**A first quarter in line with our expectations based  
on a solid operational performance  
2014-2016 transformation plan on track**

**PARIS, France May 7<sup>th</sup> 2014** CGG (ISIN: 0000120164 NYSE: CGG), world leader in Geoscience announced today its non-audited 2014 first quarter results.

**First quarter results reflecting execution of contracts secured end-2013 in low market conditions**

Revenue at \$806m

Operating income at \$35m in line with expectations

EBIT at \$18m, including a \$(17)m negative contribution of equity from investees, mainly related to the Seabed Geosolutions JV

**Solid operational performance over the quarter, notably in Marine:**

Availability rate at 94% and production rate at 93%

51% of the fleet dedicated to multi-client programs

**First steps in the Acquisition division downsizing plan**

The Symphony vessel was de-rigged in February as announced

Ongoing reduction in the marine fleet and associated support structure

Restructuring of Land North America activity ongoing

**Backlog was \$1.2bn as of 1<sup>st</sup> April 2014, with marine fleet coverage at 97% for Q2, 60% for Q3 and 10% for Q4**

**Two successful refinancing operations in April to extend debt maturity at very good conditions**

Issue of a 400m High Yield Bond due 2020 at 5.875%

Issue of a US \$500m High Yield Bond due 2022 at 6.875%

**CGG CEO, Jean-Georges Malcor, commented:**

*« As we have previously indicated, the seismic market remains flattish in a global context of reduced exploration and development spending. In these difficult conditions, which have prevailed since the end of 2013, the first quarter of 2014 was in line with our expectations. It was characterized in land by a low level of activity both in the Equipment market and in the North America Acquisition market, and by a less favorable supply-demand balance for contract Marine Acquisition. However, Geoscience activity remained sustained with a notable high level of multi-client production and sales.*

*We are fully committed to implementing our 2014-2016 transformation plan which is well underway and remains our priority. The reduction in our fleet and its associated support structure has started. The restructuring of our Land activity is ongoing, notably in North America. We remain focused on our cost reduction, operational efficiency and active cash management program.*

*We have also successfully launched refinancing operations which have enabled us to further strengthen our balance sheet. »*

**Acquisition Division Total Revenue** was \$559 million, up 22% compared to Q4 2013 and down 6% year-on-year. 81% of revenue was driven by marine activity. External revenue was at \$353 million, down 16% year-on-year. Internal revenue was \$206 million, representing 37% of total revenue, versus 29% in Q1 2013.

**Marine Acquisition** total revenue at \$453 million was stable year-on-year. Our reduced active fleet was able to deliver an excellent operational performance with availability at 94% and a production rate at 93%. The Symphony was de-rigged mid-February as planned. 51% of the fleet was dedicated to multi-client production versus 36% last year.

**Land and Airborne Acquisition** total revenue was \$106 million, down 26% year-on-year. The land acquisition winter campaign in North America was at a record low level with five crews working in Canada and in Alaska versus nine last year. Restructuring measures have already been implemented in North America. Airborne suffered from a still depressed mining market.

**Acquisition Division EBITDAs** was \$79 million, a margin of 14.1%.

**Acquisition Division Operating Income** was at breakeven and **EBIT** was \$(16) million. The Acquisition Division profitability improved significantly versus Q4 2013 due to a solid operational performance with an availability rate at 94% versus 83%, while land acquisition suffered from a record low winter season in North America. The Seabed Geosolutions JV contribution was negative due to low OBC utilization and difficult, partly weather-related, operational circumstances.

**Acquisition Division Capital Employed** was \$2.6 billion at the end of March 2014.
