UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

---

FORM 10-Q

Quarterly  
report  
pursuant to  
Section 13  
or 15(d) of  
the  
Securities  
Exchange  
Act of  
1934

For the quarterly period ended September 30, 2018

or

Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Commission File Number: 0-24649

REPUBLIC BANCORP, INC.

(Exact name of registrant as specified in its charter)

Kentucky  
(State of other jurisdiction of incorporation or organization)      61-0862051  
(I.R.S. Employer Identification No.)

601 West Market Street, Louisville, Kentucky      40202  
(Address of principal executive offices)      (Zip Code)

Registrant's telephone number, including area code: (502) 584-3600

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.    Yes    No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).    Yes    No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer      Accelerated filer      Non-accelerated filer      Smaller reporting company  
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The number of shares outstanding of the registrant's Class A Common Stock and Class B Common Stock, as of October 31, 2018, was 18,691,894 and 2,212,929.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – SEPTEMBER 30, 2018 and 2017 AND DECEMBER 31, 2017 (UNAUDITED)

1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation — The consolidated financial statements include the accounts of Republic Bancorp, Inc. (the “Parent Company”) and its wholly-owned subsidiaries, Republic Bank & Trust Company (“RB&T” or the “Bank”) and Republic Insurance Services, Inc. (the “Captive”). All significant intercompany balances and transactions are eliminated in consolidation. All companies are collectively referred to as (“Republic” or the “Company”).

The Bank is a Kentucky-based, state-chartered non-member financial institution that provides both traditional and non-traditional banking products through five reportable segments using a multitude of delivery channels. While the Bank operates primarily in its market footprint, its non-brick-and-mortar delivery channels allow it to reach clients across the United States.

The Captive is a Nevada-based, wholly-owned insurance subsidiary of the Company. The Captive provides property and casualty insurance coverage to the Company and the Bank as well as a group of third-party insurance captives for which insurance may not be available or economically feasible.

Republic Bancorp Capital Trust (“RBCT”) is a Delaware statutory business trust that is a wholly-owned unconsolidated finance subsidiary of Republic Bancorp, Inc.

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, the financial statements do not include all the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for fair presentation have been included. Operating results for the three and nine months ended September 30, 2018 are not necessarily indicative of the results that may be expected for the year ending December 31, 2018. For further information, refer to the consolidated financial statements and footnotes thereto included in Republic’s Form 10-K for the year ended December 31, 2017.

As of September 30, 2018, the Company was divided into five reportable segments: Traditional Banking, Warehouse Lending (“Warehouse”), Mortgage Banking, Tax Refund Solutions (“TRS”), and Republic Credit Solutions (“RCS”). Management considers the first three segments to collectively constitute “Core Bank” or “Core Banking” operations, while the last two segments collectively constitute Republic Processing Group (“RPG”) operations. The Bank’s Correspondent

Lending channel and the Company's national branchless banking platform, MemoryBank®, are considered part of the Traditional Banking segment.

Table of Contents

Core Bank

Traditional Banking segment — The Traditional Banking segment provides traditional banking products primarily to customers in the Company’s market footprint. As of September 30, 2018, Republic had 45 full-service banking centers and one loan production office (“LPO”) with locations as follows:

Kentucky — 32

Metropolitan Louisville — 18

Central Kentucky — 9

Elizabethtown — 1

Frankfort — 1

Georgetown — 1

Lexington — 5

Shelbyville — 1

Western Kentucky — 2

Owensboro — 2

Northern Kentucky — 3

Covington — 1

Crestview Hills — 1

Florence — 1

Southern Indiana — 3

Floyds Knobs — 1

Jeffersonville — 1

New Albany — 1

Metropolitan Tampa, Florida — 7

Metropolitan Cincinnati, Ohio — 1

\*Includes one LPO

Republic's headquarters are in Louisville, which is the largest city in Kentucky based on population.

