INFORMATION STATEMENT  
NOTICE OF STOCKHOLDER ACTION BY WRITTEN CONSENT  
December \_\_, 2012

WE ARE NOT ASKING YOU FOR A PROXY AND YOU ARE  
REQUESTED NOT TO SEND US A PROXY

To the Holders of Common Stock of Pedevco Corp.:

This Information Statement is being made available to the stockholders of record of Pedevco Corp. (“we”, “us”, or “our”, or the “Company”), as of the close of business on December 17, 2012. This Information Statement is being sent to you for information purposes only. No action is requested or required on your part.

This Information Statement is being furnished to you to inform you that the holders of shares representing a majority of the voting power of our securities have adopted, by written consent, resolutions authorizing us to adopt an amendment (the “Amendment”) to the Company’s Amended and Restated Certificate of Formation (our “Certificate of Formation”) to effect, in the discretion of our Board of Directors, a reverse stock split of the Company’s Common Stock and Series A Convertible Preferred Stock at any time prior to December 31, 2013, at a reverse split ratio in the range of 1-for-2 to 1-for-5, which specific ratio will be determined by our Board of Directors (the “Reverse Stock Split”). In lieu of any fractional share of Common Stock or Series A Convertible Preferred Stock to which a stockholder would otherwise be entitled, the Company shall issue that number of shares of Common Stock or Series A Convertible Preferred Stock as rounded up to the nearest whole share.

No action is required by you. Because the written consent of a majority of the voting power of our securities satisfies all applicable stockholder voting requirements, we are not asking you for a proxy. We are making this Information Statement available to you solely to inform you of the approval of the Amendment by the holders of a majority of the voting power of our shares. Certain rules and regulations of the Securities and Exchange Commission (“SEC”) and Section 6.202 of the Texas Business Organizations Code (the “Texas BOC”), require that we notify you of these approvals because they were obtained by written consent of the holders of the majority voting power in lieu of a meeting. We will pay all costs associated with the preparation and distribution of this Information Statement, including all mailing and printing expenses.

This Information Statement is being first sent or given to security holders on or about December 17, 2012. The Amendment will be filed with the Secretary of State of Texas if and when the Board of Directors determines, in its sole discretion, but in no event sooner than 20 calendar days after the date this Information Statement is first mailed to our stockholders (or, on or after January 7, 2013) and no later than December 31, 2013.

WE ARE NOT ASKING YOU FOR A PROXY AND YOU ARE REQUESTED NOT TO SEND A PROXY.

Statements in this Information Statement regarding our anticipated registered public offering do not constitute an offer to sell or a solicitation of an offer to buy any securities.

Important Notice regarding the Availability of Information Statement:

This Information Statement will be available on the Company's website at: [www.pacificenergydevelopment.com](http://www.pacificenergydevelopment.com)

**ACTION BY WRITTEN CONSENT**

On December 3, 2012, the Company's Board of Directors approved a reverse stock split of its common stock and Series A preferred stock in a ratio between 1-for-2 and 1-for-5, with the specific ratio and effective time to be determined by the board of directors, subject to stockholder approval.

Article IX of our Certificate of Formation, as authorized by Section 6.202 of the Texas BOC, provides that, whenever the vote of stockholders at a meeting thereof is required or permitted to be taken for or in connection with any corporate action, the meeting and vote of stockholders may be dispensed with and such action may be taken with the written consent of stockholders having not less than the minimum percentage of the vote required by the Texas BOC. Our Bylaws, as amended, also permit action to be taken by written consent of the stockholders holding at least a majority of the voting power of the company. In order to eliminate the costs and management time involved in holding a special meeting, our Board of Directors decided to obtain, and did in fact obtain, the written consent of stockholders who collectively hold the requisite number of votes necessary to authorize or take such action.

**DISSENTERS' RIGHT OF APPRAISAL**

Under the Texas BOC and our Certificate of Formation and Bylaws, no stockholder has any right to dissent to the Amendment, and no stockholder is entitled to appraisal of or payment for their shares of our stock.

**OUTSTANDING SHARES AND VOTING RIGHTS**

Our authorized capitalization consists of 200,000,000 shares of Common Stock, and 100,000,000 shares of Preferred Stock, of which 25,000,000 shares have been designated as Series A Convertible Preferred Stock. As of December 3, 2012, we had 21,066,281 shares of Common Stock issued and outstanding, and 20,371,194 shares of Series A Convertible Preferred Stock issued and outstanding.

