1. Description of Business and Summary of Significant Accounting Policies

Description of Business

CDW Corporation (“Parent”) is a Fortune 500 company with multi-national capabilities and a leading provider of integrated information technology (“IT”) solutions to small, medium and large business, government, education and healthcare customers in the United States, Canada and the United Kingdom. The Company's offerings range from discrete hardware and software products to integrated IT solutions such as mobility, security, data center optimization, cloud computing, virtualization and collaboration.

Throughout this report, the terms the “Company” and “CDW” refer to Parent and its 100% owned subsidiaries. Parent has two 100% owned subsidiaries, CDW LLC and CDW Finance Corporation. CDW LLC is an Illinois limited liability company that, together with its 100% owned subsidiaries, holds all material assets and conducts all business activities and operations of the Company. CDW Finance Corporation is a Delaware corporation formed for the sole purpose of acting as co-issuer of certain debt obligations and does not hold any material assets or engage in any business activities or operations.

On August 1, 2015, the Company completed the acquisition of Kelway TopCo Limited (“Kelway”) by purchasing the remaining 65% of its outstanding common stock which increased the Company’s ownership interest from 35% to 100%, and provided the Company control. On April 4, 2016, Kelway was rebranded CDW UK. Throughout this report, the term "CDW UK" refers to Kelway. For further details regarding the acquisition, see Note 3 (Acquisition).

Basis of Presentation

The accompanying unaudited interim Consolidated Financial Statements as of June 30, 2016 and for the three and six months ended June 30, 2016 and 2015 (the “Consolidated Financial Statements”) have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”) and the rules and regulations of the U.S. Securities and Exchange Commission (the “SEC”) for interim financial statements. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the SEC. These Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 (the “December 31, 2015 Consolidated Financial Statements”). The significant accounting policies used in preparing these Consolidated Financial Statements were applied on a basis consistent with those reflected in the December 31, 2015 Consolidated Financial Statements. In the opinion of management, the Consolidated Financial Statements contain all adjustments (consisting of a normal, recurring nature) necessary to present fairly the Company's financial position, results of operations, comprehensive income, cash flows and changes in stockholders' equity as of the dates and for the periods indicated. The unaudited results of operations for such interim periods reported are not necessarily indicative of results for the full year.

Principles of Consolidation

The accompanying Consolidated Financial Statements include the accounts of Parent and its 100% owned subsidiaries. All intercompany transactions and accounts are eliminated in consolidation.

Use of Estimates

The preparation of the Consolidated Financial Statements in accordance with GAAP requires management to make use of certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the Consolidated Financial Statements and the reported amounts of revenue and expenses during the reported periods. The Company bases its estimates on historical experience and on various other assumptions that management believes are reasonable under the circumstances, the results of which form the basis for making judgments about carrying values of assets and liabilities that are not readily apparent from

other sources. Actual results could differ from those estimates.

The notes to the Consolidated Financial Statements contained in the December 31, 2015 Consolidated Financial Statements include an additional discussion of the significant accounting policies and estimates used in the preparation of the Company's Consolidated Financial Statements. There have been no material changes to the Company's significant accounting policies and estimates during the six months ended June 30, 2016.

2. Recent Accounting Pronouncements

Measurement of Credit Losses on Financial Instruments

In June 2016, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. This ASU introduces a new forward-looking approach, based on expected losses, to estimate credit losses on certain types of financial instruments, including trade receivables. The estimate of expected credit losses will require considerations of historical information, current information and reasonable and supportable forecasts. This ASU also expands the disclosure requirements to enable users of financial statements to understand the assumptions, models and methods for estimating expected credit losses. This ASU is effective for the Company beginning in the first quarter of 2020 and allows for early adoption beginning in the first quarter of 2019. The Company is currently evaluating the impact the ASU will have on its Consolidated Financial Statements.

Improvements to Employee Share-Based Payment Accounting

In March 2016, the FASB issued ASU 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, requiring the recognition of the income tax effects of stock awards in the income statement when the awards are settled and allowing the Company to repurchase more of an employee's shares than allowed under current guidance, without triggering liability accounting. This ASU also addresses simplifications related to statement of cash flows classification and accounting for forfeitures. This ASU is effective for the Company beginning in the first quarter of 2017 and allows for early adoption. The Company is currently evaluating the impact this ASU will have on its Consolidated Financial Statements.

Accounting for Leases

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), requiring lessees to recognize assets and liabilities on the balance sheet for the rights and obligations created by long-term leases and to disclose additional quantitative and qualitative information about leasing arrangements. This ASU is effective for the Company beginning in the first quarter of 2019 and allows for early adoption. Although the Company is currently evaluating the provisions of the ASU to determine how it will be affected, the primary impact of the new ASU will be to record assets and liabilities for current operating leases.

Balance Sheet Classification of Deferred Taxes

In November 2015, the FASB issued ASU 2015-17, Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes, simplifying the presentation of deferred income taxes by requiring all deferred taxes to be presented as noncurrent in the balance sheet. In the first quarter of 2016, the Company elected to early adopt ASU 2015-17 on a prospective basis. The adoption of this standard did not have a material impact on the Company's Consolidated Financial Statements.

Simplifying the Measurement of Inventory

In July 2015, the FASB issued ASU 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory, amending the subsequent measurement of inventory by requiring inventory to be measured at the lower of cost and net realizable value instead of the lower of cost or market value. This ASU is effective for the Company beginning in the first quarter of 2017, allows for early adoption and must be applied prospectively after the date of adoption. This ASU is not expected to have a material impact on the Company's Consolidated Financial Statements.

Revenue Recognition

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), replacing most existing revenue recognition guidance under GAAP and eliminating industry specific guidance. The core principle of the new guidance is that an entity should recognize revenue for the transfer of goods and services equal to an amount it expects to be entitled to receive for those goods and services.

In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, deferring the effective date by one year.

Table of ContentsCDW CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Gross versus Net), clarifying the principal versus agent guidance in the new revenue recognition standard, by revising the indicators to focus on evidence that the company is a principal.

In April 2016, the FASB issued ASU 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing, reducing the complexity when applying the guidance for identifying performance obligations and clarifying how to determine whether revenue related to a performance obligation for an intellectual property license is recognized over time or at a point in time.

In May 2016, the FASB issued ASU 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients, clarifying certain core recognition principles including collectability, sales tax presentation, noncash consideration, contract modifications and completed contracts at transition.

These ASUs are effective for the Company beginning in the first quarter of 2018, allow for early adoption in the first quarter of 2017 and may be applied using either a full retrospective approach or a modified retrospective approach.

The Company is currently evaluating the method of adoption and the impact these ASUs will have on its Consolidated Financial Statements.

3. Acquisition

On August 1, 2015, the Company completed the acquisition of CDW UK by purchasing the remaining 65% of its outstanding common stock which increased the Company's ownership interest from 35% to 100%, and provided the Company control.

A summary of the total consideration transferred is as follows:

(in millions)	Acquisition-Date Fair Value
Cash	\$ 291.6
Fair value of CDW common stock ⁽¹⁾	33.2
Fair value of previously held equity investment on the date of acquisition ⁽²⁾	174.9
Total consideration	\$ 499.7

The Company issued 2 million shares of CDW common stock. The fair value of the common stock was based on the closing market price on July 31, 2015, adjusted for the lack of marketability as the shares of CDW common stock issued to the sellers are subject to a three-year lock up restriction from August 1, 2015. One of the sellers granted 1 million stock options to certain CDW UK coworkers over his shares of CDW common stock received in the transaction. The fair value of these stock options was \$22 million, which has been accounted for as post-combination stock-based compensation and is being amortized over the weighted--average requisite service period of 3.2 years. Compensation expense for these options is included in Selling and administrative expenses in the Consolidated Statements of Operations.

