June 16, 2015

Dear Common Shareholder:

You are cordially invited to attend a joint special shareholder meeting (the *Special Meeting*) of BlackRock MuniYield Michigan Quality Fund II, Inc. ( *MYM* or the *Target Fund* ) and BlackRock MuniYield Michigan Quality Fund, Inc. ( *MIY* or the *Acquiring Fund* and together with the *Target Fund*, the *Funds* ), to be held at the offices of BlackRock Advisors, LLC, 1 University Square Drive, Princeton, New Jersey 08540-6455, on August 6, 2015 at 4:00 p.m. (Eastern time). Before the *Special Meeting*, I would like to provide you with additional background information and ask for your vote on important proposals affecting the *Funds*.

*Common Shareholders of MYM:* You and the preferred shareholders of *MYM* are being asked to vote as a single class on a proposal to approve the reorganization of *MYM* into *MIY* (the *Reorganization* ). Preferred shareholders of *MYM* are also being asked to vote as a separate class on a proposal to approve the *Reorganization*. The *Funds* have substantially identical investment objectives, investment policies and investment restrictions.

*Common Shareholders of MIY:* You and the preferred shareholders of the *MIY* are being asked to vote as a single class on a proposal to approve the issuance of additional common shares of *MIY* in connection with the *Reorganization*. Preferred shareholders of *MIY* are also being asked to vote as a separate class on a proposal to approve the *Reorganization*.

The enclosed Joint Proxy Statement/Prospectus is only being delivered to the *Funds* common shareholders. The preferred shareholders of each *Fund* are also being asked to attend the *Special Meeting* and to vote as a separate class with respect to the proposals describe above. Each *Fund* is delivering to its preferred shareholders a separate Joint Proxy Statement with respect to the proposals described above.

The Board of Directors of each *Fund* believes the proposal that the common shareholders of its *Fund* are being asked to vote upon is in the best interests of its respective *Fund* and its shareholders and unanimously recommends that you vote **FOR** such proposal.

The enclosed materials explain these proposals in more detail, and I encourage you to review them carefully. As a shareholder, your vote is important, and we hope that you will respond today to ensure that your shares will be represented at the *Special Meeting*. You may vote using one of the methods below by following the instructions on your proxy card:

By touch-tone telephone;

By internet;

By returning the enclosed proxy card in the postage-paid envelope; or

Edgar Filing: BLACKROCK MUNIYIELD MICHIGAN QUALITY FUND, INC. - Form 497

In person at the Special Meeting.

If you do not vote using one of these methods described above, you may be contacted by Georgeson Inc., our proxy solicitor, to vote your shares over the telephone.

As always, we appreciate your support.

Sincerely,

JOHN M. PERLOWSKI

President and Chief Executive Officer of the Funds

**Table of Contents**

**Please vote now. Your vote is important.**

**To avoid the wasteful and unnecessary expense of further solicitation(s), we urge you to indicate your voting instructions on the enclosed proxy card, date and sign it and return it promptly in the postage-paid envelope provided, or record your voting instructions by telephone or via the internet, no matter how large or small your holdings may be. If you submit a properly executed proxy but do not indicate how you wish your common shares to be voted, your common shares will be voted **FOR** the proposal, as applicable. If your common shares are held through a broker, you must provide voting instructions to your broker about how to vote your common shares in order for your broker to vote your common shares as you instruct at the Special Meeting.**

**IMPORTANT NOTICE**  
**TO COMMON SHAREHOLDERS OF**  
**BLACKROCK MUNIYIELD MICHIGAN QUALITY FUND, INC.**  
**BLACKROCK MUNIYIELD MICHIGAN QUALITY FUND II, INC.**

**QUESTIONS & ANSWERS**

Although we urge you to read the entire Joint Proxy Statement/Prospectus, we have provided for your convenience a brief overview of some of the important questions concerning the meeting and the proposals to be voted on. The enclosed Joint Proxy Statement/Prospectus is being sent only to the holders of shares of common stock ( Common Shares ) of BlackRock MuniYield Michigan Quality Fund II, Inc. ( MYM or the Target Fund ) and BlackRock MuniYield Michigan Quality Fund, Inc. ( MIY or the Acquiring Fund, and together with the Target Fund, the Funds and each, a Fund ). Each Fund is separately soliciting the votes of its holders of Variable Rate Demand Preferred Shares ( VRDP Shares ) through a separate Joint Proxy Statement.

**Q: Why is a shareholder meeting being held?**

*A: Common Shareholders of BlackRock MuniYield Michigan Quality Fund II, Inc. (NYSE Ticker: MYM):* You and the holders of the VRDP Shares ( VRDP Holders ) of MYM are being asked to vote as a single class on a proposal to approve the Agreement and Plan of Reorganization (the Reorganization Agreement ) between MYM and MIY, pursuant to which (i) MIY will acquire substantially all of MYM's assets and assume substantially all of MYM's liabilities in exchange solely for newly issued Common Shares and VRDP Shares of the MIY, which will be distributed to the common shareholders (although cash may be distributed in lieu of fractional Common Shares) and VRDP Holders, respectively, of MYM, and (ii) MYM will terminate its registration under the Investment Company Act of 1940, as amended (the 1940 Act ), and liquidate, dissolve and terminate in accordance with its charter and Maryland law.

MYM VRDP Holders are also being asked to vote as a separate class on a proposal to approve the Reorganization Agreement and the transactions contemplated therein, including the termination of MYM's registration under the 1940 Act and the dissolution of MYM under Maryland law, through a separate Joint Proxy Statement.

*Common Shareholders of BlackRock MuniYield Michigan Quality Fund, Inc. (NYSE Ticker: MIY):* You and the MIY VRDP Holders are being asked to vote as a single class on a proposal to approve the issuance of additional Common Shares of the MIY in connection with the Reorganization Agreement (the Issuance ).

MIY VRDP Holders are also being asked to vote as a separate class on a proposal to approve the Reorganization Agreement and the transactions contemplated therein, including the issuance of additional MIY VRDP Shares, through a separate Joint Proxy Statement.

The transactions contemplated by the Reorganization Agreement, including the Issuance, are referred to herein as the Reorganization . The term Combined Fund refers to MIY as the surviving Fund after the consummation of the Reorganization.

**Q: Why has each Fund's Board recommended these proposals?**

*A:* The Board of Directors (each, a Board and each member thereof, a Board Member ) of each Fund has determined that the proposed Reorganization would be in the best interests of its Fund. The proposed Reorganization seeks to achieve certain economies of scale and other operational efficiencies by combining two Funds that have substantially identical investment objectives, investment policies, investment restrictions and portfolio compositions and are managed by the same investment advisor, BlackRock Advisors, LLC (the

Investment Advisor ), and portfolio management team.

## Table of Contents

In light of these similarities, the proposed Reorganization is intended to reduce fund redundancies and create a single, larger state fund that may benefit from anticipated operating efficiencies and economies of scale. The proposed Reorganization is intended to result in the following potential benefits to common shareholders:

- (i) lower total expenses per Common Share for common shareholders of each Fund (as common shareholders of the Combined Fund following the Reorganization) due to economies of scale resulting from the larger size of the Combined Fund;
- (ii) improved earnings yield on net asset value ( NAV ) for common shareholders of the Target Fund and a comparable (i.e., the same or slightly lower or higher) earnings yield on NAV for common shareholders of the Acquiring Fund;
- (iii) improved secondary market trading of the Common Shares of the Combined Fund; and
- (iv) operating and administrative efficiencies for the Combined Fund, including the potential for the following:
  - (a) greater investment flexibility and investment options;
  - (b) greater diversification of portfolio investments;
  - (c) the ability to trade in larger positions and more favorable transaction terms;
  - (d) benefits from having fewer closed-end funds offering similar products in the market, including an increased focus by investors on the remaining funds in the market (including the Combined Fund) and additional research coverage; and
  - (e) benefits from having fewer similar funds in the same fund complex, including a simplified operational model and a reduction in risk of operational, legal and financial errors.

The Board of each Fund, including Board Members thereof who are not interested persons (as defined in the 1940 Act), approved the Reorganization Agreement and the Issuance, as applicable, concluding that the Reorganization is in the best interests of its Fund and that the interests of existing common shareholders and preferred shareholders of its Fund will not be diluted with respect to NAV and liquidation preference, respectively, as a result of the Reorganization. As a result of the Reorganization, however, common and preferred shareholders of each Fund will hold a reduced percentage of ownership in the larger Combined Fund than they did in any of the individual Funds before the Reorganization. The Board's conclusion was based on each Board Member's business judgment after consideration of all relevant factors taken as a whole with respect to its Fund and the Fund's common and preferred shareholders, although individual Board Members may have placed different weight on various factors and assigned different degrees of materiality to various factors.

### **Q: How will the Reorganization affect the fees and expenses of the Funds?**

A: For the fiscal year ended July 31, 2014, the Total Expense Ratios of the Target Fund and the Acquiring Fund were 1.55% and 1.54%, respectively. For the 12-month period ended January 31, 2015, the Total Expense Ratios of the Target Fund and the Acquiring Fund were 1.48% and 1.48%, respectively. Total Expenses means a Fund's total annual operating expenses (including interest expenses and applicable fee waivers). Total Expense Ratio means a Fund's Total Expenses expressed as a percentage of its average net assets attributable to its

## Edgar Filing: BLACKROCK MUNIYIELD MICHIGAN QUALITY FUND, INC. - Form 497

Common Shares. The Funds estimate that the completion of the Reorganization would result in a Total Expense Ratio for the Combined Fund of 1.43% on a historical and pro forma basis for the 12-month period ended January 31, 2015, representing a reduction in the Total Expense Ratio for the common shareholders of the Target Fund and the Acquiring Fund of 0.05% and 0.05%, respectively. The Funds' VRDP Shares have the same mechanism for determining the applicable dividend rate and maximum rate, and the same liquidity provider, remarketing agent and tender and paying agent. Each Fund's VRDP Shares are currently in a three year special rate period that will end on June 24, 2015. The

---

**Table of Contents**

special rate period is expected to be extended to June 22, 2016. During the special rate period, the Funds' VRDP Shares have the same mechanism for determining the applicable dividend rate and maximum rate, redemption premiums and transfer restrictions. For the fiscal year ended July 31, 2014, the annualized dividend rate for the VRDP Shares of the Target Fund and the Acquiring Fund were 1.01% and 1.01%, respectively. As of May 31, 2015, the dividend rate for the VRDP Shares of the Target Fund and the Acquiring Fund were 1.05% and 1.05%, respectively. Please see "Information about the VRDP Shares of the Funds" for additional information.

The Combined Fund will have a lower annual contractual investment management fee rate than each Fund. Each Fund currently pays the Investment Advisor a monthly fee at an annual contractual management fee rate of 0.50% of its average daily net assets (0.79% of the average daily net assets attributable to the Target Fund's Common Shares, and 0.80% of the average daily net assets attributable to the Acquiring Fund's Common Shares, each for the 12-month period ended January 31, 2015). Average daily net assets are the average daily value of a Fund's total assets minus its total accrued liabilities (which does not include liabilities represented by tender option bond (TOB) leverage and the liquidation preference of the VRDP shares).

If the Reorganization is consummated, the annual contractual investment management fee rate of the Combined Fund will be 0.49% of the average daily net assets of the Combined Fund (0.78% of the average daily net assets attributable to the Combined Fund's Common Shares on a historical and pro forma basis for the 12-month period ended January 31, 2015).

Based on a pro-forma Lipper peer expense group for the Combined Fund, the estimated total annual fund expense ratio (excluding investment-related expenses) and contractual management fee rate are each expected to be in the second and first quartile, respectively. There can be no assurance that future expenses will not increase or that any expense savings for any Fund will be realized as a result of the Reorganization.

**Q: How will the Reorganization affect the earnings, distributions and undistributed net income of the Funds?**

A: The Combined Fund's earnings yield on NAV following the Reorganization is expected to be comparable (i.e., the same or slightly lower or higher) to the Acquiring Fund's current earnings yield on NAV and potentially higher than the Target Fund's current earnings yield on NAV; thus, assuming that the Reorganization is consummated and that the Acquiring Fund's distribution policy remains in place after the Reorganization, common shareholders of the Acquiring Fund may experience a distribution rate on NAV comparable (i.e., the same or slightly lower or higher) to their current distribution rate on NAV and common shareholders of the Target Fund may experience a distribution rate on NAV that is potentially higher than their current distribution rate on NAV. The Combined Fund's earnings and distribution rate on NAV will change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the Reorganization. A Fund's earnings and net investment income are variables which depend on many factors, including its asset mix, portfolio turnover level, the amount of leverage utilized by the Fund, the costs of such leverage, the performance of its investments, the movement of interest rates and general market conditions.

If the Reorganization is approved by shareholders, then substantially all of the undistributed net investment income, if any, of each Fund is expected to be declared to such Fund's common shareholders prior to the effective date of the Reorganization (the Closing Date) (the Pre-Reorganization Declared UNII Distributions). The declaration date, ex-dividend date (the Ex-Dividend Date) and record date of the Pre-Reorganization Declared UNII Distributions will occur prior to the Closing Date. However, all or a significant portion of the Pre-Reorganization Declared UNII Distributions may be paid in one or more distributions to common shareholders of the Funds entitled to such Pre-Reorganization Declared UNII Distributions after the Closing Date. Former Target Fund shareholders entitled to such Pre-Reorganization Declared UNII Distributions paid after the Closing Date will receive such distributions in cash.

**Table of Contents**

BlackRock MuniYield Michigan Quality Fund, Inc. (MIY), as the Combined Fund following the Reorganization, does not currently expect to declare any distributions during the first month following the Closing Date. Accordingly, persons who purchase Common Shares of any of the Funds on or after the Ex-Dividend Date for the Pre-Reorganization Declared UNII Distributions should not expect to receive any distributions from any Fund until distributions, if any, are declared by the Board of the Combined Fund and paid to shareholders entitled to any such distributions. No such distributions are expected to be paid by the Combined Fund until at least approximately two months following the Closing Date.

The Combined Fund's earnings and distribution rate on NAV will change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the Reorganization. The Combined Fund is anticipated to retain a lower UNII balance after the Reorganization than the Acquiring Fund prior to the Reorganization; however, the Combined Fund is anticipated to benefit from a lower expense ratio and other benefits of economies of scale as discussed herein. Each Fund reserves the right to change its distribution policy with respect to common share distributions and the basis for establishing the rate of its distributions for the Common Shares at any time and may do so without prior notice to common shareholders. The payment of any distributions by any Fund is subject to, and will only be made when, as and if, declared by the Board of such Fund. There is no assurance the Board of any Fund will declare any distributions for such Fund.

To the extent any Pre-Reorganization Declared UNII Distributions is not an exempt interest dividend (as defined in the Internal Revenue Code of 1986, as amended (the Code)), the distribution may be taxable to shareholders for U.S. Federal income tax purposes.

**Q: Have Common Shares of each Fund historically traded at a premium or discount?**

A: The Common Shares of each Fund have historically traded at both a premium and a discount. The table below sets forth the market price, NAV, and the premium/discount to NAV of each Fund as of June 5, 2015.

Fund	Market Price	NAV	Premium/(Discount) to NAV
Target Fund (MYM)	\$12.50	\$14.34	(12.83)%
Acquiring Fund (MIY)	\$13.44	\$15.34	(12.39)%

To the extent the Target Fund Common Shares are trading at a wider discount (or a narrower premium) than the Acquiring Fund at the time of the Reorganization, the Target Fund's common shareholders would have the potential for an economic benefit by the narrowing of the discount or widening of the premium. To the extent the Target Fund Common Shares are trading at a narrower discount (or wider premium) than the Acquiring Fund at the time of the Reorganization, Target Fund common shareholders may be negatively impacted if the Reorganization is consummated. Acquiring Fund common shareholders would only benefit from a premium/discount perspective to the extent the Acquiring Fund's post-Reorganization discount (or premium) improves. There can be no assurance that, after the Reorganization, Common Shares of the Combined Fund will trade at a narrower discount to NAV or wider premium to NAV than the Common Shares of any individual Fund prior to the Reorganization.

In the Reorganization, common shareholders of the Target Fund will receive Acquiring Fund Common Shares based on the relative NAVs (not the market values) of the respective Fund's Common Shares. The market value of the Common Shares of the Combined Fund may be less than the market value of the Common Shares of each respective Fund prior to the Reorganization.

**Q: How will holders of VRDP Shares be affected by the Reorganization?**

A: As of the date of the enclosed Joint Proxy Statement/Prospectus, each Fund has VRDP Shares outstanding. As of May 31, 2015, the Target Fund has 873 Series W-7 VRDP Shares outstanding, and the Acquiring Fund has 1,446 Series W-7 VRDP Shares outstanding. In connection with the Reorganization, the Acquiring Fund expects to issue 873 additional VRDP Shares to Target Fund VRDP Holders. Following the completion of the Reorganization, the Combined Fund is expected to have 2,319 VRDP Shares outstanding.

---

**Table of Contents**

Upon the Closing Date, Target Fund VRDP Holders will receive on a one-for-one basis one newly issued Acquiring Fund VRDP Share, par value \$0.10 per share and with a liquidation preference of \$100,000 per share (plus any accumulated and unpaid dividends that have accrued on such Target Fund VRDP Share up to and including the day immediately preceding the effective date of the Reorganization if such dividends have not been paid prior to such effective date), in exchange for each Target Fund VRDP Share held by such Target Fund VRDP Holder immediately prior to the Closing Date. The newly issued Acquiring Fund VRDP Share may be of the same series as the Acquiring Fund's Series W-7 VRDP Shares or a substantially identical series. No fractional Acquiring Fund VRDP Shares will be issued. Target Fund VRDP Holders will receive the same number of Acquiring Fund VRDP Shares, with terms substantially similar to the terms of the outstanding Target Fund VRDP Shares, held by such holders immediately prior to the Closing Date, with the only significant difference being that the Target Fund VRDP Shares have a mandatory redemption date of June 1, 2041 and the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041.

The Acquiring Fund VRDP Shares to be issued in connection with the Reorganization will have terms that are substantially identical to the terms of the Acquiring Fund's outstanding VRDP Shares and will rank on a parity with the Acquiring Fund's existing VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The Reorganization will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding.

The terms of the outstanding Target Fund VRDP Shares are substantially similar to the terms of the outstanding Acquiring Fund VRDP Shares. The only significant difference between the terms of the two Funds' VRDP Shares is that the Target Fund VRDP Shares have a mandatory redemption date of June 1, 2041 and the Acquiring Fund VRDP Shares have a mandatory redemption date of May 1, 2041. The Funds' VRDP Shares have the same \$100,000 liquidation preference per share, dividend period, dividend payment date, voting rights, redemption provisions, remarketing procedures, mandatory purchase events, mandatory tender events, transfer restrictions and covenants with respect to effective leverage, asset coverage and eligible investments. The Funds' VRDP Shares also have the same mechanism for determining the applicable dividend rate and maximum rate, and the same liquidity provider, remarketing agent and tender and paying agent. Each Fund's VRDP Shares are currently in a three year special rate period that will end on June 24, 2015. The special rate period is expected to be extended to June 22, 2016. The terms applicable to each Fund's VRDP Shares during the special rate period are substantially identical. During the special rate period, the Funds' VRDP Shares have the same mechanism for determining the applicable dividend rate and maximum rate, redemption premiums and transfer restrictions.

None of the expenses of the Reorganization are expected to be borne by the VRDP Holders of the Funds.

Following the Reorganization, the VRDP Holders of each Fund will be VRDP Holders of the larger Combined Fund that will have a larger asset base and more VRDP Shares outstanding than either Fund individually. With respect to matters requiring all preferred shareholders to vote separately or common and preferred shareholders to vote together as a single class, following the Reorganization, holders of VRDP Shares of the Combined Fund will hold a smaller percentage of the outstanding preferred shares of the Combined Fund as compared to their percentage holdings of outstanding preferred shares of their respective Fund prior to the Reorganization.

**Q: How similar are the Funds?**

A: The Funds have the same investment advisor, portfolio managers, officers and directors. Each Fund is organized as a Maryland corporation with its Common Shares listed on the New York Stock Exchange and privately placed VRDP Shares outstanding. Each Fund is managed by a team of investment professionals comprised of Michael Kalinoski, Theodore R. Jaeckel, Jr. and Walter O. Connor.

The investment objective, significant investment strategies and operating policies, and investment restrictions of the Combined Fund will be those of the Acquiring Fund, which are substantially identical to those of the Target Fund.

**Table of Contents**

*Investment Objectives:*

Each Fund’s investment objective is to provide shareholders with as high a level of current income exempt from federal and Michigan income taxes as is consistent with its investment policies and prudent investment management.

*Michigan Municipal Bonds:*

Each Fund seeks to achieve its investment objective by investing at least 80% of an aggregate of its net assets (including proceeds from the issuance of any preferred shares) and the proceeds of any borrowings for investment purposes, in a portfolio of municipal obligations issued by or on behalf of the State of Michigan, its political subdivisions, agencies and instrumentalities and by other qualifying issuers, each of which pays interest that, in the opinion of bond counsel to the issuer, is excludable from gross income for U.S. federal income tax purposes (except that the interest may be includable in taxable income for purposes of the Federal alternative minimum tax) and exempt from Michigan income taxes.

