## The Markets in Review

Dear Shareholder,

Diverging monetary policies and shifting economic outlooks between regions were the broader themes underlying market conditions during the 12-month period ended August 31, 2015. The period began with investors caught between the forces of low interest rates and an improving U.S. economy, high asset valuations, oil price instability and lingering geopolitical risks in Ukraine and the Middle East. U.S. growth picked up considerably in the fourth quarter of 2014, while the broader global economy showed signs of slowing. Investors favored the stability of U.S. assets despite expectations that the Federal Reserve ( Fed ) would eventually be inclined to raise short-term interest rates. International markets continued to struggle even as the European Central Bank and the Bank of Japan eased monetary policy. Oil prices plummeted in late 2014 due to a global supply-and-demand imbalance, sparking a sell-off in energy-related assets and emerging markets. Investors piled into U.S. Treasury bonds as their persistently low yields had become attractive as compared to the even lower yields on international sovereign debt.

Equity markets reversed in early 2015, with international markets outperforming the United States as global risks abated. Investors had held high expectations for the U.S. economy, but a harsh winter and west coast port strike brought disappointing first-quarter data and high valuations took their toll on U.S. stocks, while bond yields fell to extreme lows. (Bond prices rise as yields fall.) In contrast, economic reports in Europe and Asia easily beat investors' very low expectations, and accommodative policies from central banks in those regions helped international equities rebound. Oil prices stabilized, providing some relief for emerging market stocks, although a stronger U.S. dollar continued to be a headwind for the asset class.

U.S. economic data regained momentum in the second quarter, helping U.S. stocks resume an upward path; however, the improving data underscored the likelihood that the Fed would raise short-term rates before the end of 2015 and bond yields moved swiftly higher. The month of June brought a sharp, but temporary, sell-off across most asset classes as Greece's long-brewing debt troubles came to an impasse. Although these concerns abated in the later part of July when the Greek parliament passed a series of austerity and reform measures, the calm was short-lived. Chinese equity prices plunged and experienced extreme volatility despite policymakers' attempts to stabilize the market. Financial markets broadly were highly volatile during the month of August as evidence of a further deceleration in China's economy stoked worries about global growth. Equity and high yield assets declined, with emerging markets especially hard hit given falling commodity prices and lower growth estimates for many of those economies. High quality fixed income assets such as U.S. Treasury and municipal bonds benefited from investors seeking shelter from global volatility.

At BlackRock, we believe investors need to think globally, extend their scope across a broad array of asset classes and be prepared to move freely as market conditions change over time. We encourage you to talk with your financial advisor and visit [blackrock.com](http://blackrock.com) for further insight about investing in today's markets.

Sincerely,

Rob Kapito

## Fund Summary as of August 31, 2015

## BlackRock Defined Opportunity Credit Trust

## Fund Overview

BlackRock Defined Opportunity Credit Trust's (BHL) (the Fund) primary investment objective is to provide high current income, with a secondary objective of long-term capital appreciation. The Fund seeks to achieve its investment objectives by investing substantially all of its assets in loan and debt instruments and loan-related and debt-related instruments (collectively credit securities). The Fund invests, under normal market conditions, at least 80% of its assets in any combination of the following credit securities: (i) senior secured floating rate and fixed rate loans; (ii) second lien or other subordinated or unsecured floating rate and fixed rate loans or debt; (iii) credit securities that are rated below investment grade quality; and (iv) investment grade corporate bonds. The Fund may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Fund's investment objectives will be achieved.

## Portfolio Management Commentary

Returns for the 12 months ended August 31, 2015 were as follows:

|  | Returns Based On |                  |
|--|------------------|------------------|
|  | Market Price     | NAV <sup>3</sup> |
| BHL <sup>1</sup>                             | 0.15%            | 2.80%            |
| Lipper Loan Participation Funds <sup>2</sup> | (3.67)%          | 0.25%            |

<sup>1</sup> All returns reflect reinvestment of dividends and/or distributions.

<sup>2</sup> Average return.

<sup>3</sup> The Fund's discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV.

The following discussion relates to the Fund's absolute performance based on NAV:

## What factors influenced performance?

Despite weakness in late 2014, the loan market provided a modest positive return for the full 12-month period. Given the positive returns experienced, the Fund's use of leverage added modestly to performance for the period. The Fund's exposure to names in the health care and technology sectors were amongst the top performers over the period.

During the period, oil prices experienced a significant decline and most commodity prices came under pressure as well. As a result, prices for the Fund's holdings within the energy sector fell notably during the period and detracted from returns. The metals & mining sector, while a smaller component of the market, declined also. The electric segment, and in particular Texas Utilities, was an additional detractor. Finally, the Fund's modest position in equity was a negative contributor.

**Describe recent portfolio activity.**

During the period, the Fund maintained its overall focus on the higher quality segments of the loan market in terms of loan structure, liquidity and overall credit quality. The Fund has concentrated its investments in strong companies with stable cash flows and high quality collateral, with the ability to meet interest obligations and ultimately return principal. From a sector perspective, the Fund added to names in the pharmaceuticals and health care sectors, where increased merger and acquisition activity has led to some attractive investment opportunities.

**Describe portfolio positioning at period end.**

At period end, the Fund held a majority of its total portfolio in floating rate loan interests (bank loans), with a small position in high yield corporate bonds and other interests. The Fund maintained its highest concentration in higher coupon B-rated loans of select issuers while limiting exposure to low coupon BB-rated loans. Additionally, the Fund held a modest position in CCC-rated loans, with a focus on names that have shown consistent credit improvement. In general, the Fund maintained a bias toward more liquid loans, which have held up better during recent market volatility.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## BlackRock Defined Opportunity Credit Trust

## Fund Information

|  |                  |
|--|------------------|
| Symbol on New York Stock Exchange ( NYSE )   | BHL              |
| Initial Offering Date  | January 31, 2008 |
| Current Distribution Rate on Closing Market Price as of August 31, 2015 (\$12.95) <sup>1</sup> | 5.40%            |
| Current Monthly Distribution per Common Share <sup>2</sup>                                     | \$0.0583         |
| Current Annualized Distribution per Common Share <sup>2</sup>                                  | \$0.6996         |
| Economic Leverage as of August 31, 2015 <sup>3</sup>   | 26%              |

- <sup>1</sup> Current Distribution Rate on closing market price is calculated by dividing the current annualized distribution per share by the closing market price. The current distribution rate may consist of income, net realized gains and/or a tax return of capital. Past performance does not guarantee future results.
- <sup>2</sup> The monthly distribution per Common Share, declared on October 1, 2015, was decreased to \$0.0510 per share. The current distribution rate on closing market price, current monthly distribution per Common Share, and current annualized distribution per Common Share do not reflect the new distribution rate. The new distribution rate is not constant and is subject to change in the future.
- <sup>3</sup> Represents bank borrowings outstanding as a percentage of total managed assets, which is the total assets of the Fund (including any assets attributable to borrowings) minus the sum of liabilities (other than borrowings representing financial leverage). For a discussion of leveraging techniques utilized by the Fund, please see The Benefits and Risks of Leveraging on page 10.

<sup>5</sup> Representing less than 1% of the Fund's total investments.

<sup>6</sup> Includes a less than 1% holding in each of the following investment types: Investment Companies, Non-Agency Mortgage-Backed Securities and Warrants.

| Credit Quality Allocation <sup>7,8</sup> | 8/31/15 | 8/31/14 <sup>4</sup> |
|--|---------|----------------------|
| A  | 1%      |                      |
| BBB/Baa                                  | 8       | 6%                   |
| BB/Ba                                    | 45      | 43                   |
| B  | 40      | 44                   |
| CCC/Caa                                  | 3       | 4                    |
| N/R                                      | 3       | 3                    |

<sup>7</sup> For financial reporting purposes, credit quality ratings shown above reflect the highest rating assigned by either Standard & Poor's (S&P) or Moody's Investors Service (Moody's) if ratings differ. These rating agencies are independent, nationally recognized statistical rating organizations and are widely used. Investment grade ratings are credit ratings of BBB/Baa or higher. Below investment grade ratings are credit ratings of BB/Ba or lower. Investments designated N/R are not rated by either rating agency. Unrated investments do not necessarily indicate low credit quality. Credit quality ratings are subject to change.

<sup>8</sup> Excludes short-term securities.

## Fund Summary as of August 31, 2015

BlackRock Floating Rate Income Strategies Fund, Inc.

**Fund Overview**

BlackRock Floating Rate Income Strategies Fund, Inc.'s (FRA) (the Fund) investment objective is to provide shareholders with high current income and such preservation of capital as is consistent with investment in a diversified, leveraged portfolio consisting primarily of floating rate debt securities and instruments. The Fund seeks to achieve its investment objective by investing, under normal market conditions, at least 80% of its assets in floating rate debt securities, including floating or variable rate debt securities that pay interest at rates that adjust whenever a specified interest rate changes and/or which reset on predetermined dates (such as the last day of a month or calendar quarter). The Fund invests a substantial portion of its investments in floating rate debt securities consisting of secured or unsecured senior floating rate loans that are rated below investment grade. The Fund may invest directly in floating rate debt securities or synthetically through the use of derivatives.

No assurance can be given that the Fund's investment objective will be achieved.

**Portfolio Management Commentary**

Returns for the 12 months ended August 31, 2015 were as follows:

|  | Returns Based On |                    |
|--|------------------|--------------------|
|  | Market Price     | NAV <sup>3</sup>   |
| FRA <sup>1</sup>                             | (3.71)%          | 2.88% <sup>4</sup> |
| Lipper Loan Participation Funds <sup>2</sup> | (3.67)%          | 0.25%              |

<sup>1</sup> All returns reflect reinvestment of dividends and/or distributions.

<sup>2</sup> Average return.

<sup>3</sup> The Fund's discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV.

<sup>4</sup> For financial reporting purposes, the market value of certain investments were adjusted as of report date. Accordingly, the net asset value (NAV) per share and total return based on net asset value performance presented herein are different than the information previously published on August 31, 2015.

The following discussion relates to the Fund's absolute performance based on NAV:

**What factors influenced performance?**

During the 12-month period, oil prices experienced a significant decline and most commodity prices came under pressure as well. As a result, prices for the Fund's holdings within the energy sector fell notably during the period and detracted from returns. The metals & mining sector, while a smaller component of the market, declined also.

Leading positive contributors to the Fund's absolute performance included holdings within health care and technology.

**Describe recent portfolio activity.**

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

During the period, the Fund maintained its overall focus on the higher quality segments of the loan market in terms of loan structure, liquidity and overall credit quality. The Fund has concentrated its investments in strong companies with stable cash flows and high quality collateral, with the ability to meet interest obligations and ultimately return principal. The Fund has been actively participating in the new-issue market when possible, however new issuance for loans is at its lowest level in years. In view of limited upside within the CCC-rated loans space, exposure there has been reduced to a modest amount in line with the benchmark. Additionally, the portfolio increased its exposure to higher quality A- rated and BBB-rated collateralized loan obligations (CLOs), and from a sector perspective added to names in the pharmaceuticals and technology sectors, while reducing risk in lodging.

### **Describe portfolio positioning at period end.**

At period end, the Fund held a majority of its total portfolio in floating rate loan interests (bank loans), with a meaningful position as well in floating rate CLOs based on attractive relative valuations. The Fund also held a relatively small position in high yield bonds. The Fund maintained its highest concentration in higher coupon B-rated loans of select issuers while limiting exposure to low coupon BB-rated loans. Additionally, the Fund held a modest position in CCC-rated loans, while generally maintaining low exposure to lower quality, less liquid loans. The Fund's largest positions included Valeant Pharmaceuticals International, Inc., First Data Corp. (technology), and Level 3 Communications (telecommunications).

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

BlackRock Limited Duration Income Trust

**Fund Overview**

BlackRock Limited Duration Income Trust's (BLW) (the Fund) investment objective is to provide current income and capital appreciation. The Fund seeks to achieve its investment objective by investing primarily in three distinct asset classes:

intermediate duration, investment grade corporate bonds, mortgage-related securities, asset-backed securities and U.S. Government and agency securities;

senior, secured floating rate loans made to corporate and other business entities; and

U.S. dollar-denominated securities of U.S. and non-U.S. issuers rated below investment grade and, to a limited extent, non-U.S. dollar denominated securities of non-U.S. issuers rated below investment grade.

The Fund's portfolio normally has an average portfolio duration of less than five years (including the effect of anticipated leverage), although it may be longer from time to time depending on market conditions. The Fund may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Fund's investment objective will be achieved.

**Portfolio Management Commentary**

Returns for the 12 months ended August 31, 2015 were as follows:

|  | Returns Based On |                    |
|--|------------------|--------------------|
|  | Market Price     | NAV <sup>3</sup>   |
| BLW <sup>1</sup>                                 | (5.74)%          | 2.23% <sup>4</sup> |
| Lipper High Yield Funds (Leveraged) <sup>2</sup> | (12.17)%         | (5.11)%            |

<sup>1</sup> All returns reflect reinvestment of dividends and/or distributions.

<sup>2</sup> Average return.

<sup>3</sup> The Fund's discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV.

<sup>4</sup> For financial reporting purposes, the market value of certain investments were adjusted as of report date. Accordingly, the net asset value (NAV) per share and total return based on net asset value performance presented herein are different than the information previously published on August 31, 2015. The following discussion relates to the Fund's absolute performance based on NAV:

**What factors influenced performance?**

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

The main contributors to the Fund's absolute performance were its exposure to term loans, asset-backed securities ( ABS ) and its duration and yield curve positioning.

The main detractors from the Fund's absolute performance during the period were its marginal positions in equity securities.

The Fund held derivatives during the reporting period, which had a neutral effect on performance.

**Describe recent portfolio activity.**

The Fund reduced its exposure to high yield, while it increased its allocation to ABS and commercial mortgage-backed securities ( CMBS ). The Fund made these moves in anticipation of a negative impact on credit sentiment as the Federal Reserve's quantitative easing program came to an end, and in the belief that ABS and CMBS offered attractive relative value.

**Describe portfolio positioning at period end.**

At period end, the Fund maintained a diversified exposure to non-government spread sectors including high yield and term loans as well as investment grade corporate credit, CMBS, ABS, and mortgage-backed securities ( MBS ). The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## BlackRock Limited Duration Income Trust

## Fund Information

|  |               |
|--|---------------|
| Symbol on NYSE   | BLW           |
| Initial Offering Date  | July 30, 2003 |
| Current Distribution Rate on Closing Market Price as of August 31, 2015 (\$14.60) <sup>1</sup> | 8.18%         |
| Current Monthly Distribution per Common Share <sup>2</sup>                                     | \$0.0995      |
| Current Annualized Distribution per Common Share <sup>2</sup>                                  | \$1.1940      |
| Economic Leverage as of August 31, 2015 <sup>3</sup>   | 30%           |

- <sup>1</sup> Current Distribution Rate on closing market price is calculated by dividing the current annualized distribution per share by the closing market price. The current distribution rate may consist of income, net realized gains and/or a tax return of capital. Past performance does not guarantee future results.
- <sup>2</sup> The monthly distribution per Common Share, declared on October 1, 2015, was decreased to \$0.0870 per share. The current distribution rate on closing market price, current monthly distribution per Common Share, and current annualized distribution per Common Share do not reflect the new distribution rate. The new distribution rate is not constant and is subject to change in the future.
- <sup>3</sup> Represents reverse repurchase agreements outstanding as a percentage of total managed assets, which is the total assets of the Fund (including any assets attributable to borrowing) minus the sum of liabilities (other than borrowings representing financial leverage). For a discussion of leveraging techniques utilized by the Fund, please see The Benefits and Risks of Leveraging on page 10.

## Market Price and Net Asset Value Per Share Summary

<sup>8</sup> For financial reporting purposes, credit quality ratings shown above reflect the highest rating assigned by either S&P or Moody's if ratings differ. These rating agencies are independent, nationally recognized statistical rating organizations and are widely used. Investment grade ratings are credit ratings of BBB/Baa or higher. Below investment grade ratings are credit ratings of BB/Ba or lower. Investments designated N/R are not rated by either rating agency. Unrated investments do not necessarily indicate low credit quality. Credit quality ratings are subject to change.

<sup>9</sup> Excludes short-term securities.

<sup>10</sup> The investment advisor evaluates the credit quality of not-rated investments based upon certain factors including, but not limited to, credit ratings for similar investments and financial analysis of sectors, individual investments and/or issuer. Using this approach, the investment advisor has deemed U.S. Government Sponsored Agency Securities and U.S. Treasury Obligations as AAA/Aaa.

## The Benefits and Risks of Leveraging

The Funds may utilize leverage to seek to enhance the distribution rate on, and net asset value ( NAV ) of, their common shares ( Common Shares ). However, these objectives cannot be achieved in all interest rate environments.

In general, the concept of leveraging is based on the premise that the financing cost of leverage, which is based on short-term interest rates, is normally lower than the income earned by a Fund on its longer-term portfolio investments purchased with the proceeds from leverage. To the extent that the total assets of the Funds (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, the Funds' shareholders benefit from the incremental net income. The interest earned on securities purchased with the proceeds from leverage is paid to shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share NAV.

To illustrate these concepts, assume a Fund's capitalization is \$100 million and it utilizes leverage for an additional \$30 million, creating a total value of \$130 million available for investment in longer-term income securities. If prevailing short-term interest rates are 3% and longer-term interest rates are 6%, the yield curve has a strongly positive slope. In this case, the Fund's financing costs on the \$30 million of proceeds obtained from leverage are based on the lower short-term interest rates. At the same time, the securities purchased by the Funds with the proceeds from leverage earn income based on longer-term interest rates. In this case, the Fund's financing cost of leverage is significantly lower than the income earned on the Fund's longer-term investments acquired from such leverage proceeds, and therefore the holders of Common Shares ( Common Shareholders ) are the beneficiaries of the incremental net income.

However, in order to benefit shareholders, the return on assets purchased with leverage proceeds must exceed the ongoing costs associated with the leverage. If interest and other costs of leverage exceed the Funds' return on assets purchased with leverage proceeds, income to shareholders is lower than if the Funds had not used leverage. Furthermore, the value of the Funds' portfolio investments generally varies inversely with the direction of long-term interest rates, although other factors can influence the value of portfolio investments. In contrast, the value of the Funds' obligations under their leverage arrangements generally does not fluctuate in relation to interest rates. As a result, changes in interest rates can influence the Funds' NAVs positively or negatively. Changes in the future direction of interest rates are very difficult to predict accurately, and there is no assurance that the Funds' intended leveraging strategy will be successful.

Leverage also generally causes greater changes in the Funds' NAVs, market prices and dividend rates than comparable portfolios without leverage. In a declining market, leverage is likely to cause a greater decline in the net asset value and market price of Funds' shares than if the Funds were not leveraged. In addition, the Funds may be required to sell portfolio securities at inopportune times or at distressed values in order to comply with regulatory requirements applicable to the use of leverage or as required by the terms of leverage instruments, which may cause the Funds to incur losses. The use of leverage may limit the Funds' ability to invest in certain types of securities or use certain types of hedging strategies. The Funds incur expenses in connection with the use of leverage, all of which are borne by Common Shareholders and may reduce income to the Common Shares. Moreover, to the extent the calculation of the Funds' investment advisory fees includes assets purchased with the proceeds of leverage, the investment advisory fees payable to the Funds' investment advisor will be higher than if the Funds did not use leverage.

