2. Basis of Presentation

The interim financial information included herein is unaudited; however, the information reflects all adjustments (consisting of normal recurring adjustments) that are, in the opinion of management, necessary for the fair presentation of the consolidated financial position, results of operations and cash flows for the interim periods. These interim condensed consolidated financial statements have been prepared in accordance with the rules and regulations

of the Securities and Exchange Commission (“SEC”) and, therefore, omit certain information and note disclosures necessary to present the statements in accordance with US generally accepted accounting principles (“US GAAP”). The interim condensed consolidated financial statements should be read in conjunction with the Company’s current year SEC filings on Form 10-Q and Form 8-K, as well as the consolidated financial statements for the year ended December 31, 2014, which are included in the Company’s Annual Report on Form 10-K (the “2014 Form 10-K”), which was filed on March 6, 2015. The results of operations for the six months ended June 30, 2015 reported in this Form 10-Q are not necessarily indicative of the results to be expected for the full year. The condensed consolidated balance sheet as of December 31, 2014 was prepared using information from the audited consolidated balance sheet contained in the 2014 Form 10-K, and does not include all disclosures required by US GAAP for annual consolidated financial statements.

3. Stock-Based Compensation

The Company maintains a stock option plan under which the Company may grant incentive stock options and non-qualified stock options to employees and non-employee directors. Stock options have been granted with exercise prices at or above the fair market value of the underlying shares of common stock on the date of grant. Options vest and expire according to terms established at the grant date.

The Company records compensation expense for the fair value of stock-based awards determined as of the grant date, including employee stock options.

For the six months ended June 30, 2015 and 2014, there were no stock options granted under the Company’s option plan. The Company recognized \$11,000 and \$16,000 in stock-based compensation expense for the six months ended June 30, 2015 and 2014, respectively, related to the vesting of previously issued options.

Alpha Pro Tech, Ltd.**Notes to Condensed Consolidated Financial Statements (Unaudited)**

The Company uses the Black-Scholes option-pricing model to value the options. The Company uses historical data to estimate the life of the options. The risk-free interest rate for periods within the contractual life of the award is based on the US Treasury yield curve in effect at the time of grant. The estimated volatility is based on historical volatility and management's expectations of future volatility. The Company uses an estimated dividend payout of zero, as the Company has not paid dividends in the past and, at this time, does not expect to do so in the future.

The following table summarizes stock option activity for the six months ended June 30, 2015:

	Shares	Weighted Average Exercise Price Per Option

5. Recent Accounting Pronouncements

Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers* (Topic 606) ("ASU 2014-09"), is a comprehensive new revenue recognition model requiring a company to recognize revenue to depict the transfer of goods or services to a customer at an amount reflecting the consideration that it expects to receive in exchange for those goods or services. In adopting ASU 2014-09, companies may use either a full retrospective or a modified retrospective approach. ASU 2014-09 is effective for the first interim period within an annual reporting period beginning after December 15, 2017, and early adoption is not permitted. The Company will adopt ASU 2014-09 during the first quarter of 2018. Management is evaluating the provisions of this update and has not determined the impact that its adoption will have on the Company's financial position or results of operations.

Management periodically reviews new accounting standards that are issued. Management has not identified any other new standards that it believes merit further discussion.

7. Equity Investment in Unconsolidated Affiliate

In 2005, Alpha ProTech Engineered Products, Inc. (a subsidiary of Alpha Pro Tech, Ltd.) entered into a joint venture with a manufacturer in India for the production of building products. Under the terms of the joint venture agreement, a private company, Harmony Plastics Private Limited (“Harmony”), was created with ownership interests of 41.66% by Alpha ProTech Engineered Products, Inc. and 58.34% by Maple Industries and Associates. Alpha ProTech Engineered Products, Inc. contributed \$508,000 for its equity position, and Maple Industries and Associates contributed \$708,000 for its equity position.

Alpha Pro Tech, Ltd.