As a result of the Company obtaining control over CDW UK, the Company's previously held 35% equity investment was remeasured to fair value, resulting in a gain of \$98 million included in Gain on remeasurement of equity investment in the Consolidated Statements of Operations. The fair value of the previously held equity investment was determined by management with the assistance of a third party valuation firm, based on information available as of the acquisition date.

The recognized amounts of identifiable assets acquired and liabilities assumed, translated using the foreign currency exchange rates on the date of acquisition, are as follows:

(in millions)	Acquisition-Date Fair Value ⁽¹⁾
Cash	\$ 27.8
Accounts receivable	135.7
Merchandise inventory	27.1
Property and equipment, net	11.4
Identified intangible assets ⁽²⁾	289.8

Debt	(111.5)
Total liabilities assumed	(351.6)
Total identifiable net assets	193.7
Goodwill	306.0

Total purchase price \$ 499.7

The fair values assigned to the tangible and intangible assets acquired and liabilities assumed were based on management's estimates and assumptions, as well as other information compiled by management, including (1) valuations that utilize customary valuation procedures and techniques. These fair values are subject to change within the measurement period.

(2) Details of the identified intangible assets are as follows:

(in millions)	Acquisition-Date Fair Value	Weighted-Average Amortization Period (in years)
Customer relationships	\$ 260.8	13
Customer contracts	25.9	3
Developed technology	1.7	2
Trade name	1.4	1
Total identified intangible assets	\$ 289.8	

Goodwill in the amount of \$306 million was recognized in the acquisition of CDW UK and is attributable to the business from new customers and the value of the acquired assembled workforce. The goodwill was allocated to the CDW UK operating segment which is included with CDW Canada in an all other category ("Other"). The full amount of goodwill recognized is not deductible for income tax purposes in the United Kingdom.

The unaudited pro forma Consolidated Statements of Operations in the table below summarizes the combined results of operations of the Company and CDW UK, using historical foreign currency exchange rates, as if the acquisition had been completed on January 1, 2015, and gives effect to pro forma events that are factually supportable and directly attributable to the transaction. The unaudited pro forma results reflect adjustments for equity-based compensation, acquisition and integration costs, incremental intangible asset amortization based on the fair values of

each identifiable intangible asset, which are subject to change within the measurement period, pre-acquisition equity earnings, the gain on the remeasurement

of the Company's previously held 35% equity method investment, elimination of pre-acquisition intercompany sales transactions and the impacts of certain other pre-acquisition transactions. Pro forma adjustments were tax-effected at the statutory rates within the applicable jurisdictions.

This unaudited pro forma information is presented for informational purposes only and may not be indicative of the historical results of operations that would have been obtained if the acquisition had taken place on January 1, 2015, nor the results that may be obtained in the future. This unaudited pro forma information does not reflect future synergies, integration costs, or other such costs or savings.

The unaudited pro forma Consolidated Statements of Operations for the three and six months ended June 30, 2015 is as follows:

	Three	Six
(in millions)	months	months
	ended	ended
Net sales	\$3,541.0	\$6,513.6
Net income	115.7	171.7

The unaudited pro forma information above reflects the following adjustments:

- (1) Excludes acquisition and integration costs directly related to the transaction.
- (2) Includes additional amortization expense related to the fair value of acquired intangibles.
- (3) Excludes the Company's share of net income/loss from its previously held 35% equity investment prior to the completion of the acquisition.
- (4) Includes additional non-cash equity-based compensation related to equity awards granted to CDW UK coworkers after the completion of the acquisition.

4. Inventory Financing Agreements

The Company has entered into agreements with certain financial intermediaries to facilitate the purchase of inventory from various suppliers under certain terms and conditions. These amounts are classified separately as Accounts payable-inventory financing on the Consolidated Balance Sheets. The Company does not incur any interest expense associated with these agreements as balances are paid when they are due. Amounts included in Accounts payable-inventory financing are as follows:

(in millions)	June 30, 2016	December 31, 2015
Revolving Loan inventory financing agreement ⁽¹⁾	\$498.4	\$ 427.0
Other inventory financing agreements ⁽²⁾	11.4	12.6
Accounts payable-inventory financing	\$509.8	\$ 439.6

The Senior Secured Asset-Based Revolving Credit Facility includes an inventory floorplan sub-facility that enables (1) the Company to maintain an inventory financing agreement with a financial intermediary to facilitate the purchase of inventory from certain vendors on more favorable terms than offered directly by the vendors.

As of June 30, 2016 and December 31, 2015, amounts owed under other inventory financing agreements of \$1 (2) million or less, for both periods, were collateralized by the inventory purchased under these financing agreements and a second lien on the related accounts receivable.

The Senior Secured Asset-Based Revolving Credit Facility (“Revolving Loan”) includes an inventory floorplan sub-facility that enables the Company to maintain an inventory financing agreement with a financial intermediary to facilitate the purchase of inventory from certain vendors on more favorable terms than offered directly by the vendors. As of June 30, 2016, the Company had no outstanding borrowings under the Revolving Loan, \$2 million of undrawn letters of credit and \$470 million reserved related to the floorplan sub-facility. As of June 30, 2016, the borrowing base was \$1,448 million based on the amount of eligible inventory and accounts receivable balances as of May 31, 2016. The Company could have borrowed up to an additional \$778 million under the Revolving Loan as of June 30, 2016.

(2) The CDW UK Credit Facility is a multi-currency revolving credit facility, expiring on July 17, 2017, under which CDW UK is permitted to borrow an aggregate amount of £50.0 million (\$67 million as of June 30, 2016).

Debt Covenants

As of June 30, 2016, the Company remained in compliance with the covenants under its various credit agreements, the most restrictive of which is under the credit agreement governing the Senior Secured Term Loan Facility (“Term Loan”). Under the Term Loan, there are restrictions on the ability of CDW to pay dividends, make share repurchases, redeem subordinated debt and engage in certain other transactions. As of June 30, 2016, the amount of CDW’s restricted payment capacity under the Term Loan was \$680 million. However, the Company is separately permitted to make restricted payments, so long as the total net leverage ratio is less than 3.25 on a pro forma basis. The total net leverage ratio was 2.9 as of June 30, 2016.

The CDW UK Term Loan Agreement imposes restrictions on CDW UK’s ability to transfer funds to the Company through the payment of dividends, intercompany loans, advances or the repayment of subordinated debt that require, among other things, the maintenance of a minimum net leverage ratio. As of June 30, 2016, the amount of such restricted net assets for CDW UK was \$410 million, which was primarily comprised of goodwill and intangible assets.

