Signet International Holdings, Inc. and Subsidiary
(a development stage enterprise)
Notes to Consolidated Financial Statements
September 30, 2006 and 2005

Note A - Organization and Description of Business

Signet International Holdings, Inc. (Company) was incorporated on February 2, 2005 under the Laws of the State of Delaware as 51142, Inc. The Company's initial business plan was to engage in any lawful corporate undertaking, including, but not limited to, selected mergers and acquisitions.

On September 8, 2005, pursuant to a Stock Purchase Agreement and Share Exchange (Agreement) by and among the Company, Signet Entertainment Corporation (SIG) and the shareholders of Signet Entertainment Corporation (a private Florida corporation) (Shareholders) (collectively SIG and the SIG shareholders shall be known as SIG Group); the Company acquired 100.0% of the then issued and outstanding shares of SIG in exchange for the issuance of an aggregate 3,421,000

Edgar Filing: SIGNET INTERNATIONAL HOLDINGS, INC. - Form 10QSB

shares of the Company's common stock to the SIG shareholders. Pursuant to the Agreement, SIG became a wholly owned subsidiary of the Company. At the transaction date, the then-sole shareholder of the Company was also the controlling shareholder, chief executive officer and director of SIG.

Signet Entertainment Corporation (SIG) was incorporated on October 17, 2003 in accordance with the Laws of the State of Florida. SIG was formed to establish a television network "The Gaming and Entertainment Network".

The acquisition of the SIG by the Company effected a change in control of the Company and will be accounted for as a "reverse acquisition" whereby the Company is the accounting acquiror for financial statement purposes. Accordingly, for all periods subsequent to the combination transaction, the financial statements of the Signet International Holdings, Inc. will reflect the historical financial statements of the Company and the operations of Signet International Holdings, Inc. subsequent to the transaction date.

The Company is considered in the development stage and, as such, has generated no significant operating revenues and has incurred cumulative operating losses of approximately \$827,000.

Note B - Preparation of Financial Statements

The acquisition of the SIG by the Company effected a change in control of the Company and will be accounted for as a "reverse acquisition" whereby the SIG is the accounting acquiror for financial statement purposes. Accordingly, for all periods subsequent to the combination transaction, the financial statements of the Signet International Holdings, Inc. will reflect the historical financial statements of the SIG and the operations of Signet International Holdings, Inc. subsequent to the transaction date.

The Company follows the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America and has a year-end of December 31.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing and maintaining a system of internal accounting control and preventing and detecting fraud. The Company's system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and 3) transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the respective periods being presented.

During interim periods, the Company follows the accounting policies set forth in its annual audited financial statements filed with the U. S. Securities and Exchange Commission on its Annual Report on Form 10-KSB which contains the Company's audited financial statements for the year ended December 31, 2005. The information presented within these interim financial statements may not include all disclosures required by generally accepted accounting principles and the users of financial information provided for interim periods should refer to the annual financial information and footnotes when reviewing the interim financial results presented herein.

Signet International Holdings, Inc. and Subsidiary
(a development stage enterprise)
Notes to Consolidated Financial Statements - Continued
September 30, 2006 and 2005

Note B - Preparation of Financial Statements - Continued

In the opinion of management, the accompanying interim financial statements, prepared in accordance with the U. S. Securities and Exchange Commission's instructions for Form 10-QSB, are unaudited and contain all material adjustments, consisting only of normal recurring adjustments necessary to present fairly the financial condition, results of operations and cash flows of the Company for the respective interim periods presented. The current period results of operations are not necessarily indicative of results which ultimately will be reported for the full fiscal year ending December 31, 2006.

Note C - Going Concern Uncertainty

The Company is still in the process of developing it's business plan and raising capital. As such, the Company is considered to be a development stage company.

The Company's continued existence is dependent upon its ability to generate sufficient cash flows from operations to support its daily operations as well as provide sufficient resources to retire existing liabilities and obligations on a timely basis.

The Company anticipates future sales of equity securities to facilitate either the consummation of a business combination transaction or to raise working capital to support and preserve the integrity of the corporate entity. However, there is no assurance that the Company will be able to obtain additional funding through the sales of additional equity securities or, that such funding, if available, will be obtained on terms favorable to or affordable by the Company.

