CAPITAL SENIOR LIVING CORPORATION

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2015

1. BASIS OF PRESENTATION

Capital Senior Living Corporation, a Delaware corporation (together with its subsidiaries, the Company), is one of the largest operators of senior living communities in the United States in terms of resident capacity. The Company owns, operates and manages senior living communities in geographically concentrated regions throughout the United States. As of June 30, 2015, the Company operated 118 senior living communities in 24 states with an aggregate capacity of approximately 15,100 residents, including 68 senior living communities that the Company owned and 50 senior living communities that the Company leased. As of June 30, 2015, the Company also operated one home care agency. The accompanying consolidated financial statements include the financial statements of Capital Senior Living Corporation and its wholly owned subsidiaries. All material intercompany balances and transactions have been eliminated in consolidation. The Company accounted for significant investments in unconsolidated companies, in which the Company had significant influence, using the equity method of accounting.

The accompanying Consolidated Balance Sheet, as of December 31, 2014, has been derived from audited consolidated financial statements of the Company for the year ended December 31, 2014, and the accompanying unaudited consolidated financial statements, as of and for the three and six month periods ended June 30, 2015 and 2014, have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in the annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to those rules and regulations. For further information, refer to the financial statements and notes thereto for the year ended December 31, 2014, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 27, 2015.

In the opinion of the Company, the accompanying consolidated financial statements contain all adjustments (all of which were normal recurring accruals) necessary to present fairly the Company's financial position as of June 30, 2015, results of operations for the three and six month periods ended June 30, 2015 and 2014, and cash flows for the six month periods ended June 30, 2015 and 2014. The results of operations for the three and six month periods ended June 30, 2015, are not necessarily indicative of the results for the year ending December 31, 2015.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Assets Held for Sale

Assets are classified as held for sale when the Company has determined all of the held-for-sale criteria have been met. The Company determines the fair value, net of costs of disposal, of an asset on the date the asset is categorized as held for sale, and the asset is recorded at the lower of its fair value, net of cost of disposal, or carrying value on that date. The Company periodically reevaluates assets held for sale to determine if the assets are still recorded at the lower of fair value, net of cost of disposal, or carrying value. The fair values are generally determined based on market rates, industry trends and recent comparable sales transactions. The actual sales price of these assets could differ significantly from the Company's estimates.

During the fourth quarter of fiscal 2014, the Company classified four senior living communities as held for sale and determined the assets had an aggregate fair value, net of cost of disposal, that exceeded the carrying values, using level 2 inputs as defined in the accounting standards codification, and a remeasurement write-down of approximately \$0.6 million was recorded to adjust the carrying values of the assets held for sale to \$35.8 million at December 31, 2014. The four senior living communities were sold during the first quarter of fiscal 2015 in a single transaction for its carrying value. See further discussion at Note 4, Dispositions.

Table of Contents*Lease Accounting*

The Company determines whether to account for its leases as either operating, capital or financing leases depending on the underlying terms of each lease agreement. This determination of classification is complex and requires significant judgment relating to certain information including the estimated fair value and remaining economic life of the community, the Company's cost of funds, minimum lease payments and other lease terms. As of June 30, 2015, the Company leased 50 senior living communities, 48 of which the Company classified as operating leases and two of which the Company classified as capital lease and financing obligations. The Company incurs lease acquisition costs and amortizes these costs over the term of the respective lease agreement. Certain leases entered into by the Company qualified as sale/leaseback transactions, and as such, any related gains have been deferred and are being amortized over the respective lease term. Facility lease expense in the Company's Consolidated Statements of Operations and Comprehensive Loss includes rent expense plus amortization expense relating to leasehold acquisition costs slightly offset by the amortization of deferred gains and lease incentives. There are various financial covenants and other restrictions in the Company's lease agreements. The Company was in compliance with all of its lease covenants at June 30, 2015.

Credit Risk and Allowance for Doubtful Accounts

The Company's resident receivables are generally due within 30 days from the date billed. Accounts receivable are reported net of an allowance for doubtful accounts, and represent the Company's estimate of the amount that ultimately will be collected. The adequacy of the Company's allowance for doubtful accounts is reviewed on an ongoing basis, using historical payment trends, write-off experience, analyses of receivable portfolios by payor source and aging of receivables, as well as a review of specific accounts, and adjustments are made to the allowance as necessary. Credit losses on resident receivables have historically been within management's estimates, and management believes that the allowance for doubtful accounts adequately provides for expected losses.

Employee Health and Dental Benefits, Workers' Compensation, and Insurance Reserves

The Company offers certain full-time employees an option to participate in its health and dental plans. The Company is self-insured up to certain limits and is insured if claims in excess of these limits are incurred. The cost of employee health and dental benefits, net of employee contributions, is shared between the corporate office and the senior living communities based on the respective number of plan participants. Funds collected are used to pay the actual program costs including estimated annual claims, third-party administrative fees, network provider fees, communication costs, and other related administrative costs incurred by the plans. Claims are paid as they are submitted to the Company's third-party administrator. The Company records a liability for outstanding claims and claims that have been incurred but not yet reported. This liability is based on the historical claim reporting lag and payment trends of health insurance claims. Management believes that the liability for outstanding losses and expenses is adequate to cover the ultimate cost of losses and expenses incurred at June 30, 2015; however, actual claims and expenses may differ. Any subsequent changes in estimates are recorded in the period in which they are determined.