Notes to Condensed Consolidated Financial Statements (Unaudited)

This joint venture positions Alpha ProTech Engineered Products, Inc. to respond to current and expected increased product demand for housewrap and synthetic roof underlayment and provides future capacity for sales of specialty roofing component products and custom products for industrial applications requiring high quality extrusion coated fabrics. In addition, the joint venture now supplies products for the Disposable Protective Apparel segment.

The capital from the initial funding and a bank loan, which loan is guaranteed exclusively by the individual shareholders of Maple Industries and Associates and collateralized by the assets of Harmony, were utilized to purchase the original manufacturing facility in India. Harmony currently has four facilities in India (three owned and one rented), consisting of: (1) a 102,000 square foot building for manufacturing housewrap and synthetic roof underlayment; (2) a 71,500 square foot building for manufacturing coated material and sewing proprietary disposable protective apparel; (3) a 16,000 square foot facility for sewing proprietary disposable protective apparel; and (4) a 12,000 square foot rented facility for coating material. All additions have been financed by Harmony with no guarantees from the Company or its subsidiaries.

The Company assesses whether or not related entities are variable interest entities (“VIEs”). For those related entities that qualify as VIEs, the Company determines whether or not it is the primary beneficiary of the VIE, and, if so, the Company will consolidate the VIE. The Company has determined that Harmony is not a VIE and is, therefore, considered to be an unconsolidated affiliate.

The Company records its investment in Harmony as “equity investment in unconsolidated affiliate” in the accompanying condensed consolidated balance sheets. The Company records its equity interest in Harmony’s results of operations as “equity in income of unconsolidated affiliate” in the accompanying condensed consolidated statements of income. The Company periodically reviews its investment in Harmony for impairment. Management has determined that no impairment was required as of June 30, 2015.

For the three months ended June 30, 2015 and 2014, Alpha Pro Tech purchased \$5,420,000 and \$4,210,000 of inventories, respectively, from Harmony. For the six months ended June 30, 2015 and 2014, Alpha Pro Tech

purchased \$8,477,000 and \$8,468,000 of inventories, respectively, from Harmony.

For the three months ended June 30, 2015 and 2014, the Company recorded equity in income of unconsolidated affiliate of \$117,000 and \$84,000, respectively, related to Harmony. For the six months ended June 30, 2015 and 2014, the Company recorded equity in income of unconsolidated affiliate of \$215,000 and \$195,000, respectively, related to Harmony.

As of June 30, 2015, the Company's investment in Harmony was \$3,223,000, which consisted of its original \$1,450,000 investment and cumulative equity in income of unconsolidated affiliate of \$2,792,000, less \$942,000 in repayments of the advance and \$77,000 in dividends.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis together with our unaudited condensed consolidated financial statements and the notes to our unaudited condensed consolidated financial statements, which appear elsewhere in this report.

Special Note Regarding Forward-Looking Statements

Certain information set forth in this Quarterly Report on Form 10-Q contains “forward-looking statements” within the meaning of federal securities laws. Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues or performance, capital expenditures, financing needs, plans or intentions relating to potential acquisitions and other information that is not historical information. When used in this report, the words “estimates,” “expects,” “anticipates,” “forecasts,” “plans,” “intends,” “believes” and variations of such words or similar expressions are intended to identify forward-looking statements. We may make additional forward-looking statements from time to time. All forward-looking statements, whether written or oral and whether made by us or on our behalf, are expressly qualified by this special note.

Any expectations based on these forward-looking statements are subject to risks and uncertainties. These and many other factors could affect the Company’s future operating results and financial condition and could cause actual results to differ materially from expectations based on forward-looking statements made in this document or elsewhere by the Company or on its behalf.

Special Note Regarding Smaller Reporting Company Status

We are filing this report as a “smaller reporting company” (as defined in Rule 12b-2 of the Securities Exchange Act of 1934, as amended). As a result of being a smaller reporting company, we are allowed and have elected to omit certain

information from this Management's Discussion and Analysis of Financial Condition and Results of Operations; however, we have provided all information for the periods presented that we believe to be appropriate.

