ITEM 1.

DESCRIPTION OF BUSINESS

Franchise Capital Corporation (the Company) a Nevada corporation, was incorporated on July 6, 2001. The Company was formerly named Cortex Systems, Inc. In December of 2004 the Company changed its name to Franchise Capital Corporation, to more accurately reflect its business of developing and franchising casual dining restaurants. The Company acquired the rights to four franchise concepts. Effective December 24, 2004, the Company became an internally managed, closed end investment company electing to be treated as a business development company under the Investment Company Act of 1940, as amended.

As a business development company (BDC), the Company intended to provide long-term debt and equity investment capital to support the expansion of companies in the casual, fast food restaurant industry. The Company served as a holding company for its wholly and majority owned operating portfolio investments: Fathom Business Systems, Inc. (Fathom), Comstock Jake's Franchise Company, (Comstock's), Kokopelli Franchise Company, (Kokopelli), Corvina Vinnie's Franchise Company (CV), and Kirby Foods Asian Grill Franchise Company (Kirby). The Company owned 100% of Fathom and Kokopelli and had ownership interests in Kirby of approximately 97.5%, 72.5% of Comstock Jake's, and 50% of CV.

In August 2006, the Company abandoned its business model and commenced liquidating all of its investment holdings. On March 13, 2007, the Company held a shareholder meeting at which the Company's shareholders voted to withdraw the Company's election to be a business development company as defined by the 1940 Act. On March 14, 2007, the Company filed for N-54C to formally withdraw the Company's BDC status.

On January 12, 2007, the Company executed a definitive share exchange agreement with TTR HP, Inc. (dba Aero Exhaust, Inc.) pursuant to which the Company agreed to exchange shares of its common stock to acquire 100% of the total issued and outstanding stock of Aero. Once the share exchange is complete, the Company anticipates that the

shareholders of Aero will become the majority shareholders of the Company.

Following the share exchange, the Company's business will be that of Aero Exhaust. Aero designs and manufactures performance exhaust systems for both street and race applications. Aero Exhaust has been issued U.S. and Australian patents on its innovations and development in the exhaust industry, and its mufflers are available worldwide through major retailers, mass merchant centers, automotive aftermarket supply stores and wholesalers. Aero Exhaust mufflers are an exclusive National Association for Stock Car Auto Racing (NASCAR) Performance product and carry the NASCAR brand on product, packaging and related media.

Investment Strategy

Changes in our corporate structure

Effective December 17, 2004, the Company designated 30,000,000 shares of Series C Preferred Stock. Each share of Series C issued was convertible into Common Stock on a 1:1 basis. The Series C was entitled to name three members of the Company's Board of Directors at all times. On January 14, 2005, the Company implemented a one for 10 reverse split of the Series C Preferred Stock. All share and per share amounts presented in our financial statements which are part of this Annual Report on Form 10-K, have been restated retroactively to reflect the split as if it had occurred on the first day of the first period presented, or July 1, 2004. Recent Sales of Unregistered Securities

Except as otherwise noted, the securities described in this Item 5 were issued pursuant to the exemption from registration provided by Section 4(2) of the Securities Act of 1933. Each such issuance was made pursuant to individual contracts which are discrete from one another and are made only with persons who were sophisticated in such transactions and who had knowledge of and access to sufficient information about the Company to make an informed investment decision. Among the information provided was the fact that the securities issued were restricted securities. No commissions were paid in connection with the transactions described below unless specifically noted.

In November 2006, the Company agreed to settle litigation with Golden Gate Investors on a past-due convertible debenture having a principle balance due of \$220,927. Under the terms of the settlement, the Company placed 843,818,400 shares of its restricted common stock into an escrow account for satisfaction of the debenture. Golden Gate is allowed to withdraw the shares from escrow provided that their overall holdings in the Company do not exceed 4.9% of all issued and outstanding common stock. The debenture obligation is reduced by 80% of the average of the five lowest closing bid prices of the Company's common stock over a 45-day period prior to the share withdrawal multiplied by the number of shares being withdrawn. As of September 25, 2007, under the terms of this settlement, 400,287,345 shares have subsequently been released from escrow and the debenture balance has been reduced to \$35,694.

