## Independent auditors report

To

The Board of Directors and Shareholders of

Sadia S.A.

Concórdia - SC

### 1.

We have reviewed the Quarterly Financial Information of Sadia S.A (the Company) and the consolidated Quarterly Financial Information of the Company and its subsidiaries for the quarter ended March 31, 2008, comprising the balance sheets, the statements of income, of cash flows and of added value and the management report, which are the responsibility of its management.

### 2.

Our review was conducted in accordance with the specific rules set forth by the IBRACON – The Brazilian Institute of Independent Auditors, in conjunction with the Federal Accounting Council – CFC, and consisted mainly of the following: (a) inquiries and discussions with the persons responsible for the Accounting, Finance and Operational areas of the company and its subsidiaries as to the main criteria adopted in the preparation of the Quarterly Financial Information; and (b) reviewing information and subsequent events that have or may have relevant effects on the financial position and operations of the Company and its subsidiaries.

### 3.

Based on our review, we are not aware of any material modifications that should be made in the Quarterly Financial Information described above, for it to be in accordance with the rules issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Financial Information, including the its communication to the financial markets on January 14, 2008.

4.

As mentioned in note 3q, on December 28, 2007 Law N° 11,638 was enacted, and effective from January 1, 2008. This Law modified, amended and introduced new rules to the existing Corporate Law (Law N° 6,404/76) and will result in changes to certain accounting practices currently adopted in Brazil. Despite the fact that the new Law is already in force, the changes required depend on the issuance of further normatization by local regulators, in order for them to be fully adopted by the companies. Therefore, in this transition phase, in its communication to the financial markets on January 14, 2008, the Brazilian Securities Commission (CVM), allowed the non-application of the rules of Law N° 11,638/07 in the preparation of Quarterly Financial Information. As a consequence, the accounting information included in the Quarterly Financial Information of the Company and its subsidiaries for the quarter ended March 31, 2008, were prepared in accordance with the specific rules set forth by the CVM and does not contemplate the changes to the accounting practices introduced by Law N° 11,638/07.

Notes to the interim financial information

**March 31, 2008 and December 31, 2007**

*(In thousands of Reais)*

**1 Operations**

The Company's main business activities are organized into four operational segments: processed products, poultry (chickens and turkeys), pork and beef. The large production chain permits its products to be commercialized in Brazil and abroad by retailers, small groceries and food service chains.

The Company distributes its products through a large number of sales points in the local market and exports to countries in Europe, the Middle East, Eurasia, Asia and the Americas. The Company has 16 industrial units and 16 distribution centers located in 14 Brazilian states.

The industrially processed products segment has been the principal focus of the Company's investments in recent years and comprises products such as oven-ready frozen food, refrigerated pizzas and pasta, margarine, industrially processed poultry and pork by-products, crumbed products, a diet line and pre-sliced ready-packed products and desserts.

The Company has a corporate governance tier one listing for its shares on the São Paulo Stock Exchange, the Madrid Stock Exchange (Latibex) and ADRs negotiated on the New York Stock Exchange (NYSE).

## **2 Preparation and presentation of the interim financial information**

The individual and consolidated interim financial information are presented in thousands of Reais, unless otherwise stated and were prepared in accordance with accounting practices derived from the Brazilian Corporation Law and the rules of the Brazilian Securities and Exchange Commission (CVM).

In order to provide additional information, the Company has presented, as supplemented disclosures, the statements of cash flows and value added as follows:

Sadia S.A.

**Publicly-held Company**

Notes to the interim financial information

*(In thousands of Reais)*

***a. Statement of cash flows***

The cash flows were prepared in accordance with NPC 20 - Statement of Cash Flows, issued by IBRACON (Brazilian Institute of Independent Auditors).

***b. Statement of added value***

The value added statement has been presented in accordance with the model proposed by the foundation Instituto de Pesquisa Contábeis, Atuariais e Financeiras - University of Sao Paulo the aim of which is to show the value of the wealth generated by the Company and its distribution among the elements that contributed to its generation.

### **3 Description of significant accounting policies**

*a.*

#### ***Statement of income***

Income and expenses are recognized on the accrual basis. Revenue from the Company's sales is recognized upon shipment of the products and when the following conditions are met:

i) the ownership is transferred and therefore risk of loss has passed to the client; ii) collection is probable; iii) there is evidence of an arrangement; and iv) the sales price is fixed or determinable. In addition, the Company offers sales incentives and discounts through various programs to customers, which are accounted for as a reduction of revenue in Sales deductions. Sales incentives include volume-based incentive programs and payments to customers for performing marketing activities on our behalf.

