PROPOSAL NO. 1 ELECTION OF DIRECTORS

Nominees. Set forth below for each nominee for election as a director is a brief statement, including the age, principal occupation and business experience for at least the past five years, and any directorships held with public companies.

The members of the Corporate Governance and Nominating Committee of the Board (Governance Committee) have recommended, and the independent members of the Board of Directors have nominated, the persons listed below as nominees for the Board of Directors, all of whom presently are directors of the Company.

The Governance Committee reviews and evaluates individuals for nomination to stand for election as a director who are recommended to the Governance Committee in writing by any of our shareholders pursuant to the procedure outlined below in the section titled Shareholder Nominations of Director Candidates on the same basis as candidates who are suggested by our current or past directors, executive officers, or other sources, which may, from time-to-time, include professional search firms retained by the Governance Committee. In March 2011, the Governance Committee adopted Board Member Recruiting Guidelines that outline the process for the Governance Committee to recruit and evaluate potential director candidates. These guidelines are available on the Corporate Governance page accessed from the Investor Relations page of the Company's website at www.myersind.com. In considering these potential candidates for nomination to stand for election, the Governance Committee will consider: (1) the current composition of the Board and how it functions as a group; (2) the talents, personalities, strengths, and weaknesses of current directors; (3) the value of contributions made by individual directors; (4) the need for a person with specific skills, experiences or background to be added to the Board; (5) any anticipated vacancies due to retirement or other reasons; and (6) other factors which may enter into the nomination decision. The Governance Committee endeavors to select nominees that contribute unique skills and professional experiences in order to advance the performance of the Board of Directors and establish a well-rounded Board with diverse views that reflect the interests of our shareholders. The Governance Committee considers diversity as one of a number of factors in identifying nominees for directors, however, there is no formal policy in this regard. The Governance Committee views diversity broadly to include diversity of experience, skills and viewpoint, in addition to traditional concepts of diversity such as race and gender.

When considering an individual candidate's suitability for the Board, the Governance Committee will evaluate each individual on a case-by-case basis. The Governance Committee does not prescribe minimum qualifications or standards for directors, however, the Governance Committee looks for directors who have personal characteristics, educational backgrounds and relevant experience that would be expected to help further the goals of both the Board and the Company. In addition, the Governance Committee will review the extent of the candidate's demonstrated excellence and success in his or her chosen business, profession, or other career and the skills and talents that the candidate would be expected to add to the Board. The Governance Committee may choose, in individual cases, to conduct interviews with the candidate and/or contact references, business associates, other members of boards on which the candidate serves or other appropriate persons to obtain additional information. The Governance Committee will make its determinations on whether to nominate an individual candidate based on the Board's then-current needs, the merits of that candidate and the qualifications of other available candidates. The Governance Committee believes that each of the nominees possess certain key attributes that the Governance Committee believes to be important for an effective Board.

Each of the below nominees has consented (i) to serve as a nominee, (ii) to being named as a nominee in this Proxy Statement and (iii) to serve as a director if elected. If any nominee should become unavailable for any reason, it is intended that votes will be cast for a substitute nominee designated by the Board. There is no reason to believe that the nominees named will be unable to serve if elected. Proxies cannot be voted for a greater number of nominees than the number named in this Proxy Statement.

Byrd, Sarah R. Coffin, John B. Crowe, William A. Foley, Robert B. Heisler, Jr., Richard P. Johnston, Edward W. Kissel, Daniel R. Lee, and Robert A. Stefanko. In connection with the Board's determination regarding the independence of each non-management director, the Board considered any transactions, relationships and arrangements as required by our independence guidelines. In particular, the Board considered the following relationships: (1) the relationship between A. Schulman, Inc. (A. Schulman) and the Company in connection with its independence determination of Robert A. Stefanko and concluded Mr. Stefanko met the independence requirement; and (2) the relationship between FirstEnergy Corp. (FirstEnergy) and the Company in connection with its independence determination of Robert B. Heisler, Jr. and concluded Mr. Heisler met the independence requirement. Mr. Stefanko is a stockholder of A. Schulman, holding less than 1% of A. Schulman's

Board Role in Risk Oversight. The Board annually reviews the Company's strategic plan, which addresses, among other things, the risks and opportunities facing the Company. The Board also has overall responsibility for executive officer succession planning and reviews succession plans each year. Certain areas of oversight are delegated to the relevant Committees of the Board and the Committees regularly report back on their deliberations. This oversight is enabled by reporting processes that are designed to provide visibility to the Board about the identification, assessment, monitoring and

Table of Contents

management of enterprise-wide risks. In May 2013, management conducted its most recent enterprise-wide risk assessment of the Company and each of its business segments, and in July 2013 presented the assessment results to the Board for review. The focus of this assessment included a review of strategic, financial, operational, compliance and technology objectives and risks for the Company. In addition, on an ongoing basis: (a) the Audit Committee maintains primary responsibility for oversight of risks and exposures pertaining to the accounting, auditing and financial reporting processes of the Company; (b) the Compensation Committee maintains primary responsibility for risks and exposures associated with oversight of the administration and implementation of our compensation policies; and (c) the Governance Committee maintains primary responsibility for risks and exposures associated with corporate governance and succession planning.

Board Attendance. There were a total of eleven regularly scheduled and special meetings of the Board of Directors in 2013. During 2013, all directors attended at least 75% of the aggregate total number of the meetings of the Board and Committees on which they served. In 2013, all of our directors attended our Annual Meeting. Although we do not have a formal policy requiring directors to attend the Annual Meeting, our directors are encouraged to attend.

Interested Parties Communications with the Board of Directors. Our Board provides the following methods for interested parties and shareholders to send communications to a director, to a Committee of the Board, to the non-management directors, or to the Board:

Written Communication. Interested parties may send such communications by mail or courier delivery addressed as follows: Board of Directors (or Committee Chairman, Board Member or Non-Management Directors, as the case may be), c/o Gregory W. Branning, Corporate Secretary, Myers Industries, Inc., 1293 South Main Street, Akron, Ohio 44301. All communications directed to the Board of Directors or to the Non-Management Directors will be forwarded unopened to the Chairman of the Governance Committee. The Chairman of the Governance Committee in turn determines whether the communications should be forwarded to the appropriate members of the Board and, if so, forwards them accordingly. For communications addressed to a particular director or the Chairman of a particular Committee of the Board, however, the Corporate Secretary will forward those communications, unopened, directly to the person or Committee Chairman in question.

