OMEGA FLEX, INC. 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2007, and 2006

(1) Plan Description

(a) Organization

The Omega Flex, Inc. 401(k) Profit Sharing Plan (the "Plan") is a defined contribution plan and was established effective January 1, 2005 for the benefit of employees of Omega Flex, Inc. ("Omega Flex" or "the Company") and employees of its participating subsidiaries. Participants in the Plan formerly participated in the Mestek Inc. Savings and Retirement Plan (Mestek Plan). The Plan was formed in contemplation of the spin-off of the Company from its former parent corporation, Mestek, Inc., which took place on July 29, 2005. The employees contributed to the Mestek Plan until May 2005, when contributions began to be directed to this Plan. The majority of assets and account balances of the Omega Flex employees were transferred to the Plan from the Mestek Plan in December 2005.

The assets and account balance of one employee was transferred to the Plan from the Mestek Plan in February 2006, and consisted of the following:

Investment proceeds converted into pooled separate accounts and Stable Value Fund	\$23,395 =====
---	-------------------

The following description of the Plan provides only general information. Participants in the Plan should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan has two components; a 401(k) account, and a profit sharing account. The Plan covers all employees of the Company and its domestic subsidiaries who choose to participate, and who have completed at least one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), (as amended) and the Internal Revenue Code (the Code).

(b) Participants' Contributions 401(k) Account

Participating employees ("Participants") may contribute to the Plan after the first of the month following the beginning of their employment with the Company. Contributions are made through payroll deductions which may range from 1% to 50% (subject to Code limitations) of such Participant's earnings (as defined), on a before-tax basis, an after-tax basis, (for year 2005 only), or a combination thereof. Participants who are at least age 50 or older during a Plan year may make an additional "catch-up contribution" equal to a specified dollar amount on a before-tax basis (subject to Code limitations).

Edgar Filing: Omega Flex, Inc. - Form 11-K

The Plan accepts eligible rollover contributions from Participants. If a Participant has been a participant in another qualified plan, such Participant may transfer his or her eligible account balance into the Plan.

- 5 -

Edgar Filing: Omega Flex, Inc. - Form 11-K

(c) Company Contributions - 401(k) Account

To be eligible for a Company matching contribution, a Participant must have completed one year of service.

Matching contributions made by the Company are equal to 25% of the first 6% of such Participants' earnings contributed to the Plan, such that there will be no matching contributions in excess of 1.5% of a Participant's earnings for the Plan year.

For purposes of participant contributions and matched contributions, earnings are defined by the Plan document.

(d) Company Contributions - Profit Sharing Account

On an annual basis, the Company determines whether to make a discretionary Profit Sharing contribution to each eligible Participant's account, and determines the amount of such contribution. To receive Profit Sharing contributions for a given year, the participants must work at least 1,000 hours of service, as defined, during the Plan year, and be employed by the Company on the last day of the year.

For the years ended December 31, 2007 and 2006, the Company made a contribution of 3% of each eligible participant's earnings, to a maximum of \$225,000 and \$220,000, respectively, of earnings as set by Section 415 of the Code. For those participants who had earnings above the Social Security Wage Base, as defined (\$97,500 for 2007 and \$94,200 for 2006), a contribution of an additional 3% of earnings was also made for those earnings higher than the Social Security Wage Base, but below the Section 415 limitation (i.e. for 2007, an incremental 3% contribution on earnings between \$100,000 and \$225,000, and for 2006, an incremental 3% contribution on earnings between \$100,000 and \$220,000).

(e) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(f) Vesting

Participant contributions and rollover contributions, and earnings or losses thereon are fully vested at all times. Employer contributions and earnings or losses thereon are vested as follows:

Number of Years of Credited Service	Vesting percentage
Less than 1 year	0%
1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

Edgar Filing: Omega Flex, Inc. - Form 11-K

(g) In-Service and Hardship Withdrawals

While a Participant is employed with the Company, a Participant may make withdrawals in cash of amounts applicable to participant and employer contributions and earnings or losses thereon, subject to certain restrictions. A Participant can make hardship withdrawals (certain medical expenses, purchase of a principal residence, tuition payment for post-secondary education, and payments to prevent eviction from a primary residence) as defined in the Plan document. A Participant's hardship withdrawal will preclude the Participant from making additional employee before-tax contributions to the Plan for a six-month period after the hardship withdrawal. Participant before-tax contributions and matching contributions can be withdrawn after attainment of age 59 1/2. Company matching contributions (Mestek Plan) made before January 1, 2001 and participant after-tax contributions can also be withdrawn.

