#### **1 Operations**

(a) Braskem S.A. ("Braskem") and its subsidiaries (together "we", "us", "our" or "the Company") is the only integrated petrochemical cracker and thermoplastics producer in Brazil, and produces a diversified portfolio of petrochemical products. Braskem's principal corporate objective is manufacturing, selling, importing and exporting chemical and petrochemical products and fuels, as well as producing and supplying utilities to companies in the Camaçari Petrochemical Complex (the "Northeastern Complex") in Bahia, Brazil, and rendering services to those companies.

#### **(b) Formation of Braskem**

Since its inception on August 16, 2002, the Company has undergone a major corporate restructuring process, disclosed to the market through material event notices. The main recent events can be summarized as follows:

. In order to obtain a capital structure more appropriate for the operations of the subsidiary Braskem Importação e Exportação Ltda. ( Braskem Importação ), formerly OQPA Importação e Exportação Ltda., at December 31, 2004, the Company increased the capital of this subsidiary by R\$ 99,215, with the issue of 99,215,010 quotas, by capitalizing the receivable held in current account in the amount of R\$ 98,215 and R\$ 1,000 from its own funds. This transaction generated: (i) goodwill of R\$ 98,999, fully amortized; (ii) reversal of the provision for loss in investee for the same amount.

. In February 2005, the Company increased its participation in the total share capital of the subsidiary CINAL from 63.03% to 78.80%, in transactions with the minority shareholder Petrobrás Química S.A. ( Petroquisa ). Additionally, the CINAL Special Shareholders Meeting held in April 2005 resolved to fully and definitely redeem the company's preferred class B shares for their book value, with no capital reduction. As a result, the Company received a reimbursement of R\$ 2,288, corresponding to 4,139 thousand shares, while its percentage holding in CINAL's total capital increased by 8.02% .

. The Extraordinary General Meeting, held on March 31, 2005, approved the merger of our subsidiary Odebrecht Química S.A. ( Odequi ), based on the appraisal report supporting the shareholders' equity value, issued by independent appraisers, in the amount of R\$ 1,340.7 at December 31, 2004. The equity variations in the first quarter of 2005 were taken to Braskem income as equity in the results.

. On April 25, 2005, the Company increased the capital of Braskem Incorporated Limited ( Braskem Inc ), current corporate name of CPN Incorporated Limited ( CPN Inc ) by US\$ 40,000 thousand (equal to R\$ 101,400), from US\$ 95 thousand to US\$ 40,095 thousand, with the issue of 40,000,000 (quotas), by capital contribution in cash. This transaction generated: (i) goodwill of R\$ 6,579, fully amortized; and (ii) reversal of the provision for loss in the investee of the same amount.

. The Extraordinary General Meeting held on May 30, 2005, approved a capital increase of Braskem Participações S.A. ( Braskem Participações ), current corporate name of Copene Participações S.A., by R\$ 266, with no issue of shares, by verifying the market value of Braskem Importação issued quotas.

**(c) Reverse-split of shares and split of American Depositary Shares ("ADS")**

In order to improve negotiations and increase the liquidity of the Company's shares, the Extraordinary General Meeting, held on March 31, 2005, approved the reverse-split of shares, including all types and classes of shares, in the proportion of 250 shares to each share. As a result, the ADS split was also approved, in the proportion of 2 ADS for each existing ADS.

Shareholders must adjust their positions within 30 days, as from April 5, 2005. After the expiration of this date, possible remaining share fractions will be rounded and submitted to an auction in the São Paulo Stock Exchange ( Bovespa ), and the amount will be proportionally transferred to the owners through bank accounts.

As from May 16, 2005, the shares have been quoted in unit batches and traded on Bovespa and on the New York Stock Exchange ( NYSE ), considering the reverse-split of shares and split of ADS, respectively.