*b.*

#### ***Foreign currency***

Monetary assets and liabilities denominated in foreign currencies were translated into reais at the foreign exchange rate ruling at the balance sheet date and the foreign exchange differences arising on translation are recognized in the statement of income for the period.

***Accounting estimates***

The preparation of the interim financial information in accordance with accounting practices adopted in Brazil requires that management uses its judgment in determining and recording accounting estimates. Significant assets and liabilities subject to these estimates and assumptions include the residual value of property, plant and equipment, deferred charges, allowance for doubtful accounts, inventories, deferred tax assets and liabilities, provision for contingencies, valuation of derivative instruments, and assets and liabilities related to employees' benefits. The settlement of transactions involving these estimates may result in different amounts due to the lack of precision inherent to the process of their determination. The Company reviews the estimates and assumptions periodically.

***Long and short-term investments***

Independent auditors' report

Investment funds in local and foreign currency are recorded at market value according to the respective shares price at the date of the interim financial information.

Other long and short-term investments in local and foreign currency are recorded at cost plus income accrued up to the balance sheet date, not exceeding market value.

Additionally, the portion receivable from currency swap contracts is recorded at the difference between the nominal amounts of these contracts and the amounts restated by the variation of the foreign currency, plus interest earned up to the balance sheet date.

*e.*

***Trade accounts receivable***

Trade accounts receivable are recorded at the amount invoiced and interest is not levied. The allowance for doubtful accounts is the best estimate the Company has and is considered sufficient by management to cover any losses arising on collection of accounts receivable. Accounts receivable are written off against the allowance for doubtful accounts after all means of collection have been exhausted and the possibility of recovery of the amounts receivable is considered remote.

***Inventories***

Finished goods, livestock (excluding breeders), work-in-progress, raw materials and supplies and others are valued at the lower of cost of acquisition or production (average method), or replacement or realization. The cost of finished goods and work-in-progress includes raw materials acquired, labor, production expenses, transport and storage relating to the purchase and production of inventories. Normal production losses in hog stock and poultry are inventoried and abnormal losses are expensed immediately as cost of goods sold.

*g.*

***Investments***

Investments in subsidiaries in Brazil and abroad are valued using the equity method based on the respective net equity calculated on the same date, as disclosed in Note 10.

The interim financial information of foreign subsidiaries are translated into Brazilian Reais, based on the following criteria:

.  
Balance sheet accounts at the exchange rate at the end of the period.

.  
Statement of income accounts at the exchange rate at the end of each month.

Other investments are valued at cost less a provision for devaluation considered as permanent.

*h.*

***Property, plant and equipment***

Property, plant and equipment are recorded at cost of acquisition, formation or construction, including the interest incurred on financing, during the period of construction, modernization and expansion of the industrial units. Expenditures that materially extend the useful lives of existing facilities and equipment are capitalized. Depreciation is calculated using the straight-line method at rates that take into account the estimated useful life of the assets, adjusted in keeping with the work shifts, as disclosed in Note 11. Depletion of forestry resources is calculated based on the extraction of timber and the average costs of the forests.

Breeding stock is recorded at the cost of formation which includes the appropriation of costs of the breeding hens, animal feed, medication and labor. These costs are accumulated for approximately six months until the breeding stock initiates the breeding cycle. From then on, the costs of the breeding stock begin to be amortized by the estimated number of off springs. The productive cycle ranges from fifteen to thirty months.

*i.*

***Impairment of long lived assets***

The Company reviews its non current assets to verify possible impairment losses, whenever events or changes in circumstances indicate that the carrying amount of an asset or group of assets may not be recoverable based on future cash flows. If these events occur, the reviews will be conducted at the lowest level of groups of assets for which the Company manages to attribute future cash flows. If the carrying amount of an asset is higher than the future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. Until now, these reviews have not indicated the need to recognize impairment losses.

*j.*

***Deferred charges***

Deferred charges are represented substantially by pre-operating costs, reorganization charges and development of new products and markets, which are amortized on a straight-line basis over 5 years as from the beginning of operation.

*k.*

***Current and noncurrent liabilities***

Current and noncurrent liabilities are stated at known or estimated amounts, plus related charges and monetary and exchange variations up to the interim financial information date.

*l.*

***Provisions***

A provision is recognized in the interim financial information when the Company has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation.