*Investment Grade Securities:*

Each Fund currently invests primarily in investment grade municipal bonds.

*Leverage:*

Each Fund utilizes leverage in the form of VRDP Shares and tender option bonds.

Please see below a comparison of certain important ratios related to (i) each Fund’s use of leverage as of May 31, 2015 and (ii) the Combined Fund’s use of leverage, assuming the Reorganization had taken place as of May 31, 2015:

<b>Ratios</b>	<b>Target Fund (MYM)</b>	<b>Acquiring Fund (MIY)</b>	<b>Pro Forma Combined Fund (MIY)</b>
Asset Coverage Ratio	300%	295%	297%
Regulatory Leverage Ratio <sup>(1)</sup>	33%	34%	34%
Effective Leverage Ratio <sup>(2)</sup>	37%	37%	37%

(1) Regulatory leverage consists of VRDP Shares issued by the Fund, which is a part of a Fund’s capital structure. Regulatory leverage is sometimes referred to as “1940 Act Leverage” and is subject to asset coverage limits set forth in the 1940 Act.

(2) Effective leverage is a Fund’s effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative investments in the Fund’s portfolio. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings, in addition to any regulatory leverage, are included in effective leverage ratios.

It is not anticipated that there will be any significant disposition of the holdings in any Fund as a result of the Reorganization because of the similarities among the portfolio guidelines of the Funds. The risk/return profile of the Combined Fund is expected to remain comparable to those of each Fund before the Reorganization because of the similarities in the investment policies of each Fund.

**Q: How will the Reorganization be effected?**

## Edgar Filing: BLACKROCK MUNIYIELD MICHIGAN QUALITY FUND, INC. - Form 497

- A: Assuming the Reorganization receives the requisite shareholder approvals, as well as certain consents, confirmations and/or waivers from various third parties, including the liquidity provider with respect to the outstanding VRDP Shares, the Acquiring Fund will acquire substantially all of the Target Fund's assets and assume substantially all of the Target Fund's liabilities in exchange solely for newly issued Common Shares and VRDP Shares of the Acquiring Fund, which will be distributed to the shareholders of the Target Fund (although cash may be distributed in lieu of fractional Common Shares). The Target Fund will then terminate its registration under the 1940 Act and liquidate, dissolve and terminate in accordance with its charter and Maryland law.

---

**Table of Contents**

Shareholders of the Target Fund will become shareholders of the Acquiring Fund. Common shareholders of the Target Fund will receive newly issued Common Shares of the Acquiring Fund, par value \$0.10 per share, the aggregate NAV (not the market value) of which will equal the aggregate NAV (not the market value) of the Common Shares of the Target Fund such shareholders held immediately prior to the Closing Date (although common shareholders may receive cash for fractional Common Shares). The NAV of the Target Fund and the Acquiring Fund immediately prior to the Closing Date will be reduced by the costs of the Reorganization borne by each Fund, if any. The NAV of Target Fund Common Shares will not be diluted as a result of the Reorganization. The common shareholders of each Fund have substantially similar voting rights and rights with respect to the payment of dividends and distribution of assets upon liquidation of their respective Fund and have no preemptive, conversion or exchange rights.

Target Fund VRDP Holders will receive on a one-for-one basis one newly issued Acquiring Fund VRDP Share, par value \$0.10 per share and with a liquidation preference of \$100,000 per share (plus any accumulated and unpaid dividends that have accrued on such Target Fund VRDP Share up to and including the day immediately preceding the effective date of the Reorganization if such dividends have not been paid prior to the Closing Date), in exchange for each Target Fund VRDP Share held by such Target Fund VRDP Holder immediately prior to the Closing Date. The newly issued Acquiring Fund VRDP Share may be of the same series as the Acquiring Fund's Series W-7 VRDP Shares or a substantially identical series. No fractional Acquiring Fund VRDP Shares will be issued. Target Fund VRDP Holders will receive the same number of Acquiring Fund VRDP Shares, with terms substantially similar to the terms of the outstanding Target Fund VRDP Shares, held by such holders immediately prior to the Closing Date, with the only significant difference being that the Target Fund VRDP Shares have a mandatory redemption date of June 1, 2041 and the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041.

Shareholders of the Acquiring Fund will remain shareholders of the Acquiring Fund, which will have additional Common Shares and VRDP Shares outstanding after the Reorganization.

**Q: Will I have to pay any U.S. federal income taxes as a result of the Reorganization?**

A: The Reorganization is intended to qualify as a reorganization within the meaning of Section 368(a) of the Code. If the Reorganization so qualifies, in general, shareholders of the Target Fund will recognize no gain or loss for U.S. federal income tax purposes upon the exchange of their Target Fund Shares for Acquiring Fund shares pursuant to the Reorganization (except with respect to cash received in lieu of fractional Common Shares). Additionally, the Target Fund will recognize no gain or loss for U.S. federal income tax purposes by reason of the Reorganization. Neither the Acquiring Fund nor its shareholders will recognize any gain or loss for U.S. federal income tax purposes pursuant to the Reorganization.

Shareholders of each Fund may receive distributions prior to, or after, the consummation of the Reorganization, including distributions attributable to their proportionate share of each Fund's undistributed net investment income declared prior to the consummation of the Reorganization or the Combined Fund built-in gains, if any, recognized after the Reorganization, when such income and gains are eventually distributed by the Combined Fund. To the extent that such a distribution is not an exempt interest dividend (as defined in the Code), the distribution may be taxable to shareholders for U.S. federal income tax purposes.

The Funds' shareholders should consult their own tax advisers regarding the U.S. federal income tax consequences of the Reorganization, as well as the effects of state, local and non-U.S. tax laws, including possible changes in tax laws.

**Q: Will I have to pay any sales load, commission or other similar fees in connection with the Reorganization?**

A: You will pay no sales loads or commissions in connection with the Reorganization. Regardless of whether the Reorganization is completed, however, the costs associated with the proposed Reorganization, including

## **Table of Contents**

the costs associated with the shareholder meeting, will be borne directly by each of the respective Funds incurring the expense or will otherwise be allocated among the Funds proportionately or on another reasonable basis as discussed more fully in the Joint Proxy Statement/Prospectus.

Common shareholders of the Funds will indirectly bear the costs of the Reorganization. The expenses of the Reorganization are estimated to be \$331,000 for the Target Fund and \$351,000 for the Acquiring Fund. Because of the expected expense savings and other benefits for each Fund, the Investment Advisor recommended and the Board of each Fund has approved that its respective Fund be responsible for a portion of its own Reorganization expenses. The Investment Advisor will bear approximately \$115,000 of the Target Fund's Reorganization expenses and approximately \$120,000 of the Acquiring Fund's reorganization expenses. The actual costs associated with the proposed Reorganization may be more or less than the estimated costs discussed herein.

VRDP Holders are not expected to bear any costs of the Reorganization.

Neither the Funds nor the Investment Advisor will pay any expenses of shareholders arising out of or in connection with the Reorganization (*e.g.*, expenses incurred by the shareholder as a result of attending the shareholder meeting, voting on the Reorganization or other action taken by the shareholder in connection with the Reorganization).

### **Q: What shareholder approvals are required to complete the Reorganization?**

A: The Reorganization is contingent upon the following approvals:

1. The approval of the Reorganization Agreement and the transactions contemplated therein, including the termination of the Target Fund's registration under the 1940 Act and the dissolution of the Target Fund under Maryland law, by the Target Fund's common shareholders and VRDP Holders voting as a single class;
2. The approval of the Reorganization Agreement and the transactions contemplated therein, including the termination of the Target Fund's registration under the 1940 Act and the dissolution of the Target Fund under Maryland law, by Target Fund VRDP Holders voting as a separate class;
3. The approval of the Reorganization Agreement and the transactions contemplated therein, including the issuance of additional Acquiring Fund VRDP Shares, by Acquiring Fund VRDP Holders voting as a separate class; and

4. The approval of the Issuance by the Acquiring Fund's common shareholders and VRDP Holders voting as a single class. If the requisite shareholder approvals are not obtained, each Fund's Board may take such actions as it deems in the best interests of its Fund, including conducting additional solicitations with respect to the proposals or continuing to operate the Fund as a stand-alone Maryland corporation registered under the 1940 Act as a non-diversified closed-end investment management company advised by the Investment Advisor. The Investment Advisor may, in connection with the ongoing management of each Fund and its product line, recommend alternative proposals to the Board of each Fund.

In order for the Reorganization to occur, each Fund must obtain all requisite shareholder approvals with respect to the Reorganization, as well as certain consents, confirmations and/or waivers from various third parties, including the liquidity provider with respect to the outstanding VRDP Shares. Because the closing of the Reorganization is contingent upon the Target Fund and the Acquiring Fund obtaining the requisite shareholder approvals and third party consents and satisfying (or obtaining the waiver of) other closing conditions, it is possible that the Reorganization will not occur, even if shareholders of either Fund entitled to vote on the Reorganization approve the Reorganization and such Fund satisfies all of its closing conditions, if the other Fund does not obtain its requisite shareholder approvals or satisfy its closing conditions.

## **Table of Contents**

The VRDP Shares were issued on a private placement basis to one or a small number of institutional holders. Please see Shareholder Information for additional information. To the extent that one or more VRDP Holder of either the Target Fund or the Acquiring Fund owns, holds or controls, individually or in the aggregate, all or a significant portion of such Fund's outstanding VRDP Shares, the VRDP shareholder approval required for the Reorganization may turn on the exercise of voting rights by such particular VRDP Holder(s) and its (or their) determination as to the favorability of the proposal with respect to its (or their) interests. The Funds exercise no influence or control over the determinations of such VRDP Holder(s) with respect to the proposal; there is no guarantee that such VRDP Holder(s) will approve the proposal, over which it (or they) may exercise effective disposition power.

### **Q: Why is the vote of shareholders of the Acquiring Fund being solicited in connection with the Reorganization?**

A: The rules of the New York Stock Exchange (on which the Acquiring Fund Common Shares are listed) require the Acquiring Fund's shareholders to approve the Issuance. If the Issuance is not approved, then the Reorganization will not occur. We are also seeking the approval of the Reorganization Agreement and the transactions contemplated therein, including the issuance of additional Acquiring Fund VRDP Shares, by the Acquiring Fund VRDP Holders voting as a separate class pursuant to the governing document of the Acquiring Fund VRDP Shares. If Acquiring Fund VRDP Holders do not approve the Reorganization Agreement as a separate class, then the Reorganization will not occur.

### **Q: How does the Board of my Fund suggest that I vote?**

A: After careful consideration, the Board of your Fund unanimously recommends that you vote FOR each of the items proposed for your Fund.

### **Q: How do I vote my proxy?**

A: You may cast your vote by mail, phone, internet or in person at the Special Meeting. To vote by mail, please mark your vote on the enclosed proxy card and sign, date and return the card in the postage-paid envelope provided. If you choose to vote by phone or internet, please refer to the instructions found on the proxy card accompanying the Joint Proxy Statement/Prospectus. To vote by phone or internet, you will need the control number that appears on the proxy card.

### **Q: Whom do I contact for further information?**

A: You may contact your financial advisor for further information. You may also call Georeson Inc., the Funds' proxy solicitor, at 1-888-654-1722.

**NOTICE OF JOINT SPECIAL MEETING OF SHAREHOLDERS**

**TO BE HELD ON AUGUST 6, 2015**

Notice is hereby given that a joint special meeting of shareholders (the *Special Meeting*) of BlackRock MuniYield Michigan Quality Fund II, Inc. (NYSE Ticker: MYM) (*MYM* or the *Target Fund*) and BlackRock MuniYield Michigan Quality Fund, Inc. (NYSE Ticker: MIY) (*MIY* or the *Acquiring Fund*, and together with the Target Fund, each, a *Fund*) will be held at the offices of BlackRock Advisors, LLC, 1 University Square Drive, Princeton, New Jersey 08540-6455, on August 6, 2015 at 4:00 p.m. (Eastern time) for the following purposes:

**Proposal 1: The Reorganization of the Funds**

*For Shareholders of the Target Fund:*

*Proposal 1(A):* The holders of shares of common stock (*Common Shares*) and holders of Variable Rate Demand Preferred Shares (*VRDP Shares*) of the Target Fund are being asked to vote as a single class on a proposal to approve an Agreement and Plan of Reorganization between the Target Fund and the Acquiring Fund (the *Reorganization Agreement*), pursuant to which (i) the Acquiring Fund will acquire substantially all of the Target Fund's assets and assume substantially all of the Target Fund's liabilities in exchange solely for newly issued Common Shares and VRDP Shares of the Acquiring Fund, which will be distributed to the common shareholders and holders of VRDP Shares (*VRDP Holders*), respectively, of the Target Fund (although cash may be distributed in lieu of fractional Common Shares), and (ii) the Target Fund will terminate its registration under the Investment Company Act of 1940, as amended (the *1940 Act*), as amended, and liquidate, dissolve and terminate in accordance with its charter and Maryland law.

*Proposal 1(B):* The VRDP Holders of the Target Fund are being asked to vote as a separate class on a proposal to approve the Reorganization Agreement and the transactions contemplated therein, including the termination of the Target Fund's registration under the 1940 Act and the dissolution of the Target Fund under Maryland law.

*For Shareholders of the Acquiring Fund:*

*Proposal 1(C):* The VRDP Holders of the Acquiring Fund are being asked to vote as a separate class on a proposal to approve the Reorganization Agreement and the transactions contemplated therein, including the issuance of additional Acquiring Fund VRDP Shares.

**Proposal 2: The Issuance of Additional Acquiring Fund Common Shares**

*Proposal 2:* The common shareholders and VRDP Holders of the Acquiring Fund are being asked to vote as a single class on a proposal to approve the issuance of additional Common Shares of the Acquiring Fund in connection with the Reorganization Agreement.

Shareholders of record of each Fund as of the close of business on June 8, 2015 are entitled to notice of and to vote at the Special Meeting or any adjournment or postponement thereof.

The Funds are soliciting the vote of their common shareholders on Proposal 1(A) and Proposal 2 through a Joint Proxy Statement/Prospectus.

Each Fund is separately soliciting the votes of its respective VRDP Holders on each of the foregoing proposals through a separate Joint Proxy Statement and not through the Joint Proxy Statement/Prospectus.

**Table of Contents**

The officers or directors of each Fund named as proxies by shareholders may participate in the Special Meeting by remote communications, including, without limitation, by means of a conference telephone or similar communications equipment by means of which all persons participating in the Special Meeting can hear and be heard by each other, and the participation of such officers and directors in the Special Meeting pursuant to any such communications system shall constitute presence in person at the Special Meeting.

**THE BOARD OF DIRECTORS (EACH, A BOARD ) OF EACH OF THE FUNDS RECOMMENDS THAT YOU VOTE YOUR SHARES BY INDICATING YOUR VOTING INSTRUCTIONS ON THE ENCLOSED PROXY CARD, DATING AND SIGNING SUCH PROXY CARD AND RETURNING IT IN THE ENVELOPE PROVIDED, WHICH IS ADDRESSED FOR YOUR CONVENIENCE AND NEEDS NO POSTAGE IF MAILED IN THE UNITED STATES, OR BY RECORDING YOUR VOTING INSTRUCTIONS BY TELEPHONE OR VIA THE INTERNET.**

This Joint Proxy Statement/Prospectus is furnished to you as a common shareholder of BlackRock MuniYield Michigan Quality Fund II, Inc. (NYSE Ticker: MYM) ( MYM or the Target Fund ) and/or BlackRock MuniYield Michigan Quality Fund, Inc. (NYSE Ticker: MIY) ( MIY or the Acquiring Fund and together with the Target Fund, each, a Fund ). A special meeting (the Special Meeting ) of shareholders of each Fund will be held at the offices of BlackRock Advisors, LLC (the Investment Advisor ), 1 University Square Drive, Princeton, New Jersey 08540-6455, on August 6, 2015 at 4:00 p.m. (Eastern time) to consider the items listed below and discussed in greater detail elsewhere in this Joint Proxy Statement/Prospectus. If you are unable to attend the Special Meeting or any adjournment or postponement thereof, the Board of Directors of your Fund (the Board ) recommends that you vote your shares of common stock ( Common Shares ) by completing and returning the enclosed proxy card or by recording your voting instructions by telephone or via the internet. The approximate mailing date of this Joint Proxy Statement/Prospectus and accompanying form of proxy is June 26, 2015.

The purposes of the Special Meeting are:

**Proposal 1: The Reorganization of the Funds**

*For Shareholders of the Target Fund:*

*Proposal 1(A):* The common shareholders and holders of Variable Rate Demand Preferred Shares ( VRDP Shares ) of the Target Fund are being asked to vote as a single class on a proposal to approve an Agreement and Plan of Reorganization between the Target Fund and the Acquiring Fund (the Reorganization Agreement ), pursuant to which (i) the Acquiring Fund will acquire substantially all of the Target Fund's assets and assume substantially all of the Target Fund's liabilities in exchange solely for newly issued Common Shares and VRDP Shares (collectively, the Shares ) of the Acquiring Fund, which will be distributed to the Target Fund's common shareholders (although cash may be distributed in lieu of fractional Common Shares) and holders of VRDP Shares ( VRDP Holders ), respectively, and (ii) the Target Fund will terminate its registration under the Investment Company Act of 1940, as amended (the 1940 Act ), and liquidate, dissolve and terminate in accordance with its charter and Maryland law.

*Proposal 1(B):* The VRDP Holders of the Target Fund are being asked to vote as a separate class on a proposal to approve the Reorganization Agreement and the transactions contemplated therein, including the termination of the Target Fund's registration under the 1940 Act and the dissolution of the Target Fund under Maryland law.

*For Shareholders of the Acquiring Fund:*

*Proposal 1(C):* The VRDP Holders of the Acquiring Fund are being asked to vote as a separate class on a proposal to approve the Reorganization Agreement and the transactions contemplated therein, including the issuance of additional Acquiring Fund VRDP Shares.

**Proposal 2: The Issuance of Additional Acquiring Fund Common Shares**

*Proposal 2:* The common shareholders and VRDP Holders of the Acquiring Fund are being asked to vote as a single class on a proposal to approve the issuance of additional Common Shares of Acquiring Fund in connection with the Reorganization Agreement (the Issuance ).

## **Table of Contents**

Shareholders of record of each Fund as of the close of business on June 8, 2015 (the Record Date ) are entitled to notice of and to vote at the Special Meeting or any adjournment or postponement thereof.

Shareholders of each Fund are entitled to one vote for each Share held, with no Shares having cumulative voting rights. VRDP Holders of each Fund will have equal voting rights with the common shareholders of such Fund with respect to the proposals that require the vote of the Fund's VRDP Shares and Common Shares as a single class. The quorum and voting requirements for each Fund are described in the section herein entitled Voting Information and Requirements.

This Joint Proxy Statement/Prospectus is only being delivered to the common shareholders of each Fund. Each Fund is separately soliciting the votes of its respective VRDP Holders on each of the foregoing proposals that require the vote of VRDP Holders through a separate joint proxy statement and not through this Joint Proxy Statement/Prospectus.

The Reorganization Agreement that Fund shareholders are being asked to consider involves transactions, including the Issuance, that will be referred to in this Joint Proxy Statement/Prospectus as the Reorganization. The Fund surviving the Reorganization is referred to herein as the Combined Fund.

Each Fund is organized as a Maryland corporation. Each Fund is a non-diversified closed-end investment company registered under the 1940 Act. The Reorganization seeks to achieve certain economies of scale and other operational efficiencies by combining two Funds that have substantially identical investment policies and investment restrictions.

In the Reorganization, the Acquiring Fund will acquire substantially all of the assets and assume substantially all of the liabilities of the Target Fund in exchange solely for newly issued Common Shares and VRDP Shares of the Acquiring Fund in the form of book entry interests. The Acquiring Fund will list the newly issued Common Shares on the New York Stock Exchange ( NYSE ). Such newly issued Acquiring Fund Shares will be distributed to the Target Fund shareholders (although cash may be distributed in lieu of fractional Common Shares) and the Target Fund will terminate its registration under the 1940 Act and liquidate, dissolve and terminate in accordance with its charter and Maryland law. The Acquiring Fund will continue to operate after the Reorganization as a registered, non-diversified, closed-end management investment company with the investment objective, investment policies and investment restrictions described in this Joint Proxy Statement/Prospectus.

As a result of the Reorganization, each common shareholder of the Target Fund will own Acquiring Fund Common Shares that (except for cash payments received in lieu of fractional Common Shares) will have an aggregate net asset value ( NAV ) (not the market value) immediately after the Closing Date equal to the aggregate NAV (not the market value) of that shareholder's Target Fund Common Shares immediately prior to the effective date of the Reorganization ( Closing Date ). The NAV of the Target Fund and the Acquiring Fund immediately prior to the Closing Date will be reduced by the costs of the Reorganization borne by each Fund, if any. The value of each Fund's net assets will be calculated net of the liquidation preference (including accumulated and unpaid dividends) of all outstanding VRDP Shares of such Fund.