(h) Benefit Payments

A Participant's account balance under the Plan may be distributed upon retirement in one of two ways: lump-sum distribution, or in monthly installments over the shorter of 15 years or the participants life expectancy, as elected (subject to limits imposed by the Internal Revenue Code).

Minimum distributions are required to begin by April 1 of the calendar year following the calendar year in which the Participant attains 70-1/2 years of age.

Upon death, disability, or termination of employment, a Participant (or the Participant's beneficiary) with \$1,000 or more in vested benefits may elect to receive a lump-sum distribution equal to the Participant's vested account balance.

(i) Participant Loans

An eligible Participant may borrow up to 50 percent of the value of his or her vested before-tax and after-tax account balance, subject to a minimum of \$1,000 and a maximum of \$50,000 reduced by the highest loan balance outstanding during the prior 12 months. Loans for the purchase of a "principal residence" must be repaid in one to 15 years, at the Participant's option. Loans for all other purposes must be repaid in one to five years, at the Participant's option. These loans are made at the prevailing market interest rates equal to prime rate plus one percent. In 2007 and 2006, the applicable loan rates ranged from 5.38% to 9.25%. No more than one loan from the Plan to a Participant shall be permitted at any time. All principal and interest payments made by the Participant are credited back to the Participant's account.

(2) Summary of Accounting Policies

(a) Basis of Presentation and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied to defined contribution plans and in accordance with the terms of the trust agreement. GAAP requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions and deductions during the reporting periods. These significant estimates include the fair values of investments. Actual results could materially differ from those estimates.

(b) Investment Valuation and Income Recognition

Investments are stated at fair value. Shares of separate accounts are valued at the net unit value of units held at year end as reported by the trustee. The Omega Flex, Inc. Stock Fund is valued at its year-end unit closing price (comprised of the year-end market price of shares of Omega Flex, Inc. common stock owned by the Omega Flex, Inc. Stock Fund plus cash invested in money market fund assets). Participant loans are valued at cost plus accrued interest, which approximates fair value.

As described in Financial Accounting Standards Board Staff Position AAGINV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contract Held By Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*, (collectively the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount Participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits prepared on a contract basis. The contract value approximates the fair value of its investments.

The Plan adopted the financial statement presentation and disclosure requirements effective December 31, 2006 and has applied the requirements retroactively. The effect of adopting the FSP had no impact on net assets which have been historically presented at contract value.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation or depreciation in the fair value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

New Pronouncement

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements. SFAS 157 defines fair value, establishes a framework for measuring fair value, expands disclosures about fair value measurements and is effective for fiscal years beginning after November 15, 2007. Plan Management is currently evaluating the effects, if any, that FAS 157 will have on the Plan s Financial Statements.

(c) Payment of Benefits

Benefits are recorded when paid.

(d) Forfeitures

Forfeitures of terminating participants are used to first pay for Plan expenses. Any remaining forfeitures will be used to reduce the Company s subsequent contributions to the Plan. As of December 31, 2007 and 2006, there were \$122 and \$9,620, respectively, in allocated forfeitures available to reduce Plan expenses and/or Company contributions. For the year ended December 31, 2007, \$7,843 was used to reduce the Company s contribution and \$1,541 was used to reduce Plan expenses.

(3) Fund Management

Under the terms of a trust agreement the Plan assets were held and managed by the Investors Bank and Trust Company (IBT), which had full discretionary power over investments options in the Plan subjected to the limitations thereon imposed by the investment objectives of the various funds and the provisions of ERISA. On November 30, 2006, the assets and account balances held and managed by IBT the Plan entered a new trust agreement with and transferred to Prudential Bank & Trust, FSB (PBT , or the Trustee). PBT has full discretionary power over investments options in the Plan subject to the limitations thereon imposed by the investment objectives of the various funds and the provisions of ERISA.

The Plan Administrator, who is an officer of the Company and the Named Fiduciary, has full authority to control and manage the operation and administration of the Plan.

(4) Party-in-Interest Transactions

For the period from January 1, 2005 through November 30, 2006, the Plan invests in pooled separate accounts managed by TransAmerica Life Insurance and Annuity Company (TransAmerica), an affiliate of Investors Bank and Trust Company. TransAmerica was the custodian and recordkeeper of the Plan. IBT was the trustee of the Plan and therefore these transactions qualify as party-in-interest transactions.

For the period from November 30, 2006 through December 31, 2007, the Plan invests in pooled separate accounts managed by Prudential Retirement Insurance and Annuity Company (Prudential), an affiliate of Prudential Bank & Trust, FSB. Prudential is the custodian and recordkeeper of the Plan. PBT is the trustee of the Plan and therefore these transactions qualify as party-in-interest transactions.

