2012, HFF, Inc. held approximately 99.6% of the partnership units in the Operating Partnerships. HFF Holdings and HFF, Inc., through their wholly-owned subsidiaries, are the only limited partners of the Operating Partnerships. We refer to these transactions collectively in this Quarterly Report on Form 10-Q as the Reorganization Transactions. Unless we state otherwise, the information in this Quarterly Report on Form 10-Q gives effect to these Reorganization Transactions.

Unless the context otherwise requires, references to (1) HFF Holdings refer solely to HFF Holdings LLC, a Delaware limited liability company that was previously the holding company for our consolidated subsidiaries, and not to any of its subsidiaries, (2) HFF LP refer to Holliday Fenoglio Fowler, L.P., a Texas limited partnership, (3) HFF Securities refer to HFF Securities L.P., a Delaware limited partnership and registered broker-dealer, (4) Holliday GP refer to Holliday GP Corp., a Delaware corporation and the general partner of HFF LP and HFF Securities, (5) HoldCo LLC refer to HFF Partnership Holdings LLC, a Delaware limited liability company and a wholly-owned subsidiary of HFF, Inc., and (6) Holdings Sub refer to HFF LP Acquisition LLC, a Delaware limited liability company and wholly-owned subsidiary of HFF Holdings. Our business operations are conducted by HFF LP and HFF Securities, which are sometimes referred to in this Quarterly Report on Form 10-Q as the Operating Partnerships. Also, except where specifically noted, references in this Quarterly Report on Form 10-Q to the Company, we or us mean HFF, Inc., a Delaware corporation and its consolidated subsidiaries, after giving effect to the Reorganization Transactions.

Notes to Consolidated Financial Statements

1. Organization and Basis of Presentation**Organization**

HFF, Inc., a Delaware corporation (the Company), through its Operating Partnerships, Holliday Fenoglio Fowler, L.P., a Texas limited partnership (HFF LP), and HFF Securities L.P., a Delaware limited partnership and registered broker-dealer (HFF Securities and together with HFF LP, the Operating Partnerships), is a commercial real estate financial intermediary and provides commercial real estate and capital markets services including debt placement, investment sales, structured finance, private equity placements, investment banking and advisory services, loan sales and loan sale advisory services, commercial loan servicing, commercial real estate structured financing placements and capital markets advice in 20 offices in the United States.

Initial Public Offering and Reorganization

The Company was formed in November 2006 in connection with a proposed initial public offering of its Class A common stock. On November 9, 2006, HFF, Inc. filed a registration statement on Form S-1 with the United States Securities and Exchange Commission (the SEC) relating to a proposed underwritten initial public offering of 14,300,000 shares of Class A common stock of HFF, Inc. (the Offering). On January 30, 2007, the SEC declared the registration statement on Form S-1 effective and the Company priced 14,300,000 shares for the initial public offering at a price of \$18.00 per share. On January 31, 2007, the Company's common stock began trading on the New York Stock Exchange under the symbol HF.

The proceeds of the Offering were used to purchase from HFF Holdings LLC, a Delaware limited liability company (HFF Holdings), all of the shares of Holliday GP Corp. and partnership units representing approximately 39% of each of the Operating Partnerships (including partnership units in the Operating Partnerships held by Holliday GP).

On February 21, 2007, the underwriters exercised their option to purchase an additional 2,145,000 shares of Class A common stock (15% of original issuance) at \$18.00 per share. These proceeds were used to purchase HFF Holdings partnership units representing approximately 6.0% of each of the Operating Partnerships. The Company did not retain any of the proceeds from the Offering.

In addition to cash received for its sale of all of the shares of Holliday GP and approximately 45% of partnership units of each of the Operating Partnerships (including partnership units in the Operating Partnerships held by Holliday GP), HFF Holdings also received, through the issuance of one share of HFF, Inc.'s Class B common stock to HFF Holdings, an exchange right that permits HFF Holdings to exchange interests in the Operating Partnerships for shares of (i) HFF, Inc.'s Class A common stock (the Exchange Right) and (ii) rights under a tax receivable agreement between the Company and HFF Holdings. See Notes 13 and 12 for further discussion of the Exchange Right held by the noncontrolling interest holder and tax receivable agreement, respectively.

As a result of the reorganization, the Company became a holding company through a series of transactions pursuant to a sale and purchase agreement. Pursuant to the Offering and reorganization, HFF, Inc.'s sole assets are, through its wholly-owned subsidiary HFF Partnership Holdings, LLC, a Delaware limited liability company (HoldCo LLC), partnership interests of HFF LP and HFF Securities and all of the shares of Holliday GP. The transactions that occurred in connection with the initial public offering and reorganization are referred to as the Reorganization Transactions.

Basis of Presentation

The accompanying consolidated financial statements of HFF, Inc. as of March 31, 2012 and December 31, 2011 and for the three month periods ended March 31, 2012 and March 31, 2011, include the accounts of HFF LP, HFF Securities, and HFF, Inc.'s wholly-owned subsidiaries, Holliday GP and HoldCo LLC. All significant intercompany accounts and transactions have been eliminated.

The purchase of shares of Holliday GP and partnership units in each of the Operating Partnerships are treated as a reorganization under common control for financial reporting purposes. HFF Holdings owned 100% of Holliday GP, HFF LP Acquisition, LLC, a Delaware limited liability company (Holdings Sub), and the Operating Partnerships prior to the Reorganization Transactions. The initial purchase of shares of Holliday GP and the initial purchase of units in the Operating Partnerships were accounted for at historical cost, with no change in basis for financial reporting purposes. Accordingly, the net assets of HFF Holdings purchased by HFF, Inc. are reported in the consolidated financial statements of

HFF, Inc. at HFF Holdings historical cost.

Table of Contents

As the sole stockholder of Holliday GP (the sole general partner of the Operating Partnerships), HFF, Inc. now operates and controls all of the business and affairs of the Operating Partnerships. HFF, Inc. consolidates the financial results of the Operating Partnerships, and the ownership interest of HFF Holdings in the Operating Partnerships is treated as a noncontrolling interest in HFF, Inc.'s consolidated financial statements. HFF Holdings, through its wholly-owned subsidiary (Holdings Sub), and HFF, Inc., through its wholly-owned subsidiaries (HoldCo LLC and Holliday GP), are the only partners of the Operating Partnerships following the Reorganization Transactions.

2. Summary of Significant Accounting Policies

These interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information, the instructions to Quarterly Report on Form 10-Q and Rule 10-01 of Regulation S-X and should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2011. Accordingly, significant accounting policies and disclosures normally provided have been omitted as such items are disclosed therein. In the opinion of management, all adjustments consisting of normal and recurring entries considered necessary for a fair presentation of the results for the interim periods presented have been included. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect reported amounts in the financial statements and accompanying notes. These estimates are based on information available as of the date of the unaudited consolidated financial statements. Therefore, actual results could differ from those estimates. Furthermore, operating results for the three months ended March 31, 2012 are not necessarily indicative of the results expected for the year ending December 31, 2012.

In late 2010, the Company introduced a firm profit participation plan and modified the existing office profit participation plans to allow for the incentive payments to be made either in the form of cash or stock at the election of the Company's board of directors based on achieving various performance metrics. The new and modified plans took effect during 2011. The expense associated with the plans is included within personnel expenses in the consolidated statements of income. The expense recorded for these plans is estimated during the year based on actual results at each interim reporting date and an estimate of future results for the remainder of the year. The plans allow for payments to be made in both cash and share-based awards, the composition of which is determined in the first calendar quarter of the subsequent year. Cash and share-based awards issued under these plans are subject to vesting conditions over the subsequent year, such that the total expense measured for these plans is recorded over the period from the beginning of the performance year through the vesting date. Based on an accounting policy election, the expense associated with the stock component of the estimated incentive payout is recognized before the grant date of the stock due to the fact that the terms of the incentive compensation plans have been approved by the Company's board of directors and the employees of the Company understand the requirements to earn the award. Prior to the grant date, the share-based component-related expense is recorded as incentive compensation expense within personnel expenses in the Company's consolidated statements of income. Following the award, if any, of the related incentive payout, the share-based component expense is reclassified as stock compensation costs within personnel expenses. Additionally, the share-based component of the accrued incentive compensation is reclassified as additional paid-in-capital upon the granting of the awards on the Company's consolidated balance sheets.

3. Stock Compensation

The stock compensation cost that has been charged against income for the three months ended March 31, 2012 and 2011 was \$1.6 million and \$0.6 million, respectively, which is recorded in personnel expenses in the consolidated statements of income. At March 31, 2012, there was approximately \$5.2 million of unrecognized compensation cost related to share based awards. As of March 31, 2012, there were 591,379 restricted stock units outstanding, of which 387,335 units are treated as liability awards and require remeasurement of fair value at the end of each reporting period until settlement. Stock compensation expense related to the liability awards that has been included within income for the three months ended March 31, 2012 and 2011 was \$1.2 million and \$0.5 million, respectively.

During the three months ended March 31, 2012, no options were granted, vested, exercised or forfeited.

During the three month period ending March 31, 2012, 236,897 new restricted stock units were granted, 121,248 restricted stock units vested and were converted to Class A common stock and 5,365 restricted stock units were forfeited. Of the 236,897 new restricted stock units granted during the three month period ending March 31, 2012, \$1.9 million of costs associated with 212,259 of these stock units were recognized in income during 2011 pursuant to the Company's accounting policy election regarding the firm and office profit participation plans as further discussed in Note 2. Additionally, \$1.9 million of the share-based component of the accrued incentive compensation that was paid in the form of restricted shares was reclassified to additional paid-in-capital on the Company's consolidated balance sheets.

The fair value of vested restricted stock units was \$1.5 million at March 31, 2012.

Table of Contents

The weighted average remaining contractual term of the nonvested restricted stock units was 1.6 years as of March 31, 2012.

4. Property and Equipment

Property and equipment consist of the following (dollars in thousands):

	March 31, 2012	December 31, 2011
Furniture and equipment	\$ 4,519	\$ 4,294
Computer equipment	853	852
Capitalized software costs	496	496
Leasehold improvements	7,947	6,617
Subtotal	13,815	12,259
Less accumulated depreciation and amortization	(8,428)	(7,944)
	\$ 5,387	\$ 4,315

At March 31, 2012 and December 31, 2011 the Company has recorded, within furniture and equipment, office equipment under capital leases of \$1.0 million and \$0.8 million, respectively, including accumulated amortization of \$0.3 million and \$0.3 million, respectively, which is included within depreciation and amortization expense in the accompanying consolidated statements of income. See Note 7 for discussion of the related capital lease obligations.