Each outstanding VRDP Share of the Target Fund will, without any action on the part of the holder thereof, be exchanged for one newly issued VRDP Share of the Acquiring Fund, which will have terms that are substantially similar to the terms of such outstanding Target Fund VRDP Share, with the only significant difference being that such outstanding Target Fund VRDP Share has a mandatory redemption date of June 1, 2041 and the newly issued Acquiring Fund VRDP Share is expected to have a mandatory redemption date of May 1, 2041. The Acquiring Fund VRDP Shares to be issued in connection with the Reorganization will have terms that are substantially identical to the terms of the Acquiring Fund's outstanding VRDP Shares and will rank on a parity with the Acquiring Fund's existing VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The Reorganization will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding.

## **Table of Contents**

If the requisite shareholder approvals are not obtained, each Fund's Board may take such actions as it deems in the best interests of its Fund, including conducting additional solicitations with respect to the proposals or continuing to operate the Fund as a stand-alone fund and the Investment Advisor may, in connection with the ongoing management of each Fund and its product line, recommend alternative proposals to the Board of each Fund.

The Board of each Fund has determined that including these proposals in one Joint Proxy Statement/Prospectus will reduce costs and is in the best interests of each Fund's shareholders.

The Fund(s) in which you owned shares on the Record Date is named on the proxy card or Notice of Internet Availability of Proxy Materials. If you owned shares in more than one Fund on the Record Date, you may receive more than one proxy card. Even if you plan to attend the Special Meeting, please sign, date and return EACH proxy card you receive or, if you provide voting instructions by telephone or via the Internet, please vote on each proposal affecting EACH Fund you own. If you vote by telephone or via the Internet, you will be asked to enter a unique code that has been assigned to you, which is printed on your proxy card(s) or Notice of Internet Availability of Proxy Materials, as applicable. This code is designed to confirm your identity, provide access into the voting website and confirm that your voting instructions are properly recorded.

All properly executed proxies received prior to the Special Meeting will be voted at the Special Meeting. On any matter coming before the Special Meeting as to which a shareholder has specified a choice on that shareholder's proxy, the Shares will be voted accordingly. If a proxy card is properly executed and returned and no choice is specified with respect to a proposal, the Shares will be voted FOR the proposal. Shareholders who execute proxies or provide voting instructions by telephone or via the Internet may revoke them with respect to a proposal at any time before a vote is taken on the proposal by filing with the applicable Fund a written notice of revocation (addressed to the Secretary of the Fund at the principal executive offices of the Fund at the New York address provided herein), by delivering a duly executed proxy bearing a later date or by attending the Special Meeting and voting in person by ballot, in all cases prior to the exercise of the authority granted in the proxy card. Merely attending the Special Meeting, however, will not revoke any previously executed proxy. If you hold Shares through a bank or other intermediary, please consult your bank or intermediary regarding your ability to revoke voting instructions after such instructions have been provided.

**If you are a record holder of a Fund's Shares and plan to attend the Special Meeting in person, in order to gain admission you must show valid photographic identification, such as your driver's license or passport. If you hold your Shares of a Fund through a bank, broker or other nominee, and plan to attend the Special Meeting in person, in order to gain admission you must show valid photographic identification, such as your driver's license or passport, and satisfactory proof of ownership of Shares in a Fund, such as your voting instruction form (or a copy thereof) or a letter from your bank, broker or other nominee or broker's statement indicating ownership as of the Record Date. If you hold your Shares of a Fund in a brokerage account or through a bank or other nominee, you will not be able to vote in person at the Special Meeting unless you have previously requested and obtained a legal proxy from your broker, bank or other nominee and present it at the Special Meeting. Even if you plan to attend the Special Meeting, please promptly follow the enclosed instructions to submit voting instructions by telephone or via the Internet. Alternatively, you may submit voting instructions by signing and dating each proxy card you receive, and if received by mail, returning it in the accompanying postage-paid return envelope.**

For directions to the Special Meeting, please contact Georgeson Inc., the firm assisting us in the solicitation of proxies, at 1-888-654-1722.

This Joint Proxy Statement/Prospectus sets forth concisely the information that common shareholders of each Fund should know before voting on the proposal and constitutes an offering of the Acquiring Fund Common Shares. Please read it carefully and retain it for future reference. A Statement of Additional Information, dated June 16, 2015, relating to this Joint Proxy Statement/Prospectus (the "Statement of Additional Information") has been filed with the United States Securities and Exchange Commission (the "SEC") and is incorporated herein by reference. Copies of each Fund's most recent annual report and semi-annual report can be

---

**Table of Contents**

obtained on a website maintained by BlackRock, Inc. ( BlackRock ) at [www.blackrock.com](http://www.blackrock.com). In addition, each Fund will furnish, without charge, a copy of the Statement of Additional Information, or its most recent annual report or semi-annual report to any shareholder upon request. Any such request should be directed to BlackRock by calling (800) 882-0052 or by writing to the respective Fund at 100 Bellevue Parkway, Wilmington, Delaware 19809. The Statement of Additional Information and the annual and semi-annual reports of each Fund are available on the EDGAR Database on the SEC's website at [www.sec.gov](http://www.sec.gov). The address of the principal executive offices of the Funds is 100 Bellevue Parkway, Wilmington, Delaware 19809, and the telephone number is (800) 882-0052.

Each Fund is subject to the informational requirements of the Securities Exchange Act of 1934 (the Exchange Act ) and the 1940 Act and, in accordance therewith, file reports, proxy statements, proxy materials and other information with the SEC. Materials filed with the SEC can be reviewed and copied at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549 or downloaded from the SEC's website at [www.sec.gov](http://www.sec.gov). Information on the operation of the SEC's Public Reference Room may be obtained by calling the SEC at (202) 551-8090. You may also request copies of these materials, upon payment at the prescribed rates of a duplicating fee, by electronic request to the SEC's e-mail address ([publicinfo@sec.gov](mailto:publicinfo@sec.gov)) or by writing the Public Reference Branch, Office of Consumer Affairs and Information Services, Securities and Exchange Commission, Washington, D.C. 20549-0102. Reports, proxy statements and other information concerning the Funds may also be inspected at the offices of the NYSE, 20 Broad Street, New York, New York 10005.

BlackRock updates performance information and certain other data for the Funds on a monthly basis on its website in the Closed-End Funds section of [www.blackrock.com](http://www.blackrock.com) as well as certain other material information as necessary from time to time. Investors and others are advised to check the website for updated performance information and the release of other material information about the Funds. References to BlackRock's website are intended to allow investors public access to information regarding the Funds and do not, and are not intended to, incorporate BlackRock's website in this Joint Proxy Statement/Prospectus.

Please note that only one copy of shareholder documents, including annual or semi-annual reports and proxy materials, may be delivered to two or more shareholders of the Funds who share an address, unless the Funds have received instructions to the contrary. This practice is commonly called householding and it is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. To request a separate copy of any shareholder document or for instructions as to how to request a separate copy of these documents or as to how to request a single copy if multiple copies of these documents are received, shareholders should contact the Fund at the address and phone number set forth above.

Each Fund is a non-diversified closed-end investment company registered under the 1940 Act. The Common Shares of BlackRock MuniYield Michigan Quality Fund, Inc. are listed on the NYSE under the ticker symbol MIY and will continue to be so listed after the completion of the Reorganization. The Common Shares of BlackRock MuniYield Michigan Quality Fund II, Inc. are listed on the NYSE under the ticker symbol MYM. Reports, proxy statements and other information concerning the Funds may be inspected at the offices of the NYSE, 20 Broad Street, New York, New York 10005.

This Joint Proxy Statement/Prospectus serves as a prospectus of the Acquiring Fund in connection with the Issuance. No person has been authorized to give any information or make any representation not contained in this Joint Proxy Statement/Prospectus and, if so given or made, such information or representation must not be relied upon as having been authorized. This Joint Proxy Statement/Prospectus does not constitute an offer to sell or a solicitation of an offer to buy any securities in any jurisdiction in which, or to any person to whom, it is unlawful to make such offer or solicitation.

**THE SEC HAS NOT APPROVED OR DISAPPROVED THESE SECURITIES OR PASSED UPON THE ADEQUACY OF THIS JOINT PROXY STATEMENT/PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.**

**The date of this Joint Proxy Statement/Prospectus is June 16, 2015.**

**SUMMARY**

*The following is a summary of certain information contained elsewhere in this Joint Proxy Statement/Prospectus and is qualified in its entirety by reference to the more complete information contained in this Joint Proxy Statement/Prospectus and in the Statement of Additional Information. Shareholders should read the entire Joint Proxy Statement/Prospectus carefully.*

**The Proposed Reorganization**

Assuming the Reorganization receives the requisite shareholder approvals, as well as certain consents, confirmations and/or waivers from various third parties, including the liquidity provider with respect to the outstanding VRDP Shares, the Acquiring Fund will acquire substantially all of the assets and assume substantially all of the liabilities of the Target Fund in exchange solely for newly issued Acquiring Fund Shares in the form of book entry interests. The Acquiring Fund will list the newly issued Common Shares on the NYSE. Such newly issued Acquiring Fund Shares will be distributed to the Target Fund shareholders (although cash may be distributed in lieu of fractional Common Shares) and the Target Fund will terminate its registration under the 1940 Act and liquidate, dissolve and terminate in accordance with its charter and Maryland law. The Acquiring Fund will continue to operate after the Reorganization as a registered, non-diversified, closed-end management investment company with the investment objective, investment policies and investment restrictions described in this Joint Proxy Statement/Prospectus.

As a result of the Reorganization, each common shareholder of the Target Fund will own Acquiring Fund Common Shares that (except for cash payments received in lieu of fractional Common Shares) will have an aggregate NAV (not the market value) immediately after the Closing Date equal to the aggregate NAV (not the market value) of that shareholder's Target Fund Common Shares immediately prior to the Closing Date. The NAV of the Target Fund and the Acquiring Fund immediately prior to the Closing Date will be reduced by the costs of the Reorganization borne by each Fund, if any. The value of each Fund's net assets will be calculated net of the liquidation preference (including accumulated and unpaid dividends) of all outstanding VRDP Shares of such Fund.

Each outstanding VRDP Share of the Target Fund will, without any action on the part of the holder thereof, be exchanged for one newly issued VRDP Share of the Acquiring Fund, which will have terms that are substantially similar to the terms of such outstanding Target Fund VRDP Share, with the only significant difference being that such Target Fund VRDP Share has a mandatory redemption date of June 1, 2041 and the newly issued Acquiring Fund VRDP Share is expected to have a mandatory redemption date of May 1, 2041. The Reorganization will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding.

**Table of Contents**

Subject to the requisite approval of the shareholders of each Fund with respect to the Reorganization, as well as certain consents, confirmations and/or waivers from various third parties, including the liquidity provider with respect to the outstanding VRDP Shares, it is expected that the Closing Date of the Reorganization will be sometime during the third quarter of 2015, but it may be at a different time as described herein.

If the Reorganization is not consummated, then each Fund will continue to operate for the time being as a stand-alone Maryland corporation and will continue to be advised by the Investment Advisor. However, if the Reorganization is not consummated, the Investment Advisor may, in connection with ongoing management of each Fund and its product line, recommend alternative proposals to the Board of each Fund.

**Background and Reasons for the Proposed Reorganization**

The proposed Reorganization seeks to achieve certain economies of scale and other operational efficiencies by combining two funds that have substantially identical investment objectives, investment policies, investment restrictions and portfolio compositions and are managed by the same investment advisor and portfolio management team.

The proposed Reorganization is intended to result in the following potential benefits to common shareholders: (i) lower total expenses per Common Share for common shareholders of each Fund (as common shareholders of the Combined Fund following the Reorganization) due to economies of scale resulting from the larger size of the Combined Fund; (ii) improved earnings yield on NAV for common shareholders of the Target Fund and a comparable (i.e., the same or slightly lower or higher) earnings yield on NAV for common shareholders of the Acquiring Fund; (iii) improved secondary market trading of the Common Shares; and (iv) operating and administrative efficiencies for the Combined Fund, including the potential for the following: (a) greater investment flexibility and investment options; (b) greater diversification of portfolio investments; (c) the ability to trade in larger positions and more favorable transaction terms; (d) benefits from having fewer closed-end funds offering similar products in the market, including an increased focus by investors on the remaining funds in the market (including the Combined Fund) and additional research coverage; and (e) benefits from having fewer similar funds in the same fund complex, including a simplified operational model and a reduction in risk of operational, legal and financial errors.

The Board of each Fund, including the directors ( Board Members ) who are not interested persons of each Fund (as defined in the 1940 Act) ( Independent Board Members ), has unanimously approved the Reorganization, concluding that the Reorganization is in the best

**Table of Contents**

interests of its Fund and that the interests of existing common shareholders and VRDP Holders of its Fund will not be diluted with respect to NAV and liquidation preference, respectively, as a result of the Reorganization. As a result of the Reorganization, however, common and preferred shareholders of each Fund will hold a reduced percentage of ownership in the larger Combined Fund than they did in any of the individual Funds before the Reorganization. The Board's conclusion was based on each Board Member's business judgment after consideration of all relevant factors taken as a whole with respect to its Fund and the Fund's common and preferred shareholders, although individual Board Members may have placed different weight on various factors and assigned different degrees of materiality to various factors. Please see "Information about the Reorganization" "Reasons for the Reorganization" for additional information about the factors considered by each Board.

**Net and Managed Assets**

As of May 31, 2015, the Target Fund has \$175 million in net assets and \$276 million in managed assets, and the Acquiring Fund has \$282 million in net assets and \$451 million in managed assets.

**Total Expenses and Management Fees**

For the fiscal year ended July 31, 2014, the Total Expense Ratios of the Target Fund and the Acquiring Fund were 1.55% and 1.54%, respectively. For the 12-month period ended January 31, 2015, the Total Expense Ratios of the Target Fund and the Acquiring Fund were 1.48% and 1.48%, respectively. Total Expenses means a Fund's total annual operating expenses (including interest expenses and applicable fee waivers). Total Expense Ratio means a Fund's Total Expenses expressed as a percentage of its average net assets attributable to its Common Shares. The Funds estimate that the completion of the Reorganization would result in a Total Expense Ratio for the Combined Fund of 1.43% on a historical and pro forma basis for the 12-month period ended January 31, 2015, representing a reduction in the Total Expense Ratio for the common shareholders of the Target Fund and the Acquiring Fund of 0.05% and 0.05%, respectively.

The Funds' VRDP Shares have the same mechanism for determining the applicable dividend rate and maximum rate, and the same liquidity provider, remarketing agent and tender and paying agent. Each Fund's VRDP Shares are currently in a three year special rate period that will end on June 24, 2015. The special rate period is expected to be extended to June 22, 2016. During the special rate period, the Funds' VRDP Shares have the same mechanism for determining the applicable dividend rate and maximum rate, redemption premiums and transfer restrictions. For the fiscal year ended July 31, 2014, the annualized dividend rate for the VRDP Shares of the Target Fund and the Acquiring Fund were 1.01% and 1.01%, respectively. As of May 31, 2015, the dividend rate for the VRDP Shares of the Target Fund and the Acquiring Fund were 1.05%

**Table of Contents**

and 1.05%, respectively. Please see Information about the VRDP Shares of the Funds for additional information.

The Combined Fund will have a lower annual contractual investment management fee rate than each Fund. Each Fund currently pays the Investment Advisor a monthly fee at an annual contractual management fee rate of 0.50% of its average daily net assets (0.79% of the average daily net assets attributable to the Target Fund's Common Shares, and 0.80% of the average daily net assets attributable to the Acquiring Fund's Common Shares, each for the 12-month period ended January 31, 2015). Average daily net assets are the average daily value of a Fund's total assets minus its total accrued liabilities (which does not include liabilities represented by TOB leverage and the liquidation preference of the VRDP shares).

If the Reorganization is consummated, the annual contractual investment management fee rate of the Combined Fund will be 0.49% of the average daily net assets of the Combined Fund (0.78% of the average daily net assets attributable to the Combined Fund's Common Shares on a historical and pro forma basis for the 12-month period ended January 31, 2015).

Based on a pro-forma Lipper peer expense group for the Combined Fund, the estimated total annual fund expense ratio (excluding investment-related expenses) and contractual management fee rate are each expected to be in the second and first quartile, respectively.

There can be no assurance that future expenses will not increase or that any expense savings for any Fund will be realized as a result of the Reorganization.

**Earnings, Distributions and Undistributed Net Investment Income**

*Earnings and Distribution Rate:* The Combined Fund's earnings yield on NAV following the Reorganization is expected to be comparable (i.e., the same or slightly lower or higher) to the Acquiring Fund's current earnings yield on NAV and potentially higher than the Target Fund's current earnings yield on NAV; thus, assuming that the Reorganization is consummated and that the Acquiring Fund's distribution policy remains in place after the Reorganization, common shareholders of the Acquiring Fund may experience a distribution rate on NAV comparable (i.e., the same or slightly lower or higher) to their current distribution rate on NAV and common shareholders of the Target Fund may experience a distribution rate on NAV that is potentially higher than their current distribution rate on NAV.

The Combined Fund's earnings and distribution rate on NAV will change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the Reorganization. A Fund's earnings and net

**Table of Contents**

investment income are variables which depend on many factors, including its asset mix, portfolio turnover level, the amount of leverage utilized by the Fund, the costs of such leverage, the performance of its investments, the movement of interest rates and general market conditions. There can be no assurance that the future earnings of a Fund, including the Combined Fund after the Reorganization, will remain constant.

*Distribution Policy:* Each Fund intends to make regular monthly cash distributions of all or a portion of its net investment income to holders of such Fund's shares of common stock, except as described below under Undistributed Net Investment Income. Each Fund intends to pay any capital gains distributions at least annually. A return of capital distribution may involve a return of the common shareholder's original investment. Though not currently taxable, such a distribution may lower a common shareholder's basis in such Fund, thus potentially subjecting the common shareholder to future tax consequences in connection with the sale of Fund Common Shares, even if sold at a loss to the common shareholder's original investment. When total distributions exceed total return performance for the period, the difference will reduce a Fund's total assets and NAV and, therefore, could have the effect of increasing the Fund's expense ratio and reducing the amount of assets the Fund has available for long term investment.

*Automatic Dividend Reinvestment:* Common shareholders of each Fund will automatically have all dividends and distributions reinvested in Common Shares of such Fund in accordance with such Fund's dividend reinvestment plan, unless an election is made to receive cash by contacting the Reinvestment Plan Agent (as defined herein), at (800) 699-1236. See Automatic Dividend Reinvestment Plan.

*Undistributed Net Investment Income:* If the Reorganization is approved by shareholders, then substantially all of the undistributed net investment income, if any, of each Fund is expected to be declared to such Fund's common shareholders prior to the Closing Date (the Pre-Reorganization Declared UNII Distributions). The declaration date, ex-dividend date (the Ex-Dividend Date) and record date of the Pre-Reorganization Declared UNII Distributions will occur prior to the Closing Date. However, all or a significant portion of the Pre-Reorganization Declared UNII Distributions may be paid in one or more distributions to common shareholders of the Funds entitled to such Pre-Reorganization Declared UNII Distributions after the Closing Date. Former Target Fund shareholders entitled to such Pre-Reorganization Declared UNII Distributions paid after the Closing Date will receive such distributions in cash.

MuniYield Michigan Quality Fund, Inc. (MIY), as the Combined Fund following the Reorganization, does not currently expect to

**Table of Contents**

declare any distributions during the first month following the Closing Date. Accordingly, persons who purchase Common Shares of any of the Funds on or after the Ex-Dividend Date for the Pre-Reorganization Declared UNII Distributions should not expect to receive any distributions from any Fund until distributions, if any, are declared by the Board of the Combined Fund and paid to shareholders entitled to any such distributions. No such distributions are expected to be paid by the Combined Fund until at least approximately two months following the Closing Date.

The Combined Fund's earnings and distribution rate on NAV will change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the Reorganization. The Combined Fund is anticipated to retain a lower UNII balance after the Reorganization than the Acquiring Fund prior to the Reorganization; however, the Combined Fund is anticipated to benefit from a lower expense ratio and other benefits of economies of scale as discussed herein. Each Fund reserves the right to change its distribution policy with respect to common share distributions and the basis for establishing the rate of its distributions for the Common Shares at any time and may do so without prior notice to common shareholders. The payment of any distributions by any Fund is subject to, and will only be made when, as and if, declared by the Board of such Fund. There is no assurance the Board of any Fund will declare any distributions for such Fund.

To the extent any Pre-Reorganization Declared UNII Distributions is not an exempt interest dividend (as defined in the Code), the distribution may be taxable to shareholders for U.S. Federal income tax purposes.

**Premium/Discount to NAV of Common Shares**

The Common Shares of each Fund have historically traded at both a premium and a discount. The table below sets forth the market price, NAV, and the premium/discount to NAV of each Fund as of June 5, 2015.