Toll Free Hotline. In 2003, the Audit Committee established a hotline for receiving, retaining and treating complaints from any interested party regarding accounting, internal accounting controls and auditing matters, and procedures for the anonymous submission of these concerns. The hotline is maintained by a company which is independent of Myers. Interested parties may also use this hotline to communicate with the Board. Any interested party may contact a director, a Committee of the Board, the non-management directors, or the Board through the toll free hotline at (877) 285-4145. The hotline is available worldwide, 24 hours a day, seven days a week. Note that all reports made through the hotline are directed to either or both the Chairman of the Audit Committee and the Corporate Secretary. We do not permit any retaliation of any kind against any person who submits a complaint or concern under these procedures.

Shareholder Nominations of Director Candidates.

Shareholder Recommendation Policy. The Governance Committee will consider individuals for nomination to stand for election as a director who are recommended to it in writing by any of our shareholders that strictly follow the procedures outlined in the next paragraph below and that send a signed letter of recommendation to the following address: Corporate Governance and Nominating Committee, c/o Mr. Gregory W. Branning, Chief Financial Officer, Senior Vice President and Corporate Secretary, Myers Industries, Inc., 1293 South Main Street, Akron, Ohio 44301.

Recommendation letters must certify that the person making the recommendation is a shareholder of the Company (including the number of shares held as of the date of the recommendation), and further state the reasons for the recommendation, the full name and address of the proposed nominee as well as a biographical history setting forth past and present directorships, employment, occupations and

Table of Contents

civic activities for at least the past five years. Any such recommendation should be accompanied by a signed written statement from the proposed nominee consenting to be named as a candidate and, if nominated and elected, consenting to serve as a director. The letter must also include a signed written statement that the nominating shareholder and the candidate will make available to the Governance Committee all information reasonably requested in furtherance of the Governance Committee's evaluation. The letter must be received before the close of business on or before November 15th of the year prior to our next annual meeting of shareholders.

The Governance Committee reviews and evaluates individuals for nomination to stand for election as a director who are recommended to the Governance Committee in writing by any of our shareholders pursuant to the procedures outlined in the paragraph above on the same basis as candidates who are suggested by our current or past directors, executive officers, or other sources, which may, from time-to-time, include professional search firms retained by the Governance Committee. In considering individuals for nomination to stand for election, the Governance Committee will consider: (1) the current composition of the Board of Directors and how it functions as a group; (2) the talents, personalities, strengths, and weaknesses of current directors; (3) the value of contributions made by individual directors; (4) the need for a person with specific skills, experiences or background to be added to the Board; (5) any anticipated vacancies due to retirement or other reasons; and (6) other factors which may enter into the nomination decision.

When considering an individual candidate's suitability for the Board, the Governance Committee will evaluate each individual on a case-by-case basis. The Governance Committee does not prescribe minimum qualifications or standards for directors, however, the Governance Committee looks for directors who have personal characteristics, educational backgrounds and relevant experience that would be expected to help further the goals of both the Board and the Company. In addition, the Governance Committee will review the extent of the candidate's demonstrated excellence and success in his or her chosen business, profession, or other career and the skills and talents that the candidate would be expected to add to the Board. The Governance Committee may choose, in individual cases, to conduct interviews with the candidate and/or contact references, business associates, other members of boards on which the candidate serves or other appropriate persons to obtain additional information. The Governance Committee will make its determinations on whether to nominate an individual candidate based on the Board's then-current needs, the merits of that candidate and the qualifications of other available candidates.

Shareholder Nomination Policy. In accordance with our Amended and Restated Code of Regulations, a shareholder may directly nominate a candidate for election as a director of the Company only if written notice of such intention is received by the Corporate Secretary not less than sixty (60) days nor more than ninety (90) days prior to the date of such annual meeting of shareholders or special meeting of shareholders for the election of directors. In the event that the date of such meeting to elect directors is not publicly disclosed at least seventy (70) days prior to the date of such meeting, written notice of such shareholder's intent to nominate a candidate must be received by the Corporate Secretary not later than the close of business on the tenth (10th) day following the date on which notice of such meeting is first provided to the shareholders. A shareholder wishing to directly nominate an individual to serve as a director must follow the procedure outlined in Article I, Section 12 of our Amended and Restated Code of Regulations, titled "Advance Notice of Director Nomination" and then send a signed letter of nomination to the following address: Corporate Governance and Nominating Committee, c/o Mr. Gregory W. Branning, Corporate Secretary, Myers Industries, Inc., 1293 South Main Street, Akron, Ohio 44301. Our Amended and Restated Code of Regulations is available on the "Corporate Governance" page accessed from the "Investor Relations" page of the Company's website at www.myersind.com.

Corporate Governance Policies.

Implementation. The Board of Directors has implemented the corporate governance initiatives required by the NYSE rules and the Sarbanes-Oxley Act of 2002. These initiatives include, among

Table of Contents

others, Corporate Governance Guidelines and a Code of Business Conduct and Ethics for the Company's directors, officers and employees. These corporate governance policies and procedures are discussed in various places within this Proxy Statement. In March 2011, the Board incorporated a director resignation policy into its Corporate Governance Guidelines. Pursuant to this director resignation policy, in an uncontested election, any incumbent director who receives a greater number of votes Withheld or Against his or her election than votes For his or her election (and with respect to such incumbent director's election at least 25% of the Company's shares outstanding and entitled to vote thereon were Withheld or voted Against the election of such director) shall submit an offer of resignation to the Board of Directors. The Governance Committee will then recommend to the Board whether to accept or reject any tendered resignations, and the Board will decide whether to accept or reject such tendered resignations. The Board's decision will be publicly disclosed in a Current Report on Form 8-K filed with the SEC. If an incumbent director's tendered resignation is rejected, then he or she will continue to serve until his or her successor is elected, or until his or her earlier resignation, removal from office, or death. If an incumbent director's tendered resignation is accepted, then the Board will have the sole discretion to fill any resulting vacancy to the extent permitted by the Company's Amended and Restated Code of Regulations.

Availability of Corporate Governance Policies. Each of our corporate governance policies is available on the Corporate Governance page accessed from the Investor Relations page of our website at www.myersind.com.