5. Intangible Assets

The Company's intangible assets are summarized as follows (dollars in thousands):

	March 31, 2012			December 31, 2011		
	Gross Carrying Amount	Accumulated Amortization	Net Book Value	Gross Carrying Amount	Accumulated Amortization	Net Book Value
Amortizable intangible assets:						
Mortgage servicing rights	\$ 23,695	\$ (10,128)	\$ 13,567	\$ 22,338	\$ (9,301)	\$ 13,037
Unamortizable intangible assets:						
FINRA license	100		100	100		100
Total intangible assets	\$ 23,795	\$ (10,128)	\$ 13,667	\$ 22,438	\$ (9,301)	\$ 13,137

As of March 31, 2012 and December 31, 2011, the Company serviced \$28.2 billion and \$27.2 billion, respectively, of commercial loans. The Company earned \$3.2 million and \$3.0 million in servicing fees and interest on float and escrow balances for the three month periods ending March 31, 2012 and 2011, respectively. These revenues are recorded as capital markets services revenues in the consolidated statements of income.

The total commercial loan servicing portfolio includes loans for which there are no corresponding mortgage servicing rights recorded on the balance sheet, as these servicing rights were assumed prior to January 1, 2007 and involved no initial consideration paid by the Company. The Company recorded mortgage servicing rights of \$13.6 million and \$13.0 million on \$20.0 billion and \$18.7 billion, respectively, of the total loans serviced as of March 31, 2012 and December 31, 2011.

The Company stratifies its servicing portfolio based on the type of loan, including life company loans, commercial mortgage backed securities (CMBS), Freddie Mac and limited-service life company loans.

Edgar Filing: HFF, Inc. - Form 10-Q

Mortgage servicing rights do not trade in an active, open market with readily-available observable prices. Since there is no ready market value for the mortgage servicing rights, such as quoted market prices or prices based on sales or purchases of similar assets, the Company determines the fair value of the mortgage servicing rights by estimating the present value of future cash flows associated with the servicing of the loans. Management makes certain assumptions and judgments in estimating the fair value of servicing rights, including the benefits of servicing (contractual servicing fees and interest on escrow and float balances), the cost of servicing, prepayment rates (including risk of default), an inflation rate, the expected life of the cash flows and the discount rate. The significant assumptions utilized to value servicing rights as of March 31, 2012 and 2011 are as follows:

Table of Contents

	As of March 31,	
	2012	2011
Expected life of cash flows	3 years to 10 years	3 years to 10 years
Discount rate (1)	15% to 20%	15% to 20%
Prepayment rate	0% to 8%	0% to 8%
Inflation rate	2%	2%
Cost of service per loan	\$1,600 to \$3,983	\$1,600 to \$3,800

(1) Reflects the time value of money and the risk of future cash flows related to the possible cancellation of servicing contracts, transferability restrictions on certain servicing contracts, concentration in the life company portfolio and large loan risk.

The above assumptions are subject to change based on management's judgments and estimates of future changes in the risks related to future cash flows and interest rates. Changes in these factors would cause a corresponding increase or decrease in the prepayment rates and discount rates used in the Company's valuation model.

Changes in the carrying value of mortgage servicing rights for the three month periods ended March 31, 2012 and 2011, and the fair value at the end of each period were as follows (dollars in thousands):

Category	12/31/11	Capitalized	Amortized	Sold / Transferred	3/31/12	FV at 3/31/12
Freddie Mac	\$ 6,126	\$ 958	\$ (353)	\$ (447)	\$ 6,284	\$ 6,502
CMBS	5,273	157	(265)	356	5,521	6,515
Life company	1,492	243	(217)		1,518	1,657
Life company limited	146	121	(23)		244	306
Total	\$ 13,037	\$ 1,479	\$ (858)	\$ (91)	\$ 13,567	\$ 14,980

Category	12/31/10	Capitalized	Amortized	Sold / Transferred	3/31/11	FV at 3/31/11
Freddie Mac	\$ 6,190	\$ 1,127	\$ (325)	\$ (475)	\$ 6,517	\$ 7,226
CMBS	3,232	116	(156)	385	3,577	4,166
Life company	900	172	(153)		919	975
Life company limited	91	8	(20)		79	131
Total	\$ 10,413	\$ 1,423	\$ (654)	\$ (90)	\$ 11,092	\$ 12,498

Amounts capitalized represent mortgage servicing rights retained upon the sale of originated loans to Freddie Mac and mortgage servicing rights acquired without the exchange of initial consideration. The Company recorded mortgage servicing rights retained upon the sale of originated loans to Freddie Mac of \$1.0 million and \$1.1 million on \$337.0 million and \$402.2 million of loans, respectively, during the three month periods ending March 31, 2012 and 2011, respectively. The Company recorded mortgage servicing rights acquired without the exchange of initial consideration of \$0.5 million and \$0.3 million on \$1.4 billion and \$812.0 million of loans, respectively, during the three month periods ending March 31, 2012 and 2011, respectively. During the three months ending March 31, 2012 and 2011, the Company sold the cashiering portion of certain Freddie Mac mortgage servicing rights. While the Company transferred the risks and rewards of ownership of the cashiering portion of the mortgage servicing rights, the Company continues to perform limited servicing activities on these loans for a reduced market-based fee. Therefore, the remaining servicing rights were transferred to the CMBS servicing tranche. The net result of these transactions was the Company recording a gain in the three months ending March 31, 2012 and 2011 of \$0.4 million and \$0.8 million, respectively, within interest and other income, net in the consolidated statements of income. The Company also received securitization compensation in relation to the sale of the cashiering portion of certain Freddie Mac mortgage servicing rights in the three ending March 31, 2012 and 2011 of \$0.4 million and \$0.4 million, respectively. The securitization compensation is recorded within interest and other income, net in the consolidated statements of income.

Edgar Filing: HFF, Inc. - Form 10-Q

Amortization expense related to intangible assets was \$0.9 million and \$0.7 million during the three month periods ended March 31, 2012 and 2011, respectively, and is recorded in depreciation and amortization in the consolidated statements of income.

Table of Contents

Estimated amortization expense for the next five years is as follows (dollars in thousands):

Remainder of 2012	\$ 2,591
2013	3,011
2014	2,446
2015	1,811
2016	1,498
2017	1,130

The weighted-average life of the mortgage servicing rights intangible asset was 5.7 years at March 31, 2012.

6. Fair Value Measurement

The Company adopted ASC 820 as of January 1, 2008. ASC 820 establishes a valuation hierarchy for disclosure of the inputs to valuation used to measure fair value. This hierarchy prioritizes the inputs into the following three levels: Level 1 inputs which are quoted market prices in active markets for identical assets or liabilities; Level 2 inputs which are observable market-based inputs or unobservable inputs corroborated by market data for the asset or liability; and Level 3 inputs which are unobservable inputs based on management's assumptions that are not corroborated by market data. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

As of March 31, 2012, the Company did not have any assets or liabilities recognized at fair value on a recurring basis.

In accordance with generally accepted accounting principles, from time to time, the Company measures certain assets at fair value on a nonrecurring basis. These assets may include mortgage servicing rights and mortgage notes receivable. The mortgage servicing rights are recorded at fair value upon initial recording and were not re-measured at fair value during the first quarter of 2012 as the Company continues to utilize the amortization method under ASC 860 and the fair value of the mortgage servicing rights exceeds the carrying value at March 31, 2012. See Note 5 for further discussion on the assumptions used in valuing the mortgage servicing rights and impact on earnings during the period. The fair value of the mortgage notes receivable was based on prices observable in the market for similar loans and equaled carrying value at March 31, 2012. Therefore, no lower of cost or fair value adjustment was required.

7. Capital Lease Obligations and Letters of Credit*(a) Capital Lease Obligations*

Capital lease obligations consist of the following at March 31, 2012 and December 31, 2011 (dollars in thousands):

	March 31, 2012	December 31, 2011
Capital lease obligations	\$ 667	\$ 569
Less current maturities	316	269
	\$ 351	\$ 300

Capital lease obligations consist primarily of office equipment leases that expire at various dates through February 2017. A summary of future minimum lease payments under capital leases at March 31, 2012 is as follows (dollars in thousands):

Remainder of 2012	\$ 238
2013	248
2014	148

Edgar Filing: HFF, Inc. - Form 10-Q

2015	16
2016	12
2017	5
	\$ 667

Table of Contents**(b) Letters of Credit**

At each March 31, 2012 and December 31, 2011, the Company had one outstanding letter of credit of approximately \$0.1 million as security for one lease. The Company segregated the cash in a separate bank account to collateralize the letter of credit. The letter of credit expires in October 2012, however, the underlying lease to which this letter of credit relates was terminated in March 2012 and the letter of credit is anticipated to be released and funds returned to the Company in the second quarter of 2012.

8. Warehouse Line of Credit

HFF LP maintains two uncommitted warehouse revolving lines of credit for the purpose of funding the Freddie Mac mortgage loans that it originates in connection with its services as a Freddie Mac Multifamily Program Plus® Seller/Service. On April 23, 2012, HFF LP entered into a fourth amended and restated line of credit with The Huntington Bank (Huntington) which provides for an additional \$25 million of availability (\$100 million in total), upon election of the Company, for a four consecutive month period commencing after June 30, 2012 and ending no later than December 31, 2012. During December 2009, HFF LP also entered into an agreement with PNC Bank, N.A. (PNC) to replace a separate predecessor warehouse revolving line of credit. HFF LP's line of credit with PNC provided \$175 million of availability. In May 2011, availability under the PNC line increased to \$250 million.

Each funding is separately approved on a transaction-by-transaction basis and is collateralized by a loan and mortgage on a multifamily property that is ultimately purchased by Freddie Mac. As of March 31, 2012 and December 31, 2011, HFF LP had \$139.1 million and \$154.4 million, respectively, outstanding on the warehouse lines of credit and a corresponding amount of mortgage notes receivable. Interest on the warehouse lines of credit is at the 30-day LIBOR rate (0.24% and 0.28% at March 31, 2012 and December 31, 2011, respectively) plus a spread. HFF LP is also paid interest on its loan secured by a multifamily loan at the rate in the Freddie Mac note.

9. Lease Commitments

The Company leases various corporate offices and office equipment under noncancelable operating leases. These leases have initial terms of one to ten years. Several of the leases have termination clauses whereby the term may be reduced by two to seven years upon prior notice and payment of a termination fee by the Company. Total rental expense charged to operations was \$1.4 million and \$1.5 million during the three month periods ended March 31, 2012 and 2011, respectively and is recorded within occupancy expense in the consolidated statements of income.

Future minimum rental payments for the next five years under operating leases with noncancelable terms in excess of one year and without regard to early termination provisions are as follows (dollars in thousands):

Remainder of 2012	\$ 4,038
2013	5,437
2014	4,288
2015	3,498
2016	2,781
2017	2,165
Thereafter	4,900
	\$ 27,107

The Company subleases certain office space to subtenants, which subleases may be canceled at any time. The rental income received from these subleases is included as a reduction of occupancy expenses in the accompanying consolidated statements of income.

The Company also leases certain office equipment under capital leases that expire at various dates through 2017. See Note 4 and Note 7 above for further description of the assets and related obligations recorded under these capital leases at March 31, 2012 and December 31, 2011, respectively.

10. Servicing

Edgar Filing: HFF, Inc. - Form 10-Q

The Company services commercial real estate loans for investors. The unpaid principal balance of the servicing portfolio totaled \$28.2 billion and \$27.2 billion at March 31, 2012 and December 31, 2011, respectively.

