ANNUAL MEETING OF SHAREHOLDERS TO BE HELD MAY 20, 2013

This proxy statement together with the form of proxy is being mailed to shareholders on or about April 5, 2013 in connection with the solicitation by the Board of Directors of Tompkins Financial Corporation of proxies to be used at the annual meeting of shareholders (the "Annual Meeting") to be held at the Country Club of Ithaca, 189 Pleasant Grove Road, Ithaca, New York on Monday, May 20, 2013 at 5:30 p.m.

Voting

Only shareholders of record at the close of business on March 22, 2013 will be entitled to vote. On March 20, 2013, there were 14,446,969 shares of the Company's common stock, par value \$0.10 per share (our "common stock"), outstanding and entitled to vote. Each share of common stock is entitled to one vote on each matter to be voted on at the Annual Meeting.

Shareholders whose shares are registered in their own names may vote by mailing a completed proxy, via the Internet or by telephone, or by voting in person at the Annual Meeting. Instructions for voting via the Internet or by telephone are set forth on the enclosed form of proxy. To vote by mailing a proxy, sign and return the enclosed form of proxy in the enclosed pre-addressed postage-paid envelope. Shares of common stock covered by a proxy that is properly executed and returned will be voted and, if the shareholder who executes such proxy specifies therein how such shares shall be voted on such proposals, the shares will be voted as so specified. Executed proxies with no instructions will be voted "FOR" each proposal for which no instruction is given. Other than the election of directors, and the proposal to ratify the appointment of the independent registered public accounting firm, KPMG LLP, as our independent auditor for the fiscal year ending December 31, 2013, the Board is not aware of any other matters to be presented for shareholder action at the Annual Meeting. However, if other matters do properly come before the Annual Meeting, the Board intends that the persons named in the accompanying proxy will vote the shares represented by all properly executed proxies on any such matters in accordance with the judgment of the person or persons acting under the proxy.

The presence of a shareholder at the Annual Meeting will not automatically revoke a proxy previously delivered by that shareholder. A shareholder may, however, revoke his or her proxy at any time prior to its exercise by: (1) delivering to the Corporate Secretary a written notice of revocation prior to the Annual Meeting, (2) delivering to the Corporate Secretary a duly executed proxy bearing a later date, or (3) attending the Annual Meeting and filing a written notice of revocation with the Corporate Secretary at the Annual Meeting prior to the vote and voting in person.

The presence, in person or by proxy, of the holders of at least a majority of the shares of common stock entitled to vote at the Annual Meeting is necessary to constitute a quorum for the conduct of business at the Annual Meeting.

Abstentions and Broker Non-votes

At the Annual Meeting, abstentions, in person or by proxy, and broker non-votes will each be counted for purposes of determining the presence of a quorum. A “broker non-vote” occurs when a broker, bank, or other nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power on that matter and has not received instructions from the beneficial owner. At the Annual Meeting, broker non-votes and abstentions will have no effect on the outcome of any of the Company’s proposals.

Solicitation of Proxies

The total cost of solicitation of proxies in connection with the Annual Meeting will be borne by the Company. In addition to solicitation by mail, our directors, officers and employees may solicit proxies for the Annual Meeting personally or by telephone or electronic communication without additional remuneration. The Company will also provide brokers and other record owners holding shares in their names or in the names of nominees, in either case which are beneficially owned by others, proxy material for transmittal to such beneficial owners and will reimburse such record owners for their expenses in doing so.

PROPOSAL NO. 1
ELECTION OF DIRECTORS

At the Annual Meeting, 18 directors will be elected for a one-year term expiring at the 2014 Annual Meeting and, with respect to each director, until his or her successor is elected and qualified. The persons named in the proxy to represent shareholders at the Annual Meeting are Francis M. Fetsko and Kathleen A. Manley. The proxies will vote as directed and, in the absence of instructions, will vote the shares represented by the proxies in favor of the election of nominees named below.

In the event any nominee is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for the nominee, if any, who may be designated by the Board, upon recommendation of the Nominating and Corporate Governance Committee, to fill the vacancy. As of the date of this proxy statement, the Board is not aware that any nominee is unable or will decline to serve as a director.

Matters Relating To the Board of Directors

Board of Directors Meetings and Committees

During fiscal 2012, the Board of Directors held four regular meetings and a strategic planning meeting. As a matter of practice the Independent Directors met in Executive Session at the end of each regular meeting for a total of five meetings during 2012. During this period, all of the directors attended or participated in at least 92% of the aggregate of the total number of meetings of the Board held during the periods that he or she served and the total number of meetings held by all committees of the Board on which each such director served during the period that he or she served.

The Board currently maintains and appoints the members of the following five standing committees: Executive, Compensation, Audit/Examining, Nominating and Corporate Governance, and Pension Investment Review.

The Board has adopted a written charter for the Executive Committee. A copy of the Executive Committee's charter is posted in the "Corporate Governance" section of the Company's website (www.tompkinsfinancial.com). The Executive Committee did not meet during fiscal 2012. The Executive Committee acts, as necessary, on behalf of the board of directors pursuant to the Company's Second Amended and Restated Bylaws (the "Bylaws").

The Board has adopted a written charter for the Compensation Committee (as used in this paragraph, the "Committee"). A copy of the Committee's charter is posted in the "Corporate Governance" section of the Company's website (www.tompkinsfinancial.com). The Committee met three times during fiscal 2012. Among its duties and responsibilities, the Committee assesses executive performance and reviews, determines and recommends salaries and other matters relating to executive compensation, except that the compensation of the Chief Executive Officer is determined by the full Board upon recommendation by the Committee. It also administers the Company's equity incentive plans, including reviewing and granting equity incentive awards to executive officers and other employees.

The Committee also reviews and approves various other compensation policies and matters, senior management planning, and is responsible for ensuring that executive officers are compensated effectively and in a manner consistent with the Company's objectives. Each of the members of this Committee is an "Independent Director" as defined in Section 803A of the NYSE MKT LLC Company Guide. The responsibilities and activities of the Committee are described in greater detail in the "Compensation Discussion and Analysis" beginning on page 17 of this proxy statement.

The Board has adopted a written charter for the Audit/Examining Committee (as used in this paragraph, the "Committee"). A copy of the Committee's charter is posted in the "Corporate Governance" section of the Company's website (www.tompkinsfinancial.com). The Committee met nine times during fiscal 2012. This Committee assists the Board in its general oversight of accounting and financial reporting, internal controls and audit functions, and is directly responsible for the appointment, compensation and oversight of the work of the Company's independent auditors. The responsibilities and activities of the Committee are described in greater detail in the "Report of the Audit/Examining Committee of the Board of

Directors” included in this proxy statement. The Board has determined that John E. Alexander, Paul J. Battaglia, Daniel J. Fessenden, Patricia A. Johnson and Frank C. Milewski each qualify as an “audit committee financial expert” as defined in Item 407(d) of Regulation S-K and that each of the members of the Audit/Examining Committee satisfies the independence standards of Section 803A of the NYSE MKT LLC Company Guide and Rule 10A-3 under the Securities Exchange Act of 1934, as amended (the “Exchange Act”).

The Board has adopted a written charter for the Nominating and Corporate Governance Committee (as used in this paragraph and in the next five paragraphs, the “Committee”). A copy of the Committee’s charter is posted in the “Corporate Governance” section of the Company’s website (www.tompkinsfinancial.com). The Committee met four times during the 2012 fiscal year. This Committee is responsible for assisting the Board in developing corporate governance policies and practices that comply with applicable laws and regulations, including NYSE MKT LLC listing standards and corporate governance requirements, and the corporate governance requirements of the Sarbanes-Oxley Act of 2002.

The Committee is also responsible for identifying, evaluating and recommending qualified candidates for election to the Board. The Committee will evaluate candidates who are identified by shareholders, by other members of the Board, and occasionally by members of the Company’s leadership team, which is comprised of the Company’s executive officers. The same procedures are used to evaluate all candidates, regardless of the source of the recommendation. To be considered, each candidate must possess the following minimum qualifications and attributes: high personal values, judgment and integrity; an ability to understand the regulatory and policy environment in which the Company conducts its business; a demonstrated, significant engagement in one of the market areas served by the Company, based on one or more of the following within such market area—professional/business relationships, residence, and involvement with civic, cultural or charitable organizations; and experience which demonstrates an ability to deal with the key business, financial and management challenges that face financial service companies. The Committee believes that such connections with one of the Company’s local communities fosters ties between the Company and that community, and also allows the Director to better understand the banking and financial services needs of its local stakeholders.

