THE PROXY AND SOLICITATION

This Proxy Statement is being mailed on or about March 21, 2016 to the shareholders of Olympic Steel, Inc., which is referred to as the “Company”, “we,” “our” or “us,” in connection with the solicitation by the Company’s Board of Directors, which is referred to as the Board, of the enclosed form of proxy for the 2016 Annual Meeting of Shareholders, which is referred to as the Annual Meeting, to be held on April 29, 2016, at 5096 Richmond Road, Bedford Heights, Ohio 44146, at 10:00 a.m. EDT. Pursuant to the Title XVII, Chapter 1701 of the Ohio Revised Code, any shareholder signing and returning the enclosed proxy has the power to revoke it by giving notice of such revocation to the Company in writing or at the Annual Meeting before any vote with respect to the matters set forth therein is taken. The representation in person or by proxy of at least a majority of the outstanding shares of the common stock of the Company, which we refer to as the Common Stock, entitled to vote is necessary to provide a quorum at the Annual Meeting. Abstentions and broker non-votes will be counted in determining whether a quorum has been achieved.

The Company will bear the expense of preparing, printing and mailing this Proxy Statement. Although the Company has not retained a proxy solicitor to aid in the solicitation of proxies, it may do so in the future if the need arises, and does not believe that the cost of any such proxy solicitor will be material. In addition to solicitation of proxies by mail, certain Directors, officers and other employees of the Company, none of whom will receive additional compensation therefor, may solicit proxies by telephone, facsimile, electronic mail or by personal contacts. The Company will request brokers, banks and other custodians, nominees and fiduciaries to send proxy materials to beneficial owners and will, upon request, reimburse them for their out-of-pocket expenses.

PURPOSES OF ANNUAL MEETING

The Annual Meeting has been called for the purposes of: (1) electing the following Directors to the class whose two-year term will expire in 2018: David A. Wolfort, Ralph M. Della Ratta, Dirk A. Kempthorne and Howard L. Goldstein; (2) ratifying the selection of PricewaterhouseCoopers LLP, which is referred to as PwC, as the Company’s independent auditors for the year ending December 31, 2016; (3) approving, on an advisory basis, our named executive officer compensation; (4) approve the Amended and Restated Olympic Steel, Inc. 2007 Omnibus Incentive Plan; and (5) transacting such other business as may properly come before the Annual Meeting and any adjournments thereof.

The persons named in the enclosed proxy have been selected by the Board and will vote Common Stock represented by valid proxies. Unless otherwise indicated in the enclosed proxy, they intend to vote "FOR" the election of the Director-nominees named herein, "FOR" the ratification of the selection of PwC as the Company's independent auditors for the year ending December 31, 2016, "FOR" the approval, on an advisory basis, of our named executive officer compensation and "FOR" the approval of the Amended and Restated Olympic Steel, Inc. 2007 Omnibus Incentive Plan.

VOTING SECURITIES

The Board has established the close of business on March 10, 2016 as the record date for determining shareholders entitled to notice of the Annual Meeting and to vote. On that date, 10,956,178 shares of Common Stock were outstanding and entitled to one vote per share on all matters properly brought before the Annual Meeting.

PROPOSAL ONE

ELECTION OF DIRECTORS

The Board currently consists of eight members and is divided into two classes, whose members serve for a staggered, two-year term. The term of one class, which currently consists of four Directors, expires in 2017; the term of the other class, which currently consists of four Director nominees, expires at the Annual Meeting.

The Board has nominated David A. Wolfort, Ralph M. Della Ratta, Dirk A. Kempthorne and Howard L. Goldstein to be elected as Directors for a two-year term. The two-year term will end upon the election of Directors at the 2018 Annual Meeting of Shareholders.

At the Annual Meeting, the shares of Common Stock represented by valid proxies, unless otherwise specified, will be voted to elect the Director-nominees. Each individual nominated for election as a Director of the Company has agreed to serve if elected. However, if any nominee becomes unable or unwilling to serve if elected, the proxies will be voted for the election of such other person as may be recommended by the Board. The Board has no reason to believe that the persons listed as nominees will be unable or unwilling to serve.