If no additional operating capital is received during the next twelve months, the Company will be forced to rely on existing cash in the bank and upon additional funds loaned by management and/or significant stockholders to preserve the integrity of the corporate entity at this time. In the event, the Company is unable to acquire advances from management and/or significant stockholders, the Company's ongoing operations would be negatively impacted.

It is the intent of management and significant stockholders to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, no formal commitments or arrangements to advance or loan funds to the Company or repay any such advances or loans exist. There is no legal obligation for either management or significant stockholders to provide additional future funding.

While the Company is of the opinion that good faith estimates of the Company's ability to secure additional capital in the future to reach our goals have been made, there is no guarantee that the Company will receive sufficient funding to sustain operations or implement any future business plan steps.

4. Advertising expenses

The Company does not utilize direct solicitation advertising. All other advertising and marketing expenses are charged to operations as incurred.

5. Income Taxes

The Company uses the asset and liability method of accounting for income taxes. At September 30, 2006 and 2005, respectively, the deferred tax asset and deferred tax liability accounts, as recorded when material to the financial statements, are entirely the result of temporary differences. Temporary differences represent differences in the recognition of assets and liabilities for tax and financial reporting purposes, primarily accumulated depreciation and amortization, allowance for doubtful accounts and vacation accruals.

As of September 30, 2006 and 2005, the deferred tax asset related to the Company's net operating loss carryforward is fully reserved. Due to the provisions of Internal Revenue Code Section 338, the Company may have no net operating loss carryforwards available to offset financial statement or tax return taxable income in future periods as a result of a change in control involving 50 percentage points or more of the issued and outstanding securities of the Company.

6. Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing the net income

Edgar Filing: SIGNET INTERNATIONAL HOLDINGS, INC. - Form 10QSB

(loss) available to common shareholders by the weighted-average number of common shares outstanding during the respective period presented in our accompanying financial statements.

Fully diluted earnings (loss) per share is computed similar to basic income (loss) per share except that the denominator is increased to include the number of common stock equivalents (primarily outstanding options and warrants).

Common stock equivalents represent the dilutive effect of the assumed exercise of the outstanding stock options and warrants, using the treasury stock method, at either the beginning of the respective period presented or the date of issuance, whichever is later, and only if the common stock equivalents are considered dilutive based upon the Company's net income (loss) position at the calculation date.

At September 30, 2006 and 2005, and subsequent thereto, the Company's issued and outstanding preferred stock is considered anti-dilutive due to the Company's net operating loss position.

Note E - Fair Value of Financial Instruments

The carrying amount of cash, accounts receivable, accounts payable and notes payable, as applicable, approximates fair value due to the short term nature of these items and/or the current interest rates payable in relation to current market conditions.

Interest rate risk is the risk that the Company's earnings are subject to fluctuations in interest rates on either investments or on debt and is fully dependent upon the volatility of these rates. The Company does not use derivative instruments to moderate its exposure to interest rate risk, if any.

Financial risk is the risk that the Company's earnings are subject to fluctuations in interest rates or foreign exchange rates and are fully dependent upon the volatility of these rates. The company does not use derivative instruments to moderate its exposure to financial risk, if any.

Note H - Preferred Stock - Continued

The Board of Directors has the authority, without further action by the shareholders, to issue from time to time the preferred stock in one or more series for such consideration and with such relative rights, privileges, preferences and restrictions that the Board may determine. The preferences, powers, rights and restrictions of different series of preferred stock may differ with respect to dividend rates, amounts payable on liquidation, voting rights, conversion rights, redemption provisions, sinking fund provisions and purchase funds and other matters. The issuance of preferred stock could adversely affect the voting power or other rights of the holders of common stock.

On October 20, 2003, in conjunction with the formation and incorporation of the Company, the Company issued 4,000,000 shares of preferred stock to the incorporating persons.

On July 19, 2005, the Company issued 1,000,000 shares of preferred stock to an existing shareholder and Company officer for services related to the organization and structuring of the Company and its proposed business plan.

Note I - Common Stock Transactions

On October 17, 2003 and November 1, 2003, in connection with the incorporation and formation of the Company, an aggregate of approximately 3,294,000 shares of

Edgar Filing: SIGNET INTERNATIONAL HOLDINGS, INC. - Form 10QSB

restricted, unregistered shares of common stock and were issued to various founding individuals. This combined preferred stock and common stock issuances were collectively valued at approximately \$40,810, which approximated the fair value of the time provided by the individuals and the related out-of-pocket expenses.