In identifying potential nominees, the Committee also considers whether a particular candidate adds to the overall diversity of the Board. The Committee seeks nominees with a broad diversity of experience, professions, skills, geographic representation and backgrounds. The Board believes that the backgrounds and qualifications of the Directors, considered as a group, should comprise an array of experience, knowledge and abilities to allow the Board to most effectively carry out its responsibilities. Although the Committee does take diversity into account when evaluating a particular candidate, it is only one of several criteria used during the Committee’s assessment process, and the Committee has not formalized its diversity practices into a written policy.

While individual experiences and qualifications serve as a baseline for consideration, the Committee recognizes that the Board governs as a whole, and not as a collection of individuals. The effectiveness of the Board is not a function of the individual attributes of its members; rather, it depends on the overall chemistry of the Board. Therefore, the Committee assesses whether a particular candidate will be able to function within this broader context by evaluating his or her: ability to understand, and willingness to engage, the issues presented to the Board; ability to exercise prudence and judgment, but also decisiveness; and ability to effectively communicate his or her ideas to the other members of the Board. In the case of incumbent Directors, these assessments are made based on past experience with a particular Director and, in the case of first-time nominees, these issues are explored during the interview and vetting process described below.

Once the Committee has determined its interest in a potential nominee, it begins discussions with him or her as to his or her willingness to serve on the Board and one or more of the Company’s subsidiary boards and, for first-time nominees, an interview will be conducted. If the nominee is an incumbent Director, the Committee will consider prior Board performance and contributions as described above; in the case of a first-time nominee, the Committee will

evaluate its discussions with the candidate, and the Committee may also seek to verify its preliminary assessment of the candidate by discussing his or her particular attributes with other appropriate parties who have had prior professional experiences with him or her. At the conclusion of this process, the Committee will recommend qualified candidates that best meet the Company's needs to the full Board, which then selects candidates to be nominated for election at the next annual meeting of shareholders. The Committee uses the same process for evaluating all candidates, whether recommended by shareholders, directors or management. The Company encourages all Board members to own at least 2,000 shares of the Company's common stock, which shares may be accumulated over a period of three years following a director's initial election to the Board. Shares held in a rabbi trust as deferred stock compensation for a given director are included in this calculation.

The Board has adopted a written charter for the Pension Investment Review Committee. This Committee met two times during fiscal 2012, and it is responsible for reviewing and setting the investment goals and objectives of the Tompkins Financial Corporation Retirement Plan, and adjusting plan holdings accordingly.

Director Compensation

It is the general policy of the Board that employee directors are not paid for their service on the Company's board of directors beyond their regular employee compensation. Mr. Hardie, although employed by Tompkins Insurance Agencies as a producer, is not an executive officer of the Company and is therefore compensated for his service on the Board.

Effective January 1, 2012, the Company's non-employee directors were compensated for service on the Board as follows. An annual \$13,000 retainer payable in quarterly installments of \$3,250 each was paid at the beginning of each quarter to non-employee directors. In addition, non-employee directors received \$1,250 for each of the four regularly-scheduled Board meetings the director attended, as well as \$750 for each Audit/Examining, Compensation or Nominating and Corporate Governance Committee meeting attended and \$400 for each Pension Investment Review Committee meeting attended. The Chairs of the Audit/Examining, Compensation, and Nominating and Corporate Governance Committees received an additional \$4,000 annual fee paid in quarterly installments of \$1,000. All non-employee directors' fees paid for service on the Board are paid in cash or, if a valid election was made by the director prior to January 1, 2012, such directors' fees were deferred pursuant to (i) the Retainer Plan or (ii) pursuant to a Deferred

Compensation Agreement. In addition to these fees, directors are eligible to receive equity awards granted pursuant to the Company's 2009 Equity Plan, though none were issued to directors during fiscal 2012.

In lieu of any retainer, board meeting and/or committee fees, an annual retainer was paid to James J. Byrnes in 2012 for his service as Chairman of the Tompkins Financial Corporation and Tompkins Trust Company boards of directors in the amount of \$75,000, paid in cash, in quarterly installments of \$18,750. In lieu of any retainer, board meeting and/or committee fees, an annual retainer was payable to Tom Salm, for his service as Vice Chair of the Tompkins Financial Corporation and Tompkins Trust Company boards of directors, in the amount of \$47,500, payable in quarterly installments of \$11,875. Mr. Salm, who retired from board service at the 2012 Annual Meeting, received \$22,376 of such fee, in cash, related to his service prior to his retirement.

Subsidiary Board Service Compensation

Any non-employee member of the Company's board of directors who also sits on the board of The Bank of Castile received an additional annual \$14,200 Board Retainer Fee, paid in quarterly installments of \$3,550. During 2012, Paul J. Battaglia, Sandra A. Parker, and Craig Yunker sat on the board of directors of The Bank of Castile. Any non-employee member of the Company's board of directors who also sits on the board of Mahopac National Bank received an additional annual Board Retainer Fee of \$18,000 paid in quarterly installments of \$4,500 for service on the Mahopac National Bank's board of directors. During 2012, James J. Byrnes, John E. Alexander, Daniel J. Fessenden, Reeder D. Gates, Carl E. Haynes, Susan A. Henry, Patricia A. Johnson and Thomas R. Rochon sat on the board of directors of Tompkins Trust Company. Any non-employee member of the Company's board of directors who also sits on the board of VIST Bank received an additional annual \$14,200 Board Retainer Fee, paid in quarterly installments of \$3,550. Committee Fees (Board Loan) of \$400 per meeting attended (plus \$1,000 annual fee paid in quarterly installments at the beginning of each quarter to Committee Chair) were paid to non-employee Directors in 2012. During 2012, Frank C. Milewski and Alfred J. Weber sat on the board of directors of VIST Bank. The aforementioned fees were pro-rated as necessary for Directors completing less than a full year of service. Mr. Hardie, who also sits on the board of Tompkins Insurance, is not compensated for such service. All fees payable to non-employee directors for service on the board of directors of one or more of our subsidiaries are payable in cash, or, if a valid election is made before January 1 of the year to which such payment relates, may be deferred pursuant to the Retainer Plan or pursuant to a Deferred Compensation Agreement.

Timing and Manner of Payment of Director Compensation

All retainer and meeting fees for service on the Company's Board, as well as service on the board of directors of one or more of our subsidiaries, are payable quarterly, either in cash or, if a timely election is made by the Director, in stock pursuant to the Retainer Plan. Non-employee Directors may also elect to receive compensation in deferred cash pursuant to a Deferred Compensation Agreement. If a Director elects to receive deferred stock compensation under the Retainer Plan, his or her fees are transferred to a Rabbi Trust. The trustee acquires shares of common stock pursuant to the Company's Dividend Reinvestment and Stock Purchase and Sale Plan. A Director has no rights in or to the shares of common stock held in the Rabbi Trust until distribution is made in accordance with the Retainer Plan. An aggregate of 5,730 shares of common stock was acquired by the Rabbi Trust under the Retainer Plan in 2012 representing board and committee fees and retainers paid and expensed in 2012.

Corporate Governance Matters

Corporate Governance Guidelines

The Board has adopted Corporate Governance Guidelines (the “Guidelines”), which reflect many of the Company’s long-standing practices, in order to strengthen our commitment to corporate governance best practices. A copy of the Guidelines is posted in the “Corporate Governance” section of our website (www.tompkinsfinancial.com). The Guidelines summarize the Company’s corporate governance practices and procedures, and the following issues, in addition to others, are covered in the Guidelines: board size; director independence; chairman independence; director retirement; director candidate identification and nomination; director common stock ownership; responsibilities of directors; meeting attendance; executive sessions of independent directors; Board committees; succession planning and management evaluation; director education; and board assessments.

Shareholder Communications with Directors

Shareholders may communicate with the Company's board of directors by writing to the following address: Board of Directors, Tompkins Financial Corporation, P.O. Box 460, Ithaca, New York 14851. Both the Chairman of the Board and the Chairman of the Nominating and Corporate Governance Committee, each of whom is an Independent Director, will review all correspondence and, if either of them determines that a communication should be reviewed by the full Board, it will be presented to the Board for its review and consideration.

Policy Regarding Director Attendance at Annual Meetings; Annual Meeting Attendance

The Board strongly encourages the attendance of all directors at Annual Meetings. The Annual Meeting of Shareholders for fiscal 2011 was held on July 18, 2012 and, with the exception of Susan A. Henry, all of the directors then in office were in attendance.

Code of Ethics

The Board has adopted the Tompkins Financial Corporation Code of Ethics for the Chief Executive Officer and Senior Financial Officer which applies to the Company's Chief Executive Officer and Chief Financial Officer (who also serves as our principal accounting officer). A copy of the Code of Ethics is available in the "Corporate Governance" section of the Company's website (www.tompkinsfinancial.com). The Company will post material amendments to or waivers from the Code of Ethics for Chief Executive Officer and Senior Financial Officer at this location on its website.