Each Fund may utilize leverage through a credit facility or reverse repurchase agreements as described in the Notes to Financial Statements.

Under the Investment Company Act of 1940, as amended (the 1940 Act ), the Funds are permitted to issue debt up to 33% of their total managed assets. A Fund may voluntarily elect to limit its leverage to less than the maximum amount permitted under the 1940 Act. In addition, a Fund may also be subject to certain asset coverage, leverage or portfolio composition requirements imposed by its credit facility, which may be more stringent than those imposed by the 1940 Act.

If a Fund segregates or designates on its books and records cash or liquid assets having values not less than the value of the Fund's obligations under the reverse repurchase agreement (including accrued interest), then such transaction is not considered a senior security and is not subject to the foregoing limitations and requirements under the 1940 Act.

## Derivative Financial Instruments

The Funds may invest in various derivative financial instruments. Derivative financial instruments are used to obtain exposure to a security, index and/or market without owning or taking physical custody of securities or to manage market, equity, credit, interest rate, foreign currency exchange rate, commodity and/or other risks. Derivative financial instruments may give rise to a form of economic leverage. Derivative financial instruments involve risks, including the imperfect correlation between the value of a derivative financial instrument and the underlying asset,

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

possible default of the counterparty to the transaction or illiquidity of the derivative financial instrument. The Funds' ability to use a derivative financial instrument successfully depends on the investment advisor's ability to predict pertinent market movements accurately, which cannot be assured. The use of derivative financial instruments may result in losses greater than if they had not been used, may limit the amount of appreciation a Fund can realize on an investment and/or may result in lower distributions paid to shareholders. The Funds' investments in these instruments are discussed in detail in the Notes to Financial Statements.

## Schedule of Investments August 31, 2015

## BlackRock Defined Opportunity Credit Trust (BHL)

BlackRock Defined Opportunity Credit Trust (BHL)

**Derivative Financial Instruments Categorized by Risk Exposure**

The following is a summary of the Fund's derivative financial instruments categorized by risk exposure. For information about the Fund's investment risks regarding derivative financial instruments, refer to the Notes to Financial Statements.

As of August 31, 2015, the fair values of derivative financial instruments were as follows:

|  | Statement of Assets and Liabilities Location                           | Commodity Contracts | Credit Contracts | Equity Contracts | Foreign                     |                         | Total     |
|--|--|---------------------|------------------|------------------|-----------------------------|-------------------------|-----------|
|  |  |                     |                  |                  | Currency Exchange Contracts | Interest Rate Contracts |           |
| <b>Derivative Financial Instruments Assets</b> |  |                     |                  |                  |                             |                         |           |
| Financial futures contracts                    | Net unrealized appreciation <sup>1</sup>                               |                     |                  |                  |                             | \$ 503                  | \$ 503    |
| Forward foreign currency exchange contracts    | Unrealized appreciation on forward foreign currency exchange contracts |                     |                  |                  | \$ 11,340                   |                         | 11,340    |
|  |  |                     |                  |                  | \$ 11,340                   | \$ 503                  | \$ 11,843 |

**Derivative Financial Instruments Liabilities**

|                         |  |  |  |          |  |  |          |
|-------------------------|--|--|--|----------|--|--|----------|
| Swaps centrally cleared | Net unrealized depreciation <sup>1</sup> |  |  | \$ 7,012 |  |  | \$ 7,012 |
|-------------------------|--|--|--|----------|--|--|----------|

<sup>1</sup> Includes cumulative appreciation (depreciation) on financial futures contracts and centrally cleared swaps, if any, as reported in the Schedules of Investments. Only current day's variation margin is reported within the Statements of Assets and Liabilities.

For the year ended August 31, 2015, the effect of derivative financial instruments in the Statement of Operations was as follows:

|   | Commodity Contracts | Credit Contracts | Equity Contracts | Foreign                     |                         | Total      |

For the year ended August 31, 2015, the average quarterly balances of outstanding derivative financial instruments were as follows:

|  |              |
|--|--------------|
| Financial futures contracts:                 |              |
| Average notional value of contracts short    | \$ 127,063   |
| Forward foreign currency exchange contracts: |              |
| Average amounts purchased in USD             | \$ 1,337,830 |
| Average amounts sold in USD                  | \$ 140,064   |
| Credit default swaps:                        |              |
| Average notional value sell protection       | \$ 160,875   |

**Derivative Financial Instruments Offsetting as of August 31, 2015**

The Fund's derivative assets and liabilities (by type) were as follows:

|   | Assets           | Liabilities  |
|---|------------------|--------------|
| <b>Derivative Financial Instruments:</b>  |                  |              |
| Financial futures contracts   | \$ 563           |              |
| Forward foreign currency exchange contracts   | 11,340           |              |
| Swaps Centrally cleared   |                  | \$ 1,640     |
| <b>Total derivative assets and liabilities in the Statement of Assets and Liabilities</b> | <b>11,903</b>    | <b>1,640</b> |
| Derivatives not subject to a Master Netting Agreement or similar agreement ( MNA )        | (563)            | (1,640)      |
| <b>Total derivative assets and liabilities subject to an MNA</b>                          | <b>\$ 11,340</b> |              |

See Notes to Financial Statements.

## Schedule of Investments (continued)

## BlackRock Defined Opportunity Credit Trust (BHL)

The following table presents the Fund's derivative assets and liabilities by counterparty net of amounts available for offset under an Master Netting Agreement (MNA) and net of the related collateral received and pledged by the Fund:

| Counterparty  | Derivative Assets Subject to an MNA by Counterparty | Derivatives Available for Offset <sup>1</sup> | Non-cash Collateral Received | Cash Collateral Received | Net Amount of Derivative Assets <sup>2</sup> |
|---------------|---|---|------------------------------|--------------------------|--|
| HSBC Bank PLC | \$ 11,340   |   |                              |                          | \$ 11,340                                    |
| <b>Total</b>  | \$ 11,340   |   |                              |                          | \$ 11,340                                    |

<sup>1</sup> The amount of derivatives available for offset is limited to the amount of derivative assets and/or liabilities that are subject to an MNA.

<sup>2</sup> Net amount represents the net amount receivable from the counterparty in the event of default.

## Fair Value Hierarchy as of August 31, 2015

Various inputs are used in determining the fair value of investments and derivative financial instruments. For information about the Fund's policy regarding valuation of investments and derivative financial instruments, refer to the Notes to Financial Statements.

The following tables summarize the Fund's investments and derivative financial instruments categorized in the disclosure hierarchy:

|                                       | Level 1    | Level 2        | Level 3      | Total          |
|---------------------------------------|------------|----------------|--------------|----------------|
| <b>Assets:</b>                        |            |                |              |                |
| Investments:                          |            |                |              |                |
| Long-Term Investments:                |            |                |              |                |
| Asset-Backed Securities               |            | \$ 3,167,995   | \$ 1,801,100 | \$ 4,969,095   |
| Common Stocks                         | \$ 272,202 | 233,087        |              | 505,289        |
| Corporate Bonds                       |            | 5,043,650      |              | 5,043,650      |
| Floating Rate Loan Interests          |            | 151,789,717    | 7,593,019    | 159,382,736    |
| Investment Companies                  | 20,680     |                |              | 20,680         |
| Non-Agency Mortgage-Backed Securities |            | 304,952        |              | 304,952        |
| Warrants                              |            |                | 5,940        | 5,940          |
| Short-Term Securities                 | 254,052    |                |              | 254,052        |
| <b>Liabilities:</b>                   |            |                |              |                |
| Unfunded floating rate loan interest  |            | (116)          |              | (116)          |
| <b>Total</b>                          | \$ 546,934 | \$ 160,539,285 | \$ 9,400,059 | \$ 170,486,278 |

|   | Level 1 | Level 2   | Level 3 | Total    |
|---|---------|-----------|---------|----------|
| Derivative Financial Instruments <sup>3</sup> |         |           |         |          |
| <b>Assets:</b>                                |         |           |         |          |
| Interest rate contracts                       | \$ 503  |           |         | \$ 503   |
| Foreign currency exchange contracts           |         | \$ 11,340 |         | 11,340   |
| <b>Liabilities:</b>                           |         |           |         |          |
| Credit contracts                              |         | (7,012)   |         | (7,012)  |
| <b>Total</b>                                  | \$ 503  | \$ 4,328  |         | \$ 4,831 |

<sup>3</sup> Derivative financial instruments are swaps, financial futures contract and forward foreign currency exchange contracts which are valued at the unrealized appreciation (depreciation) on the instrument.

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

The Fund may hold assets and/or liabilities in which the fair value approximates the carrying amount for financial statement purposes. As of August 31, 2015, such assets and/or liabilities are categorized within the disclosure hierarchy as follows:

|                           | Level 1      | Level 2         | Level 3 | Total           |
|---------------------------|--------------|-----------------|---------|-----------------|
| <b>Assets:</b>            |              |                 |         |                 |
| Cash                      | \$ 4,641,589 |                 |         | \$ 4,641,589    |
| Foreign currency at value | 729          |                 |         | 729             |
| <b>Liabilities:</b>       |              |                 |         |                 |
| Bank borrowings payable   |              | \$ (45,000,000) |         | (45,000,000)    |
| <b>Total</b>              | \$ 4,642,318 | \$ (45,000,000) |         | \$ (40,357,682) |

During the year ended August 31, 2015, there were no transfers between Level 1 and Level 2.

See Notes to Financial Statements.

## Schedule of Investments (concluded)

## BlackRock Defined Opportunity Credit Trust (BHL)

A reconciliation of Level 3 investments is presented when the Fund had a significant amount of Level 3 investments at the beginning and/or end of the period in relation to net assets. The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used in determining fair value:

|  | Asset-Backed<br>Securities | Floating<br>Rate Loan<br>Interests | Warrants        | Unfunded<br>Floating Rate<br>Loan<br>Interest<br>(Liabilities) | Grand<br>Total      |
|--|----------------------------|------------------------------------|-----------------|--|---------------------|
| Opening balance, as of August 31, 2014   | \$ 921,580                 | \$ 13,599,109                      |                 | \$ (85)  | \$ 14,520,604       |
| Transfers into Level 3 <sup>1</sup>  | 236,452                    | 2,670,847                          | \$ 3,214        |  | 2,910,513           |
| Transfers out of Level 3 <sup>2</sup>  | (676,305)                  | (5,898,550)                        |                 |  | (6,574,855)         |
| Accrued discounts/premiums   | 3,795                      | 20,841                             |                 |  | 24,636              |
| Net realized gain (loss)   | 1,600                      | (101,729)                          |                 |  | (100,129)           |
| Net change in unrealized appreciation (depreciation) <sup>3,4</sup>  | 3,226                      | (342,200)                          | 2,726           | 85   | (336,163)           |
| Purchases  | 1,557,627                  | 3,358,304                          |                 |  | 4,915,931           |
| Sales  | (246,875)                  | (5,713,603)                        |                 |  | (5,960,478)         |
| <b>Closing Balance, as of August 31, 2015</b>  | <b>\$ 1,801,100</b>        | <b>\$ 7,593,019</b>                | <b>\$ 5,940</b> |  | <b>\$ 9,400,059</b> |
| Net change in unrealized appreciation (depreciation) on investments still held at August 31, 2015 <sup>4</sup> | \$ 3,226                   | \$ (314,855)                       | \$ 2,726        |  | \$ (308,903)        |

<sup>1</sup> As of August 31, 2014, the Fund used observable inputs in determining the value of certain investments. As of August 31, 2015, the Fund used significant unobservable inputs in determining the value of the same investments. As a result, investments with a beginning of period value of \$2,910,513 transferred from Level 2 to Level 3 in the disclosure hierarchy.

<sup>2</sup> As of August 31, 2014, the Fund used significant unobservable inputs in determining the value of certain investments. As of August 31, 2015, the Fund used observable inputs in determining the value of the same investments. As a result, investments with a beginning of period value of \$6,574,855 transferred from Level 3 to Level 2 in the disclosure hierarchy.

<sup>3</sup> Included in the related net change in unrealized appreciation (depreciation) in the Statement of Operations.

<sup>4</sup> Any difference between net change in unrealized appreciation (depreciation) on investments still held at August 31, 2015 is generally due to investments no longer held or categorized as Level 3 at period end. The Fund's investments that are categorized as Level 3 were valued utilizing third party pricing information without adjustment. Such valuations are based on unobservable inputs. A significant change in third party information could result in a significantly lower or higher value of such Level 3 investments.

See Notes to Financial Statements.

See Notes to Financial Statements.

## Consolidated Schedule of Investments (continued)

BlackRock Floating Rate Income Strategies Fund, Inc.  
(FRA)

For the year ended August 31, 2015, the average quarterly balances of outstanding derivative financial instruments were as follows:

|  |              |
|--|--------------|
| Financial futures contracts:                 |              |
| Average notional value of contracts short    | \$ 571,781   |
| Forward foreign currency exchange contracts: |              |
| Average amounts purchased in USD             | \$ 7,043,294 |
| Average amounts sold in USD                  | \$ 659,161   |
| Credit default swaps:                        |              |
| Average notional value-sell protection       | \$ 723,938   |

**Derivative Financial Instruments Offsetting as of August 31, 2015**

The Fund's derivative assets and liabilities (by type) were as follows:

|   | Assets           | Liabilities  |
|---|------------------|--------------|
| <b>Derivative Financial Instruments:</b>  |                  |              |
| Financial futures contracts   | \$ 2,531         |              |
| Forward foreign currency exchange contracts   | 65,118           |              |
| Swaps Centrally cleared   |                  | \$ 7,382     |
| <b>Total derivative assets and liabilities in the Statement of Assets and Liabilities</b> | <b>67,649</b>    | <b>7,382</b> |
| Derivatives not subject to a Master Netting Agreement or similar agreement (MNA)          | (2,531)          | (7,382)      |
| <b>Total derivative assets and liabilities subject to an MNA</b>                          | <b>\$ 65,118</b> |              |

The following table presents the Fund's derivative assets and liabilities by counterparty net of amounts available for offset under an Master Netting Agreement (MNA) and net of the related collateral received and pledged by the Fund:

| Counterparty          | Derivative Assets Subject to<br>an MNA by<br>Counterparty | Derivatives Available<br>for Offset <sup>1</sup> | Non-cash<br>Collateral<br>Received | Cash Collateral<br>Received | Net Amount of<br>Derivative Assets <sup>2</sup> |
|-----------------------|---|--|------------------------------------|-----------------------------|---|
| HSBC Bank PLC         | \$ 43,948   |  |                                    |                             | \$ 43,948                                       |
| Westpac Banking Corp. | 21,170  |  |                                    |                             | 21,170  |
| <b>Total</b>          | <b>\$ 65,118</b>  |  |                                    |                             | <b>\$ 65,118</b>                                |

<sup>1</sup> The amount of derivatives available for offset is limited to the amount of derivative assets and/or liabilities that are subject to an MNA.

<sup>2</sup> Net amount represents the net amount receivable from the counterparty in the event of default.

**Fair Value Hierarchy as of August 31, 2015**

Various inputs are used in determining the fair value of investments and derivative financial instruments. For information about the Fund's policy regarding valuation of investments and derivative financial instruments, refer to the Notes to Financial Statements.

The following tables summarize the Fund's investments and derivative financial instruments categorized in the disclosure hierarchy:

Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

## Consolidated Schedule of Investments (concluded)

BlackRock Floating Rate Income Strategies Fund, Inc.  
(FRA)

|   | Level 1  | Level 2   | Level 3 | Total     |
|---|----------|-----------|---------|-----------|
| Derivative Financial Instruments <sup>1</sup> |          |           |         |           |
| <b>Assets:</b>                                |          |           |         |           |
| Interest rate contracts                       | \$ 2,213 |           |         | \$ 2,213  |
| Foreign currency exchange contracts           |          | \$ 65,118 |         | 65,118    |
| <b>Liabilities:</b>                           |          |           |         |           |
| Credit contracts                              |          | (31,556)  |         | (31,556)  |
| <b>Total</b>                                  | \$ 2,213 | \$ 33,562 |         | \$ 35,775 |

<sup>1</sup> Derivative financial instruments are swaps, financial futures contract and forward foreign currency exchange contracts which are valued at the unrealized appreciation (depreciation) on the instrument.

The Fund may hold assets and/or liabilities in which the fair value approximates the carrying amount for financial statement purposes. As of August 31, 2015, such assets and/or liabilities are categorized within the disclosure hierarchy as follows:

|  | Level 1      | Level 2          | Level 3 | Total            |
|--|--------------|------------------|---------|------------------|
| <b>Assets:</b>                               |              |                  |         |                  |
| Cash   | \$ 9,531,960 |                  |         | \$ 9,531,960     |
| Cash pledged for financial futures contracts | 45,000       |                  |         | 45,000           |
| Cash pledged for centrally cleared swaps     | 170,000      |                  |         | 170,000          |
| Foreign currency at value                    | 6,465        |                  |         | 6,465            |
| <b>Liabilities:</b>                          |              |                  |         |                  |
| Bank borrowings payable                      |              | \$ (196,000,000) |         | (196,000,000)    |
| <b>Total</b>                                 | \$ 9,753,425 | \$ (196,000,000) |         | \$ (186,246,575) |

During the year ended August 31, 2015, there were no transfers between Level 1 and Level 2.

A reconciliation of Level 3 investments is presented when the Fund had a significant amount of Level 3 investments at the beginning and/or end of the period in relation to net assets. The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used in determining fair value:

|   | Common Stocks | Asset-Backed Securities | Corporate Bonds | Floating Rate Loan Interests | Other Interests | Warrants   | Unfunded Floating Rate Loan Interest (Liabilities) | Grand Total   |
|---|---------------|-------------------------|-----------------|------------------------------|-----------------|------------|--|---------------|
| Opening balance, as of August 31, 2014                              | \$ 1,510,942  | \$ 1,159,180            | \$ 4,766,957    | \$ 58,688,498                | \$ 1,858,753    | \$ 138,171 | \$ (374)   | \$ 68,122,127 |
| Transfers into Level 3 <sup>2</sup>                                 |               | 709,356                 |                 | 11,738,674                   |                 | 11,191     |  | 12,459,221    |
| Transfers out of Level 3 <sup>3</sup>                               |               | (913,905)               |                 | (27,135,051)                 |                 |            |  | (28,048,956)  |
| Accrued discounts/premiums  |               | 17,556                  | 50,007          | 80,579                       |                 |            |  | 148,142       |

<sup>2</sup> As of August 31, 2014, the Fund used observable inputs in determining the value of certain investments. As of August 31, 2015, the Fund used significant unobservable inputs in determining the value of the same investments. As a result, investments with a beginning of period value of \$12,459,221 transferred from Level 2 to Level 3 in the disclosure hierarchy.

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

<sup>3</sup> As of August 31, 2014, the Fund used significant unobservable inputs in determining the value of certain investments. As of August 31, 2015, the Fund used observable inputs in determining the value of the same investments. As a result, investments with a beginning of period value of \$28,048,956 transferred from Level 3 to Level 2 in the disclosure hierarchy.

<sup>4</sup> Included in the related net change in unrealized appreciation (depreciation) in the Consolidated Statement of Operations.

<sup>5</sup> Any difference between net change in unrealized appreciation (depreciation) on investments still held at August 31, 2015 is generally due to investments no longer held or categorized as Level 3 at period end.