Traditional Banking results of operations are primarily dependent upon net interest income, which represents the difference between the interest income and fees on interest-earning assets and the interest expense on interest-bearing liabilities. Principal interest-earning Traditional Banking assets represent investment securities and commercial and consumer loans primarily secured by real estate and/or personal property. Interest-bearing liabilities primarily consist of interest-bearing deposit accounts, securities sold under agreements to repurchase, as well as short-term and long-term borrowing sources. Federal Home Loan Bank ("FHLB") advances have traditionally been a significant borrowing source for the Bank.

Other sources of Traditional Banking income include service charges on deposit accounts, debit and credit card interchange fee income, title insurance commissions, and increases in the cash surrender value of Bank Owned Life Insurance ("BOLI").

Traditional Banking operating expenses consist primarily of salaries and employee benefits, occupancy and equipment expenses, communication and transportation costs, data processing, interchange related expenses, marketing and development expenses, Federal Deposit Insurance Corporation ("FDIC") insurance expense, franchise tax expense and various other general and administrative costs. Traditional Banking results of operations are significantly impacted by general economic and competitive conditions, particularly changes in market interest rates, government laws and policies and actions of regulatory agencies.

Primarily from its Warehouse clients, the Bank may occasionally acquire for investment through its Correspondent Lending channel single family, first lien mortgage loans that meet the Bank's specifications. Substantially all loans purchased through the Correspondent Lending channel are purchased at a premium. The volume of loans purchased through the Correspondent Lending channel may fluctuate from time to time based on several factors, including, but not limited to, borrower demand, other investment options and the Bank's current and forecasted liquidity position.

## Table of Contents

Warehouse Lending segment — Through its Warehouse Lending segment, the Core Bank provides short-term, revolving credit facilities to mortgage bankers across the United States through mortgage warehouse lines of credit. These credit facilities are primarily secured by single family, first lien residential real estate loans. The credit facility enables the mortgage banking clients to close single family, first lien residential real estate loans in their own name and temporarily fund their inventory of these closed loans until the loans are sold to investors approved by the Bank or purchased by the Bank through its Correspondent Lending channel. Individual loans are expected to remain on the warehouse line for an average of 15 to 30 days. Reverse mortgage loans typically remain on the line longer than conventional mortgage loans. Interest income and loan fees are accrued for each individual loan during the time the loan remains on the warehouse line and collected when the loan is sold. The Core Bank receives the sale proceeds of each loan directly from the investor and applies the funds to pay off the warehouse advance and related accrued interest and fees. The remaining proceeds are credited to the mortgage-banking client.

Mortgage Banking segment — Mortgage Banking activities primarily include 15-, 20- and 30-year fixed-term single family, first lien residential real estate loans that are originated and sold into the secondary market, primarily to the Federal Home Loan Mortgage Corporation (“FHLMC” or “Freddie Mac”) and the Federal National Mortgage Association (“FNMA” or “Fannie Mae”). The Bank typically retains servicing on loans sold into the secondary market. Administration of loans with servicing retained by the Bank includes collecting principal and interest payments, escrowing funds for property taxes and property insurance, and remitting payments to secondary market investors. The Bank receives fees for performing these standard servicing functions.

### Republic Processing Group

Tax Refund Solutions segment — Through the TRS segment, the Bank is one of a limited number of financial institutions that facilitates the receipt and payment of federal and state tax refund products and offers a credit product through third-party tax preparers located throughout the United States, as well as tax-preparation software providers (collectively, the “Tax Providers”). Substantially all of the business generated by the TRS segment occurs in the first half of the year. The TRS segment traditionally operates at a loss during the second half of the year, during which time the segment incurs costs preparing for the upcoming year’s tax season.

Refund Transfers (“RTs”) are fee-based products whereby a tax refund is issued to the taxpayer after the Bank has received the refund from the federal or state government. There is no credit risk or borrowing cost associated with these products because they are only delivered to the taxpayer upon receipt of the tax refund directly from the governmental paying authority. Fees earned by the Company on RTs, net of revenue share, are reported as noninterest income under the line item “Net refund transfer fees.”

