To the Board of Directors and Shareholders of

Petróleo Brasileiro S.A. - Petrobras

In our opinion, the accompanying consolidated statement of financial position and the related consolidated statements of income, of comprehensive income, of cash flows and of changes in stockholders' equity present fairly, in all material respects, the financial position of Petróleo Brasileiro S.A. - Petrobras and its subsidiaries (the "Company") at December 31, 2012, and the results of their operations and their cash flows for the year ended December 31, 2012 in conformity with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The accompanying consolidated balance sheet of Petróleo Brasileiro S.A. — Petrobras as of December 31, 2011 and the related consolidated statements of income, comprehensive income, shareholders' equity and cash flows for each of the years ended December 31, 2011 and 2010, were audited by other auditors whose report thereon dated March 30, 2012, expressed an unqualified opinion on those statements.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **1 The Company and its operations**

Petróleo Brasileiro S.A. - Petrobras is dedicated, directly or through its subsidiaries (referred to jointly as “Petrobras” or “the Company”) to prospecting, drilling, refining, processing, trading and transporting crude oil from producing onshore and offshore oil fields and from shale or other rocks, as well as oil products, natural gas and other liquid hydrocarbons. In addition, Petrobras carries out energy related activities, such as research, development, production, transport, distribution and trading of all forms of energy, as well as any other correlated or similar activities. The Company’s head office is located in Rio de Janeiro – RJ, Brazil.

### **2 Basis of preparation**

#### **2.1 Statement of compliance and authorization of financial statements**

The consolidated financial statements have been prepared and are being presented in accordance with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). They are presented in U.S. dollars.

The financial statements have been prepared under the historical cost convention, as modified by available-for-sale financial assets, financial assets and financial liabilities measured at fair value (including derivative financial instruments at fair value through profit or loss), and certain non-current assets and liabilities, as detailed in the accounting policies set out below.

Certain amounts from prior periods have been reclassified for comparability purposes relatively to the current period presentation. These reclassifications did not affect the net income or the shareholders' equity of the Company.

The annual consolidated financial statements were approved and authorized for issue by the Company's Board of Directors in a meeting held on February 4, 2013.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **2.2 Business segment reporting**

The information related to the operating segments (business areas) of the Company is prepared based on items directly attributable to each segment, as well as items that can be allocated to each segment on a reasonable basis.

The measurement of segment results includes transactions carried out with third parties and transactions between business areas which are charged at internal transfer prices defined between the areas using methods based on market parameters.

The Company operates under the following segments:

a) Exploration and Production: this segment covers the activities of exploration, development and production of crude oil, NGL (natural gas liquid) and natural gas in Brazil for the purpose of supplying, primarily, our domestic refineries; and also selling the crude oil surplus and oil products produced in the natural gas processing plants to the domestic and foreign markets. The exploration and production segment also operates through partnerships with other companies.

b) Refining, Transportation and Marketing: This segment covers the refining, logistics, transport and trading of crude oil and oil products activities, exporting of ethanol, extraction and processing of shale, as well as holding interests in companies from the petrochemical sector in Brazil.

c) Gas and Power: this segment covers the activities of transportation and trading of natural gas produced in Brazil and imported natural gas, transportation and trading of LNG (liquid natural gas), generation and trading of electricity, as well as holding interests in transporters and distributors of natural gas and in thermoelectric power stations in Brazil, in addition to being responsible for the fertilizer business.

d) Biofuels: this segment covers the activities of production of biodiesel and its co-products, as well as the ethanol-related activities: equity investments, production and trading of ethanol, sugar and the surplus electric power generated from sugarcane bagasse.

e) Distribution: This segment includes mainly the activities of Petrobras Distribuidora, which operates through its own retail network and wholesale channels to sell oil products, ethanol and vehicle natural gas in Brazil to retail, commercial and industrial customers, as well as other fuel wholesalers.

f) International: this segment covers the activities of exploration and production of oil and gas, refining, transportation and marketing, gas and power, and distribution, carried out outside of Brazil in a number of countries in the Americas, Africa, Europe and Asia.

The corporate segment comprises the items that cannot be attributed to the other segments, notably those related to corporate financial management, corporate overhead and other expenses, including actuarial expenses related to the pension and medical benefits for retired employees and their dependents.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **2.3 Functional and presentation currency**

The functional currency of Petrobras and all Brazilian subsidiaries is the Brazilian Real. The functional currency of Petrobras International Finance Company – PifCo, Petrobras Global Finance B.V. (PGF) and certain subsidiaries and special purpose entities that operate in the international economic environment is the U.S. dollar. The functional currency of Petrobras Argentina is the Argentine Peso.

In the consolidated financial statements, the income statement and statement of cash flows of non-Brazilian Real functional currency subsidiaries, jointly controlled entities and associates in stable economies are translated into Brazilian Real using the average exchange rates prevailing during the year. Assets and liabilities are translated into Brazilian Real at the closing rate at the date of the financial statements and the equity items are translated using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured.

Petrobras has selected the U.S. Dollar as its presentation currency. The financial statements have been translated from the functional currency (Brazilian Real) into the presentation currency (U.S. Dollar) in accordance with IAS 21 - The effects of changes in foreign exchange rates. All assets and liabilities are translated into U.S. dollars at the closing rate at the date of the financial statements; income and expenses, as well as the cash flows are translated into U.S. dollars using the average exchange rates prevailing during the year. All exchange differences arising from the translation of the consolidated financial statements from the functional currency into the presentation currency are recognized as cumulative translation adjustments (CTA) within accumulated other comprehensive income in the consolidated statements of changes in shareholders' equity.

The cumulative translation adjustments were set to nil at January 1, 2009 (the date of transition to IFRS).

### **2.4 Use of estimates and judgments**

Report of independent registered public accounting firm

The preparation of the consolidated financial statements requires the use of estimates and assumptions for certain assets, liabilities and other transactions. These estimates include: oil and gas reserves, pension and medical benefits liabilities, depreciation, depletion and amortization, decommissioning costs, provisions for legal proceedings, fair value of financial instruments, present value adjustments of trade receivables and payables from relevant transactions and income taxes. Notwithstanding Management uses assumptions and judgments that are reviewed periodically, the actual results could differ from these estimates.

**Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)***3 Basis of consolidation**

The consolidated financial statements include the financial information of Petrobras, its subsidiaries and special purpose entities. Accounting policies of subsidiaries and special purpose entities have been changed, where necessary, to ensure consistency with the policies adopted by the Company. The subsidiaries and special purpose entities set out in the table below are consolidated.

<b>Subsidiaries</b>	<b>Country</b>	<b>Interest - Subscribed, paid in and voting %</b>	
		<b>2012</b>	<b>2011</b>

The consolidation procedures involve combining assets, liabilities, income and expenses, according to their nature and eliminating all intragroup balances and transactions, including unrealized profits arising from intragroup transactions.

## **4 Summary of significant accounting policies**

The accounting policies set out below have been consistently applied to all periods presented in these consolidated financial statements.

### **4.1 Financial assets and liabilities**

#### **4.1.1 Cash and cash equivalents**

Cash and cash equivalents comprise cash in hand, term deposits with banks and short-term highly liquid financial investments that are readily convertible to known amounts of cash, are subject to insignificant risk of changes in value and have a maturity of three months or less from the date of acquisition.

#### **4.1.2 Marketable securities**

Marketable securities are classified on initial recognition based on the management's business model for managing those securities as set out below:

- Trading securities - financial assets purchased and held for the purpose of resale in the short term and measured at fair value. Interest, inflation indexation charges and gains or losses arising from measurement at fair value are recognized in profit or loss;
  
- Held-to-maturity securities - financial assets for which management has the ability and intent to hold until maturity. Held-to-maturity securities are initially recognized at acquisition cost and are carried at amortized cost using the effective interest rate method. Interest and inflation indexation charges are recognized in profit or loss;
  
- Available-for-sale securities - non-derivative financial assets that are classified as available-for-sale or that are not classified in any other category. Available-for-sale securities are measured at fair value. Interest and inflation indexation charges are recognized in profit or loss; and gains or losses arising from measurement at fair value are recognized within other comprehensive income, in the shareholders' equity and reclassified to profit or loss, in the periods when securities are sold.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **4.1.3 Trade receivables**

Trade receivables are initially measured at the fair value of the consideration to be received and, subsequently, at amortized cost using the effective interest rate method and adjusted for credit losses.

The Company recognizes a provision for impairment of trade receivables when there is evidence that some of its accounts receivable are uncollectible, due to insolvency, defaults or to a significant probability of a debtor filing for bankruptcy.

### **4.1.4 Loans and financing (Debt)**

Loans and financing are initially recognized at fair value less transaction costs incurred and, after initial recognition, are measured at amortized cost using the effective interest rate method.

### **4.1.5 Derivative financial instruments and hedge operations**

Derivative financial instruments are recognized in the statement of financial position as assets or liabilities and are measured at fair value.