Board Leadership Structure and Risk Oversight

Presently, the roles of Chief Executive Officer and Chairman of the Board are separate, as the Board feels this offers advantages of including additional input and a range of prior experience within our leadership structure. However, no single leadership model is right for the Company at all times, and the Board does not have a policy that these roles will always be separate. The Board recognizes that other leadership models can be appropriate for the Company, given different circumstances.

The Board has an active role, both at the full Board and also at the committee level, in overseeing management of the Company's risks. The Board regularly reviews information regarding asset quality, capital, securities portfolio, liquidity, operations and other matters, as well as the risks associated with each. The Compensation Committee oversees risks associated with compensation arrangements and the Audit Committee oversees management of financial risks. The Board's role in the risk oversight process has not directly impacted its leadership structure.

Risk and Influence on Compensation Programs

The Board's Compensation Committee also considers risk and its influence on the Company's compensation programs. This Committee reviews each compensation element individually and in the aggregate to ensure that the overall compensation program provides a balanced perspective that ultimately aligns pay with performance while also ensuring bonus / incentive programs do not motivate inappropriate risk-taking. Since the bonuses are discretionary, the Committee has the ability to reduce bonus amounts should it be determined that certain actions or practices by the executive officers are promoting unnecessary or excessive risk. Equity award levels and practices are set to foster shared interests between management and shareholders, but are not considered by the Committee to be at levels that would drive inappropriate behavior. In the Committee's judgment, the compensation policies and practices of the Company do not give rise to material risks.

In addition, we are subject to guidance issued by the FDIC, the FRB and the OCC designed to ensure that incentive compensation arrangements at banking organizations appropriately tie rewards to longer-term performance and do not undermine the safety and soundness of the firm or create undue risks to the financial system. This guidance embodies three core principles, which are: (1) incentive compensation arrangements at a banking organization should provide employees incentives that appropriately balance risk and financial results in a manner that does not encourage employees to expose their organizations to imprudent risks; (2) these arrangements should be compatible with effective controls and risk management, and (3) these arrangements should be supported by strong corporate governance, including active and effective oversight by the organizations board of directors. We believe that our incentive compensation programs are in compliance with this guidance.

Affirmative Determination of Director Independence

A majority of the Board of Directors, and each member of the Audit/Examining Committee, Compensation Committee, and Nominating and Corporate Governance Committee, is independent, as affirmatively determined by the Board, consistent with the criteria established by NYSE MKT LLC and as required by our Bylaws.

The Board has conducted an annual review of director independence for all current nominees for election as directors and all continuing directors. During this review, the Board considered transactions and relationships during the prior year between each director or any member of his or her immediate family and the Company, and its executive officers, subsidiaries, affiliates and principal shareholders, including those described below under “Transactions with Related Persons.” The purpose of this review was to determine whether any such relationships or transactions were inconsistent with a determination that the director is independent.

As a result of this review, the Board affirmatively determined that the directors identified as “independent” in the table on Page 3 meet the Company’s standard of independence.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following tables set forth certain information, as of March 20, 2013, with respect to the beneficial ownership of our common stock by: (1) each shareholder known by the Company to be the beneficial owner of more than 5% of the Company's common stock; (2) each Director and nominee; (3) each executive officer named in the Summary Compensation Table, below; and (4) all executive officers and Directors as a group. Except as otherwise indicated, each of the shareholders named below has sole voting and investment power with respect to the outstanding shares of Common Stock beneficially owned.

(1) Each share of phantom stock is the economic equivalent of one share of common stock. Phantom stock represents deferred stock compensation under the Amended and Restated Retainer Plan for Eligible Directors of Tompkins Financial Corporation and its Wholly-Owned Subsidiaries (the "Retainer Plan"). These shares are held in a deferred trust account (the "Rabbi Trust") pending distribution upon the occurrence of certain events specified in the Retainer

Plan. The reporting person has no voting or investment power over the shares prior to such distribution. The shares of Common Stock held in deferred trust accounts for non-employee Directors are voted by Tompkins Trust Company (the "Trust Company") as trustee of the Rabbi Trust.

(2) Does not include shares of Phantom Stock held in the Rabbi Trust.

(3) The number of shares beneficially owned by each person or group as of March 20, 2013, includes shares of common stock that such person or group had the right to acquire on or within 60 days after March 20, 2013, including, but not limited to, upon the exercise of options. For each individual and group included in the table, percentage ownership is calculated by dividing the number of shares beneficially owned by such person or group by the sum of the 14,446,969

shares of common stock outstanding and entitled to vote on March 20, 2013 plus the number of shares of common stock that such person or group had the right to acquire on or within 60 days after March 20, 2013. The percentages listed in this column do not include shares acquired pursuant to the Retainer Plan and held in the Rabbi Trust; directors have no voting or investment power with respect to such shares. For a more detailed discussion of the Retainer Plan, refer to "Timing and Manner of Payment of Director Compensation," Page 11. COMPENSATION DISCUSSION AND ANALYSIS

Overview

It is the position of the Compensation Committee and the Board of Directors that Tompkins Financial Corporation has long operated within the spirit of the guidance provided by the Dodd-Frank Wall Street Reform and Consumer Protection Act and other recently enacted regulations. Management and the Board have been careful to avoid many of the risks of incentive programs, choosing to reward proven results on a discretionary basis as opposed to tying payments to any particular metric. The result is that no individual or group is incentivized to take unnecessary risk with respect to a customer, the organization or our shareholders. We believe that these efforts are supported by an effective risk management system and strong corporate governance.

The Company has delegated to the Compensation Committee (the “Committee”) the responsibility for determining or recommending to the full Board the compensation of the Company’s executive officers, including the executive officers identified in the Summary Compensation Table (the “Named Executive Officers”).

After adjusting for the non-recurring costs associated with the VIST Acquisition in 2012, described in more detail on Page 20 hereof, the Company has exhibited strong recent financial performance relative to its industry. In recognition of Company financial performance and the contributions made by the Named Executive Officers in 2011 - 2012 the following compensation actions were approved:

• **Merit Increases.** Effective April 2012, most of the Company’s executives received salary rate increases, including all of the Named Executive Officers.

- **Cash Bonuses.** In February 2012 and 2013, cash bonus awards were paid to many senior officers of the Company including all of the Named Executive Officers.

• **Long-Term Equity-Based Awards.** The Committee uses discretion in determining the frequency of awards and has generally considered awards every 18 to 24 months. No Long Term Equity Awards were awarded to any of the Company’s executives in 2012, because awards were made in August 2011.

These decisions as well as the Committee’s process in making compensation recommendations are described below.

Compensation Philosophy and Objectives

The primary goal of the Committee is to offer executive compensation that is fair and reasonable, consistent with the Company’s size and the compensation practices of the financial services industry generally. Key objectives of the compensation package are to attract, develop, and retain high caliber executives who are capable of maximizing the Company’s performance for the benefit of its shareholders. The Board and the Committee maintain full discretion over the components and payment of compensation in order to preserve the flexibility necessary to ensure the Board’s ability to act in the Company’s best interests.

Tax and Accounting Considerations

The accounting and tax treatment of compensation generally has not been a significant factor in determining the amounts of compensation for our executive officers. However, the Compensation Committee and management have considered the accounting and tax impact of various program designs to balance the potential cost to the Company with the benefit/value to the executive.

Section 162(m) of the Internal Revenue Code generally denies publicly-held corporations a federal income tax deduction for compensation exceeding \$1,000,000 paid to the chief executive officer or any of the three other highest paid executive officers (other than the chief financial officer), excluding performance-based compensation. Through December 31, 2012, this provision has not limited the Company's ability to deduct executive compensation. The Committee will continue to monitor the potential impact of Section 162(m) on the Company's ability to deduct executive compensation, and in particular, will review the effect of recent Internal Revenue Service rulings related to performance-based compensation in change-in-control situations. The 2009 Equity Plan has been designed, and is intended to be administered, in a manner that will enable the Company to deduct compensation attributable to options and certain other awards thereunder, without regard to the deduction limitation established by Section 162(m).

Section 409A of the Internal Revenue Code generally changes the tax rules that affect most forms of deferred compensation that were not earned and vested prior to 2005, and imposes an additional tax on certain forms of deferred compensation. The Committee takes Section 409A into account in determining the form and timing of compensation paid to the Company's executives.

The Company values equity incentive awards under FASB ASC Topic 718. More information regarding the application of ASC Topic 718 by the Company may be found in Note 15 (Stock Plans and Stock Based Compensation) to the Company's audited financial statements filed with the SEC in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2012 (the "2012 Report on Form 10-K").

