NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)  
June 30, 2015 and 2014

NOTE 1 - BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements of Capital Financial Holdings, Inc., a North Dakota corporation, and its subsidiaries Capital Financial Services, Inc. ("CFS") and Capital Natural Resources, Inc. ("CNR") (collectively, the "Company"), included herein have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the footnotes thereto contained in the Annual Report on Form 10-K for the year ended December 31, 2014, of Capital Financial Holdings, Inc., as filed with the SEC. The condensed consolidated balance sheet at December 31, 2014, contained herein, was derived from audited financial statements, but does not include all disclosures included in the Form 10-K and applicable under accounting principles generally accepted in the United States of America. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America, but not required for interim reporting purposes, have been condensed or omitted.

In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments (which are of a normal, recurring nature) necessary for a fair presentation of the financial statements. The results of operations for the six months ended June 30, 2015, are not necessarily indicative of operating results for the entire year.

NOTE 2 – RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

A summary of our significant accounting policies is included in Note 1 of our 2014 Form 10-K filed on March 25, 2015.

Oil and Gas Properties

CNR follows the full cost method of accounting for crude oil and natural gas operations whereby all costs related to the exploration and development of crude oil and natural gas properties are capitalized into a single cost center ("full cost pool"). Such costs include land acquisition costs, geological and geophysical expenses, carrying charges on non-producing properties, costs of drilling directly related to acquisition, and exploration activities.

As of June 30, 2015, CNR held leasehold interests on acreage located in Taylor County, Texas.

Proceeds from property sales will generally be credited to the full cost pool with no gain or loss recognized, unless such a sale would significantly alter the relationship between capitalized costs and the proved reserves attributable to these costs.

Capitalized costs are depleted and amortized on the unit-of-production method based on the estimated gross proved reserves as determined by independent petroleum engineers. The costs of unproved properties are withheld from the depletion base until such time as they are either developed or abandoned. When proved reserves are assigned or the property is considered to be impaired, the cost of the property or the amount of the impairment is added to costs subject to depletion and full cost ceiling calculations. For the three and six months ended June 30, 2015, depletion was not material to the financials.

The Company assesses all items classified as unproved property on an annual basis, or if certain circumstances exist, more frequently, for possible impairment or reduction in value. As of June 30, 2015 the Company held no unproved properties.

#### Real Estate Held for Investment

Real estate held for investment is carried at cost. Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS No. 144"), requires that a property be considered impaired if the sum of the expected future cash flows (undiscounted and without interest charges) is less than the carrying amount of the property. If impairment exists, an impairment loss is recognized, by a charge against earnings, equal to the amount by which the carrying amount of the property exceeds the fair value less cost to sell the property. If impairment of a property is recognized, the carrying amount of the property is reduced by the amount of the impairment, and a new cost for the property is established. Such new cost is depreciated over the property's remaining useful life. Depreciation is provided by the straight-line method over estimated useful lives, which range from five to 40 years.

#### Asset Retirement Obligations

Asset retirement obligation is included in other noncurrent liabilities and relates to future costs associated with the plugging and abandonment of crude oil and natural gas wells, removal of equipment and facilities from leased acreage and returning the land to its original condition. Estimates are based on estimated remaining lives of those wells based on reserve estimates, external estimates to plug and abandon the wells in the future, inflation, credit adjusted discount rates and federal and state regulatory requirements. The liability is accreted to its present value each period, and the capitalized cost is depreciated over the useful life of the related asset. As of June 30, 2015, such amounts are not material to the financial statements.

#### NOTE 3 - RECLASSIFICATION

Certain amounts in the 2014 condensed consolidated financial statements have been reclassified to conform to the 2015 presentation. These reclassifications had no effect on the Company's net income (loss).

#### NOTE 4 – BUSINESS VENTURES

On June 9, 2014, the Company launched a new wholly-owned operating subsidiary, Capital Natural Resources, Inc., by acquiring 1,000,000 shares, .001 par value common stock of Capital Natural Resources, Inc. (“CNR”) for the amount of \$100,000. Capital Natural Resources, Inc. will seek opportunities related to natural resources in the United States, including petroleum, natural gas and/or other minerals, water resources and land. The new subsidiary is expected to diversify the business operations of the Company and is unrelated to any current or past business. On June 17, 2014, the Company acquired an additional 400,000 shares, .001 par value common stock of CNR for the amount of \$40,000. On July 21, 2014, the Company acquired an additional 3,750,000 shares, .001 par value of common stock of CNR for the amount of \$375,000. As of June 30, 2015, the Company owned 5,150,000 shares of CNR.

On April 1, 2015, CNR obtained a non-operating working interest in an oil and gas property consisting of a twenty five percent interest in three oil and gas leases covering approximately 618 acres in Taylor County, Texas for a purchase price of \$90,000 paid in cash. This purchase is presented under property and equipment on the balance sheet. As of June 30, 2015, oil lease income earned \$8,672.

On May 19, 2015, CNR acquired interests in 383 acres of coal rights located in Kanawha County, West Virginia with 1,483,451 recoverable tons for a purchase price of \$1,275 paid in cash. This purchase is presented as long term assets on the balance sheet.

The purchase allocation for all three CNR transactions was based on the estimated fair value of the assets acquired.

At maturity, the notes are convertible at the option of the note holder into specified non-operating minority working interests in Baron Energy, Inc.’s oil and gas operations in Frio County, Texas. As additional compensation to the note holder, at the maturity of the notes, regardless of whether the note holder elects to convert the principal of the notes to non-operating minority working interests, the note holder will be assigned specified non-operating minority working interests in Baron Energy, Inc.’s oil and gas operations in Frio County, Texas. The note holder also has the option to receive additional working interests if it extends the maturity dates of the notes. Interest income earned as of the three months ended June 30, 2015, was \$18,750. All payments on the notes are current as of June 30, 2015, and no reduction has been made in the carrying value of the notes as of June 30, 2015.

NOTE 8 – INCOME TAXES

Deferred taxes arise because of different tax treatment between financial statement accounting and tax accounting, known as “temporary differences.” The Company records the tax effect of these temporary differences as “deferred tax assets” (generally items that can be used as a tax deduction or credit in future periods) and “deferred tax liabilities” (generally items for which the Company has received a tax deduction and has not yet been recorded in the consolidated statement of operations).

Management reviews and adjusts those estimates annually based upon the most current information available. However, because the recoverability of deferred taxes is directly dependent upon the future operating results of the Company, actual recoverability of deferred taxes may differ materially from management’s estimates.

Due to stock options forfeited, the deferred tax assets associated with stock compensation valued under the Black Scholes model were reduced. As of June 30, 2015, approximately \$20,580 was recorded as tax expense for the quarter and an accumulated amount of approximately \$289,617 has been recorded as tax expense since the beginning of stock options being forfeited.

NOTE 10 – SEGMENT REPORTING

The Company organizes its current business units into three reportable segments: broker dealer services, natural resources and holding company. The broker-dealer services segment distributes securities and insurance products to retail investors through a network of registered representatives through its wholly-owned subsidiary, Capital Financial Services, Inc. (“CFS”), a Wisconsin corporation. The natural resources segment seeks opportunities related to natural resources in the United States, including petroleum, natural gas and/or other minerals, water resources and land through its wholly-owned subsidiary, Capital Natural Resources, Inc. The holding company encompasses cost associated with business development and acquisitions, dispositions of subsidiary entities and results of discontinued operations, dividend income and recognized gains or losses.

The Company's reportable segments are strategic business units that offer different products and services. They are managed separately because each business requires different technology and marketing strategies.

NOTE 11 – LEGAL PROCEEDINGS

The Company operates in a legal and regulatory environment that exposes it to potentially significant litigation risks. Issuers of certain alternative products sold by the Company are in Bankruptcy or may have other financial difficulties. As a result of such alleged failings of alternative products and the uncertainty of client recovery from the various product issuers, the Company is subject to several legal and/or arbitration proceedings. These proceedings include customer suits and arbitrations related to the failure of Medical Capital, other alternative investments alleged to be unsuitable, the bankruptcy proceedings of the various DBSI entities and the bankruptcy of other various entities. The Company vigorously contests the allegations of the various proceedings and believes that there are multiple meritorious legal and fact based defenses in these matters. Such cases are subject to many uncertainties, and their outcome is often difficult to predict, including the impact on operations or on the financial statements, particularly in the earlier stages of a case. The Company makes provisions for cases brought against it when, in the opinion of management after seeking legal advice, it is probable that a liability exists, and the amount can be reasonably estimated. The current proceedings are subject to uncertainties and, as such, the Company is unable to estimate the possible loss or range of loss that may result from the outcome of these cases; however, results in these cases that are against the interests of the Company could have a severe negative impact on the financial position of the Company. As of June 30, 2015, the Company is a defendant in four on-going suits or arbitrations as discussed above. The Company expects to vigorously defend and ultimately prevail in these cases.

On August 7, 2015, the Company, without admitting any liability and to avoid further litigation costs, entered into a Confidential Settlement Agreement and Mutual Release (the “Settlement Agreement”) to resolve one of the four

lawsuits mentioned above in the amount of \$190,000. In addition, under the Settlement Agreement the parties entered into mutual releases of all claims. The settlement was recorded as of June 30, 2015 and is reflected within current liabilities on the balance sheet. Payment is due in full by September 6, 2015.

On April 5, 2011, several broker-dealers and their principals/officers, including the Company and John Carlson, President and Chief Compliance Officer, filed a lawsuit in the Superior Court of California for Orange County against Mayer Hoffman McCann, P.C. (“Mayer Hoffman”) captioned Signature Financial Group, Inc., et al, (“Signature”) v. Mayer Hoffman McCann, P.C., et al). The lawsuit arose out of reviews of the financial statements of Medical Capital Holdings, Inc. (“Medical Capital”) by Mayer Hoffman. In June 2009, Medical Capital was sued by the U.S. Securities and Exchange Commission (“SEC” or “Commission”), a finding was made that Medical Capital was conducting a “Ponzi scheme” and a receiver was appointed to liquidate Medical Capital. The plaintiffs in the Signature lawsuit are broker-dealers and principals of broker-dealers that sold Medical Capital investments to their clients. These plaintiffs sought to recover damages from Mayer Hoffman for the losses and expenses they incurred as a result of the Medical Capital financial deceptions and resulting expenses and losses to the plaintiffs. Specific claims asserted and relief requested included fraud-intentional misrepresentation of fact/concealment of fact, negligent misrepresentation, equitable indemnity, and declaratory relief. On September 23, 2014, the Plaintiffs entered into a Confidential Settlement and Mutual Release Agreement (the “Settlement Agreement”) with Mayer Hoffman and entities affiliated with Mayer Hoffman to settle the Plaintiffs’ claims against Mayer Hoffman and all affiliated parties of Mayer Hoffman with no admission of liability or fault by any defendant. The settlement proceeds were received on December 4, 2014 and recorded as other income on the consolidated financial statements of Capital Financial Holdings, Inc. In a matter related to the Settlement Agreement, on or about October 6, 2014, the Company filed a lawsuit seeking declaratory judgment against its former errors and omission insurance carrier - Arch Specialty Insurance Company (“Arch”) - in the Circuit Court of Wisconsin for Milwaukee County (Capital Financial Services, Inc. v. Arch Specialty Insurance Company). On or about November 24, 2014, Arch filed counterclaims against the Company. These actions are for declaratory relief in connection with a dispute over whether Arch is entitled to any portion of the settlement proceeds that the Company received in exchange for dismissing the lawsuit with Mayer Hoffman. The Company cannot predict the outcome of the above matters or estimate the possible loss or range of loss, if any. Although the proceedings are subject to uncertainties inherent in the litigation process and the ultimate disposition of these proceedings is not presently determinable, management believes that the allegations by Arch in its counterclaims are without merit and that the ultimate resolution of these matters will not have a material adverse effect on the consolidated financial condition, results of operations or cash flows of the Company.

#### NOTE 12 – SUBSEQUENT EVENTS

The Company has historically relied upon sales of its equity securities and debt instruments, as well as bank loans, for liquidity and growth. Management believes that the Company's existing liquid assets, along with cash flow from operations, will provide the Company with sufficient resources to meet its ordinary operating expenses during the next twelve months. Significant, unforeseen or extraordinary expenses may require the Company to seek alternative financing sources, including common or preferred share issuance or additional debt financing.

In addition to the liabilities coming due in the next twelve months, management expects that the principal needs for cash may be broker recruitment, repurchase shares of the Company's common stock, and debt service. Management also expects to realize increases in consultant expenses as well as increased compliance and legal costs with respect to

its broker dealer subsidiary related to regulatory and litigation matters.

Item 4. Controls and Procedures

The Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-14(c) and Rule 15c-14(c) under the Exchange Act) as of the end of the period covered by this report, pursuant to Rule 13a-15(b) of the Exchange Act. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective as of June 30, 2015, and that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed and summarized, and reported within the time periods specified by the SEC's rules and forms.

Disclosure controls and procedures are the controls and other procedures that are designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Exchange Act is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

There were no significant changes in the Company's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

We are not currently a "listed company" under SEC rules and are therefore not required to have a board comprised of a majority of independent directors or separate committees comprised of independent directors. We use the definition of "independence" under the NASDAQ Rules, as applicable and as may be modified or supplemented from time to time and the interpretations thereunder, to determine if the members of our Board are independent. In making this determination, our Board considers, among other things, transactions and relationships between each director and his/her immediate family and us, including those reported in our Annual Report on Form 10K for the year ended December 31, 2014 under the caption "Certain Relationships and Related Transactions." The purpose of this review is to determine whether any such relationships or transactions are material and, therefore, inconsistent with a determination that the directors are independent. On the basis of such review and its understanding of such relationships and transactions, our Board has determined that none of our Board members is an independent director.

## PART II - OTHER INFORMATION

### Item 1. Legal Proceedings

The Company operates in a legal and regulatory environment that exposes it to potentially significant litigation risks. Issuers of certain alternative products sold by the Company are in Bankruptcy or may have other financial difficulties. As a result of such alleged failings of alternative products and the uncertainty of client recovery from the various product issuers, the Company is subject to several legal and/or arbitration proceedings. These proceedings include customer suits and arbitrations related to the failure of Medical Capital, other alternative investments alleged to be unsuitable, the bankruptcy proceedings of the various DBSI entities and the bankruptcy of other various entities. The Company vigorously contests the allegations of the various proceedings and believes that there are multiple meritorious legal and fact based defenses in these matters. Such cases are subject to many uncertainties, and their outcome is often difficult to predict, including the impact on operations or on the financial statements, particularly in the earlier stages of a case. The Company makes provisions for cases brought against it when, in the opinion of management after seeking legal advice, it is probable that a liability exists, and the amount can be reasonably estimated. The current proceedings are subject to uncertainties and, as such, the Company is unable to estimate the possible loss or range of loss that may result from the outcome of these cases; however, results in these cases that are against the interests of the Company could have a severe negative impact on the financial position of the Company. As of June 30, 2015, the Company is a defendant in four on-going suits or arbitrations as discussed above. The Company expects to vigorously defend and ultimately prevail in these cases.

On August 7, 2015, the Company, without admitting any liability and to avoid further litigation costs, entered into a Confidential Settlement Agreement and Mutual Release (the "Settlement Agreement") to resolve one of the four lawsuits mentioned above in the amount of \$190,000. In addition, under the Settlement Agreement the parties entered into mutual releases of all claims. The settlement was recorded as of June 30, 2015 and is reflected within current liabilities on the balance sheet. Payment is due in full by September 6, 2015.

On April 5, 2011, several broker-dealers and their principals/officers, including the Company and John Carlson, President and Chief Compliance Officer, filed a lawsuit in the Superior Court of California for Orange County against Mayer Hoffman McCann, P.C. ("Mayer Hoffman") captioned Signature Financial Group, Inc., et al, ("Signature") v. Mayer Hoffman McCann, P.C., et al). The lawsuit arose out of reviews of the financial statements of Medical Capital Holdings, Inc. ("Medical Capital") by Mayer Hoffman. In June 2009, Medical Capital was sued by the U.S. Securities and Exchange Commission ("SEC" or "Commission"), a finding was made that Medical Capital was conducting a "Ponzi scheme" and a receiver was appointed to liquidate Medical Capital. The plaintiffs in the Signature lawsuit are broker-dealers and principals of broker-dealers that sold Medical Capital investments to their clients. These plaintiffs sought to recover damages from Mayer Hoffman for the losses and expenses they incurred as a result of the Medical Capital financial deceptions and resulting expenses and losses to the plaintiffs. Specific claims asserted and relief requested included fraud-intentional misrepresentation of fact/concealment of fact, negligent misrepresentation, equitable indemnity, and declaratory relief. On September 23, 2014, the Plaintiffs entered into a Confidential Settlement and Mutual Release Agreement (the "Settlement Agreement") with Mayer Hoffman and entities affiliated with Mayer Hoffman to settle the Plaintiffs' claims against Mayer Hoffman and all affiliated parties of Mayer Hoffman with no admission of liability or fault by any defendant. The settlement proceeds were received on December 4, 2014 and recorded as other income on the consolidated financial statements of Capital Financial Holdings, Inc. In a matter related to the Settlement Agreement, on or about October 6, 2014, the Company filed a lawsuit seeking declaratory judgment against its former errors and omission insurance carrier - Arch Specialty Insurance Company ("Arch") - in the Circuit Court of Wisconsin for Milwaukee County (Capital Financial Services, Inc. v. Arch Specialty Insurance Company). On or about November 24, 2014, Arch filed counterclaims against the Company. These actions are for declaratory relief in connection with a dispute over whether Arch is entitled to any portion of the settlement proceeds that the Company received in exchange for dismissing the lawsuit with Mayer Hoffman. The Company cannot predict

the outcome of the above matters or estimate the possible loss or range of loss, if any. Although the proceedings are subject to uncertainties inherent in the litigation process and the ultimate disposition of these proceedings is not presently determinable, management believes that the allegations by Arch in its counterclaims are without merit and that the ultimate resolution of these matters will not have a material adverse effect on the consolidated financial condition, results of operations or cash flows of the Company.