Fair Value

The fair values of the 2022, 2023 and 2024 Senior Notes were estimated using quoted market prices for identical liabilities that are traded in over-the-counter secondary markets that are not considered active. The fair value of the Term Loan was estimated using dealer quotes for identical liabilities in markets that are not considered active. Consequently, the Company’s long-term debt is classified as Level 2 within the fair value hierarchy. The fair value of

the CDW UK Term Loan was estimated using a discounted cash flow analysis based on current incremental borrowing rates for similar arrangements. The approximate fair values and related carrying values of the Company's long-term debt, including current maturities and excluding unamortized discount and unamortized deferred financing costs, were as follows:

Interest Rate Cap Agreements

In order to manage the risk associated with changes in interest rates on borrowings under the Term Loan, the Company maintains interest rate cap agreements. As of June 30, 2016 the interest rate cap agreements had a combined notional amount of \$1,400 million and are effective from January 14, 2015 through January 14, 2017. Under these agreements, the Company has the right to receive payments equal to the amount, if any, by which the three-month LIBOR exceeds 2.0% during the agreement period. The fair value of the Company's interest rate cap agreements was less than \$1 million as of June 30, 2016 and December 31, 2015.

6. Earnings per Share

The numerator for both basic and diluted earnings per share is Net income. The denominator for basic earnings per share is the weighted-average shares outstanding during the period. A reconciliation of basic weighted-average shares outstanding to diluted weighted-average shares outstanding is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
(in millions)	2016	2015	2016	2015
Basic weighted-average shares outstanding	164.9	171.0	166.1	171.6
Effect of dilutive securities ⁽¹⁾	1.8	1.5	1.7	1.4
Diluted weighted-average shares outstanding ⁽²⁾	166.7	172.5	167.8	173.0

The dilutive effect of outstanding stock options, restricted stock units, restricted stock, performance share units and (1) Coworker Stock Purchase Plan units is reflected in the diluted weighted-average shares outstanding using the treasury stock method.

There were less than 1 million potential common shares excluded from diluted weighted-average shares (2) outstanding for the three and six months ended June 30, 2016 and 2015, respectively, as their inclusion would have had an anti-dilutive effect.

7. Commitments and Contingencies

The Company is party to various legal proceedings that arise in the ordinary course of its business, which include commercial, intellectual property, employment, tort and other litigation matters. The Company is also subject to audit by federal, state, international, national, provincial and local authorities, and by various partners, group purchasing organizations and customers, including government agencies, relating to purchases and sales under various contracts. In addition, the Company is subject to indemnification claims under various contracts. From time to time, certain customers of the Company file voluntary petitions for reorganization or liquidation under the US bankruptcy laws or similar laws of the jurisdictions for the Company's business activities outside of the US. In such cases, certain pre-petition payments received by the Company could be considered preference items and subject to return to the bankruptcy administrator.

On October 29, 2015, the Company received a request for production of documents in connection with an investigation by the SEC of the Company's vendor partner program incentives. The Company has produced documents to the SEC and is continuing to cooperate with the SEC in this matter.

As of June 30, 2016, the Company does not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these proceedings and matters, if any, has been incurred. However, the ultimate resolutions of these proceedings and matters are inherently unpredictable. As such, the Company's financial condition and results of operations could be adversely affected in any particular period by the unfavorable resolution of one or more of these proceedings or matters.

8. Segment Information

The Company has two reportable segments: Corporate, which is comprised primarily of private sector business customers in the US, and Public, which is comprised of government agencies and education and healthcare institutions in the US. The Company has two other operating segments: CDW Canada and CDW UK, both of which do not meet the reportable segment quantitative thresholds and, accordingly, are included in an all other category (“Other”). Effective January 1, 2016, CDW Advanced Services is no longer an operating segment. Its results have been allocated to the Corporate and Public segments to align the Company's financial reporting with the manner in which the Chief Operating Decision Maker assesses performance and makes resource allocation decisions. Segment information reported in prior periods has been reclassified to conform to the current period presentation.

9. Supplemental Guarantor Information

The 2022 Senior Notes, the 2023 Senior Notes and the 2024 Senior Notes are, and, prior to being redeemed in full, the 2019 Senior Notes were guaranteed by Parent and each of CDW LLC's direct and indirect, 100% owned, domestic subsidiaries (the "Guarantor Subsidiaries"). All guarantees by Parent and the Guarantor Subsidiaries are and were joint and several, and full and unconditional; provided that guarantees by the Guarantor Subsidiaries (i) are subject to certain customary release provisions contained in the indentures governing the 2022 Senior Notes, the 2023 Senior Notes and the 2024 Senior Notes and (ii) were subject to certain customary release provisions contained in the indentures governing the 2019 Senior Notes until such indentures were satisfied and discharged in the first quarter of 2015. CDW LLC's 100% owned foreign subsidiaries, CDW International Holdings Limited, which is comprised of CDW UK and Canada, (together the "Non-Guarantor Subsidiaries") do not guarantee the debt obligations. CDW LLC and CDW Finance Corporation, as co-issuers, are 100% owned by Parent and each of the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries are, directly or indirectly, 100% owned by CDW LLC.

The following tables set forth condensed Consolidating Balance Sheets as of June 30, 2016 and December 31, 2015, Consolidating Statements of Operations for the three and six months ended June 30, 2016 and 2015, condensed Consolidating Statements of Comprehensive Income for the three and six months ended June 30, 2016 and 2015 and condensed Consolidating Statements of Cash Flows for the six months ended June 30, 2016 and 2015, in accordance with Rule 3-10 of Regulation S-X. The consolidating financial information includes the accounts of CDW Corporation (the "Parent Guarantor"), which has no independent assets or operations, the accounts of CDW LLC (the "Subsidiary Issuer"), the combined accounts of the Guarantor Subsidiaries, the accounts of the Non-Guarantor Subsidiaries, and the accounts of CDW Finance Corporation (the "Co-Issuer") for the periods indicated. The information was prepared on the same basis as the Consolidated Financial Statements.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Unless otherwise indicated or the context otherwise requires, as used in this “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” the terms “we,” “us,” “the Company,” “our,” “CDW” and similar terms refer to CDW Corporation and its subsidiaries. “Management’s Discussion and Analysis of Financial Condition and Results of Operations” should be read in conjunction with the unaudited interim Consolidated Financial Statements and the related notes included elsewhere in this report and with the audited Consolidated Financial Statements included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015. This discussion contains forward-looking statements that are subject to numerous risks and uncertainties. Actual results may differ materially from those contained in any forward-looking statements. See “Forward-Looking Statements” at the end of this discussion.

Overview

CDW is a Fortune 500 company and a leading provider of integrated information technology (“IT”) solutions in the United States, Canada and the United Kingdom. With our multinational capabilities, we help our customer base of over 250,000 small, medium and large business, government, education and healthcare customers by delivering critical solutions to their increasingly complex IT needs. Our broad array of offerings ranges from discrete hardware and software products to integrated IT solutions such as mobility, security, data center optimization, cloud computing, virtualization and collaboration. We are technology “agnostic,” with a product portfolio including more than 100,000 products from more than 1,000 brands. We provide our products and solutions through more than 5,000 customer-facing coworkers, including field sellers, highly-skilled technology specialists and advanced service delivery engineers.

We are a leading sales channel partner in the United States, Canada and the United Kingdom for many original equipment manufacturers (“OEMs”) and software publishers (collectively, our “vendor partners”), whose products we sell or include in the solutions we offer. We believe we are an important extension of our vendor partners’ sales and marketing capabilities, providing them with a cost-effective way to reach customers and deliver a consistent brand experience through our established end-market coverage and extensive customer access.

