NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in Millions Except Share and Per Share Amounts)

(Unaudited)

1. Basis of Presentation

The Condensed Consolidated Financial Statements reflect all normal recurring adjustments which, in management's opinion, are necessary for a fair statement of the results for interim periods. Results of operations for interim periods may not be representative of results to be expected for a full year. Certain prior year amounts have been reclassified to conform to the current year presentation.

For a complete set of financial statement notes, including the significant accounting policies of Colgate-Palmolive Company (together with its subsidiaries, the "Company" or "Colgate"), refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2012, filed with the Securities and Exchange Commission.

2. Use of Estimates

Provisions for certain expenses, including income taxes, media advertising and consumer promotion, are based on full year assumptions and are included in the accompanying Condensed Consolidated Financial Statements in proportion with estimated annual tax rates, the passage of time or estimated annual sales.

3. Recent Accounting Pronouncements

In July 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2013-10 "Inclusion of the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedge Accounting Purposes". ASU No. 2013-10 permits the Fed Funds Effective Swap Rate to be used as a benchmark interest rate for hedge accounting purposes and eliminates the restriction on using different benchmark interest rates for similar hedges. The new guidance is effective immediately and can be applied prospectively for qualifying new or redesignated hedging relationships entered into on or after July 17, 2013. This new guidance is not expected to have a material impact on the Company's financial position or results of operations.

In July 2013, the FASB issued ASU No. 2013-11 "Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists". ASU No. 2013-11 requires an entity to net its liability for unrecognized tax benefits against the deferred tax assets for all same jurisdiction net operating losses or similar tax loss carryforwards, or tax credit carryforwards. A gross presentation will be required only if such carryforwards are not available as of reporting date to settle any additional income taxes resulting from disallowance of the uncertain tax position or the entity does not intend to use these carryforwards for this purpose. The new guidance is effective on a prospective basis for fiscal years beginning after December 15, 2013 and interim periods within those years. This new guidance is not expected to have a material impact on the Company's financial position or results of operations.

4. Acquisitions and Divestitures

Sale of Land in Mexico

On September 13, 2011, the Company's Mexican subsidiary entered into an agreement to sell to the United States of America the Mexico City site on which its commercial operations, technology center and soap production facility are located. The sale price is payable in three installments, with the final installment due upon the transfer of the property, which is expected to occur in 2014. During the third quarter of 2011, the Company received the first installment of \$24 upon signing the agreement. During the third quarter of 2012, the Company received the second installment of \$36. The Company is re-investing these payments to relocate its soap production to a new state-of-the-art facility to be constructed at its Mission Hills, Mexico site, to relocate its commercial and technology operations within Mexico City and to prepare the existing site for transfer. As a result, the Company expects to make capital improvements and incur costs to exit the site through 2014. These exit costs will primarily be related to staff leaving indemnities, accelerated depreciation and demolition to make the site building-ready. During the three months ended September 30, 2013 and 2012, the Company incurred \$3 and \$7 of pretax costs (\$2 and \$5 of aftertax costs), respectively, related to the sale. During the nine months ended September 30, 2013 and 2012, the Company incurred \$14 and \$20 of pretax costs (\$9 and \$15 of aftertax costs), respectively, related to the sale.

## 5. Restructuring and Related Implementation Charges

In the fourth quarter of 2012, the Company commenced a four-year Global Growth and Efficiency Program (the 2012 Restructuring Program) for sustained growth. The program's initiatives are expected to help Colgate ensure continued solid worldwide growth in unit volume, organic sales and earnings per share and enhance its global leadership positions in its core businesses.

Implementation of the 2012 Restructuring Program is projected to result in cumulative pretax charges, once all phases are approved and implemented, totaling between \$1,100 and \$1,250 (\$775 and \$875 aftertax), which are currently estimated to be comprised of the following categories: Employee-Related Costs, including severance, pension and other termination benefits (50%); asset-related costs, primarily Incremental Depreciation and Asset Impairments (15%); and Other charges, which include contract termination costs, consisting primarily of implementation-related charges resulting directly from exit activities (20%) and the implementation of new strategies (15%). Due to the acceleration of the implementation of certain program initiatives, the anticipated pretax charges for 2013 increased to approximately \$365 to \$390 (\$290 to \$305 aftertax) from approximately \$260 to \$310 (\$185 to \$220 aftertax) with no change to the amount of expected total program charges. Over the course of the 2012 Restructuring Program, it is estimated that approximately 75% of the charges will result in cash expenditures.

It is expected that the cumulative pretax charges, once all projects are approved and implemented, will relate to initiatives undertaken in North America (15%), Europe/South Pacific (20%), Latin America (5%), Asia (5%), Africa/Eurasia (5%), Hill's Pet Nutrition (10%) and Corporate (40%), which includes substantially all of the costs related to the implementation of new strategies, noted above, on a global basis.

For the three and nine months ended September 30, 2013, restructuring and implementation-related charges are reflected in the income statement as follows:

	Three Months Ended September 30, 2013	Nine Months Ended September 30, 2013
Cost of sales	\$8	\$26
Selling, general and administrative expenses	9	31
Other (income) expense, net	13	141
Total 2012 Restructuring Program charges, pretax	\$30	\$198
Total 2012 Restructuring Program charges, aftertax	\$22	\$153

Restructuring and related implementation charges in the preceding table are recorded in the Corporate segment as these initiatives are predominantly centrally directed and controlled and are not included in internal measures of segment operating performance. Total charges for the 2012 Restructuring Program for the three months ended September 30, 2013 relate to initiatives undertaken in North America (13%), Europe/South Pacific (22%), Latin America (6%), Hill's Pet Nutrition (29%) and Corporate (30%). Total charges for the 2012 Restructuring Program for the nine months ended September 30, 2013 relate to initiatives undertaken in North America (20%), Europe/South Pacific (35%), Latin America (6%), Africa/Eurasia (4%), Hill's Pet Nutrition (8%) and Corporate (27%). Total program-to-date accumulated charges for the 2012 Restructuring Program relate to initiatives undertaken in North America (14%), Europe/South Pacific (42%), Latin America (4%), Africa/Eurasia (3%), Hill's Pet Nutrition (6%) and Corporate (31%).

 (Dollars in Millions Except Share and Per Share Amounts)  
 (Unaudited)

Since the inception of the 2012 Restructuring Program in the fourth quarter of 2012, the Company has incurred pretax cumulative charges of \$287 (\$223 aftertax) in connection with the implementation of various projects as follows:

	Cumulative Charges as of September 30, 2013
Employee-Related Costs	\$169
Incremental Depreciation	20
Asset Impairments	1
Other	97
Total	\$287

The majority of costs incurred since inception relate to the following projects: the closing of the Morristown, New Jersey personal care facility; the simplification and streamlining of the Company's research and development capabilities and oral care supply chain, both in Europe; other exit costs related to office consolidation; and the restructuring of certain commercial operations in advance of implementing an overall hubbing strategy.

The following tables summarize the activity for the restructuring and implementation-related charges discussed above and the related accrual:

	Three Months Ended September 30, 2013					
	Employee-Related Costs	Incremental Depreciation	Asset Impairments	Other	Total	
Balance at June 30, 2013	\$141	\$—	\$—	\$31	\$172

Foreign exchange	—	—	—	—	—	
Balance at September 30, 2013	\$106	\$—	\$—	\$40	\$146	

Employee-related costs primarily include severance and other termination benefits and are calculated based on long-standing benefit practices, local statutory requirements and, in certain cases, voluntary termination arrangements. Employee-related costs also include pension and other retiree benefit enhancements amounting to \$17 for the nine months ended September 30, 2013, which are reflected as Charges against assets within Employee-related costs in the preceding tables as the corresponding balance sheet amounts are reflected as a reduction of pension assets or an increase in pension and other retiree benefit liabilities.

Incremental depreciation is recorded to reflect changes in useful lives and estimated residual values for long-lived assets that will be taken out of service prior to the end of their normal service period. Asset impairments are recorded to write

down assets held for sale or disposal to their fair value based on amounts expected to be realized. Asset impairments are net of cash proceeds pertaining to the sale of certain assets.

Other charges consist primarily of implementation-related charges resulting directly from exit activities and the implementation of new strategies as a result of the 2012 Restructuring Program. These charges for the three and nine months ended September 30, 2013 included third-party incremental costs related to the development and implementation of new business and strategic initiatives of \$11 and \$35, respectively, and contract termination costs of \$8 and \$27, respectively, directly related to the 2012 Restructuring Program. These charges were expensed as incurred. These charges, for the nine months ended September 30, 2013, also included a charge for other exit costs related to office space consolidation of \$24.

## 6. Inventories

For the nine months ended September 30, 2013 and 2012, the average number of stock options and restricted stock awards that were anti-dilutive and not included in diluted earnings per share calculations were 703,219 and 1,259,888, respectively.