Compensation Committee and Process

Role of the Compensation Committee, Management, and Consultants

The Committee is responsible for general oversight of personnel policies for the Company and its subsidiaries, including review and administration of: deferred compensation; retirement and supplemental executive retirement plans; long-term equity compensation; and executive compensation plans. The Committee makes determinations or recommends to the Board actions concerning the compensation of executive officers and Company compensation programs. Tasks outlined by the Compensation Committee Charter include, but are not limited to, the following: reviewing the competitiveness of the Company's compensation programs; reviewing and approving annual performance goals and objectives; and evaluating the Chief Executive Officer's and other executive officers' performance as it relates to these goals. The Committee supports the succession planning process in consultation with the Chief Executive Officer. The Committee also discusses and considers the results of the shareholders' non-binding vote on say-on-pay. As permitted by law, the Committee may delegate all or a portion of its duties and responsibilities to a subcommittee of the Committee.

Executive officers do not play a role in determining their own compensation decisions, but they are called on to make recommendations concerning those individuals that report to them.

The Committee also has the authority to retain such outside counsel, experts, and other advisors as it determines appropriate to assist it in the full performance of its functions. In 2012 the Committee retained the services of Buck Consultants, LLC ("Buck") to evaluate the effectiveness of the Company's Long-Term Equity-Based Compensation program. The results of this evaluation have been considered by the Compensation Committee and effectiveness of the existing program will continue to be monitored. In addition to this study, Buck provided actuarial and other consulting services related to the Company's defined benefit plans during 2012, for which the Company paid \$216,204 during fiscal 2012.

The Company has assessed the independence of Buck pursuant to SEC rules and exchange requirements, and has concluded that no conflict of interest exists that would prevent Buck from independently representing the Compensation Committee. The Company made this determination based on its receipt of representations from Buck addressing the independence of Buck, and the Buck consultants involved in the engagement, which addressed the following factors: (1) other services provided to us by Buck; (2) fees paid by us as a percentage of Buck's total revenue, which were less than 1% of Buck's total revenue; (3) policies and procedures maintained by Buck that are designed to prevent a conflict of interest, a copy of which was provided for our review; (4) the absence of any business or personal relationships between the Buck consultants and any member of the Compensation Committee; (5) the fact that no Company stock is owned by Buck or any of its consultants; and (6) the absence of any business or personal relationships between our executive officers and the Buck consultants. In addition, the Company confirmed the content of Buck's responses to items (4) and (6) above directly with the Company's directors and executive officers.

Process of Determining Named Executive Officer Compensation

In furtherance of its objective to attract, develop and retain high caliber executives who are capable of maximizing the Company's performance for the benefit of its shareholders, the Committee periodically compares its compensation levels, practices, and financial performance to survey and publicly available data for a group of banking institutions of similar size, geographic market or structure.

Toward that end, the Committee utilized information from the publicly filed proxy statements of the following companies when considering the compensation of its Chief Executive Officer and the other Named Executive Officers:

Alliance Financial Corporation	National Penn Bancshares, Inc.
Arrow Financial Corporation	NBT Bancorp Inc.
Bryn Mawr Bank Corporation	Old National Bancorp
Camden National Corporation	Park National Corporation
Community Bank System, Inc.	S&T Bancorp, Inc.
Financial Institutions, Inc.	StellarOne Corporation
First BanCorp.	Sun Bancorp, Inc.
First Commonwealth Financial Corp.	United Community Banks, Inc.
	Washington Trust Bancorp, Inc.
Hudson Valley Holding Corp.	
Lakeland Bancorp, Inc.	

The above list of peer companies was modified from the peer group used during the 2011 compensation process for a variety of reasons. In 2011, and in years prior, the Committee had historically used both a broad-based bank survey published by SNL (which reflected data for hundreds of banks) together with publicly-filed information from a small group of peer companies identified by the Committee. In 2012, the Committee did not utilize the broad-based SNL survey in order to focus its analysis on companies with comparable size, scope and geographic reach, as represented by the subset of peer group companies identified above. The other primary reasons driving the change in the peer group from 2011 to 2012 are that the Company's size has increased, particularly as a result of the VIST Acquisition, and certain companies identified in the 2011 peer group have either been acquired or have undertaken other capital transactions, and are thus no longer an appropriate point of comparison for the Company.

The Committee believes that a certain level of discretion is appropriate in determining the Named Executive Officers' compensation. Information from comparative groups is only one factor in the Committee's assessment of appropriate compensation levels, policies, and practices. The Committee does not have a formal policy of targeting a certain percentile of the market data or using market data to establish the mix of compensation (including the allocation between cash and non-cash compensation and short and long-term equity compensation). The Committee also does not have a formal policy regarding the relationship between compensation levels provided to the Chief Executive Officer and other Named Executive Officers.

For fiscal 2012, the Committee considered a number of quantitative and qualitative performance factors to evaluate the performance of its executive officers, including its Chief Executive Officer. The 2011 annual performance factors were considered for the purpose of determining 2012 merit increases while the 2012 annual performance factors were used to determine executive bonuses earned for 2012 and paid in 2013. The factors considered for fiscal 2012 compensation were:

- The Company's net income as compared to the Company's internal targets (in thousands of dollars)

	Actual	Plan	% Change	
2012	\$ 31,285	\$ 36,326	-13.9	%
2011	\$ 35,419	\$ 33,831	+4.7	%

- Increases in earnings per share (diluted EPS)

	Plan	% Change	
2012	2.43	-24.1	%
2011	3.20	+2.89	%

- The Company's return on assets (ROA), as ranked in the Federal Reserve Bank Holding Company Performance Report for its peer group

	Actual	Ranking
2012	0.76	% 35th percentile
2011	1.07	% 69th percentile

- The Company's total return as compared to KBW Regional Banking Index over the following time periods (Annual Equivalent), as of December 31, 2012

	1 Year		5 Year		10 Year	
TMP	6.76	%	5.79	%	5.70	%
KBW	13.34	%	(3.86))%	(1.59))%

- The Company's return on equity (ROE), as ranked in the Federal Reserve Bank Holding Company Performance Report for its peer group

	Actual	Ranking
2012	8.30	% 74th percentile
2011	12.02	% 86th percentile

The Company's 2012 operating performance remains strong. Results in 2012 were negatively impacted by expenses related to the acquisition of VIST in August, 2012. After adjusting earnings for the after tax impact of merger-related expenses, the Company's 2012 performance as measured by Operating Return on Average Equity¹ and Operating Return on Average Assets² remained better than peer average. More detail about the non-recurring expenses associated with the VIST Acquisition and their impact on operating results, as well as a full reconciliation of Operating Return on Average Equity and Operating Return on Average Assets to the most directly comparable measure calculated in accordance with GAAP, net income, can be found on Page 27 of the Company's 2012 Annual Report on Form 10-K.

For these reasons, the Committee believes that the total compensation provided to the Company's executive officers is competitive, and that the Company's compensation practices for fiscal 2012 were appropriate.

1 Non GAAP Disclosure: Operating Return on Average Equity equals Net Income After Tax, Plus After Tax Impact of Non-Operating Expenses, Divided by Average Total Equity $((\$31,285 + \$ 9,421) / \$376,890)$. Dollar amounts are in thousands.

2 Non GAAP Disclosure: Operating Return on Average Assets equals Net Income After Tax, Plus After Tax Impact of Non-Operating Expenses, Divided by Average Total Assets $((\$31,285 + \$ 9,421) / \$4,092,473)$. Dollar amounts are in thousands.

Consideration of Say-on-Pay Results

In 2011, the Company's shareholders determined to hold an advisory vote on executive compensation every three years. Therefore, no advisory vote was held in 2012. The Compensation Committee does, however, always consider the alignment of shareholder interests with those of the Company's executives when designing executive compensation packages. The next advisory vote on executive compensation will be held at our 2014 Annual Meeting.

Components of Compensation

The major components of the Company's executive officer compensation are: (i) base salary, (ii) annual bonus, (iii) long-term, equity-based awards, and (iv) retirement and other benefits.

Base Salary. The Company's base salary program is designed to recognize the roles and responsibilities of executive officers' positions and their performance in those roles. The Committee annually reviews the salaries of the Company's executives. When setting base salary levels for recommendation to the full Board, the Committee considers (a) competitive market conditions for executive compensation, (b) the Company's performance and (c) the individual's performance. The Company's performance is measured by the Company's strategic and financial performance in the fiscal year, with particular emphasis on earnings per share growth and return on shareholders' equity for the year. Although the Committee considers year-to-year changes in stock price in its evaluation of Company performance, the Committee does not emphasize this criterion because the Committee does not believe that short-term fluctuations in stock price necessarily reflect the underlying strength or future prospects of the Company. Individual performance is measured by the strategic and financial performance of the particular executive officer's operational responsibility in comparison to targeted performance criteria.

