BLAST ENERGY SERVICES, INC.
(DEBTOR AND DEBTOR-IN-POSSESSION)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 - BASIS OF PRESENTATION AND PRINCIPLES OF CONSOLIDATION

The accompanying unaudited interim financial statements of Blast Energy Services, Inc. ("Blast") have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements and should be read in conjunction with Management's Discussion and Analysis and the audited financial statements and notes thereto contained in Blast's 2006 Annual Report filed with the SEC on Form 10-KSB. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate disclosures contained in the audited financial statements for 2006 as reported in the 10-KSB have been omitted.

Blast's Consolidated Financial Statements have been prepared on a going concern basis in accordance with accounting principles generally accepted in the United States of America ("GAAP"), including the provisions of AICPA's Statement of Position 90-7, "Financial Reporting by Entities in Reorganization Under the Bankruptcy Code" ("SOP 90-7"). This contemplates the realization of assets and satisfaction of liabilities in the ordinary course of business. Accordingly, Blast's Consolidated Financial Statements do not include any adjustments relating to the recoverability of assets and classification of liabilities that might be necessary should Blast be unable to continue as a going concern.

Due to Blast's Chapter 11 proceedings, the realization of assets and satisfaction of liabilities, without substantial adjustments and/or changes in ownership, are subject to uncertainty. Accordingly, there is substantial doubt about the current financial reporting entity's ability to continue as a going concern. Upon emergence from bankruptcy, Blast expects to adopt fresh-start reporting in accordance with SOP 90-7 which will result in becoming a new entity for financial reporting purposes. The adoption of fresh-start reporting may have a material impact on the consolidated financial statements of the new financial reporting entity.

The accompanying Consolidated Financial Statements do not reflect or provide for the consequences of the Chapter 11 proceedings. In particular, the financial statements do not show (1) as to assets, their realizable value on a liquidation basis or their availability to satisfy liabilities; (2) as to pre-petition liabilities, the amounts that may be allowed for claims or contingencies, or their status and priority; (3) as to shareholders' equity accounts, the effect of any changes that may be made in capitalization; or (4) as to operations, the effect of any changes that may be made in business operations.

Blast's consolidated financial statements include the accounts of Blast and its wholly owned subsidiary, Eagle Domestic Drilling Operations LLC ("EDDO"). All significant inter-company accounts and transactions have been eliminated in consolidation.

Reclassifications - certain reclassifications of prior year amounts have been made to conform to the current presentation.

NOTE 2 - GOING CONCERN

As shown in the accompanying financial statements, Blast incurred a net loss of \$0.6 million for the three months ended September 30, 2007, has an accumulated deficit of \$75.5 million and a working capital deficit of \$7.1 million as of September 30, 2007 and has several significant future financial obligations. The financial statements do not include any adjustments that might be necessary if Blast is unable to continue as a going concern. These conditions create an uncertainty as to Blast's ability to continue as a going concern.

NOTE 3 – INTELLECTUAL PROPERTY

At September 30, 2007 and December 31, 2006, the total cost of the Intellectual Property (“IP”) was \$1,170,000 with \$174,107 and \$111,429, respectively, of accumulated amortization. The patent-pending IP, composed of the 50% ownership in the Alberta Energy Partners’ abrasive fluid jetting technology, is being amortized on a straight-line method over the life of the patent, which is expected to be 14 years.

F-4

NOTE 4 – DEFERRED REVENUE

Blast bills some of its satellite bandwidth contracts in advance over periods ranging from 3 to 36 months. Blast recognizes revenue evenly over the contract term. Deferred revenue related to satellite services totaled \$11,080 at September 30, 2007, all of which are expected to be recognized in the next twelve months.

NOTE 5 – ADVANCES - RELATED PARTIES

During June 2007, Blast agreed to a \$500,000 debtor-in-possession financing arrangement with Berg McAfee Companies, funded by Eric McAfee and Clyde Berg, each of whom are considered significant shareholders of Blast. As of September 30, 2007, Blast has borrowed \$300,000 under this arrangement which is secured by certain receivables from Saddle Creek Energy Development, a drilling services customer. In November, Blast borrowed an additional \$100,000 under this facility.

During 2005 under the agreement to develop its initial abrasive jetting rig with Berg McAfee Companies \$1 million of rig funding was received. These loans bear interest at rates averaging 7.4% and accrued interest has not been paid. The loan matured on March 31, 2007 and was not paid subject to the Chapter 11 proceedings.

NOTE 6 – RELATED PARTY TRANSACTIONS

On August 20, 2007, Blast Energy Services, Inc. (the “Company” or “Blast”) entered into a Settlement Agreement and Mutual Release (the “Release”) with the Thornton Security Business Trust (the “Trust”) whereby the Company and the Trust agreed to release, acquit and forever discharge each other, their current and former agents, officers, directors, servants, attorneys, representatives, successors, employees, trustees, beneficiaries, accountants, and assigns (the “Parties”) from any and all rights, obligations, claims, demands and causes of action, whether in contract, tort, under state and/or federal law, or state and/or federal securities regulations, whether asserted or unasserted, whether known or unknown, suspected or unsuspected, for or by reason of any matter, cause or thing whatsoever, including all obligations arising therefrom, and omissions and/or conduct of each party, and/or each parties’ agents, attorneys, servants, representatives, successors, employees, directors, officers, trustees, beneficiaries, accountants and assigns, relating directly or indirectly thereto (the “Release”). Additionally, the Trust agreed to sell its entire share ownership of Blast common stock (16,447,500 shares) to the Company in consideration for the Release and \$16.48 in cash.