As a result of the two-for-one stock split effective May 15, 2013, see Note 9, Common Stock Split, all historical per share data and number of shares were retroactively adjusted. Basic and diluted earnings per share were computed independently for each quarter and the year-to-date period presented. As a result of the stock split, changes in shares outstanding during the year and rounding, the sum of the quarters' earnings per share may not necessarily equal the earnings per share for the year-to-date period.

## 9. Common Stock Split

On March 7, 2013, the Company's Board of Directors approved a two-for-one stock split of the Company's common stock to be effected through a 100% stock dividend. The record date for the two-for-one split was the close of business on April 23, 2013, and the share distribution occurred on May 15, 2013. As a result of the split, shareholders received

one additional share of Colgate common stock, par value \$1.00, for each share they held as of the record date. All per share amounts and number of shares outstanding in these Condensed Consolidated Financial Statements and Notes to the Condensed Consolidated Financial Statements are presented on a post-split basis. In addition, the impact on the Balance Sheet as a result of the stock split was an increase of \$733 to Common Stock and an offsetting reduction in Additional paid-in capital, which has been retroactively restated.

## 12. Contingencies

As a global company serving consumers in more than 200 countries and territories, the Company is routinely subject to a wide variety of legal proceedings. These include disputes relating to intellectual property, contracts, product liability, marketing, advertising, foreign exchange controls, antitrust and trade regulation, as well as labor and employment, environmental and tax matters. Management proactively reviews and monitors the Company's exposure to, and the impact of, environmental matters. The Company is party to various environmental matters and, as such, may be responsible for all or a portion of the cleanup, restoration and post-closure monitoring of several sites.

As a matter of course, the Company is regularly audited by the IRS and other tax authorities around the world in countries where it conducts business. In this regard, all U.S. federal income tax returns through December 31, 2007 have been audited by the IRS and there are limited matters in administrative appeals for years 2002 through 2007, the settlement of which is not expected to have a material adverse effect on the Company's results of operations, cash flows or financial condition. With a few exceptions, the Company is no longer subject to U.S., state and local income tax examinations for the years prior to 2007. In addition, the Company has subsidiaries in various foreign jurisdictions that have statutes of limitations for tax audits generally ranging from three to six years. Estimated incremental tax payments related to potential disallowances for subsequent periods are not expected to be material.

The Company establishes accruals for loss contingencies when it has determined that a loss is probable and that the amount of loss, or range of loss, can be reasonably estimated. Any such accruals are adjusted thereafter as appropriate to reflect changes in circumstances.

The Company also determines estimates of reasonably possible losses or ranges of reasonably possible losses in excess of related accrued liabilities, if any, when it has determined that a loss is reasonably possible and it is able to determine such estimates. For those matters disclosed below, the Company currently estimates that the aggregate range of reasonably possible losses in excess of any accrued liabilities is \$0 to approximately \$250 (based on current exchange rates). The estimates included in this amount are based on the Company's analysis of currently available

information and, as new information is obtained, these estimates may change. Due to the inherent subjectivity of the assessments and the unpredictability of outcomes of legal proceedings, any amounts accrued or included in this aggregate amount may not represent the ultimate loss to the Company from the matters in question. Thus, the Company's exposure and ultimate losses may be higher or lower, and possibly significantly so, than the amounts accrued or the range disclosed above.

Based on current knowledge, management does not believe that the ultimate resolution of loss contingencies arising from the matters discussed herein will have a material effect on the Company's consolidated financial position or its ongoing

COLGATE-PALMOLIVE COMPANY

(Unaudited)

results of operations or cash flows. However, in light of the inherent uncertainties noted above, an adverse outcome in one or more of these matters could be material to the Company's results of operations or cash flows for any particular quarter or year.

Brazilian Matters

In 2001, the Central Bank of Brazil sought to impose a substantial fine on the Company's Brazilian subsidiary based on alleged foreign exchange violations in connection with the financing of the Company's 1995 acquisition of the Kolynos oral care business from Wyeth (formerly American Home Products) (the Seller), as described in the Company's Form 8-K dated January 10, 1995. The Company appealed the imposition of the fine to the Brazilian Monetary System Appeals Council (the Council) and, on January 30, 2007, the Council decided the appeal in the Company's favor, dismissing the fine entirely. However, certain tax and civil proceedings related to the same acquisition of the Kolynos oral care business are still outstanding as described below.

The Brazilian internal revenue authority has disallowed interest deductions and foreign exchange losses taken by the Company's Brazilian subsidiary for certain years in connection with the financing of the Kolynos acquisition. The tax assessments with interest, at the current exchange rate, are approximately \$120. The Company has been disputing the disallowances by appealing the assessments within the internal revenue authority's appellate process with the following results to date:

In June 2005, the First Board of Taxpayers ruled in the Company's favor and allowed all of the previously claimed deductions for 1996 through 1998. In March 2007, the First Board of Taxpayers ruled in the Company's favor and allowed all of the previously claimed deductions for 1999 through 2001. The tax authorities appealed these decisions to the next administrative level.

In August 2009, the First Taxpayers' Council (the next and final administrative level of appeal) overruled the decisions of the First Board of Taxpayers, upholding the majority of the assessments, disallowing a portion of the assessments and remanding a portion of the assessments for further consideration by the First Board of Taxpayers.

The Company has filed a motion for clarification with a special appeals chamber of the Taxpayers' Council and further appeals are available within the Brazilian federal courts. The Company intends to challenge these assessments vigorously. Although there can be no assurances, management believes, based on the opinion of its Brazilian legal counsel and other advisors, that the disallowances are without merit and that the Company should ultimately prevail on appeal, if necessary, in the Brazilian federal courts.

In 2002, the Brazilian Federal Public Attorney filed a civil action against the federal government of Brazil, Laboratorios Wyeth-Whitehall Ltda. (the Brazilian subsidiary of the Seller) and the Company, as represented by its Brazilian subsidiary, seeking to annul an April 2000 decision by the Brazilian Board of Tax Appeals that found in favor of the Seller's Brazilian subsidiary on the issue of whether it had incurred taxable capital gains as a result of the divestiture of Kolynos. The action seeks to make the Company's Brazilian subsidiary jointly and severally liable for any tax due from the Seller's Brazilian subsidiary. Although there can be no assurances, management believes, based on the opinion of its Brazilian legal counsel, that the Company should ultimately prevail in this action. The Company intends to challenge this action vigorously.

In December 2005, the Brazilian internal revenue authority issued to the Company's Brazilian subsidiary a tax assessment with interest and penalties of approximately \$75, at the current exchange rate, based on a claim that certain purchases of U.S. Treasury bills by the subsidiary and their subsequent disposition during the period 2000 to 2001

were subject to a tax on foreign exchange transactions. The Company is disputing the assessment within the internal revenue authority's administrative appeals process. In October 2007, the Second Board of Taxpayers, which has jurisdiction over these matters, ruled in favor of the internal revenue authority. In January 2008, the Company appealed this decision, and in January 2012, a special appeals chamber of the Taxpayers' Council denied the Company's appeal. The Company has filed a motion for clarification with a special appeals chamber of the Taxpayers' Council and further appeals are available within the Brazilian federal courts. Although there can be no assurances, management believes, based on the advice of its Brazilian legal counsel, that the tax assessment is without merit and that the Company should prevail on appeal, if not at the administrative level, in the Brazilian federal courts. The Company intends to challenge this assessment vigorously.

### European Competition Matters

Since February 2006, the Company has learned that investigations relating to potential competition law violations involving the Company's subsidiaries had been commenced by governmental authorities in a number of European countries and by the European Commission. The Company understands that substantially all of these investigations also involve other consumer goods companies and/or retail customers. The status of the various pending matters is discussed below.

Fines have been imposed on the Company in the following matters, although, as noted below, the Company has appealed each of these fines:

In December 2009, the Swiss competition law authority imposed a fine of \$6 on the Company's GABA subsidiary for alleged violations of restrictions on parallel imports into Switzerland. The Company is appealing the fine in the Swiss courts.

In January 2010, Colgate's Spanish subsidiary was fined \$3 by the Spanish competition law authority on the basis that it had entered an agreement with other shower gel manufacturers regarding product downsizing, which the Company contested. The fine was annulled by the Court of Appeal in July 2013. The Spanish competition law authority is appealing this judgment before the Supreme Court.

In December 2010, the Italian competition law authority found that 16 consumer goods companies, including the Company's Italian subsidiary, exchanged competitively sensitive information in the cosmetics sector, for which the Company's Italian subsidiary was fined \$3. The Company is appealing the fine in the Italian courts.

In December 2011, the French competition law authority found that four consumer goods companies had entered into agreements on pricing and promotion of heavy duty detergents for which Colgate's French subsidiary was fined \$46 in connection with a divested business. The Company is appealing the fine in the French courts.

