Report of Independent Auditors

(Translation of a report originally issued in Spanish--See Note 2 (b))

To the Shareholders and Directors of
Compañía de Telecomunicaciones de Chile S.A.:

We have reviewed the consolidated balance sheets of Compañía de Telecomunicaciones de Chile S.A. and Subsidiaries as of March 31, 2008 and 2007, and the related consolidated statements of income and cash flow for the three-month periods then ended. These interim financial statements and the accompanying notes are the responsibility of the management of Compañía de Telecomunicaciones de Chile S.A. The accompanying Management's Discussion and Analysis of the Consolidated Financial Statements is not an integral part of these financial statements, and therefore this report does not cover this item.

We conducted our reviews in accordance with generally accepted auditing standards in Chile for a review of interim financial information. A review of interim financial information consists principally of applying analytical procedures to the financial statements and making inquiries of persons responsible for financial and accounting matters. The scope of this review is substantially less than an audit conducted in accordance with generally accepted auditing standards in Chile, the objective of which is to express an opinion regarding the consolidated financial statement taken as a whole. Accordingly, we do not have the ability to express, and we do not express such an opinion.

Based on our review of the interim consolidated financial statements as of March 31, 2008 and 2007, we are not aware of any material modifications that are required for them to be in conformity with accounting principles generally accepted in Chile.

Andrés Marchant V.

ERNST & YOUNG LTDA.

COMPAÑIA DE TELECOMUNICACIONES DE CHILE S.A. AND SUBSIDIARIES

(Translation of a report originally issued in Spanish see Note 2b to the Financial Statements)
Notes to the Consolidated Financial Statements

1. Composition of Consolidated Group and Registration in the Securities Registry:

a) Compañía de Telecomunicaciones de Chile (Telefónica Chile, the Parent Company when referred to on an individual basis or the Company when referred in conjunction with its subsidiaries) is a publicly-held corporation that is registered in the Securities Registry under No. 009 and is therefore subject to supervision by the Chilean Superintendency of Securities and Insurance (SVS).

b) Subsidiary companies registered with the Securities Registry:

SUBSIDIARIES	TAXPAYER No.	Registration Number	Participation (direct & indirect)	
			2008 %	2007 %
Telefónica Larga Distancia S.A.	96,551,670-0	456	99.87	99.83
Telefónica Asistencia y Seguridad S.A.	96,971,150-8	863	99.99	99.99

2. Summary of Significant Accounting Policies:**(a) Accounting year:**

The consolidated financial statements correspond to the three-month period ended March 31, 2008 and 2007.

(b) Basis of preparation:

These consolidated financial statements have been prepared in accordance with generally accepted accounting principles in Chile (Chilean GAAP) and standards set forth by the Chilean Superintendency of Securities and Insurance (SVS). In the event of any discrepancies in these regulations, SVS regulations supersede Chilean GAAP. Certain accounting practices applied by the Company that conform to Chilean GAAP may not conform to generally accepted accounting principles in the United States (US GAAP) or International Financial Reporting Standards (IFRS). For the convenience of the reader, these financial statements have been translated from Spanish to English.

The Company s consolidated financial statements as of June 30 and December 31 of each year are prepared in order to be reviewed and audited, respectively, in accordance with current legal regulations. The Company voluntarily submits the quarterly financial statements as of March 31 and September 30 to an interim financial information review performed in accordance with regulations established for this type of review, described in Generally Accepted Auditing Standard (GAAS) No. 45 Section No. 722, issued by the Chilean Association of Accountants.

(c) Basis of presentation:

The consolidated financial statements for 2007 and their notes have been adjusted for comparison purposes by 8.04% in order to allow for comparison with the 2007 consolidated financial statements. For comparison purposes, certain reclassifications have been made to the 2007 consolidated financial statements.

(d) Basis of consolidation:

These consolidated financial statements include the assets, liabilities, income and cash flows of the Parent Company and subsidiaries. Significant intercompany transactions have been eliminated, and the participation of minority investors has been recorded under Minority Interest (Note 20).

(Translation of a report originally issued in Spanish see Note 2b to the Financial Statements)
Notes to the Consolidated Financial Statements

2. Summary of Significant Accounting Policies, continued:

(d) Basis of consolidation, continued:

Companies included in consolidation:

As of March 31, 2008 and 2007, the consolidated group (The Company) is composed of Compañía de Telecomunicaciones de Chile S.A. and the following subsidiaries:

TAXPAYER No.	Company Name	Ownership Percentage			2007 Total
		Direct	2008 Indirect	Total	
96,551,670-0	Telefónica Larga Distancia S.A. Telefónica Gestión de Servicios	99.87	-	99.87	99.83
96,961,230-5	Compartidos Chile S.A.	99.99	-	99.99	99.99
74,944,200-k	Fundación Telefónica Chile	50.00	-	50.00	50.00
96,971,150-8	Telefónica Asistencia y Seguridad S.A.	99.99	-	99.99	99.99
90,430,000-4	Telefónica Empresas Chile S.A.	99.99	-	99.99	99.99
78,703,410-1	Telefónica Multimedia Chile S.A.	99.99	-	99.99	99.99
96,834,320-3	Telefónica Internet Empresas S.A. (1)	-	-	-	99.99
96,811,570-7	Instituto Telefónica Chile S.A.	-	99.99	99.99	99.99

1) On October 1, 2007 Telefónica Chile dissolved subsidiary Telefónica Internet Empresas S.A. by acquiring all the participation held by third parties, equivalent to 0.0005%, thus gathering all the stock of that company in Telefónica Chile.

(Translation of a report originally issued in Spanish see Note 2b to the Financial Statements)
Notes to the Consolidated Financial Statements

2. Summary of Significant Accounting Policies, continued:

(e) Price-level restatement:

The consolidated financial statements have been adjusted by applying price-level restatement standards, in accordance with Chilean GAAP, in order to reflect the changes in the purchasing power of the currency during both exercises. The accumulated variation in the Chilean Customer Price Index (CPI) as March 31, 2008 and 2007, for initial balances, is 0.8% and 0.2%, respectively.

(f) Basis of conversion:

Assets and liabilities in US\$ (United States dollars), Euros, Brazilian Reales, Yen (JPY), UF (Unidad de Fomento) have been converted to pesos at the exchange rates as of each period end, as follows:

YEAR	US\$	EURO	BRAZILIAN REAL	JPY	UF
2008	437.71	690.94	249.99	4.39	19,822.53
2007	539.21	720.00	262.02	4.57	18,372.97

Foreign currency translation differences resulting from the application of this standard are credited or debited to income for the period.

(g) Time deposits:

Time deposits are carried at cost plus UF indexation adjustments, where applicable, and accrued interest as of period end.

(h) Marketable securities:

Fixed income securities and shares are recorded at their price-level restated cost plus interest accrued as of each year end using either the actual interest yield determined at the purchase date or market value, whichever is less.

(i) Inventory:

Depending on the nature of respective items, equipment held for sale is carried at the lesser of either its price-level restated acquisition or development cost or at its market value.

Inventory that is expected to be used within twelve months of their acquisition are classified as current assets. Their cost is price-level restated. The obsolescence provision has been determined on the basis of an analysis of materials with slow turnover.

(j) Allowance for doubtful accounts:

The allowance for doubtful accounts is estimated on the basis of the aging of such accounts, up to 100% of accounts outstanding for more than 120 days and 180 days in the case of large customers (corporations).

(Translation of a report originally issued in Spanish see Note 2b to the Financial Statements)
Notes to the Consolidated Financial Statements

2. Summary of Significant Accounting Policies, continued:

(k) Property, plant and equipment:

Property, plant and equipment are carried at their price-level restated acquisition or construction cost.

Property, plant and equipment acquired up through December 31, 1979 are carried at their appraisal value, as stipulated in Article 140 of D.F.L. No. 4. Some assets subsequently acquired were subject to a technical revaluation of their appraisal value recorded as of September 30, 1986, as authorized in SVS Circular No. 550. All these values have been price-level restated.

(l) Depreciation of property, plant and equipment:

Depreciation has been calculated and recorded on a straight-line basis over the estimated useful lives of the assets. The average annual financial depreciation rate of the Company is approximately 8.09% .