Directors will be elected by a plurality of the votes cast at the Annual Meeting. Accordingly, abstentions and broker non-votes will have no effect in determining the outcome of the vote on the election of Directors. Certain information regarding each of the Company's current Directors, including his principal occupation and directorships during the past five years, is set forth below.

CORPORATE GOVERNANCE

BOARD MEETINGS AND COMMITTEES

The Board held four regularly scheduled meetings and two telephonic meetings in 2015. The Board has a standing Audit and Compliance Committee, Compensation Committee and Nominating Committee. The Audit and Compliance Committee, Compensation Committee and Nominating Committee held four, two and one meetings, respectively, in 2015. The committees receive their authority and assignments from, and report to, the Board.

All of the current Directors attended at least seventy-five percent of the applicable Board and committee meetings held during 2015. In addition to holding regular Board and committee meetings, the Board members and committee members also reviewed and considered matters and documents and communicated with each other apart from the meetings. Additionally, all non-management members of the Board meet separately without members of management present at every regularly scheduled Board meeting.

The Board determines the independence of each Director and each Director-nominee in accordance with the independence standards set forth in the listing requirements of the Nasdaq Stock Market, which we refer to as Nasdaq. The Board has determined that Messrs. Della Ratta, Kempthorne, Anton, Goldstein and Rippey are independent Directors, as defined in the Nasdaq listing requirements. With respect to Mr. Rippey, who, as discussed above, was the former Chairman and former President and Chief Executive Officer of ArcelorMittal USA, the Board determined that the business relationship between the Company and ArcelorMittal USA relating to the purchase of certain steel products by the Company from ArcelorMittal USA does not impair his independence. The Board has also determined that James B. Meathe, who served as Director until the 2015 Annual Meeting of Shareholders, was independent, as defined in the Nasdaq listing requirements.

Audit and Compliance Committee. The Audit and Compliance Committee is chaired by Mr. Anton and also consists of Messrs. Della Ratta and Goldstein. The Audit and Compliance Committee is responsible for monitoring and overseeing our internal controls and financial reporting processes, as well as the independent audit of our consolidated financial statements by our independent auditors. Each committee member is an “independent director” as defined in the Nasdaq listing requirements and applicable rules of the Securities and Exchange Commission, which we refer to as the SEC. Mr. Anton has been designated by the Board as the “audit committee financial expert” under SEC rules and satisfies the Nasdaq’s professional experience requirements. The Audit and Compliance Committee operates pursuant to a written charter, which can be found on our website at www.olysteel.com. Additional information on the committee and its activities is set forth in the “Audit Committee Report” below.

Compensation Committee. The Compensation Committee is chaired by Mr. Goldstein and also consists of Messrs. Rippey, Della Ratta and Anton. Each committee member is an “independent director” as defined in the Nasdaq listing requirements. The primary purposes of the Compensation Committee are to assist the Board in meeting its responsibilities with regard to oversight and determination of executive compensation and to administer our equity-based or equity-linked compensation plans, bonus plans, supplemental executive retirement plan and deferred compensation plans after consultation with management. The Compensation Committee reviews and recommends to the Board for approval the base salary, annual bonus, long-term incentive compensation and other compensation, perquisites and special or supplemental benefits for our Chief Executive Officer and other executive officers. The Compensation Committee also makes recommendations concerning our employee benefit policies and has authority to administer our equity compensation plans. The Compensation Committee has the authority to hire compensation consultants and legal, accounting, financial and other advisors, as it deems necessary to carry out its duties. Management assists the Compensation Committee in its administration of the executive compensation program by recommending individual and Company goals and by providing data regarding performance. From time to time, our Compensation Committee engages Towers Watson, a global professional services firm that provides human resources consulting services, as an outside independent compensation consultant to advise the Compensation Committee on our compensation program. In 2013, our Compensation Committee engaged Towers Watson to compare the base salaries, annual cash incentive awards and long-term compensation of our named executive officers to the compensation paid to executives in similar positions both within and outside the metal service center industry. For additional information, see below under “Executive Compensation—Compensation Discussion and Analysis—Role of Compensation Consultant.” The Compensation Committee operates pursuant to a written charter, which can be found on our website at www.olysteel.com. Additional information on the committee and its activities is set forth in the “Compensation Discussion and Analysis” and “Compensation Committee Report” below.