In March 2012, the French competition law authority found that three pet food producers, including the Company's Hill's France subsidiary, had violated the competition law, for which it imposed a fine of \$7 on the Company's Hill's France subsidiary for alleged restrictions on exports from France, which the Company contested. In October 2013, the Company's appeal was denied. The Company is evaluating whether to pursue further appeals.

Currently, formal claims of violations, or statements of objections, are pending against the Company as follows:

The Belgian competition law authority has alleged that 11 branded goods companies, including the Company's Belgian subsidiary, assisted retailers to coordinate their retail prices on the Belgian market. The Company is in the process of responding to this statement of objections.

In the second quarter of 2013, the French competition law authority issued a statement of objections alleging that the Company's French subsidiary and a number of its competitors exchanged sensitive information related to the French home care and personal care sectors. The Company has responded to this statement of objections.

An investigation is ongoing in Greece, but no formal claim of violations has been filed.

Since December 31, 2012, the following matter has been resolved:

In March 2013, the German competition authority completed its investigation and no penalties were imposed against the Company or its German subsidiary.

The Company's policy is to comply with antitrust and competition laws and, if a violation of any such laws is found, to take appropriate remedial action and to cooperate fully with any related governmental inquiry. The Company has

undertaken a comprehensive review of its selling practices and related competition law compliance in Europe and elsewhere and, where the Company has identified a lack of compliance, it has undertaken remedial action. Competition and antitrust law investigations often continue for several years and can result in substantial fines for violations that are found. While the Company cannot predict the final financial impact of these competition law issues as these matters may change, the Company evaluates developments in these matters quarterly and accrues liabilities as and when appropriate.

### ERISA Matters

In October 2007, a putative class action claiming that certain aspects of the cash balance portion of the Colgate-Palmolive Company Employees' Retirement Income Plan (the Plan) do not comply with the Employee Retirement Income Security Act was filed against the Plan and the Company in the United States District Court for the Southern District of New York. Specifically, Proesel, et al. v. Colgate-Palmolive Company Employees' Retirement Income Plan, et al. alleges improper calculation of lump sum distributions, age discrimination and failure to satisfy minimum accrual requirements, thereby resulting in the underpayment of benefits to Plan participants.

Two other putative class actions filed earlier in 2007, Abelman, et al. v. Colgate-Palmolive Company Employees' Retirement Income Plan, et al., in the United States District Court for the Southern District of Ohio, and Caufield v. Colgate-Palmolive Company Employees' Retirement Income Plan, in the United States District Court for the Southern District of Indiana, both alleging improper calculation of lump sum distributions and, in the case of Abelman, claims for failure to satisfy minimum accrual requirements, were transferred to the Southern District of New York and consolidated with Proesel into one action, In re Colgate-Palmolive ERISA Litigation. The complaint in the consolidated action alleges improper calculation of lump sum distributions and failure to satisfy minimum accrual requirements, but does not include a claim for age discrimination. The relief sought includes recalculation of benefits in unspecified amounts, pre- and post-judgment interest, injunctive relief and attorneys' fees. In October 2013, the parties executed a settlement agreement under which the Plan would pay approximately \$40 after application of certain offsets to resolve the litigation. The settlement agreement is subject to court approval. On October 9, 2013, a motion for preliminary approval of a class action settlement, class certification and appointment of class counsel was filed. The Company and the Plan intend to contest this action vigorously should the settlement not be approved and finalized.

### 13. Segment Information

The Company has made certain changes in its segment reporting affecting several of the geographic operating segments within its Oral, Personal and Home Care product segment. These changes have no impact on the Company's historical consolidated financial position, results of operations or cash flows.

Effective January 1, 2013, the Company realigned the geographic structure of its North America and Latin America reportable operating segments. In order to better leverage Latin America management's knowledge of emerging market consumers to accelerate growth in the region, management responsibility for the Puerto Rico and CARICOM operations was transferred from North America to Latin America management. Accordingly, commencing with the Company's financial reporting for the quarter ended March 31, 2013, the results of the Puerto Rico and CARICOM operations, which represent less than 1% of the Company's global business, were reported in the Latin America reportable operating segment. Previously, Puerto Rico and CARICOM represented approximately 4% of Net sales of North America and now represent approximately 3% of Net sales of Latin America.

In addition, given the growing importance of the Company's operations in emerging markets, effective with the quarter ended September 30, 2013, the Company is separately reporting financial information for its Asia and Africa/Eurasia operating segments. Previously, the financial information for these operating segments was aggregated into the Greater Asia/Africa reportable operating segment.

The Company has recast its historical geographic segment information to conform to the new reporting structure which results in modification to the geographic components of the Oral, Personal and Home Care segment, with no impact on historical Company results overall.

The Company evaluates segment performance based on several factors, including Operating profit. The Company uses Operating profit as a measure of the operating segment performance because it excludes the impact of corporate-driven decisions related to interest expense and income taxes. Corporate operations include costs related to stock options and restricted stock awards, research and development costs, Corporate overhead costs, restructuring and related implementation costs and gains and losses on sales of non-core product lines and assets. The Company reports these items within Corporate operations as they relate to Corporate-based responsibilities and decisions and are not included in the

14. Fair Value Measurements and Financial Instruments

The Company uses available market information and other valuation methodologies in assessing the fair value of financial instruments. Judgment is required in interpreting market data to develop the estimates of fair value and, accordingly, changes in assumptions or the estimation methodologies may affect the fair value estimates. The Company is exposed to credit losses in the event of nonperformance by counterparties to financial instrument contracts; however, nonperformance is considered unlikely as it is the Company's policy to contract only with diverse, credit-worthy counterparties based upon both strong credit ratings and other credit considerations.

The Company is exposed to market risk from foreign currency exchange rates, interest rates and commodity price fluctuations. Volatility relating to these exposures is managed on a global basis by utilizing a number of techniques, including working capital management, supplier agreements, selling price increases, selective borrowings in local currencies and entering into selective derivative instrument transactions, issued with standard features, in accordance with the Company's treasury and risk management policies, which prohibit the use of derivatives for speculative purposes and leveraged derivatives for any purpose. It is the Company's policy to enter into derivative instrument contracts with terms that match the underlying exposure being hedged. Hedge ineffectiveness, if any, is not material for any period presented.

The Company's derivative instruments include interest rate swap contracts, foreign currency contracts and commodity contracts. The Company utilizes interest rate swap contracts to manage its targeted mix of fixed and floating rate debt, and these swaps are valued using observable benchmark rates (Level 2 valuation). Foreign currency contracts consist of forward, option and swap contracts utilized to hedge a portion of the Company's foreign currency purchases, assets and liabilities arising in the normal course of business as well as the net investment in certain foreign subsidiaries. These contracts are valued using observable market rates (Level 2 valuation). Commodity futures contracts are utilized to hedge the purchases of raw materials used in the Company's operations. These contracts are measured using quoted commodity exchange prices (Level 1 valuation). The duration of foreign currency and commodity contracts generally does not exceed twelve months.

Total other financial instruments		\$822	\$734			

The carrying amount of cash, cash equivalents, accounts receivable and short-term debt approximated fair value as of September 30, 2013 and December 31, 2012. The estimated fair value of the Company's long-term debt, including the current portion, as of September 30, 2013 and December 31, 2012, was \$5,465 and \$5,484, respectively, and the related carrying value was \$5,265 and \$5,176, respectively. The estimated fair value of long-term debt was derived principally from quoted prices on the Company's outstanding fixed-term notes (Level 2 valuation).

#### Fair value hedges

The Company has designated all interest rate swap contracts and certain foreign currency forward and option contracts as fair value hedges, for which the gain or loss on the derivative and the offsetting loss or gain on the hedged item are recognized in current earnings. The impact of foreign currency contracts is recognized in Selling, general and administrative expenses and the impact of interest rate swap contracts is recognized in Interest expense, net.

The net gain (loss) recognized in OCI for both foreign currency contracts and commodity contracts is expected to be recognized in Cost of sales within the next twelve months.

#### Net investment hedges

The Company has designated certain foreign currency forward contracts, option contracts and foreign currency-denominated debt as net investment hedges, for which the gain or loss on the instrument is reported as a

component of Currency translation adjustments within OCI, along with the offsetting gain or loss on the hedged items.

## Other Financial Instruments

Other financial instruments are classified as Other current assets or Other assets.

Other financial instruments classified as Other current assets include marketable securities, which consist of bank deposits of \$122 with original maturities greater than 90 days (Level 1 valuation) and the current portion of bonds issued by the Venezuelan government (Level 2 valuation) in the amount of \$24. The long-term portion of these bonds in the amount of \$676 is included in Other assets.