The holders of Common Stock are entitled to one vote per share with respect to the election of any director or any other matter upon which stockholders are required or permitted to vote. The holders of Series A Convertible Preferred Stock vote together with the holders of our Common Stock as a single class (on an as converted basis) on all matters to which our stockholders have the right to vote, except as may otherwise be required by law. The shares of our Series A Convertible Preferred Stock are convertible into shares of Common Stock on a one for one basis.

**CONSENTING STOCKHOLDERS**

Our Certificate of Formation, as authorized by Section 21.365 of the Texas BOC, provides that the affirmative vote of the holders of a majority of the voting power of all of the then outstanding shares of capital stock of the Company entitled to vote generally in the election of directors, voting together as a single class, shall be required to amend or repeal the provisions of the Certificate of Formation.

Section 6.202 of the Texas BOC provides that the certificate of formation of an entity may authorize the stockholders of the entity to take action without holding a meeting, providing notice, or taking a vote if stockholders of the entity having at least the minimum number of votes that would be necessary to take the action that is the subject of the consent at a meeting, in which each stockholder entitled to vote on the action is present and votes, sign a written consent or consents stating the action taken. Article IX of our Certificate of Formation provides that whenever the vote of stockholders at a meeting thereof is required or permitted to be taken for or in connection with any corporate

action, the meeting and vote of stockholders may be dispensed with and such action may be taken with the written consent of stockholders having not less than the minimum percentage of the vote required by the Texas Business Organizations Code, as revised, provided that prompt notice shall be given to all stockholders of the taking of corporate action without a meeting and by less than unanimous consent. Our Bylaws contain a similar provision.

Effective December 3, 2012, the Reverse Stock Split was approved by holders of an aggregate of 58% of our outstanding Common Stock as of December 3, 2012, representing the 12,205,000 shares of Common Stock collectively beneficially owned by Frank C. Ingriselli, our Executive Chairman of the Board, Chief Executive Officer and President, Michael L. Peterson, our Chief Financial Officer, Executive Vice President and Director, Jamie Tseng, our Senior Vice President, Managing Director, and Director, and Clark R. Moore, our Executive Vice President, General Counsel and Secretary (collectively, the "Common Consenting Stockholders").

Effective December 5, 2012, the Reverse Stock Split was approved by holders of an aggregate of approximately 51% of the Series A Convertible Preferred Stock as of December 3, 2012, representing the 10,450,810 shares of Series A Convertible Preferred Stock collectively beneficially owned by Mr. Ingriselli, MIE Holdings Corporation, KKSH Holdings Ltd., Greg and Linda Galdi, Esenjay Oil & Gas, Ltd., William M. and Pamela P. Wicker, David Lies, Nearon Enterprises LLC, Yng-Jou Joe Hwang, and Chen-Bin Su (collectively, the "Preferred Consenting Stockholders," and, together with the Common Consenting Stockholders, the "Consenting Stockholders").

Accordingly, the Amendment was duly approved and no further votes will be needed. No consideration was paid for the consent of any consenting stockholder.

## REVERSE STOCK SPLIT

The Texas BOC permits a corporation's Board of Directors to effect a reverse stock split within a reasonable period of time following stockholder approval of a reverse stock split within a specific range, as long as the corporation's Board of Directors approves the specific reverse stock split ratio within the range specified. Our Board of Directors has unanimously adopted, and the Consenting Stockholders have approved, a resolution to grant discretionary authority to our Board of Directors to amend our Certificate of Formation to effect, in the discretion of our Board of Directors, a reverse stock split of the Company's Common Stock and Series A Convertible Preferred Stock at any time prior to December 31, 2013, at a reverse split ratio in the range of 1-for-2 to 1-for-5, which specific ratio will be determined by our Board of Directors (the "Reverse Stock Split"). The Company reserves the right not to file the Amendment and effect the Reverse Stock Split if our Board of Directors does not deem it to be in the best interests of the Company and its stockholders. The form of the Amendment to our Certificate of Formation that would effect the Reverse Stock Split is attached to this Information Statement as Appendix A. The Reverse Stock Split, if implemented, would not change the number of authorized shares of Common Stock or Preferred Stock or the par value of our Common Stock or Preferred Stock.