Nominating Committee. The Nominating Committee is chaired by Mr. Kempthorne and also consists of Messrs. Goldstein and Rippey. This committee functions to advise and make recommendations to the Board concerning the selection of candidates as nominees for Directors, including those individuals recommended by shareholders. The Nominating Committee operates pursuant to a written charter, which can be found on our website at www.olysteel.com. Each committee member is an “independent director” as defined in the Nasdaq listing requirements.

CORPORATE GOVERNANCE

Shareholder Communications. Shareholders may send written communications to the Board or any one or more of the individual Directors by mail to Olympic Steel, Inc., 22901 Millcreek Boulevard, Suite 650, Highland Hills, Ohio 44122. Any shareholder who wishes to send a written communication to any member of the Board may do so in care of our Secretary, who will forward any communications directly to the Board or the individual Director(s) specified in the communication.

Director Nominations Process. The Board's process for identifying and evaluating nominees for Director consists principally of evaluating candidates who are recommended by the Nominating Committee. The Nominating Committee also may, on a periodic basis, solicit ideas for possible candidates from a number of sources, including current members of the Board, senior level executives, individuals personally known to members of the Board and employment of one or more search firms.

Except as may be required by rules promulgated by Nasdaq or the SEC, there are currently no specific, minimum qualifications that must be met by each candidate for the Board, nor are there specific qualities or skills that are necessary for one or more of the members of the Board to possess. In evaluating the suitability of the candidates, the Nominating Committee takes into consideration such factors as it deems appropriate. These factors may include, among other things, issues of character, judgment, independence, expertise, diversity of experience, length of service and other commitments. The Nominating Committee evaluates such factors, among others, and considers each individual candidate in the context of the current perceived needs of the Board as a whole and of committees of the Board.

The Nominating Committee will consider Director candidates recommended by shareholders if properly submitted. Shareholders wishing to suggest persons for consideration as nominees for election to the Board at the 2017 Annual Meeting may do so by providing written notice to us in care of our Secretary no later than December 21, 2016. Such recommendation must include the information required of Director-nominees by our Amended and Restated Code of Regulations. Assuming that a properly submitted shareholder recommendation for a potential nominee is received and appropriate biographical and background information is provided, the Nominating Committee and the Board will follow the same process and apply the same criteria as they do for candidates submitted by other sources.

Board Leadership and Risk Oversight. Michael D. Siegal serves as both the Company's Chairman of the Board and the Company's Chief Executive Officer. The Board has no policy with respect to the separation of these offices. The Board believes that this issue is part of the succession planning process and that it is in the best interests of the Company for the Board to consider it each time that it elects the Chief Executive Officer. The Board recognizes that there may be circumstances in the future that would lead it to separate these offices, but it believes that there is no reason to do so at this time.

As both a Director and officer, Mr. Siegal fulfills a valuable leadership role that the Board believes is essential to the continued success of the Company's business operations. Mr. Siegal has served the Company in an executive role for over 30 years, and the experience and deep knowledge base he brings to both positions are invaluable. In the Board's opinion, Mr. Siegal's dual role enhances the Company's ability to coordinate long-term strategic direction with important business opportunities at the operational level and enhances his ability to provide insight and direction on important strategic initiatives impacting the Company and its shareholders to both management and the independent Directors.

In 2014, the Company created a Lead Director position, which was filled by Mr. Della Ratta. The duties of the Lead Director include, but are not limited to, the following:

presiding at all meetings of the Board at which the Chairman is not present, including executive sessions of the independent directors;

serving as a liaison between the Chairman and the independent Directors;

approving information sent to the Board;

approving meeting agendas for the Board;

approving meeting schedules to assure that there is sufficient time for discussion of all agenda items;

authority to call meetings of the independent Directors; and

if requested by major shareholders, ensuring that he is available for consultation and direct communication.