Through its subsidiary in Venezuela, the Company is invested in U.S. dollar-linked, devaluation-protected bonds and fixed interest rate bonds, both of which are issued by the Venezuelan government. These bonds are actively traded and, therefore, are considered Level 2 investments as their values are determined based upon observable market-based

inputs or unobservable inputs that are corroborated by market data. As of September 30, 2013, the U.S. dollar-linked, devaluation protected bonds and the fixed interest rate bonds had fair market values of \$257 and \$443, respectively. These investments are considered available-for-sale securities and, as noted above, \$24 is included in Other current assets and \$676 is included in Other assets.

 (Unaudited)

The following table presents a reconciliation of the fair value of the Venezuelan bonds for the nine months ended September 30, 2013 and 2012:

	2013	2012
Beginning balance as of January 1,	\$642	\$236
Unrealized gain (loss) on investment	(124	) 14
Purchases and sales during the period	182	373
Ending balance as of September 30,	\$700	\$623

The Unrealized loss on investment consisted primarily of a one-time loss of \$133 in the first quarter of 2013 related to the remeasurement of the fixed interest rate bonds at February 9, 2013, the date of the devaluation. For further information regarding Venezuela and the devaluation, refer to Note 15, Venezuela below.

#### 15. Venezuela

Venezuela has been designated hyper-inflationary and, therefore, the functional currency for the Company's Venezuelan subsidiary ("CP Venezuela") is the U.S. dollar and Venezuelan currency fluctuations are reported in income.

The Venezuelan government devalued its currency effective February 9, 2013. As a result of the devaluation the official exchange rate changed from 4.30 to 6.30 Venezuela bolivares fuerte per dollar. The Company incurred a one-time, pretax loss of \$172 (\$111 aftertax loss) in the first quarter of 2013 related to the remeasurement of the net monetary assets included in the local balance sheet at the date of the devaluation. The impact of this one-time aftertax loss of \$111 on diluted earnings per common share was \$0.12 for the nine months ended September 30, 2013. The Company remeasured the financial statements of CP Venezuela at the rate at which it currently expects to remit future dividends, which is 6.30. As the local currency operations in Venezuela translated into fewer U.S. dollars, this had and will continue to have an ongoing adverse effect on the Company's reported results.

For the nine months ended September 30, 2013, CP Venezuela represented approximately 4% of the Company's consolidated Net sales. At September 30, 2013, CP Venezuela's bolivar fuerte-denominated net monetary asset position, which would be subject to remeasurement in the event of a further devaluation, was approximately \$530. This amount does not include \$257 of devaluation-protected bonds issued by the Venezuelan government, as these bonds provide protection against devaluations by adjusting the amount of bolivares fuerte received at maturity for any devaluation subsequent to issuance.

### Executive Overview and Outlook

Colgate-Palmolive Company seeks to deliver strong, consistent business results and superior shareholder returns by providing consumers globally with products that make their lives healthier and more enjoyable.

To this end, the Company is tightly focused on two product segments: Oral, Personal and Home Care; and Pet Nutrition. Within these segments, the Company follows a closely defined business strategy to develop and increase market leadership positions in key product categories. These product categories are prioritized based on their capacity to maximize the use of the organization's core competencies and strong global equities and to deliver sustainable long-term growth.

Operationally, the Company is organized along geographic lines with management teams having responsibility for the business and financial results in each region. The Company competes in more than 200 countries and territories worldwide with established businesses in all regions contributing to the Company's sales and profitability. Approximately 80% of the Company's Net sales are generated from markets outside the U.S., with over 50% of the Company's Net sales coming from emerging markets (which consist of Latin America, Asia (excluding Japan), Africa/Eurasia and Central Europe). This geographic diversity and balance help to reduce the Company's exposure to business and other risks in any one country or part of the world.

The Oral, Personal and Home Care segment is operated through five reportable operating segments: North America, Latin America, Europe/South Pacific, Asia and Africa/Eurasia, all of which sell to a variety of retail and wholesale customers and distributors. The Company, through Hill's Pet Nutrition, also competes on a worldwide basis in the pet nutrition market, selling its products principally through specialty pet retailers and the veterinary profession.

On an ongoing basis, management focuses on a variety of key indicators to monitor business health and performance. These indicators include market share, net sales (including volume, pricing and foreign exchange components), organic sales growth (Net sales growth excluding the impact of foreign exchange, acquisitions and divestments), gross profit margin, operating profit, net income and earnings per share, as well as measures used to optimize the management of working capital, capital expenditures, cash flow and return on capital. The monitoring of these indicators and the Company's Code of Conduct and corporate governance practices help to maintain business health and strong internal controls.

To achieve its business and financial objectives, the Company focuses the organization on initiatives to drive and fund growth. The Company seeks to capture significant opportunities for growth by identifying and meeting consumer needs within its core categories, through its focus on innovation and the deployment of valuable consumer and shopper insights in the development of successful new products regionally, which are then rolled out on a global basis. To enhance these efforts, the Company has developed key initiatives to build strong relationships with consumers, dental and veterinary professionals and retail customers. Growth opportunities are greater in those areas of the world in which economic development and rising consumer incomes expand the size and number of markets for the Company's products.

The investments needed to support growth are developed through continuous, Company-wide initiatives to lower costs and increase effective asset utilization. Through these initiatives, which are referred to as the Company's funding-the-growth initiatives, the Company seeks to become even more effective and efficient throughout its businesses. These initiatives are designed to reduce costs associated with direct materials, indirect expenses and

distribution and logistics and encompass a wide range of projects, examples of which include raw material substitution, reduction of packaging materials, consolidating suppliers to leverage volumes and increasing manufacturing efficiency through SKU reductions and formulation simplification. The Company also continues to prioritize its investments toward its higher margin businesses, specifically Oral Care, Personal Care and Pet Nutrition.

With approximately 80% of its Net sales generated outside the United States, the Company is exposed to changes in economic conditions and foreign currency exchange rates, as well as political uncertainty in some countries, all of which could impact future operating results. For example, as discussed in detail below, the operating environment in Venezuela is challenging, with economic uncertainty fueled by currency devaluations and high inflation and governmental restrictions in the form of import authorization controls, currency exchange controls, price controls and the possibility of expropriation of property or other resources.

In particular, the Company has been and will continue to be impacted as a result of the significant devaluations of the Venezuelan bolivar fuerte that occurred in 2010 and in February 2013, described in Note 15, Venezuela to the Condensed

Consolidated Financial Statements. Effective February 9, 2013, the Venezuelan government devalued its currency and the official exchange rate changed from 4.30 to 6.30 Venezuela bolivares fuerte per dollar. The Company incurred a one-time, pretax loss of \$172 (\$111 aftertax loss), in the first quarter of 2013 related to the remeasurement of the net monetary assets in the local balance sheet at the date of the devaluation. The Company remeasured the financial statements of its Venezuelan subsidiary ("CP Venezuela") at the rate at which it currently expects to remit future dividends, which is 6.30. As the local currency operations in Venezuela translated into fewer U.S. dollars, this had and will continue to have an ongoing adverse effect on the Company's reported results.

In addition, the Venezuelan government continues to impose import authorization controls, currency exchange and payment controls and price controls. CP Venezuela continues to have limited access to U.S. dollars from the government (CADIVI), currently only for imported goods. The timing of receipt of these funds is at CADIVI's discretion. CP Venezuela funds its requirements for imported goods primarily through a combination of U.S. dollars obtained from CADIVI, intercompany borrowings and the use of financial and other intermediaries and, to a lesser extent, with existing U.S. dollar cash balances, which were obtained previously through parallel market transactions and through the prior liquidation of its U.S. dollar-denominated bond portfolio. In the second quarter of 2013, the Venezuelan government introduced a new currency market known as SICAD (Supplementary System for the Administration of Foreign Currency), which replaces the former SITME market and is expected to be accessible to the Company. Price controls, which became effective on April 1, 2012, affect most products in CP Venezuela's portfolio and thereby further restrict the Company's ability to implement price increases, which had been one of the key mechanisms to offset the effects of continuing high inflation and the impact of currency devaluation. At times, production at CP Venezuela has also been negatively impacted by labor issues within the country.

The Company's business in Venezuela, and the Company's ability to repatriate its earnings, continue to be negatively affected by these difficult conditions and would be further negatively affected by additional devaluations or the imposition of additional or more stringent controls on foreign currency exchange, pricing or imports or other governmental actions or continued or increased labor unrest. At September 30, 2013, CP Venezuela's local currency-denominated net monetary asset position, which would be subject to remeasurement in the event of a further devaluation, was approximately \$530 as compared to approximately \$520 at December 31, 2012. For the nine months ended September 30, 2013, CP Venezuela represented approximately 4% of the Company's consolidated Net sales and approximately 3% of the Company's consolidated Operating profit excluding the impact of the one-time Venezuela devaluation charge and charges related to 2012 Restructuring Program, the competition law matter in France related to the home care and personal care sectors and the sale of land in Mexico (discussed below). The Company continues to actively manage its investment in and exposure to Venezuela.