The Board of Directors has been given the discretionary authority to select any whole number ratio in the range of 1-for-2 to 1-for-5 for the Reverse Stock Split. The same reverse split ratio will be applied to the Common Stock and the Series A Convertible Preferred Stock. In determining which ratio to implement, if any, our Board may consider, among other things, factors such as:

the historical trading price and trading volume of our Common Stock;

the then prevailing trading price and trading volume of our Common Stock and the anticipated impact of the Reverse Stock Split on the trading market for our Common Stock; and

prevailing general market and economic conditions.

The Board of Directors also has been given the discretionary authority to determine the effective time of the Reverse Stock Split, provided the Reverse Stock Split is implemented no earlier than 20 calendar days after the date this Information Statement is first mailed to our stock holders and no later than December 31, 2013. We plan to implement the Reverse Stock Split in connection with our application to have our Common Stock listed for trading on the NYSE MKT or a similar national securities exchange, as disclosed in our Registration Statement on Form S-1 filed on October 10, 2012, as amended (the "Registration Statement"). While we intend to apply for listing in connection with our anticipated registered public offering pursuant to our Registration Statement, the Board of Directors may determine to implement the Reverse Stock Split irrespective of such offering. We cannot guarantee when or if we will complete our registered public offering, or when or if we will receive approval to have our Common Stock listed for trading on the NYSE MKT or a similar national securities exchange.

Statements in this Information Statement regarding our anticipated registered public offering do not constitute an offer to sell or a solicitation of an offer to buy any securities.

The Reverse Stock Split will not change the number of authorized shares of Common Stock or Preferred Stock or the par value of our Common Stock or Preferred Stock. Except for any insignificant changes as a result of the treatment of fractional shares, each stockholder will hold the same percentage of Common Stock and Series A Convertible Preferred Stock outstanding immediately prior to the Reverse Stock Split as the stockholder did immediately prior to the split.

Purpose

As previously announced in the Company's Registration Statement, we intend to apply to list our Common Stock on the NYSE MKT in connection with our anticipated public offering of our Common Stock. In order to be eligible for initial listing, the NYSE MKT requires a minimum market price of \$2 per share, or \$3 per share in certain circumstances. As of December 6, 2012, the closing price of our Common Stock was \$2.00 per share. While the market price for our Common Stock currently meets the lowest price requirement, the Company believes that the Reverse Stock Split would further increase the market price for the Common Stock, thereby granting greater assurance that the Common Stock will be eligible for listing.

In addition to the benefits of being eligible for listing on the NYSE MKT, an increase in market price of the Common Stock could increase the marketability and liquidity of the Company's Common Stock, as well as increase the profile of the Company for private investment, acquisitions and other future opportunities that become available to the Company. Accordingly, it is the Board's opinion that the Reverse Stock Split would provide the stockholders a greater potential return.

#### Certain Risks Associated With the Reverse Stock Split

There can be no assurance that the market price per share of our Common Stock after the Reverse Stock Split will rise or remain constant in proportion to the reduction in the number of shares of our Common Stock outstanding before the Reverse Stock Split. The market price of our Common Stock will in part be based on our performance and other factors, some of which are unrelated to the number of shares outstanding. If the Reverse Stock Split is effected and the market price of our Common Stock declines, the percentage decline as an absolute number and as a percentage of our overall market capitalization may be greater than would occur in the absence of a Reverse Stock Split. In certain cases, both the total market capitalization of a company and the market price of a share of such company's common stock following a Reverse Stock Split are lower than they were before the Reverse Stock Split. Furthermore, the liquidity of our Common Stock could be adversely affected by the reduced number of shares that would be outstanding after the Reverse Stock Split.

As such, we cannot assure you that our Common Stock will maintain a high enough per share trading price to remain eligible for listing on the NYSE MKT. Furthermore, regardless of the Reverse Stock Split, we cannot guarantee that our Common Stock will otherwise be approved for listing on the NYSE MKT, or if approved, that we will be able to maintain our listing after approval. Until our Common Stock is approved for listing on the NYSE MKT or other national securities exchange, our Common Stock will continue to be traded on the OTC Bulletin Board.

## Principal Effects of the Reverse Stock Split

Corporate Matters. The Reverse Stock Split will have the following effects:

the number of shares of our Common Stock and Series A Convertible Preferred Stock issued and outstanding will be reduced according to the Reverse Stock Split ratio;

proportionate adjustments will be made to the per share exercise price and the number of shares issuable upon the exercise of all outstanding options and warrants to purchase shares of our Common Stock and Series A Convertible Preferred Stock, which will result in approximately the same aggregate exercise price being required to be paid upon exercise of such options and warrants after the Reverse Stock Split as immediately before the Reverse Stock Split;

the current maximum number of shares that may be issued under our current stock incentive plans and the current Section 162(m) limitation under our current stock incentive plans will be reduced according to the Reverse Stock Split ratio.