The gains or losses arising from measurement at fair value of derivative instruments, other than hedging relationships qualified for hedge accounting are recognized in profit or loss as a finance income (finance expense).

In hedging relationships which qualify for cash flow hedge accounting, gains or losses relating to the effective portion of the hedge are recognized within other comprehensive income, in the shareholders' equity and reclassified to profit or loss in the periods when the hedged item affects profit or loss. The gains or losses relating to the ineffective portion are recognized in profit or loss.

## **4.2 Inventories**

Inventories are determined by the weighted average cost method and comprise:

- Raw material - mainly comprises crude oil and is stated at the lower of the average cost of crude oil production and imports, and their net realizable value;
  
- Products - comprise oil products and biofuels, and are stated at the lower of the average refining or purchase costs and their net realizable value;
  
- Maintenance materials and supplies – comprise materials and supplies used in the operation of the Company and consumed, other than raw material, and are stated at the average purchase cost, not exceeding replacement cost.

Net realizable value is the estimated selling price of inventory in the ordinary course of business, less estimated cost of completion and estimated expenses to complete its sale.

Imports in transit are stated at the identified cost.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **4.3 Investments in other companies**

The Company accounts for its investments in jointly controlled entities and associates on which the Company has significant influence over the financial and operating policy decisions by applying the equity method of accounting.

### **4.4 Business combinations and goodwill**

The Company determines on a case-by-case basis whether a transaction is a business combination or an asset acquisition. Combinations of entities under common control are not accounted for as business combinations.

Assets acquired and liabilities assumed on a business combination are accounted for by applying the acquisition method, based on which assets and liabilities are measured at their acquisition-date fair values. The excess of the acquisition cost over the acquisition-date fair value of the net assets acquired (the net of the amounts of the identifiable assets acquired and the liabilities assumed) is recognized as goodwill in intangible assets. In the case of a bargain purchase, a gain is recognized in profit or loss when the acquisition cost is lower than the acquisition-date fair value of the net assets acquired.

Changes in ownership interest in subsidiaries that do not result in loss of control of the subsidiary are equity transactions. Any excess of the amounts paid/received over the carrying value of the ownership interest acquired/disposed is recognized in shareholders' equity as an additional paid in capital.

Goodwill arising from investments in associates and jointly controlled entities without change of control is accounted for as part of these investments. It is measured by the excess of the consideration transferred over the Company's interest in net assets' fair value.

#### **4.5 Oil and Gas exploration and development expenditures**

The costs incurred in connection with the exploration, appraisal, development and production of oil and gas are accounted for using the successful efforts method of accounting, as set out below:

- Costs related to geological and geophysical activities are expensed when incurred.

-Amounts paid, for obtaining concessions for exploration of oil and natural gas (capitalized acquisition costs) are initially capitalized.

-Costs directly associated with exploratory wells pending determination of proved reserves are capitalized within property, plant and equipment. Exploratory wells that have found oil and gas reserves, but those reserves cannot be classified as proved, continue to be capitalized if the well has found a sufficient quantity of reserves to justify its completion as a producing well and progress on assessing the reserves and the economic and operating viability of the project is under way. An internal commission of technical executives of Petrobras reviews these conditions monthly for each well, by analysis of geoscience and engineering data, existing economic conditions, operating methods and government regulations.

-Costs related to exploratory wells drilled in areas of unproved reserves are expensed when determined to be dry or non-economical (did not encounter potentially economic oil and gas quantities).

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

- Costs related to the construction, installation and completion of infrastructure facilities, such as platforms, pipelines, drilling of development wells and other related costs incurred in connection with the development of proved reserve areas and successful exploratory wells are capitalized within property, plant and equipment and depreciated from the commencement of production as described below.

### **4.6 Property, plant and equipment**

Property, plant and equipment are measured at the cost to acquire or construct, including all costs necessary to bring the asset to working condition for its intended use, adjusted during hyperinflationary periods, as well as by the present value of the estimated cost of dismantling and removing the asset and restoring the site and reduced by accumulated depreciation and impairment losses.

Rights over tangible assets to be used in the normal course of business, arising from transactions which transfer substantially all the risks and rewards incidental to ownership of the asset (finance leases) are initially recognized at the lower of the fair value of the assets or the present value of the minimum payments of the contract. Capitalized lease assets are depreciated on a systematic basis consistent with the depreciation policy the Company adopts for property, plant and equipment that are owned. Where there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, capitalized lease assets are depreciated over the shorter of the lease term or the estimated useful life of the asset.

Expenditures on major maintenance of industrial units and vessels are capitalized if the recognition criteria of IAS 16 are met. These comprise the cost of replacement assets or parts of assets, equipment assembly services, as well as other related costs. Such maintenance occurs, on average, every four years and the respective expenses are depreciated as production costs through the date of the beginning of the following stoppage.

Borrowing costs directly attributable to the acquisition or construction of qualifying assets are capitalized as part of the costs of these assets. Borrowing costs of funds borrowed generally

are capitalized based on the Company's weighted average of the cost of borrowings outstanding applied over the balance of assets under construction. Borrowing costs are amortized during the useful life or by applying the unit-of-production method to the related assets.

Depreciation, depletion and amortization of proved oil and gas producing properties are accounted for pursuant to the unit-of-production method applied to the depreciable amount of the asset as set out below:

i) Depreciation (amortization) of oil and gas producing properties, including related equipment and facilities is computed based on a unit-of-production basis over the proved developed oil and gas reserves, applied on a field by field basis;

ii) The straight-line method is used for other assets, such as assets with a useful life shorter than the life of the field or related to fields with different development stages; and

iii) Amortization of amounts paid for obtaining concessions for exploration of oil and natural gas of producing properties, such as signature bonus (capitalized acquisition costs) is recognized using the unit-of-production method, computed based on the units of production over the total proved oil and gas reserves, applied on a field by field basis.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

Estimates of reserves, prepared in manner consistent with U.S. Securities and Exchange Commission (SEC) definitions by the Company's technicians, are reviewed at least annually and on interim basis if material changes occur (for depreciation, depletion and amortization purposes).

Except for land (which is not depreciated), other property, plant and equipment are depreciated on a straight line basis. See note 11 for further information about the estimated useful life by class of assets.

### **4.7 Intangible assets**

Intangible assets are measured at the acquisition cost, less accumulated amortization and impairment losses and comprise rights and concessions, including the signature bonus paid for obtaining concessions for exploration of oil and natural gas (capitalized acquisition costs) and the Onerous Assignment Agreement, referring to the right to carry out prospection and drilling activities for oil, natural gas and other liquid hydrocarbons located in blocks in the pre-salt area ("Cessão Onerosa"); public service concessions; trademarks; patents; software and goodwill.

Signature bonuses paid for obtaining concessions for exploration of oil and natural gas and amounts related to the Onerous Assignment Agreement are initially capitalized within intangible assets and are transferred to property, plant and equipment upon recognition of proved reserves.

Signature bonuses and amounts related to the Onerous Assignment Agreement are not amortized until they are transferred to property, plant and equipment. Intangible assets with a finite useful life, other than amounts paid for obtaining concessions for exploration of oil and natural gas of producing properties, are amortized over the useful life of the asset on a straight-line basis.

Internally generated intangible assets other than development costs meeting recognition criteria (of IAS 38) are not capitalized and are expensed as incurred.

Intangible assets with an indefinite useful life are not amortized but are tested annually for impairment considering individual assets or cash-generating units. Their useful lives are reviewed annually to determine whether events and circumstances continue to support an indefinite useful life assessment for those assets. If they do not, the change in the useful life assessment from indefinite to finite is accounted for on a prospective basis.

#### **4.8 Impairment**

Property, plant and equipment and intangible assets with definite useful lives are tested for impairment when there is an indication that the carrying amount may not be recoverable. Assets related to exploration and development of oil and gas and assets that have indefinite useful lives, such as goodwill acquired in business combinations are tested for impairment annually, irrespective of whether there is any indication of impairment.

The impairment test comprises a comparison of the carrying amount of an individual asset or a cash-generating unit with its recoverable amount. Whether the recoverable amount of the unit is less than the carrying amount of the unit, an impairment loss is recognized to reduce the carrying amount to the recoverable amount. The recoverable amount of an asset or a cash-generating unit is the higher of its fair

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

value less costs of disposal and its value in use. Considering the specificity of the Company's assets, value in use is generally used by the Company for impairment testing purposes, except when specifically indicated.

Value in use is estimated based on the present value of the risk-adjusted (for specific risks) future cash flows expected to arise from the continuing use of an asset or cash-generating unit (based on assumptions that represent the Company's best estimates), discounted at a pre-tax discount rate. This rate is obtained from the Company's weighted average cost of capital post-tax (WACC). Cash flow projections are mainly based on the following assumptions: prices based on the Company's most recent strategic plan; production curves associated with existing projects in the Company's portfolio, operating costs reflecting current market conditions, and investments required for carrying out the projects.

For the impairment test, assets are grouped at the smallest identifiable group that generates largely independent cash inflows from other assets or group of assets (the cash-generating unit). Assets related to exploration and development of oil and gas are tested annually for impairment on a field by field basis.

