PROXY STATEMENT

Our Board of Directors (the *Board*) solicits your proxy for the 2015 annual meeting of shareholders of Marriott International, Inc. (*we*, *us*, *Marriott* or the *Company*) to be held on Friday, May 8, 2015, beginning at 10:30 a.m., at the JW Marriott Hotel, 1331 Pennsylvania Avenue, N.W., Washington, D.C. 20004, and at any postponements or adjournments of the meeting. This proxy statement is first being released to shareholders by the Company on or about April 7, 2015.

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS

FOR THE ANNUAL MEETING OF SHAREHOLDERS TO BE HELD ON MAY 8, 2015:

THE PROXY STATEMENT AND ANNUAL REPORT TO SHAREHOLDERS ARE

AVAILABLE AT www.envisionreports.com/MAR.

QUESTIONS AND ANSWERS ABOUT THE MEETING

What is the purpose of the annual meeting?

At our annual meeting, shareholders will act upon the matters described in the accompanying notice of meeting. These actions include the election of the 11 director nominees listed below, ratification of the appointment of the independent registered public accounting firm (sometimes referred to as the *independent auditor*), an advisory resolution to approve executive compensation, a shareholder resolution recommending implementation of a simple majority voting standard in our governance documents (if properly presented at the meeting), and any other matters that may be properly presented at the meeting. In addition, our management will report on the Company's performance during fiscal year 2014 and respond to questions from shareholders.

Who is entitled to vote?

Only shareholders of record at the close of business on the record date, March 13, 2015, are entitled to receive notice of and to vote at the meeting, or any postponement or adjournment of the meeting. Each outstanding share of the Company's Class A common stock entitles its holder to cast ten votes on each matter to be voted upon.

Who can attend the meeting?

All shareholders of record at the close of business on the record date, or their duly appointed proxies, may attend the meeting. Cameras, recording devices and other electronic devices may not be used at the meeting.

Table of Contents

You will find directions to the meeting, and information on parking, public transportation and lodging, on the last page of this proxy statement.

What constitutes a quorum?

The presence at the meeting, in person or by proxy, of the holders of a majority of the shares of Class A common stock of the Company outstanding on the record date and entitled to vote will constitute a quorum. A quorum is required for business to be conducted at the meeting. As of the March 13, 2015 record date, 277,565,817 shares of our Class A common stock were outstanding and entitled to vote. If you submit a properly executed proxy card, even if you abstain from voting, you will be considered part of the quorum. Similarly, broker non-votes (described below) will be counted in determining whether there is a quorum.

How do I vote?

You may vote either by casting your vote in person at the meeting, or by marking, signing, and dating each proxy card you receive and returning it in the prepaid envelope, by telephone, or electronically through the Internet by following the instructions included on your proxy card. Internet and telephone voting is available through 11:59 p.m. Eastern Time on Thursday, May 7, 2015. The telephone and Internet voting procedures are designed to authenticate votes cast by use of a personal identification number. The procedures, which are designed to comply with Delaware law, allow shareholders to appoint a proxy to vote their shares and to confirm that their instructions have been properly recorded.

If you hold your shares in street name through a broker or other nominee, you may be able to vote by telephone or electronically through the Internet in accordance with the voting instructions provided by that institution. You must obtain a legal proxy from the broker or other nominee that holds your shares if you wish to vote in person at the annual meeting. If you do not provide voting instructions to your broker in advance of the annual meeting, your broker will have discretionary authority to vote on routine matters. The ratification of the appointment of the independent registered public accounting firm in Item 2 is the only item on the agenda for the annual meeting that is considered routine.

What does the Board recommend?

The Board's recommendations are set forth after the description of each item in this proxy statement. In summary, the Board recommends a vote:

FOR election of the 11 director nominees (see Item 1 on page 5);

FOR ratification of the appointment of the independent auditor (see Item 2 on page 5);

FOR the advisory resolution to approve executive compensation (see Item 3 on page 5); and

AGAINST the shareholder resolution recommending implementation of a simple majority voting standard in our governance documents (see Item 4 on page 6).

How will my shares be voted?

Your shares will be voted as you indicate on the proxy card. Except as indicated below with respect to shares held in the 401(k) Plan, if you return your signed proxy card but do not mark the boxes indicating how you wish to vote, your shares will be voted FOR the election of the 11 director

Table of Contents

nominees listed below; FOR the ratification of the appointment of Ernst & Young LLP as the Company's independent auditor for 2015, FOR the advisory resolution to approve executive compensation, and AGAINST the shareholder resolution recommending implementation of a simple majority voting standard in our governance documents.

Can I change my vote or revoke my proxy after I return my proxy card, or after I vote by telephone or electronically?

Yes. Even after you have submitted your proxy, you may change your vote at any time before the proxy is exercised at the meeting. Regardless of the way in which you submitted your original proxy, you may change it by:

- (1) Returning a later-dated signed proxy card;
- (2) Delivering a written notice of revocation to Computershare Investor Services, P.O. Box 43006, Providence, RI 02940-3078;
- (3) Voting by telephone or the Internet until 11:59 p.m. Eastern Time on Thursday, May 7, 2015; or
- (4) Voting in person at the meeting.

If your shares are held through a broker or other nominee, you will need to contact that institution if you wish to change your voting instructions.

How do I vote my 401(k) shares?

If you participate in the Company's Employees' Profit Sharing, Retirement and Savings Plan and Trust (the "401(k) Plan"), you may give voting instructions as to the number of share equivalents allocated to your account as of the record date. You may provide voting instructions to the trustee under the 401(k) Plan by completing and returning the proxy card accompanying this proxy statement. The trustee will vote your shares in accordance with your duly executed instructions if they are received by 11:59 p.m. Eastern Time, Tuesday, May 5, 2015. If you do not send instructions by this deadline or if you do not vote by proxy, or return your proxy card with an unclear voting designation or no voting designation at all, the trustee will vote the number of shares equal to the share equivalents credited to your account in the same proportion that it votes shares for which it did receive timely instructions.

What vote is required to approve each item?

In the election of directors, each nominee must receive more FOR votes than AGAINST votes in order to be elected as a director. Instructions to ABSTAIN and broker non-votes will have no effect on the election of directors. ***Your broker or nominee will not be permitted to vote on the election of directors without instructions from the beneficial owner. As a result, if you hold your shares through a broker or nominee, they will not be voted in the election of directors unless you affirmatively vote your shares in accordance with the voting instructions provided by that institution.***

Edgar Filing: MARRIOTT INTERNATIONAL INC /MD/ - Form DEF 14A

For ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm, the affirmative vote of the holders of a majority of the shares of Class A common stock present in person or represented by proxy and entitled to vote on the item will be required for approval. Instructions to ABSTAIN with respect to this item will be counted for

Table of Contents

purposes of determining the number of shares represented and entitled to vote. Accordingly, an abstention will have the effect of a vote AGAINST this item. Broker non-votes will not have any effect on the outcome of votes for this item.

For approval of (i) the advisory resolution to approve executive compensation and (ii) the shareholder resolution recommending implementation of a simple majority voting standard in our governance documents, the affirmative vote of the holders of a majority of the shares of Class A common stock present in person or represented by proxy and entitled to vote on the items will be required for approval. ***Your broker or nominee will not be permitted to vote on these items without instructions from the beneficial owner. As a result, if you hold your shares through a broker or nominee, they will not be voted to approve on an advisory basis the Company's executive compensation, or to approve the shareholder resolution recommending implementation of a simple majority voting standard in our governance documents, unless you affirmatively vote your shares in accordance with the voting instructions provided by that institution.*** Instructions to ABSTAIN with respect to these two items will be counted for purposes of determining the number of shares represented and entitled to vote. Accordingly, an abstention will have the effect of a vote AGAINST these items. Broker non-votes will not have any effect on the outcome of votes for these items.

Who will count the vote?

Representatives of Computershare Investor Services, our independent stock transfer agent, will count the votes and act as the inspector of election.

What shares are included on my proxy card(s)?

The shares on your proxy card(s) represent ALL of your shares of Class A common stock that the Company's stock transfer records indicate that you hold, including (i) any shares you may hold through the Computershare Investor Services Program for Marriott International, Inc. Shareholders administered by Computershare Investor Services; and (ii) if you are a current or former Marriott employee, any shares that may be held for your account by The Northern Trust Company as custodian for the 401(k) Plan. Shares that you hold in street name through a broker or other nominee are not included on the proxy card(s) furnished by the Company, but the institution will provide you with a voting instruction form.

What does it mean if I receive more than one proxy card?

If your shares are registered under different names or are held in more than one account, you may receive more than one proxy card. In order to vote all your shares, please sign and return all proxy cards, or if you choose, vote by telephone or through the Internet using the personal identification number printed on each proxy card. We encourage you to have all accounts registered in the same name and address (whenever possible). You can accomplish this by contacting our transfer agent, Computershare Investor Services, at (800) 311-4816.

How will voting on any other business be conducted?

Edgar Filing: MARRIOTT INTERNATIONAL INC /MD/ - Form DEF 14A

Although we currently do not know of any business to be considered at the 2015 annual meeting other than the proposals described in this proxy statement, if any other business is properly presented at the annual meeting, your proxy gives authority to J.W. Marriott, Jr. and/or Arne M. Sorenson (with full power of substitution) to vote on such matters at their discretion.

Table of Contents

When are shareholder proposals for the 2016 annual meeting of shareholders due?

To be considered for inclusion in our proxy statement for the 2016 annual meeting of shareholders, shareholder proposals must be received at our offices no later than the close of business December 9, 2015. Proposals must comply with Rule 14a-8 under the Securities Exchange Act of 1934, and must be submitted in writing to the Corporate Secretary, Marriott International, Inc., Department 52/862, 10400 Fernwood Road, Bethesda, Maryland 20817.

In addition, our bylaws require that, if a shareholder desires to introduce a shareholder proposal, other than a nomination for the election of directors, from the floor of the 2016 annual meeting of shareholders, notice of such proposal must be delivered in writing to the Company's Secretary at the above address no earlier than January 9, 2016 and no later than February 8, 2016. However, if the 2016 annual meeting of shareholders is more than thirty days before or more than seventy days after the anniversary date of this year's annual meeting, the shareholder's notice must be delivered no earlier than the close of business on the 120th day prior to such annual meeting and no later than the close of business on the later of the 90th day prior to such meeting or the 10th day following the date on which public announcement of the meeting date is first made. If a shareholder desires to nominate a director from the floor of the 2016 annual meeting of shareholders, our bylaws require that notice of such nomination be delivered in writing to the Company's Secretary at the above address no later than February 8, 2016. However, in the event that the 2016 annual meeting of shareholders is more than thirty days before or more than sixty days after the anniversary date of this year's annual meeting, the shareholder's notice must be so delivered no later than the close of business on the seventh day following the date on which notice of such meeting is first given to shareholders. The notice of such written proposal or nomination must comply with our bylaws. The Chairman of the meeting may refuse to acknowledge or introduce any shareholder proposal or nomination if notice thereof is not received within the applicable deadlines or does not comply with our bylaws. If a shareholder fails to meet these deadlines or satisfy the requirements of Rule 14a-4 under the Securities Exchange Act of 1934, the proxies we solicit allow us to vote on such proposals as we deem appropriate. You can find a copy of our bylaws in the Investor Relations section of the Company's website (www.marriott.com/investor) by clicking on Corporate Governance and then Governance Documents, or you may obtain a copy by submitting a request to the Corporate Secretary, Marriott International, Inc., Department 52/862, 10400 Fernwood Road, Bethesda, Maryland, 20817.

Will there be a sign language interpreter at the meeting?

If you would like to have a sign language interpreter at the annual meeting, please send your request in writing to the Corporate Secretary, Marriott International, Inc., Department 52/862, 10400 Fernwood Road, Bethesda, Maryland 20817. We must receive your request no later than April 30, 2015.

How much did this proxy solicitation cost and who paid that cost?

The Company paid for this proxy solicitation. We hired MacKenzie Partners, Inc. to assist in the distribution of proxy materials and solicitation of votes for an estimated fee of \$8,500, plus reimbursement of certain out-of-pocket expenses. We also reimburse brokerage houses and other custodians, nominees, and fiduciaries for their reasonable out-of-pocket expenses for forwarding proxy and solicitation materials to shareholders. Proxies will be solicited by mail, telephone, or other means of communication. Our directors, officers and regular employees who are not specifically employed for proxy solicitation purposes and who will not receive any additional compensation for such activities may also solicit proxies.

Can I receive future shareholder communications electronically through the Internet?

Yes. You may elect to receive future notices of meetings, proxy materials, and annual reports electronically through the Internet. If you have previously consented to electronic delivery, your consent will remain in effect until withdrawn. To consent to electronic delivery:

If your shares are registered in your own name, and not in street name through a broker or other nominee, simply log in to the Internet site maintained by our transfer agent, Computershare Investor Services, at www.computershare.com/investor and the step-by-step instructions will prompt you through enrollment.

If your shares are registered in street name through a broker or other nominee, you must first vote your shares using the Internet, at www.proxyvote.com, and immediately after voting, fill out the consent form that appears on-screen at the end of the Internet voting procedure.