Six-month period ended June 30, 2004	(3.85)	(0.96)

**(d) Memorandum of Understanding regarding Shareholders Agreement**

On April 29, 2005, Odebrecht, Petroquisa, ODBPAR and Norquisa entered into an amendment of the Memorandum of Understanding regarding Shareholders Agreement. Under this amendment, Odebrecht, ODBPAR and Norquisa granted to Petroquisa an option to purchase such number of our common shares as may be necessary for Petroquisa to own up to 30% of our voting shares.

If Petroquisa exercises this option, Odebrecht, ODBPAR and Norquisa will cause our company to issue shares to Petroquisa in exchange for the shares of some petrochemical companies owned by Petroquisa, as defined below in this amendment:

- (i) 15.63% of total share capital of Copesul - Companhia Petroquímica do Sul;
- (ii) 85.04% of total share capital of Petroquímica Triunfo S.A.; and
- (iii) 40% of total share capital of Petroquímica Paulínia S.A. (Note 21).

Odebrecht accepted the assets indicated by Petroquisa to exercise this option, which may be exercised in full on a single occasion prior to or on March 31, 2006, as allowed in this amendment.

**(e) Administrative Council for Economic Defense (CADE)**

In accordance with Article 54, § 3 of Law 8,884/94, the concentration resulting from the change in control of Braskem was notified in a timely manner to the anti-trust authorities. In July 2002, the Secretariat for Economic Monitoring of the Finance Ministry (SEAE) issued a favorable opinion on the transaction. In May 2003, the favorable opinion of the Secretariat for Economic Rights (SDE) was published without any restrictions. The transaction was submitted for the review and analysis of the Administrative Council for Economic Defense (CADE), and in November 2003 CADE Prosecution Service also approved the transaction without any restrictions. In February 2004, the transaction was examined by the Federal Department of Public Prosecution, which also recommended the approval of the transaction. In September 2005, CADE approved, for unanimity, this operation without any restrictions.

**2 Significant Accounting Policies**

All majority-owned subsidiaries in which we have both share and management control are consolidated, with elimination of all significant intercompany accounts and transactions. Investments in jointly-controlled entities are proportionately consolidated. Investments in unconsolidated affiliates are reported at cost less amortized goodwill plus our equity in undistributed earnings or losses.

The accounting policies used in the preparation of the condensed consolidated interim financial information are consistent with those utilized in the preparation of the audited consolidated financial statements at and for the year ended December 31, 2004, except for the consolidation of funds described below.

**(i) Consolidation of Funds**

In August 2004, the Brazilian Securities Commission (Comissão de Valores Mobiliários or CVM ) issued Instruction No. 408/04 requiring the consolidation of certain investments and funds in consolidated financial statements as from January 1, 2005. Subsequently, at February 25, 2005, CVM Circular Letter No. 01/2005 provided additional information to support the concept of activities subject to consolidation.

CVM Instruction No. 408/04 also requires that the previously disclosed consolidated financial statements be restated to include the funds that existed at that time, for purposes of comparison with the latest period presented.

**3 Presentation of the Financial Statements**

The unaudited condensed consolidated interim financial information has been prepared in accordance with the accounting practices adopted in Brazil ("Brazilian GAAP"), which are based on:

- . Brazilian Law No. 6,404/76, as amended by Brazilian Laws 9,457/97 and 10,303/01;
- . the rules and regulations of the CVM;
- . the accounting standards issued by the Brazilian Institute of Independent Accountants (Instituto dos Auditores Independentes do Brasil - IBRACON).

**Notes to the Condensed Consolidated Interim  
Financial Information for June 30, 2005  
(Unaudited)**

**All amounts in millions of reais, unless otherwise indicated**

The Company's condensed consolidated interim financial information as of June 30, 2005 and for the six-month periods ended June 30, 2005 and 2004 is unaudited. However, in our opinion, such condensed consolidated interim financial information includes all adjustments necessary for a fair presentation of the results for interim periods. The results of operations for the six-month period ended June 30, 2005 are not necessarily indicative of the results to be expected for the full fiscal year ending December 31, 2005.