Reversal of previously recognized impairment losses is permitted for assets other than goodwill.

### **4.9 Leases**

Leases in which the Company has substantially all the risks and rewards incidental to ownership are recognized as finance lease liabilities. When the Company is the lessor the finance lease is recognized as a receivable.

If a lease does not transfer all the risks and rewards, it is classified as an operating lease. Operating leases are recognized as expenses on a straight-line basis over the period of the lease.

#### **4.10 Decommissioning costs**

Decommissioning costs are future obligations to perform environmental restoration, dismantle and remove a facility as it terminates operations due to the exhaustion of the area or economic conditions. Costs related to the abandonment and dismantling of areas are recognized as part of the cost of an asset (associated with the obligation) based on the present value of the expected future cash outflows, discounted at a risk-free credit adjusted rate when a future obligation exists and can be reliably measured. A corresponding provision is recognized as a liability. Unwinding of the discount is recognized as a financial expense, when incurred. The asset is depreciated similarly to other assets, based on the class of the asset.

Future decommissioning costs for oil and natural gas producing properties are recognized on a field by field basis, when a field is declared to be commercial and are revised annually. Decommissioning costs related to proved developed oil and gas reserves are depreciated by applying the unit-of-production method, computed based on a unit-of-production basis over the proved developed oil and gas reserves, applied on a field by field basis.

#### **4.11 Income taxes**

Income tax expense for the period comprises current and deferred tax. The Company has adopted the Transition Tax Regime in Brazil (RTT) in accordance with Law 11,941/09 and therefore the taxable profit is computed based on the criteria of Law 6,404/76 before the amendments introduced by Law 11,638/07. Temporary differences arising from the Transition Tax Regime were recognized as deferred income taxes and liabilities.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

Taxable profit differs from accounting profit due to certain adjustments required by tax regulations. Temporary differences are differences between the tax base of an asset or liability and its carrying amount. Deferred income tax assets and liabilities are recognized for temporary tax differences, available tax losses and tax credits. Deferred tax assets are recognized only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized.

### **4.12 Employee benefits (Post-Employment)**

Actuarial commitments related to post-employment benefit plans and health-care plans are recognized as liabilities in the statement of financial position based on actuarial calculations which are revised annually by an independent actuary, using the projected unit credit method, net of the fair value of plan assets, when applicable, out of which the obligations are to be directly settled. The increases in the present value of the obligation resulting from employee service in the current period are recognized in profit or loss.

Under the projected credit unit method, each period of service gives rise to an additional unit of benefit entitlement and each unit is measured separately to determine the final obligation.

Actuarial gains and losses arising from changes in actuarial assumptions and experience adjustments are recognized over the expected average remaining working lives of the employees participating in each plan, in accordance with the corridor method.

Actuarial assumptions related to the variables that will determine the ultimate cost of providing post-retirement benefits include biological and economic assumptions, medical costs estimates, as well as historical data related to expenses incurred and employee contributions.

The Company also contributes amounts to defined contribution plans, that are expensed when incurred and are computed based on a percentage over salaries.

#### **4.13 Share Capital and Stockholders' Compensation**

Share capital comprises common shares and preferred shares. Incremental costs directly attributable to the issue of new shares or options are classified as additional paid in capital and shown (net of tax) in shareholders' equity as a deduction from the proceeds.

Preferred shares have priority on returns of capital and dividends, which are based on the higher amount of 3% over the net book value of shareholders equity for preferred shares, or 5% of the share capital for preferred shares. Preferred shares do not grant any voting rights; are non-convertible into common shares and participate under the same terms as common shares, in capital increases resulting from the capitalization of reserves and profits.

Dividend distribution comprises dividends and interest on capital determined in accordance with the limits defined in the Company's bylaws.

Interest on capital is a form of dividend distribution which is deductible for tax purposes in Brazil. Tax benefits from the deduction of interest on capital are recognized in profit or loss.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **4.14 Government grants**

A government grant is recognized when there is reasonable assurance that the grant will be received and the Company will comply with the conditions attached to the grant.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Company recognizes the related costs which they are intended to compensate as expenses. Government grants related to assets are initially recognized as deferred income and thereafter are transferred to profit or loss over the useful life of the asset on a straight-line basis.

### **4.15 Recognition of revenue, costs and expenses**

Revenue is recognized when it is probable that the economic benefits associated with the transaction will flow to the Company and the amount of revenue and the costs incurred or to be incurred in the transaction can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable for products sold and services provided in the normal course of business, net of returns, discounts and sales taxes.

Revenue from the sale of crude oil and oil products, petrochemical products, natural gas, biofuels and other related products are recognized when the Company retains neither continuing managerial involvement nor effective control over the products sold and the significant risks and rewards of ownership have been transferred to the customer, which is usually when legal title passes to the customer, pursuant to the terms of the sales contract. Sales revenues from freight and other services provided are recognized based on the stage of completion of the transaction.

Finance income and expense mainly comprise interest income on financial investments and government bonds, interest expense on debt, gains and losses on marketable securities

measured at fair value, as well as net exchange and inflation indexation charges. Finance expense does not include borrowing costs directly attributable to the construction of assets that necessarily take a substantial period of time to become operational, which are capitalized as part of the costs of these assets.

Revenue, costs and expenses are recognized on the accrual basis.

#### **4.16 New standards and interpretations**

New standards and amendments to standards and interpretations issued by the International Accounting Standards Board (IASB) effective for annual periods beginning on January 1, 2012, none of which had a significant effect on the consolidated financial statements for 2012, are set out below:

-Amendments to IFRS 7: “Disclosures: Transfers of Financial Assets”.

-Amendments to IAS 12 – “Deferred Tax Recovery of Underlying Assets”. It establishes criteria for calculating the tax base of an asset.

**Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

A number of new standards and amendments to standards and interpretations issued by the International Accounting Standards Board (IASB) are effective for annual periods beginning after January 1, 2012 as set out below. They have not been applied in preparing these consolidated financial statements at December 31, 2012.

<b>Standards</b>	<b>Brief description</b>	<b>Effective Date (*)</b>
	'Financial statement presentation', regarding other comprehensive income	
Amendment to IAS 1	Requires for entities to group items presented in 'other comprehensive income' (OCI) on the basis of whether they are potentially reclassifiable to profit or loss subsequently (reclassification adjustments). "Employee Benefits"	January 1, 2013
Amendments to IAS 19	Eliminates the corridor method for recognizing actuarial gains or losses, and require the calculation of finance costs on a net funding basis. Simplifies the presentation of changes in assets and liabilities of defined benefit plans and expands the disclosure requirements. "Consolidated Financial Statements"	January 1, 2013
IFRS 10	Defines principles and requirements for the preparation and presentation of consolidated financial statements when an entity controls one or more other entities. Establishes the concept of control as the basis for consolidation and sets out how to apply the principle of control to identify whether an investor controls an investee and therefore must consolidate the investee.	January 1, 2013
IFRS 11	"Joint Arrangements"	January 1, 2013
	Establishes principles for disclosure of financial statements of entities that are parties of joint agreements. There are two types of joint arrangement: joint operations and joint ventures. Joint operations arise where a joint operator has rights to the assets and obligations relating to the arrangement and hence accounts for its interest in assets, liabilities, revenue and	

expenses.

Joint ventures arise where the joint operator has rights to the net assets of the arrangement and hence equity accounts for its interest. Proportional consolidation of joint ventures is no longer allowed.

“Disclosure of Interests in Other Entities”

IFRS 12	Consolidates all the requirements of disclosures that an entity should carry out when participating in one or more entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. “Fair Value Measurement”	January 1, 2013
IFRS 13	Provides a precise definition of fair value; explains how to calculate it (one single source of measurement); and determines what must be disclosed. The requirements do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards. “Disclosures – Offsetting Financial Assets and Financial Liabilities”	January 1, 2013
Amendments to IFRS 7	Establishes disclosure requirements for compensation agreements of financial assets and liabilities. “Separate financial statements”	January 1, 2013
IAS 27 (revised 2011)	Includes the provisions on separate financial statements that are left after the control provisions of IAS 27 have been included in the new IFRS 10. “Associates and joint ventures”	January 1, 2013
IAS 28 (revised 2011)	Includes the requirements for joint ventures, as well as associates, to be equity accounted following the issue of IFRS 11. “Financial instruments” and Amendments	January 1, 2013
IFRS 9	IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on the entity’s business model and the contractual cash flow characteristics of the financial asset. The guidance in IAS 39 on impairment of financial assets and hedge accounting continues to apply. The Amendment postpones the date of enforcement from 2013 to 2015. Also eliminates the requirement for republication of comparative information and requires additional disclosures about the transition to IFRS 9.	January 1, 2015

(\* ) Effective for annual periods beginning on or after these dates.

**Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

The estimated impact that initial application of Amendments to IAS 19 is expected to have, due to the elimination of the corridor method (which allowed companies to defer actuarial gains and losses) is an increase of US\$ 10.3 billion in our net actuarial liability, as well as a corresponding increase of US\$ 3 billion in our deferred tax assets and a decrease of US\$ 7.3 billion in our shareholders' equity.

None of the other amendments and new standards listed above is expected to have a significant effect on the consolidated financial statements.

**5 Cash and cash equivalents**

	<b>2012</b>	<b>2011</b>
<b>Cash at bank and in hand</b>	990	1,989
<b>Short-term financial investments</b>		
- <i>In Brazil</i>		
Single-member funds (Interbank Deposit)	8,118	5,492
Other investment funds	419	2,279
	<b>8,537</b>	<b>7,771</b>
- <i>Abroad</i>	3,993	9,297
Total financial investments	<b>12,530</b>	<b>17,068</b>
<b>Total cash and cash equivalents</b>	<b>13,520</b>	<b>19,057</b>

Short-term financial investments in Brazil comprise single-member funds mainly composed by Brazilian Federal Government Bonds and, therefore, are considered cash and cash equivalents.

Short-term financial investments abroad comprise time deposits that have maturities of three months or less and other short-term fixed income instruments from highly-ranked financial institutions.

**Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)***6 Marketable securities**

	<b>2012</b>	<b>2011</b>

### **9 Other information about investments**

#### **Signing of settlement agreement – Pasadena Refinery**

On June 29, 2012, the Company entered into an out-of-court settlement to terminate all existing lawsuits between its subsidiaries and Belgium's Transcor/Astra Group, which controls Astra Oil Trading NV (Astra), including those related to the arbitration process which, in April 2009, recognized the exercise of Astra's put option for its stake (50%) in Pasadena Refining System Inc and PRSI Trading Company to Petrobras America S.A. - PAI.

The amount of US\$ 70 was recognized in profit or loss in the second quarter of 2012, and the remaining portion had been recognized in prior periods. The total determined in the agreement was US\$ 820.5.

After the execution of the settlement agreement and the payment of the respective amount (paid when the agreement was signed), both parties gave full and general release of all issues under dispute between them.

#### **Fair Value Appraisal of GBD**

The appraisal of the fair value of the assets acquired and the liabilities assumed from the subsidiary Gás Brasileiro Distribuidora S.A. – GBD was concluded in June 2012. Petrobras Gás S.A. - Gaspetro acquired 100% of GBD's shares in 2011. This appraisal resulted in a purchase price allocation of the total amount (US\$ 280) to intangible assets (US\$ 209) and other assets and liabilities, net (US\$ 71). Therefore, no goodwill was recognized.

**11.3 Impairment of assets**

In 2012 the Company recognized impairment losses relating primarily to mature producing fields in Brazil (US\$ 143) and to the review of the cash flows expected to be generated by the U.S. Pasadena Refinery operations (US\$ 225).

Reversals of impairment were recognized in 2012 as the assessments revealed that impairment losses recognized in prior periods related to certain oil and gas fields in Brazil (US\$ 109) and in the Suape Petrochemical complex (US\$ 134) decreased or no longer exist.

## **12.2 Concession for exploration of oil and natural gas - Onerous Assignment Agreement (“Cessão Onerosa”)**

At December 31, 2012, the Company’s intangible assets include US\$ 36,608 related to the Onerous Assignment agreement, entered into in 2010 by Petrobras, the Federal Government (assignor) and the Agência Nacional de Petróleo, Gás Natural e Biocombustíveis - ANP (regulator and inspector), granting the Company the right to carry out prospection and drilling activities for oil, natural gas and other liquid hydrocarbons located in blocks in the pre-salt area (Franco, Florim, Nordeste de Tupi, Entorno de Iara, Sul de Guará e Sul de Tupi), limited to the production of five billion barrels of oil equivalent in up to 40 years and renewable for a further five years upon certain conditions having been met.

The agreement establishes that at the time of the declaration of commerciality for the reserves there will be a review of volumes and prices, based on independent technical appraisal reports.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

If the review determines that the value of acquired rights are greater than initially paid, the Company may be required to pay the difference to the Federal Government, or may proportionally reduce the total volume of barrels acquired in the terms of the agreement. If the review determines that the value of the acquired rights are lower than initially paid by the Company, the Federal Government will reimburse the Company for the difference by delivering cash or bonds, subject to budgetary regulations.

Once the effects of the aforementioned review become probable and can be reliably measured, the Company will make the respective adjustments to the purchase prices of the rights.

The agreement also establishes a compulsory exploration program for each one of the blocks and minimum commitments related to the acquisition of goods and services from Brazilian suppliers in the exploration and development stages, which will be subject to certification by the ANP. In the event of non-compliance, the ANP may apply administrative sanctions pursuant to the terms in the agreement.

In compliance with the exploration program, in 2012 the Company concluded the drilling of four wells in the Onerous Assignment, confirming the potential for hydrocarbon resources in the area. The Company will continue to develop its investment program and activities as established in the agreement.

### **12.3 Exploration rights returned to Agência Nacional de Petróleo, Gás Natural e Biocombustíveis (ANP)**

Exploration areas returned to ANP in 2012, in the amount of US\$ 113 (US\$ 84 in 2011) are set out below.

- **Exclusive Concession Blocks (Petrobras):**

Espírito Santo Basin: ES-M-466;

Santos Basin: S-M-415, S-M-675; S-M-506; S-M-1358; S-M-1482; BM-S-17;

Potiguar Basin: POT-T-515; POT-T-560; POT-T-600; POT-T-602;

Sergipe Alagoas Basin: SEAL-T-252 e SEAL-T-253;

Recôncavo Baiano Basin: REC-T-209.

- **Blocks in partnership (returned by Petrobras or by its operators):**

Campos Basin: C-M-103; C-M-151;

Espírito Santo Basin: ES-T-410;

Santos Basin: S-M-330, S-M-322; S-M-508, S-M-1476; BM-S-22;

Potiguar Basin: POT-T-608; POT-T-556, POT-T-601; POT-T-564;

Potiguar Offshore Basin: BM-POT-13;

Pará-Maranhão Basin: PAMA-M-187.

#### **12.4 Oil and Gas fields operated by Petrobras returned to ANP**

No oil and gas fields were returned to ANP in 2012.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **12.5 Service concession agreement - Distribution of piped natural gas**

At December 31, 2012, intangible assets include service concession agreements related to piped natural gas distribution in Brazil, in the amount of US\$ 244 maturing between 2029 and 2043, which may be extended. According to the agreements, distribution service can be provided to industrial, residential, commercial, automotive, air conditioning, transport, and other sectors.

The consideration receivable is a factor of a combination of operating costs and expenses and returns on capital invested. The rates charged for gas distribution are subject to periodic reviews by the state regulatory agency.

The agreements establish an indemnity clause for investments in assets which are subject to return at the end of the service agreement, to be determined based on evaluations and appraisals.

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)***13 Exploration for and Evaluation of Oil and Gas Reserves**

The exploration and evaluation activities include the search for oil and gas from obtaining the legal rights to explore a specific area until the declaration of the technical and commercial viability of the reserves.

Movements on capitalized costs directly associated with exploratory wells pending determination of proved reserves and the balance of amounts paid for obtaining rights and concessions for exploration of oil and natural gas (capitalized acquisition costs) are set out in the table below:

<b>Capitalized Exploratory Well Costs / Capitalized Acquisition Costs (*)</b>	<b>2012</b>	<b>2011</b>
<b>Property plant and equipment</b>		
<b>Balance at January 1</b>	<b>10,120</b>	<b>7,742</b>
Additions to capitalized costs pending determination of proved reserves	6,640	6,258
Capitalized exploratory costs charged to expense	(2,782)	(1,391)
Transfers upon recognition of proved reserves	(2,628)	(1,612)
Cumulative translation adjustment	(701)	(877)
<b>Balance at December 31</b>	<b>10,649</b>	<b>10,120</b>
<b>Intangible Assets (**)</b>	<b>37,968</b>	<b>41,671</b>
<b>Capitalized Exploratory Well Costs / Capitalized Acquisition Costs</b>	<b>48,617</b>	<b>51,791</b>

(\*) Amounts capitalized and subsequently expensed in the same period have been excluded from the table above.

(\*\*) The balance of intangible assets comprises mainly the amounts related to the Onerous Assignment Agreement (note 12.2).