<b>Fund</b>	<b>Market Price</b>	<b>NAV</b>	<b>Premium/(Discount) to NAV</b>
Target Fund (MYM)	\$12.50	\$14.34	(12.83)%
Acquiring Fund (MIY)	\$13.44	\$15.34	(12.39)%

To the extent the Target Fund Common Shares are trading at a wider discount (or a narrower premium) than the Acquiring Fund at the time of the Reorganization, the Target Fund's common shareholders would have the potential for an economic benefit by the narrowing of the discount or widening of the premium. To the extent the Target Fund Common Shares are trading at a narrower discount (or wider premium) than the Acquiring Fund at the time of the Reorganization,

**Table of Contents**

Target Fund common shareholders may be negatively impacted if the Reorganization is consummated. Acquiring Fund common shareholders would only benefit from a premium/discount perspective to the extent the Acquiring Fund's post-Reorganization discount (or premium) improves. There can be no assurance that, after the Reorganization, Common Shares of the Combined Fund will trade at a narrower discount to NAV or wider premium to NAV than the Common Shares of any individual Fund prior to the Reorganization.

In the Reorganization, common shareholders of the Target Fund will receive Acquiring Fund Common Shares based on the relative NAVs (not the market values) of the respective Fund's Common Shares. The market value of the Common Shares of the Combined Fund may be less than the market value of the Common Shares of each respective Fund prior to the Reorganization.

**VRDP Shares**

As of May 31, 2015, the Target Fund has 873 Series W-7 VRDP Shares outstanding, and the Acquiring Fund has 1,446 Series W-7 VRDP Shares outstanding. In connection with the Reorganization, the Acquiring Fund expects to issue 873 additional VRDP Shares to Target Fund VRDP Holders. Following the completion of the Reorganization, the Combined Fund is expected to have 2,319 VRDP Shares outstanding.

Upon the Closing Date, Target Fund VRDP Holders will receive on a one-for-one basis one newly issued Acquiring Fund VRDP Share, par value \$0.10 per share and with a liquidation preference of \$100,000 per share (plus any accumulated and unpaid dividends that have accrued on such Target Fund VRDP Share up to and including the day immediately preceding the Closing Date if such dividends have not been paid prior to the Closing Date), in exchange for each Target Fund VRDP Share held by such Target Fund VRDP Holder immediately prior to the Closing Date. The newly issued Acquiring Fund VRDP Share may be of the same series as the Acquiring Fund's Series W-7 VRDP Shares or a substantially identical series. No fractional Acquiring Fund VRDP Shares will be issued. Target Fund VRDP Holders will receive the same number of Acquiring Fund VRDP Shares, with terms substantially similar to the terms of the outstanding Target Fund VRDP Shares, held by such holders immediately prior to the Closing Date, with the only significant difference being that the Target Fund VRDP Shares have a mandatory redemption date of June 1, 2041 and the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041.

The Acquiring Fund VRDP Shares to be issued in connection with the Reorganization will have terms that are substantially identical to the terms of the Acquiring Fund's outstanding VRDP Shares and will rank on a parity with the Acquiring Fund's existing VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring

## **Table of Contents**

Fund. The Reorganization will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding.

The terms of the outstanding Target Fund VRDP Shares are substantially similar to the terms of the outstanding Acquiring Fund VRDP Shares. The only significant difference between the terms of the two Funds' VRDP Shares is that the Target Fund VRDP Shares have a mandatory redemption date of June 1, 2041 and the Acquiring Fund VRDP Shares have a mandatory redemption date of May 1, 2041. The Funds' VRDP Shares have the same \$100,000 liquidation preference per share, dividend period, dividend payment date, voting rights, redemption provisions, remarketing procedures, mandatory purchase events, mandatory tender events, transfer restrictions and covenants with respect to effective leverage, asset coverage and eligible investments. The Funds' VRDP Shares also have the same mechanism for determining the applicable dividend rate and maximum rate, and the same liquidity provider, remarketing agent and tender and paying agent. Each Fund's VRDP Shares are currently in a three year special rate period that will end on June 24, 2015. The special rate period is expected to be extended to June 22, 2016. The terms applicable to each Fund's VRDP Shares during the special rate period are substantially identical. During the special rate period, the Funds' VRDP Shares have the same mechanism for determining the applicable dividend rate and maximum rate, redemption premiums and transfer restrictions.

None of the expenses of the Reorganization are expected to be borne by the VRDP Holders of the Funds.

Following the Reorganization, the VRDP Holders of each Fund will be VRDP Holders of the larger Combined Fund that will have a larger asset base and more VRDP Shares outstanding than either Fund individually. With respect to matters requiring all preferred shareholders to vote separately or common and preferred shareholders to vote together as a single class, following the Reorganization, holders of VRDP Shares of the Combined Fund will hold a smaller percentage of the outstanding preferred shares of the Combined Fund as compared to their percentage holdings of outstanding preferred shares of their respective Fund prior to the Reorganization.

## **Appraisal Rights**

Under Maryland law, stockholders of an investment company whose shares are traded publicly on a national securities exchange, such as Common Shares of the Target Fund, are not entitled to demand the fair value of their shares in connection with a reorganization. However, because the Target Fund's VRDP Shares are not traded publicly on a national securities exchange and the Target Fund will be selling substantially all of its assets to the Acquiring Fund in the Reorganization, the holders of Target Fund VRDP Shares will be entitled under Maryland law to demand and receive payment of the fair value of such Target Fund VRDP Shares upon the consummation of the Reorganization.

**Table of Contents**

**Certain U.S. Federal Income Tax Consequences of the Reorganization** The Reorganization is intended to qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended (the Code). If the Reorganization so qualifies, in general, shareholders of the Target Fund will recognize no gain or loss for U.S. federal income tax purposes upon the exchange of their Target Fund Shares for Acquiring Fund Shares pursuant to the Reorganization (except with respect to cash received in lieu of fractional Common Shares). Additionally, the Target Fund will recognize no gain or loss for U.S. federal income tax purposes by reason of the Reorganization. Neither the Acquiring Fund nor its shareholders will recognize any gain or loss for U.S. federal income tax purposes pursuant to the Reorganization.

Shareholders of each Fund may receive distributions prior to, or after, the consummation of the Reorganization, including distributions attributable to their proportionate share of each Fund's undistributed net investment income declared prior to the consummation of the Reorganization or the Combined Fund built-in gains, if any, recognized after the Reorganization, when such income and gains are eventually distributed by the Combined Fund. To the extent that such a distribution is not an exempt interest dividend (as defined in the Code), the distribution may be taxable to shareholders for U.S. federal income tax purposes.

The Funds' shareholders should consult their own tax advisers regarding the U.S. federal income tax consequences of the Reorganization, as well as the effects of state, local and non-U.S. tax laws, including possible changes in tax laws.

**General Information and History**

Each Fund is organized as a corporation under the laws of the State of Maryland as a non-diversified, closed-end management investment company registered under the 1940 Act.

Each Fund's principal office is located at 100 Bellevue Parkway, Wilmington, Delaware 19809, and its telephone number is (800) 882-0052.

Each Fund has a July 31 fiscal year end.

The Acquiring Fund Common Shares are listed on the NYSE as MIY.

The Target Fund Common Shares are listed on the NYSE as MYM.

Each Fund has VRDP Shares outstanding. Each Fund's VRDP Shares are not listed on a national stock exchange and have not been registered under the Securities Act, or any state securities laws, and unless so registered, may not be offered, sold, assigned, transferred, pledged, encumbered or otherwise disposed of except pursuant to an

**Table of Contents**

exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws.

**Investment Objectives and Policies**

The Funds have substantially identical investment objectives, investment policies and investment restrictions. The investment objective, significant investment strategies and operating policies, and investment restrictions of the Combined Fund will be those of the Acquiring Fund, which are substantially identical to those of the Target Fund.

*Investment Objectives:*

Each Fund's investment objective is to provide shareholders with as high a level of current income exempt from federal and Michigan income taxes as is consistent with its investment policies and prudent investment management.

*Michigan Municipal Bonds:*

Each Fund seeks to achieve its investment objective by investing at least 80% of an aggregate of its net assets (including proceeds from the issuance of any preferred shares) and the proceeds of any borrowings for investment purposes, in a portfolio of municipal obligations issued by or on behalf of the State of Michigan, its political subdivisions, agencies and instrumentalities and by other qualifying issuers, each of which pays interest that, in the opinion of bond counsel to the issuer, is excludable from gross income for U.S. federal income tax purposes (except that the interest may be includable in taxable income for purposes of the Federal alternative minimum tax) and exempt from Michigan income taxes.

*Investment Grade Securities:*

Each Fund currently invests primarily in investment grade municipal bonds.

*Leverage:*

Each Fund utilizes leverage in the form of VRDP Shares and tender option bonds. Please see below a comparison of certain important ratios related to (i) each Fund's use of leverage as of May 31, 2015 and (ii) the Combined Fund's use of leverage, assuming the Reorganization had taken place as of May 31, 2015:

<b>Ratios</b>	<b>Target Fund (MYM)</b>	<b>Acquiring Fund (MIY)</b>	<b>Pro Forma Combined Fund (MIY)</b>
Asset Coverage Ratio	300%	295%	297%
Regulatory Leverage Ratio <sup>(1)</sup>	33%	34%	34%
Effective Leverage Ratio <sup>(2)</sup>	37%	37%	37%

- (1) Regulatory leverage consists of VRDP Shares issued by the Fund, which is a part of a Fund's capital structure. Regulatory leverage is sometimes referred to as 1940 Act Leverage and is subject to asset coverage limits set forth in the 1940 Act.
  
- (2) Effective leverage is a Fund's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative investments in the Fund's portfolio. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings, in addition to any regulatory leverage, are included in effective leverage ratios.

**Table of Contents**

**Fund Management** The Board of each Fund is responsible for the overall supervision of the operations of its respective Fund and performs the various duties imposed on the directors of investment companies by the 1940 Act and under applicable state law. Each Fund has the same Board Members and officers.

**Investment Advisor** BlackRock Advisors, LLC serves as the investment advisor for each Fund and is expected to continue to serve as investment advisor for the Combined Fund.

**Portfolio Management Team** Each Fund is managed by a team of investment professionals comprised of Michael Kalinoski, CFA, Director at BlackRock, Theodore R. Jaeckel, Jr., CFA, Managing Director at BlackRock, and Walter O Connor, CFA, Managing Director at BlackRock. After the Reorganization, it is expected that each Fund's current portfolio management team will continue to comprise the team of investment professionals for the Combined Fund.

**Other Service Providers** The other professional service providers for the Funds are as follows:

<b>Service</b>	<b>Service Providers to the Funds</b>
Custodian	State Street Bank and Trust Company
Transfer Agent, Dividend Disbursing Agent and Registrar	Computershare Trust Company, N.A.
Liquidity Provider to VRDP Shares	Citibank, N.A.
Remarketing Agent to VRDP Shares	Citigroup Global Markets Inc.
Tender and Paying Agent to VRDP Shares	The Bank of New York Mellon
Accounting Services Provider	State Street Bank and Trust Company
Independent Registered Public Accounting Firm	Deloitte & Touche LLP
Fund Counsel	Skadden, Arps, Slate, Meagher & Flom LLP
Counsel to the Independent Board Members	Debevoise & Plimpton LLP

**Table of Contents****EXPENSE TABLE FOR COMMON SHAREHOLDERS**

The following table illustrates the anticipated reduction or increases in the Total Expense Ratio for the common shareholders of each Fund expected as a result of the completion of the Reorganization. The table sets forth (i) the Total Expense Ratio for each Fund for the 12-month period ended January 31, 2015; and (ii) the *pro forma* Total Expense Ratio for the Combined Fund, assuming the Reorganization had taken place on January 31, 2015.

	Target Fund (MYM)	Acquiring Fund (MIY)	Pro Forma Combined Fund (MIY) <sup>(a)</sup>
<b>Shareholder Transaction Expenses</b>			
Maximum Sales Load (as a percentage of the offering price) imposed on purchases of Common Shares <sup>(b)</sup>	None	None	None
	\$0.02 per share for open-market purchases of Common Shares	Same as MYM	Same as MYM
Dividend Reinvestment Plan Fees <sup>(c)</sup>			
<b>Annual Total Expenses (as a percentage of average net assets attributable to Common Shares)</b>			
Investment Management Fees <sup>(d)</sup>	0.79%	0.80%	0.78%
Other Expenses	0.14%	0.11%	0.09%
Interest Expenses <sup>(e)</sup>	0.55%	0.57%	0.56%
Total Annual Fund Operating Expenses <sup>(d)(e)</sup>	1.48%	1.48%	1.43%

(a) Assumes the Reorganization had taken place on January 31, 2015.

(b) No sales load will be charged in connection with the issuance of Acquiring Fund Common Shares as part of the Reorganization. Common Shares are not available for purchase from the Funds but may be purchased on the NYSE through a broker-dealer subject to individually negotiated commission rates. Common Shares purchased in the secondary market may be subject to brokerage commissions or other charges.

(c) The Reinvestment Plan Agent's fees for the handling of the reinvestment of dividends will be paid by the Fund. However, you will pay a \$0.02 per share fee incurred in connection with open-market purchases of Common Shares pursuant to the Dividend Reinvestment Plan, which will be deducted from the value of the dividend. You will also be charged a \$0.02 per share fee if you direct the Reinvestment Plan Agent to sell your Common Shares held in a dividend reinvestment account. Per share fees include any applicable brokerage commissions the Reinvestment Plan Agent is required to pay. See Automatic Dividend Reinvestment Plan for additional information.

(d) Each Fund pays the Investment Advisor a monthly fee at an annual contractual management fee rate of 0.50% of the Fund's average daily net assets. Average daily net assets are the average daily value of a Fund's total assets minus its total accrued liabilities (which does not include liabilities represented by TOB leverage and the liquidation preference of the VRDP shares). If the Reorganization is consummated, the annual contractual management fee rate of the Combined Fund will be 0.49% of the average daily net assets of the Combined Fund.

(e) The total expense table includes interest expenses associated with the Funds' investments in tender option bonds (also known as inverse floaters). Although such interest expenses are actually paid by special purpose vehicles in which the Funds invest, they are recorded on the Funds' financial statements for accounting purposes. The total expense table also includes, in interest expenses, dividends associated with the VRDP Shares because the VRDP Shares are considered debt of the Funds for financial reporting purposes.

Each Fund uses leverage to seek to enhance its returns to common shareholders. This leverage generally takes two forms: the issuance of preferred shares and investment in tender option bonds. Both forms of leverage benefit common shareholders if the cost of the leverage is

**Table of Contents**

lower than the returns earned by a Fund when it invests the proceeds from the leverage. In order to help you better understand the costs associated with the Funds leverage strategy, the Total Annual Fund Operating Expenses (excluding interest expense) for the Funds are presented below:

*Pro Forma*

**Target Fund (MYM)**  
0.93%

**Acquiring Fund (MIY)**  
0.91%

**Combined Fund (MIY)**  
0.87%

The following example is intended to help you compare the costs of investing in the Common Shares of the Combined Fund *pro forma* if the Reorganization is completed with the costs of investing in the Target Fund and the Acquiring Fund without the Reorganization. An investor in Common Shares would pay the following expenses on a \$1,000 investment, assuming (1) the Total Annual Fund Operating Expenses for each Fund set forth in the total expenses table above and (2) a 5% annual return throughout the period:

	<b>1 Year</b>	<b>3 Years</b>	<b>5 Years</b>	<b>10 Years</b>
Target Fund (MYM)	\$ 15	\$ 47	\$ 81	\$ 177
Acquiring Fund (MIY)	\$ 15	\$ 47	\$ 81	\$ 177
Pro Forma Combined Fund (MIY)	\$ 15	\$ 45	\$ 78	\$ 171

The examples set forth above assume Common Shares of each Fund were owned as of the completion of the Reorganization and the reinvestment of all dividends and distributions and uses a 5% annual rate of return as mandated by SEC regulations. The examples should not be considered a representation of past or future expenses or annual rates of return. Actual expenses or annual rates of return may be more or less than those assumed for purposes of the examples.

The Investment Advisor will bear a portion of each Fund's costs with respect to the Reorganization. The expenses of the Reorganization are estimated to be \$331,000 for the Target Fund and \$351,000 for the Acquiring Fund, without consideration of any amount to be borne by the Investment Advisor. The Investment Advisor has agreed to pay approximately \$115,000 of the Target Fund's costs of the Reorganization and approximately \$120,000 of the Acquiring Fund's costs of the Reorganization. The actual costs associated with the proposed Reorganization may be more or less than the estimated costs discussed herein.

**RISK FACTORS AND SPECIAL CONSIDERATIONS**

**Comparison of Risks**

The Combined Fund will be managed in accordance with the same investment objective and investment policies, and subject to the same risks, as the Acquiring Fund. The Funds have substantially identical investment policies and investment restrictions and are subject to substantially identical investment risks. Each Fund invests at least 80% of its assets in municipal obligations exempt from federal income taxes (except that the interest may be subject to the federal alternative minimum tax) and Michigan income taxes. Each Fund also currently invests primarily in investment grade municipal bonds.

Risks that predominately affect the Common Shares of the Funds include risks associated with municipal obligations, including Michigan municipal obligations, interest rate risk, credit risk, non-diversification risk and leverage risk. In addition, as exchange-traded closed-end funds, the Funds are subject to the risk that the Funds' Common Shares may trade at a discount from the Funds' NAV. Accordingly, the Funds are primarily designed for long-term investors and should not be considered a vehicle for trading purposes. In the normal course of business, each Fund invests in securities and enters into transactions where risks exist due to fluctuations in the market (market risk) or failure of the issuer of a security to meet all its obligations (issuer credit risk). The value of securities held by the Funds may decline in response to certain events, including those directly involving the issuers whose securities are owned by the Funds; conditions affecting the general economy; overall market

**Table of Contents**

changes; local, regional or global political, social or economic instability; and currency and interest rate and price fluctuations. Similar to issuer credit risk, the Funds may be exposed to counterparty credit risk, or the risk that an entity with which the Funds have unsettled or open transactions may fail to or be unable to perform on its commitments.

The Combined Fund will be managed in accordance with the same investment objective and investment policies, and subject to the same risks, as the Acquiring Fund. Risk is inherent in all investing. An investment in the Common Shares of the Acquiring Fund should not be considered a complete investment program. Each shareholder should take into account the Acquiring Fund's investment objective as well as the shareholder's other investments when considering an investment in the Acquiring Fund. You may lose part or all of your investment in the Acquiring Fund or your investment may not perform as well as other similar investments.

**Risks Related to the Reorganization***Expenses.*

While the Funds currently estimate that the Reorganization will result in reduced aggregate expenses of the Combined Fund by approximately \$214,000 per year, the realization of these reduced expenses will not affect holders of the Funds proportionately, and may take longer than expected to be realized or may not be realized at all.

For the fiscal year ended July 31, 2014, the Total Expense Ratios of the Target Fund and the Acquiring Fund were 1.55% and 1.54%, respectively. For the 12-month period ended January 31, 2015, the Total Expense Ratios of the Target Fund and the Acquiring Fund were 1.48% and 1.48%, respectively. As of January 31, 2015, the historical and *pro forma* Total Expense Ratios applicable to the Reorganization are as follows:

<b>Target Fund (MYM)</b>	<b>Acquiring Fund (MIY)</b>	<b>Pro Forma Combined Fund (MIY)</b>
1.48%	1.48%	1.43%

The Funds estimate that the completion of the Reorganization would result in a Total Expense Ratio for the Combined Fund of 1.43% on a historical and pro forma basis for the 12-month period ended January 31, 2015, representing a reduction in the Total Expense Ratio for the common shareholders of the Target Fund and the Acquiring Fund of 0.05% and 0.05%, respectively.

The Funds' VRDP Shares have the same mechanism for determining the applicable dividend rate and maximum rate, and the same liquidity provider, remarketing agent and tender and paying agent. Each Fund's VRDP Shares are currently in a three year special rate period that will end on June 24, 2015. The special rate period is expected to be extended to June 22, 2016. During the special rate period, the Funds' VRDP Shares have the same mechanism for determining the applicable dividend rate and maximum rate, redemption premiums and transfer restrictions. For the fiscal year ended July 31, 2014, the annualized dividend rate for the VRDP Shares of the Target Fund and the Acquiring Fund were 1.01% and 1.01%, respectively. As of May 31, 2015, the dividend rate for the VRDP Shares of the Target Fund and the Acquiring Fund were 1.05% and 1.05%, respectively. Please see Information about the VRDP Shares of the Funds for additional information.

The Combined Fund will have a lower annual contractual investment management fee rate than each Fund. Each Fund currently pays the Investment Advisor a monthly fee at an annual contractual management fee rate of 0.50% of its average daily net assets (0.79% of the average daily net assets attributable to the Target Fund's Common Shares, and 0.80% of the average daily net assets attributable to the Acquiring Fund's Common Shares, each for the 12-month period ended January 31, 2015). Average daily net assets are the average daily value of a Fund's total assets minus its total accrued liabilities (which does not include liabilities represented by TOB leverage and the liquidation preference of the VRDP shares).