The Easy Advance (“EA”) tax credit product is a loan that allows a taxpayer to receive an advance of a portion of their refund, with the taxpayer’s Tax Provider paying all fees to RB&T for the advance. First offered by TRS in 2016, the EA had the following features during its 2018 and 2017 offering periods:

- Offered only during the first two months of each year;
- No EA fee was charged to the taxpayer customer;
- All fees for the EA were paid by the Tax Providers with a restriction prohibiting the Tax Providers from passing along the fees to the taxpayer customer;
- No requirement that the taxpayer customer pays for another bank product, such as an RT;
-

- Multiple funds disbursement methods, including direct deposit, prepaid card, check, or Walmart Direct2Cash®, based on the taxpayer-customer's election;
- Repayment of the EA to the Bank was deducted from the taxpayer customer's tax refund proceeds; and
  - If an insufficient refund to repay the EA occurred:
    - o there was no recourse to the taxpayer customer,
    - o no negative credit reporting on the taxpayer customer, and
    - o no collection efforts against the taxpayer customer.

The Company reports fees paid by the Tax Providers for the EA product as interest income on loans. EAs are generally repaid within three weeks after the taxpayer customer's tax return is submitted to the applicable taxing authority. EAs do not have a contractual due date but the Company considers an EA delinquent if it remains unpaid three weeks after the taxpayer customer's tax return is submitted to the applicable taxing authority. Provisions for loan losses on EAs are estimated when advances are made, with provisions for all probable EA losses made in the first quarter of each year. Unpaid EAs are charged-off within 111 days after the taxpayer customer's tax return is submitted to the applicable taxing authority, with the majority of charge-offs typically recorded during the second quarter of the year.

## Table of Contents

Related to the overall credit losses on EAs, the Bank's ability to control losses is highly dependent upon its ability to predict the taxpayer's likelihood to receive the tax refund as claimed on the taxpayer's tax return. Each year, the Bank's EA approval model is based primarily on the prior-year's tax refund funding patterns. Because much of the EA volume occurs each year before that year's tax refund funding patterns can be analyzed and subsequent underwriting changes made, credit losses during a current year could be higher than management's predictions if tax refund funding patterns change materially between years.

Republic Payment Solutions ("RPS") division — RPS is managed and operated within the TRS segment. The RPS division is an issuing bank offering general-purpose reloadable prepaid cards through third-party service providers. For the projected near-term, as the prepaid card program matures, the operating results of the RPS division are expected to be immaterial to the Company's overall results of operations and will be reported as part of the TRS segment. The RPS division will not be considered a separate reportable segment until such time, if any, that it meets quantitative reporting thresholds.

The Company reports fees related to RPS programs under Program fees. Additionally, the Company's portion of interchange revenue generated by prepaid card transactions is reported as noninterest income under "Interchange fee income."

Republic Credit Solutions segment — Through the RCS segment, the Bank offers consumer credit products. In general, the credit products are unsecured, small-dollar consumer loans with maturities of 30-days-or-more and are dependent on various factors including the consumer's ability to repay. RCS loans typically earn a higher yield but also have higher credit risk compared to loans originated through the Traditional Banking segment, with a significant portion of RCS clients considered subprime or near-prime borrowers. Additional information regarding consumer loan products offered through RCS follows:

- RCS line-of-credit product – The Bank originates a line-of-credit product to generally subprime borrowers across the United States through one third-party service provider. RCS sells 90% of the balances generated within two business days of loan origination to its third-party service provider and retains the remaining 10% interest. The line-of-credit product represents the substantial majority of RCS activity. Loan balances held for sale are carried at the lower of cost or fair value.
- RCS credit-card product – From the fourth quarter of 2015 through the first quarter of 2018, the Bank continued to pilot a credit-card product to generally subprime borrowers across the United States through one third-party marketer/servicer. For outstanding cards, RCS sold 90% of the balances generated within two business days of each transaction occurrence to its third-party marketer/servicer and retained the remaining 10% interest. During the second quarter of 2018, the Bank and its third-party marketer/servicer discontinued the marketing of the product to potential new clients, as the two parties deliberated the future direction of the program. During the third quarter of 2018, the Bank and its third-party marketer/servicer reached an agreement in concept to sell 100% of the existing portfolio to an unrelated third party. As a result, the Bank reclassified its 10% interest with a book value of \$3.5 million into a held-for-sale category and charged the entire RCS credit-card portfolio down to its estimated net

realizable value of \$1.5 million.