On August 1, 2015, we completed the acquisition of Kelway TopCo Limited (“Kelway”) by purchasing the remaining 65% of its outstanding common stock which increased our ownership interest from 35% to 100%, and provided us control. On April 4, 2016, Kelway was rebranded CDW UK. Throughout this report, the term “CDW UK” refers to Kelway. CDW UK is a UK-based IT solutions provider which has global supply chain relationships that enable it to conduct business in more than 80 countries. This investment strengthens our ability to provide a more comprehensive solution to our customers and enhances our ability to serve our existing multi-national customers. We included the financial results of CDW UK in our Consolidated Financial Statements from the date of acquisition. For additional information relating to the acquisition, see Note 3 (Acquisition) to the accompanying Consolidated Financial Statements.

We have two reportable segments, Corporate, which is comprised primarily of private sector business customers in the US, and Public, which is comprised of government agencies and education and healthcare institutions in the US. Our Corporate segment is divided into a medium/large business customer channel, primarily serving customers with more than 100 employees, and a small business customer channel, primarily serving customers with up to 100 employees. We also have two other operating segments: CDW Canada and CDW UK, both of which do not meet the reportable segment quantitative thresholds and, accordingly, are included in an all other category (“Other”). Effective January 1, 2016, CDW Advanced Services is no longer an operating segment. Its results have been allocated to the Corporate and Public segments to align our financial reporting with the manner in which the Chief Operating Decision Maker assesses performance and makes resource allocation decisions. Segment information reported in prior periods has been reclassified to conform to the current period presentation.

We may sell all or only select products that our vendor partners offer. Each vendor partner agreement provides for specific terms and conditions, which may include one or more of the following: product return privileges, price protection policies, purchase discounts and vendor incentive programs, such as purchase or sales rebates and cooperative advertising reimbursements. We also resell software for major software publishers. Our agreements with

software publishers allow the end-user customer to acquire software or licensed products and services. In addition to helping our customers determine the best software solutions for their needs, we help them manage their software agreements, including warranties and renewals. A significant portion of our advertising and marketing expenses is reimbursed through cooperative advertising programs with our vendor partners. These programs are at the discretion of our vendor partners and are typically tied to sales or other commitments to be met by us within a specified period of time.

Table of Contents

Trends and key factors affecting our financial performance

We believe the following trends may have an important impact on our financial performance:

Our Public segment sales are impacted by government spending policies, budget priorities and revenue levels. An adverse change in any of these factors could cause our Public segment customers to reduce their purchases or to terminate or not renew contracts with us, which could adversely affect our business, results of operations or cash flows. Meeting public safety needs continues to drive our sales growth from our state and local customers and we continue to benefit from the strategic changes made to better align with federal government purchasing programs for our federal customers. Sales growth in our education sales channel continues to benefit from the implementation of projects related to the U.S. Federal Communications Commission E-Rate program and schools developing digital testing and curriculum programs. The Healthcare industry continues to experience consolidation.

An important factor affecting our ability to generate sales and achieve our targeted operating results is the impact of general economic conditions on our customers' willingness to spend on information technology. Global economic signals in 2016 continue to be mixed. For example, there is substantial uncertainty regarding the impact of the Referendum of the United Kingdom's ("UK") Membership of the European Union ("EU") (referred to as "Brexit"), advising for the exit of the UK from the EU. Potential adverse consequences of Brexit such as global market uncertainty, volatility in currency exchange rates, greater restrictions on imports and exports between UK and EU countries and increased regulatory complexities could have a negative impact on our business, financial condition and results of operations. In addition, uncertainties related to potential changes in tax and regulatory policy, potential interest rate increases, weakening consumer and business confidence or increased unemployment could result in reduced or deferred spending on information technology products and services by our customers and result in increased competitive pricing pressures. We continue to closely monitor macroeconomic conditions and adjust our operational plans, including hiring plans, appropriately.

We believe that our customers' transition to more complex technology solutions will continue to be an important growth area for us in the future. However, because the market for technology products and services is highly competitive, our success at capitalizing on this transition will be based on our ability to tailor specific solutions to customer needs, the quality and breadth of our product and service offerings, the knowledge and expertise of our sales force, price, product availability and speed of delivery.

Key business metrics

Our management monitors a number of financial and non-financial measures and ratios on a regular basis in order to track the progress of our business and make adjustments as necessary. We believe that the most important of these measures and ratios include Net income, average daily sales, gross margin, operating margin, Non-GAAP net income, Net income per common share, Non-GAAP net income per diluted share, EBITDA and Adjusted EBITDA, free cash flow, return on invested capital, cash and cash equivalents, net working capital, cash conversion cycle (defined to be days of sales outstanding in accounts receivable plus days of supply in inventory minus days of purchases outstanding in accounts payable, based on a rolling three-month average), debt levels including available credit and leverage ratios, sales per coworker and coworker turnover. These measures and ratios are compared to standards or objectives set by management, so that actions can be taken, as necessary, in order to achieve the standards and objectives.

Non-GAAP net income and Adjusted EBITDA are considered non-GAAP financial measures. Generally, a non-GAAP financial measure is a numerical measure of a company's performance or financial position that either excludes or includes amounts that are not normally included or excluded in the most directly comparable measure calculated and presented in accordance with GAAP. Non-GAAP measures used by management may differ from similar measures used by other companies, even when similar terms are used to identify such measures.

We believe these measures provide analysts, investors and management with helpful information regarding the underlying operating performance of our business, as they remove the impact of items that management believes are

not reflective of underlying operating performance. Management uses these measures to evaluate period-over-period performance as management believes they provide a more comparable measure of the underlying business. Additionally, Adjusted EBITDA is a measure in the credit agreement governing our Senior Secured Term Loan Facility (“Term Loan”) used to evaluate our ability to make certain investments, incur additional debt, and make restricted payments, such as dividends and share repurchases, as well as whether we are required to make additional principal prepayments on the Term Loan beyond the quarterly amortization payments. For further details regarding the Term Loan, see Long-Term Debt and Financing Arrangements within Management’s Discussion and Analysis of Financial Condition and Results of Operations and Note 5 (Long-Term Debt) to the accompanying Consolidated Financial Statements. For the definitions of Non-GAAP net income and Adjusted EBITDA and reconciliations to Net income, see “Results of Operations”.

(1) As a result of the adoption of Accounting Standards Update (ASU) 2015-15 which allows companies to present deferred financing costs for line-of-credit arrangements as an asset, we retrospectively adjusted the deferred financing costs and long-term debt liability presented in the June 30, 2015 Consolidated Balance Sheet to align it to the current period presentation.

(2) Cash conversion cycle is defined as days of sales outstanding in accounts receivable plus days of supply in inventory minus days of purchases outstanding in accounts payable, based on a rolling three-month average.

Total net sales	\$3,664.6	100.0 %	\$3,314.0	100.0 %	\$350.6	10.6 %	10.6 %

Effective January 1, 2016, CDW Advanced Services is included in our Corporate and Public segments and Other is (1) comprised of CDW Canada and CDW UK. Prior periods have been reclassified to conform to the current period presentation.

(2) There were 64 selling days for both the three months ended June 30, 2016 and 2015.

Total Net sales for the three months ended June 30, 2016 increased \$351 million, or 10.6%, to \$3,665 million, compared to \$3,314 million for the three months ended June 30, 2015. This increase reflects both organic net sales growth and the impact of consolidating three months of CDW UK net sales.