Table of Contents

In connection with its servicing activities, the Company holds funds in escrow for the benefit of mortgagors for hazard insurance, real estate taxes and other financing arrangements. At March 31, 2012 and December 31, 2011, the funds held in escrow totaled \$106.5 million and \$126.6 million, respectively. These funds, and the offsetting liabilities of the borrowers to external parties, are not presented in the Company's consolidated financial statements as they do not represent the assets and liabilities of the Company. Pursuant to the requirements of the various investors for which the Company services loans, the Company maintains bank accounts, holding escrow funds, which have balances in excess of the FDIC insurance limit. The fees earned on these escrow funds are reported in capital markets services revenue in the consolidated statements of income.

11. Legal Proceedings

The Company is party to various litigation matters, in most cases involving ordinary course and routine claims incidental to its business. The Company cannot estimate with certainty its ultimate legal and financial liability with respect to any pending matters. In accordance with ASC 450, *Contingencies*, a reserve for estimated losses is recorded when the amount is probable and can be reasonably estimated. However, the Company does not believe, based on examination of such pending matters, that a material loss related to these matters is reasonably possible.

12. Income Taxes

Income tax expense includes current and deferred taxes as follows (dollars in thousands):

	Current	Deferred	Total
Three Months Ended March 31, 2012:			
Federal	\$	\$ 1,882	\$ 1,882
State	42	253	295
	\$ 42	\$ 2,135	\$ 2,177
Three Months Ended March 31, 2011:			
Federal	\$	\$ 2,497	\$ 2,497
State	78	246	324
	\$ 78	\$ 2,743	\$ 2,821

The reconciliation between the income tax computed by applying the U.S. federal statutory rate and the effective tax rate on net income is as follows for the three months ended March 31, 2012 and 2011 (dollars in thousands):

	March 31, 2012	March 31, 2011
Pre-tax book income	\$ 5,574	\$ 7,168
Less: pre-tax income allocated to noncontrolling interest holder	122	300
Pre-tax book income after noncontrolling interest	\$ 5,452	\$ 6,868

Table of Contents

Income tax expense / (benefit)	March 31,		2011	
	2012	Rate		Rate
Taxes computed at federal rate	\$ 1,908	35.0%	\$ 2,404	35.0%
State and local taxes, net of federal tax benefit	228	4.2%	321	4.7%
Change in income tax benefit payable to stockholder	(3)	(0.1)%		0.0%
Stock compensation		0.0%	41	0.6%
Meals and entertainment	43	0.8%	49	0.7%
Other	1	0.0%	6	0.1%
Income tax expense	\$ 2,177	39.9%	\$ 2,821	41.1%

Total income tax expense recorded for the three months ended March 31, 2012 and 2011 included income tax expense of \$1,000 and \$3,000, respectively, of state and local taxes on income allocated to the noncontrolling interest holder, which represents 0.02% and 0.04% of the total effective rate, respectively.

Deferred income tax assets and liabilities consist of the following at March 31, 2012 and December 31, 2011 (dollars in thousands):

	March 31, 2012	December 31, 2011
Deferred income tax assets:		
Section 754 election tax basis step-up	\$ 179,534	\$ 176,365
Tenant improvements	2,036	1,882
Net operating loss carryforward	4,386	1,144
Restricted stock units	1,898	1,144
Compensation	992	4,369
Intangible asset	162	857
Tax credits	123	123
Other	343	205
	189,474	186,089
Less: valuation allowance	(22,525)	(21,902)
Deferred income tax asset	166,949	164,187
Deferred income tax liabilities:		
Goodwill	(1,278)	(1,248)
Servicing rights	(5,151)	(4,829)
Deferred rent	(1,625)	(1,473)
Investment in partnership	(174)	(857)
Deferred income tax liability	(8,228)	(8,407)
Net deferred income tax asset	\$ 158,721	\$ 155,780

The primary deferred tax asset represents a tax basis step-up election under Section 754 of the Internal Revenue Code (Section 754) made by HFF, Inc. relating to the initial purchase of units of the Operating Partnerships in connection with the Reorganization Transactions and a tax basis step-up on subsequent exchanges of Operating Partnership units for shares of the Company's Class A common stock since the date of the Reorganization Transactions. As a result of the step-up in basis from these transactions, the Company is entitled to annual future tax benefits in the form of amortization for income tax purposes. During the three month period ending March 31, 2012, the deferred tax asset for the Section 754 election tax basis step-up increased \$5.1 million due to the exchanges of Operating Partnership units for the Company's Class A common stock. The annual pre-tax benefit is approximately \$26.3 million at March 31, 2012 and will increase as future exchanges of Operating Partnership units occur (see Note 13). To the extent that the Company does not have sufficient taxable income in a year to fully utilize this annual deduction, the unused benefit is recharacterized as a net operating loss and can then be carried back three years or carried forward for twenty years. The Company measured the deferred tax asset based on the estimated income tax effects of the increase in the tax basis of the assets owned by the Operating Partnerships utilizing the enacted tax rates at the date of the transaction. In accordance with ASC topic 740,

Edgar Filing: HFF, Inc. - Form 10-Q

Income Taxes (ASC 740), the tax effects of transactions with stockholders that result in changes in the tax basis of a company's assets and liabilities are recognized in equity. The Company recorded a valuation allowance on a portion of the recognized deferred tax assets recorded in connection with the Reorganization Transactions and the subsequent exercise of exchange rights due to the uncertainty in the timing and level of tax benefits that would be realized when payments are made to HFF Holdings under the tax receivable agreement (see further discussion below). Changes in the measurement of the deferred tax assets or the valuation allowance due to changes in the enacted tax rates upon the finalization of the income tax returns for the year of the exchange transaction will be recorded in equity. All subsequent changes in the measurement of the deferred tax assets due to changes in the enacted tax rates or changes in the valuation allowance are recorded as a component of income tax expense.

Table of Contents

In evaluating the realizability of the deferred tax assets, management makes estimates and judgments regarding the level and timing of future taxable income, including projecting future revenue growth and changes to the cost structure. In order to realize the annual pre-tax benefit of approximately \$26.3 million, the Company needs to generate approximately \$169.0 million in revenue each year, assuming a constant cost structure. In the event that the Company cannot realize the annual pre-tax benefit of \$26.3 million each year, the shortfall becomes a net operating loss that can be carried back three years to offset prior years' taxable income or carried forward twenty years to offset future taxable income. Based on this analysis and other quantitative and qualitative factors, management believes that it is currently more likely than not that the Company will be able to generate sufficient taxable income to realize the net deferred tax assets resulting from the basis step up transactions (initial sale of units in the Operating Partnerships and subsequent exchanges of Operating Partnership units since the date of the Reorganization Transactions). Deferred tax assets representing the tax benefits to be realized when future payments are made to HFF Holdings under the tax receivable agreement of \$22.5 million are currently not more likely than not to be realized and, therefore, have a valuation allowance of \$22.5 million recorded against them. The combined federal and state tax effected net operating loss carryforwards of \$4.4 million at March 31, 2012 represent the cumulative excess of the Section 754 annual tax deductions over taxable income for the three month period ending March 31, 2012 and prior years. A portion of the net operating loss of \$4.4 million is subject to limitation under Section 382 of the Internal Revenue Code. The limitation on the use of the net operating loss in 2012 is \$1.1 million, which can be used in future years. The net operating loss limitation does not impact the Company's ability to fully utilize the net operating loss before its expiration. The federal net operating loss carryforwards expire from 2028 through 2030, while the state net operating loss carryforwards expire from 2013 through 2030.

The Company will recognize interest and penalties related to unrecognized tax benefits in interest and other income, net in the consolidated statements of income. There were no interest or penalties recorded in the three month periods ending March 31, 2012 and 2011.

Tax Receivable Agreement

In connection with the Reorganization Transactions, HFF LP and HFF Securities made an election under Section 754 for 2007 and intend to keep that election in effect for each taxable year in which an exchange of partnership units for shares occurs. The initial sale as a result of the Offering and subsequent exchanges of Operating Partnership units for shares of Class A common stock produced (and future exchanges may produce) increases in the tax basis of the assets owned by HFF LP and HFF Securities to their fair market value. This increase in tax basis allows the Company to reduce the amount of tax payments to the extent that the Company has taxable income. During the three month period ending March 31, 2012, the deferred tax asset for the Section 754 election tax basis step-up increased \$5.1 million due to the exchanges of Operating Partnership units for the Company's Class A common stock. As a result of the increase in tax basis, the Company is entitled to future tax benefits of \$179.5 million and has recorded this amount as a deferred tax asset on its consolidated balance sheet. The Company has updated its estimate of these future tax benefits based on the changes to the estimated annual effective tax rate for 2011. The Company is obligated, however, pursuant to its tax receivable agreement with HFF Holdings, to pay to HFF Holdings 85% of the amount of cash savings in U.S. federal, state and local income tax that the Company actually realizes as a result of these increases in tax basis and as a result of certain other tax benefits arising from the Company entering into the tax receivable agreement and making payments under that agreement. For purposes of the tax receivable agreement, actual cash savings in income tax is computed by comparing the Company's actual income tax liability to the amount of such taxes that it would have been required to pay had there been no increase to the tax basis of the assets of HFF LP and HFF Securities as a result of the initial sale and later exchanges had the Company not entered into the tax receivable agreement.

The Company accounts for the income tax effects and corresponding tax receivable agreement effects as a result of the initial purchase and the sale of units of the Operating Partnerships in connection with the Reorganization Transactions and subsequent exchanges of Operating Partnership units for the Company's Class A shares by recognizing a deferred tax asset for the estimated income tax effects of the increase in the tax basis of the assets owned by the Operating Partnerships, based on enacted tax rates at the date of the transaction, less any tax valuation allowance the Company believes is required. In accordance with ASC 740, the tax effects of transactions with stockholders that result in changes in the tax basis of a company's assets and liabilities will be recognized in equity. If transactions with stockholders result in the recognition of deferred tax assets from changes in the Company's tax basis of assets and liabilities, the valuation allowance initially required upon recognition of these deferred assets will be recorded in equity. Subsequent changes in enacted tax rates or any valuation allowance are recorded as a component of income tax expense.

Table of Contents

The Company believes it is more likely than not that it will realize a portion of the benefit represented by the deferred tax asset, and, therefore, the Company recorded 85% of this estimated amount of the increase in deferred tax assets as a liability to HFF Holdings under the tax receivable agreement and the remaining 15% of the increase in deferred tax assets directly in additional paid-in capital in stockholders' equity. However, due to uncertainties of timing and amounts of payments, deferred tax assets representing the tax benefits to be realized when future payments are made to HFF Holdings under the tax receivable agreement are currently not more likely than not to be realized and, therefore, have a valuation allowance of \$22.5 million recorded against them.

