The Board of Directors proposes to the Annual Meeting to approve the appropriation of available earnings as follows:

Resolution proposed by the Board of Directors:

- *RESOLVED*, that the net loss for the period of CHF 8,946,000 shall be carried forward.

4. **Approval of the payment of a cash dividend in the aggregate amount of \$1.92 per outstanding share out of Garmin's general reserve from capital contribution in four equal installments**

The Board of Directors proposes to the Annual Meeting that Garmin pay a cash dividend in the amount of \$1.92 per outstanding share as follows:

General Reserve from Capital Contribution as per December 28, 2013 CHF 5,858,865,000

Resolutions proposed by the Board of Directors:

RESOLVED, that Garmin, out of, and limited at a maximum to the amount of, the Dividend Reserve (as defined below), pay a cash dividend in the amount of US\$1.92 per outstanding share¹ out of Garmin's general legal reserve from capital contribution payable in four equal installments at the dates determined by the Board of Directors in its discretion, the record date and payment date for each such installment to be announced in a press release² at least ten calendar days prior to the record date; and further

RESOLVED, that the cash dividend shall be made with respect to the outstanding share capital of Garmin on the record date for the applicable installment, which amount will exclude any shares of Garmin held by Garmin or any of its direct or indirect subsidiaries; and further

RESOLVED, that CHF 407,749,000³ be allocated to dividend reserves from capital contribution (the "**Dividend Reserve**") from the general reserve from capital contribution in order to pay such dividend of US\$1.92 per outstanding share with a nominal value of CHF 10.00 each (assuming a total of 208,077,418 shares⁴ eligible to receive the dividend); and further CHF 407,749,000

CHF 5,451,116,000

(1) In no event will the dividend payment exceed a total of US\$1.92 per share.

(2) The announcements will not be published in the Swiss Official Gazette of Commerce.

Based on the currency conversion rate as at December 28, 2013. With a total of shares eligible for payout (based on the number of shares outstanding as at December 28, 2013), the aggregate dividend total would be CHF . The amount of the Dividend Reserve, calculated on the basis of the Company's issued shares as at December 28, 2013,

(3) includes a 15% margin to accommodate (i) unfavorable currency fluctuation and (ii) new share issuance (see fn 4 below) that may occur between the time that the dividend is approved by shareholders and when the last installment payment is made. Unused dividend reserves will be returned to the general reserve from capital contribution after the last installment payment.

This number is based on the registered share capital at December 28, 2013. The number of shares eligible for dividend payments may change due to the repurchase of shares, the sale of treasury shares or the issuance of new shares, including (without limitation) from the conditional share capital reserved for the employee profit sharing program.

Shareholders Entitled to Vote

April 11, 2014 is the record date (the "Record Date") for the Annual Meeting. On the Record Date there were [•] shares (excluding shares held directly or indirectly in treasury) outstanding and entitled to vote at the Annual Meeting. Shareholders registered in our share register at the close of business, U.S. Eastern Time, on the Record Date are entitled to vote at the Annual Meeting, except as provided below. Any additional shareholders who are registered in Garmin's share register on May 27, 2014 will receive a copy of the proxy materials after May 27, 2014 and are entitled to attend and vote, or grant proxies to vote, at the Annual Meeting. Shareholders not registered in Garmin's share register as of May 27, 2014, will not be entitled to attend, vote or grant proxies to vote at, the Annual Meeting. No shareholder will be entered in Garmin's share

Back to Contents

register as a shareholder with voting rights between the close of business on May 27, 2014 and the opening of business on the day following the Annual Meeting. Computershare Trust Company, N.A., which maintains Garmin's share register, will, however, continue to register transfers of Garmin's shares in the share register in its capacity as transfer agent during this period. Shareholders who are registered in Garmin's share register on May 27, 2014 but have sold their shares before the meeting date are not entitled to attend, vote or grant proxies to vote at, the Annual Meeting.

Solicitation of Proxies

The cost of soliciting proxies will be borne by Garmin. In addition to soliciting shareholders by mail and through its regular employees not specifically engaged or compensated for that purpose, Garmin will request banks and brokers, and other custodians, nominees and fiduciaries to solicit their customers who have shares of Garmin registered in the names of such persons and, if requested, will reimburse them for their reasonable, out-of-pocket costs. Garmin may use the services of its officers, directors and others to solicit proxies, personally or by telephone, facsimile or electronic mail, without additional compensation.

Voting

Each shareholder is entitled to one vote on each proposal presented in this Proxy Statement for each share held. There is no cumulative voting in the election of directors. The required presence quorum for the transaction of business at the Annual Meeting is the presence in person or by proxy of shareholders holding not less than a majority of the shares entitled to vote at the meeting with abstentions, invalid ballots and broker non-votes regarded as present for purposes of establishing the quorum.

A shareholder who purchases shares from a registered holder after the Record Date but before May 27, 2014, and who wishes to vote his or her shares at the Annual Meeting must ask to be registered as a shareholder with respect to such shares in our share register prior to May 27, 2014. Registered holders of our shares (as opposed to beneficial shareholders) on May 27, 2014 who sell their shares prior to the Annual Meeting will not be entitled to vote those shares at the Annual Meeting.

Each of the proposals requires the affirmative vote of a majority of the share votes cast (in person or by proxy) at the Annual Meeting, excluding unmarked, invalid and non-exercisable votes and abstentions.

Members of our Board and members of Executive Management are not allowed to vote on the proposal to discharge the members of the Board and the Executive Management from liability for the fiscal year ended December 28, 2013.

Shareholder ratification of the appointment of Ernst & Young LLP as Garmin's Independent Registered Public Accounting Firm for the fiscal year ending December 27, 2014 is not legally required, but your views are important to the Audit Committee and the Board. If shareholders do not ratify the appointment of Ernst & Young LLP, our Audit Committee will reconsider the appointment of Ernst & Young LLP as Garmin's independent auditor.

The proposal relating to the advisory vote on executive compensation is advisory and non-binding on Garmin. However, the Compensation Committee of our Board will review voting results on this proposal and will give consideration to such voting.

Abstentions and Broker Non-Votes

Pursuant to Garmin's Articles of Association and Swiss law, (i) shares represented at the Annual Meeting which are not voted on any matter and (ii) shares which are represented by "broker non-votes" (i.e., shares held by brokers or nominees which are represented at the Annual Meeting but with respect to which the broker or nominee is not empowered to vote on a particular proposal pursuant to applicable New York Stock Exchange rules) are not included in the determination of the shares voting on such matter. Therefore, shares represented at the Annual Meeting which are not voted on any matter and shares represented by "broker non-votes" will not be counted toward the determination of the majority required to approve the proposals submitted to the Annual Meeting and, therefore, will not have the effect of a vote against such proposals.

Although brokers have discretionary authority to vote shares of Broker Customers on "routine" matters, they do not have authority to vote shares of Broker Customers on "non-routine" matters under New York Stock Exchange ("NYSE") rules. We believe that the following proposals to be voted on at the Annual Meeting will be considered to be "non-routine" under NYSE rules and, therefore, brokers will not be able to vote shares owned by Broker Customers with respect to these proposals unless the broker receives instructions from such customers: Proposal No. 6 (re-election of directors); Proposal No. 7 (election of Chairman); Proposal No. 8 (election of Compensation Committee members); Proposal No. 11 (advisory vote on executive compensation); Proposal No. 12 (approval of amendments to the Articles of Association to implement requirements under recent Swiss legislation regarding elections and certain other matters); Proposal No. 13 (approval of amendments to the Articles of Association to implement requirements under recent Swiss legislation regarding the compensation of the Board and the Executive Management and certain other matters); and Proposal No. 14 (approval of amendments to the Articles of Association to allow general meetings to be held online to the extent permitted under applicable law).

How Shareholders Vote

Shareholders, Plan Participants and Broker Customers may vote (or in the case of Plan Participants, may direct the trustee of the Garmin International, Inc. 401(k) and Pension Plan to vote) their shares as follows:

Shares of Record

Shareholders may only vote their shares if they or their proxies are present at the Annual Meeting. Shareholders may appoint as their proxy the independent voting rights representative, the law firm of Reiss + Preuss LLP, 1350 Avenue of the Americas, Suite 2900, New York, NY 10019, USA to vote their shares by checking the appropriate box on the enclosed proxy card and the independent voting rights representative will vote all shares for which it is the proxy as specified by the shareholders on the proxy card. A registered shareholder desiring to name as proxy someone other than the independent representative voting rights representative may do so by crossing out the name of the independent voting rights representative on the proxy card and inserting the full name of such other person. In that case, the shareholder must sign the proxy card and deliver it to the person named, and the person named must be present, present appropriate identification and vote at the Annual Meeting.

