Notes to Consolidated Financial Statements

Note 1: The Company and Significant Accounting Policies

Organization and Nature of Business

Pacific Entertainment Corporation (“we”, “us”, “our” or the “Company”) provides music-based products that are entertaining, educational and beneficial to the well-being of infants and young children. We create, market and sell children’s DVDs, CD music, toy, and book products in the United States by distribution at wholesale to retail stores and outlets. We license the use of our brands internationally to others to manufacture, market and sell the products, whereby we receive advances and royalties.

The Company commenced operations in January 2006, assuming all of the rights and obligations of its Chief Executive Officer, Klaus Moeller, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which we obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Little Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles.

In August 2009, the Company launched a line of Baby Genius pre-school toys. The line of 24 Baby Genius toys, manufactured by toy manufacturer Battat Incorporated, includes musical, activity, and role-play toys that incorporate the Baby Genius principle of music as a core learning tool to engage and encourage children to communicate, connect, discover, and use their imagination. The Company granted an exclusive license to Battat for the marketing and distribution of a line of toys based on the Baby Genius brand and characters in the United States and Canada, and non-exclusive rights of distribution in other parts of the world. This license was terminated according to the terms of the contract in December 2010 and we have granted Battat the right to continue to distribute the existing line of toys through late Spring 2011.

On January 11, 2011, the Company signed an agreement with Jakks Pacific’s Tollytots® division for a new toy line. As a result of the five-year agreement, Tollytots® immediately began development on a comprehensive line of musical and early learning toys, incorporating the music, characters and themes that have made the Baby Genius series of videos and music CDs so successful among children and parents around the world. The new toy line will cover a broad range of exclusive categories, including learning and developmental toys, most plush toys and musical toys, as well as several other non-exclusive categories. As part of the development of the new products, the Company has engaged in development of several new and exciting characters as well as providing the existing characters with a fresh appearance.

During fourth quarter of 2009 and first half of 2010, the Company signed licensing agreements to develop additional product lines based on the Baby Genius characters. These agreements include children’s games and puzzles, electronic learning aids, “sippy cups”, shoes, socks and infant and toddler layette items. We are discussing other licensing opportunities for introduction and believe that our licensing revenue will grow significantly during the upcoming years.

The Company also obtains licenses for other select brands we feel we can market and sell through our distribution channels. In July 2009, Pacific Entertainment entered into a licensing agreement with Precious Moments, Inc. (“PMI”) granting the Company non-exclusive rights to use its copyrights and trademarks in connection with the manufacture, distribution, sale and advertising of music CDs for children through 2012. The Company produced three CDs released in fourth quarter 2009. In addition, the Company signed an amendment in September 2009 to include licensing for DVDs created by PMI. The “Precious Moments” products join our previously licensed lines including “Guess How Much I Love You” and “The Snowman”.

During 2010, the Company launched a line of classic movies and television programs, “Pacific Entertainment Presents”. Initially consisting of seven titles, each focusing on a specific genre such as Horror, Western, SciFi, Action, Mystery, War, and Gangster, an additional six titles were added in late 2010 expanding the line with the Super Hero’s collection as well as Family Favorites. The Company has begun expanding the product line to include distribution of content obtained from various independent studios and producers. We believe this new content will increase the revenue of our company significantly during the year.

The Company’s Financial Statements are prepared in accordance with accounting principles generally accepted in the United States of America. These require the use of estimates and assumptions that affect the assets, liabilities, revenues and expenses reported in the financial statements, as well as amounts included in the notes thereto, including discussion and disclosure of contingent liabilities. Although the Company uses its best estimates and judgments, actual results could differ from these estimates as future confirming events occur.

Interim Consolidated Financial Statements

The accompanying condensed consolidated financial statements of the Company have been prepared without audit. Certain information and disclosures required by accounting principles generally accepted in the United States have been condensed or omitted. These condensed consolidated financial statements reflect all adjustments that, in the opinion of management, are necessary to present fairly the results of operations of the Company for the periods presented. The results of operations for the three month period ended March 31, 2011, are not necessarily indicative of the results that may be expected for any future period or the fiscal year ending December 31, 2011.