On June 16, 2004 and December 3, 2004, the Company sold, in three separate transactions to three unrelated individuals, an aggregate 70,000 shares of restricted, unregistered common stock for \$35,000 cash. These shares were sold pursuant to an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, and no underwriter was used any of the three transactions.

Between July 20, 2005 and August 26, 2005, the Company sold an aggregate 57,000 shares of common stock to existing and new shareholders at a price of \$0.01 per share for gross proceeds of approximately \$570. As this selling price was substantially below the "fair value" of comparable transactions, the Company will recognize a charge to operations equivalent to the difference between the established "fair value" of \$1.00 per share (as determined by the pricing in the September 2005 Private Placement Memorandum) and the selling price of \$0.01 per share as "Compensation expense related to common stock sold at less than "fair value".

On September 9, 2005, the Company commenced the sale of common stock pursuant to a Private Placement Memorandum in a self-underwritten offering. This Memorandum is offering for sale to persons who qualify as accredited investors and to a limited number of sophisticated investors, on a best efforts basis, up to 2,000,000 of our common shares at \$1.00 per share, for anticipated gross proceeds of \$2,000,000. The common shares will be offered through the Company's officers and directors on a best-efforts basis. The minimum investment is \$1,000, however, the Company might, at its sole discretion, accept subscriptions for lesser amounts. Funds received from all subscribers will be released to the Company upon acceptance of the subscriptions by the Company's management. Through June 30, 2006, the Company has sold 381,000 shares for gross proceeds of \$381,000 under this Memorandum.

On March 31, 2006, the Company repurchased 50,000 shares of common stock from the estate of a deceased shareholder which purchased said shares for \$50,000 cash pursuant to the aforementioned September 2005 Private Placement Memorandum for \$50,000 cash. In June 2006, the Company's Board of Directors cancelled these shares and returned them to unissued status.

On June 22, 2006, the Company issued 250,000 shares of unregistered, restricted common stock, valued at \$0.50 per share or \$125,000, in payment of consulting fees. As the agreed-upon value of the services provided was less than the "fair value" of comparable transactions, the Company will recognize a charge to operations equivalent to the difference between the established "fair value" of \$1.00 per share (as determined by the pricing in the September 2005 Private Placement Memorandum) and the agreed-upon value of \$0.50 per share as "Compensation expense related to common stock issued at less than "fair value".

The working capital commitment is based on mutually agreed budgets and is projected to amount approximately \$15 million, inclusive of management fees. This advance of management fees would be drawn down by Triple Play over approximately the first 12 months of its operations which would begin once Signet has access to the secondary offering funding. This advance will be recovered by Signet from Triple Play's future cash

Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain statements contained in this quarterly filing, including, without limitation, statements containing the words "believes", "anticipates", "expects" and words of similar import, constitute forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements.

Such factors include, among others, the following: international, national and local general economic and market conditions; demographic changes; the ability of the Company to sustain, manage or forecast its growth; the ability of the Company to successfully make and integrate acquisitions; raw material costs and availability; new product development and introduction; existing government regulations and changes in, or the failure to comply with, government regulations; adverse publicity; competition; the loss of significant customers or suppliers; fluctuations and difficulty in forecasting operating results; changes in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; the ability to protect technology; and other factors referenced in this and previous filings.

Given these uncertainties, readers of this Form 10-QSB and investors are cautioned not to place undue reliance on such forward-looking statements. The Company disclaims any obligation to update any such factors or to publicly announce the result of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

(2) Results of Operations, Liquidity and Capital Resources or Plan of Operation

Quarters Ended September 30, 2006 and 2005

The Company had no revenue for either of the respective nine or three month periods ended September 30, 2006 and 2005, respectively.

Edgar Filing: SIGNET INTERNATIONAL HOLDINGS, INC. - Form 10QSB

General and administrative expenses for the nine months ended September 30, 2006 and 2005 were approximately \$359,000 and \$92,900, respectively. Net loss for the nine months ended September 30, 2006 and 2005, respectively, was approximately \$(488,000) and \$(201,000). Earnings per share for the respective quarters ended September 30, 2006 and 2005 was approximately \$(0.12) and \$(0.06) on the weighted-average shares issued and outstanding.