In the fourth quarter of 2012, the Company commenced a four-year Global Growth and Efficiency Program (the 2012 Restructuring Program) for sustained growth. The program's initiatives are expected to help Colgate ensure continued solid worldwide growth in unit volume, organic sales and earnings per share and enhance its global leadership positions in its core businesses. Implementation of the 2012 Restructuring Program, which is expected to be substantially completed by December 31, 2016, is projected to result in cumulative pretax charges, once all phases are approved and implemented, totaling between \$1,100 and \$1,250 (\$775 and \$875 aftertax). Savings, substantially all of which are expected to increase future cash flows, are projected to be in the range of \$365 to \$435 pretax (\$275 to \$325 aftertax) annually by the fourth year of the program. For more information regarding the 2012 Restructuring Program, see "Restructuring and Related Implementation Charges" below.

For the three and nine months ended September 30, 2013, the Company incurred aftertax costs of \$22 and \$153, respectively, associated with the 2012 Restructuring Program and aftertax costs of \$2 and \$9, respectively, related to the sale of land in Mexico.

On September 13, 2011, the Company's Mexican subsidiary entered into an agreement to sell to the United States of America the Mexico City site on which its commercial operations, technology center and soap production facility are

located. The sale price is payable in three installments, with the final installment due upon the transfer of the property, which is expected to occur in 2014. The Company is re-investing these payments to relocate its soap production to a new state-of-the-art facility to be constructed at its Mission Hills, Mexico site, to relocate its commercial and technology operations within Mexico City and to prepare the existing site for transfer. As a result, the Company expects to make capital improvements and incur costs to exit the site through 2014. These exit costs will primarily be related to staff leaving indemnities, accelerated depreciation and demolition to make the site building-ready.

On July 29, 2011, in connection with the acquisition of the Sanex personal care business from Unilever, N.V. and Unilever PLC (together "Unilever"), Colgate sold its non-core laundry detergent business in Colombia to Unilever for \$215 resulting in a pretax gain of \$207 (\$135 aftertax gain). In 2011, this gain was more than offset by pretax costs of \$224 (\$177 aftertax costs)

associated with the implementation of business realignment and other cost-saving initiatives, the sale of land in Mexico and a competition law matter in France related to a divested detergent business as discussed in Note 12, Contingencies to the Condensed Consolidated Financial Statements. The business realignment and other cost-saving initiatives include the integration of Sanex, the right-sizing of the Colombia business and the closing of an oral care facility in Mississauga, Canada and a Hill's facility in Los Angeles, California.

Looking forward, the Company expects global macroeconomic and market conditions to remain highly challenging. While the global marketplace in which the Company operates has always been highly competitive, the Company continues to experience heightened competitive activity in certain markets from other large multinational companies, some of which have greater resources than the Company does. Such activities have included more aggressive product claims and marketing challenges, as well as increased promotional spending and geographic expansion. Additionally, the Company continues to experience volatile foreign currency fluctuations and high commodity costs. While the Company has taken, and will continue to take, measures to mitigate the effect of these conditions, should they persist, they could adversely affect the Company's future results.

The Company believes it is well prepared to meet the challenges ahead due to its strong financial condition, experience operating in challenging environments and continued focus on the Company's strategic initiatives: engaging to build our brands; innovation for growth; effectiveness and efficiency; and leading to win. This focus, together with the strength of the Company's global brand names, its broad international presence in both mature and emerging markets and initiatives such as the 2012 Restructuring Program, should position the Company well to increase shareholder value over the long-term.

## Results of Operations

### Three Months

Worldwide Net sales were \$4,398 in the third quarter of 2013, up 1.5% from the third quarter of 2012, as volume growth of 5.0% and net selling price increases of 1.0% were partially offset by negative foreign exchange of 4.5%. Organic sales (Net sales excluding foreign exchange and acquisitions and divestments), a non-GAAP financial measure as discussed below, increased 6.0% in the third quarter of 2013.

Net sales in the Oral, Personal and Home Care segment were \$3,853 in the third quarter of 2013, up 1.5% from the third quarter of 2012, as volume growth of 5.0% and net selling price increases of 1.0% were partially offset by negative foreign exchange of 4.5%. Organic sales in the Oral, Personal and Home Care segment increased 6.0% in the third quarter of 2013.

The Company's share of the global toothpaste market was 45.0% on a year-to-date basis and its share of the global manual toothbrush market was 33.4% on a year-to-date basis. Year-to-date market shares in toothpaste were up in Europe/South Pacific and Asia, flat in Africa/Eurasia and down in North America and Latin America versus the year ago period. In the manual toothbrush category, year-to-date market shares were up in Latin America, North America, Europe/South Pacific and Africa/Eurasia and down in Asia versus the year ago period. For additional information regarding market shares, see "Market Share Information" below.

Net sales for Hill's Pet Nutrition increased 3.0% in the third quarter of 2013 to \$545, as volume growth of 3.0% and net selling price increases of 3.0% were partially offset by negative foreign exchange of 3.0%. Organic sales in Hill's Pet Nutrition increased 6.0% in the third quarter of 2013.

#### Gross Profit/Margin

Worldwide Gross profit increased 2% to \$2,585 in the third quarter of 2013 from \$2,529 in the third quarter of 2012.

Gross profit in the third quarter of 2013 included costs related to the 2012 Restructuring Program. Gross profit in both periods included costs related to the sale of land in Mexico, while Gross profit in the third quarter of 2012 also included costs associated with various business realignment and other cost-saving initiatives. Excluding the items described above in both periods, Gross profit increased to \$2,596 in the third quarter of 2013 from \$2,537 in the third quarter of 2012, primarily due to sales growth (\$40) and gross profit margin expansion (\$19).

#### Selling, General and Administrative expenses

Selling, general and administrative expenses increased 3% to \$1,549 in the third quarter of 2013 from \$1,501 in the third quarter of 2012.

Selling, general and administrative expenses in the third quarter of 2013 included costs of \$9 associated with the 2012 Restructuring Program. Selling, general and administrative expenses in the third quarter of 2012 included costs of \$2 associated with various business realignment and other cost-saving initiatives. Excluding the impact of costs associated with the 2012 Restructuring Program in the third quarter of 2013 and various business realignment and other cost-saving initiatives in the third quarter of 2012, Selling, general and administrative expenses increased to \$1,540 in the third quarter of 2013 from \$1,499 in the third quarter of 2012, reflecting higher overhead expenses of \$16 and increased advertising investment of \$25.

Selling, general and administrative expenses as a percentage of Net sales increased to 35.2% in the third quarter of 2013 from 34.6% in the third quarter of 2012. Excluding the impact of costs associated with the 2012 Restructuring Program in the third quarter of 2013, Selling, general and administrative expenses as a percentage of Net sales were 35.0%, an increase of 40 bps as compared to the third quarter of 2012. This increase was a result of increased advertising investment (40 bps) as a percentage of Net sales. In the third quarter of 2013, advertising investment increased 5.5% to \$478, as compared with \$453 in the third quarter of 2012, and increased as a percentage of Net sales to 10.9% in the third quarter of 2013 from 10.5% in the third quarter of 2012.

Net Sales and Operating Profit by Segment

Oral, Personal and Home Care

Effective January 1, 2013, the Company realigned the geographic structure of its North America and Latin America reportable operating segments. In order to better leverage Latin America management's knowledge of emerging market consumers to accelerate growth in the region, management responsibility for the Puerto Rico and CARICOM operations was transferred from North America to Latin America management. Accordingly, commencing with the Company's financial reporting for the quarter ended March 31, 2013, the results of the Puerto Rico and CARICOM operations, which represent less than 1% of the Company's global business were reported in the Latin America reportable operating segment. Previously, Puerto Rico and CARICOM represented approximately 4% of Net sales of North America and now represent approximately 3% of Net sales of Latin America.

In addition, given the growing importance of the Company's operations in emerging markets, effective with the quarter ended September 30, 2013, the Company is separately reporting financial information for its Asia and Africa/Eurasia operating segments. Previously, the financial information for these operating segments was aggregated into the Greater Asia/Africa reportable operating segment.

The Company has recast its historical geographic segment information to conform to the new reporting structure which results in modification to the geographic components of the Oral, Personal and Home Care segment, with no impact on historical Company results overall.

Net sales	\$774	\$766	1.0	%
Operating profit	\$244	\$213	15	%
% of Net sales	31.5	% 27.8	% 370	bps

Net sales in North America increased 1.0% in the third quarter of 2013 to \$774, driven by volume growth of 1.5% as net selling prices were flat and foreign exchange was negative 0.5%. Organic sales in North America increased 1.5% in the third quarter of 2013.

The increase in organic sales in North America in the third quarter of 2013 versus the third quarter of 2012 was due to an increase in Oral Care sales with strong sales in the mouthwash category and an increase in Home Care sales with the hand dish and fabric softener categories contributing to growth.