Estimated useful lives are summarized as follows:

Assets	Range of years
Building	40
Switchboard telephone equip.	7 to 12
Subscriber equipment	2 to 4
External plant	20 to 40
Office furniture and equip.	4 to 10
Software	3
Others	4 to 10

(m) Leased assets:

Leased assets with a purchase option, where the contracts satisfy the characteristics of a financial lease, are recorded in a manner similar to the acquisition of property, plant and equipment, recognizing the full obligation and interest on an accrual basis. These assets are not legally owned by the Company; therefore, until the Company exercises the purchase option, such assets cannot be freely disposed of.

(n) Intangibles:

i) Rights to underwater cable:

Rights to underwater cable correspond to the rights acquired by the Company for the use of an underwater cable to transmit voice and data. These rights are amortized over the term of the respective contracts, with a maximum of 25 years (Note 13).

ii) Software licenses:

Software licenses are valued at their price-level restated acquisition cost. Amortization is calculated using the straight-line method over their estimated useful life, which does not exceed 3 years (Note 13).

(Translation of a report originally issued in Spanish see Note 2b to the Financial Statements)
Notes to the Consolidated Financial Statements

2. Summary of Significant Accounting Policies, continued:

(o) Investments in related companies:

These investments are accounted for under the equity method, which recognizes the investor's share of income on an accrual basis. For investments abroad, the valuation methodology as defined in Technical Bulletin No. 64 is applied. Investments in countries deemed to be unstable and whose activities are not an extension of the operations of the Parent Company are controlled in US dollars.

(p) Goodwill:

This account corresponds to the differences originating from adopting the equity method and adjusting the cost of investments, or from the realization of new acquisitions. Goodwill and negative goodwill amortization years have been determined taking into consideration aspects such as the nature and characteristics of the business and the estimated year of return on the investment (Note 12).

(q) Transactions with repurchase agreements:

Purchases of financial instruments that include repurchase agreements are recorded as fixed rate instruments and are classified as Other Current Assets (Note 8).

(r) Bonds and promissory notes payable:

Bonds payable are recorded under liabilities at the par value of the issued bonds (Note 17). The difference between par and placement value, determined on the basis of the actual interest rate for the transaction, is deferred and amortized over the term of the respective bond (Notes 8 and 14).

Costs directly related to the placement of these obligations are deferred and amortized over the term of the respective liability (Notes 8 and 14).

(s) Current and deferred income taxes:

Income tax is recorded on the basis of taxable net income. Deferred taxes on all temporary differences, tax loss carry forwards that can be realized as future tax benefits, and other events that create differences between the tax and accounting values are recognized in accordance with Technical Bulletins No. 60 and complementary technical bulletins thereto issued by the Chilean Association of Accountants, and with SVS Circular No. 1,466 dated January 27, 2000.

(t) Staff severance indemnities:

For employees who qualify for this benefit, the Company's staff severance indemnities obligation is provided for by applying the present value method to the projected benefit obligation using an annual discount rate of 6%, taking into consideration assumptions concerning the future service year of the employees, mortality rate of employees and salary increases used as the basis of actuarial calculations.

Costs for past services of employees resulting from changes in assumptions used as the actuarial bases, are deferred and amortized over average of the employees' future service years (Notes 8 and 14).

(Translation of a report originally issued in Spanish see Note 2b to the Financial Statements)
Notes to the Consolidated Financial Statements

2. Summary of Significant Accounting Policies, continued:

(u) Revenue recognition:

The Company's revenues are recognized on an accrual basis in accordance with Chilean GAAP. Since billing dates are different from the accounting close date, as of the date of preparation of these consolidated financial statements, provisions have been established for services provided and not billed, which are determined on the basis of contracts, traffic, prices and current conditions for the year. These amounts are recorded under Trade Accounts Receivable.

(v) Foreign currency forwards:

The Company has signed foreign currency hedge future contracts which have been entered into to hedge against changes in the exchange rate of its current obligations in foreign currency.

These instruments are valued in accordance with Technical Bulletin No. 57 of the Chilean Association of Accountants.

The rights and obligations acquired are detailed in Note 27, being reflected in the balance sheet as only the net right or obligation at period end and classified according to the maturity of each contract under Other Current Assets or Other Payables, as applicable.

(w) Interest rate coverage:

Interest on loans for which associated interest rate swaps have been entered into is recorded recognizing the effect of those contracts on the interest rate established in such loans. The rights and obligations acquired therein are shown under Other Payables or under Other Current Assets, as applicable.

(x) Computer software:

The cost of software purchased is deferred and amortized using the straight-line method over a maximum period of three years and classified as other property, plant and equipment.

(y) Cumulative translation adjustment:

In this shareholders' equity reserve account, the Company recognizes the difference between the variation in the exchange rate and the consumer price index (C.P.I.) originated in the restatement of its investment abroad and its goodwill, which are controlled in United States dollars. The balance of this account is recognized as income in the same year in which the net income or loss is recognized on the total or partial disposal of these investments.

(z) Statement of cash flows:

For the purposes of preparing the Statement of Cash Flows in accordance with Technical Bulletin No. 50 of the Chilean Association of Accountants and SVS Circular No. 1,312, the Company defines securities under agreements to resell and time deposits with a remaining maturity of less than 90 days as cash equivalents.

Cash flows related to the Company's operations and all those not defined as resulting from investing or financing activities are included under Cash Flows from Operating Activities.

(Translation of a report originally issued in Spanish see Note 2b to the Financial Statements)
Notes to the Consolidated Financial Statements

2. Summary of Significant Accounting Policies, continued:

(aa) Correspondents:

The Company has agreements with foreign counterparties to set the conditions that regulate international traffic., determining the payments for each counterparty based on fixed rates for the net exchange of traffic.

The receivables/payables related to these agreements are recorded on an accrual basis, recognizing the costs and income for the year in which these are incurred, recording the net receivable and payable for each counterparty where the legal right to offset exists under Accounts Receivable or Accounts Payable, as applicable.

3. Accounting Changes:

During the period covered in these interim consolidated financial statements, the accounting principles have been consistently applied.

(Translation of a report originally issued in Spanish see Note 2b to the Financial Statements)
Notes to the Consolidated Financial Statements

4. Marketable Securities:

The balance of marketable securities is as follows:

Description	2008	2007
	ThCh\$	ThCh\$
Publicly offered promissory notes	6,027,836	15,479,411
Total	6,027,836	15,479,411

(1) Includes all transactions performed with related companies.

(Translation of a report originally issued in Spanish see Note 2b to the Financial Statements)
Notes to the Consolidated Financial Statements

6. Balances and transactions with related companies, continued:

The intercompany account with Telefónica Internacional Chile S.A. includes short-term and long-term contractual terms denominated in US dollars, accruing interest at a variable rate adjusted to market rates (US\$ + Market Spread).

Items recorded under Sales and Services Rendered have a short-term character (maturity of less than a year); individual terms for each transaction vary based on related transactions.

7. Current and deferred income taxes:

a) General information:

As of March 31, 2008 and 2007, the Parent Company recorded a first category income tax provision based on taxable income of ThCh \$18,451,919 and ThCh \$34,083,373 respectively.

In addition, as of March 31, 2008 and 2007, a provision for first category income tax in subsidiaries was recorded based on the subsidiaries' respective taxable income of ThCh \$12,782,886 and ThCh \$13,156,038, respectively.

As of March 31, 2008 and 2007, accumulated tax losses of subsidiaries amount to ThCh \$13,191,494 and ThCh \$8,057,296, respectively.

According to current legislation, tax years eventually subject to review by the fiscal authority, contemplate most of the taxes that affect the Company's operations and transactions generated from 2004 to date.

In the normal development of its operations, the company is subject to the regulation and oversight of the Chilean Internal Revenue Service; therefore differences could arise in the application of criteria used to determine taxes. Management believes, based on the information available to date, that there are no significant additional liabilities to those already recorded for that concept in the financial statements.