The Company does not expect to generate any meaningful revenue or incur operating expenses for purposes other than fulfilling the obligations of a reporting company under The Securities Exchange Act of 1934 unless and until such time that the Company's operating subsidiary begins meaningful operations.

At September 30, 2006 and 2005, respectively, the Company had working capital of approximately \$(144,000) and \$(105,000).

It is the intent of management and significant stockholders, if necessary, to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, there is no legal obligation for either management or significant stockholders to provide additional future funding. Should this pledge fail to provide financing, the Company has not identified any alternative sources. Consequently, there is substantial doubt about the Company's ability to continue as a going concern.

The Company's need for capital may change dramatically as a result of any business acquisition or combination transaction. There can be no assurance that the Company will identify any such business, product, technology or company suitable for acquisition in the future. Further, there can be no assurance that the Company would be successful in consummating any acquisition on favorable terms or that it will be able to profitably manage the business, product, technology or company it acquires.

Plan of Operations

In the last quarter of fiscal year 2006, we expect to begin implementation of that part of our business plan relating to the acquisition for stock of Low Power Television (LPTV) stations. Although we have had no revenues generated to date, we expect to realize revenues commencing with the first acquisition of an LPTV station. Consideration needed for the initial acquisition is anticipated to come from the issuance of new shares of our common stock and cash on hand which

14

was obtained through our private placement memorandum which commenced in September 2005 and was completed in January 2006.

It is the intent of management and significant stockholders, if necessary, to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. Although we have verbal assurances from Mr. Letiziano that he will provide such interim working capital, there is no legal obligation for either management or significant stockholders to provide additional future funding. We may raise additional funds through public offerings of equity, securities convertible into equity or debt, private offerings of securities.

Concurrent with our acquisition of LPTV stations using our common stock as anticipated to start in the first quarter of 2007, we intend to seek additional equity or debt financing. To date, we have been able to raise funds in two

Edgar Filing: SIGNET INTERNATIONAL HOLDINGS, INC. - Form 10QSB

funding rounds through both debt and equity offerings. We anticipate that the funds we secure from our next round will enable us to purchase additional LPTV stations, some with a cash consideration, and provide additional working capital to enable us to possibly acquire some stations incurring net operating losses; but, are located in areas which management believe are sufficient to grow into profitable operations, purchase programming and initiate Triple Play Media operations. Cash costs for this phase of our plan will include: \$25,000 related to the funding round plus up to \$30 million to support the acquisitions of LPTV stations, plus up to \$15 million to support the Triple Play contract. This phase of our plan is anticipated to continue throughout Calendar 2007.

We have filed a Registration Statement on Form SB-2, pursuant to the Securities Act of 1933, as amended, and it is in the review and approval process with the U. S. Securities and Exchange Commission (SEC). Once our Registration Statement is declared effective, we will explore the LPTV market to identify stations which are available for acquisition using the following criteria: a spectrum of at least 550,000 TV households, are rated Class A, and are located in a growing market. In order to approach the market efficiently, we have adopted an order of occurrences to be followed by priority.

1. Review markets of dominant influence (the ratings of TV households in each market). We are currently in the process of reviewing the markets and will continue to so through the fourth quarter of Calendar 2006 and the first quarter of Calendar 2007. We expect the cash requirements for this effort to be insignificant and to be paid from our current cash in hand.
2. Identify which LPTV stations that are currently operating at a profit and are in good standing with the Federal Communications Commission (FCC). We are currently in the process of reviewing the markets and will continue to so through the fourth quarter of Calendar 2006 and into the first quarter of Calendar 2007. We expect the cash requirements for this effort to be insignificant and to be paid from our current cash in hand.
3. Identify those LPTV stations for sale; initiate contact with LPTV station owner(s) and appropriate legal counsel; sign non-circumvention agreements and issue "Letters of Intent.". We are currently identifying the stations for sale and will commence negotiations at such time that our Registration Statement is deemed effective by the SEC and our shares are approved to trade by the National Association of Securities Dealers (NASD) on the NASD Electronic Bulletin Board. We currently anticipate signing at least one letter of intent by the end of the year. We expect the cash requirements for this effort to be immaterial and to be paid from our current cash in hand.
4. Perform due diligence which will include the review of financial statements, customer base, survey of equipment and the review of compliance with FCC regulations researched through public records. We intend to commence due diligence as soon as we have signed letter(s) of intent as set forth above. The cash requirements for this effort are anticipated to be met through our current cash in hand.
5. Negotiate and finalize agreement to purchase the LPTV stations and file, through appropriate legal counsel, the requisite FCC applications for approval to operate the target LPTV stations. This process will be undertaken when we have completed our due diligence. We anticipate, based on the best of management's knowledge, that the approval period will take between 60-90 days per application. The cash requirements for these efforts are anticipated to be met through our current cash on hand. We intend to purchase these LPTV stations for a combination of cash and an amount of our common stock to be negotiated