- RCS healthcare receivables product – The Bank originates a healthcare-receivables product across the United States through two different third-party service providers. For one third-party service provider, the Bank retains 100% of the receivables originated. For the other third-party service provider, the Bank retains 100% of the receivables originated in some instances, and in other instances, sells 100% of the receivables within one month of origination. Loan balances held for sale are carried at the lower of cost or fair value.
- RCS installment loan product – From the first quarter of 2016 through the first quarter of 2018, the Bank continued to pilot a consumer installment-loan product across the United States using a third-party marketer/service. As part of the program, the Bank sold 100% of the balances generated through the program back to the third-party marketer/servicer approximately 21 days after origination. The Bank carried all unsold loans under the program as “held for sale” on its balance sheet. At the initiation of this program in 2016, the Bank elected to carry these loans at fair value under a fair-value option, with the portfolio thereafter marked to market monthly.

During the second quarter of 2018, the Bank and its third-party marketer/service provider suspended the origination of any new loans, and the subsequent sale of all recently-originated loans under this program, while the two parties evaluated the future offering of this product due to changes in the applicable state law impacting the product. Concurrent with the suspension of this program, the Bank reclassified approximately \$2.2 million of these loans from held for sale on the balance sheet into the held-for-investment category and revalued these loans accordingly.

Table of Contents

The Company reports interest income and loan origination fees earned on RCS loans under “Loans, including fees,” while any gains or losses on sale and mark-to-market adjustments of RCS loans are reported as noninterest income under “Program fees.”

## Accounting Standards Updates (“ASUs”)

The following ASUs were issued prior to September 30, 2018 and are considered relevant to the Company’s financial statements. Generally, if an issued-but-not-yet-effective ASU with an expected immaterial impact to the Company has been disclosed in prior Company financial statements, it will not be re-disclosed below.

ASU No.	Topic	Nature of Update	Date Adoption Required	Permitted Adoption Methods	Expected Financial Statement Impact
2016-02	Leases (Topic 842)	Most leases are considered operating leases, which are not accounted for on the lessees’ balance sheets. The significant change under this ASU is that those operating leases will be recorded on the balance sheet.	January 1, 2019	Modified-retrospective approach, which includes a number of optional practical expedients.	During 2018, the Company completed another iteration of a pro forma impact analysis on the Company's financial statements of implementing this standard. Based on this analysis, the Company believes approximately \$28 million of leases will be placed on its balance sheet, with this amount increasing both total assets and total liabilities. Additionally, the Company's analysis reflected that this ASU would have minimal impact on the Company's performance metrics, including regulatory capital ratios and return on average assets. From a client perspective, the Company is currently reviewing the impact of this ASU on any debt

2016-13	Financial Instruments – Credit Losses (Topic 326)	This ASU amends guidance on reporting credit losses for assets held at amortized-cost basis and available-for-sale debt securities.	January 1, 2020	Modified-retrospective approach.	covenants.  As a result of this ASU, the Company expects an as yet undetermined increase in its allowance for credit losses. A committee formed by the Company to oversee its transition to a current expected credit losses (“CECL”) methodology has analyzed the Company’s loan-level data and preliminarily concluded that no additional loan level segmentation beyond its current methodology segmentation would be warranted under CECL. The Company is also currently performing iterations of its allowance calculation under a “beta” CECL model provided by the same third-party software solution currently-employed to calculate the Company's allowance for loan and lease losses.
2018-10	Codification Improvements to Topic 842, Leases	This ASU affects narrow aspects of the guidance issued in the amendments in ASU 2016-02.	January 1, 2019	Adoption should conform to the adoption of ASU 2016-02 above.	The Company is evaluating the adoption of this ASU with its ongoing analysis of adopting ASU 2016-02.
2018-11	Leases (Topic 842): Targeted Improvements	This ASU provides the Company with an additional (and optional) transition method to adopt ASU 2016-02. This ASU also provides the	January 1, 2019	Adoption should conform to the adoption of ASU 2016-02 above.	The Company is evaluating the adoption of this ASU with its ongoing analysis of adopting ASU 2016-02.