You may withdraw this consent at any time and resume receiving shareholder communications in print form.

PROPOSALS TO BE VOTED ON

ITEM 1 Election of Directors

Except for Harry J. Pearce (as described below), all of our directors are standing for election at the 2015 annual meeting, and each director elected will hold office for a term expiring at the 2016 annual meeting of shareholders or until his or her successor is elected or appointed and qualified.

The following 10 current directors of the Company have been nominated for re-election as a director:

J.W. Marriott, Jr.
Mary K. Bush
Deborah M. Harrison
Frederick A. Henderson

Lawrence W. Kellner
Debra L. Lee
George Muñoz

W. Mitt Romney
Steven S Reinemund
Arne M. Sorenson

In addition, the Board has nominated Susan C. Schwab for election by the shareholders at the annual meeting.

You can find information on the director nominees beginning on page 13.

We do not know of any reason why any of the nominees would be unable to serve. However, if any of the nominees should become unable to serve as a director, the Board may designate a substitute nominee or reduce the size of the Board. If the Board designates a substitute nominee, the persons named as proxies will vote FOR that substitute nominee.

Mr. Pearce has attained the age of 72 and therefore was not nominated for re-election as a director pursuant to the retirement policy in the Company's Governance Principles. As a result, Mr. Pearce's term on the Board will end at the 2015 annual meeting. The Board thanks Mr. Pearce for his long and distinguished service to the Company.

The Company's bylaws prescribe the voting standard for election of directors as a majority of the votes cast in an uncontested election, such as this one, where the number of nominees does not exceed the number of directors to be elected. Under this standard, a nominee must receive more FOR votes than AGAINST votes in order to be elected as a director. In a contested election, where the number of nominees exceeds the number of directors to be elected (which is not the case at the 2015 annual meeting), the directors will be elected by a plurality of the shares present in person or by proxy and entitled to vote on the election of directors. Under the Company's Governance Principles, if a nominee who already serves as a director is not elected, that nominee shall tender his or her resignation to the Board. The Nominating and Corporate Governance Committee will then recommend to the Board whether to accept or reject the resignation, or whether other action should be taken. Within 90 days of the certification of election results, the Board will determine whether to accept or reject the resignation and will publicly disclose its decision promptly thereafter.

The Board recommends a vote FOR each of the 11 director nominees.

ITEM 2 Ratification of Appointment of Independent Registered Public Accounting Firm

The Audit Committee of the Board has appointed Ernst & Young LLP as the Company's independent registered public accounting firm for fiscal year 2015. Ernst & Young LLP, a firm of registered public accountants, has served as the Company's independent registered public accounting firm since May 3, 2002. Ernst & Young LLP will examine and report to shareholders on the consolidated financial statements of the Company and its subsidiaries.

Table of Contents

We expect that representatives of Ernst & Young LLP will be present at the annual meeting, have an opportunity to make a statement if they so desire, and be available to respond to appropriate questions. You can find information on pre-approval of independent auditor fees and Ernst & Young LLP's fiscal years 2014 and 2013 fees beginning on page 25. Although the Audit Committee has discretionary authority to appoint the independent auditors, the Board is seeking shareholder ratification of the appointment of the independent auditors as a matter of good corporate governance. If the shareholders do not ratify the appointment of Ernst & Young LLP, the Audit Committee will take that into consideration when determining whether to continue the firm's engagement.

The Board recommends a vote FOR ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for fiscal year 2015.

ITEM 3 Advisory Resolution to Approve Executive Compensation

We are asking shareholders to approve a non-binding advisory resolution on the compensation of our Named Executive Officers (NEOs), as disclosed in this proxy statement. Although the resolution, commonly referred to as a "say-on-pay" resolution, is non-binding, our Board of Directors and Compensation Policy Committee value your opinions and will consider the outcome of the vote when making future compensation decisions. After consideration of the vote of shareholders at the 2011 annual meeting of shareholders and consistent with the Board's recommendation, the Board's current policy is to hold an advisory vote on executive compensation on an annual basis, and accordingly, after the 2015 annual meeting, the next advisory vote on the compensation of our NEOs is expected to occur at our 2016 annual meeting of shareholders.

We urge you to read the Compensation Discussion and Analysis (CD&A) beginning on page 27 of this proxy statement, which describes in detail how our executive compensation policies and procedures operate and are designed to achieve our compensation objectives, as well as the Summary Compensation Table and other related compensation tables and narrative, appearing on pages 45 through 57, which provide detailed information on the compensation of our NEOs.

The Board believes that our current executive compensation program achieves an appropriate balance of long- and short-term performance incentives, reinforces the link between executive pay and the Company's long-term performance and stock value, and thereby aligns the interests of our NEOs with those of shareholders.

In accordance with Section 14A of the Exchange Act, and as a matter of good corporate governance, we are asking shareholders to approve the following advisory resolution at the 2015 annual meeting:

RESOLVED, that the shareholders of Marriott International, Inc. (the Company) approve, on an advisory basis, the compensation of the Company's named executive officers disclosed in the Compensation Discussion and Analysis, the Summary Compensation Table and the related compensation tables, notes and narrative in the Proxy Statement for the Company's 2015 Annual Meeting of Shareholders.

The Board recommends that you vote FOR approval of the advisory resolution on executive compensation.

ITEM 4 Shareholder Resolution Recommending Implementation of a Simple Majority Voting Standard in our Governance Documents

Myra K. Young (the proponent), 9295 Yorkship Court, Elk Grove, CA 95758 (owner of 75 shares of our Class A common stock), has advised the Company that she plans to present the following proposal at the annual meeting. We have included the proponent's proposal in this proxy statement pursuant to SEC rules, and the Board's response to it follows. The proponent's proposal contains assertions about the Company or other statements that we believe are incorrect. We have not attempted to refute all inaccuracies.

The Proponent's Proposal

Proposal 4 Simple Majority Vote

RESOLVED, Shareholders request that our board take the steps necessary so that each voting requirement in our charter and bylaws that calls for a greater than simple majority vote be eliminated, and replaced by a requirement for a majority of the votes cast for and against applicable proposals, or a simple majority in compliance with applicable laws. If necessary this means the closest standard to a majority of the votes cast for and against such proposals consistent with applicable laws.

Shareowners are willing to pay a premium for shares of corporations that have excellent corporate governance. Supermajority voting requirements have been found to be one of six entrenching mechanisms that are negatively related to company performance according to *What Matters in Corporate Governance* by Lucien Bebchuk, Alma Cohen and Allen Ferrell of the Harvard Law School. Supermajority requirements are arguably most often used to block initiatives supported by most shareowners but opposed by a status quo management.

This proposal topic also won from 74% to 88% support at Weyerhaeuser, Alcoa, Waste Management, Goldman Sachs, FirstEnergy, McGraw-Hill and Macy's. The proponents of these proposals included Ray T. Chevedden and William Steiner. Currently a 1%-minority can frustrate the will of our 66%-shareholder majority.

We gave 47% support to this topic in 2014. This 47% vote represented the substantial majority of independent Marriott shareholders. The Marriott family controlled 24% of the shares eligible to vote and more than 24% of the shares that were voted for and against. Yet the 2014 version of this proposal still received 47% of the total votes cast for and against.

Please vote to enhance shareholder value:

Simple Majority Vote Proposal 4

Board Response

The Board will oppose this proposal if it is properly presented at the 2015 annual meeting and recommends a vote AGAINST this proposal for the following reasons:

The Board recommends that shareholders vote against this shareholder proposal for a number of reasons, as discussed below. After careful consideration, the Board has determined that adopting this proposal would not serve to enhance shareholder value and, therefore, it is not in the best interests of the Company or its shareholders. The Board also notes that, at the 2014 annual meeting, shareholders considered and rejected a virtually identical shareholder proposal.

Table of Contents

Voting Thresholds.

A majority of votes cast is already the voting standard for electing the Company's directors in uncontested director elections under the Company's existing Restated Certificate of Incorporation (the "Certificate") and Amended and Restated Bylaws (collectively with the Certificate, the "Governance Documents"). The approval of 66 2/3% of outstanding shares is required under the Governance Documents only for certain fundamental changes to the Company's corporate governance, including the removal of directors, certain amendments to the Governance Documents, certain transactions with Interested Stockholders (described below) and the approval of certain fundamental corporate changes such as a merger, consolidation, or sale of substantially all of the assets of the Company.

Benefit to Shareholders of Supermajority Provisions.

Delaware law permits companies to adopt supermajority voting requirements, and a number of publicly-traded companies have adopted these provisions to preserve and maximize long-term value for all shareholders. Supermajority voting requirements on fundamental corporate matters help to protect shareholders against self-interested and potentially abusive transactions proposed by certain shareholders who may seek to advance their interests over the interests of the majority of the Company's shareholders. For example, if the shareholder proposal were implemented, certain transactions between the Company and Interested Shareholders (which include shareholders who beneficially own, and affiliates of the Company that at any time in the two years preceding such a transaction have beneficially owned, at least 25% of the voting power of the Company's stock) could be approved by only a majority of votes cast. The Board believes that the current supermajority voting standard is preferable because it would encourage Interested Shareholders to negotiate transaction terms that take into account the interests of all of the Company's shareholders and that do not sacrifice the long-term success of the Company for short-term benefits.

Marriott has an Excellent Corporate Governance Structure.

The Company's Board is firmly committed to good corporate governance and has adopted a wide range of practices and procedures that promote effective Board oversight, and the Company has earned a reputation as being a leader in this area. The Board believes that the corporate governance concerns raised by the proponent are misplaced. Some of the Company's progressive governance rules and programs include the following:

directors are elected annually by a majority of votes cast in uncontested elections

the Nominating and Corporate Governance Committee evaluates each director each year and makes a recommendation to the Board on the nomination of each for election

the Board has appointed an independent Lead Director who also chairs our Nominating and Corporate Governance Committee and presides over regular executive sessions and other meetings of the independent directors on the Board

in December 2011, the Board separated the positions of Chairman and Chief Executive Officer

the Board established a mandatory retirement age of 72 for all directors except for Mr. Marriott, Jr.

the Company did not renew a shareholder rights plan (also known as a poison pill) when it expired in 2008.

In addition, the Company's commitment to corporate governance has been recognized by independent third parties, including by *Corporate Secretary Magazine*, which named the Company a

Table of Contents

finalist in the category of Best Overall Governance, Compliance and Ethics (large cap) in 2012, and by the Ethisphere Institute, which for eight years has named Marriott a World's Most Ethical Company.

Consistent with its current practice, the Board will continue to evaluate the future implementation of appropriate corporate governance measures. However, for the reasons discussed above, the Board does not believe it is in the best interests of shareholders or the Company to implement the proponent's request for the lowest possible voting thresholds on all matters on which shareholders vote.

For these reasons, the Board opposes this proposal and recommends a vote AGAINST the proposal.

CORPORATE GOVERNANCE

Board Leadership Structure

While the Board has not mandated a particular leadership structure, historically, the positions of Chairman of the Board and Chief Executive Officer (CEO) were held by the same person. In December 2011, as a result of J.W. Marriott, Jr. 's discussions with the Board about relinquishing the role of CEO and as part of its ongoing review of the Board leadership structure and succession planning process, the Board determined that, effective March 31, 2012, the two positions should be held by separate individuals. The Board elected J.W. Marriott, Jr., who had served as the Chairman and CEO of the Company and its predecessors since 1985, to the position of Executive Chairman and Chairman of the Board and Arne M. Sorenson, the former President and Chief Operating Officer, to the position of President and CEO. In his current role, Mr. Marriott continues to provide leadership to the Board by, among other things, working with the CEO, the independent Lead Director (discussed below), and the Corporate Secretary to set Board calendars, determine agendas for Board meetings, ensure proper flow of information to Board members, facilitate effective operation of the Board and its Committees, help promote Board succession planning and the orientation of new directors, address issues of director performance, assist in consideration and Board adoption of the Company 's long-term and annual operating plans, and help promote senior management succession planning.

In 2013, the Board created the position of Lead Director, who is the independent Chairman of our Nominating and Corporate Governance Committee, currently Mr. Kellner. The Lead Director 's responsibilities include chairing the meetings of the independent directors, coordinating the activities of the independent directors, having the authority to convene meetings of the independent directors, and serving as a liaison between the Chairman of the Board and the independent directors. The Lead Director also is a standing member of the Company 's two-person Executive Committee along with the Chairman of the Board. The Lead Director also reviews Board meeting agendas, coordinates the evaluation of Board and Committee performance, coordinates the assessment and evaluation of Board candidates, makes recommendations for changes to the Company 's governance practices, and is available for consultation and direct communication with major shareholders. We believe that the role played by the Lead Director provides strong, independent Board leadership.

Eight of our 11 director nominees are independent, and the Audit, Compensation Policy and Nominating and Corporate Governance committees are composed solely of independent directors. Consequently, the independent directors directly oversee such critical items as the Company 's financial statements, executive compensation, the selection and evaluation of directors and the development and implementation of our corporate governance programs.

The Board will continue to review our Board leadership structure as part of the succession planning process that is described in our Governance Principles. We believe that our leadership structure, in which the roles of Chairman and CEO are separate, together with an experienced and engaged Lead Director and independent key committees, is and will continue to be effective and is the optimal structure for our Company and our shareholders at this time.