The Company maintains a common anniversary date for the merit review process, and related increases in compensation rates occur in April. Following an analysis of the factors described in the preceding paragraph, most of the Company's executives received salary rate increases at this time, including all of the Named Executive Officers. Mr. Romaine's annual salary rate was increased to \$480,000 representing an increase of 5.0%. Messrs. Fulmer, Hartz and Klein received annual salary rate increases to \$308,250 (+4.0%), \$239,000 (+3.6%), and \$239,500 (+2.1%) respectively. Mr. Fetsko's annual salary rate was increased to \$290,000 (+13.8%). This increase recognizes both Mr. Fetsko's performance and the expansion of his responsibilities to include those of Chief Operating Officer for the Company.

Annual Bonus. The Company chooses to pay annual cash bonuses in order to motivate executives to work effectively to achieve the Company's financial performance objectives and to reward them if objectives are met. The Board maintains full discretion in the payment of bonuses in order to preserve the flexibility necessary to ensure its ability to act in the Company's best interests. The Compensation Committee considers a number of quantitative and qualitative performance factors to evaluate the performance of the Named Executive Officers. These performance factors include, but are not limited to: (i) achievement of individual goals; (ii) contribution to business unit results; and (iii) contribution to corporate results measured by (a) the Company's net income as compared to the Company's internal targets, (b) increases in earnings per share of the Company's common stock for the latest 12 months, (c) the Company's return on assets, as ranked in the Federal Reserve Bank Holding Company Performance Report (Peer Group percentile), (d) increases in the Company's stock price over 12 months, and (e) the Company's return on equity, as ranked in the Federal Reserve Bank Holding Company Performance Report (Peer Group percentile). In February 2013, bonus awards were paid to several executives of the Company, including all of the Named Executive Officers. These bonus awards were reflective of individual performance and the performance of the Company in 2012. Mr. Romaine received a bonus of \$144,000 and Messrs. Fulmer, Fetsko, Hartz, and Klein received bonuses of \$75,000, \$66,200, \$54,600, and \$43,200 respectively.

Long-Term, Equity-Based Awards. The Company chooses to award equity-based compensation in the form of stock options, stock-settled stock appreciation rights and restricted stock because such grants (1) align executive interests with shareholder interests by creating a direct link between compensation and shareholder return, (2) give executives a significant, long-term interest in the Company's success and (3) help retain key executives in a competitive market for executive talent. While the Committee recognizes that the executives of the Company can exert very little influence on short-term fluctuations in stock price, the Committee does believe that long-term stock price appreciation reflects achievement of strategic goals and objectives. Equity awards are granted based on the performance of the individual executive and his or her anticipated contribution to the achievement of the Company's strategic goals and objectives. The Committee has traditionally authorized

grants vesting over five or more years to encourage retention of executives. This practice means that at any time there are a significant number of awards granted that are not vested and therefore not exercisable and/or transferable.

The Tompkins Financial Corporation 2009 Equity Plan, which was approved by shareholders, gives the Company flexibility in the types of equity grants awarded in order to align executive and shareholder interests. A total of 820,000 shares were reserved under the 2009 Equity Plan, of which 464,015 have been issued as of the date of this proxy statement. In addition, executives may receive the Company's common stock through the profit sharing component of the Tompkins Financial Corporation Employee Stock Ownership Plan. At the time of the VIST Acquisition, there were approximately 922,000 options to purchase shares of VIST common stock outstanding. Most of these options were exchanged for cash when the VIST Acquisition was completed in August 2012, but approximately 320,000 options were converted into options to purchase the Company's common stock under the 2009 Equity Plan, using a formula for exercise price and coverage which was described in the acquisition agreement, as approved by the Company's shareholders at the 2012 Annual Meeting. For a more detailed discussion of the profit sharing component, and other deferred compensation and retirement plans, please see the text accompanying the tables following this section.

The Committee uses discretion in determining the frequency and level of awards. Generally, the Committee will consider market data, the Company's financial performance, and individuals' performance before deciding whether an award should be made and the number of shares to be granted. The Committee is careful to grant equity-based compensation only at times when participants are not in possession of material non-public information. No executives received long-term equity-based awards in 2012, because we target awards for granting every 18-24 months, and awards were made in August 2011.

Retirement and Other Benefits.

Retirement Plans. The Company maintains several retirement programs that are designed to assist Company employees with their long-term retirement planning. Substantially all Company employees, including the Named Executive Officers, are eligible to participate in the Investment & Stock Ownership (401(k)) Plan and the Employee Stock Ownership Plan. The Committee believes that, in addition to providing retirement income, these plans have the added benefit of linking compensation to the Company's stock performance. The Company also maintains defined contribution and defined benefit pension plans.

Named Executive Officers may also participate in a non-qualified deferred compensation plan and all of our Named Executive Officers are parties to Supplemental Executive Retirement Plan (SERP) Agreements with the Company. These plans provide retirement income that may be limited in the qualified plans due to IRS limitations or are intended to provide additional retirement benefits. The Committee believes that the plans and the level of benefits that are provided are appropriate to promote retention and to recognize and reward long-term service to the Company.

For more information regarding these plans, please refer to the narrative accompanying the "Pension Benefit" and "2012 Non-Qualified Deferred Compensation" tables on pages 29 and 33, respectively, in this proxy statement. Information regarding SERP benefits is explained under "Potential Payments upon Termination or Change in Control."

Life Insurance Benefits. As a part of its comprehensive and competitive approach to compensation, the Company provides life insurance benefits to certain officers of the Company, with respect to which the Company has entered into life insurance contracts. These insurance contracts are carried at cash surrender value on the Company's consolidated statements of financial condition. Increases in the cash surrender value of the insurance are reflected as noninterest income, and the related mortality expense is recognized as other employee benefits expense, in the Company's consolidated statements of income. Taxable amounts paid with respect to such life insurance on behalf of the Named Executive Officers are included as "All Other Compensation" in the Summary Compensation Table.

Post-Retirement Life Insurance and Medical Insurance. The Company offers post-retirement life insurance coverage to employees who have worked for the Company for 10 or more years and who retire at or after age 55. All of the Named Executive Officers are entitled to receive life insurance coverage under this policy.

Additionally, Tompkins Trust Company historically offered post-retirement medical coverage to certain employees. Retiree medical insurance subsidized by the Company has been eliminated for new hires after December 31, 2004. The current Tompkins Trust Company retirees and active eligible employees (at least 55 years of age and 10 years of service as of December 31, 2004) are a “grandfathered group” and as such continue to receive a portion of the premium cost of their retiree medical insurance from the Company. There is currently a \$3,000 annual cap on the employer payments. None of the

Named Executive Officers are part of the “grandfathered group” eligible to receive these premium contributions in retirement.

Perquisites. Perquisites for the Named Executive Officers are limited to personal use of a Company-owned vehicle. The Committee believes that this limited benefit assists the Named Executive Officer in the performance of their duties by providing convenience in light of the significant demands on our Named Executive Officers’ time, including frequent car travel on business.

Termination of Employment and Change-in-Control Arrangements. The Company does not have employment contracts with the Named Executive Officers. However, the Company is obligated to provide certain payments to the Named Executive Officers upon termination as part of their Supplemental Executive Retirement Plan (SERP) Agreements. Some of these agreements contain severance provisions carried over from previous agreements with acquired companies. SERP payments due upon termination are explained under the “Potential Payments upon Termination or Change in Control” section of this proxy statement.

Compensation Recovery Policies

The Compensation Committee intends to formulate a compensation recovery policy once regulatory guidance is issued on this topic.

(1) These amounts represent cash awards for performance bonuses, including amounts of such bonuses deferred under the Tompkins Financial Corporation Deferred Compensation Plan for Selected Officers.

(2) Reflects the fair value of the awards at the grant date, in accordance with FASB ASC Topic 718 for financial statement reporting purposes, excluding the effect of estimated forfeitures. For additional information as to the assumptions made in valuation, see Note 12 to the consolidated financial statements filed with the SEC in the 2012 Company's Annual Report on Form 10-K. Amounts shown in the table are based on the Company's accounting expense for these awards, and do not necessarily correspond to the actual value that may be recognized by the Named Executive Officers.

(3) The Black Scholes value for the 2011 stock-settled SARs was \$9.26 per share. We report these equity awards using the aggregate grant date fair value in accordance with FASB ASC Topic 718.