The companies in the group with positive Retained Taxable Earnings and their associated credits are as follows:

Subsidiaries	Retained Taxable Earnings w/15% credit ThCh\$	Retained Taxable Earnings w/16% credit ThCh\$	Retained Taxable Earnings w/16.5% credit ThCh\$	Retained Taxable Earnings w/17% credit ThCh\$	Retained Taxable Earnings w/o credit ThCh\$	Amount of credit ThCh\$

7. Current and deferred income taxes, continued:

d) Income tax detail:

The current tax expense recorded by the Company in the periods 2008 and 2007 result from the following items:

Description	2008 ThCh\$	2007 ThCh\$
Common tax expense before tax credit (income tax 17%)	5,309,917	8,030,700
Current tax expense (non-deductible expenses Art. 21, 35%)	5,134	1,624
Tax expense adjustment	(49,405)	-
Current income tax subtotal	5,265,646	8,032,324
Current year deferred taxes	(4,245,168)	(5,696,793)
Effect of amortization of complementary accounts for deferred assets and liabilities	3,275,870	3,561,965
Deferred tax subtotal	(969,298)	(2,134,828)
Total income expense tax	4,296,348	5,897,496

(Translation of financial statements originally issued in Spanish - See Note 2b)
Notes to the Consolidated Financial Statements, continued

8. Other Current Assets:

Details of other current assets are as follows:

Description	2008 ThCh\$	2007 ThCh\$
Fixed income securities purchased with resale agreement (Note 9)	7,508,580	3,569,980
Deferred union contract bonus (1)	1,407,383	1,588,392
Deferred higher bond discount rate (Note 25)	243,696	248,361
Deferred disbursements for placement of bonds (Note 25)	136,888	138,136
Deferred disbursements for foreign financing proceeds (2)	340,797	395,601
Exchange insurance receivable	27,207	836,753
Unearned income on cash flows coverage	1,982,298	-
Deferred staff severance indemnities charges (3)	1,242,779	1,307,680
Others	364,251	148,659
Total	13,253,879	8,233,562

- (1) Between May and September 2006, the Company negotiated a 38-month and 48-month union contract with a number of its employees, granting them, among other benefits, a signing bonus. That bonus was paid between July and December 2006. The total benefit of ThCh\$4,918,946 (historical), is amortized using the straight-line method over the term of the union agreement. The long-term portion is recorded under Others (in Other non-current assets) (Note 14).

During July 2005, July and November 2007, subsidiary Telefónica Larga Distancia negotiated collective agreements with its employees for 30, 26 and 48 months, respectively.

- (2) This amount corresponds to the cost (net of amortization) of the mandatory reserve paid to the Central Bank of Chile and disbursements incurred for foreign loans obtained by the Company to finance its investment plan. The long-term portion is recorded under Others (in Other Assets) (Note 14).
- (3) Corresponds to the short-term portion to be amortized due to changes in the actuarial hypothesis and to the concept of loans to employees. The long-term portion is recorded under Others (in Other Assets) (Note 14).

9. Information regarding sales commitment transactions (agreements):

Total	3,116,050,751	4,356,273,606	2,949,567,766	4,262,280,885

(1) Corresponds to buildings.

Operating costs include a depreciation charge for the period ended March 31, 2008 and 2007 amounting to ThCh\$49,260,548 and ThCh\$52,108,717, respectively, and administrative and selling expenses with a depreciation charge of ThCh\$2,102,161 and ThCh\$2,215,122 for 2008 and 2007, respectively.

During the normal course of its operations, the Company monitors new and existing assets, and their depreciation rates, and homologues them to the technological evolution and the development of the markets in which it competes.

(Translation of financial statements originally issued in Spanish See Note 2b)
Notes to the Consolidated Financial Statements, continued

10. Property, plant and equipment, continued:

Details of the item after the technical revaluation are as follows:

Description	Net	Accumulated	Gross	Gross
	Balance	Depreciation	property, plant and equipment 2008	property, plant and equipment 2007
	ThCh\$	ThCh\$	ThCh\$	ThCh\$
Land	(514,245)	-	(514,245)	(559,908)
Building and improvements	(695,517)	(4,567,045)	(5,262,562)	(5,373,068)
Machinery and equipment	(82,193)	16,056,772	15,974,579	16,083,160
Total	(1,291,955)	11,489,727	10,197,772	10,150,184

Depreciation of the technical reappraisal surplus amounted to ThCh\$(25,363) and ThCh\$(17,687) for 2008 and 2007, respectively, Gross property, plant and equipment includes assets that have been fully depreciated in the amount of ThCh\$1,591,925,281 in 2008 and ThCh\$1,462,161,474 in 2007, which include ThCh\$14,561,539 and ThCh\$14,198,584, respectively, from the reappraisals mentioned in Circular No. 550.

11. Investments in related companies:

Details of investments in related companies are as follows:

TaxpayerNo.	Company	Country of origin	Currency controlling the investment	Number of shares	Percentage participation		Equity of the companies	
					2008 %	2007 %	2008 ThCh\$	2007 ThCh\$
Foreign	TBS Celular Participación S.A. (1) (2)	Brazil	Dollar	48,950,000	2.61	2.61	124,912,133	164,460,284
96,895,220-K	Atento Chile S.A. (2)	Chile	Pesos	3,209,204	28.84	28.84	16,923,331	16,696,388

Taxpayer No.	Company	Net income (loss) of the companies	Equity in income (loss) of the investment	Investment value	Investment book value
--------------	---------	---------------------------------------	---	------------------	--------------------------

		2008	2007	2008	2007	2008	2007	2008	2007
		ThCh\$	ThCh\$	ThCh\$	ThCh\$	ThCh\$	ThCh\$	ThCh\$	ThCh\$

	Total					8,140,896	9,107,651	8,140,896	9,107,651

- (1) The company records its investment in TBS Celular Participación S.A. using the equity method since it exercises significant influence through the Telefónica group to which it belongs, as established in paragraph No. 4 of Circular No. 1,179 issued by the SVS and ratified in Title II of Circular No. 1,697. Although Telefónica Chile only has a 2.61% direct participation in TBS Celular Participación S.A., its Parent Company, Telefónica S.A., Spain, directly and indirectly has a percentage exceeding 20% ownership of the capital stock of that Company.
- (2) As of March 31, 2008, the value of the investment was calculated on the basis of unaudited financial statements.

As of the date of these financial statements, there are no liabilities for hedge instruments assigned to foreign investments.

(Translation of financial statements originally issued in Spanish See Note 2b)
Notes to the Consolidated Financial Statements, continued

12. Goodwill:

Details of goodwill are as follows:

Taxpayer No,	Company	Year of origin	2008		2007	
			Amount amortized in the period ThCh\$	Balance of Goodwill ThCh\$	Amount amortized in the period ThCh\$	Balance of Goodwill ThCh\$
Foreign	TBS Celular Participación S.A.	2001	50,834	1,264,322	50,834	1,800,733
96,551,670-0	Telefónica Larga Distancia S.A.	1998	313,628	13,428,082	313,628	14,700,015
96,834,320-3	Telefónica Internet Empresas S.A.	1999	25,632	286,223	25,632	390,175
	Total		390,094	14,978,627	390,094	16,890,923

Goodwill amortization years have been determined taking into account aspects such as the nature and characteristics of the business and estimated year of return on investment.

(Translation of financial statements originally issued in Spanish See Note 2b)
Notes to the Consolidated Financial Statements, continued

13. Intangibles:

Details of intangibles are as follows:

Description	2008 ThCh\$	2007 ThCh\$
Underwater cable rights (gross)	25,625,812	25,625,812
Accumulated amortization, previous periods	(5,985,633)	(4,680,025)
Amortization for the period	(326,403)	(326,403)
Licenses (Software) (gross)	17,662,287	16,758,136
Accumulated amortization, previous periods	(13,975,705)	(9,375,812)
Amortization for the period	(1,103,811)	(1,132,558)
Total Net Intangibles	21,896,547	26,869,150

14. Other non-current assets:

Details of other non-current assets are as follows:

Description	2008 ThCh\$	2007 ThCh\$
Deferred issuance cost for obtaining external financing (Note 8(2)) (1)	371,741	775,073
Deferred union contract bonus (Note 8(1))	1,527,180	2,966,907
Bond issue expenses (Note 25)	553,683	703,512
Bond discount (Note 25)	905,675	1,151,007
Securities deposits	138,367	149,495
Deferred charge due to change in actuarial estimations (Note 8(3)) (2)	6,989,595	8,440,539
Deferred staff severance indemnities (3)	3,724,122	4,442,576
Total	14,210,363	18,629,109

(1) This amount corresponds to the cost (net of amortizations) of the disbursements incurred for foreign loans obtained by the Company to finance its investment plan. The short-term portion is presented under Other Current Assets (Note 8).

