Form 6-K  
June 05, 2012

## FORM 6-K

### SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Report of Foreign Private Issuer

Pursuant to Rule 13a-16 or 15d-16 of

the Securities Exchange Act of 1934

For the month of June 2012

## CGG-Veritas

Tour Maine Montparnasse - 33 Avenue du Maine BP 191 - 75755 PARIS CEDEX 15 (address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F  Form 40-F

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes  No

If  Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82

**Sercel Launches Next-Generation Sentinel RD Solid Streamer**

**PARIS, France June 5 2012** Sercel announced today the expansion of its marine seismic equipment offering with the launch of the Sentinel RD, the latest generation of its Sentinel solid streamer. With over 4,000 km of streamers delivered to more than 60 seismic vessels worldwide since its introduction in 2005, Sentinel has become the system of choice for streamer seismic survey acquisition.

Fully compatible with Sercel's Seal 428 and Sentinel, the Sentinel RD has a reduced diameter and a 15 % weight reduction, providing reduced cable drag and increased storage capacity onboard seismic vessels.

Sentinel and Sentinel RD are the perfect tools for marine seismic acquisition, as a result of their unmatched reliability and outstanding data quality at low frequency, allowing the application of advanced acquisition and processing techniques for more accurate interpretation and enhanced imaging of deep targets below complex overburdens.

Pascal Rouiller, CEO, Sercel, and Senior Executive Vice President, CGGVeritas said: "Offering the best signal-to-noise ratio, Sentinel is the most operationally efficient system available in the industry today. The new reduced-diameter design will further strengthen Sercel's position in the marine acquisition market.

Jean-Georges Malcor, CEO, CGGVeritas, said: "Sentinel RD can be deployed for a wider range of layout options including denser or longer configurations to meet growing demand for high-end marine seismic techniques such as broadband, high-density and long-offset acquisition. It is yet another example of the industry leader's equipment division consistently taking to develop innovative technology to meet evolving industry requirements.

***About CGGVeritas***

*CGGVeritas (www.cggveritas.com) is a leading international pure-play geophysical company delivering a wide range of technologies, services and equipment through Sercel, to its broad base of customers mainly throughout the global oil and gas industry. CGGVeritas is listed on the Euronext Paris (ISIN: 0000120164) and the New York Stock Exchange (in the form of American Depositary Shares, NYSE: CGV).*