The Fund's investments that are categorized as Level 3 were valued utilizing third party pricing information without adjustment. Such valuations are based on unobservable inputs. A significant change in third party information could result in a significantly lower or higher value of such Level 3 investments.

See Notes to Financial Statements.

<sup>1</sup> As of August 31, 2014, the Fund used observable inputs in determining the value of certain investments. As of August 31, 2015, the Fund used significant unobservable inputs in determining the value of the same investments. As a result, investments with a beginning of period value of \$4,446,324 transferred from Level 2 to Level 3 in the disclosure hierarchy.

<sup>2</sup> As of August 31, 2014, the Fund used significant unobservable inputs in determining the value of certain investments. As of August 31, 2015, the Fund used observable inputs in determining the value of the same investments. As a result, investments with a beginning of period value of \$23,486,847 transferred from Level 3 to Level 2 in the disclosure hierarchy.

<sup>3</sup> Included in the related net change in unrealized appreciation (depreciation) in the Statement of Operations.

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

<sup>4</sup> Any difference between net change in unrealized appreciation (depreciation) on investments still held at August 31, 2015 is generally due to investments no longer held or categorized as Level 3 at period end. The Fund's investments that are categorized as Level 3 were valued utilizing third party pricing information without adjustment. Such valuations are based on unobservable inputs. A significant change in third party information could result in a significantly lower or higher value of such Level 3 investments.

ANNUAL REPORT

AUGUST 31, 2015

## Notes to Financial Statements

### 1. Organization:

The following are registered under the 1940 Act as closed-end management investment companies and are referred to herein collectively as the Funds , or individually, a Fund :

| Fund Name  | Herein Referred To As | Organized | Diversification Classification |
|--|-----------------------|-----------|--------------------------------|
| BlackRock Defined Opportunity Credit Trust           | BHL                   | Delaware  | Diversified                    |
| BlackRock Floating Rate Income Strategies Fund, Inc. | FRA                   | Maryland  | Diversified                    |
| BlackRock Limited Duration Income Trust              | BLW                   | Delaware  | Diversified                    |

The Boards of Directors and Boards of Trustees of the Funds are collectively referred to throughout this report as the Board of Directors or the Board, and the directors/trustees thereof are collectively referred to throughout this report as Directors . The Funds determine and make available for publication the net asset value ( NAV ) of their Common Shares on a daily basis.

The Funds, together with certain other registered investment companies advised by BlackRock Advisors, LLC (the Manager ) or its affiliates, are included in a complex of closed-end funds referred to as the Closed-End Complex.

**Basis of Consolidation:** The accompanying consolidated financial statements of FRA include the accounts of FRA Subsidiary, LLC (the Taxable Subsidiary ), which is a wholly owned taxable subsidiary of FRA. The Taxable Subsidiary enables FRA to hold an investment in an operating company and satisfy Regulated Investment Company ( RIC ) tax requirements. Income earned and gains realized on the investment held by the Taxable Subsidiary are taxable to such subsidiary. A tax provision for income, if any, is shown as income tax in the Consolidated Statement of Operations for FRA. A tax provision for realized and unrealized gains, if any, is included as a reduction of realized and/or unrealized gain (loss) in the Consolidated Statement of Operations for FRA. FRA may invest up to 25% of its total assets in the Taxable Subsidiary. The net assets of the Taxable Subsidiary as of August 31, 2015 were \$2,116,853, which is 0.4% of FRA s consolidated net assets. Intercompany accounts and transactions, if any, have been eliminated. The Taxable Subsidiary is subject to the same investment policies and restrictions that apply to FRA.

The accompanying consolidated financial statements of BLW include the accounts of BLW Subsidiary, LLC (the BLW Taxable Subsidiary ). As of December 19, 2014, the BLW Taxable Subsidiary, which was wholly owned by the Fund, was dissolved. The BLW Taxable Subsidiary enabled BLW to hold an investment in an operating company and satisfy Regulated Investment Company ( RIC ) tax requirements. Income earned and gains realized on the investment held by the BLW Taxable Subsidiary were taxable to such subsidiary. There was no tax provision required for income or realized gains during the period.

### 2. Significant Accounting Policies:

The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ( U.S. GAAP ), which may require management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates. Each Fund is considered an investment company under U.S. GAAP and follows the accounting and reporting guidance applicable to investment companies. Below is a summary of significant accounting policies:

**Foreign Currency:** The Funds books and records are maintained in U.S. dollars. Purchases and sales of investments are recorded at the rates of exchange prevailing on the respective date of such transactions. Generally, when the U.S. dollar rises in value against a foreign currency, the investments denominated in that currency will lose value; the opposite effect occurs if the U.S. dollar falls in relative value.

The Funds do not isolate changes in the exchange rates from the changes in the market prices of investments held or sold for financial reporting purposes. Accordingly, the effects of changes in exchange rates on investments are not segregated in the Statements of Operations from the effects of changes in market prices of those investments, but are included as a component of net realized and unrealized gain (loss) from investments. The Funds report realized currency gains (losses) on foreign currency related transactions as components of net realized gain (loss) for financial reporting purposes, whereas such components are generally treated as ordinary income for federal income tax purposes.

**Segregation and Collateralization:** In cases where a Fund enters into certain investments (e.g., financial futures contracts, forward foreign currency exchange contracts, options written and swaps), or certain borrowings (e.g., reverse repurchase transactions) that would be treated as senior securities for 1940 Act purposes, a Fund may segregate or designate on its books and records cash or liquid assets having a market value

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

at least equal to the amount of the Fund's future obligations under such investments or borrowings. Doing so allows the investment or borrowing to be excluded from treatment as a senior security. Furthermore, if required by an exchange or counterparty agreement, the Fund may be required to deliver/deposit cash and/or securities to/with an exchange, or broker-dealer or custodian as collateral for certain investments or obligations.

**Investment Transactions and Investment Income:** For financial reporting purposes, investment transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on investment transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend date. Dividends from foreign securities where the ex-dividend date may have passed are subsequently recorded when the

---

## Notes to Financial Statements (continued)

Funds are informed of the ex-dividend date. Under the applicable foreign tax laws, a withholding tax at various rates may be imposed on capital gains, dividends and interest. Upon notification from issuers, some of the dividend income received from a real estate investment trust may be redesignated as a reduction of cost of the related investment and/or realized gain. Interest income, including amortization and accretion of premiums and discounts on debt securities, is recognized on the accrual basis.

**Distributions:** Distributions from net investment income are declared and paid monthly. Distributions of capital gains are recorded on the ex-dividend date. The character and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

**Deferred Compensation Plan:** Under the Deferred Compensation Plan (the Plan) approved by each Fund's Board, the independent Directors (Independent Directors) may defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts had been invested in common shares of certain other BlackRock Closed-End Funds selected by the Independent Directors. This has the same economic effect for the Independent Directors as if the Independent Directors had invested the deferred amounts directly in certain other BlackRock Closed-End Funds.

The Plan is not funded and obligations thereunder represent general unsecured claims against the general assets of each Fund, if applicable. Deferred compensation liabilities are included in officers' and directors' fees payable in the Statements of Assets and Liabilities and will remain as a liability of the Funds until such amounts are distributed in accordance with the Plan.

**Recent Accounting Standard:** In June 2014, the Financial Accounting Standards Board issued guidance to improve the financial reporting of reverse repurchase agreements and other similar transactions. The guidance will require expanded disclosure for entities that enter into reverse repurchase agreements and similar transactions accounted for as secured borrowings. It is effective for financial statements with fiscal years beginning on or after December 15, 2014 and for interim periods beginning after March 15, 2015. Management is evaluating the impact, if any, of this guidance on the Funds' financial statement disclosures.

**Indemnifications:** In the normal course of business, a Fund enters into contracts that contain a variety of representations that provide general indemnification. A Fund's maximum exposure under these arrangements is unknown because it involves future potential claims against a Fund, which cannot be predicted with any certainty.

**Other:** Expenses directly related to a Fund are charged to that Fund. Other operating expenses shared by several funds are prorated among those funds on the basis of relative net assets or other appropriate methods.

The Funds have an arrangement with their custodian whereby fees may be reduced by credits earned on uninvested cash balances, which, if applicable, are shown as fees paid indirectly in the Statements of Operations. The custodian imposes fees on overdrawn cash balances, which can be offset by accumulated credits earned or may result in additional custody charges.

### **3. Investment Valuation and Fair Value Measurements:**

**Investment Valuation Policies:** The Funds' investments are valued at fair value (also referred to as market value within the financial statements) as of the close of trading on the New York Stock Exchange (NYSE) (generally 4:00 p.m., Eastern time). U.S. GAAP defines fair value as the price the Funds would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. The Funds determine the fair values of their financial instruments using independent dealers or pricing services under policies approved by the Board. The BlackRock Global Valuation Methodologies Committee (the Global Valuation Committee) is the committee formed by management to develop global pricing policies and procedures and to provide oversight of the pricing function for the Funds for all financial instruments.

**Fair Value Inputs and Methodologies:** The following methods (or techniques) and inputs are used to establish the fair value of each Fund's assets and liabilities:

Equity investments traded on a recognized securities exchange are valued at the official close price each day, if available. For equity investments traded on more than one exchange, the official close price on the exchange where the stock is primarily traded is used. Equity investments traded on a recognized exchange for which there were no sales on that day may be valued at the last available bid (long positions)

or ask (short positions) price.

Bond investments are valued on the basis of last available bid prices or current market quotations provided by dealers or pricing services. Floating rate loan interests are valued at the mean of the bid prices from one or more brokers or dealers as obtained from a pricing service. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrixes, market transactions in comparable investments, various relationships observed in the market between investments and calculated yield measures. Asset-backed and mortgage-backed securities are valued by independent pricing services using models that consider estimated cash flows of each tranche of the security, establish a benchmark yield and develop an estimated tranche-specific spread to the benchmark yield based on the unique attributes of the tranche.

---

## Notes to Financial Statements (continued)

Generally, trading in foreign instruments is substantially completed each day at various times prior to the close of business on the NYSE. Occasionally, events affecting the values of such instruments may occur between the foreign market close and the close of business on the NYSE that may not be reflected in the computation of the Funds' net assets. Each business day, the Funds use a pricing service to assist with the valuation of certain foreign exchange-traded equity securities and foreign exchange-traded and over-the-counter (OTC) options (the Systematic Fair Value Price). Using current market factors, the Systematic Fair Value Price is designed to value such foreign securities and foreign options at fair value as of the close of business on the NYSE, which follows the close of the local markets.

Municipal investments (including commitments to purchase such investments on a when-issued basis) are valued on the basis of prices provided by dealers or pricing services. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrixes, market transactions in comparable investments and information with respect to various relationships between investments.

Investments in open-end registered investment companies are valued at NAV each business day.

Financial futures contracts traded on exchanges are valued at their last sale price.

Securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars using exchange rates determined as of the close of business on the NYSE. Forward foreign currency exchange contracts are valued at the mean between the bid and ask prices and are determined as of the close of business on the NYSE. Interpolated values are derived when the settlement date of the contract is an interim date for which quotations are not available.

Exchange-traded options are valued at the mean between the last bid and ask prices at the close of the options market in which the options trade. An exchange-traded option for which there is no mean price is valued at the last bid (long positions) or ask (short positions) price. If no bid or ask price is available, the prior day's price will be used, unless it is determined that the prior day's price no longer reflects the fair value of the option. OTC options and options on swaps (swaptions) are valued by an independent pricing service using a mathematical model, which incorporates a number of market data factors, such as the trades and prices of the underlying instruments.

Swap agreements are valued utilizing quotes received daily by the Funds' pricing service or through brokers, which are derived using daily swap curves and models that incorporate a number of market data factors, such as discounted cash flows, trades and values of the underlying reference instruments.

Certain centrally cleared swaps are valued at the price determined by the relevant exchange or clearinghouse.

If events (e.g., a company announcement, market volatility or a natural disaster) occur that are expected to materially affect the value of such instruments, or in the event that the application of these methods of valuation results in a price for an investment that is deemed not to be representative of the market value of such investment, or if a price is not available, the investment will be valued by the Global Valuation Committee, or its delegate, in accordance with a policy approved by the Board as reflecting fair value (Fair Valued Investments). When determining the price for Fair Valued Investments, the Global Valuation Committee, or its delegate, seeks to determine the price that each Fund might reasonably expect to receive or pay from the current sale or purchase of that asset or liability in an arms-length transaction. Fair value determinations shall be based upon all available factors that the Global Valuation Committee, or its delegate, deems relevant consistent with the principles of fair value measurement, which include the market approach, income approach and/or in the case of recent investments, the cost approach, as appropriate. The market approach generally consists of using comparable market transactions. The income approach generally is used to discount future cash flows to present value and is adjusted for liquidity as appropriate. These factors include but are not limited to: (i) attributes specific to the investment or asset; (ii) the principal market for the investment or asset; (iii) the customary participants in the principal market for the investment or asset; (iv) data assumptions by market participants for the investment or asset, if reasonably available;

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

(v) quoted prices for similar investments or assets in active markets; and (vi) other factors, such as future cash flows, interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, recovery rates, liquidation amounts and/or default rates. Due to the inherent uncertainty of valuations of such investments, the fair values may differ from the values that would have been used had an active market existed. The Global Valuation Committee, or its delegate, employs various methods for calibrating valuation approaches for investments where an active market does not exist, including regular due diligence of the Fund's pricing vendors, regular reviews of key inputs and assumptions, transactional back-testing or disposition analysis to compare unrealized gains and losses to realized gains and losses, reviews of missing or stale prices and large movements in market values and reviews of any market related activity. The pricing of all Fair Valued Investments is subsequently reported to the Board or a committee thereof on a quarterly basis.

**Fair Value Hierarchy:** Various inputs are used in determining the fair value of investments and derivative financial instruments. These inputs to valuation techniques are categorized into a fair value hierarchy consisting of three broad levels for financial statement purposes as follows:

Level 1 unadjusted price quotations in active markets/exchanges for identical assets or liabilities that each Fund has the ability to access

Level 2 other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market corroborated inputs)

## Notes to Financial Statements (continued)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including each Fund's own assumptions used in determining the fair value of investments and derivative financial instruments) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The significant unobservable inputs used by the Global Valuation Committee in determining the price for Fair Valued Investments are typically categorized as Level 3. The fair value hierarchy for each Fund's investments and derivative instruments has been included in the Schedules of Investments.

Changes in valuation techniques may result in transfers into or out of an assigned level within the hierarchy. In accordance with each Fund's policy, transfers between different levels of the fair value hierarchy are deemed to have occurred as of the beginning of the reporting period. The categorization of a value determined for investments and derivative financial instruments is based on the pricing transparency of the investments and derivative financial instruments and is not necessarily an indication of the risks associated with investing in those securities.

### 4. Securities and Other Investments:

**Asset-Backed and Mortgage-Backed Securities:** Certain Funds may invest in asset-backed securities. Asset-backed securities are generally issued as pass-through certificates, which represent undivided fractional ownership interests in an underlying pool of assets, or as debt instruments, which are also known as collateralized obligations, and are generally issued as the debt of a special purpose entity organized solely for the purpose of owning such assets and issuing such debt. Asset-backed securities are often backed by a pool of assets representing the obligations of a number of different parties. The yield characteristics of certain asset-backed securities may differ from traditional debt securities. One such major difference is that all or a principal part of the obligations may be prepaid at any time because the underlying assets (i.e., loans) may be prepaid at any time. As a result, a decrease in interest rates in the market may result in increases in the level of prepayments as borrowers, particularly mortgagors, refinance and repay their loans. An increased prepayment rate with respect to an asset-backed security subject to such a prepayment feature will have the effect of shortening the maturity of the security. In addition, the Funds may subsequently have to reinvest the proceeds at lower interest rates. If a Fund has purchased such an asset-backed security at a premium, a faster than anticipated prepayment rate could result in a loss of principal to the extent of the premium paid.

Certain Funds may purchase certain mortgage pass-through securities. There are a number of important differences among the agencies and instrumentalities of the U.S. Government that issue mortgage-related securities and among the securities that they issue. For example, mortgage-related securities guaranteed by Ginnie Mae are guaranteed as to the timely payment of principal and interest by Ginnie Mae and such guarantee is backed by the full faith and credit of the United States. However, mortgage-related securities issued by Freddie Mac and Fannie Mae, including Freddie Mac and Fannie Mae guaranteed mortgage pass-through certificates, which are solely the obligations of Freddie Mac and Fannie Mae, are not backed by or entitled to the full faith and credit of the United States, but are supported by the right of the issuer to borrow from the U.S. Treasury.

Non-agency mortgage-backed securities are securities issued by non-governmental issuers and have no direct or indirect government guarantees of payment and are subject to various risks. Non-agency mortgage loans are obligations of the borrowers thereunder only and are not typically insured or guaranteed by any other person or entity. The ability of a borrower to repay a loan is dependent upon the income or assets of the borrower. A number of factors, including a general economic downturn, acts of God, terrorism, social unrest and civil disturbances, may impair a borrower's ability to repay its loans.

**Collateralized Debt Obligations:** Certain Funds may invest in collateralized debt obligations (CDOs), which include collateralized bond obligations (CBOs) and collateralized loan obligations (CLOs). CBOs and CLOs are types of asset-backed securities. A CDO is an entity that is backed by a diversified pool of debt securities (CBOs) or syndicated bank loans (CLOs). The cash flows of the CDO can be split into multiple segments, called tranches, which will vary in risk profile and yield. The riskiest segment is the subordinated or equity tranche. This tranche bears the greatest risk of defaults from the underlying assets in the CDO and serves to protect the other, more senior, tranches from default in all but the most severe circumstances. Since it is shielded from defaults by the more junior tranches, a senior tranche will typically have higher credit ratings and lower yields than their underlying securities, and often receive investment grade ratings from one or more of the nationally recognized rating agencies. Despite the protection from the more junior tranches, senior tranches can experience substantial losses due to actual defaults, increased sensitivity to future defaults and the disappearance of one or more protecting tranches as a result of changes in the credit profile of the underlying pool of assets.

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

**Multiple Class Pass-Through Securities:** Certain Funds may invest in multiple class pass-through securities, including collateralized mortgage obligations ( CMOs ) and commercial mortgage-backed securities. These multiple class securities may be issued by Ginnie Mae, U.S. Government agencies or instrumentalities or by trusts formed by private originators of, or investors in, mortgage loans. In general, CMOs are debt obligations of a legal entity that are collateralized by, and multiple class pass-through securities represent direct ownership interests in, a pool of residential or commercial mortgage loans or mortgage pass-through securities (the Mortgage Assets ), the payments on which are used to make payments on the CMOs or multiple pass-through securities. Classes of CMOs include interest only ( IOs ), principal only ( POs ), planned amortization classes and targeted amortization classes. IOs and POs are stripped mortgage-backed securities representing interests in a pool of mortgages, the cash flow from which has been separated into interest and

---

## Notes to Financial Statements (continued)

principal components. IOs receive the interest portion of the cash flow while POs receive the principal portion. IOs and POs can be extremely volatile in response to changes in interest rates. As interest rates rise and fall, the value of IOs tends to move in the same direction as interest rates. POs perform best when prepayments on the underlying mortgages rise since this increases the rate at which the principal is returned and the yield to maturity on the PO. When payments on mortgages underlying a PO are slower than anticipated, the life of the PO is lengthened and the yield to maturity is reduced. If the underlying Mortgage Assets experience greater than anticipated prepayments of principal, the Funds may not fully recoup their initial investment in IOs.