Shares owned by shareholders who have timely submitted a properly executed proxy card and specifically indicated their votes will be voted as indicated. Shares owned by shareholders who have timely submitted a properly executed proxy card and have not specifically indicated their votes instruct the independent voting rights representative to vote in the manner recommended by the Board. If any modifications to agenda items or proposals identified in the Invitation to the Annual Meeting or other matters on which voting is permissible under Swiss law are properly presented at the Annual Meeting for consideration, you instruct the independent voting rights representative, in the absence of other specific instructions, to vote in accordance with the recommendations of the Board.

We urge you to return your proxy card by the close of business, U.S. Central Time on June 2, 2014 to ensure that your proxy can be timely submitted.

Shares Held Under the 401(k) Plan

On the voting instructions card, Plan Participants may instruct the trustee of our 401(k) Plan how to vote the shares allocated to their respective participant accounts. The trustee will vote all allocated shares accordingly. Shares for which inadequate or no voting instructions are received generally will be voted by the trustee in the same proportion as those shares for which instructions were actually received from Plan Participants. The trustee of our 401(k) Plan may vote shares allocated to the accounts of the 401(k) Plan participants either in person or through a proxy.

Shares Held Through a Broker or Other Nominee

Each broker or nominee must solicit from the Broker Customers directions on how to vote the shares, and the broker or nominee must then vote such shares in accordance with such directions. Brokers or nominees are to forward the Notice to the Broker Customers, at the reasonable expense of Garmin if the broker or nominee requests reimbursement. See “Abstentions and Broker Non-Votes”.

Revoking Proxy Authorizations or Instructions

Until the polls for a particular proposal on the agenda close (or in the case of Plan Participants, until the trustee of the 401(k) Plan votes), voting instructions or votes of Record Holders and voting instructions of Plan Participants may be revoked or recast with a later-dated, properly executed and delivered proxy card or, in the case of Plan Participants, a voting instruction card. Otherwise, shareholders may not revoke a vote, unless: (a) in the case of a Record Holder, the Record Holder either (i) attends the Annual Meeting and casts a ballot at the meeting or (ii) delivers a written revocation to the independent voting rights representative at any time before the Chairman of the Annual Meeting closes the polls for a particular proposal on the agenda; (b) in the case of a Plan Participant, the revocation procedures of the trustee of the 401(k) Plan are followed; or (c) in the case of a Broker Customer, the revocation procedures of the broker or nominee are followed.

Attendance and Voting in Person at the Annual Meeting

Attendance at the Annual Meeting is limited to Record Holders or their properly appointed proxies, beneficial owners of shares having evidence of such ownership, and guests of Garmin. Plan Participants and Broker Customers, absent special direction to Garmin from the respective 401(k) Plan trustee, broker or nominee, may only vote by instructing the trustee, broker or nominee and may not cast a ballot at the Annual Meeting. Record Holders may vote by casting a ballot at the Annual Meeting.

PROPOSAL ONE Election of Andrew Etkind as the ad hoc Chairman of the Annual Meeting

The proposals to be voted on at the Annual Meeting include amendments to Garmin's Articles of Association. In order for these amendments to take effect they must be carried out before a Swiss notary public and authenticated by such notary public in the form of a public deed (*öffentliche Urkunde*) and then registered with the Commercial Register (*Handelsregister*) of the Canton of Schaffhausen, Switzerland. References to the length of time during which (and, in the case of persons who are employees of Garmin, the positions in which they have served) the nominees for election and the existing directors have served as directors and/or employees of Garmin in their biographies included in this section of this Proxy Statement refer to their service as directors and/or officers of both (i) Garmin Ltd., a Cayman Islands company (“Garmin Cayman”) which was the ultimate parent holding company of the Garmin group of companies until June 27, 2010 and (ii) Garmin Ltd., a Swiss company, which became the ultimate parent holding company of the Garmin group of companies on June 27, 2010 pursuant to a scheme of arrangement under Cayman Islands law that was approved by the shareholders of Garmin Cayman on May 20, 2010.

Board Meetings and Standing Committee Meetings

Meetings

The Board held five meetings and took action by unanimous written consent five times during the fiscal year ended December 28, 2013. Four executive sessions of the independent directors were held in 2013. The Board has established three standing committees: the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee (the “Nominating Committee”). During the 2013 fiscal year, the Audit Committee held four meetings and took action by unanimous written consent twice, the Compensation Committee held five meetings and took action by unanimous written consent once, and the Nominating Committee held one meeting. Each director attended at least 75% of the aggregate of: (1) the total number of meetings of the Board and (2) the total number of meetings held by all committees on which such director served. It is Garmin’s policy to encourage directors to attend Garmin’s annual general meeting. Five of the six directors of Garmin attended the 2013 annual general meeting.

Audit Committee

Messrs. Peffer (Chairman), Hartnett and Poberezny serve as the members of the Audit Committee. The Board has adopted a written charter for the Audit Committee, a copy of which is available on Garmin’s website at www.garmin.com. The functions of the Audit Committee include overseeing Garmin’s financial reporting processes on behalf of the Board, and appointing, and approving the fee arrangement with Ernst & Young LLP, Garmin’s independent registered public accounting firm and Ernst & Young Ltd, Garmin’s statutory auditor. The Board has determined that Mr. Hartnett and Mr. Peffer are “audit committee financial experts” as defined by the SEC regulations implementing Section 407 of the Sarbanes-Oxley Act of 2002. The Board of has determined that all the members of the Audit Committee are independent (as defined by the listing standards of the NASDAQ Global Stock Market).

Compensation Committee

Messrs. Poberezny (Chairman), Eller, Hartnett and Peffer serve as the members of the Compensation Committee. The Board has adopted a written charter for the Compensation Committee, a copy of which is available on Garmin’s website at www.garmin.com. The primary responsibilities of the Compensation Committee are to (a) review, approve and oversee Garmin’s compensation philosophy, policies and objectives for executives and principal senior officers, as well as the programs, plans, practices and procedures for their implementation in a manner that is consistent with corporate strategies and goals, (b) ensure that Garmin’s compensation programs and practices are effective in attracting, retaining and motivating highly qualified personnel, (c) with respect to compensation of the Executive Chairman, Chief Executive Officer (“CEO”) and other principal senior officers, annually: (i) review and approve the corporate goals and objectives that are aligned with the achievement of the Company’s long-term strategic plans, (ii) evaluate their performance in light of those goals and objectives; (iii) determine the CEO’s compensation level, as well

The Board has determined that all the members of the Compensation Committee are independent (as defined by the listing standards of the NASDAQ Global Select Stock Market). The processes and procedures for considering and determining executive compensation, including the Compensation Committee's authority and role in the process, its delegation of authority to others, and the roles of Garmin executives and third-party executive compensation consultants in making decisions or recommendations on executive compensation, are described in "Executive Compensation Matters – Compensation Discussion and Analysis" below. Pursuant to the Swiss Ordinance the members of the Compensation Committee will be elected annually and individually by the shareholders at the annual general meeting commencing with this Annual Meeting.

Nominating and Corporate Governance Committee

Messrs. Eller (Chairman), Hartnett, Peffer and Poberezny serve as the members of the Nominating Committee. The Board has adopted a written charter for the Nominating Committee. A copy of the Nominating Committee Charter is available on Garmin's website at www.garmin.com. The primary responsibilities of the Nominating Committee are to (a) evaluate the current composition, size, role and functions of the Board and its committees to oversee successfully the business and affairs of Garmin and make recommendations to the Board for approval; (b) determine director selection criteria and conduct searches for prospective directors whose skills and attributes reflect these criteria, (c) recommend and evaluate nominees for election to the Board; (d) evaluate and make recommendations to the Board concerning the appointment of directors to serve on each standing committee and the selection of Board committee chairpersons; (e) evaluate prior to each annual general meeting, and report to the Board on, the financial literacy of the Audit Committee members and whether the Audit Committee has at least one Audit Committee Financial Expert and one Audit Committee member who has accounting or related financial management expertise; (f) evaluate prior to each annual general meeting, and report to the Board on, the independence of director nominees and Board members under applicable laws, regulations, and stock exchange listing standards; (g) create and implement a process for the Board to annually evaluate its own performance; (h) oversee a Company orientation program for new directors and a continuing education program for current directors; (i) recommend to the Board Corporate Governance Guidelines; (j) review periodically the Corporate Governance Guidelines and recommend such modifications to the Board as the Governance Committee deems appropriate; (k) oversee Garmin's corporate governance practices, including reviewing and recommending to the Board for approval any changes to the other documents and policies in the Company's corporate governance framework, including its articles of association and organizational regulations; (l) verify that the Board and each Board committee has annually evaluated its own performance; (m) review and/or investigate any matters pertaining to the integrity of management or the Board or any committee thereof; (n) annually evaluate the Governance Committee's own performance and periodically evaluate the adequacy of this Charter; and (o) report to the Board on Nominating Committee actions (other than routine or administrative actions). The Board has determined that all the members of the Nominating Committee are independent (as defined by the listing standards of the NASDAQ Global Select Stock Market).