Previously, Blast and EDDO entered into a settlement with Second Bridge, LLC, Thornton Oilfield Holdings, LLC and various other Thornton entities (the “Thornton Entities”), Laurus Master Fund, Ltd. (“Laurus”), and the Unsecured Creditors Committee (collectively the “Parties” and overall the “Settlement”). The Settlement provides the structure for the satisfaction of several classes of claims against the Company, and forms the basis for treatment of those classes of claims in Blast’s plan of reorganization that incorporated the benefits of the Settlement. The Settlement was approved by the Bankruptcy Court on May 14, 2007.

Additionally, the Settlement provides for an agreement with Laurus on the terms of the satisfaction of substantially all of its secured claims against the Company by virtue of the implementation of an asset purchase agreement. The terms of the Settlement, including the satisfaction of the remainder of the Laurus claims, are to be implemented in the plan of reorganization. The Settlement and the treatment of the Laurus secured claims provides for the transfer of five land drilling rigs and associated spare parts to Laurus in settlement of Laurus’ note, accrued interest and default penalties on the note, save and except a residual \$2.1 million that will remain as a secured debt owed by Blast to Laurus and which will be provided for in the plan of reorganization consistent with the terms of the Settlement. We previously received objections by the Thornton Entities to the sale. One of the Thornton Entities, Thornton Business Security Trust, was a significant shareholder of Blast.

Further, the Settlement provides for the treatment of several claims made by the Thornton Entities that enable Blast to propose its reorganization plan. More specifically, the Thornton Entities shall dismiss all of their lawsuits against us. The Settlement also provides that Laurus will pay Second Bridge \$1.8 million, that we will purchase 900,000 shares of our common stock, currently held by Second Bridge for \$900; and that we agree in our reorganization plan to pay Laurus the remainder of its secured claim of \$2.1 million as a reimbursement, which payment is secured by all of our assets which Laurus had security interests in at the time we entered bankruptcy, which amount we will carry as a note payable on our balance sheet until paid (the "\$2.1 Million Senior Note"). The Settlement provides that full mutual releases of all claims are given among Blast, the Thornton Entities and Laurus, except with respect to the \$2.1 Million Senior Note, until it is discharged.

F-5

The Settlement and our plan of reorganization anticipate that any funds we receive as a result of the sale of any of our assets, accounts receivable collection or favorable judgments we may receive (other than those excluded below) will be split 65%/35%, between Laurus and us, respectively, until such \$2.1 Million Senior Note is repaid in full, provided however that with respect to the proceeds from our Saddle Creek Energy Development litigation (described in greater detail in item “a” of “Chapter 11 Proceedings” in Note 10 to the consolidated financial statements), we will receive 65% and Laurus will receive 35% of any such proceeds.

Lastly, the Settlement and our plan of reorganization provide that the remaining shares held by the Thornton Entities will take no action to call or support a special shareholder meeting of the Blast shareholders nor will they vote their shares prior to the effective date of the Debtors’ plan of reorganization; provided, however, that any of them will be entitled to vote their shares on a matter requiring shareholder vote called by a third party shareholder, except with respect to removal of the members of the board of directors or corporate officers as to which they will not be entitled to vote.

NOTE 7 –CURRENT NOTES PAYABLE

Notes payable at September 30, 2007 and December 31, 2006 consisted of the following:

	September 30, 2007	December 31, 2006
Steinberger settlement	\$ 500,000	\$ 500,000
Note payable, Ideal Premium, 8.95%	-	-
Note payable, Ideal Premium, 8.06%	30,793	-
Note payable, individual, 10% due on demand	42,500	42,500
	\$ 573,293	\$ 542,500

NOTE 8 – BUSINESS SEGMENTS

Blast has two reportable segments: (1) Satellite Communications and (2) Down-hole Solutions. A reportable segment is a business unit that has a distinct type of business based upon the type and nature of services and products offered. The table below reports assets by business segment. Corporate supports both Satellite Communications and Down-hole Solutions segments.

Blast evaluates performance and allocates resources based on profit or loss from operations before other income or expense and income taxes. The table below reports certain financial information by reportable segment:

	September 30, 2007	December 31, 2006
Satellite Communications	\$ 122,153	\$ 163,381
Down-hole Solutions	2,037,793	2,164,164
Corporate	133,053	1,626,705
	\$ 2,292,999	\$ 3,954,250

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2007	September 30, 2006	September 30, 2007	September 30, 2006
Revenues from external customers				
Satellite Communications	80,151	251,714	353,759	808,758
Down-hole Solutions	-	-	-	14,150
	80,151	251,714	353,759	822,908
Operating profit (loss):				
Satellite Communications	(23,116)	56,816	28,562	94,535
Down-hole Solutions	-	(381,348)	(6,793)	(897,134)
Corporate	(625,834)	(881,777)	(3,552,928)	(2,127,640)
	(648,950)	(1,206,309)	(3,531,159)	(2,930,239)

1-Operating profit/(loss) is total operating revenue less operating expenses, selling, general and administrative expenses, depreciation and amortization and bad debts. It does not include other income and expense or income taxes.

2-During the third quarter of 2007, with the transfer of our land drilling rig assets to Laurus in satisfaction of our outstanding note with Laurus (see note 6 to the financial statements), this business segment ceased operations and will have no future contribution to revenue, expense or operating profit or loss.