Company with a practical expedient to not separate non-lease components from the associated lease component under certain circumstances.

2018-13	Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement	This ASU modifies the disclosure requirements in Topic 820 by removing and adding certain elements.	January 1, 2020	Certain elements should be applied prospectively and others retrospectively.	Immaterial
2018-15	Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40)	This ASU aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal use software license). The accounting for the service element of a hosting arrangement that is a service contract is not affected by these	January 1, 2020	Retrospectively or prospectively to all implementation costs incurred after the date of adoption.	Immaterial

amendments.

The following ASUs were adopted by the Company during the nine months ended September 30, 2018:

13

---

Table of Contents

ASU. No.	Topic	Nature of Update	Date Adopted	Method of Adoption	Financial Statement Impact
2014-09	Revenue from Contracts with Customers (Topic 606)	Requires that revenue from contracts with clients be recognized upon transfer of control of a good or service in the amount of consideration expected to be received. Changes the accounting for certain contract costs, including whether they may be offset against revenue in the statements of income, and requires additional disclosures about revenue and contract costs.	January 1, 2018	Modified-retrospective approach.	Because most financial instruments are not subject to this ASU, a substantial portion of the Company's revenue was not impacted by this standard. Furthermore, this new standard did not have a material impact on the timing of revenue recognition for any of the Company's revenue for 2018 nor is it expected to going forward. Additionally, the Company took the following actions in association with the adoption of this ASU: 1) amended its accounting policies and procedures to assure proper revenue recognition in conformity with this ASU; and 2) updated its revenue-recognition financial statement disclosures (see footnote 16 in this section of the filing).
2016-01	Financial Instruments – Overall (Topic 825-10)	Among other things: Requires equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the	January 1, 2018	Modified-retrospective approach.	The Company has updated its policies, procedures, and financial statement presentation and disclosures for this ASU. As provided by this ASU, the Company now reports its financial

investee) to be measured at fair value with changes in fair value recognized in net income. Requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes. Requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset (i.e., securities or loans and receivables). Eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost.

instruments at exit price (see footnote 9 in this section of the filing) and recognizes changes in the fair value of applicable equity investments in net income (see footnote 2 in this section of the filing).

2016-15	Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments	This ASU provides cash flow statement classification guidance on eight reportable topics.	January 1, 2018	Retrospective transition.	Immaterial.
2016-18	Statement of Cash Flows	Requires that a statement of cash	January 1, 2018	Retrospective transition.	Immaterial.

(Topic 230)	flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. As a result, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The amendments do not provide a definition of restricted cash or restricted cash equivalents.	January 1, 2018	Prospectively.	Immaterial.	
2017-09	Compensation - Stock Compensation (Topic 718)	The amendments provide guidance on determining which changes to the terms and conditions of share-based payment awards require the Company to apply modification accounting under Topic 718.	January 1, 2018	Prospectively.	Immaterial.
2018-05	Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting	This ASU updates the Financial Accounting Standards Board ("FASB") Accounting Standards Codification	Upon addition to the ASC	Not Applicable. ## 2. INVESTMENT SECURITIES

## Available-for-Sale Debt Securities

The following tables present the gross amortized cost and fair value of available-for-sale debt securities and the related gross unrealized gains and losses recognized in accumulated other comprehensive income (“AOCI”):

September 30, 2018 (in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
U.S. Treasury securities and U.S. Government agencies	\$ 238,418	\$ —	\$ (2,780)	\$ 235,638
Private label mortgage backed security	2,484	1,365	—	3,849
Mortgage backed securities - residential	117,129	970	(2,157)	115,942
Collateralized mortgage obligations	76,528	441	(1,604)	75,365
Corporate bonds	10,000	80	—	10,080
Trust preferred security	3,523	727	—	4,250
Total available-for-sale debt securities	\$ 448,082	\$ 3,583	\$ (6,541)	\$ 445,124