**Stripped Mortgage-Backed Securities:** Certain Funds may invest in stripped mortgage-backed securities issued by the U.S. Government, its agencies and instrumentalities. Stripped mortgage-backed securities are usually structured with two classes that receive different proportions of the interest (IOs) and principal (POs) distributions on a pool of Mortgage Assets. The Funds also may invest in stripped mortgage-backed securities that are privately issued.

**Zero-Coupon Bonds:** Certain Funds may invest in zero-coupon bonds, which are normally issued at a significant discount from face value and do not provide for periodic interest payments. Zero-coupon bonds may experience greater volatility in market value than other debt obligations of similar maturity which provide for regular interest payments.

**Capital Trusts and Trust Preferred Securities:** Certain Funds may invest in capital trusts and/or trust preferred securities. These securities are typically issued by corporations, generally in the form of interest-bearing notes with preferred securities characteristics, or by an affiliated business trust of a corporation, generally in the form of beneficial interests in subordinated debentures or similarly structured securities. The securities can be structured as either fixed or adjustable coupon securities that can have either a perpetual or stated maturity date. For trust preferred securities, the issuing bank or corporation will pay interest to the trust, which will then be distributed to holders of the trust preferred securities as a dividend. Dividends can be deferred without creating an event of default or acceleration, although maturity cannot take place unless all cumulative payment obligations have been met. The deferral of payments does not affect the purchase or sale of these securities in the open market. Payments on these securities are treated as interest rather than dividends for federal income tax purposes. These securities generally are rated below that of the issuing company's senior debt securities and are freely callable at the issuer's option.

**Preferred Stock:** Certain Funds may invest in preferred stock. Preferred stock has a preference over common stock in liquidation (and generally in receiving dividends as well) but is subordinated to the liabilities of the issuer in all respects. As a general rule, the market value of preferred stock with a fixed dividend rate and no conversion element varies inversely with interest rates and perceived credit risk, while the market price of convertible preferred stock generally also reflects some element of conversion value. Because preferred stock is junior to debt securities and other obligations of the issuer, deterioration in the credit quality of the issuer will cause greater changes in the value of a preferred stock than in a more senior debt security with similar stated yield characteristics. Unlike interest payments on debt securities, preferred stock dividends are payable only if declared by the issuer's board of directors. Preferred stock also may be subject to optional or mandatory redemption provisions.

**Warrants:** Warrants entitle each Fund to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date of the warrants, if any.

**Floating Rate Loan Interests:** Certain Funds may invest in floating rate loan interests. The floating rate loan interests held by the Funds are typically issued to companies (the borrower) by banks, other financial institutions, and privately and publicly offered corporations (the lender). Floating rate loan interests are generally non-investment grade, often involve borrowers whose financial condition is troubled or uncertain and companies that are highly leveraged. The Funds may invest in obligations of borrowers who are in bankruptcy proceedings. Floating rate loan interests may include fully funded term loans or revolving lines of credit. Floating rate loan interests are typically senior in the corporate capital structure of the borrower. Floating rate loan interests generally pay interest at rates that are periodically determined by reference to a base lending rate plus a premium. The base lending rates are generally the lending rate offered by one or more European banks, such as the London Interbank Offered Rate (LIBOR), the prime rate offered by one or more U.S. banks or the certificate of deposit rate. Floating rate loan interests may involve foreign borrowers, and investments may be denominated in foreign currencies. The Funds consider these investments to be investments in debt securities for purposes of its investment policies.

When the Funds purchase a floating rate loan interest, it may receive a facility fee and when it sells a floating rate loan interest, it may pay a facility fee. On an ongoing basis, the Funds may receive a commitment fee based on the undrawn portion of the underlying line of credit amount of a floating rate loan interest. Facility and commitment fees are typically amortized to income over the term of the loan or term of the commitment, respectively. Consent and amendment fees are recorded to income as earned. Prepayment penalty fees, which may be received by the Funds upon the prepayment of a floating rate loan interest by a borrower, are recorded as realized gains. The Funds may invest in multiple series or tranches of a loan. A different series or tranche may have varying terms and carry different associated risks.

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

Floating rate loan interests are usually freely callable at the borrower's option. The Funds may invest in such loans in the form of participations in loans ( Participations ) or assignments ( Assignments ) of all or a portion of loans from third parties. Participations typically will result in the Funds having a contractual relationship only with the lender, not with the borrower. The Funds will have the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the Participation and only upon receipt by the lender of the payments from the borrower. In connection with purchasing Participations, the Funds generally will have no right to enforce compliance by the borrower with the terms of the loan agreement, nor any rights of offset against the borrower, and the Funds may not benefit directly from any collateral supporting the loan in which it has purchased the Participation.

ANNUAL REPORT

AUGUST 31, 2015

71

## Notes to Financial Statements (continued)

As a result, the Funds will assume the credit risk of both the borrower and the lender that is selling the Participation. The Funds' investment in loan participation interests involves the risk of insolvency of the financial intermediaries who are parties to the transactions. In the event of the insolvency of the lender selling the Participation, the Funds may be treated as a general creditor of the lender and may not benefit from any offset between the lender and the borrower. Assignments typically result in the Funds having a direct contractual relationship with the borrower, and the Funds may enforce compliance by the borrower with the terms of the loan agreement.

In connection with floating rate loan interests, certain Funds may also enter into unfunded floating rate loan interests (commitments). In connection with these commitments, the Funds earn a commitment fee, typically set as a percentage of the commitment amount. Such fee income, which is included in interest income in the Statements of Operations, is recognized ratably over the commitment period. Unfunded floating rate loan interests are marked-to-market daily, and any unrealized appreciation (depreciation) is included in the Statements of Assets and Liabilities and Statements of Operations. As of August 31, 2015, the Funds had the following unfunded floating rate loan interests:

| Borrower  | Value of      |               |                         |
|---|---------------|---------------|-------------------------|
|   | Unfunded      | Underlying    |                         |
|   | Floating Rate | Floating Rate | Unrealized Depreciation |
|   | Loan Interest | Loan Interest | Unrealized Depreciation |
| BHL .Universal Services of America LP, 2015 2nd Lien Delayed Draw Term Loan | \$ 8,878      | \$ 8,789      |                         |
| BHL .Universal Services of America LP, 2015 Delayed Draw Term Loan          | \$ 34,965     | \$ 34,498     | \$ (116)                |
| FRA .Universal Services of America LP, 2015 2nd Lien Delayed Draw Term Loan | \$ 39,490     | \$ 39,095     |                         |
| FRA .Universal Services of America LP, 2015 Delayed Draw Term Loan          | \$ 155,755    | \$ 153,679    | \$ (519)                |
| BLW .Universal Services of America LP, 2015 2nd Lien Delayed Draw Term Loan | \$ 30,000     | \$ 29,700     |                         |
| BLW .Universal Services of America LP, 2015 Delayed Draw Term Loan          | \$ 62,583     | \$ 61,748     | \$ (208)                |

**Forward Commitments and When-Issued Delayed Delivery Securities:** Certain Funds may purchase securities on a when-issued basis and may purchase or sell securities on a forward commitment basis. Settlement of such transactions normally occurs within a month or more after the purchase or sale commitment is made. The Funds may purchase securities under such conditions with the intention of actually acquiring them, but may enter into a separate agreement to sell the securities before the settlement date. Since the value of securities purchased may fluctuate prior to settlement, the Funds may be required to pay more at settlement than the security is worth. In addition, the Funds are not entitled to any of the interest earned prior to settlement. When purchasing a security on a delayed delivery basis, the Funds assume the rights and risks of ownership of the security, including the risk of price and yield fluctuations. In the event of default by the counterparty, the Funds' maximum amount of loss is the unrealized appreciation of unsettled when-issued transactions.

**Reverse Repurchase Agreements:** Certain Funds may enter into reverse repurchase agreements with qualified third party broker-dealers. In a reverse repurchase agreement, the Funds sell securities to a bank or broker-dealer and agrees to repurchase the same securities at a mutually agreed upon date and price. The Funds receive cash from the sale to use for other investment purposes. During the term of the reverse repurchase agreement, the Funds continue to receive the principal and interest payments on the securities sold. Certain agreements have no stated maturity and can be terminated by either party at any time. Interest on the value of the reverse repurchase agreements issued and outstanding is based upon competitive market rates determined at the time of issuance. The Funds may utilize reverse repurchase agreements when it is anticipated that the interest income to be earned from the investment of the proceeds of the transaction is greater than the interest expense of the transaction. Reverse repurchase agreements involve leverage risk. If the Funds suffer a loss on its investment of the transaction proceeds from a reverse repurchase agreement, the Funds would still be required to pay the full repurchase price. Further, the Funds remain subject to the risk that the market value of the securities repurchased declines below the repurchase price. In such cases, the Funds would be required to return a portion of the cash received from the transaction or provide additional securities to the counterparty.

For financial reporting purposes, cash received in exchange for securities delivered plus accrued interest due to the counterparty is recorded as a liability in the Statements of Assets and Liabilities at face value including accrued interest. Due to the short-term nature of the reverse repurchase agreements, face value approximates fair value. Interest payments made by the Funds to the counterparties are recorded as a component of interest expense in the Statements of Operations. In periods of increased demand for the security, a Fund may receive a fee for use of the security by the counterparty, which may result in interest income to the Funds.

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

For the year ended August 31, 2015, the average amount of reverse repurchase agreements outstanding and the daily weighted average interest rates for BLW were \$286,683,989 and 0.53%, respectively.

Reverse repurchase transactions are entered into by the Funds under Master Repurchase Agreements (each, an MRA ), which permit the Funds, under certain circumstances, including an event of default (such as bankruptcy or insolvency), to offset payables and/or receivables under the MRA with collateral held and/or posted to the counterparty and create one single net payment due to or from the Funds. With reverse repurchase transactions, typically the Funds and the counterparties are permitted to sell, re-pledge, or use the collateral associated with the transaction. Bankruptcy or insolvency laws of a particular jurisdiction may impose restrictions on or prohibitions against such a right of offset in the event of the MRA counterparty s bankruptcy or insolvency. Pursuant to the terms of the MRA, the Funds receive or post securities as collateral with a market value in excess of the repurchase price to be paid or received by the Funds upon the maturity of the transaction. Upon a bankruptcy or insolvency of the MRA counterparty, the Funds are considered an unsecured creditor with respect to excess collateral and, as such, the return of excess collateral may be delayed.

## Notes to Financial Statements (continued)

As of August 31, 2015, the following table is a summary of the BLW's open reverse repurchase agreements by counterparty which are subject to offset under an MRA on a net basis:

| Counterparty                       | Fair Value of Non-cash        |                         |   |                         |
|------------------------------------|-------------------------------|-------------------------|---|-------------------------|
|                                    | Reverse Repurchase Agreements | Collateral Pledged      |   | Cash Collateral Pledged |
|                                    |                               |                         | Including Accrued Interest <sup>1</sup> |                         |
| Barclays Capital, Inc.             | \$ 18,193,459                 | \$ (18,193,459)         |   |                         |
| BNP Paribas Securities Corp.       | 9,892,089                     | (9,892,089)             |   |                         |
| Credit Suisse Securities (USA) LLC | 11,266,587                    | (11,266,587)            |   |                         |
| Deutsche Bank Securities, Inc.     | 73,643,047                    | (73,643,047)            |   |                         |
| HSBC Securities (USA), Inc.        | 55,808,435                    | (55,808,435)            |   |                         |
| RBC Capital Markets LLC            | 50,009,371                    | (50,009,371)            |   |                         |
| UBS Securities LLC                 | 45,223,472                    | (45,223,472)            |   |                         |
| <b>Total</b>                       | <b>\$ 264,036,460</b>         | <b>\$ (264,036,460)</b> |   |                         |

<sup>1</sup> Net collateral with a value of \$295,027,898 has been pledged/received in connection with open reverse repurchase agreements. Excess of net collateral pledged to the individual counterparty is not shown for financial reporting purposes.

In the event the counterparty of securities under an MRA files for bankruptcy or becomes insolvent, the Funds' use of the proceeds from the agreement may be restricted while the counterparty, or its trustee or receiver, determines whether or not to enforce the Funds' obligation to repurchase the securities.

**Commitments:** BLW may enter into commitments, or agreements, to acquire an investment at a future date (subject to certain conditions) in connection with a potential public or non-public offering. Such agreements may obligate BLW to make future cash payments. As of August 31, 2015, BLW had outstanding commitments of \$10,878,000. These commitments are not included in the net assets of the Fund as of August 31, 2015.

**Short Sales:** Certain Funds may enter into short sale transactions in which the Funds sells a security they do not hold in anticipation of a decline in the market price of that security. When the Funds make a short sale, they will borrow the security sold short (borrowed bond) and deliver the security to the counterparty to which they sold the security short. An amount equal to the proceeds received by the Funds is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the market value of the short sale. The Funds are required to repay the counterparty interest on the security sold short, which, if applicable, is shown as interest expense in the Statements of Operations. The Funds are exposed to market risk based on the amount, if any, that the market value of the security increases beyond the market value at which the position was sold. Thus, a short sale of a security involves the risk that instead of declining, the price of the security sold short will rise. The short sale of securities involves the possibility of a theoretically unlimited loss since there is a theoretically unlimited potential for the market price of the security sold short to increase. A gain, limited to the price at which the Funds sold the security short, or a loss, unlimited as to the dollar amount, will be recognized upon the termination of a short sale if the market price is either less than or greater than the proceeds originally received. There is no assurance that the Funds will be able to close out a short position at a particular time or at an acceptable price.

##### 5. Derivative Financial Instruments:

The Funds engage in various portfolio investment strategies using derivative contracts both to increase the returns of the Funds and/or to manage economically their exposure to certain risks such as credit risk, equity risk, interest rate risk, and foreign currency exchange rate risk. These contracts may be transacted on an exchange or OTC.

**Financial Futures Contracts:** Certain Funds invest in long and/or short positions in financial futures contracts and options on financial futures contracts to gain exposure to, or economically hedge against, changes in interest rates (interest rate risk), changes in the value of equity securities (equity risk) or foreign currencies (foreign currency exchange rate risk). Financial futures contracts are agreements between the Funds

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

and a counterparty to buy or sell a specific quantity of an underlying instrument at a specified price and at a specified date. Depending on the terms of the particular contract, financial futures contracts are settled either through physical delivery of the underlying instrument on the settlement date or by payment of a cash settlement amount on the settlement date.

Upon entering into a financial futures contract, the Funds are required to deposit initial margin with the broker in the form of cash or securities in an amount that varies depending on a contract's size and risk profile. The initial margin deposit must then be maintained at an established level over the life of the contract. Securities deposited as initial margin are designated on the Schedules of Investments and cash deposited, if any, is recorded on the Statements of Assets and Liabilities as cash pledged for financial futures contracts. Pursuant to the contract, the Funds agree to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as variation margin. Variation margin is recorded by the Funds as unrealized appreciation (depreciation) and, if applicable, as a receivable or payable for variation margin in the Statements of Assets and Liabilities.

When the contract is closed, the Funds record a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The use of financial futures contracts involves the risk of an imperfect correlation in the movements in the price of financial futures contracts, interest or foreign currency exchange rates and the underlying assets.

**Forward Foreign Currency Exchange Contracts:** Certain Funds enter into forward foreign currency exchange contracts as an economic hedge against either specific transactions or portfolio instruments or to obtain exposure to, or hedge exposure away from, foreign currencies (foreign currency exchange rate

---

## Notes to Financial Statements (continued)

risk). A forward foreign currency exchange contract is an agreement between two parties to buy and sell a currency at a set exchange rate on a future date. Forward foreign currency exchange contracts, when used by the Funds, help to manage the overall exposure to the currencies in which some of the investments held by the Funds are denominated. Non-deliverable forward foreign currency exchange contracts are settled with the counterparty in cash without the delivery of foreign currency. The contract is marked-to-market daily and the change in market value is recorded by the Funds as an unrealized gain or loss. When the contract is closed, the Funds record a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. The use of forward foreign currency exchange contracts involves the risk that the value of a forward foreign currency exchange contract changes unfavorably due to movements in the value of the referenced foreign currencies.

Options: Certain Funds purchase and write call and put options to increase or decrease their exposure to underlying instruments including equity risk and interest rate risk and/or, in the case of options written, to generate gains from options premiums. A call option gives the purchaser (holder) of the option the right (but not the obligation) to buy, and obligates the seller (writer) to sell (when the option is exercised) the underlying instrument at the exercise or strike price at any time or at a specified time during the option period. A put option gives the holder the right to sell and obligates the writer to buy the underlying instrument at the exercise or strike price at any time or at a specified time during the option period. When the Funds purchase (write) an option,

an amount equal to the premium paid (received) by the Funds is reflected as an asset (liability). The amount of the asset (liability) is subsequently marked-to-market to reflect the current market value of the option purchased (written). When an instrument is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the instrument acquired or deducted from (or added to) the proceeds of the instrument sold. When an option expires (or the Funds enter into a closing transaction), the Funds realize a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premiums received or paid). When the Funds write a call option, such option is covered, meaning that the Funds hold the underlying instrument subject to being called by the option counterparty. When the Funds write a put option, such option is covered by cash in an amount sufficient to cover the obligation.

Options on swaps (swaptions) are similar to options on securities except that instead of selling or purchasing the right to buy or sell a security, the writer or purchaser of the swaptions is granting or buying the right to enter into a previously agreed upon interest rate or credit default swap agreement (interest rate risk and/or credit risk) at any time before the expiration of the option.

Certain Funds also purchase or sell listed or OTC foreign currency options, foreign currency futures and related options on foreign currency futures as a short or long hedge against possible variations in foreign exchange rates or to gain exposure to foreign currencies (foreign currency exchange rate risk). When foreign currency is purchased or sold through an exercise of a foreign currency option, the related premium paid (or received) is added to (or deducted from) the basis of the foreign currency acquired or deducted from (or added to) the proceeds of the foreign currency sold (receipts from the foreign currency purchased). Such transactions may be effected with respect to hedges on non-U.S. dollar denominated instruments owned by the Funds but not yet delivered, or committed or anticipated to be purchased by the Funds.

In purchasing and writing options, the Funds bear the risk of an unfavorable change in the value of the underlying instrument or the risk that the Funds may not be able to enter into a closing transaction due to an illiquid market. Exercise of a written option could result in the Funds purchasing or selling a security when it otherwise would not, or at a price different from the current market value.

Swaps: Certain Funds enter into swap agreements in which the Funds and a counterparty agree either to make periodic net payments on a specified notional amount or a net payment upon termination. Swap agreements are privately negotiated in the OTC market and may be entered into as a bilateral contract (OTC swaps) or centrally cleared (centrally cleared swaps). Swaps are marked-to-market daily and changes in value are recorded as unrealized appreciation (depreciation).

For OTC swaps, any upfront premiums paid are recorded as assets and any upfront fees received are recorded as liabilities and are shown as swap premiums paid and swap premiums received, respectively, in the Statements of Assets and Liabilities and amortized over the term of the OTC swap. Payments received or made by the Funds for OTC swaps are recorded in the Statements of Operations as realized gains or losses, respectively. When an OTC swap is terminated, the Funds will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Funds' basis in the contract, if any. Generally, the basis of the contract is the premium received or paid.