***Income and social contribution taxes***

The income and social contribution taxes, both current and deferred, are calculated monthly based on taxable income at the rates of 15% plus a surcharge of 10% for income tax and 9% for social contribution and consider the offsetting of tax losses and negative basis of social contribution, limited to 30% of taxable income.

The deferred tax assets were recorded in accordance with CVM Instruction 371/02 and are represented significantly by temporary differences arising from non-deductible provisions, including tax loss carryforward and negative basis of social contribution.

***Environmental***

Our production facilities and our forestry activities are subject to government environmental regulations. We have reduced the risks associated with environmental questions through operational controls and procedures, as well as investments in equipment and systems for pollution control. We believe that no provision for losses related to environmental questions is currently necessary, based on existing Brazilian laws and regulations.

***Tax incentives***

The Company has tax incentives granted by the governments of the states of Minas Gerais and Mato Grosso where some of its industrial plants are located, which will expire between 2014 and 2020. During the financial year 2007 these subsidies were recorded in the account Capital Reserve in net equity. Law 11638/07, amongst other changes, revoked item d) in paragraph 1 of article 182 of Law 6404/76, which implies that the amounts received by way of a subsidy for investment should be recorded in an income account and no longer as Capital Reserve.

***Alteration to Corporate Law - Law 11.638/07***

On December 28, 2007, Law 11.638/07 was issued, which introduced important changes to Law 6.404/76 with respect to the preparation and disclosure of financial statements for public companies. The main changes introduced by the new law requires that international accounting standards be adopted, with the standards to be published by the Securities Commission - CVM, and prepared in accordance with the standards issued by the *International Accounting Standard Board - IASB*.

Within the changes introduced, management highlights the following matters, which could have an impact on the Company's financial statements as from the year ending December 31, 2008:

·  
Change in the criteria for classifying and recording the financial instruments, including derivatives.

·  
Business combinations will be recorded at fair value.

·  
Tax incentives will no longer be classified as capital reserve, but will be included in the income statement. The General meeting can allocate a part of gain, corresponding to these incentives, to form the Tax Incentives Reserve, which can be excluded from the calculation base for the dividends.

·  
Creation of the heading "Comprehensive Income" in shareholders' equity, to record certain adjustments that are not related to the result for the period.

Management is evaluating the effects of the aforementioned changes in the Company's financial statements for the year ending 2008, and will take into consideration the guidelines and definitions to be issued by these regulatory bodies. At the moment, management believes it is not possible to measure the effects of these changes, should they have been applied for the interim financial information.

**4 Consolidated financial information**

The transactions and balances between the Parent company and its subsidiaries included in the consolidation process have been eliminated and the non-realized profit arising from the sales to the subsidiaries were excluded and incorporated to the inventory balances for each year. Minority interests were excluded from shareholders' equity and net income and are presented separately in the consolidated balance sheets and income statements.

In accordance with the CVM Instruction 408/04, the Company consolidated the financial statements of its investment fund Concórdia Foreign Investment Fund Class A, where it is the wholly investment holder. This investment fund has the sole purpose of centralizing the foreign investment fund portfolio, delegating to a third party the administrative functions and maximizing shareholder returns. As of March 31, 2008 and December 31, 2007, these investment funds were consolidated in the Company's financial statements as they had loans collateralized by its own financial assets.

The consolidated interim financial information include the accounts of Sadia S.A. and its direct and indirect subsidiaries, including investments in joint ventures. The consolidated direct or indirect subsidiaries and the corresponding shareholdings of the Company are as follows:

The Company and its subsidiaries abroad (Sadia International Ltd. and Wellax Food Logistics C.P.A.S.U. Lda.) entered into an agreement for sale of its receivables with an outside financial institution up to the maximum amount of US\$200 million, with interest rate of 0.26% p.a. + LIBOR.

As of March 31, 2008, the amount of receivables sold under this agreement amounted to approximately R\$ 343 million (R\$ 354 million as of December 31, 2007). During the period ended March 31, 2008, the Company received cash proceeds of approximately R\$ 1,033 million (R\$ 859 million as of March 31, 2007) and incurred expenses of R\$ 4,3 million (R\$ 3,7 million as of March 31, 2007) with respect to this agreement.

A credit insurance policy covering 90% of the value of the receivables was taken out with third parties and the beneficiaries in the event of default are the contracting financial institutions.