(2) With the implementation of new contractual conditions derived from the organizational changes in the Company, there have been a series of studies that allowed, with primary effect in 2004, the modification in the calculation basis for staff severance indemnities of the variable for future service life of employees. After concluding these studies, in 2005, other changes in estimates were incorporated, such as personnel fluctuation rate, mortality of employees and future salary increases for the year 2006, which includes the rate mentioned in Note 2 (s) for 2006, all determined on the basis of actuarial calculations, as established in Technical Bulletin No.

8 of the Chilean Association of Accountants. The short-term portion is recorded under Other Current Assets (Note 8).

The difference generated as a result of changes in the actuarial estimates constitutes actuarial gains or losses, which are deferred and amortized over the estimated average remaining future service life of the employees that will receive the benefit (see Note 2s).

- (3) In conformity with the union agreements between the Company and its employees, loans were granted to employees, the amounts and conditions of which were based on, among other considerations, the accrued balances of staff severance indemnities at the date of the grant. The short-term portion is recorded under Other Current Assets (Note 8).

The staff severance indemnities provision has been recorded in part at its current value, deferring and amortizing this effect over the years of average remaining future service life of employees that subscribe to the benefit. The loan is presented under Other Long- term Receivables.

(Translation of financial statements originally issued in Spanish - See Note 2b)
Notes to the Consolidated Financial Statements, continued

15. Short-term obligations with banks and financial institutions:

- (1) On March 29, 2006, the Company placed bonds in the local market for a nominal amount of UF3,000,000 equivalent to US\$102.1 million (historical) of a series denominated L, which is composed of 6,000 bonds with a value of UF 500 each.

These bonds mature in one installment on October 25, 2012. The annual interest rate amounts to UF + 3.75% and interest is paid semi-annually.

(Translation of financial statements originally issued in Spanish See Note 2b)
Notes to the Consolidated Financial Statements, continued

18. Accruals and Write-offs:

Detail of accruals shown in liabilities are as follows:

	2008	2007
	ThCh\$	ThCh\$
Current		
Staff severance indemnities	2,411,226	584,985
Vacation	1,741,933	1,570,735
Incentive provision	712,856	3,324,995
Other employee benefits (1)	814,134	726,952
Employee benefit advances	(2,751,398)	(2,592,389)
Sub-Total	2,928,751	3,615,278
Long-term		
Staff severance indemnities	35,113,778	38,579,806
Total	38,042,529	42,195,084

(1) Includes provisions as per current union agreement.

During the 2008 period no bad debt write-offs have been performed. For the 2007 period these amounted to ThCh\$ 247,963 which were recorded against the respective provision.

19. Staff severance indemnities:

Details of the charge to income for staff severance indemnities are as follows:

	2008	2007
	ThCh\$	ThCh\$
Beginning balance (1)	37,506,495	38,882,852
Payments for the period	(1,333,702)	(568,228)
Provision increase	1,352,211	850,167
Ending Balance	37,525,004	39,164,791

(1) The previous year is shown restated for comparative purposes.

20. Minority interest:

Minority interest recognizes the portion of equity and net income of subsidiaries owned by third parties. Details for 2008 and 2007 are as follows:

(Translation of financial statements originally issued in Spanish See Note 2b)

21. Shareholders Equity, continued:**(a) Paid-in capital:**

As of March 31, 2008 the Company's paid-in capital is as follows:

Number of shares:

Series	No. of subscribed shares	No. of paid shares	No. of shares with voting rights
A	873,995,447	873,995,447	873,995,447
B	83,161,638	83,161,638	83,161,638

Paid-in capital:

Series	Subscribed Capital ThCh\$	Paid-in Capital ThCh\$
A	826,128,516	826,128,516
B	78,607,046	78,607,046

(b) Shareholder distribution:

As indicated in SVS Circular No. 792, the stratification of shareholders by percentage of ownership in the Company as of March 31, 2008 is as follows:

Type of shareholder	Percentage of Total holdings %	Number of shareholders
10% holding or more	62.06	2
Less than 10% holding:		
Investment equal to or exceeding UF 200	37.21	1,358
Investment under UF 200	0.73	10,671
Total	100.00	12,031
Controlling company	44.90	1

(Translation of financial statements originally issued in Spanish See Note 2b)
Notes to the Consolidated Financial Statements, continued

21. Shareholders Equity, continued:

(c) Dividends:

i) Dividend policy:

In accordance with Law No.18,046, unless otherwise decided at the Shareholders Meeting by unanimous vote of the outstanding shares, when there is net income, at least 30% must be allocated in dividend payments.

Taking into consideration the cash situation, the levels of projected investment and the solid financial indicators for 2005 and future years, on April 14, 2005, the Ordinary Shareholders Meeting modified the dividend distribution policy reported at the Ordinary Shareholders Meeting of April 2004, and agreed upon distributing 100% of net income generated during the respective year by means of an interim dividend in November of each year and a final dividend in May of the following year.

ii) Dividend distributed:

On April 13, 2007, the Ordinary Shareholders Meeting approved payment of final dividend No. 173, for the amount of ThCh\$ 12,866,433 (historical), equivalent to Ch\$13.44234 per share, with a charge to 2006 net income. The dividend was paid on May 15, 2007.

Additionally, the Extraordinary Shareholders Meeting held on April 13, 2007, approved modification of the company bylaws in order to decrease capital by ThCh\$48,815,012 (historical), in order to distribute additional cash to the shareholders in 2007. The capital distribution was equivalent to Ch\$51 per share.

On October 24, 2007, the Board of Directors agreed to pay interim dividend No. 174 of Ch\$6 per share, equivalent to ThCh\$ 5,742,943 (historical), with a charge to net income generated by the Company as of September 30, 2007.

On January 30, 2008 the Board of Directors agreed to call an Ordinary Shareholders Meeting for April 14, 2008, in order to approve, among other matters, payment of a final dividend (No. 175) of Ch\$5.276058 per share equivalent to ThCh\$ 5,050,016, with a charge to 2007 net income. With the distribution of this dividend plus interim dividend No. 174, distributed in November 2007, for the amount of ThCh\$ 5,806,115. The Company's dividend distribution policy, which requires distribution of 100% of net income for the year is fulfilled.

(d) Other reserves:

Other reserves correspond to the net effect of the accumulated adjustment for conversion differences in accordance with what is established in Technical Bulletin No. 64 issued by the Chilean Association of Accountants, and the details are as follows:

Company	Amount			
	December 31, 2007	Price-level restatement	Net Movement	Balance as of March 31, 2008
	ThCh\$	ThCh\$	ThCh\$	ThCh\$

TOTAL

28. Contingencies and commitments:

a) Lawsuit against the State of Chile:

(i) Having exhausted all administrative remedies aimed at correcting the errors and illegal actions taken in the tariff-setting process of 1999, in March 2002, the Company filed a lawsuit for damages against the Government of Chile for the amount of ThCh\$ 181,038,411, plus readjustments and interest, covering past and future damages incurred up to May 2004.

The judicial process is currently at the sentencing stage.

(ii) Telefónica Chile and Telefónica Larga Distancia filed an indemnity suit against the State of Chile, claiming damages caused were due to modification of the telecommunications cable network due to works carried out by highway concessionaries from 1996 to 2000.

The amount of the damages claimed consists of both companies having to pay to transfer their telecommunications networks due to the construction of public works concessioned under the Concessions Law in the amount of:

- a.- Compañía de Telecomunicaciones de Chile S.A.: ThCh\$ 1,929,207 (historical)
- b.- Telefónica Larga Distancia S.A.: ThCh\$ 2,865,209 (historical)

On March 24, 2008, final first instance sentence was dictated rejecting the complaint without costs.

This sentence is being appealed.

b) Lawsuits:

(i) Voissnet Lawsuit:

On March 14, 2005, Telefónica Chile responded to the complaint filed by Voissnet before the Antitrust Commission (Tribunal de la Libre Competencia) TDLC, for alleged events which in their opinion went against free competition, development of Internet technology, fundamental broadband telephony, and access to broadband, by not providing voice services through the broadband Internet access provided by Telefónica Chile. Voissnet intends for the TDLC to obligate Telefónica Chile to allow third parties to provide IP Telephony through the Internet using its ADSL.

On October 26, 2006, the Company was notified of the sentence dictated by the Antitrust Commission, which partially accepted the complaint filed by Voissnet S.A. and the requirement of the National Economic Attorney General's Office (Fiscalía Nacional Económica), which sentenced Telefónica Chile to pay a fine of 1,500 UTA.