(5) Omega Flex, Inc. Stock Fund

All fund options within the Plan are intended to be Participant directed, which means that each Participant may invest his or her contributions, and any Company matching contributions in any one of the investment funds offered under the Plan from time to time. In addition to a number of funds offered by the Plan trustee, Participants may elect to invest some of their contributions in an Omega Flex, Inc. stock fund that invests primarily in the common stock of Omega Flex, Inc. However, this fund had been frozen to investment transactions during 2005 and part of 2006 due to the lack of an effective registration statement for this offering within the Plan. The units of the Omega Flex stock fund were frozen from the time of the transfer-in of the securities through the date of declaration of an effective registration statement (Form S-8) with the US Securities and Exchange Commission covering the underlying shares. Such registration statement was filed on June 30, 2006. Thus, effective June 30, 2006, the Omega Flex, Inc. Stock Fund became available for activities. The assets that do exist in the stock fund as of December 31, 2006 and 2007 were transferred in as balances from the Mestek Plan, and represent asset balances that had been previously invested by the participants in the Mestek, Inc. Stock Fund within the Mestek Plan.

Edgar Filing: Omega Flex, Inc. - Form 11-K

Information about the net assets and the significant components of the changes in net assets relating to the participant-directed investments is as follows:

Balance at December 31,	<u>2007</u>	<u>2006</u>
Omega Flex, Inc. Common Stock	\$113,492 =====	\$78,503 =====
Activity for the Year Ended December 31		
Balance at Beginning of Year	\$78,503	\$65,658
Changes in Net Assets Available for Benefits:		
Participant loans (net of repayments)	(3,125)	-
Net Appreciation (Depreciation) of fair value	(29,350)	12,845
Interest on participant loans	313	-
Dividends	1,515	-
Net contributions	65,677	-
Administrative expense	(41)	-
Balance at End of Year	\$113,492 =====	\$78,503 =====

(6) Plan Expenses

The Company currently pays administrative expenses of the Plan, with the exception of certain asset based investment fees. However, the Company has the right to charge future expenses to the Plan.

(7) Plan Termination

The Plan has no termination date and it is the Company's current intention to continue the Plan indefinitely. However, the Company may terminate, amend, modify or suspend the Plan at any time subject to the provisions of ERISA. In the event of a Plan termination, Participants would become fully vested in the balance of their accounts and the Plan assets would be distributed in accordance with the terms of the Plan.

(8) Tax Status of the Plan

The Internal Revenue Service issued a determination letter on April 17, 2002, which stated that the Volume Submitter Plan document adopted by Transamerica qualifies under the provisions of Section 401(a) of the Code and therefore, is exempt from federal income taxes under provisions of Section 501(a) of the Code. The Plan and its related Trust have adopted this Volume Submitter Plan. The Plan has been amended since receiving the determination letter, however the Company believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the Code and ERISA.

Edgar Filing: Omega Flex, Inc. - Form 11-K

The investment agreement issued by Prudential is a group annuity contract that funds benefits for plans qualified under Section 401(a) of the Internal Revenue Code and is designed to comply with state insurance department standards.

- 10 -

(9) Investments

(a) Investment Balances

The Plan's investments, that exceed 5% of net assets available for Plan benefit, consisted of the following at December 31,

	<u>2007</u>	<u>2006</u>
Core Plus Bond/PIMCO Fund	\$440,327	\$415,565
Small Cap Value/Kennedy Capital Fund	302,027	241,909
Goldman Sachs Structured Large Cap Growth A Fund	319,663	257,718
Guaranteed Income Fund	969,469	773,432
Large Cap Value/AJO Fund	415,464	464,632
International Blend/The Boston Company Fund	264,626	n/a
Large Cap Blend/Victory Fund	334,010	238,754
Retirement Goal 2030 Fund	338,737	315,433
Retirement Goal 2020 Fund	285,381	229,409

Edgar Filing: Omega Flex, Inc. - Form 11-K

(b) Net Appreciation (Depreciation) in Fair Value of Investments

During 2007 and 2006, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), appreciated (depreciated) in fair value as follows:

	<u>2007</u>	<u>2006</u>
Assets valued based upon Fair Value:		
Omega Flex, Inc. Stock Fund	(\$29,350)	\$12,845
Assets valued based upon Estimated Fair Value:

Subtotal	182,310	309,053
	<u>\$152,960</u>	<u>\$321,898</u>
	=====	=====

(c) Guaranteed Investment Contracts

Transamerica Contract

Prior to November 30, 2006, the Plan participated in a contract with TransAmerica via investments in the Stable Fund (SF), which by definition is considered to be guaranteed investment contract, or GIC. In certain instances when total distributions or transfers in the Stable Fund within a calendar year exceed pre-determined thresholds, transactions in the SF may face certain restrictions, in accordance with the contract terms. This could potentially result in the SF not being fully benefit responsive in certain instances.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to guaranteed investment contract. Contract value as reported to the Plan by TransAmerica, represents contributions made under the contract, plus earnings, less Participant withdrawals and administrative fees. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their account balances at contract value.