The Board generally oversees the Company's risk management directly and through the Audit and Compliance Committee. The Board regularly reviews issues that present particular risks to the Company, including those involving competition, customer demands, economic conditions, planning, strategy, finance, facilities and operations. Additionally, the Audit and Compliance Committee also reviews risks relating to the Company's financial statements and financing arrangements. The Board believes that this approach provides appropriate checks and balances against undue risk taking and that the Board's leadership structure supports its risk oversight function.

Annual Meeting Attendance. The Board does not have a formal policy with regard to Directors' attendance at the Annual Meeting. However, because a Board meeting usually precedes the Annual Meeting, all Directors are urged to attend. Last year, all Directors then serving, were present in person at the Annual Meeting.

Shareholder Approval. Our Amended and Restated Articles of Incorporation and our Amended and Restated Code of Regulations may be amended by the affirmative vote of the holders of a majority of our outstanding shares of Common Stock. Any merger involving us or the sale of all or substantially all of our assets would require the affirmative vote of the holders of a majority of our outstanding shares of Common Stock.

CODE OF ETHICS

We have adopted a Business Ethics Policy. The full text of the Business Ethics Policy is available through the "Investor Relations" section of our website under the "Corporate Governance" option at www.olysteel.com. The Business Ethics Policy applies not only to our executive and financial officers, but also to all of our employees. We intend to disclose any amendments to the Business Ethics Policy, and all waivers of the Business Ethics Policy relating to our Chairman and Chief Executive Officer, Chief Financial Officer, President and Chief Operating Officer, Vice President and Treasurer and President of CTI by posting such information on our website.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Introduction

We are a leading U.S. metals service center with over 60 years of experience. Our primary focus is on the direct sale and distribution of large volumes of processed carbon, coated, aluminum and stainless flat-rolled sheet, coil and plate products. Commencing with the July 1, 2011 acquisition of CTI, we also distribute metal tubing, pipe, bar, valves and fittings and we fabricate pressure parts supplied to various industrial markets. We operate as an intermediary between metal producers and manufacturers that require processed metal for their operations. As further discussed in this section, our compensation and benefit programs are designed to reward our employees when they help us achieve business objectives.

Our compensation philosophy remains pay-for-performance based. Our cash incentive plan emphasizes Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) and Return on Assets (ROA) in the calculation of incentives for our most senior executive officers.

At our 2015 Annual Meeting, we received approximately 92% approval for our advisory “Say-on-Pay” proposal to approve the compensation of our named executive officers. The Compensation Committee considered the 2015 voting results at its meetings and remains dedicated to continuous improvement to the existing executive pay programs. As a result of its considerations, the Compensation Committee implemented the executive pay practices described below.

The following discussion and analysis of our 2015 executive compensation program, which may include forward-looking statements, should be read together with the compensation tables and related disclosures that follow this section.

Compensation Philosophy and Objectives

The goals of our compensation program for our Chairman and Chief Executive Officer and the other executive officers named in the 2015 Summary Compensation Table, whom we refer to as our named executive officers, are to support our long-term business strategy and link our executives’ interests with those of our shareholders. We designed

the compensation program to, among other things, provide incentives for executives to help us achieve business objectives and give the Compensation Committee the flexibility necessary to reward executives for achieving those objectives. The Compensation Committee's strategy for achieving these goals is to:

provide each named executive officer with total compensation that is competitive compared to compensation for similarly situated executives in public and privately-held metal and metal-related companies, and similar-sized non-metal companies, in order to attract, motivate and retain highly qualified executives;

reward performance under a cash incentive plan that provides the potential for a substantial reward through the payment of a significant incentive that increases as our EBITDA and ROA increase, but provides reduced incentive payments during periods when EBITDA and ROA decrease; and

provide short- and long-term incentives that appropriately align the compensation interests of our executives with the investment interests of our shareholders in increasing shareholder value.

Role of Compensation Committee and Management

Our Compensation Committee is responsible for setting and administering the policies and plans that govern the base salaries, incentives and other compensation elements for our named executive officers.

Management has a minor role in helping the Compensation Committee administer the executive compensation program by recommending individual and Company performance goals, including offering suggestions for key metrics for use in our incentive program, and by providing data regarding actual performance. Otherwise, management is not involved in establishing executive compensation.