On July 4, 2007, the Supreme Court dictated sentence on the complaint filed by Telefónica Chile, against the ruling of the Antitrust Commission, which partially accepted the complaint filed by Voissnet and the requirement of the National Economic Attorney General's Office (Fiscalía Nacional Económica), and reduced the fine from 1,00 to 556 UTA, eliminating whereas clauses 72 to 81 of the TDLC's ruling, which would allow Voissnet to act without a concession, and leaving in force the whereas clauses that declare that broadband is a non-regulated service that does not require concession.

28. Contingencies and restrictions, continued:

(ii) New Voissnet complaint:

On July 12, 2007 Voissnet filed a complaint before the Antitrust Commission (TDLC) against Telefónica Chile for alleged cross subsidy in the joint commercialization of its broadband and fixed telephony services, taking advantage of its dominant position in those markets. The complaint was notified on August 20, 2007.

Telefónica Chile requested that the complaint be rejected, with costs, since the packaged voice and broadband offers are due to a competitive dynamic, and it has not incurred in practices that attempt against free competition.

This is currently at the stage where the Court must dictate the resolution setting the facts on which evidence must be rendered.

(iii) Complaint filed by VTR Telefónica S.A.:

On June 30, 2000, VTR Telefónica S.A. filed an ordinary lawsuit, claiming payment of Ch\$2,204 million, plus amounts accrued during the lawsuit, for the concept of access charges for the use of its networks. It based its complaint on the differences originated due to the reduction of access charges after Tariff Decree No. 187 came into effect. Telefónica Chile sustained that the access charge tariffs that both parties must pay each other for the reciprocal use of their networks are regulated by a signed contract which VTR is ignoring. The first instance sentence accepted VTR's complaint and the compensation alleged in subsidy by Telefónica Chile. The Company filed an ordinary public motion and appeal, which are pending before the Santiago Court of Appeals.

There are two other cases related to the previous judicial process. The first filed by VTR in 2002 before Subtel for alleged non-payment of invoices for access charges set by D.S. 26, to obligate Telefónica Chile to pay those invoices and impose the fines foreseen in the General Telecommunications Law. That case has been suspended by order of the Minister at that time, until there is a sentence in the judicial proceeding filed by VTR in 2000. The other case was filed by Telefónica Chile on June 6, for VTR's non payment of access charges according to the contract signed between the parties and it has been suspended until there is a sentence in the first of the mentioned lawsuits.

In turn, on December 21, 2005 Telefónica Chile sued VTR for non payment of automatic reversal of charges services (800-services) for the amount of Ch\$1,500 million, plus sums accrued during the course of the lawsuit. VTR filed a counterclaim for the same concepts, for the amount of Ch\$1,200 million. That judicial process is in the first instance proceeding stage.

28. Contingencies and restrictions, continued:

(iv) Manquehue Net:

On June 24, 2003, Telefónica Chile filed a forced contract fulfillment complaint with damage indemnity before the arbitration court of Mr. Víctor Vial del Río against Manquehue Net, for the amount of ThCh\$3,647,689, and the sums accrued during the proceeding. On the same date, Manquehue Net filed a discount compliance complaint (in the amount of UF 107,000), in addition to a obligation claim (the signing of 700 service contracts).

On April 11, 2005, the Arbitrator notified the first instance sentence that accepted the complaint of Telefónica Chile, sentencing Manquehue Net to pay approximately Ch\$ 452 million, and at the same time accepted the complaint filed by Manquehue Net sentencing Telefónica Chile to pay UF 47,600.

Telefónica Chile filed ordinary public law motions against both sentences, which are currently pending before the Santiago Court of Appeals.

(v) Chilectra and CGE:

In June 2006, Telefónica Chile filed complaints against Chilectra S.A. and Río Maipo (today CGE Distribución), requesting an adjusted refund of the Reimbursable Financial Contributions (AFR) (Aportes Financieros Reembolsables) that the company paid between 1992 and 1998, in virtue of the Electric Law. The amounts to be restored amount to ThCh\$899,658 and ThCh\$117,350, respectively. The complaints have been recently notified and are at the discussion stage.

(vi) Labor lawsuits:

Labor lawsuits have been filed against the company during the normal course of operations.

To date there are certain labor proceedings involving former employees that claim wrongful dismissal. These employees did not sign contract termination agreements or receive severance indemnity for years of service. On several occasions the Supreme Court reviewed the sentences passed on the matter, accepting the Company's thesis, ratifying the validity of the terminations; however there are certain lawsuits pending first instance sentencing.

There are also other lawsuits that involve former employees in certain proceedings, with paid staff severance indemnities and paid and signed contract termination agreements, who in spite of having chosen voluntary retirement plans or having been terminated due to company needs, intend to have them annulled. Of these lawsuits, to date, two have been favorable to the Company, rejecting the annulment.

Certain Syndicates have filed complaints before the Santiago Labor Courts, requesting indemnification for various concepts.

(vii) Complaint filed by Telmex Servicios Empresariales S.A:

During the first quarter of 2008, Telmex Servicios Empresariales S.A. filed a complaint before the Antitrust Commission against Telefónica Chile, for alleged affectation of free competition, related to the process of being awarded the concession for local wireless public service of the 3.400 - 3.600 MHz band, requesting condemnation to pay a fine in benefit of the Government in the amount of 18,000 UTA.

The Company answered the complaint within the deadline, requesting rejection of all its parts.

28. Contingencies and restrictions, continued:

(viii) Empresa Ferrocarriles del Estado de Chile:

Ordinary lawsuit: Empresa de los Ferrocarriles del Estado versus Telefónica Chile, filed before the Civil Court of Santiago. That process was initiated by forced compliance complaint regarding the obligations agreed upon or consented derived from the Regulation on Railway Crossing, Parallelism and Support, which in addition demanded payment of a sum no less than 48,298.44 UTM, whether for the construction or annual passage relating to crossings located on the railway, plus indemnity for material damages and pain and suffering alleged to have been experienced, with readjustments, interest and costs, and notwithstanding the sums accrued during the proceeding.

On March 25, 2008 final first instance sentencing was passed fully rejecting the complaint.

(ix) Theoduloz Slier and Ochoa Soriano versus Zalaquett Zalaquett and Telefónica Chile:

On January 17, 2008, Telefónica Chile was notified of an executive obligation to perform complaint filed by Ms. Rodemilia Theoduloz Slier and Matilde Ochoa Soriano against Armando Zalaquett Zalaquett and Telefónica Chile; the obligation to perform consisted of delivery of 14,468,895 Series A shares of Telefónica Chile whose titleholder is the defendant, Armando Zalaquett Zalaquett.

Regarding the origin of this complaint, it should be noted that due to a capital increase of Compañía de Teléfonos de Chile S.A. carried out in 1988, Mr. Armando Zalaquett Zalaquett subscribed 3 cash share subscription agreements, which were not paid within the deadline, therefore receiving application of the executive proceeding foreseen in Article 17 of Law No. 18,046.

Telefónica Chile opposed the execution, since Mr. Zalaquett is not a shareholder of the Company, which is currently in process.

(x) Other lawsuits:

During the last quarter of 2007, resolutions dictated by the Ministry of Transport and Telecommunications were notified, in which fines were applied due to non-compliance with the previous resolutions, which altogether amount to UTM 33,700. Telefónica Chile has filed appeals against those resolutions, which are currently in process and pending sentence. It should be noted that the resolutions consider daily fines, which as of December 31, 2007 are estimated to amount to close to UTM 1,200.

Management and its internal and external legal counsel periodically monitor the evolution of the lawsuits and contingencies affecting the Company during the normal course of its operations, analyzing in each case the possible effects on the financial statements. Based on this analysis and the information available to date, management and its legal counsel believe that it is unlikely that the Company's income and equity will be significantly affected by loss contingencies that could eventually represent significant liabilities in addition to those already recorded in the financial statements.

(c) Financial restrictions

In order to develop its investment plans, the Company has obtained financing both in the domestic market and abroad (Notes 15, 16 and 17) which establish, among other things: clauses on the maximum debt the Company may maintain.

(Translation of financial statements originally issued in Spanish See Note 2b)
Notes to the Consolidated Financial Statements, continued

28. Contingencies and restrictions, continued:

The maximum debt ratio is 1.60.