Selection of Director Nominees

The Nominating and Corporate Governance Committee will consider candidates for Board membership suggested by its members, other Board members, management, and shareholders. As a shareholder, you may recommend any person for consideration as a nominee for director by writing to the Nominating and Corporate Governance Committee of the Board of Directors, c/o Marriott International, Inc., Department 52/862, 10400 Fernwood Road, Bethesda, Maryland 20817.

Recommendations must include the name and address of the shareholder making the recommendation, a representation that the shareholder is a holder of record of Class A common stock, biographical information about the individual recommended and any other information the shareholder believes would be helpful to the Nominating and Corporate Governance Committee in evaluating the individual recommended.

Once the Nominating and Corporate Governance Committee has identified a candidate, the Committee evaluates the candidate against the qualifications set out in the Company's Governance Principles, including:

character, judgment, personal and professional ethics, integrity, values, and familiarity with national and international issues affecting business;

depth of experience, skills, and knowledge complementary to the Board and the Company's business; and

willingness to devote sufficient time to carry out the duties and responsibilities effectively.

The Committee makes a recommendation to the full Board as to any persons it believes should be nominated by the Board, and the Board determines the nominees after considering the recommendation and report of the Committee. The procedures for considering candidates recommended by a shareholder for Board membership are consistent with the procedures for candidates recommended by members of the Nominating and Corporate Governance Committee, other members of the Board or management.

You also may request a copy from the Company's Corporate Secretary. Our Governance Principles establish the limit on the number of board memberships for the Company's directors at three, including Marriott, for directors who are chief executive officers of public companies, and five for other directors.

Table of Contents

Director Independence

Our Governance Principles include the following standards for director independence:

5. Independence of Directors. At least two-thirds of the directors shall be independent, provided that having fewer independent directors due to the departure, addition or change in independent status of one or more directors is permissible temporarily, so long as the two-thirds requirement is again satisfied by the later of the next annual meeting of shareholders or nine months. To be considered independent, the board must determine that a director has no relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director of Marriott. The board has established the guidelines set forth below to assist it in determining director independence. For the purpose of this section 5, references to Marriott include any of Marriott's consolidated subsidiaries.

a. A director is not independent if (i) the director is, or has been within the preceding three years, employed by Marriott; (ii) the director or an immediate family member is a current partner or employee of Marriott's independent auditor, or was a partner or employee of Marriott's independent auditor and worked on the audit of Marriott at any time during the past three years; (iii) an immediate family member of the director is, or has been within the preceding three years, employed by Marriott as an executive officer; (iv) the director or an immediate family member is, or has been within the preceding three years, part of an interlocking directorate in which the director or an immediate family member is employed as an executive officer of another company where at any time during the last three years an executive officer of Marriott at the same time serves on the compensation committee of that other company; (v) the director has accepted, or an immediate family member has accepted, during any 12-month period within the preceding three years, more than \$120,000 in direct compensation from Marriott, other than compensation for board or board committee service, compensation paid to an immediate family member who is an employee (other than an executive officer) of Marriott, or benefits under a tax-qualified retirement plan, or non-discretionary compensation; (vi) the director or an immediate family member is an executive officer of a charitable organization to which Marriott made discretionary charitable contributions in the current or any of the last three fiscal years that exceed five percent of that organization's consolidated gross revenues for that year, or \$200,000, whichever is more; or (vii) the director or an immediate family member is a partner in, or a controlling stockholder or current executive officer of, any organization to which Marriott made, or from which Marriott received, payments for property or services in the current or any of the last three fiscal years that exceed five percent of the recipient's consolidated gross revenues for that year, or \$200,000, whichever is more, other than payments arising solely from investments in Marriott securities or payments under non-discretionary charitable contribution matching programs.

b. The following commercial or charitable relationships are not relationships that would impair a Marriott director's independence: (i) service as an executive officer of another company which is indebted to Marriott, or to which Marriott is indebted, where the total amount of either company's indebtedness to the other is less than two percent of the total consolidated assets of the other company; and (ii) service by a Marriott director or his or her immediate family member as director or trustee of a charitable organization, where Marriott's discretionary charitable contributions to that organization are in an amount equal to or less than the greater of \$200,000 or five percent of that organization's consolidated gross annual revenues. The board annually reviews all commercial and charitable relationships of directors, and publishes whether directors previously identified as independent continue to satisfy the foregoing tests.

Table of Contents

c. For relationships not covered by the guidelines in paragraph (b) above, the determination of whether the relationship would interfere with the exercise of independent judgment in carrying out the responsibilities of a director of Marriott, and therefore whether the director would be independent, shall be made by the directors who satisfy the independence guidelines set forth in paragraphs (a) and (b) above.

The Board undertook its annual review of director independence in February 2015. As provided in the Governance Principles, the purpose of these reviews is to determine whether any relationships or transactions are inconsistent with a determination that the director or nominee is independent. During these reviews, the Board recognized the current employment of J.W. Marriott, Jr., Deborah M. Harrison, and Arne M. Sorenson and the family relationships of J.W. Marriott, Jr. and Deborah M. Harrison with other Company executives. The Board considered that Ms. Bush, Mr. Henderson, Mr. Kellner, Ms. Lee, Mr. Muñoz, and Mr. Reinemund each serve, or recently served, as directors or executive officers of companies that do business with Marriott and that in each case the payments to and from Marriott were significantly less than the thresholds in Marriott's Governance Principles. The Board further considered that Ms. Bush and Mr. Kellner are affiliated with charitable organizations that received contributions from the J. Willard and Alice S. Marriott Foundation and that the contribution amounts were significantly below the charitable contribution threshold set forth in Marriott's Governance Principles.

Based on the standards set forth in the Governance Principles and after reviewing the relationships described above, the Board affirmatively determined that Mary K. Bush, Frederick A. Henderson, Lawrence W. Kellner, Debra L. Lee, George Muñoz, Harry J. Pearce, Steven S. Reinemund, W. Mitt Romney, and Susan C. Schwab are each independent of the Company and its management. In addition, the Board previously determined that Lawrence M. Small, who served on the Board until the 2014 annual meeting, was independent. J.W. Marriott, Jr., Deborah M. Harrison, and Arne M. Sorenson are considered not independent as a result of their employment with the Company and/or family relationships.

The Executive Committee did not meet in fiscal year 2014.

Responsibilities include:

Exercising the powers of the Board when the Board is not in session, subject to specific restrictions as to powers retained by the full Board. Powers retained by the full Board include those relating to amendments to the certificate of incorporation and bylaws, mergers, consolidations, sales, or exchanges involving substantially all of the Company's assets, dissolution and, unless specifically delegated by the Board to the Executive Committee, those powers relating to declarations of dividends and issuances of stock.

Compensation Committee Interlocks and Insider Participation

During fiscal 2014, the Compensation Policy Committee consisted of Steven S Reinemund (Chair), Mary K. Bush, Harry J. Pearce and Lawrence M. Small (through May 9, 2014), and none of the members of the Compensation Policy Committee is or has been an officer or employee of the Company or had any relationship that is required to be disclosed as a transaction with a related party.

Meetings of Independent Directors

Company policy requires that the independent directors meet without management present at least twice a year. In 2014, the independent directors met five times without management present. The Lead Director, currently Mr. Kellner, presides at the meetings of the independent directors.

Risk Oversight

The Board of Directors is responsible for overseeing the Company's processes for assessing and managing risk. The Board considers our risk profile when reviewing our annual business plan and incorporates risk assessment into its decisions impacting the Company. In performing its oversight responsibilities, the Board receives an annual risk assessment report from the Chief Financial Officer and discusses the most significant risks facing the Company.

The Board also has delegated certain risk oversight functions to the Audit Committee. In accordance with its charter, the Audit Committee periodically reviews and discusses the Company's business and financial risk management and risk assessment policies and procedures with senior management, the Company's independent auditor and the Chief Audit Executive. The Audit Committee incorporates its risk oversight function into its regular reports to the Board.

Table of Contents

In addition, the Compensation Policy Committee reviewed a risk assessment to determine whether the amount and components of compensation for the Company's employees and the design of compensation programs might create incentives for excessive risk-taking by the Company's employees. As explained in the CD&A below, the Compensation Policy Committee believes that our compensation programs encourage employees, including our executives, to remain focused on a balance of the short- and long-term operational and financial goals of the Company, and thereby reduces the potential for actions that involve an excessive level of risk.

Shareholder Communications with the Board

Shareholders and others interested in communicating with the Lead Director, the Audit Committee, the non-employee directors, or any of the employee directors may do so by e-mail to business.ethics@marriott.com or in writing to the Business Ethics Department, Department 52/924.09, 10400 Fernwood Road, Bethesda, Maryland 20817. All communications are forwarded to the appropriate directors for their review, except that the Board has instructed the Company not to forward solicitations, bulk mail or communications that do not address Company-related issues. The Company reports to the directors on the status of all outstanding concerns addressed to the non-employee directors, the Chair of the Nominating and Corporate Governance Committee, or the Audit Committee on a quarterly basis. The non-employee directors, the Chair of the Nominating and Corporate Governance Committee, or the Audit Committee may direct special procedures, including the retention of outside advisors or counsel, for any concern addressed to them.

Code of Ethics and Business Conduct Guide

The Company has long maintained and enforced a Code of Ethics that applies to all Marriott associates, including our Chairman of the Board, Chief Executive Officer, Chief Financial Officer and Principal Accounting Officer and to each member of the Board. AUDIT COMMITTEE REPORT AND INDEPENDENT AUDITOR FEES

Report of the Audit Committee

The Audit Committee reviews the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements, the reporting process, and maintaining an effective system of internal controls over financial reporting. The Company's independent auditor is engaged to audit and express opinions on the conformity of the Company's financial statements to accounting principles generally accepted in the United States and the effectiveness of the Company's internal control over financial reporting.

In this context, the Audit Committee has reviewed and discussed the audited financial statements together with the results of management's assessment of the internal controls over financial reporting with management and the Company's independent auditor. The Audit Committee also discussed with the independent auditor those matters required to be discussed by the independent auditor with the Audit Committee under the rules adopted by the Public Company Accounting Oversight Board (*PCAOB*). The Audit Committee has received the written disclosures and the letter from the independent auditor required by applicable requirements of the PCAOB, regarding the independent auditor's communications with the Audit Committee concerning independence, and has discussed with the independent auditor the independent auditor's independence.

Relying on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Company's Annual Report on SEC Form 10-K for the year ended December 31, 2014, for filing with the SEC.

EXECUTIVE AND DIRECTOR COMPENSATION

Report of the Compensation Policy Committee

The Compensation Policy Committee (the *Committee*), which is composed solely of independent members of the Board, assists the Board in fulfilling its responsibilities relating to executive compensation. The Committee is responsible for overseeing compensation programs that enable the Company to attract, retain and motivate executives capable of establishing and implementing business plans in the best interests of the shareholders. The Committee, on behalf of and, in certain instances, subject to the approval of the Board, reviews and approves compensation programs for certain senior officer positions. In this context, the Committee reviewed and discussed with management the Company's CD&A required by Item 402(b) of SEC Regulation S-K. Following the reviews and discussions referred to above, the Committee recommended to the Board that the CD&A be incorporated by reference in the Company's annual report on Form 10-K and included in this proxy statement.

Compensation Discussion and Analysis

This section explains the Company's executive compensation program for the following NEOs for 2014:

J.W. Marriott, Jr.	Executive Chairman and Chairman of the Board
Arne M. Sorenson	President and Chief Executive Officer
Anthony G. Capuano	Executive Vice President and Global Chief Development Officer
David J. Grissen	Group President
Carl T. Berquist	Executive Vice President and Chief Financial Officer

Executive Summary

Overview

Our executive compensation program is designed to drive performance through a combination of near-term financial and operational objectives and long-term focus on our stock price performance. We believe that the consistency in how we manage our executive compensation program

and our goals under that program has proven to be an important factor in the Company's long-term success in the highly cyclical hospitality industry. Our philosophy continues to emphasize equity compensation as the most significant component of the NEOs' total pay opportunity which supports our pay-for-performance objectives.

Table of Contents

2014 Financial and Operational Results under Our Annual Cash Incentive Program

Our performance-based compensation arrangements are directly linked with key financial and operational goals. In 2014, the Company's achievements were very strong, which contributed to an above target payout under our annual incentive plan. 2014 year-end financial and operational results included:

27% increase in diluted earnings per share (*EPS*) over the prior year, totaling \$2.54

42% increase in the calculated net present value of rooms approved for development over the prior year

0.1 percentage point increase in RevPAR Index during the year

Exceeded Associate Engagement goals for the year

2014 Compensation Actions At a Glance

In his role as Executive Chairman, Mr. Marriott is compensated primarily through his annual salary and is not eligible for annual cash incentives or equity awards. His annual salary was unchanged from 2013. Because of this arrangement, references to the NEOs' annual compensation in the remainder of this CD&A do not pertain to Mr. Marriott unless specifically stated otherwise.