Role of Compensation Consultant

Towers Watson's role in the executive compensation program is to compare the base salaries, annual cash incentive awards and long-term compensation of our named executive officers to the compensation paid to executives in similar positions both within and outside the metal service center industry in order to provide market "benchmarks" for the Compensation Committee to assess in evaluating and determining the compensation of our named executive officers. In 2013, Towers Watson compiled this compensation data for a group of metal and metal-related companies, which we again utilized for 2015:

AM Castle & Company	BWAY Parent Company	Carpenter Technology Corp.
Gibraltar Industries, Inc.	Haynes International, Inc.	Kaman Corporation
LB Foster Co.	Mueller Water Products, Inc.	NCI Building Systems, Inc.
Northwest Pipe Co.	Quanex Building Products Corp.	RTI International Metals, Inc.
Schnitzer Steel Industries, Inc.	Valmont Industries, Inc.	Worthington Industries, Inc.

Compensation Allocation

Our executive compensation program consists of three primary components: base salary, annual cash incentive payouts and long-term compensation in the form of equity-based awards. We also provide our executives with the opportunity to participate in a 401(k) retirement and profit-sharing plan and a non-qualified defined contribution plan. Certain health, disability and life insurance and other customary fringe benefits also are available to our named executive officers, who participate in these fringe benefits on substantially the same basis as our other employees. Except for Mr. McNeeley, each named executive officer also has entered into an agreement with us that provides for certain benefits upon a change in control, as described below under "Potential Payments upon Termination or Change in Control."

In determining the relative allocation of these elements of compensation, the Compensation Committee seeks to provide an amount of long-term compensation, both in the form of equity and cash incentives, that is sufficient to align the interests of our executives with those of our shareholders, while also providing adequate short-term compensation, primarily in the form of cash, to attract and retain talented executives. The Compensation Committee takes into account various qualitative and quantitative indicators of Company and individual performance in determining the level and composition of compensation for our Chairman and Chief Executive Officer and the other named executive officers. While the Compensation Committee considers our financial and operating performance, the Compensation Committee generally does not apply any specific quantitative formula in making base salary decisions, except with respect to the cash incentive award opportunities, as described below. The Compensation Committee also appreciates the importance of achievements that may be difficult to quantify — such as individual performance — and, accordingly, recognizes qualitative factors that include successful supervision of major corporate projects and demonstrated leadership ability.

The Compensation Committee believes that the elements of the executive compensation program discussed below advance our business objectives and the interests of our shareholders by attracting and retaining the executive leadership necessary for growth and motivating our executives to increase shareholder value.

Elements of Compensation

Base Salaries. The annual base salaries of our named executive officers are based upon an evaluation of their significant contributions against established objectives as individuals and as a team, as determined by the Compensation Committee. The base salaries for Messrs. Siegal, Wolfort, Marabito and McNeeley are subject to minimum amounts established in accordance with their respective employment agreements, which are described below in “Potential Payments upon Termination or Change in Control.” As noted above, when establishing base salaries for our named executive officers, the Compensation Committee considers the cash compensation offered by companies in other metal and metal-related companies, including the peer group found in “Role of Compensation Consultant” above, and obtains the recommendations of Towers Watson and management in order to determine the range of the base salaries. As mentioned above, the Compensation Committee also considered recommendations from Mr. Siegal in determining salary levels for our other named executive officers. As discussed further in the next paragraph, the Compensation Committee reviews the base salaries of our named executive officers on an individual basis periodically, rather than annually, and determines the base salary of our named executive officers after considering the above factors and the individual’s particular talents, skills, experience, industry knowledge and functional responsibilities and duties. The Compensation Committee does not consider whether an individual named executive officer has earned any incentive compensation in prior years in determining base salaries.