These consolidated financial statements should be read in conjunction with the consolidated financial statements included in the Company’s 2010 Annual Report filed with the OTC Markets Group Inc. on March 11, 2011 and in the Company’s registration statement on Form 10 filed on May 4, 2011.

Significant Accounting Policies

Revenue Recognition – The Company recognizes revenue related to product sales when (i) the seller’s price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer as required by Revenue Recognition Topic 605 of the FASB Accounting Standards Codification.

Revenues associated with the sale of branded CDs, DVDs and other products, are recorded when shipped to customers pursuant to approved customer purchase orders resulting in the transfer of title and risk of loss. Cost of sales, rebates and discounts are recorded at the time of revenue recognition or at each financial reporting date.

The Company's licensing and royalty revenue represent variable payments based on net sales from brand licensees for content distribution rights. These license agreements are managed by third parties that are responsible for collecting fees due and remitting to the Company its share after expenses. Revenue from licensed products is recognized when realized or realizable based on royalty reporting received from licensees.

Principles of Consolidation - The consolidated financial statements include the financial statements of the Company, and its 75% owned subsidiary: Circle of Education LLC. All inter-company balances and transactions have been eliminated in consolidation.

Other Estimates – The Company estimates reserves for future returns of product based on an analysis that considers historical returns, changes in customer demand and current economic trends. The Company regularly reviews the outstanding Accounts Receivable balances for each account and monitors delinquent accounts for collectability. The Company reviews all intangible assets periodically to determine if the value has been impaired by recent financial transactions using the discounted cash flow analysis of revenue stream for the estimated life of the assets.

Liquidity - Historically, the Company has incurred net losses. As of March 31, 2011, the Company had a consolidated accumulated deficit of \$6,940,962 and total stockholders' deficit of \$1,231,005. At March 31, 2011, the Company had consolidated current assets of \$1,279,551, including cash of \$269,451, and consolidated current liabilities of \$938,687, resulting in working capital of \$340,864. For the three month period ending March 31, 2011, the Company reported a consolidated net loss of \$172,806. The Company had net cash used by operating activities of \$18,712. Management believes that its increasing revenue each year over the prior year and cash generated by operations, together with funds available from short-term related party advances, will be sufficient to fund planned operations for the next twelve months. However, there can be no assurance that operations and operating cash flows will continue at the current levels or improve in the near future. If the Company is unable to obtain profitable operations and positive operating cash flows sufficient to meet scheduled debt obligations, it may need to seek additional funding or be forced to scale back its development plans or to significantly reduce or terminate operations.

Reclassifications – Certain amounts in the condensed consolidated financial statements as of December 31, 2010 have been reclassified to conform to the presentation as of March 31, 2011.

Note 2: Plant, Property, and Equipment and Intangible Assets

The Company has plant, property and equipment and other intangible assets used in the creation of revenue of the following as of:

	March 31, 2011	December 31, 2010
Furniture and Equipment	\$ 81,660	\$ 76,986
Less Accumulated Depreciation	(45,485)	(41,818)
Net Fixed Assets	\$ 36,175	\$ 35,168
Trademarks	\$ 129,831	\$ 129,831
Product Masters	3,202,712	3,202,712
Other Intangible Assets	224,605	223,282
Less Accumulated Amortization	(3,059,376)	(3,008,214)
Net Intangible Assets	\$ 497,772	\$ 547,611

Pursuant to FASB Accounting Standards Codification regarding Topic 350, Intangible Assets, intangible asset(s) acquired, either individually or with a group of other assets shall be initially recognized and measured based on fair value. In the acquisition of the assets from Genius Products, fair value was calculated using a discounted cash flow analysis of the revenue streams for the estimated life of the assets. As this resulted in a fair market value in excess of the purchase price, the assets were recorded at \$2,489,082, the total purchase price discounted with the imputed interest rate of 10%.

The Company reviews all intangible assets periodically to determine if the value has been impaired by recent financial transactions using the discounted cash flow analysis of revenue stream for the estimated life of the assets. At the three months ending March 31, 2011 and twelve months ending December 31, 2010 it was determined that no impairment exists.