In selecting candidates for nomination at the annual meeting of Garmin's shareholders, the Nominating Committee begins by determining whether the incumbent directors whose terms expire at the meeting desire and are qualified to continue their service on the Board. The Nominating Committee is of the view that the continuing service of qualified incumbents promotes stability and continuity in the board room, giving the Board the familiarity and insight into Garmin's affairs that its directors have accumulated during their tenure, while contributing to their work as a collective body. Accordingly, it is the policy of the Nominating Committee, absent special circumstances, to nominate qualified incumbent directors who continue to satisfy the Nominating Committee's criteria for membership on the Board, whom the Nominating Committee believes will continue to make a valuable contribution to the Board and who consent to stand for reelection and, if reelected, to continue their service on the Board. If there are Board vacancies and the Nominating Committee does not re-nominate a qualified incumbent, the Nominating Committee will consider and evaluate director candidates recommended by the Board, members of the Nominating Committee, management and any shareholder owning one percent or more of Garmin's outstanding shares.

The Nominating Committee will use the same criteria to evaluate all director candidates, whether recommended by the Board, members of the Nominating Committee, management or a one percent shareholder. A shareholder owning one percent or more of Garmin's outstanding shares may recommend director candidates for consideration by the

Nominating Committee by writing to the Company Secretary, by facsimile at +41 52 630 1601 or by mail at Garmin Ltd., Mühlentalstrasse 2, 8200 Schaffhausen, Switzerland. The recommendation must contain the proposed candidate's name, address, biographical data, a description of the proposed candidate's business experience, a description of the proposed candidate's qualifications for consideration as a director, a representation that the nominating shareholder is a beneficial or record owner of one percent or more of Garmin's outstanding shares (based on the number of outstanding shares reported on the cover page of Garmin's most recently filed Annual Report on Form 10-K) and a statement of the number of Garmin shares owned by such shareholder. The recommendation must also be accompanied by the written consent of the proposed candidate to be named as a nominee and to serve as a director of Garmin if nominated and elected. A shareholder may not recommend him or herself as a director candidate.

The Nominating Committee requires that a majority of Garmin's directors be independent and that any independent director candidate meet the definition of an independent director under the listing standards of the NASDAQ Global Select Stock Market. The Nominating Committee also requires that at least one independent director qualify as an audit committee financial expert. The Nominating Committee also requires that an independent director candidate should have either (a) at least ten years experience at a policy-making level or other level with significant decision-making responsibility in an organization or institution or (b) a high level of technical knowledge or business experience relevant to the Garmin's technology or industry. In addition, the Nominating Committee requires that an independent director candidate have such financial expertise, character, integrity, ethical standards, interpersonal skills and time to devote to Board matters as would reasonably be considered to be appropriate in order for the director to carry out his or her duties as a director.

In evaluating a director candidate (including the nomination of an incumbent director), the Nominating Committee considers, among other things, whether the candidate meets the Nominating Committee's requirements for independent director candidates, if applicable. The Nominating Committee also considers a director candidate's skills and experience in the context of the perceived needs of the Board at the time of consideration, and whether a diversity of skills and experience would be beneficial at the time. Additionally, in recommending an incumbent director for re-election, the Nominating Committee considers the nominee's prior service to Garmin's Board and continued commitment to service on the Board. Garmin does not have a formal policy regarding diversity among director candidates.

Board Leadership Structure and Role in Risk Oversight

Prior to January 1, 2013, Min H. Kao was both Chairman of the Board and Chief Executive Officer. On January 1, 2013, Dr. Kao became Executive Chairman of the Board, and Clifton A. Pemble became President and Chief Executive Officer, thereby causing the positions of Chairman of the Board and Chief Executive Officer to be split between Dr. Kao and Mr. Pemble. The Board believes this Board leadership structure is appropriate and desirable. Mr. Pemble has been at Garmin since 1989 and held a number of leadership positions prior to becoming Chief Executive Officer on January 1, 2013, including President and Chief Operating Officer. Dr. Kao's continued contribution as Executive Chairman adds significant value because he is a co-founder of Garmin, which gives him a unique perspective of the company's history, vision and values. In addition, because of his significant ownership of Garmin shares, Dr. Kao's interests are aligned with those of Garmin's shareholders.

Garmin does not have a lead independent director. Instead, all of the independent directors play an active role on the Board. The independent directors make up a majority of the Board, and a majority of the independent directors are or have been leaders in industry with a history of exercising critical thought and sound judgment.

The entire Board performs the risk oversight role. Garmin's Chief Executive Officer is a member of the Board, and Garmin's Chief Financial Officer and its General Counsel regularly attend Board meetings, which helps facilitate discussions regarding risk between the Board and Garmin's senior management, as well as the exchange of risk-related information or concerns between the Board and the senior management. Further, the independent directors meet in executive session at the majority of the regularly scheduled Board meetings to voice their observations or concerns and to shape the agendas for future Board meetings.

The Board believes that, with these practices, each director has an equal stake in the Board's actions and oversight role and equal accountability to Garmin and its shareholders.

Compensation and Risk

Garmin regularly assesses risks related to compensation programs, including our executive compensation programs. Garmin does not believe that there are any risks arising from Garmin's compensation policies and practices that are reasonably likely to have a material adverse effect on Garmin.

Shareholder Communications with Directors

The Board has established a process to receive communications from shareholders. Shareholders may communicate with the Board or with any individual director of Garmin by writing to the Board or such individual director in care of Garmin's Corporate Secretary, by facsimile at +41 52 630 1601 or by mail at Garmin Ltd., Mühlenstrasse 2, 8200 Schaffhausen, Switzerland. All such communications must identify the author as a shareholder, state the number of shares owned by the author and state whether the intended recipients are all members of the Board or just certain specified directors. The Company Secretary will make copies of all such communications and send them to the appropriate director or directors.

Compensation Committee Interlocks and Insider Participation; Certain Relationships

None of the members of the Compensation Committee is, or has ever been, an officer or employee of Garmin or any of its subsidiaries. During 2013, Garmin had no compensation committee interlocks of the type required to be disclosed by the rules of the SEC.

Garmin has adopted a written policy for the review by the Audit Committee of transactions in which Garmin is a participant and any related person will have a direct or indirect material interest in the transaction. This policy is generally designed to cover those related party transactions that would be required to be disclosed in a proxy statement, annual report on Form 10-K or registration statement pursuant to Item 404(a) of Regulation S-K. However, the policy is more encompassing in that the amount involved in a transaction covered by the policy must only exceed \$60,000 while disclosure under Item 404(a) is required only if the amount involved exceeds \$120,000. The policy defines the terms "transaction" and "related person" in the same manner as Item 404(a) of Regulation S-K.

If the nature of the timing of a related party transaction is such that it is not practical to obtain advance approval by the Audit Committee, then management may enter into it, subject to ratification by the Audit Committee. If ratification is not subsequently obtained, then management must take all reasonable efforts to cause the related person transaction to be null and void.

The Audit Committee will approve or ratify only those related party transactions that it determines in good faith are in, or are not inconsistent with, the best interests of Garmin and its shareholders. In making that determination, the Audit Committee shall consider all of the relevant facts and circumstances available to it, including the benefits to Garmin and whether the related party transaction is on terms and conditions comparable to those available in arms-length dealing with an unrelated third party that can provide comparable products or services.

The Audit Committee will also annually review ongoing related party transactions after considering all relevant facts and circumstances. The Audit Committee will then determine if those transactions should be terminated or modified based on whether it is still in the best interests, or not inconsistent with the best interests, of Garmin and its shareholders.

Non-Management Director Compensation

Each Garmin director, who is not an officer or employee of Garmin, or of a subsidiary of Garmin, is compensated for service on the Board and its committees. The annual director compensation package at Garmin is designed to attract and retain highly-qualified, independent professionals to represent Garmin's shareholders.

Garmin's 2013 director compensation package was comprised of cash (annual board and committee chair retainers) and grants of restricted stock unit awards.