Code of Ethics. We have a Code of Business Conduct and Ethics which incorporates into it a Code of Ethical Conduct for the Finance Officers and Finance Department Personnel, which embodies our commitment to ethical and legal business practices, as well as satisfying the NYSE requirements to implement and maintain such policies. The Board expects all of our officers, directors and other members of our workforce to act ethically at all times. This policy is available on our website at www.myersind.com on the Corporate Governance page accessed from the Investor Relations page.

Stock Ownership Guidelines. In 2010, we implemented, and in January of 2013 we amended, Stock Ownership Guidelines whereby our executive officers and non-employee directors are expected to hold a specified amount of our Common Stock. The Chief Executive Officer is expected to hold an investment position in our Common Stock equal to five times his annual base salary. The Chief Operating Officer and Chief Financial Officer are both expected to hold an investment position equal to three times their respective annual base salaries. The non-employee Directors are expected to hold five times their annual cash Board retainer in our Common Stock. The executive officers and non-employee directors have five years from the effective date of the guidelines to attain the ownership requirement. These Stock Ownership Guidelines are available on the Corporate Governance page accessed from the Investor Relations page of the Company's website at www.myersind.com.

Board Member Recruiting Guidelines. In March 2011, the Governance Committee adopted Board Member Recruiting Guidelines that outline the process for existing Board members to nominate potential director candidates to the Governance Committee. These recruiting guidelines are available on the Corporate Governance page accessed from the Investor Relations page of the Company's website at www.myersind.com.

Executive Sessions of the Board. Effective in December 2002, the Board adopted a policy requiring the non-management directors, both as to the Board and in their respective Committees, to meet regularly in executive session without any management personnel or employee directors present. During 2013, the Board and each Committee met regularly in executive session as follows: Board, eight times; Audit Committee, six times; Compensation Committee, five times; and the Governance Committee, four times.

Independent Chairman. Effective in October 2009, the Board appointed Richard P. Johnston independent Chairman of the Board. The Company believes this leadership structure is appropriate for the Company as it further aligns the interests of the Company and our shareholders by ensuring

Table of Contents

independent leadership of the Board. The independent Chairman serves as a liaison between our directors and our management and helps to maintain open communication and discussion by the Board. Duties of the Chairman are specified in the Charter of the Chairman of the Board of Directors, adopted October 28, 2009, and include serving in a presiding capacity, coordinating the activities of the Board, and such other duties and responsibilities as the Board may determine from time-to-time. This charter is available on our website at www.myersind.com on the Corporate Governance page accessed from the Investor Relations page.

Presiding Directors. The independent directors reported that in 2013 they selected Presiding Directors to preside during executive sessions. The Chairman of the Governance Committee acts as the Presiding Director for the executive sessions of the Board, and the Chairman of each Committee was selected as the Presiding Director for the executive sessions of the applicable Committee of the Board.

Anonymous Reporting. The Audit Committee maintains procedures, including a worldwide telephone hotline, which allows employees and interested parties to report any financial or other concerns anonymously as further detailed under Interested Parties Communications with the Board of Directors above.

Annual Board and Committee Self-Assessments. In 2004, the Board, through the Governance Committee, instituted annual self-assessments of the Board, as well as of the Audit Committee, the Compensation Committee, and the Governance Committee, to assist in determining whether the Board and its Committees are functioning effectively. In early 2013, the Board and each of its Committees conducted the most recent self-evaluations and discussed the results of the self-evaluations.

NYSE and SEC Certifications. In 2013, we submitted to the NYSE an unqualified Section 12(a) certification by our Chief Executive Officer. Further, each applicable filing with the SEC contained the Section 302 and 906 Certifications of both our Chief Executive Officer and Chief Financial Officer.

Director Compensation. In 2012, the Compensation Committee engaged a compensation consultant who conducted an assessment of the market competitiveness of the Company's non-employee director compensation program. In conducting the assessment, the compensation consultant reviewed data from a comparable group of companies. The results of this assessment were considered by the Compensation Committee in setting the non-employee director compensation rates for 2013.

The annual retainer for non-employee directors is \$40,000. In addition, Committee members receive \$10,000 per year per Committee of the Board. The Chairman of the Audit Committee and Chairman of the Compensation Committee each receive an additional \$8,000 per year. The Chairman of the Governance Committee receives an additional \$4,000 per year. The Chairman of the Board receives an additional annual retainer of \$20,000. Directors who are employees of the Company do not receive the annual retainer.

Under our 2008 Incentive Stock Plan, each non-employee director who holds such position on the date of the annual meeting of the shareholders and has been a director for the entire period since the annual meeting of shareholders of Myers that was held in the immediately preceding calendar year will be awarded annually, on the date of the annual meeting of shareholders, shares of our Common Stock valued at \$60,000 on such date. Effective for awards granted on or after the April 25, 2014, a director may elect to receive an equivalent number of stock units rather than shares of common stock, with payment to be made with respect to such stock unit when such director ceases to be a member of the Board.

Our Amended and Restated Code of Regulations provides that we will indemnify, to the fullest extent then permitted by law, any of our directors or former directors who was or is a party or is threatened to be made a party to any matter, whether civil or criminal, by reason of the fact that the individual is or was a director of the Company, or serving at our request as a director of another entity. We have entered into indemnity agreements with each of our directors contractually obligating us to provide such protection. We also currently have in effect director and officer insurance coverage.

Risk Assessment of Compensation Practices. In establishing compensation policies and practices for all of our employees, we utilize a balanced mix of salary, bonus and, in some cases, equity-based compensation that supports the enhancement of revenue, earnings and cash performance of the Company for our shareholders without creating undue risk. Under our long term incentive program adopted in 2010 (the LTIP), we utilize a blend of stock options, service-based awards and performance-based awards with a greater emphasis on performance-based

awards than service-based awards that we believe will further align the interests of our employees with those of our shareholders. Our risk oversight and overall compensation structure has features that guard against excessive risk taking, including:

Our Board's and its Committees' role in risk oversight, including internal control over financial reporting and other strategic, financial, operational, compliance and technology policies and practices (see the section titled "Board's Role in Risk Oversight" above for a complete description);

Diversified nature of our business segments with respect to industries and markets served, products and services sold, and geographic footprint;

A mixture of fixed and variable, annual and long-term, and cash and equity compensation are provided to our employees to encourage strategy and actions that are in the long-term interests of the Company and our shareholders; and

EXECUTIVE COMPENSATION AND RELATED INFORMATION

Compensation Discussion and Analysis.