Organic net sales, which excludes the impact of the acquisition of CDW UK, increased \$143 million, or 4.3%, to \$3,457 million for the three months ended June 30, 2016, compared to \$3,314 million for the three months ended June 30, 2015. For additional information, see "Non-GAAP Financial Measure Reconciliations" below. On an organic basis, transactional product sales grew faster than our solution-focused products. Growth in transactional products was led by notebooks/mobile devices due to continued innovation in new form factors and a new vendor partner.

Solutions-focused growth was driven by software, reflecting strong security and applications suites growth.

Corporate segment net sales for the three months ended June 30, 2016 decreased \$19 million, or 1.1%, compared to the three months ended June 30, 2015. This decrease is driven by a decline in our medium/large customer channel, partially offset by growth from our small business customers, particularly in transactional product sales. Within our Corporate segment, net sales to medium/large customers decreased \$32 million, or 2.1%, between periods, primarily due to the impact of economic volatility which caused many customers to put longer tail projects on hold and to extend decision cycles. The decline in net sales was partially offset by growth in transactional products. Net sales to small business customers increased by \$13 million, or 4.7%, between periods, driven by growth in notebook/mobile devices.

Public segment net sales for the three months ended June 30, 2016 increased \$159 million, or 11.4%, compared to the three months ended June 30, 2015, with balanced growth between solutions and transactional products. The increase

was driven by growth in both our government and education customer channels. A continued focus on public safety and the addition of new contracts drove the strong increase in net sales to state and local government customers. Net sales to federal government customers grew modestly compared to the prior year's strong results as we continued to benefit from the strategic changes made to better align with federal government purchasing programs for our federal customers. Net sales to education customers increased \$91 million, or 16.6%, between periods, which reflected balanced sales growth from both our K-12 and higher education customers.

Table of Contents

Growth in our K-12 customer channel was led by increases in notebooks/mobile devices and netcomm products, as a result of the implementation of projects related to the U.S. Federal Communications Commission E-Rate program and schools developing digital testing and curriculum programs. Additionally, we began to see the benefit from programs pointed at select institutions in our higher education channel. Net sales to healthcare customers remained relatively flat at \$450 million for the three months ended June 30, 2016, compared to \$449 million for the comparable period, reflecting the continuing impact of consolidation in the healthcare industry.

Net sales in Other for the three months ended June 30, 2016 increased \$212 million, or 166.8%, compared to the three months ended June 30, 2015. Other is comprised of CDW Canada and CDW UK. The increase in net sales was driven by the impact of consolidating three months of CDW UK net sales, combined with a low single digit increase in the net sales from CDW Canada, which was impacted by unfavorable foreign currency translation. CDW Canada experienced high single-digit sales growth in local currency.

Gross profit

Gross profit increased \$76 million, or 14.2%, to \$611 million for the three months ended June 30, 2016, compared to \$535 million for the three months ended June 30, 2015. As a percentage of Net sales, Gross profit increased 60 basis points to 16.7% for the three months ended June 30, 2016, up from 16.1% for the three months ended June 30, 2015. Our continuing mix into net service contract revenue, including items such as third-party services, warranties, and Software as a Service (“SaaS”), contributed a positive impact of 30 basis points to gross profit margin as our cost paid to the vendor or third-party service provider is recorded as a reduction to net sales, resulting in net sales being equal to the gross profit on the transaction. We experienced a favorable impact of 20 basis points from vendor partner funding, which includes purchase discounts, volume rebates and cooperative advertising, and 10 basis points from the inclusion of CDW UK, which has a higher mix of services.

Gross profit margin may fluctuate based on various factors, including vendor incentive and inventory price protection programs, cooperative advertising funds classified as a reduction of cost of sales, product mix, net service contract revenue, commission revenue, pricing strategies, market conditions and other factors.

Selling and administrative expenses

Selling and administrative expenses increased \$54 million, or 18.6%, to \$345 million for the three months ended June 30, 2016, compared to \$291 million for the three months ended June 30, 2015. As a percentage of total Net sales, Selling and administrative expenses increased 60 basis points to 9.4% in the second quarter of 2016, up from 8.8% in the second quarter of 2015. Sales payroll costs increased \$33 million, or 18.2%, between quarters, primarily due to incremental coworkers hired since the second quarter of 2015, higher costs consistent with increased sales and Gross profit and the inclusion of CDW UK coworker costs. Total coworker count was 8,712, up 1,434 from 7,278 at June 30, 2015. Total coworker count was 8,465 at December 31, 2015. Amortization expense related to intangibles increased \$8 million, or 17.4%, during the three months ended June 30, 2016, compared to the prior year period, primarily due to incremental intangible asset amortization expense arising from our acquisition of CDW UK.

Non-cash equity-based compensation expense increased \$2 million, or 29.5%, during the three months ended June 30, 2016, compared to the prior year period, primarily due to annual equity awards granted under our 2013 Long-Term Incentive Plan in 2016 and equity awards granted in connection with our acquisition of CDW UK.

Segment income from operations includes the segment's direct operating income, allocations for Headquarters' (1) costs, allocations for income and expenses from logistics services, certain inventory adjustments and volume rebates and cooperative advertising from vendors.

(2) Certain costs related to technology specialists have been reclassified between our Corporate and Public segments. The prior period has been reclassified to conform to the current period presentation.

Effective January 1, 2016, CDW Advanced Services is included in our Corporate and Public segments and Other is (3) comprised of CDW Canada and CDW UK. The prior period has been reclassified to conform to the current period presentation.

(4) Includes the financial results for our other operating segments, CDW Canada and CDW UK, which do not meet the reportable segment quantitative thresholds.

Includes certain Headquarters' function costs that are not allocated to the segments. Certain Headquarters expenses (5) have been allocated to CDW Canada in 2016. The prior period has been reclassified to conform to the current period presentation.

Income from operations was \$224 million for the three months ended June 30, 2016, an increase of \$18 million, or 8.6%, compared to \$206 million for the three months ended June 30, 2015. Total operating margin percentage decreased 10 basis points to 6.1% for the three months ended June 30, 2016, from 6.2% for the three months ended June 30, 2015. Operating margin percentage was negatively impacted by an increase in Selling and administrative expenses as a percentage of Net sales, primarily due to incremental coworkers hired since the second quarter of 2015, higher costs consistent with increased sales and Gross profit and the inclusion of CDW UK coworker costs.

Corporate segment income from operations was \$135 million for the three months ended June 30, 2016, a decrease of \$4 million, or 2.6%, compared to \$139 million for the three months ended June 30, 2015. Corporate segment operating margin percentage decreased 10 basis points to 7.6% for the three months ended June 30, 2016, from 7.7% for the three months ended June 30, 2015. This decrease was primarily due to an increase in selling and administrative expenses as a percentage of Net sales, due to higher costs related to incremental coworkers hired since the second quarter of 2015.

Public segment income from operations was \$108 million for the three months ended June 30, 2016, an increase of \$17 million, or 18.9%, compared to \$91 million for the three months ended June 30, 2015. Public segment operating margin percentage was 7.0% and 6.6% for the three months ended June 30, 2016 and 2015, respectively. The 40 basis point increase in operating margin percentage was driven by a higher mix of net service contract revenue.