The Company continues to develop new CDs and DVDs, in addition to adding content, improved animation and bonus songs/features to their existing CD and DVD collection. In accordance with FASB Accounting Standards Codification regarding the topics of Intangible Assets (350) and Research and Development (730), the costs of new product development and significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred.

Note 3: Accrued Liabilities

Accrued Salaries and Wages as of March 31, 2011 total \$183,486 and \$62,551 as of December 31, 2010. Debenture Interest accrued and unpaid for the original \$2.5 million principal balance is \$19,049 as of March 31, 2011 and December 31, 2010. Interest on the debentures was terminated effective July 24, 2009 in accordance with the conversion agreement upon establishment of a secondary trading market for our common stock. Other Accrued Liabilities totaling \$192,315 as of March 31, 2011 and \$221,739 as of December 31, 2010, include a reserve for product returns, music royalty payments, financed insurance costs, and commissions to outside representatives on net sales and royalty income. The reserve for returned product represents an estimate of potential product returns in future periods and is evaluated for reasonableness each reporting period.

Note 4: Notes Payable and Accrued Interest - Related Parties

As of March 31, 2011 and December 31, 2010, the Company had the following notes payable and accrued interest balances outstanding:

	March 31, 2011	December 31, 2010

On February 1, 2008, Isabel Moeller, sister of our Chief Executive Officer, Klaus Moeller, loaned \$310,000 to the Company at an interest rate equal to 8% per annum as a short term note payable. The funds were borrowed from Ms. Moeller in order to reduce outstanding obligations due to Genius Products at that time. In August 2008, the note was amended to require payment of all principal and accrued interest on June 30, 2009. Subsequent agreements extended the maturity date to December 31, 2010 and reduced the stated interest rate to six (6%) percent per annum. On September 30, 2010, Ms. Moeller agreed to accept a new note with a maturity date of December 31, 2012 resulting in the reclassification of the total amount outstanding, including principal and accrued interest, as long term debt. On February 9, 2011 a payment was made on the outstanding principal in the amount of \$14,000. The amount due to Ms. Moeller as of March 31, 2011 and December 31, 2010 includes \$27,436 and \$22,142 in accrued but unpaid interest, respectively.

Notes were issued in favor of four of the Officers for loans to the Company at various times during the years 2007 through 2009. The term of the notes issued in 2009 and 2008 called for payment on December 31, 2009 and had a stated interest rate of 1.63%. The notes issued in 2007 were payable Upon Demand and had a stated interest rate of 6% per annum until paid in full. On February 13, 2009, the Officers agreed to an extension of the maturity date of all outstanding notes to December 31, 2009 at the stated interest rate of the original note. Partial repayment on the notes to the Officers in the amount of \$400,000 was made on March 4, 2009. On December 31, 2009, the Officers agreed to issue new note agreements for the outstanding balances, including accrued but unpaid interest, with a maturity date of December 31, 2010 and a stated interest rate of 6% per annum. Repayments in the aggregate amount of \$60,654 were made on August 11, 2010. On September 30, 2010, the Officers agreed to extend the maturity date of the loans to December 31, 2012 resulting in the outstanding balances, including principle and accrued interest, to be reclassified as long term debt. On October 12, 2010 repayments were made in the aggregate amount of \$40,707. Additional repayments were made on February 2, 2011 in the aggregate amount of \$66,000.

On September 30, 2010, four of the Officers agreed to convert accrued but unpaid salaries through September 30, 2010 to subordinated long term notes payable. In February 2011, as a result of an agreement by each of the four Officers to retroactively decrease the amount of the annual salary for 2010 from \$125,000 per annum per Officer to \$80,000, the amount of the notes were reduced to an aggregate of \$1,620,137. The notes have a maturity of December 31, 2012 and a stated interest rate of six percent (6%) per annum, said interest accruing from October 1, 2010 on the unpaid balance of principal and interest. There is no prepayment penalty. As of March 31, 2011 and December 31, 2010, the accrued but unpaid interest totals \$48,650 and \$24,090, respectively.

Note 5: Stockholders' Equity

As of March 31, 2011, 55,148,815 shares of common stock were outstanding out of the 100,000,000 shares of common stock authorized.