Executive Summary:

Our executive pay program is managed by the Compensation Committee. The role of the Compensation Committee is to oversee our executive pay plans and policies, administer our stock plans and annually review and make recommendations to the Board for all pay decisions relating to our executives, including the Named Executive Officers (NEOs):

John C. Orr, President and Chief Executive Officer

Greggory W. Branning, Chief Financial Officer, Senior Vice President and Corporate Secretary

David B. Knowles, Executive Vice President and Chief Operating Officer (through March 22, 2013)

Messrs. Orr and Branning are our only NEOs. Mr. Knowles was also an NEO during part of 2013.

As shareholders consider the effectiveness of our executive pay program for our NEOs in the most recent year and their support of our executive pay program, they should take into account the following:

The Company's financial position remains solid, with a strong balance sheet and financial liquidity to pursue strategic goals which enhance shareholder value. This is evidenced by an increase of 6.4% in our adjusted earnings per share from 2012 to 2013. Additionally, we had positive cash flow from operating activities of \$96.1 million in 2013.

The base salary for Mr. Orr was subject to an increase of approximately 5.1% and the base salary for Mr. Branning was subject to an increase of approximately 7.7%.

We continue to utilize a long-term incentive portfolio of options, service-based restricted stock and stock units, and long-term cash incentives tied to financial results to provide greater reward balance, more effectively manage share dilution and offer us greater flexibility to reward for long-term results.

We have several pay practices and policies that are in the best interests of our shareholders, including modest perquisites, limited executive retirement benefits, and stock ownership guidelines.

We concluded that our pay programs do not encourage excessive or unnecessary risk taking.

Table of Contents

Finally, we believe the pay actually earned by our Chief Executive Officer has been aligned with the Company's total shareholder return performance. The realized pay of our Chief Executive Officer (salary, actual bonuses, long-term performance cash earned, options exercised, stock vested, and all other compensation) and unrealized pay (the value of outstanding equity awards and in-cycle cash performance awards at target) aligned closely with total shareholder return.

<i>Realized Compensation¹</i>	<i>\$1,772</i>	<i>\$2,897</i>	<i>\$3,458</i>

The remainder of this report provides details of each of these conclusions and examines our pay philosophy and objectives, the process used to set pay for 2013, the elements of pay awarded and other policies affecting our executive pay program.

Pay Philosophy and Practices.

Independent Compensation Advisors

Tally Sheets to Evaluate and Monitor NEO Compensation

What We Don't Do:

Enter into Employment Contracts

Process Used to Set Pay for 2013.

Interactions between multiple parties established our executive pay program for 2013:

Compensation Committee;

Senior management;

Independent compensation advisor; and

Outside advisors, including legal counsel.

Role of Compensation Committee:

Five independent directors comprise our Compensation Committee, which is responsible for establishing and administering our compensation policies, programs and procedures. In dispensing its duties, the Compensation Committee may request information from senior management regarding the Company's performance, pay and programs to assist it in its actions. Moreover, the Compensation Committee has the authority to retain outside advisors as needed to assist it in reviewing the Company's programs, revising them and providing competitive pay levels. In arriving at its decision on executive compensation, the Compensation Committee takes into account the shareholder say-on-pay vote at the previous annual meeting of shareholders.

Table of Contents

The Compensation Committee annually reviews and establishes the goals used for our incentive plans. In addition, it annually assesses the performance of the Company and the Chief Executive Officer. Based on this evaluation, the Compensation Committee then recommends the Chief Executive Officer's compensation for the next year to the Board for its consideration and approval. In addition, the Compensation Committee reviews the Chief Executive Officer's compensation recommendations for the Chief Financial Officer, providing appropriate input and approving final awards. Finally, the Compensation Committee provides guidance and final approval to the Chief Executive Officer with regard to the determination of the compensation of other key executives.

Role of Senior Management:

The Company's management serves in an advisory or support capacity as the Compensation Committee carries out its charter. Typically, the Company's Chief Executive Officer participates in meetings of the Compensation Committee. The Company's other NEOs may participate as necessary or at the Compensation Committee's request. The NEOs normally provide the Compensation Committee with information regarding the Company's performance as well as information regarding executives who participate in the Company's various plans. Such data is usually focused on the executives' historical pay and benefit levels, plan costs, context for how programs have changed over time and input regarding particular management issues that need to be addressed. In addition, management normally furnishes similar information to the Compensation Committee's independent compensation advisor.

Management provides input regarding the recommendations made by outside advisors or the Compensation Committee. Management implements, communicates and administers the programs approved by the Compensation Committee, reporting back to it any questions, concerns or issues.

The Chief Executive Officer annually evaluates the performance of the Company and its other NEOs. Based on his evaluation, he provides the Compensation Committee with his recommendations regarding the pay for the Chief Financial Officer for its consideration, input and approval. The Compensation Committee, in turn, authorizes the Chief Executive Officer to establish the pay for the Company's other executives based on terms consistent with those used to establish the pay of the NEOs. Members of management present at meetings when pay is discussed are recused from such discussions when the Compensation Committee focuses on their individual pay.

Role of Independent Compensation Advisor:

In 2013, the Compensation Committee engaged Exequity, LLP ("Exequity") to assist the Compensation Committee. The Compensation Committee has the authority to retain Exequity or to engage other independent advisors and compensation consultants to assist in carrying out its responsibilities. Exequity's lead consultant reported directly to the Compensation Committee Chairman, who approved Exequity's work plan. In addition, the lead consultant interacted with management as needed to complete the work requested by the Compensation Committee. Exequity did not provide other services to the Company during 2013 and received no compensation other than with respect to the services provided to the Compensation Committee.

To support the Compensation Committee in this effort, Exequity provided information regarding how other companies in the plastics, packaging/container and distribution industries compensate its senior executives. Companies selected for this analysis were proposed by Exequity, reviewed by management and the Compensation Committee, and ultimately approved by the Compensation Committee.