This condensed consolidated interim financial information does not include all of the disclosures required in a complete set of financial statements prepared under Brazilian GAAP, such as statements of changes in financial position and complete explanatory footnotes.

The unaudited condensed consolidated interim financial information was prepared to attend certain financial institutions which have lend funds to the Company and should be read in conjunction with the Company's audited consolidated financial information at and for the year ended December 31, 2004.

The Company has been adopting a policy of realizing domestic trade accounts, consisting of the sale of its receivables to a credit rights investment fund, which pays the Company earlier than the normal maturity of these customer receivables.

The amounts recorded in long-term assets result from renegotiations with customers.

The changes in allowance for doubtful accounts are as follows:

	<b>June 30, 2005</b>	<b>December 31, 2004</b>
	<b>(Unaudited)</b>	
At the beginning of the year	(54.7)	(105.7)

**(c) Social contribution**

In view of the discussion of the constitutionality of Law 7,689/88, the Company and merged companies OPP Química and Trikem and its subsidiary Polialden, filed a lawsuit to avoid the payment of CSLL.

The TRF of the 1st Region expressly recognized the unconstitutionality of said tax, and the courts issued final and unappealable decisions favorable to the Company and merged companies. However, the Federal Government filed an action seeking to revoke the decisions on Braskem's and merged Trikem's lawsuits, arguing that after the final decision favorable to the companies, the Plenary Session of the STF had declared the constitutionality of the tax,

except in 1988. In the case of OPP Química, the Federal Government did not file any action, and so the first final decision remained in force.

**All amounts in millions of reais, unless otherwise indicated**

The decisions of lower and first appeal courts were favorable to the Federal Government however, tax payments are still suspended. Currently, the mentioned action is awaiting final judgment of the appeals lodged to the STF and STJ.

Based on the referred STF's decision, the Federal Revenue Secretariat ("SRF") is raising tax assessment notices against the Company and the merged companies, against which administrative defense arguments have been filed.

The Company believes that it is reasonably possible that it will lose the appeals to maintain the Company's exemption. If the appeals are not successful, the Company believes that the loss of the exemption would be effective only as from the date of a final unfavorable decision and may not be applied retroactively. For this reason, no liability has been recorded. However, we believe that it is reasonably possible that we will be required to pay these taxes retroactively. If a retroactive claim were made by the government, the exposure to the Company would be, at June 30, 2005, approximately R\$ 552.0, including interest but excluding fines.

**18 Shareholders' Equity**

**(a) Capital**

The Company's authorized capital at June 30, 2005 consists of 175,680,000 common shares, 307,440,000 Class A preference shares and 4,880,000 Class B preference shares. The number of shares reflects the grouping approved at the Extraordinary General Meeting held on March 31, 2005 (Note 1(c)).

At June 30, 2005, subscribed and paid-up capital amounts to R\$ 3,403.0 (unaudited) and is divided into 362,523,671 shares, of which 120,860,099 are common shares, 240,860,206 are Class A preference shares and 803,366 are Class B preference shares.

At an extraordinary general meeting held on January 15, 2004, the Company's shareholders approved the upstream merger of Trikem into Braskem. As a result of the upstream merger, the Company acquired minority interests representing 46.4% of the total share capital of Trikem. The Company's capital was increased by R\$ 304.6 (unaudited) to R\$ 2,192.0 (unaudited) through the issue of 8,136,165,484 Class A preferred shares to be delivered to other shareholders of Trikem. Common shares were increased by 0.5% through the conversion of 121,948,261 Class A preferred shares into common shares.

**19 Contingencies**

**(a) Collective labor agreement**

The chemical workers union in the Camaçari region ("SINDIQUÍMICA") and the syndicate of chemical manufacturers in the same region ("SINPEQ") are disputing in the courts whether the wage and salary indexation clause in their collective labor agreement was overruled by a 1990 economic policy law which restricted wage and salary increases. Braskem, Polialden, Nitrocarbano and Politeño operated plants in the region in 1990 and are members of SINPEQ. The workers' union is requesting that salaries and wages be adjusted retroactively and cumulatively since 1990. The most recent ruling by the Federal Supreme Court (STF), in December 2002, was favorable to SINPEQ and established that the economic policy law overruled the collective labor agreement. SINDIQUIMICA appealed this decision. In June 2003, after two STF justices had rendered an unfavorable opinion, judgment was suspended. It was reinstated in May 31, 2005, when the appeal was rejected by unanimous opinion. This decision is pending publication.

