An explanation of the significance of ratings may be obtained from the rating agencies. Generally, rating agencies base their ratings on such materials and information, and such of their own investigations, studies and assumptions, as they deem appropriate. The rating of the notes should be evaluated independently from similar ratings of other securities. A credit rating of a security is not a recommendation to buy, sell or hold securities and may be subject to review, revision, suspension, reduction or withdrawal at any time by the assigning rating agency.

This final term sheet supplements, and should be read in conjunction with, the issuer's preliminary prospectus supplement dated March 6, 2015 and accompanying prospectus dated July 29, 2013.

We expect to deliver the securities described herein against payment on or about the Settlement Date, which will be the fifth business day following the date of the pricing of the securities (this settlement cycle being referred to as T+5). Under Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the securities on the date of pricing or the next succeeding business day will be required, by virtue of the fact that the securities initially will settle in T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers who wish to trade the securities on the date of pricing or the next succeeding business day should consult their own advisor.

This communication is for informational purposes only and does not constitute an offer to sell, or a solicitation of an offer to buy, any security. No offer to buy securities described herein can be accepted, and no part of the purchase price thereof can be received, unless the person making such investment decision has received and reviewed the information contained in the relevant prospectus in making their investment decisions. The issuer has filed a registration statement (including a prospectus) with the SEC for the offering to which this communication relates. Before you invest, you should read the prospectus supplement and accompanying prospectus related to that registration statement and other documents the issuer has filed with the SEC for more complete information about the issuer and this offering. You may get these documents for free by visiting EDGAR on the SEC Web site at www.sec.gov.
