Overview

We are a global outdoor advertising company with leading market positions in each of our operating segments: Americas outdoor advertising (“Americas”) and International outdoor advertising (“International”).

Americas. We are the largest outdoor advertising company in North America (based on revenues), which includes the United States and Canada. As of December 31, 2012, we owned or operated approximately 108,000 display structures, including more than 1,000 digital billboards in 37 U.S. markets. Our Americas assets consist of traditional and digital billboards, street furniture and transit displays, airport displays, mall displays and wallscapes and other spectaculars, which we believe are in premier real estate locations in various markets throughout the Americas. As of December 31, 2012, we had operations in 48 of the top 50 markets in the United States, based on designated market area (“DMA”) region rankings, including all of the top 20 markets. Our Americas advertising business is focused on metropolitan areas with dense populations. For the year ended December 31, 2012 and the three months ended March 31, 2013, our Americas segment represented 43% and 44% of our revenue, respectively.

International. We are a leading international outdoor advertising company with operations in Asia, Australia, Europe and Latin America, with approximately 33% of our 2012 revenue in this segment derived from France and the U.K. As of December 31, 2012, we owned or operated more than 650,000 displays across 28 countries, including positions in attractive international growth markets, such as China and Australia. Our International assets consist of street furniture and transit displays, billboards, mall displays, Smartbike programs, wallscapes and other spectaculars. Our International business is focused on metropolitan areas with dense populations. For the year ended December 31, 2012 and the three months ended March 31, 2013, our International segment represented 57% and 56% of our revenue, respectively.

For the year ended December 31, 2012 and the three months ended March 31, 2013, we generated revenue of \$2,946.9 million and \$650.2 million, respectively.

Our Strengths

Global Scale and Local Market Leadership. We are a leading global outdoor advertising company. As of December 31, 2012, we owned and operated more than 750,000 outdoor advertising displays worldwide in metropolitan and densely-populated real estate locations, providing advertisers with both a global and a local reach. Our global scale enables productive and cost-effective investment across our portfolio, which supports our competitive position.

Table of Contents

- Our business is focused on urban markets with dense populations. Our real estate locations in these markets provide reach to a broad audience and therefore a compelling opportunity for our advertisers to reach a mass audience at a relatively low cost. We believe that the buying decision for our customers is based on the strength of the network of locations for outdoor advertising we can offer. The strength of our network is derived from the value of our permits and site-leases. In the United States, we have operations in 48 of the top 50 markets, including all of the 20 largest markets, and our International division currently has a presence in 28 countries.
- Our scale has enabled cost-effective investment in new display technologies, such as digital billboards, which we believe can support future growth. This technology allows us to transition from selling space on a display to a single advertiser to selling time on that display to multiple advertisers, creating new revenue opportunities from both new and existing clients.

Strong Collection of Assets. Through acquisitions and organic growth, we have aggregated a sizable portfolio of assets. The domestic outdoor industry is regulated by the Federal government as well as state and municipal governments. Statutes and regulations govern the construction, repair, maintenance, lighting, spacing, location, replacement and content of outdoor advertising structures. Due to such regulation, it has become increasingly difficult to construct new outdoor advertising structures. Further, for many of our existing billboards, a permit for replacement cannot be sought by our competitors or landlords. Internationally, regulations vary by country and region but generally provide for limitations on the number, placement, size, nature and density of outdoor displays. As a result, our existing billboards in top demographic areas have significant value.

Outdoor is a Compelling Value Proposition to Advertisers. We believe outdoor advertising offers a cost-effective advertising medium for advertisers, broad reach, access to consumers when they are out of the home and relatively low cost per thousand persons reached relative to other media. We also believe the outdoor industry is well-positioned to benefit from the fragmentation of audiences of other media as it is able to reach mass audiences on a local market basis.

- **Cost-Effective Advertising Medium.** Outdoor media provides advertisers with highly cost-effective advertising as measured by cost per thousand persons reached.
- **Broad Audience Reach.** According to the Arbitron 2009 In-Car Study, the average American spends about 20 hours in a car per week, a 31% increase since 2003. The captive in-car audience is subject to increasing out-of-home advertiser exposures as time and distance of commutes increase.
- **Valuable Out-of-Home Position.** Outdoor advertising reaches potential consumers outside the home, where they are closer to purchase decisions. Many of our billboards are located along major roadways that are highly trafficked and have the potential to direct consumers to nearby businesses.
- **Fragmentation of Other Media.** We believe that the proliferation of content and distribution models provides a means for the continued fragmentation of audiences of most traditional media, rendering outdoor advertising more attractive for its mass reach capabilities.