Other income from operations was \$9 million for the three months ended June 30, 2016, an increase of \$5 million, or 118.8%, compared to \$4 million for the three months ended June 30, 2015. This was primarily due to the inclusion of CDW UK income from operations. Other operating margin percentage decreased 60 basis points to 2.8% for the three

months ended June 30, 2016, from 3.4% for the three months ended June 30, 2015. This decrease was primarily due to an increase in selling and administrative expenses as a percentage of Net sales, driven by higher intangibles amortization expense from our acquisition of CDW UK.

Income tax expense

Income tax expense was \$70 million for the three months ended June 30, 2016, compared to \$64 million for the same period of the prior year. The effective income tax rate, expressed by calculating the income tax expense as a percentage of Income before income taxes, was 37.3% for the three months ended June 30, 2016, compared to 37.1% for the same period of the prior year and differed in both periods from the US federal statutory rate primarily due to state and local income taxes.

Non-GAAP Financial Measure Reconciliations

We have included reconciliations of Non-GAAP net income, EBITDA, Adjusted EBITDA, Adjusted EBITDA margin, Organic net sales growth and Organic net sales growth on a constant currency basis for the three months ended June 30, 2016 and 2015 below.

EBITDA is defined as consolidated net income before interest expense, income tax expense, depreciation and amortization. Adjusted EBITDA, which is a measure defined in our credit agreements, means EBITDA adjusted for certain items which are described in the table below. Non-GAAP net income excludes, among other things, charges related to the amortization of acquisition-related intangible assets, non-cash equity-based compensation, acquisition and integration expenses, and gains and losses from the extinguishment of long-term debt. Organic net sales growth is defined as net sales growth excluding the impact of acquisitions within the last twelve months. Organic net sales growth on a constant currency basis is defined as organic net sales growth excluding the impact of foreign currency translation on organic sales compared to the prior period.

EBITDA, Adjusted EBITDA, Non-GAAP net income, Organic net sales and Organic net sales growth are considered non-GAAP financial measures. Generally, a non-GAAP financial measure is a numerical measure of a company's performance or financial position that either excludes or includes amounts that are not normally included or excluded in the most directly comparable measure calculated and presented in accordance with GAAP. Non-GAAP measures used by management may differ from similar measures used by other companies, even when similar terms are used to identify such measures.

We believe these measures provide analysts, investors and management with helpful information regarding the underlying operating performance of our business, as they remove the impact of items that management believes are not reflective of underlying operating performance. Management uses these measures to evaluate period-over-period performance as management believes they provide a more comparable measure of the underlying business.

Additionally, Adjusted EBITDA is a measure in the credit agreement governing our Senior Secured Term Loan Facility ("Term Loan") used to evaluate our ability to make certain investments, incur additional debt, and make restricted payments, such as dividends and share repurchases, as well as whether we are required to make additional principal prepayments on the Term Loan beyond the quarterly amortization payments. For further details regarding the Term Loan, see Note 5 (Long-Term Debt) to the accompanying Consolidated Financial Statements.

Non-GAAP net income

Non-GAAP net income was \$156 million for the three months ended June 30, 2016, an increase of \$17 million, or 11.9%, compared to \$139 million for the three months ended June 30, 2015.

Effective January 1, 2016, CDW Advanced Services is included in our Corporate and Public segments and Other is (1) comprised of CDW Canada and CDW UK. Prior periods have been reclassified to conform to the current period presentation.

(2) There were 128 and 127 selling days for the six months ended June 30, 2016 and 2015, respectively.

Total net sales for the six months ended June 30, 2016 increased \$712 million or 11.7%, to \$6,781 million, compared to \$6,069 million for the six months ended June 30, 2015. On an average daily sales basis, total net sales increased 10.9%, reflecting both the impact of consolidating six months of CDW UK net sales and organic net sales growth. Organic net sales, which excludes the impact of the acquisition of CDW UK, increased \$272 million, or 4.5%, to \$6,341 million for the six months ended June 30, 2016, compared to \$6,069 million for the six months ended June 30, 2015. Organic net sales on a constant currency basis, which excludes the impact of currency translation, for the six months ended June 30, 2016 increased \$289 million, or 4.8%, to \$6,341 million, compared to \$6,052 million for the six months ended June 30, 2015. See "Non-GAAP Financial Measure Reconciliations" below for additional information. On an organic basis, transactional product sales grew faster than our solution-focused products. Growth in transactional products was led by notebooks/mobile devices due to continued innovation in form factors and a new vendor partner. Solutions-focused growth was driven by software, reflecting strong security and application suites growth.

Corporate segment net sales for the six months ended June 30, 2016 increased \$62 million, or 1.8%, compared to the six months ended June 30, 2015. On an average daily sales basis, Corporate segment net sales increased 1.0%. Within our Corporate segment, net sales to medium/large customers increased \$36 million, or 1.3%, between periods, driven by growth in transactional products. This growth was partially offset by declines in solution-focused products, due to the impact of economic volatility which caused many customers to put longer tail projects on hold and to extend decision cycles. Net sales to small business customers increased by \$26 million, or 4.8%, between periods, driven by growth in notebooks/mobile devices.

Public segment net sales for the six months ended June 30, 2016 increased \$211 million, or 8.8% between periods, driven by growth in our government and education customer channels. On an average daily sales basis, Public segment net sales increased 7.9%. Net sales to government customers increased \$111 million, or 16.3% between periods, reflecting growth in both federal and state/local government customers. A continued focus on public safety and the addition of new contracts drove the growth in net sales to state and local government customers. Net sales to federal government customers grew modestly compared to the prior year's strong results as we continued to benefit from strategic changes made to better align with new federal government purchasing

programs. Net sales to education customers increased \$87 million, or 9.7%, between periods, driven by growth in both our K-12 and higher education customer channels. Growth in our K-12 customer channel was led by increases in notebooks/mobile devices and netcomm products, as a result of the implementation of projects related to the U.S. Federal Communications Commission E-Rate program and schools developing digital testing and curriculum programs. Additionally, we began to see the benefit from programs pointed at select institutions in our higher education channel. Net sales to healthcare customers increased \$13 million, or 1.5%, between periods, reflecting the continuing impact of consolidation in the healthcare industry.

Net sales in Other for the six months ended June 30, 2016 increased \$439 million, or 172.5%, compared to the six months ended June 30, 2015. Other is comprised of CDW Canada and CDW UK. This increase was driven by the impact of consolidating six months of CDW UK net sales. Net sales of CDW Canada were relatively flat for the six months ended June 30, 2016, which was impacted by unfavorable foreign currency translation. CDW Canada experienced mid-single digit sales growth in local currency.

Gross profit

Gross profit increased \$144 million, or 14.5%, to \$1,135 million for the six months ended June 30, 2016, compared to \$991 million for the six months ended June 30, 2015. As a percentage of total net sales, gross profit increased 40 basis points to 16.7% for the six months ended June 30, 2016, up from 16.3% for the six months ended June 30, 2015.

Our continuing mix into net service contract revenue, including items such as third-party services, warranties and SaaS, contributed a positive impact of 30 basis points to gross profit margin as our cost paid to the vendor or third-party service provider is recorded as a reduction to net sales, resulting in net sales being equal to the gross profit on the transaction. We experienced a favorable impact of 30 basis points from vendor partner funding. Vendor partner funding includes purchase discounts, volume rebates and cooperative advertising. These increases were partially offset by 20 basis points of unfavorable price/mix changes as we mixed into transactional product categories such as notebooks/mobile devices.