On April 6, 2010, the Company commenced a Confidential Private Placement offering to certain accredited investors for up to 12,500,000 shares of common stock at a purchase price of \$.40 per share. On July 13, 2010, the Board of Directors amended the offering to include the issuance of a warrant to purchase one additional share of common stock for each share of common stock sold through the offering. Each warrant will have an expiration of three years from the date of purchase and an exercise price of \$0.40 per share. As of December 31, 2011, a total subscription of \$188,443 had been received and 471,108 shares had been issued. Costs of the offering in the amount of \$17,396 were offset against the common stock account. This offering expired.

In the first quarter of 2011, we conducted a private placement to certain accredited investors only under Rule 506. As a result of the offering, the Company received subscriptions in the total amount of \$225,000. Ms. Isabel Moeller also subscribed for 1,000,000 shares. In lieu of cash payment for the subscribed shares, Ms. Moeller agreed to a \$200,000 reduction in the outstanding principal balance of her note effective April 1, 2011. Sales made in this offering were not closed until April 2011. The shares sold in the private placement have not yet been issued.

On September 30, 2010, 50,000 shares were issued in exchange for services valued at \$25,000, or \$0.50 per share. On March 31, 2011, an additional 32,300 shares were issued in exchange for services valued at \$9,690, or \$0.30 per share.

Through March 31, 2011, stock option grant notices for up to 8,995,000 shares of common stock have been issued to employees and service providers of the Company pursuant to the 2008 Stock Option Plan, in accordance with the provisions of Topic 718, Compensation, of the Accounting Standards Codification, which requires companies to measure the cost of employee services received in exchange for equity instruments based on the grant date fair value of those awards and to recognize the compensation expense over the requisite service period during which the awards are expected to vest. Overview

The following discussion and analysis of our financial condition and results of operations ("MD&A") should be read in conjunction with our consolidated financial statements and the accompanying notes to the financial statements included in this Form 10-Q.

The MD&A is based on our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make certain estimates and judgments that affect the reported amounts of assets, liabilities and expenses and related disclosure of contingent assets and liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Our Business

Pacific Entertainment Corporation (“we”, “us”, “our” or the “Company”) commenced operations in January 2006, assuming all of the rights and obligations of its Chief Executive Officer, Klaus Moeller, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which we obtained all rights, copyrights, and trademarks to the brands “Baby Genius”, “Little Genius”, “Kid Genius”, and “Wee Worship”, and all then existing productions under those titles. We provide family entertainment and music-based products that are entertaining, educational and beneficial to the well-being of infants and young children. We create, market and sell children’s DVDs, CD music, toy, and book products in the United States by distribution at wholesale to retail stores and outlets. We also license the use of our brands internationally to others to manufacture, market and sell the products, whereby we receive advances and royalties.

The Company released two new music products, “50 Classic Lullabies & Soothing Songs” and “Favorite Guitar and Piano Melodies” in June 2010 and released another new music title, “Best of Baby Genius” in January 2011. We also began production of a new DVD based on the concept of shapes and colors, scheduled for release in 2011.

In August 2009, the Company launched a line of Baby Genius pre-school toys. The line of 24 Baby Genius toys, manufactured by toy manufacturer Battat Incorporated, includes musical, activity, and role-play toys that incorporate the Baby Genius principle of music as a core learning tool to engage and encourage children to communicate, connect, discover, and use their imagination. The Company cancelled the agreement in December 2010 according to the terms of the contract, permitting Battat to continue selling the current line of toys until late spring 2011.

On January 11, 2011, the Company signed a world-wide license agreement with Jakks Pacific’s Tollytots® division for a new toy line. As a result of the five-year agreement, Tollytots® will immediately begin development on a comprehensive line of musical and early learning toys, incorporating the music, characters and themes that have made the Baby Genius series of videos and music CDs so successful among children and parents around the world. The new toy line will cover a broad range of exclusive categories, including learning and developmental toys, most plush toys, and musical toys, as well as several other non-exclusive categories. As part of the development of the new products, the Company has engaged in development of several new and exciting characters as well as providing the existing characters with a fresh appearance.