The base salaries paid to our named executive officers in 2015 were reviewed and approved by the Compensation Committee, and the amounts paid are reflected in the 2015 Summary Compensation Table. Excepting the adjustment of Mr. Manson's base salary in 2014, the base salaries of our named executive officers remain unchanged from 2011. On December 31, 2015, Mr. Wolfort entered into a new employment contract whereby, effective January 1, 2016, his base salary was increased from \$700,000 to \$735,000 based upon his performance and contributions to the Company. Mr. Wolfort's last change in base pay occurred in 2011. The Compensation Committee believes that the salaries of each of our named executive officers are reasonable when measured against the range of base salaries offered by other companies in the peer group reviewed by the Compensation Committee and in light of our performance in 2015 and, as a result, did not increase salaries for our named executive officers for 2015.

Annual Cash Incentive Compensation. We believe that a significant portion of the compensation paid to our named executive officers should be based on our annual performance so that the executives are appropriately motivated to maximize our operating performance each year. We have established our Senior Management Compensation Program to provide our executives, including our named executive officers, with the opportunity to earn an annual cash incentive payout.

The Senior Manager Compensation Program was implemented to emphasize the production of EBITDA and ROA. ROA is calculated by dividing annual EBITDA by our annual average net accounts receivable, average net inventory and average net property, plant and equipment. Messrs. Siegal, Marabito, Wolfort and Manson each participate in an incentive pool that can range from 0% to 4.267% of our EBITDA, excluding the impacts of last-in, first out (LIFO) inventory adjustments. One-half of the pool is then either increased or reduced depending on our ROA performance, as compared to a targeted ROA goal of 12%.

For 2015, the Compensation Committee granted an annual cash incentive award opportunity for each of Messrs. Siegal, Marabito and Wolfort of 27.3% of the incentive pool, and Mr. Manson of 9.1% of the incentive pool. The Compensation Committee set the annual cash incentive payout amounts for Messrs. Siegal, Wolfort and Marabito, in light of their significant functional responsibilities and duties and their positions as the most senior-level executives, at three times those established for Mr. Manson. For 2015, no incentives were earned, however, as the Company did not meet minimum ROA requirements.

Mr. McNeeley receives a cash incentive that is directly tied to the ratio of CTI's actual operating profit to its budgeted operating profit. He has the opportunity to earn an annual cash incentive of up to 120% of his annual base salary. The incentive is tied to the actual operating profit of CTI as compared to budgeted operating profit. For 2015, Mr. McNeeley did not earn an annual cash incentive as minimum performance objectives were not met.

Long-Term Equity-Based Compensation. The Compensation Committee believes that equity-based compensation awards are an appropriate means of aligning the interests of our executives with those of our shareholders by rewarding our executives based on increases in the price of our Common Stock. Like base salary and the annual cash

incentive payments, award levels are set with regard to competitive considerations, and each individual's actual award is based upon the individual's job responsibilities, performance, potential for increased responsibility and contributions, leadership ability and commitment to our strategic efforts. The timing and amount of previous awards to, and held by, the executive is reviewed, but is only one factor considered by the Compensation Committee in determining the size of any equity-based award grants.

Equity-based compensation awards are granted under the Olympic Steel, Inc. 2007 Omnibus Incentive Plan, which is referred to as the Incentive Plan. The Incentive Plan authorizes us to grant stock options, stock appreciation rights, restricted shares, restricted share units, performance shares and other stock- and cash-based awards to our employees, Directors and consultants.

For more information about our Incentive Plan and awards under that plan for 2015, see the 2015 Grants of Plan-Based Awards Table, the Outstanding Equity Awards at 2015 Fiscal Year-End Table and the accompanying narratives below.

In 2011, the Board, based upon the recommendation of the Compensation Committee, approved changes to the Senior Management Compensation Program to include an equity component in order to encourage more ownership of Common Stock by members of the senior management group, including the executive officers, to better align the interests of our executives and shareholders. Starting in 2011, the Senior Management Compensation Program imposed stock ownership requirements upon the executives. Each executive is required to own at least 750 shares of Common Stock for each year that the executive participates in the Senior Management Compensation Program. Any executive that fails to meet the stock ownership requirements will be ineligible to receive any equity awards under the Company's equity compensation plans, including the Incentive Plan, until the executive satisfies the ownership requirements. To assist executives in meeting the stock ownership requirements, on an annual basis, if a participant purchases 500 shares of Common Stock on the open market, the Company will award that participant 250 shares of Common Stock. Additionally, any executive who continues to comply with the stock ownership requirements as of the five-year, 10-year, 15-year, 20-year and 25-year anniversaries of the participant's participation in the Senior Management Compensation Program will receive a restricted stock unit award with a dollar value of \$25,000, \$50,000, \$75,000, \$100,000 and \$100,000, respectively. Restricted stock unit awards will convert into the right to receive shares of Common Stock upon an executive's retirement, or earlier upon the executive's death or disability or upon a change in control of the Company.