## **Table of Contents**

If the Reorganization is consummated, the annual contractual investment management fee rate of the Combined Fund will be reduced to 0.49% of the average daily net assets of the Combined Fund (0.78% of the average daily net assets attributable to the Combined Fund's Common Shares on a historical and pro forma basis for the 12-month period ended January 31, 2015).

Based on a pro-forma Lipper peer expense group for the Combined Fund, the estimated total annual fund expense ratio (excluding investment-related expenses) and contractual management fee rate are each expected to be in the second and first quartile, respectively.

There can be no assurance that future expenses will not increase or that any expense savings for any Fund will be realized as a result of the Reorganization. Please see the Expense Table For Common Shareholders for additional information about the Funds' expenses.

### *Earnings and Distribution Rate.*

The Combined Fund's earnings yield on NAV following the Reorganization is expected to be comparable (i.e., the same or slightly lower or higher) to the Acquiring Fund's current earnings yield on NAV and potentially higher than the Target Fund's current earnings yield on NAV; thus, assuming that the Reorganization is consummated and that the Acquiring Fund's distribution policy remains in place after the Reorganization, common shareholders of the Acquiring Fund may experience a distribution rate on NAV comparable (i.e., the same or slightly lower or higher) to their current distribution rate on NAV and common shareholders of the Target Fund may experience a distribution rate on NAV that is potentially higher than their current distribution rate on NAV.

The Combined Fund's earnings and distribution rate on NAV may change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the Reorganization. It is also anticipated that shareholders of the Target Fund may benefit from other potential benefits associated with the Reorganization (including as a result of the Combined Fund's larger size) as more fully discussed herein. See Information About the Reorganization Reasons for the Reorganization. A Fund's earnings and net investment income are variables which depend on many factors, including its asset mix, portfolio turnover level, the amount of leverage utilized by the Fund, the costs of such leverage, the performance of its investments, the movement of interest rates and general market conditions. There can be no assurance that the future earnings of a Fund, including the Combined Fund after the Reorganization, will remain constant.

### *Undistributed Net Investment Income.*

If the Reorganization is approved by shareholders, then substantially all of the undistributed net investment income, if any, of each Fund is expected to be declared to such Fund's common shareholders prior to the Closing Date (the Pre-Reorganization Declared UNII Distributions). The declaration date, ex-dividend date (the Ex-Dividend Date) and record date of the Pre-Reorganization Declared UNII Distributions will occur prior to the Closing Date. However, all or a significant portion of the Pre-Reorganization Declared UNII Distributions may be paid in one or more distributions to common shareholders of the Funds entitled to such Pre-Reorganization Declared UNII Distributions after the Closing Date. Former Target Fund shareholders entitled to such Pre-Reorganization Declared UNII Distributions paid after the Closing Date will receive such distributions in cash.

BlackRock MuniYield Michigan Quality Fund, Inc. (MIY), as the Combined Fund following the Reorganization, does not currently expect to declare any distributions during the first month following the Closing Date. Accordingly, persons who purchase Common Shares of any of the Funds on or after the Ex-Dividend Date for the Pre-Reorganization Declared UNII Distributions should not expect to receive any distributions from any Fund until distributions, if any, are declared by the Board of the Combined Fund and paid to shareholders entitled to any such distributions. No such distributions are expected to be paid by the Combined Fund until at least approximately two months following the Closing Date.

**Table of Contents**

The Combined Fund's earnings and distribution rate on NAV will change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the Reorganization. The Combined Fund is anticipated to retain a lower UNII balance after the Reorganization than the Acquiring Fund prior to the Reorganization; however, the Combined Fund is anticipated to benefit from a lower expense ratio and other benefits of economies of scale as discussed herein. Each Fund reserves the right to change its distribution policy with respect to common share distributions and the basis for establishing the rate of its distributions for the Common Shares at any time and may do so without prior notice to common shareholders. The payment of any distributions by any Fund is subject to, and will only be made when, as and if, declared by the Board of such Fund. There is no assurance the Board of any Fund will declare any distributions for such Fund.

To the extent any Pre-Reorganization Declared UNII Distributions is not an exempt interest dividend (as defined in the Code), the distribution may be taxable to shareholders for U.S. Federal income tax purposes.

*Premium/Discount to NAV.*

As with any capital stock, the price of each Fund's Common Shares will fluctuate based on market conditions and other factors. If Common Shares are sold, the price received may be more or less than the original investment. Each Fund's Common Shares are designed for long-term investors and should not be treated as trading vehicles. Shares of closed-end management investment companies frequently trade at a discount from their NAV. This risk may be greater for investors who sell their Common Shares in a relatively short period of time after the completion of the Reorganization.

The Common Shares of each Fund have historically traded at both a premium and a discount. The table below sets forth the market price, NAV, and the premium/discount to NAV of each Fund as of June 5, 2015.

<b>Fund</b>	<b>Market Price</b>	<b>NAV</b>	<b>Premium/(Discount) to NAV</b>
Target Fund (MYM)	\$12.50	\$14.34	(12.83)%
Acquiring Fund (MIY)	\$13.44	\$15.34	(12.39)%

To the extent the Target Fund Common Shares are trading at a wider discount (or a narrower premium) than the Acquiring Fund at the time of the Reorganization, the Target Fund's common shareholders would have the potential for an economic benefit by the narrowing of the discount or widening of the premium. To the extent the Target Fund Common Shares are trading at a narrower discount (or wider premium) than the Acquiring Fund at the time of the Reorganization, Target Fund common shareholders may be negatively impacted if the Reorganization is consummated. Acquiring Fund common shareholders would only benefit from a premium/discount perspective to the extent the Acquiring Fund's post-Reorganization discount (or premium) improves.

There can be no assurance that, after the Reorganization, Common Shares of the Combined Fund will trade at a narrower discount to NAV or wider premium to NAV than the Common Shares of any individual Fund prior to the Reorganization. Upon consummation of the Reorganization, the Acquiring Fund Common Shares may trade at a price that is less than the Acquiring Fund's current trading market price. In the Reorganization, common shareholders of the Target Fund will receive Common Shares of the Acquiring Fund based on the relative NAVs (not the market values) of each respective Fund's Common Shares. The market value of the Common Shares of the Combined Fund may be less than the market value of the Common Shares of each respective Fund prior to the Reorganization.

*Tax Considerations.*

The Reorganization is intended to qualify as a reorganization within the meaning of Section 368(a) of the Code. If the Reorganization so qualifies, in general, shareholders of the Target Fund will recognize no gain or loss for U.S. federal income tax purposes upon the exchange of their Target Fund Shares for Acquiring Fund

## **Table of Contents**

Shares pursuant to the Reorganization (except with respect to cash received in lieu of fractional Common Shares). Additionally, the Target Fund will recognize no gain or loss for U.S. federal income tax purposes by reason of the Reorganization. Neither the Acquiring Fund nor its shareholders will recognize any gain or loss for U.S. federal income tax purposes pursuant to the Reorganization.

Shareholders of each Fund may receive distributions prior to, or after, the consummation of the Reorganization, including distributions attributable to their proportionate share of each Fund's undistributed net investment income declared prior to the consummation of the Reorganization or the Combined Fund built-in gains, if any, recognized after the Reorganization, when such income and gains are eventually distributed by the Combined Fund. To the extent that such a distribution is not an exempt interest dividend (as defined in the Code), the distribution may be taxable to shareholders for U.S. federal income tax purposes.

The Funds' shareholders should consult their own tax advisers regarding the U.S. federal income tax consequences of the Reorganization, as well as the effects of state, local and non-U.S. tax laws, including possible changes in tax laws.

See "Certain U.S. Federal Income Tax Consequences of the Reorganization" for a summary of certain U.S. federal income tax consequences of the Reorganization.

### **General Risks of Investing in the Acquiring Fund**

The Combined Fund will be managed in accordance with the same investment objective and investment policies, and subject to the same risks, as the Acquiring Fund. Risk is inherent in all investing. The value of your investment in the Acquiring Fund, as well as the amount of return you receive on your investment, may fluctuate significantly from day to day and over time. The Acquiring Fund is not meant to provide a vehicle for those who wish to exploit short-term swings in the stock market and is intended for long-term investors. An investment in Common Shares of the Acquiring Fund should not be considered a complete investment program. Each shareholder should take into account the Acquiring Fund's investment objective as well as the shareholder's other investments when considering an investment in the Acquiring Fund. You may lose part or all of your investment in the Acquiring Fund or your investment may not perform as well as other similar investments. The risks that predominately affect Common Shares of the Acquiring Fund include the following:

**Non-Diversified Status.** The Acquiring Fund is a non-diversified fund. As defined in the 1940 Act, a non-diversified fund may have a significant part of its investments in a smaller number of issuers than can a diversified fund. Having a larger percentage of assets in a smaller number of issuers makes a non-diversified fund, like the Acquiring Fund, more susceptible to the risk that one single event or occurrence can have a significant adverse impact upon the Acquiring Fund.

**Investment and Market Discount Risk.** An investment in the Acquiring Fund's Common Shares is subject to investment risk, including the possible loss of the entire amount that you invest. As with any stock, the price of the Acquiring Fund's Common Shares will fluctuate with market conditions and other factors. Common Shares are designed for long-term investors and the Acquiring Fund should not be treated as a trading vehicle. Shares of closed-end management investment companies frequently trade at a discount from their NAV. This risk is separate and distinct from the risk that the Acquiring Fund's NAV could decrease as a result of its investment activities. At any point in time an investment in the Acquiring Fund's Common Shares may be worth less than the original amount invested, even after taking into account distributions paid by the Acquiring Fund. This risk may be greater for investors who sell their Common Shares in a relatively short period of time after completion of the Reorganization.

**Municipal Bond Market Risk.** Economic exposure to the municipal bond market involves certain risks. The Acquiring Fund's economic exposure to municipal bonds includes municipal bonds in the Acquiring Fund's portfolio and municipal bonds to which the Acquiring Fund is exposed through the ownership of residual interest

---

**Table of Contents**

municipal tender option bonds ( TOBs Residuals ). The municipal market is one in which dealer firms make markets in bonds on a principal basis using their proprietary capital, and during the recent market turmoil these firms' capital was severely constrained. As a result, some firms were unwilling to commit their capital to purchase and to serve as a dealer for municipal bonds. Certain municipal bonds may not be registered with the SEC or any state securities commission and will not be listed on any national securities exchange. The amount of public information available about the municipal bonds to which the Acquiring Fund is economically exposed is generally less than that for corporate equities or bonds, and the investment performance of the Acquiring Fund may therefore be more dependent on the analytical abilities of the Investment Advisor than would be a stock fund or taxable bond fund. The secondary market for municipal bonds, particularly the below investment grade bonds to which the Acquiring Fund may be economically exposed, also tends to be less well-developed or liquid than many other securities markets, which may adversely affect the ability to sell such bonds at attractive prices or at prices approximating those at which the Acquiring Fund currently values them.

In addition, many state and municipal governments that issue securities are under significant economic and financial stress and may not be able to satisfy their obligations. The ability of municipal issuers to make timely payments of interest and principal may be diminished during general economic downturns and as governmental cost burdens are reallocated among federal, state and local governments. The taxing power of any governmental entity may be limited by provisions of state constitutions or laws and an entity's credit will depend on many factors, including the entity's tax base, the extent to which the entity relies on federal or state aid, and other factors which are beyond the entity's control. In addition, laws enacted in the future by Congress or state legislatures or referenda could extend the time for payment of principal and/or interest, or impose other constraints on enforcement of such obligations or on the ability of municipalities to levy taxes. Issuers of municipal bonds might seek protection under the bankruptcy laws. In the event of bankruptcy of such an issuer, holders of municipal bonds could experience delays in collecting principal and interest and such holders may not, in all circumstances, be able to collect all principal and interest to which they are entitled. To enforce its rights in the event of a default in the payment of interest or repayment of principal, or both, the Acquiring Fund may take possession of and manage the assets securing the issuer's obligations on such securities, which may increase the Acquiring Fund's operating expenses. Any income derived from the Acquiring Fund's ownership or operation of such assets may not be tax-exempt.

**Risk Factors and Special Considerations Relating to Michigan Municipal Bonds.** The Fund ordinarily will invest at least 80% of its total assets in Michigan Municipal Bonds; therefore, it is more susceptible to factors adversely affecting issuers of Michigan Municipal Bonds than is a municipal bond fund that is not concentrated in issuers of Michigan Municipal Bonds to this degree. The information set forth below and the related information in Appendix B of this prospectus are derived from sources that are generally available to investors. This information is intended to give a recent historical description and is not intended to indicate future or continuing trends in the financial or other positions of the State of Michigan ( State ) or its local units of government. It should be noted that the information set forth below and the related information in Appendix B of this prospectus is based on the economic and budget forecasts found in certain recent publications issued by the State. The accuracy and completeness of those publications have not been independently verified.

Following the 2000 recession, the State's economy experienced a faster decline than the U.S. economy, hampered by continued job losses, mostly in the manufacturing sector. Michigan's economy relies heavily on the performance of the manufacturing sector in general, and the auto industry specifically. Employment in Michigan peaked in June 2000 and dropped steadily until 2003. Throughout most of the 2000s, employment in Michigan fluctuated with monthly job gains offset by monthly job losses. However, in 2009, Michigan's unemployment rate rose to 13.5 percent- the State's highest rate since 1983. In each year between 2010 and 2014, inclusive, the State's unemployment rate decreased. Over the past four years, Michigan's unemployment rate dropped a combined 4.7 percentage points with the largest share of decline occurring in 2011 (-2.3 points). Michigan's 2013 unemployment rate was 8.8%, the State's lowest annual unemployment rate since 2008. Although unemployment in Michigan continues to fall, it still remains above the national rate.

## Table of Contents

The unemployment rate has had a significant adverse impact on the revenue of the State and its local governments, and has had the effect of requiring the State and local units of government to make significant adjustments in expenditures, and to seek additional revenue sources. The City of Detroit was hit hardest by the broad decline in economic activity and rise in unemployment. On July 18, 2013, the City of Detroit filed for bankruptcy protection under Chapter 9 of Title 11 of the United States Code. On December 10, 2014, less than seventeen months later, the City of Detroit emerged from the nation's largest municipal bankruptcy. The bankruptcy process included a Grand Bargain whereby philanthropic and business communities joined with the State to contribute funds to the City of Detroit to reduce the impact on pensions and extend vital services. \$194.8 million was withdrawn to fund the State's contribution to the Detroit bankruptcy Grand Bargain. The impact of the bankruptcy filing on the State and other local units of government in Michigan cannot be predicted at this time.

The State's outstanding debt totaled \$7.02 billion as of September 30, 2014. This was comprised of \$1.942 billion in general obligation bonds, \$5.075 billion in revenue dedicated bonds, and \$99 million in commercial paper.

As of June 1, 2015 Moody's and S&P have assigned Michigan's long term general obligation bonds ratings of Aa2 and AA- respectively. These ratings reflect the State's credit quality only, and do not indicate the creditworthiness of other tax-exempt securities in which the Fund may invest. Additionally, it should be noted that the creditworthiness of obligations issued by local Michigan issuers may be unrelated to the creditworthiness of obligations issued by the State, and that there is no obligation on the part of the State to make payment on such local obligations in the event of default.

Michigan's economic problems heighten the risk of investing in bonds issued by the State and its political subdivisions, agencies, instrumentalities and authorities, including the risk of potential issuer default. There is a heightened risk that there could be an interruption in payments to bondholders in some cases. This possibility, along with the risk of a further downgrade in the credit rating of the State's general obligation debt, could result in a reduction in the market value of the bonds held by the Fund, which could adversely affect the Fund's net asset values or the distributions paid by the Fund. No assurance can be given that such rating will not be lowered in the future.

Fixed Income Securities Risks. Fixed income securities in which the Acquiring Fund may invest are generally subject to the following risks:

*Interest Rate Risk.* The market value of bonds and other fixed-income securities changes in response to interest rate changes and other factors. Interest rate risk is the risk that prices of bonds and other fixed-income securities will increase as interest rates fall and decrease as interest rates rise. The Acquiring Fund may be subject to a greater risk of rising interest rates due to the current period of historically low interest rates. The magnitude of these fluctuations in the market price of bonds and other fixed-income securities is generally greater for those securities with longer maturities. Fluctuations in the market price of the Acquiring Fund's investments will not affect interest income derived from instruments already owned by the Acquiring Fund, but will be reflected in the Acquiring Fund's NAV. The Acquiring Fund may lose money if short-term or long-term interest rates rise sharply in a manner not anticipated by the Acquiring Fund's management. To the extent the Acquiring Fund invests in debt securities that may be prepaid at the option of the obligor (such as mortgage-related securities), the sensitivity of such securities to changes in interest rates may increase (to the detriment of the Acquiring Fund) when interest rates rise. Moreover, because rates on certain floating rate debt securities typically reset only periodically, changes in prevailing interest rates (and particularly sudden and significant changes) can be expected to cause some fluctuations in the NAV of the Acquiring Fund to the extent that it invests in floating rate debt securities. These basic principles of bond prices also apply to U.S. government securities. A security backed by the full faith and credit of the U.S. government is guaranteed only as to its stated interest rate and face value at maturity, not its current market price. Just like other fixed-income securities, government-guaranteed securities will fluctuate in value when interest rates change.

## **Table of Contents**

The Acquiring Fund's use of leverage, as described below, will tend to increase the Acquiring Fund's interest rate risk. The Acquiring Fund may utilize certain strategies, including taking positions in futures or interest rate swaps, for the purpose of reducing the interest rate sensitivity of fixed income securities held by the Acquiring Fund and decreasing the Acquiring Fund's exposure to interest rate risk. The Acquiring Fund is not required to hedge its exposure to interest rate risk and may choose not to do so. In addition, there is no assurance that any attempts by the Acquiring Fund to reduce interest rate risk will be successful or that any hedges that the Acquiring Fund may establish will perfectly correlate with movements in interest rates.

*Issuer Risk.* The value of fixed income securities may decline for a number of reasons which directly relate to the issuer, such as management performance, financial leverage, reduced demand for the issuer's goods and services, historical and prospective earnings of the issuer and the value of the assets of the issuer.

*Credit Risk.* Credit risk is the risk that one or more fixed income securities in the Acquiring Fund's portfolio will decline in price or fail to pay interest or principal when due because the issuer of the security experiences a decline in its financial status. Credit risk is increased when a portfolio security is downgraded or the perceived creditworthiness of the issuer deteriorates. In addition, to the extent the Acquiring Fund uses credit derivatives, such use will expose it to additional risk in the event that the bonds underlying the derivatives default. The degree of credit risk depends on the issuer's financial condition and on the terms of the securities.

*Prepayment Risk.* During periods of declining interest rates, borrowers may exercise their option to prepay principal earlier than scheduled. For fixed rate securities, such payments often occur during periods of declining interest rates, forcing the Acquiring Fund to reinvest in lower yielding securities, resulting in a possible decline in the Acquiring Fund's income and distributions to shareholders. This is known as prepayment or call risk. For premium bonds (bonds acquired at prices that exceed their par or principal value) purchased by the Acquiring Fund, prepayment risk may be enhanced.

*Reinvestment Risk.* Reinvestment risk is the risk that income from the Acquiring Fund's portfolio will decline if the Acquiring Fund invests the proceeds from matured, traded or called fixed income securities at market interest rates that are below the Acquiring Fund portfolio's current earnings rate.

*Duration and Maturity Risk.* The Investment Advisor may seek to adjust the portfolio's duration or maturity based on their assessment of current and projected market conditions and all factors that the Investment Advisor deems relevant. Any decisions as to the targeted duration or maturity of any particular category of investments or of the Acquiring Fund's portfolio generally will be made based on all pertinent market factors at any given time. The Acquiring Fund may incur costs in seeking to adjust the portfolio average duration or maturity. There can be no assurance that the Investment Advisor's assessment of current and projected market conditions will be correct or that any strategy to adjust the portfolio's duration or maturity will be successful at any given time. Generally speaking, the longer the duration of the Acquiring Fund's portfolio, the more exposure the Acquiring Fund will have to the interest rate risks described above.

Municipal Securities Risks. Municipal securities risks include the ability of the issuer to repay the obligation, the relative lack of information about certain issuers of municipal securities, and the possibility of future legislative changes which could affect the market for and value of municipal securities. These risks include:

*General Obligation Bonds Risks.* The full faith, credit and taxing power of the municipality that issues a general obligation bond secures payment of interest and repayment of principal. Timely payments depend on the issuer's credit quality, ability to raise tax revenues and ability to maintain an adequate tax base.

*Revenue Bonds Risks.* Revenue bonds issued by state or local agencies to finance the development of low-income, multi-family housing involve special risks in addition to those associated with municipal bonds generally, including that the underlying properties may not generate sufficient income to pay expenses and

## **Table of Contents**

interest costs. Payments of interest and principal on revenue bonds are made only from the revenues generated by a particular facility, class of facilities or the proceeds of a special tax or other revenue source. These payments depend on the money earned by the particular facility or class of facilities, or the amount of revenues derived from another source. Such bonds are generally nonrecourse against the property owner, may be junior to the rights of others with an interest in the properties, may pay interest that changes based in part on the financial performance of the property, may be prepayable without penalty and may be used to finance the construction of housing developments which, until completed and rented, do not generate income to pay interest. Increases in interest rates payable on senior obligations may make it more difficult for issuers to meet payment obligations on subordinated bonds.

