São Paulo, Brazil, March 4, 2008 Grupo Pão de Açúcar (BOVESPA: PCAR4; NYSE: CBD) announces its results for the 4th quarter (4Q07) and full year of 2007. The Company's operating and financial information is presented on a consolidated basis and in Reais, pursuant to Brazilian Corporate Law, and all comparisons are with the fourth quarter (4Q06) and full year of 2006, except where stated otherwise.

Net Income grows 306.4% in the quarter

- Net income totaled R\$ 112.7 million in the quarter, 306.4% up on 4Q06.
- EBITDA⁽²⁾ stood at R\$ 325.1 million in 4Q07, 42.1% up year-on-year, with a margin of 7.5% . The quarterly highlight was operating expenses, which fell by 180 basis points (bps) as a percentage of net sales.
- Fourth-quarter gross sales totaled R\$ 5,137.4 million, 10.6% up year-on-year, while net sales came to R\$ 4,328.8 million, up by 9.8% . In the year as a whole, gross sales amounted to R\$ 17.6 billion and net sales stood at R\$ 14.9 billion.
- Food products, led by perishables, grew by 3.1% in 2007.
- Pão de Açúcar, which has been recording significant same-store sales growth since 4Q06, was the best-performing banner.
- Another highlight was Sendas Distribuidora, posting a 4Q07 EBITDA margin of 6.6%, its highest ever figure. One of the main factors behind this performance was the 200 bps decline in operating expenses as a percentage of net sales over 4Q06.
- FIC – Financeira Itaú CBD – reached break-even in December 2007; as a result, equity income improved significantly, increasing from R\$ 11.3 million negative in 4Q06 and R\$ 9.9 million negative in 3Q07 to R\$ 2.3 million negative in 4Q07.

Grupo Pão de Açúcar operates 575 stores in 14 states and in the Federal District and recorded gross sales of R\$ 17.6 billion in 2007. The multi-format structure of the Group is formed by supermarkets (**Pão de Açúcar, Extra Perto, CompreBem and Sendas**), hypermarkets (**Extra**), stores of electronic products/household appliances (**Extra-Eleto**), convenience stores (**Extra Fácil**), atacarejo (wholesale/retail) (**Assai**), e-commerce operations (**Extra.com.br and Pão de Açúcar Delivery**) and an extensive distribution network. The Group maintains differentiated consumer service and strong positioning in the main markets of the country.

Message from Management

In 2007, Grupo Pão de Açúcar constructed a sustainable platform that will enable us to achieve more significant results, as we continue with our strategy of pursuing greater efficiency and productivity.

We continued to implement innovative formats, marking our entry into important market segments. We kept on working in the development of Extra Fácil in the Convenience segment; we launched Extra Perto as a compact model; we formed a joint venture with Assai, which allowed us to enter one of the fastest-growing segments in the country, the so-called *atacarejo* (cash & carry - wholesale/retail); and we formed a Purchasing Group partnership with União Brasil. We also restructured the Company's brand architecture, reviving the Grupo Pão de Açúcar corporate trademark, which is now our official name and will serve as a basis for our 60th anniversary celebrations in 2008. These strategic undertakings were decisive in ensuring complementarity with our existing formats, and will allow us not only to attract distinct groups of customers, but also to develop a better understanding of their needs and demands.

We implemented in 2007 initiatives designed to improve competitiveness and increase profitability. In this context, the period highlights were the store productivity programs, which helped to cut expenses; the Shrinkage Reduction Program, designed to reduce in-store losses; and the assortment review process, which will lead to more advantageous negotiations with suppliers and more efficient stock out management. After a thorough adaptation process, we were certified as meeting the requirements of the Sarbanes-Oxley Act in June, 2007.

These initiatives have already had an impact on the Company's performance. Annual gross sales amounted to R\$ 17.6 billion, 7.2% up on 2006. Our EBITDA margin also recovered, closing 2007 at 6.9%, versus 6.4% registered last year. In December, the Board of Directors decided on a change of command and we appointed Claudio Galeazzi to take charge of this process. Mr. Galeazzi has already successfully restructured our operations in Rio de Janeiro through the firm Galeazzi e Associados, which was hired in July 2007 and will continue with the process throughout 2008. He has been appointed for two years, during which time he will have to achieve certain targets, the most important of which will be to increase the market value of our shares. The other main challenges of the new CEO are to increase same-store sales, develop and deepen the search for efficiency, ensure an adequate return on investments and prepare his successor.