The Company uses a combination of insurance and self-insurance for workers' compensation. Determining the reserve for workers' compensation losses and costs that the Company has incurred as of the end of a reporting period involves significant judgments based on projected future events including potential settlements for pending claims, known incidents which may result in claims, estimates of incurred but not yet reported claims, changes in insurance premiums, estimated litigation costs and other factors. The Company regularly adjusts these estimates to reflect changes in the foregoing factors. However, since this reserve is based on estimates, the actual expenses incurred may differ from the amounts reserved. Any subsequent changes in estimates are recorded in the period in which they are determined.

Income Taxes

The effective tax rates for the first six month periods and second quarters of fiscal 2015 and 2014 differ from the statutory tax rates due to state income taxes, permanent tax differences, and changes in the deferred tax asset valuation allowance. The Company is impacted by the Texas Margin Tax (TMT), which effectively imposes tax on modified gross revenues for communities within the State of Texas. During the second quarter of fiscal 2015 the Company consolidated 37 Texas communities, and during the second quarter of fiscal 2014 the Company consolidated 36 Texas communities and the TMT increased the overall provision for income taxes.

Income taxes are computed using the asset and liability method and current income taxes are recorded based on amounts refundable or payable in the current year. Deferred income taxes are recorded based on the estimated future tax effects of loss carryforwards and temporary differences between financial statement carrying amounts of existing assets and liabilities and their respective tax basis.

Table of Contents

Deferred tax assets and liabilities are measured using enacted tax rates that are expected to apply to taxable income in the years in which we expect those carryforwards and temporary differences to be recovered or settled. Management regularly evaluates the future realization of deferred tax assets and provides a valuation allowance, if considered necessary, based on such evaluation. As part of the evaluation, management has evaluated taxable income in carryback years, future reversals of taxable temporary differences, feasible tax planning strategies, and future expectations of income. Based upon this analysis, an adjustment to the valuation allowance of \$1.9 million and \$3.7 million was recorded during the second quarters of fiscal 2015 and 2014, respectively, to increase the valuation allowance provided to \$21.6 million and \$14.2 million at June 30, 2015 and 2014, respectively, and reduce the Company's net deferred tax assets to the amount that is more likely than not to be realized. However, in the event that we were to determine that it would be more likely than not that the Company would realize the benefit of deferred tax assets in the future in excess of their net recorded amounts, adjustments to deferred tax assets would increase net income in the period such determination was made. Additionally, the benefits of the net deferred tax assets might not be realized if actual results differ from expectations.

The Company evaluates uncertain tax positions through consideration of accounting and reporting guidance on criteria, measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition that is intended to provide better financial-statement comparability among different companies. The Company is required to recognize a tax benefit in its financial statements for an uncertain tax position only if management's assessment is that such position is more likely than not (*i.e.*, a greater than 50% likelihood) to be upheld on audit based only on the technical merits of the tax position. The Company's policy is to recognize interest related to unrecognized tax benefits as interest expense and penalties as income tax expense. The Company is generally no longer subject to federal and state income tax audits for tax years prior to 2011.

Net Loss Per Share

Basic net loss per share is computed by dividing net loss remaining after allocation to unvested restricted shares by the weighted average number of common shares outstanding for the period. The calculation of diluted net loss per share excludes the net impact of unvested restricted shares and shares that could be issued under outstanding stock options as the effect would be anti-dilutive.

The following table sets forth the computation of basic and diluted net loss per common share (in thousands, except for per share amounts):

	Three Months		Six Months Ended

Awards of unvested restricted stock representing approximately 783,000 and 695,000 shares were outstanding for the three months ended June 30, 2015 and 2014, respectively, and awards of unvested restricted stock representing approximately 792,000 and 731,000 shares were outstanding for the six months ended June 30, 2015 and 2014, respectively, and all of such shares were included in the computation of allocable net loss.

Treasury Stock

The Company accounts for treasury stock under the cost method and includes treasury stock as a component of stockholders' equity.

Table of Contents*Recently Issued Accounting Guidance*

On April 7, 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-03, *Interest - Imputation of Interest- Simplifying the presentation of debt issuance costs (Subtopic 835-30)*. The amendments in ASU No. 2015-03 requires debt issuance costs related to a recognized debt liability to be presented on the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in ASU 2015-03. ASU 2015-03 requires retrospective application and will be effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early application is permitted. As of June 30, 2015, the Company had approximately \$6.6 million of debt issuance costs, net of accumulated amortization, which will be subject to this accounting standard and require reclassification on its Consolidated Balance Sheets.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*. ASU 2014-09 affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets. Under ASU 2014-09, an entity will recognize revenue when it transfers promised goods or services to customers in an amount that reflects what it expects in exchange for the goods or services. ASU 2014-09 is effective for annual periods beginning after December 15, 2017. The Company is currently evaluating the impact the adoption of ASU 2014-09 will have on the Company s consolidated financial statements and disclosures.

Reclassifications

Certain reclassifications have been made to prior period amounts to conform to current period presentation. The Company s Consolidated Statements of Cash Flows now reflect changes in deferred resident revenue separately from other components of deferred income. Accordingly, the Company reclassified changes in deferred resident revenue from changes in deferred income to a separate line item within the Consolidated Statements of Cash Flows for the six months ended June 30, 2014 to be consistent with the presentation for the six months ended June 30, 2015. This reclassification had no impact on net cash provided by operating activities.