Where to find more information about us. We make available, free of charge, on our Internet website (<http://www.alphaprotech.com>) our most recent Annual Report on Form 10-K, our most recent Quarterly Report on Form 10-Q, any current reports on Form 8-K furnished or filed since our most recent Annual Report on Form 10-K, and any amendments to such reports, as soon as reasonably practicable following the electronic filing of such reports with the Securities and Exchange Commission ("SEC"). In addition, in accordance with SEC rules, we provide electronic or paper copies of our filings free of charge upon request.

Critical Accounting Policies

The preparation of our financial statements in conformity with US generally accepted accounting principles ("US GAAP") requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of net sales and expenses during the reported periods. We base estimates on past experience and on various other assumptions that are believed to be reasonable under the circumstances. The application of these accounting policies on a consistent basis enables us to provide timely and reliable financial information. Our critical accounting policies include the following:

Marketable Securities: The Company periodically invests a portion of its cash in excess of short-term operating needs in marketable equity securities. These investments are classified as available-for-sale in accordance with US GAAP. The Company does not have any investments classified as held-to-maturity or trading securities. Available-for-sale investments are carried at their fair value using quoted prices in active markets for identical securities, with unrealized gains and losses, net of deferred income taxes, reported as a component of accumulated other comprehensive income. Realized gains and losses, and declines in value deemed to be other-than-temporary on available-for-sale investments, are recognized in earnings. The cost of securities sold is based on the specific identification method. Investments that the Company intends to hold for more than one year are classified as long-term investments in the accompanying condensed consolidated balance sheets.

Alpha Pro Tech, Ltd.

Inventories: Inventories include freight-in, materials, labor and overhead costs and are stated at the lower of cost or market value. Allowances are recorded for slow-moving, obsolete or unusable inventory. We assess our inventory for estimated obsolescence or unmarketable inventory and write down the difference between the cost of inventory and the estimated market value based upon assumptions about future sales and quantities on hand, if necessary. If actual market conditions are less favorable than those projected by management, additional inventory write-downs may be required.

Accounts Receivable: Accounts receivable are recorded at the invoice amount and do not bear interest. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in the Company's existing accounts receivable; however, changes in circumstances relating to accounts receivable may result in a requirement for additional allowances in the future. The Company determines the allowance based upon historical write-off experience and known conditions about customers' current ability to pay. Account balances are charged against the allowance when management determines the potential for recovery is remote.

Revenue Recognition: For sales transactions, we comply with the provisions of the SEC Staff Accounting Bulletin No. 104, *Revenue Recognition*, which states that revenue should be recognized when all of the following revenue recognition criteria are met: (1) persuasive evidence of an arrangement exists; (2) title transfers and the customer assumes the risk of loss; (3) the selling price is fixed or determinable; and (4) collection of the resulting receivable is reasonably assured. These criteria are satisfied upon shipment of product, and sales are recognized accordingly.

Sales Returns, Rebates and Allowances: Sales are reduced for any anticipated sales returns, rebates and allowances based on historical experience. Since our return policy is only 90 days and our products are not generally susceptible to external factors such as technological obsolescence or significant changes in demand, we are able to make a reasonable estimate for returns. We offer end-user, product-specific and sales volume rebates to select distributors. Our rebates are based on actual sales and are accrued monthly.

Stock-Based Compensation: We record compensation expense for the fair value of stock-based payments determined on the date of grant, including employee stock options.

The fair values of stock option grants are determined using the Black-Scholes option-pricing model and are based on the following assumptions: expected stock price volatility based on historical data and management's expectations of future volatility, risk-free interest rates from published sources, expected life based on historical data and no dividend yield, as the Board of Directors has no current plans to pay dividends in the near future. The Black-Scholes option-pricing model was developed for use in estimating the fair value of traded options that have no vesting restrictions and that are fully transferable. The option-pricing model requires the input of highly subjective assumptions, including expected stock price volatility. Our stock options have characteristics significantly different from those of traded options, and changes in the subjective input assumptions can materially affect the fair value of such options.