Exploration costs recognized in profit or loss and cash used in oil and gas exploration and evaluation activities are set out in the table below:

<b>Exploration costs recognized in profit or loss</b>	<b>2012</b>	<b>2011</b>	<b>2010</b>
Geological and Geophysical Expenses	1,022	1,024	80
Exploration expenditures written off (includes dry wells and signature bonuses)	2,847	1,480	1,23
Other exploration expenses	89	101	17
<b>Total expenses</b>	<b>3,958</b>	<b>2,605</b>	<b>2,19</b>
<b>Cash used in activities</b>	<b>2012</b>	<b>2011</b>	<b>2010</b>
Operating activities	1,139	1,107	83
Investment activities	6,640	6,258	9,36
<b>Total cash used</b>	<b>7,779</b>	<b>7,365</b>	<b>10,20</b>

**Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)***13.1 Aging of Capitalized Exploratory Well Costs**

An aging of the number of wells and the capitalized exploratory well costs based on the drilling completion date, as well as the number of projects for which exploratory well costs have been capitalized for a period greater than one year are set out in the table below:

**Aging of capitalized exploratory well costs (\*)**

	<b>2012</b>	<b>2011</b>
Capitalized exploratory well costs that have been capitalized for a period of one year	4,219	3,16
Capitalized exploratory well costs that have been capitalized for a period greater than one year	6,430	6,95
<b>Ending balance</b>	<b>10,649</b>	<b>10,12</b>
<b>Number of projects that have exploratory well costs that have been capitalized for a period greater than one year</b>	<b>145</b>	<b>9</b>

(\*) Amounts paid for obtaining rights and concessions for exploration of oil and natural gas (capitalized acquisition costs) are not included.

	<b>In thousand (US\$)</b>	<b>Number of wells</b>
2011	2,213	62
2010	1,083	24
2009	1,012	34
2008	590	11
2007 and previous years	1,531	18
<b>Ending balance</b>	<b>6,430</b>	<b>149</b>

Of the amount of US\$ 6,430 for 145 projects that include wells suspended for more than one year since the completion of drilling, US\$ 1,741 are related to wells in areas for which drilling was under way or firmly planned for the near future and US\$ 4,543 are related to costs incurred to assess the reserves and their potential development.

Other non-current liabilities		213
	<b>25,213</b>	<b>35,526</b>

**17.2 Receivables from the electricity sector**

At December 31, 2012, the Company had a total amount of US\$ 1,937 (US\$ 1,958 at December, 31, 2011) of receivables from the Brazilian electricity sector, of which US\$ 1,640 were classified as non-current assets after negotiations held during the year.

The Company supplies fuel to thermoelectric power plants located in the northern region of Brazil, which are direct or indirect subsidiaries of Eletrobras, the Federal Government electric

energy company. Part of the costs for supplying fuel to these thermoelectric power stations is borne by the Fuel Consumption Account (Conta de Consumo de Combustível - CCC), managed by Eletrobras.

The Company also supplies fuel to Independent Power Producers (Produtores Independentes de Energia - PIE), which are companies created for the purpose of generating power exclusively for Amazonas Distribuidora de Energia S.A. - AME, a direct subsidiary of Eletrobras. The payment of amounts related to the fuel supplied is borne by AME, which transfers funds to the Independent Power Producers.

The balance of these receivables at December 31, 2012 was US\$ 1,723 (US\$ 1,715 at December 31, 2011), of which US\$ 1,451 was past due (US\$ 1,415 at December 31, 2011).

The Company has been using all available resources in order to recover these receivables and, following negotiations, Petrobras received US\$ 494 on October 1, 2012 from AME.

The Company also has electricity supply contracts with AME signed in 2005 by its subsidiary Breitener Energética S.A., which, pursuant to the terms of the agreements, are considered a financial lease of the two thermoelectric power plants. The contracts determine the power plants be returned to AME at the end of the agreement period with no residual value (20-year term). The balance of these receivables was US\$ 214 (US\$ 243 at December, 31, 2011) none of which was overdue.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **17.3 Petroleum and Alcohol accounts - Receivables from Federal Government**

At December 31, 2012, the balance of receivables related to the Petroleum and Alcohol accounts was US\$ 409 (US\$ 444 at December 31, 2011). Pursuant to Provisional Measure 2,181 of August 24, 2001, the Federal Government may settle this balance by using National Treasury Notes in an amount equal to the outstanding balance, or allow the Company to offset the outstanding balance against amounts payable to the Federal Government, including taxes payable, or both options.

The Company has provided all the information required by the National Treasury Secretariat (Secretaria do Tesouro Nacional - STN) in order to resolve disputes between the parties and conclude the settlement with the Federal Government.

Following several negotiation attempts at the administrative level, the Company decided to file a lawsuit in July 2011 related to collect the receivables.

**Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

**17.4 Compensation of employees and officers**

The criteria for compensation of employees and officers are established based on the current labor legislation and the Company's policies related to Positions, Salaries and Benefits.

The compensation of employees (including those occupying managerial positions) and officers in the month of December 2012 and December 2011 were:

<b>Amounts refer to monthly compensation in U.S. dollars</b>	<b>2012</b>	<b>2011</b>
<b>Compensation per employee</b>		
Lowest compensation	1,118.64	1,102.12
Average compensation	5,631.54	5,799.06
Highest compensation	33,233.06	36,743.69
<b>Compensation per officer of Petrobras (highest)</b>	<b>41,415.24</b>	<b>44,253.39</b>

Petrobras' key management compensation (which comprises salaries and other short-term benefits) during 2012 was US\$ 6.0 (US\$ 7.3 in 2011, referring to seven officers and nine board members). At December 31, 2012 the Company had seven officers and ten board members.

In 2012 the compensation of board members and officers for the consolidated Petrobras group amounted to US\$ 29 (US\$ 26.8 in 2011).

As established in Brazilian Federal Law 12,353/2010, the Board of Directors of Petrobras is now composed of ten members, after the employees' representative was confirmed in the Annual General Meeting of March 19, 2012.

**Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)***b) Timing of reversal of deferred income taxes**

Management considers that the deferred tax assets will be recovered as provisions are settled and future events occur, both based on estimates that have been made.

The estimated recovery / reversal dates of net deferred tax assets (liabilities) recoverable (payable) is set out in the table below:

	<b>Deferred income tax</b>	
	<b>Assets</b>	<b>Liabilities</b>
2013	1,926	1,623
2014	464	1,291
2015	530	1,238
2016	496	1,124
2017	959	1,497
2018	165	1,215
2019	121	1,086
2020 and thereafter	865	10,139
Deferred tax credits recognized	5,526	19,213
Deferred tax credits not recognized	2,122	-
<b>Total</b>	<b>7,648</b>	<b>19,213</b>

At December 31, 2012, the Company had unused tax credits, for which no deferred tax assets have been recognized, in the amount of US\$ 2,122 (US\$ 833 at December 31, 2011) resulting from net operating tax losses mainly from oil and gas exploration and production activities in the United States in the amount of US\$ 1,329 (US\$ 639 at December 31, 2012) subject to a 20-year statute of limitations from the recognition of the losses based on the date the losses were recognized.

**Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)***19.3 Reconciliation between tax expense and accounting profit**

A numerical reconciliation between tax expense and the product of “income before income taxes” multiplied by the applicable statutory corporation tax rates is set out in the table below:

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Income before taxes	14,493	26,724	27,274
Income taxes computed based on Brazilian Statutory Corporation Tax Rates (34%)	(4,928)	(9,089)	(9,272)
Adjustments between Income Taxes based on Statutory Rates and on the Effective Tax Rate:			
· Tax benefits from the deduction of interest on capital from income	1,612	2,123	1,985
· Results of Companies abroad subject to different tax rates	335	422	339
· Tax incentives	58	220	89
· Carry-forward of tax losses	(341)	(345)	(47)
· Non-deductible expenses, net*	(559)	(268)	(119)
· Tax credits of companies abroad in the exploration stage	(2)	-	(18)
· Others	263	205	218
Income taxes expense	<b>(3,562)</b>	<b>(6,732)</b>	<b>(6,825)</b>
Deferred income taxes	(2,254)	(3,599)	(3,286)
Current income taxes	(1,308)	(3,133)	(3,539)
	<b>(3,562)</b>	<b>(6,732)</b>	<b>(6,825)</b>

Effective Tax Rate	24.6%	25.2%	25.0%
--------------------	-------	-------	-------

\* It includes share of profit of equity-accounted investments.

**Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)***20 Employee benefits (Post-Employment)**

The carrying amounts of employee benefits (post-employment) are set out below:

	<b>2012</b>	<b>2011</b>
<b>Liabilities</b>		
Pension benefits	3,009	2,697
Medical benefits	7,054	6,942
	<b>10,063</b>	<b>9,639</b>
<b>Current</b>	788	761
<b>Non-current</b>	9,275	8,878

The current balance relates to an estimate of the payments to be made in the next 12 months.

**20.1 Pension plans in Brazil - Defined benefit and variable contribution**

Fundação Petrobras de Seguridade Social (Petros) was established by Petrobras as a nonprofit legal entity under private law with administrative and financial autonomy.

**a) Petros Plan - Fundação Petrobras de Seguridade Social**

The Petros plan was established by Petrobras in July 1970 as a defined-benefit pension plan to provide post-retirement benefits for employees of the Company and its Brazilian subsidiaries in order to complement government social security benefits. The Petros Plan has been closed to new participants since September 2002.

Petros contracts with an independent actuary to perform an annual actuarial review of its costs using the capitalization method for most benefits. The employers (sponsors) make regular contributions in amounts equal to the contributions of the participants (active employees, assisted employees and retired employees), on a parity basis.