Non-compliance with these clauses implies that all the obligations assumed in these financing contracts would be considered due and payable.

As of March 31, 2008, the Company complies with all financial restrictions.

c) Guarantee Deposits:

The detail of guarantee deposits is as follow:

Creditor of the Guarantee	Debtor		Type of the Guarantee	In force Tickets ThCh\$	Liberation of Guarantee		
	Company Name	Relation			2008	2009	2010

(5) Includes the following balance sheet accounts: Accounts payable to related companies, Miscellaneous accounts payable, Accruals, Deferred long-term taxes, Other long-term liabilities.

31. Sanctions:

Neither the Company nor its Directors and Managers have been sanctioned by the SVS or any other administrative authority during 2008 and 2007.

(Translation of financial statements originally issued in Spanish See Note 2b)
Notes to the Consolidated Financial Statements, continued

32. Subsequent events:

On April 14, 2008, the Ordinary Shareholders Meeting of Telefónica Chile agreed upon the following:

a) Distribute 46.52% of net income for the year, by paying a final dividend of Ch\$ 5.276058 per share, to be paid on May 14, 2008.

The Extraordinary Shareholders Meeting of Telefónica Chile, held on April 14, 2008 agreed to the following:

a) Decrease stock capital by ThCh\$ 39,243,440, maintaining the same amount of shares issued by the Company, which means paying Ch\$41 per share, empowering the Board of Directors to set the date of payment to the shareholders.

b) Modify the bylaws referring to the previous agreements.

The Ordinary Shareholders Meeting of subsidiary Telefónica Larga Distancia S.A. held on April 11, 2008, agreed to the following:

a) Designate the following Company directors:

Emilio Gilolmo López

José Moles Valenzuela

Manuel Plaza Martín

Juan Antonio Etcheverry Duhalde

Humberto Soto Velasco

Fernando García Muñoz

Cristián Aninat Salas

b) Distribute 30% of net income for the year, through payment of a dividend of Ch\$105.10171 per share, to be paid on May 15, 2008.

On April 23, 2008 the Board of Directors accepted the resignation of Deputy Director Luis Cid and Regular Director Andrés Concha. On the same date Andrés Concha was named Regular Director and Raúl Morodo was named Deputy Director.

From April 1 to April 23, 2008, there have been no other significant subsequent events that affect these interim consolidated financial statements.

33. Environment:

In the opinion of Management and the Company's in-house legal counsel, because the nature of the Company's operations do not directly or indirectly affect the environment, as of the closing date of these consolidated financial statements, no resources have been set aside nor have any payments been made for non-compliance with municipal ordinances or to other supervising organizations.

1. HIGHLIGHTS

Capital Reduction

The Ordinary Shareholders Meeting held on April 14, 2008 agreed to the following:

- a) Distribute 46.52% of net income for the year, through payment of a final dividend of Ch\$ 5.276058 per share, to be paid on May 14, 2008.
- b) Decrease share capital by ThCh\$ 39,243,441 maintaining the same amount of shares issued by the Company, which means paying Ch\$ 41 per share, empowering the Board of Directors to set the payment date for the shareholders.
- c) Modify Bylaws, in reference to prior agreements.

Appointment of Directors

Telefónica Larga Distancia

The Ordinary Shareholders Meeting, held on April 11, 2008, agreed to designate the following persons as Company directors:

- Emilio Gilolmo López
- José Molés Valenzuela
- Manuel Plaza Martin
- Juan Antonio Etcheverry Duhalde
- Humberto Soto Velasco
- Fernando García Muñoz
- Cristián Aninat Salas

Dividend Policy

Telefónica Chile

The Ordinary Shareholders Meeting, held on April 14, 2008 agreed to distribute 2007 net income through payment of a final dividend of \$5.276058 per share. In accordance with current dividends policy, this dividend, added to interim dividend No. 174, in the amount of Ch\$5,742,942,510 (historical), equivalent to Ch\$6 per share, paid on November 21, 2007, totalled 100% of net income generated during 2007.

Telefónica Larga Distancia

The Ordinary Shareholders Meeting, held on April 11, 2008, agreed to distribute 30% of 2007 net income through payment of a dividend of Ch\$105.10171 per share to be paid on May 15, 2008.

Relevant Aspects of the Industry

The most relevant event of the first quarter was the threefold increase in broadband speed offered by Telefónica and VTR without increasing the price of the service. Manquehue and Telsur announced that they would equal this offer.

During March 2008 the integrated services offer was consolidated, generating a new focus of competition among the different operators in the sector, with the Company's own services or alliances with third parties. In this manner, in the residential area almost all fixed operators already have service package offers (voice, broadband and TV). A similar situation occurs in small and medium companies with voice and broadband plan offers, while in the corporate area, operators offer integrated solutions that allow companies to consolidate their IP networks to transmit voice and data and facilitate integration toward business processes based on information technology. In a transversal manner, mobile communications have become massive in the social and corporate areas of the country.

A competition model was maintained at a worldwide level, mainly using copper par (ADSL), coaxial, fiber optics and wireless (3G, WiMax, PHS) technologies.

In the mobile area the highlight is the incorporation of 3G technology to the commercial offer of the operators, which all operate through the UMTS and HSDPA standard.

- (1) Due to accounting consolidation does not include access charges of Telefónica Larga Distancia.
- (2) Includes revenues from t-gestiona, Telepeajes and Fundación.
- (3) Amortization of underwater cable is presented in other operations costs.
- (4) For the purposes of a comparative analysis, equity participation in income from investments in related companies is shown net (net income/losses).
- (5) For analysis purposes price-level restatement and foreign currency translation are presented together.
- (6) For comparison purposes, certain reclassifications have been made to the 2006 statements of income.

3. ANALYSIS OF RESULTS FOR THE PERIOD

EVOLUTION OF THE INCOME STRUCTURE AND OPERATING COSTS

Operating income

The new income structure has been evolving coherently with the strategy of packaging voice, broadband and television services, through a flexible offer where customers create the combination of services that best suit their needs. In this manner, the Company has managed to go from a single-service to a multi-service line of business.

This is evident if we analyze the evolution of income in the period from January to March 2008 in relation to the period January to March 2007; it is clear that the flexibility and packages of the multiple services offered by the Company have allowed it to compensate for the drop in income from traditional telephone business and achieve a 1.4% increase in comparison to the 2007 period.

As commented in Operating Income, the gradual increase in income from flexible plans, broadband and television has reverted the downward tendency of previous years and offset the drop in traditional telephony (fixed and variable charge) and long distance business.

The above is reflected in the following graph, which shows the growth in the contribution of packaged products, which coincides with the Company's new business strategy.

Operating Costs

The new structure of services has had a direct effect on the structure of costs. The services that compose the multi-service offer have two fundamental characteristics, on the one hand they have associated variable costs and commercialization expenses, which are added to the Company's fixed costs and, on the other, they are services that due to their nature, in general generate lower margins. Although this has increased the Company's operating costs, it is expected that these should stabilize in time.

3.1 OPERATING INCOME

As of March 31, 2008, operating income reached Ch\$ 11,269 million, which represents a 22.3% decrease in respect to the previous year.

A. Operating Income

Operating income for 2007 amounted to Ch\$ 157,278 million, a growth of 1.4% in relation to the income obtained the previous year of Ch\$ 155,042 million.

The Company's strategy, focusing on the change in the business structure, has allowed strengthening the growth in Broadband and Television, which together with Flexible Plans, has neutralized the decrease in income from the traditional business of Fixed Telephony and Long Distance.

i. Revenues from Voice and Complementary: this income shows a 6.7% decrease in respect to the previous year, mainly because:

Basic telephone service (Voice), represents 34.8% of consolidated income and shows a 10.3% drop in respect to the previous year, originated by:

Fixed monthly charge, corresponding to the fixed monthly charge for connection to the network, decreased by 5.7% mainly explained by migration of customers to flexible plans.

Variable charge, decreased by 20.2%, which shows the effect of lower income derived from the drop in traffic per line and migration of customers to flexible plans.

Flexible plans, growth of customers in Flexible Plans leveraged by migration from traditional telephony and capturing new customers, implying a 12.2% growth in respect to the previous year.