Based on the opinion of the Company's outside legal counsel, Management believes in a favorable outcome for the companies, and no amount was thus provided for in connection with this case.

**(b) Preference shareholders**

Some holders of Class B preferred shares issued by the Company under a tax incentive program claim that they are entitled to profit distribution on a par with the holders of common and Class A preferred shares. One of these lawsuits was found against the Company, which prompted Braskem to file a rescission action to vacate such unfavorable ruling; as a result, the courts entered an injunctive relief staying the enforcement of this award until a final and conclusive decision was eventually rendered in the rescission action. On December 11, 2003, the Bahia State Court of Justice held Braskem's rescission action fully valid, and rejecting the shareholders claims in relation to an express breach of special laws.

In June 2004, the shareholders filed a special appeal ("recurso especial") at the Superior Court of Justice (STJ), but it was not recognized by resolution of the Chief Justice of the Bahia State Court of Justice in November 2004; as a result, the shareholders appealed this decision once again at the STJ. In September 2005, after discussions over the timeliness of the shareholders' special appeal, it was seized of by STJ. The Company's legal counsel believes that the chances of success in this case are high, notably because the Company's stance is backed by legal opinions from renowned jurists and by court rulings on this specific issue.

**(c) Other litigation of the Company and subsidiaries**

The Company has civil lawsuits filed by a former caustic soda customer, which totals, at June 30, 2005, R\$ 172.9. The former supplier is claiming reimbursement concerning the Company's non-compliance with the contractual terms. Management, based on the opinion of its external legal advisors, believes that these lawsuits will be considered invalid and, accordingly, no provisions were set up.

The Company is defending various claims filed by employees, which totals, at June 30, 2005, R\$ 126.6. A provision had been made for probable losses of R\$ 7.9 relating to certain claims, while no provision was recorded for the remaining claims because, based on the advice of external legal advisors, these latter claims should be judged in favor of the Company.

(a) On September 16, 2005, Braskem and Petroquisa approved the creation of a joint venture formed through the constitution of Petroquímica Paulínia S.A., with investment of US\$ 240 million in the Paulínia polypropylene production.

The corporate structure of the new company defines participation of 60% for Braskem and 40% for Petroquisa, with administration under common control.

The initial capacity of production will be approximately 300 thousand polypropylene tones per year, with potential to reach 350 thousand tones per year, which the operation is estimated to begin in the end of 2007.

**22 Summary of Principal Differences between Brazilian GAAP and U.S. GAAP**

**(a) Presentation of financial information**

This summary of principal differences between Brazilian GAAP and U.S. GAAP should be read in conjunction with the Company's audited consolidated financial information at and for the year ended December 31, 2004.

A summary of the Company's principal accounting policies that differ significantly from U.S. GAAP is set forth below.

**(b) Business Combinations**

As mentioned in Note 18 (a) the Company acquired minority interests representing 46.4% of the total share capital of Trikem, by the issuance of 8,136,165,484 Class A preferred shares. Considering that the Class A preferred shares were issued for Brazilian GAAP based upon the book value, the following considerations are applicable:

Purchase price under Brazilian GAAP (based on Trikem Brazilian GAAP book value)	304.6
Purchase price under U.S. GAAP (based on fair value of shares issued)	644.0
 Increase in purchase price under U.S. GAAP	 339.4

**Braskem S.A. and its Subsidiaries****Notes to the Condensed Consolidated Interim  
Financial Information for June 30, 2005  
(Unaudited)****All amounts in millions of reais, unless otherwise indicated**

The initial fair value allocation of this acquisition was as follows:

Current assets	413.8
Long-term assets	1,338.8
Property, plant and equipment	1,879.4
Current liabilities	584.2
Long-term liabilities	1,395.0
Shareholders' equity	1,652.8
Participation acquired	767.4
Purchase price	644.0

This additional U.S. GAAP difference generated an increase in property, plant and equipment at June 30, 2005 of R\$ 324.1 and an increase in depreciation for the six-month period then ended of R\$ 12.0 (2004 - R\$ 12.0) . These adjustments have no net effect on deferred taxes or minority interests.