In the event an eventual deficit is determined, participants of the plan and employers (sponsors) shall cover this deficit, pursuant to Brazilian Law (Constitutional Amendment 20/1998 and Complementary Law 109/2001), on the basis of their respective proportions of regular contributions made to the plan during the year in which the deficit arose.

At December 31, 2012, the Terms of Financial Commitment (TFC), signed by Petrobras and Petros in 2008 comprise a balance of US\$ 3,073, including US\$ 185 related to interest expense due in 2013. The TCF are due in 20 years, with 6% p.a. semiannual coupon payments based on the updated balance. The carrying amount of US\$ 2,923 related to crude oil and oil products pledged as security for the TFC are presented within inventories and replaced the long-term National Treasury Notes that were previously held as collateral in July 2012.

The employers' expected contributions to the plan for 2013 are US\$ 450.

**Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

**b) Petros Plan 2 - Fundação Petrobras de Seguridade Social**

Petros Plan 2 was established in July 2007 by the Company as a variable contribution plan recognizing past service costs for contributions for the period (from August 2002 to August 29, 2007) in which the Petros Plan was closed and the participants did not have a pension plan, or for those admitted during this period. The plan is open to new participants although there will no longer be payments relating to past service costs.

Certain elements of the Petros Plan 2 have defined benefit characteristics, primarily the coverage of disability and death risks, the guarantee of a minimum defined benefit and annuity. These actuarial commitments are treated as defined benefit components of the plan and are accounted for by applying the projected unit credit method. Contributions paid for actuarial commitments that have defined contribution characteristics are recognized in profit or loss and are intended to constitute a reserve for programmed retirement. The contributions for the portion of the plan with defined contribution characteristics were US\$ 309 in 2012.

The defined benefit portion of the contributions has been suspended from July 1<sup>st</sup>, 2012 to June 30, 2013, as decided by the Deliberative Council of Petros, based on advice from by the actuarial consultants from Fundação Petros. Therefore, the entire contributions are being appropriated in the individual accounts of plan participants.

For 2013 the employers' expected contributions to the defined-benefit portion of the plan are US\$ 361.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **20.2 Pension plans abroad - Defined benefit**

The Company also sponsors pension plans of certain of its international subsidiaries, with defined contribution characteristics, including those in Argentina, Japan and other countries. Most of these plans are funded and their assets are held in trusts, foundations or similar entities governed by local regulations. The Company paid US\$ 8 in 2012 as contributions to these plans.

### **20.3 Pension Plans assets**

Pension plans assets follow a long term investment strategy to meet the assessed risk profile of each different class of asset and provide for diversification to lower portfolio risk. The portfolio must comply with the Brazilian National Monetary Council regulations. Portfolio targets for the period between 2013 and 2017 are 40% to 60% in fixed-income securities, 30% to 45% in variable-income securities, 3% to 8% in real estate, up to 15% in loans to participants, 4% to 12% in structured finance projects and up to 3% in investments abroad.

**The hierarchy of the fair values of the pension plan assets is set out below:**

Class of Asset	Prices quoted on an active market (Level 1)	Valuation supported by observable prices (Level 2)	2012		2011	
			Valuation without use of observable prices (Level 3)	Total fair value (Levels 1, 2 and 3)	Total fair value (Levels 1, 2 and 3)	%
<b>Fixed income</b>	<b>9,906</b>	<b>2,963</b>	-	<b>12,869</b>	<b>12,474</b>	<b>47%</b>
Corporate bonds	-	2,894	-	2,894	3,772	
Government bonds	9,906	-	-	9,906	8,614	
Other investments	-	69	-	69	88	
<b>Variable income</b>	<b>8,004</b>	<b>1,695</b>	<b>2,942</b>	<b>12,641</b>	<b>12,102</b>	<b>46%</b>
Common and Preferred Shares	8,004	-	-	8,004	6,943	
Private Equity funds	-	1,169	2,941	4,110	5,081	
Other investments	-	526	1	527	78	
<b>Real Estate Properties</b>	-	-	<b>1,355</b>	<b>1,355</b>	<b>959</b>	<b>4%</b>
				<b>26,865</b>	<b>25,535</b>	<b>97%</b>
<b>Loans granted to Participants</b>				<b>819</b>	<b>768</b>	<b>3%</b>
				<b>27,684</b>	<b>26,303</b>	<b>100%</b>

At December 31, 2012, the investments include Petrobras' common and preferred shares in the amount of US\$ 355 and US\$ 237, respectively, and real estate properties rented by the Company in the amount of US\$ 174.

Loans to participants are measured at amortized cost, which is considered to be an appropriate estimate of fair value.

The real rate of return on investment expected, based on market expectations, is 5.56% p.a. for variable-income securities and structured investments, 3.75% p.a. for fixed-income securities and 4.02% p.a. for real estate properties and 6.0% p.a. for loans granted to participants, resulting in an average return of 4.6% p.a.

The hierarchy of the fair values of the pension plan assets is set out below:

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **20.4 Medical Benefits: Health Care Plan - Assistência Multidisciplinar de Saúde (“AMS”)**

Petrobras and its subsidiaries operate a medical benefit plan for employees in Brazil (active and inactive) and their dependents: the AMS health care plan. The plan is managed by the Company and the employees make fixed monthly contributions to cover high-risk procedures and variable contributions for a portion of the cost of other procedures, as established in the contribution table of the plan based on certain parameters, such as salary levels. The plan includes assistance towards the purchase of certain medicines in certain registered drugstores throughout Brazil.

There are no assets held as collaterals for the plan. Benefits are paid and recognized by the Company as incurred by the participants.

### **20.5 Net actuarial liabilities and expenses calculated by independent actuaries and fair value of plans assets**

Information regarding defined benefit plans, in Brazil and abroad, has been consolidated for presentation purposes as the actuarial assumptions are similar and total assets and liabilities regarding pension plans abroad are not significant.

All pension plans have deficits (excess of benefit liabilities over plan assets).

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **20.6 Other defined contribution plans**

Petrobras, through its subsidiaries in Brazil and abroad, also sponsors defined contribution employee retirement plans. Contributions paid in 2012, in the amount of US\$ 6 were recognized in profit or loss.

## **21 Profit sharing**

Profit sharing benefits comply with Brazilian legal requirements and those of the Brazilian Department of Coordination and Governance of State-Owned Enterprises (DEST), of the Ministry of Planning, Budget and Management, and by the Ministry of Mines and Energy, and are computed based on the consolidated income before profit sharing and non-controlling interests.

The company has recognized a profit sharing liability in the amount of US\$ 524 (US\$ 867 in 2011) pursuant to these regulations.

Profit sharing benefits for key management are subject to approval at the Annual General Meeting for 2013, in accordance with articles 41 and 56 of the Company's bylaws and Brazilian Federal regulations.

## **22 Shareholders' equity**

### **22.1 Share capital**

The hierarchy of the fair values of the pension plan assets is set out below:

At December 31, 2012, subscribed and fully paid share capital was US\$ 107,362, represented by 7,442,454,142 outstanding common shares and 5,602,042,788 outstanding preferred shares, all of which are registered, book-entry shares with no par value.

### **Capital increase with reserves in 2012**

The Extraordinary General Meeting, held jointly with the Annual General Meeting on March 19, 2012, approved a capital increase through capitalization of a portion of the profit reserve relating to tax incentives, recognized in 2011 in the amount of US\$ 7 (in compliance with article 35, paragraph 1, of Ordinance 2,091/07 of the Ministry for National Integration), without issue of new shares (pursuant to article 169, paragraph 1, of Law 6,404/76). Share capital increased from US\$ 107,355 to US\$ 107,362.

### **Capital increase with reserves in 2013**

A proposal will be made to the Extraordinary General Meeting, to be held jointly with the Annual General Meeting in 2013 to increase capital through capitalization of a portion of the profit reserve for tax incentives established in 2012, of US\$ 9. Share capital will increase from US\$ 107,362 to US\$ 107,371.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **22.2 Additional paid in capital**

#### ***a) Incremental costs directly attributable to the issue of new shares***

These include any transaction costs directly attributable to the issue of new shares, net of taxes. The amount of US\$ 279, net of taxes, relating to incremental costs directly attributable to the global offering of new shares was recognized in 2010.

#### ***b) Change in interest in subsidiaries***

These include any excess of amounts paid/received over the carrying value of the interest acquired/disposed. Changes in ownership interest in subsidiaries that do not result in loss of control of the subsidiary are equity transactions.

### **22.3 Profit reserves**

#### ***a) Legal reserve***

The legal reserve represents 5% of the net income for the year, calculated pursuant to article 193 of the Brazilian Corporation Law.

#### ***b) Statutory reserve***

The statutory reserve is appropriated by applying a minimum of 0.5% of the year-end share capital and is retained to fund technology research and development programs. The balance

The hierarchy of the fair values of the pension plan assets is set out below:

of this reserve may not exceed 5% of the share capital, pursuant to article 55 of the Company's bylaws.