While the actual amount and timing of payments under the tax receivable agreement depends upon a number of factors, including the amount and timing of taxable income generated in the future, changes in future tax rates, the value of individual assets, the portion of the Company's payments under the tax receivable agreement constituting imputed interest and increases in the tax basis of the Company's assets resulting in payments to HFF Holdings, the Company has estimated that the future payments that will be made to HFF Holdings will be \$154.1 million, and has recorded this obligation to HFF Holdings as a liability on the consolidated balance sheet. In addition, during the year ended December 31, 2011, the tax rates used to measure the deferred tax assets were updated, which resulted in an increase of deferred tax assets of \$4.8 million, which in turn resulted in an increase in the payable under the tax receivable agreement of \$4.0 million. To the extent the Company does not realize all of the tax benefits in future years, this liability to HFF Holdings may be reduced.

In conjunction with the filing of the Company's 2010 federal and state tax returns, the benefit for 2010 relating to the Section 754 basis step-up was finalized resulting in \$7.4 million tax benefits being realized by the Company for 2010. As discussed above, the Company is obligated to remit to HFF Holdings 85% of any such cash savings in federal and state tax. As such, during the third quarter of 2011 the Company paid \$6.3 million to HFF Holdings under the tax receivable agreement. As of March 31, 2012, the Company has made payments to HFF Holdings pursuant to the terms of the tax receivable agreement in an aggregate amount of approximately \$13.8 million and the Company anticipates to make a payment of \$17.9 million to HFF Holdings in 2012.

13. Noncontrolling Interest

Noncontrolling interest recorded in the consolidated financial statements of HFF, Inc. relates to the ownership interest of HFF Holdings in the Operating Partnerships. As a result of the Reorganization Transactions discussed in Note 1, partners' capital was eliminated from equity and noncontrolling interest of \$6.4 million was recorded representing HFF Holdings' remaining interest in the Operating Partnerships following the initial public offering and the underwriters' exercise of the overallotment option on February 21, 2007, along with HFF Holdings' proportional share of net income earned by the Operating Partnerships subsequent to the change in ownership. As discussed in Note 1, HFF, Inc. is a holding company and, as such, does not generate income other than through its proportional share of net income earned by the Operating Partnerships. However, HFF, Inc. does incur certain costs which are not allocated or shared with the Operating Partnerships or their direct or indirect partners (including HFF Holdings) and, therefore, the net income as shown on the consolidated statements of income is not proportionately shared between the noncontrolling interest holder and the controlling interest holder.

As a result of the Reorganization Transactions, HFF Holdings beneficially owned 20,355,000 partnership units in each of the Operating Partnerships. Pursuant to the terms of HFF, Inc.'s amended and restated certificate of incorporation, HFF Holdings can from time to time exchange its partnership units in the Operating Partnerships for shares of the Company's Class A common stock on the basis of two partnership units, one for each Operating Partnership, for one share of Class A common stock, subject to customary conversion rate adjustments for stock splits, stock dividends and reclassifications.

The table below sets forth the noncontrolling interest amount recorded for the three month periods ended March 31, 2012 and 2011, which includes the exchanges 845,947 and 1,113,691 partnership units in each of the Operating Partnerships by members of HFF Holdings for an equal amount of shares of Class A common stock during the three month periods ending March 31, 2012 and 2011, respectively. (dollars in thousands).

	Three months ended March 31,	
	2012	2011
Net income from Operating Partnerships	\$ 6,124	\$ 7,753
Noncontrolling interest ownership percentage	(A)	(B)
Noncontrolling interest	\$ 121	\$ 298

Table of Contents

- (A) During the three months ending March 31, 2012, the ownership of the Operating Partnerships changed due to the exercise of the Exchange Right by members of HFF Holdings. HFF Holdings' ownership percentage in the Operating Partnerships was 2.7% during January and February 2012 and 0.4% during March 2012.
- (B) During the three months ending March 31, 2011, the ownership of the Operating Partnerships changed due to the exercise of the Exchange Right by members of HFF Holdings. HFF Holdings' ownership percentage in the Operating Partnerships was 5.8% during January and February 2011 and 2.8% during March 2011.

Under the terms of the Exchange Right put in place in connection with the Reorganization Transactions, beginning in February 2009, HFF Holdings had the right to exchange 25% of its partnership units, with an additional 25% becoming available for exchange each year thereafter. However, these contractual provisions could be waived, amended or terminated by the members of HFF Holdings following consultation with the Company's board of directors.

In June 2010, following consultation with the Company's board of directors, the members of HFF Holdings agreed to modify the Exchange Right so as to permit certain participating members of HFF Holdings who voluntarily agreed to certain conditions to exchange in June 2010 all of their respective HFF Holdings' partnership units in the Operating Partnerships that corresponded to such participating members' interests in HFF Holdings for shares of Class A common stock. The participating members of HFF Holdings were then entitled to redeem all of their respective membership units in HFF Holdings for such shares of Class A common stock. This modification was conditioned upon each participating member's agreement to extend the term of his or her existing non-competition and non-solicitation agreement to March 2015 and the imposition of resale restrictions on a portion of his or her shares of Class A common stock received pursuant to the Exchange Right exercise. The shares of Class A common stock subject to the resale restrictions equal 4,020,640 shares in the aggregate, which is equal to 25% of the original number of shares of Class A common stock that such participating members would have received following an exchange of 100% of the membership units in HFF Holdings that they each held at the time of the initial public offering. The voluntarily-imposed restrictions will begin to be released in March 2013. In March 2013, 33%, or approximately 1.34 million, of such restricted shares of Class A common stock will be eligible to be freely sold, with a like amount of such restricted shares of Class A common stock becoming eligible to be freely sold in each of March 2014 and March 2015. The contractual provisions setting forth these new resale restrictions can be waived, amended or terminated by the members of HFF Holdings following consultation with the Company's board of directors. Members choosing not to participate in the modification of the Exchange Right continued to be subject to their existing non-competition and non-solicitation agreements and the Exchange Right restrictions, which were the same agreements and restrictions put in place at the time of the initial public offering.

Twenty-nine members, including the four inside directors of the Company, representing approximately 91% of the voting equity interests in HFF Holdings, elected to become subject to the conditions described above. On June 30, 2010, HFF Holdings exchanged all of its partnership units in the Operating Partnerships that corresponded to twenty-nine participating members' interests in HFF Holdings for shares of Class A common stock. These shares were then distributed to such participating members upon the members' redemption of their respective membership units in HFF Holdings.

Nine members, representing approximately 9% of the voting equity interests in HFF Holdings, elected not to become subject to the conditions described above. HFF Holdings' partnership units in the Operating Partnerships that correspond to these members' interests in HFF Holdings continue to be subject to the Exchange Right restrictions put in place at the time of the Company's initial public offering.

The following table reflects the exchangeability of HFF Holdings' rights to exchange its partnership units in the Operating Partnerships for shares of the Company's Class A common stock, pursuant to contractual provisions in the HFF Holdings operating agreement. However, as in the case in June 2010, these contractual provisions may be waived, amended or terminated by a vote of the members holding 65% of the interests of HFF Holdings following consultation with the Company's board of directors. Notwithstanding the foregoing, HFF, Inc.'s amended and restated certificate of incorporation provides that no holder of Operating Partnership units is entitled to exchange its Operating Partnership units for shares of Class A common stock if such exchange would be prohibited under applicable federal or state securities laws or regulations.

Table of Contents

Exchangeability Date:	Original Exchange Rights Following the Reorganization Transactions		Reflects the June 2010 Modification of the Exchange Rights		
	Number of HFF Holdings Partnership Units in the Operating Partnerships Available for Exchange as a result of the Reorganization Transactions	Percentage of HFF Holdings Partnership Units in the Operating Partnerships Eligible for Exchange	Number of HFF Holdings Partnership Units exchanged for shares of Class A Common Stock Exchanged Through March 31, 2012	Number of Additional HFF Holdings Partnership Units Available for Exchange	Percentage of HFF Holdings Remaining Partnership Units in the Operating Partnerships Eligible for Exchange
January 31, 2009	5,088,750	25%	5,088,750		0%
January 31, 2010	5,088,750	25%	5,088,750		0%
January 31, 2011	5,088,750	25%	5,063,307	25,443	17%
January 31, 2012	5,088,750	25%	4,963,051	125,699	83%
Total	20,355,000	100%	20,203,858	151,142	100%

On September 30, 2009, a Registration Statement on Form S-3 relating to the offering and sale from time to time by the members of HFF Holdings of such 20,355,000 shares of Class A common stock became effective. At March 31, 2012, 20,203,858 partnership units in each of the Operating Partnerships beneficially owned by members of HFF Holdings immediately following the Reorganization Transactions had been exchanged for an equal amount of shares of HFF, Inc.'s Class A common stock pursuant to the Exchange Right. After giving effect to these changes, HFF Holdings owned 0.4% of the Operating Partnerships at March 31, 2012.

If all of the remaining partnership units held by HFF Holdings were exchanged for shares of Class A common stock of HFF, Inc. on March 31, 2012, 151,142 shares of Class A common stock with a fair value of \$2.5 million would be issued and 37,063,042 shares of Class A common stock would be outstanding.

On April 30, 2012, HFF Holdings exchanged 6,000 partnership units for 6,000 shares of the Company's Class A common stock. After giving effect to such exchange, HFF Holdings' ownership percentage in the Operating Partnerships was approximately 0.4%, or 145,142 partnership units.

As a result of the Reorganization Transactions, HFF Holdings was issued one share of the Company's Class B common stock. Class B common stock has no economic rights but entitles the holder to a number of votes that is equal to the total number of shares of Class A common stock for which the partnership units that HFF Holdings holds in the Operating Partnerships are exchangeable.

14. Stockholders Equity

The Company is authorized to issue 175,000,000 shares of Class A common stock, par value \$0.01 per share, and one share of Class B common stock, par value \$0.01 per share. Each share of Class A common stock entitles its holder to one vote on all matters to be voted on by stockholders generally. HFF Holdings has been issued one share of Class B common stock. Class B common stock has no economic rights but entitles the holder to a number of votes equal to the total number of shares of Class A common stock for which the partnership units that HFF Holdings holds in the Operating Partnerships, as of the relevant record date for the HFF, Inc. stockholder action, are exchangeable. Holders of Class A and Class B common stock vote together as a single class on all matters presented to our stockholders for their vote or approval. The Company had issued 37,069,517 and 36,102,322 shares of Class A common stock and 1 share of Class B common stock as of March 31, 2012 and December 31, 2011, respectively.

Table of Contents**15. Earnings Per Share**

The Company's net income and weighted average shares outstanding for the three month periods ended March 31, 2012 and 2011 consist of the following (dollars in thousands):

	Three months ended March 31,	
	2012	2011
Net income	\$ 3,397	\$ 4,347
Net income attributable to controlling interest	\$ 3,276	\$ 4,049
Weighted Average Shares Outstanding:		
Basic	36,397,626	35,302,523
Diluted	36,503,759	35,524,352

The calculations of basic and diluted net income per share amounts for the three month periods ended March 31, 2012 and 2011 are described and presented below.

Basic Net Income per Share

Numerator net income attributable to controlling interest for the three month periods ended March 31, 2012 and 2011, respectively.

