**Nomura Reports First Quarter Financial Results**

Profitable at group level for third straight quarter and 12 out of last 13 quarters

Retail and Asset Management continued to deliver stable earnings, underpinning firm-wide revenues

Wholesale revenues driven by resilient performance in Fixed Income amid challenging market conditions

Robust financial position with total capital ratio of 17.4 percent and Tier 1 capital ratio of 15 percent under Basel 2.5

**Tokyo, July 26, 2012** Nomura Holdings, Inc. today announced its consolidated financial results for the first quarter of the fiscal year ending March 31, 2013.

Net revenue in the first quarter was 369.3 billion yen (US\$4.6 billion)<sup>1</sup>, down 26 percent from the previous quarter but up 12 percent year on year. Income before income taxes was 19.7 billion yen (US\$246 million), a decline of 68 percent quarter on quarter and 43 percent year on year. Net income attributable to Nomura Holdings shareholders was 1.9 billion yen (US\$24 million), down 91 percent from the previous quarter and 89 percent compared to last year.

We reported our third straight profitable quarter amid challenging market conditions on the back of a resilient performance in Retail and Asset Management, said Kenichi Watanabe, Nomura's Group CEO.

In Retail, robust sales of fixed income products, particularly foreign bonds, offset weaker sales of investment trusts and equities. Asset Management continued to deliver stable earnings through inflows into investment trusts and the investment advisory business, he added.

While our Wholesale business faced a tough quarter, revenues were driven by Fixed Income and we reached our cost reduction target ahead of schedule. This positioned us well to limit the impact from a decline in market liquidity and revenue opportunities.

Commenting on recent insider trading incidents related to public offerings, Watanabe said: We are sorry for the trouble this has caused. We are now implementing the improvement measures we announced last month in order to regain the trust of the market. We will continue to conduct our own internal investigations and strengthen our internal controls.

<sup>1</sup> *US dollar amounts are included solely for the convenience of the reader and have been translated at the rate of 79.81 yen = 1 US dollar, the noon buying rate in New York for cable transfers in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York on June 29, 2012. This translation should not be construed to imply that the yen amounts actually represent, or have been or could be converted into, equivalent amounts in US dollars.*

**Table of Contents****Divisional Performance****Retail**

	FY2012/13		
	Q1	QoQ	YoY
<b>Net revenue</b>	Y82.7bn	-10%	-12%
<b>Income before income taxes</b>	Y12.2bn	-40%	-45%

Retail reported net revenue of 82.7 billion yen, a decline of 10 percent from the strong prior quarter and 12 percent compared to the first quarter last year, as retail investors in Japan shied away from taking on risk. Income before income taxes declined 40 percent quarter on quarter and 45 percent year on year to 12.2 billion yen.

Although sales of investment trusts and equities were softer due primarily to market factors, Nomura saw stronger sales of fixed income products, particularly foreign bonds. Nomura's continued focus on providing consulting services to meet specific client needs translated into net asset inflows of 647.2 billion yen, marking the ninth consecutive quarter of net inflows.

**Asset Management**

	FY2012/13		
	Q1	QoQ	YoY
<b>Net revenue</b>	Y16.4bn	+5%	-13%
<b>Income before income taxes</b>	Y5.4bn	+30%	-28%

Asset Management net revenue was 16.4 billion yen, up 5 percent sequentially and down 13 percent from the previous year. Income before income taxes increased 30 percent quarter on quarter to 5.4 billion yen, a decline of 28 percent year on year.

The investment trust business reported fund inflows into public stock investment trusts, while the investment advisory business won new mandates from pension funds and sovereign wealth funds, booking inflows of 218 billion yen. Net assets under management totaled 23.3 trillion yen at the end of June, down from the end of March due to market factors.

**Wholesale**

	FY2012/13		
	Q1	QoQ	YoY
<b>Net revenue</b>	Y121.9bn	-23%	-13%
<b>Loss before income taxes</b>	Y8.6bn		

Wholesale reported net revenue of 121.9 billion yen, a decline of 23 percent quarter on quarter and 13 percent year on year. Loss before income taxes was 8.6 billion yen.

Wholesale revenues were driven by a resilient performance in Fixed Income amid the challenging market conditions. Net revenue in Fixed Income was 71.5 billion yen, down 18 percent quarter on quarter but up 2 percent year on year.

## **Table of Contents**

Fixed Income revenues were well balanced across core products and Nomura continued to promote collaboration between its domestic franchise and global platform. Although trading was impacted by subdued market volumes, client businesses performed well. The Americas and Asia ex-Japan booked solid revenues.

Equities net revenue declined by 28 percent from last quarter to 37.1 billion yen, down 34 percent from last year. Muted trading volumes in Asia including Japan coupled with a dearth of primary deals led to a 15 percent sequential decline in client revenues. Trading revenues deteriorated as lower levels of market liquidity impacted results in each region and across product lines.

Net revenue in Investment Banking was 13.3 billion yen, 33 percent lower than the prior quarter and 2 percent below last year. While there were fewer revenue opportunities in the ECM business during the quarter, Nomura won a number of mandates on high-profile M&A transactions and rose to 10<sup>th</sup> position in the global M&A league tables<sup>2</sup>, up from 14<sup>th</sup> last year. Nomura also saw success in the trading house and financial sponsor related sectors, which combined account for 18 percent of the global fee pool.

## **Financial Position**

Nomura maintains a robust financial position and a healthy balance sheet. As of the end of June, the firm's total capital ratio was 17.4 percent and its Tier 1 ratio was 15 percent under Basel 2.5. Nomura had total assets of 35.3 trillion yen and shareholders' equity of 2.1 trillion yen. Gross leverage was 16.8 times and net leverage was 10.6 times. All figures are on a preliminary basis.