Table of Contents

The Compensation Committee approved two separate peer groups, a proxy peer group and a broader general industry survey peer group, to determine the competitive pay positioning of our NEOs' pay. The proxy peer group included the following companies:

A. Schulman, Inc.	Lawson Products
AEP Industries Inc.	Multi-Color Corporation
American Biltrite Inc.	NN, Inc.
AptarGroup, Inc.	OMNOVA Solutions Inc.
Boise Inc.	Park-Ohio Holdings Corp.
Crocs, Inc.	Tredegar Corporation
Dorman Products, Inc.	Trex Company, Inc.
Intertape Polymer Group Inc.	TriMas Corporation
Kapstone Paper and Packaging	West Pharmaceutical Services, Inc.

Associated Materials LLC, Graham Packaging Company, Packaging Corporation of America, and Tupperware Brands Corporation were eliminated from the proxy peer group used in 2012, and TriMas Corporation and Intertape Polymer Group Inc. were added to the proxy peer group. The general industry peer group companies were selected based on the following parameters: (1) participant in the Equilar Top 25 Survey; (2) publicly traded U.S.-based companies with a focus on manufacturing and other asset-based companies; and (3) size-appropriate companies with revenues within a range of roughly one-half to two times the Company's revenue with median revenues for the group near the Company's revenue. The general industry peer group companies included:

Apogee Enterprises, Inc.	lululemon athletica inc.
Barnes Group Inc.	Neenah Paper, Inc.
Coherent, Inc.	Nordson Corporation
Cymer, Inc.	ResMed Inc.
Deckers Outdoor Corporation	Tecumseh Products Company
Entegris, Inc.	Tempur-Pedic International Inc.
ESCO Technologies Inc.	TriMas Corporation
FEI Company	U.S. Concrete, Inc.
Graco Inc.	West Pharmaceutical Services, Inc.
H.B. Fuller Company	Zep Inc.
Integra LifeSciences Holdings Corporation	

Based on this information, Exequity offered its recommendations for the NEOs' pay program for 2013 and presented them in meetings and conference calls with the Compensation Committee. Exequity also reviewed the Company's 2013 proxy statement.

Myers believes its practices are consistent with the practices for other companies of its size, reflects best practices regarding the governance of executive pay programs and reflects the executive pay program's objectives of delivering competitive and appropriate pay aligned with our shareholders' interests.

The work of Exequity has not raised any conflicts of interest.

Elements of Pay for 2013.

The basic elements of our compensation package include:

Base salary;

Annual bonus opportunities;

Table of Contents

Long-term incentives in the form of cash, options, and restricted stock units;

Retirement and other benefits generally available to all other Company employees; and

Modest executive perquisites.

Consistent with the objectives of our executive pay philosophy, we target total compensation to approximate the 50th percentile (or median) for executives in similar roles at companies of similar size and complexity. We believe targeting median pay levels is appropriate as it is sufficient to attract and retain key executives, but does not position our compensation costs out of line with other companies of similar size. Pay can vary from target levels to the degree the Company's performance or stock price increases or decreases, affecting the value our executives realize from Myers' annual bonus and long-term incentive awards.

While we do not have a prescribed mix of pay, the following table indicates the percentage of each NEO's total target direct compensation that is attributable to base salary, target bonus, and long-term incentives (Mr. David B. Knowles is excluded because he was not an NEO for the entire year):

Component of Pay	Mr. John C. Orr	Mr. Gregory W. Branning
Salary	21%	38%
Target Bonus	21%	27%
Long-Term Incentives	58%	35%

Base Salaries:

Base salaries are the guaranteed part of our executives' pay. We pay base salaries to recognize the skills, competencies, experience, and individual performance an executive brings to his or her role. As a result, changes in base salary result primarily from changes in the executive's responsibilities, an assessment of their annual performance, and our financial ability to pay base salaries and provide increases to them.

Salaries for our executives are based on the scope of their responsibilities and their relevant background, training and experience. Data on compensation practices of companies similar to ours is also considered in setting base salaries. The Compensation Committee targets base salaries at approximately the 50th percentile, but also considers an individual's experience, performance, and external market conditions. Under the terms of our NEOs' severance agreements, their base salaries may not be materially decreased.

Based on external market conditions, company performance, and senior management's recommendations, the Compensation Committee decided to increase the base salary of Mr. Orr by 5.1% and the base salary of Mr. Branning by 7.7%. This positioned the base salary between approximately the 50th and 75th percentile of the peer group for Mr. Orr. Mr. Branning's base salary ranks below the 50th percentile of the peer group as he is new to the CFO position.

Annual Bonuses:

In keeping with our policy of rewarding our executive officers for performance, executives, including our NEOs, were eligible to earn annual incentives under our annual incentive plan. Bonuses under the plan increase each executive's focus on specific short-term corporate operational goals. As a result, it balances the objectives of our other pay programs, which concentrate on individual performance (base salaries), long-term financial results, and stock price growth. Finally, annual bonuses allow us to manage fixed compensation costs, while still providing executives with competitive cash compensation consisting of salaries and bonuses.

Each year, the Compensation Committee approves a target bonus opportunity for each NEO. We intend for our target bonuses to be at least at median levels to place more emphasis on achieving annual operating results and to support more demanding annual performance objectives. For 2013, our

Table of Contents

target bonuses were 100% of salary for Mr. Orr, 75% of salary for Mr. Knowles, and 70% of salary for Mr. Branning. Actual bonuses can range from 0% to 200% of target depending on actual performance, practices that are consistent with the range of annual bonus opportunities of peers and those of other companies our size. In this manner, we can reward our executives with higher levels of cash compensation for results that substantially exceed target results. Conversely, we pay relatively lower levels of cash compensation for results that fail to meet minimally acceptable standards.

Annual bonuses are based on results in two areas:

Earnings before interest, taxes, depreciation and amortization (EBITDA), as adjusted for special income and expenses approved by the Compensation Committee. In 2013, these adjustments, equaling \$12.8 million, were one-time non-recurring costs incurred by the Company that were not budgeted. EBITDA results determine 50% of an NEO's annual bonus.

Cash flow before capital expenditures, which determines the remaining 50% of an NEO's bonus.