Denominator the weighted average shares of Class A common stock for the three month periods ended March 31, 2012 and 2011, including 90,833 and 78,803 restricted stock units that have vested and whose issuance is no longer contingent as of March 31, 2012 and March 31, 2011, respectively.

Diluted Net Income per Share

Numerator net income attributable to controlling interest for the three month periods ended March 31, 2012 and 2011 as in the basic net income per share calculation described above plus income allocated to noncontrolling interest holder upon assumed exercise of the Exchange Right.

Denominator the weighted average shares of Class A common stock for the three month periods ended March 31, 2012 and 2011, including 90,833 and 78,803 restricted stock units that have vested and whose issuance is no longer contingent as of March 31, 2012 and March 31, 2011, respectively, plus the dilutive effect of the unvested restricted stock units, stock options, and the issuance of Class A common stock upon exercise of the Exchange Right by HFF Holdings.

Table of Contents

	Three months ended March 31,	
	2012	2011
Basic Earnings Per Share of Class A Common Stock		
Numerator:

Add dilutive effect of:		
Unvested restricted stock units	89,679	204,740
Stock options	16,454	17,089
Noncontrolling interest holder Exchange Right		
Weighted average common shares outstanding diluted	36,503,759	36,546,885
Diluted earnings per share of Class A common stock	\$ 0.09	\$ 0.11

16. Related Party Transactions

The Company made payments on behalf of two affiliates of \$5,909 and \$275, respectively, during the three month period ended March 31, 2012. The Company made payments on behalf of two affiliates of \$896 and \$761, respectively, during the three month period ended March 31, 2011. The Company had a net receivable from affiliates of approximately \$229,000 and \$223,000 at March 31, 2012 and December 31, 2011, respectively.

As a result of the Company's initial public offering, the Company entered into a tax receivable agreement with HFF Holdings that provides for the payment by the Company to HFF Holdings of 85% of the amount of the cash savings in U.S. federal, state and local income tax that the Company actually realizes as a result of the increase in tax basis of the assets owned by HFF LP and HFF Securities and as a result of certain other tax benefits arising from entering into the tax receivable agreement and making payments under that agreement. As members of HFF Holdings, each of John Pelusi, the Company's chief executive officer, John Fowler, Mark Gibson and Jody Thornton, each a member of the Company's board of directors and a transaction professional of the Operating Partnerships, is entitled to participate in such payments, in each case on a pro rata basis based upon such person's ownership of interests in each series of tax receivable payments created by the initial public offering or subsequent exchange of Operating Partnership units. During the third quarter of 2011, Messrs. Pelusi, Fowler, Gibson and Thornton received payments of \$0.5 million, \$0.4 million, \$0.5 million and \$0.5 million in connection with the Company's payment of \$6.3 million to HFF Holdings under the tax receivable agreement. The Company retains the remaining 15% of cash savings in income tax that it realizes. For purposes of the tax receivable agreement, cash savings in income tax is computed by comparing the Company's actual income tax liability to the amount of such taxes that it would have been required to pay had there been no increase to the tax basis of the assets of HFF LP and HFF Securities allocable to the Company as a result of the initial sale and later exchanges and had the Company not entered into the tax receivable agreement. The term of the tax receivable agreement commenced upon consummation of the offering and will continue until all such tax benefits have been utilized or have expired. See Note 12 for further information regarding the tax receivable agreement and Note 17 for the amount recorded in relation to this agreement.

In August 2011, certain members of HFF Holdings, including Messrs. Pelusi, Fowler, Gibson and Thornton, completed a secondary public offering of 4,047,472 shares of the Company's Class A common stock at a public offering price of \$13.50 per share. The Company did not receive any proceeds from the sale of shares in the offering but did pay expenses of approximately \$0.3 million in connection with the offering.

Table of Contents

17. Commitments and Contingencies

The Company is obligated, pursuant to its tax receivable agreement with HFF Holdings, to pay to HFF Holdings 85% of the amount of cash savings in U.S. federal, state and local income tax that the Company actually realizes as a result of the increases in tax basis under Section 754 and as a result of certain other tax benefits arising from the Company entering into the tax receivable agreement and making payments under that agreement. The Company has recorded \$154.1 million for this obligation to HFF Holdings as a liability on the consolidated balance sheet as of March 31, 2012.

In recent years, the Company has entered into arrangements with newly-hired producers whereby these producers would be paid additional compensation if certain performance targets are met over a defined period. Some of these agreements contain provisions that the payments will be made to the producers only if they enter into an employment agreement at the end of the performance period. Payments under these arrangements, if earned, would be paid in fiscal years 2012 through 2014. The Company begins to accrue for these payments when it is deemed probable that payments will be made; therefore, on a quarterly basis, the Company evaluates the probability of each of the producers achieving the performance targets and the probability of each of the producers signing an employment agreement, if applicable. As of March 31, 2012, no accrual has been made for these arrangements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion summarizes the financial position of HFF, Inc. and its subsidiaries as of March 31, 2012, and the results of our operations for the three month periods ended March 31, 2012, and should be read in conjunction with (i) the unaudited consolidated financial statements and notes thereto included elsewhere in this Quarterly Report on Form 10-Q and (ii) the consolidated financial statements and accompanying notes to our Annual Report on Form 10-K for the year ended December 31, 2011.

Overview

Our Business

We are, based on transaction value, one of the leading providers of commercial real estate and capital markets services to both the users and providers of capital in the U.S. commercial real estate industry based on transaction volume and are one of the largest full-service commercial real estate financial intermediaries in the country. We operate out of 20 offices nationwide with approximately 211 transaction professionals and 309 support associates as of March 31, 2012.

Substantially all of our revenues are in the form of capital markets services fees collected from our clients, usually negotiated on a transaction-by-transaction basis. We also earn fees from commercial loan servicing activities. We believe that our multiple product offerings, diverse client mix, expertise in a wide range of property types and national platform have the potential to create a diversified revenue stream within the U.S. commercial real estate sector.

We operate in one reportable segment, the commercial real estate financial intermediary segment, and offer debt placement, investment sales, structured finance, private equity placements, investment banking and advisory services, loan sales and loan sale advisory services, and commercial loan servicing and commercial real estate structured financing placements and capital markets advice.

Our business may be significantly affected by factors outside of our control, particularly including:

Economic and commercial real estate market downturns. Our business is dependent on international and domestic economic conditions and the demand for commercial real estate and related services in the markets in which we operate. A slow-down, a significant downturn and/or recession in either the global economy and/or the domestic economy, including even a regional economic downturn, could adversely affect our business. A general decline in acquisition and disposition activity can lead to a reduction in fees and commissions for arranging such transactions, as well as in fees and commissions for arranging financing for acquirers and property owners that are seeking to recapitalize their existing properties. Likewise, a general decline in commercial real estate investment activity can lead to a reduction in fees and commissions for arranging acquisitions, dispositions and financings for acquisitions as well as for recapitalizations for existing property owners. Such a general decline can also lead to a significant reduction in our loan servicing activities, due to increased delinquencies and defaults and lack of additional loans that we would have otherwise added to our loan servicing portfolio.

Global and domestic credit and liquidity issues. Global and domestic credit and liquidity issues have recently led to an economic downturn, including a commercial real estate market downturn. This downturn in turn led to a decrease in transaction activity and lower values. The recent situation in the global credit markets, whereby many world governments (including the U.S., where the Company transacts virtually all of its business) have taken unprecedented and uncharted steps to either support the financial institutions in their respective countries from collapse or have taken direct ownership of the same, was unprecedented in the Company's history. Restrictions on the availability of capital, both debt and/or equity, created significant reductions and could in the future cause further reductions of the liquidity in and the flow of capital to the commercial real estate markets. These restrictions also caused, and could in the future cause, commercial real estate prices to decrease due to the reduced amount of equity capital and debt financing available. In particular, the above issues may reduce the number of acquisitions, dispositions and loan originations, as well as the respective number of transactions and transaction volumes, which could in turn adversely affect our capital markets services revenues, including our servicing revenue.

Decreased investment allocation to commercial real estate class. Allocations to commercial real estate as an asset class for investment portfolio diversification may decrease for a number of reasons beyond our control, including poor performance of the asset class relative to other asset classes or the superior performance of other asset classes when compared with continued good performance of the commercial

real estate asset class or the poor performance of all asset classes. In addition, while commercial

Table of Contents

real estate is now viewed as an accepted and valid class for portfolio diversification, if this perception changes, there could be a significant reduction in the amount of debt and equity capital available in the commercial real estate sector. In particular, reductions in debt and/or equity allocations to commercial real estate may reduce the number of acquisitions, dispositions and loan originations, as well as the respective number of transactions and transaction volumes, which could in turn adversely affect our capital markets services revenues (including our servicing revenue).

Fluctuations in interest rates. Significant fluctuations in interest rates as well as steady and protracted movements of interest rates in one direction (increases or decreases) could adversely affect the operation and income of commercial real estate properties as well as the demand from investors for commercial real estate investments. Both of these events could adversely affect investor demand and the supply of capital for debt and equity investments in commercial real estate. In particular, increased interest rates may cause prices to decrease due to the increased costs of obtaining financing and could lead to decreases in purchase and sale activities, thereby reducing the amounts of investment sales and loan originations and related servicing fees. If our investment sales origination and servicing businesses are negatively impacted, it is likely that our other lines of business would also suffer due to the relationship among our various capital markets services.

The factors discussed above have adversely affected and continue to be a risk to our business, as evidenced by the effects of the significant recent disruptions in the global capital and credit markets, and in particular the domestic capital markets. While conditions in 2011 have generally improved, the global and domestic credit and liquidity issues, coupled with the global and domestic economic recession/slow down, reduced in 2008, 2009 and 2010, when compared to 2011 and prior periods in 2002 through 2007, and may reduce in the future the number of acquisitions, dispositions and loan originations, as well as the respective number of transactions and transaction volumes. This has had, and may have in the future, a significant adverse effect on our capital markets services revenues. The significant balance sheet issues of many of the CMBS lenders, banks, life insurance companies, mortgage REITS and debt funds, captive finance companies and other financial institutions have adversely affected, and could again in the future adversely affect the global and domestic economies and the flow of commercial mortgage debt to the U.S. capital markets, and, in turn, could potentially adversely affect all of our capital markets services platforms and resulting revenues.

The recent economic slowdown and domestic and global recession also continue to be a risk, not only due to the potential negative adverse impacts on the performance of global economies including the U.S. and its commercial real estate markets, but also due to the ability of lenders and equity investors to generate significant funds to continue to make loans and equity available to the commercial real estate market and, in particular, in the U.S., where we operate.

Other factors that may adversely affect our business are discussed under the heading "Forward-Looking Statements" and under the caption "Risk Factors" in this Quarterly Report on Form 10-Q.

Table of Contents**Results of Operations**

Following is a discussion of our results of operations for the three months ended March 31, 2012 and March 31, 2011. The table included in the period comparisons below provides summaries of our results of operations. The period-to-period comparisons of financial results are not necessarily indicative of future results. For a description of the key financial measures and indicators included in our consolidated financial statements, refer to the discussion under "Management's Discussion and Analysis of Financial Condition and Results of Operations - Key Financial Measures and Indicators" in our Annual Report on Form 10-K for the year ended December 31, 2011.