3. ACQUISITIONS*Fiscal 2015*

Effective May 29, 2015, the Company closed the acquisition of one senior living community located in Oneonta, New York, for \$14.9 million (the Heritage Transaction). The community consists of 64 independent living units and 44 assisted living units. The Company incurred approximately \$0.2 million in transaction costs related to this acquisition which have been included in general and administrative expenses within the Company s Consolidated Statements of Operations and Comprehensive Loss. The Company obtained financing from Fannie Mae for approximately \$11.2 million of the acquisition price at a fixed rate of 4.79% with a 10-year term with the balance of the acquisition price paid from the Company s existing cash resources.

Effective May 21, 2015, the Company closed the acquisition of two senior living communities located in Hartford and West Bend, Wisconsin, for \$12.0 million (the Emerald Transaction). The communities consist of 79 assisted living units. The Company incurred approximately \$0.1 million in transaction costs related to this acquisition which have been included in general and administrative expenses within the Company s Consolidated Statements of Operations and Comprehensive Loss. The Company obtained financing from Fannie Mae for approximately \$9.2 million of the acquisition price at a fixed rate of 4.55% with a 10-year term with the balance of the acquisition price paid from the Company s existing cash resources.

Effective March 27, 2015, the Company closed the acquisition of one senior living community located in Baytown, Texas, for approximately \$29.6 million (the Baytown Transaction). The community consists of 9 independent living cottages and 120 assisted living units. The Company incurred approximately \$0.1 million in transaction costs related to this acquisition which have been included in general and administrative expenses within the Company's Consolidated Statements of Operations and Comprehensive Loss. The Company obtained financing from Protective Life Insurance Company (Protective Life) for approximately \$21.4 million of the acquisition price at a fixed interest rate of 3.55% with a 10-year term with the balance of the acquisition price paid from the Company's existing cash resources.

Table of Contents

Effective January 13, 2015, the Company closed the acquisition of one senior living community located in Green Bay, Wisconsin, for approximately \$18.3 million (the Green Bay Transaction). The community consists of 78 assisted living units. The Company incurred approximately \$0.1 million in transaction costs related to this acquisition which have been included in general and administrative expenses within the Company's Consolidated Statements of Operations and Comprehensive Loss. The Company obtained financing from Fannie Mae for approximately \$14.1 million of the acquisition price at a fixed interest rate of 4.35% with a 10-year term with the balance of the acquisition price paid from the Company's existing cash resources.

As a result of these acquisitions, for which the purchase accounting is preliminary as it is subject to final valuation adjustments, the Company recorded additions to property and equipment of approximately \$68.7 million and other assets, primarily consisting of in-place lease intangibles, of approximately \$6.1 million within the Company's Consolidated Balance Sheets which will be depreciated or amortized over the estimated useful lives.

Fiscal 2014

Effective December 17, 2014, the Company closed the acquisition of one senior living community located in Canton, Georgia, for approximately \$14.6 million (the Canton Transaction). The community consists of 49 assisted living units. The Company incurred approximately \$0.1 million in transaction costs related to this acquisition which have been included in general and administrative expenses within the Company's Consolidated Statements of Operations and Comprehensive Loss. The Company obtained financing from Fannie Mae for approximately \$10.4 million of the acquisition price at a fixed interest rate of 4.50% with a 10-year term, with the balance of the acquisition price paid from the Company's existing cash resources.

Effective August 27, 2014, the Company closed the acquisition of one senior living community located in Plymouth, Wisconsin, for \$13.5 million (the Plymouth Transaction). The community consists of 69 assisted living units. The Company incurred approximately \$0.1 million in transaction costs related to this acquisition which have been included in general and administrative expenses within the Company's Consolidated Statements of Operations and Comprehensive Loss. The Company obtained financing from Fannie Mae for approximately \$10.4 million of the acquisition price at a fixed interest rate of 4.70% with a 10-year term with the balance of the acquisition price paid from the Company's existing cash resources.

Effective August 4, 2014, the Company closed the acquisition of one senior living community located in Roanoke, Virginia, for approximately \$16.8 million (the Roanoke Transaction). The community consists of 60 assisted living units and 34 independent living units. The Company incurred approximately \$0.2 million in transaction costs related to this acquisition which have been included in general and administrative expenses within the Company's Consolidated Statements of Operations and Comprehensive Loss. The Company obtained financing from Fannie Mae for approximately \$12.9 million of the acquisition price at a fixed interest rate of 4.59% with a 10-year term with the balance of the acquisition price paid from the Company's existing cash resources.

Effective August 4, 2014, the Company closed the acquisition of one senior living community located in Oshkosh, Wisconsin, for approximately \$17.1 million (the Oshkosh Transaction). The community consists of 90 assisted living units. The Company incurred approximately \$0.1 million in transaction costs related to this acquisition which have been included in general and administrative expenses within the Company's Consolidated Statements of Operations and Comprehensive Loss. The Company obtained financing from Fannie Mae for approximately \$13.2 million of the acquisition price at a fixed interest rate of 4.59% with a 10-year term with the balance of the acquisition price paid from the Company's existing cash resources.