NOTE 9 – LITIGATION

Chapter 11 Proceedings

On January 19, 2007, Blast Energy Services, Inc. (“Blast”) and its wholly owned subsidiary, Eagle Domestic Drilling Operations LLC (“EDDO” and collectively, the “Debtors”), filed voluntary petitions with the US Bankruptcy Court for the Southern District of Texas - Houston Division under Chapter 11 of Title 11 of the US Code, Cases Nos. 07-30424-H4-11 and 07-30426-H4-11, respectively (the “Bankruptcy Cases”). The Debtors continue to operate their business as “debtors-in-possession” under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Bankruptcy Court.

On May 17, 2007 Blast and Eagle filed their first joint plan of reorganization with the US Bankruptcy Court. This plan outlines Blast’s plan to emerge from Chapter 11 bankruptcy, including proposed short-term and longer-term financing arrangements, provisions to address secured and unsecured creditor claims and other matters required under such a plan. This plan further proposes that Blast will remain as an ongoing business by sustaining its satellite services business, developing a new digital oilfield services business and redeveloping the abrasive fluid jetting business following the receipt of damage claim proceeds from favorable outcomes to the Hallwood and Quicksilver lawsuits.

On June 1, 2007, Blast and Eagle filed their disclosure statement and submitted it for approval. Objections were received and the disclosure statement was approved by order of the Bankruptcy Court. Votes are being solicited and the confirmation hearing on the plan is set for November 28, 2007.

As of the date of the Chapter 11 filing, then pending litigation against the Debtors was automatically stayed pursuant to 11 USC. § 362. Absent termination or modification of the automatic stay by order of the Bankruptcy Court, litigants

may not take any action to recover on pre-petition claims against the Debtors. All such pre-petition claims will be resolved in the Bankruptcy Cases.

The Debtors are involved with additional disputes filed in the Bankruptcy Cases, which are classified as either adversary proceedings or contested matters, but which are separate and distinct from proofs of claim that have been or may be filed in the Bankruptcy Cases:

F-7

(a) the Debtors have sued Saddle Creek Energy Development, a Texas joint venture, in the Bankruptcy Court for non-payment for work performed under an IADC drilling contract for EDDO's Rig #12 that provided for the drilling of three initial wells, and which was subsequently amended to provide for the drilling of an additional three wells as well as providing labor and materials to operate a rig not owned by EDDO and identified as "Saddle Creek's Falcon Rig #1." EDDO also filed liens on certain leases and on the Saddle Creek Falcon Rig #1. On April 23, 2007, Saddle Creek and EDDO entered into a consensual mediated settlement whereby Saddle Creek agreed to pay to EDDO \$675,000. In return for payments, EDDO will release all liens filed on Saddle Creek's assets. This settlement agreement was approved by the Bankruptcy Court. Notwithstanding the agreed settlement and Bankruptcy Court approval, Saddle Creek has failed to perform its obligations and on May 15, 2007 filed for protection under Chapter 11. In accordance with FAS 5 - Accounting for Gain or Loss Contingencies, Blast has estimated the most reasonable estimate of value of this claim to be based upon the previously agreed to settlement amount and interest awarded by the Court of \$682,500. While no assurance can be provided that the Company will recover amounts owed pursuant to the settlement, due to the fact that Saddle Creek's bankruptcy filing indicated that they are still a solvent entity, management believes that it is a valid receivable at this time. Saddle Creek has filed a plan of reorganization that proposes to pay all claims 100%.

(b) Alberta Energy Partners filed pleadings in the nature of a contested matter asserting that Blast cannot retain its interests under that certain Technology Purchase Agreement entered into by Blast in August, 2005. Blast plans to vigorously defend against such action, and assert rights available to it under the Bankruptcy Code. Alberta has also requested that the pending Chapter 11 cases be converted to Chapter 7 cases or, alternatively, that a trustee be appointed. This request was denied by the Bankruptcy Court. Alberta is currently requesting an order requiring the rejection of the Technology Purchase Agreement. A hearing to determine this dispute was held on November 13 and 14, 2007 and we are awaiting the Judge's ruling on the matter.

Hallwood Energy/Hallwood Petroleum Lawsuit

On September 1, 2006, Hallwood Petroleum, LLC and Hallwood Energy, LP (collectively, "Hallwood") filed suit in the state district court of Tarrant County, Texas, against Eagle Domestic Drilling Operations, LLC ("EDDO"), a wholly owned subsidiary of Blast, and a separate company, Eagle Drilling, LLC. The lawsuit seeks to rescind two IADC two-year term day rate drilling contracts between Eagle Drilling and Hallwood, which had been assigned to EDDO by Eagle Drilling prior to Blast's acquisition of the membership interests of EDDO. Hallwood alleged Eagle Drilling and EDDO were in breach of the IADC contracts and it ceased performance under the contracts. Hallwood has claimed that the rigs provided for use under the IADC contracts did not meet contract specifications and that the failures to meet such specifications are material breaches of the contracts. In addition, Hallwood has demanded that the remaining balance of funds advanced under the contracts, in the amount of \$1.65 million, be returned. The Hallwood suit pending in Tarrant County, Texas is currently stayed by operation of the automatic stay provided for in the US Bankruptcy Code as a result of the Chapter 11 filing of Blast and its subsidiary, EDDO. EDDO plans to vigorously contest the claims by Hallwood and, at the appropriate juncture, institute proceedings to prosecute causes of action against Hallwood for its damages arising out of what Blast considers are unjustified terminations of the two IADC contracts. EDDO and Hallwood have discussed potential settlements to this litigation; however, there can be no assurance that any settlement will be reached, or that it will be on favorable terms to EDDO. The parties' have agreed to try the case in the US Bankruptcy Court for the Southern District in Houston where the debtor's petition for reorganization is presently pending. This agreement was approved by the US Bankruptcy Court and a trial date has been scheduled for mid-April, 2008.