Attractive Long-Term Business Model. While spending on outdoor advertising is, like most media, correlated with the overall economy, we believe the industry holds attractive long term prospects, both domestically and internationally.

- **Strong Cash Flow Generation.** For 2010, 2011, 2012 and the three months ended March 31, 2013, we generated operating cash flows of \$525.2 million, \$517.2 million, \$355.1 million and \$33.3 million, respectively.

Table of Contents

- **Geographic and Customer Diversity.** For the year ended December 31, 2012, approximately 43% and 57% of our revenue was generated from our Americas and our International segments, respectively, and as of December 31, 2012, we had operations in 54 countries. No single advertising market in the United States and no ad category represented greater than 9% and 11%, respectively, of our revenue during the year ended December 31, 2012.

Experienced Management Team. We have an experienced management team from our senior executives to our local market managers. Our Chief Executive Officer, C. William Eccleshare, who previously served as our Chief Executive Officer—International since September 1, 2009, has more than 30 years of advertising experience. Our Chief Revenue Officer, Franklin G. Sisson, Jr., has served as an executive of Clear Channel Outdoor Holdings for more than a decade, as has our Managing Director and Chief Operating Officer-International, Jonathan Bevan. Many of our senior managers have managed the business through several business cycles.

Our Strategy

We seek to capitalize on our outdoor network and diversified product mix to maximize revenue and profitability. In addition, by sharing best practices among our business segments, we believe we can quickly and effectively replicate our successes in other markets in which we operate. Our outdoor strategy focuses on leveraging our diversified product mix and long-standing presence in many of our existing markets, which provides us with the ability to launch new products and test new initiatives in a reliable and cost-effective manner.

Promote Outdoor Media Spending. Given the attractive industry fundamentals of outdoor media and our depth and breadth of relationships with both local and national advertisers, we believe we can drive outdoor advertising's share of total media spending by using our dedicated national sales team to highlight the value of outdoor advertising relative to other media. Outdoor advertising only represented 3% of total dollars spent on advertising in the United States in 2011. We have made and continue to make significant investments in research tools that enable our clients to better understand how our displays can successfully reach their target audiences and promote their advertising campaigns. Also, we are working closely with clients, advertising agencies and other diversified media companies to develop more sophisticated systems that will provide improved audience metrics for outdoor advertising. For example, we have implemented the TAB Out of Home Ratings audience measurement system which: (1) separately reports audiences for billboards, posters, junior posters, transit shelters and phone kiosks, (2) reports for geographically sensitive reach and frequency, (3) provides granular detail, reporting individual out of home units in over 200 designated market areas, (4) provides detailed demographic data comparable to other media, and (5) provides true commercial ratings based on people who see the advertising.

Continue to Deploy Digital Displays. Digital outdoor advertising provides significant advantages over traditional outdoor media. Our electronic displays are linked through centralized computer systems to instantaneously and simultaneously change advertising copy on a large number of displays, allowing us to sell more advertising opportunities to advertisers. The ability to change copy by time of day and quickly change messaging based on advertisers' needs creates additional flexibility for our customers. Although digital displays require more capital to construct compared to traditional bulletins, the advantages of digital allow us to penetrate new accounts and categories of advertisers, as well as serve a broader set of needs for existing advertisers. Digital displays allow for high-frequency, 24-hour advertising changes in high-traffic locations and allow us to offer our clients optimal flexibility, distribution, circulation and visibility. We expect this trend to continue as we increase our quantity of digital inventory. As of December 31, 2012, we have deployed more than 1,000 digital billboards in 37 markets in the United States and more than 3,400 digital displays in 13 countries across Europe, Asia and Latin America.

Capitalize on Product and Geographic Opportunities. We are also focused on growing our business internationally by working closely with our advertising customers and agencies in meeting their needs, and through new product offerings, optimization of our current display portfolio and selective investments targeting promising growth markets.

We have continued to innovate and introduce new products in international markets based on local demands. Our core business is our street furniture business and that is where we plan to focus much of our investment. We plan to continue to evaluate municipal contracts that may come up for bid and will make prudent investments where we believe we can receive attractive returns. We will also continue to invest in markets such as China and Latin America where we believe there is high growth potential.