During 2015, each of our named executive officers met the requirements of the Senior Management Compensation Program and received 250 shares of Common Stock. Messrs. Siegal, Wolfort, Marabito and Manson each earned their first \$25,000 of restricted stock unit awards on January 1, 2016.

Personal Benefits and Perquisites. Our named executive officers also are eligible to receive other benefits, which the Compensation Committee believes are commensurate with the types of benefits and perquisites provided to other similarly situated executives, as determined based on the Compensation Committee's review of information supplied by Towers Watson. The Compensation Committee believes these benefits are set at a reasonable level, are highly valued by recipients, have limited cost, are part of a competitive compensation program and are useful in attracting and retaining qualified executives. They are not tied to our performance. These benefits consist of medical, dental, disability and life insurance benefits and 401(k) and profit-sharing plan contributions, pursuant to plans that are generally available to our employees. Perquisites consist of a car allowance, cell phone allowance, reimbursement for personal tax preparation and financial services fees and payment of country club dues.

Retirement and Post-Employment Benefits. We provide our executives with certain post-employment and severance benefits as summarized below and further described in "Potential Payments upon Termination or Change in Control." The Compensation Committee believes these benefits are vital to attract and retain qualified executives. These benefits provide the executives with the opportunity to address long-term financial planning with a greater degree of certainty, and also address our interest in continuing to motivate executives in the event of corporate instability, such as a change of control or unforeseen industry changes.

We provide the named executive officers with the opportunity to participate in our Supplemental Executive Retirement Plan, which is a non-qualified defined contribution savings plan. Under the Supplemental Executive

Retirement Plan, we provide an annual contribution for each participating executive, a portion of which is based only on the participant's continued service with us, and an additional amount that is dependent on our return on invested capital for the applicable year. Each of these contribution components is referenced as a specified percentage of the executive's base salary and cash incentive award amount for the year. We provide an annual contribution for Mr. Manson based on his continued service with us. He does not receive an additional contribution based on our return on invested capital.

In addition, each of the members of our senior management group, including our named executive officers, also may participate in our Executive Deferred Compensation Plan, a non-qualified voluntary contributory savings plan under which a participant may defer all or any portion of his or her annual incentive award and up to 90% of his or her base salary into one or more investment options that are the same as those available to all of our employees who participate under our 401(k) plan. The Supplemental Executive Retirement Plan and the Executive Deferred Compensation Plan are further described below under the 2015 Non-Qualified Deferred Compensation Table.

To ensure the continuity of corporate management and the continued dedication of key executives during any period of uncertainty caused by a possible change in control, we entered into management retention agreements with each of our named executive officers, except Mr. McNeeley, that provide for the payment and provision of certain benefits if there is a change of control of the Company and a termination of the executive's employment with the surviving entity within a certain period after the change in control. We also have entered into employment agreements with Messrs. Siegal, Wolfort, Marabito and McNeeley that provide for the payment of certain severance benefits upon termination of employment other than after a change in control of the Company. These agreements help ensure that our executive's interests remain aligned with those of our shareholders during any time when an executive's continued employment may be in jeopardy. They also provide some level of income continuity should an executive's employment be terminated without cause. In December 2014, we amended the management retention agreements of Messrs. Siegal and Wolfort to eliminate the so-called "walk at will" provision, which provision generally provided the officer with the right, following a change in control of the Company, to terminate the officer's employment with the Company for any reason, or no reason, within the 12-month period commencing with the date of the change in control and still receive certain severance payments and benefits as provided for under the terms of the management retention agreements. These agreements are further described under "Potential Payments upon Termination or Change in Control" below.