Reflecting the strong performance in 2014, the Committee took the following compensation actions:

Base Salary: All NEOs, with the exception of our Group President, received base salary increases of 3% in February 2014, which was consistent with increases for all eligible management associates and with salary increases in the marketplace. Mr. Grissen received a base salary increase of 23.6% to recognize his significantly expanded role in 2014, which included responsibility for The Ritz-Carlton and Global Operations Services organizations.

Annual Incentive: Payments under the Company's annual cash incentive program are based on achievement of a pre-established EPS target and a combination of other financial and business operational performance measures tailored for each executive's area of responsibility. The annual cash incentive program resulted in an overall above target but less than maximum payout for each NEO for 2014. Specifically, the Committee determined that the Company achieved EPS of \$2.54, which was greater than the target achievement level of \$2.31 and resulted in a maximum payout. In addition, the Committee approved payouts at levels that were above target for 2014 but varied among the NEOs based on: (i) room growth and associate engagement at above target to maximum achievement level, (ii) Company-wide RevPAR Index at above target achievement level, and (iii) each NEO achieving certain key individual objectives.

Table of Contents

The following graph illustrates how the aggregate annual incentives paid to the NEOs change relative to changes in the Company's annual EPS results over the past ten years.

Equity Compensation: Consistent with the Company's pay-for-performance philosophy, the majority of each NEO's total pay opportunity has historically been in the form of long-term equity awards. Based on a careful review of our compensation program and to further enhance our pay-for-performance philosophy and align our executive compensation program with shareholders' interests, in 2014 the Committee began to grant a portion of the NEOs' annual equity awards as Performance Share Units (PSUs), so that 2014 stock awards for NEOs generally consisted of an equal mix of three-year vesting PSUs, Restricted Stock Units (RSUs) and Stock Appreciation Rights (SARs). In February 2014, the Committee approved annual equity awards with values at approximately the same level as in 2013 for each of the NEOs, except that Mr. Grissen's grant value was larger due to his increased scope of responsibilities as discussed above, his individual performance, and internal pay equity considerations. At the end of 2014, in recognition of Mr. Sorenson's performance since becoming CEO, the Committee recommended that the Board award an additional PSU that is conditioned on maintaining strong annual room growth performance.

Alignment between Executive Pay and Company Performance

The Committee believes that there should be a strong correlation between executive pay and Company performance. Therefore, the Company's executive compensation program includes many features designed to maintain this alignment, while also protecting the Company against inappropriate risk-taking and conflicts among the interests of the Company, its shareholders and its executives. The following graph shows the historical alignment between Company performance (measured as total shareholder return (TSR)) and average annual Realizable Pay (as defined below) of the CEO over 3-year rolling periods. The Company believes that this analysis strongly demonstrates that, in addition to aligning pay and performance with respect to the compensation opportunity that is *awarded* each year, the Company's executive compensation program also has been effective in creating close long-term alignment between performance and the value of compensation that actually may be *realized* by the NEOs. The increase in the CEO's average annual realizable pay for 2012–2014 relative to the TSR for the same period is primarily due to the effect of the Company's 58% increase in stock price on the amounts realizable under equity compensation awards.

Table of Contents

* Realizable Pay is the sum of salary paid, annual incentive earned and balances of stock awards granted over each 3-year period. Stock award balances are valued at the end of the 3-year period and include the in-the-money value of options, PSUs (valued assuming target performance), RSUs and SARs granted during the 3-year period. TSR reflects both stock price appreciation and reinvested dividends. The 3-year TSR rolling percentage is determined using 60-day average opening and closing prices.

NEOs are subject to clawback requirements

The Committee follows a rigorous process in determining NEO pay, including detailed review of multiple performance factors and market compensation information

The Committee conducts an annual compensation risk assessment

2014 Say-on-Pay Advisory Vote on Executive Compensation and Shareholder Engagement

At the Company's 2014 Annual Meeting, shareholders expressed substantial support for the compensation of our NEOs with approximately 92% of the votes cast for approval of the say-on-pay advisory vote on our 2013 NEO compensation. The Committee carefully evaluated the results of the 2014 advisory vote as well as feedback and comments received in connection with the Company's outreach efforts with shareholders. In 2014, the Committee, with advice from its independent compensation consultant, Pearl Meyer & Partners (the *Compensation Consultant*), engaged in a comprehensive review of the elements and mix of annual and long-term executive officer compensation, the peer group selection and evaluation process, and the long-term effectiveness of the Company's compensation programs. The Committee also sought comments from some of its largest institutional shareholders. Based on the foregoing, the Committee maintained the basic structure of the executive compensation program and continued to study means of further aligning executive compensation with long-term shareholder value.

Compensation Philosophy and Objectives

Marriott is consistently recognized as a global hospitality leader. The Company believes that strong and consistent leadership is the key to long-term success in the hospitality industry. Each of the NEOs is a long-standing member of our senior management team. For example, J.W. Marriott, Jr. and Arne M. Sorenson have over 75 years of combined hospitality experience with the Company. They have led Marriott's long history of delivering results for shareholders by relying on talented, hard-working employees (associates) who uphold the Company's ideals and unique culture. This culture is reflected in, and reinforced by, the design and implementation of the Company's executive compensation program, which emphasizes the following principles.

There should be a strong correlation between NEO pay and Company performance. Therefore, a substantial portion of NEO pay should be tied to achieving key performance goals.

NEOs should be paid in a manner that contributes to long-term shareholder value. Therefore, equity compensation should be the most significant component of total pay opportunity for the NEOs.

Compensation should be designed to motivate the NEOs to perform their duties in ways that will help the Company meet its short- and long-term objectives. Therefore, compensation should consist of an appropriate mix of cash and non-cash elements.

The executive compensation program must be competitive so that the Company can attract key talent from within and outside of our industry and retain key talent at costs consistent with market practice. Therefore, compensation should reflect market data, individual performance and internal pay equity considerations.

In keeping with these principles, the following charts show the percentage breakdown of target total direct compensation between performance-based (i.e., target annual incentive, PSUs and SARs) and other compensation (base salary, RSUs and other) for 2014.

Table of Contents

Also reflecting the principles listed above, the following charts show the percentage breakdown of target total direct compensation among base salary, target annual incentive, and target annual equity compensation.

Compensation Process

The Compensation Committee

In designing and determining 2014 NEO pay, the Committee considered recommendations of the Company's Executive Vice President, Global Chief Human Resources Officer, as well as the advice and recommendations of the Compensation Consultant, and Mr. Sorenson with regard to the other NEOs' pay (except Mr. Marriott). The Committee obtained input and approval from the full Board, with the independent directors meeting in executive session, regarding the compensation packages for Messrs. Marriott and Sorenson.

In its determinations, the Committee does not set rigid, categorical guidelines or formulae to determine the mix or levels of compensation for the NEOs. Rather, it relies upon its collective judgment as applied to the challenges confronting the Company as well as subjective factors such as leadership ability, individual performance, retention needs, and future potential as part of the Company's management development and succession planning process.

The Committee carefully reviews numerous factors when setting NEO total pay opportunity, allocating total pay opportunity among base salary, annual incentives and annual stock awards, and determining final pay outcomes based on performance. The Committee considers our executives' job responsibilities, tenure and experience, Company and individual performance against internal targets as well as performance of competitors, competitive recruiting and retention pressures, internal pay equity and succession and development plans.

The Committee also reviews total pay opportunity for executives at the 50th percentile of a broad-based and select group of companies described in the discussion of Market Data below. In reviewing relevant market data, the Committee may utilize discretion in determining the relevance of each

Table of Contents

compensation survey. For 2014, because the surveys do not reflect a comparable position for Mr. Capuano, our Executive Vice President and Global Chief Development Officer, the Committee considered multiple factors, including a review of publicly-disclosed compensation data for development and real estate executives at other hotel companies, internal pay equity and Mr. Capuano's historical contributions to the Company and his experience in the Marriott development organization.

This review of total pay opportunity is designed as a market check to align the potential range of total direct compensation outcomes with our long-term performance expectations and actual results. An understanding of external market data helps the Company attract and retain key executive talent without serving as a rigid standard for benchmarking compensation. For example, although performance comparisons are difficult given the differences in size, customer distribution, global geographic exposure and price tier distribution, the Committee considers historical and annual business results relative to other individual lodging companies to provide additional context for evaluating annual compensation actions. The Committee also regularly reviews historical financial, business and total shareholder return results for lodging companies as well as a selected group of comparator companies prior to determining final pay amounts.

Independent Compensation Consultant

The Committee selected and retained the Compensation Consultant to assist the Committee in establishing and implementing executive and director compensation strategy. The Compensation Consultant reports to and is instructed in its duties by the Committee and carries out its responsibilities in coordination with the Human Resources Department. Other than providing executive compensation survey data to the Company as described below, the Compensation Consultant performs no other services for the Company. Based on materials presented by management and the Compensation Consultant and the factors set forth in the SEC's Exchange Act Rule 10C-1, the Committee determined that the Compensation Consultant is independent and that the Compensation Consultant's engagement did not raise any conflicts of interest.

Market Data

The external market data utilized by the Company for 2014 includes several broad, revenue-based surveys as well as a custom survey of companies specifically selected by the Committee. The Committee believes, based on the advice of the Compensation Consultant, that the similarly-sized companies participating in the revenue-based surveys and the companies selected for the custom survey represent the broad pool of executive talent for which the Company competes. To avoid over-emphasizing the results of one or more surveys, the Company considers the results of the revenue-based surveys as well as those of the custom survey, in terms of total pay and each component of pay. The Committee also considers compensation practices at select lodging companies. This process for identifying relevant market data is used consistently for all senior executives of the Company, including the NEOs.

Revenue-Based Survey

In general, the revenue-based surveys used as a market reference for NEO pay include companies with annual revenue ranging from \$10 billion to \$20 billion. For 2014, the surveys were the *CHiPS Executive & Senior Management Total Compensation Survey*, the *Hewitt TCM General Industry Executive Total Compensation Survey*, the *Towers Watson CDB Executive Compensation Database*,

Table of Contents

the *Equilar Top 25 Survey*, and the *Fred Cook Survey of Long-Term Incentives*. The same set of surveys was also referenced last year. The Committee did not consider the individual companies in the revenue-based surveys when making compensation decisions.

Custom Survey

There are a limited number of U.S. publicly-traded lodging companies similar to our size. Therefore, in consultation with the Compensation Consultant, the Committee selected appropriate comparator group companies from a broad universe of companies that compete with Marriott for executive talent, are of similar size in annual revenue and have a similar focus on consumers and brand image even if they do not compete directly in the lodging business. The final list of 20 comparator group companies is shown below along with select financial and non-financial metrics the Committee considered and Marriott's percentile ranking on each of these metrics.

The Committee reviews the comparator group annually for potential changes (e.g. due to mergers and acquisition activity or changes in company size and business mix), but does not anticipate making significant changes every year, in order to allow for consistency and comparability of market data from year-to-year. However, for 2014, Hilton Worldwide Holdings was added because it is a direct competitor in the lodging industry which recently became publicly-traded.

2014 Compensation in Detail***Base Salary***

The Committee reviews individual base salaries for the NEOs each February for the current fiscal year. As a part of this review, the Committee considers whether base salary levels are commensurate with the executives' responsibilities, the external market and the Company's and executive's performance. For 2014, the Human Resources Department presented to the Committee market data on base salary levels at approximately the 50th percentile for each position and recommended base salary increases of 3% for each NEO except for Mr. Grissen. This was consistent with salary increases in the marketplace for NEOs and for management associates at the Company for the same period. For Mr. Grissen, management recommended a 23.6% salary increase after it reviewed market data and took into account the expansion of his responsibilities in 2014 to include The Ritz-Carlton and Global Operations Services organizations. The Compensation Consultant reviewed and supported the recommendation which was approved by the Committee and, with respect to Messrs. Marriott and Sorenson, by the independent members of the Board.

Annual Incentives

To promote growth and profitability, the Company's annual cash incentive program is based on actual performance measured against pre-established financial and business operational targets. The annual cash incentive design rewards executives for achieving annual corporate and individual performance objectives that support long-term financial and operational success.

At its February 2014 meeting, the Committee approved specific performance objectives and targets under the annual cash incentive program for 2014. In February 2015, after the release of the 2014 fiscal year audited financial results and taking into account the Company's performance relative to lodging and other comparator companies, the Committee reviewed each NEO's performance against the pre-established performance objectives to determine the actual cash incentive payments, as discussed below. All of the Committee's decisions regarding annual cash incentives for Mr. Sorenson were subject to and received Board approval.

Edgar Filing: MARRIOTT INTERNATIONAL INC /MD/ - Form DEF 14A

As reflected in the following table, target awards under the annual cash incentive program range from 150% of salary for Mr. Sorenson to 60% for Mr. Grissen. The Committee determined the differences in the target award percentages between NEOs primarily by considering internal factors, including pay equity with other executives, differences in responsibilities, significant promotions and

Table of Contents

future potential. The Committee also reviewed market data for each position and determined that the incentive amounts payable upon achievement of target performance levels would result in total cash compensation (base salary plus annual incentive) that would be at or near the 50th percentile.