The use of EBITDA as a bonus metric focuses on our core operating profitability and is not influenced by accounting policies, significant non-operating results or other extraordinary items that can obscure our operating results. We believe consistent improvements in our operating results over time should produce value for our shareholders over the long-term. Cash flow balances the profitability focus of EBITDA by measuring our executives' ability to manage our working capital. Moreover, it focuses our management on generating discretionary cash that can be used to invest in assets, make acquisitions, retire debt, pay dividends and re-purchase our Common Stock without disrupting operations. Cash flow is measured before capital expenditures so as to balance sound decisions on long-term capital investments with achievement of cash flow goals. Both measures are weighted equally in order to balance near-term profitability with long-term growth.

Each year, the Compensation Committee approves annual performance targets for EBITDA and cash flow. These targets are based on the annual budget developed by our senior management through vigorous bottoms-up planning, evaluation of business expectations for each business segment, customer reviews, raw material availability and pricing evaluations, SG&A considerations and general economic conditions. The annual budget is vetted and approved by the Board. Targets are established based upon a reasonable level of expected return given our performance against the annual budget. Once targets are established, the Compensation Committee sets minimum and maximum goals to appropriately reward for results that exceed or fall short of target expectations.

Performance	Bonus % Target Award ⁽¹⁾	EBITDA (\$ Millions)	Cash Flow (\$ Millions)
Objective			
Minimum	0%	\$74.72	\$55.23
Target	100%	\$98.32	\$70.80

The range of performance associated with each measure (for EBITDA, minimum results equal to 76% of target and maximum performance equal to 110% of target, and for cash flow, minimum results equal to 78% of target and maximum performance equal to 122% of target) reflects typical practices of peers and other companies. For 2013, actual EBITDA results were slightly below target; however, actual cash flow was above maximum, resulting in a weighted average payout percentage that was

above target. Based on this payout percentage and the executive's target bonus opportunity, Messrs. Orr and Branning received a bonus of \$1,097,581 and \$346,977 respectively, for 2013. Each of these cash bonuses was paid early in March of 2014.

Long-Term Incentives:

The 2008 Incentive Stock Plan provides us with flexibility to grant stock options, stock appreciation rights, performance awards, restricted stock, stock units, and other forms of equity-based awards. These awards are consistent with our goal of motivating and rewarding our executive officers for increasing shareholder value and promote our long-term interests by aiding the retention of high-quality executives. Our use of long-term incentives reflects the belief that a significant component of executive compensation should be at risk where the amount earned depends on achieving Company performance objectives designed to enhance shareholder value. Finally, long-term incentives in the form of stock help build executive stock ownership, consistent with our stock ownership objectives more fully described in the section titled "Stock Ownership Guidelines" and strengthen the alignment with our shareholders' interests.

For long-term incentives, the Board awarded a blend of stock options, service-based restricted stock units, and performance-based long-term cash incentives. This approach provides reward balance with each element designed to meet specific reward objectives:

Stock options align our executives' interests with those of our shareholders because options only produce rewards to our executives if our stock price increases after options are granted. We believe options are performance-based awards, because the stock price appreciation that produces gains to the executive can only be achieved by improvements in the Company's operating and financial results. In addition, options help build executive ownership.

Service-based restricted stock unit grants help in attracting and retaining our key executives, which is especially helpful given the cyclical nature of some of our business segments. Restricted stock units also tie our executives to the total returns earned by our investors through dividend equivalent rights as well as stock price appreciation.

Long-term cash incentives reward our executives for achieving financial goals over a multi-year period. Moreover, the use of cash helps us to more effectively manage the shares available for use under our 2008 Incentive Stock Plan, reduces dilution of our shareholders' interests and provides our executives competitive long-term incentive opportunities. In addition, the use of cash provides our executives a means to pay for taxes associated with their long-term awards, helping them retain more of the shares received as options and restricted units. Our long-term incentives target 50th percentile values for executives in similar roles at companies of similar size. Once target values are developed, awards for each long-term element are based on an individual's position, organizational level, scope of responsibilities, their ties to long-term results, and any special attraction and retention needs. For the NEOs, the Compensation Committee aimed to strike a balance between the three elements while emphasizing performance-based elements (options and long-term cash incentives) over service-based ones (restricted stock units). For Messrs. Orr, Branning, and Knowles, 35% of their target value was delivered in the form of stock options, 35% in the form of target long-term cash incentives and 30% as service-based restricted stock units.

To strengthen the awards' long-term ties to performance as well as to help retain our executives, long-term incentives vest or are earned over several years. For example, stock options vest ratably on the first three anniversaries of the grant and are exercisable within ten years following their grant, consistent with our historical terms for option grants. Service-based restricted stock unit grants vest ratably over a three year period, are tied to continued service, and provide a strong device for retaining our executives. Finally, long-term cash incentives are based on the achievement of pre-established objectives over a three-year period.

Long-term cash incentives are based on our average return on invested capital (ROIC) for the three-year period beginning in 2013 and ending in 2015. ROIC equals our earnings before interest and

Table of Contents

taxes (EBIT) divided by our total invested capital (net long term debt and shareholders equity). In our view, ROIC holds our management accountable for all capital invested in the Company. Moreover, it represents an appropriate measure for a capital intensive business like ours. It also balances the measures used in our annual bonus plan. Finally, we believe that ROIC achievement is aligned with our stock price performance.

For the three-year period ending in 2015, the Company established three-year average ROIC performance objectives that ranged from 0.00-6.00% (minimum) to 11.01-16.00% (maximum), with target results achieved at 6.01-11.00%. Target ROIC performance represented a reasonable objective as it approximated the median three-year ROIC results of our peers and other S&P Small Cap 600 Companies (S&P Small Caps). Maximum results reflected a reasonable stretch that approximated the 75th percentile of our peers and S&P Small Caps. The minimum ROIC goal was comparable to the 25th percentile of our peers and S&P Small Caps.

For the three-year period ending in 2013, the three-year average ROIC performance objectives and the method for determining their corresponding awards were as follows:

Return on Invested Capital (ROIC):	Calculation of Award (Percentage of Target Award):
Less than 5%	0%
5%	50%
5.01%-9.99%	The amount, expressed as a percentage, determined by dividing (x) the ROIC by (y) 10%
10%	100%
10.1%-14.99%	100%, plus the amount, expressed as a percentage, determined by dividing (x) the number of percentage points (not to exceed 5 percentage points) by which the ROIC exceeds 10% by (y) 5%
15% or more	200%

In 2011, the Compensation Committee approved a target award amount of \$420,000 for Mr. Orr. For the three-year period ending in 2013, the Company achieved a three-year average ROIC of 14.5%, as adjusted for special income and expenses approved by the Compensation Committee. In 2013, these adjustments, equaling \$13.9 million, were one-time non-recurring costs incurred by the Company that were not budgeted. Based on this ROIC and the target award amount, Mr. Orr received a long-term cash incentive of \$798,000, which was paid early in 2014.

