KINGSWAY ANNOUNCES THIRD QUARTER RESERVE ADJUSTMENT AND TERMINATION OF ACQUISITION DISCUSSIONS

Toronto, Ontario (September 26, 2003) Kingsway Financial Services Inc. (TSX:KFS, NYSE:KFS) announced a third quarter reserve adjustment and the termination of acquisition discussions.

Reserve Adjustment

Kingsway General, one of our Canadian insurance subsidiaries, recently completed a comprehensive review of its open claims to ensure consistent reserving practices and instigated a concerted effort to close older files. This review has resulted in an increase of approximately \$30 million in our provision for unpaid claims occurring prior to December 31, 2002, which will reduce our net income for the third quarter of 2003 by approximately \$20 million. The adverse development of Kingsway General's prior years' claims for the six months ended June 30, 2003 was approximately \$30 million, reducing our net income for the six month period by \$20 million. These adjustments relate primarily to Kingsway General's Alberta non-standard automobile business, Ontario commercial automobile business, and its trucking business. Overall, the growth in our gross and net premiums earned for the quarter ending September 30, 2003 continue to be strong, and on a consolidated basis we expect a third quarter after-tax benefit from realized investment gains of approximately \$9.6 million.

Since the completion of the claims review, Kingsway General has experienced no significant additional adverse development of its unpaid claim amounts. We expect Kingsway General to generate an underwriting profit for the month of September 2003.

U.S. Acquisition Discussions Terminated

We recently terminated our discussions regarding the acquisition of a U.S. insurance company that was previously disclosed in our U.S. prospectus relating to our trust preferred offering. At the present time, we are not engaged in any discussions regarding any other acquisition opportunities.

About the Company

Kingsway's primary business is trucking insurance and the insuring of automobile risks for drivers who do not meet the criteria for coverage by standard automobile insurers.