The Company, in partnership with Dr. Shulamit Ritblatt, has developed “Circle of Education,” an early childhood education curriculum using music as the basis for skills required to prepare pre-school children for Kindergarten. This groundbreaking system is designed to assist teachers and parents provide their pre-school children with the skills required to succeed in their first steps of education. Circle of Education, LLC (“COE”) was formed on September 24, 2010, pursuant to a joint venture agreement between the Company and Dr. Ritblatt. The Company obtained an initial voting and economic interest of seventy-five percent of the outstanding units of the newly formed company in exchange for the contribution of all intellectual property rights the Company had in the Circle of Education program. The results for COE are consolidated within our financial statements.

During fourth quarter of 2009 and 2010, the Company signed licensing agreements to develop additional product lines based on the Baby Genius characters. These agreements include children's games and puzzles, electronic learning aids, "sippy cups", shoes, socks and infant and toddler layette items. We are also discussing other licensing opportunities for introduction in 2011 and 2012 and we believe that our licensing revenue will grow significantly during the upcoming years.

The Company also obtains licenses for other select brands we feel we can market and sell through our distribution channels. In July 2009, Pacific Entertainment entered into a licensing agreement with Precious Moments, Inc. ("PMI") granting the Company non-exclusive rights to use its copyrights and trademarks in connection with the manufacture, distribution, sale, and advertising of music CD's for children through 2012. The Company initially produced three CD's released in fourth quarter 2009. In addition, the Company signed an amendment in September 2009 to include licensing for DVD's created by PMI. The "Precious Moments" products join our previously licensed lines including "Guess How Much I Love You" and "The Snowman".

During 2010, the Company launched a line of classic movies and television programs, "Pacific Entertainment Presents". Initially consisting of seven titles, each focusing on a specific genre such as Horror, Western, SciFi, Action, Mystery, War, and Gangster, an additional six titles were added in late 2010 expanding the line with the Super Hero's collection as well as Family Favorites.

Net Loss per common share	\$ (0.00)	\$ (0.01)
Weighted average shares outstanding	55,116,515	54,595,407

Revenues. Revenues by product segment and for the Company as a whole were as follows:

	Three Months Ended March 31,	
	2011	2010
Direct PEC Product		
Sales	\$ 643,809	\$ 373,458
Licensed Products	249,483	370,300
Licensing & Royalties	413,885	231,840
Total Revenue	\$ 1,307,177	\$ 975,598

Direct product sales represent items in which the Company holds the patents and/or copyrights to the characters and which are manufactured and sold by the Company directly at wholesale to retail stores and outlets. The increase of the three months ended March 31, 2011 compared to the three months ended March 31, 2010, was due to the success of sales through a direct to consumer offering with Groupon. Management believes that the Company is on target to increase direct product sales volumes over 2010, although economic and retail conditions in the market could impact our future sales in a negative manner. We have made significant progress in our self distribution program and we continue to explore additional sales opportunities with retail and distribution customers; however, there is no guarantee that our products will be accepted by these new customers.

The licensed product sales category includes items for which we license rights from other companies to copyrights and trademarks of select brands we feel will do well within our distribution channels as well as overstock inventory from other studios which we sell and from which we receive income. For the three months ended March 31, 2011, the category decreased over the same period in 2010 as a result of a reduction in outside studio product acquired and sold.

Licensing and royalties is revenue for our brands licensed to others to manufacture and/or market, both internationally and domestically. New license royalty revenue, including the toy line launched in August 2009, as well as advances received on signing of license agreements, is responsible for the growth in this category. There may be fluctuation in licensing revenue due to economic conditions in the sales territory. We believe this revenue source will decrease during the remainder of 2011 due to the cancellation of the Battat toy license agreement and then show significant improvement in the subsequent years with the introduction of the new toy line currently in development with Jakks Pacific's Tollytots® division.

Our products compete in the pre-school music, books, DVDs, and toy categories. We believe we compare favorably in the quality of our products, as well as competitive price point. In spite of the global economic decline we have exhibited a significant growth in revenue in 2011. We continue to aggressively market direct to retailers and are exploring new domestic and international licensing opportunities. We are investigating additional relevant external brands to license, adding to the diversity of our product line, while maintaining the integrity of our core mission of educating and entertaining children.