The Company also assigned receivables to a Credit Assignment Investment Fund (FIDC), administered by Concórdia S.A. Corretora de Valores Mobiliários, Câmbio e Commodities. As of March 31, 2008, the net equity of this fund was R\$ 304,248 (R\$ 497,854 at December 31, 2007), of which R\$ 249,740 (R\$ 347,763 at December 31, 2007) were represented by acquisitions of the Company's receivables on the domestic market, with a discounted cost equivalent to 95% of the CDI per senior quota. The assignment of the receivables is made without right of recourse, and the eventual losses from default for Sadia are limited to the value of the subordinated quotas,

***Guarantees***

**a.**

The Company provides guarantees to loans obtained by certain out growers located in the central region of the country as part of a special development program for that region. Such loans are used to improve the out growers farms installations and will be repaid in 10 years, where the Company obtain from the out growers their farms and installations as a collateral for such guarantees provided. The amount for such guarantees provided as of March 31, 2008 amounted R\$311,464 (R\$229,700 on December 31, 2007).

**b.**

The Company is a guarantor for a loan taken out by Instituto Sadia de Sustentabilidade from the National Bank for Economic and Social Development (BNDES). The object of this loan is to set up biodigesters on the properties of the rural producers that are taking part in the Sadia integration system, within the ambit of the Sadia sustainable pig breeding program, seeking a mechanism for clean development and reduction in emission of carbon gases. The total amount of these guarantees at March 31, 2008 was R\$56,855 (R\$51,354 at December 31, 2007).

**c.**

The Company offered a lien on the industrial property it owns in the city of Concórdia, state of Santa Catarina, as a guarantee to a notice of collection from the Federal Revenue Service questioning the compensation in prior years of R\$74 million in IPI premium credit against other federal taxes, which the right was given to the Company (a right recognized by the final and unappealable decision). Management and its legal advisors deem this charge to be misplaced and to prevent this dispute from prejudicing the Company's image and rights, a writ of mandamus was filed under which an injunction was obtained staying this notice of collection.

**23 Risk management and financial instruments**

The Company's operations that are exposed to market risks, mainly with respect to foreign currency variations, credit risks and variations in the prices of agricultural commodities - corn, soy bean and derivatives. These risks are managed by the Risk Management area, through identification of exposures and correlations between the different risk factors, using the specific calculation method, VAR - Value at Risk and simulations of scenarios, and are permanently monitored by the Financial Committee and by the Commodities and Risk Management Committee, consisting of members of the Board of Directors, who are responsible for defining management's strategy for administering these risks, determining the limits for positions, exposure and authority for decision making. At March 31, 2008, the VAR-Value at Risk for the operational assets and liabilities and financial instruments exposed to exchange rate variations for one year with 95% confidence, amounted to R\$187,711, representing 6.10% of shareholders' equity (Information not reviewed).

***a. Exchange rate risk***

The exchange rate risk for loans, financing and any other payables denominated in foreign currency is hedged by short-term investments denominated in foreign currency, with same interest rates, and by derivative financial instruments, such as rate swaps (dollar to CDI), interest rate swap contracts (Libor to pre-fixed or vice-versa) and future market agreements, in addition to foreign receivables from exports, which also reduce exchange variations by serving as a natural hedge .

The Company, within its hedge strategy, uses currency futures contracts (US dollars, Euros and Pounds), as a form of mitigating exchange rate risk over operating and financial assets and liabilities. The nominal amounts of these contracts are not recorded in the interim financial information.

The realized income of future contracts, for the period ended on March 31, 2008, generated a gain of R\$79,794 (R\$4,224 for the same period in 2007), represented by gain in the amount of R\$30,512 (loss in the amount of R\$147 in the same period in 2007) accounted for as financial income in Monetary Variations Assets , and a gain in the amount of R\$ 49.282 (R\$4,371 in the same period of 2007) as operating income in Gross operating revenue .

***b. Credit risk***

The Company is potentially exposed to credit risk in relation to its trade accounts receivable, long and short-term investments and derivative instruments. The Company limits the risk associated with these financial instruments by subjecting them to the control of highly rated financial institutions that operate within the limits pre-established by the risk, credit and financing committees.

The concentration of credit risk with respect to accounts receivable is minimized due to the spread of its client base, since the Company does not have any customer or group representing 10% or more of its consolidated revenues, as well as granting credits for customers with solid financial and operational ratios. Generally, the Company does not require a guarantee for sales, however it has contracted an insurance credit policy to its domestic receivables.