Interest expense	(9)	(0.0)%	(10)	(0.0)%	1	(10.0)%
(Increase) decrease in payable under tax receivable agreement	(9)	(0.0)%		0.0%	(9)	(100.0)%
Income before income taxes	5,574	10.7%	7,168	17.1%	(1,594)	(22.2)%
Income tax expense	2,177	4.2%	2,821	6.7%	(644)	(22.8)%
Net income	3,397	6.5%	4,347	10.4%	(950)	(21.9)%
Net income attributable to noncontrolling interest	121	0.2%	298	0.7%	(177)	(59.4)%
Net income attributable to controlling interest	\$ 3,276	6.3%	\$ 4,049	9.7%	\$ (773)	(19.1)%
EBITDA (1)	\$ 7,099	13.7%	\$ 8,133	19.4%	\$ (1,034)	(12.7)%
Adjusted EBITDA (1)	\$ 7,278	14.0%	\$ 7,334	17.5%	\$ (56)	(0.8)%

- (1) The Company defines EBITDA as net income attributable to controlling interest before interest expense, income tax expense, depreciation and amortization and net income attributable to the noncontrolling interest. Adjusted EBITDA is defined as EBITDA, adjusted to exclude: (i) income from the initial recording of mortgage servicing rights acquired and retained; (ii) stock-based compensation expense; and

Edgar Filing: HFF, Inc. - Form 10-Q

(iii) increase (decrease) in payable under the tax receivable agreement. The Company uses EBITDA and Adjusted EBITDA in its business operations to, among other things, evaluate the performance of its business, develop budgets and measure its performance against those budgets. The Company also believes that analysts and investors use EBITDA and Adjusted EBITDA as supplemental measures to evaluate its overall operating performance. However, both EBITDA and Adjusted EBITDA have material limitations as analytical tools and should not be considered in isolation, or as a substitute for analysis of the Company's results as reported under U.S. generally acceptable accounting principles (GAAP). The Company finds EBITDA and Adjusted EBITDA as useful tools to assist in evaluating performance because they eliminate items related to capital structure and taxes, including, with respect to Adjusted EBITDA, the Company's tax receivable agreement. Note that the Company classifies the interest expense on its warehouse lines of credit as an operating expense and, accordingly, it is not eliminated from net income attributable to controlling interest in determining EBITDA and Adjusted EBITDA. The items that the Company has eliminated from net income attributable to controlling interest in determining EBITDA are interest expense, income tax expense, depreciation of fixed assets and amortization of intangible assets, and net income attributable to the noncontrolling interest. Some of these eliminated items are significant to the Company's business. For example, (i) interest expense is a necessary element of the Company's costs and ability to generate revenue because it incurs interest expense related to any outstanding indebtedness, (ii) payment of income taxes is a necessary element of the Company's costs, and (iii) depreciation and amortization are necessary elements of the Company's costs.

Table of Contents

The items that the Company has eliminated from EBITDA in determining Adjusted EBITDA are: (i) stock-based compensation expense, which is a non-cash charge, (ii) income recognized on the initial recording of mortgage servicing rights that are acquired with no initial consideration, which is also a non-cash income amount that can fluctuate significantly based on the level of mortgage servicing right volumes, and (iii) the increase (decrease) in payable under the tax receivable agreement which represents changes in a liability recorded on the Company's consolidated balance sheet that is determined by the ongoing remeasurement of related deferred tax assets and, therefore, can be income or expense in the Company's consolidated statement of income in any individual period.

Any measure that eliminates components of the Company's capital structure and costs associated with the Company's operations has material limitations as a performance measure. In light of the foregoing limitations, the Company does not rely solely on EBITDA and/or Adjusted EBITDA as a performance measure and also considers its GAAP results. EBITDA and Adjusted EBITDA are not measurements of the Company's financial performance under GAAP and should not be considered as alternatives to net income, operating income or any other measures derived in accordance with GAAP. Because EBITDA and Adjusted EBITDA are not calculated in the same manner by all companies, they may not be comparable to other similarly titled measures used by other companies.

Set forth below is a reconciliation of consolidated net income attributable to controlling interest to EBITDA and Adjusted EBITDA for the Company for the three months ended March 31, 2012 and 2011:

EBITDA and Adjusted EBITDA for the Company is calculated as follows:

(dollars in thousands)

	For the Three Months Ended March 31,	
	2012	2011
Net income attributable to controlling interest	\$ 3,276	\$ 4,049
Add:		
Interest expense	9	10
Income tax expense	2,177	2,821
Depreciation and amortization	1,516	955
Net income attributable to noncontrolling interest	121	298
EBITDA	\$ 7,099	\$ 8,133
Adjustments:		
Stock-based compensation (a)	1,649	624
Initial recording of mortgage servicing rights	(1,479)	(1,423)
Increase (decrease) in payable under the tax receivable agreement	9	
Adjusted EBITDA	\$ 7,278	\$ 7,334

- (a) Amounts do not reflect expense associated with the stock component of estimated incentive payouts under the Company's firm profit participation bonus plan or office profit participation bonus plans that are anticipated to be paid in respect of the applicable year. Such expense is recorded as incentive compensation expense within personnel expenses in the Company's consolidated statements of income during the year to which the expense relates. Following the award, if any, of the related incentive payout, the stock component expense is reclassified as stock compensation costs within personnel expenses. See Note 2 to the Company's consolidated financial statements for further information regarding the Company's accounting policies relating to its firm profit participation bonus plan and office profit participation bonus plans.

Stock-based compensation expense for the three months ended March 31, 2012 reflects \$0.3 million expense recognized during such period that was associated with restricted stock granted in March 2012 under the Company's firm profit participation bonus plan or office profit participation bonus plans in respect of 2011. Stock-based payments under such plans were first made in 2012 in respect of 2011. See Note 3 to the Company's consolidated financial statements for further information regarding the Company's accounting policies relating to

its stock compensation.

Table of Contents

Revenues. Our total revenues were \$51.9 million for the three months ended March 31, 2012 compared to \$41.9 million for the same period in 2011, an increase of \$9.9 million, or 23.7%. Revenues increased primarily as a result of a 44.6% increase in production volumes in our capital markets services platforms.

The revenues we generated from capital markets services for the three months ended March 31, 2012 increased \$10.1 million, or 24.9%, to \$50.6 million from \$40.5 million for the same period in 2011. The increase is primarily attributable to an increase in production volume closed during the first quarter of 2012 compared to the first quarter of 2011.

The revenues derived from interest on mortgage notes receivable were \$1.0 million for the three months ended March 31, 2012 compared to \$1.1 million for the same period in 2011, a decrease of \$0.1 million. Revenues decreased primarily as a result of an decrease in loan originations made in connection with our services as a Freddie Mac Multifamily Program Plus[®] Seller/Servicer during the first quarter of 2012 compared to the first quarter of 2011.

The other revenues we earned, which include expense reimbursements from clients related to out-of-pocket costs incurred and vary on a transaction-by-transaction basis, were approximately \$0.3 million for the three month period ended March 31, 2012 and \$0.4 million for the three month period ended March 31, 2011, a decrease of approximately \$0.1 million, or 15.1%.

Total Operating Expenses. Our total operating expenses were \$49.1 million for the three months ended March 31, 2012 compared to \$37.6 million for the same period in 2011, an increase of \$11.5 million, or 30.6%. Expenses increased primarily due to increased cost of services and increased personnel costs resulting primarily from an increase in capital markets services revenue and increased headcount.

The cost of services for the three months ended March 31, 2012 increased \$7.0 million, or 27.4%, to \$32.4 million from \$25.4 million for the same period in 2011. The increase is primarily the result of the increase in commissions and other incentive compensation directly related to the increase in capital markets services revenues. Also contributing to the increase in cost of services are higher salary costs from increased headcount to support the increase in production volume. Cost of services as a percentage of capital markets services revenues was approximately 64.0% and 62.8% for the three month periods ended March 31, 2012 and March 31, 2011, respectively.

Personnel expenses that are not directly attributable to providing services to our clients increased \$2.5 million, or 57.9%, to \$6.8 million for the three months ended March 31, 2012 from \$4.3 million for the same period in 2011. The increase is primarily related to an increase in the performance-based firm and office profit participation plan expense of \$0.8 million, the vesting in the first quarter of 2012 of the firm and office profit participation plan awards granted in 2011 of \$0.6 million and the mark-to-market adjustment on the existing restricted stock awards accounted for as liability awards which are revalued each quarter and resulted in increased expense of \$0.7 million during the first quarter 2012 as compared to the first quarter 2011. Personnel expenses are impacted quarterly by the adjustments made to accrue for the estimated expense associated with the based firm and office profit participation plans. Both the firm and office profit participation plans allow for payments in the form of both cash and share-based awards based on the decision of the Company's board of directors.

The stock compensation cost included in personnel expenses was \$3.6 million and \$0.6 million for the three months ended March 31, 2012 and 2011, respectively. Approximately \$1.9 million of this increase is primarily due to the award of 212,259 restricted stock units by the Company's board of directors on March 1, 2012 in connection with the firm and office profit participation plans for fiscal year 2011, which was previously recorded as incentive compensation expense in 2011 and was reclassified as stock compensation costs in the three months ending March 31, 2012. Both incentive compensation expense and stock compensation expense for the firm and office profit participation plans are recorded in personnel expenses in the consolidated statements of income, therefore the \$1.9 million reclassification had a net zero impact on personnel expenses in the three months ending March 31, 2012. Additionally, contributing to the increase in stock compensation costs is the mark-to-market adjustment on existing restricted stock awards accounted for as liability awards which resulted in \$1.2 million of expense (or a \$0.7 million increase as compared to the first quarter of 2011). At March 31, 2012, there was approximately \$5.2 million of unrecognized compensation cost related to share based awards. The weighted average remaining contractual term of the unvested

Edgar Filing: HFF, Inc. - Form 10-Q

restricted stock units is 1.6 years as of March 31, 2012. The weighted average remaining contractual term of the unvested options is 10.6 years as of March 31, 2012.

Occupancy, travel and entertainment, and supplies, research and printing expenses for the three months ended March 31, 2012 increased \$1.0 million, or 23.4%, to \$5.1 million compared to the same period in 2011. These increases are primarily due to increased supplies, research and printing and travel and entertainment costs stemming from the increase in capital markets services revenues and office expansion.

Table of Contents

Other expenses, including costs for insurance, professional fees, depreciation and amortization, interest on our warehouse line of credit and other operating expenses, were \$4.9 million in the three months ended March 31, 2012, an increase of \$1.1 million, or 28.7%, versus \$3.8 million in the three months ended March 31, 2011. This increase is primarily related to increased depreciation and amortization of \$0.6 million due to a higher balance of mortgage servicing rights and accelerated depreciation on certain offices tenant and leasehold improvements due to office relocations, outsourcing and licenses of \$0.1 million and other general and administrative costs of \$0.3 million.

