I/O Interest only security

- I/F Inverse floating rate security whose interest rate moves in the opposite direction of reference interest rates
- ¥ Illiquid security. At June 30, 2017, the value of these securities amounted to \$46,940,725 or 2.2% of net assets.
- W Security is in default or has failed to make a scheduled payment. Income is not being accrued.

[#] Variable rate security. Rate disclosed as of June 30, 2017.

[^] Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional buyers. These securities are determined to be liquid by the Adviser, unless otherwise noted, under procedures established by the Fund's Board of Trustees. At June 30, 2017, the value of these securities amounted to \$1,531,205,287 or 70.7% of net assets. Perpetual Maturity

Seven-day yield as of June 30, 2017

Under the Fund s Revolving Credit and Security Agreement, the lenders, through their agent, have been granted a security interest in all of the Fund s investments in consideration of the Fund s borrowings under the line of credit with the lenders.

- PIK A payment-in-kind security in which the issuer may make interest or dividend payments in cash or additional securities. These additional securities generally have the same terms as the original holdings.
- * Non-income producing security
- & Unfunded or partially unfunded loan commitment. At June 30, 2017, the value of these securities amounted to \$232,128 or 0.0% of net assets

The cost basis of investments for federal income tax purposes at June 30, 2017 was as follows+:

Tax Cost of Investments	\$ 3,200,398,550
Gross Tax Unrealized Appreciation	85,069,109
Gross Tax Unrealized Depreciation	(214,196,989)
Net Tax Unrealized Appreciation (Depreciation)	\$ (129,127,880)

+ Because tax adjustments are calculated annually, the above table reflects the tax adjustments outstanding at the Fund s previous fiscal year end. For the previous fiscal year s federal income tax information, please refer to the Notes to Financial Statements section in the Fund s most recent annual report.

Summary of Fair Value Disclosure

June 30, 2017 (Unaudited)

Security Valuation. The Fund has adopted US GAAP fair value accounting standards which establish a definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion of changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 Unadjusted quoted market prices in active markets for identical securities

Level 2 Quoted prices for identical or similar assets in markets that are not active, or inputs derived from observable market data

Level 3 Significant unobservable inputs (including the reporting entity s estimates and assumptions)

Assets and liabilities may be transferred between levels. The Fund uses end of period timing recognition to account for any transfers.

Market values for domestic and foreign fixed income securities are normally determined on the basis of valuations provided by independent pricing services. Vendors typically value such securities based on one or more inputs described in the following table which is not intended to be a complete list. The table provides examples of inputs that are commonly relevant for valuing particular classes of fixed income securities in which the Fund is authorized to invest. However, these classifications are not exclusive, and any of the inputs may be used to value any other class of fixed-income securities. Securities that use similar valuation techniques and inputs as described in the following table are categorized as Level 2 of the fair value hierarchy. To the extent the significant inputs are unobservable, the values generally would be categorized as Level 3.

Fixed-income class

All

Corporate bonds and notes; convertible securities
US bonds and notes of government and government agencies
Residential and commercial
mortgage-backed obligations; asset-backed

obligations (including collateralized loan obligations)

Examples of Inputs

Benchmark yields, transactions, bids, offers, quotations from dealers and trading systems, new issues, spreads and other relationships observed in the markets among comparable securities; and proprietary pricing models such as yield measures calculated using factors such as cash flows, financial or collateral performance and other reference data (collectively referred to as standard inputs)

Standard inputs and underlying equity of the issuer

Standard inputs

Standard inputs and cash flows, prepayment information, default rates, delinquency and loss assumptions, collateral characteristics, credit enhancements and specific deal information, trustee reports

Bank loans

Standard inputs

Investments in registered open-end management investment companies will be valued based upon the net asset value (NAV) of such investments and are categorized as Level 1 of the fair value hierarchy.

