1. Corporate Reorganization

In January 2013, NCLH completed the IPO of 27,058,824 ordinary shares, par value \$.001 per share. In connection with the consummation of the IPO, NCLC's ordinary shares were exchanged for the ordinary shares of NCLH, and NCLH became the owner of 100% of the ordinary shares (representing a 97.3% economic interest) and parent company of NCLC (the Corporate Reorganization). Accordingly, NCLH contributed \$460.0 million to NCLC and the historical financial statements of NCLC became those of NCLH. As a result of the Corporate Reorganization, the Management NCL Corporation Units created a non-controlling interest within NCLH. The Corporate Reorganization was effected solely for the purpose of reorganizing our corporate structure. NCLH had not, prior to the completion of the Corporate Reorganization, conducted any activities other than those incidental to its formation and to preparations for the Corporate Reorganization and the IPO (we refer you to Note 5 Related Party Disclosures for more information on the Corporate Reorganization).

2. Summary of Significant Accounting Policies**Basis of Presentation**

The accompanying consolidated financial statements are unaudited and, in our opinion, contain all normal recurring adjustments necessary for a fair statement of the results for the periods presented.

Our operations are seasonal and results for interim periods are not necessarily indicative of the results for the entire fiscal year. Historically, demand for cruises has been strongest during the summer months. The interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2012, which are included in our most recently filed Annual Report on Form 10-K.

Earnings Per Share

Basic earnings per share is computed by dividing net income attributable to Norwegian Cruise Line Holdings Ltd. by the weighted-average shares outstanding during each period. Diluted earnings per share incorporates the incremental shares issuable upon conversion of potentially dilutive shares and is computed by dividing net income by the diluted weighted-average shares outstanding during each period. A reconciliation between basic and diluted earnings per share was as follows (in thousands, except share and per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012

Table of Contents**Revenue and Expense Recognition**

Revenue and expense includes taxes assessed by governmental authorities that are directly imposed on a revenue-producing transaction between a seller and a customer. The amounts included in revenue and expense on a gross basis were \$44.4 million and \$37.4 million for the three months ended September 30, 2013 and 2012, respectively, and \$111.9 million and \$104.0 million for the nine months ended September 30, 2013 and 2012, respectively.

Recent Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board issued Accounting Standards Update No. 2013-02, Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. Significant amounts reclassified from each component of accumulated other comprehensive income and the income statement line items affected by the reclassification shall be disclosed in a note to the consolidated financial statements or presented parenthetically on the face of the financial statements (we refer you to Note 3 Accumulated Other Comprehensive Income (Loss)).

We have adopted the disclosure requirements as presented in the amendment to subtopic 210-20 Disclosures about Offsetting Assets and Liabilities which requires that we disclose separately for assets and liabilities the gross recognition and the offsetting amounts which are permitted by our master netting arrangements for our derivative contracts (we refer you to Note 7 Fair Value Measurements and Derivatives).

3. Accumulated Other Comprehensive Income (Loss)

Accumulated other comprehensive income (loss) for the nine months ended September 30, 2013 was as follows (in thousands):

	Accumulated Other Comprehensive Income (Loss)	Change Related to Cash Flow Hedges	Change Related to Shipboard Retirement Plan
Accumulated other comprehensive income (loss) at beginning of period	\$ (17,619)	\$ (7,872)	\$ (9,747)

Accumulated other comprehensive income (loss) at end of period	\$ (33,098)	\$ (23,693)(3)	\$ (9,405)

(1)

We refer you to Note 7 Fair Value Measurements and Derivatives for the affected line items in the Consolidated Statements of Operations.

- (2) Amortization of prior-service cost and actuarial loss reclassified to payroll and related expense.
- (3) Of the existing amounts related to derivatives designated as cash flow hedges, \$1.8 million of income is expected to be reclassified into earnings in the next 12 months.

4. Long-Term Debt

On June 21, 2013, NCLC and certain of its subsidiaries entered into supplemental deeds to the \$334.1 million Norwegian Jewel loan, Breakaway/Getaway Term Loan Facilities, 258.0 million Pride of America loan, and 308.1 million Pride of Hawaii loan. The supplemental deeds amended and restated those credit facilities, reducing the interest rate per annum to a rate equal to the sum of (a) an adjusted LIBOR rate, (b) an applicable margin of 0.95% and (c) certain customary mandatory costs to compensate lenders for the cost of compliance with various financial regulations. In connection with these amendments, we terminated the 40.0 million secured loan agreement, dated as of April 4, 2003, as amended and restated on June 1, 2012, by and among Pride of America Ship Holding, LLC, as borrower, and a syndicate of international banks, and related guarantee by NCLC which had an aggregate outstanding principal balance thereunder of \$16.8 million.

On May 24, 2013, NCLC entered into a credit agreement which provides senior secured financing of \$1.3 billion, consisting of (i) a \$675 million term loan facility maturing on May 24, 2018 (the Term Loan Facility), all of which was borrowed for the purpose of

Table of Contents

refinancing existing senior debt; and (ii) a \$625 million revolving credit facility maturing on May 24, 2018 (the Revolving Loan Facility) and together with the Term Loan Facility, the new senior secured credit facilities), \$117.0 million of which was borrowed as of September 30, 2013.

Borrowings under the new senior secured credit facilities bear interest at a rate per annum equal to (a) an adjusted LIBOR rate or (b) a base rate determined by reference to the highest of (i) the federal funds rate plus 0.50%, (ii) the prime rate of Deutsche Bank and (iii) the adjusted LIBOR rate, in each case plus an applicable margin that is determined by reference to a total leverage ratio, with an applicable margin of between 2.25% and 1.50% with respect to Eurocurrency loans and between 1.25% and 0.50% with respect to base rate loans. The initial applicable margin for borrowings is 2.25% with respect to Eurocurrency borrowings and 1.25% with respect to base rate borrowings.

In addition to paying interest on outstanding principal under the new senior secured credit facilities, a commitment fee rate is determined by reference to a total leverage ratio, with a maximum commitment fee rate of 40% of the applicable margin for Eurocurrency loans.