*Private Activity Bonds Risks.* Municipalities and other public authorities issue private activity bonds to finance development of industrial facilities for use by a private enterprise. The private enterprise pays the principal and interest on the bond, and the issuer does not pledge its full faith, credit and taxing power for repayment. If the private enterprise defaults on its payments, the Acquiring Fund may not receive any income or get its money back from the investment. These bonds may subject certain investors in the Acquiring Fund to the federal alternative minimum tax.

*Moral Obligation Bonds Risks.* Moral obligation bonds are generally issued by special purpose public authorities of a state or municipality. If the issuer is unable to meet its obligations, repayment of these bonds becomes a moral commitment, but not a legal obligation, of the state or municipality.

*Municipal Notes Risks.* Municipal notes are shorter term municipal debt obligations. They may provide interim financing in anticipation of, and are secured by, tax collection, bond sales or revenue receipts. If there is a shortfall in the anticipated proceeds, the notes may not be fully repaid and the Acquiring Fund may lose money.

*Municipal Lease Obligations Risks.* In a municipal lease obligation, the issuer agrees to make payments when due on the lease obligation. The issuer will generally appropriate municipal funds for that purpose, but is not obligated to do so. Although the issuer does not pledge its unlimited taxing power for payment of the lease obligation, the lease obligation is secured by the leased property. However, if the issuer does not fulfill its payment obligation it may be difficult to sell the property and the proceeds of a sale may not cover the Acquiring Fund's loss.

Municipal leases and certificates of participation involve special risks not normally associated with general obligations or revenue bonds. Leases and installment purchase or conditional sale contracts (which normally provide for title to the leased asset to pass eventually to the governmental issuer) have evolved as a means for governmental issuers to acquire property and equipment without meeting the constitutional and statutory requirements for the issuance of debt. The debt issuance limitations are deemed to be inapplicable because of the inclusion in many leases or contracts of nonappropriation clauses that relieve the governmental issuer of any obligation to make future payments under the lease or contract unless money is appropriated for such purpose by the appropriate legislative body on a yearly or other periodic basis. In addition, such leases or contracts may be subject to the temporary abatement of payments in the event that the governmental issuer is prevented from maintaining occupancy of the lease premises or utilizing the leased equipment. Although the obligations may be secured by the leased equipment or facilities, the disposition of the property in the event of nonappropriation or foreclosure might prove difficult, time consuming and costly, and may result in a delay in recovering or the failure to fully recover ownership of the assets.

Certificates of participation, which represent interests in unmanaged pools of municipal leases or installment contracts, involve the same risks as the underlying municipal leases. In addition, the Acquiring Fund may be dependent upon the municipal authority issuing the certificate of participation to exercise remedies with respect to the underlying securities.

---

## **Table of Contents**

Certificates of participation also entail a risk of default or bankruptcy, both of the issuer of the municipal lease and also the municipal agency issuing the certificate of participation.

**Tax-Exempt Status Risk.** In making investments, the Acquiring Fund and the Investment Advisor will rely on the opinion of issuers' bond counsel and, in the case of derivative securities, sponsors' counsel, on the tax-exempt status of interest on municipal obligations and payments under tax-exempt derivative securities. Neither the Acquiring Fund nor the Investment Advisor will independently review the bases for those tax opinions. If any of those tax opinions are ultimately determined to be incorrect or if events occur after the security is acquired that impact the security's tax-exempt status, the Acquiring Fund and its shareholders could be subject to substantial tax liabilities. An assertion by the Internal Revenue Service (IRS) that a portfolio security is not exempt from U.S. federal income tax (contrary to indications from the issuer) could affect the Acquiring Fund's and shareholder's income tax liability for the current or past years and could create liability for information reporting penalties. In addition, an IRS assertion of taxability may impair the liquidity and the fair market value of the securities.

**Taxability Risk.** The Acquiring Fund intends to minimize the payment of taxable income to shareholders by investing in tax-exempt or municipal securities in reliance at the time of purchase on an opinion of bond counsel to the issuer that the interest paid on those securities will be excludable from gross income for U.S. federal income tax purposes. Such securities, however, may be determined to pay, or have paid, taxable income subsequent to the Acquiring Fund's acquisition of the securities. In that event, the IRS may demand that the Acquiring Fund pay U.S. federal income taxes on the affected interest income, and, if the Acquiring Fund agrees to do so, the Acquiring Fund's yield could be adversely affected. In addition, the treatment of dividends previously paid or to be paid by the Acquiring Fund as exempt interest dividends could be adversely affected, subjecting the Acquiring Fund's shareholders to increased U.S. federal income tax liabilities. In addition, future laws, regulations, rulings or court decisions may cause interest on municipal securities to be subject, directly or indirectly, to U.S. federal income taxation or interest on state municipal securities to be subject to state or local income taxation, or the value of state municipal securities to be subject to state or local intangible personal property tax, or may otherwise prevent the Acquiring Fund from realizing the full current benefit of the tax-exempt status of such securities. Any such change could also affect the market price of such securities, and thus the value of an investment in the Acquiring Fund.

**Leverage Risk.** The use of leverage creates an opportunity for increased net investment income dividends to Common Shares, but also creates risks for the holders of Common Shares. There is no assurance that the Acquiring Fund's intended leveraging strategy will be successful. Leverage involves risks and special considerations for common shareholders, including:

the likelihood of greater volatility of net asset value, market price and dividend rate of the Common Shares than a comparable portfolio without leverage;

the risk that fluctuations in interest rates on borrowings and short-term debt or in the interest or dividend rates on any leverage that the Acquiring Fund must pay will reduce the return to the common shareholders;

the effect of leverage in a declining market, which is likely to cause a greater decline in the net asset value of the Common Shares than if the Acquiring Fund were not leveraged, which may result in a greater decline in the market price of the Common Shares;

when the Acquiring Fund uses financial leverage, the investment advisory fees payable to the Investment Advisor will be higher than if the Acquiring Fund did not use leverage; and

leverage may increase operating costs, which may reduce total return.

Any decline in the net asset value of the Acquiring Fund's investments will be borne entirely by the holders of Common Shares. Therefore, if the market value of the Acquiring Fund's portfolio declines, leverage will

## **Table of Contents**

result in a greater decrease in net asset value to the holders of Common Shares than if the Acquiring Fund were not leveraged. This greater net asset value decrease will also tend to cause a greater decline in the market price for the Common Shares. There can be no assurance that the Acquiring Fund will reduce leverage in the future or that any reduction, if undertaken, will benefit the holders of Common Shares. Changes in the future direction of interest rates are very difficult to predict accurately. If the Acquiring Fund were to reduce leverage based on a prediction about future changes to interest rates, and that prediction turned out to be incorrect, the reduction in leverage would likely operate to reduce the income and/or total returns to holders of Common Shares relative to the circumstance where the Acquiring Fund had not reduced leverage. The Acquiring Fund may decide that this risk outweighs the likelihood of achieving the desired reduction to volatility in income and share price if the prediction were to turn out to be correct, and determine not to reduce leverage.

The Acquiring Fund currently utilizes leverage through the issuance of VRDP Shares (see Information about the VRDP Shares of the Funds ) and investments in TOBs Residuals (see Tender Option Bond Risk ). The use of TOBs Residuals may require the Acquiring Fund to segregate or designate on its books and records assets to cover its obligations. While the segregated or earmarked assets may be invested in liquid securities, they may not be used for other operational purposes. Consequently, the use of leverage may limit the Acquiring Fund's flexibility and may require that the Acquiring Fund sell other portfolio investments to pay Fund expenses, to maintain assets in an amount sufficient to cover the Acquiring Fund's leveraged exposure or to meet other obligations at a time when it may be disadvantageous to sell such assets.

Certain types of leverage used by the Acquiring Fund may result in the Acquiring Fund being subject to covenants relating to asset coverage and portfolio composition requirements. The Acquiring Fund may be subject to certain restrictions on investments imposed by guidelines of one or more rating agencies that issue ratings for the Acquiring Fund VRDP Shares, an agreement with the liquidity provider for the Acquiring Fund VRDP Shares or the governing instrument for the Acquiring Fund VRDP Shares. These guidelines may impose asset coverage or portfolio composition requirements that are more stringent than those imposed by the 1940 Act. The Investment Advisor does not believe that these covenants or guidelines will impede it from managing the Acquiring Fund's portfolio in accordance with the Acquiring Fund's investment objective and policies.

While there are any preferred shares of the Acquiring Fund outstanding, the Acquiring Fund may not declare any cash dividend or other distribution on its Common Shares, unless at the time of such declaration, (i) all accrued preferred shares dividends have been paid and (ii) the value of the Acquiring Fund's total assets (determined after deducting the amount of such dividend or other distribution), less all liabilities and indebtedness of the Acquiring Fund, is at least 200% (as required by the 1940 Act) of the liquidation preference of the outstanding preferred shares (expected to equal the aggregate original purchase price of the outstanding preferred shares plus any accrued and unpaid dividends thereon, whether or not earned or declared on a cumulative basis). In addition to the requirements of the 1940 Act, the Acquiring Fund may be required to comply with other asset coverage requirements as a condition of the Acquiring Fund obtaining a rating of its preferred shares from a nationally recognized rating service or other asset coverage requirements under an agreement with the liquidity provider of the Acquiring Fund VRDP Shares. These requirements may include an asset coverage test more stringent than that under the 1940 Act. This limitation on the Acquiring Fund's ability to make distributions on its Common Shares could in certain circumstances impair the ability of the Acquiring Fund to maintain its qualification for taxation as a regulated investment company under the Code. The Acquiring Fund may, however, to the extent possible, purchase or redeem preferred shares from time to time to maintain compliance with such asset coverage requirements and may pay special dividends to the holders of the preferred shares in certain circumstances in connection with any such impairment of the Acquiring Fund's status as a regulated investment company under the Code.

The Acquiring Fund may invest in the securities of other investment companies. Such securities may also be leveraged, and will therefore be subject to the leverage risks described above. This additional leverage may in certain market conditions reduce the net asset value of the Acquiring Fund's Common Shares and the returns to the holders of Common Shares.

---

## **Table of Contents**

**Tender Option Bond Risk.** The Acquiring Fund currently leverages its assets through the use of TOB Residuals, which are derivative interests in municipal bonds. The TOB Residuals in which the Acquiring Fund will invest pay interest or income that, in the opinion of counsel to the issuer, is exempt from regular Federal income tax. BlackRock will not conduct its own analysis of the tax status of the interest or income paid by TOB Residuals held by the Acquiring Fund, but will rely on the opinion of counsel to the issuer. There is no assurance that the Acquiring Fund's strategy of using TOB Residuals to leverage its assets will be successful.

TOB Residuals represent beneficial interests in a special purpose trust formed for the purpose of holding municipal bonds contributed by one or more funds (a TOB Trust). A TOB Trust typically issues two classes of beneficial interests: short-term floating rate interests (TOB Floaters), which are sold to third party investors, and TOB Residuals, which are generally issued to the fund(s) that transferred municipal bonds to the TOB Trust. TOB Floaters may have first priority on the cash flow from the municipal bonds held by the TOB Trust and are enhanced with a liquidity support arrangement provided by a third-party bank or other financial institution (the TOBs Liquidity Provider) which allows holders to tender their position at par (plus accrued interest). The Acquiring Fund, as a holder of TOB Residuals, is paid the residual cash flow from the TOB Trust. As result, distributions on TOB Residuals will bear an inverse relationship to short-term municipal bond interest rates. Distributions on the TOB Residuals paid to the Acquiring Fund will be reduced or, in the extreme, eliminated as short-term municipal interest rates rise and will increase when short-term municipal interest rates fall. The amount of such reduction or increase is a function, in part, of the amount of TOB Floaters sold by the TOB Trust relative to the amount of the TOB Residuals that it sells. The greater the amount of TOB Floaters sold relative to the TOB Residuals, the more volatile the distributions on the TOB Residuals will be. Short-term interest rates are at historic lows and may be more likely to rise in the current market environment.

Any economic leverage achieved through the Acquiring Fund's investment in TOB Residuals will increase the possibility that Common Share long-term returns will be diminished if the cost of the TOB Floaters issued by a TOB Trust exceeds the return on the securities in the TOB Trust. If the income and gains earned on municipal securities owned by a TOB Trust that issues TOB Residuals to the Acquiring Fund are greater than the payments due on the TOB Floaters issued by the TOB Trust, the Acquiring Fund's returns will be greater than if it had not invested in the TOB Residuals.

Although the Acquiring Fund generally would unwind a TOB transaction rather than try to sell a TOB Residual, if it did try to sell a TOB Residual, its ability to do so would depend on the liquidity of the TOB Residual. TOB Residuals have varying degrees of liquidity based, among other things, upon the liquidity of the underlying securities deposited in the TOB Trust. The market price of TOB Residuals is more volatile than the underlying municipal bonds due to leverage.

The leverage attributable to the Acquiring Fund's use of TOB Residuals may be called away on relatively short notice and therefore may be less permanent than more traditional forms of leverage. The TOB Trust may be collapsed without the consent of the Acquiring Fund upon the occurrence of tender option termination events (TOTES) and mandatory termination events (MTEs), as defined in the TOB Trust agreements. In the case of an MTE, after the payment of fees, the holders of the TOB Floaters would be paid senior to the TOB Residual holders (i.e., the Acquiring Fund). In contrast, in the case of a TOTE, after payment of fees, the holders of TOB Floaters and the TOB Residual holders would be paid pro rata in proportion to the respective face values of their certificates.

The Acquiring Fund may invest in a TOB Trust on either a non-recourse or recourse basis. If the Acquiring Fund invests in a TOB Trust on a recourse basis, it will typically enter into a reimbursement agreement with the TOBs Liquidity Provider pursuant to which the Acquiring Fund is required to reimburse the TOBs Liquidity Provider the balance, if any, of the amount owed under the liquidity facility over the liquidation proceeds (the Liquidation Shortfall). As a result, if the Acquiring Fund invests in a recourse TOB Trust, the Acquiring Fund will bear the risk of loss with respect to any Liquidation Shortfall.

## **Table of Contents**

The use of TOB Residuals will require the Acquiring Fund to earmark or segregate liquid assets in an amount equal to any TOB Floaters, plus any accrued but unpaid interest due on the TOB Floaters, issued by TOB Trusts sponsored by, or on behalf of, the Acquiring Fund that are not owned by the Acquiring Fund. The use of TOB Residuals may also require the Acquiring Fund to earmark or segregate liquid assets in an amount equal to loans provided by the TOBs Liquidity Provider to the TOB Trust to purchase tendered TOB Floaters. While the segregated assets may be invested in liquid securities, they may not be used for other operational purposes. Consequently, the use of leverage through TOB Residuals may limit the Acquiring Fund's flexibility and may require that the Acquiring Fund sell other portfolio investments to pay Fund expenses, to maintain assets in an amount sufficient to cover the Acquiring Fund's leveraged exposure or to meet other obligations at a time when it may be disadvantageous to sell such assets. Future regulatory requirements or SEC guidance may necessitate more onerous contractual or regulatory requirements, which may increase the costs or reduce the degree of potential economic benefits of TOB Trust transactions or limit the Acquiring Fund's ability to enter into or manage TOB Trust transactions.

On December 10, 2013, regulators published final rules implementing section 619 of the Dodd-Frank Act (the Volcker Rule), which prohibit banking entities from engaging in proprietary trading of certain instruments and limit such entities' investments in, and relationships with, covered funds, as defined in the Volcker Rule. Banking entities subject to the Volcker Rule are required to fully comply by July 21, 2015, with respect to investments in and relationships with TOB Trusts that were not in place prior to December 31, 2013, and by July 21, 2016, with respect to investments in and relationships with TOB Trusts that were in place prior to December 31, 2013. As a result, TOB Trusts may need to be restructured or unwound.

In response to the restrictions imposed by the Volcker Rule, market participants have developed a new structure for TOB Trusts designed to ensure that no banking entity is sponsoring the TOB Trust for purposes of the Volcker Rule. This structure remains untested. It is possible that regulators could take positions that could limit the market for such newly structured TOB Trust transactions or the Acquiring Fund's ability to hold TOB Residuals. Under the new TOB Trust structure, the Acquiring Fund will have certain additional duties and responsibilities, which may give rise to certain additional risks including, but not limited to, compliance, securities law and operational risks.

The SEC and various federal banking and housing agencies recently adopted credit risk retention rules for securitizations (the Risk Retention Rules), which take effect in December 2016. The Risk Retention Rules would require the sponsor of a TOB Trust to retain at least 5% of the credit risk of the underlying assets supporting the TOB Trust's Municipal Bonds. The Risk Retention Rules may adversely affect the Acquiring Fund's ability to engage in TOB Trust transactions or increase the costs of such transactions in certain circumstances.

There can be no assurance that the Acquiring Fund can successfully enter into restructured TOB Trust transactions in order to refinance its existing TOB Residual holdings prior to the compliance date for the Volcker Rule, which may require that the Acquiring Fund unwinds existing TOB Trusts.

TOB Trust transactions constitute an important component of the municipal bond market. Accordingly, implementation of the Volcker Rule and the Risk Retention Rules may adversely impact the municipal market, including through reduced demand for and liquidity of municipal bonds and increased financing costs for municipal issuers. Any such developments could adversely affect the Acquiring Fund. The ultimate impact of these rules on the TOB market and the overall municipal market is not yet certain.

Please see The Acquiring Fund's Investments Leverage TOB Residuals for additional information.

**Insurance Risk.** Insurance guarantees that interest payments on a municipal security will be made on time and that the principal will be repaid when the security matures. Insurance is expected to protect the Acquiring Fund against losses caused by a municipal security issuer's failure to make interest and principal payments.

---

**Table of Contents**

However, insurance does not protect the Acquiring Fund or its shareholders against losses caused by declines in a municipal security's value. Also, the Acquiring Fund cannot be certain that any insurance company will make the payments it guarantees. Certain significant providers of insurance for municipal securities have recently incurred significant losses as a result of exposure to sub-prime mortgages and other lower credit quality investments that have experienced recent defaults or otherwise suffered extreme credit deterioration. As a result, such losses have reduced the insurers' capital and called into question their continued ability to perform their obligations under such insurance if they are called upon to do so in the future. While an insured municipal security will typically be deemed to have the rating of its insurer, if the insurer of a municipal security suffers a downgrade in its credit rating or the market discounts the value of the insurance provided by the insurer, the rating of the underlying municipal security will be more relevant and the value of the municipal security would more closely, if not entirely, reflect such rating. The Acquiring Fund may lose money on its investment if the insurance company does not make payments it guarantees. If a municipal security's insurer fails to fulfill its obligations or loses its credit rating, the value of the security could drop.

**Yield and Ratings Risk.** The yields on certain obligations are dependent on a variety of factors, including general market conditions, conditions in the particular market for the obligation, the financial condition of the issuer, the size of the offering, the maturity of the obligation and the ratings of the issue. The ratings of Moody's, S&P and Fitch, which are described in Appendix C to the Statement of Additional Information, represent their respective opinions as to the quality of the obligations which they undertake to rate. Ratings are relative and subjective and, although ratings may be useful in evaluating the safety of interest and principal payments, they do not evaluate the market value risk of such obligations. Although these ratings may be an initial criterion for selection of portfolio investments, the Investment Advisor also will independently evaluate these securities and the ability of the issuers of such securities to pay interest and principal. To the extent that the Acquiring Fund invests in securities that have not been rated by a rating agency, the Acquiring Fund's ability to achieve its investment objective will be more dependent on the Investment Advisor's credit analysis than would be the case when the Acquiring Fund invests in rated securities.

**Unrated Securities Risk.** Because the Acquiring Fund may purchase securities that are not rated by any rating organization, the Investment Advisor may, after assessing their credit quality, internally assign ratings to certain of those securities in categories similar to those of rating organizations. Some unrated securities may not have an active trading market or may be difficult to value, which means the Acquiring Fund might have difficulty selling them promptly at an acceptable price. To the extent that the Acquiring Fund invests in unrated securities, the Acquiring Fund's ability to achieve its investment objective will be more dependent on the Investment Advisor's credit analysis than would be the case when the Acquiring Fund invests in rated securities.

**Zero Coupon Securities Risk.** Zero coupon securities are securities that are sold at a discount to par value and do not pay interest during the life of the security. The discount approximates the total amount of interest the security will accrue and compound over the period until maturity at a rate of interest reflecting the market rate of the security at the time of issuance. Upon maturity, the holder of a zero coupon security is entitled to receive the par value of the security.