In connection with the debenture settlement with Golden Gate, Golden Gate entered into a stock purchase agreement which required Golden Gate to purchase \$100,000 of the Company's restricted common stock for every \$10,000 in debenture redeemed through the escrow. Through June 30, 2007, the Company had sold 1,332,128 shares of restricted common stock to Golden Gate for \$1,332,128 under the agreement. In addition, the Company received \$2,206,501 from Golden Gate as an advance on future stock purchases under the agreement. \$2,206,501 from Golden Gate as an advance on future stock purchases under the agreement, of which 1,863,349 shares of restricted common stock were subsequently purchased for \$1,863,349, leaving a total stock payable as of September 25, 2007 of \$344,152.

As of September 25, 2007 Franchise Capital Corporation had 964,129,838 shares of common stock outstanding.

ITEM 6.

MANAGEMENTS DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

The following information should be read in conjunction with the consolidated financial statements and notes thereto appearing elsewhere in this Form 10-KSB.

Plan of Operation

On December 23, 2004 the Company's Board of Directors elected to be regulated as a business investment company under the Investment Company Act of 1940. As a business development company (BDC), the Company is required to maintain at least 70% of its assets invested in eligible portfolio companies, which are loosely defined as any domestic company which is not publicly traded or that has assets less than \$4 million. As of December 29, 2004, management recognized that a deficiency in liquidity. Such deficiency was noted in the notes to the financial statements and the audit opinion. To remedy this situation, the Board of Directors authorized management to file Form 1-E with the Commission notifying of its intent to sell up to \$5 million of the Company's common stock under a Regulation E exemption. From July 1, 2005 to June 30, 2006, the Company sold a total of 39,640,500 shares of common stock pursuant to Regulation E for aggregate proceeds of \$620,261.

Franchise Capital Corporation invested in a total of five portfolio companies: Fathom Business Systems, Inc., Comstock Jakes Franchise Co., LLC, Cousin Vinnie's Franchise Co., LLC, Kirby Foods Franchise Co., LLC and Kokopelli Franchise Co., LLC.

At June 30, 2006, the Company's management determined that the business model in effect was not sustainable and voted to liquidate the Company's investment portfolio. From July 1, 2006 through December 31, 2006, the Company sold 100% of its portfolio assets and effectively ceased operations. On March 13, 2007, the Company's shareholders voted by majority consent to withdraw the Company's election as a BDC under the 1940 Act and, on March 13, 2007, the Company filed a Form N-54C which formally withdrew the BDC election.

On January 12, 2007, the Company executed a definitive share exchange agreement with TTR HP, Inc. (dba Aero Exhaust, Inc.) pursuant to which the Company agreed to exchange shares of its common stock to acquire 100% of the total issued and outstanding stock of Aero. Once the share exchange is complete, the Company anticipates that the shareholders of Aero will become the majority shareholders of the Company.

Following the share exchange, the Company's business will be that of Aero Exhaust. Aero designs and manufactures performance exhaust systems for both street and race applications. Aero Exhaust has been issued U.S. and Australian patents on its innovations and development in the exhaust industry, and its mufflers are available worldwide through major retailers, mass merchant centers, automotive aftermarket supply stores and wholesalers. Aero Exhaust mufflers are an exclusive National Association for Stock Car Auto Racing (NASCAR) Performance product and carry the NASCAR brand on product, packaging and related media.

As part of the definitive agreement between the Company and Aero Exhaust, the Company agreed to extend a line of credit to Aero in the amount of \$1,875,000. Under the terms of the line of credit, any unpaid principle and interest on the line of credit will be converted into shares of Aero Exhaust common stock immediately prior to the share exchange. The net effect of this transaction will be an increase in the overall position that the Company's existing

shareholders will have in the Company subsequent to the share exchange. The rate at which the line of credit will be converted into Aero Exhaust stock has yet to be determined. As of June 30, 2007, the Company had advanced a total of \$1,875,000 to Aero under the line of credit.

Currently, there are no commitments for material expenditures apart from the Company's obligations under the credit line to Aero. It should be noted that the Company's auditors Gruber & Company, LLC have expressed in their audit opinion letter that there is substantial doubt about the Company's ability to continue as a going concern.