December 31, 2017 (in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
U.S. Treasury securities and U.S. Government agencies	\$ 309,042	\$ 1	\$ (1,451)	\$ 307,592
Private label mortgage backed security	3,065	1,384	—	4,449
Mortgage backed securities - residential	105,644	1,603	(873)	106,374
Collateralized mortgage obligations	87,867	371	(1,075)	87,163
Corporate bonds	15,001	124	—	15,125
Trust preferred security	3,493	107	—	3,600
Total available-for-sale debt securities	\$ 524,112	\$ 3,590	\$ (3,399)	\$ 524,303

## Held-to-Maturity Debt Securities

Edgar Filing: REPUBLIC BANCORP INC /KY/ - Form 10-Q

The following tables present the carrying value, gross unrecognized gains and losses, and fair value of held-to-maturity debt securities:

September 30, 2018 (in thousands)	Carrying Value	Gross Unrecognized Gains	Gross Unrecognized Losses	Fair Value
Mortgage backed securities - residential	\$ 146	\$ 9	\$ —	\$ 155
Collateralized mortgage obligations	20,224	221	(29)	20,416
Corporate bonds	45,092	578	(23)	45,647
Obligations of state and political subdivisions	463	—	(14)	449
Total held-to-maturity debt securities	\$ 65,925	\$ 808	\$ (66)	\$ 66,667

December 31, 2017 (in thousands)	Carrying Value	Gross Unrecognized Gains	Gross Unrecognized Losses	Fair Value
Mortgage backed securities - residential	\$ 151	\$ 10	\$ —	\$ 161
Collateralized mortgage obligations	23,437	236	(17)	23,656
Corporate bonds	40,175	686	(3)	40,858
Obligations of state and political subdivisions	464	—	(6)	458
Total held-to-maturity debt securities	\$ 64,227	\$ 932	\$ (26)	\$ 65,133

At September 30, 2018 and December 31, 2017, there were no holdings of debt securities of any one issuer, other than the U.S. government and its agencies, in an amount greater than 10% of stockholders' equity.

#### Sales of Available-for-Sale Debt Securities

During the three and nine months ended September 30, 2018 and 2017, there were no gains or losses on sales or calls of available-for-sale debt securities.

Table of Contents

## Debt Securities by Contractual Maturity

The amortized cost and fair value of debt securities by contractual maturity at September 30, 2018 follow. Expected maturities may differ from contractual maturities if borrowers have the right to call or prepay obligations with or without call or prepayment penalties. Securities not due at a single maturity date are detailed separately.

September 30, 2018 (in thousands)	Available-for-Sale Debt Securities		Held-to-Maturity Debt Securities	
	Amortized Cost	Fair Value	Carrying Value	Fair Value
Due in one year or less	\$ 45,033	\$ 44,825	\$ 50	\$ 50
Due from one year to five years	203,385	200,893	10,386	10,441
Due from five years to ten years	—	—	35,119	35,605
Due beyond ten years	3,523	4,250	—	—
Private label mortgage backed security	2,484	3,849	—	—
Mortgage backed securities - residential	117,129	115,942	146	155
Collateralized mortgage obligations	76,528	75,365	20,224	20,416
Total debt securities	\$ 448,082	\$ 445,124	\$ 65,925	\$ 66,667

## Corporate Bonds

The Bank's floating rate corporate bonds were rated "investment grade" by accredited rating agencies as of their respective purchase dates. The total fair value of the Bank's corporate bonds represented 11% and 9% of the Bank's investment portfolio as of September 30, 2018 and December 31, 2017.

## Mortgage Backed Securities and Collateralized Mortgage Obligations

At September 30, 2018, with the exception of the \$3.8 million private label mortgage backed security, all other mortgage backed securities and collateralized mortgage obligations ("CMOs") held by the Bank were issued by U.S. government-sponsored entities and agencies, primarily Freddie Mac and the Fannie Mae. At September 30, 2018 and December 31, 2017, there were gross unrealized losses of \$3.8 million and \$1.9 million related to available for sale mortgage backed securities and CMOs. Because these unrealized losses are attributable to changes in interest rates and illiquidity, and not credit quality, and because the Bank does not have the intent to sell these securities, and it is likely that it will not be required to sell the securities before their anticipated recovery, management does not consider these securities to have other-than-temporary impairment ("OTTI").