**c) *Tax incentives reserve***

Government grants are recognized in profit or loss and are appropriated from retained earnings to the tax incentive reserve in the shareholders' equity pursuant to article 195-A of Brazilian Corporation Law. This reserve may only be used to offset losses or increasing share capital.

In 2012, government grants of US\$ 9 related to reinvestments, using income taxes benefits, for the development of the Northeast of Brazil (Superintendências de Desenvolvimento do Nordeste – SUDENE) and the Amazon region (SUDAM) were appropriated from profit or loss.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **d) Profit retention reserve**

Profit retention reserve shields funds intended for capital expenditures, primarily in oil and gas exploration and development activities, included in the capital budget of the Company, pursuant to article 196 of the Brazilian Corporation Law.

A retention of US\$ 4,864, of which US\$ 4,858 from 2012 profit and US\$ 6 appropriated from retained earnings, was allocated to the annual investment program in the 2013 capital budget, which will be proposed and voted at the 2013 Annual General Meeting.

## **22.4 Accumulated other comprehensive income**

### **a) Cumulative translation adjustment**

This account comprises all exchange differences arising from the translation of the consolidated financial statements from the functional currency into the presentation currency, recognized as cumulative translation adjustments (CTA) within Accumulated other comprehensive income.

### **b) Other comprehensive income**

This account comprises gains or losses arising from measurement at fair value of available-for-sale financial assets and cash flow hedges.

## **22.5 Dividends**

The hierarchy of the fair values of the pension plan assets is set out below:

Shareholders are entitled to receive minimum mandatory dividends (and/or interest on capital) of 25% of the adjusted net income for the year proportional to the number of common and preferred shares, pursuant to Brazilian Corporation Law.

Preferred shares have priority in case of capital returns and dividend distribution, which is based on the higher of 3% of the preferred shares' net book value, or 5% of the preferred share capital.

Dividends for 2012 of US\$ 4,499 are to be voted at the 2013 Annual General Meeting and are consistent with the rights granted to preferred shares in the bylaws of the Company and to the minimum mandatory dividend for common shares. Dividends proposed for 2012 represent 44.73% of the adjusted net income in Brazilian Reais (adjusted in accordance with Brazilian Corporation Law), as 3% of the book value of shareholders' equity regarding preferred shares stake was higher than the minimum mandatory dividend (25% of the adjusted net income for the year).

An equal amount of dividends for common and preferred shares was proposed and approved in 2011 and represented 38.25% of the adjusted net income in Brazilian Reais, as 3% of the book value of shareholders' equity regarding preferred shares stake was higher than the minimum mandatory dividend.

**Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

Dividends proposed for 2012 comprise interest on capital of US\$ 4,499 and were approved by the Board of Directors, as set out below:

Payment	Date of approval by Board of Directors	Date of Record	Date of Payment	Common Share		Prefe
				Amount	Amount per Share (Pre-Tax)	Amou
1st payment of interest on capital	04.27.2012	05.11.2012	05.31.2012	817	0.11	6
2nd payment of interest on capital	02.04.2013			983	0.13	2,0
				1,800	0.24	2,6

Interim distributions of interest on capital in 2012 will be deducted from the distribution to be made at the close of fiscal year 2012 and indexed based on the SELIC rate from the date of payment to December 31, 2012. The remaining amount of interest on capital will be indexed based on the SELIC rate from December 31, 2012 to the date of payment, which will be voted at the 2013 Annual General Meeting.

Interest on capital is subject to a withholding income tax rate of 15%, except for shareholders that are declared immune or exempt, pursuant to Law 9,249/95. Interest on capital is a form of dividend distribution, which is deductible for tax purposes in Brazil and is included in the dividend distribution for the year, as established in the Company's bylaws. The tax credit from the deduction of interest on capital is recognized in profit or loss. An amount of US\$ 1,530 was recognized in 2012 (US\$ 2,064 in 2011) relating to tax benefits from the deduction of interest on capital. For accounting purposes, shareholders' equity is reduced in a manner similar to a dividend, pursuant to CVM Deliberation 207/96.

### **27 Provisions for Legal Proceedings, Contingent Liabilities and Contingent Assets**

The Company is a defendant in numerous legal proceedings involving tax, civil, labor, corporate and environmental issues. Based on legal advice and management's best estimates, the Company reviews whether it is probable that an outflow of resources embodying economic benefits will be required to set the obligations.

#### **27.1 Provisions for legal proceedings**

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Significant proceedings, for which the Company has recognized a provision, mainly include: (i) withholding of income taxes for securities issued outside Brazil; (ii) losses and damages resulting from the cancellation of an assignment of excise tax (IPI) credits to a third party; and (iii) fishermen seeking indemnification from the Company for a January 2000 oil spill in the State of Rio de Janeiro.

In addition, the Federal Public Attorney's Office and the Public Attorney's Office of the State of Paraná filed lawsuits against Petrobras demanding compensation for moral damages, financial damages and environmental recovery due to oil spillages: (i) in Terminal São Francisco do Sul – Refinaria Presidente Vargas, on July 16, 2000, for which a provision was recognized in 2011 and its updated amount at December 2012 is US\$ 34; and (ii) in the Araucária – Paranaguá pipeline (OLAPA), at the headwaters of Rio do Meio, in the town of Morretes – State of Paraná, on February 16, 2001. This legal proceeding resulted in a settlement agreement signed on April 26, 2012, for which a provision was recognized in March, 2012 in the amount of US\$ 52, US\$ 46 of which were paid in May, 2012 and US\$ 6 are still recognized as a provision, in order to support the expenses to recover the area.

The hierarchy of the fair values of the pension plan assets is set out below:

The Company has provisions for legal proceedings, in the amounts set out below:

<b>Non-current liabilities</b>	<b>2012</b>	<b>2011</b>
Labor claims	336	194
Tax claims	341	354
Civil claims	514	480
Environmental Claims	63	44
Other claims	11	16
	<b>1,265</b>	<b>1,088</b>

**Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

A brief description of the nature of the main contingent liabilities (tax and civil) are set out in the tables below:

**a) Tax Proceedings****Plaintiff: Secretariat of the Federal Revenue of Brazil**

1) Deduction of expenses from the renegotiation of the Petros Plan from the calculation basis of income tax (IRPJ) and social contribution (CSLL) and penalty charged. Current status: Awaiting the hearing of an appeal at the administrative level.	2,124
2) Profits of subsidiaries and associates domiciled abroad in the years of 2005, 2006, 2007 and 2008 not included in the calculation basis of IRPJ and CSLL. Current status: Awaiting the hearing of an appeal at the administrative level.	1,661
3) Deduction from the calculation basis of IRPJ and CSLL of expenses incurred in 2007 related to employee benefits and Petros. Current status: This claim is being disputed at the administrative level.	804
4) Withhold income tax (IRRF) and Contribution of Intervention in the Economic Domain (CIDE) over remittances for payment of platforms' affreightment. Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights.	4,458
5) Non payment of CIDE on imports of naphtha. Current status: This claim is being discussed at the administrative level.	1,722
6) Non-payment of CIDE in the period from March 2002 until October 2003 in transactions with distributors and service stations that were holders of judicial injunctions that determined the sale of gas without the gross-up of such tax. Current status: Awaiting the hearing of an appeal in the Higher Chamber of Tax Appeals (CSRF).	713
7) Non-payment of tax on financial operations (IOF) over intercompany loans. Current status: Awaiting the hearing of an appeal at the administrative level.	1,763

The hierarchy of the fair values of the pension plan assets is set out below:

126

8) Withhold income tax (IRRF) over remittances abroad for payment of petroleum imports.  
Current status: Awaiting the hearing of an appeal at the administrative level. 1,871

**Plaintiff: State Finance Department of Rio de Janeiro**

9) ICMS on exit operations of liquid natural gas (LNG) without issuing a tax document in the ambit of the centralizing establishment.  
9) ICMS on exit operations of liquid natural gas (LNG) without issuance of tax document by the main establishment.  
Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights. 1,392

10) Dispute over ICMS tax levy in operations of sale of aviation jet fuel, as Decree 36.454/2004 was declared as unconstitutional.  
Current status: This claim is being disputed at the administrative level and the company has presented its defense. 793

**Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

*(Expressed in millions of US Dollars, unless otherwise indicated)*

**b) Civil Proceedings – General**

**Plaintiff: State Finance Department of São Paulo**

11) Dispute over ICMS tax levy on the importing of a drilling rig – temporary admission in São Paulo and clearance in Rio de Janeiro and a fine for breach of accessory obligations. Current status: One of the legal proceedings is in its administrative stage and the other one was submitted to judicial dispute, in which the Company has obtained a favorable decision.

2,084

**Plaintiff: Municipal governments of Anchieta, Aracruz, Guarapari, Itapemirim, Marataízes, Linhares, Vila Velha, Vitória and Maragogipe.**

12) Failure to withhold and collect tax on services provided offshore (ISSQN) in some municipalities located in the State of Espírito Santo, despite Petrobras having made the withholding and payment of these taxes to the municipalities where the respective service providers are established, in accordance with Complementary Law No. 116/03. Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights.

