NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2011
(Unaudited)

NOTE 1 – ORGANIZATION AND BASIS OF QUARTERLY PRESENTATION

Resource Capital Corp. and subsidiaries' (collectively the "Company") principal business activity is to purchase and manage a diversified portfolio of commercial real estate-related assets and commercial finance assets. The Company's investment activities are managed by Resource Capital Manager, Inc. ("Manager") pursuant to a management agreement (the "Management Agreement"). The Manager is a wholly-owned indirect subsidiary of Resource America, Inc. ("Resource America") (NASDAQ: REXI). The following subsidiaries are consolidated in the Company's financial statements:

RCC Real Estate, Inc. ("RCC Real Estate") holds real estate investments, including commercial real estate loans, commercial real estate-related securities and investments in real estate. RCC Real Estate owns 100% of the equity of the following variable interest entities ("VIEs"):

Resource Real Estate Funding CDO 2006-1 ("RREF CDO 2006-1"), a Cayman Islands limited liability company and qualified real estate investment trust ("REIT") subsidiary ("QRS"). RREF CDO 2006-1 was established to complete a collateralized debt obligation ("CDO") issuance secured by a portfolio of commercial real estate loans and commercial mortgage-backed securities ("CMBS").

Resource Real Estate Funding CDO 2007-1 ("RREF CDO 2007-1"), a Cayman Islands limited liability company and QRS. RREF CDO 2007-1 was established to complete a CDO issuance secured by a portfolio of commercial real estate loans, commercial mortgage-backed securities and property available-for-sale.

RCC Commercial, Inc. ("RCC Commercial") holds bank loan investments and commercial real estate-related securities. RCC Commercial owns 100% of the equity of the following VIEs:

Apidos CDO I, Ltd. ("Apidos CDO I"), a Cayman Islands limited liability company and taxable REIT subsidiary ("TRS"). Apidos CDO I was established to complete a CDO issuance secured by a portfolio of bank loans.

Apidos CDO III, Ltd. ("Apidos CDO III"), a Cayman Islands limited liability company and TRS. Apidos CDO III was established to complete a CDO issuance secured by a portfolio of bank loans.

Apidos Cinco CDO, Ltd. ("Apidos Cinco CDO"), a Cayman Islands limited liability company and TRS. Apidos Cinco CDO was established to complete a CDO issuance secured by a portfolio of bank loans.

Resource TRS, Inc. ("Resource TRS"), a TRS directly owned by the Company, holds the Company's equity investment in a leasing company and holds all of its structured notes.

Resource TRS II, Inc. ("Resource TRS II"), a TRS directly owned by the Company, holds the Company's interests in bank loan CDOs not originated by the Company. Resource TRS II owns 100% of the equity of the following VIE:

Resource Capital Asset Management ("RCAM"), a domestic limited liability company, is entitled to collect senior, subordinated, and incentive fees related to five CDO issuers to which it provides management services through Apidos Capital Management, a subsidiary of Resource America.

Edgar Filing: Resource Capital Corp. - Form 10-Q

Resource TRS III, Inc. (“Resource TRS III”), a TRS directly owned by the Company, holds the Company’s interests in bank loan CDOs originated by the Company. Resource TRS III owns 100% of the equity of the following VIE:

Apidos CLO VIII, Ltd (“Apidos CLO VIII”), a Cayman Islands limited liability company, is a warehouse facility through Citibank, N.A. which was established to complete a CLO secured by a portfolio of bank loans.

The consolidated financial statements and the information and tables contained in the notes to the consolidated financial statements are unaudited. However, in the opinion of management, these interim financial statements include all adjustments necessary to fairly present the results of the interim periods presented. The unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2010. The results of operations for the nine months ended September 30, 2011 may not necessarily be indicative of the results of operations for the full year ending December 31, 2011.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
SEPTEMBER 30, 2011
(Unaudited)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The consolidated financial statements include the accounts of the Company.

The Company has a 100% interest valued at \$1.5 million in the common shares (three percent of the total equity) in two trusts, Resource Capital Trust I (“RCT I”) and RCC Trust II (“RCT II”). The Company completed a qualitative analysis to determine whether or not it is the primary beneficiary of each of the trusts. The Company does not have the power to direct the activities of either trust, nor does it have the obligation to absorb losses or the right to receive benefits that could potentially be significant to these trusts. Therefore, the Company is not deemed to be the primary beneficiary of either trust and they are not consolidated into the Company’s consolidated financial statements. The Company records its investments in RCT I and RCT II’s common shares of \$774,000 each as investments in unconsolidated trusts at cost and records dividend income upon declaration by RCT I and RCT II. For the three and nine months ended September 30, 2011 the Company recognized \$896,000 and \$2.7 million, respectively, of interest expense with respect to the subordinated debentures it issued to RCT I and RCT II which included \$79,000 and \$233,000, respectively, of amortization of deferred debt issuance costs. For the three and nine months ended September 30, 2010, the Company recognized \$923,000 and \$2.7 million, respectively, of interest expense with respect to the subordinated debentures it issued to RCT I and RCT II which included \$76,000 and \$225,000, respectively, of amortization of deferred debt issuance costs. The Company will do a continuous reassessment as to whether it should be deemed to be the primary beneficiary of the trusts.

All inter-company transactions and balances have been eliminated.

Investment Securities

The Company classifies its investment portfolio as trading, available-for-sale or held-to-maturity. The Company, from time to time, may sell any of its investments due to changes in market conditions or in accordance with its investment strategy.

The Company’s investment securities, trading are reported at fair value. To determine fair value, the Company uses dealer quotes or bids which are validated using an income approach utilizing appropriate prepayment, default, and recovery rates. Any changes in fair value are recorded in the Company’s results of operations as net realized and unrealized gain (loss) on investment securities, trading.

The Company’s investment securities available-for-sale are reported at fair value (see Note 16). To determine fair value, the Company uses two methods, either a dealer quote or an internal valuation model, depending upon the current level of market activity.

For securities with higher levels of market activity, the Company obtains a quote from a dealer, which typically will be the dealer who sold the Company the security. The Company has been advised that, in formulating their quotes, dealers may use recent trades in the particular security, if any, market activity in similar securities, if any, or internal

valuation models. These quotes are non-binding. Based on how dealers develop their quotes, market liquidity and levels of trading, the Company categorizes these investments as either Level 2 or Level 3 in the fair value hierarchy. The Company evaluates the reasonableness of the quotes it receives by applying its own valuation models. If there is a material difference between a quote the Company receives and the value indicated by its valuation models, the Company will evaluate the difference. As part of that evaluation, the Company will discuss the difference with the dealer, who may revise its quote based upon these discussions. Alternatively, the Company may revise its valuation models.

For investment securities available-for-sale with lower levels of market activity, the Company determines fair value based on taking a weighted average of the following three measures:

dealer quotes, as described above;

quotes on more actively-traded, higher-rated securities issued in a similar time period, adjusted for differences in rating and seniority; and

the value resulting from an internal valuation model using an income approach based upon an appropriate risk-adjusted yield, time value and projected losses using default assumptions based upon an historical analysis of underlying loan performance.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Investment Securities – (Continued)

On a quarterly basis, the Company evaluates its available-for-sale investments for other-than-temporary impairment. An available-for-sale investment is impaired when its fair value has declined below its amortized cost basis. An impairment is considered other-than-temporary when the amortized cost basis of the investment will not be recovered over its remaining life. In addition, the Company's intent to sell as well as the likelihood that the Company will be required to sell the security before the recovery of the amortized cost basis is considered. Where credit quality is believed to be the cause of the other-than-temporary impairment, that component of the impairment is recognized as an impairment loss in the statement of income. Where other market components are believed to be the cause of the impairment, that component of the impairment is recognized on the balance sheet as other comprehensive loss.

Investment securities transactions are recorded on the trade date. Realized gains and losses on investment securities are determined on the specific identification method.

Allowance for Loan Losses

The Company maintains an allowance for loan losses. Loans held for investment are first individually evaluated for impairment so specific reserves can be applied. Loans for which a specific reserve is not applicable are then evaluated for impairment as a homogeneous pool of loans with substantially similar characteristics so that a general reserve can be established, if needed. The reviews are performed at least quarterly.

The Company considers a loan to be impaired if one of two conditions exists. The first condition is if, based on current information and events, management believes it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. The second condition is if the loan is deemed to be a troubled-debt restructuring ("TDR") where a concession has been given to the borrower. These TDRs may not have an associated specific loan loss allowance if the principal and interest amount is considered recoverable based on current market conditions, expected collateral performance and / or guarantees made by the borrowers.

When a loan is impaired under either of these two conditions, the allowance for loan losses is increased by the amount of the excess of the amortized cost basis of the loan over its fair value. Fair value may be determined based on the present value of estimated cash flows; on market price, if available; or on the fair value of the collateral less estimated disposition costs. When a loan, or a portion thereof, is considered uncollectible and pursuit of collection is not warranted, the Company will record a charge-off or write-down of the loan against the allowance for loan losses.

An impaired loan may remain on accrual status during the period in which the Company is pursuing repayment of the loan; however, the loan is placed on non-accrual status at such time as (i) management believes that scheduled debt service payments will not be met within the coming 12 months; (ii) the loan becomes 90 days delinquent; (iii) management determines the borrower is incapable of, or has ceased efforts toward, curing the cause of the impairment; or (iv) the net realizable value of the loan's underlying collateral approximates the Company's carrying value of such loan. While on non-accrual status, the Company recognizes interest income only when an actual payment is received.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Investments in Real Estate

Investments in real estate are carried net of accumulated depreciation. Costs directly related to the acquisition are expensed as incurred. Ordinary repairs and maintenance which are not reimbursed by the tenants are expensed as incurred. Costs related to the improvement of the real property are capitalized and depreciated over their useful life.

Acquisitions of real estate assets and any related intangible assets are recorded initially at fair value under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 805, “Business Combinations.” The Company allocates the purchase price of its investments in real estate to land, building, site improvements, the value of in-place leases and the value of above or below market leases. The value allocated to above or below market leases is amortized over the remaining lease term as an adjustment to rental income. The Company amortizes the value allocated to in-place leases over the weighted average remaining lease term to depreciation and amortization expense. The Company depreciates real property using the straight-line method over the estimated useful lives of the assets as follows:

Category	Term
Building	25 – 40 years
Site improvements	Lesser of the remaining life of building or useful life

Long-Lived and Intangible Assets

Long-lived assets and certain identifiable intangibles to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value of such assets may not be recoverable. The review of recoverability is based on an estimate of the future undiscounted cash flows (excluding interest charges) expected to result from the long-lived asset’s use and eventual disposition. If impairment has occurred, the loss will be measured as the excess of the carrying amount of the asset over the fair value of the asset.

Other than an impairment charge of \$1.7 million the Company took on real estate debt converted to equity in June 2011, no impairment charges were recorded on the Company’s investment in real estate or intangible assets during the three or nine months ended September 30, 2011. There were no such investments in real estate holdings in 2010.

Recent Accounting Standards

In June 2011, the FASB issued guidance which changes the presentation of comprehensive income. It eliminates the option to present comprehensive income as part of the changes in stockholders’ equity. In addition, it requires consecutive disclosure of comprehensive income either as part of the statement of net income or in a statement immediately following. Finally, the guidance requires disclosure on the face of the financial statements of any reclassifications between net income and other comprehensive income. The guidance is effective for fiscal years and periods within those years beginning after December 15, 2011. Adoption will require adjusted disclosure of the Company’s comprehensive income.

In April 2011, the FASB issued guidance which revises the criteria for assessing effective control for repurchase agreements and other agreements that both entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. The determination of whether the transfer of a financial asset subject to a repurchase agreement is a sale is based, in part, on whether the entity maintains effective control over the financial asset. The amendments in this guidance will be effective for interim and annual reporting periods beginning on or after December 15, 2011, and will be applied prospectively to transactions or modifications of existing transactions that occur on or after the effective date. Early adoption is not permitted. The Company is currently evaluating the effect of the adoption on its consolidated financial statements.

In April 2011, the FASB issued guidance to clarify the disclosures regarding troubled-debt restructurings originally effective as of December 15, 2010. The new guidance surrounding troubled-debt restructuring will now be effective for interim and annual periods beginning after June 15, 2011. Adoption of this guidance required additional disclosures in the notes to the Company's consolidated financial statements (see note 8).

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Recent Accounting Standards – (Continued)

In January 2010, the FASB issued guidance that required new disclosures and clarified some existing disclosure requirements about fair value measurements. The pronouncement requires a reporting entity: (1) to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers; and (2) to present separately information about purchases, sales, issuances and settlements in the reconciliation of fair value measurements using significant unobservable inputs. In addition, it clarified the requirements of the following existing disclosures: (1) for purposes of reporting fair value measurement for each class of assets and liabilities, a reporting entity needs to use judgment in determining the appropriate classes of assets and liabilities, and (2) a reporting entity should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. The new guidance was effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the rollforward of activity in Level 3 fair value measurements which became effective for the Company in fiscal 2011 and required additional disclosures. The new guidance required enhanced disclosure in the Company's footnotes.

Reclassifications

Certain reclassifications have been made to the 2010 consolidated financial statements to conform to the 2011 presentation.

NOTE 3 – INVESTMENT SECURITIES, TRADING

The following table summarizes the Company's structured notes and residential mortgage-backed securities ("RMBS"), which are classified as investment securities, trading and carried at fair value (in thousands):

(1) As of September 30, 2011 and December 31, 2010, \$104.1 million and \$58.0 million, respectively, of securities were pledged as collateral security under related financings.

(2) As of September 30, 2011 and December 31, 2010, other asset-backed securities are carried at fair value, \$23,000 and \$23,000, respectively, due to prior cost-recovery proceeds received on this bond.

On January 4, 2011, the Company's wholly-owned subsidiary, Resource TRS, made an investment in LEAF Commercial Capital, Inc. ("LCC"), a newly-formed equipment financing subsidiary of LEAF Financial Corporation ("LEAF Financial"), a subsidiary of Resource America (see Note 14). The Company's preferred stock and warrant investment is carried at cost. It is not practicable for the Company to estimate the fair value of its investment in the preferred stock and warrants of LCC. LCC's assets are comprised of a large number of transactions with commercial customers in different businesses, may be secured by liens on various types of equipment and may be guaranteed by third parties and cross-collateralized. Any difference between the carrying value and fair value of each transaction would be affected by a potential buyer's assessment of the transaction's credit quality, collateral value, guarantees, payment history, yield, term, documents and other legal matters, and other subjective considerations. Value received in a fair market sale of a transaction would be based on the terms of the sale, LCC's and the buyer's views of economic and industry conditions, LCC's and the buyer's tax considerations, and other factors. There were no events or changes in circumstances that would significantly affect the fair value of this investment. The preferred stock carries a coupon of 10%, of which 2% is received in cash and 8% is paid in-kind. During the nine months ended September 30, 2011, \$528,000 of paid-in-kind interest was paid in the form of additional shares of Series A preferred stock.

(1) \$1.0 million of CMBS, maturing in this category are collateralized by floating-rate loans and, as permitted under the CMBS terms, are expected to extend their respective maturity dates until at least October 2012 as the debtors in the floating-rate structures have a contractual right to extend with options ranging from two one-year options to three one-year options. Beyond the contractual extensions, the servicer may allow further extensions of the underlying floating rate loans.

(2) All of the \$3.3 million of CMBS maturing in this category are collateralized by floating-rate loans and, as permitted under the CMBS terms, are expected to extend their respective maturity dates until at least November 2011 as the debtors in the floating-rate structures have a contractual right to extend with options ranging from two one-year options to three one-year options. Beyond the contractual extensions, the servicer may allow further extensions of the underlying floating rate loans.

The range of contractual maturities of the investment securities available-for-sale is from January 2012 to July 2022.

NOTE 4 – INVESTMENT SECURITIES AVAILABLE-FOR-SALE – (Continued)

The determination of other-than-temporary impairment is a subjective process, and different judgments and assumptions could affect the timing of loss realization. The Company reviews its portfolios and makes other-than-temporary impairment determinations at least quarterly. The Company considers the following factors when determining if there is an other-than-temporary impairment on a security:

the length of time the market value has been less than amortized cost;

the severity of the impairment;

the expected loss with respect to the security as generated by third party software;

credit ratings from the rating agencies;

underlying credit fundamentals of the collateral backing the securities; and

whether, based upon the Company's intent, it is more likely than not that the Company will sell the security before the recovery of the amortized cost basis.

At September 30, 2011 and December 31, 2010, the Company held \$109.4 million and \$63.9 million, respectively, (net of net unrealized losses of \$27.6 million and \$19.3 million, respectively), of CMBS recorded at fair value. To determine fair value, the Company uses two methods, either a dealer quote or an internal valuation model, depending upon the current level of market activity. As of September 30, 2011 and December 31, 2010, \$99.1 million and \$53.7 million, respectively, of investment securities available-for-sale were valued using dealer quotes and \$10.2 million and \$10.3 million, respectively, were valued using a weighted average of three measures (see Note 2).