Retirement and Other Benefits:

We also maintain qualified and nonqualified retirement programs to provide our executives and other employees basic life and income security needs and recognize individual contributions during their career with Myers. The NEOs participate in our qualified retirement plan (a tax-qualified 401(k) Plan, pursuant to which all participants are eligible to receive matching contributions from the Company) on the same terms as all of our other employees.

NEOs also participate in our Supplemental Executive Retirement Plan (SERP). The SERP was adopted to replace retirement benefits lost because of regulatory limits associated with qualified plans, provide retirement benefits for our NEOs comparable to that of other employees who are not constrained by regulatory limits, offer more competitive benefits to newly appointed senior executives, and enhance the retention and recruitment of high-quality executives. The SERP provides additional pension benefits to a select group of management. The annual supplemental pension benefit is payable for ten years commencing at the earlier of retirement or termination. Credit for years of service under the SERP may also be awarded to a participant at the discretion of the Compensation Committee. As part

Table of Contents

of their respective employment arrangements, Messrs. Orr and Branning were provided with an annual SERP benefit up to \$325,000 and \$50,000, respectively, payable for ten years commencing at the earlier of retirement or termination.

NEOs also participate in broad-based benefit plans that are available to all employees, including health insurance and life and disability insurance. Executives' benefits are not tied to individual or Company performance, which is the same approach used for other employees. Moreover, changes to executives' benefits reflect the changes to the benefits of other employees.

Executive Perquisites:

The Company's executive perquisites are modest relative to the general practices of other companies. These rewards are not tied to individual or Company performance. While we believe these benefits are modest, they are highly valued by recipients, have limited cost, are part of a competitive reward program, and help in attracting and retaining the best executives.

In 2013, some of our NEOs received either a car allowance (Mr. Knowles) or Company provided car plus reimbursement for related expenses (Mr. Orr). In 2013, Mr. Branning received reimbursement for relocation and temporary living related expenses. NEOs also are able to use the Company's country club membership, but at their own expense. In addition, NEOs are eligible for an annual physical examination. NEOs are responsible for paying the income taxes associated with these benefits and are not grossed-up by the Company.

Other Policies and Practices.

Timing of Equity Grants and Grant Price. Option grants and other equity incentives are generally awarded during the first Compensation Committee meeting of the fiscal year, normally in late February or early March. This meeting is normally set more than a year in advance, limiting our ability to time the market for equity awards. The value of any such grants is determined by the closing price of our stock on the NYSE on the date that the Board approves such grants. In addition, from time-to-time during the year, the Compensation Committee may make grants to a new employee or, in rare circumstances, to a current employee. In such cases, the value of the grants is based on the closing price of our stock on the NYSE on the date such grants are approved by the Board.

Stock Ownership Guidelines: A key objective of our pay program in general and our long-term incentive awards in particular is to encourage and build stock ownership. As a result, we adopted stock ownership guidelines that are common at other companies. These guidelines were adopted in the fall of 2010 and amended in January 2013 and require Mr. Orr to own shares that are equal to five times his base salary. Mr. Branning is, and Mr. Knowles was, required to own shares equal to three times their respective base salaries. NEOs have five years from the effective date of the guidelines to achieve their ownership targets. In determining stock ownership, we count shares owned outright, including shares owned jointly with a spouse or separately by a spouse and/or children that share the NEO's household, vested and unvested restricted stock and restricted stock unit awards, and vested stock options.

Accounting and Tax Considerations: We intend annual cash incentive amounts and our long term cash incentive amounts to be fully deductible for federal income tax purposes under Section 162(m). In order to achieve this we establish an annual Incentive Bonus Plan Pool against which payouts may be made. In 2013, our shareholders approved the Performance Bonus Plan which is designed to permit us to grant incentive awards that may qualify as qualified performance-based compensation for purposes of Section 162(m) of the Internal Revenue Code.

Pay Decisions for 2014.

In March 2014, the Compensation Committee met to approve the Company's executive incentive pay program for NEOs for 2014. The pay program reflects many of the same elements used in 2013, as described below.

Target bonus opportunities were unchanged;

Bonuses remained tied to achieving budgeted EBITDA and cash flow;

NEOs received the same mix of options, service-based stock units and long-term cash incentives as in 2013;

Long-term cash incentives remained tied to three-year ROIC.

In arriving at its decisions on executive compensation, the Compensation Committee took into account the affirmative shareholder say-on-pay vote at the previous annual meeting of shareholders and continued to apply the same principles in determining the amounts and types of executive compensation. The Compensation Committee referenced the same two separate peer groups as disclosed for 2013, a proxy peer group and a broader general industry survey peer group, to determine the competitive pay positioning of our NEOs' pay.

Compensation Committee Interlocks and Insider Participation.

During fiscal 2013, the following directors were members of the Compensation Committee: Vincent C. Byrd, Robert A. Stefanko, John B. Crowe, William A. Foley, and Sarah R. Coffin. None of our NEOs serve, or in the past fiscal year has served as a member of the board of directors or compensation committee of any entity that has one or more NEOs serving on the Company's Board or Compensation Committee.

The Board has identified Robert A. Stefanko as the audit committee financial expert. Mr. Stefanko is independent, as independence for audit committee members is defined in the applicable listing standards of the New York Stock Exchange.

The Audit Committee's responsibility is one of oversight. Members of the Audit Committee rely on the information provided and the representations made to them by: management, which has primary responsibility for establishing and maintaining appropriate internal control over financial reporting, and for the Company's financial statements and reports; and by the independent registered public accounting firm, which is responsible for performing an audit in accordance with Standards of the Public Company Accounting Oversight Board (United States (PCAOB)) and expressing an opinion on (i) the conformity, in all material respects, of the Company's financial statements with accounting principles generally accepted in the United States of America and (ii) the effectiveness of internal control over financial reporting.