Effective June 30, 2014, the Company acquired 100% of the members' equity interests in SHPIII/CSL Miami, LLC (SHPIII/CSL Miami), SHPIII/CSL Richmond Heights, LLC (SHPIII/CSL Richmond Heights), and SHPIII/CSL Levis Commons, LLC (SHPIII/CSL Levis Commons) for approximately \$83.6 million (the SHPIII/CSL Transaction). Prior to the acquisition, Senior Housing Partners III (SHP III), a fund managed by Prudential Investment maintained a 90% equity interest in each joint venture with the remaining 10% equity interest in each joint venture held by wholly owned subsidiaries of the Company. Based on the Company acquiring the remaining ownership interests of the joint ventures, the Company concluded the acquisition took the form of a step-acquisition or a business combination achieved in stages. Further, with the Company obtaining complete ownership of the joint ventures, the act of obtaining control triggered the application of the acquisition model in Accounting Standards Codification (ASC) 805, *Business Combinations*, which resulted in the equity ownership interest being remeasured at fair value and the acquired assets and assumed liabilities measured at their full fair values. The remeasurement fair value of the equity interests was determined based on the cash proceeds, including incentive distributions, received by the Company in accordance with each respective joint venture partnership agreement. Accordingly, the Company received cash proceeds of approximately \$2.5 million and recognized a gain of approximately \$1.5 million during the second quarter of fiscal 2014 which was reflected as a joint venture equity investment valuation gain within the Company's Consolidated Statements of Operations and Comprehensive Loss.

Table of Contents

On June 30, 2014, in conjunction with the SHPIII/CSL Transaction, the Company obtained approximately \$16.4 million of mortgage debt from Fannie Mae for the acquisition of SHPIII/CSL Miami. The mortgage loan has a 10-year term with a fixed interest rate of 4.30% and the principal amortized over a 30-year term. The Company also obtained approximately \$23.7 million of mortgage debt from Fannie Mae for the acquisition of SHPIII/CSL Richmond Heights. The mortgage loan has a 10-year term with a fixed interest rate of 4.48% and the principal amortized over a 30-year term. The Company obtained interim, interest only, financing of \$21.6 million from Wells Fargo Bank, N.A. (Wells Fargo) for the acquisition of SHPIII/CSL Levis Commons with a variable interest rate of LIBOR plus 2.75% and a 24-month term. The balance of the acquisition price was paid from the Company's existing cash resources. The Company incurred approximately \$0.3 million in transaction costs related to this acquisition which have been included in general and administrative expenses within the Company's Consolidated Statements of Operations and Comprehensive Loss.

Effective March 26, 2014, the Company closed the acquisition of one senior living community located in Lambertville, Michigan, for \$14.6 million (the Aspen Grove Transaction). The community consists of 78 assisted living units. The Company incurred approximately \$0.2 million in transaction costs related to this acquisition which have been included in general and administrative expenses within the Company's Consolidated Statements of Operations and Comprehensive Loss. The Company obtained financing from Fannie Mae for \$11.0 million of the acquisition price at a fixed interest rate of 5.43% with a 12-year term with the balance of the acquisition price paid from the Company's existing cash resources.

As a result of these acquisitions, during fiscal 2014 the Company recorded additions to property and equipment of approximately \$146.1 million and other assets of approximately \$14.1 million, primarily consisting of in-place lease intangibles, within the Company's Consolidated Balance Sheets which will be depreciated or amortized over the estimated useful lives. The purchase accounting for the Canton Transaction which closed during the fourth quarter of fiscal 2014, was preliminary as it was subject to final valuation adjustments. During the first quarter of fiscal 2015, final valuation adjustments resulted in the Company reclassifying approximately \$0.4 million from other assets to property and equipment and the 2014 Consolidated Balance Sheet has been recast to reflect the final purchase price allocation.

4. DISPOSITIONS

Effective January 22, 2015, the Company closed a transaction to sell four of its senior living communities located in Oklahoma City, OK, Shreveport, LA, Southfield, MI, and Winston-Salem, NC, in a single transaction for approximately \$36.5 million (the Four Property Sale Transaction). As a result of the sale, the outstanding mortgage debt on the Company's senior living communities located in Oklahoma City and Shreveport was repaid without incurring any prepayment penalties as these notes were short-term, bridge loan interim financing. However, the mortgage loan associated with the Company's senior living community located in Winston-Salem could not be prepaid under the existing loan agreement as it did not offer a prepayment provision. Additionally, this mortgage loan was cross-collateralized with another mortgage loan on one of the Company's senior living communities located in Peoria, IL, which also did not offer a prepayment provision. Therefore, the Company determined it would defease the Winston-Salem and Peoria mortgage loans by acquiring certain treasury securities to serve as collateral for the outstanding principal balance as of the date of the sale until the note matures on September 1, 2015. The Company contracted with a third party trust to assume the mortgage debt and assigned all of its rights to the treasury securities to serve as collateral until the balance remaining comes due. Based on this structure, the Company concluded it met the requirements to report the debt transaction as a legal defeasance which resulted in the Company removing the respective assets and liabilities from its Consolidated Balance Sheet during the first quarter of fiscal 2015 when the transaction closed. The Company had reported these assets as held for sale at December 31, 2014, and recorded a remeasurement write-down of \$0.6 million to adjust the carrying values of these assets to the sales price, less costs to

sale. As a result of the sale, the Company received net proceeds of approximately \$35.7 million.

5. DEBT TRANSACTIONS

On May 31, 2015, the Company renewed certain insurance policies and entered into a finance agreement totaling approximately \$1.7 million. The finance agreement has a fixed interest rate of 1.73% with the principal being repaid over an 11-month term.

On May 29, 2015, in conjunction with the Heritage Transaction, the Company obtained approximately \$11.2 million of mortgage debt from Fannie Mae. The new mortgage loan has a 10-year term with a 4.79% fixed interest rate and the principal amortized over a 30-year term. The Company incurred approximately \$0.2 million in deferred financing costs related to this loan, which are being amortized over 10 years.