During the nine months ended September 30, 2011, the Company recognized a \$4.6 million other-than-temporary impairment on one fixed rate position that supported the Company's CMBS investments bringing the fair value to \$250,000. There was no other-than-temporary impairment during the three months ended September 30, 2011. During the three and nine months ended September 30, 2010, the Company recognized \$4.5 million and \$10.5 million of other-than-temporary impairment on one and three fixed rate positions, respectively, that supported the Company's CMBS investments, bringing the combined fair value to \$470,000. The assumed default of these collateral positions in the Company's cash flow model yielded a value of less than full recovery of the Company's cost basis. The net impairment losses were recognized in earnings in the consolidated statements of operations. All of the Company's other-than-temporary impairment losses are related to credit losses.

Changes in interest rates may also have an effect on the rate of mortgage principal prepayments and, as a result, prepayments on CMBS in the Company's investment portfolio. At September 30, 2011, the aggregate discount exceeded the aggregate premium on the Company's CMBS by approximately \$13.9 million. At December 31, 2010, the aggregate discount exceeded the aggregate premium on the Company's CMBS by approximately \$20.9 million.

The Company has 14 and 12 investment securities held-to-maturity that have been in a loss position for more than 12 months as of September 30, 2011 and December 31, 2010, respectively. The unrealized losses in the above table are considered to be temporary impairments due to market factors and are not reflective of credit deterioration. The Company does not believe that any of its investment securities classified as held-to-maturity were other-than-temporarily impaired as of September 30, 2011.

The determination of other-than-temporary impairment is a subjective process, and different judgments and assumptions could affect the timing of loss realization. The Company reviews its portfolios and makes other-than-temporary impairment determinations at least quarterly. The Company considers the following factors when determining if there is an other-than-temporary impairment on a security:

the severity of the impairment;
the expected loss of the security as generated by third party software;
original and current credit ratings from the rating agencies;
underlying credit fundamentals of the collateral backing the securities; and
third-party support for default, recovery, prepayment speed and reinvestment price assumptions.

The Company had no investments in real estate as of December 31, 2010.

Acquisitions

During the nine months ended September 30, 2011, the Company converted two loans it had originated to investments in real estate and acquired one real estate asset summarized as follows:

On June 14, 2011, the Company received the deed to a property by agreement with the third-party borrower in lieu of foreclosure on a loan in the amount of \$22.4 million that the Company had originated. The loan was collateralized by a 400 unit multi-family property in Memphis, Tennessee. The property was 93.8% occupied at acquisition.

On June 24, 2011, the Company received the deed to a property from the borrower in lieu of foreclosure on a loan in the amount of \$12.1 million that the Company had originated. The loan was collateralized by an office building in Pacific Palisades, California. The property was 60% occupied at acquisition.

On August 1, 2011, the Company, through its subsidiary, RCC Real Estate purchased Whispertree Apartments, a 504 multi-family property located in Houston, Texas, for \$18.1 million. The property was 95% occupied at acquisition.

A summary of the aggregate estimated fair value of the assets and liabilities acquired on the respective dates of acquisition are presented below (in thousands):

Description	Estimated Fair Value
Assets acquired:	
Investments in real estate	\$ 48,683
Cash and cash equivalents	177
Restricted cash	2,360
Intangible assets	2,490
Other assets	391

Edgar Filing: Resource Capital Corp. - Form 10-Q

Total assets acquired	54,101
Liabilities assumed:	
Accounts payable and other liabilities	673
Total liabilities assumed	673
Estimated fair value of net assets acquired	\$ 53,428

The Company has not yet completed the process of estimating the fair value of assets acquired and liabilities assumed. Accordingly, the Company's preliminary estimates and the allocation of the purchase price to the assets acquired and liabilities assumed may change as the Company completes the process. In accordance with FASB ASC Topic 805, changes, if any, to the preliminary estimates and allocation will be reported in the Company's financial statements retrospectively.

(1) Whole loans had \$6.2 million and \$5.0 million in unfunded loan commitments as of September 30, 2011 and December 31, 2010, respectively. These commitments are funded as the borrowers require additional funding and have satisfied the requirements to obtain this additional funding.

(2) Floating rate whole loans include a mezzanine portion of a whole loan that matured in June 2011 and was fully reserved for as of September 30, 2011. Fixed rate mezzanine loan maturity dates exclude a loan that matured in May 2010 that is in default and was placed on non-accrual status as of December 31, 2010. This loan was written-off as of March 31, 2011.

(3) The total does not include an allowance for loan losses of \$25.1 million and \$31.6 million recorded as of September 30, 2011 and December 31, 2010, respectively.

(4) Maturity dates do not include possible extension options that may be available to the borrowers.

(5) Floating rate whole loans includes a \$2 million mezzanine portion of a whole loan that has a fixed rate of 15.0% as of September 30, 2011.

(6) A fixed rate B note with a fair value of \$13.0 million which matured in July 2011 and is in the process of being sold and is expected to close in November 2011.

In September 2011, the Company entered into a sale agreement which is expected to close in mid November 2011 for a commercial real estate loan with a fair value of \$13.0 million which is secured by a two-building office campus in Indianapolis, IN. In connection with this anticipated sale, the Company allocated \$1.2 million of previously unallocated reserves to adjust the loan to its current market value and accordingly classified this loan as a loan held for sale as of September 30, 2011.

Credit quality indicators

Bank Loans

The Company uses a risk grading matrix to assign grades to bank loans. Loans are graded at inception and updates to assigned grades are made continually as new information is received. Loans are graded on a scale of 1-5 with 1 representing the Company's highest rating and 5 representing its lowest rating. The Company also designates loans that are sold after the period end at the lower of their fair market value or cost, net of any allowances and costs associated with the loan sales. The Company considers such things as performance of the underlying company, liquidity, collectability of interest, enterprise valuation, default probability, ratings from rating agencies, and industry dynamics in grading its bank loans.

Edgar Filing: Resource Capital Corp. - Form 10-Q

Credit risk profiles of bank loans were as follows (in thousands):

	Rating 1	Rating 2	Rating 3	Rating 4	Rating 5	Held for Sale	Total
As of September 30, 2011:

Commercial Real Estate Loans

The Company uses a risk grading matrix to assign grades to commercial real estate loans. Loans are graded at inception and updates to assigned grades are made continually as new information is received. Loans are graded on a scale of 1-4 with 1 representing the Company's highest rating and 4 representing its lowest rating. The Company designates loans that are sold after the period end as such at the lower of their fair market value or cost, net of any allowances and costs associated with the loan sales. In addition to the underlying performance of the loan collateral, the Company considers such things as the strength of underlying sponsorship, payment history, collectability of interest, structural credit enhancements, market trends and loan terms in grading its commercial real estate loans.

Credit risk profiles of commercial real estate loans were as follows (in thousands):

NOTE 9 – INTANGIBLE ASSETS

Intangible assets represent identifiable intangible assets acquired as a result of the Company's acquisition of RCAM in February 2011, its conversion of loans to investments in real estate in June 2011, and the acquisition of real estate in August 2011. The Company amortizes identified intangible assets to expense over their estimated lives using the straight-line method. The Company evaluates intangible assets for impairment as events and circumstances change. The Company expects to record amortization expense of intangible assets of approximately \$3.9 million for the year ended December 31, 2011, \$3.3 million for the year ended December 31, 2012, \$2.7 million for the year ended December 31, 2013, \$2.6 million for the years ended December 31, 2014 and 2015 and \$2.5 million for the year ended December 31, 2016. The weighted average remaining amortization period is eight years at September 30, 2011 and amortization for the three and nine months ended September 30, 2011 was \$1.5 million and \$2.5 million, respectively.

The following table summarizes intangible assets at September 30, 2011 (in thousands). No such assets existed at December 31, 2010.

Collateralized Debt Obligations

Resource Real Estate Funding CDO 2007-1

In September 2007, the Company closed RREF CDO 2007-1, a \$500.0 million CDO transaction that provides financing for commercial real estate loans and commercial mortgage-backed securities. The investments held by RREF CDO 2007-1 collateralize the debt it issued and, as a result, the investments are not available to the Company, its creditors or stockholders. RREF CDO 2007-1 issued a total of \$265.6 million of senior notes at par to unrelated investors. RCC Real Estate purchased 100% of the class H senior notes (rated BBB+:Fitch), class K senior notes (rated BBB-:Fitch), class L senior notes (rated BB:Fitch) and class M senior notes (rated B:Fitch) for \$68.0 million. In addition, Resource Real Estate Funding 2007-1 CDO Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$41.3 million equity interest representing 100% of the outstanding preference shares. The senior notes purchased by RCC Real Estate are subordinated in right of payment to all other senior notes issued by RREF CDO 2007-1 but are senior in right of payment to the preference shares. The equity interest is subordinated in right of payment to all other securities issued by RREF CDO 2007-1.

The senior notes issued to investors by RREF CDO 2007-1 consist of the following classes: (i) \$180.0 million of class A-1 notes bearing interest at one-month LIBOR plus 0.28%; (ii) \$50.0 million of unissued class A-1R notes, which allow the CDO to fund future funding obligations under the existing whole loan participations that have future funding commitments; the undrawn balance of the class A-1R notes will accrue a commitment fee at a rate per annum equal to 0.18%, the drawn balance will bear interest at one-month LIBOR plus 0.32%; (iii) \$57.5 million of class A-2 notes bearing interest at one-month LIBOR plus 0.46%; (iv) \$22.5 million of class B notes bearing interest at one-month LIBOR plus 0.80%; (v) \$7.0 million of class C notes bearing interest at a fixed rate of 6.423%; (vi) \$26.8 million of class D notes bearing interest at one-month LIBOR plus 0.95%; (vii) \$11.9 million of class E notes bearing interest at one-month LIBOR plus 1.15%; (viii) \$11.9 million of class F notes bearing interest at one-month LIBOR plus 1.30%; (ix) \$11.3 million of class G notes bearing interest at one-month LIBOR plus 1.55%; (x) \$11.3 million of class H notes bearing interest at one-month LIBOR plus 2.30%; (xi) \$11.3 million of class J notes bearing interest at one-month LIBOR plus 2.95%; (xii) \$10.0 million of class K notes bearing interest at one-month LIBOR plus 3.25%; (xiii) \$18.8 million of class L notes bearing interest at a fixed rate of 7.50% and (xiv) \$28.8 million of class M notes bearing interest at a fixed rate of 8.50%. All of the notes issued mature in September 2046, although the Company has the right to call the notes anytime after July 2017 until maturity. The weighted average interest rate on all notes issued to outside investors and net of repurchased notes was 0.76% and 0.82% at September 30, 2011 and December 31, 2010, respectively.

During the nine months ended September 30, 2011, the Company repurchased \$10.0 million in A-2 notes at a weighted average price of 61.25% to par which resulted in a \$3.9 million gain. During the nine months ended September 30, 2010, the Company repurchased \$250,000 of the Class J notes and \$7.5 million of the Class B notes in RREF CDO 2007-1 at a weighted average price of 39.00% to par which resulted in a \$4.7 million gain. The gains are reported as a part of the gain on the extinguishment of debt in the consolidated statements of income.

In connection with the Company's ownership of certain notes held by RREF CDO 2007-1 on June 21, 2011, the Company surrendered for cancellation, without consideration, to the trustee of RREF CDO 2007-1 the following outstanding notes, which previously eliminated in consolidation, \$7.5 million of the Class B notes, \$6.5 million of the

Class F notes, \$6.25 million of the Class G notes and \$10.625 million of the Class H notes. The surrendered notes were cancelled by the trustee pursuant to the applicable indenture, and the obligations due under those notes were deemed extinguished. The effect of these cancellations was to improve the CDO's performance with respect to its over-collateralization and interest coverage tests, with which it was already in compliance before the cancellation, as well as to secure the Company's long-term interest in this structured vehicle.

As a result of the Company's ownership of senior notes, both the notes repurchased subsequent to closing and those retained at the CDO's closing eliminate in consolidation.

Resource Real Estate Funding CDO 2006-1

In August 2006, the Company closed RREF CDO 2006-1, a \$345.0 million CDO transaction that provides financing for commercial real estate loans. The investments held by RREF CDO 2006-1 collateralize the debt it issued and, as a result, the investments are not available to the Company, its creditors or stockholders. RREF CDO 2006-1 issued a total of \$308.7 million of senior notes at par to investors of which RCC Real Estate purchased 100% of the class J senior notes (rated BB: Fitch) and class K senior notes (rated B:Fitch) for \$43.1 million. In addition, Resource Real Estate Funding 2006-1 CDO Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$36.3 million equity interest representing 100% of the outstanding preference shares. The senior notes purchased by RCC Real Estate are subordinated in right of payment to all other senior notes issued by RREF CDO 2006-1 but are senior in right of payment to the preference shares. The equity interest is subordinated in right of payment to all other securities issued by RREF CDO 2006-1.

The senior notes issued to investors by RREF CDO 2006-1 consist of the following classes: (i) \$129.4 million of class A-1 notes bearing interest at one-month LIBOR plus 0.32%; (ii) \$17.4 million of class A-2 notes bearing interest at one-month LIBOR plus 0.35%; (iii) \$5.0 million of class A-2 notes bearing interest at a fixed rate of 5.842%; (iv) \$6.9 million of class B notes bearing interest at one-month LIBOR plus 0.40%; (v) \$20.7 million of class C notes bearing interest at one-month LIBOR plus 0.62%; (vi) \$15.5 million of class D notes bearing interest at one-month LIBOR plus 0.80%; (vii) \$20.7 million of class E notes bearing interest at one-month LIBOR plus 1.30%; (viii) \$19.8 million of class F notes bearing interest at one-month LIBOR plus 1.60%; (ix) \$17.3 million of class G notes bearing interest at one-month LIBOR plus 1.90%; (x) \$12.9 million of class H notes bearing interest at one-month LIBOR plus 3.75%, (xi) \$14.7 million of Class J notes bearing interest at a fixed rate of 6.00% and (xii) \$28.4 million of Class K notes bearing interest at a fixed rate of 6.00%. As a result of the Company's ownership of the Class J and K senior notes, these notes eliminate in consolidation. All of the notes issued mature in August 2046, although the Company has the right to call the notes anytime after August 2016 until maturity. The weighted average interest rate on all notes issued to outside investors and net of repurchased notes was 1.27% and 1.33% at September 30, 2011 and December 31, 2010, respectively.

During the nine months ended September 30, 2011, the Company did not repurchase any notes. During the nine months ended September 30, 2010 the Company repurchased \$20.0 million of the Class A-1 notes, \$12.0 million of the Class A-2 notes, \$6.9 million of the Class B notes, \$7.7 million of the Class C notes and \$2.0 million of the Class D notes in RREF CDO 2006-1 at a weighted average price of 64.2% to par which resulted in a \$18.3 million gain reported as a gain on the extinguishment of debt in the consolidated statements of income.

In connection with the Company's ownership of certain notes held by RREF CDO 2006-1 on June 21, 2011, the Company surrendered for cancellation, without consideration, to the trustee of RREF CDO 2006-1 the following outstanding notes, which previously eliminated in consolidation: \$6.9 million of the Class B notes, \$7.7 million of the Class C notes, \$5.52 million of the Class D notes, \$7.0 million of the Class E notes and \$5.25 million of the Class F notes. The surrendered notes were cancelled by the trustee pursuant to the applicable indenture, and the obligations

due under those notes were deemed extinguished. The effect of these cancellations was to improve the CDO's performance with respect to its over-collateralization and interest coverage tests, with which it was already in compliance before the cancellation, as well as to secure the Company's long-term interest in this structured vehicle.

As a result of the Company's ownership of senior notes, both the notes repurchased subsequent to closing and those retained at the CDO's closing eliminate in consolidation.

Apidos CLO VIII Warehouse

In June 2011, the Company formed Apidos CLO VIII and entered into a warehouse facility provided by Citibank, N.A. to purchase bank loans to include in Apidos CLO VIII. This agreement, secured by a \$15.0 million purchase of 15,000 preference shares of Apidos CLO VIII, expired upon the closing of Apidos CLO VIII. At September 30, 2011, there was an outstanding balance of \$52.7 million relating to trades that had settled. In addition, the Company had \$130.1 million of securities that had traded, but not yet settled at September 30, 2011. The facility bears interest at a rate of three-month LIBOR plus 1.0% for the first nine months and 1.4% thereafter. As of September 30, 2011 the current borrowing rate was at 1.26%. On October 13, 2011, the Apidos CLO VIII warehouse facility terminated (see Note 18).

Equipment Contract Backed Notes, Series 2010-2

In May 2010, the Company acquired Equipment Contract Backed Notes, Series 2010-2, issued by LEAF Equipment Leasing Income Fund III, L.P. (“LEAF Funding 3”), a \$120.0 million transaction that provided financing for leases. The investments held by LEAF Funding 3 collateralized the debt it issued and, as a result, the investments were not available to the Company, its creditors or stockholders unless LEAF Funding 3 defaulted and the Company and other holders of the notes foreclosed on the collateral. LEAF Funding 3 issued a total of \$120.0 million of senior notes at a weighted average price of \$93.52 to unrelated investors generating proceeds of \$112.2 million. Before contributing the notes to LCC, as described in Note 14, the Company amortized the discount over the lives of the notes using the effective yield method, adjusted for the effects of estimated prepayments on the notes. On January 4, 2011, the Company made a preferred investment in LCC and contributed the notes to LCC as part of that investment (see Note 14).