Name	Target Award as a % of Salary
J.W. Marriott, Jr.	n/a
Arne M. Sorenson	150
Anthony G. Capuano	75
David J. Grissen	60
Carl T. Berquist	75

The annual cash incentive plan performance factors are intended to establish high standards consistent with the Company's quality goals, which are achievable, but not certain to be met. The Company believes that these factors are critical to achieving success within the hospitality and service industry. The weighting of each performance factor varies slightly among the NEOs by position due to differences in responsibility. The table below displays the respective weightings of the relevant performance measures and the aggregate actual performance for 2014 under the annual cash incentive program.

- (1) The guest satisfaction factor used in prior years was removed for 2014 and will be reintroduced in 2015 after the Company launches a new guest feedback program.
- (2) Each of these factors is measured against Company-wide results except that Mr. Grissen's components are measured against the Americas division, his primary area of responsibility.
- (3) We report the potential awards under the annual cash incentive program for 2014 in dollars in the Grants of Plan-Based Awards for Fiscal Year 2014 table, and the actual award amounts earned under the annual cash incentive program for 2014 in dollars in the Summary Compensation Table following the CD&A.
- (4) The maximum pay opportunity for Mr. Berquist was 153% of target whereas the other NEOs had a maximum pay opportunity of approximately 200%.

The performance factors for each NEO under the annual cash incentive program for 2014 were:

EPS and Operating Profit: The Company places a heavy emphasis on EPS as a performance measure because EPS is an important indicator of Company profitability and aligns the interests of management with those of shareholders. The Company uses EPS as reported under U.S. GAAP, as may be modified during the target-setting process for items that are not expected to have a direct impact on the business going forward, although no such adjustments were made for 2014 EPS targets.

Edgar Filing: MARRIOTT INTERNATIONAL INC /MD/ - Form DEF 14A

For 2014, the Company established the EPS target primarily through an extensive annual budgeting process whereby each hotel and individual corporate unit developed and submitted a budget. The Company then developed a consolidated Company budget considering external market factors such as global and domestic economic forecasts, lodging industry outlook, and projections for the Company compared with certain individual lodging companies, as well as internal factors such as current revenue from group bookings, expected unit growth for the year, and expected capital needs. The Board reviewed and approved the budget in February 2014. Considering these factors, the Committee set the EPS target for 2014 at a level that the

Table of Contents

Committee believed was achievable but not certain to be met, which was \$2.31. This target was approximately 15% higher than the Company's reported U.S. GAAP diluted EPS for 2013 of \$2.00. For 2014, the Committee established the following payout scale for EPS performance:

EPS		
<u>Achievement vs. Target</u>	<u>Incentive Award</u>	<u>Payout as % of Target*</u>
Below 87%	No Payment	0%
87%	Threshold Payment	25%
100%	Target Payment	100%
107% and Above	Maximum Payment	150 to 200%

* If the achievement falls between two of the stated performance levels, the incentive payment is interpolated between the corresponding incentive levels

The Company's diluted EPS as reported under U.S. GAAP for 2014 was \$2.54, which resulted in maximum achievement level and payout.

For Mr. Grissen, in addition to EPS, his financial performance objectives included operating profit from the Americas division, his primary area of responsibility. The Americas operating profit target was \$1.065 billion and the results were \$1.161 billion, corresponding with a maximum achievement level and payout.

Room Growth: Assessment of room growth is based on a net present value estimate/calculation utilized by our management and Board in evaluating the potential performance of completed development projects. The room growth target was reviewed and approved by the Board in February 2014 at a level that is significantly above 2013 targets. This target level is based on an extensive annual budgeting process whereby a budget was developed for each geographic region that was identified for potential growth and consolidated and finalized by the Company's Lodging Development Department after consideration of external market factors such as global and domestic economic forecasts and lodging industry outlook. For Mr. Grissen, this same process is followed to establish the room growth target for the Americas division.

For each NEO except Mr. Capuano, achievement of less than the target results in no component payout, and for Mr. Capuano achievement of 59% of the target results in a threshold component payout. Maximum payout is achieved at 118% of the room growth target for each NEO other than Mr. Capuano and Mr. Grissen, for whom maximum is 176% and 200% of target, respectively. The Committee established wider performance and payout ranges for Mr. Capuano and Mr. Grissen to more accurately measure and incentivize them for achieving growth goals. For 2014, the net present value of rooms approved for development exceeded the 2013 growth by approximately 42% and exceeded each NEO's maximum performance target, except for Mr. Grissen for whom the results were above target but below maximum.

Associate Engagement: Assessment of associate engagement is measured by the results of the Company's annual associate engagement survey (conducted by a third party) as compared against external benchmark results provided by the third party company. For 2014, the Company exceeded the "Best Employer" benchmark, which resulted in a maximum achievement level and payout. The Americas division was slightly below the "Best Employer" benchmark, which resulted in an above target but below maximum achievement level and payout.

RevPAR Index: The Company retains a third party to collect and compile the data used to calculate a worldwide RevPAR Index, or Americas RevPAR Index for Mr. Grissen. RevPAR

Table of Contents

Index measures each hotel's RevPAR against the aggregate RevPAR of a group of comparable hotels generally in the same market and lodging segment, stated as a percentage. RevPAR Index is an industry-specific measure of relative performance. Worldwide RevPAR Index is a weighted average of the RevPAR Index of all our hotels (or all hotels in the Americas for Mr. Grissen). In order for any payout to occur, the Company's worldwide (or Americas) RevPAR Index score must exceed 100, which indicates the Company has a premium RevPAR relative to its competitors, and must reflect an increase over prior year RevPAR Index results to exceed target component payout, reflecting that the Company's historical positioning relative to competitors has been strong, so that year-over-year increases in RevPAR index indicate additional improvements in relative performance. For 2014, the Company achieved an overall RevPAR Index score above 100 and a year-over-year increase of 0.1 percentage points resulting in an above target but below maximum payout. For the Americas, the Company achieved a RevPAR Index score above 100 and a year-over-year decrease of 0.1 percentage points resulting in a below target but above threshold payout.

Individual Achievement: Each year the Company sets specific, individual management objectives for the NEOs. Each NEO has a different set of objectives that is aligned to his unique responsibilities and role within the Company. The objectives are developed by the Chief Executive Officer and members of his executive team, and reviewed, modified as necessary and approved by the Committee (or the Board in the case of Mr. Sorenson's management objectives). The management objectives generally are difficult to accomplish and relate to key duties of the positions. Examples of the types of management objectives are: execute brand distinction strategy; win with the next generation travelers; execute agreements in support of continued growth; and optimize the benefits of the Company's major infrastructure initiatives.

The Committee applies a rigorous and largely subjective assessment of each NEO's qualitative performance relative to the management objectives. The management objectives are not assigned specific weightings and may be modified by the Committee during the performance period if a change in business circumstances warrants. The actual payments relating to management objectives are determined by the Committee based on its subjective assessment of each NEO's job performance for the year. Maximum or above target payouts typically occur if the Committee views the NEO's overall performance to have been superior after its review of the achievement levels for each of the objectives. No payments are made if performance is below threshold expectations. For each of the five years preceding 2014, the NEOs received award levels varying from zero (in 2009 when the Committee and the Board decided not to pay the portion of annual incentives relating to individual performance, notwithstanding strong individual performance) to a maximum payout for individual achievement. For 2014, each NEO achieved key individual objectives, including operational objectives such as the initiatives identified above, resulting in an above target to maximum payout under this criteria.

Long-Term Incentive Awards***Annual Stock Awards***

The Company grants equity compensation awards to the NEOs under the Marriott International, Inc. Stock and Cash Incentive Plan (the "Stock Plan") on an annual basis to help link NEO pay to long-term Company performance and to align the interests of NEOs with those of shareholders. Historically, most of our NEOs' annual stock awards were granted in an equal mix (based on grant date fair value) of RSUs and SARs. In 2014, we evaluated ways to further align our executive compensation program with shareholders' interests consistent with our compensation philosophy. As a result, the Committee began to include three-year performance vesting PSUs as an element of each NEO's annual stock awards.

Table of Contents

The Committee approved 2014 annual equity awards with values at approximately the same level as in 2013 for each of the NEOs, except that Mr. Grissen's grant value was larger due to his increased scope of responsibilities as discussed above, his individual performance, and internal pay equity considerations.

	2014 Target Grant Date Fair Value of Annual Stock Awards (\$)	2013 Target Grant Date Fair Value of Annual Stock Awards (\$)	2013 to 2014 Increase (%)
J.W. Marriott, Jr .	n/a	n/a	n/a
Arne M. Sorenson	5,741,022	5,859,507	-2
Anthony G. Capuano	2,410,146	2,434,922	-1
David J. Grissen	2,129,036	1,709,118	25
Carl T. Berquist	1,722,327	1,709,118	1

The Committee granted one-third of the 2014 annual equity awards as PSUs, so that the NEOs' stock awards for 2014 were granted on February 24, 2014, in an equal mix (based on the grant date fair value) of RSUs vesting over three years, SARs vesting over three years and PSUs vesting after three years, with the exception of Mr. Capuano. Mr. Capuano's annual stock award for 2014 consisted of a grant of PSUs, RSUs and SARs in the same form and manner as the other NEOs as well as a separate grant of RSUs which remain unvested until the third anniversary of the grant date, at which time they vest in full assuming Mr. Capuano remains continuously employed during that period. This separate RSU award had a grant value approximately the same as the annual cash incentive that Mr. Capuano earned for fiscal year 2013. The Committee established the separate RSU award based on Mr. Capuano's most recent annual cash incentive in order to further the objective of compensating Mr. Capuano primarily in recognition of his development activities and performance. By also imposing three-year cliff vesting, this grant offers additional retention value and further links Mr. Capuano's pay with the long-term interests of shareholders.

PSUs

PSUs are restricted stock units that may be earned after three years based on achievement of pre-established targets for RevPAR Index, gross room openings, and net administrative expenses over a three-year period, with one-third of the target number of shares subject to each performance measure. These three financial and operating metrics were selected by the Committee because they reflect management efforts that are directly tied to the long-term strength of our brands, as opposed to other performance measures that are more prone to be impacted by economic or other factors beyond our executives' control. We believe these are key drivers of long-term value creation. For the 2014-2016 PSU performance period, the performance measures are:

RevPAR Index: Although RevPAR Index is a component under the annual cash incentive program as described above, the Committee determined that longer-term goals for RevPAR Index, which measures performance relative to the Company's competitors, should be included to reflect our executives' longer term accomplishments in both driving traffic to and maintaining quality at our hotels.

Gross Room Openings: Gross room openings includes the total number of system-wide, managed, franchised and owned/leased rooms added to our system, excluding rooms added through merger and acquisition activity, and reflects our executives' achievements in attracting financing and owner/franchisee interest in our brands over those of our competitors.

Net Administrative Expense Growth: Net administrative expense measures our operating efficiency through our ability to control certain expenses, including direct and indirect expenses, unrecovered expenses, development expenses, and architecture and construction expenses, but excluding costs for mergers and acquisitions.

Table of Contents

For each of the three metrics, NEOs can receive 50% of the target PSU award level if performance is at least threshold and up to 150% of the target PSU award level if performance is above target. PSUs do not accrue dividend equivalents or pay dividends until they vest and shares are issued. The Committee approved the performance goals, which are competitively sensitive, at levels that are consistent with our strong historical performance and with internal forecasts at the time of grant, which indicated that target performance would be difficult, but attainable. It is also reasonably possible that awards could fall to zero or rise to maximum achievement levels.

Supplemental Stock Awards

Supplemental stock awards tend to be infrequent. Supplemental awards may be presented for consideration at quarterly Board meetings in recognition of special performance, promotions, assumption of additional responsibilities, to retain key talent or as a sign-on employment inducement. In December 2014, the Committee granted Mr. Sorenson a supplemental PSU with a board-approved value of \$5 million. This grant recognizes Mr. Sorenson's accomplishments since becoming CEO, including the Company's strong 2014 performance, and vests based on the extent to which the Company achieves gross room opening performance for 2015–2017. The number of shares issuable under this grant is capped at 100% for gross room opening performance that meets or exceeds the pre-established target set by the Committee, and any shares earned will not vest until February 15, 2018 subject to continued service. In addition, Mr. Sorenson is required to hold the shares (net of tax withholdings) for two years following vesting of the shares. Based on its review of market data, the Committee determined that the supplemental PSU award would result in CEO compensation opportunity that is well-aligned with the Company's pay-for-performance philosophy and strong 2014 performance. Although the supplemental PSUs are conditioned on performance for 2015–2017, they are not intended to replace or alter the Company's compensation programs for Mr. Sorenson.

Grant Timing and Pricing

The Company typically grants annual stock awards in February each year on the second business day following the release of its prior fiscal year annual earnings. This timing is designed to avoid the possibility that the Company could grant stock awards prior to the release of material, non-public information that may result in an increase or decrease in its stock price. Similarly, supplemental stock awards may be granted throughout the year, but not during Company-imposed black-out periods.

Executives derive value from their Options (granted prior to 2006) and SARs based on the appreciation in the value of the underlying shares of Company stock. For purposes of measuring this appreciation, the Company sets the exercise or base price as the average of the high and low quoted prices of the Company stock on the date the awards are granted. This average price valuation is common practice and offers no inherent pricing advantage to the executive or the Company.