Access charges and interconnections, represent 8.2% of consolidated income and decreased by 2.4%, mainly due to 23.5% lower income from *domestic long distance* access charges, effect that is offset by a slight 26.7% increase in income from *international long distance*. On the other hand *other interconnection services* decreased by 2.9%, emphasizing increases in media rental services, information services, unbundling services and fixed-fixed access charges.

Complementary Services, represent 11.0% of consolidated income and show a 12.1% decrease, equivalent to Ch\$2,547 million mainly explained by the net effect of:

The decrease in inside income and income from equipment rental and value added services is mainly due to the drop in average lines in service; and the decrease in income from telephone book advertising, security services, public telephones and switchboard and dedicated ISP.

The increase in income from commercialization of equipment and connections and other installations.

ii. **Broadband:** Has shown a sustained increase in the last years reaching Ch\$ 27,567 million in 2008, with a 17.5% increase in comparison to the same period the previous year mainly due to the 22.4% increase in the number of customers.

iii. **Television:** a little over a year after it was launched income from television represents 5.0% of operating income. In the same period the previous year, income from these services amounted to Ch\$8,991 million. The number of customers has grown by 79.5% in comparison to the previous year.

iv. **Revenues from Long Distance:** Revenues from these services decreased by 7.7% in comparison to 2007, due to a 16.1% decrease in income from DLD mainly due to lower average income and a 10.8% decrease in media and circuit rental.

v. **Revenues from Corporate Communications:** This business revenue shows a 5.2% increase in respect to the same period in 2007, mainly due to the effects of a 10.8% increase in data circuits, 2.9% in income from data services and 3.6% income from terminal equipment.

vi. **Revenues from Other Businesses:** These revenues increased by 12.3% mainly due to the increase in revenues from Instituto Telefónica in comparison to the previous period.

B. Operating Costs

Operating costs for the period reached Ch\$14,009 million, increasing by 3.9% in relation to 2007. This is mainly explained by: i) costs generated by the new business model of Internet access with Terra, for ADSL customers; ii) the purchase of content for the television business; and iii) a 5.4% increase in the remunerations line. The latter is explained by the internalization of employees who were previously hired by third parties, performed by the Company due to the application of the Subcontracting Law, whereas depreciation cost dropped by 5.4% .

3.2 NON-OPERATING INCOME

Non-operating income obtained in the year ended March 31, 2008 shows a deficit of Ch\$6,010 million, a 20.6% decrease in respect to the previous period. The most significant effects are generated by:

- a) *Financial income* shows an increase of 19.3%, mainly due to more volume of funds, transitorily destined to financial investments.
- b) *Other non-operating income* reached an amount of Ch\$ 570 million, figure that is lower than the Ch\$ 2,126 million reached in the 2007 period. This is mainly because in 2007 higher revenues were obtained from disposal of assets and indemnities to contractors for loss of equipment. For this period 82% of the heading corresponds to fines to suppliers and contractors.
- c) *Financial expenses* increased by 49.1% in the 2008 period, mainly associated to the nominalization of the Company's debt, which changed from US dollars/UF to US dollars/Chilean pesos, which implies a higher rate assumed for the respective interest rate insurance covered by the respective insurance contracts at a nominal peso rate. This is framed within the hedge policy that allows the company to mitigate the exposure of the debt to the high volatility of the UF and inflation.
- d) *Other non-operating expenses* reached Ch\$ 2,871 million, Ch\$1,176 million higher than those in the 2007 period. This derived mainly from higher restructuring expenses and retirement of out of service property, plant and equipment.
- e) *Price-level restatement* in the 2008 period shows a net gain of Ch\$ 1,328 million, mainly due to the variations experienced in the CPI, Unidad de Fomento and exchange rate.

3.3 NET RESULT FOR THE PERIOD

f) As of March 31, 2008, net results reached net income of Ch\$1,045 million, whereas in 2007 net income was Ch\$ 1,138 million. The lower income obtained in 2008 is derived from 22.3% lower operating income, basically due to higher operating costs and to the slight increase in the level of income taxes. Both effects are partly offset by the 20.6% decrease in non-operating deficit.

3.4 RESULTS BY BUSINESS AREA

1. Basic Telephone Business: Recorded a net loss of Ch\$ 1,045 million as of March 31, 2008, in relation to the Ch\$ 1,138 million deficit recorded in the 2007 period. This was due to lower operating income, generated by an 0.12% deficit in operating income in conjunction with a 2.5% increase in selling costs and 6% in administration and selling expenses, effect that was partially offset by the variation in non-operating deficit and positive income, due to a 74.26% improvement in financial income and a 9.98% increase in net income from sale of investment in related companies, effect that was partially offset by 43.4% higher financial expenses and a 73.81% deficit in other non-operating revenues.

2. Corporate Communications Business: This business contributed net income of Ch\$ 2,825 million, a 70.6% increase in relation to the 2007 period which presents net income of Ch\$ 1,655 million, mainly due to higher operating income due to the 26.6% decrease in administration and selling expenses, partly offset by the 12.20% increase in operating costs.

3. Long distance Business: As of December 31, 2008 presented net income of Ch\$ 5,287 million, lower than net income reached in the 2007 period in the amount of Ch\$ 5,640 million. This variation is mainly produced by operating income which decreased due to the 7.87% increase in administration and selling expenses, as well as the 21.72% deficit presented in non-operating income, which arises mainly from higher losses related to price-level restatement and exchange differences.

4. Other Businesses: These businesses mainly include the services of Instituto Telefónica, T-gestiona and Fundación. The businesses as a whole generated net income of Ch\$ 538 million, higher than the net income of Ch\$ 479 million obtained in the 2007 period, due to higher income obtained by T-Gestiona.

4. STATEMENT OF CASH FLOWS

TABLE No. 3
CONSOLIDATED CASH FLOWS
 (Figures in millions of pesos as of March 31, 2008)

DESCRIPTION	JAN-MAR	JAN-DIC	JAN-MAR	VARIATION	
	2007	2007	2008	ThCh\$	%
Cash and cash equivalents at beginning of period	44,762	44,762	79,176	34,414	76.9%
Net cash provided by operating activities	64,048	246,239	42,343	(21,705)	-33.9%
Net cash used in financing activities	-	(72,822)	-	-	n/a
Net cash used in investing activities	(24,119)	(134,869)	(27,724)	(3,605)	14.9%
Effect of inflation on cash and cash equivalents	(79)	(4,134)	(692)	(613)	766.3%
Cash and cash equivalents at end of period	84,612	79,176	93,103	8,491	10.0%
Net change in cash and cash equivalents for the year	39,850	34,414	13,927	(25,923)	-65.1%

The net positive variation in cash and cash equivalents of Ch\$13,927 million in cash flows for the 2008 period, compared to the positive variation of Ch\$ 39,850 million in the 2007 period, presented a decrease mainly related to a deficit in cash flows from operating activities for this, which showed a 33.9% decrease in relation to the same period in 2007 mainly due to payments to suppliers in the 2008 period.

<u>Days in Inventory</u> (Average Inventory / Cost of sales times 360 days)	244.04	218.41	221.95

(1) Figures at the beginning of the year, restated.

(2) Property, plant and equipment are considered operating assets

The key points from the table above are the following:

The common liquidity index decreased due to a 54.8% increase in current liabilities due to transferring obligations with financial institutions in the 2008 period to the short-term which caused a 14.1% increase in accounts payable, whereas current assets only increased by 5.0% .

The increase in the debt ratio is explained by a 6.4% decrease in shareholder s equity, mainly due to a decrease in stock capital and distribution of dividends, activities performed in 2007 and 2008, for the purpose of distributing cash surpluses to the shareholders.

6. EXPLANATION OF THE MAIN DIFFERENCES BETWEEN MARKET OR ECONOMIC VALUE AND THE BOOK VALUE OF THE COMPANY S ASSETS

Due to market imperfections regarding the capital assets of the sector, there is no economic or market value that can be compared to their accounting values. However, there are certain buildings with a book value equal or close to zero. These buildings have a market value, but it is not significant with respect to the Company s assets in the aggregate.

For other assets with a referential market value, such as marketable securities (shares and promissory notes), provisions have been established when the market value is less than the book value.

7. ANALYSIS OF MARKETS, COMPETITION AND RELATIVE MARKET SHARE

Synthesis of Market Evolution

It is estimated that there were approximately 3.357 million lines in service in the Chilean market as of December 2007, a 3.0% increase in comparison to March 2007. Within fixed voice services, there were decreases of 1.4% in local, 8.7% in DLD and 3.2% in ILD with respect to the previous year.