The gross profit margin may fluctuate based on various factors, including vendor incentive and inventory price protection programs, cooperative advertising funds classified as a reduction of cost of sales, product mix, net service contract revenue, commission revenue, pricing strategies, market conditions and other factors.

Selling and administrative expenses

Selling and administrative expenses increased \$108 million, or 19.1%, to \$674 million for the six months ended June 30, 2016, compared to \$566 million for the six months ended June 30, 2015. As a percentage of total net sales, selling and administrative expenses increased 60 basis points to 9.9% in the six months ended June 30, 2016, up from 9.3% in the comparable prior year period. Sales payroll costs increased \$66 million, or 18.8%, between years, primarily due to incremental coworkers hired since the second quarter of 2015, higher costs consistent with increased sales and Gross profit and the inclusion of CDW UK coworker costs. Total coworker count was 8,712, up 1,434 from 7,278 at June 30, 2015. Total coworker count was 8,465 at December 31, 2015. Amortization expense related to intangibles increased \$16 million, or 17.7%, during the six months ended June 30, 2016 compared to the prior year period primarily due to incremental amortization expense related to the intangible assets arising from our acquisition of CDW UK. Non-cash equity-based compensation expense increased \$6 million, or 43.8%, during the six months ended June 30, 2016 compared to the prior year period primarily due to annual equity awards granted under our 2013 Long-Term Incentive Plan in 2015 and equity awards granted in connection with our acquisition of CDW UK.

Interest expense, net

At June 30, 2016, our outstanding debt totaled \$3,240 million compared to \$3,178 million at June 30, 2015. Net interest expense for the six months ended June 30, 2016 was \$75 million, a decrease of \$8 million compared to \$83 million for the six months ended June 30, 2015. This decrease was primarily due to lower effective interest rates as of June 30, 2016 compared to June 30, 2015 as a result of redemptions and refinancing activities completed during 2015.

Net loss on extinguishments of long-term debt

For information regarding our debt, see Note 5 (Long-Term Debt) to the accompanying Consolidated Financial Statements. During the six months ended June 30, 2016, there was no net loss on extinguishments of long-term debt, compared to \$24.3 million recorded for the same period of 2015. Net loss on extinguishments of long-term debt for the six months ended June 30, 2015 was as follows:

		(in millions)	
Month of Extinguishment	Debt Instrument	Amount	Loss
		Extinguished	Recognized
March 2015	2019 Senior Notes	\$503.9	\$ (24.3) ⁽¹⁾

We redeemed all of the remaining aggregate principal amount outstanding. The loss recognized represents the (1) difference between the redemption price and the net carrying amount of the purchased debt, adjusted for the remaining unamortized deferred financing costs and premium.

Income tax expense

Income tax expense was \$116 million for the six months ended June 30, 2016, compared to \$96 million for the same period of the prior year. The effective income tax rate, expressed by calculating the income tax expense as a percentage of Income before income taxes, was 37.3% for the six months ended June 30, 2016, compared to 37.1% for the same period of the prior year and differed in both periods from the US federal statutory rate primarily due to state and local income taxes.

Non-GAAP Financial Measure Reconciliations

We have included reconciliations of Non-GAAP net income, EBITDA, Adjusted EBITDA, Adjusted EBITDA margin, Organic net sales growth and Organic net sales growth on a constant currency basis for the six months ended June 30, 2016 and 2015 below.

EBITDA is defined as consolidated net income before interest expense, income tax expense, depreciation and amortization. Adjusted EBITDA, which is a measure defined in our credit agreements, means EBITDA adjusted for certain items which are described in the table below. Non-GAAP net income excludes, among other things, charges related to the amortization of acquisition-related intangible assets, non-cash equity-based compensation, acquisition and integration expenses, and gains and losses from the extinguishment of long-term debt. Organic net sales growth is defined as net sales growth excluding the impact of acquisitions within the last twelve months. Organic net sales growth on a constant currency basis is defined as organic net sales growth excluding the impact of foreign currency translation on organic sales compared to the prior period.

EBITDA, Adjusted EBITDA, Non-GAAP net income, Organic net sales and Organic net sales growth are considered non-GAAP financial measures. Generally, a non-GAAP financial measure is a numerical measure of a company's performance or financial position that either excludes or includes amounts that are not normally included or excluded in the most directly comparable measure calculated and presented in accordance with GAAP. Non-GAAP measures used by management may differ from similar measures used by other companies, even when similar terms are used to identify such measures.

We believe these measures provide analysts, investors and management with helpful information regarding the underlying operating performance of our business, as they remove the impact of items that management believes are not reflective of underlying operating performance. Management uses these measures to evaluate period-over-period performance as management believes they provide a more comparable measure of the underlying business.

Additionally, Adjusted EBITDA is a measure in the credit agreement governing our Senior Secured Term Loan Facility ("Term Loan") used to evaluate our ability to make certain investments, incur additional debt, and make

restricted payments, such as dividends and share repurchases, as well as whether we are required to make additional principal prepayments on the Term Loan beyond the quarterly amortization payments. For further details regarding the Term Loan, see Note 5 (Long-Term Debt) to the accompanying Consolidated Financial Statements.

(1) There were 128 and 127 selling days for the six months ended June 30, 2016 and 2015, respectively.

(2) Represents CDW UK's financial results for the six months ended June 30, 2016.

(3) Represents the effect of translating the prior year results of CDW Canada at the average exchange rates applicable in the current year.

Seasonality

While we have not historically experienced significant seasonality throughout the year, sales in our Corporate segment, which primarily serves private sector business customers, are typically higher in the fourth quarter than in other quarters due to customers spending their remaining technology budget dollars at the end of the year.

Additionally, sales in our Public segment have historically been higher in the third quarter than in other quarters primarily due to the buying patterns of the federal government and education customers.

Liquidity and Capital Resources

Overview

We finance our operations and capital expenditures with internally generated cash from operations. We also have \$778 million of availability for borrowings under our senior secured asset-based revolving credit facility and an additional £50 million (\$67 million) under the CDW UK revolving credit facility. Our liquidity and borrowing plans are established to align with our financial and strategic planning processes and ensure we have the necessary funding to meet our operating commitments, which primarily include the purchase of inventory, payroll and general expenses. We also take into consideration our overall capital allocation strategy which includes investment for future growth, dividend payments, acquisitions and share repurchases. We believe we have adequate sources of liquidity and funding available at least for the next year, however, there are a number of factors that may negatively impact our available sources of funds. The amount of cash generated from operations will be dependent upon factors such as the successful execution of our business plan and general economic conditions.

Share Repurchase Program

During the six months ended June 30, 2016, we repurchased 5.5 million shares of our common stock for \$223 million under the previously announced \$500 million share repurchase program. On May 4, 2016, we announced that our Board of Directors authorized a \$750 million increase to our share repurchase program under which we may repurchase shares of our common stock in the open market or through privately negotiated or other transactions, depending on share price, market conditions and other factors. For more information on our share repurchase program, See Part II, Item 2, Unregistered Sales of Equity Securities and Use of Proceeds.

Dividends

A summary of 2016 dividend activity for our common stock is as follows:

⁽¹⁾ Includes items such as Deferred income taxes, Depreciation and amortization, Equity-based compensation expense, Income from equity method investment and Net loss on extinguishments of long-term debt.

The increase in cash flows reflected stronger operating results driven by the impact of consolidating six months of ⁽²⁾CDW UK's financial results, organic sales growth and lower interest expense, partially offset by higher income tax expense.