In a centrally cleared swap, immediately following execution of the swap agreement, the swap agreement is novated to a central counterparty (the CCP) and the Funds' counterparty on the swap agreement becomes the CCP. The Funds are required to interface with the CCP through a broker. Upon entering into a centrally cleared swap, the Funds are required to deposit initial margin with the broker in the form of cash or

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

securities in an amount that varies depending on the size and risk profile of the particular swap. Securities deposited as initial margin are designated on the Schedules of Investments and cash deposited is recorded on the Statements of Assets and Liabilities as cash pledged for centrally cleared swaps. The daily change in valuation of centrally cleared swaps is recorded as a receivable or payable for variation margin in the Statements of Assets and Liabilities. Payments received from (paid to) the counterparty, including at termination, are recorded as realized gain (loss) in the Statements of Operations.

Swap transactions involve, to varying degrees, elements of interest rate, credit and market risk in excess of the amounts recognized in the Statements of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreements, and that there may be unfavorable changes in interest rates and/or market values associated with these transactions.

---

## Notes to Financial Statements (continued)

**Credit default swaps** Certain Funds enter into credit default swaps to manage their exposure to the market or certain sectors of the market, to reduce their risk exposure to defaults of corporate and/or sovereign issuers or to create exposure to corporate and/or sovereign issuers to which they are not otherwise exposed (credit risk). The Funds may either buy or sell (write) credit default swaps on single-name issuers (corporate or sovereign), a combination or basket of single-name issuers or traded indexes. Credit default swaps on single-name issuers are agreements in which the protection buyer pays fixed periodic payments to the seller in consideration for a guarantee from the protection seller to make a specific payment should a negative credit event take place with respect to the referenced entity (e.g., bankruptcy, failure to pay, obligation accelerators, repudiation, moratorium or restructuring). Credit default swaps on traded indexes are agreements in which the buyer pays fixed periodic payments to the seller in consideration for a guarantee from the seller to make a specific payment should a write-down, principal or interest shortfall or default of all or individual underlying securities included in the index occur. As a buyer, if an underlying credit event occurs, the Funds will either (i) receive from the seller an amount equal to the notional amount of the swap and deliver the referenced security or underlying securities comprising the index, or (ii) receive a net settlement of cash equal to the notional amount of the swap less the recovery value of the security or underlying securities comprising the index. As a seller (writer), if an underlying credit event occurs, the Funds will either pay the buyer an amount equal to the notional amount of the swap and take delivery of the referenced security or underlying securities comprising the index or pay a net settlement of cash equal to the notional amount of the swap less the recovery value of the security or underlying securities comprising the index.

**Interest rate swaps** Certain Funds enter into interest rate swaps to gain or reduce exposure to interest rates or to manage duration, the yield curve or interest rate risk by economically hedging the value of the fixed rate bonds, which may decrease when interest rates rise (interest rate risk). Interest rate swaps are agreements in which one party pays a stream of interest payments, either fixed or floating, for another party's stream of interest payments, either fixed or floating, on the same notional amount for a specified period of time. In more complex swaps, the notional principal amount may decline (or amortize) over time.

**Counterparty Credit Risk:** A derivative contract may suffer a mark-to-market loss if the value of the contract decreases due to an unfavorable change in the market rates or values of the underlying instrument. Losses can also occur if the counterparty does not perform under the contract.

A Fund's risk of loss from counterparty credit risk on OTC derivatives is generally limited to the aggregate unrealized gain less the value of any collateral held by such Fund.

For OTC options purchased, each Fund bears the risk of loss of the amount of the premiums paid plus the positive change in market values net of any collateral held by such Fund should the counterparty fail to perform under the contracts. Options written by the Funds do not typically give rise to counterparty credit risk, as options written generally obligate the Funds, and not the counterparty, to perform, though the Funds may be exposed to counterparty credit risk with respect to options written to the extent the Funds deposit collateral with its counterparty to a written option.

With exchange-traded options purchased, futures and centrally cleared swaps, there is less counterparty credit risk to the Funds since the exchange or clearinghouse, as counterparty to such instruments, guarantees against a possible default. The clearinghouse stands between the buyer and the seller of the contract; therefore, credit risk is limited to failure of the clearinghouse. While offset rights may exist under applicable law, a Fund does not have a contractual right of offset against a clearing broker or clearinghouse in the event of a default (including the bankruptcy or insolvency) of the clearing broker or clearinghouse. Additionally, credit risk exists in exchange-traded futures and centrally cleared swaps with respect to initial and variation margin that is held in a clearing broker's customer accounts. While clearing brokers are required to segregate customer margin from their own assets, in the event that a clearing broker becomes insolvent or goes into bankruptcy and at that time there is a shortfall in the aggregate amount of margin held by the clearing broker for all its clients, typically the shortfall would be allocated on a pro rata basis across all the clearing broker's customers, potentially resulting in losses to the Funds.

In order to better define their contractual rights and to secure rights that will help the Funds mitigate their counterparty risk, the Funds may enter into an International Swaps and Derivatives Association, Inc. Master Agreement ( ISDA Master Agreement ) or similar agreement with their counterparties. An ISDA Master Agreement is a bilateral agreement between each Fund and a counterparty that governs certain OTC derivatives and typically contains, among other things, collateral posting terms and netting provisions in the event of a default and/or termination event. Under an ISDA Master Agreement, each Fund may, under certain circumstances, offset with the counterparty certain derivative financial instruments payables and/or receivables with collateral held and/or posted and create one single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of default including the bankruptcy or insolvency of the counterparty. Bankruptcy or insolvency laws of a particular jurisdiction may restrict or prohibit the right of offset in bankruptcy, insolvency or other events. In addition, certain ISDA Master Agreements allow counterparties to terminate derivative contracts prior to maturity in the event the Funds' net assets decline

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

by a stated percentage or the Funds fail to meet the terms of their ISDA Master Agreements. The result would cause the Funds to accelerate payment of any net liability owed to the counterparty.

**Collateral Requirements:** For derivatives traded under an ISDA Master Agreement, the collateral requirements are typically calculated by netting the mark-to-market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by the Funds and the counterparty.

## Notes to Financial Statements (continued)

Cash collateral that has been pledged to cover obligations of the Funds and cash collateral received from the counterparty, if any, is reported separately on the Statements of Assets and Liabilities as cash pledged as collateral and cash received as collateral, respectively. Non-cash collateral pledged by the Funds, if any, is noted in the Schedules of Investments. Generally, the amount of collateral due from or to a party has to exceed a minimum transfer amount threshold (typically either \$250,000 or \$500,000) before a transfer is required, which is determined at the close of business of the Funds. Any additional required collateral is delivered to/pledged by the Funds on the next business day. Typically, the Funds and their counterparties are not permitted to sell, re-pledge or use the collateral they receive. To the extent amounts due to the Funds from their counterparties are not fully collateralized, the Funds bear the risk of loss from counterparty non-performance. Likewise, to the extent the Funds have delivered collateral to a counterparty and stand ready to perform under the terms of their agreement with such counterparty, the Funds bear the risk of loss from a counterparty in the amount of the value of the collateral in the event the counterparty fails to return such collateral. Based on the terms of agreements, collateral may not be required to all derivative contacts.

For financial reporting purposes, the Funds do not offset derivative assets and derivative liabilities that are subject to netting arrangements, if any, in the Statements of Assets and Liabilities.

### 6. Investment Advisory Agreement and Other Transactions with Affiliates:

The PNC Financial Services Group, Inc. is the largest stockholder and an affiliate of BlackRock, Inc. ( BlackRock ) for 1940 Act purposes.

Each Fund entered into an Investment Advisory Agreement with the Manager, the Funds' investment advisor, an indirect, wholly owned subsidiary of BlackRock, to provide investment advisory and administration services. The Manager is responsible for the management of each Fund's portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of each Fund. For such services, each Fund pays the Manager a monthly fee based on a percentage of each Fund's average daily net assets plus the proceeds of any outstanding borrowings used for leverage at the following annual rates:

|     |       |
|-----|-------|
| BHL | 1.00% |
| FRA | 0.75% |
| BLW | 0.55% |

The Manager voluntarily agreed to waive its investment advisory fees by the amount of investment advisory fees each Fund pays to the Manager indirectly through its investment in affiliated money market funds. However, the Manager does not waive its investment advisory fees by the amount of investment advisory fees paid in connection with each Fund's investments in other affiliated investment companies, if any. These amounts are shown as fees waived by the Manager in the Statements of Operations.

The Manager provides investment management and other services to the Taxable Subsidiaries. The Manager does not receive separate compensation from the Taxable Subsidiaries for providing investment management or administrative services. However, each Fund pays the Manager based on the Fund's net assets, which include the assets of the Taxable Subsidiaries.

Certain officers and/or Directors of the Funds are officers and/or directors of BlackRock or its affiliates. The Funds reimburse the Manager for a portion of the compensation paid to the Funds' Chief Compliance Officer, which is included in officer and directors in the Statements of Operations.

### 7. Purchases and Sales:

For the year ended August 31, 2015, purchases and sales of investments, including paydowns and excluding short-term securities, were as follows:

| Purchases                      | BHL                  | FRA                   | BLW                   |
|--------------------------------|----------------------|-----------------------|-----------------------|
| Non-U.S. Government Securities | \$ 74,968,375        | \$ 340,775,205        | \$ 427,705,916        |
| U.S. Government Securities     |                      |                       | 12,071,661            |
| <b>Total Purchases</b>         | <b>\$ 74,968,375</b> | <b>\$ 340,775,205</b> | <b>\$ 439,777,577</b> |

| Sales  | BHL                  | FRA                   | BLW                   |
|--|----------------------|-----------------------|-----------------------|
| Non-U.S. Government Securities (includes paydowns) | \$ 85,194,466        | \$ 373,327,184        | \$ 447,444,553        |
| U.S. Government Securities                         |                      |                       | 11,943,885            |
| <b>Total Sales</b>                                 | <b>\$ 85,194,466</b> | <b>\$ 373,327,184</b> | <b>\$ 459,388,438</b> |

**8. Income Tax Information:**

It is the Funds' policy to comply with the requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies, and to distribute substantially all of their taxable income to their shareholders. Therefore, no federal income tax provision is required, except with respect to any taxes related to the Taxable Subsidiaries.

## Notes to Financial Statements (continued)

The Funds file U.S. federal and various state and local tax returns. No income tax returns are currently under examination. The statute of limitations on the Funds' U.S. federal tax returns remains open for each of the four years ended August 31, 2015. The statutes of limitations on the Funds' state and local tax returns may remain open for an additional year depending upon the jurisdiction.

Management has analyzed tax laws and regulations and their application to the Funds as of August 31, 2015, inclusive of the open tax return years, and does not believe there are any uncertain tax positions that require recognition of a tax liability in the Funds' financial statements.

U.S. GAAP require that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share. As of August 31, 2015, the following permanent differences attributable to the accounting for swap agreements, amortization methods on fixed income securities, foreign currency transactions, non-deductible expenses, the expiration of capital loss carryforwards and liquidating distribution on a wholly-owned subsidiary were reclassified to the following accounts:

|   | BHL         | FRA          | BLW            |
|---|-------------|--------------|----------------|
| Paid-in capital   |             | \$ (229,369) | \$ (2,029,606) |
| Undistributed net investment income                             | \$ 90,903   | \$ 648,421   | \$ 6,944,694   |
| Undistributed net realized gain (Accumulated net realized loss) | \$ (90,903) | \$ (419,052) | \$ (4,915,088) |

The tax character of distributions paid was as follows:

|                         |           | BHL          | FRA           | BLW           |
|-------------------------|-----------|--------------|---------------|---------------|
| Ordinary income         | 8/31/2015 | \$ 6,869,345 | \$ 30,210,441 | \$ 47,771,976 |
|                         | 8/31/2014 | \$ 7,542,730 | \$ 33,203,943 | \$ 45,292,717 |
| Long term Capital Gains | 8/31/2015 | \$ 1,286,571 |               |               |
| <b>Total</b>            | 8/31/2015 | \$ 8,155,916 | \$ 30,210,441 | \$ 47,771,976 |
|                         | 8/31/2014 | \$ 7,542,730 | \$ 33,203,943 | \$ 45,292,717 |

As of August 31, 2015 the tax components of accumulated net losses were as follows:

|  | BHL            | FRA              | BLW             |
|--|----------------|------------------|-----------------|
| Undistributed ordinary income              | \$ 655,125     | \$ 2,999,553     | \$ 5,490,718    |
| Capital loss carryforwards                 | (1,098,340)    | (89,885,804)     | (58,887,414)    |
| Net unrealized gains (losses) <sup>1</sup> | (2,693,706)    | (17,814,214)     | (17,513,490)    |
| <b>Total</b>                               | \$ (3,136,921) | \$ (104,700,465) | \$ (70,910,186) |

<sup>1</sup> The differences between book-basis and tax-basis net unrealized losses were attributable primarily to the tax deferral of losses on wash sales, amortization methods for premiums and discounts on fixed income securities, the accrual of income on securities in default, the realization for tax purposes of unrealized gains/losses on certain futures and foreign currency contracts, the accounting for swap agreements, dividends recognized for tax purposes, the deferral of compensation to directors and investments in wholly owned subsidiaries.

As of August 31, 2015, the Funds had capital loss carryforwards available to offset future realized capital gains through the indicated expiration dates as follows:

Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

| Expires                         | BHL          | FRA           | BLW           |
|---------------------------------|--------------|---------------|---------------|
| 2016                            |              | \$ 20,623,334 | \$ 284,006    |
| 2017                            |              | 30,228,590    | 9,996,868     |
| 2018                            |              | 27,716,009    | 37,509,275    |
| 2019                            |              | 2,206,081     |               |
| No expiration date <sup>3</sup> | \$ 1,098,340 | 9,111,790     | 11,097,265    |
| <b>Total</b>                    | \$ 1,098,340 | \$ 89,885,804 | \$ 58,887,414 |

<sup>3</sup> Must be utilized prior to losses subject to expiration.

As of August 31, 2015, gross unrealized appreciation and depreciation based on cost for federal income tax purposes were as follows:

|  | BHL            | FRA             | BLW             |
|--|----------------|-----------------|-----------------|
| Tax cost                                   | \$ 173,172,876 | \$ 780,667,448  | \$ 900,797,475  |
| Gross unrealized appreciation              | \$ 522,197     | \$ 3,254,895    | \$ 12,877,118   |
| Gross unrealized depreciation              | (3,208,679)    | (20,855,164)    | (30,325,548)    |
| Net unrealized appreciation (depreciation) | \$ (2,686,482) | \$ (17,600,269) | \$ (17,448,430) |

**9. Bank Borrowings:**

BHL and FRA are party to a senior committed secured, 360-day rolling line of credit facility and a separate security agreement (the SSB Agreement ) with State Street Bank and Trust Company ( SSB ). SSB may elect to terminate its commitment upon 360-days written notice to BHL and FRA, respectively. As of August 31, 2015, BHL and FRA have not received any notice to terminate. BHL and FRA have granted a security interest in substantially all of their assets to SSB.

## Notes to Financial Statements (continued)

The SSB Agreement allows for the following maximum commitment amounts:

|     | <b>Commitment<br/>Amounts</b> |
|-----|-------------------------------|
| BHL | \$ 64,000,000                 |
| FRA | \$ 280,000,000                |

Advances will be made by SSB to BHL and FRA, at BHL and FRA option of (a) the higher of (i) 0.80% above the Fed Funds rate and (ii) 0.80% above the Overnight LIBOR or (b) 0.80% above 7-day, 30-day, 60-day or 90-day LIBOR.

In addition, BHL and FRA pay a facility fee and utilization fee (based on the daily unused portion of the commitments). The commitment fees are waived if BHL and FRA meet certain conditions. The fees associated with each of the agreements are included in the Statements of Operations as borrowing costs. Advances to BHL and FRA as of August 31, 2015 are shown in the Statements of Assets and Liabilities as bank borrowings payable. Based on the short-term nature of the borrowings under the line of credit and the variable interest rate, the carrying amount of the borrowings approximates fair value.

BHL and FRA may not declare dividends or make other distributions on shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding short-term borrowings is less than 300%.

For the year ended August 31, 2015, the average amount of bank borrowings and the daily weighted average interest rates for BHL and FRA, funds with loans under the revolving credit agreements were as follows:

|     | <b>Average Amount of Bank<br/>Borrowings</b> | <b>Daily Weighted Average<br/>Interest Rate</b> |
|-----|--|---|
| BHL | \$ 49,947,945                                | 0.94%   |
| FRA | \$ 221,632,877                               | 0.94%   |

**10. Principal Risks:**

In the normal course of business, certain Funds invest in securities and enter into transactions where risks exist due to fluctuations in the market (market risk) or failure of the issuer of a security to meet all its obligations, including to pay principal and interest when due (issuer credit risk). The value of securities held by the Funds may decline in response to certain events, including those directly involving the issuers whose securities are owned by the Funds; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency, interest rate and price fluctuations. Similar to issuer credit risk, the Funds may be exposed to counterparty credit risk, or the risk that an entity with which the Funds have unsettled or open transactions may fail to or be unable to perform on its commitments. The Funds manage counterparty credit risk by entering into transactions only with counterparties that the Manager believes have the financial resources to honor their obligations and by monitoring the financial stability of those counterparties. Financial assets, which potentially expose the Funds to market, issuer and counterparty credit risks, consist principally of financial instruments and receivables due from counterparties. The extent of the Funds' exposure to market, issuer and counterparty credit risks with respect to these financial assets is generally approximated by their value recorded in the Statements of Assets and Liabilities, less any collateral held by the Funds.

Certain Funds may invest in securities that are rated below investment grade quality (sometimes called "junk bonds"), which are predominantly speculative, have greater credit risk and generally are less liquid and have more volatile prices than higher quality securities.

Certain Funds invest a significant portion of their assets in fixed-income securities and/or use derivatives tied to the fixed-income markets. Changes in market interest rates or economic conditions may affect the value and/or liquidity of such investments. Interest rate risk is the risk that prices of bonds and other fixed-income securities will increase as interest rates fall and decrease as interest rates rise. The Funds may be subject to a greater risk of rising interest rates due to the current period of historically low rates.

Certain Funds invest a significant portion of its assets in securities backed by commercial or residential mortgage loans or in issuers that hold mortgage and other asset-backed securities. Investment percentages in these securities are presented in the Schedules of Investments. Changes in economic conditions, including delinquencies and/or defaults on assets underlying these securities, can affect the value, income and/or liquidity of such positions.

### 11. Capital Share Transactions

BHL and BLW are authorized to issue an unlimited number of shares, par value \$0.001, all of which were initially classified as Common Shares. FRA is authorized to issue 200 million shares, par value \$0.10, all of which were initially classified as Common Shares. The Board is authorized, however, to reclassify any unissued Common Shares without approval of Common Shareholders.

For the years ended August 31, 2015 and August 31, 2014, shares issued and outstanding remained constant.

FRA and BLW each filed a final prospectus with the U.S. Securities and Exchange Commission ( SEC ) allowing them to issue an additional 3,050,000 and 3,750,000 Common Shares, respectively, through an equity shelf program (a Shelf Offering ). Under the Shelf Offering, FRA and BLW, subject to

## Notes to Financial Statements (continued)

market conditions, may raise additional equity capital from time to time in varying amounts and utilizing various offering methods at a net price at or above FRA and BLW's NAV per Common Share (calculated within 48 hours of pricing). Please see Additional Information – Shelf Offering Program for additional information about the Shelf Offering.