The Company's business is subject to the effects of seasonality, causing revenues to fluctuate with consumer purchasing behavior, competition, and the timing of holiday periods.

The 2011 economic outlook remains challenging, however, we anticipate continued sales growth through our actions to improve our existing products, maintaining highly competitive price points, and adding content to our product pallet.

Costs. Costs and expenses, excluding depreciation and amortization, consisting of cost of sales, marketing and sales expenses, and general and administrative costs, increased \$282,619 (25.2%) for the three months ended March 31, 2011, compared to the three months ended March 31, 2010.

Cost of Sales increased \$83,538, or 17.8%, during the first quarter of 2011 compared to the same period of 2010 as a result of increased sales volumes and shipping costs.

Selling, General and Administrative (“SG&A”) expenses predominately consists of salaries, employee benefits and stock based compensation as well as other expenses associated with executive management, finance, legal, facilities, marketing, rent, and other professional services. Costs associated with these categories are detailed as follows:

	Three Months Ended March 31,	
	2011	2010
G e n e r a l a n d		
Administrative	\$ 480,284	\$ 422,336
Marketing and Sales	364,552	228,683
Product Development	5,263	-
Total Selling, General, and Administrative	\$ 850,099	\$ 651,019

General and administrative costs increased \$57,948 (13.7%) for the three months ended March 31, 2011 compared to the three months ended March 31, 2010. This is a result of increases in salaries and related expenses of \$64,188, partially offset by a decrease in professional services expense of \$32,805, due to the hiring of accounting staff previously outsourced and severance payments. The remaining increase is for investor relations expenses.

Marketing and sales expenses include trade shows, public relations firms, sales and royalty commissions and personal contact. Marketing expenses exhibit some fluctuation earlier in the year due to timing of trade shows. Increases in commission expense of \$187,267 for the three months ended March 31, 2011 compared to the same period in the prior year were the result of the increase in royalty revenue associated with licensing agreements. There is also an associated reduction in expenses of \$25,703 for a common marketing fund which was discontinued in January 2011.

Product development charges are for routine and periodic alterations to existing products. All costs for new product development and significant improvements to existing products are capitalized in accordance with FASB Accounting Standards Codification Topic 350, Intangible Assets and Topic 730, Research and Development.

Expenditures for SG&A are not generally seasonal and require consistent cash outflows.

Interest Expense. Interest expense resulted from related party loans and debentures.

The Company borrowed funds from four of the Officers of the Company during the years 2007 to 2009 and issued promissory notes in favor of the Officers. The proceeds from the notes were used to pay operating obligations of the Company. Interest expense was recorded in the three months ended March 31, 2011 and 2010 in the amounts of \$4,008 and \$11,260 for these officer notes, respectively. The decrease was due to partial repayments made in February 2011 and the last half of 2010.

On February 1, 2008, Isabel Moeller, sister of our Chief Executive Officer, Klaus Moeller, loaned \$310,000 to the Company at an interest rate equal to 8% per annum. The funds were borrowed from Ms. Moeller in order to reduce outstanding obligations due to Genius Products, Inc. at that time. Subsequent agreements extended the maturity date to December 31, 2010 and reduced the stated interest rate to six (6%) percent per annum. The interest expense for the three months ended March 31, 2011 and March 31, 2010 was \$5,294 and \$5,412, respectively.

On September 30, 2010, four of the Officers agreed to convert accrued but unpaid salaries through September 30, 2010 to subordinated long term notes payable. In February 2011, as a result of an agreement by each of the four Officers to retroactively decrease the amount of the annual salary for 2010 from \$125,000 per annum per Officer to \$80,000, the amount of the notes were reduced to an aggregate of \$1,620,137. The notes have a maturity of December 31, 2012 and a stated interest rate of six percent (6%) per annum, said interest accruing from October 1, 2010. For the three months ended March 31, 2011 and March 31, 2010, interest expense was recorded in the amount of \$24,559 and \$0, respectively.