Quicksilver Resources Lawsuit

On October 13, 2006, Quicksilver Resources, Inc. ("Quicksilver") filed suit in the state district court of Tarrant County, Texas against Eagle Domestic Drilling Operations, LLC ("EDDO"), a wholly owned subsidiary of Blast, and a separate company, Eagle Drilling, LLC. The lawsuit seeks to rescind three IADC two-year term day rate contracts between Eagle Drilling and Quicksilver, which had been assigned to EDDO by Eagle Drilling prior to Blast's acquisition of the membership interests of EDDO. The lawsuit includes further allegations of other material breaches of the contracts and negligent operation by EDDO and Eagle Drilling under the contracts. Quicksilver asserts that performance under

one of the contracts was not timely and that mechanical problems of the rig provided under the contract caused delays in its drilling operations. Quicksilver repudiated the remaining two contracts prior to the time for performance set forth in each respective contract. Although the lawsuit filed in Tarrant County was stayed by operation of the automatic stay provided for in the US Bankruptcy Code, Quicksilver has removed the lawsuit to the US Bankruptcy Court for the Northern District of Texas. On May 7, 2007 the US Bankruptcy Court for the Northern District of Texas approved the motion filed by EDDO seeking to have the lawsuit transferred to the US Bankruptcy Court for the Southern District of Texas where its petition for reorganization under Chapter 11 of the US Bankruptcy Code is presently pending. Subsequent to the transfer the parties entered a stipulation that the lawsuit would be tried in the Bankruptcy Court before a jury. EDDO intends to vigorously defend itself in this proceeding and, at the appropriate juncture, institute proceedings to prosecute causes of action against Quicksilver for its damages arising out of what Blast considers are unjustified terminations of the three IADC contracts.

F-8

Steinberger Derivative Lawsuit

Blast entered into a settlement agreement with Mr. Steinberger in August 2005 in full settlement of a lawsuit for wrongful dismissal between the parties. Such settlement has resulted in the creation of a \$500,000 interest free note being made in favor of Mr. Steinberger on Blast's books payable at June 30, 2007. Subsequently, Blast has been named as a party in the derivative lawsuit between Mr. Steinberger and his attorney, Mr. Sessions. Blast believes it has no liability arising from this dispute and is defending its interests in the case.

General

Other than the aforementioned legal matters, Blast is not aware of any other pending or threatened legal proceedings. The foregoing is also true with respect to each officer, director and control shareholder as well as any entity owned by any officer, director and control shareholder, over the last five years.

As part of its regular operations, Blast may become party to various pending or threatened claims, lawsuits and administrative proceedings seeking damages or other remedies concerning its' commercial operations, products, employees and other matters. Although Blast can give no assurance about the outcome of these or any other pending legal and administrative proceedings and the effect such outcomes may have on Blast, except as described above, Blast believes that any ultimate liability resulting from the outcome of such proceedings, to the extent not otherwise provided for or covered by insurance, will not have a material adverse effect on Blast's financial condition or results of operations.

NOTE 10 – NEW ACCOUNTING PRONOUNCEMENTS

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109" (FIN 48). This Interpretation provides guidance on recognition, classification and disclosure concerning uncertain tax liabilities. The evaluation of a tax position requires recognition of a tax benefit if it is more likely than not it will be sustained upon examination. We adopted this Interpretation effective January 1, 2007. The adoption did not have a material impact on our consolidated financial statements.

NOTE 11 – DISCONTINUED OPERATIONS

In August 2006, we acquired Eagle Domestic Drilling Operations LLC ("Eagle"), a drilling contractor which at that time owned three land rigs, and had three more under construction. The acquisition of Eagle added a major new segment to our business. As part of the financial consideration for the purchase of Eagle, we entered into a Securities Purchase Agreement ("SPA") with Laurus Master Fund, Ltd. ("Laurus") to finance \$40.6 million of the total purchase price of Eagle. Under the SPA, we issued a Secured Term Note in the original principal amount of \$40.6 million with a final maturity in three years, with interest at prime plus 2.5%, with a minimum rate of 9%, at the time equal to 10.75%, payable quarterly to Laurus. The principal was to be repaid commencing April 1, 2007 at a rate of \$800,000 per month for the first twelve months from that date, \$900,000 per month for the subsequent twelve months and \$1,000,000 per month until the Note matures. The remaining balance of the Note is to be paid at maturity with any associated interest.

We had used assumptions in the August 2006 acquisition of Eagle that included high revenue and full utilization rate expectations based upon the five two-year term drilling contracts Eagle had in place at the time. The subsequent cancellation of these contracts by Hallwood Energy/Hallwood Petroleum and Quicksilver Resources in the fall of 2006 reduced our revenue expectations and consequently our ability to meet the scheduled payments on the Laurus' Note. This cancellation was in violation of the terms of the drilling contracts and we and Eagle have subsequently filed suit for breach of those contracts.