Other Compensation

Perquisites

The Company offers limited perquisites to its executives that make up a very small portion of total compensation for NEOs. One benefit that is consistent with practices within the hospitality industry is complimentary rooms, food and beverages at Company-owned, operated or franchised hotels and the use of hotel-related services such as Marriott-managed golf and spa facilities while on personal travel. These benefits are offered to encourage executive officers to visit and personally evaluate our

Table of Contents

properties. In addition, to enhance their efficiency and maximize the time that they can devote to Company business, NEOs are permitted to use the Company jet for personal travel in limited circumstances. The value of these benefits is included in the executives' wages for tax purposes, and the Company does not provide tax gross-ups to the executives with respect to these benefits.

Other Benefits

Executives also may participate in the same Company-wide plans and programs offered to all eligible employees. Some of these benefits are paid for by the executives such as 401(k) plan elective deferrals, vision coverage, long- and short-term disability, group life and accidental death and dismemberment insurance, and health care and dependent care spending accounts. Other benefits are paid for or subsidized by the Company for all eligible employees such as the 401(k) Company match, certain group medical and dental benefits, \$50,000 free life insurance, business travel accident insurance and tuition reimbursement.

Nonqualified Deferred Compensation Plan

In addition to a tax-qualified 401(k) plan, the Company offers the NEOs and other senior management the opportunity to supplement their retirement and other tax-deferred savings under the Marriott International, Inc. Executive Deferred Compensation Plan (EDC). The Committee believes that offering this plan to executives is critical to achieve the objectives of attracting and retaining talent, particularly because the Company does not offer a defined benefit pension plan.

Under the EDC, NEOs may defer payment and income taxation of a portion of their salary and annual cash incentive. The plan also provides participants the opportunity for long-term capital appreciation by crediting their accounts with notional earnings (at a fixed annual rate of return of 5.2% for 2014), which is explained in the discussion of Nonqualified Deferred Compensation for Fiscal Year 2014 below.

The Company also may make a discretionary matching contribution to participants' (including the NEOs') EDC accounts for each fiscal year. The match is intended to make NEOs (and other highly-paid associates) whole for the approximate amount of matching contributions that would have been made under the Company's tax-qualified section 401(k) plan but for the application of certain nondiscrimination testing and annual compensation limitations under the Internal Revenue Code. For 2014, the Board approved a match, in two parts. The first part is a basic match equal to 25% of the first 2% of eligible compensation (as defined in the EDC up to \$260,000) deferred by the NEO under the EDC for 2014. The second part is a supplemental match equal to 50% up to the first 6% of eligible compensation deferred for 2014. The Board has discretion to adjust the actual match allocation based on fiscal year financial results, but did not make an adjustment for 2014.

The Company also may make an additional discretionary contribution to the NEOs' EDC accounts based on subjective factors such as individual performance, key contributions and retention needs. There have been no additional discretionary contributions for the NEOs in several years, including 2014.

Change in Control

Edgar Filing: MARRIOTT INTERNATIONAL INC /MD/ - Form DEF 14A

The Company provides limited, double trigger change in control benefits under the Stock Plan and the EDC. The Committee believes that, with these carefully structured benefits, the NEOs would be better able to perform their duties with respect to any potential proposed corporate transaction

Table of Contents

without the influence of or distraction by concerns about their employment or financial status. In addition, the Committee believes that shareholder interests are protected and enhanced by providing greater certainty regarding executive pay obligations in the context of planning and negotiating any potential corporate transactions.

Under these arrangements, if an NEO is terminated by the Company (other than for the executive's misconduct) or the executive resigns for good reason (as defined under the Stock Plan) during the period beginning three months before and ending 12 months following a change in control (as defined under the Stock Plan) of the Company, the NEO will immediately vest in all unvested equity awards (including at the target performance level for PSUs) and EDC balances. In those circumstances, all Options and SARs will remain exercisable until the earlier of the original expiration date of the awards or twelve months (or in the case of an approved retiree, five years) following the termination of employment, and all other stock awards shall be immediately distributed following the later of the termination of employment or the change in control event, subject in certain cases to a six-month delay under Section 409A of the Internal Revenue Code. In addition, any cash incentive payments under the annual cash incentive program will be made immediately based on the target performance level, pro-rated based on the days worked during the year until the NEO's date of termination in connection with or following a change in control.

The Company does not provide for tax gross-ups on these benefits, but instead limits the benefits to avoid adverse tax consequences to the Company. Specifically, each of these benefits is subject to a cut-back, so that the benefit will not be provided to the extent it would result in the loss of a tax deduction by the Company or imposition of excise taxes under the golden parachute excess parachute payment provisions of the Internal Revenue Code. The discussion of Payments Upon Termination or Change in Control below includes a table that reflects the year-end intrinsic value of unvested stock awards, unvested EDC accounts and cash incentive payments that each NEO would receive if subject to an involuntary termination of employment in connection with a change in control.

Stock Ownership Policies

The Company reinforces its performance-based and long-term philosophy through its stock ownership policy which requires, within five years of becoming subject to the policy, that each NEO own Company stock with a total value equal to a multiple of between three to six times his individual salary grade midpoint. Each NEO met or exceeded this requirement in 2014. Mr. Marriott is not included in the table below because he beneficially owns over 14% of the Company's outstanding shares and thus significantly exceeds his ownership requirement.

We have adopted a number of related policies that further reflect alignment with long-term shareholder value.

Executive officers and directors are required to retain 50% of the net after-tax shares received under any equity awards until they satisfy the applicable stock ownership levels.

Table of Contents

The Company prohibits all associates and directors from engaging in short sale transactions or entering into any other hedging or derivative transaction related to Marriott stock or securities.

PSUs and RSUs do not provide for accelerated distribution of shares upon retirement to ensure that executives have a continuing stake in the Company's performance beyond the end of their employment, thereby strengthening their interest in the Company's long-term success.

Clawbacks

In addition to the clawback provisions of the Sarbanes-Oxley Act that apply to the Chief Executive Officer and Chief Financial Officer, the Company's Stock Plan includes a separate clawback provision that applies to all equity awards issued to all of the NEOs. Under the Stock Plan, the Company has the authority to limit or eliminate the ability of any executive to exercise Options and SARs or to receive a distribution of Company stock under PSUs, RSUs or other stock awards if the executive engages in criminal or tortious conduct that is injurious to the Company or engages in competition with the Company.

The Committee has discretion to require reimbursement of any annual cash incentive payment awarded to an NEO if the amount of such incentive payment is calculated based upon the achievement of certain financial results that are required to be restated, provided that such discretion may only be exercised if the NEO has engaged in intentional misconduct that caused or partially caused the need for the restatement. The amount of the reimbursement would be the difference in the amount determined before and after the restatement. The Company continues to monitor the SEC's rulemaking with respect to the clawback requirements under the Dodd-Frank Wall Street Reform and Consumer Protection Act and will modify its executive compensation program accordingly when final rules go into effect.

Tax Considerations

Internal Revenue Code Section 162(m) limits the Company's federal income tax deduction for compensation in excess of one million dollars paid annually to any NEO except for the Chief Financial Officer. However, performance-based compensation can be excluded from the limitation so long as it meets certain requirements. The Committee has taken steps that are designed to conform with the requirements under Section 162(m) so that payments under the annual cash incentive program and compensation attributable to PSUs, RSUs and SARs granted in 2014 may qualify as deductible compensation under Section 162(m). For these purposes, payments under certain components of the annual cash incentive program and the vesting of RSUs granted in 2014 are conditioned on achieving earnings before interest, taxes, depreciation and amortization (*EBITDA*) of \$1.163 billion for 2014, a threshold established to support our compensation objectives with a meaningful level of cash flow. Actual EBITDA of \$1.524 billion exceeded the threshold. (See the section of the Company's Annual Report for fiscal year 2014 entitled *Non-GAAP Financial Measures Reconciliations* for a reconciliation of 2014 EBITDA.) Although the Committee designed certain awards to satisfy those requirements, because deductibility under Section 162(m) is determined under a set of standards which may be subject to different interpretations in application, we cannot be certain that compensation intended by the Committee to satisfy the deductibility requirements under Section 162(m) will in fact be deductible.

We also provide other elements of compensation for 2014 that are not intended to satisfy the requirements under Section 162(m), and we preserve the ability to manage our compensation programs to meet the objectives of our executive compensation philosophy and a variety of other corporate

Table of Contents

objectives, such as equity dilution management, workforce planning, and customer satisfaction. For this reason, the Committee has discretion to make awards of compensation which will not qualify for the performance-based exception when appropriate.

Risk Considerations

The Committee considered risk in determining 2014 NEO compensation and believes that the following aspects of NEO pay discourage unreasonable or excessive risk-taking by executives:

Base salary levels are commensurate with the executives' responsibilities (and the external market) so that the executives are not motivated to take excessive risks to achieve an appropriate level of financial security.

Annual cash incentive plans include a diverse mix of corporate and individual performance metrics.

Annual cash incentive opportunities are capped so that no payout exceeds a specified percentage of salary, thereby moderating the impact of short-term incentives.

The Committee and the Board have discretion to decrease annual cash incentive payouts, for example, if they believe the operational or financial results giving rise to those payouts are unsustainable or if they believe the payout would unfairly reward the NEOs for events that are unrelated to their performance.

The mix of short- and long-term incentives is balanced so that at least 50% of total pay opportunity is in the form of long-term equity awards.

PSUs are subject to relative and absolute performance measures that are directly tied to executives' individual performance and the strength of our brands over a three-year period, which balances the annual cash incentive focus on near-term results.

Annual stock awards are generally granted as an equal mix of PSUs, RSUs, and SARs that generally vest over at least 3 years which together encourage the NEOs to focus on sustained stock price performance.

The Committee reviews and compares total compensation and each element of compensation to external market data to confirm that compensation is within an acceptable range relative to the external market also taking into consideration the Company's relative performance.

The NEOs are subject to clawback provisions (as discussed above).

Stock ownership requirements align the long-term interests of NEOs with the interests of shareholders.

All associates and directors are prohibited from engaging in hedging or derivative transactions related to Marriott stock or securities.

The NEOs are prohibited from holding Company stock in margin accounts or pledging such stock as collateral for loans.

- (1) This column reports all amounts earned as salary during the fiscal year, whether paid or deferred under certain Company employee benefit plans.
- (2) The value reported for Stock Awards and Option/SAR awards is the aggregate grant date fair value of the awards granted in the fiscal year as determined in accordance with accounting guidance for share-based payments, although the Company recognizes the value of the awards for financial reporting purposes over the service period of the awards. The assumptions for making the valuation determinations are set forth in the footnotes captioned Share-Based Compensation to our financial statements in each of the Company's Forms 10-Ks for fiscal years 2012 through 2014. For additional information on 2014 awards, see the Grants of Plan-Based Awards for Fiscal Year 2014 table, below.
- (3) Approximately three-fourths of the value reported in this column for Mr. Sorenson in 2014, and one-half of the amount reported for the other NEOs (disregarding Mr. Capuano's separate RSU described in the CD&A), represents the value of PSUs at the grant date based upon target performance. Assuming that the highest level of performance conditions will be achieved for all PSUs, the grant date fair values of the 2014 Stock Awards for Messrs. Sorenson, Capuano, Grissen and Berquist would be \$7,049,346, \$761,192, \$1,058,465 and \$856,255 respectively.
- (4) This column reports all amounts earned under the Company's annual cash incentive program during the fiscal year, which were paid in February of the following fiscal year unless deferred under certain Company employee benefit plans.

The values reported equal the earnings credited to accounts in the EDC to the extent they were credited at a rate of interest exceeding 120% of the applicable federal long-term rate, as discussed below under Nonqualified Deferred Compensation for Fiscal year 2014.

- (6) All Other Compensation consists of Company contributions to the Company's qualified 401(k) plan, Company contributions to the Company's non-qualified Executive Deferred Compensation Plan and perquisites and personal benefits including personal use of the Company jet, spousal accompaniment while on business travel and rooms, food and beverages at Company-owned, operated or franchised hotels while on personal travel and use of other hotel-related services such as golf and spa facilities at Company-managed properties. The values in this column do not include perquisites and personal benefits that were less than \$10,000 in aggregate for each NEO for the fiscal year. The following table identifies the total amount the Company contributed to each NEO's qualified 401(k) plan and non-qualified EDC for fiscal year 2014. It also specifies values for perquisites and personal benefits for each NEO that comprise more than the greater of 10% of his aggregate perquisites or personal benefits or \$25,000.

Table of Contents

Name	Company Contributions to the 401(k) Plan (\$)	Company Contributions to the Executive Deferred Compensation Plan (\$)	Personal Use of the Company Jet (\$)	Other (\$)
Mr. Marriott	7,800	94,761	99,189	
Mr. Sorenson	7,800	97,076		13,098
Mr. Capuano	7,800	11,164		21,119
Mr. Grissen	7,800	38,547		
Mr. Berquist	7,800	45,020		

The value of the personal use of the Company jet is the sum of allocable flight-specific costs of the personal flights (including, where applicable, return flights with no passengers) such as landing fees, crew costs and other related items, and the product of (i) all other costs of maintaining and flying the jet for the billable year other than certain fixed expenses such as pilot compensation, management fee and hangar rental costs, multiplied by (ii) a fraction the numerator of which is the individual's personal flight hours on the jet for the billable year and the denominator of which is the total flight hours of the jet for the billable year.