The Reverse Stock Split will be effected simultaneously for all of our Common Stock and Series A Convertible Preferred Stock and the ratio will be the same for all of our Common Stock and Series A Convertible Preferred Stock. The Reverse Stock Split will affect all of our stockholders uniformly and will not affect any stockholder's percentage ownership interest in the Company or proportionate voting power, except to the extent that the Reverse Stock Split results in rounding up to eliminate fractional shares of our Common Stock or Series A Convertible Preferred Stock resulting from the Reverse Stock Split. Because the Reverse Stock Split is being applied to the Common Stock and the Series A Convertible Preferred Stock in the same ratio, after the Reverse Stock Split, the Series A Convertible Preferred Stock will continue to be convertible into Common Stock on a one-for-one basis.

The Reverse Stock Split, if implemented, would not change the number of authorized shares of Common Stock or Preferred Stock or the par value of our Common Stock or Preferred Stock.

Fractional Shares. No scrip or fractional certificates will be issued in connection with the Reverse Stock Split. All such shares will be rounded up to the next whole share.

Odd Lots. If effected, the Reverse Stock Split will result in some stockholders owning "odd lots" of less than 100 shares of our Common Stock. Brokerage commissions and other costs of transactions in odd lots are generally somewhat higher than the costs of transactions in "round lots" of even multiples of 100 shares.

Authorized Shares. The Reverse Stock Split will not affect the number of authorized shares of Common Stock or Preferred Stock, or the number of shares of Preferred Stock designated as Series A Convertible Preferred Stock. Upon the effectiveness of the Reverse Stock Split, because the number of authorized shares of Common Stock and Preferred Stock in our Certificate of Formation will not change, the number of authorized shares of Common Stock and Preferred Stock that are not issued or outstanding (and are therefore available for future issuance) would increase due to the reduction in the number of shares of our Common Stock and Series A Convertible Preferred Stock issued and outstanding resulting from the Reverse Stock Split. As of the record date, we had authorized capitalization consisted of 200,000,000 shares of Common Stock, and 100,000,000 shares of Preferred Stock, of which 25,000,000 shares have been designated as Series A Convertible Preferred Stock. As of December 3, 2012, we had 21,066,281 shares of Common Stock issued and outstanding, and 20,371,194 shares of Series A Preferred Stock issued and outstanding. Authorized but unissued Common Stock and Preferred Stock will be available for future issuance, and we may issue such shares in financings or otherwise. The Board of Directors does not intend to solicit further stockholder approval prior to the issuance of any authorized shares of Common Stock or Preferred Stock, except as

may be required by applicable law. If we issue additional shares, the ownership interest of our current stockholders may be diluted. Any future issuance of Preferred Stock may have rights, preferences or privileges senior to those of our Common Stock. Except as set forth in the Registration Statement, we have no present plan, agreement or understanding to issue any of our authorized but unissued shares of Common Stock or Preferred Stock if the Reverse Stock Split is effected.

**Anti-Takeover Effects.** A possible effect of the Reverse Stock Split is to discourage a merger, tender offer or proxy contest, or the assumption of control by a holder of a large block of the Company's voting securities and the removal of incumbent management. Our management could use the additional shares of Common Stock and Preferred Stock available for issuance to resist or frustrate a third-party take-over effort favored by a majority of the independent stockholders that would provide an above market premium by issuing additional shares of Common Stock of Preferred Stock.

The Reverse Stock Split is not the result of management's knowledge of an effort to accumulate the Company's securities or to obtain control of the Company by means of a merger, tender offer, solicitation or otherwise. Nor is the Reverse Stock Split a plan by management to adopt a series of amendments to the Company's charter or by-laws to institute an anti-takeover provision. The Company does not have any plans or proposals to adopt other provisions or enter into other arrangements that may have material anti-takeover consequences.

**Accounting Matters.** The Reverse Stock Split will not affect the par value of our Common Stock or Preferred Stock. As a result, as of the effective time of the Reverse Stock Split, the stated capital on our balance sheet attributable to Common Stock and Preferred Stock will be reduced proportionately based on the Reverse Stock Split ratio, and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. The per share net income or loss and net book value of our Common Stock and Preferred Stock for past financial periods will be conformed accordingly.