While interest payments are not made on zero coupon securities, holders of such securities are deemed to have received income (phantom income) annually, notwithstanding that cash may not be received currently. The effect of owning instruments that do not make current interest payments is that a fixed yield is earned not only on the original investment but also, in effect, on all discount accretion during the life of the obligations. This implicit reinvestment of earnings at a fixed rate eliminates the risk of being unable to invest distributions at a rate as high as the implicit yield on the zero coupon bond, but at the same time eliminates the holder's ability to reinvest at higher rates in the future. For this reason, some of these securities may be subject to substantially greater price fluctuations during periods of changing market interest rates than are comparable securities that pay interest currently. Longer term zero coupon bonds are more exposed to interest rate risk than shorter term zero coupon bonds. These investments benefit the issuer by mitigating its need for cash to meet debt service, but also require a higher rate of return to attract investors who are willing to defer receipt of cash.

## **Table of Contents**

The Acquiring Fund accrues income with respect to these securities for U.S. federal income tax and accounting purposes prior to the receipt of cash payments. Zero coupon securities may be subject to greater fluctuation in value and less liquidity in the event of adverse market conditions than comparably rated securities that pay cash interest at regular intervals.

Further, to maintain its qualification for pass-through treatment under the Federal tax laws, the Acquiring Fund is required to distribute income to its shareholders and, consequently, may have to dispose of other, more liquid portfolio securities under disadvantageous circumstances or may have to leverage itself by borrowing in order to generate the cash to satisfy these distributions. The required distributions may result in an increase in the Acquiring Fund's exposure to zero coupon securities.

In addition to the above-described risks, there are certain other risks related to investing in zero coupon securities. During a period of severe market conditions, the market for such securities may become even less liquid. In addition, as these securities do not pay cash interest, a Fund's investment exposure to these securities and their risks, including credit risk, will increase during the time these securities are held in the Acquiring Fund's portfolio.

**Variable Rate Demand Obligations Risk.** Variable rate demand obligations are floating rate securities that combine an interest in a long-term municipal bond with a right to demand payment before maturity from a bank or other financial institution. If the bank or financial institution is unable to pay, the Acquiring Fund may lose money.

**Indexed and Inverse Securities Risk.** Investments in inverse floaters, residual interest tender option bonds and similar instruments expose the Acquiring Fund to the same risks as investments in fixed income securities and derivatives, as well as other risks, including those associated with leverage and increased volatility. An investment in these securities typically will involve greater risk than an investment in a fixed rate security. Distributions on inverse floaters, residual interest tender option bonds and similar instruments will typically bear an inverse relationship to short term interest rates and typically will be reduced or, potentially, eliminated as interest rates rise. Inverse floaters, residual interest tender option bonds and similar instruments will underperform the market for fixed rate securities in a rising interest rate environment. Inverse floaters may be considered to be leveraged to the extent that their interest rates vary by a magnitude that exceeds the magnitude of the change in a reference rate of interest (typically a short term interest rate). The leverage inherent in inverse floaters is associated with greater volatility in their market values. Investments in inverse floaters, residual interest tender option bonds and similar instruments that have fixed income securities underlying them will expose the Acquiring Fund to the risks associated with those fixed income securities and the values of those investments may be especially sensitive to changes in prepayment rates on the underlying fixed income securities.

**When-Issued and Delayed Delivery Transactions Risk.** When-issued and delayed delivery transactions occur when securities are purchased or sold by the Acquiring Fund with payment and delivery taking place in the future to secure an advantageous yield or price. Securities purchased on a when-issued or delayed delivery basis may expose the Acquiring Fund to counterparty risk of default as well as the risk that securities may experience fluctuations in value prior to their actual delivery. The Acquiring Fund will not accrue income with respect to a when-issued or delayed delivery security prior to its stated delivery date. Purchasing securities on a when-issued or delayed delivery basis can involve the additional risk that the price or yield available in the market when the delivery takes place may not be as favorable as that obtained in the transaction itself.

**Swaps.** Swap agreements are types of derivatives. In order to seek to hedge the value of the Acquiring Fund's portfolio, to hedge against increases in the Acquiring Fund's cost associated with the interest payments on its outstanding borrowings or to seek to increase the Acquiring Fund's return, the Acquiring Fund may enter into interest rate or credit default swap transactions. In interest rate swap transactions, there is a risk that yields will move in the direction opposite of the direction anticipated by the Acquiring Fund, which would cause the

## **Table of Contents**

Acquiring Fund to make payments to its counterparty in the transaction that could adversely affect Fund performance. In addition to the risks applicable to swaps generally, credit default swap transactions involve special risks because they are difficult to value, are highly susceptible to liquidity and credit risk, and generally pay a return to the party that has paid the premium only in the event of an actual default by the issuer of the underlying obligation (as opposed to a credit downgrade or other indication of financial difficulty). The Acquiring Fund is not required to enter into interest rate or credit default swap transactions for hedging purposes or to enhance its return and may choose not to do so.

**Repurchase Agreements Risk.** Repurchase agreements typically involve the acquisition by the Acquiring Fund of fixed income securities from a selling financial institution such as a bank, savings and loan association or broker-dealer. The agreement provides that the Acquiring Fund will sell the securities back to the institution at a fixed time in the future. The Acquiring Fund does not bear the risk of a decline in the value of the underlying security unless the seller defaults under its repurchase obligation. In the event of the bankruptcy or other default of a seller of a repurchase agreement, the Acquiring Fund could experience both delays in liquidating the underlying securities and losses, including possible decline in the value of the underlying security during the period in which the Acquiring Fund seeks to enforce its rights thereto; possible lack of access to income on the underlying security during this period; and expenses of enforcing its rights. The value of the collateral underlying the repurchase agreement will be at least equal to the repurchase price, including any accrued interest earned on the repurchase agreement. In the event of a default or bankruptcy by a selling financial institution, the Acquiring Fund generally will seek to liquidate such collateral. However, the exercise of the Acquiring Fund's right to liquidate such collateral could involve certain costs or delays and, to the extent that proceeds from any sale upon a default of the obligation to repurchase were less than the repurchase price, the Acquiring Fund could suffer a loss.

**Investment in Other Investment Companies Risk.** As with other investments, investments in other investment companies are subject to market and selection risk. In addition, if the Acquiring Fund acquires shares of investment companies, including ones affiliated with the Acquiring Fund, the Acquiring Fund's common shareholders will bear both their proportionate share of expenses in the Acquiring Fund (including management and advisory fees) and, indirectly, the expenses of the investment companies. To the extent the Acquiring Fund is held by an affiliated fund, the ability of the Acquiring Fund itself to hold other investment companies may be limited.

**Restricted and Illiquid Securities Risk.** The Acquiring Fund may invest in illiquid or less liquid securities or securities in which no secondary market is readily available or which are otherwise illiquid, including private placement securities. The Acquiring Fund may not be able to readily dispose of such securities at prices that approximate those at which the Acquiring Fund could sell such securities if they were more widely-traded and, as a result of such illiquidity, the Acquiring Fund may have to sell other investments or engage in borrowing transactions if necessary to raise cash to meet its obligations. Limited liquidity can also affect the market price of securities, thereby adversely affecting the Acquiring Fund's NAV and ability to make dividend distributions. The financial markets in general have in recent years experienced periods of extreme secondary market supply and demand imbalance, resulting in a loss of liquidity during which market prices were suddenly and substantially below traditional measures of intrinsic value. During such periods, some securities could be sold only at arbitrary prices and with substantial losses. Periods of such market dislocation may occur again at any time.

Restricted securities are securities that may not be sold to the public without an effective registration statement under the Securities Act, or that may be sold only in a privately negotiated transaction or pursuant to an exemption from registration. When registration is required to sell a security, the Acquiring Fund may be obligated to pay all or part of the registration expenses and considerable time may pass before the Acquiring Fund is permitted to sell a security under an effective registration statement. If adverse market conditions develop during this period, the Acquiring Fund might obtain a less favorable price than the price that prevailed when the Acquiring Fund decided to sell. The Acquiring Fund may be unable to sell restricted and other illiquid securities at opportune times or prices.

---

**Table of Contents**

**Strategic Transactions Risk.** The Acquiring Fund may engage in various derivative transactions or portfolio strategies both to increase the return of the Acquiring Fund and for duration and risk management purposes ( Strategic Transactions ). These Strategic Transactions include the use of derivatives, such as indexed securities, inverse floating rate securities, options, futures, options on futures, interest rate swap transactions and credit default swaps. The risks associated with Strategic Transactions include (i) the imperfect correlation between the value of such instruments and the underlying assets, (ii) the possible default of the counterparty to the transaction, (iii) illiquidity of the derivative instruments, and (iv) high volatility losses caused by unanticipated market movements, which are potentially unlimited. Although both over-the-counter and exchange-traded derivatives markets may experience the lack of liquidity, over-the-counter non-standardized derivative transactions are generally less liquid than exchange-traded instruments. The Acquiring Fund's ability to successfully use Strategic Transactions depends on the Investment Advisor's ability to predict pertinent securities prices, interest rates, currency exchange rates and other economic factors, which cannot be assured. Strategic Transactions subject the Acquiring Fund to the risk that, if the Investment Advisor incorrectly forecasts market values, interest rates or other applicable factors, the Acquiring Fund's performance could suffer. Certain of these Strategic Transactions, such as investments in inverse floating rate securities and credit default swaps, may provide investment leverage to the Acquiring Fund's portfolio. The Acquiring Fund is not required to use derivatives or other portfolio strategies to seek to increase return or to seek to hedge its portfolio and may choose not to do so. There can be no assurance that the Acquiring Fund's Strategic Transactions will be effective. The use of Strategic Transactions may result in losses greater than if they had not been used, may require the Acquiring Fund to sell or purchase portfolio securities at inopportune times or for prices other than current market values, may limit the amount of appreciation the Acquiring Fund can realize on an investment or may cause the Acquiring Fund to hold a security that it might otherwise sell. Additionally, segregated liquid assets, amounts paid by a Fund as premiums and cash or other assets held in margin accounts with respect to Strategic Transactions are not otherwise available to the Acquiring Fund for investment purposes. Some of the derivative strategies that the Acquiring Fund may use to seek to increase its return are riskier than its hedging transactions and have speculative characteristics. Such strategies do not attempt to limit the Acquiring Fund's risk of loss.

**Derivatives Risk.** Derivatives are financial contracts or instruments whose value depends on, or is derived from, the value of an underlying asset, reference rate or index (or relationship between two indices). The Acquiring Fund's use of derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Derivatives are subject to a number of risks described elsewhere in this section, such as liquidity risk, interest rate risk, market risk, credit risk and management risk. They also involve the risk of mispricing or improper valuation. Derivatives also involve the risk that changes in the value of a derivative may not correlate perfectly with the underlying asset, rate or index. In this regard, the Acquiring Fund seeks to achieve its investment objective, in part, by investing in derivatives positions that are designed to closely track the performance (or inverse performance) of an index on a daily basis. However, the overall investment strategies of the Acquiring Fund are not designed or expected to produce returns which replicate the performance (or inverse performance) of the particular index, and the degree of variation could be substantial, particularly over longer periods. There are a number of factors which may prevent the Acquiring Fund, or the derivatives or other strategies used by the Acquiring Fund, from achieving desired correlation (or inverse correlation) with an index, such as the impact of fees, expenses and transaction costs, the timing of pricing, and disruptions or illiquidity in the markets for derivative instruments or securities in which the Acquiring Fund invests.

The Acquiring Fund's investments in a derivative instrument could lose more than the principal amount invested. Also, suitable derivative transactions may not be available in all circumstances and there can be no assurance that the Acquiring Fund will engage in these transactions to reduce exposure to other risks when that would be beneficial. Although the Investment Advisor seeks to use derivatives to further the Acquiring Fund's investment objective, there is no assurance that the use of derivatives will achieve this result.

Certain derivative transactions may give rise to a form of leverage. Leverage associated with derivative transactions may cause the Acquiring Fund to liquidate portfolio positions when it may not be advantageous to

---

**Table of Contents**

do so to satisfy its obligations or to meet earmarking or segregation requirements, pursuant to applicable SEC rules and regulations, or may cause the Acquiring Fund to be more volatile than if the Acquiring Fund had not been leveraged.

**Counterparty Risk.** The Acquiring Fund will be subject to credit risk with respect to the counterparties to the derivative contracts purchased by the Acquiring Fund. Because derivative transactions in which the Acquiring Fund may engage may involve instruments that are not traded on an exchange but are instead traded between counterparties based on contractual relationships, the Acquiring Fund is subject to the risk that a counterparty will not perform its obligations under the related contracts. If a counterparty becomes bankrupt or otherwise fails to perform its obligations due to financial difficulties, the Acquiring Fund may experience significant delays in obtaining any recovery in bankruptcy or other reorganization proceedings. The Acquiring Fund may obtain only a limited recovery, or may obtain no recovery, in such circumstances. Although the Acquiring Fund intends to enter into transactions only with counterparties that the Investment Advisor believes to be creditworthy, there can be no assurance that, as a result, a counterparty will not default and that the Acquiring Fund will not sustain a loss on a transaction. In the event of the counterparty's bankruptcy or insolvency, the Acquiring Fund's collateral may be subject to the conflicting claims of the counterparty's creditors, and the Acquiring Fund may be exposed to the risk of a court treating the Acquiring Fund as a general unsecured creditor of the counterparty, rather than as the owner of the collateral. There can be no assurance that a clearing organization, or its members, will satisfy its obligations to the Acquiring Fund.

In addition, the Acquiring Fund is subject to the risk that issuers of the instruments in which it invests and trades may default on their obligations under those instruments, and that certain events may occur that have an immediate and significant adverse effect on the value of those instruments. There can be no assurance that an issuer of an instrument in which the Acquiring Fund invests will not default, or that an event that has an immediate and significant adverse effect on the value of an instrument will not occur, and that the Acquiring Fund will not sustain a loss on a transaction as a result.

**Legal, Tax and Regulatory Risks.** Legal, tax and regulatory changes could occur that may materially adversely affect the Acquiring Fund. For example, the regulatory and tax environment for derivative instruments in which the Acquiring Fund may participate is evolving, and changes in the regulation or taxation of derivative instruments may materially adversely affect the value of derivative instruments held by the Acquiring Fund and the ability of the Acquiring Fund to pursue its investment strategies. To qualify for the favorable U.S. federal income tax treatment generally accorded to regulated investment companies ( "RICs" ), the Acquiring Fund must, among other things, derive in each taxable year at least 90% of its gross income from certain prescribed sources and distribute for each taxable year at least 90% of its investment company taxable income (generally, ordinary income plus the excess, if any, of net short-term capital gain over net long-term capital loss) and its net tax-exempt interest income. If for any taxable year the Acquiring Fund does not qualify as a RIC, all of its taxable income for that year (including its net capital gain) would be subject to tax at regular corporate rates without any deduction for distributions to shareholders, and such distributions would be taxable as ordinary dividends to the extent of the Acquiring Fund's current and accumulated earnings and profits.

**1940 Act Regulation.** The Acquiring Fund is a registered closed-end investment company and as such is subject to regulations under the 1940 Act. Generally speaking, any contract or provision thereof that is made, or where performance involves a violation of the 1940 Act or any rule or regulation thereunder is unenforceable by either party unless a court finds otherwise.

**Legislation Risk.** At any time after the date of this Joint Proxy Statement/Prospectus, legislation may be enacted that could negatively affect the assets of the Acquiring Fund. Legislation or regulation may change the way in which the Acquiring Fund itself is regulated. The Investment Advisor cannot predict the effects of any new governmental regulation that may be implemented and there can be no assurance that any new governmental regulation will not adversely affect the Acquiring Fund's ability to achieve its investment objective.

## Table of Contents

**LIBOR Risk.** According to various reports, certain financial institutions, commencing as early as 2005 and throughout the global financial crisis, routinely made artificially low submissions in the London Interbank Offered Rate ( LIBOR ) setting process. Since the LIBOR scandal came to light, several financial institutions have been fined significant amounts by various financial regulators in connection with allegations of manipulation of LIBOR. Other financial institutions in various countries are being investigated for similar actions. These developments may have adversely affected the interest rates on securities whose interest payments were determined by reference to LIBOR. Any future similar developments could, in turn, reduce the value of such securities owned by the Acquiring Fund.

**Risks Associated with Recent Market Events.** In the recent past, the debt and equity capital markets in the United States were negatively impacted by significant write-offs in the financial services sector relating to sub-prime mortgages and the repricing of credit risk in the broadly syndicated market, among other things. These events, along with the downgrade to the United States credit rating, deterioration of the housing market, the failure of major financial institutions and the resulting United States federal government actions led in the recent past, and may lead in the future, to worsening general economic conditions, which did, and could, materially and adversely impact the broader financial and credit markets and reduce the availability of debt and equity capital for the market as a whole and financial firms in particular. These events may increase the volatility of the value of securities owned by the Acquiring Fund and/or result in sudden and significant valuation increases or decreases in its portfolio. These events also may make it more difficult for the Acquiring Fund to accurately value its securities or to sell its securities on a timely basis.

While the extreme volatility and disruption that U.S. and global markets experienced for an extended period of time beginning in 2007 and 2008 has generally subsided, uncertainty and periods of volatility remain, and risks to a robust resumption of growth persist. In 2010, several EU countries, including Greece, Ireland, Italy, Spain and Portugal, began to face budget issues, some of which may have negative long-term effects for the economies of those countries and other EU countries. There is continued concern about national-level support for the Euro and the accompanying coordination of fiscal and wage policy among European Monetary Union ( EMU ) member countries. Recent downgrades to the credit ratings of major banks could result in increased borrowing costs for such banks and negatively affect the broader economy. Moreover, the policy of the Board of Governors of the Federal Reserve System ( Federal Reserve ), including with respect to certain interest rates and the decision to end its quantitative easing policy, may adversely affect the value, volatility and liquidity of dividend and interest paying securities. Market volatility, rising interest rates and/or a return to unfavorable economic conditions could impair the Acquiring Fund s ability to achieve its investment objective.

General market uncertainty and consequent repricing of risk have led to market imbalances of sellers and buyers, which in turn have resulted in significant valuation uncertainties in a variety of securities and significant and rapid value decline in certain instances. Additionally, periods of market volatility remain, and may continue to occur in the future, in response to various political, social and economic events both within and outside of the United States. These conditions resulted in, and in many cases continue to result in, greater price volatility, less liquidity, widening credit spreads and a lack of price transparency, with many securities remaining illiquid and of uncertain value. Such market conditions may make valuation of some of the Acquiring Fund s securities uncertain and/or result in sudden and significant valuation increases or declines in its holdings.

**EMU and Redenomination Risk.** As the European debt crisis progressed, the possibility of one or more Eurozone countries exiting the EMU, or even the collapse of the Euro as a common currency, arose, creating significant volatility at times in currency and financial markets generally. The effects of the collapse of the Euro, or of the exit of one or more countries from the EMU, on the U.S. and global economy and securities markets are impossible to predict and any such events could have a significant adverse impact on the value and risk profile of the Acquiring Fund s portfolio. Any partial or complete dissolution of the EMU could have significant adverse effects on currency and financial markets, and on the values of the Acquiring Fund s portfolio investments.

## **Table of Contents**

**Market Disruption and Geopolitical Risk.** The aftermath of the war in Iraq, instability in Afghanistan, Pakistan, Egypt, Libya, Syria and the Middle East, the ongoing epidemic of the Ebola virus disease in West Africa, possible terrorist attacks in the United States and around the world, growing social and political discord in the United States, the European debt crisis, further downgrades of U.S. Government securities and other similar events may result in market volatility, may have long-term effects on the U.S. and worldwide financial markets and may cause further economic uncertainties in the United States and worldwide. The effects of these events or similar events in the future on the U.S. economy and securities markets cannot be predicted. Non-investment grade and equity securities tend to be more volatile than investment grade fixed income securities; therefore these events and other market disruptions may have a greater impact on the prices and volatility of non-investment grade and equity securities than on investment grade fixed income securities. There can be no assurance that these events and other market disruptions will not have other material and adverse implications.

**Regulation and Government Intervention Risk.** The recent instability in the financial markets discussed above has led the U.S. Government and certain foreign governments to take a number of unprecedented actions designed to support certain financial institutions and segments of the financial markets that have experienced extreme volatility, and in some cases a lack of liquidity, including through direct purchases of equity and debt securities. Federal, state, and other governments, their regulatory agencies or self-regulatory organizations may take actions that affect the regulation of the issuers in which the Acquiring Fund invests in ways that are unforeseeable. Legislation or regulation may also change the way in which the Acquiring Fund is regulated. Such legislation or regulation could limit or preclude the Acquiring Fund's ability to achieve its investment objective.

Congress has enacted sweeping financial legislation, the Dodd-Frank Act, signed into law by President Obama on July 21, 2010, regarding the operation of banks, private fund managers and other financial institutions, which includes provisions regarding the regulation of derivatives. Many provisions of the Dodd-Frank Act have been or will be implemented through regulatory rulemakings and similar processes over a period of time. The impact of the Dodd-Frank Act, and of follow-on regulation, on trading strategies and operations is impossible to predict, and may be adverse. Practices and areas of operation subject to significant change based on the impact, direct or indirect, of the Dodd-Frank Act and follow-on regulation, may change in manners that are unforeseeable, with uncertain effects. By way of example and not limitation, direct and indirect changes from the Dodd-Frank Act and follow-on regulation may occur to a significant degree with regard to, among other areas, financial consumer protection, bank ownership of and involvement with private funds, proprietary trading, registration of investment advisers, and the trading and use of many derivative instruments, including swaps. There can be no assurance that such legislation or regulation will not have a material adverse effect on the Acquiring Fund. In addition, Congress may address tax policy, which also could have uncertain direct and indirect impacts on trading and operations, as well as, potentially, the operations and structure of the Acquiring Fund.