929

**Plaintiff: State Finance Departments of Rio de Janeiro and Sergipe**

13) Use of ICMS tax credits on the purchase of drilling bits and chemical products used in formulating drilling fluid. Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights.

462

14) Other tax proceedings

3,961

**Total for tax proceedings**

**24,737**

The hierarchy of the fair values of the pension plan assets is set out below:

128

**b) Civil Proceedings - General**

**Plaintiff: Agência Nacional de Petróleo, Gás Natural e Biocombustíveis - ANP**

1) Dispute on differences in the payment of special participation charge in fields of the Campos Basin.

In addition, the plaintiff is claiming fines for alleged non-compliance with minimum exploratory programs. Administrative proceedings are in course in connection with alleged irregularities in the platforms' measurement system.

Current status: This claim involves processes in different administrative and judicial stages, in which the

Company is taking legal actions to ensure its rights.

910

2) Other civil proceedings

1,509

**Total for civil proceedings**

**2,419**

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **c) Other Proceedings**

#### **Plaintiff: Porto Seguro Imóveis Ltda.**

On August 28, 2012, the Superior Court (STJ), unanimously upheld the special appeal filed by Petrobras, dismissing the plaintiff's claims. Porto Seguro Imóveis Ltda., a former minority shareholder of Petroquisa, filed a lawsuit related to alleged losses suffered as a result of the disposal of Petroquisa's interest in various petrochemical companies included in the National Privatization Program. Based on the aforementioned decision, the possibility of an outflow of resources related to this contingent liability, in the amount of US\$ 3,996 was reassessed as remote.

#### **27.4 Joint Ventures – Frade field**

In November 2011, there was an oil spillage in the Frade field operated by Chevron Brasil, located in the Campos basin. Chevron Brasil, Chevron Latin America Marketing LLC and Transocean Brasil Ltda are being sued for US\$ 10 billion in environmental damages by the federal public attorney's office. Transocean Brasil Ltda. operated the rig at Frade at the time of this spillage.

In April 2012, a new lawsuit was filed by the Federal Public Attorney's Office against Chevron and Transocean, due to new leaks on the seabed of the Frade field. In this suit the Federal Public Attorney's Office pleads to a further US\$ 10 billion as compensation for damages.

The assessment by the Company's lawyers is that the amounts claimed are not reasonable and are disproportionately high in relation to the extent of the damages caused. In the second lawsuit, as the oil was not identified on the surface, the existence of any actual damage to the community is inconceivable.

The hierarchy of the fair values of the pension plan assets is set out below:

Although the Company is not being sued, due to its 30% ownership interest in the Frade consortium, Petrobras may be contractually obliged to pay 30% of the total contingencies related to the incidents that occurred in the Frade field. In the event Chevron is held legally responsible, Petrobras may be contractually subject to the payment of up to 30% of the costs of the damages.

## **27.5 Contingent assets**

### **27.5.1 Recovery of maintenance/replacement costs – Barracuda & Caratinga**

In 2006, Petrobras, as representative of Barracuda & Caratinga Leasing Company B.V. (BCLC), pursuant to the provisions of EPC Contract, submitted a matter for arbitration in New York against Kellogg, Brown & Root, Inc – KBR, demanding payment of indemnification in the amount of approximately US\$ 220 million plus interest for the costs of monitoring and replacing defective stud bolts and anchor bolts incurred on subsea oilfield flowlines in the Barracuda and Caratinga field, under the contractual guarantee period as well as costs and expenses of the arbitration.

On September 21, 2011, the arbitration court awarded BCLC, as pleaded in the arbitration, the full amount of US\$ 166 (R\$ 339 million, as the damages were incurred in this currency) and condemned KBR to pay almost the entirety costs incurred by Petrobras in the arbitration, including internal costs, legal fees and other arbitration costs. After the decision, the Company recognized the amount of US\$ 166 as a non-current asset.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

In December 2012, Halliburton, as KBR guarantor, negotiated with BCLC to pay US\$ 218, in order to settle the arbitration. This amount was paid on January 11, 2013.

### **27.5.2 Recovery of PIS and COFINS**

Petrobras and its subsidiaries filed a civil suit against the Federal Government claiming to recover, through offsetting, amounts paid as taxes on financial revenue and exchange gains (PIS) in the period between February 1999 and November 2002 and COFINS between February 1999 and January 2004 claiming that paragraph 1 of article 3 of Law 9,718/98 is unconstitutional.

On November 9, 2005, the Federal Supreme Court declared such paragraph as unconstitutional.

On November 18, 2010, the Superior Court of Justice upheld the claim filed by Petrobras in 2006 to recover the COFINS for the period from January 2003 to January 2004. Petrobras then recognized the amount of US\$ 290 as recoverable taxes in its non-current assets.

At December 31, 2012, the Company had US\$ 1,084 related to this lawsuit that are not yet recognized in the financial statements due to the lack of final favorable decision.

### **27.5.3 Legal proceeding in the United States - P-19 and P-31**

In 2002, Braspetro Oil Service Company (Brasoil) and Petrobras obtained a favorable decision in related lawsuits filed before U.S. courts by the insurance companies United States

The hierarchy of the fair values of the pension plan assets is set out below:

Fidelity & Guaranty Company and American Home Assurance Company in which they were seeking to obtain (since 1997 and regarding Brasoil) a judicial order exempting them from their payment obligations under the performance bond related to platforms P- 19 and P-31, and seeking reimbursement from Petrobras for any amounts for which they could ultimately be held liable in the context of the execution proceedings of such performance bond.

On July 21, 2006, the U.S. courts issued an executive decision, conditioning the payment of the amounts owed to Brasoil to a definitive dismissal of the legal proceedings involving identical claims that are currently in course before Brazilian courts.

Brasoil, Petrobras and the insurance companies already pleaded the dismissal of the Brazilian legal proceedings but their definitive dismissal is awaiting the hearing of an appeal filed by the platforms' shipbuilding company before the Superior Court for Non-Constitutional Matters (STJ).

In 2012 the Company intensified actions taken, in an attempt to settle this lawsuit. The amount of damages pleaded is of approximately US\$ 245.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **28 Natural Gas Purchase Commitments**

Petrobras has entered into an agreement with Yacimientos Petrolíferos Fiscales Bolivianos (YPFB) to purchase 201.9 billion m<sup>3</sup> of natural gas during the term of the agreement and to purchase minimum annual volume commitment at a price calculated based on a formula comprising the price of fuel oil. The agreement is valid until 2019, renewable until the total volume commitment has been consumed.

At December 31, 2012, the minimum purchase commitment from 2013 to 2019 is approximately 61.5 billion m<sup>3</sup> of natural gas, equivalent to 24.06 million m<sup>3</sup> per day, which corresponds to an estimated amount of US\$ 17.9 billion.

### **29 Guarantees for concession agreements for petroleum exploration**

The Company has guarantees for the Minimum Exploration Programs established in the concession agreements for exploration of areas by the *Agência Nacional de Petróleo, Gás Natural e Biocombustíveis* ("ANP") in the total amount of US\$ 3,134, of which US\$ 753 are still in force, net of commitments that have been undertaken. The guarantees comprise crude oil from previously identified producing fields, pledged as security, with a value of US\$ 1,563 and bank guarantees in the amount of US\$ 1,190.

## **Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)*

### **30 Risk management and derivative instruments**

The Company is exposed to a variety of risks arising from its operations: market risk (including price risk related to crude oil and oil products, foreign exchange risk and interest rate risk), credit risk and liquidity risk.

#### **30.1 Risk management**

The objective of the overall risk management policy of the Company is to achieve an appropriate balance between growth, increased return on investments and risk exposure level, which can arise from its normal activities or from the context within which the Company operates, so that, through effective allocation of its physical, financial and human resources it may achieve its strategic goals.

Risk management is carried out by a Financial Integration Committee set up by the Executive Board to evaluate and establish guidelines for measuring, monitoring, and managing the risks periodically and to support the Board decisions. This Committee is always composed of the executive managers of the finance department. Executive managers of different business areas are convened to discuss specific matters.

**Petróleo Brasileiro S.A. - Petrobras and subsidiaries**

Consolidated notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)***30.2 Market risk****30.2.1 Risk management of price risk (related to crude oil and oil products)**

Petrobras does not use derivative instruments to hedge exposures to commodity price cycles related to products purchased and sold to fulfill operational needs.

Derivatives are used as hedging instruments to manage the price risk of certain transactions carried out abroad, which are usually short-term transactions similar to commercial transactions.

The main risk management techniques used by the Company to manage price risk of crude oil and oil products, in the transactions carried out abroad are operating Cash Flow at Risk (CFAR), Value at Risk (VAR) and Stop Loss.

**a) Notional amount, fair value and guarantees of crude oil and oil products derivatives**