(4) These values are based on the Tompkins Financial Corporation Retirement Plan and the Supplemental Executive Retirement Plan, and are composed entirely of the changes in pension value. The following assumptions were used by the retirement plan actuaries to calculate the Change in Pension Value from year-end 2011 to year-end 2012:

Discount Rate: Pension plan(s) 4.60% at 12/31/2011, 4.10% at 12/31/2012; SERP(s) 4.60% at 12/31/2011, 4.20% at 12/31/2012.

Retirement Plan Mortality: IRC Section 430 Funding Mortality

Long-Term Equity-Based Awards

The Company maintains the 2009 Equity Plan as a vehicle to encourage the continued employment of key employees of the Company and its subsidiaries, and to align their interests with those of the Company's shareholders by facilitating the employees' ownership of a stock interest in Tompkins Financial Corporation. The Committee believes that an equity plan is in the best interests of the Company and its shareholders since it enhances the Company's ability to continue to attract and retain qualified Directors, officers and other key employees. The Committee typically grants awards to Named Executive Officers under the 2009 Equity Plan every 18 to 24 months. Each of the Named Executive Officers received an award of restricted stock and stock-settled stock appreciation rights in August 2011. Accordingly, no awards were made to the Named Executive Officers under the 2009 Equity Plan during 2012.

Deferred Profit-Sharing Plan

The Company maintains an Investment & Stock Ownership Plan (the "ISOP") that covers substantially all of the employees of the Company and its subsidiaries. The ISOP is a profit-sharing plan with a salary deferral arrangement meeting the requirements of Section 401(k) of the Internal Revenue Code of 1986, as amended. Pursuant to the ISOP, an employee may defer a portion of the employee's base pay, within limits specified in the ISOP. The ISOP further provides that the Company will match 100% of an employee's contribution up to 3% of the employee's base pay, and will match 50% of an employee's additional contribution to the ISOP that is greater than 3%, but not more than 5%, of the employee's base pay. In addition, the ISOP has an employer-funded profit sharing component. Profit sharing contributions are discretionary contributions determined by the Company's Board of Directors and are limited to a maximum amount as stipulated in the ISOP. The ISOP allows employees to elect to defer a portion of their profit sharing component (which deferral is not eligible for matching by the Company), or to receive cash. Amounts contributed by the Company for the accounts of the Named Executive Officers are included as "All Other

Compensation” in the Summary Compensation Table, above, and described in Note 5 to that table.

The Company also maintains the Tompkins Financial Corporation Employee Stock Ownership Plan (the “ESOP”), which covers substantially all employees of the Company. The purpose of the ESOP is to permit the Company to make discretionary profit sharing contributions to employees in the form of shares of common stock of the Company in order to facilitate stock ownership by employees. Contributions are determined by the Company’s Board of Directors and are limited to a maximum amount as stipulated in the ESOP. Amounts accrued for the accounts of the Named Executive Officers are included as “All Other Compensation” in the Summary Compensation Table, above, and described in Note 5 to that table.

Retirement Plans

The Company has a defined benefit pension plan, called the Tompkins Financial Corporation Retirement Plan (the “Retirement Plan”), which covers substantially all employees of the Company employed prior to January 1, 2010. The retirement plan does not require or allow employee contributions. The assets of the Retirement Plan are held in a separate trust and administered by the Pension Investment Review Committee of the Board. On January 1, 2010, in order to more effectively control the volatility of plan expense, the Company closed the Tompkins Financial Retirement Plan to new employees and adopted the Tompkins Financial Corporation Defined Contribution Retirement Plan (the “Contribution Plan”). Under the Contribution Plan, the Company provides benefit contribution to participating employees based on age and length of service.

The following table provides information with respect to each pension plan that provides for payments or other benefits at, following, or in connection with retirement. This includes a tax-qualified defined benefit plan and a supplemental executive retirement plan, but it does not include defined contribution plans (whether tax-qualified or not).

The present value of accumulated benefits shown in the Pension Benefits table above is based on benefits accrued as of December 31, 2012. The amounts reflect the method and assumptions used in calculating our pension liability under U.S. GAAP as of that date, except that (1) each participant is assumed to commence benefits on his or her normal retirement date, and (2) there is no assumed mortality prior to the benefit commencement date. For additional information regarding assumptions used in calculating the value of participant benefits under the Retirement Plan and the SERP Agreements, see Note 13 to the consolidated financial statements included in the Company's Annual Report on Form 10-K

The Retirement Plan provides a monthly benefit payable at retirement. This benefit is determined by the accumulation of credits which are earned as the participant works for the Company. The credits earned for each plan year are based on the sum of the participant's age and years of service at the beginning of that plan year. When a participant terminates employment or retires, the credits earned for all plan years are summed and multiplied by the "Average Final Earnings" under the Plan, and the result is then converted into a monthly annuity. This type of plan is often referred to as a "pension equity plan."

"Average Final Earnings" is the average of the participant's compensation over the five consecutive Plan Years out of the last ten which produce the highest average. "Compensation" generally consists of total W-2 earnings, less incentive bonuses, fringe benefits and compensation from stock option exercises. A participant is eligible for an unreduced benefit upon the attainment of his or her "Normal Retirement Date", which is generally the first day of the month following his or her 65th birthday.

A participant's retirement benefit is fully vested upon the completion of three years of service. Participants are eligible for a reduced benefit upon becoming eligible for early retirement. To be eligible for early retirement, a participant generally must have obtained age 55 and have completed at least 5 years of service. James Fulmer is the only Named Executive Officer currently eligible for Early Retirement.

Benefits under the Retirement Plan are not subject to any reduction for Social Security benefits or other offset amounts. Benefits may be paid in certain alternative forms having actuarial equivalent values.

In addition to the Retirement Plan, each of the Named Executive Officers participates in a SERP agreement with the Company. The SERP provides each executive with supplemental retirement income upon the attainment of age 65 with at least 10 years of service. Executives are eligible for a reduced early retirement benefit upon the attainment of age 55 with at least 10 years of service. The SERP benefit formula is 75% of the executive's "Average Compensation", minus the participant's Retirement Plan benefit, minus his or her Social Security benefit. "Average Compensation" is the average of the last 5 years of the executive's base pay. James Fulmer is the only Named Executive Officer currently eligible for early retirement under the SERP. For additional information regarding the SERP agreements, see "Potential Payments Upon Termination or Change in Control", below.

Potential Payments upon Termination or Change in Control

Each of the Named Executive Officers, has entered into a Supplemental Executive Retirement Agreement with the Company. The SERP agreements provide the covered executive officers with the following retirement, death, disability and change of control benefits:

Retirement Benefits. Upon retirement, a covered executive officer is eligible to receive payment of his or her annual retirement benefit amount, which is equal to 75% of the executive's earnings, less (a) the annual amount payable under any single life annuity provided under the Company's Retirement Plan and (b) any social security benefits. This benefit is also reduced by 5% for each year the executive officer's service, as defined in the agreement, is less than 20 years. The retirement benefit is payable monthly until the executive officer's death and is subject to reduction depending upon the executive officer's age as of the date of benefit commencement prior to age 65. For purposes of this benefit, an executive officer's "earnings" will be the average of the executive officer's five highest calendar years of base salary.

Death Benefits. In the event of the covered executive officer's death (i) after retirement, his or her spouse will be paid (monthly) 50% of the executive officer's annual retirement benefit until the spouse's death, and (ii) prior to retirement, his or her spouse will be paid (monthly) 50% of the vested portion of the executive officer's annual retirement benefit until the spouse's death, provided the spouse survives until the executive officer's designated retirement age in the SERP agreement.

Disability Benefits. Upon a covered executive officer becoming disabled, he or she is entitled to payment of his or her retirement benefits commencing at the executive officer's designated retirement date in the SERP agreement, but with the assumption that the executive officer has completed 20 years of service and is 100% vested in the benefit under the SERP agreement as of the date of his or her disability. In the event of the executive officer's death after disability, the executive officer's spouse will be entitled to payment of the death benefits described above.

Change of Control Benefits. In the event of a change in control, the covered executive officer will be deemed to have completed 20 years of service and will be 100% vested in the benefit payable under the SERP agreement. Covered executive officers could be entitled to certain severance benefits following a change of control of the Company (as defined in the SERP agreements). If, within three years following a change in control, the executive officer is terminated, other than for cause or the executive officer's duties or compensation are significantly reduced and as a result the executive voluntarily resigns his or her employment, the executive officer is entitled for a period of three years to (a) payment of his or her base salary in effect immediately prior to the change in control, but subject to reduction by 20% to 100% depending on the executive officer's age at the time of his or her termination, (b) the executive officer's bonus and profit sharing compensation, which will be the average of the executive officer's bonus and profit sharing compensation earned for the two most recently completed fiscal years of the Company and (c) continuation of all welfare benefits that he or she was participating in immediately prior to the change in control.