The Term Loan Facility will be paid in quarterly installments which commenced in September 2013, in a principal amount equal to (a) in the case of installments payable on or prior to May 24, 2015, 1.25% of the loans outstanding immediately after the closing date under the Term Loan Facility and (b) in the case of installments payable after May 24, 2015, 2.50% of the loans outstanding immediately after the closing date under the Term Loan Facility, with the remaining unpaid principal amount of loans under the Term Loan Facility due and payable in full at maturity on May 24, 2018. Principal amounts outstanding under the Revolving Loan Facility are due and payable in full at maturity on May 24, 2018.

In connection with the entry into the new senior secured credit facilities, the \$750.0 million Senior Secured Revolving Credit Facility and the \$624.0 million Norwegian Pearl and Norwegian Gem Revolving Credit Facility were terminated. In addition, the \$227.5 million remaining balance of our 9.50% senior unsecured notes, plus premium and accrued and unpaid interest, was redeemed in full on June 28, 2013.

In April 2013, we took delivery of Norwegian Breakaway. To finance the payment due upon delivery, we drew \$528.0 million of our \$529.8 million Breakaway One Loan which is due April 2025. Also, we drew an aggregate of \$57.7 million of our \$126.1 million Norwegian Jewel Term Loan and \$126.1 million Norwegian Jade Term Loan which will come due April 2016. The loans bear interest at LIBOR plus 1.6%.

In February 2013, NCLC issued \$300.0 million aggregate principal amount of senior unsecured notes bearing interest at a rate of 5% per annum and maturing on February 15, 2018 (the Notes Offering). Interest on the notes will be payable semiannually on February 15 and August 15 of each year, which commenced on August 15, 2013. The notes were issued at 99.451%.

We used the net proceeds that we received from the IPO and the Notes Offering, aggregating approximately \$770.0 million, to pay down debt, including; (i) a prepayment of an aggregate \$55.6 million that became payable upon the consummation of the IPO consisting of \$21.3 million on our \$624.0 million Norwegian Pearl and Norwegian Gem Revolving Credit Facility, \$14.7 million on our \$308.1 million Pride of Hawaii loan, \$8.0 million on our \$334.1 million Norwegian Jewel loan, \$10.1 million on our \$258.0 million Pride of America loan and \$1.5 million on our \$40.0 million Pride of America commercial loan, (ii) a payment to Genting HK of \$79.7 million in connection with the Norwegian Sky purchase agreement, (iii) a full redemption of our \$450.0 million 11.75% senior secured notes due 2016 and (iv) a partial redemption of \$122.5 million aggregate principal amount of our 9.50% senior unsecured notes. Expenses related to these debt prepayments were approximately \$90.5 million and were recognized in interest expense.

5. Related Party Disclosures

Following the IPO, NCLH contributed \$460.0 million to NCLC. The relative ownership percentages of NCLH's ordinary shares following the IPO were as follows: Genting HK (43.4%), the Apollo Funds (32.5%), the TPG Viking Funds (10.8%) and public shareholders (13.3%). We also made payments of \$98.2 million to Genting HK in connection with the Norwegian Sky purchase agreement.

In August 2013, we had our Secondary Offering by the Selling Shareholders. We did not receive any proceeds from this offering. As of September 30, 2013, the relative ownership percentages of NCLH's ordinary shares were as follows: Genting HK (37.5%), the Apollo Funds (28.1%), the TPG Viking Funds (9.4%), and public shareholders (25.0%). As of September 30, 2013, NCLH had a (97.7%) economic interest in NCLC.

6. Income Tax Expense

NCLH is treated as a corporation for U.S. federal income tax purposes. For the three and nine months ended September 30, 2013, income tax expense was \$7.9 million and \$11.2 million, respectively. Income tax expense for the nine months includes a one-time expense of \$4.2 million due to a change in U.S. tax status from a partnership to a corporation in connection with our IPO and a benefit of \$2.6 million in connection with our prepayments of debt.

In September 2013, we commenced the implementation of a global tax platform. The implementation of this new platform is expected to be completed by December 31, 2013 and, accordingly, its effect has been included as a reduction of \$6.6 million to income tax expense for the three and nine months ended September 30, 2013.

7. Fair Value Measurements and Derivatives

Fair value is defined as the price at which an orderly transaction to sell an asset or to transfer a liability would take place between market participants at the measurement date under current market conditions (that is, an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability).

Fair Value Hierarchy

The following hierarchy for inputs used in measuring fair value should maximize the use of observable inputs and minimize the use of unobservable inputs by requiring that the most observable inputs be used when available:

- Level 1 Quoted prices in active markets for identical assets or liabilities that are accessible at the measurement dates.
- Level 2 Significant other observable inputs that are used by market participants in pricing the asset or liability based on market data obtained from independent sources.
- Level 3 Significant unobservable inputs we believe market participants would use in pricing the asset or liability based on the best information available.

Derivatives

We are exposed to market risk attributable to changes in interest rates, foreign currency exchange rates and fuel prices. We attempt to minimize these risks through a combination of our normal operating and financing activities and through the use of derivatives. We assess whether derivatives used in hedging transactions are highly effective in offsetting changes in the cash flow of our hedged forecasted transactions. We use regression analysis for this hedge relationship and high effectiveness is achieved when a statistically valid relationship reflects a high degree of offset and correlation between the fair values of the derivative and the hedged forecasted transaction. Cash flows from the derivatives are classified in the same category as the cash flows from the underlying hedged transaction. The determination of ineffectiveness is based on the amount of dollar offset between the cumulative change in fair value of the derivative and the cumulative change in fair value of the hedged transaction at the end of the reporting period. If it is determined that a derivative is not highly effective as a hedge, or if the hedged forecasted transaction is no longer probable of occurring, then the amount recognized in accumulated other comprehensive income (loss) is released to earnings. In addition, the ineffective portion of our highly effective hedges is recognized in earnings immediately and reported in other income (expense) in our consolidated statements of operations. There are no amounts excluded from the assessment of hedge effectiveness and there are no credit-risk-related contingent features in our derivative agreements.