Liquidity and Capital Resources

The Company's financial statements present an impairment in terms of liquidity. As of June 30, 2007 the Company had \$168,152 in current liabilities, which exceeded current assets by \$120,566. The Company has accumulated \$10,448,008 of net operating losses through June 30, 2007, which may be used to reduce taxes in future years through 2027. The use of these losses to reduce future income taxes will depend on the generation of sufficient taxable income prior to the expiration of the net operating loss carry-forwards. The potential tax benefit of the net operating loss carry-forwards has been offset by a valuation allowance of the same amount. The Company has not yet established revenues to cover its operating costs. Management believes that the Company will soon be able to generate revenues sufficient to cover its operating costs resulting from the share exchange agreement with Aero Exhaust. In the event the Company is unable to complete the share exchange, or in the event Aero does not sustain cash flow positive operations, and if suitable financing is unavailable, there is substantial doubt about the Company's ability to continue as a going concern.

Results of Operations

For the year ended June 30, 2007 the Company had a net loss of \$3,259,885 compared to a net loss of \$933,602 for year ended June 30, 2006. The current year loss is primarily due to settlement costs of \$2,578,766 related to debt reduction of \$220,927. Included in the loss for 2006 is the write off of all portfolio assets as of June 30, 2006 to reflect the disposal of such assets. Such write off resulted in the Company recording an unrealized loss of \$434,775.

The Company reported no revenues during the year ended June 30, 2007 compared with \$1,750 during the year ended June 30, 2006. The revenues in 2006 were generated from consulting fees.

Corporate Developments

At June 30, 2006, the Company's management determined that the business model in effect was not sustainable and voted to liquidate the Company's investment portfolio. From July 1, 2006 through December 31, 2006, the Company sold 100% of its portfolio assets and effectively ceased operations. On March 13, 2007, the Company's shareholders voted by majority consent to withdraw the Company's election as a BDC under the 1940 Act and, on March 14, 2007, the Company filed a Form N-54C which formally withdrew the BDC election.

The following transactions resulting from such liquidation were recorded:

Comstock Jake's Franchise Co., LLC

Edgar Filing: Franchise Capital CORP - Form 10KSB

In August 2006, the Company sold its investment in Kirby Foo s together with its interest in Comstock Jake s to a Company creditor in exchange for \$200,000 in debt forgiveness.

Kokopelli Franchise Co., LLC

In August 2006, the Company sold its investment in Kokopelli to The Great American Food Chain (GAMN.PK) in exchange for 720,629 shares of GAMN common stock, valued at \$0.60 per share on the date of issuance, plus the assumption of a note payable which the Company carried relative to Kokopelli. The 720,629 shares of GAMN common stock received were paid as a dividend to the Company's shareholders of record as of August 31, 2006.

Fathom Business Systems, Inc.

On September 30, 2005, the Company sold its interest in Fathom Business for \$44,142.

The value of the Company's assets at June 30, 2006 reflect the actual liquidation value subsequently received.

7

On January 12, 2007, the Company executed a definitive share exchange agreement with TTR HP, Inc. (dba Aero Exhaust, Inc.) pursuant to which the Company agreed to exchange shares of its common stock to acquire 100% of the total issued and outstanding stock of Aero. Once the share exchange is complete, the Company anticipates that the shareholders of Aero will become the majority shareholders of the Company.

The rate at which the line of credit will be converted into Aero Exhaust stock has yet to be determined. As of June 30, 2007, the Company had advanced a total of \$1,875,000 to Aero under the line of credit.

FRANCHISE CAPITAL CORPORATION

FINANCIAL STATEMENTS

June 30, 2007

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

THE BOARD OF FRANCHISE CAPITAL CORPORATION:

We have audited the accompanying balance sheets of Franchise Capital Corporation as of June 30, 2007 and 2006, and the related statements of operations, stockholders equity and cash flows for the periods then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform our audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Franchise Capital Corporation as of June 30, 2007 and 2006, and the results of its' operations and its' stockholders equity and cash flows for the period then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has incurred material losses, has a negative current ratio, and Stockholders Equity. These matters raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that may result should the Company be unable to continue as a going concern.

FRANCHISE CAPITAL CORPORATION

NOTES TO AUDITED FINANCIAL STATEMENTS

FOR THE PERIOD ENDED JUNE 30, 2007

NOTE 1 - ORGANIZATION AND BASIS OF PRESENTATION

Franchise Capital Corporation (the "Company") a Nevada corporation, was incorporated on July 6, 2001. Effective December 24, 2004, the Company became as an internally managed, closed end investment company electing to be treated as a business development company under the Investment Company Act of 1940, as amended.