Each director, who is not an officer or employee of Garmin or its subsidiaries, (a "Non-Management Director"), was paid an annual retainer of \$50,000. Each Non-Management Director, who chairs a standing committee of the Board (other than the Audit Committee), also received an annual retainer of \$5,000. The Non-Management Director who chairs the Audit Committee received an annual retainer of \$10,000. In addition, each Non-Management Director was paid \$1,500 for attending each Board meeting convened in person and \$500 for attending each Board meeting convened by teleconference. For each Audit Committee meeting convened in person or by teleconference, each Non-Management Director was paid \$1,000 for attending the meeting. For each Compensation Committee or Nominating Committee meeting, convened on a separate day from a Board meeting, each Non-Management Director was paid \$1,500 for attending each committee meeting convened in person and \$500 for attending each meeting convened by teleconference. Directors are also reimbursed for reasonable travel expenses for attending Board and Committee meetings.

The Non-Management Directors may also be granted awards, including among others, pursuant to the 2011 Non-Employee Directors' Equity Incentive Plan, as determined by the Compensation Committee (as defined in such plan).

Garmin does not have formal stock ownership guidelines for its directors.

Under Taiwan banking practice, the chairman of a company is generally required to personally guarantee the company's loans and mortgages. During 2013, Dr. Kao, as chairman of Garmin Corporation, a Taiwan subsidiary of Garmin, received compensation from Garmin Corporation in the amount of \$56,420 for his personal guarantee of Garmin Corporation's obligations.

PROPOSAL NINE Election of the independent voting rights representative

Pursuant to the Swiss Ordinance, commencing in 2014 proxies appointing an officer or another representative of Garmin or depository institutions pursuant to Article 689d of the Swiss Code of Obligations to vote a shareholders' shares are prohibited. Instead, the Swiss Ordinance mandates that the shareholders of a Swiss company elect annually an independent voting rights representative for a term extending until completion of the next annual general meeting.

The main duty of the independent voting rights representative is to exercise the voting rights in accordance with the instructions received from shareholders. The voting rights representative will not make statements, submit proposals or ask questions of the Board on behalf of shareholders. The Board has recommended that the law firm of Reiss + Preuss LLP, 1350 Avenue of the Americas, New York, NY 10019, USA be elected as the independent voting rights representative for a term extending until completion of the next annual general meeting. PROPOSAL TEN Ratification of the appointment of Ernst & Young LLP as Garmin's Independent Registered Public Accounting Firm for the fiscal year ending December 27, 2014 and re-election of Ernst & Young Ltd as Garmin's statutory auditor for another one-year term

Ernst & Young LLP has acted as Garmin's independent registered public accounting firm since 2000 and has been appointed by the Audit Committee to audit and certify Garmin's financial statements for the fiscal year ending December 27, 2014.

Ernst & Young Ltd, Zurich, was re-elected as Garmin's statutory auditor for 2013. Swiss law requires that our shareholders elect annually a firm as statutory auditor. The statutory auditor's main task is to audit our consolidated financial statements and parent company financial statements that are required under Swiss law. The Audit Committee and Board propose that Ernst & Young Ltd be re-elected as Garmin's statutory auditor for another one-year term.

Representatives of Ernst & Young LLP and Ernst & Young Ltd will be present at the Annual Meeting. They will have the opportunity to make a statement if they desire and will be available to respond to appropriate questions.

If the shareholders do not ratify the appointment of Ernst & Young LLP, the Audit Committee will reconsider whether to appoint Ernst & Young LLP as Garmin's registered independent public accounting firm for the fiscal year ending December 27, 2014.

THE BOARD UNANIMOUSLY RECOMMENDS THAT YOU VOTE "FOR" THE RATIFICATION OF THE APPOINTMENT OF ERNST & YOUNG LLP AS GARMIN'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 27, 2014 AND RE-ELECTION OF ERNST & YOUNG LTD AS GARMIN'S STATUTORY AUDITOR FOR ANOTHER ONE-YEAR TERM

PROPOSAL TWELVE Approval of amendments to the Articles of Association to implement requirements under the Swiss Ordinance regarding elections and certain other matters

Pursuant to the Swiss Ordinance, Swiss companies listed on a stock exchange are required to amend their articles of association to implement the new legal requirements which became effective on January 1, 2014, concerning election of the Board, the Chairman of the Board, the members of the Compensation Committee and the independent voting rights representative, and certain other matters. Accordingly, the Board proposes the amendments to the Articles of Association contained in Annex 1 to implement such requirements. The main provisions of the proposed amendments are summarized below. Please refer to Annex 1 for the full text of the proposed amendments.

Powers of the General Meeting (Articles 12, 14 and 26)

The proposed amendments reflect the new powers of the General Meeting provided for in the Swiss Ordinance. The amendments give the General Meeting the non-transferable power to elect the Chairman of the Board, the members of the Compensation Committee and the independent voting rights representative. The amendments also give the General Meeting the power to approve the compensation of the Board and the Executive Management.

Independent Voting Rights Representative (Article 17)

The proposed amendments reflect that, pursuant to the Swiss Ordinance, representation of shareholders by a company proxy is no longer permitted. Shareholders may continue to be represented by an independent voting rights representative who, as of this Annual Meeting, must be elected annually for the period until completion of the next annual general meeting. As required by the Swiss Ordinance, the amendments provide that a proxy and instructions to the independent voting rights representative can be granted by electronic means as of the 2015 annual general meeting.

The Board of Directors (Article 25)

The proposed amendments delete the provisions regarding the staggered election of the Board and reflect that, pursuant to the Swiss Ordinance, the members of the Board and the Chairman of the Board shall be elected individually at the annual general meeting for terms expiring at the completion of the next annual general meeting.

The Compensation Committee (Article 30)

The proposed amendments reflect that, as required by the Swiss Ordinance, the members of the Compensation Committee shall be elected at the annual general meeting for terms expiring at the completion of the next annual general meeting. The amendments also provide that only members of the Board meeting the applicable independence and other requirements under applicable laws and regulations can be elected as members of the Compensation Committee and define the general responsibilities of the Compensation Committee. Its primary task is to consider and make recommendations to the Board regarding the compensation of the Board and the Executive Management. The amendments provide that the details of the powers and duties of the Compensation Committee shall be established in a charter.

Mandates Outside Garmin (Article 32(b))

The Swiss Ordinance requires that the Articles of Association determine the maximum number of additional mandates that a member of the Board or the Executive Management may hold in companies and legal entities that are required to be registered in the Swiss Commercial register or a corresponding foreign register. The proposed amendments distinguish between Board members who are retired and those who are still employed and seek to achieve a balance between effectively limiting, in compliance with best corporate governance practices, the number of mandates on other boards, and taking into account that Board members who are retired have more time available to devote to service on boards. The proposed amendments provide that (i) members of the Board who hold full-time employment or part-time employment of more than sixteen hours per week and members of Executive Management may hold not more than a total of six such additional mandates, of which not more than two mandates may be in companies listed on a stock exchange, and (ii) members of the Board who are retired or who hold part-time employment not exceeding sixteen hours per week may hold not more than a total of ten such additional mandates, of which not more than four mandates may be in companies listed on a stock exchange.

Further Minor Amendments (Articles 19, 26, 27, and 30)

Article 19 (Resolutions and Voting) is proposed to be amended to correct the English translation of the controlling German text. The proposal does not lead to a substantive change.

Article 26 (Constitution) is proposed to be amended to refer to the powers of the Board in accordance with changes introduced to Swiss corporate law as a result of the Swiss Ordinance. As explained, under the Swiss Ordinance, the Board no longer has the authority to appoint its own Chairman. The Chairman of the Board must be elected annually by the shareholders.

Article 27 (Duties of the Board of Directors) is also proposed to be amended to reflect the duties of the Board as revised by the Swiss Ordinance. In particular, it is clarified that the organizational determination by the Board is limited by the authority of the shareholders to elect the Chairman of the Board. Further, a reference to the compensation report is included. Under the Swiss Ordinance, the Board is required to prepare an annual compensation report that is in addition to the compensation disclosures required in the Compensation Discussion & Analysis section of the Company's proxy statement pursuant to U.S. securities regulations. As of the financial year 2014, this compensation report replaces the disclosure regarding compensation of the Board and Executive Management historically contained in the notes to the statutory financial statements of Garmin. In substance, the required disclosure will remain largely identical.

Article 30 (Committees and Delegation) is proposed to be amended to add a definition of "Executive Management" as the persons to whom the Board delegates executive management, and who, pursuant to such delegation, have the primary responsibility for the executive management of the Company. Also, the group of persons who are members of the "Executive Management" are the persons that are, in addition to the members of the Board, subject to the requirements of the Swiss Ordinance and the provisions of the Articles of Association implementing the Swiss Ordinance.