TransAmerica maintains the contributions and invests them in TransAmerica's general account. The TransAmerica Stable Value Fund is fully benefit-responsive. The Stable Value Fund was credited with guaranteed interest rates between 3.4% and 3.5% (which approximates the average yield during the year of 3.47%) between May 2005 and November 2006. Interest rates on the contract reset monthly. The contract is charged for Plan withdrawals and administrative expenses by TransAmerica. The contract is included in the financial statements at contract value, as reported to the Plan by TransAmerica. There are no reserves against contract value for the credit risk of the contract issuer or otherwise.

Prudential contract

On November 30, 2006, the assets and account balances of the TransAmerica Stable Value Fund were transferred to Prudential's Guaranteed Income Fund (GIF). After November 30, 2006, the Plan participated in a contract with Prudential via investments in the GIF, which by definition is considered to be guaranteed investment contract, or GIC. In certain instances when total distributions or transfers in the GIF within a calendar year exceed pre-determined thresholds, transactions in the GIF may face certain restrictions, in accordance with the contract terms. This could potentially result in the GIF not being fully benefit-responsive in certain instances.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to guaranteed investment contract. Contract value as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less Participant withdrawals and administrative fees. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their account balances at contract value.

Interest is credited on contract balances using a single portfolio rate approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rate are reviewed on a semi-annual basis for resetting.

Edgar Filing: Omega Flex, Inc. - Form 11-K

When establishing interest crediting rates for this product, Prudential considers many factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within the issuer's general account. These rates are established without the use of a specific formula. The minimum credit rate under the contract is 1.50%. Average earnings yield and average credit rate yield for both 2007 and 2006 was 3.55%.

For the period presented, the average earnings yield is calculated by dividing the earnings credited to the Plan on the last day of the Plan year by the end of the Plan year fair value and then annualizing the result. The average crediting rate yield is calculated by dividing the earnings credited to the Participants on the last day of the Plan year by the end of the Plan year fair value and then annualizing the result. As a result of current stable value product construction, no adjustments will be required to mediate between the average earnings credited to the Plan and the average earnings credited to the Participants.

Key factors that could influence future average interest crediting rate include, but not limited to: participant directed cash flows; changes in interest rates; total return performance of the securities underlying the contract; or default or credit failure of any of the securities, investment contracts, or other investments held in the Plan.

There are certain events not initiated by Participants that limit the ability of the Plan to transact with the issuer of a GIC at its contract value. Examples of such events include: The Plan's failure to qualify under the Code; full or partial termination of the Plan; involuntary termination of employment as a result of a corporate merger, divestiture, spin-off or other significant business restructuring, which may include early retirement incentive programs or bankruptcy; changes to the administration of the Plan which decreases employee or employer contributions, the establishment of a competing Plan by the plan sponsor, the introduction of a competing investment option, or other Plan amendment that has not been approved by the contract issuers; dissemination of a Participant communication that is designed to induce Participants to transfer assets from this investment option; events resulting in a material and adverse financial impact on the contract issuer, including changes in the tax code, laws or regulations. The committee does not believe that the occurrence of any of the aforementioned events, which would limit the Plan's ability to transact with the issuer of a GIC at its contract value with Participants, is probable.

Edgar Filing: Omega Flex, Inc. - Form 11-K

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500 as of December 31:

	<u>2007</u>	<u>2006</u>
Net assets available for plan benefits per the financial statements	\$5,171,108	\$4,183,444
Deemed distributions not reported on financial statements		4,322
Total Receivables	(213,942)	(204,664)
	<u>\$4,957,166</u>	<u>\$3,983,102</u>
	=====	=====

The following is a reconciliation of net increase per the financial statements to the Form 5500 for the years ended December 31:

	<u>2007</u>	<u>2006</u>
Net increase per the financial statements	\$987,664	\$850,294
Deemed distributions not reported on financial statements	(4,322)	4,322
Changes in total receivables	(9,277)	(8,644)