Furthermore, the Dodd-Frank Act created the Financial Stability Oversight Council (FSOC), an interagency body charged with identifying and monitoring systemic risks to financial markets. The FSOC has the authority to require that non-bank financial companies that are predominantly engaged in financial activities, such as the Acquiring Fund, the Advisor and BlackRock, whose failure it determines would pose systemic risk, be placed under the supervision of the Federal Reserve. The FSOC has the authority to recommend that the Federal Reserve adopt more stringent prudential standards and reporting and disclosure requirements for non-bank financial companies supervised by the Federal Reserve. The FSOC also has the authority to make recommendations to the Federal Reserve on various other matters that may affect the Acquiring Fund, including requiring financial firms to submit resolution plans, mandating credit exposure reports, establishing concentration limits and limiting short-term debt. The FSOC may also recommend that other federal financial regulators impose more stringent regulation upon, or ban altogether, financial activities of any financial firm that poses what it determines are significant risks to the financial system. In the event that the FSOC designates the Acquiring Fund, the Advisor or BlackRock as a systemic risk to be placed under the Federal Reserve's supervision, the Acquiring Fund, the Advisor or BlackRock could face stricter prudential standards, including risk-based capital requirements, leverage limits, liquidity requirements, concentration requirements and overall

## **Table of Contents**

risk management requirements, among other restrictions. Such requirements could hinder the Acquiring Fund's ability to meet its investment objectives and may place the Acquiring Fund at a disadvantage with respect to its competitors.

Moreover, the SEC is reportedly developing rules designed to address perceived systemic risks posed by the asset management industry. These rules reportedly may require asset managers, such as the Advisor, to give the SEC additional data about funds' portfolio holdings, to conduct stress tests on their funds to determine how they would weather economic shocks such as a sudden change in interest rates and to develop "living wills" for their funds describing how their businesses can be sold in an orderly manner should they become insolvent or otherwise go out of business. Any such new rules could increase the Acquiring Fund's expenses and impact its returns to shareholders.

The Volcker Rule contained in Section 619 of the Dodd-Frank Act will limit the ability of banking entities to sponsor, invest in or serve as investment manager of certain private investment funds. Because the Federal Reserve currently treats BlackRock as a nonbank subsidiary of The PNC Financial Services Group, Inc. ("PNC"), BlackRock may be required to conform its activities to the requirements of the Volcker Rule. On December 10, 2013, U.S. financial regulators adopted final regulations (the "Final Regulations") to implement the statutory mandate of the Volcker Rule. Pursuant to the Dodd-Frank Act, the Volcker Rule's effective date was July 21, 2012 and the Final Regulations become effective on April 14, 2014; however, concurrent with the adoption of the Final Regulations the Federal Reserve granted a statutorily permitted conformance period, essentially making the effective date of the Volcker Rule and the Final Regulations July 21, 2015. On December 18, 2014, the Federal Reserve granted an additional extension to the conformance period, giving banking entities until July 21, 2016 to comply with the Volcker Rule, in respect of investments in and relationships with certain funds that were in place prior to December 31, 2013 ("legacy covered funds and relationships"). The Federal Reserve also announced that, with respect to legacy covered funds and relationships, the Federal Reserve intends to grant a final one-year extension to the conformance period in 2015, which would give banking entities until July 21, 2017 to comply with the Volcker Rule. However, all investments in and relationships with funds covered by the Volcker Rule made after December 31, 2013 must be divested or restructured by July 21, 2015. The Volcker Rule and the Final Regulations could have a significant negative impact on BlackRock and the Investment Advisor. BlackRock may attempt to take certain actions to lessen the impact of the Volcker Rule, although no assurance can be given that such actions would be successful and no assurance can be given that such actions would not have a significant negative impact on the Acquiring Fund. Upon the end of the applicable conformance period, BlackRock's relationship with PNC may require BlackRock to curtail some or all of the Acquiring Fund's activities with respect to PNC (if any).

The continuing implementation of the Dodd-Frank Act could also adversely affect the Investment Advisor and the Acquiring Fund by increasing transaction and/or regulatory compliance costs. In addition, greater regulatory scrutiny and the implementation of enhanced and new regulatory requirements may increase the Investment Advisor's and the Acquiring Fund's exposure to potential liabilities, and in particular liabilities arising from violating any such enhanced and/or new regulatory requirements. Increased regulatory oversight could also impose administrative burdens on the Investment Advisor and the Acquiring Fund, including, without limitation, responding to investigations and implementing new policies and procedures. The ultimate impact of the Dodd-Frank Act, and any resulting regulation, is not yet certain and the Investment Advisor and the Acquiring Fund may be affected by the new legislation and regulation in ways that are currently unforeseeable.

In connection with an ongoing review by the SEC and its staff of the regulation of investment companies' use of derivatives, on August 31, 2011 the SEC issued a concept release to seek public comment on a wide range of issues raised by the use of derivatives by investment companies. The SEC noted that it intends to consider the comments to help determine whether regulatory initiatives or guidance are needed to improve the current regulatory regime for investment companies and, if so, the nature of any such initiatives or guidance. While the nature of any such regulations is uncertain at this time, it is possible that such regulations could limit the implementation of the Acquiring Fund's use of derivatives, which could have an adverse impact on the Acquiring

## **Table of Contents**

Fund. The Investment Advisor cannot predict the effects of these regulations on the Acquiring Fund's portfolio. The Investment Advisor intends to monitor developments and seek to manage the Acquiring Fund's portfolio in a manner consistent with achieving the Acquiring Fund's investment objective, but there can be no assurance that it will be successful in doing so.

Certain lawmakers support an increase in federal revenue as a component of a plan to address the growing federal budget deficit. Also, comprehensive federal tax reform is the subject of political attention.

In the aftermath of the recent financial crisis, there appears to be a renewed popular, political and judicial focus on finance related consumer protection. Financial institution practices are also subject to greater scrutiny and criticism generally. In the case of transactions between financial institutions and the general public, there may be a greater tendency toward strict interpretation of terms and legal rights in favor of the consuming public, particularly where there is a real or perceived disparity in risk allocation and/or where consumers are perceived as not having had an opportunity to exercise informed consent to the transaction. In the event of conflicting interests between retail investors holding common shares of a closed-end investment company such as the Acquiring Fund and a large financial institution, a court may similarly seek to strictly interpret terms and legal rights in favor of retail investors.

**Potential Conflicts of Interest of the Investment Advisor and Others.** BlackRock, the ultimate parent company of the Investment Advisor, and its affiliates, which include the Investment Advisor and PNC ( Affiliates ), are involved worldwide with a broad spectrum of financial services and asset management activities and may engage in the ordinary course of business in activities in which their interests or the interests of their clients may conflict with those of the Acquiring Fund. BlackRock and its Affiliates may provide investment management services to other funds and discretionary managed accounts that follow an investment program similar to that of the Acquiring Fund. Subject to the requirements of the 1940 Act, BlackRock and its Affiliates intend to engage in such activities and may receive compensation from third parties for their services. Neither BlackRock nor its Affiliates are under any obligation to share any investment opportunity, idea or strategy with the Acquiring Fund. As a result, BlackRock and its Affiliates may compete with the Acquiring Fund for appropriate investment opportunities. The results of the Acquiring Fund's investment activities, therefore, may differ from those of an Affiliate or another account managed by an Affiliate and it is possible that the Acquiring Fund could sustain losses during periods in which one or more Affiliates and other accounts achieve profits on their trading for proprietary or other accounts. The 1940 Act imposes limitations on certain transactions between a registered investment company and affiliated persons of the investment company, as well as affiliated persons of such affiliated persons. Among others, affiliated persons of an investment company include its investment adviser; officers; directors/trustees; any person who directly or indirectly controls, is controlled by or is under common control with such investment company; any person directly or indirectly owning, controlling or holding with power to vote, five percent or more of the outstanding voting securities of such investment company; and any person five percent or more of whose outstanding voting securities are directly or indirectly owned, controlled or held with power to vote by such investment company. BlackRock has adopted policies and procedures designed to address potential conflicts of interests. For additional information about potential conflicts of interest and the way in which BlackRock addresses such conflicts, please see Conflicts of Interest in the Statement of Additional Information.

**Market and Selection Risk.** Market risk is the possibility that the market values of securities owned by the Acquiring Fund will decline. There is a risk that equity and/or bond markets will go down in value, including the possibility that such markets will go down sharply and unpredictably. Stock markets are volatile, and the price of equity securities fluctuates based on changes in a company's financial condition and overall market and economic conditions. An adverse event, such as an unfavorable earnings report, may depress the value of a particular common stock held by the Acquiring Fund. Also, the price of common stocks is sensitive to general movements in the stock market and a drop in the stock market may depress the price of common stocks to which the Acquiring Fund has exposure. Common stock prices fluctuate for several reasons, including changes in investors' perceptions of the financial condition of an issuer or the general condition of the relevant stock market, or when political or economic events affecting the issuers occur.

## **Table of Contents**

Selection risk is the risk that the securities that the Investment Advisor selects for the Acquiring Fund will underperform the equity and/or bond market, the market relevant indices or other funds with a similar investment objective and investment strategies.

**Defensive Investing Risk.** For defensive purposes, the Acquiring Fund may allocate a substantial portion of its assets into cash or short-term tax-exempt or taxable fixed income securities. In doing so, the Acquiring Fund may succeed in avoiding losses but may otherwise fail to achieve its investment objective. Further, the value of short-term fixed income securities may be affected by changing interest rates and by changes in credit ratings of the investments. If the Acquiring Fund holds cash uninvested it will be subject to the credit risk of the depository institution holding the cash.

**Decision-Making Authority Risk.** Investors have no authority to make decisions or to exercise business discretion on behalf of the Acquiring Fund, except as set forth in the Acquiring Fund's governing documents. The authority for all such decisions is generally delegated to the Board, who in turn, has delegated the day-to-day management of its Fund's investment activities to the Investment Advisor, subject to oversight by the Board.

**Management Risk.** The Acquiring Fund is subject to management risk because it is an actively managed investment portfolio. The Investment Advisor and the individual portfolio managers will apply investment techniques and risk analyses in making investment decisions for the Acquiring Fund, but there can be no guarantee that these will produce the desired results. The Acquiring Fund may be subject to a relatively high level of management risk because the Acquiring Fund may invest in derivative instruments, which may be highly specialized instruments that require investment techniques and risk analyses different from those associated with equities and bonds.

**Reliance on the Investment Advisor.** The Acquiring Fund is dependent upon services and resources provided by the Investment Advisor, and therefore the Investment Advisor's parent, BlackRock. The Investment Advisor is not required to devote its full time to the business of the Acquiring Fund and there is no guarantee or requirement that any investment professional or other employee of the Investment Advisor will allocate a substantial portion of his or her time to the Acquiring Fund. The loss of one or more individuals involved with the Investment Advisor could have a material adverse effect on the performance or the continued operation of the Acquiring Fund.

**Reliance on Service Providers.** The Acquiring Fund must rely upon the performance of service providers to perform certain functions, which may include functions that are integral to the Acquiring Fund's operations and financial performance. Failure by any service provider to carry out its obligations to the Acquiring Fund in accordance with the terms of its appointment, to exercise due care and skill or to perform its obligations to the Acquiring Fund at all as a result of insolvency, bankruptcy or other causes could have a material adverse effect on the Acquiring Fund's performance and returns to common shareholders. The termination of the Acquiring Fund's relationship with any service provider, or any delay in appointing a replacement for such service provider, could materially disrupt the business of the Acquiring Fund and could have a material adverse effect on the Acquiring Fund's performance and returns to common shareholders.

**Information Technology Systems.** The Acquiring Fund is dependent on the Investment Advisor for certain management services as well as back-office functions. The Investment Advisor depends on information technology systems in order to assess investment opportunities, strategies and markets and to monitor and control risks for the Acquiring Fund. It is possible that a failure which causes disruptions to these information technology systems could materially limit the Investment Advisor's ability to adequately assess and adjust investments, formulate strategies and provide adequate risk control. Any such information technology-related difficulty could harm the performance of the Acquiring Fund. Further, failure of the back-office functions of the Investment Advisor to process trades in a timely fashion could prejudice the investment performance of the Acquiring Fund.

## **Table of Contents**

**Cyber Security Risk.** With the increased use of technologies such as the Internet to conduct business, the Acquiring Fund is susceptible to operational, information security and related risks. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber attacks include, but are not limited to, gaining unauthorized access to digital systems (e.g., through hacking or malicious software coding) for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (i.e., efforts to make network services unavailable to intended users). Cyber security failures or breaches by the Acquiring Fund's investment adviser and other service providers (including, but not limited to, fund accountants, custodians, transfer agents and administrators), and the issuers of securities in which the Acquiring Fund invests, have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Acquiring Fund's ability to calculate its net asset value, impediments to trading, the inability of Acquiring Fund shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs. In addition, substantial costs may be incurred in order to prevent any cyber incidents in the future. While the Acquiring Fund has established business continuity plans in the event of, and risk management systems to prevent, such cyber attacks, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Acquiring Fund cannot control the cyber security plans and systems put in place by service providers to the Acquiring Fund and issuers in which the Acquiring Fund invests. The Acquiring Fund and its shareholders could be negatively impacted as a result.

**Misconduct of Employees and of Service Providers.** Misconduct or misrepresentations by employees of the Investment Advisor or the Acquiring Fund's service providers could cause significant losses to the Acquiring Fund. Employee misconduct may include binding the Acquiring Fund to transactions that exceed authorized limits or present unacceptable risks and unauthorized trading activities, concealing unsuccessful trading activities (which, in any case, may result in unknown and unmanaged risks or losses) or making misrepresentations regarding any of the foregoing. Losses could also result from actions by the Acquiring Fund's service providers, including, without limitation, failing to recognize trades and misappropriating assets. In addition, employees and service providers may improperly use or disclose confidential information, which could result in litigation or serious financial harm, including limiting the Acquiring Fund's business prospects or future marketing activities. Despite the Investment Advisor's due diligence efforts, misconduct and intentional misrepresentations may be undetected or not fully comprehended, thereby potentially undermining the Investment Advisor's due diligence efforts. As a result, no assurances can be given that the due diligence performed by the Investment Advisor will identify or prevent any such misconduct.

**Inflation Risk.** Inflation risk is the risk that the value of assets or income from investment will be worth less in the future, as inflation decreases the value of money. As inflation increases, the real value of the Common Shares and distributions on those shares can decline. In addition, during any periods of rising inflation, interest rates on any borrowings by the Acquiring Fund would likely increase, which would tend to further reduce returns to the holders of Common Shares.

**Deflation Risk.** Deflation risk is the risk that prices throughout the economy decline over time, which may have an adverse effect on the market valuation of companies, their assets and their revenues. In addition, deflation may have an adverse effect on the creditworthiness of issuers and may make issuer default more likely, which may result in a decline in the value of the Acquiring Fund's portfolio.

**Portfolio Turnover Risk.** The Acquiring Fund's annual portfolio turnover rate may vary greatly from year to year, as well as within a given year. Portfolio turnover rate is not considered a limiting factor in the execution of investment decisions for the Acquiring Fund. A higher portfolio turnover rate results in correspondingly greater brokerage commissions and other transactional expenses that are borne by the Acquiring Fund. High portfolio turnover may result in an increased realization of net short-term capital gains by the Acquiring Fund which, when distributed to common and preferred shareholders, will be taxable as ordinary income. Additionally, in a declining market, portfolio turnover may create realized capital losses.

---

**Table of Contents**

**Anti-Takeover Provisions Risk.** The Acquiring Fund's charter, bylaws and the Maryland General Corporation Law include provisions that could limit the ability of other entities or persons to acquire control of the Acquiring Fund or convert the Acquiring Fund to open-end status. These provisions could deprive the holders of Common Shares of opportunities to sell their Common Shares at a premium over the then current market price of the Common Shares or at net asset value. See Certain Provisions of the Charter and Bylaws.

**INFORMATION ABOUT THE REORGANIZATION**

The Reorganization seeks to combine two funds that have the same investment advisor, the same portfolio managers, the same board members, and substantially identical investment objective, investment policies and investment restrictions.

**Description of the Reorganization**

The Reorganization Agreement (a form of which is attached as Appendix A to the Statement of Additional Information) provides for the Acquiring Fund's acquisition of substantially all of the assets of the Target Fund and assumption of substantially all of the liabilities of the Target Fund in exchange for newly issued Acquiring Fund Common Shares, with a par value \$0.10 per share, and newly issued Acquiring Fund VRDP Shares, with a par value of \$0.10 per share and liquidation preference of \$100,000 per share (plus any accumulated and unpaid dividends that have accrued on such Target Fund VRDP Share up to and including the day immediately preceding the Closing Date if such dividends have not been paid prior to the Closing Date). The Acquiring Fund will list the newly issued Common Shares on the NYSE. The Target Fund will distribute Acquiring Fund Shares received by it pro rata to Target Fund shareholders (although cash may be paid in lieu of any fractional Common Shares). The newly-issued Acquiring Fund Shares will be issued in the form of book entry interests. Such distribution of Acquiring Fund Shares to Target Fund shareholders will be accomplished by opening new accounts on the books of the Acquiring Fund in the names of the shareholders of the Target Fund and transferring to those shareholder accounts Acquiring Fund Shares.

Each newly-opened account on the books of Acquiring Fund for the former common shareholders of the Target Fund will represent the respective pro rata number of Acquiring Fund Common Shares (rounded down, in the case of fractional Common Shares held other than in an automatic dividend reinvestment plan account ( " Plan Account " ), to the next largest number of whole Common Shares) due such common shareholder. No fractional Acquiring Fund Common Shares will be issued (except for Common Shares held in a Plan Account). In the event there are fractional Common Shares in an account other than a Plan Account, the Acquiring Fund's transfer agent will aggregate all such fractional Target Fund Common Shares and sell the resulting whole Common Shares on the NYSE, for the account of all holders of such fractional interests, and each such holder will be entitled to the pro rata share of the proceeds from such sale upon surrender of the Target Fund Common Share certificates. See Terms of the Reorganization Agreement Surrender and Exchange of Share Certificates for a description of the procedures to be followed by the Target Fund's common shareholders to obtain their Acquiring Fund Common Shares (and cash in lieu of fractional Common Shares, if any). Similarly, each newly-opened account on the books of the Acquiring Fund for the Target Fund VRDP Holders would represent the respective pro rata number of Acquiring Fund VRDP Shares due such VRDP Holder.

As a result of the Reorganization, each common shareholder of the Target Fund will own Acquiring Fund Common Shares that (except for cash payments received in lieu of fractional Common Shares) will have an aggregate NAV (not the market value) immediately after the Closing Date equal to the aggregate NAV (not the market value) of that shareholder's Target Fund Common Shares immediately prior to the Closing Date. The NAV of the Target Fund and the Acquiring Fund immediately prior to the Closing Date will be reduced by the costs of the Reorganization borne by each Fund, if any. The value of each Fund's net assets will be calculated net of the liquidation preference (including accumulated and unpaid dividends) of all outstanding VRDP Shares of such Fund. The market value of the Common Shares of the Combined Fund may be less than the market value of

**Table of Contents**

the Common Shares of each respective Fund prior to the Reorganization. Since Acquiring Fund Common Shares will be issued at NAV in exchange for the Common Shares of the Target Fund having a value equal to the aggregate NAV (not the market value) of those Acquiring Fund Common Shares, the NAV per share of Acquiring Fund Common Shares should remain virtually unchanged by the Reorganization except for the Acquiring Fund's proportion of the applicable costs of the Reorganization. Thus, the Reorganization will result in no dilution of the NAV of Acquiring Fund Common Shares, other than to reflect the applicable costs of the Reorganization.

Upon the Closing Date, Target Fund VRDP Holders will receive on a one-for-one basis one newly issued Acquiring Fund VRDP Share, par value \$0.10 per share and with a liquidation preference of \$100,000 per share (plus any accumulated and unpaid dividends that have accrued on such Target Fund VRDP Share up to and including the day immediately preceding the Closing Date if such dividends have not been paid prior to the Closing Date), in exchange for each Target Fund VRDP Share held by such Target Fund VRDP Holder immediately prior to the Closing Date. The newly issued Acquiring Fund VRDP Share may be of the same series as the Acquiring Fund's Series W-7 VRDP Shares or a substantially identical series. No fractional Acquiring Fund VRDP Shares will be issued. Target Fund VRDP Holders will receive the same number of Acquiring Fund VRDP Shares, with terms substantially similar to the outstanding Target Fund VRDP Shares, held by such holders immediately prior to the Closing Date, with the only significant difference being that the Target Fund VRDP Shares have a mandatory redemption date of June 1, 2041 and the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041.