On January 19, 2007, Blast and Eagle, filed voluntary petitions with the US Bankruptcy Court for the Southern District of Texas – Houston Division (the "Court") under Chapter 11 of Title 11 of the US Code in order that we may dispose of burdensome and uneconomical assets and reorganize our financial obligations and capital structure.

In May 2007, Blast entered into a Settlement Agreement with Laurus on the terms of the satisfaction of substantially all of its secured claims against the Company by virtue of the implementation of an asset purchase agreement. The terms of the Settlement, including the satisfaction of the remainder of the Laurus claims, are to be implemented in the plan of reorganization. The Settlement and the treatment of the Laurus secured claims provides for the transfer of five land drilling rigs and associated spare parts to Laurus in settlement of Laurus' note, accrued interest and default penalties on the note, save and except a residual \$2.1 million that will remain as a secured debt owed by Blast to Laurus and which will be provided for in the plan of reorganization consistent with the terms of the Settlement.

The assets and liabilities of the discontinued operations are presented separately under the captions "Current assets of discontinued operations", "Current liabilities of discontinued operations" and "Long term liabilities of discontinued operations" respectively in the accompanying balance sheet and consist of the following:

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion of our financial condition and results of operations should be read in conjunction with the accompanying financial statements and the related footnotes thereto.

Forward-Looking Statements

Certain statements concerning our plans and intentions included herein may constitute forward-looking statements, including, but not limited to, statements identified by the words “anticipate”, “believe”, “expect” and similar expressions and statements regarding our business strategy, plans, beliefs and objectives for future operations. Although management believes that the expectations reflected in these forward-looking statements are reasonable, we can give no assurance that such expectations will prove to have been correct. There are a number of factors that may affect our future results, including, but not limited to, (a) our ability to obtain additional funding for development and operations, (b) the continued availability of management to execute the business plan, (c) successful deployment and market acceptance of our products, and (d) the resolution of legal matters that may inhibit the execution of the business plan, together with such other risk factors as may be included in our Annual Report on Form 10-KSB.

This quarterly report may contain both historical facts and forward-looking statements. Any forward-looking statements involve risks and uncertainties. Moreover, future revenue and margin trends cannot be reliably predicted.

Important Investor Information

On January 19, 2007, Blast Energy Services, Inc. (“we,” “us,” the “Company,” “Blast” and words of similar meaning) and its wholly owned subsidiary, Eagle Domestic Drilling Operations LLC, filed voluntary petitions with the US Bankruptcy Court for the Southern District of Texas – Houston Division, under Chapter 11 of Title 11 of the US Code in order that they may dispose of burdensome and uneconomical assets and reorganize their financial obligations and capital structure. Accordingly, we urge that caution be exercised with respect to existing and future investments in our equity securities.

Three Months Ended September 30, 2007 Compared to Three Months Ended September 30, 2006

Satellite Communications Services

Satellite Communication Services’ revenues decreased by \$172,000 to \$80,000 for the three months ended September 30, 2007 compared to \$252,000 for the three months ended September 30, 2006. The decrease is a result of the loss of services revenue following the cancellation of licenses by the government in Chad, the decision by Coldren Resources LP not to renew the services contracts on the assets they purchased from Noble Energy, Inc., a previous customer of our satellite services, and some difficulty renewing existing contracts while in Chapter 11. The operating margin from Satellite Communication Services decreased \$75,000 to a loss of (\$23,000) for the three months ended September 30, 2007 compared to a profit of \$52,000 for the three months ended September 30, 2006. This decrease is primarily related to lower revenues partially offset by lower payroll and overhead costs.

As hardware is sold, we recognize the revenue in the period it is delivered to the customer. There were no significant hardware sales during the quarters ended September 30, 2007 and 2006. We bill some of our bandwidth contracts in advance, but recognize the revenue over the period benefited.

Down-hole Solutions

There were no Down-hole Solutions’ revenues for the three months ended September 30, 2007 and September 30, 2006. The development of this technology is on hold due to a lack of liquidity during our Chapter 11 proceedings. The

operating loss decreased by \$327,000 to zero for the three months ended September 30, 2007 compared to a loss of \$327,000 for the three months ended September 30, 2006. Expenses for 2006 were primarily labor related associated with designing, testing and repairing the new abrasive fluid jetting process.

Selling, General and Administrative

Selling, general and administrative (“SG&A”) expenses decreased by approximately \$312,000 to \$603,000 for the quarter ended September 30, 2007 compared to \$915,000 for the quarter ended September 30, 2006. The following table details major components of SG&A expense over the periods (in thousands).

F-12

<u>(in thousands)</u>	For the Three Months Ended		
	September 30, 2007	2006	Increase (Decrease)
Payroll and related costs	\$ 84	\$ 69	\$ 15
Option and warrant expense	79	168	(89)
Legal fees & settlements	312	493	(181)
External services	66	114	(48)
Insurance	37	24	13
Travel & entertainment	14	29	(15)
Office rent, communications, misc.	11	18	(7)
	\$ 603	\$ 915	\$ (311)

For the most part, lower administrative costs were a result of our efforts to reduce overhead costs while in Chapter 11, lower option and warrant expense as no new options have been awarded during bankruptcy, and lower legal costs related to lawsuit settlement costs in 2006 exceeding the bankruptcy legal fees of approximately \$165,000 incurred in the third quarter of 2007.