As a business development company ("BDC"), the Company intended to provide long-term debt and equity investment capital to support the expansion of companies in the casual, fast food restaurant industry. The Company served as a holding company for its wholly and majority owned operating portfolio investments: Fathom Business Systems, Inc. ("Fathom"), Comstock Jake's Franchise Company, ("Comstock's"), Kokopelli Franchise Company, ("Kokopelli"), Corbin Vinnie's Franchise Company ("CV"), and Kirby Foods Asian Grill Franchise Company ("Kirby"). The Company owned 100% of Fathom and Kokopelli and had ownership interests in Kirby of approximately 97.5%, 72.5% of Comstock Jake's, and 50% of CV.

In August 2006, the Company abandoned its business model and commenced liquidating all of its investment holdings. On March 13, 2007, the Company held a shareholder meeting at which the Company's shareholders voted to withdraw the Company's election to be a business development company as defined by the 1940 Act. On March 14, 2007, the Company filed for N-54C to formally withdraw the Company's BDC status.

On January 12, 2007, the Company executed a definitive share exchange agreement with TTR HP, Inc. (dba Aero Exhaust, Inc.) pursuant to which the Company agreed to exchange shares of its common stock to acquire 100% of the total issued and outstanding stock of Aero. Once the share exchange is complete, the Company anticipates that the shareholders of Aero will become the majority shareholders of the Company. The share exchange is expected to be consummated in October 2007.

Following the share exchange, the Company's business will be that of Aero Exhaust. Aero designs and manufactures performance exhaust systems for both street and race applications. Aero Exhaust has been issued U.S. and Australian patents on its innovations and development in the exhaust industry, and its mufflers are available worldwide through major retailers, mass merchant centers, automotive aftermarket supply stores and wholesalers. Aero Exhaust mufflers are an exclusive National Association for Stock Car Auto Racing (NASCAR) Performance product and carry the NASCAR brand on product, packaging and related media.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has incurred material operating losses, has continued operating cash flow deficiencies and has working capital deficit at June 30, 2007. These factors raise substantial doubt about the Company's ability to continue as a going concern. The Company believes that the share exchange with Aero Exhaust will be successful and result in the Company's achieving profitability in the short term; however, the Company has not consummated this transaction and there is no guarantee that Aero's operations will prove profitable. The accompanying financial statements do not include any adjustments that might result from this uncertainty.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Principles of Consolidation

Franchise Capital Corporation changed to a Business Development Company, effective December 24, 2004. From December 2004 through March 2007, the Company's operations were those of an investment company. In March 2007, the Company withdrew its BDC election and therefore ceased operating under the guidelines of the Investment Company Act of 1940. Accordingly, the accompanying financial statements for the year ended June 30, 2007 have been prepared to represent those of an operating company rather than an investment company.

As a Business Development Company, the Company changed its accounting principles in accordance with the GAAP on investment companies. The primary difference relates to the accounting for investments held by investment companies. Investments that were previously consolidated are instead reflected at the estimated fair value of those investments. With the subsequent abandonment of the investment company operating model in March 2007, the Company has reverted to its prior accounting methods; namely, investments are carried at either the cost or equity method of accounting depending on the degree of control and ownership. As of June 30, 2007, the Company's sole investment consisted of a loan receivable from Aero Exhaust, which is carried at cost. Upon completion of the contemplated share exchange with Aero, the loan receivable is anticipated being converted into Aero common stock.

In light of the Company's decision to abandon its business model and liquidate all investment holdings in August 2006, the Board of Directors determined that the value received on the liquidation of its investment portfolio most closely approximated fair market value. Accordingly, the accompanying financial statements reflect the value of the assets received upon liquidation. The Company recorded an unrealized loss on discontinued operations associated with this write off as of June 30, 2006.

Cash and Cash Equivalents Cash and cash equivalents include all short-term liquid investments that are readily convertible to known amounts of cash and have original maturities of three months or less.

Revenue Recognition For all periods presented, revenue is recorded when earned.

Income taxes - The Company provides for income taxes based on the provisions of Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes*, which among other things, requires that recognition of deferred income taxes be measured by the provisions of enacted tax laws in effect at the date of financial statements.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income (Loss) Per Common Share Basic income per share is computed using the weighted average number of shares of common stock outstanding for the period. The Company has a complex capital structure and therefore there is a presentation for diluted loss per share.