### Trust Preferred Security

During 2015, the Parent Company purchased a \$3 million floating rate trust preferred security (“TRUP”) at a price of 68% of par. The coupon on this security is based on the 3-month London Interbank Borrowing Rate (“LIBOR”) rate plus 159 basis points. The Company performed an initial analysis prior to acquisition and performs ongoing analysis of the credit risk of the underlying borrower in relation to its TRUP.

Table of Contents

## Unrealized-Loss Analysis on Debt Securities

Debt securities with unrealized losses at September 30, 2018 and December 31, 2017, aggregated by investment category and length of time that individual debt securities have been in a continuous unrealized loss position, were as follows:

September 30, 2018 (in thousands)	Less than 12 months Unrealized		12 months or more Unrealized		Total	Unrealized
	Fair Value	Losses	Fair Value	Losses	Fair Value	Losses
Available-for-sale debt securities:						
U.S. Treasury securities and U.S. Government agencies	\$ 129,894	\$ (1,414)	\$ 105,744	\$ (1,366)	\$ 235,638	\$ (2,780)
Mortgage backed securities - residential	56,862	(953)	33,654	(1,204)	90,516	(2,157)
Collateralized mortgage obligations	17,141	(779)	16,563	(825)	33,704	(1,604)
Total available-for-sale debt securities	\$ 203,897	\$ (3,146)	\$ 155,961	\$ (3,395)	\$ 359,858	\$ (6,541)

December 31, 2017 (in thousands)	Less than 12 months Unrealized		12 months or more Unrealized		Total	Unrealized

At September 30, 2018, the Bank's security portfolio consisted of 186 securities, 68 of which were in an unrealized loss position.

At December 31, 2017, the Bank's security portfolio consisted of 185 securities, 58 of which were in an unrealized loss position.

Table of Contents

Other-than-temporary impairment

Unrealized losses for all debt securities are reviewed to determine whether the losses are “other-than-temporary.” Debt securities are evaluated for OTTI on at least a quarterly basis and more frequently when economic or market conditions warrant such an evaluation to determine whether a decline in value below amortized cost is other-than-temporary. In conducting this assessment, the Bank evaluates a number of factors including, but not limited to the following:

- The length of time and the extent to which fair value has been less than the amortized cost basis;
- The Bank’s intent to hold until maturity or sell the debt security prior to maturity;
- An analysis of whether it is more-likely-than-not that the Bank will be required to sell the debt security before its anticipated recovery;
- Adverse conditions specifically related to the security, an industry, or a geographic area;
  - The historical and implied volatility of the fair value of the security;
- The payment structure of the security and the likelihood of the issuer being able to make payments;
- Failure of the issuer to make scheduled interest or principal payments;
- Any rating changes by a rating agency; and
- Recoveries or additional decline in fair value subsequent to the balance sheet date.

The term “other-than-temporary” is not intended to indicate that the decline is permanent but indicates that the prospects for a near-term recovery of value are not necessarily favorable, or that there is a general lack of evidence to support a realizable value equal to or greater than the carrying value of the investment. Once a decline in value is determined to be other-than-temporary, the value of the security is reduced and a corresponding charge to earnings is recognized for the anticipated credit losses.

The Bank owns one private label mortgage backed security with a total carrying value of \$3.8 million at September 30, 2018. This security is mostly backed by “Alternative A” first lien mortgage loans, but also has an insurance “wrap” or guarantee as an added layer of protection to the security holder. This asset is illiquid, and as such, the Bank determined it to be a Level 3 security in accordance with Accounting Standards Codification (“ASC”) Topic 820, Fair Value Measurement. Based on this determination, the Bank utilized an income valuation model (“present value model”) approach, in determining the fair value of the security. This approach is beneficial for positions that are not traded in active markets or are subject to transfer restrictions, and/or where valuations are adjusted to reflect illiquidity and/or non-transferability. Such adjustments are generally based on available market evidence. In the absence of such evidence, management’s best estimate is used. Management’s best estimate consists of both internal and external support for this investment.

See additional discussion regarding the Bank’s private label mortgage backed security under Footnote 9 “Fair Value” in this section of the filing.