Table of Contents

On May 21, 2015, in conjunction with the Emerald Transaction, the Company obtained approximately \$9.2 million of mortgage debt from Fannie Mae. The new mortgage loan has a 10-year term with a 4.55% fixed interest rate and the principal amortized over a 30-year term. The Company incurred approximately \$0.2 million in deferred financing costs related to this loan, which are being amortized over 10 years.

On March 27, 2015, in conjunction with the Baytown Transaction, the Company obtained approximately \$21.4 million of mortgage debt from Protective Life. The new mortgage loan has a 10-year term with a 3.55% fixed interest rate and the principal amortized over a 30-year term. The Company incurred approximately \$0.2 million in deferred financing costs related to this loan, which are being amortized over 10 years.

On March 5, 2015, the Company refinanced an interim, interest only variable rate mortgage loan totaling approximately \$21.6 million from Wells Fargo on one of its senior living communities located in Toledo, Ohio. The Company obtained approximately \$21.8 million of mortgage debt from Fannie Mae to replace the Wells Fargo interim financing. This new mortgage loan has a 10-year term with a fixed interest rate of 3.84% and the principal amortized over 30-years. The Company incurred approximately \$0.2 million in deferred financing costs related to this loan, which are being amortized over the loan term. As a result of the refinance, the Company received approximately \$0.2 million in cash proceeds. Due to the early repayment, the Company accelerated the amortization of approximately \$79,000 in unamortized deferred financing costs and incurred additional prepayment fees totaling approximately \$55,000.

On February 17, 2015, the Company obtained new permanent mortgage financing totaling approximately \$23.2 million from Fannie Mae on one of its owned senior living communities located in Peoria, Illinois. The new financing replaced a mortgage loan previously scheduled to mature on September 1, 2015, which was defeased by the Company on January 21, 2015, in conjunction with the Four Property Sale Transaction. This new mortgage loan has a 10-year term with a fixed interest rate of 3.85% and the principal amortized over 30 years. The Company incurred approximately \$0.2 million in deferred financing costs related to this loan, which are being amortized over the loan term. As a result of the Peoria financing, the Company repaid existing mortgage debt on two owned properties totaling approximately \$14.1 million. Due to the early repayment and the Four Property Sale Transaction, the Company accelerated the amortization of approximately \$0.2 million in unamortized deferred financing costs and incurred additional prepayment fees totaling approximately \$0.5 million.

On January 13, 2015, in conjunction with the Green Bay Transaction, the Company obtained approximately \$14.1 million of mortgage debt from Fannie Mae. The new mortgage loan has a 10-year term with a 4.35% fixed interest rate and the principal amortized over a 30-year term. The Company incurred approximately \$0.1 million in deferred financing costs related to this loan, which are being amortized over 10 years.

On March 25, 2011, the Company issued standby letters of credit, totaling approximately \$2.6 million, for the benefit of Health Care REIT, Inc. (HCN) on certain leases between HCN and the Company.

On September 10, 2010, the Company issued standby letters of credit, totaling approximately \$2.2 million, for the benefit of HCN on certain leases between HCN and the Company.

On April 16, 2010, the Company issued standby letters of credit, totaling approximately \$1.7 million, for the benefit of HCN on certain leases between HCN and the Company.

The senior housing communities owned by the Company and encumbered by mortgage debt are provided as collateral under their respective loan agreements. At June 30, 2015 and December 31, 2014, these communities carried a total net book value of approximately \$749.5 million and \$732.5 million, respectively, with total mortgage loans

outstanding of approximately \$679.8 million and \$642.5 million, respectively.

In connection with the Company's loan commitments described above, the Company incurred financing charges that were deferred and amortized over the terms of the respective notes. At June 30, 2015 and December 31, 2014, the Company had gross deferred loan costs of approximately \$8.9 million and \$8.5 million, respectively. Accumulated amortization was approximately \$2.3 million and \$2.4 million at June 30, 2015 and December 31, 2014, respectively.

6. EQUITY

Preferred Stock

The Company is authorized to issue preferred stock in series and to fix and state the voting powers and such designations, preferences and relative participating, optional or other special rights of the shares of each such series and the qualifications, limitations and restrictions thereof. Such action may be taken by the Company's board of directors without stockholder approval. The rights, preferences and privileges of holders of common stock are subject to the rights of the holders of preferred stock. No preferred stock was outstanding as of June 30, 2015 and December 31, 2014.

Share Repurchases

On January 22, 2009, the Company's board of directors approved a share repurchase program that authorized the Company to purchase up to \$10.0 million of the Company's common stock. Purchases may be made from time to time using a variety of methods, which may include open market purchases, privately negotiated transactions or block trades, or by any combination of such methods, in accordance with applicable insider trading and other securities laws and regulations. The size, scope and timing of any purchases will be based on business, market and other conditions and factors, including price, regulatory and contractual requirements or consents, and capital availability. The repurchase program does not obligate the Company to acquire any particular amount of common stock and the share repurchase authorization has no stated expiration date. Shares of stock repurchased under the program will be held as treasury shares. Pursuant to this authorization, during fiscal 2009, the Company purchased 349,800 shares at an average cost of \$2.67 per share for a total cost to the Company of approximately \$0.9 million. All such purchases were made in open market transactions. The Company has not purchased any additional shares of its common stock pursuant to the Company's share repurchase program subsequent to fiscal 2009.

7. STOCK-BASED COMPENSATION

The Company recognizes compensation expense for share-based stock awards to certain employees and directors, including grants of employee stock options and awards of restricted stock, in the Company's Consolidated Statements of Operations and Comprehensive Loss based on their fair values.