**(c) Consolidation of securitization funds**

As discussed in Note 2 (i), Braskem began to consolidate certain investments and funds as from January 1, 2005 for Brazilian GAAP purposes, including the Braskem's trade receivable securitization program. This accounting treatment is consistent with U.S. GAAP, in accordance with FASB Interpretation No. 46 "Consolidation of Variable Interest Entities (revised December 2003)", which defines that trade receivable securitization funds are variable interest entities and have been consolidated in all periods presented.

In addition, the Company consolidated third parties interests on these variable interest entities as Minority Interest for Brazilian GAAP purposes. Under U.S. GAAP, in accordance with FAS 150 Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity , the consolidation of variable interest entities is recorded in long-term liabilities under Quotas subject to mandatory redemption .

**(d) Guarantees**

The fair value of guarantees is initially determined by consideration of data in observable markets, comparable transactions and the utilization of probability-weighted discounted net cash flow models. The fair value of guarantees issued or modified since the company's adoption of FASB Interpretation No. 45 on January 1, 2003 was not material.

The Company has directly guaranteed debt obligations under agreements with third parties related to an equity affiliate. At June 30, 2005, the Company had directly guaranteed R\$ 13.4 relating to guarantees of certain obligations and liabilities of Petroflex Indústria e Comércio S.A. This represents the maximum potential amount of future (undiscounted) payments that the company could be required to make under the guarantees.

The fair value of the guarantees that have been issued or modified since the company's adoption of FASB Interpretation No. 45 on January 1, 2003, is not material. As of June 30, 2005, the liabilities recorded for these obligations were not material.

**(e) Pension plan**

Until June 30, 2005, the Company had three different pension plans managed by Fundação PETROBRAS de Seguridade Social - PETROS ("PETROS"), PREVINOR - Associação de Previdência Privada ("PREVINOR") and ODEPREV - Odebrecht Previdência ("ODEPREV"). In addition to sponsoring different private pension plans, the Company has approximately 800 employees who do not participate in company-sponsored pension plans, as no new benefits were granted to employees since the inception of the Company.

Management ceased to provide benefits to new employees in order to devise a single, legitimate solution for all participants, with a view to protecting the plan participants' financial assets.

Experts engaged by the Company recommended the following solution, currently in the implementation stage:

- Set up ODEPREV as the sole supplementary pension plan sponsored by the Company, available to all employees, at their option;

**Braskem S.A. and its Subsidiaries****Notes to the Condensed Consolidated Interim****Financial Information for June 30, 2005****(Unaudited)****All amounts in millions of reais, unless otherwise indicated**

· Offer to those employees who do not participate in PETROS and PREVINOR plans the option to participate in ODEPREV, retroactively to August 16, 2002.

In accordance with SFAS No. 87, "Employer's Accounting for Pensions", these pension plans were recently subject to an actuarial valuation in November 30, 2004. This actuarial valuation showed a status of unfunded pension liability of R\$ 35.2. As of June 30, 2005, the unfunded pension liability amounts to R\$ 38.7, which is recorded in long-term liabilities under Minimum pension liability .