It is estimated that the mobile telephony market had a total of 14.9 million subscribers as of March 2008, which represents growth of 11% with respect to March 2007.

The Broadband market recorded a 24% increase in respect to the same period in 2007, reaching 1,328 thousand accesses.

Telefónica Chile offers DTH (direct to home) satellite television services, which during March 2008 grew by 18% compared to March 2007 and reached a market share of 17.5% .

Relative Market Share

The following table shows the relative market share of Telefónica Chile in the markets in which it participates, as of March 31, 2008:

Business	Market Share	Market Penetration	Telefónica Chile's Position in the Market
Fixed Telephony	64%	20.0 lines / 100 inhabitants	1
Domestic Long Distance	44%	81 minutes / inhabitant per year	1
International Long Distance	42%	10 minutes / inhabitant per year	1
Corporate Communications	42%	Ch\$ 209,816 million(*)	1
Broadband	49%	1,328,000 Connections	1
Security Services	18%	269,000 Connections	2
Pay TV	17%	1,325,000 Customers	2

(*) Estimated annual income.

8. ANALYSIS OF MARKET RISK

Financial Risk Coverage

Due to the attractive external interest rates in previous periods, the Company has obtained financing abroad mainly in US dollars and in certain cases at variable interest rates. For this reason, the Company faces two types of financial risks, the risk of changes in the exchange rate and the risk of changes in the interest rate.

Financial risk due to foreign currency fluctuations

The Company has exchange rate hedging instruments. The purpose of these instruments is to reduce the negative impact of fluctuations of the dollar on Company results. The percentage of interest-bearing debt exposure is defined and continuously reviewed, basically considering the volatility of the exchange rate, its trend, and the cost and availability of hedging instruments for different terms.

The main hedging instruments used are Cross Currency Swaps and dollar/UF and dollar/peso exchange insurance.

As of March 31, 2008, the financial debt in currency of origin expressed in US dollars reached US\$ 831.3 million, including US\$ 501.6 million in financial liabilities denominated in US dollars and US\$ 329.7 million of debt in unidades de fomento. In this manner US\$ 501.6 million corresponded to debt directly exposed to the changes in the US dollar and US\$ 329.7 exposed to variations in the UF.

Simultaneously, the Company has Cross Currency Swaps, dollar/peso exchange insurance and assets denominated in US dollars that resulted, as of the 2008 first quarter closing date in an average of close to 0% and 37.4% exposure to foreign currency and UF financial debt, respectively.

Financial risk due to floating interest rate fluctuations

The policy for hedging interest rates seeks to reduce the negative impact on financial expenses due to interest rate increases.

As of March 31, 2008, the Company had debt at the variable interest rates Libor and TAB, mainly for bank loans.

Financial derivative instruments have been used to hedge against increases in variable rates, particularly Cross Currency Swaps (that cover the Libor and TAB rate), which limit future fluctuations in the interest rates. As of March 31, 2008 this has resulted in a variable interest rate exposure of 60% of the total financial debt in original currency.

Regulatory Framework

1. Tariff System

Request to review the current qualification of local telephone services offered to the public subject to tariff setting

According to Law No. 18,168 (General Telecommunications Law), the prices of public telecommunications services and of intermediate telecommunications services are freely established by operators, unless there is an express qualification from the Antitrust Commission (formerly the Antitrust Resolutive Commission), stating that the conditions existing in the market are not adequate to guarantee a freedom of prices regime. In this case, the maximum tariffs for certain telecommunications services must be subject to tariff regulation.

As of January 30, 2008, the Ministry of Transportation and Telecommunications requested that the Antitrust Commission review the qualification of the telecommunications services for the 2009 - 2014 periods, for which it is considered that the market conditions are not adequate to guarantee a free tariff regime. The Ministry of Transportation and Telecommunications considers that the domestic telecommunications market conditions merit reviewing current qualifications.

On February 7, 2008 the Antitrust Commission published in the Official Gazette the resolution through which the procedure contemplated in article 31 of Decree Law 211/73 began, considering the request for a report from the Ministry of Transportation and Telecommunications about the fixed telephone services regime to be presented. On the basis of that resolution, the Antitrust Commission notified the National Economic Attorney General's Office, hereinafter the FNE (Fiscalía Nacional Económica), and the country's telecommunications companies, in order for them to contribute information. On February 21, 2008, the FNE informed the beginning of the investigation and requested from Telefónica Chile information in order to attend to the requirement made by the Antitrust Commission. In addition, FNE convoked Telefónica Chile to a Special Audience to gather opinions on a predefined list of issues related to the pronouncement that must be issued to the Antitrust Commission in reference as to whether the conditions exist to guarantee a regime of tariff freedom in fixed telephone services.

Telefónica is preparing its responses to the petitions of the Antitrust Commission and the FNE and its participation in the process begun by the Antitrust Commission.

Setting of local telephone service tariffs to the public of Telefónica Chile

The Undersecretary of Telecommunications published the notice of registration of third party participation in the process of setting the tariffs of Telefónica Chile. The deadline for any third party to register is 10 consecutive days starting on the publication date (April 1, 2008).

Telefónica Chile will submit to Subtel its proposal for Technical, Economic Basis within the deadlines established in the regulation, in conformity with the procedure established in the General Telecommunications Law.

Tariff setting for mobile telephone companies

On February 15, 2008, the Undersecretary of Telecommunications notified Mobile Companies of the Final Technical Economic Bases to which they must adhere to carry out the Tariff Study that will set the tariffs and access charges and other interconnection services that will be in force for the 2009 – 2014 period.

2. Modification of the Regulatory Framework**2.1. Bill: Network Neutrality.**

The project that consecrates neutrality of the network is at the second constitutional process. On November 6, 2007 Telefonica Chile submitted the report requested by the Senate's Public Works, Transportation and Telecommunications Commission and, in addition, formulated its comments and proposals.

2.2. Public consultations carried out by the Undersecretary of Communications for the purpose of modifying the current regulatory framework

Creation of a Panel of Experts: The object of this project subjected to consultation is to modify the Telecommunications Law to create a panel of experts, of a technical nature, integrated by seven professionals who will be in charge of resolving litigations and disagreements between the company and the regulator, for the purpose of reducing judicialization of various regulatory processes in the telecommunications sector. The preliminary project submitted for public consultation proposes, among other things, the matters that will be resolved by the Panel, its attributions and functions, its composition (five engineers and two lawyers) named by the Antitrust Commission, and its inabilities. The costs of the Panel will be paid pro rata by the concessionary companies which can consider both the value of their assets as well as the estimated number of discrepancies that affect them and their nature and complexity.

The authority is preparing a new version of this project, which has not been sent to the legislative process.

Modification of the concession regime: The purpose of the project submitted for consultation is to modify the Law to adjust to the technological progress reached at a worldwide level which propitiates convergence of networks and services so that network operators and service providers can have a regime without bureaucratic procedures for their services, replacing the current regime for a registration system, except when private use of the radio-electric spectrum is required. In addition there is differentiation between network operators and service operators, the separation of local DLD and the DLD multicarrier is eliminated, it is only maintained for ILD; the freedom to freely define the service zone is modified by establishing that the service zones originally registered in the registry cannot be decreased; Broadband is qualified as a telecommunications service, which enables the application of a series of regulations; sanctions are increased by increasing fines, the deadline for attending to supply requests is reduced from 2 years to 6 months. The Undersecretary of Telecommunications has stated that it will hold a 2nd public consultation on the matter.

Creation of the Superintendency of Telecommunications: The purpose of the project submitted for consultation is to modify the Law by separating competencies related to dictating telecommunications policies from the activities of supervision and preventive punitive control of the operation of the market. The preliminary project is being analyzed by Subtel.

2.3. Regulation of public voice service over the Internet.

On December 19, 2006, the Undersecretary of Telecommunications called a public consultation regarding the regulatory project that defines the conditions to which any party interested in providing public voice services over the Internet must adhere.

The Undersecretary of Telecommunications proposed the supreme decree that approves the mentioned regulation, which is being processed. As of December 31, 2008, it has not been published in the Official Gazette.

2.4. Terrestrial Digital Television Standard

To date the standard has not been dictated.