Net Loss

The net loss for the third quarter of 2007 decreased substantially to \$0.6 million from a loss of \$3.2 million for the corresponding period in 2006. This decrease is primarily related to the reduction in business revenues and the additional legal costs associated with the bankruptcy proceedings. The tax benefit associated with our loss has been fully reserved as we have recurring net losses and it is more likely than not that the tax benefits will not be realized.

Nine Months Ended September 30, 2007 Compared to Nine Months Ended September 30, 2006

Satellite Communications Services

Satellite Communication Services' revenues decreased by \$455,000 to \$354,000 for the nine months ended September 30, 2007 compared to \$809,000 for the nine months ended September 30, 2006. The decrease can be attributed to the loss of services revenue following the cancellation of licenses by the government in Chad, the decision by Coldren Resources LP not to renew the services contracts on the assets they purchased from Noble Energy, Inc, a previous customer of our satellite services and some difficulty renewing existing contracts while in Chapter 11. The operating margin from Satellite Communication Services decreased \$76,000 to \$29,000 for the nine months ended September 30, 2007 compared to a margin of \$105,000 for the nine months ended September 30, 2006. This decrease is primarily related to lower revenues partially offset by lower payroll and overhead costs.

As hardware is sold, we recognize the revenue in the period it is delivered to the customer. There were no significant hardware sales during the nine months ended September 30, 2007 and 2006. We bill some of our bandwidth contracts in advance, but recognize the revenue over the period benefited.

Down-hole Solutions

There were no Down-hole Solutions' revenues for the nine months ended September 30, 2007, compared to \$14,000 of Down-hole Solutions' revenue for the nine months ended September 30, 2006. The development of this technology is currently on hold due to a lack of liquidity during our Chapter 11 proceedings. The operating loss from Down-hole Solutions decreased by \$745,000 to a loss of \$7,000 for the nine months ended September 30, 2007 compared to a loss of \$745,000 for the nine months ended September 30, 2006. Expenses for 2007 represent minor overhead costs to put the business on hold while the expenses for 2006 were primarily labor related associated with designing, testing and

repairing the new abrasive fluid jetting process.

Selling, General and Administrative

Selling, general and administrative (“SG&A”) expenses increased by \$1,262,000 to \$3,483,000 for the nine months ended September 30, 2007 compared to \$2,221,000 for the nine months ended September 30, 2006. The following table details major components of SG&A expense over the periods (in thousands).

F-13

<u>(in thousands)</u>	For the Three Months Ended		Increase (Decrease)
	September 30, 2007	2006	
Payroll and related costs	\$ 274	\$ 433	\$ (159)
Option and warrant expense	1,231	342	889
Legal fees & settlements	1,511	628	883
External services	296	528	(232)
Insurance	108	165	(57)
Travel & entertainment	56	49	7
Office rent, communications, misc.	7	76	(69)
	\$ 3,483	\$ 2,221	\$ 1,262

For the most part, lower administrative costs were a result of our efforts to reduce overhead costs while in Chapter 11. The main reason for the increase in SG&A expenses was a result of approximately \$845,000 from increased legal fees associated with the restructuring of the debtors while in bankruptcy, which includes not only debtors counsel but the costs incurred by the creditors committee and its support. Such expenses were not present during the nine months ended September 30, 2006. Additionally, the calculation of non-cash expense associated with the employee options issued with the rig acquisition caused overall administrative expenses to be significantly higher than for the same period a year ago.

Net Loss

The net loss for the nine months ended September 30, 2007 increased to \$7.5 million from a loss of \$5.1 million for the corresponding period in 2006. This increase is primarily related to the loss on sale of equipment related to the Laurus transaction (see note 6 to the financial statements) and higher legal fees as well as option and warrant expense described above. The tax benefit associated with our loss has been fully reserved as we have recurring net losses and it is more likely than not that the tax benefits will not be realized.

Liquidity and Capital Resources

As of September 30, 2007, we had a cash balance of \$72,718 compared to a cash balance of \$1.5 million as of December 31, 2006. The decline since year end is due to the absence of any meaningful land drilling rig revenues without relief from continued operating and legal expenses. We continue to utilize cash to fund operations. We have used these proceeds to fund day to day operations and legal support for our Chapter 11 proceedings. As of November 10, 2007, our cash balance was approximately \$112,000, which includes the benefit of \$400,000 drawn on the DIP loan described above (see note 5 to the financial statements). In the near term, unless we are able to secure exit financing sufficient to achieve Plan confirmation, recover settlement monies for amounts owed under various breached customer contracts in a timely manner or secure additional debtor in possession financing, we will be forced to liquidate the remaining assets and wind up our affairs.

On May 17, 2007 Blast and Eagle filed their first joint plan of reorganization with the US Bankruptcy Court. This plan outlines the Company's plan to emerge from Chapter 11 bankruptcy, including proposed short-term and longer-term financing arrangements, provisions to address secured and unsecured creditor claims and other matters required under such a plan. This plan further proposes that Blast will remain as an ongoing business by rebuilding its satellite services business, developing a new digital oilfield services business and redeveloping the abrasive fluid jetting business following the receipt of damage claim proceeds from favorable outcomes to the Hallwood and Quicksilver lawsuits.

Edgar Filing: BLAST ENERGY SERVICES, INC. - Form 10QSB

On June 1, 2007, Blast and Eagle filed their disclosure statement and submitted it for approval. Objections were received and the disclosure statement was approved by order of the Bankruptcy Court. Votes are being solicited and the confirmation hearing on the plan is set for November 28, 2007.