On May 8, 2007, the Company's stockholders approved the 2007 Omnibus Stock and Incentive Plan for Capital Senior Living Corporation (as amended, the 2007 Plan), which provides for, among other things, the grant of restricted stock awards and stock options to purchase shares of the Company's common stock. The 2007 Plan authorizes the Company to issue up to 4.6 million shares of common stock and the Company has reserved shares of common stock for future issuance pursuant to awards under the 2007 Plan. Effective May 8, 2007, the 1997 Omnibus Stock and Incentive Plan (as amended, the 1997 Plan) was terminated and no additional shares will be granted under the 1997 Plan. The Company has reserved shares of common stock for future issuance upon the exercise of stock options that remain outstanding pursuant to the 1997 Plan.

Stock Options

Although the Company has not granted stock options in recent years, the Company's stock option program is a long-term retention program that is intended to attract, retain and provide incentives for employees, officers and directors and to more closely align stockholder interests with those of our employees and directors. The Company's stock options generally vest over a period of one to five years and the related expense is amortized on a straight-line basis over the vesting period.

Edgar Filing: CAPITAL SENIOR LIVING CORP - Form 10-Q

A summary of the Company's stock option activity and related information for the six month period ended June 30, 2015, is presented below:

	Outstanding at Beginning of Period	Granted	Exercised	Forfeited	Outstanding at End of Period	Options Exercisable
Shares	6,000		3,000		3,000	3,000
Weighted average exercise price per share	\$ 8.44	\$	\$ 5.90	\$	\$ 10.97	\$ 10.97

The options outstanding and the options exercisable at June 30, 2015, each had an intrinsic value of approximately \$40,600.

Table of Contents*Restricted Stock*

The Company may grant restricted stock awards to certain employees, officers, and directors in order to attract, retain, and provide incentives for such individuals and to more closely align stockholder and employee interests. For restricted stock awards without performance-based vesting conditions, the Company records compensation expense for the entire award on a straight-line basis over the requisite service period, which is generally a period of one to four years unless the award is subject to certain accelerated vesting requirements, but such awards are considered outstanding at the time of grant since the holders thereof are entitled to dividends and voting rights. For restricted stock awards with performance-based vesting conditions, total compensation expense is recognized over the requisite service period for each separately vesting tranche of the award as if the award is, in substance, multiple awards once the performance target is deemed probable of achievement. Performance goals are evaluated periodically, and if such goals are not ultimately met or it is not probable the goals will be achieved, no compensation expense is recognized and any previously recognized compensation expense is reversed.

The Company recognizes compensation expense of a restricted stock award over its respective vesting or performance period based on the fair value of the award on the grant date, net of forfeitures. A summary of the Company's restricted stock awards activity and related information for the six month period ended June 30, 2015, is presented below:

	Outstanding at Beginning of Period	Granted	Vested	Forfeited/Cancelled	Outstanding at End of Period
Shares	702,718	415,817	322,867	12,983	782,685

The restricted stock outstanding at June 30, 2015 had an intrinsic value of approximately \$19.2 million.

During the six months ended June 30, 2015, the Company awarded 415,817 shares of restricted common stock to certain employees and directors of the Company, of which 130,000 shares were subject to performance-based vesting conditions. The average market value of the common stock on the date of grant was \$24.33. These awards of restricted shares vest over a one to four-year period and had an intrinsic value of approximately \$10.1 million on the date of grant.

Additionally, during the three months ended June 30, 2015, the Company awarded 11,756 restricted stock units to certain directors of the Company with an average market value of \$25.52 on the date of grant that vest over a one-year period.

Stock-Based Compensation

The Company uses the Black-Scholes option pricing model to estimate the grant date fair value of its stock options. The Black-Scholes model requires the input of certain assumptions including expected volatility, expected dividend yield, expected life of the option and the risk free interest rate. The expected volatility used by the Company is based primarily on an analysis of historical prices of the Company's common stock. The expected term of options granted is based primarily on historical exercise and vesting patterns on the Company's outstanding stock options. The risk free rate is based on zero-coupon U.S. Treasury yields in effect at the date of grant with the same period as the expected option life. The Company does not currently plan to pay dividends on its common stock and therefore has used a dividend yield of zero in determining the fair value of its awards. The option forfeiture rate assumption used by the Company, which affects the expense recognized as opposed to the fair value of the awards, is based primarily on the Company's historical option forfeiture patterns. The Company issued no stock options during each of the first six

months of fiscal 2015 and 2014.

The Company has total stock-based compensation expense, including estimated forfeitures, of \$12.2 million, which was not recognized as of June 30, 2015, and expects this expense to be recognized over approximately a one-year period for performance stock awards and a one to four-year period for nonperformance stock awards.

8. CONTINGENCIES

The Company has claims incurred in the normal course of its business. Most of these claims are believed by management to be covered by insurance, subject to normal reservations of rights by the insurance companies and possibly subject to certain exclusions in the applicable insurance policies. Whether or not covered by insurance, these claims, in the opinion of management, based on advice of legal counsel, should not have a material effect on the consolidated financial statements of the Company if determined adversely to the Company.