Costs incurred by FRA and BLW in connection with the Shelf Offering are recorded as a deferred charge and amortized over 12 months.

### 12. Contingencies:

In May 2015, the Motors Liquidation Company Avoidance Action Trust, as the Trust Administrator and Trustee of the General Motors bankruptcy estate, began serving amended complaints on defendants, which include former holders of certain General Motors debt (the Debt), in an adversary proceeding in the United States Bankruptcy Court for the Southern District of New York. In addition to FRA, the lawsuit also names over five hundred other institutional investors as defendants, some of which are also managed by BlackRock Advisors, LLC or its affiliates. The plaintiffs are seeking an order that FRA and other defendants return proceeds received in 2009 in full payment of the principal and interest on the Debt. The holders received a full repayment of a term loan pursuant to a court order in the General Motors bankruptcy proceeding with the understanding that the Debt was fully secured at the time of repayment. The plaintiffs contend that FRA and other defendants were not secured creditors at the time of the 2009 payments and therefore not entitled to the payments in full. FRA cannot predict the outcome of the lawsuit, or the effect, if any, on FRA's net asset value. As such, no liability for litigation related to this matter is reflected in the financial statements. Management cannot determine the amount of loss that will be realized by FRA but does not expect the loss to exceed the payment received in 2009. The amount of the proceeds received in 2009 is \$668,165.

### 13. Subsequent Events:

Management's evaluation of the impact of all subsequent events on the Funds' financial statements was completed through the date the financial statements were issued and the following items were noted:

The Funds paid a net investment income dividend in the following amounts per share on September 30, 2015 to shareholders of record on September 15, 2015:

|     | <b>Common<br/>Dividend<br/>Per Share</b> |
|-----|--|
| BHL | \$ 0.0583                                |
| FRA | \$ 0.0674                                |
| BLW | \$ 0.0995                                |

Additionally, the Funds declared a net investment income dividend on October 1, 2015 payable to Common Shareholders of record on October 15, 2015 as follows:

|     | <b>Common<br/>Dividend<br/>Per Share</b> |
|-----|--|
| BHL | \$ 0.0510                                |
| FRA | \$ 0.0610                                |
| BLW | \$ 0.0870                                |

## Report of Independent Registered Public Accounting Firm

### To the Shareholders and Board of Directors of BlackRock Floating Rate Income Strategies Fund, Inc. and to the Shareholders and Board of Trustees of BlackRock Defined Opportunity Credit Trust and BlackRock Limited Duration Income Trust:

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of BlackRock Defined Opportunity Credit Trust (the Fund) as of August 31, 2015, and its related statements of operations and cash flows for the year then ended, its statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended. We have also audited the accompanying consolidated statement of assets and liabilities, including the consolidated schedule of investments, of BlackRock Floating Rate Income Strategies Fund, Inc., and the statement of assets and liabilities, including the schedule of investments, of BlackRock Limited Duration Income Trust, (collectively with the Fund mentioned above, the Funds), as of August 31, 2015, and their related consolidated statements of operations and consolidated cash flows for the year then ended, their consolidated statements of changes in net assets for each of the two years in the period then ended, and their consolidated financial highlights for the years ended August 31, 2015, August 31, 2014, August 31, 2013, and August 31, 2012, and their financial highlights for the year ended August 31, 2011. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Funds are not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of August 31, 2015, by correspondence with the custodian, brokers and agent banks; where replies were not received from brokers or agent banks, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of BlackRock Defined Opportunity Credit Trust as of August 31, 2015, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and its financial highlights for each of the five years in the period then ended, and the consolidated financial position of BlackRock Floating Rate Income Strategies Fund, Inc., and the financial position of BlackRock Limited Duration Income Trust, as of August 31, 2015, the consolidated results of their operations and their consolidated cash flows for the year then ended, the consolidated changes in their net assets for each of the two years in the period then ended, and their consolidated financial highlights for the years ended August 31, 2015, August 31, 2014, August 31, 2013, and August 31, 2012, and their financial highlights for the year ended August 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

| January 2015- August 2015  | 79.27% | 78.58% | 53.54% |

<sup>1</sup> The Fund hereby designates the percentage indicated above or the maximum amount allowable by law.

<sup>2</sup> Represents the portion of the taxable ordinary income dividends eligible for exemption from U.S. withholding tax for nonresident aliens and foreign corporations.

Additionally, BHL distributed long-term capital gains of \$0.142256 per share to shareholders of record on December 31, 2014.

## Disclosure of Investment Advisory Agreements

The Board of Directors or Trustees, as applicable, (each, a Board, collectively, the Boards, and the members of which are referred to as Board Members ) of BlackRock Defined Opportunity Credit Trust ( BHL ), BlackRock Floating Rate Income Strategies Fund, Inc. ( FRA ) and BlackRock Limited Duration Income Trust ( BLW and together with BHL and FRA, each a Fund, and, collectively, the Funds ) met in person on April 30, 2015 (the April Meeting ) and June 11-12, 2015 (the June Meeting ) to consider the approval of each Fund's investment advisory agreement (each, an Advisory Agreement, and, collectively, the Advisory Agreements ) with BlackRock Advisors, LLC (the Manager ), each Fund's investment advisor. The Manager is referred to herein as BlackRock. The Advisory Agreements are also referred to herein as the Agreements.

### Activities and Composition of the Board

On the date of the April and June Meetings, the Board of each Fund consisted of eleven individuals, nine of whom were not interested persons of such Fund as defined in the Investment Company Act of 1940 (the 1940 Act ) (the Independent Board Members ). The Board Members are responsible for the oversight of the operations of the Fund and perform the various duties imposed on the directors of investment companies by the 1940 Act. The Independent Board Members have retained independent legal counsel to assist them in connection with their duties. The Chairman of each Board is an Independent Board Member. Each Board has established six standing committees: an Audit Committee, a Governance and Nominating Committee, a Compliance Committee, a Performance Oversight Committee, an Executive Committee, and a Leverage Committee, each of which is chaired by an Independent Board Member and composed of Independent Board Members (except for the Executive Committee and the Leverage Committee, each of which also has one interested Board Member).

### The Agreements

Pursuant to the 1940 Act, each Board is required to consider the continuation of its Advisory Agreement on an annual basis. The Boards have four quarterly meetings per year, each extending over two days, a fifth one-day meeting to consider specific information surrounding the consideration of renewing the Agreements and additional in-person and telephonic meetings as needed. In connection with this year-long deliberative process, the Boards assessed, among other things, the nature, extent and quality of the services provided to the Funds by BlackRock, BlackRock's personnel and affiliates, including, as applicable; investment management services, administrative, and shareholder services; the oversight of fund service providers; marketing services; risk oversight; compliance; and ability to meet applicable legal and regulatory requirements.

The Boards, acting directly and through their respective committees, consider at each of their meetings, and from time to time as appropriate, factors that are relevant to their annual consideration of the renewal of the Agreements, including the services and support provided by BlackRock to the Funds and their shareholders. Among the matters the Boards considered were: (a) investment performance for one-year, three-year, five-year and/or since inception periods, as applicable, against peer funds, applicable benchmarks, and performance metrics, as applicable, as well as senior management's and portfolio managers' analysis of the reasons for any over-performance or underperformance relative to its peers, benchmarks, and other performance metrics, as applicable; (b) fees, including advisory, administration, if applicable, and other amounts paid to BlackRock and its affiliates by the Funds for services such as call center; (c) Fund operating expenses and how BlackRock allocates expenses to the Funds; (d) the resources devoted to, risk oversight of, and compliance reports relating to, implementation of the Funds investment objective(s), policies and restrictions, and meeting new regulatory requirements; (e) the Funds' compliance with its compliance policies and procedures; (f) the nature, cost and character of non-investment management services provided by BlackRock and its affiliates; (g) BlackRock's and other service providers' internal controls and risk and compliance oversight mechanisms; (h) BlackRock's implementation of the proxy voting policies approved by the Boards; (i) execution quality of portfolio transactions; (j) BlackRock's implementation of the Funds valuation and liquidity procedures; (k) an analysis of management fees for products with similar investment mandates across the open-end fund, closed-end fund and institutional account product channels, as applicable, and the similarities and differences between these products and the services provided as compared to the Funds; (l) BlackRock's compensation methodology for its investment professionals and the incentives it creates, along with investment professionals' investments in the fund(s) they manage; and (m) periodic updates on BlackRock's business.

The Boards have engaged in an ongoing strategic review with BlackRock of opportunities to consolidate funds and of BlackRock's commitment to investment performance. BlackRock also furnished information to the Boards in response to specific questions. These questions covered issues such as: BlackRock's profitability; investment performance; funds trading at a discount; subadvisory and advisory relationships with other clients (including mutual funds sponsored by third parties); fund size; portfolio manager's investments in the funds they manage; and management fee levels and breakpoints. The Boards further discussed with BlackRock: BlackRock's management structure; portfolio turnover; BlackRock's portfolio manager compensation and performance accountability; marketing support for the funds; services provided to the funds by BlackRock affiliates; and BlackRock's oversight of relationships with third party service providers.

### Board Considerations in Approving the Agreements

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

The Approval Process: Prior to the April Meeting, the Boards requested and received materials specifically relating to the Agreements. The Boards are continuously engaged in a process with their independent legal counsel and BlackRock to review the nature and scope of the information provided to better assist its deliberations. The materials provided in connection with the April Meeting included (a) information independently compiled and prepared by Lipper, Inc. ( Lipper ) on Fund fees and expenses as compared with a peer group of funds as determined by Lipper ( Expense Peers ) and the

ANNUAL REPORT

AUGUST 31, 2015

81

## Disclosure of Investment Advisory Agreements (continued)

investment performance of each Fund as compared with a peer group of funds as determined by Lipper<sup>1</sup>, and, with respect to BHL and FRA, a customized peer group selected by BlackRock, as well as the investment performance of BLW as compared with its custom benchmark; (b) information on the profits realized by BlackRock and its affiliates pursuant to the Agreements and a discussion of fall-out benefits to BlackRock and its affiliates; (c) a general analysis provided by BlackRock concerning investment management fees charged to other clients, such as institutional clients, sub-advised mutual funds, and open-end funds, under similar investment mandates, as applicable; (d) review of non-management fees; (e) the existence, impact and sharing of potential economies of scale; (f) a summary of aggregate amounts paid by each Fund to BlackRock and (g) if applicable, a comparison of management fees to similar BlackRock closed-end funds, as classified by Lipper.

At the April Meeting, the Boards reviewed materials relating to their consideration of the Agreements. As a result of the discussions that occurred during the April Meeting, and as a culmination of the Boards' year-long deliberative process, the Boards presented BlackRock with questions and requests for additional information. BlackRock responded to these requests with additional written information in advance of the June Meeting.

At the June Meeting, each Board, including the Independent Board Members, unanimously approved the continuation of the Advisory Agreement between the Manager and its Fund for a one-year term ending June 30, 2016. In approving the continuation of the Agreements, the Boards considered: (a) the nature, extent and quality of the services provided by BlackRock; (b) the investment performance of the Funds and BlackRock; (c) the advisory fee and the cost of the services and profits to be realized by BlackRock and its affiliates from their relationship with the Funds; (d) the Funds' costs to investors compared to the costs of Expense Peers and performance compared to the relevant performance comparison as previously discussed; (e) the sharing of potential economies of scale; (f) fall-out benefits to BlackRock and its affiliates as a result of its relationship with the Funds; and (g) other factors deemed relevant by the Board Members.

The Boards also considered other matters they deemed important to the approval process, such as payments made to BlackRock or its affiliates relating to securities lending and cash management, services related to the valuation and pricing of Fund portfolio holdings, direct and indirect benefits to BlackRock and its affiliates from their relationship with the Funds and advice from independent legal counsel with respect to the review process and materials submitted for the Boards' review. The Boards noted the willingness of BlackRock personnel to engage in open, candid discussions with the Boards. The Boards did not identify any particular information as determinative, and each Board Member may have attributed different weights to the various items considered.

**A. Nature, Extent and Quality of the Services Provided by BlackRock:** The Boards, including the Independent Board Members, reviewed the nature, extent and quality of services provided by BlackRock, including the investment advisory services and the resulting performance of the Funds. Throughout the year, the Boards compared the Funds' performance to the performance of a comparable group of closed-end funds, relevant benchmark, and performance metrics, as applicable. The Boards met with BlackRock's senior management personnel responsible for investment activities, including the senior investment officers. Each Board also reviewed the materials provided by its Fund's portfolio management team discussing the Fund's performance and the Fund's investment objective(s), strategies and outlook.

The Boards considered, among other factors, with respect to BlackRock: the number, education and experience of investment personnel generally and their Funds' portfolio management teams; BlackRock's research capabilities; investments by portfolio managers in the funds they manage; portfolio trading capabilities; use of technology; commitment to compliance; credit analysis capabilities; risk analysis and oversight capabilities; and the approach to training and retaining portfolio managers and other research, advisory and management personnel. The Boards engaged in a review of BlackRock's compensation structure with respect to the Funds' portfolio management teams and BlackRock's ability to attract and retain high-quality talent and create performance incentives.

In addition to advisory services, the Boards considered the quality of the administrative and other non-investment advisory services provided to the Funds. BlackRock and its affiliates provide the Funds with certain services (in addition to any such services provided to the Funds by third parties) and officers and other personnel as are necessary for the operations of the Funds. In particular, BlackRock and its affiliates provide the Funds with the following administrative services including, among others: (i) preparing disclosure documents, such as the prospectus and the statement of additional information in connection with the initial public offering and periodic shareholder reports, and with respect to FRA and BLW, registration statements in connection with the Fund's equity shelf program; (ii) preparing communications with analysts to support secondary market trading of the Funds; (iii) oversight of daily accounting and pricing; (iv) preparing periodic filings with regulators and stock exchanges; (v) overseeing and coordinating the activities of other service providers; (vi) organizing Board meetings and preparing the materials for such Board meetings; (vii) providing legal and compliance support; (viii) furnishing analytical and other support to assist the Boards in their consideration of strategic issues such as the merger, consolidation or repurposing of certain closed-end funds; and (ix) performing other administrative functions necessary for the operation of the Funds, such as tax reporting, fulfilling regulatory filing requirements and call center services. The Boards reviewed the structure and duties of BlackRock's fund administration, shareholder services, legal and compliance departments and considered BlackRock's policies and procedures for assuring compliance with applicable laws and regulations.

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

B. The Investment Performance of the Funds and BlackRock: Each Board, including the Independent Board Members, also reviewed and considered the performance history of its Fund. In preparation for the April Meeting, the Boards worked with their independent legal counsel, BlackRock and Lipper to develop a template for, and were provided with reports independently prepared by Lipper, which included a comprehensive analysis of each Fund s

<sup>1</sup> Funds are ranked by Lipper in quartiles, ranging from first to fourth, where first is the most desirable quartile position and fourth is the least desirable.

## Disclosure of Investment Advisory Agreements (continued)

performance. The Boards also reviewed a narrative and statistical analysis of the Lipper data that was prepared by BlackRock. In connection with its review, each Board received and reviewed information regarding the investment performance, based on net asset value (NAV), of its Fund as compared to other funds in its applicable Lipper category, and with respect to BHL and FRA, the customized peer group selected by BlackRock, and with respect to BLW, the investment performance of BLW as compared with its custom benchmark. The Boards were provided with a description of the methodology used by Lipper to select peer funds and periodically meets with Lipper representatives to review its methodology. Each Board and its Performance Oversight Committee regularly review, and meet with Fund management to discuss, the performance of its Fund throughout the year.

In evaluating performance, the Boards recognized that the performance data reflects a snapshot of a period or as of a particular date and that selecting a different performance period could produce significantly different results. Further, the Boards recognized that it is possible that long-term performance can be adversely affected by even one period of significant underperformance so that a single investment decision or theme has the ability to affect long-term performance disproportionately.

The Board of BLW noted that for each of the one-, three- and five-year periods reported, BLW exceeded its customized benchmark. BlackRock believes that performance relative to the customized benchmark is an appropriate performance metric for BLW.

The Board of BHL noted that for the one-, three- and five-year periods reported, BHL ranked in the second, third and fourth quartiles, respectively, against its Customized Lipper Peer Group. BlackRock believes that the Customized Lipper Peer Group is an appropriate performance metric for BHL.

The Board of FRA noted that for the one-, three- and five-year periods reported, FRA ranked in the second, third and third quartiles, respectively, against its Customized Lipper Peer Group. BlackRock believes that the Customized Lipper Peer Group is an appropriate performance metric for FRA.

The Board of each of BHL and FRA also noted its respective Fund's improved performance during the one-year period. The Board of each of BHL and FRA and BlackRock reviewed and discussed the reasons for its respective Fund's underperformance during the three- and five-year periods. BHL's and FRA's Board was informed that, among other things, the two factors with the greatest impact on performance relative to each Fund's peers during these periods were the Fund's leverage utilization limit and the Fund's portfolio management team's higher quality investment style.

The Board of each of BHL and FRA and BlackRock also discussed BlackRock's strategy for improving its respective Fund's performance and BlackRock's commitment to providing the resources necessary to assist the Fund's portfolio managers in seeking to do so.

C. Consideration of the Advisory/Management Fees and the Cost of the Services and Profits to be Realized by BlackRock and its Affiliates from their Relationship with the Funds: Each Board, including the Independent Board Members, reviewed its Fund's contractual management fee rate compared with the other funds in its Lipper category. The contractual management fee rate represents a combination of the advisory fee and any administrative fees, before taking into account any reimbursements or fee waivers. Each Board also compared its Fund's total expense ratio, as well as its actual management fee rate as a percentage of total assets, to those of other funds in its Lipper category. The total expense ratio represents a fund's total net operating expenses, excluding any investment related expenses. The total expense ratio gives effect to any expense reimbursements or fee waivers that benefit a fund, and the actual management fee rate gives effect to any management fee reimbursements or waivers that benefit a fund. The Boards considered the services provided and the fees charged by BlackRock and its affiliates to other types of clients with similar investment mandates, as applicable, including institutional accounts and sub-advised mutual funds.

The Boards received and reviewed statements relating to BlackRock's financial condition. The Boards reviewed BlackRock's profitability methodology and were also provided with a profitability analysis that detailed the revenues earned and the expenses incurred by BlackRock for services provided to the Funds. The Boards reviewed BlackRock's profitability with respect to the Funds and other funds the Boards currently oversee for the year ended December 31, 2014 compared to available aggregate profitability data provided for the prior two years. The Boards reviewed BlackRock's profitability with respect to certain other U.S. fund complexes managed by the Manager and/or its affiliates. The Boards reviewed BlackRock's assumptions and methodology of allocating expenses in the profitability analysis, noting the inherent limitations in allocating costs among various advisory products. The Boards recognized that profitability may be affected by numerous factors including, among other things, fee waivers and expense reimbursements by the Manager, the types of funds managed, precision of expense allocations and business mix. As a result, calculating and comparing profitability at individual fund levels is difficult.

The Boards noted that, in general, individual fund or product line profitability of other advisors is not publicly available. The Boards reviewed BlackRock's overall operating margin, in general, compared to that of certain other publicly-traded asset management firms. The Boards

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

considered the differences between BlackRock and these other firms, including the contribution of technology at BlackRock, BlackRock's expense management, and the relative product mix.