Table of Contents

We monitor concentrations of credit risk associated with financial and other institutions with which we conduct significant business. Credit risk, including but not limited to counterparty non-performance under derivatives and our revolving credit facility, is not considered significant, as we primarily conduct business with large, well-established financial institutions that we have established relationships with and that have credit risks acceptable to us or the credit risk is spread out among a large number of creditors. We do not anticipate non-performance by any of our significant counterparties. The following table sets forth the fair value of our derivatives including the balance sheet location (in thousands):

Table of Contents

The fair values of swap and forward contracts are determined based on inputs that are readily available in public markets or can be derived from information available in publicly quoted markets. The Company determines the value of options and collars utilizing an option pricing model based on inputs that are either readily available in public markets or can be derived from information available in publicly quoted markets. The option pricing model used by the Company is an industry standard model for valuing options and is used by the broker/dealer community. The inputs to this option pricing model are the option strike price, underlying price, risk-free rate of interest, time to expiration and volatility. The fair value of option and collar contracts considers both the intrinsic value and any remaining time value associated with those derivatives that have not yet settled. The Company also considers counterparty credit risk and its own credit risk in its determination of all estimated fair values. Our derivatives and financial instruments were categorized as Level 2 in the fair value hierarchy, and we had no derivatives or financial instruments categorized as Level 1 or Level 3.

Our derivative contracts include rights of offset with our counterparties. We have elected to net certain assets and liabilities within counterparties. We are not required to post cash collateral related to our derivative instruments. The following table discloses the amounts recognized within assets and liabilities (in thousands):

		Gross Amounts	Offset	Total Net Amounts	Gross Amounts Not Offset	Net Amounts

Fuel Swaps

As of September 30, 2013, we had fuel swaps maturing through December 31, 2016 which are used to mitigate the financial impact of volatility in fuel prices pertaining to approximately 745,000 metric tons of our projected fuel purchases. The effects on the consolidated financial statements of the fuel swaps which were designated as cash flow hedges were as follows (in thousands):

Foreign Currency Options

As of September 30, 2013, we had foreign currency derivatives consisting of call options with deferred premiums which are used to mitigate the financial impact of volatility in foreign currency exchange rates related to our ship construction contracts denominated in euros. If the spot rate at the date the ships are delivered is less than the strike price under these option contracts, we would pay the deferred premium and not exercise the foreign currency options. The notional amount of our foreign currency options was 175.0 million, or \$236.7 million based on the euro/U.S. dollar exchange rate as of September 30, 2013. The effects on the consolidated financial statements of the foreign currency options which were designated as cash flow hedges were as follows (in thousands):

As of September 30, 2013, we had a foreign currency collar used to mitigate the volatility of foreign currency exchange rates related to our ship construction contracts denominated in euros. The notional amount of our foreign currency collar was 100.0 million, or \$135.3 million based on the euro/U.S. dollar exchange rate as of September 30, 2013. The effects on the consolidated financial statements of the foreign currency collar which was designated as a cash flow hedge was as follows (in thousands):

Interest Rate Swaps

As of September 30, 2013, we had interest rate swap agreements to modify our exposure to interest rate movements and to manage our interest expense. The notional amount of outstanding debt associated with the interest rate swap agreements was \$705.8 million. The effects on the consolidated financial statements of the interest rates swaps which were designated as cash flow hedges were as follows (in thousands):

Long-Term Debt

As of September 30, 2013 and December 31, 2012, the fair value of our long-term debt, including the current portion, was \$3,105.0 million and \$3,106.9 million, which was \$8.0 million lower and \$121.5 million higher, respectively, than the carrying values. The difference between the fair value and carrying value of our long-term debt is due to our fixed and variable rate debt obligations carrying interest rates that are above or below market rates at the measurement dates. The fair value of our long-term debt was calculated based on estimated rates for the same or similar instruments with similar terms and remaining maturities. The calculation of the fair value of our long-term debt is considered a Level 2 input.

Other

The carrying amounts reported in the consolidated balance sheets of all financial assets and liabilities other than our long-term debt approximate fair value.

8. Commitments and Contingencies

Ship Construction Contracts

Norwegian Getaway is under construction with Meyer Werft and is scheduled for delivery in January 2014. This ship will be approximately 144,000 Gross Tons with 4,000 Berths at an aggregate cost of approximately 627.7 million, or \$849.1 million based on the euro/U.S. dollar exchange rate as of September 30, 2013. We have export credit financing in place that provides financing for 90% of its contract price.

We also have orders with Meyer Werft for two additional ships for delivery in the fourth quarter of 2015 and the first quarter of 2017. These ships, Norwegian Escape and Norwegian Bliss, will be the largest in our fleet at approximately 163,000 Gross Tons with 4,200 Berths each and will be similar in design and innovation to our Breakaway Class Ships. The combined contract cost of these two additional ships is approximately 1.4 billion, or \$1.9 billion based on the euro/U.S. dollar exchange rate as of September 30, 2013. We have export credit financing in place that provides financing for 80% of their contract price.

In connection with the contracts to build the ships, we do not anticipate any contractual breaches or cancellation to occur. However, if any would occur, it could result in, among other things, the forfeiture of prior deposits or payments made by us and potential claims and impairment losses which may materially impact our business, financial condition and results of operations.

Litigation

In July 2009, a class action complaint was filed against NCL (Bahamas) Ltd. in the United States District Court, Southern District of Florida, on behalf of a purported class of crew members alleging inappropriate deductions of their wages pursuant to the Seaman's Wage Act and wrongful termination resulting in a loss of retirement benefits. In December 2010, the Court denied the plaintiffs' Motion for Class Certification. In February 2011, the plaintiffs filed a Motion for Reconsideration as to the Court's Order on Class

Certification which was denied. The Court tried six individual plaintiffs' claims, and in September 2012 awarded wages aggregating approximately \$100,000 to such plaintiffs. In October 2013, the United States Court of Appeals for the Eleventh Circuit affirmed the Court's rulings as to the denial of class certification and the trial verdict. We intend to continue to vigorously defend this action and are not able at this time to estimate the impact of these proceedings.

In May 2011, a class action complaint was filed against NCL (Bahamas) Ltd. in the United States District Court, Southern District of Florida, on behalf of a purported class of crew members alleging inappropriate deductions of their wages pursuant to the Seaman's Wage Act and breach of contract. In July 2012, this action was stayed by the Court pending the outcome of the litigation commenced with the class action complaint filed in July 2009. We are vigorously defending this action and are not able at this time to estimate the impact of these proceedings.