Table of Contents**9. FAIR VALUE OF FINANCIAL INSTRUMENTS**

The carrying amounts and fair values of financial instruments at June 30, 2015, and December 31, 2014, are as follows (in thousands):

	2015		2014	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash and cash equivalents	\$ 39,403	\$ 39,403	\$ 39,209	\$ 39,209
Restricted cash	12,251	12,251	12,241	12,241
Notes payable	683,194	661,219	646,600	647,449

The following methods and assumptions were used in estimating the Company's fair value disclosures for financial instruments:

Cash and cash equivalents and Restricted cash: The carrying amounts reported in the Company's Consolidated Balance Sheets for cash and cash equivalents and restricted cash approximate fair value, which represent level 1 inputs as defined in the accounting standards codification.

Notes payable: The fair value of notes payable is estimated using discounted cash flow analysis, based on current incremental borrowing rates for similar types of borrowing arrangements, which represent level 2 inputs as defined in the accounting standards codification.

10. SUBSEQUENT EVENTS

Effective July 28, 2015, the Company closed the acquisition of one senior living community located in Columbiana, Ohio, for approximately \$13.3 million. The community consists of 68 assisted living units. The Company obtained financing from Protective Life for approximately \$9.9 million of the acquisition price at a fixed rate of 4.25% with a 10-year term with the balance of the acquisition price paid from the Company's existing cash resources. The Company has not yet completed its initial purchase price allocation for this transaction.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Certain information contained in this report constitutes Forward-Looking Statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which can be identified by the use of forward-looking terminology such as may, will, would, intend, could, believe, expect, anticipate, estimate or continue or the negative thereof or other variations thereon or comparable terminology. The Company cautions readers that forward-looking statements, including, without limitation, those relating to the Company's future business prospects, revenues, working capital, liquidity, capital needs, interest costs, and income, are subject to certain risks and uncertainties that could cause actual results to differ materially from those indicated in the forward-looking statements, due to several important factors herein identified. These factors include the Company's ability to find suitable acquisition properties at favorable terms, financing, licensing, business conditions, risks of downturn in economic conditions generally, satisfaction of closing conditions such as those pertaining to licensure, availability of insurance at commercially reasonable rates, and changes in accounting principles and interpretations, among others, and other risks and factors identified from time to time in the Company's reports filed with the Securities and Exchange Commission (SEC).

Overview

The following discussion and analysis addresses (i) the Company's results of operations for the three and six month periods ended June 30, 2015 and 2014, and (ii) liquidity and capital resources of the Company, and should be read in conjunction with the Company's consolidated financial statements contained elsewhere in this report and the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

The Company is one of the largest operators of senior living communities in the United States in terms of resident capacity. The Company's operating strategy is to provide value to its senior living residents by providing quality senior living services at reasonable prices, while achieving and sustaining a strong, competitive position within its geographically concentrated regions, as well as to continue to enhance the performance of its operations. Many of the Company's communities offer a continuum of care to meet its residents' needs as they change over time. This continuum of care, which integrates independent living and assisted living and is bridged by home care through independent home care agencies or the Company's home care agency, sustains residents' autonomy and independence based on their physical and mental abilities.

As of June 30, 2015, the Company operated 118 senior living communities in 24 states with an aggregate capacity of approximately 15,100 residents, including 68 senior living communities that the Company owned and 50 senior living communities that the Company leased. As of June 30, 2015, the Company also operated one home care agency.

Significant Financial and Operational Highlights

The Company primarily derives its revenue by providing senior living and healthcare services to the elderly. When comparing the second quarter of fiscal 2015 to the second quarter of fiscal 2014, the Company generated total revenues of approximately \$101.6 million compared to total revenues of approximately \$93.4 million, respectively, representing an increase of approximately \$8.2 million, or 8.7%. The increase in revenues primarily results from the senior living communities acquired by the Company subsequent to the second quarter of fiscal 2014.

The weighted average financial occupancy rate for our consolidated communities for the second quarters of fiscal 2015 and 2014 was 87.7% and 86.7%, respectively. In addition to the increase in consolidated occupancies, we experienced an increase in average monthly rental rates for our consolidated communities of 4.3% when comparing

the second quarter of fiscal 2015 to the second quarter of fiscal 2014. On a same-store basis, the weighted average financial occupancy rate for our consolidated communities for the second quarters of fiscal 2015 and 2014 was 87.4% and 86.7%, respectively. We also experienced an increase in average monthly rental rates for our consolidated same-store communities of 3.2% when comparing the second quarter of fiscal 2015 to the second quarter of fiscal 2014.

Effective May 29, 2015, the Company closed the Heritage Transaction for \$14.9 million. The community consists of 64 independent living units and 44 assisted living units. The Company obtained financing from Fannie Mae for approximately \$11.2 million of the acquisition price at a fixed rate of 4.79% with a 10-year term with the balance of the acquisition price paid from the Company's existing cash resources.

Table of Contents

Effective May 21, 2015, the Company closed the Emerald Transaction for \$12.0 million. The communities consist of 79 assisted living units. The Company obtained financing from Fannie Mae for approximately \$9.2 million of the acquisition price at a fixed rate of 4.55% with a 10-year term with the balance of the acquisition price paid from the Company's existing cash resources.

Effective March 27, 2015, the Company closed the Baytown Transaction for approximately \$29.6 million. The community consists of 9 independent living cottages and 120 assisted living units. The Company obtained financing from Protective Life for approximately \$21.4 million of the acquisition price at a fixed interest rate of 3.55% with a 10-year term with the balance of the acquisition price paid from the Company's existing cash resources.