In addition, the Boards considered the cost of the services provided to the Funds by BlackRock, and BlackRock's and its affiliates' profits relating to the management of the Funds and the other funds advised by BlackRock and its affiliates. As part of its analysis, the Boards reviewed BlackRock's methodology in allocating its costs to the management of the Funds. The Boards may periodically receive and review information from independent third parties as part of their annual evaluation. BlackRock retained an independent third party to evaluate its cost allocation methodologies in the context of BlackRock's 1940 Act Fund business. The Boards considered the results of that evaluation in connection with BlackRock's profitability reporting. The Boards also considered whether BlackRock has the financial resources necessary to attract and retain high quality investment management personnel to perform its

## Disclosure of Investment Advisory Agreements (concluded)

obligations under the Agreements and to continue to provide the high quality of services that is expected by the Boards. The Boards further considered factors including but not limited to BlackRock's commitment of time, assumption of risk and liability profile in servicing the Funds in contrast to what is required of BlackRock with respect to other products with similar investment mandates across the open-end fund, ETF, closed-end fund, sub-advised mutual fund and institutional account product channels, as applicable.

The Board of BHL noted that BHL's contractual management fee rate ranked in the second quartile, and that the actual management fee rate and total expense ratio each ranked in the second quartile, relative to the Fund's Expense Peers.

The Board of each of FRA and BLW noted that its respective Fund's contractual management fee rate ranked in the first quartile, and that the actual management fee rate and total expense ratio each ranked in the first quartile, relative to the Fund's Expense Peers.

D. Economies of Scale: Each Board, including the Independent Board Members, considered the extent to which economies of scale might be realized as the assets of its Fund increase. Each Board also considered the extent to which its Fund benefits from such economies and whether there should be changes in the advisory fee rate or breakpoint structure in order to enable the Fund to participate in these economies of scale, for example through the use of breakpoints in the advisory fee based upon the asset level of the Fund.

Based on the Boards' review and consideration of the issue, the Boards concluded that most closed-end funds do not have fund level breakpoints because closed-end funds generally do not experience substantial growth after the initial public offering. They are typically priced at scale at a fund's inception. The Board of each of FRA and BLW noted that although FRA and BLW may from time-to-time make additional share offerings pursuant to its equity shelf program, the growth of the Fund's assets will occur primarily through the appreciation of the Fund's investment portfolio.

E. Other Factors Deemed Relevant by the Board Members: The Boards, including the Independent Board Members, also took into account other ancillary or "fall-out" benefits that BlackRock or its affiliates may derive from their respective relationships with the Funds, both tangible and intangible, such as BlackRock's ability to leverage its investment professionals who manage other portfolios and risk management personnel, an increase in BlackRock's profile in the investment advisory community, and the engagement of BlackRock's affiliates as service providers to the Funds, including securities lending and cash management services. The Boards also considered BlackRock's overall operations and its efforts to expand the scale of, and improve the quality of, its operations. The Boards also noted that BlackRock may use and benefit from third party research obtained by soft dollars generated by certain registered fund transactions to assist in managing all or a number of its other client accounts. The Boards further noted that it had considered the investment by BlackRock's funds in exchange traded funds (i.e., ETFs) without any offset against the management fees payable by the funds to BlackRock.

In connection with its consideration of the Agreements, the Boards also received information regarding BlackRock's brokerage and soft dollar practices. The Boards received reports from BlackRock which included information on brokerage commissions and trade execution practices throughout the year.

The Boards noted the competitive nature of the closed-end fund marketplace, and that shareholders are able to sell their Fund shares in the secondary market if they believe that the Fund's fees and expenses are too high or if they are dissatisfied with the performance of the Fund.

The Boards also considered the various notable initiatives and projects BlackRock performed in connection with its closed-end fund product line. These initiatives included the redemption of AMPS for the BlackRock closed-end funds with AMPS outstanding; developing equity shelf programs; efforts to eliminate product overlap with fund mergers; ongoing services to manage leverage that has become increasingly complex; share repurchases and other support initiatives for certain BlackRock funds; and continued communications efforts with shareholders, fund analysts and financial advisers. With respect to the latter, the Independent Board Members noted BlackRock's continued commitment to supporting the secondary market for the common shares of its closed-end funds through a comprehensive secondary market communication program designed to raise investor and analyst awareness and understanding of closed-end funds. BlackRock's support services included, among other things: continuing communications concerning the redemption efforts related to AMPS; sponsoring and participating in conferences; communicating with closed-end fund analysts covering the BlackRock funds throughout the year; providing marketing and product updates for the closed-end funds; and maintaining and enhancing its closed-end fund website.

### Conclusion

Each Board, including the Independent Board Members, unanimously approved the continuation of the Advisory Agreement between the Manager and its Fund for a one-year term ending June 30, 2016. Based upon its evaluation of all of the aforementioned factors in their totality, each Board, including the Independent Board Members, was satisfied that the terms of the Agreement were fair and reasonable and in the best

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

interest of its Fund and its shareholders. In arriving at its decision to approve the Agreement for its Fund, the Board did not identify any single factor or group of factors as all-important or controlling, but considered all factors together, and different Board Members may have attributed different weights to the various factors considered. The Independent Board Members were also assisted by the advice of independent legal counsel in making this determination. The contractual fee arrangements for the Funds reflect the results of several years of review by the Board Members and predecessor Board Members, and discussions between such Board Members (and predecessor Board Members) and BlackRock. As a result, the Board Members' conclusions may be based in part on their consideration of these arrangements in prior years.

## Automatic Dividend Reinvestment Plans

Pursuant to each Fund's Dividend Reinvestment Plan (the "Reinvestment Plan"), Common Shareholders are automatically enrolled to have all distributions of dividends and capital gains reinvested by Computershare Trust Company, N.A. (the "Reinvestment Plan Agent") in the respective Fund's shares pursuant to the Reinvestment Plan. Shareholders who do not participate in the Reinvestment Plan will receive all distributions in cash paid by check and mailed directly to the shareholders of record (or if the shares are held in street name or other nominee name, then to the nominee) by the Reinvestment Plan Agent, which serves as agent for the shareholders in administering the Reinvestment Plan.

After the Funds declare a dividend or determine to make a capital gain distribution, the Reinvestment Plan Agent will acquire shares for the participants' accounts, depending upon the following circumstances, either (i) through receipt of unissued but authorized shares from the Funds ( "newly issued shares" ) or (ii) by purchase of outstanding shares on the open market or on the Fund's primary exchange ( "open-market purchases" ). If, on the dividend payment date, the net asset value per share ( "NAV" ) is equal to or less than the market price per share plus estimated brokerage commissions (such condition often referred to as a "market premium" ), the Reinvestment Plan Agent will invest the dividend amount in newly issued shares acquired on behalf of the participants. The number of newly issued shares to be credited to each participant's account will be determined by dividing the dollar amount of the dividend by the NAV on the date the shares are issued. However, if the NAV is less than 95% of the market price on the dividend payment date, the dollar amount of the dividend will be divided by 95% of the market price on the dividend payment date. If, on the dividend payment date, the NAV is greater than the market price per share plus estimated brokerage commissions (such condition often referred to as a "market discount" ), the Reinvestment Plan Agent will invest the dividend amount in shares acquired on behalf of the participants in open-market purchases. If the Reinvestment Plan Agent is unable to invest the full dividend amount in open-market purchases, or if the market discount shifts to a market premium during the purchase period, the Reinvestment Plan Agent will invest any un-invested portion in newly issued shares. Investments in newly issued shares made in this manner would be made pursuant to the same process described above and the date of issue for such newly issued shares will substitute for the dividend payment date.

Participation in the Reinvestment Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Reinvestment Plan Agent prior to the dividend record date. Additionally, the Reinvestment Plan Agent seeks to process notices received after the record date but prior to the payable date and such notices often will become effective by the payable date. Where late notices are not processed by the applicable payable date, such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution.

The Reinvestment Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by each Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Reinvestment Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable on such dividends or distributions.

Each Fund reserves the right to amend or terminate the Reinvestment Plan. There is no direct service charge to participants in the Reinvestment Plan. However, each Fund reserves the right to amend the Reinvestment Plan to include a service charge payable by the participants. Participants that request a sale of shares are subject to a \$2.50 sales fee and a \$0.15 per share fee. Per share fees include any applicable brokerage commissions the Reinvestment Plan Agent is required to pay. All correspondence concerning the Reinvestment Plan should be directed to Computershare Trust Company, N. A. through the internet at <http://www.computershare.com/blackrock>, or in writing to Computershare, P. O. Box 30170, College Station, TX 77842-3170, Telephone: (800) 699-1236. Overnight correspondence should be directed to the Reinvestment Plan Agent at Computershare, 211 Quality Circle, Suite 210, College Station, TX 77845.

<sup>1</sup> The address of each Director and Officer is c/o BlackRock, Inc., 55 East 52nd Street, New York, NY 10055.

<sup>2</sup> Independent Directors serve until their resignation, retirement, removal or death, or until December 31 of the year in which they turn 74. The maximum age limitation may be waived as to any Director by action of a majority of the Directors upon finding of good cause thereof. The Board has unanimously approved further extending the mandatory retirement age for Mr. James T. Flynn until December 31, 2015, which the Board believes is in the best interest of shareholders.

<sup>3</sup> Date shown is the earliest date a person has served for the Funds covered by this annual report. Following the combination of Merrill Lynch Investment Managers, L.P. ( MLIM ) and BlackRock, Inc. ( BlackRock ) in September 2006, the various legacy MLIM and legacy BlackRock fund boards were realigned and consolidated into three new fund boards in 2007. As a result, although the chart shows certain Directors as joining the Funds board in 2007, those Directors first became members of the boards of other legacy MLIM or legacy BlackRock funds as follows: Richard E. Cavanagh, 1994; Frank J. Fabozzi, 1988; Kathleen F. Feldstein, 2005; James T. Flynn, 1996; Jerrold B. Harris, 1999; R. Glenn Hubbard, 2004; W. Carl Kester, 1995 and Karen P. Robards, 1998.

<sup>4</sup> For purposes of this chart, RICs refers to investment companies registered under the 1940 Act and Portfolios refers to the investment programs of the BlackRock-advised funds. The Closed-End Complex is comprised of 76 RICs. Mr. Perlowski, Dr. Fabozzi and Ms. Novick are also board members of a complex of BlackRock registered open-end funds. Mr. Perlowski is also a board member of the BlackRock Equity-Bond Complex, and Ms. Novick and Dr. Fabozzi are also board members of the BlackRock Equity-Liquidity Complex.

Interested Directors<sup>5</sup>

|                                      |   |                   |   |  |      |
|--------------------------------------|---|-------------------|---|--|------|
| <b>Barbara G. Novick</b><br><br>1960 | Director  | Since<br><br>2014 | Vice Chairman of BlackRock since 2006; Chair of BlackRock's Government Relations Steering Committee since 2009; Head of the Global Client Group of BlackRock, Inc. from 1988 to 2008.   | 109 RICs consisting<br>of 235 Portfolios | None |
| <b>John M. Perlowski</b><br><br>1964 | Director,<br>President<br>and Chief<br>Executive<br>Officer | Since<br><br>2014 | Managing Director of BlackRock since 2009; Head of BlackRock Global Fund Services since 2009; Managing Director and Chief Operating Officer of the Global Product Group at Goldman Sachs Asset Management, L.P. from 2003 to 2009; Treasurer of Goldman Sachs Mutual Funds from 2003 to 2009 and Senior Vice President thereof from 2007 to 2009; Director of Goldman Sachs Offshore Funds from 2002 to 2009; Director of Family Resource Network (charitable foundation) since 2009. | 104 RICs consisting<br>of 174 Portfolios | None |

<sup>5</sup> Mr. Perlowski and Ms. Novick are both interested persons, as defined in the 1940 Act, of the Funds based on their positions with BlackRock and its affiliate. Mr. Perlowski and Ms. Novick are also board members of a complex of BlackRock registered open-end funds. Mr. Perlowski is a board member of the BlackRock Equity-Bond Complex and Ms. Novick is a board member of the BlackRock Equity-Liquidity Complex. Interested Directors serve until their resignation, removal or death, or until December 31 of the year in which they turn 72. The maximum age limitation may be waived as to any Director by action of a majority of the Directors upon a finding of good cause thereof.

### Fund Certification

Certain Funds are listed for trading on the NYSE and have filed with the NYSE their annual chief executive officer certification regarding compliance with the NYSE's listing standards. The Funds filed with the SEC the certification of its chief executive officer and chief financial officer required by section 302 of the Sarbanes-Oxley Act.

### Dividend Policy

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

Each Fund's dividend policy is to distribute all or a portion of its net investment income to its shareholders on a monthly basis. In order to provide shareholders with a more stable level of dividend distributions, the distributions paid by the Funds for any particular month may be more or less than the amount of net investment income earned by the Funds during such month. The portion of distributions that exceeds a Fund's current and accumulated earnings and profits, which are measured on a tax basis, will constitute a nontaxable return of capital. Distributions in excess of a Fund's taxable income and net capital gains, but not in excess of a Fund's earnings and profits, will be taxable to shareholders as ordinary income and will not constitute a nontaxable return of capital. The Funds' current accumulated but undistributed net investment income, if any, is disclosed in the Statements of Assets and Liabilities, which comprises part of the financial information included in this report.

BHL does not make available copies of its Statement of Additional Information because BHL's shares are not continuously offered, which means that BHL's Statement of Additional Information has not been updated after the completion of BHL's offering and the information contained in BHL's Statement of Additional Information may have become outdated.

BLW and FRA's respective Statements of Additional Information include additional information about their respective Boards and are available, without charge upon request by calling (800) 882-0052.

During the period, there were no material changes in the Funds' investment objectives or policies or to the Funds' charters or by-laws that would delay or prevent a change of control of the Funds that were not approved by shareholders or in the principal risk factors associated with investment in the Funds. There have been no changes in the persons who are primarily responsible for the day-to-day management of the Funds portfolios.

Quarterly performance, semi-annual and annual reports, current net asset value and other information regarding the Funds may be found on BlackRock's website, which can be accessed at <http://www.blackrock.com>. This reference to BlackRock's website is intended to allow investors public access to information regarding the Funds and does not, and is not intended to, incorporate BlackRock's website in this report.

### Electronic Delivery

Shareholders can sign up for e-mail notifications of quarterly statements, annual and semi-annual reports by enrolling in the electronic delivery program. Electronic copies of shareholder reports are available on BlackRock's website.

To enroll in electronic delivery:

Shareholders Who Hold Accounts with Investment Advisors, Banks or Brokerages:

Please contact your financial advisor to enroll. Please note that not all investment advisors, banks or brokerages may offer this service.

### Householding

The Funds will mail only one copy of shareholder documents, including annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called "householding" and is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please call the Funds at (800) 882-0052.

### Availability of Quarterly Schedule of Investments

The Funds files their complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Funds' Forms N-Q are available on the SEC's website at <http://www.sec.gov> and may also be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on how to access documents on the SEC's website without charge may be obtained by calling (800) SEC-0330. The Funds' Forms N-Q may also be obtained upon request and without charge by calling (800) 882-0052.

### Availability of Proxy Voting Policies and Procedures

A description of the policies and procedures that the Funds use to determine how to vote proxies relating to portfolio securities is available upon request and without charge (1) by calling (800) 882-0052; (2) at <http://www.blackrock.com>; and (3) on the SEC's website at <http://www.sec.gov>.

### Availability of Proxy Voting Record

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

Information about how the Funds voted proxies relating to securities held in the Funds' portfolios during the most recent 12-month period ended June 30 is available upon request and without charge (1) at <http://www.blackrock.com> or by calling (800) 882-0052 and (2) on the SEC's website at <http://www.sec.gov>.

### Availability of Fund Updates

BlackRock will update performance and certain other data for the Funds on a monthly basis on its website in the Closed-end Funds' section of <http://www.blackrock.com> as well as certain other material information as necessary from time to time. Investors and others are advised to check the website for updated performance information and the release of other material information about the Funds. This reference to BlackRock's website is intended to allow investors public access to information regarding the Funds and does not, and is not intended to, incorporate BlackRock's website in this report.

Additional Information (concluded)

Section 19(a) Notices

BLW's amounts and sources of distributions reported are estimates and are provided to you pursuant to regulatory requirements and are not being provided for tax reporting purposes. The actual amounts and sources for tax reporting purposes will depend upon the Fund's investment experience during the year and may be subject to changes based on the tax regulations. The Fund will provide a Form 1099-DIV each calendar year that will tell you how to report these distributions for federal income tax purposes. Section 19(a) notices for the Fund, as applicable, are available on the BlackRock website <http://www.blackrock.com>.

The Fund estimates that it has distributed more than the amount of earned income and net realized gains; therefore, a portion of the distribution may be a return of capital. A return of capital may occur, for example, when some or all of the shareholder's investment in a Fund is returned to the shareholder. A return of capital does not necessarily reflect a Fund's investment performance and should not be confused with yield or income. When distributions exceed total return performance, the difference will incrementally reduce the Fund's net asset value per share.

Shelf Offering Program

From time-to-time, each Fund may seek to raise additional equity capital through an equity shelf program (a Shelf Offering). In a Shelf Offering, a Fund may, subject to market conditions, raise additional equity capital by issuing new Common Shares from time to time in varying amounts at a net price at or above the Fund's net asset value (NAV) per Common Share (calculated within 48 hours of pricing). While any such Shelf Offering may allow a Fund to pursue additional investment opportunities without the need to sell existing portfolio investments, it could also entail risks including that the issuance of additional Common Shares may limit the extent to which the Common Shares are able to trade at a premium to NAV in the secondary market. BHL has not filed a registration statement with respect to any Shelf Offerings. This report is not an offer to sell Fund Common Shares and is not a solicitation of an offer to buy Fund Common Shares. If a fund files a registration statement with respect to any Shelf Offering, the prospectus contained therein will contain more complete information about BHL and should be read carefully before investing.

BLW and FRA each have filed a final prospectus with the SEC in connection with its Shelf Offering. This report and the prospectuses of BLW and FRA are not an offer to sell BLW or FRA Common Shares or a solicitation of an offer to buy BLW or FRA Common Shares in any jurisdiction where such offers or sales are not permitted. The prospectuses of BLW and FRA contain important information about such Funds, including their investment objectives, risks, charges and expenses. Investors are urged to read the prospectuses of BLW and FRA carefully and in their entirety before investing. Copies of the final prospectuses for BLW and FRA can be obtained from BlackRock at <http://www.blackrock.com>.

BlackRock Privacy Principles

BlackRock is committed to maintaining the privacy of its current and former fund investors and individual clients (collectively, Clients) and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information BlackRock collects, how we protect that information and why in certain cases we share such information with select parties.

## Edgar Filing: BLACKROCK Ltd DURATION INCOME TRUST - Form N-CSR

If you are located in a jurisdiction where specific laws, rules or regulations require BlackRock to provide you with additional or different privacy-related rights beyond what is set forth below, then BlackRock will comply with those specific laws, rules or regulations.

BlackRock obtains or verifies personal non-public information from and about you from different sources, including the following:

(i) information we receive from you or, if applicable, your financial intermediary, on applications, forms or other documents; (ii) information about your transactions with us, our affiliates, or others; (iii) information we receive from a consumer reporting agency; and (iv) from visits to our websites.

BlackRock does not sell or disclose to non-affiliated third parties any non-public personal information about its Clients, except as permitted by law or as is necessary to respond to regulatory requests or to service Client accounts. These non-affiliated third parties are required to protect the confidentiality and security of this information and to use it only for its intended purpose.