In the normal course of our business, various other claims and lawsuits have been filed or are pending against us. Most of these claims and lawsuits are covered by insurance and, accordingly, the maximum amount of our liability is typically limited to our deductible amount. Nonetheless, the ultimate outcome of these claims and lawsuits that are not covered by insurance cannot be determined at this time. We have evaluated our overall exposure with respect to all of our threatened and pending litigation and, to the extent required, we have accrued amounts for all estimable probable losses associated with our deemed exposure. We are currently unable to estimate any other potential contingent losses beyond those accrued, as discovery is not complete nor is adequate information available to estimate such range of loss or potential recovery. We intend to vigorously defend our legal position on all claims and, to the extent necessary, seek recovery.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements in this report constitute forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical facts in this report, including, without limitation, those regarding our business strategy, financial position, results of operations, plans, prospects and objectives of management for future operations (including development plans and objectives relating to our activities), are forward-looking statements. Many, but not all of these statements can be found by looking for words like expect, anticipate, goal, project, plan, believe, seek, will, may, estimate, intend and future and for similar words. Forward-looking statements do not guarantee future performance and may involve risks, uncertainties and other factors which could cause our actual results, performance or achievements to differ materially from the future results, performance or achievements expressed or implied in those forward-looking statements. Examples of these risks, uncertainties and other factors include, but are not limited to:

the adverse impact of the worldwide economic downturn and related factors such as high levels of unemployment and underemployment, declines in the securities and real estate markets, and perceptions of these conditions that decrease the level of disposable income of consumers or consumer confidence;

changes in cruise capacity, as well as capacity changes in the overall vacation industry;

intense competition from other cruise companies as well as non-cruise vacation alternatives which may affect our ability to compete effectively;

our substantial leverage, including the inability to generate the necessary amount of cash to service our existing debt, repay our credit facilities if payment is accelerated and incur substantial indebtedness in the future;

changes in fuel prices or other cruise operating costs;

the risks associated with operating internationally, including changes in interest rates and/or foreign currency rates;

the continued borrowing availability under our credit facilities and compliance with our financial covenants;

our ability to incur significantly more debt despite our substantial existing indebtedness;

the impact of volatility and disruptions in the global credit and financial markets which may adversely affect our ability to borrow and could increase our counterparty credit risks, including those under our credit facilities, derivatives, contingent obligations, insurance contracts and new ship progress payment guarantees;

adverse events impacting the security of travel that may affect consumer demand for cruises such as terrorist acts, acts of piracy, armed conflict and other international events;

the impact of any future changes relating to how travel agents sell and market our cruises;

the impact of any future increases in the price of, or major changes or reduction in, commercial airline services;

the impact of delays, costs and other factors resulting from emergency ship repairs as well as scheduled repairs, maintenance and refurbishment of our ships;

the delivery schedules and estimated costs of new ships on terms that are favorable or consistent with our expectations;

the impact of problems encountered at shipyards, as well as, any potential claim, impairment loss, cancellation or breach of contract in connection with our contracts with shipyards;

the impact of the spread of contagious diseases;

accidents and other incidents affecting the health, safety, security and vacation satisfaction of guests or causing damage to ships, which could cause the modification of itineraries or cancellation of a cruise or series of cruises;

our ability to obtain insurance coverage on terms that are favorable or consistent with our expectations;

the impact of any breaches in data security or other disturbances to our information technology and other networks;

the continued availability of attractive port destinations;

the impact of weather and natural disasters;

our ability to attract and retain key personnel and qualified shipboard crew, maintain good relations with employee unions, maintain or renegotiate our collective bargaining agreements on favorable terms and

prevent any disruptions in work;

the control of our Company by our Sponsors whose interests may not continue to be aligned with ours;

changes involving the tax, environmental, health, safety, security and other regulatory regimes in which we operate;

increases in our future fuel expenses related to implementing IMO regulations, which require the use of higher priced low sulfur fuels in certain cruising areas;

the implementation of regulations in the U.S. requiring U.S. citizens to obtain passports for travel to additional foreign destinations;

the impact of pending or threatened litigation and investigations; and

other factors set forth under Risk Factors.

The above examples are not exhaustive and new risks emerge from time to time. Except as required by law, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Such forward-looking statements are based on our current beliefs, assumptions, expectations, estimates and projections regarding our present and future business strategies and the environment in which we will operate in the future. These forward-looking statements speak only as of the date of this report. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement contained herein to reflect any change in our expectations with regard thereto or any change of events, conditions or circumstances on which any such statement was based.

The interim consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2012, which are included in our most recently filed Annual Report on Form 10-K.

Non-GAAP Financial Measures

We use certain non-GAAP financial measures, such as Net Revenue, Net Yield, Net Cruise Cost, Adjusted Net Cruise Cost Excluding Fuel and Adjusted EBITDA to enable us to analyze our performance. We utilize Net Revenue and Net Yield to manage our business on a day-to-day basis and believe that they are the most relevant measures of our revenue performance because they reflect the revenue earned by us net of significant variable costs. In measuring our ability to control costs in a manner that positively impacts net income, we believe changes in Net Cruise Cost and Adjusted Net Cruise Cost Excluding Fuel to be the most relevant indicators of our performance.

As our business includes the sourcing of passengers and deployment of vessels outside of North America, a portion of our revenue and expenses are denominated in foreign currencies, particularly euro and British Pound sterling, which are subject to fluctuations in currency exchange rates versus our reporting currency, the U.S. dollar. In order to monitor results excluding these fluctuations, we calculate certain non-GAAP measures on a Constant Currency basis whereby current period revenue and expenses denominated in foreign currencies are converted to U.S. dollars using currency exchange rates of the comparable period. We believe that presenting these non-GAAP measures on both a reported and Constant Currency basis is useful in providing a more comprehensive view of trends in our business.