Although amounts are reported for aircraft use during the Company's fiscal year, incremental cost is calculated on the basis of a December 1 through November 30 billable year, which reflects the contract service period used for billing by a third-party aircraft management company.

- (1) Grant Date applies to equity awards reported in the All Other Stock Awards and All Other Option/SAR Awards columns. The Board approved the annual stock awards at its February 12, 2014 meeting. Pursuant to the Company's equity compensation grant procedures described in the CD&A, the grant date of these awards was February 24, 2014, the second trading day following the release of the Company's 2013 earnings.
- (2) The amounts reported in these columns include potential payouts corresponding to achievement of the threshold, target and maximum performance objectives under the Company's annual cash incentive plans.
- (3) The columns report the number of shares issuable under PSUs granted to the NEOs for the 2014-2016 period. Vesting of Mr. Sorenson's December 2014 supplemental PSU is conditioned upon gross room openings performance for the 2015-2017

Table of Contents

period. The number of shares issuable under this grant is capped at 100% for gross room opening performance that meets or exceeds the pre-established target set by the Committee, and any shares that are earned will not vest until February 15, 2018, subject to continued service. Mr. Sorenson is required to hold any shares that vest (net of tax withholdings) for two years following the vesting date. Each other PSU reported in these columns is conditioned on the achievement over a three-year performance period of RevPAR Index, Gross Room Openings or Net Administrative Expense goals respectively, with threshold representing 50% of the target number of shares and maximum representing 150% of target. For these PSUs, each NEO received one award for an equal number of shares for each performance objective, with otherwise identical terms.

- (4) The value reported for Stock Awards and Option/SAR awards is the aggregate grant date fair value of the awards granted in 2014 as determined in accordance with accounting standards for share-based payments, although the Company recognizes the value of the awards for financial reporting purposes over the service period of the awards. The assumptions for making the valuation determinations are set forth in the footnotes captioned Share-Based Compensation to our financial statements in the Company's Form 10-K for the fiscal year 2014.
- (5) This award vests in full following the completion of three years of service or upon death or disability.

The Grants of Plan-Based Awards table reports the dollar value of cash-based annual incentive program awards (at their threshold, target and maximum achievement levels) and the number and grant date fair value of PSUs, RSUs and SARs granted under the Stock Plan to each NEO during the 2014 fiscal year. With regard to cash incentives, this table reports the range of potential amounts that could have been earned by the executive under the annual cash incentive program for 2014, whereas the Non-Equity Incentive Plan Compensation column in the Summary Compensation Table reports the actual value earned by the executive for 2014 under both plans.

Annual SAR and RSU grants under the Stock Plan typically vest 33% on each of the first 3 anniversaries of their grant date, contingent on continued employment with the Company. Annual PSU grants under the Stock Plan typically vest following the end of a 3-year performance period based on the achievement of pre-established performance measures. As described in the discussion of Stock Awards in the CD&A, Mr. Sorenson received an additional PSU award and Mr. Capuano received an additional grant of RSUs. Even when vested, an executive may lose the right to exercise or receive a distribution of any outstanding stock awards if the executive terminates employment due to serious misconduct as defined in the Stock Plan, or if the Committee determines that the executive has engaged in competition with the Company or has engaged in criminal conduct or other behavior that is actually or potentially harmful to the Company. In addition, under the terms of their RSU awards, NEOs do not receive an accelerated distribution of shares upon retirement from the Company, but must continue to wait for the scheduled distribution dates following retirement as specified in their awards. The Company believes that these provisions serve its objectives of retention and aligning the executives' long-term interests to those of the Company. These awards do not offer dividend or voting rights until they vest (in the case of PSUs and RSUs) or are exercised (in the case of SARs) and shares are issued to the grantee.

Outstanding Equity Awards at 2014 Fiscal Year-End

The following table shows information about outstanding Company options, SARs, RSUs and PSUs at December 31, 2014, our fiscal year-end. This table also includes Marriott Vacations Worldwide (*MVW*) stock awards resulting from adjustments to the Company stock awards for the spin-off of the Company's timeshare business in 2011, and reflects adjustments to the Exercise Price of options and SARs resulting from the spin-off. The Intrinsic Value and Market Value figures for the Company stock awards are based on the closing price as of December 31, 2014 of the Company's Class A common stock, which was \$78.03. The Intrinsic Value and Market Value figures for the MVW stock awards are based on the closing price of MVW's common stock (traded on the New York Stock Exchange under ticker symbol VAC) as of December 31, 2014, which was \$74.54. The reported Grant Dates for the MVW stock awards are the same as the grant dates for the related Company stock awards, as explained in the CD&A above.

PSUs, RSUs and SARs are described above in the discussion of Grants of Plan-Based Awards for Fiscal 2014. Option awards were last granted to NEOs in 2005, and executives derive value from their options based on the appreciation in the value of the underlying shares of Company stock from the grant date until exercise.

(1) For SARs that were exercised, the number of shares in this column reflects the nominal number of shares that were subject to SARs. The number of shares actually delivered under the SARs was lower and represented the value realized on exercise divided by the stock price on the day of exercise.

(2) The value realized upon exercise is based on the current trading price at the time of exercise.

(3) The value realized upon vesting is based on the average of the high and low stock price on the vesting date.

The following tables include additional information regarding the value realized by the NEOs in 2014 on the exercise or vesting of Marriott stock awards reported in the table above.

Table of Contents

- (1) The amounts in this column consist of elective deferrals by the NEOs of salary for the 2014 fiscal year and non-equity incentive plan compensation for 2013 (otherwise payable in 2014) under the EDC. The following table indicates the portion of each executive's 2013 elective contributions that was attributable to 2014 salary that is reported in the Summary Compensation Table.

Name	Amounts that relate to the contribution of Salary (\$)
Mr. Marriott	180,000
Mr. Sorenson	123,600
Mr. Capuano	19,892
Mr. Grissen	140,001
Mr. Berquist	148,526

- (2) The amounts in this column reflect aggregate notional earnings during 2014 of each NEO's account in the EDC. Such earnings are reported in the Summary Compensation Table only to the extent that they were credited at a rate of interest in excess of 120% of the applicable federal long-term rate. The following table indicates the portion of each executive's aggregate earnings during 2014 that is reported in the Summary Compensation Table.

Name	Amounts Included in the Summary Compensation Table for 2014 (\$)
Mr. Marriott	320,816
Mr. Sorenson	49,179
Mr. Capuano	9,976
Mr. Grissen	59,501
Mr. Berquist	38,305

- (3) This column includes amounts in each NEO's total EDC account balance as of the last day of the 2014 fiscal year. The following table presents the portion of the Aggregate Balance that was reported as compensation in the Summary Compensation Table in the Company's prior-year proxy statements since we became a public company on March 27, 1998.

Name	Amounts that were reported as compensation in prior year proxy statements (\$)
Mr. Marriott	12,879,873
Mr. Sorenson	2,312,634
Mr. Capuano	88,049
Mr. Grissen	460,068
Mr. Berquist	1,063,555

Under the EDC, participants are eligible to defer the receipt of up to 80% of their salary, bonus, non-equity incentive plan compensation and/or commissions. Such amounts are immediately vested. In addition, the NEOs may receive a discretionary Company match which is vested when made. For 2014, the NEOs will receive a discretionary match which is described in the discussion of Nonqualified Deferred Compensation Plan in the CD&A. No additional discretionary Company contribution was made for 2014.

Edgar Filing: MARRIOTT INTERNATIONAL INC /MD/ - Form DEF 14A

For 2014, the Company credited participant plan accounts with a rate of return determined by the Company. The rate of return was determined largely by reference to the Company's estimated long-term cost of borrowing and was set at 5.2% for 2014. To the extent that this rate exceeds 120% of the applicable federal long-term rate, the excess is reported in the Change in Pension Value and Nonqualified Deferred Compensation Earnings column of the Summary Compensation Table.

Executives may receive a distribution of the vested portion of their EDC accounts upon termination of employment or, in the case of deferrals by the executive (and related earnings), upon a specified future date while still employed (an *in-service distribution*), as elected by the executive. Each year's deferrals may have a separate distribution election. Distributions payable upon termination of employment may be elected as (i) a lump sum cash payment; (ii) a series of annual cash installments

Table of Contents

payable over a designated term not to exceed twenty years; or (iii) five annual cash payments beginning on the sixth January following termination of employment. In-service distributions may be elected by the executive as a single lump sum cash payment or annual cash payments over a term of one to five years, in either case beginning not earlier than the third calendar year following the calendar year of the deferral. However, in the case of amounts of \$10,000 or less, or when no election regarding the form of distribution is made, the distribution will be made in a lump sum. When the executive is a key employee for purposes of Section 409A of the Internal Revenue Code, any distribution payable on account of termination of employment will not occur until after six months following termination of employment. Typically, the NEOs are key employees.

Potential Payments Upon Termination or Change in Control

The Company does not have employment agreements or severance agreements with any of the NEOs.

Upon retirement or permanent disability (as defined in the pertinent plan), a NEO may continue to vest in and receive distributions under outstanding stock awards (with the exception of certain supplemental RSU awards granted after 2005) for the remainder of their vesting period; may exercise options and SARs for up to five years subject to the awards' original terms; and immediately vests in the unvested portion of his EDC account. However, annual stock awards granted after 2005 provide that if the executive retires within one year after the grant date, the executive forfeits a portion of the stock award proportional to the number of days remaining within that one-year period. For these purposes, retirement means a termination of employment with retirement approval of the Committee by an executive who has attained age 55 with 10 years of service with the Company, or, for the EDC and for Stock Plan annual stock awards granted before 2006, has attained 20 years of service with the Company. In all cases, however, the Committee or its designee has the authority to revoke approved retiree status if an executive terminates employment for serious misconduct or is subsequently found to have engaged in competition with the Company or engaged in criminal conduct or other behavior that is actually or potentially harmful to the Company. A NEO who dies as an employee or approved retiree immediately vests in his EDC account, options/SARs and other stock awards. These provisions were developed based on an analysis of external market data. As of December 31, 2014, Messrs. Marriott, Sorenson, Berquist and Grissen met the age and service conditions for retirement eligibility. Mr. Capuano will meet those conditions if he remains employed until December 17, 2020.

Under the Stock Plan, in the event of certain transactions involving a capital restructuring, reorganization or liquidation of the Company or similar event as defined in the plan, the Company or its successor may in its discretion provide substitute equity awards under the Stock Plan or, if no similar equity awards are available, an equivalent value as determined at that time will be credited to each NEO's account in the EDC, provided that such action does not enlarge or diminish the value and rights under the awards. If the Company or its successor does not substitute equity awards or credit the EDC accounts, the Company or its successor will provide for the awards to be exercised, distributed, canceled or exchanged for value. The intrinsic values of the vested and unvested options/SARs and unvested stock awards as of the last day of the fiscal year are indicated for each NEO in the Outstanding Equity Awards at 2014 Fiscal Year-End table.

In addition, if any NEO's employment is terminated by the Company other than for the executive's misconduct or the executive resigns for good reason (as defined under the Stock Plan) beginning three months before and ending twelve months following a change in control of the

Table of Contents

Company, the NEO will become fully vested in all unvested equity awards under the Stock Plan (including at the target performance level for PSUs) and unvested balances in the EDC. In those circumstances, all options and SARs will be exercisable until the earlier of the original expiration date of the awards or 12 months (or five years for an approved retiree) following the termination of employment, and all other stock awards shall be immediately distributed following the later of the termination of employment or the change in control event, except that certain stock awards subject to the requirements of Section 409A of the Internal Revenue Code may not be distributable for six months following termination of employment if the NEO is a specified employee under Section 409A, which is typical. In addition, any cash incentive payments under the annual cash incentive program will be made immediately based on the target performance level, pro-rated based on the days worked during the year until the NEO's termination of employment. The Company does not provide any tax gross-ups on these benefits, but instead limits the benefits to avoid adverse tax consequences to the Company. Specifically, each of these benefits is subject to a cut-back, so that the benefit will not be provided to the extent it would result in the loss of a deduction or imposition of excise taxes under the golden parachute excess parachute payment provisions of the Internal Revenue Code. Similar rules apply to the NEOs' outstanding MVW stock awards.

The table below reflects the intrinsic value of unvested stock awards and cash incentive payments that each NEO would receive upon retirement, disability, death, or involuntary termination of employment in connection with a change in control as of December 31, 2014, the end of our fiscal-year (based on the Company's and MVW's closing stock prices of \$78.03 and \$74.54, respectively). Each of the NEOs was fully vested in their EDC accounts as of December 31, 2014.