The following presents the computation of basic and diluted loss per share for the years ended June 30,

	2007	2006
Net loss	\$ (3,259,885)	\$(933,602)
Weighted Average Number of Shares Outstanding	600,337,377	42,278,787
Per share amount	\$ (0.005)	\$ (0.022)

Property and Equipment consists primarily of office equipment and furnishings and is generally stated at cost less accumulated depreciation. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets ranging from 3 to 5 years. Depreciation expense was \$0 for both of the years ended June 30, 2007 and 2006. All fixed assets were written off at June 30, 2006 to reflect the August 30, 2006 cessation of operations. Subsequent to August 2006, and the hiring of new management to oversee operations of the Company, there were no discernable fixed assets of value.

Recently Issued Accounting Pronouncements

In July 2006, the FASB issued FASB Interpretation (FIN) No. 48, *Accounting for Uncertainty in Income Taxes An Interpretation of FASB Statement No. 109* (FIN 48). This Interpretation clarifies the accounting for uncertainty in

income taxes recognized in a company's financial statements. FIN 48 requires companies to determine whether it is more likely than not that a tax position will be sustained upon examination by the appropriate taxing authorities before any part of the benefit can be recorded in the financial statements. It also provides guidance on the recognition, measurement and classification of income tax uncertainties, along with any related interest and penalties. FIN 48 will also require significant additional disclosures. This Interpretation will be effective for fiscal years beginning after December 15, 2006. We will implement this Interpretation in the first quarter of 2007 on a prospective basis. We are currently evaluating the potential impact this Interpretation will have on our financial position and results of operations.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS 157), which provides guidance on how to measure assets and liabilities that use fair value. SFAS 157 will apply whenever another US GAAP standard requires (or permits) assets or liabilities to be measured at fair value but does not expand the use of fair value to any new circumstances. This standard also will require additional disclosures in both annual and quarterly reports. SFAS 157 will be effective for financial statements issued for fiscal years beginning after November 15, 2007, and will be adopted by us beginning in the first quarter of 2008. We are currently evaluating the potential impact this standard may have on our financial position and results of operations, but do not believe the impact of the adoption will be material.

In September 2006, the SEC staff issued Staff Accounting Bulletin (SAB) No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements* (SAB 108). SAB 108 was issued in order to eliminate the diversity of practice in how public companies quantify misstatements of financial statements, including misstatements that were not material to prior years' financial statements. We will initially apply the provisions of SAB 108 in connection with the preparation of our annual financial statements for the year ending December 31, 2006. We have evaluated the potential impact SAB 108 may have on our financial position and results of operations and do not believe the impact of the application of this guidance will be material.

NOTE 3 - LOAN RECEIVABLE AERO EXHAUST

On January 12, 2007, the Company executed a definitive share exchange agreement with TTR HP, Inc. (dba Aero Exhaust, Inc.) pursuant to which the Company agreed to exchange shares of its common stock to acquire 100% of the total issued and outstanding stock of Aero. Once the share exchange is complete, the Company anticipates that the shareholders of Aero will become the majority shareholders of the Company. Following the share exchange, the Company's business will be that of Aero Exhaust.

As part of the definitive agreement between the Company and Aero Exhaust, the Company agreed to extend a line of credit to Aero in the amount of \$1,875,000. Under the terms of the line of credit, any unpaid principle and interest on the line of credit will be converted into shares of Aero Exhaust common stock immediately prior to the share exchange. The net effect of this transaction will be an increase in the overall position that the Company's existing shareholders will have in the Company subsequent to the share exchange. The rate at which the line of credit will be

converted into Aero Exhaust stock has yet to be determined. As of June 30, 2007, the Company had advanced a total of \$1,875,000 to Aero under the line of credit.

NOTE 4 - CONVERTIBLE DEBENTURES PAYABLE

During the year ended June 30, 2004, the Company issued a 2-year 7.5% convertible debenture amounting to \$250,000 with interest payable monthly and maturing June 25, 2006. The debenture also included non-detachable warrants for 2,500,000 shares of common stock. The debenture was convertible at the option of the holder into common shares of the Company. The conversion price was the lesser of \$0.25 or 80% of the average of the five lowest volume weighted average price during the 20 trading days prior to the election to convert. Upon conversion, the holder must simultaneously purchase shares of the Company's common stock in a dollar amount equal to 10 times the dollar amount of the debenture converted. The purchase price for such shares was the same as the debenture conversion price. The value of the beneficial conversion feature of \$21,212 was recorded as a discount to the principal balance of the debenture and amortized immediately as interest expense because the debenture is convertible at any time at the option of the holder.