Liquidity and Capital Resources

Three Months Ended March 31, 2011 Compared to Three Months Ended March 31, 2010

To date, we have relied on a combination of revenue, loans from officers and private offerings of stock to meet our cash requirements. Currently, our principal source of liquidity is cash in the bank. Management believes that its increasing revenues and cash generated by operations, together with funds available from short-term related party advances, will be sufficient to fund planned operations for the next twelve months. However, there can be no assurance that operations and operating cash flows will continue at the current levels or improve in the near future. If the Company is unable to obtain profitable operations and positive operating cash flows sufficient to meet scheduled debt obligations, it may need to seek additional funding through equity and related party loans or be forced to scale back its development plans or to significantly reduce or terminate operations.

Cash totaled \$269,451 and \$92,581 at March 31, 2011 and 2010, respectively. The change in cash is as follows:

	Three Months Ended March 31,		
	2011	2010	Change
Cash provided (used) by operations	\$ (18,712)	\$ (118,453)	\$ 99,741
Cash provided (used) in investing activities	(64,717)	(36,831)	(27,886)
Cash provided (used) in financing activities	145,000	-	145,000
Increase (decrease) in cash and cash equivalents	\$ 61,571	\$ (155,284)	\$ 216,855

Our cash flow is very seasonal and a vast majority of our sales historically occur in the last two quarters of the year as retailers expand inventories for the holiday selling season. Cash used by operations in the three months ended March 31, 2011, compared to 2010, decreased by \$99,741 due to an increase in the accounts payable balances mitigated by an increase in inventory and a decrease in accrued salaries. Cash used in the same periods for investing activities relates to investment in additional music and DVD products. The cash provided by financing activities for the three months ended March 31, 2011, is a result of sales of common stock pursuant to a private placement offering and repayment of related party notes.

On April 6, 2010, the Company commenced a private placement offering to certain accredited investors pursuant to Rule 506 for up to 12,500,000 shares of common stock at a purchase price of \$.40 per share. On July 13, 2010, the Board of Directors amended the offering to include the issuance of a warrant to purchase one additional share of common stock for each share of common stock sold through the offering. Each warrant expires three years from the date of purchase and has a stated exercise price of \$.40 per share. As of December 31, 2010, a total subscription of \$188,443 had been received and 471,108 shares have been issued and warrants have been issued to purchase an additional 471,108 shares. Costs of the offering in the amount of \$17,396 were offset against the common stock account through December 31, 2010.

During March and April 2011, we conducted a private placement to certain accredited investors only under Rule 506. Critical Accounting Policies

The Company's accounting policies are described in Note 1: The Company and Significant Accounting Policies of the notes to the Company's financial statements in Item 1 above. Below is a summary of the critical accounting policies, among others, that management believes involve significant judgments and estimates used in the preparation of its financial statements.

Revenue Recognition – The Company recognizes revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer as required by Revenue Recognition Topic 605 of the FASB Accounting Standards Codification.

Revenues associated with the sale of branded CDs, DVDs and other products, are recorded when shipped to customers pursuant to approved customer purchase orders resulting in the transfer of title and risk of loss. Cost of sales, rebates and discounts are recorded at the time of revenue recognition or at each financial reporting date.

The Company's licensing and royalty revenue represent variable payments based on net sales from brand licensees for exclusive content distribution rights. These licenses agreements are managed by third parties that are responsible for collecting fees due and remitting to the Company its share after expenses. Revenue from licensed products is

recognized when realized or realizable based on royalty reporting received from licensees.

Principles of Consolidation - The consolidated financial statements include the financial statements of the Company, and its 75% owned subsidiary: Circle of Education LLC. All inter-company balances and transactions have been eliminated in consolidation.

Other Estimates – The Company estimates reserves for future returns of product based on an analysis that considers historical returns, changes in customer demand and current economic trends. The Company regularly reviews the outstanding accounts receivable balances for each account and monitors delinquent accounts for collectability. The Company reviews all intangible assets periodically to determine if the value has been impaired by recent financial transactions using the discounted cash flow analysis of revenue stream for the estimated life of the assets.

Reclassifications – Certain amounts in the condensed consolidated financial statements as of December 31, 2010 have been reclassified to conform to the presentation as of March 31, 2011.