PROPOSAL NO. 3 ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

Section 951 of the Dodd-Frank Wall Street Reform and Consumer Protection Act requires that the Company seek a non-binding advisory vote from its shareholders to approve the compensation as disclosed in the Compensation Discussion & Analysis (CD&A) and tabular disclosures of this Proxy Statement. Since the required vote is advisory, the result of the vote is not binding upon the Board.

As discussed in the CD&A section of this Proxy Statement, our executive compensation program is designed to motivate our executive officers to achieve short-term and long-term Company goals that will increase shareholder value; ensure that the actual compensation paid to our executive officers is aligned and correlated with financial performance and changes in shareholder value; motivate and reward executives whose knowledge, skills and performance are crucial to our success; and attract and retain talented and experienced executives and other key employees.

To meet our objectives, the Compensation Committee implemented the following policies:

Provide compensation packages that are within a range that is reasonably competitive in the market;

Provide short-term performance incentives by establishing goals for our executives through an annual bonus plan focused on operating performance and cash flow; and

Provide long-term performance incentives and reward executive management for achievement of long-term strategic initiatives through the use of restricted stock awards, option grants, other equity-based awards under our 2008 Incentive Stock Plan, and cash awards under the Performance Bonus Plan.

Our executive compensation program is designed to be consistent with the objectives set forth above. The basic elements of our compensation package include (i) base salary, (ii) annual bonus opportunities, (iii) long-term incentives, such as equity awards, (iv) retirement benefits, and (v) generally available health, welfare and other benefit programs and executive perquisites. Under our executive compensation program, we target total compensation to be within the median range of compensation paid to similarly situated executive officers at peer public companies and companies in our industry. We also monitor and assess the competitive retention and recruiting pressures for executive talent in our industries and our markets.

We are presenting the following proposal, which gives you as a shareholder the opportunity to endorse or not endorse our compensation program for our NEOs by voting for or against the following resolution. Because the vote on this proposal is advisory in nature, it will not affect any compensation already paid or awarded to any NEO and will not be binding on or overrule any decisions by the Board. The Compensation Committee will take into account the outcome of the vote when considering future compensation arrangements for our NEOs.

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion & Analysis, compensation tables, and narrative discussion is hereby APPROVED.

The Board of Directors recommends that you vote FOR Proposal 3

Branning, Corporate Secretary, Myers Industries, Inc., 1293 South Main Street, Akron, Ohio 44301:

not later than November 21, 2014, if the proposal is submitted for inclusion in the Company's proxy materials for the annual meeting pursuant to Rule 14a-8 under the Exchange Act, or

not earlier than January 24, 2015 and not later than February 23, 2015 (subject to announcement of the annual meeting date, as described below) if the proposal is submitted pursuant to the Company's Amended and Restated Code of Regulations.

In accordance with our Amended and Restated Code of Regulations, a shareholder may submit notice of a shareholder proposal that it intends to raise at our annual meeting (and not desiring to be included in the Company's proxy statement) only if advance written notice of such intention is received by the Corporate Secretary not less than sixty (60) days nor more than ninety (90) days prior to the date of such annual meeting of shareholders. In the event that the date of such meeting is not publicly disclosed at least seventy (70) days prior to the date of such meeting, written notice of such shareholder's intent to submit a proposal must be received by the Corporate Secretary not later than the close of business on the tenth (10th) day following the date on which notice of such meeting is first provided to the shareholders. A shareholder wishing to submit

Advance Notice of Shareholder Proposals and then send a signed letter of proposal to the following address: Corporate Governance and Nominating Committee, c/o Mr. Gregory W. Branning, Corporate Secretary, Myers Industries, Inc., 1293 South Main Street, Akron, Ohio 44301. The Company disclosed the date of the 2014 annual meeting on February 19, 2014, and received no proposals satisfying this requirement prior to the February 28, 2014 deadline for this year's Annual Meeting.

The submission of such a notice does not ensure that a proposal can be raised at our Annual Meeting.

No Incorporation by Reference. The Compensation Committee Report and the Audit Committee Report (including reference to the independence of the Audit Committee members) are not deemed filed with the SEC or subject to the liabilities of Section 18 of the Exchange Act, and shall not be deemed incorporated by reference into any prior or future filings made by us under the Securities Act, or the Exchange Act, except to the extent that we specifically incorporate such information by reference. The section of this proxy entitled "Compensation Discussion and Analysis" is specifically incorporated by reference in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Cost of Proxy Solicitation. The accompanying proxy is solicited by and on behalf of the Board, whose notice of meeting is attached to this Proxy Statement, and the entire cost of such solicitation will be borne by Myers. In addition to the use of the mail, proxies may be solicited by personal interview, telephone and telegram by directors, officers and employees of Myers. Arrangements will be made with brokerage houses and other custodians, nominees and fiduciaries for the forwarding of solicitation material to the beneficial owners of stock held of record by such persons, and Myers will reimburse them for reasonable out-of-pocket expenses incurred by them in connection therewith.

Copy of the Form 10-K. We will mail without charge, upon written request, a copy of our Annual report on Form 10-K for the year ended December 31, 2013, including the consolidated financial statements, schedules and list of exhibits, and any particular exhibit specifically requested. Requests should be sent to: Myers Industries, Inc., 1293 South Main Street, Akron, Ohio 44301, Attn: Investor Relations. The Annual Report on Form 10-K is also available at www.myersind.com and at the SEC's website at www.sec.gov.

Notice Regarding Delivery of Security Holder Documents. The SEC now permits companies to send a single set of annual disclosure documents to any household at which two or more shareholders reside, unless contrary instructions have been received, but only if the Company provides advance notice and follows certain procedures. In such cases, such shareholders continue to receive a separate notice of the meeting and proxy card. This "householding" process reduces the volume of duplicate information and reduces printing and mailing expenses. We have not instituted householding for shareholders of record; however, a number of brokerage firms may have instituted householding for beneficial owners of the Company's shares of Common Stock held through such brokerage firms. If your family has multiple accounts holding shares of Common Stock of the Company, you already may have received householding notification from your broker. Please contact your broker directly if you have any questions or require additional copies of the annual disclosure documents. The broker will arrange for delivery of a separate copy of this Proxy Statement or our Annual Report promptly upon your written or oral request. You may decide at any time to revoke your decision to household, and thereby receive multiple copies.