Other Compensation Policies

Effect of Section 162(m) of the Internal Revenue Code. Section 162(m) of the Internal Revenue Code denies a publicly held corporation a federal income tax deduction for compensation in excess of \$1,000,000 in a taxable year paid to each of its chief executive officer and certain other highly compensated executive officers, other than its chief financial officer. Certain “performance-based” compensation, such as stock options awarded at fair market value, is not subject to the limitation on deductibility provided that certain shareholder approval and independent director requirements are met. To the extent consistent with our compensation policies and the Compensation Committee’s assessment of the interests of shareholders, we seek to design our executive compensation programs to preserve our ability to deduct compensation paid to executives under these programs. However, the Compensation Committee also weighs the burdens of such compliance against the benefits to be obtained by us and may pay compensation that is not deductible or fully deductible if it determines that such payments are in our best interests. For example, bonuses paid under our Senior Management Compensation Program historically were not intended to satisfy the requirements for the performance-based compensation exemption from Section 162(m). The Compensation Committee has determined, however, that, to the extent practicable in view of its compensation philosophy, it will seek to structure our cash bonuses to satisfy the requirements for the performance-based exemption from Section 162(m). Therefore, we have adopted the Incentive Plan pursuant to shareholder approval and intend to award future cash bonuses under the plan as we believe that such bonuses paid to executives in accordance with the plan will qualify for the exemption for performance-based compensation.

Section 409A of the Internal Revenue Code. Section 409A of the Internal Revenue Code generally provides that arrangements involving the deferral of compensation that do not comply in form and operation with Section 409A or are not exempt from Section 409A are subject to increased tax, penalties and interest. If a deferred compensation arrangement does not comply with, or is not exempt from, Section 409A, employees may be subject to accelerated or additional tax, or interest or penalties, with respect to the compensation. The Compensation Committee believes that deferred compensation arrangements that do not comply with Section 409A would be of significantly diminished value to our executives. Accordingly, we intend to design our future deferred compensation arrangements, and have amended our previously adopted deferred compensation arrangements, to comply with Section 409A.

Clawback Policy. Although clawbacks are not yet required under the Dodd-Frank Wall Street Reform and Consumer Protection Act, each of our current employment agreements with Messrs. Siegal, Wolfort, Marabito and McNeeley includes a provision that requires the named executive officer, in the event we are required to restate our financial statements, to reimburse the Company for the difference between any bonus actually paid and the bonus payable under the restated financial statements. When final regulations are promulgated by the SEC with respect to clawbacks, we expect to implement a formal clawback policy for our named executive officers. The Compensation Committee believes that a clawback policy represents an important protection for shareholders and is viewed favorably from a corporate governance standpoint.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management. Based on this review and discussion, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in our Annual Report on Form 10-K for the year ended December 31, 2015 and this Proxy Statement.

This report is submitted on behalf of the members of the Compensation Committee:

Howard L. Goldstein, Chairman

Ralph M. Della Ratta

Arthur F. Anton

Michael G. Rippey

Risk Profile of Compensation Programs. The Compensation Committee believes that the Company's executive compensation program has been designed to provide the appropriate level of incentives that do not encourage our executive officers to take unnecessary risks in managing our business. As discussed above, a majority of our executive officers' compensation is performance-based, consistent with our executive compensation policy. Our Senior Management Compensation Program is designed to reward annual financial and/or strategic performance in areas considered critical to the short- and long-term success of the Company. In addition, our Incentive Plan awards are directly aligned with long-term shareholder interests through their link to our stock price and longer-term performance periods. In combination, the Compensation Committee believes that the various elements of the Senior Management Compensation Program and the Incentive Plan sufficiently tie our executives' compensation opportunities to the Company's sustained long-term performance.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During 2015, the following individuals served as members of the Compensation Committee: Messrs. Goldstein, Della Ratta, Anton, and Rippey. None of the members of the Compensation Committee during 2015 is (or ever was) an officer or employee of the Company or any of its subsidiaries. There are no Compensation Committee interlocks as defined by applicable SEC rules.