We believe that Adjusted EBITDA is appropriate as a supplemental financial measure as it is used by management to assess operating performance, is a factor in the evaluation of the performance of management and is the primary metric used in determining the Company's performance incentive bonus paid to its employees. We believe that Adjusted EBITDA is a useful measure in determining the Company's performance as it reflects certain operating drivers of the Company's business, such as sales growth, operating costs, marketing, general and administrative expense and other operating income and expense. Adjusted EBITDA is not a defined term under GAAP. Adjusted EBITDA is not intended to be a measure of liquidity or cash flows from operations or measures comparable to net income as it does not take into account certain requirements such as capital expenditures and related depreciation, principal and interest payments and tax payments and it includes other supplemental adjustments.

In addition, Adjusted Net Income and Adjusted EPS are supplemental financial measures used to demonstrate GAAP net income and EPS excluding certain charges. We use Adjusted Net Income and Adjusted EPS as key performance measures of our earnings performance, and we believe that both management and investors benefit from referring to these non-GAAP financial measures in assessing our performance and when planning, forecasting, and analyzing future periods. These non-GAAP financial measures also facilitate management's internal comparison to our historical performance. These charges vary from period to period; thus, our presentation of Adjusted Net Income and Adjusted EPS may not be indicative of future adjustments or results.

You are encouraged to evaluate each adjustment used in calculating our non-GAAP financial measures and the reasons we consider our non-GAAP financial measures appropriate for supplemental analysis. In evaluating our non-GAAP financial measures, you should be aware that in the future we may incur expenses similar to the adjustments in our presentation. Our non-GAAP financial measures have limitations as analytical tools, and you should not consider these measures in isolation or as a substitute for analysis of our results as reported under GAAP. Our presentation of our non-GAAP financial measures should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Our non-GAAP financial measures may not be comparable to other companies. Please see a historical reconciliation of these measures to items in our consolidated financial statements below in the Results of Operations section.

Financial Presentation

Revenue from our cruise and cruise-related activities are categorized by us as passenger ticket revenue and onboard and other revenue. Passenger ticket revenue and onboard and other revenue vary according to the size of the ship in operation, the length of cruises operated and the markets in which the ship operates. Our revenue is seasonal based on demand for cruises, which has historically been strongest during the summer months.

Passenger ticket revenue primarily consists of revenue for accommodations, meals in certain restaurants on the ship, certain onboard entertainment, and includes revenue for service charges and air and land transportation to and from the ship to the extent passengers purchase these items from us.

Onboard and other revenue primarily consists of revenue from gaming, beverage sales, specialty dining, shore excursions, retail sales and spa services. We record onboard revenue from onboard activities we perform directly or that are performed by independent concessionaires, from which we receive a share of their revenue.

Our cruise operating expense is classified as follows:

Commissions, transportation and other primarily consists of direct costs associated with passenger ticket revenue. These costs include travel agent commissions, air and land transportation expenses, related credit card fees, costs associated with service charges and certain port expenses.

Table of Contents

Onboard and other primarily consists of direct costs that are incurred in connection with onboard and other revenue. These include costs incurred in connection with shore excursions, beverage sales and gaming.

Payroll and related consists of the cost of wages and benefits for shipboard employees.

Fuel includes fuel costs, the impact of certain fuel hedges and fuel delivery costs.

Food consists of food costs for passengers and crew.

Other consists of repairs and maintenance (including Dry-dock costs), ship insurance, Charter costs and other ship expenses.

Executive Quarterly Overview

In August 2013, we had our Secondary Offering by the Selling Shareholders. We did not receive any proceeds from this offering.

In July 2013, we confirmed an order with Meyer Werft for the construction of Norwegian Bliss which is scheduled to be delivered in the first quarter of 2017. Together with Norwegian Escape, which is to be delivered in the fourth quarter of 2015, these new ships will be the largest in our fleet at approximately 163,000 Gross Tons with 4,200 Berths each and will be similar in design and innovation to our Breakaway Class Ships. The combined contract cost of these two ships is approximately 1.4 billion, or \$1.9 billion based on the euro/U.S. dollar exchange rate as of September 30, 2013. We have export credit financing in place for these two ships that provides financing for 80% of their contract price.

For the third quarter of 2013, we reported Adjusted Net Income of \$182.2 million and Adjusted EPS of \$0.86, which excludes \$4.1 million of expenses related to non-cash compensation and \$5.2 million of expenses incurred from a change in corporate entity structure and our Secondary Offering. On a GAAP basis, net income attributable to Norwegian Cruise Line Holdings Ltd. and diluted earnings per share were \$170.9 million and \$0.82, respectively.

Three months ended September 30, 2013 (2013) compared to the three months ended September 30, 2012 (2012)

Total revenue increased 18.3% to \$797.9 million in 2013 compared to \$674.4 million in 2012. Net Revenue in 2013 increased 19.6% to \$596.1 million from \$498.4 million in 2012 due to an increase in Capacity Days of 14.9% primarily due to the delivery of Norwegian Breakaway in April 2013 and an increase in Net Yield of 4.1%.

Operating income in 2013 was \$208.1 million compared to \$174.1 million in 2012 and Adjusted EBITDA (we refer you to our Results of Operations below for a calculation of Adjusted EBITDA) improved 21.2% for the same period.

Three months ended September 30, 2013 (2013) compared to three months ended September 30, 2012 (2012)

Revenue

Total revenue increased 18.3% to \$797.9 million in 2013 compared to \$674.4 million in 2012. Net Revenue increased 19.6% in 2013, due to an increase in Capacity Days of 14.9% primarily due to the delivery of Norwegian Breakaway in April 2013 and an increase in Net Yield of 4.1%. The increase in Net Yield was due to an increase in passenger ticket pricing and higher onboard and other revenue, partially due to the introduction of Norwegian Breakaway to the fleet. On a Constant Currency basis, Net Yield increased 3.9% in 2013 compared to 2012.

Expense

Total cruise operating expense increased 15.7% in 2013 compared to 2012 primarily due to the increase in Capacity Days discussed above. Total other operating expense increased 25.9% in 2013 compared to 2012 primarily due to the timing of certain expenses,

Table of Contents

depreciation expense related to the addition of Norwegian Breakaway and expenses incurred from a change in corporate entity structure and our Secondary Offering. On a Capacity Day basis, Net Cruise Cost increased 4.7% and 4.5% on an as reported and Constant Currency basis, respectively, due to the increase in Capacity Days and expenses discussed above. Adjusted Net Cruise Cost Excluding Fuel per Capacity Day increased 4.6% and 4.3% on an as reported and Constant Currency basis, respectively, mainly due to the timing of certain expenses.