During this period of transformation, we have succeeded in building a solid platform for future growth. We have consolidated our performance in the food segment and strengthened the Pão de Açúcar banner, which performed better than the Company average.

We believe 2008 will be a year of major challenges, translated into the following initiatives: the consolidation and expansion of the Extra Perto and Extra Fácil formats; the expansion of Assai, particularly through the conversion of existing Group stores; the generation of efficiency gains through simplified procedures and structures and the streamlining of the management model; the acceleration of new partnerships to expand the Purchasing Group; and expanding and increasing the profitability of the non-food category, with investments in various areas: Extra.com, Extra Eletro, global sourcing, consolidation of the subcategories (Mundo Casa - General Merchandise; Mundo Entretenimento - Entertainment; Mundo TEC - Textiles, Sports and Children), among others.

With these changes, we are confident in our ability to resume a virtuous business circle in the years to come and generate even better results. Grupo Pão de Açúcar is a solid company with an exceptionally proficient team, thanks to the professionalization program that began five years ago.

Simplicity will be our watchword in the years ahead. We are fully aware of our potential and are prepared to maximize this knowledge that exists inside the Company. We will continue to seek higher productivity and gains in scale, thereby increasing competitiveness and enabling us to fulfill our mission of ensuring the best possible shopping experience for all our customers in every single one of our stores.

Sales Performance
Gross sales increase 10.6% in the 4th quarter

(R\$ million)	4Q07	4Q06	Chg.	2007	2006	Chg.
Gross Sales	5,137.4	4,643.7	10.6%	17,642.6	16,460.3	7.2%
Net Sales	4,328.8	3,943.2	9.8%	14,902.9	13,880.4	7.4%

Gross sales totaled R\$ 17.6 billion in 2007, 7.2% up on 2006, while net sales grew by 7.4% to R\$ 14.9 billion. In same-store terms, gross sales recorded an increase of 2.8% and net sales moved up by 3.4% .

Food products accounted for 74.8% of the Group's gross sales, led by perishables, which made a major contribution to the 3.1% upturn in same-store food sales over 2006. Non-food items recorded slight same-store growth of 1.8% and were responsible for 25.2% of total sales. Their performance was adversely affected by the audio and video subcategories (Mundo Entretenimento), which were jeopardized by price deflation throughout the year and the exceptionally strong comparison base provided by 2006 (World Cup).

In terms of format, the Pão de Açúcar banner was the undoubted highlight, having recorded solid same-store growth above the Group average since 4Q06. The Sendas and CompreBem banners were in line with the Company average, while the Extra and Extra Eletro hypermarkets posted below-average growth, having been affected by the poor performance of electronics products.

In the fourth quarter, gross sales came to R\$ 5,137.4 million, 10.6% up year-on-year, while net sales climbed by 9.8% to R\$ 4,328.8 million. These figures include Assai's sales in November and December, which totaled R\$ 234.2 million gross and R\$ 200.6 million net.

Same-store gross sales moved up 1.0% year-on-year in 4Q07, while net sales increased by 1.4% . Food products recorded growth of 1.1%, once again leveraged by the favorable performance of perishable goods. Impacted by price deflation and the strong comparison base, the non-food category edged up by just 0.6% in the quarter, but was beginning to pick up steam as of December.

Final-quarter sales were influenced by the review of the Company's promotional policy, which balanced the mix of special offers and regular prices, seeking a price framework that generated higher profits. Although sales recorded only modest growth in absolute terms, the main objective of increased profitability was achieved.

Operating Performance

The 2006 figures presented below refer to the results as reported, except where stated otherwise. This is because the 3Q06 results were affected by the payment of tax demands amounting to R\$ 96.8 million, related to soybean export purchase, processing and sale transactions. Of this total, R\$ 54.4 million impacted the cost of goods sold (COGS) and R\$ 42.4 million affected financial expenses (that part related to fines and interest). The impact on net income after taxes was R\$ 74.9 million.