Upon termination or a change in control of the Company, our Named Executive Officers are also entitled to certain rights with respect to their equity awards. As described below, these rights may include acceleration of vesting, or additional time periods in which to exercise a vested award.

2001 Stock Option Plan. Under the 2001 Stock Option Plan, all outstanding options become fully vested and immediately exercisable upon a change in control of the Company. In the event of an optionee's termination of employment without "cause," other than by reason of death, disability, or retirement, this plan provides that the optionee will have the right to exercise the vested portion of his unexercised options for up to 30 days following his termination date, as long as the option period does not otherwise expire during such 30-day period. In the event that the optionee retires from the Company or any of its subsidiaries on a scheduled retirement date, the optionee will have the right to exercise the vested portion of his unexercised options for up to 90 days following his retirement date, as long as the option period does not otherwise expire during such 90-day period. Upon the death of an optionee, any vested but unexercised options may be exercised within one year after the date of the optionee's death, but only (i) by the optionee's estate or other legal representative, and (ii) prior to the expiration of the term of the option. If an optionee's employment is terminated because he has become permanently and totally disabled (as defined in Section 22(e)(3) of the Internal Revenue Code), the optionee will have the right to exercise the vested portion of his unexercised options for up to one year following his termination date, as long as the option period does not otherwise expire during such one-year period. Finally, if an optionee is terminated for "cause," all of his outstanding options—whether or not exercisable—are terminated. Under the 2001 Stock Option Plan, "cause" is defined as the optionee's dishonesty, malfeasance, misfeasance or the commission of a criminal offense.

2009 Equity Incentive Plan. Under the 2009 Equity Plan, if the Company is not the surviving corporation following a change in control, and the acquirer does not assume the outstanding equity awards, or does not substitute equivalent equity awards, then all of the equity awards held by its Named Executive Officers will become immediately and fully exercisable and/or vested. In addition, the Board of Directors may, in its sole discretion, provide for a cash payment to be made to all awardees under the 2009 Equity Plan for their outstanding awards, determined on the basis of the fair market value that would be received in the change in control by the holders of our common stock. However, any stock option intended to be an Incentive Stock Option under Section 422 of the Internal Revenue Code will be adjusted in a manner to preserve such status. If an awardee's employment is terminated without "cause" within 24 months following a change in control, and Tompkins is the surviving corporation following such change in control, or if the acquirer assumes the outstanding equity awards, or substitutes equivalent equity awards, then all of the equity awards held by our Named Executive Officers will become immediately and fully exercisable and/or vest upon such termination. In this case, the Named Executive Officer would have the right to exercise the vested portion of his unexercised awards for up to one year following his termination date, as long as the award period does not otherwise expire during such one-year period. If an awardee's employment is terminated for "cause" within 24 months following a change in control, and Tompkins is the surviving corporation following such change in control, or if the acquirer assumes the outstanding equity awards, or substitutes equivalent equity awards, then any equity awards held by the Named Executive Officers will expire or be forfeited, and any rights under such awards will terminate immediately.

For purposes of the 2009 Equity Plan, the term “cause” is defined to mean (a) gross negligence or gross neglect of duties; or (b) commission of a felony or of a gross misdemeanor involving moral turpitude in connection with the employee’s employment with the Company; or (c) fraud, disloyalty, dishonesty or willful violation of any law or significant Company policy committed in connection with the employee’s employment; or (d) issuance of an order for removal of the employee by any agency which regulates the activities of the Company. Any determination of “Cause” under the plan is made by the Company’s Compensation Committee in its sole discretion.

Under the 2009 Equity Plan, unvested or unexercisable awards are forfeited or terminated upon an awardee's termination of employment. If the Named Executive Officer's employment is terminated for any reason other than death, disability, retirement or "cause," he would have the right to exercise the vested portion of his unexercised awards for up to three months following his termination date, as long as the award period does not otherwise expire during such three-month period. Upon a termination for "cause," any equity awards (whether or not exercisable) will terminate immediately, and any unvested restricted stock awards will be forfeited. If a Named Executive Officer dies, any equity awards which are exercisable will continue to be exercisable at any time before the earlier of (i) one year following his death or (ii) the expiration date of the award. Similarly, if a Named Executive Officer's termination is due to disability or retirement, his equity awards which are exercisable will continue to be exercisable at any time before the earlier of (i) one year following his termination of employment or (ii) the expiration date of the award. However, a stock option which is intended to qualify as an Incentive Stock Option will only be treated as such to the extent it complies with the requirements of Section 422 of the Internal Revenue Code.

In addition, the SERP agreements with Messrs. Fulmer, Klein and Romaine provide that in the event that the covered executive officer's employment is terminated without cause (other than upon a change of control, death or disability), then he is entitled to (a) payment of his base salary in effect immediately prior to his termination of employment and (b) participation, at his option, in the Company's welfare benefits. These severance benefits are payable for a period of 24 months to Mr. Fulmer and 12 months to Messrs. Klein and Romaine. At the discretion of the Compensation Committee Messrs. Fetsko and Hartz may be eligible for severance under a practice that has historically been used by the Company in connection with reductions in force. Under this practice Messrs. Fetsko and Hartz might receive 4 weeks' salary plus an additional 2 weeks' salary for each completed year of service. If severance were to be granted, Messrs. Fetsko and Hartz would also be eligible to participate in the Company's welfare benefits for the period covered by their severance. This historical severance practice is not pursuant to any written plan, and there are no assurances that the Compensation Committee would elect to continue this practice with respect to Messrs. Fetsko and Hartz or any other employees in the future.

Further, under the SERP agreements, in the event that a Named Executive Officer's employment is involuntarily terminated (other than for cause) at any time, or the executive voluntarily resigns after reaching age 55 and after completing 10 years of service, but prior to his designated retirement age in his SERP agreement, he will be entitled to payment of his retirement benefits on his designated retirement date, or, in the event of his death, his spouse will be entitled to payment of the death benefits described above.

No benefits are payable under the SERP agreements if the covered executive officer's employment is terminated for cause, or if he competes with the Company. If the executive officer voluntarily terminates his or her employment before age 55 and completion of 10 years of service, other than because of death, disability or change of control, he or she will not be entitled to payment of any retirement benefits. The SERP agreements are not employment agreements and do not confer upon the covered executive officers any right to continued employment with the Company or any of its subsidiaries.

(1) If terminated, or duties or compensation of Named Executive Officer are significantly reduced due to change in control, Named Executive Officer receives for a period of three years continuation of compensation (base pay plus average of bonus and profit sharing compensation for last two years) as well as all current employee welfare benefits. Year one includes value of accelerated vesting of equity incentive awards, calculated using the closing sale price of our common stock on the NYSE MKT LLC on December 31, 2012.

The table above shows the potential incremental value transfer to each Named Executive Officer under a change-in-control scenario as of December 31, 2012, the last business day of fiscal 2012. Unvested, unexercised stock options and unvested restricted stock awards are valued at the closing market price of our common stock on that date. The actual amounts to be paid out can only be determined at the time of such Named Executive Officer's separation from the Company.

Deferred Compensation Plan for Selected Officers

The Company maintains a nonqualified deferred compensation plan for a select group of officers, including the Named Executive Officers. This plan allows participating employees to defer receipt of all or a portion of bonuses, excess awards under the Company's 401(k) plan, and profit sharing payments otherwise payable to them until a future date. Amounts deferred under the deferred compensation plan on the part of the Named Executive Officers are included as "Bonus" or "All Other Compensation", as applicable, in the Summary Compensation Table above.

The bonuses listed in the Summary Compensation Table are reported for the year in which they were earned. The payment for said bonuses is made in the following year. If the Named Executive Officer elects to defer a bonus or profit sharing payment, the amount credited to his or her account under the deferred compensation plan is the net amount after Social Security and Medicare are withheld.

Amounts deferred by participating officers are credited to a bookkeeping account maintained for each officer. Such amounts then accrue interest on a quarterly basis, at a rate equal to the higher of either the highest yielding Treasury constant maturity bond for that calendar year, as reported in the Federal Reserve Statistical Release, or the prime rate, as published in The Wall Street Journal on the first business day of that calendar year. During 2012, interest accrued under the deferred compensation plan at the prime rate, 3.25%.

At the time an officer elects to participate in the deferred compensation plan, he or she also selects a deferral payment date, on which payments under the plan will commence. Payments will be either in a lump sum or in the number of annual installments specified by the officer at the time he or she selects the deferral payment date. The deferral payment date must occur no earlier than the calendar year after the officer's 60th birthday, and no later than the calendar year after the officer's 65th birthday.