Common stocks, exchange-traded funds and financial derivative instruments, such as futures contracts or options contracts, that are traded on a national securities or commodities exchange, are typically valued at the last reported sales price, in the case of common stocks and exchange-traded funds, or, in the case of futures contracts or options contracts, the settlement price determined by the relevant exchange. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized as Level 1 of the fair value hierarchy.

Over-the-counter financial derivative instruments, such as foreign currency exchange contracts, options contracts, futures, or swap agreements, derive their values from underlying asset prices, indices, reference rates, other inputs or a combination of these factors. These instruments are normally valued on the basis of evaluations provided by independent pricing services or broker dealer quotations. Depending on the instrument and the terms of the transaction, the value of the derivative instruments can be estimated by a pricing service provider using a series of techniques, such as simulation pricing models. The pricing models use issuer details and other inputs that are observed from actively quoted markets such as indices, spreads, interest rates, curves, dividends and exchange rates. Derivatives that use similar valuation techniques and inputs as described above are normally categorized as Level 2 of the fair value hierarchy. As of June 30, 2017, the Fund has no derivative instruments.

The Fund may enter into reverse repurchase agreements. In a reverse repurchase agreement, the Fund sells to a financial institution a security that it holds with an agreement to repurchase the same security at an agreed-upon price and date. A reverse repurchase agreement involves the risk that the market value of the security may decline below the repurchase price of the security. The Fund will segregate assets determined to be liquid by the Adviser or otherwise cover its obligations under reverse repurchase agreements. As of June 30, 2017, the Fund had no outstanding reverse repurchase agreements.

Securities may be fair valued in accordance with the fair valuation procedures approved by the Board of Trustees (the Board). The valuation committee is generally responsible for overseeing the day to day valuation processes and reports periodically to the Board. The valuation committee and the pricing group are authorized to make all necessary determinations of the fair values of portfolio securities and other assets for which market quotations are not readily available or if it is deemed that the prices obtained from brokers and dealers or independent pricing services are deemed to be unreliable indicators of market or fair value.

The following is a summary of the fair valuations according to the inputs used to value the Fund s investments as of June 30, 2017¹:

¹ Purchases include all purchases of securities and payups.

The following is a summary of quantitative information about Level 3 Fair Value Measurements:

	Fair Value as of 6/30/2017 *	Valuation Techniques	Unobservable Input	Input Values	Impact to valuation from an increase to input
Non-Agency					
Commercial					
Mortgage					Increase in yields would
Backed					result in the decrease in the
Obligations	\$ 149,169,867	Market Comparables	Yields	9.27% - 24.93%	fair value of the security

² Sales include all sales of securities, maturities, and paydowns.

³ Any difference between net change in unrealized appreciation (depreciation) and net change in unrealized appreciation (depreciation) on securities held at June 30, 2017 may be due to a security that was not held or categorized as Level 3 at either period end.

⁴ Transfers between Level 3 and Level 2 were due to a change in observable and/or unobservable inputs from the prior fiscal year end.

Significant changes in the market quotes would result in direct and proportional changes in the fair value of

U.S. Corporate

Bonds

100,000 Market Comparables Market Quotes

\$1.25 the security

^{*} Level 3 securities are typically valued by pricing vendors. The appropriateness of fair values for these securities is monitored on an ongoing basis by the Adviser, which may include back testing, results of vendor due diligence, unchanged price review and consideration of market and/or sector events.

Item 2. Controls and Procedures.

- (a) The Registrant's principal executive and principal financial officers have concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (the 1940 Act)) (17 CFR 270.30a-3(c)) are effective as of a date within 90 days of the filing date of this Form N-Q based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rule 13a-15(b) or Rule 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b)) or 240.15d-15(d)).
- (b) There were no changes in the Registrant s internal controls over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) (17 CFR 270.30a-3(d)) that occurred during the Registrant s last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Registrant s internal control over financial reporting.

Item 3. Exhibits.

Separate certifications for each principal executive officer and principal financial officer of the Registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)). Filed herewith.