#### Procedure for Effecting Reverse Stock Split and Exchange of Stock Certificates

The Reverse Stock Split would become effective upon the filing and effectiveness of a Certificate of Amendment to the Certificate of Formation with the Secretary of State of the State of Texas. The Board of Directors has been given the discretionary authority to determine the effective time of the Reverse Stock Split, provided the Reverse Stock Split is implemented no earlier than 20 calendar days after the date this Information Statement is first mailed to our stockholders and no later than December 31, 2013. Beginning at the effective time, each certificate representing Common Stock or Series A Convertible Preferred Stock prior to the Reverse Stock Split will automatically be deemed for all corporate purposes to evidence ownership of the number of shares shown on such certificate reduced according to the Reverse Stock Split ratio. **STOCKHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATES AND SHOULD NOT SUBMIT ANY CERTIFICATES UNLESS REQUESTED TO DO SO.**

If the Board fails to implement the Reverse Stock Split by December 31, 2013, stockholder approval would be required again prior to implementing any stock split.

## Federal Income Tax Consequences of the Reverse Stock Split

The following is a summary of certain material federal income tax consequences of the Reverse Stock Split, does not purport to be a complete discussion of all of the possible federal income tax consequences of the Reverse Stock Split and is included for general information only. Further, it does not address any state, local or foreign income or other tax consequences. Also, it does not address the tax consequences to holders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, nonresident alien individuals, broker-dealers and tax-exempt entities. The discussion is based on the provisions of the United States federal income tax law as of the date hereof, which is subject to change retroactively as well as prospectively. This summary also assumes that the shares of Common Stock and Series A Convertible Preferred Stock prior to the Reverse Stock Split (the "Pre-Split Shares") were, and the shares of Common Stock and Series A Convertible Preferred Stock after to the Reverse Stock Split (the "Post-Split Shares") will be, held as a "capital asset," as defined in the Internal Revenue Code of 1986, as amended (i.e., generally, property held for investment). The tax treatment of a stockholder may vary depending upon the particular facts and circumstances of such stockholder. Each stockholder is urged to consult with such stockholder's own tax advisor with respect to the tax consequences of the Reverse Stock Split.

No gain or loss should be recognized by a stockholder upon such stockholder's exchange of the Pre-Split Shares for the Post-Split Shares pursuant to the Reverse Stock Split. The aggregate tax basis of the Post-Split Shares received in the Reverse Stock Split will be the same as the stockholder's aggregate tax basis in the Pre-Split Shares exchanged therefore. The stockholder's holding period for the Post-Split Shares will include the period during which the stockholder held the Pre-Split Shares surrendered in the Reverse Stock Split.

Our view regarding the tax consequences of the Reverse Stock Split is not binding on the Internal Revenue Service or the courts. Accordingly, each stockholder should consult with his or her own tax advisor with respect to all of the potential tax consequences to him or her of the Reverse Stock Split.

#### Changes in Control

On July 27, 2012, we acquired Pacific Energy Development Corp., a privately held Nevada corporation, pursuant to a transaction in which Pacific Energy Development Corp. merged with one of our subsidiaries and thereby became our wholly owned subsidiary. In connection with the merger, we changed our name from Blast Energy Services, Inc. to PEDEVCO CORP.

As part of the merger, we issued to the stockholders of Pacific Energy Development Corp. (a) 17,917,261 shares of our Common Stock, (b) 19,616,676 shares of our newly created Series A Convertible Preferred Stock, (c) warrants to purchase an aggregate of 1,120,000 shares of our Common stock and 692,584 shares of our Series A Convertible Preferred Stock at various exercise prices, and (d) options to purchase an aggregate of 4,235,000 shares of our Common Stock at various exercise prices. Pursuant to the merger, we also converted all of our shares of Preferred Stock that were outstanding prior to the merger into shares of Common Stock on a one-for-one basis and effected a reverse stock split of our common stock on a 1 for 112 shares basis. As a result of the foregoing, the former stockholders of Pacific Energy Development Corp. could be deemed to have gained voting control of the Company. The current beneficial ownership of the securities of the Company is set forth above. Prior to the consummation of the merger and the transactions contemplated therein, Eric A. McAfee and Clyde Berg, and entities which they beneficially owned, had voting control over an aggregate of approximately 63% of our voting securities.

Our board of directors is not aware of any arrangements, the operation of which may at a subsequent date result in a change in control of our Company.
