*Note: In order to show the effect that the year-over-year change in pension value had on total compensation, as determined under applicable SEC rules, we have included an additional column to show total compensation minus the change in pension value. The amounts reported in the Total Without Change in Pension Value column may differ substantially from the amounts reported in the Total column required under SEC rules and are not a substitute for total compensation. Total without Change in Pension Value represents total compensation, as determined under applicable SEC rules, minus the change in pension value reported in the Change in Pension Value and Nonqualified Deferred Compensation Earnings column. The change in pension value is subject to many external variables, such as interest rates, that are not related to Company performance. Therefore, we do not believe a year-over-year change in pension value is helpful in evaluating compensation for comparative purposes.*

(a) Amounts represent the aggregate grant date fair value of awards in the year of grant in accordance with the same standard applied for financial accounting purposes. If valued assuming a maximum payout on the Performance Share program, the value of the awards would be: Liveris \$12,687,402; Ungerleider \$3,864,554; Weideman \$3,688,248; Fitterling \$3,864,544; Harlan \$3,688,248; Kalil \$3,513,032.

## Edgar Filing: DOW CHEMICAL CO /DE/ - Form DEFA14A

- (b) *Dow's valuation for financial accounting purposes uses the widely accepted lattice-binomial model. The option value calculated for the NEOs grants was \$11.49 for the grant date of February 14, 2014. The exercise price of \$46.71 is the closing Dow stock price on the date of grant.*
- (c) *Individual results for Non-Equity Incentive Plan Compensation are detailed in the Performance Award section of the 2014 Executive Compensation Program in Detail and reflect income paid in 2015 under our annual Performance Award (PA) program for performance achieved in 2014.*
- (d) *Reflects the aggregate change in the actuarial present value of accumulated pension benefits at age 65 using the actuarial assumptions included in the Company's audited financial statements. The amounts recorded in this column vary with a number of factors, including the discount rate applied to determine the value of future payment streams. An analysis of the Change in Pension Value for 2014 is shown below. As a result of a decrease in prevailing interest rates in the credit markets in 2014, the discount rate used pursuant to pension accounting rules to calculate the present value of future payments decreased from 5.00% for fiscal year 2013 to 4.10% for fiscal year 2014. The increase in pension value resulting from the change in interest rates does not*

result in any increase to the underlying benefits payable to participants under the plan. Mr. Harlan participates in the Personal Pension Account plan. The \$165,278 represents the increase in his 2014 cash balance account due to the increase in annual pay and interest credits.

Name	Change in Discount Interest Rate (\$)	Change in Deferral Period, Benefits, and Other (\$)	Change due to Mortality Table	Total Change (\$)
Andrew Liveris	3,924,306	2,437,810	773,089	7,135,205
Howard Ungerleider	1,533,993	1,376,219	103,329	3,013,541
William Weideman	1,476,858	1,163,473	287,279	2,927,610
James Fitterling	1,673,863	1,044,913	178,605	2,897,381
Joe Harlan	0	165,278	0	165,278
Charles Kalil	1,479,430	1,134,501	377,405	2,991,336

(e) All Other Compensation includes the cost of Company provided automobile (which was discontinued in 2013 for the NEOs other than the CEO), personal use of corporate aircraft by the CEO as required by Company policy for security and immediate availability purposes, Company contributions to employee savings plans, reimbursements of costs paid for financial and tax planning support, home security, executive health examinations and personal excess liability insurance premiums. The incremental cost to the Company of personal use of Company aircraft is calculated based on the variable operating costs to the Company including fuel, landing, catering, handling, aircraft maintenance and pilot travel costs. Fixed costs, which do not change based upon usage, such as pilot salaries or depreciation of the aircraft or maintenance costs not related to personal travel, are excluded. NEOs also are provided a tax reimbursement for taxes incurred when a spouse travels for business purposes as it is sometimes necessary for spouses to accompany NEOs to business functions. These taxes are incurred because of the Internal Revenue Service's rules governing business travel by spouses and the Company reimburses the associated taxes. No NEO is provided a tax reimbursement for personal use of aircraft.

The following All Other Compensation items exceeded \$10,000 in value:

Liveris: Personal use of Company aircraft (\$221,240), Company contributions to savings plans (\$79,854), financial and tax planning (\$56,238), tax reimbursements (\$30,383)

Ungerleider: Company contributions to savings plans (\$41,189), financial and tax planning (\$25,153)

Weideman: Company contributions to savings plans (\$15,616)

Kalil: Company contributions to savings plans (\$47,422)

Harlan: Company contributions to savings plans (\$46,237), financial and tax planning (\$38,596), tax reimbursement (\$24,294)