We may share information with our affiliates to service your account or to provide you with information about other BlackRock products or services that may be of interest to you. In addition, BlackRock restricts access to non-public personal information about its Clients to those BlackRock employees with a legitimate business need for the information. BlackRock maintains physical, electronic and procedural safeguards that are designed to protect the non-public personal information of its Clients, including procedures relating to the proper storage and disposal of such information.

This report is intended for current holders. It is not a prospectus. Past performance results shown in this report should not be considered a representation of future performance. The Funds have leveraged their Common Shares, which creates risks for Common Shareholders, including the likelihood of greater volatility of net asset value and market price of the Common Shares, and the risk that fluctuations in short-term interest rates may reduce the Common Shares yield. Statements and other information herein are as dated and are subject to change.

CEFT-BK3-8/15-AR

- Item 2 Code of Ethics The registrant (or the Fund ) has adopted a code of ethics, as of the end of the period covered by this report, applicable to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. During the period covered by this report, the code of ethics was amended to update certain information and to make other non-material changes. During the period covered by this report, there have been no waivers granted under the code of ethics. The registrant undertakes to provide a copy of the code of ethics to any person upon request, without charge, by calling 1-800-882-0052, option 4.
- Item 3 Audit Committee Financial Expert The registrant's board of directors (the board of directors ), has determined that (i) the registrant has the following audit committee financial experts serving on its audit committee and (ii) each audit committee financial expert is independent:

Michael Castellano  
Frank J. Fabozzi  
James T. Flynn  
W. Carl Kester  
Karen P. Robards

The registrant's board of directors has determined that W. Carl Kester and Karen P. Robards qualify as financial experts pursuant to Item 3(c)(4) of Form N-CSR.

Prof. Kester has a thorough understanding of generally accepted accounting principles, financial statements and internal control over financial reporting as well as audit committee functions. Prof. Kester has been involved in providing valuation and other financial consulting services to corporate clients since 1978. Prof. Kester's financial consulting services present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the registrant's financial statements.

Ms. Robards has a thorough understanding of generally accepted accounting principles, financial statements and internal control over financial reporting as well as audit committee functions. Ms. Robards has been President of Robards & Company, a financial advisory firm, since 1987. Ms. Robards was formerly an investment banker for more than 10 years where she was responsible for evaluating and assessing the performance of companies based on their financial results. Ms. Robards has over 30 years of experience analyzing financial statements. She also is a member of the audit committee of one publicly held company and a non-profit organization.

Under applicable securities laws, a person determined to be an audit committee financial expert will not be deemed an expert for any purpose, including without limitation for the purposes of Section 11 of the Securities Act of 1933, as a result of being designated or identified as an audit committee financial expert. The designation or identification as an audit committee financial expert does not impose on such person any duties, obligations, or liabilities greater than the duties, obligations, and liabilities imposed on such person as a member of the audit committee and board of directors in the absence of such designation or identification. The designation or identification of a person as an audit committee financial expert does not affect the duties, obligations, or liability of any other member of the audit committee or board of directors.

Item 4 Principal Accountant Fees and Services

The following table presents fees billed by Deloitte & Touche LLP ( D&T ) in each of the last two fiscal years for the services rendered to the Fund:

| <u>Entity</u><br><u>Name</u>                        | <u>(a) Audit Fees</u>                              |   | <u>(b) Audit-Related Fees<sup>1</sup></u>          |   | <u>(c) Tax Fees<sup>2</sup></u>                    |   | <u>(d) All Other Fees<sup>3</sup></u>              |   |
|---|--|---|--|---|--|---|--|---|
|   | <u>Current</u><br><u>Fiscal Year</u><br><u>End</u> | <u>Previous</u><br><u>Fiscal Year</u><br><u>End</u> | <u>Current</u><br><u>Fiscal Year</u><br><u>End</u> | <u>Previous</u><br><u>Fiscal Year</u><br><u>End</u> | <u>Current</u><br><u>Fiscal Year</u><br><u>End</u> | <u>Previous</u><br><u>Fiscal Year</u><br><u>End</u> | <u>Current</u><br><u>Fiscal Year</u><br><u>End</u> | <u>Previous</u><br><u>Fiscal Year</u><br><u>End</u> |
| BlackRock<br>Limited<br>Duration<br>Income<br>Trust | \$74,488   | \$66,613  | \$4,000  | \$0   | \$16,392   | \$25,350  | \$0  | \$0   |

The following table presents fees billed by D&T that were required to be approved by the registrant's audit committee (the Committee) for services that relate directly to the operations or financial reporting of the Fund and that are rendered on behalf of BlackRock Advisors, LLC ( Investment Adviser or BlackRock ) and entities controlling, controlled by, or under common control with BlackRock (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) that provide ongoing services to the Fund ( Fund Service Providers ):

|   | <u>Current Fiscal Year End</u> | <u>Previous Fiscal Year End</u> |
|---|--------------------------------|---------------------------------|
| <b>(b) Audit-Related Fees<sup>1</sup></b> | \$0                            | \$0                             |
| <b>(c) Tax Fees<sup>2</sup></b>           | \$0                            | \$0                             |
| <b>(d) All Other Fees<sup>3</sup></b>     | \$2,391,000                    | \$2,555,000                     |

<sup>1</sup> The nature of the services includes assurance and related services reasonably related to the performance of the audit of financial statements not included in Audit Fees.

<sup>2</sup> The nature of the services includes tax compliance, tax advice and tax planning.

<sup>3</sup> Aggregate fees borne by BlackRock in connection with the review of compliance procedures and attestation thereto performed by D&T with respect to all of the registered closed-end funds and some of the registered open-end funds advised by BlackRock.

(e)(1) Audit Committee Pre-Approval Policies and Procedures:

The Committee has adopted policies and procedures with regard to the pre-approval of services. Audit, audit-related and tax compliance services provided to the registrant on an annual basis require specific pre-approval by the Committee. The Committee also must approve other non-audit services provided to the registrant and those non-audit services provided to the Investment Adviser and Fund Service Providers that relate directly to the operations and the financial reporting of the registrant. Certain of these non-audit services that the Committee believes are (a) consistent with the SEC's auditor independence rules and (b) routine and recurring services that will not impair the independence of the independent accountants may be approved by the Committee without consideration on a specific case-by-case basis ( general pre-approval ). The term of any general pre-approval is 12 months from the date of the pre-approval, unless the Committee provides for a different period. Tax or other non-audit services provided to the registrant which

have a direct impact on the operations or financial reporting of the registrant will only be deemed pre-approved provided that any individual project does not exceed \$10,000 attributable to the registrant or \$50,000 per project. For this purpose, multiple projects will be aggregated to determine if they exceed the previously mentioned cost levels.

Any proposed services exceeding the pre-approved cost levels will require specific pre-approval by the Committee, as will any other services not subject to general pre-approval (e.g.,

unanticipated but permissible services). The Committee is informed of each service approved subject to general pre-approval at the next regularly scheduled in-person board meeting. At this meeting, an analysis of such services is presented to the Committee for ratification. The Committee may delegate to the Committee Chairman the authority to approve the provision of and fees for any specific engagement of permitted non-audit services, including services exceeding pre-approved cost levels.

(e)(2) None of the services described in each of Items 4(b) through (d) were approved by the Committee pursuant to the de minimis exception in paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

(f) Not Applicable

(g) The aggregate non-audit fees paid to the accountant for services rendered by the accountant to the registrant, the Investment Adviser and the Fund Service Providers were:

| <b>Entity Name</b>                         | <b><u>Current Fiscal Year</u></b> | <b><u>Previous Fiscal Year</u></b> |
|--|-----------------------------------|------------------------------------|
|  | <b>End</b>                        | <b>End</b>                         |
| BlackRock Limited Duration<br>Income Trust | \$16,392                          | \$25,350                           |

Additionally, SSAE 16 Review (Formerly, SAS No. 70) fees for the current and previous fiscal years of \$2,391,000 and \$2,555,000, respectively, were billed by D&T to the Investment Adviser.

(h) The Committee has considered and determined that the provision of non-audit services that were rendered to the Investment Adviser, and the Fund Service Providers that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

**Item 5 Audit Committee of Listed Registrants**

(a) The following individuals are members of the registrant's separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(58)(A)):

- Michael Castellano
- Frank J. Fabozzi
- James T. Flynn
- W. Carl Kester
- Karen P. Robards

(b) Not Applicable

Item 6 Investments

(a) The registrant's Schedule of Investments is included as part of the Report to Stockholders filed under Item 1 of this Form.

(b) Not Applicable due to no such divestments during the semi-annual period covered since the previous Form N-CSR filing.

Item 7 Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies  
 The board of directors has delegated the voting of proxies for the Fund's portfolio securities to the Investment Adviser pursuant to the Investment Adviser's proxy voting guidelines. Under these guidelines, the Investment Adviser will vote proxies related to Fund securities in the best interests of the Fund and its stockholders. From time to time, a vote may present a conflict between the interests of the Fund's stockholders, on the one hand, and those of the Investment Adviser, or any affiliated person of the Fund or the Investment Adviser, on the other. In such event, provided that the Investment Adviser's Equity Investment Policy Oversight Committee, or a sub-committee thereof (the Oversight Committee) is aware of the real or potential conflict or material non-routine matter and if the Oversight Committee does not reasonably believe it is able to follow its general voting guidelines (or if the particular proxy matter is not addressed in the guidelines) and vote impartially, the Oversight Committee may retain an independent fiduciary to advise the Oversight Committee on how to vote or to cast votes on behalf of the Investment Adviser's clients. If the Investment Adviser determines not to retain an independent fiduciary, or does not desire to follow the advice of such independent fiduciary, the Oversight Committee shall determine how to vote the proxy after consulting with the Investment Adviser's Portfolio Management Group and/or the Investment Adviser's Legal and Compliance Department and concluding that the vote cast is in its client's best interest notwithstanding the conflict. A copy of the Fund's Proxy Voting Policy and Procedures are attached as Exhibit 99.PROXYPOL. Information on how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge, (i) at [www.blackrock.com](http://www.blackrock.com) and (ii) on the SEC's website at <http://www.sec.gov>.

Item 8 Portfolio Managers of Closed-End Management Investment Companies as of August 31, 2015.

(a)(1) The registrant is managed by a team of investment professionals comprised of Leland Hart, Managing Director at BlackRock, James E. Keenan, Managing Director of BlackRock, C. Adrian Marshall, Director of BlackRock, and Thomas Musmanno, Managing Director at BlackRock. Each of the foregoing investment professionals is jointly responsible for the day-to-day management of the registrant's portfolio, which includes setting the registrant's overall investment strategy, overseeing the management of the registrant and/or selection of its investments. Messrs. Hart, Keenan, Marshall and Musmanno have been members of the registrant's portfolio management team since 2009, 2007, 2009 and 2012, respectively.

**Portfolio Manager**

Leland Hart

**Biography**

Managing Director of BlackRock since 2009; Partner of R3 Capital Partners (R3) in 2009; Managing Director of R3 from 2008 to 2009; Managing Director of Lehman Brothers from 2006 to 2008; Executive Director of Lehman Brothers from 2003 to 2006.

James E. Keenan

Managing Director of BlackRock since 2008 and Head of the Leveraged Finance Portfolio team; Director of BlackRock from 2006 to 2007; Vice President of BlackRock from 2004 to 2005.

C. Adrian Marshall                      Director of BlackRock since 2007; Vice President of BlackRock from 2004 to 2007.

Thomas Musmanno                      Managing Director of BlackRock since 2010; Director of BlackRock from 2006 to 2009.

(a)(2) As of August 31, 2015:

(iv) *Portfolio Manager Potential Material Conflicts of Interest*

BlackRock has built a professional working environment, firm-wide compliance culture and compliance procedures and systems designed to protect against potential incentives that may favor one account over another. BlackRock has adopted policies and procedures that address the allocation of investment opportunities, execution of portfolio transactions, personal trading by employees and other potential conflicts of interest that are designed to ensure that all client accounts are treated equitably over time. Nevertheless, BlackRock furnishes investment management and advisory services to numerous clients in addition to the Fund, and BlackRock may, consistent with applicable law, make investment recommendations to other clients or accounts (including accounts which are hedge funds or have performance or higher fees paid to BlackRock, or in which portfolio managers have a personal interest in the receipt of such fees), which may be the same as or different from those made to the Fund. In addition, BlackRock, Inc., its affiliates and significant shareholders and any officer, director, shareholder or employee may or may not have an interest in the securities whose purchase and sale BlackRock recommends to the Fund. BlackRock, Inc., or any of its affiliates or significant shareholders, or any officer, director, shareholder, employee or any member of their families may take different actions than those recommended to the Fund by BlackRock with respect to the same securities. Moreover, BlackRock may refrain from rendering any advice or services concerning securities of companies of which any of BlackRock, Inc.'s (or its affiliates or significant shareholders') officers, directors or employees are directors or officers, or companies as to which BlackRock, Inc. or any of its affiliates or significant shareholders or the officers, directors and employees of any of them has any substantial economic interest or possesses material non-public information. Certain portfolio managers also may manage accounts whose investment strategies may at times be opposed to the strategy utilized for a fund. It should also be noted that Messrs. Hart, Keenan, Marshall and Musmanno may be managing hedge fund and/or long only accounts, or may be part of a team managing hedge fund and/or long

only accounts, subject to incentive fees. Messrs. Hart, Keenan, Marshall and Musmanno may therefore be entitled to receive a portion of any incentive fees earned on such accounts.

As a fiduciary, BlackRock owes a duty of loyalty to its clients and must treat each client fairly. When BlackRock purchases or sells securities for more than one account, the trades must be allocated in a manner consistent with its fiduciary duties. BlackRock attempts to allocate investments in a fair and equitable manner among client accounts, with no account receiving preferential treatment. To this end, BlackRock, Inc. has adopted policies that are intended to ensure reasonable efficiency in client transactions and provide BlackRock with sufficient flexibility to allocate investments in a manner that is consistent with the particular investment discipline and client base, as appropriate.

(a)(3) As of August 31, 2015:

### Portfolio Manager Compensation Overview

The discussion below describes the portfolio managers' compensation as of August 31, 2015.

BlackRock's financial arrangements with its portfolio managers, its competitive compensation and its career path emphasis at all levels reflect the value senior management places on key resources. Compensation may include a variety of components and may vary from year to year based on a number of factors. The principal components of compensation include a base salary, a performance-based discretionary bonus, participation in various benefits programs and one or more of the incentive compensation programs established by BlackRock.

**Base compensation.** Generally, portfolio managers receive base compensation based on their position with the firm.

**Discretionary Incentive Compensation.** Discretionary incentive compensation is a function of several components: the performance of BlackRock, Inc., the performance of the portfolio manager's group within BlackRock, the investment performance, including risk-adjusted returns, of the firm's assets under management or supervision by that portfolio manager relative to predetermined benchmarks, and the individual's performance and contribution to the overall performance of these portfolios and BlackRock. In most cases, these benchmarks are the same as the benchmark or benchmarks against which the performance of the Funds or other accounts managed by the portfolio managers are measured. Among other things, BlackRock's Chief Investment Officers make a subjective determination with respect to each portfolio manager's compensation based on the performance of the Funds and other accounts managed by each portfolio manager relative to the various benchmarks. Performance of fixed income funds is measured on a pre-tax and/or after-tax basis over various time periods including 1-, 3- and 5- year periods, as applicable. With respect to these portfolio managers, such benchmarks for the Fund and other accounts are:

| Portfolio Manager | Benchmark  |
|-------------------|--|
| James E. Keenan   | A combination of market-based indices (e.g., The Barclays U.S. Corporate High Yield 2% Issuer Cap Index), certain cusThomasized indices and certain fund industry peer groups.                 |
| Thomas Musmanno   | A combination of market-based indices (e.g., Bank of America Merrill Lynch U.S. Corporate & Government Index, 1-3 Years), certain cusThomasized indices and certain fund industry peer groups. |
| Leland Hart       | A combination of market-based indices (e.g., S&P Leveraged All Loan Index), certain cusThomasized indices and certain fund industry peer groups.   |

C. Adrian Marshall

7

**Distribution of Discretionary Incentive Compensation.** Discretionary incentive compensation is distributed to portfolio managers in a combination of cash and BlackRock, Inc. restricted stock units which vest ratably over a number of years. For some portfolio managers, discretionary incentive compensation is also distributed in deferred cash awards that notionally track the returns of select BlackRock investment products they manage and that vest ratably over a number of years. The BlackRock, Inc. restricted stock units, upon vesting, will be settled in BlackRock, Inc. common stock. Typically, the cash portion of the discretionary incentive compensation, when combined with base salary, represents more than 60% of total compensation for the portfolio managers. Paying a portion of discretionary incentive compensation in BlackRock, Inc. stock puts compensation earned by a portfolio manager for a given year at risk based on BlackRock's ability to sustain and improve its performance over future periods. Providing a portion of discretionary incentive compensation in deferred cash awards that notionally track the BlackRock investment products they manage provides direct alignment with investment product results.

*Long-Term Incentive Plan Awards* From time to time long-term incentive equity awards are granted to certain key employees to aid in retention, align their interests with long-term shareholder interests and motivate performance. Equity awards are generally granted in the form of BlackRock, Inc. restricted stock units that, once vested, settle in BlackRock, Inc. common stock. The portfolio managers of this Fund have unvested long-term incentive awards.

*Deferred Compensation Program* A portion of the compensation paid to eligible United States-based BlackRock employees may be voluntarily deferred at their election for defined periods of time into an account that tracks the performance of certain of the firm's investment products. Any portfolio manager who is either a managing director or director at BlackRock with compensation above a specified threshold is eligible to participate in the deferred compensation program.

**Other Compensation Benefits.** In addition to base salary and discretionary incentive compensation, portfolio managers may be eligible to receive or participate in one or more of the following:

*Incentive Savings Plans* BlackRock, Inc. has created a variety of incentive savings plans in which BlackRock, Inc. employees are eligible to participate, including a 401(k) plan, the BlackRock Retirement Savings Plan (RSP), and the BlackRock Employee Stock Purchase Plan (ESPP). The employer contribution components of the RSP include a company match equal to 50% of the first 8% of eligible pay contributed to the plan capped at \$5,000 per year, and a company

retirement contribution equal to 3-5% of eligible compensation up to the Internal Revenue Service limit (\$265,000 for 2015). The RSP offers a range of investment options, including registered investment companies and collective investment funds managed by the firm. BlackRock, Inc. contributions follow the investment direction set by participants for their own contributions or, absent participant investment direction, are invested into a target date fund that corresponds to, or is closest to, the year in which the participant attains age 65. The ESPP allows for investment in BlackRock, Inc. common stock at a 5% discount on the fair market value of the stock on the purchase date. Annual participation in the ESPP is limited to the purchase of 1,000 shares of common stock or a dollar value of \$25,000 based on its fair market value on the purchase date. All of the eligible portfolio managers are eligible to participate in these plans.

(a)(4) *Beneficial Ownership of Securities* As of August 31, 2015.

| <b>Portfolio Manager</b> | <b>Dollar Range of Equity Securities of the Fund Beneficially Owned</b> |
|--------------------------|---|
| Leland Hart              | None  |
| James E. Keenan          | None  |
| C. Adrian Marshall       | None  |
| Thomas Musmanno          | None  |