Apidos Cinco CDO

In May 2007, the Company closed Apidos Cinco CDO, a \$350.0 million CDO transaction that provides financing for bank loans. The investments held by Apidos Cinco CDO collateralize the debt it issued and, as a result, the investments are not available to the Company, its creditors or stockholders. Apidos Cinco CDO issued a total of \$322.0 million of senior notes at par to investors and RCC Commercial purchased a \$28.0 million equity interest representing 100% of the outstanding preference shares. The equity interest is subordinated in right of payment to all other securities issued by Apidos Cinco CDO.

The senior notes issued to investors by Apidos Cinco CDO consist of the following classes: (i) \$37.5 million of class A-1 notes bearing interest at LIBOR plus 0.24%; (ii) \$200.0 million of class A-2a notes bearing interest at LIBOR plus 0.23%; (iii) \$22.5 million of class A-2b notes bearing interest at LIBOR plus 0.32%; (iv) \$19.0 million of class A-3 notes bearing interest at LIBOR plus 0.42%; (v) \$18.0 million of class B notes bearing interest at LIBOR plus 0.80%; (vi) \$14.0 million of class C notes bearing interest at LIBOR plus 2.25% and (vii) \$11.0 million of class D notes bearing interest at LIBOR plus 4.25%. All of the notes issued mature on May 14, 2020, although the Company has the right to call the notes anytime after May 14, 2011 until maturity. The weighted average interest rate on all notes was 0.78% and 0.79% at September 30, 2011 and December 31, 2010, respectively.

Apidos CDO III

In May 2006, the Company closed Apidos CDO III, a \$285.5 million CDO transaction that provides financing for bank loans. The investments held by Apidos CDO III collateralize the debt it issued and, as a result, the investments are not available to the Company, its creditors or stockholders. Apidos CDO III issued a total of \$262.5 million of senior notes at par to investors and RCC Commercial purchased a \$23.0 million equity interest representing 100% of the outstanding preference shares. The equity interest is subordinated in right of payment to all other securities issued by Apidos CDO III.

The senior notes issued to investors by Apidos CDO III consist of the following classes: (i) \$212.0 million of class A-1 notes bearing interest at 3-month LIBOR plus 0.26%; (ii) \$19.0 million of class A-2 notes bearing interest at 3-month LIBOR plus 0.45%; (iii) \$15.0 million of class B notes bearing interest at 3-month LIBOR plus 0.75%; (iv) \$10.5 million of class C notes bearing interest at 3-month LIBOR plus 1.75%; and (v) \$6.0 million of class D notes bearing interest at 3-month LIBOR plus 4.25%. All of the notes issued mature on September 12, 2020, although the Company has the right to call the notes anytime after September 12, 2011 until maturity. The weighted average interest rate on all notes was 0.72% and 0.75% at September 30, 2011 and December 31, 2010, respectively.

Apidos CDO I

In August 2005, the Company closed Apidos CDO I, a \$350.0 million CDO transaction that provides financing for bank loans. The investments held by Apidos CDO I collateralize the debt it issued and, as a result, the investments are not available to the Company, its creditors or stockholders. Apidos CDO I issued a total of \$321.5 million of senior notes at par to investors and RCC Commercial purchased a \$28.5 million equity interest representing 100% of the outstanding preference shares. The equity interest is subordinated in right of payment to all other securities issued by Apidos CDO I.

The senior notes issued to investors by Apidos CDO I consist of the following classes: (i) \$265.0 million of class A-1 notes bearing interest at 3-month LIBOR plus 0.26%; (ii) \$15.0 million of class A-2 notes bearing interest at 3-month LIBOR plus 0.42%; (iii) \$20.5 million of class B notes bearing interest at 3-month LIBOR plus 0.75%; (iv) \$13.0 million of class C notes bearing interest at 3-month LIBOR plus 1.85%; and (v) \$8.0 million of class D notes bearing interest at a fixed rate of 9.251%. All of the notes issued mature on July 27, 2017, although the Company has the right to call the notes anytime after July 27, 2010 until maturity. The weighted average interest rate on all notes was 0.84% and 0.87% at September 30, 2011 and December 31, 2010, respectively.

Unsecured Junior Subordinated Debentures

In May 2006 and September 2006, the Company formed RCT I and RCT II, respectively, for the sole purpose of issuing and selling capital securities representing preferred beneficial interests. Although the Company owns 100% of the common securities of RCT I and RCT II, RCT I and RCT II are not consolidated into the Company's consolidated financial statements because the Company is not deemed to be the primary beneficiary of these entities. In connection with the issuance and sale of the capital securities, the Company issued junior subordinated debentures to RCT I and RCT II of \$25.8 million each, representing the Company's maximum exposure to loss. The debt issuance costs associated with the junior subordinated debentures for RCT I and RCT II are included in borrowings and are being amortized into interest expense in the consolidated statements of income using the effective yield method over a ten year period.

In October 2009, the Company amended the trust agreements and unsecured junior subordinated debentures held by RCT I and RCT II with a total value outstanding of \$51.5 million. The amendment provided for an interest rate increase of 2% (from LIBOR plus 3.95% to LIBOR plus 5.95%) on both issuances for a period of two years and a one-time restructuring fee of \$250,000 in exchange for the waiver of financial covenants under the Company's guarantee. The debt issuance costs associated with the junior subordinated debentures for RCT I and RCT II at September 30, 2011, were \$472,455 and \$488,581, respectively. The debt issuance costs associated with the junior subordinated debentures for RCT I and RCT II at December 31, 2010 were \$590,000 and \$604,000, respectively. The interest rate adjustment took effect as of October 1, 2009 and expired on September 30, 2011, whereas the rates reverted to LIBOR plus 3.95%. The rates for RCT I and RCT II, at September 30, 2011, were 6.20% and 6.20%, respectively. The rates for RCT I and RCT II, at December 31, 2010, were 6.25% and 6.24%, respectively. The rate adjustment related to the amendment which expired on October 1, 2011 and the related covenant waiver expires on

January 1, 2012.

The rights of holders of common securities of RCT I and RCT II are subordinate to the rights of the holders of capital securities only in the event of a default; otherwise, the common securities' economic and voting rights are pari passu with the capital securities. The capital and common securities of RCT I and RCT II are subject to mandatory redemption upon the maturity or call of the junior subordinated debentures held by each. Unless earlier dissolved, RCT I will dissolve on May 25, 2041 and RCT II will dissolve on September 29, 2041. The junior subordinated debentures are the sole assets of RCT I and RCT II, mature on September 30, 2036 and October 30, 2036, respectively, and may be called at par by the Company any time after September 30, 2011 and October 30, 2011, respectively. The Company records its investments in RCT I and RCT II's common securities of \$774,000 each as investments in unconsolidated trusts and records dividend income upon declaration by RCT I and RCT II.

Repurchase and Credit Facilities

CMBS – Term Repurchase Facility

In February 2011, the Company’s wholly-owned subsidiaries, RCC Real Estate and RCC Commercial, entered into a master repurchase agreement with Wells Fargo Bank, National Association to be used as a warehouse facility to finance the purchase of CMBS. The Company guaranteed RCC Real Estate’s and RCC Commercial’s performance of their obligations under the repurchase agreement. At September 30, 2011, RCC Real Estate had borrowed \$37.6 million (net of \$362,000 of deferred debt issuance costs), all of which the Company had guaranteed. At September 30, 2011, borrowings under the repurchase agreement were secured by CMBS with an estimated fair value of \$44.3 million and a weighted average interest rate of one-month LIBOR plus 1.25%, or 1.48%.

At September 30, 2011, the Company had a repurchase agreement with the following counterparty (dollars in thousands); the Company had no repurchase agreements at December 31, 2010:

	Amount at Risk (1)	Weighted Average Maturity in Days	Weighted Average Interest Rate
September 30, 2011:			
Wells Fargo Bank, National Association.	\$ 6,221	18	1.48%

(1) Equal to the estimated fair value of securities or loans sold, plus accrued interest income, minus the sum of repurchase agreement liabilities plus accrued interest expense.

Revolving Credit Facility

On July 7, 2011, the Company and RCC Real Estate entered into a \$10.0 million revolving credit facility with The Bancorp Bank (“Bancorp”). The facility will provide bridge financing for up to five business days which will enable the Company and RCC Real Estate to fund real estate loans to third parties prior to their sale to the Company’s CRE CDOs. The facility is evidenced by a Revolving Judgment Note and Security Agreement by and among the borrowers and Bancorp entered into July 7, 2011. The facility is secured by a Securities Pledge Control Agreement by which the Company pledged \$40.0 million of the Class A-1 notes of RREF CDO 2006-1, which are owned by RCC Real Estate. The note becomes due and payable on September 30, 2012.

At September 30, 2011, the Company had a revolving credit facility agreement with the following counterparty (dollars in thousands); the Company had no revolving credit facility agreements at December 31, 2010:

Amount Borrowed	Weighted Average Maturity in Days	Interest Rate (WSJ Prime rate + 2.75 Spread)
--------------------	--	---

September 30, 2011:

The Bancorp Bank (1)	\$	6,000	1	6.00	%
----------------------	----	-------	---	------	---

(1) Amount borrowed was repaid on October 3, 2011.

Mortgage Payable

On August 1, 2011, the Company, through its subsidiary, RCC Real Estate purchased Whispertree Apartments, a 504 multi-family property located in Houston, Texas, for \$18.1 million. The property was 95% occupied at acquisition. The Company, entered into a seven year mortgage of \$13.6 million with a lender upon the acquisition of Whispertree Apartments. The mortgage bears interest at a rate of one-month LIBOR plus 3.95%. As of September 30, 2011 the current borrowing rate was at 4.14%.

NOTE 11 – SHARE ISSUANCE AND REPURCHASE

On March 30, 2011, the Company sold 6,900,000 shares of common stock in an underwritten public offering, including 900,000 shares exercised through the underwriters' over-allotment option, at a price of \$6.90 per share. The Company received net proceeds of approximately \$46.6 million after payment of underwriting discounts and commissions of approximately \$966,000 and before other offering expenses of approximately \$185,000.

Under a dividend reinvestment plan authorized by the board of directors on March 10, 2011, the Company is authorized to issue up to 10.0 million shares of common stock. Under this plan, which succeeded the November 2010 plan, the Company has issued 3,698,270 shares, at a weighted-average share price of \$6.00 per share, and received proceeds of \$21.7 million (net of costs) since June 2011.

Under an earlier dividend reinvestment plan authorized by the board of directors on November 18, 2010, the Company was authorized to issue up to 8.0 million shares of common stock. Under this plan, the Company had issued 6,571,468 shares from January 2011 through May 2011 at a weighted-average share price of \$6.93 per share and received proceeds of \$44.4 million (net of costs). The Company had issued a total of approximately 8.0 million shares of common stock under this plan since inception.

NOTE 12 – SHARE-BASED COMPENSATION – (Continued)

In connection with the July 2006 hiring of a commercial mortgage direct loan origination team by Resource Real Estate, Inc. (“Resource Real Estate”), a subsidiary of Resource America, the Company agreed to issue up to 100,000 shares of common stock and options to purchase an additional 100,000 shares of common stock if certain loan origination performance thresholds are achieved by this origination team for the Company’s account. The performance thresholds are two-tiered. Upon the achievement of \$400.0 million of direct loan originations of commercial real estate loans, 60,000 restricted shares of common stock and options to purchase an additional 60,000 shares of common stock are issuable. This hurdle was met in September 2007. Upon the achievement of an additional \$300.0 million of direct loan originations of commercial real estate loans, a second tranche of 40,000 restricted shares of common stock and options to purchase another 40,000 shares of common stock are issuable. The restricted shares vest over a two-year period after issuance and the options to purchase shares of common stock vest over a three-year period after issuance. On May 16, 2011, 40,000 shares of restricted common stock and 40,000 options to purchase additional shares were issued as a result of the achievement of an additional \$300.0 million of direct loan originations of commercial real estate loans. The restricted shares vest 50% on May 16, 2012 and 50% on May 16, 2013. The options vest 33.3% per year beginning on May 16, 2012.

On August 25, 2011, the Company issued 240,000 shares of restricted common stock under its 2007 Omnibus Equity Compensation Plan. These shares will vest 33.3% on each of May 15, 2012, 2013 and 2014. In connection with this grant, the Company agreed to issue up to 336,000 additional shares of common stock if certain loan origination performance thresholds are achieved by personnel from the Company’s loan origination team. The performance criteria are measured at the end of three annual measurement periods beginning April 1, 2011. The agreement, with respect to the issuance of the 336,000 shares, also provided dividend equivalent rights pursuant to which the dividends that would have been paid on the shares had they been issued on the date of grant will be paid at the end of each annual measurement period if the performance criteria are met. If the performance criteria are not met, the accrued dividends will be forfeited. As a consequence, the Company will not record the dividend equivalent rights until earned. At September 30, 2011, there were \$84,000 of dividends payable upon achievement of the performance criteria. If earned, the performance shares will vest over the subsequent 18 months at the rate of 1/6 per quarter.

The Company is managed by the Manager pursuant to the Management Agreement, which provides for both base and incentive management fees. For the three and nine months ended September 30, 2011, the Manager earned base management fees of approximately \$1.8 million and \$5.2 million, respectively, and incentive management fees of \$1.3 million and \$3.4 million, respectively. For the three and nine months ended September 30, 2010, the Manager earned base management fees of approximately \$1.4 million and \$3.9 million, respectively, and incentive management fees of \$3.0 million and \$5.9 million, respectively. The Company also reimburses the Manager and Resource America for expenses and employees of Resource America who perform legal, accounting, due diligence and other services that outside professionals or consultants would otherwise perform. On October 16, 2009, the Company entered into an amendment of the Management Agreement. Pursuant to the amendment, the Manager must provide the Company with a Chief Financial Officer and several accounting professionals, each of whom will be exclusively dedicated to the operations of the Company. The Manager must also provide the Company with a director of investor relations who will be 50% dedicated to the Company's operations. The Company bears the expense of the wages, salaries and benefits of the Chief Financial Officer and several accounting professionals and 50% of the salary and benefits of the director of investor relations. In addition, in February 2010, the Company began reimbursing the

Manager for the wages, salary, and benefits of its Chairman of the Board, who is exclusively dedicated to the operations of the Company. For the three and nine months ended September 30, 2011, the Company paid the Manager \$663,000 and \$1.8 million, respectively, as expense reimbursements. NOTE 14 – RELATED PARTY TRANSACTIONS – (Continued)

On November 24, 2010, the Company entered into an Investment Management Agreement with Resource Capital Markets, Inc. (“RCM”), a wholly-owned subsidiary of Resource America. The agreement provides that: (a) RCM may invest up to \$13.0 million of the Company’s funds, with the investable amount being adjusted by portfolio gains/(losses) and collections, and offset by expenses, taxes and realized management fees, and (b) RCM can earn a management fee in any year that the net profits earned exceed a preferred return. The management fee is 20% of the amount by which the net profits exceed the preferred return. During the three and nine months ended September 30, 2011, RCM earned \$347,146 and \$1,316,823 in management fees, respectively. The Company has reinvested gains from its activity and holds \$34.3 million in fair market value of trading securities as of September 30, 2011, an increase of \$16.6 million at fair market value as of December 31, 2010. In addition, the Company and RCM have established an escrow account that allocates the net profit or net losses of the portfolio on a yearly basis based on the net asset value of the account. During the three and nine months ended September 30, 2011, RCM earned \$71,000 and \$315,000, respectively, as its share of the net profits as defined in the Investment Management Agreement.

Relationship with LEAF Financial. LEAF Financial, a wholly-owned subsidiary of Resource America, originates and manages equipment leases and notes on behalf of the Company.

On July 20, 2011, the Company entered into an agreement with LCC, pursuant to which the Company provided a \$10.0 million loan to LCC, of which \$6.9 million was funded as of September 30, 2011. The loan matures on January 20, 2013 and bears interest at a fixed rate of 8.0% per annum on the unpaid principal balance, payable quarterly. In the event of default, interest will accrue and be payable at a rate of 5.0% in excess of the fixed rate. The loan is secured by all the assets of LEAF Capital Funding, LLC and LEAF Financial’s interest in LEAF Receivables Funding 3.

On January 4, 2011, the Company’s wholly-owned subsidiary, Resource TRS, made a preferred investment in LCC, a newly-formed equipment financing subsidiary of LEAF Financial. Resource TRS contributed initial capital of approximately \$26.2 million to LCC in the form of approximately \$5.2 million in cash, and all of its interest in LEAF Receivables Funding 3, a wholly-owned subsidiary of Resource TRS, which held a portfolio of equipment, equipment leases and notes. As part of the transaction, LEAF Financial contributed its assets relating to its equipment lease and note origination, servicing and finance business to LCC. Also, senior management personnel of LEAF Financial contributed capital to LCC in the form of all of the shares of common stock they owned in LEAF Financial in exchange for 10% of the shares of LCC common stock on a fully-diluted basis. The foregoing capital investments in LCC were made pursuant to a Transfer and Contribution Agreement among the registrant, LEAF Financial, LCC, Resource TRS and the Management Parties (“TCA”).

Pursuant to the TCA, in return for Resource TRS’s capital investments, LCC issued to Resource TRS 2,626,783 shares of LCC Series A preferred stock and warrants to purchase 4,800 shares of LCC common stock for an exercise price of \$0.01 per share. The shares receivable upon exercise of the warrants represent 48% of LCC’s common stock on a fully-diluted basis. The investment is classified as securities available-for-sale on the Company’s consolidated balance sheet.

As set forth in the TCA, on January 4, 2011, Resource TRS also delivered to LCC a Share Purchase Agreement under which LCC was permitted to require Resource TRS to purchase up to an additional \$10.0 million of Series A preferred stock, of which all \$10.0 million was purchased during the second quarter of 2011.

On May 27, 2010, the Company closed a \$120.0 million securitization adding to the Company's existing lease receivables. The securitization, LEAF Funding 3 (referred to above), issued equipment-backed securitized notes at a weighted average discounted price of 93.6%. At closing, \$14.4 million of proceeds were placed into a restricted account. The Company had \$21.0 million of equity invested in LEAF Funding 3 as of December 31, 2010. In January 2011, as described above, the Company contributed its interest in LEAF Funding 3 to LCC.

On March 5, 2010, the Company entered into agreements with Lease Equity Appreciation Fund II, L.P. ("LEAF II"), pursuant to which the Company provided an \$8.0 million credit facility to LEAF II, of which all \$8.0 million has been funded. The credit facility had a one year term at 12% per year, payable quarterly, and was secured by all the assets of LEAF II Receivables Funding, LLC ("LEAF Funding II"), including its entire ownership interest in LEAF II. The Company received a 1% origination fee in connection with the establishment of the facility. The facility originally matured on March 3, 2011 and was extended until September 3, 2011 with a 1% extension fee paid on the outstanding loan balance. On June 3, 2011, the note was further amended to extend the maturity to February 15, 2012 and to decrease the interest rate from 12% to 10% per annum resulting in a troubled-debt restructuring under current accounting guidance. The loan amount outstanding at September 30, 2011 was \$6.9 million.

Relationship with Apidos Capital Management. Apidos Capital Management LLC (“ACM”), a subsidiary of Resource America, manages internally and externally originated bank loan assets on the Company’s behalf. On February 24, 2011, the Company announced that it had entered into a definitive agreement that will expand its management in broadly syndicated bank loans. A subsidiary of the Company agreed to purchase 100% of the ownership interests in Churchill Pacific Asset Management LLC (“CPAM”) from Churchill Financial Holdings LLC (“Churchill”) for \$22.5 million. Through CPAM, the Company will be entitled to collect senior, subordinated and incentive fees related to five Collateralized Loan Obligations (“CLOs”) totaling approximately \$1.9 billion in assets managed by CPAM. CPAM will be assisted by ACM, in managing the five CLOs. CPAM subsequently changed its name to Resource Capital Asset Management (“RCAM”). ACM will be entitled to 10% of all subordinated fees and 5% of the incentive fees received by RCAM. For the period from acquisition through September 30, 2011, ACM was paid \$676,000 from subordinated fees received.

Relationship with Resource Real Estate. Resource Real Estate, a subsidiary of Resource America, originates, finances and manages the Company’s commercial real estate loan portfolio, including whole loans, A notes, B notes, mezzanine loans, and investments in real estate. The Company reimburses Resource Real Estate for loan origination costs associated with all loans originated. At September 30, 2011 and December 31, 2010, the Company had no indebtedness to Resource Real Estate for loan origination costs in connection with the Company’s commercial real estate loan portfolio.

The Company purchased a membership interest in RRE VIP Borrower, LLC (an unconsolidated VIE that holds the Company’s interests in a real estate joint venture) from Resource America at book value. This joint venture, which is structured as a credit facility with Värde Investment Partners, LP acting as lender, finances the acquisition of distressed properties and mortgage loans and has the objective of repositioning both the directly-owned properties and the properties underlying the mortgage loans to enhance their value. The Company acquired the membership interests for \$2.1 million. The agreement requires the Company to contribute 3% to 5% (depending on the asset agreement) of the total funding required for each asset acquisition on a monthly basis. Resource Real Estate acts as asset manager of the venture and receives a monthly asset management fee equal to 1% of the combined investment calculated as of the last calendar day of the month. The investment balance of \$5.1 million and \$5.2 million at September 30, 2011 and December 31, 2010, respectively, is recorded as an investment in unconsolidated entities on the Company’s consolidated balance sheet using the equity method.

On January 15, 2010, the Company loaned \$2.0 million to Resource Capital Partners, Inc. (“RCP”), a wholly-owned subsidiary of the Manager, so that it could acquire a 5.0% limited partnership interest in Resource Real Estate Opportunity Fund, L.P. (“RRE Opportunity Fund”). RCP is the general partner of the RRE Opportunity Fund. The loan is secured by RCP’s partnership interest in the RRE Opportunity Fund. The promissory note bears interest at a fixed rate of 8.0% per annum on the unpaid principal balance. In the event of default, interest will accrue and be payable at a rate of 5.0% in excess of the fixed rate. Interest is payable quarterly. Mandatory principal payments must also be made to the extent distributable cash or other proceeds from the partnership represent a return of RCP’s capital. The loan matures on January 14, 2015, and RCP has options to extend the loan for two additional 12-month periods. Principal payments of \$234,000 were made during the nine months ended September 30, 2011. The loan balance was \$1.7 million at September 30, 2011.

On June 21, 2011, the Company entered into a joint venture with an unaffiliated third party to form CR SLH Partners, L.P. (“SLH Partners”) to purchase a defaulted promissory note secured by a mortgage on a multi-family apartment building (“School Lane House”). The Company purchased a 10% equity interest in the venture and also loaned SLH Partners \$7.0 million to finance the project secured by the first mortgage lien on the property. The Company received a commitment fee equal to 1.0% of the loan amount at the commencement of the loan. The loan matures on September 21, 2012 and bears interest at a fixed rate of 10.0% per annum on the unpaid principal balance, payable monthly. In the event of default, interest will accrue and be payable at a rate of 5.0% in excess of the fixed rate. Resource Real Estate Management, LLC (“RREM”), an affiliate of the Company, was appointed as asset manager of the venture. RREM will perform lease review and approval, debt service collection, loan workout, foreclosure, disposition and/or entitlements and permitting, as applicable. RREM will also be responsible for engaging third parties to perform day-to-day property management, property leasing, rent collection, maintenance, and capital improvements. RREM will receive an annual asset management fee equal to 2.0% of the gross receipts generated from the property.

On August 9, 2006, the Company, through its subsidiary, RCC Real Estate, originated a loan to Lynnfield Place, a multi-family apartment building, in the amount of \$22.4 million. The loan was then purchased by RREF CDO 2006-1. The loan which matures on May 9, 2018, carries an interest rate of LIBOR plus a spread of 3.50% with a LIBOR floor of 2.50%. On June 14, 2011, RCC Real Estate took the deed to the property by agreement with the third-party borrower in lieu of foreclosure. The loan was kept outstanding and continues to be used as collateral in RREF CDO 2006-1. RREM was appointed as asset manager as of August 1, 2011. RREM will perform lease review and approval, debt service collection, loan workout, foreclosure, disposition and/or entitlements and permitting, as applicable. RREM will also be responsible for engaging third parties to perform day-to-day property management, property leasing, rent collection, maintenance, and capital improvements. RREM is entitled to a monthly asset management fee equal to 4.0% of the gross receipts generated from the property.

On February 28, 2007, the Company, through its subsidiary, RCC Real Estate, originated a loan to Via de la Paz in the amount of \$12.15 million. The loan was then purchased into RREF CDO 2007-1 on June 26, 2007. The loan which matures on March 5, 2012, can be extended through March 5, 2017 and carries an interest rate of LIBOR plus a spread of 3.50% with a LIBOR floor of 1.50%. On June 24, 2011, RCC Real Estate took the deed to the property from the borrower in lieu of foreclosure. The loan was kept outstanding and continues to be used as collateral in RREF CDO 2007-1. An unaffiliated third party has been appointed as the manager of the property.

On August 1, 2011, the Company, through its subsidiary, RCC Real Estate, entered into an agreement to purchase Whispertree Apartments, a multi-family apartment building, for \$18.1 million. RREM was appointed as asset manager. RREM will perform lease review and approval, debt service collection, loan workout, foreclosure, disposition and/or entitlements and permitting, as applicable. RREM will also be responsible for engaging third parties to perform day-to-day property management, property leasing, rent collection, maintenance, and capital improvements. RREM is entitled to a monthly asset management fee equal to the greater of 4.0% of the gross receipts generated from the property or \$12,600.

Relationship with The Bancorp. On March 14, 2011, the Company paid Bancorp a loan commitment fee in the amount of \$31,500 in connection with Bancorp's commitment to establish a certain credit facility for the benefit of the Company. On July 7, 2011, the Company and RCC Real Estate entered into a \$10.0 million revolving credit facility with Bancorp. The facility will provide bridge financing for up to five business days which will enable the Company and RCC Real Estate to fund real estate loans to third parties prior to their sale to the Company's CRE CDOs. The facility is evidenced by a Revolving Judgment Note and Security Agreement by and among the borrowers and Bancorp entered into July 7, 2011. The facility is secured by a Securities Pledge Control Agreement by which the Company pledged \$40.0 million of the Class A-1 notes of RREF CDO 2006-1 which are owned by RCC Real Estate. The note becomes due and payable on September 30, 2012.

Relationship with Law Firm. Until 1996, Edward E. Cohen, a director who was the Company's Chairman from its inception until November 2009, was of counsel to Ledgewood, P.C., a law firm. In addition, one of the Company's executive officers, Jeffrey F. Brotman, was employed by Ledgewood until 2007. Mr. E. Cohen receives certain debt service payments from Ledgewood related to the termination of his affiliation with Ledgewood and its redemption of his interest in the firm. Mr. Brotman also receives certain debt service payments from Ledgewood related to the termination of his affiliation with the firm. For the three and nine months ended September 30, 2011, the Company

paid Ledgewood \$61,000 and \$217,000, respectively, in connection with legal services rendered to the Company as compared to \$22,000 and \$233,000 for the three and nine months ended September 30, 2010, respectively.

NOTE 15 – DISTRIBUTIONS

In order to qualify as a REIT, the Company must currently distribute at least 90% of its taxable income. In addition, the Company must distribute 100% of its taxable income in order not to be subject to corporate federal income taxes on retained income. The Company anticipates it will distribute substantially all of its taxable income to its stockholders. Because taxable income differs from cash flow from operations due to non-cash revenues or expenses (such as provisions for loan and lease losses and depreciation), in certain circumstances, the Company may generate operating cash flow in excess of its distributions or, alternatively, may be required to borrow to make sufficient distribution payments.

The Company's 2011 dividends will be determined by the Company's board of directors which will also consider the composition of any dividends declared, including the option of paying a portion in cash and the balance in additional common shares. Generally, dividends payable in stock are not treated as dividends for purposes of the deduction for dividends, or as taxable dividends to the recipient. However, the Internal Revenue Service, in Revenue Procedures 2009-15 and 2010-12, has given guidance with respect to certain stock distributions by publicly traded REITs. These Revenue Procedures apply to distributions made on or after January 1, 2008 and declared with respect to a taxable year ending on or before December 31, 2011. They provide that publicly-traded REITs can distribute stock to satisfy their REIT distribution requirements if stated conditions are met. These conditions include that at least 10% of the aggregate declared distributions be paid in cash and the shareholders be permitted to elect whether to receive cash or stock, subject to the limit set by the REIT on the cash to be distributed in the aggregate to all shareholders. The Company did not use these Revenue Procedures with respect to any distributions for its 2009 and 2010 taxable years or the first nine months of its 2011 taxable year, but may do so for distributions with respect to the remainder of 2011.

On September 16, 2011, the Company declared a quarterly distribution of \$0.25 per share of common stock, \$19.2 million in the aggregate, which was paid on October 27, 2011 to stockholders of record on September 30, 2011.

On June 16, 2011, the Company declared a quarterly distribution of \$0.25 per share of common stock, \$18.6 million in the aggregate, which was paid on July 27, 2011 to stockholders of record on June 30, 2011.

On March 18, 2011, the Company declared a quarterly distribution of \$0.25 per share of common stock, \$17.6 million in the aggregate, which was paid on April 28, 2011 to stockholders of record on March 31, 2011.

NOTE 16 – FAIR VALUE OF FINANCIAL INSTRUMENTS

In analyzing the fair value of its investments accounted for on a fair value basis, the Company follows the fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The Company determines fair value based on quoted prices when available or, if quoted prices are not available, through the use of alternative approaches, such as discounting the expected cash flows using market interest rates commensurate with the credit quality and duration of the investment. The hierarchy followed defines three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets and liabilities that the reporting entity has the ability to access at the measurement date.

Edgar Filing: Resource Capital Corp. - Form 10-Q

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset and liability or can be corroborated with observable market data for substantially the entire contractual term of the asset or liability.

Level 3 - Unobservable inputs that reflect the entity's own assumptions about the assumptions that market participants would use in the pricing of the asset or liability and are consequently not based on market activity, but rather through particular valuation techniques.

NOTE 16 – FAIR VALUE OF FINANCIAL INSTRUMENTS – (Continued)

The determination of where an asset or liability falls in the hierarchy requires significant judgment. The Company evaluates its hierarchy disclosures each quarter; depending on various factors, it is possible that an asset or liability may be classified differently from quarter to quarter. However, the Company expects that changes in classifications between levels will be rare.

Certain assets and liabilities are measured at fair value on a recurring basis. The following is a discussion of these assets and liabilities as well as the valuation techniques applied to each for fair value measurement.

The Company reports its investment securities available-for-sale at fair value. To determine fair value, the Company uses two methods, either a dealer quote or an internal valuation model, depending upon the current level of market activity.

For securities purchased with higher levels of market activity, the Company obtains a quote from a dealer, which typically will be the dealer who sold the Company the security. The Company has been advised that, in formulating their quotes, dealers may use recent trades in the particular security, if any, market activity in similar securities, if any, or internal valuation models. These quotes are non-binding. Based on how dealers develop their quotes, market liquidity and levels of trading, the Company categorizes these investments as either Level 2 or Level 3 in the fair value hierarchy. The Company evaluates the reasonableness of the quotes it receives by applying its own valuation models. If there is a material difference between a quote the Company receives and the value indicated by its valuation models, the Company will evaluate the difference. As part of that evaluation, the Company will discuss the difference with the dealer, who may revise its quote based upon these discussions. Alternatively, the Company may revise its valuation models.

For investment securities available-for-sale with lower levels of market activity, the Company determines fair value based on taking a weighted average of the following three measures:

dealer quotes, as described above;

quotes on more actively-traded, higher-rated securities issued in a similar time period, adjusted for differences in rating and seniority; and

the value resulting from an internal valuation model using an income approach based upon an appropriate risk-adjusted yield, time value and projected losses using default assumptions based upon an historical analysis of underlying loan performance.

The Company reports its investment securities, trading at fair value, which is based on a dealer quotes or bids which are validated using an income approach utilizing appropriate prepayment, default and recovery rates. Any changes in fair value are recorded on the Company's results of operations as net unrealized gain on investment securities, trading.

Derivatives (interest rate swaps and interest rate caps), both assets and liabilities, are reported at fair value, and are valued by a third-party pricing agent using an income approach with models that use, as their primary inputs, readily observable market parameters. This valuation process considers factors including interest rate yield curves, time

value, credit factors and volatility factors. Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by the Company and its counterparties. The Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments have become significant to the overall valuation of some of its derivatives. As a result, the Company transferred derivatives with credit valuation adjustments to Level 3 in the fair value hierarchy from Level 2 in the fair value hierarchy as of December 31, 2010.

The Company had \$4.6 million of losses included in earnings during the nine months ended September 30, 2011 due to the other-than-temporary impairment charge of one asset in June 2011. The Company had \$4.5 million and \$10.5 million of losses included in earnings during the three and nine months ended September 30, 2010, respectively, due to other-than-temporary impairment charges with respect to one and three assets during the three and nine months ended September 30, 2010. These losses are included in the consolidated statement of operations as net impairment losses recognized in earnings.

Loans held for sale consist of bank loans and commercial real estate loans (“CRE loans”) identified for sale due to credit concerns. Interest on loans held for sale is recognized according to the contractual terms of the loan and included in interest income on loans. The fair value of bank loans held for sale and impaired bank loans is based on what secondary markets are currently offering for these loans. As such, the Company classifies these loans as nonrecurring Level 2. For the Company’s CRE loans where there is no market, fair value is measured using discounted cash flow analysis and other valuation techniques and these loans are classified as nonrecurring Level 3. The amount of nonrecurring fair value losses for impaired loans for the three and nine months ended September 30, 2011 was \$442,000 and \$6.0 million, respectively, as compared to \$1.5 million and \$31.1 million for the three and nine months ended September 30, 2010, respectively. The amount is included in the consolidated statements of income as provision for loan and lease losses.

Property available-for-sale, is estimated based on recent sales prices of prior sales of similar condominium units in the property and the appraised value of a similar condominium unit in the property less selling costs.

The following table summarizes the Company’s financial assets and liabilities measured at fair value on a nonrecurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value, as follows (in thousands):

NOTE 17– INTEREST RATE RISK AND DERIVATIVE INSTRUMENTS

At September 30, 2011, the Company had 18 interest rate swap contracts outstanding whereby the Company paid an average fixed rate of 4.66% and received a variable rate equal to one-month LIBOR. The aggregate notional amount of these contracts was \$172.5 million at September 30, 2011. The counterparties for the Company's designated interest rate hedge contracts are Credit Suisse International and Wells Fargo Bank, National Association, with which the Company has master netting agreements.

At December 31, 2010, the Company had 10 interest rate swap contracts outstanding whereby the Company paid an average fixed rate of 5.17% and received a variable rate equal to one-month LIBOR. The aggregate notional amount of these contracts was \$166.8 million at December 31, 2010. In addition, the Company had one interest rate cap agreement with an aggregate notional amount of \$14.8 million outstanding, as described above.

The estimated fair value of the Company's interest rate swaps was (\$16.2) million and (\$13.3) million as of September 30, 2011 and December 31, 2010, respectively. The Company had aggregate unrealized losses of \$17.4 million and \$14.7 million on the interest rate swap agreements as of September 30, 2011 and December 31, 2010, respectively, which is recorded in accumulated other comprehensive loss. In connection with the August 2006 close of RREF CDO 2006-1, the Company realized a swap termination loss of \$119,000, which is being amortized over the term of RREF CDO 2006-1. The amortization is reflected in interest expense in the Company's consolidated statements of income. In connection with the September 2007 close of RREF CDO 2007-1, the Company realized a swap termination gain of \$2.6 million, which is being amortized over the term of RREF CDO 2007-1. The accretion is reflected in interest expense in the Company's consolidated statements of income. In connection with the termination of a \$53.6 million swap related to RREF CDO 2006-1 during the nine months ended September 30, 2008, the Company realized a swap termination loss of \$4.2 million, which is being amortized over the term of a new \$45.0

million swap. The amortization is reflected in interest expense in the Company's consolidated statements of income. In connection with the payoff of a fixed-rate commercial real estate loan during the three months ended September 30, 2008, the Company terminated a \$12.7 million swap and realized a \$574,000 swap termination loss, which is being amortized over the term of the terminated swap. The amortization is reflected in interest expense in the Company's consolidated statements of income.

NOTE 18 – SUBSEQUENT EVENTS

The Company has evaluated subsequent events through the filing of this form and determined that there have not been any events that have occurred that would require adjustments to or disclosures in the unaudited consolidated financial statements, except for the following.

The Company received \$5.4 million in proceeds from the issuance of 1,004,359 shares of common stock through the Company's dividend reinvestment plan in November 2011.

On October 13, 2011, the Company closed Apidos CLO VIII, a \$352.3 million transaction that provided financing for bank loans. The investments held by Apidos CLO VIII collateralize \$317.6 million of senior notes issued by the CLO vehicle. The Company purchased a \$15.0 million equity interest, representing 43% of the outstanding preference shares. ACM entered into an agreement to manage the CLO (see Note 16).

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION
AND RESULTS OF OPERATIONS

The following discussion provides information to assist you in understanding our financial condition and results of operations. This discussion should be read in conjunction with our consolidated financial statements and related notes appearing elsewhere in this report. This discussion contains forward-looking statements. Actual results could differ materially from those expressed in or implied by those forward-looking statements. Please see "Forward-Looking Statements" and "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2010 for a discussion of certain risks, uncertainties and assumptions associated with those statements.

Overview

We are a specialty finance company that focuses primarily on commercial real estate and commercial finance. We are organized and conduct our operations to qualify as a REIT under Subchapter M of the Internal Revenue Code of 1986, as amended. Our objective is to provide our stockholders with total returns over time, including quarterly distributions and capital appreciation, while seeking to manage the risks associated with our investment strategy. We invest in a combination of real estate-related assets and, to a lesser extent, higher-yielding commercial finance assets. We have financed a substantial portion of our portfolio investments through borrowing strategies seeking to match the maturities and repricing dates of our financings with the maturities and repricing dates of those investments, and have sought to mitigate interest rate risk through derivative instruments.

We are externally managed by Resource Capital Manager, Inc., or the Manager, a wholly-owned indirect subsidiary of Resource America, Inc. (NASDAQ: REXI), or Resource America, a specialized asset management company that uses industry-specific expertise to evaluate, originate, service and manage investment opportunities through our commercial real estate, commercial finance and financial fund management operating segments. As of June 30, 2011, Resource America managed approximately \$13.4 billion of assets in these sectors. To provide its services, the Manager draws upon Resource America, its management team and their collective investment experience.

We generate our income primarily from the spread between the revenues we receive from our assets and the cost to finance the purchase of those assets and from hedging interest rate risks. We generate revenues from the interest and fees we earn on our whole loans, A notes, B notes, mezzanine debt, commercial mortgage-backed securities, or CMBS, bank loans, payments on lease receivables, other asset-backed securities, or ABS, real estate rental income, and the management of externally originated bank loans. Historically, we have used a substantial amount of leverage to enhance our returns and we have financed each of our different asset classes with different degrees of leverage. The cost of borrowings to finance our investments is a significant part of our expenses. Our net income depends on our ability to control these expenses relative to our revenue. In our bank loans, CMBS, lease receivables, and other ABS, we historically have used warehouse facilities as a short-term financing source and collateralized debt obligations, or CDOs, and, to a lesser extent, other term financing as long-term financing sources. In our commercial real estate loan portfolio, we historically have used repurchase agreements as a short-term financing source, and CDOs and, to a lesser extent, other term financing as long-term financing sources. Our other term financing has consisted of long-term match-funded financing provided through long-term bank financing and asset-backed financing programs, depending upon market conditions and credit availability.

Our operations continue to feel the impact of the problems affecting the commercial real estate industry particularly with respect to the real estate portfolio investments we made between 2005 and 2008 that are still held by us. We refer to these investments as our legacy portfolio investments. These problems have also affected a number of our commercial real estate borrowers and, with respect to 28 of our commercial real estate loans, caused us to enter into loan modifications or convert previous loan interest into owned real estate. We have increased our allowance for loan

and lease losses to reflect the effect of these conditions on our borrowers and have recorded both temporary and other-than-temporary impairments in the market valuation of the CMBS and other ABS in our investment portfolio. While we believe we have appropriately valued the assets in our investment portfolio at September 30, 2011, we cannot assure you that further impairments will not occur or that our assets will otherwise not be adversely affected by market conditions.

The events occurring in the credit markets have impacted our financing and investing strategies and, as a result, our ability to originate new investments and to grow. The market for securities issued by new securitizations collateralized by assets similar to those in our investment portfolio had largely disappeared until mid 2010. During 2010, we began to see a loosening in the previously frozen credit markets and, in May 2010, we closed a new \$120.0 million securitization on our equipment leasing portfolio. In addition, in February 2011, we entered into a \$100.0 million, two-year term facility with Wells Fargo Bank, National Association, to purchase CMBS. In June 2011 we obtained a warehouse facility to finance the purchase of bank loans with Citibank N.A. through Apidos CLO VIII, Ltd, or Apidos CLO VIII. More recently, we entered into a \$10.0 million revolving credit facility with The Bancorp Bank. We continue to engage in discussions with potential financing sources about providing commercial real estate term financing to augment and cautiously grow our loan origination platform. We caution investors that even if credit through these markets becomes more available, we may not be able to obtain economically favorable terms.

[\(Back to Index\)](#)

[\(Back to Index\)](#)

Credit market and economic conditions during the past three years have also resulted in a significant number of loan modifications, particularly in our commercial real estate, or CRE loans. Borrowers have experienced deterioration in the performance of the properties we have financed or delays in implementing their business plans. In order to assist our borrowers in effectuating their business plans, including the leasing and repositioning of the underlying assets, we have been willing to enter into loan modifications that would adapt our financing to their particular situations. The most common loan modifications have included term extensions and modest interest rate reductions through the lowering of London Interbank Offered Rate, or LIBOR, floors, offset by increased interest rate spreads over LIBOR. In exchange for the loan modifications, we have received partial principal pay-downs, new equity investment commitments in the properties from the borrowers or their principals, additional fees and other structural improvements and credit enhancements to the loans. Since the beginning of 2008 through September 30, 2011, we have modified 28 commercial real estate, or CRE, loans. Management determined that two of these modifications were due to the financial distress of the borrower and, accordingly, qualified as a troubled-debt restructuring. We expect that we may have more CRE loan modifications in the future.

As economic conditions improve and we cautiously access the credit markets on acceptable terms, our principal strategies are to manage our liquidity and originate new assets primarily through capital recycling as loan payoffs and paydowns occur and through existing capacities within our completed securitizations and through the facilities provided by Wells Fargo Bank and Bancorp Bank. The following is a summary of repayments we received on our consolidated CDOs during the nine months ended September 30, 2011:

\$33.0 million of commercial real estate loan principal repayments;

\$56.7 million of commercial real estate loan sale proceeds;

\$312.5 million of bank loan principal repayments; and

\$71.1 million of bank loan sale proceeds.

We have used recycled capital in our CRE CDO and bank loan CDO structures to make new investments at discounts to par. As a result, we expect that the new investments will produce additional income as the discounts are accreted through interest income. From the net discounts of approximately \$13.9 million and \$31.6 million, we expect to recognize income of approximately \$3.2 million and \$14.2 million in our CRE CDO and bank loan CDO portfolio, respectively, in 2011.

During 2010, we invested \$5.0 million through Resource TRS, Inc. or Resource TRS, our taxable REIT subsidiary, in structured finance vehicles, principally CDO equity, which we have classified as trading securities. Because of the success of that investment, we committed an additional \$8.0 million to it in the March 2011 quarter. Also, in January 2011, we discontinued directly investing in our lease receivable portfolio investments and, instead, made a preferred stock investment in LEAF Commercial Capital, Inc, or LCC, a recently formed equipment leasing enterprise and an indirect subsidiary of Resource America, through cash capital contributions and a contribution of our lease portfolio equity and debt interests. In February 2011, we purchased a company that manages \$1.9 billion of bank loan assets and are entitled to collect senior, subordinated and incentive management fees subject to a sub-management fee we pay to an affiliate of our Manager to whom we contracted the operational management of the bank loan assets. Beginning in October 2010 through September 2011, we have underwritten 11 new CRE loans for a total of \$125.0 million. We also purchased 24 newly underwritten CMBS for \$76.1 million in the nine months ended September 30, 2011 in conjunction with the Wells Fargo facility. In addition, during the nine months ended September 30, 2011, through Apidos CLO VIII we purchased \$15.0 million of bank loans provided by a warehouse facility from Citibank N.A. Based upon these recent asset purchases and credit market events, we believe that we will be able to invest a significant portion of our available unrestricted and restricted cash balances and, as a result,

increase our revenues in 2011. Through the first nine months of 2011, we made significant progress to that end; we experienced an increase in our revenues of over \$4.3 million or 22% for the three months ended September 30, 2011 versus the three months ended September 30, 2010, and a \$17.1 million, or 35% increase for the nine months ended September 30, 2011 versus the nine months ended September 30, 2010. During the fourth quarter of 2011, we expect to invest the majority of the remaining cash in our CRE CDOs, which stood at \$13.8 million and \$82.1 million (\$95.9 million combined) in Resource Real Estate Funding CDO 2006-1, or RREF CDO 2006-1, and Resource Real Estate Funding CDO 2007-1, or RREF CDO 2007-1, respectively. These expected new investments, at weighted average rates which we believe will range from 6% to 7%, should further increase our revenues since the cash accumulated from loan sales, payoffs and paydowns has earned only nominal returns in temporary overnight investments, which we discuss in interest income - other.

As of September 30, 2011, we had invested 65% of our portfolio in CRE assets, 30% in commercial finance, and 5% in other investments. As of December 31, 2010, we had invested 77% of our portfolio in CRE assets, 21% in commercial finance, and 2% in other investments.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of our assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to the provision for credit losses, recovery of deferred tax assets, fair value of investment securities, potential impairment of intangible assets and goodwill, guarantees and certain accrued liabilities. We base our estimates on historical experience and on various other assumptions that we believe reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

For a complete discussion of our critical accounting policies and estimates, see the discussion of our Annual Report on Form 10-K for the year ended December 31, 2010 under “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies and Estimates.”

Results of Operations – Three and Nine Months Ended September 30, 2011 as compared to Three and Nine Months Ended September 30, 2010

Our net income for the three and nine months ended September 30, 2011 was \$14.9 million, or \$0.20 per share (basic and diluted) and \$37.3 million, or \$0.55 per share-basic (\$0.54 per share-diluted), respectively, as compared to net income of \$14.1 million, or \$0.27 per share (basic and diluted) and \$28.8 million, or \$0.64 per share (basic and diluted) for the three and nine months ended September 30, 2010, respectively.

Aggregate interest income decreased \$3.1 million (11%) and increased \$1.2 million (2%) to \$26.1 million and \$76.6 million for the three and nine months ended September 30, 2011, respectively from \$29.2 million and \$75.4 million for the three and nine months ended September 30, 2010, respectively. We attribute these changes to the following:

Interest Income from Loans. Aggregate interest income from loans decreased \$734,000 (4%) and increased \$3.6 million (6%) to \$18.9 million and \$60.7 million for the three and nine months ended September 30, 2011, respectively from \$19.6 million and \$57.1 million for the three and nine months ended September 30, 2010, respectively.

Bank loans generated \$11.0 million and \$38.5 million of interest income for the three and nine months ended September 30, 2011, respectively, as compared to \$11.5 million and \$31.8 million for the three and nine months ended September 30, 2010, respectively, a decrease of \$499,000 (4%) and an increase of \$6.7 million (21%), respectively. There was a decrease in the weighted average balance of \$644.8 million and \$637.6 million for the three and nine months ended September 30, 2011, respectively as compared to \$672.1 million and \$704.2 million for the three and nine months ended September 30, 2010.

The decrease for the three months ended September 30, 2011 and the increase for the nine months ended September 30, 2011 resulted primarily from the changes in the weighted average yield primarily as a result of the timing of paydowns and payoffs which cause us to accelerate discounts into income. The bank loan market had increased prepayment speeds beginning in the third quarter of 2010 which have slowed considerably since the second quarter of 2011. The decrease in accretion for the three months ended September 30, 2011 and was partially offset by an increase in the weighted average spread as a result of the change in the mix of assets. This increase in weighted spread attributed to the increase in interest income for the nine months ended September 30, 2011.

[\(Back to Index\)](#)

CRE loans generated \$7.9 million and \$22.2 million of interest income for the three and nine months ended September 30, 2011, respectively, as compared to \$8.1 million and \$25.3 million for the three and nine months ended September 30, 2010, respectively, decreases of \$235,000 (3%) and \$3.1 million (12%), respectively. These decreases are a result of the following:

the decrease for the three and nine months ended is primarily related to the decrease of \$27.4 million and \$66.6 million in weighted average balance to \$644.8 million and \$637.6 million for the three and nine months ended September 30, 2011, respectively from \$672.1 million and \$704.2 million for the three and nine months ended September 30, 2010, respectively as a result of the payoff and paydown of \$35.7 million par of loans and sales of \$73.6 million par value of loan from October 2010 through September 2011. We began to reinvest this restricted cash beginning during the fourth quarter of 2010, with the majority of it being reinvested during the second and third quarter of 2011; and

a decrease in the weighted average yield for the three months ended September 30, 2011 as a result of lower yields on new investments as compared to the investments that had paid down and paid off. This decrease was partially offset for the nine months ended September 30, 2011 as a result of unrecoverable interest on the mezzanine tranche of an impaired loan.

Interest Income from Securities. Aggregate interest income from securities increased \$247,000 (8%) and \$193,000 (2%) to \$3.4 million and \$9.1 million for the three and nine months ended September 30, 2011, respectively, from \$3.1 million and \$8.9 million for the three and nine months ended September 30, 2010, respectively. The changes in interest income from securities resulted principally from the following:

Interest income from other ABS increased \$477,000 (422%) and \$845,000 (552%) to \$590,000 and \$998,000 for the three and nine months ended September 30, 2011, respectively, from \$113,000 and \$153,000 for the three and nine months ended September 30, 2010, respectively. Interest income from other ABS resulted principally from residential mortgage-backed securities, or RMBS, positions purchased as part of our trading portfolio beginning in the fourth quarter of 2010.

The increase in interest income from other ABS was partially offset by a decrease in interest income from CMBS-private placement which decreased \$257,000 (10%) and \$767,000 (10%) to \$2.4 million and \$6.9 million for the three and nine months ended September 30, 2011, respectively, from \$2.6 million and \$7.7 million for the three and nine months ended September 30, 2010, respectively. We attribute the decrease to a decrease in the weighted average yield to 5.72% and 5.62% for the three and nine months ended September 30, 2011, respectively, from 7.26% and 7.33% for the three and nine months ended September 30, 2010, respectively, primarily as a result of a decrease of \$423,000 and \$880,000 in accretion income to \$747,000 and \$2.6 million during the three and nine months ended September 30, 2011, respectively, from \$1.2 million and \$3.4 million, respectively during the three and nine months ended September 30, 2010. The decrease in accretion income resulted from the impairment of \$34.0 million of CMBS, at par, and with associated discounts of \$2.1 million during the last quarter of 2009 through the second quarter of 2011 and the elimination of accretion of those discounts into income. We no longer recognize discount accretion after we recognize impairment on securities.

The decrease in weighted average yield was partially offset by an increase in the weighted average balance of assets of \$18.8 million and \$23.4 million to \$163.2 million and \$162.4 million for the three and nine months ended September 30, 2011, respectively, from \$144.4 million and \$139.0 million for the three and nine months ended September 30, 2010, respectively principally as a result of the purchase of \$98.4 million par value of assets during the nine months ended September 30, 2011, and during the last half of the year ended December 31, 2010. These purchases were partially offset by the impairment and subsequent non-payment of \$42.1 million par value of assets during the fourth quarter of 2009 through the second quarter of 2011.

Interest Income – Leasing. Our equipment leasing portfolio generated \$4.6 million and \$6.8 million of interest income for the three and nine months ended September 30, 2010, respectively. There was no such income for the three and nine months ended September 30, 2011 as a result the transfer of our leasing portfolio into LCC as part of our preferred equity investment in LCC. Our restructured investment in LCC, however, generated dividend income, as discussed in “- Other Revenue.”

Interest Income – Other. Aggregate interest income-other increased \$2.0 million (105%) and \$4.2 million (158%) to \$3.9 million and \$6.8 million for the three and nine months ended September 30, 2011, respectively, as compared to \$1.9 million and \$2.7 million for the three and nine months ended September 30, 2010, respectively, as a result of the following:

Interest income from preference payments on structured notes generated \$3.8 million and \$6.6 million for the three and nine months ended September 30, 2011, respectively, as compared to \$1.5 million and 1.6 million for the three and nine months ended September 30, 2010, respectively. These payments, which are related to our trading portfolio program with Resource Capital Markets, vary from period to period and are based on cash flows from the underlying assets rather than on a contractual interest rate.

Interest Expense – Three and Nine Months Ended September 30, 2011 as compared to Three and Nine Months Ended September 30, 2010

Aggregate interest expense decreased \$2.9 million (29%) and \$5.8 million (21%) to \$7.2 million and \$21.2 million for the three and nine months ended September 30, 2011, respectively, from \$10.1 million and \$27.0 million, respectively, for the three and nine months ended September 30, 2010, respectively. We attribute this decrease to the following:

Interest expense on bank loans was \$2.3 million and \$6.9 million for the three and nine months ended September 30, 2011, respectively, as compared to \$2.7 million and \$7.2 million for the three and nine months ended September 30,

2010, respectively, decreases of \$311,000 (12%) and \$272,000 million (4%), respectively. These decreases resulted primarily from a decrease in the weighted average yield on this debt to 0.99% and 1.00% for the three and nine months ended September 30, 2011, respectively, from 1.15% and 1.05% for the three and nine months ended September 30, 2010, respectively, primarily due to decreases in LIBOR floors, which is a reference index for the rates payable on most of this debt. This decrease was partially offset by an increase in the weighted average balance of the related financings of \$27.0 million and \$9.1 million to \$933.0 million and \$915.1 million for the three and nine months ended September 30, 2011, respectively, as compared to \$906.0 million and \$906.0 million for the three and nine months ended September 30, 2010, respectively, due to the financing of assets on our warehouse line for a new CLO which closed in October 2011.

Interest expense on commercial real estate loans was \$1.6 million and \$4.7 million for the three and nine months ended September 30, 2011, respectively, as compared to \$1.9 million and \$6.3 million for the three and nine months ended September 30, 2010, respectively, decreases of \$361,000 (19%) and \$1.6 million (25%), respectively. These decreases resulted primarily from a decrease in the weighted average yield due to decreased amortization of financing costs as a result of fewer note repurchases during the three and nine months ended September 30, 2011 as compared to the three and nine months ended September 30, 2010. In addition, there was a decrease in the weighted average balance of the related financings of \$21.0 million and \$49.5 million to \$500.5 million and \$502.7 million for the three and nine months ended September 30, 2011, respectively, as compared to \$521.6 million and \$552.2 million for the three and nine months ended September 30, 2010, respectively, primarily due to the repurchase of \$91.4 million of CDO notes in 2010 and \$10.0 million of CDO notes in 2011.

[\(Back to Index\)](#)

[\(Back to Index\)](#)

Interest expense on leasing was \$2.4 million and \$3.5 million for the three and nine months ended September 30, 2010, respectively. There was no such expense for the three and nine months ended September 30, 2011 as a result of the transfer of our leasing portfolio into LCC as a preferred equity investment and the simultaneous transfer of the related debt to Resource America.

Interest expense on hedging instruments decreased \$76,000 (4%) and \$937,000 (13%) to \$2.0 million and \$6.4 million for the three and nine months ended September 30, 2011, respectively, as compared to \$2.1 million and \$7.3 million for the three and nine months ended September 30, 2010, respectively. The decrease in the hedging expense is due to a change in the composition of swaps we held on our books during the three and nine months ended September 30, 2011 as compared to 2010 as a result of the maturities of hedges related to our CRE portfolio in 2010 and the purchase of new hedges relating to securities we purchased using the Wells Fargo repurchase facility during 2011.

Other Revenue

The following table sets forth information relating to our other revenue incurred for the periods presented (in thousands):

Rental income was \$1.6 million and \$1.8 million for the three and nine months ended September 30, 2011 which is related to our property available-for-sale which we acquired in September 2010 and our investments in real estate which we acquired in June 2011 and September 2011.

We received dividend income of \$926,000 and \$2.5 million for the three and nine months ended September 30, 2011, respectively, from our January 2011 investment in LCC. There was no such investment at September 30, 2010.

We generated fee income of \$2.0 million and \$5.9 million for the three and nine months ended September 30, 2011, respectively, which is related to our February 2011 acquisition of a company that manages bank loan assets that entitles us to collect senior, subordinated, and incentive fees related to five collateralized loan obligation issuers, or CLOs. We had no such investment or income at September 30, 2010.

Management fees – related party decreased \$1.3 million (29%) and \$1.2 million (12%) to \$3.1 million and \$8.6 million for the three and nine months ended September 30, 2011, respectively, as compared to \$4.4 million and \$9.8 million for the three and nine months ended September 30, 2010, respectively. These amounts represent compensation in the form of base management fees and incentive management fees pursuant to our management agreement as well as fees to the manager of our structured note portfolio. The changes are described below:

Base management fees increased by \$369,000 (26%) and \$1.3 million (32%) to \$1.8 million and \$5.2 million for the three and nine months ended September 30, 2011, respectively, as compared to \$1.4 million and \$3.9 million for the three and nine months ended September 30, 2010, respectively. These increases were due to increased stockholders' equity, a component in the formula by which base management fees are calculated, primarily as a result of the receipt of \$142.9 million of net proceeds from the sales of common stock through our Dividend Reinvestment and Stock Purchase Plan, or DRIP, during the year ended December 31, 2010 and the nine months ended September 30, 2011 as well as the receipt of \$92.9 million from the proceeds of our May 2010 and March 2011 common stock offerings.

Incentive management fees decreased \$2.1 million (69%) and \$4.2 million (71%) to \$915,000 and \$1.7 million for the three and nine months ended September 30, 2011, respectively from \$3.0 million and \$5.9 million for the three and nine months ended September 30, 2010, respectively. The fees for the three and nine months ended September 30, 2010 were driven by \$6.3 million and \$29.3 million, respectively of gains on the extinguishment of debt as compared to \$3.9 million of gains on the extinguishment for the three and nine months ended September 30, 2011.

Management fees also include incentive fees of \$418,000 and \$1.7 million for the three and nine months ended September 30, 2011, respectively, related to our structured finance manager. There was no such portfolio or related fees for the three and nine months ended September 30, 2010.

Equity compensation – related party decreased \$228,000 (42%) and \$64,000 (4%) to \$316,000 and \$1.4 million for the three and nine months ended September 30, 2011, respectively, as compared to \$544,000 and \$1.5 million for the three and nine months ended September 30, 2010, respectively. These expenses relate to the amortization of annual grants of restricted common stock to our non-employee independent directors, and annual and discretionary grants of restricted stock to several employees of Resource America who provide investment management services to us through our Manager. The decrease in expense was primarily the result of our quarterly remeasurement of the value of unvested stock. This decrease was partially offset by the issuance of new grants during 2011.

Professional services increased \$133,000 (27%) and \$346,000 (16%) to \$624,000 and \$2.5 million for the three and nine months ended September 30, 2011, respectively, as compared to \$491,000 and \$2.2 million for the three and nine months ended September 30, 2010, respectively, as a result of an increase of \$105,000 and \$260,000 in legal fees for the three and nine months ended, respectively, primarily from legal services related to the CRE portfolio.

Rental operating expense was \$1.1 million and \$1.4 million for the three and nine months ended September 30, 2011, respectively, and is related to property available-for-sale and investments in real estate. There were no such assets at September 30, 2010 and therefore no such expense for the three and nine months ended September 30, 2010.

General and administrative expense increased \$560,000 (78%) and \$988,000 (44%) to \$1.3 million and \$3.2 million for the three and nine months ended September 30, 2011, respectively, from \$721,000 and \$2.2 million for the three and nine months ended September 30, 2010, respectively. These increases are a result of the following:

Increases of \$283,000 for the three and nine months ended September 30, 2011 related to transaction costs in connection with our acquisition of an investment in real estate in September 2011

Edgar Filing: Resource Capital Corp. - Form 10-Q

Increases of \$56,000 and \$83,000 for the three and nine months ended September 30, 2011 related to franchise taxes related to our real estate joint venture;

Increases of \$93,000 for the three and nine months ended September 30, 2011 primarily related to printing and mailing for our proxy; and

An increase of \$152,000 for the nine months ended September 30, 2011 related to our agreement to reimburse Resource America for the wages, salary and benefits of our Chairman, our Chief Financial Officer, several accounting professionals, and 50% of the salary and benefits of a director of investor relations.

Depreciation on operating leases was \$1.7 million and \$2.3 million for the three and nine months ended September 30, 2010. There was no such expense for the three and nine months ended September 30, 2011. The expense relates to the depreciation of the assets in the leasing securitization we acquired in May 2010 which were then converted to a preferred equity investment in LCC in January 2011.

Depreciation and amortization was \$1.9 million and \$2.9 million for the three and nine months ended September 30, 2011, respectively, and is related to our acquisition of RCAM in February 2011 and our acquisitions of real estate in the second and third quarters of 2011. There were no such investments at September 30, 2010.

Income tax expense decreased \$2.8 million (68%) and \$1.0 million (20%) to \$1.3 million and \$4.3 million for the three and nine months ended September 30, 2011, respectively, as compared to \$4.1 million and \$5.3 million for the three and nine months ended September 30, 2010, respectively, primarily due to decreased profits in our trading portfolio and fee income from our bank loan management acquisition in February 2011.

Other (Expense) Income

The following table sets forth information relating to our other (expense) income incurred for the periods presented (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2011	2010	September 30, 2011	2010
Net impairment losses recognized in earnings	\$-	\$(4,456)	\$(4,649)	\$(10,514)

Other (expense) income	(191)	(121)	(642)	650
Total	\$1,216	\$6,964	\$(3,472)	\$4,308

Net impairment losses recognized in earnings decreased \$4.5 million and \$5.9 million to \$0 and a loss of \$4.7 million for the three and nine months ended September 30, 2011, respectively, from losses of \$4.5 million and \$10.5 million for the three and nine months ended September 30, 2010, respectively. Losses for the nine months ended September 30, 2011 relate to impairment charges taken on two CMBS positions during the period. Losses for the three and nine months ended September 30, 2010 relate to impairment charges taken on two CMBS positions during the three months ended September 30, 2010 and impairment charges taken on two CMBS positions during the first six months of 2010. We had no such impairments for the three months ended September 30, 2011.

Net realized gain/(loss) on investment securities available-for-sale and loans decreased \$580,000 (50%) and increased \$2.9 million (195%) to \$591,000 and \$4.4 million for the three and nine months ended September 30, 2011, respectively, from \$1.2 million and \$1.5 million for the three and nine months ended September 30, 2010, respectively. The decrease for the three months ended is the result of \$1.2 million of gains on the sale of CMBS during the three months ended September 30, 2010. There were no such gains during the three months ended September 30, 2011. This decrease in gains on sales of CMBS was partially offset by increased gains of \$608,000 during the three months ended September 30, 2011 on the sale of bank loans. The increase for the nine months ended September 30, 2011 is primarily the result of increased gains from sales of investments in our CMBS portfolio during the nine months ended September 30, 2011 of \$2.3 million as well as increased gains from sales of bank loans of \$610,000 during the nine months ended September 30, 2011.

Net realized and unrealized gain on investment securities, trading decreased \$9.1 million (126%) and \$8.3 million (85%) to a loss of \$1.9 million and a gain of \$1.4 million for three and nine months ended September 30, 2011, respectively, from gains of \$7.2 million and \$9.7 million for the three and nine months ended September 30, 2010, respectively. The decrease in gains is the result of fewer sales of structured finance securities as well as unrealized losses on the positions we still hold due to a decline in market value.

Edgar Filing: Resource Capital Corp. - Form 10-Q

Our provision for loan and lease losses decreased \$1.9 million (61%) and \$18.4 million (70%) to \$1.2 million and \$7.9 million for the three and nine months ended September 30, 2011, respectively, as compared to \$3.1 million and \$26.4 million for the three and nine months ended September 30, 2010, respectively.

The following table summarizes information relating to our provision for loan and lease losses for the periods presented (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,

The principal reason for the decrease from the three and nine months ended September 30, 2010 was improved credit conditions for the borrowers in our CRE portfolio where we have seen a reduction in the magnitude of impaired and defaulted loans. We had eight positions for which we took a provision during the nine months ended September 30, 2010. The positions had a total par value of \$64.1 million and were written down to \$28.7 million for a weighted average write-down percentage of 30.9% of par. For the nine months ended September 30, 2011, we had four positions for which we took provisions. The positions had a total par value of \$55.7 million and were written down to \$50.5 million for a weighted average write down percentage of 9.5% of par.

Gain on the extinguishment of debt was \$3.9 million for the three and nine months ended September 30, 2011, respectively and is due to the buyback of a portion of the debt issued by RREF CDO 2006-1 and RREF CDO 2007-1 during the period. The notes, issued at par, were bought back as an investment by us at a weighted average price of 62.3%. Gain on the extinguishment of debt was \$6.3 million and \$29.3 million for the three and nine months ended September 30, 2010, respectively and is due to the buyback of a portion of the debt issued by RREF CDO 2006-1 and RREF CDO 2007-1 during the period. The notes, issued at par, were bought back as an investment by us at a weighted average price of 67.3%. The related deferred debt issuance costs were immaterial.

Other (expense) income increased \$70,000 (58%) and \$1.3 million (199%) to expenses of \$191,000 and \$642,000 for the three and nine months ended September 30, 2011, respectively, as compared to an expense of \$121,000 and income of \$650,000 for the three and nine months ended September 30, 2010, respectively. The increase in expense for the nine months ended September 30, 2011 is primarily the result of a gain of \$753,000 from the sale of a property in May 2010 by a real estate joint venture in which we have invested. There were no such gains during the nine months ended September 30, 2011.

Financial Condition

Summary. Our total assets at September 30, 2011 were \$2.2 billion, as compared to \$1.9 billion at December 31, 2010. As of September 30, 2011, we held \$28.9 million of unrestricted cash and cash equivalents.

Investment Portfolio. The table below summarizes the amortized cost and net carrying amount of our investment portfolio as of September 30, 2011 and December 31, 2010, classified by interest rate type. The following table includes both (i) the amortized cost of our investment portfolio and the related fair value, which is computed by dividing amortized cost by par amount, and (ii) the net carrying amount of our investment portfolio and the related fair value, which is computed by dividing the net carrying amount by par amount (in thousands, except percentages):

In the aggregate, we purchased our CMBS-private placement portfolio at a discount. At September 30, 2011 and December 31, 2010, the remaining discount to be accreted into income over the remaining lives of the securities was \$13.9 million and \$16.6 million, respectively. These securities are classified as available-for-sale and, as a result, are carried at their fair value.

During the nine months ended September 30, 2011, we recognized a \$4.6 million other-than-temporary impairment on one position that supported our CMBS investments bringing the fair value to \$250,000. There was no other-than-temporary impairment during the three months ended September 30, 2011. During the three and nine months ended September 30, 2010, we recognized \$4.5 million and \$10.5 million of other-than-temporary impairments on one and three positions, respectively, that supported our CMBS investments bringing the combined fair value to \$470,000. The assumed default of these collateral positions in our cash flow model yielded a value of less than full recovery of our cost basis. The net impairment losses were recognized in earnings in the consolidated statements of operations. All of our other-than-temporary impairment losses are related to credit losses.

(1) Whole loans had \$6.2 million and \$5.0 million in unfunded loan commitments as of September 30, 2011 and December 31, 2010, respectively. These commitments are funded as the borrowers require additional funding and have satisfied the requirements to obtain this additional funding.

(2) Floating rate whole loans include a mezzanine portion of a whole loan that matured in June 2011 and is currently in default as of September 30, 2011. Fixed rate mezzanine loan dates exclude a loan that matured in May 2010 and is in default and has been on non-accrual status as of December 31, 2010. This loan was written-off as of March 31, 2011.

The total does not include an allowance for loan losses of \$25.1 million and \$31.6 million recorded as of September 30, 2011 and December 31, 2010, respectively.

- (4) Maturity dates do not include possible extension options that may be available to the borrowers.
- (5) Floating rate whole loans includes a \$2.0 mezzanine portion of a whole loan that has a fixed rate of 15.0% as of September 30, 2011.
- (6) A fixed rate B note with a fair value of \$13.0 million which matured in July 2011 and is in the process of being sold and is expected to close in November 2011.

In September 2011, we entered into a sale agreement, which we expect will close in mid November 2011 for a commercial real estate loan with a fair value of \$13.0 million which is secured by a two-building office campus in Indianapolis, IN. We classified this loan as a loan held for sale as of September 30, 2011.

Bank Loans. At September 30, 2011, we held a total of \$1.0 billion of bank loans at fair value through Apidos CDO I, Apidos CDO III, Apidos Cinco CDO and Apidos CDO VIII. All of the CDOs secure the debt issued by these entities. This is an increase of \$172.6 million over our holdings at December 31, 2010. This increase in total bank loans was principally due to the acquisition of \$193.3 million par value of bank loans through the Apidos CLO VIII warehouse facility and the closing of Apidos CLO VIII in October 2011. We own 100% of the equity issued by Apidos CDO I, Apidos CDO III, Apidos Cinco CDO and Apidos CLO VIII which we have determined are VIEs of which we are the primary beneficiary. As a result, we consolidate Apidos CDO I, Apidos CDO III, Apidos Cinco CDO and Apidos CLO VIII.

Asset-backed securities held-to-maturity. At September 30, 2011, we held a total of \$25.6 million of ABS held-to-maturity at fair value through Apidos CDO I, Apidos CDO III and Apidos Cinco CDO, all of which secure the debt issued by these entities. This is a decrease of \$332,000 over our holdings at December 31, 2010. The decrease in total ABS held-to-maturity was principally due to the decreased market prices. The decrease was partially offset by the purchase of \$2.5 million par value of securities during the nine months ended September 30, 2011.

On January 4, 2011, our wholly-owned subsidiary, Resource TRS, acquired an interest in LCC, a newly-formed equipment financing subsidiary of LEAF Financial Corporation, or LEAF Financial, a subsidiary of Resource America. Resource TRS contributed initial capital of approximately \$26.2 million to LCC in the form of approximately \$5.2 million in cash, and all of its interest in LEAF Receivables Funding 3, a wholly-owned subsidiary of Resource TRS, which held a portfolio of equipment, equipment leases and notes. As part of the transaction, LEAF Financial contributed its assets relating to its equipment lease and note origination, servicing and finance business to LCC. Also, senior management personnel of LEAF Financial, or collectively, the Management Parties, contributed capital to LCC in the form of all of the shares of common stock they owned in LEAF Financial in exchange for 10% of the shares of LCC common stock on a fully-diluted basis. The foregoing capital investments in LCC were made pursuant to a Transfer and Contribution Agreement among the registrant, LEAF Financial, LCC, Resource TRS and the Management Parties, or the TCA. This transaction resulted in the deconsolidation of our leasing investments.

Pursuant to the TCA, in return for Resource TRS's capital investments, LCC issued to Resource TRS 2,626,783 shares of LCC Series A preferred stock and warrants to purchase 4,800 shares of LCC common stock for an exercise price of \$0.01 per share. LCC exercised its rights under the share purchase agreement during the nine months ended September 30, 2011 and we acquired the full additional \$10.0 million of Series A preferred stock through September 30, 2011, representing 48% of LCC's common stock on a fully-diluted basis, which we classify as securities available-for-sale on our consolidated balance sheet.

As set forth in the TCA, on January 4, 2011, Resource TRS also delivered to LCC a Share Purchase Agreement, under which LCC is permitted to require Resource TRS to purchase up to an additional \$10.0 million of Preferred Stock which was fully funded at September 30, 2011. The preferred stock carries a coupon of 10%, of which 2% is received in cash and 8% is paid-in-kind. During the nine months ended September 30, 2011, \$528,000 of paid-in-kind interest was paid in the form of additional shares of Series A preferred stock as elected by LCC.

On July 20, 2011, we entered into an agreement with LCC, pursuant to which we provided a \$10.0 million loan to LCC, of which \$6.9 million was funded as of September 30, 2011. The loan matures on January 20, 2013 and bears interest at a fixed rate of 8.0% per annum on the unpaid principal balance, payable quarterly. In the event of default, interest will accrue and be payable at a rate of 5.0% in excess of the fixed rate. The loan is secured by all the assets of LEAF Capital Funding, LLC and LEAF Financial's interest in LEAF Receivables Funding 3.

Investments in Real Estate

Acquisitions. During the nine months ended September 30, 2011, we converted two loans we had originated to investments in real estate and acquired one real estate asset summarized as follows:

On June 14, 2011, we received the deed to a property by agreement with the third-party borrower in lieu of foreclosure on a loan in the amount of \$22.4 million that we had originated. The loan was collateralized by a 400 unit multi-family property in Memphis, Tennessee. The property was 93.8% occupied at acquisition.

On June 24, 2011, we received the deed to a property from the borrower in lieu of foreclosure on a loan in the amount of \$12.1 million that we had originated. The loan was collateralized by an office building in Pacific Palisades, California. The property was 60% occupied at acquisition.

On August 1, 2011, we entered into an agreement to purchase WhisperTree Apartments, a 504 multi-family property located in Houston, Texas, for \$18.1 million. The property was 95% occupied at acquisition.

A summary of the aggregated estimated fair value of the assets and liabilities acquired on the respective date of acquisition are presented below (in thousands):

Description	Estimated Fair Value
Assets acquired:	
Investments in real estate	\$ 48,683
Cash and cash equivalents	177
Restricted cash	2,360
Intangible assets	2,490
Other assets	391
Total assets acquired	54,101
Liabilities assumed:	
Accounts payable and other liabilities	673
Total liabilities assumed	673
Estimated fair value of net assets acquired	\$ 53,428

We have not yet completed the process of estimating the fair value of assets acquired and liabilities assumed. Accordingly, our preliminary estimates and the allocation of the purchase price to the assets acquired and liabilities assumed may change as we complete the process. In accordance with FASB ASC Topic 805, changes, if any, to the preliminary estimates and allocation will be reported in our financial statements retrospectively.

The following unaudited pro forma information, after including the acquisition of real estate properties, is presented below as if the acquisition occurred on January 1, 2010. The pro forma results are not necessarily indicative of the results which actually would have occurred if the acquisition had occurred on the first day of the periods presented, nor is it indicative of our future results (in thousands):

These amounts have been calculated after adjusting the results of the acquired businesses to reflect the additional depreciation and amortization that would have been charged assuming the fair value adjustments to our investments in real estate had been applied from January 1, 2010.

Restricted cash. At September 30, 2011, we had restricted cash of \$148.5 million, which consisted of \$129.3 million of restricted cash in our five CDOs, \$15.2 million held by our Apidos CLO VIII warehouse, \$1.5 million held in a

margin account related to our swap portfolio and \$2.5 million held in restricted accounts at our investment properties. At December 31, 2010, we had restricted cash of \$168.2 million, which consisted of \$160.5 million of restricted cash in our five CDOs, \$5.2 million of restricted cash in our leasing securitization and \$2.5 million held in a margin account, related to our swap portfolio. The decrease of \$19.7 million is primarily related to loan settlements in our CDOs.

[\(Back to Index\)](#)

Interest Receivable. At September 30, 2011, we had interest receivable of \$6.7 million, on our securities, loans and structured notes. At December 31, 2010, we had interest receivable of \$6.3 million, which consisted of \$6.3 million of interest on our securities, loans and lease receivables and \$9,000 of interest earned on escrow and sweep accounts. The increase of \$323,000 is primarily the result of an increase of \$265,000 in available-for-sale securities held as a result of new purchases through our Wells Fargo facility, and an increase of \$183,000 in interest receivable on structured notes due to the receipt of payments on structured notes held before the quarter ended September 30, 2011. The increase was partially offset by a reduction of \$178,000 in interest receivable on our bank loan portfolio due to repayments and sales of positions during the nine months ended September 30, 2011.

Other Assets. The following table summarizes our other assets (in thousands):

	September 30, 2011	December 31, 2010
Other receivables	\$1,389	\$1,374
Dividend receivable	1,619	-
Management fees receivable	1,176	-
Principal paydown	16	468
Prepaid assets	1,249	590
Total	\$5,449	\$2,432

Other assets increased \$3.0 million to \$5.4 million as of September 30, 2011 from \$2.4 million as of December 31, 2010. This increase resulted primarily from the following:

an increase of \$15,000 in other receivables which is primarily related to the acquisition of new real estate properties;

an increase of \$1.6 million in dividend receivables as a result of our January 2011 investment in LCC;

an increase of \$1.2 million in management fees receivables which are related to our investment in an asset management subsidiary which entitles us to collect senior, subordinated and incentive fees related to five collateralized loan obligations; and

an increase of \$660,000 in prepaid assets which is primarily related to the acquisition of new real estate properties and our directors' and officers' insurance policy and the timing of when we pay the related premium costs.

These increases were partially offset by a decrease of \$452,000 of principal paydowns due to the timing of our receipt of payments on our leasing and bank loan portfolios

Hedging Instruments. Our hedges at September 30, 2011 and December 31, 2010 were fixed-for-floating interest rate swap agreements whereby we swapped the floating rate of interest on the liabilities we hedged for a fixed rate of interest. With the pending maturity of several agreements, we expect that the fair value of our hedges will modestly improve during the remainder of 2011. We intend to continue to seek such hedges for our floating rate debt in the future. Our hedges at September 30, 2011 were as follows (in thousands):

In addition, we also had an interest rate cap agreement with a notional amount of \$14.8 million which matured on August 5, 2011 and reduced our exposure to variability in future cash flows attributable to LIBOR. The interest rate cap was a non-designated cash flow hedge and as a result the change in fair value was recorded through the consolidated statement of income. The interest rate cap had an effective date of January 8, 2009 and had a cap rate of 2.00%. The interest rate cap had a fair value of \$60 as of December 31, 2010.

As of December 31, 2010, we had entered into hedges with a notional amount of \$166.8 million and maturities ranging from July 2011 to July 2017. At December 31, 2010, the fair value on our interest rate swap agreements was (\$13.3) million.

Apidos CLO VIII Warehouse Facility - In June 2011, we formed Apidos CLO VIII and entered into a warehouse facility provided by Citibank, N.A. to purchase bank loans to include in Apidos CLO VIII. This agreement, secured by a \$15.0 million purchase of 15,000 preference shares of Apidos CLO VIII, expired upon the closing of Apidos CLO VIII on October 13, 2011. At September 30, 2011, there was an outstanding balance of \$52.7 million relating to trades that had settled. The facility bears interest at a rate of three-month LIBOR plus 1.0% for the first nine months and 1.4% thereafter. As of September 30, 2011, the borrowing rate was 1.26%.

CMBS – Term Repurchase Facility. In February 2011, our wholly-owned subsidiaries, RCC Real Estate and RCC Commercial, entered into a master repurchase agreement with Wells Fargo Bank, National Association to be used as a warehouse facility to finance the purchase of CMBS. We guaranteed RCC Real Estate and RCC Commercial's performance of their obligations under the repurchase agreement. At September 30, 2011, RCC Real Estate had borrowed \$37.9 million, all of which we had guaranteed, less unamortized deferred debt issuance costs for a net of \$37.6 million. At September 30, 2011, borrowings under the repurchase agreement were secured by CMBS with an estimated fair value of \$44.3 million and had a weighted average interest rate of one-month LIBOR plus 1.25%, or 1.48%.

Revolving Credit Facility. On July 7, 2011, we entered into a \$10.0 million revolving credit facility with The Bancorp Bank. The facility will provide bridge financing for up to five business days which will enable us to fund real estate loans to third parties prior to their sale of our CRE CDOs. The facility is evidenced by a Revolving Judgment Note and Security Agreement by and among the borrowers and Bancorp Bank entered into July 7, 2011. The facility is secured by a Securities Pledge Control Agreement by which we pledged \$40.0 million of the Class A-1 notes of RREF CDO 2006-1, which are owned by RCC Real Estate. The note becomes due and payable on September 30, 2012.

Collateralized Debt Obligations. As of September 30, 2011, we had executed and retained equity in five CDO transactions as follows:

In September 2007, we closed RREF CDO 2007-1, a \$500.0 million CDO transaction that provided financing for commercial real estate loans. The investments held by RREF CDO 2007-1 collateralized \$458.8 million of senior notes issued by the CDO vehicle, of which RCC Real Estate, Inc., or RCC Real Estate, a subsidiary of ours, purchased 100% of the class H senior notes, class K senior notes, class L senior notes and class M senior notes for \$68.0 million at closing, \$5.0 million of the Class J senior notes in February 2008, an additional \$2.5 million of the Class J senior notes in November 2009, and \$11.9 million of the Class E senior notes, \$11.9 million of the Class F senior notes and \$7.3 million of the Class G senior notes in December 2009, and \$250,000 of the Class J senior notes in January 2010. In addition, RREF 2007-1 CDO Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$41.3 million equity interest representing 100% of the outstanding preference shares. At September 30, 2011, the notes issued to outside investors, net of repurchased notes, had a weighted average borrowing rate of 0.76%.

In May 2007, we closed Apidos Cinco CDO, a \$350.0 million CDO transaction that provided financing for bank loans. The investments held by Apidos Cinco CDO collateralized \$322.0 million of senior notes issued by the CDO vehicle. RCC Commercial Inc., or RCC Commercial, a subsidiary of ours, purchased a \$28.0 million equity interest representing 100% of the outstanding preference shares. At September 30, 2011, the notes issued to outside investors had a weighted average borrowing rate of 0.78%.

In August 2006, we closed RREF CDO 2006-1, a \$345.0 million CDO transaction that provided financing for commercial real estate loans. The investments held by RREF CDO 2006-1 collateralized \$308.7 million of senior notes issued by the CDO vehicle. RCC Real Estate purchased 100% of the class J senior notes and class K senior notes for \$43.1 million at closing and \$7.5 million of the Class F senior notes in September 2009, \$3.5 million of the Class E senior note and \$4.0 million of the Class F senior notes in September 2009 and \$20.0 million of the Class A-1 senior notes in February 2010. In addition, RREF 2006-1 CDO Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$36.3 million equity interest representing 100% of the outstanding preference shares. At September 30, 2011, the notes issued to outside investors, net of repurchased notes, had a weighted average borrowing rate of 1.27%.

In May 2006, we closed Apidos CDO III, a \$285.5 million CDO transaction that provided financing for bank loans. The investments held by Apidos CDO III collateralized \$262.5 million of senior notes issued by the CDO vehicle. RCC Commercial purchased a \$23.0 million equity interest representing 100% of the outstanding preference shares. At September 30, 2011, the notes issued to outside investors had a weighted average borrowing rate of 0.72%.

In August 2005, we closed Apidos CDO I, a \$350.0 million CDO transaction that provided financing for bank loans. The investments held by Apidos CDO I collateralize \$321.5 million of senior notes issued by the CDO vehicle. RCC Commercial purchased a \$28.5 million equity interest representing 100% of the outstanding preference shares. At September 30, 2011, the notes issued to outside investors had a weighted average borrowing rate of 0.84%.

(Back to Index)

During the nine months ended September 30, 2011, we repurchased \$10 million in A-2 notes at a weighted average price of 61.25% to par which resulted in a \$3.9 million gain, reported as a part of the gain on the extinguishment of debt in the consolidated statements of income.

On June 21, 2011, we surrendered to the respective trustee, for cancellation without consideration, certain notes issued by RREF CDO 2007-1 and RREF CDO 2006-1. In RREF CDO 2007-1, we surrendered \$7.5 million of the Class B notes, \$6.5 million of the Class F notes, \$6.25 million of the Class G notes and \$10.625 million of the Class H notes. In RREF CDO 2006-1, we surrendered \$6.9 million of the Class B notes, \$7.7 million of the Class C notes, \$5.52 million of the Class D notes, \$7.0 million of the Class E notes and \$5.25 million of the Class F notes. The surrendered notes were cancelled by the trustee under the applicable indentures, and the obligations due under those notes were deemed extinguished. The effect of these cancellations improves each respective CDO's performance with respect to its over-collateralization and interest coverage tests, with which they already complied before cancellation, as well as secures our long term interest in these structured vehicles.