The benefits presented in the table above are in addition to benefits available prior to the occurrence of any termination of employment, including benefits available under then-exercisable SARs and Options and vested EDC balances, and benefits available generally to salaried employees such as benefits under the Company's 401(k) plan, group medical and dental plans, life and accidental death insurance plans, disability programs, health and dependent care spending accounts, and accrued paid time off. The actual amounts that would be paid upon a NEO's termination of employment can be determined only at the time of any such event. Due to the number of factors that affect the nature and amount of any benefits provided upon the events discussed above, any actual amounts paid or distributed may be higher or lower than reported above. Factors that could affect these amounts include the timing during the year of any such event, the Company's stock price and the executive's age. In addition, in connection with any actual termination of employment or change in control transaction, the Company may determine to enter into an agreement or to establish an arrangement providing additional benefits or amounts, or altering the terms of benefits described above, as the Committee determines appropriate.

Table of Contents**Director Compensation**

For 2014, we paid non-employee directors compensation in the form of annual cash retainer fees and Non-Employee Director Share Awards under the Stock Plan, as follows:

<u>Type of Fee (all fees below are annual)</u>	<u>Amount of Fee (\$)</u>
Board Retainer Fee	75,000
Share Award	125,000
Audit Committee Chair Fee	20,000
Other (Non-Audit) Committee Chair Fee	10,000
Audit Committee Member Retainer	10,000
Vice Chairman Fee(1)	93,750
Vice Chairman Share Award(1)	156,250

- (1) The Vice Chairman of the Board receives these fees/awards instead of the other Board fees/awards. The Vice Chairman of the Board position was eliminated on June 16, 2014.

We pay a retainer and chair fees on a quarterly basis. However, in accordance with established Company procedures, a director may elect to defer payment of all or a portion of his or her director fees pursuant to the Stock Plan and/or the EDC. Annual retainer and chair fees that are deferred pursuant to the Stock Plan may be replaced with Director SARs having equivalent grant-date value, or credited to the director's stock unit account in the plan, at the election of the director. We grant director SARs at fair market value, with a 10-year term, which immediately vest but cannot be exercised until one year following grant. As elected by the director, retainer and chair fees that are credited to the director's stock unit account may be distributed in a lump sum or in one to 10 annual installments following termination of service as a Board member. Amounts deferred under the Stock Plan accrue dividend equivalents but do not provide voting rights until the stock is distributed.

The Company grants the Non-Employee Director Share Awards following the Company's annual meeting of shareholders. A Director Share Award is a grant of stock that the director may choose to have distributed in a lump sum on the one-year anniversary of the grant or in a lump sum or one to 10 annual installments following termination of service as a Board member. Directors make their elections in the year prior to grant of the award. The annual Non-Employee Director Share Awards neither accrue dividend equivalents nor provide voting rights until the stock is distributed. The pricing practices for executive stock awards discussed in the CD&A above are followed for director stock awards.

The Company reimburses directors for travel expenses, other out-of-pocket costs they incur when attending meetings and, for one meeting per year, attendance by spouses. To encourage our directors to visit and personally evaluate our properties, the directors also receive complimentary rooms, food and beverages at Company-owned, operated or franchised hotels, as well as the use of hotel-related services such as Marriott-managed golf and spa facilities, when on personal travel. We report the value of these benefits to the directors as taxable compensation and do not provide the directors any gross-up to cover such taxes.

The Board of Directors believes that stock ownership by non-employee directors is essential for aligning their interests with those of shareholders. To emphasize this principle, Board stock ownership guidelines require that non-employee directors own Company stock or stock units valued at three times the combined directors' annual cash and stock retainers, or roughly eight times the annual cash retainer. All non-employee directors who have served as directors of the Company for five years or more have met this goal.

Table of Contents**Director Compensation for Fiscal Year 2014**

The following Director Compensation Table presents the compensation we paid in 2014 to our non-employee directors. As officers, Deborah Marriott Harrison, J.W. Marriott, Jr. and Arne M. Sorenson are not paid for their service as directors.

Name	Fees Earned or Paid in Cash (\$)(1)	Stock Awards \$(2)(3)	Change in Pension Value and Nonqualified Deferred Compensation Earnings \$(4)	All Other Compensation \$(5)(6)	Total (\$)

Debra L. Lee	85,000	125,004	1,095	18,454	229,553

W. Mitt Romney	81,667	125,004		13,989	220,660
Lawrence M. Small (retired effective May 9, 2014)	35,417		2,308	26,581	64,306

(1) This column includes any cash retainer fees that the directors elected to be deferred to their stock unit accounts in the Stock Plan, fees that the directors elected to receive as Director SARs, and fees that were deferred pursuant to the EDC, as follows:

Name	Fees Credited to Stock Unit Account in the Stock Plan (\$)	Fees Elected as a Director SAR Award (\$)	Fees Deferred Pursuant to the EDC (\$)
Ms. Lee			5,100
Mr. Muñoz		70,521	4,900
Mr. Pearce	70,500		4,500
Mr. Reinemund			58,367
Mr. Small			2,125

Because cash retainers otherwise are paid quarterly, fees were credited to the directors' stock unit accounts in the Stock Plan on April 10, 2014, July 10, 2014, October 10, 2014, and January 9, 2015. The number of shares credited to each director's stock unit account was determined by dividing the dollar amount that the director elected to defer by the average of the high and low trading prices of the Company's Class A common stock on the respective credit dates, which were \$56.23, \$65.18, \$63.93, and \$78.54, respectively. In addition, as he had elected, Mr. Muñoz received a grant of SARs on May 12, 2014, in lieu of cash payment of a portion of his annual cash retainer.

(2) In 2014, each non-employee director was granted a Director Share Award on May 12, 2014, for 2,118 shares, except that the Vice Chairman of the Board received 2,648 shares. In accordance with the Company's equity compensation grant procedures, the awards were determined by dividing the value of the Director Share Award by the average of the high and low prices of a share of the Company's Class A common stock on the date the awards were granted, which was \$59.02 per share. The amounts reported in the Stock Awards column reflect the grant-date fair value of the award, determined in accordance with accounting guidance for share-based payments.

Table of Contents**STOCK OWNERSHIP****Stock Ownership of our Directors, Executive Officers and Certain Beneficial Owners**

The table below sets forth the beneficial ownership of Class A common stock by our directors, director nominees and executive officers as of January 31, 2015 (unless otherwise noted), as well as additional information about beneficial owners of more than 5 percent of the Company's Class A common stock. Ownership consists of sole voting and sole investment power, except as indicated in the notes below, and except for shares registered in the name of children sharing the same household or subject to any community property laws. Unless otherwise noted, the address for all greater than five percent beneficial owners is Marriott International, Inc., 10400 Fernwood Road, Bethesda, Maryland 20817.

Note on Various Marriott Family Holdings: SEC rules require reporting of beneficial ownership of certain shares by multiple parties, resulting in multiple counting of some shares. After eliminating double-counting of shares beneficially owned, J.W. Marriott, Jr. and Deborah M. Harrison together have an aggregate beneficial ownership of 14.9% of Marriott's outstanding shares. The aggregate total beneficial ownership of J.W. Marriott, Jr., Deborah M. Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended (the *Exchange Act*), requires the Company's directors and executive officers and persons who own more than 10% of a registered class of the Company's equity securities (the *Reporting Persons*) to file with the SEC and the NASDAQ reports on Forms 3, 4 and 5 concerning their ownership of and transactions in the common stock and other equity securities of the Company, generally within two business days of a reportable transaction. As a practical matter, the Company seeks to assist its directors and executives by monitoring transactions and completing and filing reports on their behalf.

Based solely upon a review of SEC filings furnished to the Company and written representations that no other reports were required, we believe that all Reporting Persons complied with these reporting requirements during fiscal year 2014 except for (i) a late filing by Edward A. Ryan to report a sale of 292 shares; (ii) a late filing by each of J.W. Marriott, Jr. and Richard E. Marriott to report a sale of 26,063 shares by a trust for which they are co-trustees and, in the case of Richard E. Marriott, a sale of 65,156 shares by a trust for which his spouse is a trustee, and (iii) a late filing by JWM Family Enterprises Inc. to report a gift of 500 shares in 2013. Each untimely report was the result of an administrative error.

Our subsidiaries operate each of these properties pursuant to management agreements with entities controlled by Family Enterprises, and provide procurement and/or renovation services for some of these properties pursuant to contracts entered into with the ownership entities. We expect such arrangements to continue in 2015. In fiscal year 2014, we received management fees of approximately \$12.1 million plus reimbursement of certain expenses, and procurement and renovation services fees of approximately \$148,200 from our operation of and provision of services for these hotels. The Company has no financial involvement beyond the foregoing roles in either the hotels listed above or in Family Enterprises.

Our Company was founded by J.W. Marriott, Jr.'s father, and the Board believes that the involvement of a number of Marriott family members in responsible positions of the Company makes a significant long-term contribution to the value of our corporate name and identity and to the maintenance of Marriott's reputation for providing quality products and services. In addition to J.W. Marriott, Jr.'s service as Executive Chairman and Chairman of the Board, John W. Marriott III's recent service as Vice Chairman of the Board, and Deborah M. Harrison's membership on the Board of Directors and position as Global Officer, Marriott Culture and Business Councils, the Company employs a number of members of the Marriott family in management positions, including J.W. Policy on Transactions and Arrangements with Related Persons

The Company has adopted a written policy for approval of transactions and arrangements between the Company and the Company's current and recent former directors, director nominees, current and recent former executive officers, greater than five percent shareholders, and their immediate family members where the amount involved exceeds \$120,000. Each of the related person transactions described above is subject to, and has been approved or ratified under, this policy.

The policy provides that the Nominating and Corporate Governance Committee reviews certain transactions subject to the policy and determines whether or not to approve or ratify those transactions. In doing so, the committee takes into account, among other things, whether the transaction is on terms that are no less favorable to the Company than terms generally available to an unaffiliated third-party under similar circumstances and the materiality of the related person's interest in the transaction. The policy also provides that the Company's Corporate Growth Committee, an internal management committee whose members include each of the Company's continental Presidents, the Company's Chief Financial Officer, Executive Vice President and General Counsel, and other executive officers responsible for lodging development and lodging operations, reviews all such transactions that involve the management, operation, ownership, purchase, sale, or lease of a hotel, timeshare property, land and/or improvements.

Table of Contents

The Nominating and Corporate Governance Committee and the Corporate Growth Committee have considered and adopted standing pre-approvals under the policy for certain limited transactions with related persons that meet specific criteria. Information on transactions subject to pre-approval is provided to the appropriate committee at its next regularly scheduled meeting. Pre-approved transactions are limited to:

certain lodging transactions with specified maximum dollar thresholds where the Corporate Growth Committee has both approved the transaction and determined that its terms are no less favorable to the Company than those of similar contemporaneous transactions with unrelated third parties and, in some cases, where the transaction is the result of an open auction process involving at least three unrelated third-party bidders;

certain other lodging transactions with specified maximum dollar thresholds that are consistent with general terms and conditions that the Nominating and Corporate Governance Committee has previously approved;

employment and compensation relationships that are subject to Compensation Policy Committee or other specified internal management approvals and which, in the case of executive officers, are subject to required proxy statement disclosure;

certain transactions with other companies and certain charitable contributions that satisfy the independence criteria under both the Company's Corporate Governance Policies and the NASDAQ corporate governance listing standards; and

non-lodging transactions involving less than \$500,000 that are approved by at least two members of the Corporate Growth Committee for whom the transactions pose no conflict of interest.

HOUSEHOLDING

The SEC allows us to deliver a single proxy statement and annual report to an address shared by two or more of our shareholders. This delivery method, referred to as householding, can result in significant cost savings for us. In order to take advantage of this opportunity, the Company and banks and brokerage firms that hold your shares have delivered only one proxy statement and annual report to multiple shareholders who share an address unless one or more of the shareholders has provided contrary instructions. The Company will deliver promptly, upon written or oral request, a separate copy of the proxy statement and annual report to a shareholder at a shared address to which a single copy of the documents was delivered. A shareholder who wishes to receive a separate copy of the proxy statement and annual report, now or in the future, may obtain one, without charge, by addressing a request to the Corporate Secretary, Marriott International, Inc., Dept. 52/862, 10400 Fernwood Road, Bethesda, Maryland 20817 or by calling (301) 380-6601. You may also obtain a copy of the proxy statement and annual report from the Company's website (www.marriott.com/investor) by clicking on SEC Filings. Shareholders of record sharing an address who are receiving multiple copies of proxy materials and annual reports and wish to receive a single copy of such materials in the future should submit their request by contacting us in the same manner. If you are the beneficial owner, but not the record holder, of the Company's shares and wish to receive only one copy of the proxy statement and annual report in the future, you will need to contact your broker, bank or other nominee to request that only a single copy of each document be mailed to all shareholders at the shared address in the future.

OTHER MATTERS

The Company's management knows of no other matters that may be presented for consideration at the 2015 annual meeting. However, if any other matters properly come before the annual meeting, the persons named in the proxy intend to vote such proxy in accordance with their judgment on such matters.

Any shareholder who would like a copy of our 2014 Annual Report on Form 10-K may obtain one, without charge, by addressing a request to the Corporate Secretary, Marriott International, Inc., Dept. 52/862, 10400 Fernwood Road, Bethesda, Maryland 20817. The Company's copying costs will be charged if copies of exhibits to the Form 10-K are requested. You may also obtain a copy of the Form 10-K, including exhibits, from the investor relations portion of our website (www.marriott.com/investor) by clicking on SEC Filings.