Net income	2.4 %	7.3 %	1.9 %	5.2 %

Three and six months ended June 30, 2015 compared to three and six months ended June 30, 2014

Sales. Consolidated sales for the three months ended June 30, 2015 decreased to \$12,095,000, from \$12,252,000 for the three months ended June 30, 2014, representing a decrease of \$157,000, or 1.3%. This decrease consisted of decreased sales in the Building Supply segment of \$341,000, partially offset by increased sales in the Disposable Protective Apparel segment of \$45,000 and increased sales in the Infection Control segment of \$139,000.

Building Supply segment sales for the three months ended June 30, 2015 decreased by \$341,000, or 4.6%, to \$7,073,000, compared to \$7,414,000 for the same period of 2014. As with the first quarter of 2015, Building Supply segment sales were not as strong as anticipated due to severe weather that extended into the second quarter of 2015, which negatively affected the second quarter on both synthetic roof underlayment and housewrap products. Also affecting sales was the competitive pricing pressure in the underlayment market which has led to lower selling prices.

The Building Supply segment decrease was primarily due to a 1.0% decrease in sales of housewrap, a 0.5% decrease in sales of synthetic roof underlayment (including REX™, TECHNOply™ and our new TECHNO SB) and a decrease in sales of other woven material. The sales mix of the Building Supply segment for the three months ended June 30, 2015 was 63% for synthetic roof underlayment, 33% for housewrap and 4% for other woven material. This compared to 63% for synthetic roof underlayment, 32% for housewrap and 5% for other woven material for the three months ended June 30, 2014.

Alpha Pro Tech, Ltd.

For the three months ended June 30, 2015, our TECHNO family of synthetic roof underlayment products, (including TECHNOply™ and our new TECHNO SB) continued to show strong growth with almost double the sales of the same period of 2014. Sales of a somewhat new product, REX™ Wrap Fortis (breathable housewrap) continue to be slower than anticipated but were up 15.2% in the second quarter of 2015 as compared to the same period of 2014.

Our Building Supply segment strategy is to broaden our market share through existing products as well as through innovation. In the second quarter of 2015, we introduced a new product, TECHNO SB, which gives the Company a third synthetic roof underlayment product positioned between REX™ and TECHNOply™.

Sales for the Disposable Protective Apparel segment for the three months ended June 30, 2015 increased by \$45,000, or 1.2%, to \$3,837,000, compared to \$3,792,000 for the same period of 2014. The increase was primarily due to a significant increase in sales to our major international supply chain partner, partially offset by a decrease in sales to national and regional distributors. Second quarter sales were adversely affected by the delay of the delivery of a \$115,000 shipment that was scheduled for second quarter delivery but did not arrive before quarter end. Sales for the second quarter of 2015 would otherwise have been up 4.2%. Management expects continued growth in our Disposable Protective Apparel segment for 2015 in our Critical Cover® protective apparel product line.

Infection Control segment sales for the three months ended June 30, 2015 increased by \$139,000, or 13.3%, to \$1,185,000, compared to \$1,046,000 for the same period of 2014. Mask sales were up by 14.1%, or \$103,000, to \$835,000, and shield sales were up by 11.5%, or \$36,000, to \$350,000.

Consolidated sales for the six months ended June 30, 2015 increased to \$22,749,000, from \$22,208,000 for the six months ended June 30, 2014, representing an increase of \$541,000, or 2.4%. This increase consisted of increased sales in the Disposable Protective Apparel segment of \$329,000 and increased sales in the Infection Control segment of \$263,000, partially offset by decreased sales in the Building Supply segment of \$51,000.

Building Supply segment sales for the six months ended June 30, 2015 decreased by \$51,000, or 0.4%, to \$12,884,000, as compared to \$12,935,000 for the same period of 2014. Sales in this segment were negatively affected

primarily by severe weather in the first quarter that also spilled in the second quarter of 2015. Housewrap and synthetic roof underlayment sales were basically flat year to date as compared to the same period last year. The sales mix of the Building Supply segment for the six months ended June 30, 2015 was 62% for synthetic roof underlayment, 33% for housewrap and 5% for other woven material. This compared to 63% for synthetic roof underlayment, 33% for housewrap and 4% for other woven material for the six months ended June 30, 2014.