The increase in cash flow was primarily due to an increase in collections during 2016 due to the higher accounts ⁽³⁾receivable balance as of December 31, 2015 driven by higher sales in our Public segment where customers generally take longer to pay than customers in our Corporate segment.

(4) The increase in cash flows was primarily due to the timing of payments to vendors during the current period and longer payment terms with certain vendors.

Table of Contents

In order to manage our working capital and operating cash needs, we monitor our cash conversion cycle, defined as days of sales outstanding in accounts receivable plus days of supply in inventory minus days of purchases outstanding in accounts payable, based on a rolling three-month average. Components of our cash conversion cycle are as follows:

	June 30,	
(in days)	2016	2015
Days of sales outstanding (DSO) ⁽¹⁾	44	41
Days of supply in inventory (DIO) ⁽²⁾	13	13
Days of purchases outstanding (DPO) ⁽³⁾	(40)	(35)
Cash conversion cycle	17	19

Represents the rolling three-month average of the balance of Accounts receivable, net at the end of the period, (1) divided by average daily net sales for the same three-month period. Also incorporates components of other miscellaneous receivables.

(2) Represents the rolling three-month average of the balance of Merchandise inventory at the end of the period divided by average daily cost of sales for the same three-month period.

Represents the rolling three-month average of the combined balance of Accounts payable-trade, excluding cash (3) overdrafts, and Accounts payable-inventory financing at the end of the period divided by average daily cost of sales for the same three-month period.

The cash conversion cycle decreased to 17 days at June 30, 2016 compared to 19 days at June 30, 2015. The increase in DSO was primarily due to higher net sales and receivables for third-party services such as software assurance and warranties. These services have an unfavorable impact on DSO as the receivable is recognized on the Consolidated Balance Sheet on a gross basis while the corresponding sales amount in the Statement of Operations is recorded on a net basis. These services have a favorable impact on DPO as the payable is recognized on the Consolidated Balance Sheet without a corresponding Cost of sales in the Statement of Operations because the cost paid to the vendor or third-party service provider is recorded as a reduction to Net sales. In addition, DPO also increased due to the mix of payables with certain vendors that have longer payment terms.

Investing Activities

Net cash used in investing activities increased by \$2 million in the six months ended June 30, 2016 compared to the same period of the prior year. Capital expenditures were \$26 million and \$23 million for the six months ended June 30, 2016 and 2015, respectively, and primarily related to improvements to our information technology systems during both periods.

Financing Activities

Net cash used in financing activities increased by \$110 million in the six months ended June 30, 2016 compared to the same period of the prior year. The increase was primarily driven by share repurchases during the six months ended June 30, 2016 which resulted in an increase in cash used by financing activities of \$131 million, partially offset by the changes in Accounts payable-inventory financing, which resulted in an increase in cash provided for financing activities of \$30 million. For more information on our share repurchase program, see Part II, Item 2, Unregistered Sales of Equity Securities and Use of Proceeds. The increase in cash provided by Accounts payable-inventory financing was primarily driven by the increase in the accounts payable-inventory financing balance as of June 30, 2016, driven by a new vendor addition to our previously existing inventory financing agreement at December 31, 2015.

Long-Term Debt and Financing Arrangements

As of June 30, 2016, we had total indebtedness of \$3,240 million, of which \$1,565 million was secured indebtedness. At June 30, 2016, we were in compliance with the covenants under our various credit agreements and indentures. The amount of CDW's restricted payment capacity under the Senior Secured Term Loan Facility was \$680 million at June 30, 2016. The amount of restricted net assets for the CDW UK Term Loan was \$410 million, which was primarily comprised of goodwill and intangible assets.

For additional details regarding our debt, refer to Note 8 (Long-Term Debt) to the Consolidated Financial Statements contained in the December 31, 2015 financial statements.

Table of Contents

Inventory Financing Agreements

We have entered into agreements with certain financial intermediaries to facilitate the purchase of inventory from various suppliers under certain terms and conditions. These amounts are classified separately as Accounts payable-inventory financing on the Consolidated Balance Sheets. We do not incur any interest expense associated with these agreements as balances are paid when they are due. For further details, see Note 4 (Inventory Financing Agreements) to the accompanying Consolidated Financial Statements.

Contractual Obligations

There have been no material changes to our contractual obligations from those reported in our Annual Report on Form 10-K for the year ended December 31, 2015.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a material current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Forward-Looking Statements

This report contains forward-looking statements within the meaning of the federal securities laws. All statements other than statements of historical fact included in this report are forward-looking statements. These statements relate to analysis and other information, which are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our future prospects, developments and business strategies. We claim the protection of The Private Securities Litigation Reform Act of 1995 for all forward-looking statements in this report. These forward-looking statements are identified by the use of terms and phrases such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "predict," "project," "will" and similar terms and phrases, including references to assumptions. However, these words are not the exclusive means of identifying such statements. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that we will achieve those plans, intentions or expectations. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected.

Important factors that could cause actual results to differ materially from our expectations, or cautionary statements, are disclosed under the section entitled "Risk Factors" included in our Annual Report on Form 10-K for the year ended December 31, 2015 and from time to time in our subsequent Quarterly Reports on Form 10-Q and our other SEC filings. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements contained in the section entitled "Risk Factors" included in our Annual Report on Form 10-K for the year ended December 31, 2015 and elsewhere in this report as well as other cautionary statements that are made from time to time in our other SEC filings and public communications. You should evaluate all forward-looking statements made in this report in the context of these risks and uncertainties.

We caution you that the important factors referenced above may not contain all of the factors that are important to you. In addition, we cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our operations in the way we expect. Item 3. Quantitative and Qualitative Disclosures About Market Risk

See “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Quantitative and Qualitative Disclosures of Market Risks” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015. As of June 30, 2016, there have been no material changes in this information.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rule 13a-15(e) or Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) as of the end of the period covered by this report. Based on such evaluation, the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, has concluded that, as of the end of such period, the Company's disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act, and that information is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely discussions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in the Company’s internal control over financial reporting during the quarter ended June 30, 2016 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

The information set forth in Note 7 (Commitments and Contingencies) to the accompanying Consolidated Financial Statements included in Part I, Item 1 "Financial Statements", of this Form 10-Q is incorporated herein by reference.

Item 1A. Risk Factors

See "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. The disclosure below reflects an update to the risk factors previously disclosed in the Company's annual report on Form 10-K for the year ended December 31, 2015.

General economic conditions may have an adverse impact on our business, results of operations or cash flows. Weak economic conditions generally, sustained uncertainty about global economic conditions, government spending cuts and the impact of new government programs, or a tightening of credit markets, could cause our customers and potential customers to postpone or reduce spending on technology products or services or put downward pressure on prices, which could have an adverse effect on our business, results of operations or cash flows. For example, there is substantial uncertainty regarding the impact of the Referendum of the United Kingdom's ("UK") Membership of the European Union ("EU") (referred to as "Brexit"), advising for the exit of the UK from the EU. Potential adverse consequences of Brexit such as global market uncertainty, volatility in currency exchange rates, greater restrictions on imports and exports between UK and EU countries and increased regulatory complexities could have a negative impact on our business, financial condition and results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Unregistered Sales of Equity Securities

None.

Issuer Purchases of Equity Securities

Information relating to the Company's purchases of its common stock during the quarter ended June 30, 2016 is as follows:
