PART III NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

As disclosed in the current report on Form 8-K filed by Insight Enterprises, Inc. (the Company) with the Securities and Exchange Commission on February 10, 2009, the Company announced that it is in the process of reviewing its historical accounting treatment since 1996 of certain aged trade credits created in the ordinary course of business and is in the process of conducting an assessment of internal control over financial reporting. The Audit Committee of the Company's Board of Directors (the Audit Committee) concluded, after discussions and consultations with management and the Company's independent registered public accounting firm, and upon management's recommendation, that certain of the Company's historical financial statements will require restatement. In addition, the Company announced that it has concluded that a material weakness exists in its internal control over financial reporting. The Company's review of its historical accounting practices and the Company's assessment of its internal controls over financial reporting are still ongoing. Accordingly, the Company will not be in a position to timely file its Annual Report on Form 10-K for the year ended December 31, 2008. The Company plans to file its Annual Report on Form 10-K for the year ended December 31, 2008 as soon as practicable, but does not expect that it will be filed on or before the fifteenth calendar day following the required filing date as prescribed in Rule 12b-25.

The Company expects that the restatement of its financial statements will include a material reduction of retained earnings as of December 31, 2004 related to the accumulation of such errors in prior periods. Because management's and the Audit Committee's review of the Company's historical accounting practices is still ongoing, the Company has

not determined the final aggregate amount of the required restatement or the amount in any specific period; however, the Company expects the total restatement charge to be between \$50 million and \$70 million, excluding any tax effects. The Company expects that the final settlement of these liabilities may take multiple years and may be settled for less than the estimated liability. However, the Company cannot provide any assurances that the final settlement will be materially lower.

The Company has informed the administrative agents under its revolving credit facility, its accounts receivable securitization financing facility and its inventory financing facility of its intention to restate its financial statements and the status of its ongoing accounting review, and has requested and obtained waivers from default with respect thereto from its administrative agents under those facilities. Under the terms of those waivers, the Company has until May 15, 2009 to deliver its restated consolidated financial statements for the fiscal year ended December 31, 2007, its restated selected quarterly financial information for each of the three fiscal quarters ended March 31, 2008, June 30, 2008 and September 30, 2008, and its consolidated financial statements for the fiscal year ended December 31, 2008.

Yes No

- (3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

Reference is made to the Company's press release issued on February 9, 2009 and included as an exhibit to the Company's Current Report on Form 8-K filed February 10, 2009, in which the Company reported preliminary financial results for the fourth quarter, which results specifically excluded the effect of the Company's announced restatement and other final year end and tax adjustments, and indicated decreases in the Company's net sales, gross profit and net income compared to the corresponding quarter for 2007. For the reasons set forth in Part III, above, the Company cannot at this time provide a reasonable estimate of the results of operations for the fiscal year ended December 31, 2008 compared to such 2007 results.

The Company assumes no obligation to update, and does not intend to update, any forward-looking statements. The Company does not endorse any projections regarding future performance that may be made by third parties.