Operating profit in North America increased 15% in the third quarter of 2013 to \$244, or 370 bps to 31.5% of Net sales. This increase in Operating profit was primarily due to an increase in Gross profit (160 bps) and a decrease in Selling, general and administrative expenses (230 bps), both as a percentage of Net sales. This increase in Gross profit was mainly driven by cost savings from the Company's funding-the-growth initiatives (250 bps). This decrease in Selling, general and administrative expenses was due to lower overhead costs (90 bps) and decreased advertising (130 bps), the latter due to the timing of new product launches.

Net sales in Latin America decreased 2.0% to \$1,251 in the third quarter of 2013. Volume growth of 5.5% and net selling price increases of 3.5% were more than offset by negative foreign exchange of 11.0%. Organic sales in Latin America increased 9.5% in the third quarter of 2013. Volume gains were led by Brazil, Venezuela, Central America and Mexico.

The increase in organic sales in Latin America in the third quarter of 2013 versus the third quarter 2012 was driven by an increase in Oral Care sales with the toothpaste, manual toothbrush and mouthwash categories all contributing to growth. Personal Care also contributed to organic sales growth due to strong sales in the bar soap category.

Operating profit in Latin America decreased 5% in the third quarter of 2013 to \$358, or 90 bps to 28.6% of Net sales. This decrease in Operating profit was primarily due to a decrease in Gross profit (100 bps), which was partially offset by a decrease in Selling, general and administrative expenses (20 bps), both as a percentage of Net sales. This decrease in Gross profit was due to higher costs (510 bps), primarily in Venezuela, which were partially offset by cost savings from the Company's funding-the-growth initiatives (260 bps) and the benefits of pricing as noted above. This decrease in Selling, general and administrative expenses was driven by lower overhead expenses (50 bps), which were partially offset by increased advertising investment (40 bps).

Europe/South Pacific

	Three Months Ended September 30,		
	2013	2012	Change
Net sales	\$880	\$865	1.5 %
Operating profit	\$216	\$198	9 %
% of Net sales	24.5	% 22.9	% 160 bps

Net sales in Europe/South Pacific increased 1.5% in the third quarter of 2013 to \$880. Volume growth of 2.0% and positive foreign exchange of 1.0% were partially offset by net selling price decreases of 1.5%. Organic sales in Europe/South Pacific increased 1.0% in the third quarter of 2013. Volume gains were led by Australia, Poland and Germany.

The increase in organic sales in Europe/South Pacific in the third quarter of 2013 versus the third quarter of 2012 was due to higher Oral Care sales which were partially offset by declines in sales in the Personal Care and Home Care categories. The toothpaste, manual toothbrush and mouthwash categories all contributed to the increase in Oral Care sales. Declines in sales in the body wash and underarm protection categories contributed to the decrease in Personal Care sales. The decrease in Home Care sales was due to sales declines in the liquid cleaners category.

Operating profit in Europe/South Pacific increased 9% in the third quarter of 2013 to \$216, or 160 bps to 24.5% of Net sales. This increase in Operating profit was primarily due to an increase in Gross profit (220 bps), which was partially offset by an increase in Selling, general and administrative expenses (30 bps), both as a percentage of Net

sales. This increase in Gross profit was primarily driven by savings from the Company's funding-the-growth initiatives (250 bps), which were partially offset by lower pricing as noted above. This increase in Selling, general and administrative expenses was driven by increased advertising investment (110 bps), which was partially offset by lower overhead costs (80 bps).

Net sales in Asia increased 7.5% in the third quarter of 2013 to \$627 driven by volume growth of 11.0%, which was partially offset by net selling price decreases of 0.5% and negative foreign exchange of 3.0%. Organic sales in Asia grew 10.5% in the third quarter of 2013. Volume gains were led by the Greater China region, India and the Philippines.

The increase in organic sales in the third quarter of 2013 versus the third quarter of 2012 was driven by an increase in Oral Care sales with the toothpaste and manual toothbrush categories contributing to growth. Personal Care sales also contributed to growth behind sales gains in the shampoo category.

Operating profit in Asia increased 6% in the third quarter of 2013 to \$174, while as a percentage of Net sales it decreased 30 bps to 27.8%. This decrease in Operating profit as a percentage of Net sales was primarily due to an increase in Selling, general and administrative expenses (180 bps), which was partially offset by an increase in Gross profit (150 bps), both as a percentage of Net sales. This increase in Gross profit was primarily due to cost savings from the Company's funding-the-growth initiatives (240 bps), partially offset by higher raw and packaging material costs (50 bps), which included foreign exchange transaction costs, and lower pricing as noted above. This increase in Selling, general and administrative expenses was driven by increased advertising investment (150 bps) and increased investment in customer development initiatives (30 bps).

Net sales in Africa/Eurasia increased 2.0% in the third quarter of 2013 to \$321. Volume growth of 7.5% and net selling price increases of 1.0% were partially offset by negative foreign exchange of 6.5%. Organic sales in Africa/Eurasia grew 8.5% in the third quarter of 2013. Volume gains were led by Turkey, the Sub Saharan Africa region, the Central Asia/Caucasus region and Russia.

The increase in organic sales in the third quarter of 2013 versus the third quarter of 2012 was driven by an increase in Oral Care sales due to strong sales in the toothpaste category. Personal Care sales also contributed to growth behind sales gains in the body wash category.

Operating profit in Africa/Eurasia decreased 3% in the third quarter of 2013 to \$65, or 110 bps to 20.2% of Net sales, as an increase in Gross profit (50 bps) was more than offset by an increase in Selling, general and administrative expenses (150 bps), both as a percentage of Net sales. This increase in Gross profit was primarily due to cost savings from the Company's funding-the-growth initiatives (110 bps) and the benefits of pricing as noted above, partially

offset by higher raw and packaging material costs (120 bps), which included foreign exchange transaction costs. This increase in Selling, general and administrative expenses was primarily due to higher overhead costs (170 bps).

Net sales for Hill's Pet Nutrition increased 3.0% in the third quarter of 2013 to \$545, driven by volume growth of 3.0% and net selling price increases of 3.0%, which were partially offset by negative foreign exchange of 3.0%. Organic sales in Hill's Pet Nutrition increased 6.0% in the third quarter of 2013. Volume gains were led by the United States and Russia and were partially offset by volume declines in Japan. The volume decline in Japan is attributable to a continued contraction in the market as well as heightened competition.

The increase in organic sales in the third quarter of 2013 versus the third quarter of 2012 was driven by continued growth in the Prescription Diet Metabolic category, the Science Diet dry products, which were reformulated and relaunched earlier this year to retain and attract consumers to the Advanced Nutrition category and the recently launched line of products under the Ideal Balance brand to directly compete in the Naturals category.

Operating profit in Hill's Pet Nutrition decreased 6% in the third quarter of 2013 to \$138, or 250 bps to 25.3% of Net sales. This decrease in Operating profit was primarily due to a decrease in Gross profit (240 bps) and an increase in Selling, general and administrative expenses (60 bps), both as a percentage of Net sales. This decrease in Gross profit was primarily driven by higher raw and packaging material costs (500 bps), due in part to formulation changes and foreign exchange transaction costs, which were partially offset by cost savings from the Company's funding-the-growth initiatives (210 bps) and the benefit of pricing as noted above. This increase in Selling, general and administrative expenses was due to increased investment in customer development initiatives (20 bps) and increased advertising investment (30 bps).

## Restructuring and Related Implementation Charges

### 2012 Restructuring Program

In the fourth quarter of 2012, the Company commenced a four-year Global Growth and Efficiency Program (the 2012 Restructuring Program) for sustained growth. The program's initiatives are expected to help Colgate ensure continued solid worldwide growth in unit volume, organic sales and earnings per share and enhance its global leadership positions in its core businesses.

The 2012 Restructuring Program is expected to produce significant benefits in the Company's long-term business performance. The major objectives of the program include:

Becoming even stronger on the ground through the continued evolution and expansion of proven global and regional commercial capabilities, which have already been successfully implemented in a number of the Company's operations around the world.

Simplifying and standardizing how work gets done by increasing technology-enabled collaboration and taking advantage of global data and analytic capabilities, leading to smarter and faster decisions.

Reducing structural costs to continue to increase the Company's gross and operating profit.

Building on Colgate's current position of strength to enhance its leading market share positions worldwide and ensure sustained sales and earnings growth.