Net Income. Our net income for the three months ended March 31, 2012 was \$3.4 million, a decrease of \$0.9 million versus \$4.3 million for the same fiscal period in 2011. This decrease is primarily due to higher costs of services and personnel costs as described above.

Interest and other income, net for the three months ended March 31, 2011 was \$2.8 million, a decrease of \$31,000 as compared to \$2.9 million for the same fiscal period in 2011.

The interest expense we incurred in the three months ended March 31, 2012 totaled \$9,000, a decrease of \$1,000 from \$10,000 of expenses incurred in the three months ended March 31, 2011.

(Increase) decrease in payable under the tax receivable agreement reflects the change in the estimated tax benefits owned to HFF Holdings under the tax receivable agreement. The \$9,000 increase in payable under the tax receivable agreement for the three month period ended March 31, 2012 represents 85% of the increase in the related deferred tax asset of \$11,000.

Income tax expense was approximately \$2.2 million for the three months ended March 31, 2012, as compared to \$2.8 million in the three months ended March 31, 2011. This decrease is primarily due to the lower income before income taxes during the three months ended March 31, 2012 compared to the same period of the prior year. During the three months ended March 31, 2012, the Company recorded a current income tax expense of \$43,000 and deferred income tax expense of \$2.1 million.

Net income attributable to noncontrolling interest, representing the ownership interest of HFF Holdings in the Operating Partnerships, equaled \$0.1 million for the three months ended March 31, 2012, a decrease of \$0.2 million from the same period of the prior year. This decrease is due to the lower average ownership interest during the respective periods of HFF Holdings in the Operating Partnerships as a result of the exercises of the Exchange Right that occurred in February 2012 and by the lower net income from the Operating Partnership in the first quarter of 2012 as compared to the first quarter of 2011.

Financial Condition

Total assets decreased to \$455.9 million at March 31, 2012 from \$478.5 million at December 31, 2011, primarily due to:

A decrease in cash and cash equivalents of \$15.9 million primarily due to the payment of incentive compensation that was accrued as of December 31, 2011.

A decrease in mortgage notes receivable of \$15.4 million due to a lower number of loans pending sale to Freddie Mac at March 31, 2012, compared to December 31, 2011.

These decreases in assets were partially offset by increases in prepaid taxes of \$3.2 million, accounts receivable of \$0.6 million, intangible assets, net of \$0.5 million and property and equipment, net of \$1.1 million.

Total liabilities decreased to \$319.6 million at March 31, 2012 from \$348.1 million at December 31, 2011, primarily due to:

Edgar Filing: HFF, Inc. - Form 10-Q

A decrease in amounts outstanding under the warehouse lines of credit of \$15.4 million due to a lower number of loans pending sale to Freddie Mac at March 31, 2012, compared to December 31, 2011.

A decrease in accrued compensation and related taxes of \$13.8 million due to the payment of incentive compensation that was accrued as of December 31, 2011 and a decrease in other current liabilities of \$4.2 million.

Table of Contents

These decreases were partially offset by an increase in payable under tax receivable agreement of \$4.3 million primarily due to the step-up in basis from the partnership unit exchanges that occurred during the three month period ended March 31, 2012.

Cash Flows

Our historical cash flows are primarily related to the timing of receipt of transaction fees, the timing of distributions to members of HFF Holdings and payment of commissions and bonuses to employees.

First Three Months of 2012

Cash and cash equivalents decreased \$15.9 million in the three months ended March 31, 2012. Net cash of \$13.7 million was used in operating activities, primarily resulting from a \$13.1 million decrease in accrued compensation and related taxes, a \$4.2 million decrease in other accrued liabilities, a \$3.7 million increase in prepaid taxes, prepaid expenses and other current assets, a \$0.6 million increase in accounts receivable and a \$0.5 million decrease in accounts payable. These uses of cash were partially offset by \$3.4 million of net income. Cash of \$1.6 million was used for investing in property and equipment. Financing activities used \$0.1 million for the payments on certain capital leases and \$0.6 million to purchase shares of Class A common stock in connection with employee tax withholdings.

First Three Months of 2011

Cash and cash equivalents decreased \$1.0 million in the three months ended March 31, 2011. Net cash of \$0.6 million was used in operating activities, primarily resulting from a \$5.0 million decrease in accrued compensation and related taxes, a \$1.4 million decrease in other accrued liabilities, a \$0.7 million increase in prepaid taxes, prepaid expenses and other current assets and a \$0.6 million increase in accounts receivable. These uses of cash were partially offset by \$4.3 million of net income. Cash of \$0.3 million was used for investing in property and equipment. Financing activities used \$0.1 million for the payments on certain capital leases and \$0.1 million of cash was used to purchase shares of Class A common stock in connection with employee tax withholdings.

Liquidity and Capital Resources

Our current assets typically have consisted primarily of cash and cash equivalents and accounts receivable in relation to earned transaction fees. At March 31, 2012, our cash and cash equivalents of approximately \$125.8 million were invested or held in a mix of money market funds and bank demand deposit accounts at two financial institutions. Our liabilities have typically consisted of accounts payable and accrued compensation. We regularly monitor our liquidity position, including cash level, credit lines, interest and payments on debt, capital expenditures and other matters relating to liquidity and to compliance with regulatory net capital requirements.

In accordance with the Operating Partnerships' partnership agreements and approval from the board of directors of HFF, Inc. and from Holliday GP (as general partner of the Operating Partnerships), each of the Operating Partnerships makes distributions to its partners, including HFF Holdings and HFF, Inc. (through their wholly owned subsidiaries), based on taxable income, if any, in an amount sufficient to cover all applicable taxes payable by the members of HFF Holdings and by us and to cover dividends, if any, declared by the board of directors. During the three months ended March 31, 2012, the Operating Partnerships did not make any distributions to HFF Holdings. However, in April 2012, the Operating Partnerships made a distribution to HFF Holdings of approximately \$1.0 million for the 2011 tax year. These distributions decrease the noncontrolling interest balance on the consolidated balance sheet.

Over the three month period ended March 31, 2012, we used approximately \$13.7 million of cash from operations. Our short-term liquidity needs are typically related to compensation expenses and other operating expenses such as occupancy, supplies, marketing, professional fees and travel and entertainment. For the three months ended March 31, 2012, we incurred approximately \$49.1 million in total operating expenses. A large portion of our operating expenses are variable, highly correlated to our revenue streams and dependent on the collection of transaction fees. During the three months ended March 31, 2012, approximately 53.2% of our operating expenses were considered variable expenses. Our cash flow generated from operations historically has been sufficient to enable us to meet our objectives. However, if the economy deteriorates at the rate it did during 2008 and 2009, we may be unable to generate enough cash flow from operations to meet our operating needs and therefore we could use all or substantially all of our existing cash reserves on hand to support our operations. We currently believe that cash flows from operating activities and our existing cash balance will provide adequate liquidity and are sufficient to meet our working capital needs for the foreseeable future.

Table of Contents

Our tax receivable agreement with HFF Holdings entered into in connection with our initial public offering provides for the payment by us to HFF Holdings of 85% of the amount of cash savings in U.S. federal, state and local income tax that we actually realize as a result of the increases in tax basis and as a result of certain other tax benefits arising from our entering into the tax receivable agreement and making payments under that agreement. We have estimated that future payments that will be made to HFF Holdings will be \$154.1 million, of which approximately \$17.9 million is anticipated to be paid in 2012. Our liquidity needs related to our long term obligations are primarily related to our facility leases. Additionally, for the three months ended March 31, 2012, we incurred approximately \$1.9 million in occupancy expenses and approximately \$9,000 in interest expense.

We are a party to an uncommitted \$250 million financing arrangement with PNC Bank, N.A. (PNC) and an uncommitted \$75 million financing arrangement with The Huntington National Bank (Huntington), with an additional \$25 million available for four consecutive months anytime during the last six months of 2012 upon our election, to fund our Freddie Mac loan closings. Pursuant to these arrangements, PNC or Huntington funds the multifamily Freddie Mac loan closings on a transaction-by-transaction basis, with each loan being separately collateralized by a loan and mortgage on a multifamily property that is ultimately purchased by Freddie Mac. The PNC and Huntington National Bank financing arrangements are only for the purpose of supporting our participation in Freddie Mac's Program Plus Seller Servicer program and cannot be used for any other purpose. As of March 31, 2012, we had outstanding borrowings of \$139.1 million under the PNC/Huntington arrangements and a corresponding amount of mortgage notes receivable. Although we believe that our current financing arrangements with PNC and Huntington are sufficient to meet our current needs in connection with our participation in Freddie Mac's Program Plus Seller Servicer program, in the event we are not able to secure financing for our Freddie Mac loan closings, we will cease originating such Freddie Mac loans until we have available financing.

Critical Accounting Policies; Use of Estimates

We prepare our financial statements in accordance with U.S. generally accepted accounting principles. In applying many of these accounting principles, we need to make assumptions, estimates and/or judgments that affect the reported amounts of assets, liabilities, revenues and expenses in our consolidated financial statements. We base our estimates and judgments on historical experience and other assumptions that we believe are reasonable under the circumstances. These assumptions, estimates and/or judgments, however, are often subjective and our actual results may change negatively based on changing circumstances or changes in our analyses. If actual amounts are ultimately different from our estimates, the revisions are included in our results of operations for the period in which the actual amounts become known. We believe the following critical accounting policies could potentially produce materially different results if we were to change underlying assumptions, estimates and/or judgments. See the notes to our consolidated financial statements for a summary of our significant accounting policies.

Goodwill. We evaluate goodwill for potential impairment annually or more frequently if circumstances indicate impairment may have occurred. In this process, we make estimates and assumptions in order to determine the estimated fair value of the Company. In determining the fair value of the Company for purposes of evaluating goodwill for impairment, we utilize a combined market and discounted cash flows approach. In applying the market approach, we use the stock price of our Class A common stock as of the measurement date multiplied by the number of current outstanding shares as of the measurement date and an estimated control premium. In applying the discounted cash flows approach, we project our cash flows for the next five years plus a terminal value and discount this stream of cash to determine an estimated fair value. We then apply a weighted factor to both the market approach and discounted cash flows approach to determine the estimated fair value of the Company. As of April 27, 2012, management's analysis indicates that a greater than 80.0% decline in the estimated fair value of the Company may result in the recorded goodwill being potentially impaired and would require management to measure the amount of the impairment charge. Goodwill is considered impaired if the recorded book value of goodwill exceeds the implied fair value of goodwill as determined under this valuation technique. We use our best judgment and information available to us at the time to perform this review.

Intangible Assets. Our intangible assets primarily include mortgage servicing rights under agreements with third party lenders. Servicing rights are recorded at the lower of cost or market. Mortgage servicing rights do not trade in an active, open market with readily available observable prices. Since there is no ready market value for the mortgage servicing rights, such as quoted market prices or prices based on sales or purchases of similar assets, the Company determines the fair value of the mortgage servicing rights by estimating the present value of future cash flows associated with servicing the loans. Management makes certain assumptions and judgments in estimating the fair value of servicing rights. The estimate is based on a number of assumptions, including the benefits of servicing (contractual servicing fees and interest on escrow and float balances), the cost of servicing, prepayment rates (including risk of default), an inflation rate, the expected life of the cash flows and the discount rate. The cost of servicing, prepayment rates and discount rates are the most sensitive factors affecting the estimated fair value of the servicing rights. Management estimates a market participant's cost of servicing by analyzing the limited market activity and considering the Company's own internal servicing costs.