For the six months ended June 30, 2015, while total sales for the Building Supply segment were down slightly, our TECHNO family of synthetic roof underlayment products showed strong growth, with double the sales of the same period of 2014. Sales of REX™ Wrap Fortis (breathable housewrap) continue to be slower than anticipated but were up 11.8% for the first six months of 2015 as compared to the same period of 2014.

We are excited about two new distributor programs in the roofing market which we expect will increase sales in the latter half of 2015. In addition, we anticipate our housewrap market should continue to grow as housing and construction demand improves.

Sales for the Disposable Protective Apparel segment for the six months ended June 30, 2015 increased by \$329,000, or 4.6%, to \$7,485,000, compared to \$7,156,000 for the same period of 2014. The increase was primarily due to a significant increase in sales to our major international supply chain partner, partially offset by a decrease in sales to national and regional distributors.

Infection Control segment sales for the six months ended June 30, 2015 increased by \$263,000, or 12.4%, to \$2,380,000, compared to \$2,117,000 for the same period of 2014. Mask sales were up by 21.4%, or \$309,000, to \$1,750,000, and shield sales were down by 6.8%, or \$46,000, to \$630,000.

Alpha Pro Tech, Ltd.

Gross Profit. Gross profit decreased by \$592,000, or 13.1%, to \$3,916,000 for the three months ended June 30, 2015, from \$4,508,000 for the same period of 2014. The gross profit margin was 32.4% for the three months ended June 30, 2015, compared to 36.8% for the same period of 2014.

Gross profit decreased by \$377,000, or 4.6%, to \$7,741,000 for the six months ended June 30, 2015, from \$8,118,000 for the same period of 2014. The gross profit margin was 34.0% for the six months ended June 30, 2015, compared to 36.6% for the same period of 2014.

Gross margin was down for the three and six months ended June 30, 2015 primarily due to competitive pricing pressures and increased rebates in the Building Supply and Disposable Protective Apparel segments and increased manufacturing costs, especially in the Disposable Protective Apparel segment. Management is working to reduce product costs and is hopeful that gross margin will improve in future periods.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased by \$222,000, or 6.7%, to \$3,520,000 for the three months ended June 30, 2015, from \$3,298,000 for the three months ended June 30, 2014. As a percentage of net sales, selling, general and administrative expenses increased to 29.1% for the three months ended June 30, 2015, from 26.9% for the same period of 2014. The increase in selling, general and administrative expenses was primarily due to an increase in legal costs and an increase in sales and marketing salaries.

The change in expenses for the second quarter by segment was as follows: Building Supply was up \$45,000, or 4.0%, Disposable Protective Apparel was up \$62,000, or 6.8%, Infection Control was up \$18,000, or 14.4%, and corporate unallocated expenses were up \$97,000, or 8.6%.

Selling, general and administrative expenses increased by \$427,000, or 6.4%, to \$7,097,000 for the six months ended June 30, 2015, from \$6,670,000 for the six months ended June 30, 2014. As a percentage of net sales, selling, general and administrative expenses increased to 31.2% for the six months ended June 30, 2015, from 30.0% for the same period of 2014. The increase in selling, general and administrative expenses was primarily due to an increase in legal costs, an increase in sales and marketing salaries and an increase in foreign exchange losses due to a weaker Canadian dollar.

The change in expenses for the six months by segment was primarily as follows: Building Supply was up \$95,000, or 4.1%, Disposable Protective Apparel was up \$150,000, or 8.2%, Infection Control was up \$29,000, or 11.2%, and corporate unallocated expenses were up \$153,000, or 6.8%.

The Company's Chief Executive Officer and President are each entitled to a bonus equal to 5% of the pre-tax profits of the Company, excluding bonus expense. Executive bonuses of \$41,000 were accrued for the three months ended June 30, 2015, as compared to \$149,000 for the same period of 2014. Executive bonuses of \$61,000 were accrued for the six months ended June 30, 2015, as compared to \$188,000 for the same period of 2014.