Moreover, the pro-forma results are adjusted for restructuring expenses in 2006 and in 2007 amounting to R\$ 56.9 million and R\$ 16.4 million respectively. In addition, the numbers below related to the Group's operating performance, refer to the consolidated figures, which include the entire operating result of Sendas Distribuidora (a joint venture with the Sendas chain in Rio de Janeiro) and Assai (a joint venture with the Atacadista Assai chain in São Paulo).

Grupo Pão de Açúcar's gross profit increased by 6.7%, from R\$ 3,917.4 million in 2006, to R\$ 4,178.4 in 2007, while the gross margin dipped by 20 bps to 28.0%.

However, if we compare 2007 with pro-forma 2006, gross profit grew by 5.2% and the gross margin fell by 60 bps below the previous year's pro-forma gross margin of 28.6%. This reduction occurred because the price revision and improved competitiveness policy only began as of the second half of 2006, whereas in 2007 its effects were reflected throughout the entire year. In addition, the gross margin slide was offset by higher sales volume and the reduction in shrinkage levels.

Gross profit totaled R\$ 1,197.2 million in 4Q07, 9.8% up on the R\$ 1,090.7 million recorded in 4Q06, while the gross margin remained flat. The 4Q07 margin reflected the impact of Assai, whose margins (14.7%) are substantially lower than those of the Company.

The comments below refer to operating expenses before taxes and other charges.

Operating expenses amounted to R\$ 3,052.8 million in 2007, 3.6% more than in 2006, equivalent to 20.5% of net sales, 70 bps down on the year before.

It is worth emphasizing that restructuring expenses totaled R\$ 56.9 million in 2006 and R\$ 16.4 million in 2007. Thus, operating expenses excluding these restructuring expenses would have come to 20.4% of net sales, 40 bps lower than 2006 pro-forma operating expenses.

This reduction of expenses as a percentage of net sales was due to the expense reduction programs implemented in 2006 and consolidated in 2007. These included alterations to the administrative structure, the consolidation of the Shared Service Center (CSC), which generated scale and productivity gains in various managerial processes, and the in-store productivity programs. Annual selling expenses totaled R\$ 2,552.5 million, 5.5% up on 2006, equivalent to 17.1% of net sales, 30 bps down on the previous year.

Similarly, general and administrative expenses fell by 5.1%, or R\$ 26.8 million, in absolute terms and by 40 bps in percentage of net sales terms, reflecting the important improvements achieved throughout the year. Operating expenses amounted to R\$ 842.9 million in the 4th quarter, 0.3% up on 4Q06. However, in comparison with pro-forma 4Q06 (i.e. excluding R\$ 16.6 million in selling expenses and R\$ 15.4 million in G&A expenses), growth would have come to 4.3% . It is worth emphasizing the reduction in G&A expenses, which dropped by 11.2%, or R\$ 17.9 million, over 2006 pro-forma figure.

Selling expenses grew by 5.4% in the quarter to R\$ 701.5 million, due to the opening of 16 new stores and the acquisition of 14 Assai stores. Compared with pro-forma 4Q06, this growth came to 8.1% . However, the increase in expenses was lower than the 9.8% net sales growth in the same period and also 70 bps less in percentage of net sales terms due to dilution in the quarter.

EBITDA margin of 7.5% is the result of greater control over expenses in the quarter

Annual EBITDA moved up 15.7% over 2006 to R\$ 1,026.0 million, even though the gross margin narrowed by 20 bps. In pro-forma terms, which excludes the restructuring and non-recurring expenses mentioned previously, EBITDA climbed by 4.5% .

This growth was mainly due to greater control over expenses in the period.

The improvement was even more apparent in the 4th quarter, when EBITDA reached R\$ 325.1 million, 42.1% up year-on-year (+24.6% in pro-forma terms). The 4Q07 EBITDA margin stood at 7.5%, 170 bps wider than in 4Q06 and the highest level of the year (+90 bps according to the pro-forma criterion).

(R\$ million) ⁽¹⁾	4Q07	4Q06	Chg.	2007	2006	Chg.

Net Financial Income	(43.6)	(16.6)	161.7%	(211.2)	(220.6)	-4.3%

(1) Totals may not tally as the figures are rounded off

Financial income totaled R\$ 344.4 million in 2007, 20.5% less than the R\$ 433.4 million recorded in 2006, mainly due to the 32.3% reduction in the average cash position and lower interest rates in relation to the year before.