Interest expense, net decreased to \$26.6 million in 2013 from \$47.2 million in 2012 primarily due to lower interest rates resulting from the benefits from the redemption of higher rate debt and refinancing transactions.

Income tax expense increased to \$7.9 million in 2013 from \$0.4 million in 2012 primarily due to the change in our U.S. tax status from a partnership to a corporation in connection with our IPO.

Nine months ended September 30, 2013 (2013) compared to nine months ended September 30, 2012 (2012)

Revenue

Total revenue increased 11.1% to \$2.0 billion in 2013 compared to \$1.8 billion in 2012. Net Revenue increased 11.7% in 2013, due to an increase in Capacity Days of 7.1% related to the delivery of Norwegian Breakaway in April 2013 and an increase in Net Yield of 4.4%. The increase in Net Yield was due to an increase in passenger ticket pricing and higher onboard and other revenue, partially due to the introduction of Norwegian Breakaway to the fleet. On a Constant Currency basis, Net Yield increased 4.3% in 2013 compared to 2012.

Expense

Total cruise operating expense increased 9.4% in 2013 compared to 2012 primarily due to an increase in Capacity Days, fuel expense and expenses related to planned Dry-docks, partially offset by the timing of certain expenses. The increase in fuel expense was primarily the result of a 4.9% increase in the average fuel price to \$685 per metric ton in 2013 from \$653 per metric ton in 2012. Total other operating expense increased 19.3% in 2013 compared to 2012 primarily due to non-cash expenses related to share-based compensation recognized upon the realization of the IPO, the timing of certain expenses and the depreciation expense related to the addition of Norwegian Breakaway. On a Capacity Day basis, Net Cruise Cost increased 5.2% on both an as reported and Constant Currency basis due to the expenses discussed above. Adjusted Net Cruise Cost Excluding Fuel per Capacity Day increased 2.5% and 2.4% on an as reported and Constant Currency basis, respectively, mainly due to the timing of certain expenses.

Interest expense, net increased to \$258.0 million in 2013 from \$142.3 million in 2012 primarily due to \$160.6 million of expenses associated with debt prepayments partially offset by lower interest rates resulting from the benefits from the redemption of higher rate debt and refinancing transactions.

Income tax expense increased to \$11.2 million in 2013 from \$0.5 million in 2012 primarily due to the change in our U.S. tax status from a partnership to a corporation in connection with our IPO.

Liquidity and Capital Resources

General

As of September 30, 2013, our liquidity was \$565.0 million consisting of \$57.0 million in cash and cash equivalents and \$508.0 million available under our Revolving Loan Facility. Our primary ongoing liquidity requirements are to finance working capital, capital expenditures and debt service.

As of September 30, 2013, we had a working capital deficit of \$890.7 million. This deficit included \$434.5 million of advance ticket sales, which represents the passenger revenues we collect in advance of sailing dates and accordingly are substantially more like deferred revenue balances rather than actual current cash liabilities. Our business model, along with our Revolving Loan Facility, allows us to operate with a working capital deficit and still meet our operating, investing and financing needs.

Sources and Uses of Cash

In this section, references to 2013 refer to the nine months ended September 30, 2013 and references to 2012 refer to the nine months ended September 30, 2012.

Net cash provided by operating activities was \$398.3 million in 2013 as compared to \$376.5 million in 2012. The change in net cash provided by operating activities reflects the net income in 2013 of \$66.5 million which included fees of \$124.2 million related to prepayment of debt compared to net income in 2012 of \$167.5 million, as well as timing differences in cash receipts and payments relating to operating assets and liabilities. The 2012 balance included \$6.0 million related to the premium received from the issuance of \$100.0 million of senior unsecured notes.

Net cash used in investing activities was \$835.8 million in 2013, primarily related to the payments for construction and delivery of Norwegian Breakaway and construction of Norwegian Getaway, as well as other ship improvements and shoreside projects. Net cash used in investing activities was \$229.9 million in 2012, primarily related to the payments for construction of Norwegian Breakaway and Norwegian Getaway, the purchase of Norwegian Sky, and other ship improvements and shoreside projects.

Table of Contents

Net cash provided by financing activities was \$448.9 million in 2013, primarily due to the issuance of our \$300.0 million 5% senior notes due 2018 as well as borrowings under other credit facilities and the proceeds from the issuance of ordinary shares partially offset by repayments of our \$450.0 million 11.75% senior secured notes due 2016 and revolving credit facilities and a payment related to Norwegian Sky purchase agreement. Net cash used in financing activities was \$136.9 million in 2012, primarily due to repayments of our revolving credit facilities and other borrowings which were partially offset by the issuance of \$100.0 million of senior unsecured notes.

Future Capital Commitments

Future capital commitments consist of contracted commitments, including future expected capital expenditures for business enhancements and ship construction contracts. As of September 30, 2013, anticipated capital expenditures together with amounts for ship construction and related export credit financing were as follows (in thousands, based on the euro/U.S. dollar exchange rate as of September 30, 2013):

	Fourth Quarter 2013	2014	Full Year	
			2015	2016
Ship construction	\$ 37,143	\$ 787,591	\$ 940,321	\$ 114,041
Ship financing		(696,213)	(749,290)	(45,345)
Ship construction net of financing	\$ 37,143	\$ 91,378	\$ 191,031	\$ 68,696
Business Enhancement Capital Expenditures (1)	\$ 22,147	\$ 110,000	\$ 90,000	\$ 85,000

(1) For the fourth quarter and full year 2013, Business Enhancement Capital Expenditures include \$7.0 million and \$40.0 million for ROI Capital Expenditures, respectively.

Norwegian Getaway is under construction with Meyer Werft and is scheduled for delivery in January 2014. This ship will be approximately 144,000 Gross Tons with 4,000 Berths at an aggregate cost of approximately 627.7 million, or \$849.1 million based on the euro/U.S. dollar exchange rate as of September 30, 2013. We have export credit financing in place that provides financing for 90% of its contract price.