Table of Contents

Management estimates the discount rate by considering the various risks involved in the future cash flows of the underlying loans which include the cancellation of servicing contracts, concentration in the life company portfolio and the incremental risk related to large loans. Management estimates the prepayment levels of the underlying mortgages by analyzing recent historical experience. Many of the commercial loans being serviced have financial penalties for prepayment or early payoff before the stated maturity date. As a result, the Company has consistently experienced a low level of loan runoff. The estimated value of the servicing rights is impacted by changes in these assumptions. As of March 31, 2012, the fair value and net book value of the servicing rights were \$15.0 million and \$13.6 million, respectively. The most sensitive assumptions in estimating the fair value of the mortgage servicing rights are the level of prepayments, discount rate and cost of servicing. If the assumed level of prepayments increased 33%, the discount rate increased 14% or if there is an 7% increase in the cost of servicing at the stratum level, the estimate fair value of the servicing rights may result in the recorded mortgage servicing rights being potentially impaired and would require management to measure the amount of the impairment charge. The effect of a variation in each of these assumptions on the estimated fair value of the servicing rights is calculated independently without changing any other assumption. Servicing rights are amortized in proportion to and over the period of estimated servicing income which results in an accelerated level of amortization. We evaluate amortizable intangible assets on an annual basis, or more frequently if circumstances so indicate, for potential impairment.

Income Taxes. The Company accounts for income taxes under the asset and liability method. Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and for tax losses and for tax credit carryforwards, if any. Deferred tax assets and liabilities are measured using tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period of the tax rate change. In assessing the realizability of deferred tax assets, the Company considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized.

Our effective tax rate is sensitive to several factors including changes in the mix of our geographic profitability. We evaluate our estimated tax rate on a quarterly basis to reflect changes in: (i) our geographic mix of income, (ii) legislative actions on statutory tax rates, and (iii) tax planning for jurisdictions affected by double taxation. We continually seek to develop and implement potential strategies and/or actions that would reduce our overall effective tax rate.

The net deferred tax asset of \$158.7 million at March 31, 2012 is comprised mainly of a \$179.5 million deferred tax asset related to the Section 754 of the Internal Revenue Code (Section 754) election tax basis step up, net of a \$22.5 million valuation allowance. The net deferred tax asset related to the Section 754 election tax basis step up of \$157.0 million represents annual pre-tax deductions of approximately \$26.3 million through 2021, then decreasing over the next six years to approximately \$0.1 million in 2027. In order to realize the annual pre-tax benefit of approximately \$26.3 million, the Company needs to generate approximately \$169.0 million in revenue each year, assuming a constant cost structure. In the event that the Company cannot realize the annual pre-tax benefit of \$26.3 million each year, the shortfall becomes a net operating loss that can be carried back three years to offset prior years' taxable income, if any, or carried forward twenty years to offset future taxable income. During 2008 and 2009, based on the decline in production volume and corresponding impact on operating results, we have not realized the entire benefit of the annual deduction. Currently, \$4.4 million of this cumulative benefit is characterized as a net operating loss and can be carried forward for periods that begin to expire in 2028. A portion of the net operating loss of \$4.4 million is subject to limitation under Section 382 of the Internal Revenue Code. The limitation on the use of the net operating loss in 2012 is \$1.1 million, which can be used in future years. The net operating loss limitation does not impact the Company's ability to fully utilize the net operating loss before its expiration. In evaluating the realizability of these deferred tax assets, management makes estimates and judgments regarding the level and timing of future taxable income, including projecting future revenue growth and changes to the cost structure. Based on this analysis and other quantitative and qualitative factors, management believes that it is currently more likely than not that the Company will be able to generate sufficient taxable income to realize the net deferred tax assets. Based on revenue and taxable income generated through March 31, 2012, management currently expects to realize the entire \$26.3 million annual pre-tax benefit and be able to utilize a portion of the net operating loss carryforward. If it is more likely than not that the Company would not be able to generate a sufficient level of taxable income through the carryforward period, a valuation allowance would be recorded as a charge to income tax expense and a proportional reduction would be made in the payable under the tax receivable agreement which would be recorded as income in the consolidated statements of income. The trend in revenue growth over the next few years and through the amortization and carryforward periods is a key factor in assessing the realizability of the deferred tax assets.

Leases. The Company leases all of its facilities under operating lease agreements. These lease agreements typically contain tenant improvement allowances. The Company records tenant improvement allowances as leasehold improvement assets, included in property and equipment, net in the consolidated balance sheet, and related deferred rent liabilities and amortizes them on a straight-line basis over the shorter of the term of the lease or useful life of the asset as additional depreciation expense and a reduction to rent

Table of Contents

expense, respectively. Lease agreements sometimes contain rent escalation clauses or rent holidays, which are recognized on a straight-line basis over the life of the lease in accordance with ASC 840, *Leases* (ASC 840). Lease terms generally range from one to ten years. An analysis is performed on each equipment lease to determine whether it should be classified as a capital or operating lease according to ASC 840.

Share Based Compensation. The Company estimates the grant-date fair value of stock options using the Black-Scholes option-pricing model. The weighted average assumptions used in the option pricing model as of March 31, 2012 are: i) zero dividend yield, ii) expected volatility of 63.9%, iii) risk free interest rate of 3.2% and iv) expected life of 10.0 years. For restricted stock awards, the fair value of the awards is calculated as the difference between the market value of the Company's Class A common stock on the date of grant and the purchase price paid by the employee. The Company also has restricted stock awards that are accounted for as liability awards and require remeasurement to fair value at the end of each reporting period. The Company's awards are generally subject to graded or cliff vesting schedules. Compensation expense is adjusted for estimated forfeitures and is recognized on a straight-line basis over the requisite service period of the award. Forfeiture assumptions are evaluated on a quarterly basis and updated as necessary.

Employment / Non-compete Agreements. The Company has entered into arrangements with newly-hired producers whereby these producers would be paid additional compensation if certain performance targets are met over a defined period. Some of these agreements contain provisions that the payments will be made to the producers only if they enter into an employment agreement at the end of the performance period. Payments under these arrangements, if earned, would be paid in fiscal years 2012 through 2014. The Company begins to accrue for these payments when it is deemed probable that payments will be made; therefore, on a quarterly basis, the Company evaluates the probability of each of the producers achieving the performance targets and the probability of each of the producers signing an employment agreement, if applicable. As of March 31, 2012, no accrual has been made for these arrangements.

Firm and Office Profit Participation Plans. The Company's firm and office profit participation plans provide for payments in cash and share-based awards if certain performance targets are achieved during the year. The expense associated with the plans is included in personnel expenses in the consolidated statements of income. The expense recorded for these plans is estimated during the year based on actual results at each interim reporting date and an estimate of future results for the remainder of the year. The plans allow for payments to be made in both cash and share-based awards, the composition of which is determined in the first calendar quarter of the subsequent year. Cash and share-based awards issued under these plans are subject to vesting conditions over the subsequent year, such that the total expense measured for these plans is recorded over the period from the beginning of the performance year through the vesting date. Based on an accounting policy election, the expense associated with the share-based component of the estimated incentive payout is recognized before the grant date of the stock due to the fact that the terms of the profit participation plans have been approved by the Company's board of directors and the employees of the Company understand the requirements to earn the award. Prior to the grant date, the share-based component-related expense is recorded as incentive compensation expense within personnel expenses in the Company's consolidated statements of income. Following the award, if any, the related incentive payout, the share-based component expense is reclassified as stock compensation costs with personnel expenses.

Certain Information Concerning Off-Balance Sheet Arrangements

We do not currently invest in any off-balance sheet vehicles that provide liquidity, capital resources, market or credit risk support, or engage in any leasing activities that expose us to any liability that is not reflected in our consolidated financial statements.

Seasonality

Our capital markets services revenue has historically been seasonal, which can affect an investor's ability to compare our financial condition and results of operation on a quarter-by-quarter basis. This seasonality has caused our revenue, operating income, net income and cash flows from operating activities to be lower in the first six months of the year and higher in the second half of the year. The typical concentration of earnings and cash flows in the last six months of the year has historically been due to an industry-wide focus of clients to complete transactions towards the end of the calendar year. However, given the recent disruptions, write-offs and credit losses in the global and domestic capital markets, the liquidity issues facing all global capital markets, and in particular the U.S. commercial real estate markets, this historical pattern of seasonality may or may not continue. For example, while the seasonality described above did occur in 2011, 2010 and 2009, it did not occur in 2007 or 2008, causing historical comparisons to be even more difficult to gauge.

Table of Contents

Effect of Inflation and/or Deflation

Inflation and/or deflation, or both, could significantly affect our compensation costs, particularly those not directly tied to our transaction professionals' compensation, due to factors such as availability of capital and/or increased costs of capital. The rise of inflation could also significantly and adversely affect certain expenses, such as debt service costs, information technology and occupancy costs. To the extent that inflation and/or deflation results in rising interest rates and has other effects upon the commercial real estate markets in which we operate and, to a lesser extent, the securities markets, it may affect our financial position and results of operations by reducing the demand for commercial real estate and related services which could have a material adverse effect on our financial condition. See Part II, Item 1A, "Risk Factors" in this Quarterly Report on Form 10-Q.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Due to the nature of our business and the manner in which we conduct our operations, in particular that our financial instruments which are exposed to concentrations of credit risk consist primarily of short-term cash deposits and investments and in light of the recent support provided by the U.S. government related to the current credit and liquidity issues, we believe we do not face any material interest rate risk, foreign currency exchange rate risk, equity price risk or other market risk.

Item 4. Controls and Procedures

Management's Quarterly Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required financial disclosure.

Our Chief Executive Officer and Chief Financial Officer (our principal executive officer and principal financial officer, respectively) have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our principal executive officer and principal financial officer have concluded that, as of March 31, 2012, the Company's disclosure controls and procedures are effective to provide reasonable assurance that material information required to be included in our periodic SEC reports is recorded, processed, summarized and reported within the time periods specified in rules and forms.

The design of any system of control is based upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated objectives under all future events, no matter how remote, or that the degree of compliance with the policies or procedures may not deteriorate. Because of its inherent limitations, disclosure controls and procedures may not prevent or detect all misstatements. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

Changes in Internal Controls

There were no changes in our internal control over financial reporting that occurred during the three month period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

We are party to various litigation matters, in most cases involving normal ordinary course and routine claims incidental to our business. We cannot estimate with certainty our ultimate legal and financial liability with respect to such pending matters. However, we believe, based on our examination of such pending matters, that our ultimate liability for such matters will not have a material adverse effect on our business or financial condition.

Item 1A. Risk Factors.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors, in our Annual Report on Form 10-K for the year ended December 31, 2011, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.

Item 6. Exhibits.