In addition to the \$2.1 million Senior Note owed to Laurus, we have a \$1 million note with Berg McAfee secured on the abrasive jetting rig, a \$42,500 note that is due on demand, and a \$500,000 interest free note payable from a legal settlement.

F-14

We had negative net working capital of \$7.1 million and a total accumulated deficit of \$75.5 million as of September 30, 2007. Working capital is primarily impacted by \$8.0 million in current liabilities, consisting of:

- \$1.0 million in accounts payable balances primarily related to pre-petition invoices that cannot be paid while in Chapter 11;
- \$0.9 million for accrued expenses related to bankruptcy legal fees not yet invoiced and deferred Board of Directors' fees for 2007 and 2006;
- \$1.3 million in advances from Berg McAfee Companies, our largest shareholder, for the \$300,000 in draws on our DIP financing and the AFJ construction note for \$1,000,000;
 - \$0.6 million in notes payable, see 'Note 7 – Current Notes Payable' in the footnotes to the financial statements;
- \$2.1 million in senior debt owed to Laurus Master Fund, see 'Note 6 – Related Party Transactions' in the footnotes to the financial statements; and
- \$2.1 million of current liabilities of discontinued operations primarily related to the \$1.7 million advance from Hallwood prior to their breach of the drilling contracts. The Company will carry this liability until the legal dispute with Hallwood is resolved, see 'Note 10 – Litigation' in the footnotes to the financial statements.

Blast has filed with the Bankruptcy Court that it has estimated that the Hallwood and Quicksilver legal recoveries are in the range of \$15 million to \$45 million, however, the Company is also subject to certain contingent liabilities relating to litigation matters, including the dispute with Hallwood and other matters before the Bankruptcy Court. An adverse determination in any of these matters could have a material adverse effect on the Company.

Item 3. Controls and Procedures

Based on management's evaluation as of the end of the period covered by this report, our Principal Executive Officer and Principal Financial Officer have participated in the evaluation and concluded that our disclosure controls and procedures were effective to ensure that information we are required to disclose in reports filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the periods specified and in accordance with the SEC's rules and forms.

There have been no changes in our internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

Chapter 11 Proceedings

On January 19, 2007, Blast Energy Services, Inc. (“Blast”) and its wholly owned subsidiary, Eagle Domestic Drilling Operations LLC (“EDDO” and collectively, the “Debtors”), filed voluntary petitions with the US Bankruptcy Court for the Southern District of Texas - Houston Division under Chapter 11 of Title 11 of the US Code, Cases Nos. 07-30424-H4-11 and 07-30426-H4-11, respectively (the “Bankruptcy Cases”). The Debtors continue to operate their business as “debtors-in-possession” under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Bankruptcy Court.

On May 17, 2007 Blast and Eagle filed their first joint plan of reorganization with the US Bankruptcy Court. This plan outlines Blast’s plan to emerge from Chapter 11 bankruptcy, including proposed short-term and longer-term financing arrangements, provisions to address secured and unsecured creditor claims and other matters required under such a plan. This plan further proposes that Blast will remain as an ongoing business by sustaining its satellite services business, developing a new digital oilfield services business and redeveloping the abrasive fluid jetting business following the receipt of damage claim proceeds from favorable outcomes to the Hallwood and Quicksilver lawsuits.

On June 1, 2007, Blast and Eagle filed their disclosure statement and submitted it for approval. Objections were received and the disclosure statement was approved by order of the Bankruptcy Court. Votes are being solicited and the confirmation hearing on the plan is set for November 28, 2007.

As of the date of the Chapter 11 filing, then pending litigation against the Debtors was automatically stayed pursuant to 11 USC. § 362. Absent termination or modification of the automatic stay by order of the Bankruptcy Court, litigants may not take any action to recover on pre-petition claims against the Debtors. All such pre-petition claims will be resolved in the Bankruptcy Cases.

The Debtors are involved with additional disputes filed in the Bankruptcy Cases, which are classified as either adversary proceedings or contested matters, but which are separate and distinct from proofs of claim that have been or may be filed in the Bankruptcy Cases:

(a) the Debtors have sued Saddle Creek Energy Development, a Texas joint venture, in the Bankruptcy Court for non-payment for work performed under an IADC drilling contract for EDDO's Rig #12 that provided for the drilling of three initial wells, and which was subsequently amended to provide for the drilling of an additional three wells as well as providing labor and materials to operate a rig not owned by EDDO and identified as "Saddle Creek's Falcon Rig #1." EDDO also filed liens on certain leases and on the Saddle Creek Falcon Rig #1. On April 23, 2007, Saddle Creek and EDDO entered into a consensual mediated settlement whereby Saddle Creek agreed to pay to EDDO \$675,000. In return for payments, EDDO will release all liens filed on Saddle Creek's assets. This settlement agreement was approved by the Bankruptcy Court. Notwithstanding the agreed settlement and Bankruptcy Court approval, Saddle Creek has failed to perform its obligations and on May 15, 2007 filed for protection under Chapter 11. In accordance with FAS 5 - Accounting for Gain or Loss Contingencies, Blast has estimated the most reasonable estimate of value of this claim to be based upon the previously agreed to settlement amount and interest awarded by the Court of \$682,500. While no assurance can be provided that the Company will recover amounts owed pursuant to the settlement, due to the fact that Saddle Creek's bankruptcy filing indicated that they are still a solvent entity, management believes that it is a valid receivable at this time. Saddle Creek has filed a plan of reorganization that proposes to pay all claims 100%.