We also have orders with Meyer Werft for two additional ships for delivery in the fourth quarter of 2015 and the first quarter of 2017. These ships, Norwegian Escape and Norwegian Bliss, will be the largest in our fleet at approximately 163,000 Gross Tons with 4,200 Berths each and will be similar in design and innovation to our Breakaway Class Ships. The combined contract cost of these two additional ships is approximately 1.4 billion, or \$1.9 billion based on the euro/U.S. dollar exchange rate as of September 30, 2013. We have export credit financing in place that provides financing for 80% of their contract price.

In connection with the contracts to build these ships, we do not anticipate any contractual breaches or cancellation to occur. However, if any would occur, it could result in, among other things, the forfeiture of prior deposits or payments made by us, subject to certain refund guarantees, and potential claims and impairment losses which may materially impact our business, financial condition and results of operations.

Capitalized interest for the three months ended September 30, 2013 and 2012 was \$5.9 million and \$5.7 million, respectively, and for the nine months ended September 30, 2013 and 2012 was \$19.0 million and \$15.7 million, respectively, associated with the construction of Norwegian Breakaway and Norwegian Getaway.

Off-Balance Sheet Transactions

None.

(6) Includes fixed and variable rates with LIBOR held constant as of September 30, 2013.

(7) Future commitments for service and maintenance contracts.

Other

Certain of our service providers may require collateral in the normal course of our business. The amount of collateral may change based on certain terms and conditions.

As a routine part of our business, depending on market conditions, exchange rates, pricing and our strategy for growth, we regularly consider opportunities to enter into contracts for the building of additional ships. We may also consider the sale of ships, potential acquisitions and strategic alliances. If any of these were to occur, they may be financed through the incurrence of additional permitted indebtedness, through cash flows from operations, or through the issuance of debt, equity or equity-related securities.

Funding Sources

Our debt agreements contain covenants that, among other things, require us to maintain a minimum level of liquidity, as well as limit our net funded debt-to-capital ratio, maintain certain other ratios and restrict our ability to pay dividends. Our ships and substantially all other property and equipment are pledged as collateral for our debt. We believe we were in compliance with these covenants as of September 30, 2013.

The impact of changes in world economies and especially the global credit markets has created a challenging environment and may reduce future consumer demand for cruises and adversely affect our counterparty credit risks. In the event this environment deteriorates, our business, financial condition and results of operations could be adversely impacted.

We believe our cash on hand, expected future operating cash inflows, additional available borrowings under our existing credit facility and our ability to issue debt securities or raise additional equity, will be sufficient to fund operations, debt payment requirements, capital expenditures and maintain compliance with covenants under our debt agreements over the next twelve-month period. As a result of the equity infusion from the IPO and the related use of proceeds, our leverage was improved and our balance sheet was strengthened. There is no assurance that cash flows from operations and additional financings will be available in the future to fund our future obligations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

General

We are exposed to market risk attributable to changes in interest rates, foreign currency exchange rates and fuel prices. We attempt to minimize these risks through a combination of our normal operating and financing activities and through the use of derivatives. The financial impacts of these derivative instruments are primarily offset by corresponding changes in the underlying exposures being hedged. We achieve this by closely matching the amount, term and conditions of the derivatives with the underlying risk being hedged. We do not hold or issue derivatives for trading or other speculative purposes. Derivative positions are monitored using techniques including market valuations and sensitivity analyses.

Table of Contents

Interest Rate Risk

From time to time, we consider entering into interest rate swap agreements to modify our exposure to interest rate movements and to manage our interest expense. As of September 30, 2013, 39% of our debt was fixed and 61% was variable which includes the effects of the interest rate swap. The notional amount of outstanding debt associated with the interest rate swap agreements as of September 30, 2013 was \$705.8 million. Based on our September 30, 2013 outstanding variable rate debt balance, a one percentage point increase in annual LIBOR interest rates would increase our annual interest expense by approximately \$18.9 million excluding the effects of capitalization of interest.

Foreign Currency Exchange Rate Risk

As of September 30, 2013, we had foreign currency options, including call options with deferred premiums and a collar, to hedge the exposure to volatility in foreign currency exchange rates related to our ship construction contracts denominated in euros. These derivatives hedge the foreign currency exchange rate risk on a portion of the final payments on our ship construction contracts. For the call option contracts, if the spot rate at the date the ships are delivered is less than the strike price we would pay the deferred premiums and not exercise the options. For the collar, if the spot rate at the date the ships are delivered is more than the put option strike price and less than the call option strike price, neither the put or call option will be exercised. As of September 30, 2013, the remaining payments not hedged aggregate 1,601.0 million, or \$2,165.7 million based on the euro/U.S. dollar exchange rate as of September 30, 2013. We estimate that a 10% change in the euro as of September 30, 2013 would result in a \$216.6 million change in the U.S. dollar value of the foreign currency denominated remaining payments.

Fuel Price Risk

Our exposure to market risk for changes in fuel prices relates to the forecasted purchases of fuel on our ships. Fuel expense, as a percentage of our total cruise operating expense, was 16.9% and 17.7% for the three months ended September 30, 2013 and 2012 and 18.2% for each of the nine months ended September 30, 2013 and 2012, respectively. From time to time, we use fuel derivative agreements to mitigate the financial impact of fluctuations in fuel prices. As of September 30, 2013, we had hedged approximately 93%, 64%, 51% and 15% of our 2013, 2014, 2015 and 2016 projected metric tons of fuel purchases, respectively. We estimate that a 10% increase in our weighted-average fuel price would increase our anticipated 2013 fuel expense by \$7.5 million. This increase would be partially offset by an increase in the fair value of our fuel swap agreements and fuel collars and options of \$6.4 million. Fair value of our derivative contracts is derived using valuation models that utilize the income valuation approach. These valuation models take into account the contract terms such as maturity, as well as other inputs such as fuel types, fuel curves, creditworthiness of the counterparty and the Company, as well as other data points.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management has evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of September 30, 2013. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon our management's evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance that the information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized

and reported within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the quarter ended September 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system will be met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there is only the reasonable assurance that our controls will succeed in achieving their goals under all potential future conditions.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In July 2009, a class action complaint was filed against NCL (Bahamas) Ltd. in the United States District Court, Southern District of Florida, on behalf of a purported class of crew members alleging inappropriate deductions of their wages pursuant to the Seaman's Wage Act and wrongful termination resulting in a loss of retirement benefits. In December 2010, the Court denied the plaintiffs' Motion for Class Certification. In February 2011, the plaintiffs filed a Motion for Reconsideration as to the Court's Order on Class Certification which was denied. The Court tried six individual plaintiffs' claims, and in September 2012 awarded wages aggregating approximately \$100,000 to such plaintiffs. In October 2013, the United States Court of Appeals for the Eleventh Circuit affirmed the Court's rulings as to the denial of class certification and the trial verdict. We intend to continue to vigorously defend this action and are not able at this time to estimate the impact of these proceedings.