On March 5, 2015, the Company refinanced an interim, interest only variable rate mortgage loan totaling approximately \$21.6 million from Wells Fargo on one of its senior living communities located in Toledo, Ohio. The Company obtained approximately \$21.8 million of mortgage debt from Fannie Mae to replace the Wells Fargo interim financing. This new mortgage loan has a 10-year term with a fixed interest rate of 3.84% and the principal amortized over 30-years.

On February 17, 2015, the Company obtained new permanent mortgage financing totaling approximately \$23.2 million from Fannie Mae on one of its owned senior living communities located in Peoria, Illinois. The new financing replaced a mortgage loan previously scheduled to mature on September 1, 2015, which was defeased by the Company on January 21, 2015, in conjunction with the Four Property Sale Transaction. This new mortgage loan has a 10-year term with a fixed interest rate of 3.85% and the principal amortized over 30 years. As a result of the Peoria financing, the Company repaid existing mortgage debt on two owned properties totaling approximately \$14.1 million.

Effective January 22, 2015, the Company closed the Four Property Sale Transaction for approximately \$36.5 million. As a result of the sale, the outstanding mortgage debt on the Company's senior living communities located in Oklahoma City and Shreveport was repaid without incurring any prepayment penalties as these notes were short-term, bridge loan interim financing. However, the mortgage loan associated with the Company's senior living community located in Winston-Salem could not be prepaid under the existing loan agreement as it did not offer a prepayment provision. Therefore, the Company determined it would defease the mortgage loan by acquiring certain treasury securities to serve as collateral for the outstanding principal balance as of the date of the sale until the note matures on September 1, 2015. The Company contracted with a third party trust to assume the mortgage debt and assigned all of its rights to the treasury securities to serve as collateral until the balance remaining comes due. Based on this structure, the Company concluded it met the requirements to report the debt transaction as a legal defeasance which resulted in the Company removing the respective assets and liabilities from its Consolidated Balance Sheet during the first quarter of fiscal 2015 when the transaction closed. As a result of the sale, the Company received net proceeds of approximately \$35.7 million.

Effective January 13, 2015, the Company closed the Green Bay Transaction for approximately \$18.3 million. The community consists of 78 assisted living units. The Company incurred approximately \$0.1 million in transaction costs related to this acquisition which have been included in general and administrative expenses within the Company's Consolidated Statements of Operations and Comprehensive Loss. The Company obtained financing from Fannie Mae for approximately \$14.1 million of the acquisition price at a fixed interest rate of 4.35% with a 10-year term with the balance of the acquisition price paid from the Company's existing cash resources.

Table of Contents**Facility Lease Transactions**

The Company currently leases 50 senior living communities from certain real estate investment trusts (REITs), 48 of which are accounted for as operating leases and two of which are accounted for as capital lease and financing obligations. The lease terms are generally for 10-15 years with renewal options for 5-20 years at the Company's option. Under these agreements, the Company is responsible for all operating costs, maintenance and repairs, insurance and property taxes. The following table summarizes each of the Company's facility lease agreements as of June 30, 2015 (dollars in millions):

- (1) Initial lease rates are measured against agreed upon fair market values and are subject to conditional lease escalation provisions as set forth in each respective lease agreement.
- (2) Lease acquisition and modification costs are being amortized over the respective lease terms.
- (3) Deferred gains of \$34.9 million and lease concessions of \$2.6 million are being recognized in the Company's Consolidated Statements of Operations and Comprehensive Loss as a reduction in facility lease expense over the respective initial lease term. Lease concessions of \$0.6 million relate to the lease transaction with HCP, Inc. (HCP) on May 31, 2006, and of \$2.0 million relate to the lease transaction with HCN on September 10, 2010.
- (4) Effective June 27, 2012, the Company executed a lease amendment with Ventas, Inc. (Ventas). All of the leased communities in the Ventas lease portfolio were modified to be coterminous expiring on September 30, 2020, with two 5-year renewal extensions available at the Company's option.
- (5) On November 11, 2013, the Company executed a third amendment to the master lease agreement associated with nine of its leases with HCP to facilitate a \$3.3 million capital improvement project and extend the respective lease terms through October 31, 2020.
- (6) On April 24, 2015, the Company exercised its right to extend the lease term with HCP through April 30, 2026, with one 10-year renewal extension remaining available at the Company's option.

Facility lease expense in the Company's Consolidated Statements of Operations and Comprehensive Loss includes rent expense plus amortization expense relating to leasehold acquisition costs slightly offset by the amortization of deferred gains and lease incentives. There are various financial covenants and other restrictions in the Company's lease agreements. The Company was in compliance with all of its lease covenants at June 30, 2015 and December 31, 2014.

Recent Accounting Developments

On April 7, 2015, the FASB issued ASU 2015-03, *Interest - Imputation of Interest- Simplifying the presentation of debt issuance costs (Subtopic 835-30)*. The amendments in ASU No. 2015-03 requires debt issuance costs related to a recognized debt liability to be presented on the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in ASU 2015-03. ASU 2015-03 requires retrospective application and will be effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early application is permitted. As of June 30, 2015, the Company had approximately \$6.6 million of debt issuance costs, net of accumulated amortization, which will be subject to this accounting standard and require reclassification on its Consolidated Balance Sheets.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*. ASU 2014-09 affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets. Under ASU 2014-09, an entity will recognize revenue when it transfers promised goods or services to customers in an amount that reflects what it expects in exchange for the goods or services. ASU 2014-09 is effective for annual periods beginning after December 15, 2017. The Company is currently evaluating the impact the adoption of ASU 2014-09 will have on the Company's consolidated financial statements and disclosures.