Financial expenses stood at R\$ 555.6 million, 9.2% down on the R\$ 611.6 million reported in the previous year (pro-forma 2006 figure which excludes R\$ 42.4 million in taxes related to soybean exports, recorded under fines and interest). This reduction was also due to lower period interest rates (average Selic of 12.0% p.a. in 2007, versus 15.1% p.a. in 2006).

The net financial result for the year was R\$ 211.2 million negative, 18.5% down on pro-forma 2006.

The Company's annual gross indebtedness, excluding PAFIDC (Pão de Açúcar Receivables Securitization Fund), increased by R\$ 407.9 million over 2006, in turn raising the net debt by R\$ 625.3 million. The net debt/EBITDA ratio stood at 1.25x in the last 12 months.

Financial income totaled R\$ 144.1 million in 4Q07, 7.2% down year-on-year, also due to the period reduction in interest rates and the Company's average cash position. On the other hand, financial expenses moved up 9.2% year-on-year to R\$ 187.6 million. Accordingly, the net financial result was R\$ 43.6 million negative, versus a negative R\$ 16.6 million in 4Q06, an increase of R\$ 27.0 million. This difference is explained by a non-recurring effect in 4Q06, when the Company filed a request for the review of all taxes payable in installments and obtained a R\$ 26.0 million reduction in the interest and fines on these installments. Excluding this effect, the net financial result would

Edgar Filing: BRAZILIAN DISTRIBUTION CO COMPANHIA BRASILEIRA DE DISTR CBD - Form 6-K
have remained flat.

Equity Income
FIC breaks even in December

With a 12.5% share of the Group's sales, FIC (Financeira Itaú CBD) reached the break-even point in December 2007 and should report positive results from 2008 on. Consequently, 4Q07 equity income was negative by only R\$ 2.3 million, versus a negative R\$ 11.3 million in 4Q06 and a negative R\$ 9.9 million in the previous quarter.

The client portfolio closed the year at 5.7 million, 12.6% up on 2006, while the receivables portfolio grew by 50.5% to R\$ 1,344.9 million.

The main initiatives that contributed to the annual performance were:

- absorption of the portfolio of co-branded cards previously belonging to Credicard;
- continuing growth in card activation levels;
- expansion of the private label card portfolio through increased use, new clients and the migration from private label cards to Mastercard co-branded cards;
- reinitiation of co-branded card sales, including a first-purchase-upon-concession option;
- new client-registering and credit-granting initiatives, with higher limits and more extended payment terms than the competition;
- creation of the CDC (direct consumer credit) for private label cards, with a substantial expansion of clients installment payment capacity and a pre-approved credit portfolio of more than R\$ 5.0 billion;
- participation in the Varejo na Alma (Retail in the Soul) campaign, whereby store employees encourage card use by customers; as a result, over 250 stores received awards.

FIC changed its in-store operating concept and it is now physically present in all of the Group's hypermarkets and supermarkets which sell electronic goods (Comprebem da Cidade, for example). In all other stores, it maintains Electronic Service Terminals. In December 2007, therefore, it was present and operating in 545 stores.

Minority Interest: Sendas Distribuidora
Gross margin gains and reduced expenses contribute towards a substantial improvement in the EBITDA margin

Gross revenue from operations in Rio de Janeiro totaled R\$ 3,209.6 million in 2007, very close to the 2006 figure and equivalent to 18.2% of the Group's total gross sales. Net revenue in the period totaled R\$ 2,783.4 million.

The annual gross margin stood at 26.4%, 30 bps down on the year before. As of the 3Q07, the Company has been seeking a better balance between special offers and regular prices, one of the aims of which being the recovery of profitability through a more appropriate balance between margins and sales.

Operating expenses fell by 70 bps, from 22.7% of net sales in 2006 to 22.0% in 2007, thanks to the implementation of in-store productivity programs, lower expenses from special offers and the creation of a committee to control store-related expenses.

Due to the above-mentioned factors, the EBITDA margin reached 3.4%, versus 3.1% in 2006. In absolute terms, EBITDA moved up 11.7% to R\$ 95.0 million.