In May 2011, a class action complaint was filed against NCL (Bahamas) Ltd. in the United States District Court, Southern District of Florida, on behalf of a purported class of crew members alleging inappropriate deductions of their wages pursuant to the Seaman's Wage Act and breach of contract. In July 2012, this action was stayed by the Court pending the outcome of the litigation commenced with the class action complaint filed in July 2009. We are vigorously defending this action and are not able at this time to estimate the impact of these proceedings.

In the normal course of our business, various other claims and lawsuits have been filed or are pending against us. Most of these claims and lawsuits are covered by insurance and, accordingly, the maximum amount of our liability is typically limited to our deductible amount. Nonetheless, the ultimate outcome of these claims and lawsuits that are not covered by insurance cannot be determined at this time. We have evaluated our overall exposure with respect to all of our threatened and pending litigation and, to the extent required, we have accrued amounts for all estimable probable losses associated with our deemed exposure. We are currently unable to estimate any other potential contingent losses beyond those accrued, as discovery is not complete nor is adequate information available to estimate such range of loss or potential recovery. We intend to vigorously defend our legal position on all claims and, to the extent necessary, seek recovery.

Item 1A. Risk Factors

We refer you to our 2012 Annual Report on Form 10-K for a discussion of the risk factors that affect our business and financial results. There have been no material changes to those risk factors.

Item 5. Other Information

Shareholder Proposals

We intend to hold our first Annual Meeting of Shareholders (the Annual Meeting) on April 24, 2014, at a time and location to be determined and specified in our proxy statement related to the Annual Meeting.

Under the Securities and Exchange Commission's proxy rules, we have set the deadline for submission of proposals to be included in our proxy materials for the Annual Meeting as the close of business on December 31, 2013. Accordingly, in order for a shareholder proposal to be considered for inclusion in our proxy materials for the Annual Meeting, the proposal must be received by our Assistant Corporate Secretary, Norwegian Cruise Line Holdings Ltd., 7665 Corporate Center Drive, Miami, Florida 33126, on or before the close of business on December 31, 2013, and must comply with the procedures and requirements set forth in Rule 14a-8 under the Securities Exchange Act of 1934,

as amended.

In accordance with the advance notice requirements contained in our amended and restated bylaws, for director nominations or other business to be brought before the Annual Meeting by a shareholder, other than Rule 14a-8 proposals described above, written notice must be delivered no earlier than on December 25, 2013, and no later than the close of business on January 24, 2014, to our Assistant Corporate Secretary, Norwegian Cruise Line Holdings Ltd., 7665 Corporate Center Drive, Miami, Florida 33126. These shareholder notices also must comply with the requirements of our amended and restated bylaws and will not be effective otherwise.

Disclosure Pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act

Apollo Global Management, LLC (Apollo) has provided notice to us that, as of October 24, 2013, certain investment funds managed by affiliates of Apollo beneficially owned approximately 22% of the limited liability company interests of CEVA Holdings, LLC (CEVA). Under the limited liability company agreement governing CEVA, certain investment funds managed by affiliates of Apollo hold a majority of the voting power of CEVA and have the right to elect a majority of the board of CEVA. CEVA may be deemed to be under common control with us, but this statement is not meant to be an admission that common control exists. As a result, it appears that we are required to provide disclosures as set forth below pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012 (ITRA) and Section 13(r) of the Securities Exchange Act of 1934, as amended (the Exchange Act).

Apollo has informed us that CEVA has provided it with the information below relevant to Section 13(r) of the Exchange Act. The disclosure below does not relate to any activities conducted by us and does not involve us or our management. The disclosure relates solely to activities conducted by CEVA and its consolidated subsidiaries. We have not independently verified or participated in the preparation of the disclosure below.

Through an internal review of its global operations, CEVA has identified the following transactions in an Initial Notice of Voluntary Self-Disclosure that CEVA filed with the U.S. Treasury Department Office of Foreign Assets Control (OFAC) on October 28, 2013. CEVA 's review is ongoing. CEVA will file a further report with OFAC after completing its review.

The internal review indicates that, in December 2012, CEVA Freight Italy Srl (CEVA Italy) provided customs brokerage and freight forwarding services for the export to Iran of two measurement instruments to the Iranian Offshore Engineering Construction Company, a joint venture between two entities that are identified on OFAC 's list of Specially Designated Nationals (SDN). The revenues and net profits for these services were approximately \$1,260.64 USD and \$151.30 USD, respectively. In February 2013, CEVA Freight Holdings (Malaysia) SDN BHD (CEVA Malaysia) provided customs brokerage for export and local haulage services for a shipment of polyethylene resin to Iran shipped on a vessel owned and/or operated by HDS Lines, also an SDN. The revenues and net profits for these services were approximately \$779.54 USD and \$311.13 USD, respectively. In September 2013, CEVA Malaysia provided customs brokerage services for the import into Malaysia of fruit juice from Alifard Co. in Iran via HDS Lines. The revenues and net profits for these services were approximately \$227.41 USD and \$89.29 USD, respectively.

These transactions violate the terms of internal CEVA compliance policies, which prohibit transactions involving Iran. Upon discovering these transactions, CEVA promptly launched an internal investigation, and is taking action to block and prevent such transactions in the future. CEVA intends to cooperate with OFAC in its review of this matter.