An officer may at any time terminate his or her election to defer payments under the deferred compensation plan. Any such election is effective on the last day of the calendar year in which the election was made.

All payments under the deferred compensation plan are made in cash. Upon the death of a participant in the deferred compensation plan, any remaining balance in his or her account will be paid in a lump sum to his or her estate or designated beneficiaries. A participating officer may, under certain circumstances specified in the deferred compensation plan, be entitled to a hardship distribution of all or any portion of his or her account.

KPMG LLP, AS INDEPENDENT AUDITOR

The Audit/Examining Committee of the Board of Directors of the Company has appointed the independent registered public accounting firm, KPMG LLP (“KPMG”), as the Company’s independent auditor for the fiscal year ending December 31, 2013. Although our Bylaws do not require the submission of the selection of the independent auditor to our shareholders for approval, the Board believes it is appropriate to give shareholders the opportunity to ratify the decision of the Audit/Examining Committee. Neither the Audit/Examining Committee nor the Board will be bound by the shareholders’ vote at the meeting but may take the shareholders’ vote into account in future determinations regarding the retention of the Company’s independent auditor.

Vote Required and Recommendation

The affirmative vote of a majority of the votes cast on the proposal is required for approval of this proposal. Abstentions and broker non-votes will not constitute or be counted as votes cast for purposes of this proposal, and therefore will have no impact on the outcome of this proposal. **THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM, KPMG LLP, AS THE INDEPENDENT AUDITOR OF THE COMPANY FOR FISCAL YEAR ENDING DECEMBER 31, 2013. SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's Directors and officers, and persons who own more than 10% of the Company's common stock, to file with the SEC initial reports of ownership and reports of changes in ownership of the Company's capital stock. Officers, Directors and greater than 10% shareholders are required by SEC regulation to furnish the Company with copies of all Section 16(a) forms they file.

To the Company's knowledge, based upon on a review of the copies of such reports furnished to the Company and written representations that no other reports were required, during fiscal 2012 all Section 16(a) filing requirements applicable to its officers, directors and greater than 10% shareholders were satisfied, except that Director Alexander failed to timely report a purchase of TMP stock in November, 2012. This purchase was reflected on a Form 4 filed on January 8, 2013.

TRANSACTIONS WITH RELATED PERSONS

Certain directors and executive officers of the Company, members of their immediate families and companies or firms with which they are associated, were customers of, or had other transactions with, the Company or its wholly-owned subsidiaries in the ordinary course of business during fiscal 2012. Any and all loans and commitments to lend to such individuals were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with persons not related to the Company and did not involve more than the normal risk of collectability or present other unfavorable features. As of December 31, 2012, the balance of all such loans was \$5,942,552. None of the loans outstanding to Directors or executive officers of the Company, or members of their immediate families or companies or firms with which they are associated, were nonperforming at December 31, 2012.

The Board maintains a written policy governing the procedures by which the Company and any of its subsidiaries may enter into transactions with related parties (the "Policy"). The Policy defines an "Interested Transaction" as any transaction, arrangement or relationship or series of similar transactions, arrangements or relationships (including any indebtedness or guarantee of indebtedness) in which (1) the aggregate amount involved will or may be expected to exceed \$120,000 in any calendar year, (2) the Company or any if its subsidiaries is a participant, and (3) any Related Party has or will have a direct or indirect interest (other than solely as a result of being a director or beneficial owner of less than 10 percent of another entity). A "Related Party" is any (a) person who is or was an executive officer of the Company during the prior 12 months, a Director of the Company or a nominee for election as a Director of the Company, (b) greater than 5 percent beneficial owner of the Company's common stock, or (c) immediate family member of any of the foregoing. The Company's Nominating and Corporate Governance Committee is apprised of any potential Interested Transaction, and this Committee is charged with evaluating and approving, as appropriate, any such transactions. The Committee takes into account, among other factors it deems appropriate, whether the Interested Transaction is on terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances and the extent of the Related Party's interest in the transaction. In its implementation of the Policy, the Committee also has reviewed certain types of Interested Transactions and has established standing pre-approval for these types of transactions, subject in all cases to compliance with applicable regulations of the SEC, federal and state bank regulatory authorities, and other regulatory agencies.

Director William D. Spain, Jr. is a 50% owner of the law firm of Spain & Spain, PC. During 2012, the Company, through its subsidiary, Mahopac National Bank, paid \$191,088 in legal fees to Spain & Spain, PC. Of this amount, \$45,196 was paid as a general retainer, and \$145,892 was paid for litigation fees. An additional amount of \$299,100 was paid for mortgage closing services, the cost of which was reimbursed by the borrower in connection with the mortgage closing.

REPORT OF THE AUDIT/EXAMINING COMMITTEE OF THE BOARD OF DIRECTORS

The information contained in this report shall not be deemed to be “soliciting material” or “filed” or incorporated by reference in future filings with the SEC, or subject to the liabilities of Section 18 of the Exchange Act, except to the extent that the Company specifically incorporates it by reference into a document filed under the Securities Act or the Exchange Act.

The Audit/Examining Committee is appointed by the Board to assist the Board in fulfilling its oversight responsibilities. The Audit/Examining Committee is composed of four non-employee Directors, all of whom are “independent directors” under Section 803(A) of the NYSE MKT LLC Company Guide and Rule 10A-3 under the Exchange Act.

The Audit/Examining Committee operates under a written charter approved by the Board. The Audit/Examining Committee’s primary duties and responsibilities are: to oversee the Company’s accounting and financial reporting process and the audit of the Company’s financial statements and to monitor the integrity of the Company’s financial statements; to monitor the independence and qualifications of the Company’s independent auditor; monitor the performance of the Company’s independent auditor and internal auditing department; provide an avenue of communication among the Company’s independent auditor, management, the internal auditing department, and the Board of Directors; and to monitor compliance by the Company with legal and regulatory requirements. The Audit/Examining Committee is also directly responsible for the appointment and compensation of the Company’s independent auditor.

The Audit/Examining Committee met nine times during fiscal 2012 and reports to the Board on a quarterly basis. The Audit/Examining Committee schedules its meetings with a view to ensuring that it devotes appropriate attention to all of its tasks. The Audit/Examining Committee’s meetings include, whenever appropriate, executive sessions with the Company’s independent auditors and with the Company’s internal auditors, in each case without the presence of the Company’s management.

The Audit/Examining Committee has the authority to conduct any investigation appropriate to fulfilling its responsibilities. It has direct access to the independent auditors and to any employee or officer of the Company it deems necessary. The Audit/Examining Committee has the ability to retain, at the Company’s expense and at compensation it deems appropriate, special legal, accounting, or other consultants or experts it deems necessary in the performance of its duties.

Management is responsible for the Company’s internal controls and financial reporting process. The Company’s independent registered public accounting firm, KPMG, is responsible for performing an independent audit of the Company’s consolidated financial statements and an audit of the Company’s internal control over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States).

In connection with its responsibilities, the Audit/Examining Committee reviewed and discussed with management and with KPMG the Company’s audited consolidated financial statements for the fiscal year ended December 31, 2012. The Audit/Examining Committee also discussed with KPMG the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees), as amended, as adopted by Public Company Accounting Oversight Board in Rule 3200T, received the written disclosures and the letter from KPMG required by the applicable requirements of the Public Company Accounting Oversight Board relating to that firm’s communications with the Audit/Examining Committee concerning KPMG’s independence from the Company, and has discussed with KPMG its independence.

Based upon the Audit/Examining Committee’s discussions with management, the Company’s internal auditor, and KPMG and the Audit/Examining Committee’s review of the information described in the preceding paragraph, the

Audit/Examining Committee recommended to the Board that the Company's audited consolidated financial statements for the fiscal year ended December 31, 2012, be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012, for filing with the SEC.

HOUSEHOLDING OF PROXY STATEMENT

The SEC has adopted rules that permit companies and intermediaries such as brokers to satisfy delivery requirements for proxy statements and annual reports with respect to two or more shareholders sharing the same address by delivering a single proxy statement or annual report, as applicable, addressed to those shareholders. As permitted by the Exchange Act, only one copy of this proxy statement is being delivered to shareholders residing at the same address, unless shareholders have notified the company whose shares they hold of their desire to receive multiple copies of the proxy statement. This process, which is commonly referred to as “householding,” potentially provides extra convenience for shareholders and cost savings for companies.

If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement, or if you are receiving multiple copies of this proxy statement and wish to receive only one, please contact the Investor Relations department of the company. The Company will promptly have delivered, upon oral or written request, a separate copy of this proxy statement to any shareholder residing at an address to which only one copy was mailed.