Depreciation and Amortization. Depreciation and amortization expense decreased by \$26,000, or 14.8%, to \$150,000 for the three months ended June 30, 2015, from \$176,000 for the same period of 2014. Depreciation and amortization expense decreased by \$43,000, or 11.8%, to \$321,000 for the six months ended June 30, 2015, from \$364,000 for the same period of 2014. The decrease for the three and six months was primarily attributable to decreased depreciation for computer equipment and decreased depreciation in the Building Supply segment.

Income from Operations. Income from operations decreased by \$788,000, or 76.2%, to \$246,000 for the three months ended June 30, 2015, compared to \$1,034,000 for the three months ended June 30, 2014. The decreased income from operations was primarily due to a decrease in gross profit of \$592,000 and an increase in selling, general and administrative expenses of \$222,000, partially offset by a decrease in depreciation and amortization expense of \$26,000.

Income from operations decreased by \$761,000, or 70.2%, to \$323,000 for the six months ended June 30, 2015, compared to \$1,084,000 for the six months ended June 30, 2014. The decreased income from operations was primarily due to a decrease in gross profit of \$377,000 and an increase in selling, general and administrative expenses of \$427,000, partially offset by a decrease in depreciation and amortization expense of \$43,000.

Alpha Pro Tech, Ltd.

Other Income. Other income decreased by \$177,000 to \$131,000 for the three months ended June 30, 2015, from \$308,000 for the same period of 2014. Other income consists of equity in income of unconsolidated affiliate, gains on investments in common stock and common stock warrants, and interest income. Other income consisted of equity in income of unconsolidated affiliate of \$117,000 and interest income of \$14,000 for the three months ended June 30, 2015. Other income consisted of equity in income of unconsolidated affiliate of \$84,000, a gain on investment in common stock of \$218,000 and interest income of \$6,000 for the three months ended June 30, 2014. The \$177,000 decrease was primarily due to the \$218,000 of gains on investments in the second quarter of 2014, which were not repeated in the second quarter of 2015.

Other income decreased by \$383,000 to \$230,000 for the six months ended June 30, 2015, from \$613,000 for the same period of 2014. The \$383,000 decrease was primarily due to the \$409,000 of gains on investments in the first six months of 2014, which were not repeated in the first six months of 2015.

Income before Provision for Income Taxes. Income before provision for income taxes for the three months ended June 30, 2015 was \$377,000, compared to income before provision for income taxes of \$1,342,000 for the three months ended June 30, 2014, representing a decrease of \$965,000, or 71.9%. The decrease in income before provision for income taxes was due primarily to a decrease in income from operations of \$788,000 and a decrease in other income of \$177,000, which was mostly due to the \$218,000 of gains on investments in the second quarter of 2014 that did not repeat in 2015.

Income before provision for income taxes for the six months ended June 30, 2015 was \$553,000, compared to income before provision for income taxes of \$1,697,000 for the six months ended June 30, 2014, representing a decrease of \$1,144,000, or 67.4%. The decrease in income before provision for income taxes was due primarily to a decrease in income from operations of \$761,000 and a decrease in other income of \$383,000, which was mostly due to the \$409,000 of gains on investments in the first six months of 2014 that did not repeat in 2015.

The Company does not record a tax provision on equity in income of unconsolidated affiliate. For the six months ended June 30, 2015, the estimated effective tax rate would have been 34.6% if the equity in income of unconsolidated affiliate was taxable. Going forward, management expects the effective tax rate to be in the mid-30% range, excluding the equity in income of unconsolidated affiliate.

Net Income. Net income for the three months ended June 30, 2015 was \$288,000, compared to net income of \$895,000 for the three months ended June 30, 2014, a decrease of \$607,000, or 67.8%. As of June 30, 2015, we did not have any borrowings under this credit facility and do not anticipate using it in the near future.

Net cash used in operating activities of \$1,210,000 for the six months ended June 30, 2015 was due to net income of \$436,000, adjusted primarily by the following: amortization of stock-based compensation expense of \$11,000, depreciation and amortization of \$321,000, equity in income of unconsolidated affiliate of \$215,000, an increase in