***c. Grain purchase price risks***

Independent auditors report

The Company's operations are exposed to the volatility in prices of grain (corn and soybean) used in the preparation of animal feed for its breeding stock, where the price variation results from factors beyond the control of management, such as climate, the size of the harvest, transport and storage costs and government agricultural policies, among others. The Company does not enter into futures or options contracts to hedge against fluctuations in the prices of the commodities, however it maintains a risk management strategy, based on physical control, which includes purchase of grain at fixed and fixable prices. The Company has a Commodities Committee and Risk Management, composed by the chief executive officer and financial and operational executives, whose aim is to discuss and decide on the company's strategies and positioning with respect to the various risk factors that impact the operating results.

*d. Estimated market values*

The Company used the following methods and assumptions to estimate the disclosure of the fair value of its financial instruments as of March 31, 2008 and 2007:

Sadia S.A.

**Publicly-held Company**

Notes to the interim financial information

*(In thousands of Reais)*

.

**Cash and cash equivalents** - The book values of cash and banks recorded in the balance sheet are similar to the respective fair values.

.

**Short-term financial investments** - The fair value of short-term financial investments is estimated based on the market quotations of comparable contracts.

.

**Accounts receivable and payable** - The book values of accounts receivable and payable recorded in the balance sheet are similar to their respective fair values.

**Investments:** The market values of the investments were obtained from their market quotations.

**Short and long-term loans and financing** - The market values of loans and financing were calculated based on their present value calculated through the future cash flows and using interest rates applicable to instruments of similar nature, terms and risks, or based on the market quotation of these securities. The market values of BNDES financing are similar to the book values, since there are no similar instruments with comparable maturities and interest rates.

**Exchange and interest rate swap contracts** - The fair values of exchange and interest rate swap contracts were estimated based on market quotations for comparable contracts. As of March 31, 2008 the contracted amounts in force totaled R\$3,120,782 (R\$2,251,459 on December 31, 2007) and the valuation of these contracts to fair value would result in a gain of R\$112,776 (loss of R\$63,645 on December 31, 2007), composed by a gain in the amount of R\$49,817 accounted for as financial income, and a gain in the amount of R\$62,959 as operating income. The effective cash settlements of the contracts occur on the respective maturities of each agreement. The Company does not intend to settle these contracts before their maturity.

The market values were estimated on the balance sheet date, based on relevant market information. Changes in the assumptions may significantly affect these estimates.

**24 Insurance**

The Company and its subsidiaries adopt insurance engagement policy at levels that Management considers adequate to cover risks resulting from the claims of its assets. Due to the characteristics of multilocated operations, Management engages its policies with a limit of maximum loss possible in the same event, with amounts calculated based on risk inspections and potential losses. The policies engaged guarantee coverage against fire, general civil liability, windstorms, disorders and electric damage, as well as insurance for merchandise transport, personal and vehicle damage. The amount currently insured guarantees the comprehensive coverage of the Company's fixed assets.

The assumptions adopted, given their nature, are not part of the scope of an audit of financial statements and, accordingly, they were not examined by our independent auditors.

## 25 Private pension plan

*a.*

### *Defined benefit plan*

The Company and its subsidiary Concórdia S.A. C.V.M.C.C. are the sponsors of a defined contribution pension plan for employees, managed by Fundação Atílio Francisco Xavier Fontana .

The supplementary pension benefit is defined as the difference between (i) the benefit wage (updated average of the last 12 participation salaries, limited to 80% of the last participation salary) and (ii) the amount of the pension paid by the National Institute of Social Security. The supplementary benefit is updated every year by the National Consumer Price Index - INPC.

The actuarial system is that of capitalization for supplementary retirement and pension benefits and of simple apportionment for supplementary disability compensation. The Company's contribution is based on a fixed percentage of the payroll of active participants, as annually recommended by independent actuaries and approved by the trustees of Fundação Atílio Francisco Xavier Fontana .

***Defined contribution plan***

As from January 1, 2003, the Company began to adopt new supplementary pension plans under the defined contribution modality for all employees hired by Sadia and its subsidiaries. As from January 1, 2007 these plans are only available to employees earning over R\$1,800 per month. Under the terms of the regulations, plans are funded on an equitable basis so that the portion paid by the Company is equal to the payment made by the employee in accordance with a contribution scale based on salary bands that vary between 1,5% and 6% of the employee's remuneration, observing a contribution limit that is updated annually. The contributions made by the Company on March 31, 2008 and 2007 totaled R\$538 and R\$291 respectively. As of March 31, 2008 this plan had 1,555 participants (1,421 participants on December 31, 2007).