Edgar Filing: SIGNET INTERNATIONAL HOLDINGS, INC. - Form 10QSB

for each acquisition. We anticipate that the cash for the purchase of these stations will come from additional new financing to be received once our Registration Statement is deemed effective and the NASD has cleared our common stock for trading. At this time, we have no commitment for this financing.

6. Once the FCC has granted approval of our acquisition and operation of each LPTV station, we will then become owner and will be responsible for the daily expenses associated with operating the business. The cash requirements for operating these stations will be paid from the revenues generated from the stations.

15

We anticipate that the process of locating, identifying, negotiating the Letter of Intent, receiving FCC approval and closing our initial acquisition will take approximately 120 days after our Registration Statement is deemed effective and our common stock is approved to trade on the NASDAQ Electronic Bulletin Board (OTCBB).

To date, management has identified several potential station acquisition targets by name and/or location only. The management and/or ownership of these identified LPTV stations will not be approached until our Registration Statement is deemed effective by the SEC. Currently, we have only ascertained that certain stations are for sale by searching the Internet. The name and call letters of these stations are posted on various web sites. It is our intention to finance payment of these stations by issuing the sellers newly issued shares of our common stock as well as cash payments to be negotiated. We can not be certain that any of the stations will agree to a purchase and/or share exchange arrangement. Since our research and contacts will be made through our office, we do not expect to incur any additional expenses other than the normal general and administrative expenses presently being paid.

We believe we can satisfy our cash requirements for our operations over the next twelve months with our current cash reserves. The cash balance at September 30, 2006 is approximately \$171,000. We anticipate for the next 12 months, excluding the costs of any LPTV station acquisitions, our operational as well as general and administrative expenses will total approximately \$126,000. We anticipate that will be able to cover these expenses with our current cash reserves. Management is of the opinion that our average ongoing operating expenses, on a monthly basis, are as follows:

Accounting Fees	\$ 2,000
Legal fees	3,500
General and administrative expenses	2,500
Travel & Surveys	1,500
Other Expenses	1,000

Total	\$10,500
	=====

Our operating expenses for the first nine months of Calendar 2006 were approximately \$358,000 and required cash resources of approximately \$105,000. These expenses include the accrual for executive and other compensation, which will not be paid until some future period where adequate resources are available, and various charges for legal, auditing, other fees incurred in the

Edgar Filing: SIGNET INTERNATIONAL HOLDINGS, INC. - Form 10QSB

process of preparing and filing our Registration Statement on Form SB-2. We anticipate that our actual cash requirements will be remain relatively stable for the next 12 months and we anticipate a significant reduction in future overhead expense levels as discussed above.

There will be no expenses recognized or cash requirements associated with the Big Vision contract until such time that services have been provided by Big Vision. At the time Big Vision starts providing services, we will be generating revenues from acquired LPTV stations to cover these commitments. Until such time that our common stock is approved for public trading, we receive additional financing and proceed with the implementation of our business, we have no other contractually obligated expenses. We cannot assure investors that we will be able to raise sufficient capital. In the absence of additional funding, we may not be able to purchase some of the stations we have identified or fully implement our business plan. Even without significant new funding during the fourth quarter of Calendar 2006 or the first quarter of Calendar 2007, we anticipate that we will still be able to acquire some profitable LPTV stations with only our common stock, after the effectiveness of our Registration Statement, and integrate their financial operations in future periods.

The foregoing represents our best estimate of our cash needs based on current planning and business conditions. The exact allocation, purposes and timing of any monies raised in subsequent funding rounds may vary significantly depending upon the exact amount of funds raised and status of the implementation of our business plan when these funds are raised.

Apart from enlarging our Board of Directors and integrating the employees of any LPTV stations that we may acquire in the future, we do not expect any significant changes in the number of our employees.