The net financial result was negative by R\$ 116.4 million, a substantial improvement of 23.2%, or R\$ 35.2 million, over the previous year, chiefly due to the 32.0% reduction in financial expenses.

The improvement in the operating result, which has been occurring since 3Q07, has allowed the Company to make use of deferred tax credits to such an extent that profit forecasts were reviewed both by Management and the independent auditors. In 2007 as a whole, these credits, deriving from losses in previous fiscal years, totaled R\$ 91.5 million.

As a result of these credits, the reduction in expenses and the improved financial result, Sendas Distribuidora recorded an annual loss of R\$ 19.2 million, versus a loss of R\$ 625.1 million in 2006, when the figure was strongly jeopardized by the review of the financial assumptions that backed the future recognition of the goodwill, which resulted in the provisioning of R\$ 474.0 million for the partial reduction in goodwill.

In 4Q07 Sendas Distribuidora posted gross sales of R\$ 869.4 million and net sales of R\$ 749.3 million.

The gross margin came to 27.2%, 100 bps down year-on-year, resulting in a gross profit of R\$ 203.8 million.

The quarter's main highlight was the 200 bps reduction in operating expenses, which fell from 21.6% of net sales in 4Q06 to 19.6% in 4Q07. Thanks to this, and the reduced gross margin, 4Q07 EBITDA climbed by a hefty 12.7%, while the EBITDA margin was the highest since the beginning of the Sendas Distribuidora operation, rising from 5.8% in the 4Q06 to 6.6%.

Minority Interest: Assai Atacadista

In November 2007, Grupo Pão de Açúcar and the partners of Assai Comercial e Importadora Ltda announced the creation of a joint venture, in which Grupo Pão de Açúcar retains a 60% interest. The stores will continue to operate under the Assai name and under the management of the original partners, with their long-standing experience in the segment, maintaining their primary strengths of low operating costs, competitive prices, attractive product mix and excellent marketing.

In November and December, Assai Atacadista recorded gross sales of R\$ 234.2 million and net sales of R\$ 200.6 million. Gross profit stood at R\$ 29.6 million, with a gross margin of 14.7% .

Operating expenses totaled 10.3% of net sales, while EBITDA amounted to R\$ 8.7 million, with a margin of 4.4% . Net income came to R\$ 3.7 million, generating a minority interest of R\$ 1.5 million.

Grupo Pão de Açúcar posted an annual net income of R\$ 210.9 million, 146.6% up on 2006. It is worth mentioning that net income for 2007 and 2006 were impacted by restructuring and other non-recurring expenses, which amounted to R\$ 16.4 million and R\$ 134.2 million, respectively.

Net income totaled R\$ 112.7 million in 4Q07, 306.4% up year-on-year. This performance was the result of lower operating expenses and a significant operating improvement in the quarter.

It is worth highlighting that 4Q06 net income was impacted by restructuring expenses in the amount of R\$ 32.0 million.

Annual and fourth-quarter net income were impacted by R\$ 152.9 million and R\$ 56.6 million, respectively, in expenses from the amortization of goodwill (intangible). This is a non-cash expense, which has a positive impact on the Group from the fiscal benefit point of view.

Investments total R\$ 980.6 million in 2007

Grupo Pão de Açúcar invested R\$ 980.6 million in 2007, 14.4% more than the R\$ 857.2 million invested in the previous year.

Most of the funds went towards the opening of 37 new stores (one Pão de Açúcar, seven Extra hypermarkets, five CompreBem, 10 Extra Perto, 13 Extra Fácil and one Assai). As a result, the Group's total sales area closed the year 9.9% up on the end of 2006.

The main highlights of the year were:

R\$ 471.1 million in the opening and construction of new stores;

R\$ 181.1 million in the acquisition of strategic sites;

R\$ 215.6 million in store renovation;

R\$ 112.8 million in infrastructure (technology, logistics and others).

In the fourth quarter, the Group opened 16 new stores (one Pão de Açúcar, three Extra, one CompreBem, five Extra Perto, five Extra Fácil and one Assai). Period investments totaled R\$ 332.3 million, versus R\$ 336.7 million in 4Q06.

The main highlights of the quarter were:

R\$ 154.2 million in the opening and construction of new stores;

R\$ 69.0 million in the acquisition of strategic sites;

R\$ 80.6 million in store renovation;

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