(b) Alberta Energy Partners filed pleadings in the nature of a contested matter asserting that Blast cannot retain its interests under that certain Technology Purchase Agreement entered into by Blast in August, 2005. Blast plans to vigorously defend against such action, and assert rights available to it under the Bankruptcy Code. Alberta has also requested that the pending Chapter 11 cases be converted to Chapter 7 cases or, alternatively, that a trustee be appointed. This request was denied by the Bankruptcy Court. Alberta is currently requesting an order requiring the rejection of the Technology Purchase Agreement. A hearing to determine this dispute was held on November 13 and 14, 2007 and we are awaiting the Judge's ruling on the matter.

Hallwood Energy/Hallwood Petroleum Lawsuit

On September 1, 2006, Hallwood Petroleum, LLC and Hallwood Energy, LP (collectively, "Hallwood") filed suit in the state district court of Tarrant County, Texas, against Eagle Domestic Drilling Operations, LLC ("EDDO"), a wholly owned subsidiary of Blast, and a separate company, Eagle Drilling, LLC. The lawsuit seeks to rescind two IADC two-year term day rate drilling contracts between Eagle Drilling and Hallwood, which had been assigned to EDDO by Eagle Drilling prior to Blast's acquisition of the membership interests of EDDO. Hallwood alleged Eagle Drilling and EDDO were in breach of the IADC contracts and it ceased performance under the contracts. Hallwood has claimed that the rigs provided for use under the IADC contracts did not meet contract specifications and that the failures to meet such specifications are material breaches of the contracts. In addition, Hallwood has demanded that the remaining balance of funds advanced under the contracts, in the amount of \$1.65 million, be returned. The Hallwood suit pending in Tarrant County, Texas is currently stayed by operation of the automatic stay provided for in the US Bankruptcy Code as a result of the Chapter 11 filing of Blast and its subsidiary, EDDO. EDDO plans to vigorously contest the claims by Hallwood and, at the appropriate juncture, institute proceedings to prosecute causes of action against Hallwood for its damages arising out of what Blast considers are unjustified terminations of the two IADC contracts. EDDO and Hallwood have discussed potential settlements to this litigation; however, there can be no assurance that any settlement will be reached, or that it will be on favorable terms to EDDO. The parties' have agreed to try the case in the US Bankruptcy Court for the Southern District in Houston where the debtor's petition for reorganization is presently pending. This agreement was approved by the US Bankruptcy Court and a trial date has been scheduled for mid-April, 2008.

Quicksilver Resources Lawsuit

On October 13, 2006, Quicksilver Resources, Inc. ("Quicksilver") filed suit in the state district court of Tarrant County, Texas against Eagle Domestic Drilling Operations, LLC ("EDDO"), a wholly owned subsidiary of Blast, and a separate company, Eagle Drilling, LLC. The lawsuit seeks to rescind three IADC two-year term day rate contracts between Eagle Drilling and Quicksilver, which had been assigned to EDDO by Eagle Drilling prior to Blast's acquisition of the membership interests of EDDO. The lawsuit includes further allegations of other material breaches of the contracts

and negligent operation by EDDO and Eagle Drilling under the contracts. Quicksilver asserts that performance under one of the contracts was not timely and that mechanical problems of the rig provided under the contract caused delays in its drilling operations. Quicksilver repudiated the remaining two contracts prior to the time for performance set forth in each respective contract. Although the lawsuit filed in Tarrant County was stayed by operation of the automatic stay provided for in the US Bankruptcy Code, Quicksilver has removed the lawsuit to the US Bankruptcy Court for the Northern District of Texas. On May 7, 2007 the US Bankruptcy Court for the Northern District of Texas approved the motion filed by EDDO seeking to have the lawsuit transferred to the US Bankruptcy Court for the Southern District of Texas where its petition for reorganization under Chapter 11 of the US Bankruptcy Code is presently pending. Subsequent to the transfer the parties entered a stipulation that the lawsuit would be tried in the Bankruptcy Court before a jury. EDDO intends to vigorously defend itself in this proceeding and, at the appropriate juncture, institute proceedings to prosecute causes of action against Quicksilver for its damages arising out of what Blast considers are unjustified terminations of the three IADC contracts.

Steinberger Derivative Lawsuit

Blast entered into a settlement agreement with Mr. Steinberger in August 2005 in full settlement of a lawsuit for wrongful dismissal between the parties. Such settlement has resulted in the creation of a \$500,000 interest free note being made in favor of Mr. Steinberger on Blast's books payable at June 30, 2007. Subsequently, Blast has been named as a party in the derivative lawsuit between Mr. Steinberger and his attorney, Mr. Sessions. Blast believes it has no liability arising from this dispute and is defending its interests in the case.

Concluding Statement

Other than described above, we are not aware of any other threatened or pending legal proceedings. The foregoing is also true with respect to each officer, director and control shareholder as well as any entity owned by any officer, director and control shareholder, over the last five years. As part of its regular operations, we may become party to various pending or threatened claims, lawsuits and administrative proceedings seeking damages or other remedies concerning our commercial operations, products, employees and other matters. Although we can provide no assurance about the outcome of these or any other pending legal and administrative proceedings and the effect such outcomes may have on the company, except as described above, we believe that any ultimate liability resulting from the outcome of such proceedings, to the extent not otherwise provided for or covered by insurance, will not have a material adverse effect on our financial condition or results of operations.