PROPOSAL THIRTEEN Approval of amendments to the Articles of Association to implement requirements under the Swiss Ordinance regarding the compensation of the Board and the Executive Management and related matters

Pursuant to the Swiss Ordinance, Swiss companies listed on a stock exchange are required to amend their articles of association to implement the new legal requirements which became effective on January 1, 2014 concerning the compensation of the Board and the Executive Management and certain related matters. Accordingly, the Board proposes the amendments to the Articles of Association contained in Annex 2 to implement such requirements. The main provisions of the proposed amendments are summarized below. Please refer to Annex 2 for the full text of the proposed amendments.

Compensation of the Board and Executive Management (Article 22(a))

The Swiss Ordinance requires that the Articles of Association determine how the General Meeting approves annually, in a binding vote, the maximum aggregate compensation amount for (i) the Board and (ii) the Executive Management. The proposed amendments give the shareholders the right to prospectively approve the maximum aggregate compensation amounts for the Board and the Executive Management. The amendments provide that, with regard to the Board, the approval relates to the maximum aggregate compensation for the upcoming term of office (i.e. the period between one annual general meeting and the next annual general meeting). With regard to the Executive Management, the amendments provide that the approval relates to the maximum aggregate compensation for the following financial year.

Under the proposed amendments, the Board has further the authority to seek ratification of any portion of the compensation of the Board and the Executive Management (including additional and contingent amounts) in relation to time periods other than the period between annual general meetings (Board compensation) or the next fiscal year (Executive Management compensation).

The proposed amendments provide that the Board or, where delegated to it, the Compensation Committee shall, within the aggregate amounts approved by the shareholders, have the exclusive authority to determine the actual individual compensation of, respectively, each member of the Board and each member of the Executive Management. The proposed amendments provide that the value of any compensation shall be determined as of the date of grant of the compensation in accordance with generally recognized valuation methods.

As required by U.S. laws and regulations, Garmin will, in addition, continue to provide shareholders at the annual general meeting with an annual advisory vote on the compensation of Garmin's Named Executive Officers for the previous fiscal year. Shareholders will thus have the opportunity to vote, on an advisory basis, on how the Board and/or the Compensation Committee actually used their authority within the ratified maximum aggregate compensation amount in relation to the Named Executive Officers who are also members of the Executive Management.

The proposed amendments provide that, in the event the shareholders do not approve proposed compensation amount, the Board shall reconsider the proposal, taking into account the reasons why the shareholders did not approve the proposal, and shall seek approval of a revised proposal either at the same annual general meeting or an extraordinary general meeting or at the next annual general meeting.

The proposed amendments also provide that Garmin may pay compensation prior to shareholder approval at general meeting but such compensation shall be subject to subsequent ratification by the shareholders.

The first binding shareholder ratification of Board and Executive Management compensation based on the proposed amended Articles of Association will be held at the annual general meeting in 2015.

General Compensation Principles (Article 22(b))

The Swiss Ordinance requires that the Articles of Association set out the basic principles of the compensation of the Board and the Executive Management.

The proposed amendments provide that the compensation of the Board may include (i) cash, (ii) shares, restricted shares, restricted share units, deferred units or similar instruments, and/or (iii) benefits and perquisites in kind or in the form of services, as shall be determined by the Board or, where delegated to it, the Compensation Committee, provided, however, that executive directors shall not receive any compensation in addition to the compensation paid to them in their roles as officers of Garmin. Further, under this proposal, the Company does not have the authority to grant stock options to non-executive directors.

The proposed amendments provide that, except as otherwise determined by the Board or, where delegated to it, the Compensation Committee, the compensation of the Executive Management shall generally consist of (i) a base salary, (ii) equity incentive and other incentive compensation pursuant to applicable plans and (iii) any other compensation as deemed appropriate by the Board or, where delegated to it, the Compensation Committee, including but not limited to, contributions to post-retirement benefit plans and allowances.

The proposed amendments provide that compensation pursuant to incentive plans shall be designed so as to align the interests of its recipients with those of Garmin's shareholders, provide retention incentives, and tie compensation to performance through the creation of shareholder value. The Board or, where delegated to it, the Compensation Committee shall take into account the position and level of duties and responsibility of the respective recipient, retention considerations, the current business environment, individual performance, performance of the Company or

[Back to Contents](#)

parts thereof, including, without limitation, total shareholder return relative to market, other companies or other benchmarks.

The proposed amendments further provide that, in relation to incentive awards, subject to the approval of the terms of equity incentive plans by shareholders as may be required under applicable law and stock exchange rules, the Board or, where delegated to it, the Compensation Committee shall, as applicable, determine the grant, vesting, exercise and forfeiture conditions; and the Board or, where delegated to it, the Compensation Committee may provide for the continuation, acceleration or removal of vesting and exercise conditions, for the payment or grant of compensation based upon assumed target achievement, or for forfeiture, in each case with regard to pre-determined events such as a change-in-control or termination of an employment, mandate or other agreement.

Supplementary Amount for Changes in the Executive Management (Article 22(c))

As explained above, the maximum aggregate compensation amount for the Executive Management will be submitted for shareholder ratification at each annual general meeting. However, the composition or the size of the Executive Management may change between annual general meetings. Because of such changes, the maximum aggregate compensation amount of the Executive Management already ratified by shareholders may no longer be sufficient to cover also the additional compensation of persons assuming an Executive Management position during such period. The Swiss Ordinance therefore allows companies to adopt a provision in their articles of association to authorize the board of directors, within the limits of a specified “supplementary amount,” to grant compensation to such persons without subsequent shareholder ratification.

The proposed amendments provide for such a “supplementary amount”. Pursuant to the proposal, Garmin is authorized to pay and/or grant compensation in relation to the compensation period(s) already ratified by the shareholders at a general meeting to a member of Executive Management who becomes a member of Executive Management or who is promoted within Executive Management after the date of the most recent shareholder ratification at a general meeting. In no event shall any such compensation for each newly appointed or promoted member of Executive Management and for each relevant compensation period exceed the maximum aggregate amount of Executive Management compensation last ratified by shareholders at a general meeting of the shareholders. The proposed amendments provide that no further shareholder ratification shall be required for any such compensation paid.

Agreements Regarding Compensation with Members of the Board and Executive Management (Article 32(a))

The Swiss Ordinance requires that the Articles of Association determine the maximum duration and notice period of agreements with the members of the Board and the Executive Management relating to their compensation. The Swiss Ordinance provides that the term of any fixed-term agreement shall not exceed one year and the notice period for termination of any indefinite-term agreement shall not exceed one year. For Board members, the proposed amendments to the Articles of Association provide that the term of any fixed-term agreement shall not exceed the

term of office and the notice period for termination of any indefinite-term agreement shall not exceed the term of office. For the Executive Management, the proposed amendments provide that the term of any fixed-term agreement shall not exceed one year and the notice period for termination of any indefinite-term agreement shall not exceed one year. The proposed amendments also provide that members of Executive Management may be released from their obligation of work during the time of a termination notice period.

The proposed amendments also allow Garmin to enter into post-employment non-competition agreements with members of Executive Management for the time after the termination of the employment agreement. The total consideration paid for a non-competition undertaking by an Executive Management member shall not exceed the total annual compensation paid to such member of Executive Management during the last full fiscal year in which he or she was employed at the Company or companies under its control.

Post-Retirement Benefits (Article 32(c))

The Swiss Ordinance requires that a company's articles of association determine the maximum amount of post-retirement benefits beyond occupational pensions that may be granted to members of the board of directors and the executive management.

The proposed amendments provide that Garmin may grant members of the Executive Management post-retirement benefits beyond occupational pensions, provided, however, that any such post-retirement benefit may not exceed 50% of the respective total annual compensation. No such post-retirement benefits may be granted to members of the Board.

The post-retirement benefits beyond occupational pensions do not include post-retirement benefits funded through contributions of the Company or its affiliates or for which the Company or its affiliates have made provisions. These benefits will be included in the calculation of the maximum aggregate compensation amounts of the Board and the Executive Management that are subject to shareholder ratification on an annual basis.

Loans

The Swiss Ordinance requires that a company's articles of association determine the maximum amount of loans that may be granted or paid to members of the Board and the Executive Management. Garmin does not propose to amend the Articles of Association so that the Company would have the authority to grant loans to directors and Executive Management members. This is consistent with prior Company policy and the requirements of the Sarbanes-Oxley Act of 2002.

Further Minor Amendments (Article 28)

Article 28 is proposed to be amended to delete the paragraph relating to compensation which is now covered by new Article 22(a) and to conform the heading to such deletion and to add a reference to Executive Management as defined in the proposed amendment to Article 30.

PROPOSAL FOURTEEN Approval of an amendment to the Articles of Association to allow general meetings to be held online to the extent permitted under applicable law

The holding of physical general meetings requires Garmin to incur significant costs and only a very small percentage of shareholders have historically attended general meetings in person. Technology now permits general meetings to be held in an online virtual format and shareholders can attend via the Internet. It is currently uncertain whether a general meeting held purely online is permitted by applicable Swiss law but it is expected that the position under Swiss law will be clarified in the future.

The proposed amendment to the Articles of Association would permit Garmin to hold general meetings solely in virtual form to the extent permissible under applicable laws, as determined by the Board from time to time. Please refer to Annex 3 for the full text of the proposed amendment.

AUDIT MATTERS

Report of Audit Committee

This report is submitted by the Audit Committee of the Board.

The Board pursues its responsibility for oversight of Garmin's financial reporting process through the Audit Committee. The Board, in its business judgment, has determined that all members of the Audit Committee are independent and financially literate as required by the applicable listing standards of the NASDAQ. The Audit Committee operates pursuant to a charter adopted by the Board, as amended and restated on October 25, 2013, a copy of which is posted at http://www8.garmin.com/aboutGarmin/invRelations/documents/Audit_Committee_Charter.pdf. The Audit Committee and the Board annually review and assess the adequacy of the charter.

The Audit Committee meets regularly with the independent auditor, management and Garmin's internal auditors. The independent auditor and Garmin's internal auditors have direct access to the Audit Committee, with and without the presence of management representatives, to discuss the scope and results of their work and their comments on the adequacy of internal accounting controls and the quality of financial reporting.

In performing its oversight function, the Audit Committee reviewed and discussed Garmin's audited consolidated financial statements for the fiscal year ended December 28, 2013 with management and with Ernst & Young LLP, the independent registered public accounting firm retained by Garmin to audit its financial statements. The Audit Committee received and reviewed management's representation and the opinion of the independent registered public accounting firm that Garmin's audited financial statements were prepared in accordance with United States generally accepted accounting principles. The Audit Committee also discussed with the independent registered public accounting firm during the 2013 fiscal year the matters required to be discussed by applicable standards and rules of the Public Company Accounting Oversight Board and the SEC.

The Audit Committee received from Ernst & Young LLP the written disclosures and the letter required by applicable requirements of the Public Company Accounting Oversight Board regarding Ernst & Young LLP's communications with the Audit Committee concerning independence and discussed with Ernst & Young LLP the independence of their firm. The Audit Committee considered whether the non-audit services provided by Ernst & Young LLP are compatible with their independence.

Based upon the review and discussions referenced above, the Audit Committee recommended to Garmin's Board, and the Board approved, that the audited consolidated financial statements be included in Garmin's Annual Report on Form 10-K for the fiscal year ended December 28, 2013, for filing with the SEC.

Independent Registered Public Accounting Firm Fees

The following table sets forth the aggregate fees billed to Garmin for the fiscal year ended December 28, 2013 and the fiscal year ended December 29, 2012 by Garmin's independent registered public accounting firm, Ernst & Young LLP (dollars listed in thousands):

	2013	2012

Tax Fees	\$84 (b)(c)	\$222
All Other Fees	\$9 (d)	\$19
TOTAL:	\$2,897	\$3,044

(a) *Audit related fees for 2013 and 2012 comprise fees for consent needed for additional SEC filings and acquisition due diligence.*

(b) *The Audit Committee has concluded that the provision of these services is compatible with maintaining the independence of Ernst & Young.*

(c) *Tax fees for 2013 and 2012 are comprised entirely of tax planning services.*

All other fees for 2013 are comprised of \$3 for on-line subscription fees and \$6 for audit of environmental (d) regulations. All other fees for 2012 are comprised of \$3 for on-line subscription fees, \$8 for miscellaneous tax advice and \$8 for audit of environmental regulations.

Pre-Approval of Services Provided by the Independent Auditor

The Audit Committee has adopted a policy that requires advance approval by the Committee of all audit, audit-related, tax services and other services performed by Ernst & Young. The policy provides for pre-approval by the Audit Committee annually of specifically defined services up to specifically defined fee levels. Unless the specific service has been previously pre-approved with respect to that year, the Audit Committee must approve the permitted service before Ernst & Young is engaged to perform it. The Audit Committee has delegated to the Audit Committee Chairman authority to approve permitted services provided that the Chairman reports any such approval decisions to the Audit Committee at its next meeting. The Audit Committee pre-approved all services that Ernst & Young rendered to Garmin and its subsidiaries in 2013.

Compensation Discussion and Analysis

Overview

Garmin’s management and Compensation Committee consider executive compensation in light of the entire associate population in order to establish compensation practices that we believe are competitive based on our recruitment and retention experience. We also strive to establish compensation practices that are viewed as internally equitable and fair for executives, other associates, and shareholders. Executives are therefore compensated using the same elements and techniques as the broader group of associates who contribute to Garmin’s success.

Garmin’s executive compensation philosophy is simple and based on direct linkage to performance and alignment with shareholder interests. Garmin’s compensation program does not include any of the following practices generally disfavored by shareholders:

- Severance arrangements;
- Cash payments in connection with a change in control of the company; or

- Supplemental executive retirement benefits.

Executive compensation is tied to individual and company performance through use of stock compensation programs designed to align the interests of executives and shareholders based on the common goal of growing shareholder value. Garmin establishes executive compensation taking into account market information obtained primarily through recruiting, retention, and networking. The Compensation Committee also considers other factors, such as job responsibilities and performance and the level of past compensation adjustments, as described below. Garmin seeks shareholder input on executive compensation matters through an annual advisory vote on executive compensation. Commencing with the annual meeting in 2015, the aggregate compensation of the CEO and the CFO and the aggregate compensation of the Board of Directors will be subject to an annual binding vote in accordance with Swiss law.

Garmin does not attempt to set compensation to meet specific benchmarks, such as targeting a specific percentile of a compensation component paid by one or more peer groups. Garmin sets executive compensation based on its knowledge of individualized contributions and capabilities of its personnel and the positions involved and the amount and form of compensation that Garmin believes is needed to attract, motivate and retain appropriate talent.

Objectives of the Compensation Program

The objectives of Garmin's executive compensation program are to:

- Provide executive compensation that Garmin believes is fair, reasonable and competitive in order to attract, motivate and retain a highly qualified executive team;
- Reward executives for individual performance and contribution;
- Provide incentives to executives to enhance shareholder value;
- Reward executives for long-term, sustained individual and Company performance;
- Provide executive compensation that is viewed as internally equitable by both the executives and the broader Garmin employee population; and
- For non-management directors, provide fair, reasonable and competitive compensation to attract and retain highly qualified, independent professionals to represent Garmin shareholders.

Decision-Making Process and Role of Executive Officers

In making compensation decisions, the Compensation Committee considers each executive's performance and other relevant factors, including the scope of each executive's position and responsibilities, the achievement of Company goals, the current business environment and anticipated changes, executive retention and recruitment considerations, the mix of fixed compensation (e.g. base salary) versus variable compensation (e.g. short and long-term incentives), the level of past compensation adjustments and the level of risk associated with the executives' total direct compensation package. Dr. Kao and Mr. Pemble discussed with the Compensation Committee compensation recommendations for each of the executives, other than their own respective compensation. Dr. Kao and Mr. Pemble attended meetings of the Compensation Committee in 2012 to discuss 2013 executive compensation matters, but they are not members of the Compensation Committee and do not vote on Compensation Committee matters. Dr. Kao and Mr. Pemble were not present for certain portions of Compensation Committee meetings, such as when the Compensation Committee discussed their own respective performance and individual compensation.

The Compensation Committee did not engage a compensation consultant in connection with setting the 2013 executive compensation as the Committee believed that the information obtained from a compensation consultant would not be materially different from the prior year.

The Compensation Committee reviewed data about executive compensation at other comparator companies but compensation paid at other companies is not a primary factor in the Committee's decision-making process and is not used by the Committee for benchmarking compensation. Three comparator groups were identified for 2013, (1) a group of companies from the NASDAQ 100 index, of which Garmin is a component, (2) a related industry group of companies selected on the basis that they were in similar industries to Garmin, and (3) a group of publicly traded companies located in the region surrounding the headquarters of Garmin's principal U.S. subsidiary in Olathe, Kansas (which is a suburb of Kansas City, Missouri).

Three additional companies were also considered by the Compensation Committee for last year's compensation analysis, but they have been acquired or taken private and are no longer viable peers. The three companies no longer included in the NASDAQ 100 Comparator Group are Life Technologies Corp., BMC Software Inc. and Warner Chilcott plc.

The Kansas City Region Comparator Group consisted of the following 13 companies (which were also used by the Compensation Committee for the prior year compensation analysis):

Compass Minerals International Inc.	Sprint Corporation
DST Systems Inc.	UMB Financial Corporation

Great Plains Energy Incorporated	

The Compensation Committee used the comparator groups' data primarily for the following purposes:

- To assess the overall competitiveness of Garmin's compensation programs; and
- To obtain information on compensation trends.

Elements of Compensation

Garmin's executive compensation program consists of the following elements:

Current Year's Performance: Salary and Annual Incentives

Base Salary

We believe that a competitive base compensation program is an important factor in attracting, motivating and retaining talented associates at all levels of the organization. We determine base compensation levels based generally on assessment of performance, internal equity considerations, the level of past compensation adjustments and market information obtained primarily through recruiting, retention and networking. Executives are paid a base salary as compensation for the performance of their primary duties and responsibilities.

The base salary for Garmin's Executive Chairman and Chief Executive Officer is determined annually by the Compensation Committee. The Compensation Committee's deliberations regarding the base salary of each of the Executive Chairman and the Chief Executive Officer are made without the Executive Chairman or Chief Executive Officer being present.

The base salary for each of the other Named Executive Officers is reviewed annually and is based upon the recommendation of Dr. Kao and Mr. Pemble and the executive's individual duties and responsibilities, experience and overall performance and internal equity considerations.

Because Dr. Kao, who is Garmin's Executive Chairman, owns a significant amount of Garmin shares, and, therefore, already has a strong incentive to create shareholder value, he has requested that the Compensation Committee provide him only a relatively modest base salary and that he not be awarded restricted stock units, performance shares, stock options or any other form of equity compensation. Further, because Dr. Kao became Executive Chairman in 2013, with Mr. Pemble replacing him as Chief Executive Officer, at Dr. Kao's request his base salary for 2013 was reduced from \$500,010 in 2011 and 2012 to \$350,000 for 2013.

The following table shows the base salary of each of the Named Executive Officers in 2011, 2012 and 2013 (except for Mr. Munn who first became a Named Executive Officer in 2013):

Name	2011	2012	2013
Dr. Kao	\$500,010	\$500,010	\$350,000
Mr. Pemble	\$550,002	\$600,002	\$650,000
Mr. Rauckman	\$435,001	\$500,001	\$550,000
Mr. Etkind	\$435,002	\$500,002	\$515,000
Mr. Bartel	\$380,001	\$450,001	\$467,000
Mr. Munn			\$443,012

Annual Incentive and Bonus Awards

Garmin does not offer a short-term annual incentive bonus program. Garmin's incentive compensation program for Named Executive Officers uses long-term equity incentives, which include restricted stock units, stock options and stock-settled stock appreciation rights, as described below. In 2013, Garmin's Named Executive Officers, including the Executive Chairman and the Chief Executive Officer, each received a \$256 annual holiday cash bonus (or its equivalent in Swiss francs in the case of Mr. Etkind). This is the same annual holiday cash bonus that was paid to other employees of Garmin's US and European subsidiaries.

[Back to Contents](#)

Long-Term Performance: Restricted Stock Units and Stock Options

Garmin's management and Compensation Committee believe that stock ownership is the most important element in achieving the goals of Garmin's compensation program. Stock ownership aligns the long-term interests of associates with those of shareholders, provides long-term retention incentive, and ties compensation to performance through the creation of shareholder value. While Garmin does not require a specific level of stock ownership for our associates, Garmin encourages stock ownership by offering a variety of stock compensation programs.

The form and amount of stock compensation awarded to each executive is determined by the Compensation Committee based primarily on the recommendation of Dr. Kao and Mr. Pemble (other than with regard to their own respective compensation) and the executive's individual duties and responsibilities, experience and overall performance. Factors considered by the Compensation Committee in evaluating individual performance include the executive's overall performance, the executive's performance relative to his peers within Garmin, the nature and scope of the executive's position and responsibilities, the executive's past compensation adjustments and retention considerations and the current business environment.

Restricted Stock Units

It is Garmin's practice to grant stock in the form of full value RSUs that vest over a specified time period, which provides a long-term retention incentive, aligns the interests of associates with those of other shareholders and encourages an appropriate degree of risk-taking that is consistent with long-term growth. The total value of each RSU grant is generally linked to the assessment by management, and approval by the Compensation Committee, of the value of individual performance of the recipient and its contribution to Garmin's overall performance. Since individual and Company performance are the primary drivers in determining the amounts of specific awards of RSUs, we believe that time vesting alone is the appropriate structure to achieve the objectives described above. The value of RSUs increases over time only if our share price increases, which serves to encourage improved Company performance and long-term value creation, thereby benefitting all of our shareholders. While RSUs are dependent upon share price appreciation for increased value, they also offer downside risk protection because they continue to have value even if the share price declines from the price on the date of grant. RSUs have been Garmin's primary means of long term incentive compensation since the end of 2008.

The following table shows the grant date fair value of the RSUs awarded to each of the Named Executive Officers (other than Dr. Kao) in 2011, 2012 and 2013 (except for Mr. Munn who first became a Named Executive Officer in 2013):

Name	2011 RSUs	2012 RSUs	2013 RSUs
Mr. Pemble	\$266,218	\$421,348	\$441,189

Mr. Rauckman	\$ 177,479	\$ 198,261	\$ 195,023
Mr. Etkind	\$ 177,479	\$ 198,261	\$ 195,023
Mr. Bartel	\$ 124,268	\$ 198,261	\$ 195,023
Mr. Munn			\$ 185,750

The 2013 RSU values in this table were calculated using a different methodology in accordance with accounting requirements to reflect that dividend equivalents are not paid on the awards. The value of the actual award amount approved by the Compensation Committee for each Named Executive Officer in 2013 was: Mr. Pemble, \$475,060; Messrs. Rauckman, Etkind and Bartel, \$209,995; and Mr. Munn, \$200,097.

The RSU values in this table for 2012 and 2011 were recalculated to reflect the same methodology used for the 2013 RSU values. The value of the actual award amount approved by the Compensation Committee for each Named Executive Officer in 2012 was: Mr. Pemble, \$459,357; and Messrs. Rauckman, Etkind and Bartel, \$216,154. The value of the actual award amount approved by the Compensation Committee for each Named Executive Officer in 2011 was: Mr. Pemble, \$301,821; Messrs. Rauckman and Etkind, \$201,214; and Mr. Bartel, \$140,887.

The values of the RSUs that were awarded to Mr. Pemble in December 2012 and December 2013 were higher than the value of the RSUs that were awarded to him in December 2011 because the Compensation Committee took into account that Mr. Pemble became Garmin's President and Chief Executive Officer on January 1, 2013 (prior to that date, Mr. Pemble was President and Chief Operating Officer). The values of the RSUs that were awarded to Mr. Bartel in December 2012 and December 2013 were higher than the value of the RSUs that were awarded to him in December 2011 in order to adjust for appropriate relative pay equity.

Stock Options

This element of longer-term incentive compensation is designed to enhance executive retention and to reward the recipients for delivering business performance and shareholder value over the long-term. Stock options only have value to the grantees if the stock price increases after the awards are granted, which provides an incentive to deliver business performance and shareholder value over the long-term. Furthermore, the time-based vesting feature requires that a Named Executive Officer remain with the company for a period of time before the awards are vested, enhancing retention.

Stock options were Garmin's primary means of long term incentive compensation until mid-2008, after which the company began using RSUs. However, in December 2011 and December 2012, the Compensation Committee granted stock options to Mr. Pemble and to Mr. Rauckman, who is Garmin's Chief Financial Officer. The Compensation Committee decided to grant stock options for these awards rather than RSUs because stock options are performance based as they only have value if the stock price increases after the grant date and declines in the stock price after the grant date have a negative impact on the value (i.e. if the stock price declines below the price on the stock option grant date, the option has no value), thereby directly correlating to our shareholders' interests (whereas RSUs have value even if the stock price does not increase after the grants). Thus, the Compensation Committee believed that these

stock option awards would provide incentives to Mr. Pemble and to Mr. Rauckman that

[Back to Contents](#)

are particularly aligned with the interests of Garmin’s shareholders. The Compensation Committee believes that this is particularly important with respect to Mr. Pemble and Mr. Rauckman given their critical leadership and management roles as Chief Executive Officer and Chief Financial Officer, respectively.

The following table shows the grant date fair value of the stock options awarded to each of Mr. Pemble and Mr. Rauckman in 2011 and 2012 (none of the other Named Executive Officers were granted stock option awards in 2011 or 2012, and no stock options were granted to any of the Named Executive Officers in 2013):

Name	2011 Stock Options	2012 Stock Options
Mr. Pemble	\$297,157	\$451,496
Mr. Rauckman	\$148,578	\$159,360

The value of the stock options that were awarded to Mr. Pemble in December 2012 was higher than the value of the stock options that were awarded to him in 2011 because the Compensation Committee took into account that Mr. Pemble became Garmin’s President and Chief Executive Officer on January 1, 2013 (prior to that date, as discussed above, Mr. Pemble was President and Chief Operating Officer).

The Compensation Committee decided to grant Mr. Pemble and Mr. Rauckman stock-settled stock appreciation rights rather than stock options in December 2013 for the reasons described below.

Stock –Settled Stock Appreciation Rights (“SARs”)

In December 2013, the Compensation Committee decided to grant Mr. Pemble and Mr. Rauckman SARs instead of stock options, because the Compensation Committee believed that SARs more effectively manage equity dilution and share usage, while still strongly linking the earnings of Mr. Pemble and Mr. Rauckman with the interests of shareholders.

The following table shows the grant date fair value of the SARs issued to each of Mr. Pemble and Mr. Rauckman on December 10, 2013 (none of the other Named Executive Officers were granted SARs in 2011, 2012 or 2013):⁽¹⁾

Name	2013 SARs
Mr. Pemble	\$493,298

Mr. Rauckman \$181,738

On December 3, 2013, the Compensation Committee originally approved SARs for issuance to each of Messrs. Pemble and Rauckman in the amounts of \$474,991 and \$174,993, respectively, calculated based on the (1)Black-Scholes option pricing model using pricing variables as of December 3, 2013. The 2013 SAR values in this table were calculated as of the December 10, 2013 date of issuance, using updated pricing variables as of such date.

Employee Stock Purchase Plan

Garmin offers a discounted stock purchase plan to employees. This plan allows employees to purchase Garmin shares at a per share price equal to 85% of the lesser of (a) the per share closing price of Garmin's shares on the last stock trading day of the offering period, and (b) the per share closing price of Garmin's shares on the first stock trading day of the offering period. Named Executive Officers can participate in this program under the same terms and conditions as all other employees. No employee, including Named Executive Officers, may contribute more than 10% of his or her salary to the plan or purchase more than \$25,000 worth of Garmin shares under the plan in any one calendar year.

Benefits; Retirement Contributions

Garmin's Named Executive Officers participate in the same benefits and are covered by the same plans on the same terms as provided to all employees of the Garmin entity by which they are employed. For Garmin's U.S. employees, Garmin matches employee contributions to Garmin's 401(k) plan and makes an additional employer contribution to this plan. In 2013, for all U.S. employees, including the Named Executive Officers employed by Garmin in the U.S., (a) for every dollar the employee contributed to the plan up to 10% of the employee's salary, Garmin contributed 75 cents, and (b) Garmin made an additional contribution equal to 5% of the employee's salary, whether or not the employee contributed to the plan. For 2013, no salary in excess of \$255,000 was taken into account for either of the foregoing contributions. In 2011, Garmin's Vice President, General Counsel and Corporate Secretary, Mr. Etkind, relocated from the U.S. to Switzerland and has since been employed by Garmin in Switzerland. In 2013 Garmin made contributions to Mr. Etkind's Swiss pension plan account in accordance with Swiss law.

Other Considerations

Effect of Non-Binding Shareholder Advisory Vote on Executive Compensation

At Garmin's 2013 Annual General Meeting of Shareholders, in an advisory, non-binding, vote the shareholders approved the compensation of Garmin's Named Executive Officers. Although this was only an advisory vote and the results were not binding on Garmin or the Compensation Committee, the Compensation Committee reviewed and

considered the results. The results of the advisory vote have not affected Garmin's executive compensation decisions and policies.

Perquisites

Consistent with Garmin's belief that executive compensation should be internally equitable among the executives and in relation to the broader Garmin employee population, Garmin does not provide any perquisites to any of its executives who are employed by Garmin's principal U.S. subsidiary. As part of Mr. Etkind's relocation from the U.S. to Switzerland, Garmin provides Mr. Etkind certain cost of living related benefits, such as tuition reimbursement for his child's education in an international school, and benefits that are customary for Garmin's senior managers in Europe, such as a company car.

Executive Ownership; Policies Regarding Hedging

Garmin does not have formal executive stock ownership guidelines. However, Garmin executives have received in recent years a large portion of their total direct compensation in Garmin, time-based restricted stock units and stock options. Pursuant to the Garmin Ltd. Statement of Insider Trading Policy, Garmin strongly discourages the Named Executive Officers and other insiders from engaging in transactions pursuant to which they would hedge the economic risk of Garmin stock ownership. According to the Garmin Ltd. Statement of Insider Trading Policy, any Named Executive Officer or other insider who wishes to enter into such a hedging transaction must first pre-clear the proposed transaction with Garmin's Compliance Officer. Any such request for pre-clearance of a hedging or similar arrangement must be submitted to the Compliance Officer at least two weeks prior to the proposed execution of documents evidencing the proposed transaction and must set forth a justification for the proposed transaction. The Garmin Ltd. Statement of Insider Trading Policy also provides for quarterly black-out periods related to Garmin's quarterly earnings and other potential event specific black-out periods during which "Covered Persons", including Garmin directors, officers and designated employees who regularly come into contact with material nonpublic information, may not engage in transactions involving Garmin shares (other than pursuant to a qualified Rule 10b5-1(c) Trading Plan).

Adjustment or Recovery of Awards or Payments

If the performance measures upon which compensation awards are based are restated or otherwise adjusted in a manner that would reduce the size of an award or payment, the Compensation Committee would consider on a case-by-case basis whether to adjust such award or recover such award from the executive who received the award. Garmin does not have a formal policy that would require such an adjustment to or recovery of such an award.

Tax and Accounting Considerations

The Compensation Committee reviews projections of the estimated accounting and tax impact of all material elements of the executive compensation program. Generally, an accounting expense is accrued over the requisite service period of the particular pay element (generally equal to the performance period) and Garmin realizes a tax deduction upon the payment to/realization by the executive.

Section 162(m) of the United States Internal Revenue Code (the “Code”) generally provides that publicly-held corporations may not deduct in the United States any one taxable year compensation in excess of \$1 million paid to the Chief Executive Officer and certain other highly compensated executive officers unless such compensation qualifies as “performance-based compensation” as defined in the Code and related tax regulations. While the Compensation Committee considers the deductibility of awards as one factor in determining executive compensation, the Committee also looks at other factors in making its decision, as noted above, and retains the flexibility to grant awards it determines to be consistent with Garmin’s objectives for its executive compensation program even if the award is not deductible by Garmin for tax purposes.

Severance Benefits

Garmin does not have executive severance agreements with any of its executives.

Change-in-Control Benefits

If an executive’s employment is terminated without cause, or the executive resigns with good reason, within twelve months following a change in control of Garmin, all of the executive’s unvested stock options and stock appreciation rights (SARs) would immediately become exercisable and all of the executive’s unvested RSUs and performance shares would immediately become payable. Such accelerated vesting is the only benefit that would be received by the executives upon a change in control, and such benefit would also be received by all other Garmin employees who own unvested stock options, SARs, RSUs or performance shares. This change-in-control protection is designed to provide adequate protection for executives so that they may focus their efforts on effective leadership, rather than significant compensation loss, during a time that Garmin is considering or undertaking a change in control.

- Annual discretionary cash incentive awards based on financial and non-financial factors considered by the Compensation Committee, as discussed in the Compensation Discussion and Analysis section. Mr. Rauckman received an additional cash bonus in 2013 equal to \$2,201 in recognition of his 15th anniversary with Garmin. This column shows the grant date fair value with respect to the RSUs granted in 2011, 2012 and 2013. The 2013 RSU values in this table were calculated using a different methodology in accordance with accounting requirements to reflect that dividend equivalents are not paid on the awards. As a result, the RSU values in this table for 2012 and 2011 were recalculated to reflect the same methodology used for the 2013 RSU values. See Compensation Discussion and Analysis, page 39, for information about the new methodology and the actual award amounts approved by the Compensation Committee in 2013, 2012 and 2011. See the Grants of Plan-Based Awards table for information on awards made in 2013.*

(1) Awards made in the form of Restricted Stock Units (RSUs) on December 10, 2013.

(2) Awards made in the form of Stock Appreciation Rights (SARs) on December 10, 2013. The SAR price is determined based on the average price of Garmin stock on the date of grant.

This column represents the grant date fair value of RSUs and SARs. For RSUs, that amount is calculated by multiplying the closing price of Garmin shares on the NASDAQ stock market on the date of grant, discounted in accordance with accounting requirements to reflect that dividend equivalents are not paid on the RSUs, then multiplied by the number of shares awarded. For SARs, that amount is calculated using a Black-Scholes option pricing model with weighted average assumptions, as of December 10, 2013. For additional information on the valuation assumptions with respect to the 2013 grants, refer to Note 9 of Garmin's financial statements in the Form 10-K for the fiscal year ended December 28, 2013, as filed with the SEC.