Implementation of the 2012 Restructuring Program is projected to result in cumulative pretax charges, once all phases are approved and implemented, totaling between \$1,100 and \$1,250 (\$775 and \$875 aftertax), which are currently estimated to be comprised of the following categories: Employee-Related Costs, including severance, pension and other termination benefits (50%); asset-related costs, primarily Incremental Depreciation and Asset Impairments (15%); and Other charges, which include contract termination costs, consisting primarily of implementation-related charges resulting directly from exit activities (20%) and the implementation of new strategies (15%). Due to the acceleration of the implementation of certain program initiatives, the anticipated pretax charges for 2013 increased to approximately \$365 to \$390 (\$290 to \$305 aftertax) from approximately \$260 to \$310 (\$185 to \$220 aftertax) with no change to the amount of expected total program charges. Over the course of the 2012 Restructuring Program, it is estimated that approximately 75% of the charges will result in cash expenditures.

It is expected that the cumulative pretax charges, once all projects are approved and implemented, will relate to initiatives undertaken in North America (15%), Europe/South Pacific (20%), Latin America (5%), Asia (5%), Africa/Eurasia (5%), Hill's Pet Nutrition (10%) and Corporate (40%), which includes substantially all of the costs related to the implementation of new strategies, noted above, on a global basis. It is expected that by the end of 2016, the 2012 Restructuring Program will reduce the Company's global employee workforce by approximately 6% from the 2012 level of approximately 38,000.

Savings, substantially all of which are expected to increase future cash flows, are projected to be in the range of \$365 to \$435 pretax (\$275 to \$325 aftertax) annually by the fourth year of the program. Due to the acceleration of the implementation of certain program initiatives, savings for 2013 increased to approximately \$45 to \$55 (\$40 to \$45 aftertax) from approximately \$40 to \$50 (\$30 to \$40 aftertax) effective in the latter half of the year.

Initiatives under the program are focused on the following three areas:

Expanding Commercial Hubs - Building on the success of this structure already implemented in several divisions, continuing to cluster single-country subsidiaries into more efficient regional hubs, in order to drive smarter and faster decision making, strengthen capabilities available on the ground and improve cost structure.

Extending Shared Business Services and Streamlining Global Functions - Implementing the Company's shared service organizational model, already successful in Europe, in all regions of the world. Initially focused on finance and accounting, these shared services will be expanded to additional functional areas to streamline global functions.

Optimizing Global Supply Chain and Facilities - Continuing to optimize manufacturing efficiencies, global warehouse networks and office locations for greater efficiency, lower cost and speed to bring innovation to market.

For the three and nine months ended September 30, 2013, restructuring and implementation-related charges are reflected in the income statement as follows:

	Three Months Ended September 30, 2013	Nine Months Ended September 30, 2013
Cost of sales	\$8	\$26
Selling, general and administrative expenses	9	31
Other (income) expense, net	13	141
Total 2012 Restructuring Program charges, pretax	\$30	\$198
Total 2012 Restructuring Program charges, aftertax	\$22	\$153

Restructuring and related implementation charges in the preceding table are recorded in the Corporate segment as these initiatives are predominantly centrally directed and controlled and are not included in internal measures of segment operating performance. Total charges for the 2012 Restructuring Program for the three months ended September 30, 2013 relate to initiatives undertaken in North America (13%), Europe/South Pacific (22%), Latin America (6%), Hill's Pet Nutrition (29%) and Corporate (30%). Total charges for the 2012 Restructuring Program for the nine months ended September 30, 2013 relate to initiatives undertaken in North America (20%), Europe/South Pacific (35%), Latin America (6%), Africa/Eurasia (4%), Hill's Pet Nutrition (8%) and Corporate (27%). Total program-to-date accumulated charges for the 2012 Restructuring Program relate to initiatives undertaken in North America (14%), Europe/South Pacific (42%), Latin America (4%), Africa/Eurasia (3%), Hill's Pet Nutrition (6%) and Corporate (31%).

Since the inception of the 2012 Restructuring Program in the fourth quarter of 2012, the Company has incurred pretax cumulative charges of \$287 (\$223 aftertax) in connection with the implementation of various projects as follows:

	Cumulative Charges as of September 30, 2013
Employee-Related Costs	\$169
Incremental Depreciation	20
Asset Impairments	1
Other	97
Total	\$287

The majority of costs incurred since inception relate to the following projects: the closing of the Morristown, New Jersey personal care facility; the simplification and streamlining of the Company's research and development capabilities and oral care supply chain, both in Europe; other exit costs related to office consolidation; and the restructuring of certain commercial operations in advance of implementing an overall hubbing strategy.

Employee-related costs primarily include severance and other termination benefits and are calculated based on long-standing benefit practices, local statutory requirements and, in certain cases, voluntary termination arrangements. Employee-related costs also include pension and other retiree benefit enhancements amounting to \$17 for the nine months ended September 30, 2013, which are reflected as Charges against assets within Employee-related costs in the preceding tables, as the corresponding balance sheet amounts are reflected as a reduction of pension assets or an increase in pension and other retiree benefit liabilities.

Incremental depreciation is recorded to reflect changes in useful lives and estimated residual values for long-lived assets that will be taken out of service prior to the end of their normal service period. Asset impairments are recorded to write down assets held for sale or disposal to their fair value based on amounts expected to be realized. Asset impairments are net of cash proceeds pertaining to the sale of certain assets.

Other charges consist primarily of implementation-related charges resulting directly from exit activities and the implementation of new strategies as a result of the 2012 Restructuring Program. These charges for the three and nine months ended September 30, 2013 included third-party incremental costs related to the development and implementation of new business and strategic initiatives of \$11 and \$35, respectively, and contract termination costs of \$8 and \$27, respectively, directly related to the 2012 Restructuring Program. These charges were expensed as incurred. These charges, for the nine months ended September 30, 2013, also included a charge for other exit costs related to office space consolidation of \$24.

Non-GAAP Financial Measures

This Quarterly Report on Form 10-Q discusses organic sales growth (Net sales growth excluding the impact of foreign exchange, acquisitions and divestments) (non-GAAP). Management believes this measure provides investors with useful supplemental information regarding the Company's underlying sales trends by presenting sales growth excluding the external factor of foreign exchange, as well as the impact of acquisitions and divestments. A reconciliation of organic sales growth to Net sales growth for the three-month and nine-month periods ended September 30, 2013 is provided below.

Worldwide Gross profit, Gross profit margin, Selling, general and administrative expenses, Selling, general and administrative expenses as a percentage of Net sales, Other (income) expense, net, Operating profit, Operating profit margin, effective tax rate, Net income attributable to Colgate-Palmolive Company and Earnings per share on a diluted basis are discussed in this Quarterly Report on Form 10-Q both on a GAAP basis and, as applicable, excluding the impacts of charges related to the 2012 Restructuring Program, the one-time charge resulting from the Venezuela devaluation, a charge for the competition law matter in France related to the home care and personal care sectors, costs related to the sale of land in Mexico and costs associated with various business realignment and other cost-saving initiatives (non-GAAP). Management believes these non-GAAP financial measures provide investors with useful supplemental information regarding the performance of the Company's on-going operations. A reconciliation of each of these non-GAAP financial measures to the most directly comparable GAAP financial measures for the three-month and nine-month periods ended September 30, 2013 and 2012 is presented within the applicable section of Results of Operations.

The Company uses the above non-GAAP financial measures internally in its budgeting process and as a factor in determining compensation. While the Company believes that these non-GAAP financial measures are useful in evaluating the Company's business, this information should be considered as supplemental in nature and is not meant to be considered in isolation or as a substitute for the related financial information prepared in accordance with GAAP. In addition, these non-GAAP financial measures may not be the same as similar measures presented by other companies.

The following table provides a quantitative reconciliation of organic sales growth to Net sales growth for the three months ended September 30, 2013.

### Liquidity and Capital Resources

The Company expects cash flow from operations and debt issuances will be sufficient to meet foreseeable business operating and recurring cash needs (including for debt service, dividends, capital expenditures, costs associated with the 2012 Restructuring Program and stock repurchases). The Company believes its strong cash generation and financial position should continue to allow it broad access to global credit and capital markets.

Net cash provided by operations increased 11% to \$2,365 in the first nine months of 2013, compared with \$2,133 in the comparable period of 2012. The increase in net cash provided by operations in the first nine months of 2013 was driven by strong operating earnings and management of working capital.

The Company defines working capital as the difference between current assets (excluding cash and cash equivalents and marketable securities, the latter of which is reported in Other current assets) and current liabilities (excluding short-term debt). Overall, the Company's working capital decreased to (0.9%) of Net sales in the first nine months of 2013 as compared with 2.2% in the first nine months of 2012, primarily due to an improvement in accounts receivable days sales outstanding, an increase in accounts payable and accrued liabilities, in part related to the 2012 Restructuring Program, and the timing of dividend payments.