Trust Preferred Securities. In May and September 2006, we formed Resource Capital Trust I, or RCT I, and RCC Trust II, or RCT II, respectively, for the sole purpose of issuing and selling trust preferred securities. RCT I and RCT II are not consolidated into our consolidated financial statements because we are not deemed to be the primary beneficiary of either trust. We own 100% of the common shares of each trust, each of which issued \$25.0 million of preferred shares to unaffiliated investors. Our rights as the holder of the common shares of each trust are subordinate to the rights of the holders of preferred shares only in the event of a default; otherwise, our economic and voting rights are pari passu with the preferred shareholders. We record each of our investments in the trusts' common shares of \$774,000 as an investment in unconsolidated trusts and record dividend income upon declaration by each trust. The junior subordinated debentures' debt issuance costs are deferred in other assets in the consolidated balance sheets. We record interest expense on the junior subordinated debentures and amortization of debt issuance costs in our consolidated statements of income.

In October 2009, we amended our unsecured junior subordinated debentures held by RCT I and RCT II with a total value outstanding of \$51.5 million. The amendment provides for an interest rate increase of 2% (from LIBOR plus 3.95% to LIBOR plus 5.95%) on both issuances for a period of two years and a one-time restructuring fee of \$250,000 in exchange for the waiver of financial covenants under our guarantee. The covenant waiver expires on January 1, 2012. The debt issuance costs associated with the junior subordinated debentures for RCT I and RCT II at September 30, 2011 were \$512,000 and \$528,000, respectively. The interest rate adjustment took effect as of October 1, 2009 and expires on September 30, 2011. The rates for RCT I and RCT II at September 30, 2011, were 6.20% and 6.20%, respectively. The rates for RCT I and RCT II at December 31, 2010, were 6.25% and 6.24%, respectively. The additional cost is approximately \$280,000 per quarter.

Credit Quality Indicators

Bank Loans

We use a risk grading matrix to assign grades to bank loans. Loans are graded at inception and updates to assigned grades are made continually as new information is received. Loans are graded on a scale of 1-5 with 1 representing our highest rating and 5 representing our lowest rating. We also designate loans that are sold after the period then ended as such at their fair market value, net of any allowances and costs associated with the loan sales. We consider such things as performance of the underlying company, liquidity, collectability of interest, enterprise valuation, default probability, ratings from rating agencies, and industry dynamics.

Credit risk profiles of bank loans were as follows (in thousands):

	Rating 1	Rating 2	Rating 3	Rating 4	Rating 5	Held for Sale	Total
As of September 30, 2011:

Bank loans	\$759,161	\$43,858	\$45,115	\$7,940	\$362	\$4,027	\$860,463

All of our bank loans are performing with the exception of one loan with a par amount of \$362,000 which has been in default since September 2010.

Commercial Real Estate Loans

We use a risk grading matrix to assign grades to commercial real estate loans. Loans are graded at inception and updates to assigned grades are made continually as new information is received. Loans are graded on a scale of 1-4 with 1 representing our highest rating and 4 representing our lowest rating. We also designate loans that are sold after the period then ended as such at their fair market value, net of any allowances and costs associated with the loan sales. In addition to the underlying performance of the loan collateral, we consider such things as the strength of underlying sponsorship, payment history, collectability of interest, structural credit enhancements, market trends and loan terms.

Stockholders' Equity

Stockholders' equity at September 30, 2011 was \$433.3 million and included \$27.6 million of net unrealized losses on our available-for-sale portfolio, and \$17.4 million of unrealized losses on cash flow hedges, shown as a component of accumulated other comprehensive loss. Stockholders' equity at December 31, 2010 was \$348.3 million and included \$19.3 million of unrealized losses on our available-for-sale portfolio and \$13.3 million of unrealized losses on cash flow hedges, shown as a component of accumulated other comprehensive loss. The increase in stockholder's equity during the nine months ended September 30, 2011 was principally due to the proceeds received from our stock offering in March 2011 and from stock issuances under our DRIP activity during the period.

Fluctuations in market values of assets in our available-for-sale portfolio that have not been other-than-temporarily impaired do not impact our income determined in accordance with GAAP, or our taxable income, but rather are reflected on our consolidated balance sheets by changing the carrying value of the asset and stockholders' equity under "Accumulated Other Comprehensive Loss."

Funds from Operations

The following table reconciles GAAP net income to funds from operations, or FFO, which is a non-GAAP financial measure (in thousands, except per share data):

(1) We now evaluate our performance based on several performance measures, including FFO, in addition to net income and estimated REIT taxable income. We compute FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts, or NAREIT, as net income (computed in accordance with GAAP), excluding impairment charges on respossed real estate assets, the cumulative effect of changes in accounting principles, real estate-related depreciation and amortization, and after adjustments for unconsolidated/uncombined partnerships and joint ventures.

We believe that FFO, a non-GAAP measure, is an appropriate measure of our operating performance in that it is frequently used by analysts, investors and other parties in the evaluation of REITs. We use FFO as a performance measure in that we have operating real estate on our balance sheet as of the period ended September 30, 2011. FFO is not intended to be an indication of our cash flow from operating activities (determined in accordance with GAAP) nor is it entirely indicative of funding our cash needs, including our ability to make cash distributions.

(2) Amount represents impairment charges recorded by us in connection with real estate debt converted to equity.

(3) Comparative FFO data is not provided since we did not own depreciable real property during the comparable periods in 2010.

Estimated REIT Taxable Income

We calculate estimated REIT taxable income, which is a non-GAAP financial measure, according to the requirements of the Internal Revenue Code. The following table reconciles net income to estimated REIT taxable income for the periods presented (in thousands):

(1)

U.S. shareholders of controlled foreign corporations are required to include their share of such corporations' income on a current basis; however, losses sustained by such corporations do not offset income of their U.S. shareholders on a current basis.

We believe that a presentation of estimated REIT taxable income provides useful information to management and our investors regarding our financial condition and results of operations as we use this measurement to determine the amount of dividends that we are required to declare to our stockholders in order to maintain our status as a REIT for federal income tax purposes. Since we, as a REIT, expect to make distributions based on estimated taxable earnings, we expect that our distributions may at times be more or less than our reported GAAP earnings. Total taxable income is the aggregate amount of taxable income generated by us and by our domestic and foreign taxable REIT subsidiaries. Estimated REIT taxable income excludes the undistributed taxable income of our domestic TRS, if any such income exists, which is not included in REIT taxable income until distributed to us. There is no requirement that our domestic TRS distribute its earnings to us. Estimated REIT taxable income, however, includes the taxable income of our foreign TRSs because we are generally required to recognize and report their taxable income on a current basis. Because not all companies use identical calculations, this presentation of estimated REIT taxable income may not be comparable to other similarly-titled measures of other companies.

In order to maintain our qualification as a REIT and to avoid corporate-level income tax on the income we distribute to our stockholders, we intend to make regular quarterly distributions of all or substantially all of our estimated net REIT taxable income to holders of our common stock. This requirement can impact our liquidity and capital resources.

Liquidity and Capital Resources

Through September 30, 2011, our principal sources of liquidity have been \$46.6 million of net proceeds from our March 2011 offering, \$66.1 million of proceeds from sales of common stock through our DRIP, funds available in existing CDO financings of \$144.5 million, and \$62.1 million of availability under our repurchase agreement with Wells Fargo to finance the purchase of CMBS at September 30, 2011. As of December 31, 2010, our principal sources of current liquidity were \$42.8 million of net proceeds from our May 2010 offering and \$76.8 million of proceeds from sales of common stock through our DRIP, funds available in existing CDO financings of \$160.5 million and \$84.9 million of availability under our repurchase agreement with Wells Fargo Bank, National Association to finance the purchase of CMBS.

In July 2011, the reinvestment period for Apidos CDO I ended, and in September 2011 the reinvestment period for RREF CDO 2006-1 ended. As a result, any principal proceeds received by these CDOs will be used to pay down their respective notes and, if sufficient funds are available, the equity. The reinvestment periods for Apidos CDO III and Apidos Cinco CDO end September 2012 and May 2014, respectively, while the reinvestment period for RREF CDO 2007-1 ends July 2012.

Our on-going liquidity needs consist principally of funds to make investments, make debt repurchases, make distributions to our stockholders and pay our operating expenses, including our management fees. Our ability to meet our on-going liquidity needs will be subject to our ability to generate cash from operations and, with respect to our investments, our ability to maintain and/or obtain additional debt financing and equity capital together with the funds referred to above. For a discussion of our ability to access capital markets, see “-Overview.” We derive substantial operating cash from our equity investments in our CDOs which, if the CDOs fail to meet certain tests, will cease. Through September 30, 2011, we have not experienced difficulty in maintaining our existing CDO financing and have passed all of the critical tests required by these financings. However, we cannot assure you that we will continue to meet all such critical tests in the future. If we are unable to renew, replace or expand our sources of existing financing on substantially similar terms, we may be unable to implement our investment strategies successfully and may be required to liquidate portfolio investments. If required, a sale of portfolio investments could be at prices lower than the carrying value of such assets, which would result in losses and reduced income.

The following table sets forth a summary of the cash distributions we have received from our CDOs and their compliance with their coverage tests for the periods presented (in thousands):

(1) Distributions on retained equity interests in CDOs (comprised of note investment and preference share ownership).

(2) Interest coverage includes annualized amounts based on the most recent trustee statements.

(3) Interest coverage cushion represents the amount by which annualized interest income expected exceeds the annualized amount payable on all classes of CDO notes senior to our preference shares.

(4) Overcollateralization cushion represents the amount by which the collateral held by the CDO issuer exceeds the maximum amount required.

At September 30, 2011, RSO's liquidity of \$177.4 million consists of three primary sources:

unrestricted cash and cash equivalents of \$28.9 million and restricted cash of \$1.5 million in margin call accounts and \$2.5 million in the form of real estate escrows, reserves and deposits;

capital available for reinvestment in its five CDO entities of \$129.3 million, of which \$1.6 million is designated to finance future funding commitments on CRE loans; and

restricted cash available for investment in its newly-formed CLO of \$15.2 million.

Our leverage ratio may vary as a result of the various funding strategies we use. As of September 30, 2011 and December 31, 2010, our leverage ratio was 3.6 times and 4.4 times, respectively. The decrease in leverage ratio was primarily due to the March 2011 offering proceeds, DRIP proceeds received during the nine months ended September 30, 2011, and debt repurchases made in 2010 and 2011.

Distributions. In order to maintain our qualification as a REIT and to avoid corporate-level income tax on the income we distribute to our stockholders, we intend to make regular quarterly distributions of all or substantially all of our net taxable income to holders of our common stock. This requirement can impact our liquidity and capital resources. On September 16, 2011, we declared a quarterly distribution of \$0.25 per share of common stock, \$19.2 million in the aggregate, which was paid on October 27, 2011 to stockholders of record on September 30, 2011.

Our distributions for the remainder of 2011 dividends will be determined by our board of directors who will also consider the composition of any common distributions declared, including the option of paying a portion in cash and the balance in additional common shares. Generally, dividends payable in stock are not treated as dividends for purposes of the deduction for dividends, or as taxable dividends to the recipient. The Internal Revenue Service, in Revenue Procedure 2010-12, has given guidance with respect to certain stock distributions by publicly traded REITs. That Revenue Procedure applies to distributions made on or after January 1, 2008 and declared with respect to a taxable year ending on or before December 31, 2011. It provides that publicly-traded REITs can distribute stock (common shares in our case) to satisfy their REIT distribution requirements if stated conditions are met. These conditions include that at least 10% of the aggregate declared distributions be paid in cash and the shareholders be permitted to elect whether to receive cash or stock, subject to the limit set by the REIT on the cash to be distributed in the aggregate to all shareholders. We have not used this Revenue Procedure with respect to any distributions to date, but we are permitted to do so for distributions with respect to the remainder of 2011.

(1) Contractual commitments do not include \$19.7 million, \$27.9 million, \$22.8 million, \$29.6 million and \$52.1 million of interest expense payable through the non-call dates of July 2010, May 2011, September 2011, August 2011 and September 2012, respectively, on Apidos CDO I, Apidos Cinco CDO, Apidos CDO III, RREF CDO 2006-1 and RREF CDO 2007-1. The non-call date represents the earliest period under which the CDO assets can be sold, resulting in repayment of the CDO notes.

(2) Contractual commitments include \$21,000 of interest expense payable through the maturity date of September 18, 2011 on our repurchase agreements.

- (3) Contractual commitments do not include \$55.3 million and \$56.3 million of interest expense payable through the maturity dates of September 2036 and October 2036, respectively, on our trust preferred securities.
- (4) Contractual commitments include \$1,000 of interest expense payable through September 30, 2011 on our revolving credit facility.
- (5) Calculated only for the next 12 months based on our current equity, as defined in our management agreement. Our management agreement also provides for an incentive fee arrangement that is based on operating performance. Because the incentive fee is not a fixed and determinable amount, it is not included in this table.

At September 30, 2011, we had 18 interest rate swap contracts with a notional value of \$172.5 million. These contracts are fixed-for-floating interest rate swap agreements under which we contracted to pay a fixed rate of interest for the term of the hedge and will receive a floating rate of interest. As of September 30, 2011, the average fixed pay rate of our interest rate hedges was 4.66% and our receive rate was one-month LIBOR, or 0.22%.

Off-Balance Sheet Arrangements

As of September 30, 2011, we have an investment in Churchill Pacific Asset Management which gives us the right to collect management fees from five CLOs in return for our management services which have been outsourced to Apidos Capital Management, LLC, a subsidiary of Resource America. Further, as of September 30, 2011, we had not guaranteed any obligations of unconsolidated entities or entered into any commitment or letter of intent to provide additional funding to any such entities.

We have certain unfunded commitments related to our commercial real estate loan portfolio that we may be required to fund in the future. Our unfunded commitments primarily fall into two categories: (1) pre-approved capital improvement projects; and (2) new or additional construction costs subject, in each case, to the borrower meeting specified criteria. Upon completion of the improvements or construction, we would receive additional loan interest income on the advanced amount. As of September 30, 2011, we had seven loans with unfunded commitments totaling \$6.2 million, of which \$1.6 million will be funded by restricted cash in RREF CDO 2007-1.

As of September 30, 2011, we have an agreement with LCC, pursuant to which we provided a \$10.0 million loan, of which \$3.1 million was an unfunded commitment.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of September 30, 2011 and December 31, 2010, the primary component of our market risk was interest rate risk, as described below. While we do not seek to avoid risk completely, we do seek to assume risk that can be quantified from historical experience, to actively manage that risk, to earn sufficient compensation to justify assuming that risk and to maintain capital levels consistent with the risk we undertake or to which we are exposed.

We primarily assess our interest rate risk by estimating the duration of our assets and the duration of our liabilities. Duration essentially measures the market price volatility of financial instruments as interest rates change. We generally calculate duration using various financial models and empirical data. Different models and methodologies can produce different duration numbers for the same securities.

The following sensitivity analysis tables show, at September 30, 2011 and December 31, 2010, the estimated impact on the fair value of our interest rate-sensitive investments and liabilities of changes in interest rates, assuming rates instantaneously fall 100 basis points and rise 100 basis points (dollars in thousands):

(1) Includes the fair value of available-for-sale investments that are sensitive to interest rate change.

[\(Back to Index\)](#)

[\(Back to Index\)](#)

For purposes of the table, we have excluded our investments with variable interest rates that are indexed to LIBOR. Because the variable rates on these instruments are short-term in nature, we are not subject to material exposure to movements in fair value as a result of changes in interest rates.

Effect on Fair Value

A component of interest rate risk is the effect changes in interest rates will have on the market value of our assets. We face the risk that the market value of our assets will increase or decrease at different rates than that of our liabilities, including our hedging instruments.

It is important to note that the impact of changing interest rates on fair value can change significantly when interest rates change beyond 100 basis points from current levels. Therefore, the volatility in the fair value of our assets could increase significantly when interest rates change beyond 100 basis points from current levels. In addition, other factors impact the fair value of our interest rate-sensitive investments and hedging instruments, such as the shape of the yield curve, market expectations as to future interest rate changes and other market conditions. Accordingly, in the event of changes in actual interest rates, the change in the fair value of our assets would likely differ from that shown above and such difference might be material and adverse to our stockholders.

Risk Management

To the extent consistent with maintaining our status as a REIT, we seek to manage our interest rate risk exposure to protect our portfolio of fixed-rate commercial real estate mortgages and CMBS and related debt against the effects of major interest rate changes. We generally seek to manage our interest rate risk by:

- monitoring and adjusting, if necessary, the reset index and interest rate related to our mortgage-backed securities and our borrowings;

- attempting to structure our borrowing agreements for our CMBS to have a range of different maturities, terms, amortizations and interest rate adjustment periods; and

- using derivatives, financial futures, swaps, options, caps, floors and forward sales, to adjust the interest rate sensitivity of our fixed-rate commercial real estate mortgages and CMBS and our borrowing.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act of 1934 reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Under the supervision of our Chief Executive Officer and Chief Financial Officer, we have carried out an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at the reasonable assurance level.

Changes in Internal Control of Financial Reporting

There were no significant changes in our internal control over financial reporting during the quarter ended September 30, 2011, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(a) In accordance with the provisions of the management agreement, on January 31, 2011, we issued 4,482 shares of common stock to the Manager. These shares represented 25% of the Manager's quarterly incentive compensation fee that accrued for the three months ended December 31, 2010. The issuance of these shares was exempt from the registration requirements of the Securities Act pursuant to Section 4(2) thereof.
