Profit Warning

This announcement is made by China Unicom (Hong Kong) Limited (the Company, together with its subsidiaries, the Group) pursuant to Rule 13.09 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and the Inside Information Provisions under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

In the first quarter of 2016, the Group's operation was on track as planned. Our mobile business has achieved initial success in overcoming operational challenges and the Group expects a net addition of mobile billing subscribers of approximately 6.61 million during the period, successfully turning around the downward trend in mobile subscribers in the past consecutive months. On the other hand, mobile service revenue is expected to grow by around 9% quarter-on-quarter to approximately RMB 36.2 billion in the first quarter of 2016, despite declining by around 1% year-on-year. Overall service revenue in the first quarter of 2016 is expected to be approximately RMB 60.8 billion, showing growth compared to both the same period and the fourth quarter of last year. In the first quarter of 2016, the profit attributable to the equity shareholders of the Company is expected to be approximately RMB 480 million, down significantly by around 85% as compared to the same period of last year mainly because selling and marketing expenses increased by an expected 16% year-on-year, and the addition of tower usage fee, higher energy charges and property rentals, etc. led to an expected 37% increase year-on-year in network, operation and support expenses. Nonetheless, it showed significant improvement from the loss attributable to the equity shareholders of the Company (excluding the gain on disposal of tower assets) of approximately RMB4.554 billion in the fourth quarter of last year. Going forward, the Group will deepen implementation of Focus Strategies, innovation and cooperation development to drive gradual turnaround with full strength.