Approximately 75% of total program charges related to the 2012 Restructuring Program, currently estimated between \$1,100 and \$1,250 (\$775 and \$875 aftertax), are expected to result in cash expenditures. Savings are currently projected to be in the range of \$365 to \$435 (\$275 to \$325 aftertax) annually by the fourth year of the program, substantially all of which are expected to increase future cash flows. The anticipated charges for 2013 are expected to amount to approximately \$365 to \$390 (\$290 to \$305 aftertax) and savings in 2013 should approximate \$45 to \$55 (\$40 to \$45 aftertax). It is anticipated that cash requirements for the 2012 Restructuring Program will be funded from operating cash flows.

Investing activities used \$628 in the first nine months of 2013, compared with \$624 in the comparable period of 2012. Purchases of marketable securities and investments decreased in the first nine months of 2013 to \$408 from \$501 in the comparable period of 2012 primarily due to a decrease in the Company's investments through its subsidiary in Venezuela in local currency denominated fixed interest rate bonds issued by the Venezuelan government. In the third quarter of 2011, the Company's Mexican subsidiary entered into an agreement to sell the Mexico City site on which its commercial operations, technology center and soap production facility are located. The sale price is payable in three installments, with the final installment due upon the transfer of the property, which is expected to occur in 2014. During the third quarter of 2012, the Company received the second installment of \$36. Capital spending increased in the first nine months of 2013 to \$419 from \$317 in the comparable period of 2012. The Company continues to focus its capital spending on projects that are expected to yield high aftertax returns. Overall capital expenditures for 2013 are expected to be at an annual rate of approximately 4.5% of Net sales, reflecting a higher level of investment primarily driven by the 2012 Restructuring Program.

Financing activities used \$1,810 of cash during the first nine months of 2013 compared with \$1,458 in the comparable period of 2012, reflecting higher principal payments on debt, partially offset by higher proceeds from issuance of debt and lower purchases of treasury shares in the first nine months of 2013 compared to the first nine months of 2012.

Long-term debt, including the current portion, increased to \$5,265 as of September 30, 2013 as compared to \$5,176 as of December 31, 2012 and total debt increased to \$5,284 as of September 30, 2013 as compared to \$5,230 as of

December 31, 2012. During the second quarter of 2013, the Company issued \$400 of five-year notes at a fixed rate of 0.90% and \$400 of ten-year notes at a fixed rate of 2.10% under the Company's shelf registration statement. During the second quarter of 2012, the Company issued \$500 of ten-year notes at a fixed rate of 2.30% under the Company's shelf registration statement. During the third quarter of 2012, the Company issued \$500 of ten-year notes at a fixed rate of 1.95% under the Company's shelf registration statement. Proceeds from the debt issuances in the second quarter of 2012 and the third quarter of 2012 were used to reduce commercial paper borrowings, which were used by the Company for general corporate purposes. Proceeds from the debt issuances in the second quarter of 2013 were used to reduce commercial paper borrowings, which were used by the Company for general corporate purposes, and to repay and retire \$250 of notes due in 2013.

As of September 30, 2013, the Company had no commercial paper outstanding. Commercial paper outstanding was \$462 as of September 30, 2012. The average daily balances outstanding for commercial paper in the first nine months of 2013 and 2012 were \$1,761 and \$1,598, respectively. The maximum daily balances outstanding for commercial paper in the first nine months

COLGATE-PALMOLIVE COMPANY  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

(Dollars in Millions Except Share and Per Share Amounts)

of 2013 and 2012 were \$2,123 and \$2,042, respectively. The Company regularly classifies commercial paper and certain current maturities of notes payable as long-term debt as it has the intent and ability to refinance such obligations on a long-term basis, including, if necessary, by utilizing its line of credit that expires in 2017.

Certain of the facilities with respect to the Company's bank borrowings contain financial and other covenants as well as cross-default provisions. Noncompliance with these requirements could ultimately result in the acceleration of amounts owed. The Company is in full compliance with all such requirements and believes the likelihood of noncompliance is remote.

In the first quarter of 2013, the Company increased the annualized common stock dividend by 10% to \$1.36 per share, effective in the second quarter of 2013. On September 8, 2011, the Company's Board of Directors (the Board) approved a share repurchase program that authorized the repurchase of up to 50 million shares of the Company's common stock (the 2011 Program). On March 7, 2013, the Board approved a two-for-one stock split of the Company's common stock to be effected through a 100% stock dividend. The record date for the two-for-one split was the close of business on April 23, 2013 and the share distribution occurred on May 15, 2013. The Board authorized that the number of shares remaining under the 2011 Program as of May 15, 2013 be increased by 100% as a result of the two-for-one split.

Cash and cash equivalents decreased \$163 during the first nine months of 2013 to \$721 at September 30, 2013, compared to \$884 at December 31, 2012, most of which (\$659 and \$861, respectively) were held by the Company's foreign subsidiaries. These amounts include \$57 and \$170, respectively, which are subject to currency exchange controls in Venezuela, limiting the total amount of Cash and cash equivalents held by the Company's foreign subsidiaries that can be repatriated at any particular point in time. The Company regularly assesses its cash needs and the available sources to fund these needs and, as part of this assessment, the Company determines the amount of foreign earnings it intends to repatriate to help fund its domestic cash needs and provides applicable U.S. income and foreign withholding taxes on such earnings.

As of December 31, 2012, the Company had approximately \$4,300 of undistributed earnings of foreign subsidiaries for which no U.S. income or foreign withholding taxes have been provided as the Company does not currently anticipate a need to repatriate these earnings. These earnings have been and currently are considered to be indefinitely reinvested and, therefore, are not subject to such taxes. Should these earnings be repatriated in the future, they would be subject to applicable U.S. income and foreign withholding taxes. Determining the tax liability that would arise if these earnings were repatriated is not practicable.

For additional information regarding liquidity and capital resources, please refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

#### Market Share Information

Management uses market share information as a key indicator to monitor business health and performance. References to market share in this Quarterly Report on Form 10-Q are based on a combination of consumption and market share data provided by third-party vendors, primarily Nielsen, and internal estimates. All market share references represent the percentage of the dollar value of sales of our products, relative to all product sales in the category in the countries in which the Company competes and purchases data.

Market share data is subject to limitations on the availability of up-to-date information. We believe that the third-party vendors we use to provide data are reliable, but we have not verified the accuracy or completeness of the data or any assumptions underlying the data. In addition, market share information calculated by the Company may be different from market share information calculated by other companies due to differences in category definitions, the use of data from different countries, internal estimates and other factors.

#### Cautionary Statement on Forward-Looking Statements

This Quarterly Report on Form 10-Q may contain forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995 or by the SEC in its rules, regulations and releases. Such statements may relate, for example, to sales or volume growth, organic sales growth, profit or profit margin growth, earnings growth, financial goals, the impact of currency devaluations and exchange controls, price controls and labor unrest, including in Venezuela, cost-reduction plans including the 2012 Restructuring Program, tax rates, new product introductions or commercial investment levels, among other

matters. These statements are made on the basis of the Company's views and assumptions as of this time and the Company undertakes no obligation to update these statements. Moreover, the Company does not, nor does any other person, assume responsibility for the accuracy and completeness of those statements. The Company cautions investors that any such forward-looking statements are not guarantees of future performance and that actual events or results may differ materially from those statements. Actual events or results may differ materially because of factors that affect international businesses and global economic conditions, as well as matters specific to the Company and the markets it serves, including the uncertain economic environment in different countries and its effect on consumer spending habits, increased competition and evolving competitive practices, currency rate fluctuations, exchange controls, price controls, labor relations, changes in foreign or domestic laws or regulations or their interpretation, political and fiscal developments, the availability and cost of raw and packaging materials, the ability to maintain or increase selling prices as needed, the ability to implement the 2012 Restructuring Program as planned or differences between the actual and the estimated costs or savings under such program, changes in the policies of retail trade customers and the ability to continue lowering costs. For information about these and other factors that could impact the Company's business and cause actual results to differ materially from forward-looking statements, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2012, including the information set forth under the captions "Item 1A. Risk Factors" and "Cautionary Statement on Forward-Looking Statements."

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The share repurchase program approved by the Board on September 8, 2011 (the 2011 Program) authorized the repurchase of up to 50 million shares of the Company's common stock. On March 7, 2013, the Company's Board of Directors (the Board) approved a two-for-one stock split of the Company's common stock to be effected through a 100% stock dividend. The record date for the two-for-one split was the close of business on April 23, 2013 and the share distribution occurred on May 15, 2013. The Board authorized that the number of shares remaining under the 2011 Program as of May 15, 2013 be increased by 100% as a result of the two-for-one split. The Board also has authorized share repurchases on an on-going basis to fulfill certain requirements of the Company's compensation and benefit programs. The shares will be repurchased from time to time in open market transactions or privately negotiated transactions at the Company's discretion, subject to market conditions, customary blackout periods and other factors.

The following table shows the share repurchase activity for the three months in the quarter ended September 30, 2013:

Month	Total Number of Shares Purchased <sup>(1)</sup>	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs <sup>(2)</sup>	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