The Company defaulted on the interest payment provisions in the debenture. Consequently, the principal amount due under the debenture became immediately due and payable in cash plus a default penalty of \$42,500 plus any and all accrued interest. The default penalty of \$42,500 was expensed as interest and financing costs in the statement of operations for the year ended June 30, 2004.

As of June 30, 2006, the balance owed on the debenture was \$220,927, which included interest as penalties of \$18,574. In November 2006, the Company agreed to settle litigation with Golden Gate Investors on the past-due convertible debenture. Under the terms of the settlement, the Company placed 850,000,000 shares of its restricted common stock into an escrow account for satisfaction of the debenture. Golden Gate is allowed to withdraw the shares from escrow provided that their overall holdings in the Company do not exceed 4.9% of all issued and outstanding common stock. The debenture obligation is reduced by 80% of the average of the five lowest closing bid prices of the Company's common stock over a 45-day period prior to the share withdrawal multiplied by the number of shares being withdrawn. Under the terms of this settlement, 273,687,345 shares have subsequently been released from escrow and the debenture balance has been reduced to \$83,974 as of June 30, 2007. The Company has recorded the fair value of the 843,818,400 million shares in excess of the face value of debenture on the date of settlement (\$2,578,766 total) as settlement costs in the accompanying financial statements. All shares issued into escrow have been recorded as issued and outstanding pending the ultimate disposition of the obligation. Accordingly, the accompanying financial statements reflect the debenture as being fully paid. In the event not all shares are released from escrow, any remaining escrow shares will be returned to the Company and cancelled, with the value of such shares being reflected as a reduction in settlement costs.

During the year ended June 30, 2006, the Company recognized \$137,473 in financing costs associated with the convertible debenture.

NOTE 5 - INCOME TAXES

The Company recognizes deferred income taxes for the differences between financial accounting and tax bases of assets and liabilities. Income taxes for the years ended June 30, consist of the following:

	2007	2006
Current tax provision (benefit)	\$(1,102,728)	\$(451,200)
Deferred tax provision (benefit)	1,102,728	451,200
Total income tax provision (benefit)	\$ -0-	\$ -0-

There was a deferred tax asset of \$4,329,928 and \$3,227,200 at June 30, 2007 and 2006, respectively, relating primarily to net operating loss carryforwards of approximately \$4,758,000 and \$3,655,000. The deferred income tax asset is fully offset by a valuation allowance of \$4,758,000 and \$3,655,000 at June 30, 2007 and 2006, respectively.

At June 30, 2007 there were federal and state net operating loss carryforwards of approximately \$4,758,000 which begin to expire in 2018.

NOTE 6 - STOCKHOLDERS EQUITY

During the year ended June 30, 2006, the Company issued 24,623,118 shares of restricted common stock for cash of \$345,472, 14,154,882 shares of restricted common stock on the conversion of debentures totaling \$137,229, and 1,172,500 shares of restricted common stock on the conversion of 117,250 shares of Series C Preferred Stock.

In November 2006, the Company agreed to settle litigation with Golden Gate Investors on the past-due convertible debenture. Under the terms of the settlement, the Company placed 843,818,400 shares of its restricted common stock into an escrow account for satisfaction of the debenture. Golden Gate is allowed to withdraw the shares from escrow provided that their overall holdings in the Company do not exceed 4.9% of all issued and outstanding common stock. The debenture obligation is reduced by 80% of the average of the five lowest closing bid prices of the Company's common stock over a 45-day period prior to the share withdrawal multiplied by the number of shares being withdrawn. Under the terms of this settlement, 273,687,345 shares have subsequently been released from escrow and the debenture balance has been reduced to \$83,974 as of June 30, 2007. The Company has recorded the fair value of the 843,818,400 million shares in excess of the face value of debenture on the date of settlement (\$2,578,766 total) as settlement costs in the accompanying financial statements.

In connection with the debenture settlement with Golden Gate, Golden Gate entered into a stock purchase agreement which required Golden Gate to purchase \$100,000 of the Company's restricted common stock for every \$10,000 in debenture redeemed through the escrow. Through June 30, 2007, the Company had sold 1,332,128 shares of restricted common stock to Golden Gate for \$1,332,128 under the agreement. In addition, the Company received \$2,206,501 from Golden Gate as an advance on future stock purchases under the agreement.