Net periodic benefit costs included the following components for the periods presented:

	<b>For the six months ended June 30, 2005</b>	<b>For the six months ended June 30, 2004</b>
Components of net periodic benefit cost		
Service cost	3.7	3.9
Interest cost	19.0	17.2
Expected return on assets	(16.0)	(13.0)
Amortization of transition obligation actuarial loss	1.5	2.7
Employee and employer contributions	(4.7)	(2.2)
Total net periodic benefit cost (credit)	3.5	8.6

In early June 2005, the Company communicated to PETROS and PREVINOR its intent to withdraw as a sponsor effective June 30, 2005. As a result, the entities must prepare the actuarial calculations required to define participants reserves and any amounts to be contributed by the Company in order to settle prior pension plan commitments. Following the completion of actuarial calculations, the proposed withdrawal as a sponsor will be submitted to the approval of the National Superintendence for Supplementary Pension Plans ( PREVIC ), a Social Security Ministry department in charge of regulating and inspecting private pension plans. There is no relevant effects of curtailment according to SFAS No. 88, "Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits".

Benefits to retired employees and pensioners will continue to be paid on a regular basis up to completion of the process.

**(f) Earnings per share**

Under Brazilian GAAP, net income or loss per share is calculated based on the number of shares outstanding at the balance sheet date retroactively restated for the 250 for one share reverse split in March 2005 (Note 1 (c)) for all periods. Information is disclosed per lot of one share.

Under U.S. GAAP, because the preferred and common shares have different voting and liquidation rights, basic and diluted earnings per share have been calculated using the "two-class" method, pursuant to SFAS No. 128, "Earnings per share", which provides computation, presentation and disclosure requirements for earnings per share. The two-class method is an earnings allocation formula that determines earnings per share for preferred and common shares according to the dividends to be paid as required by the Company's by-laws and participation rights in undistributed earnings. Basic earnings per common share are computed by dividing net income by the weighted-average number of common and preferred shares outstanding during the year.

The following table presents the determination of U.S. GAAP net income available to common and preferred shareholders and weighted average common and preferred shares outstanding used to calculate basic and diluted earnings per share for each of the years presented under U.S. GAAP.

All references to the number of preferred and common shares and per share amounts have been restated to give retroactive effect to the March 2005 share split (Note 1 (c)) for all periods presented.

**(g) Segment reporting**

Under Brazilian GAAP, there is no requirement to present disaggregated information with respect to the business segments of an enterprise.

Under U.S. GAAP, SFAS No. 131, "Disclosures about segments of an enterprise and related information", requires that public enterprises disclose certain information about segments on the bases that top management uses to allocate resources among segments and evaluate their performance.

Braskem has the following business segments:

- . Basic Petrochemicals - comprising basic petrochemical production activities and supply of electricity, steam and compressed air to second generation producers. This segment is dependent on Petrobras for supply of raw material.
- . Polyolefins - comprising activities related to the production of polyethylene and polypropylene.

**Braskem S.A. and its Subsidiaries****Notes to the Condensed Consolidated Interim****Financial Information for June 30, 2005****(Unaudited)****All amounts in millions of reais, unless otherwise indicated**

. Vinyls - comprising activities related is the production of PVC, caustic soda and chlorine. One client represents 10.7% and 14.1% of Vinyl revenues for the periods ended June 30, 2005 and December 31, 2004, respectively.

. Business Development - comprises activities related to the production of other second generation petrochemical products. One client represents 37.2% and 27.6% of Business Development revenues for the periods ended June 30, 2005 and December 31, 2004, respectively.

The Company evaluates and manages segment performance based on information generated from its statutory accounting records maintained in accordance with accounting practices adopted in Brazil and reflected in its consolidated and combined financial statements. However, management evaluates jointly controlled companies the purposes of its segment analysis under the equity method as the Company does not control these companies. Certain equity investments are not allocated to any segment.

Information on total segment assets as at June 30, 2005 and December 31, 2004, under Brazilian GAAP, is as follows:

	<b>June 30, 2005</b>	<b>December 31, 2004</b>
Basic Petrochemicals	5,882.0	6,398.7

Business Development	544.5	584.8
Other	4,440.5	2,562.9
Total assets	16,115.6	15,095.1

Allocation of investments by business segment was not significant in the periods presented.