Pledged Debt Securities

The following table presents debt securities pledged to secure public deposits, securities sold under agreements to repurchase and debt securities held for other purposes, as required or permitted by law:

(in thousands)	September 30, 2018	December 31, 2017
Carrying amount	\$ 258,670	\$ 262,679
Fair value	258,777	262,902

Table of Contents

## Equity Securities

On January 1, 2018, the Company adopted ASU 2016-01, Financial Instruments. Among other things, ASU 2016-01 requires the Company recognize changes in the fair value of equity investments with a readily determinable fair value in net income unless those investments are accounted for under the equity method of accounting.

The following tables present the carrying value, gross unrealized gains and losses, and fair value of equity securities with readily determinable fair values:

September 30, 2018 (in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Freddie Mac preferred stock	\$ —	\$ 332	\$ —	\$ 332
Community Reinvestment Act mutual fund	2,500	—	(115)	2,385
Total equity securities with readily determinable fair values	\$ 2,500	\$ 332	\$ (115)	\$ 2,717

December 31, 2017 (in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Freddie Mac preferred stock	\$ —	\$ 473	\$ —	\$ 473
Community Reinvestment Act mutual fund	2,500	—	(45)	2,455
Total equity securities with readily determinable fair values	\$ 2,500	\$ 473	\$ (45)	\$ 2,928

For equity securities with readily determinable fair values, the gross realized and unrealized gains and losses recognized in the Company's consolidated statements of income were as follows:

(in thousands)	Three Months Ended September 30, 2018			Nine Months Ended September 30, 2018		
	Realized	Unrealized	Total	Realized	Unrealized	Total
	Gains (Losses) Recognized on Equity Securities			Gains (Losses) Recognized on Equity Securities

Total equity securities with readily determinable fair value	\$ —	\$ (76)	\$ (76)	\$ —	\$ (211)	\$ (211)

Table of Contents

3. LOANS HELD FOR SALE

In the ordinary course of business, the Bank originates for sale mortgage loans and consumer loans. Mortgage loans originated for sale are primarily originated and sold into the secondary market through the Bank’s Mortgage Banking segment, while consumer loans originated for sale are originated and sold through the RCS segment.

Mortgage Loans Held for Sale, at Fair Value

See additional detail regarding mortgage loans originated for sale, at fair value under Footnote 10 “Mortgage Banking Activities” of this section of the filing.

Consumer Loans Held for Sale, at Fair Value

From the first quarter of 2016 through the first quarter of 2018, the Bank continued to pilot a consumer installment-loan product across the United States using a third-party marketer/service. As part of the program, the Bank sold 100% of the balances generated through the program back to the third-party marketer/servicer approximately 21 days after origination. The Bank carried all unsold loans under the program as “held for sale” on the its balance sheet. At the initiation of this program in 2016, the Bank elected to carry these loans at fair value under a fair-value option, with the portfolio thereafter marked to market monthly.

During the second quarter of 2018, the Bank and its third-party marketer/service provider suspended the origination of any new loans, and the subsequent sale of all recently-originated loans under this program, while the two parties evaluated the future offering of this product due to changes in the applicable state law impacting the product. Concurrent with the suspension of this program, the Bank reclassified approximately \$2.2 million of these loans from held for sale on the balance sheet into the held-for-investment category and revalued these loans accordingly.

The following is a rollforward of consumer loans held for sale and carried at fair value:

(in thousands)	Three Months		Nine Months Ended	
	Ended	September 30,	September 30,	September 30,
	2018	2017	2018	2017

Balance, beginning of period	\$ —	\$ 3,235	\$ 2,677	\$ 2,198
Origination of consumer loans held for sale	—	15,066	16,985	46,847
Loans transferred to held for investment	—	—	(2,237)	—
Proceeds from the sale of consumer loans held for sale	—	(15,115)	(17,039)	(45,988)
Net gain (loss) recognized on consumer loans held for sale	—	182	(386)	311
Balance, end of period	\$ —	\$ 3,368	\$ —	\$ 3,368

Consumer Loans Held for Sale, at the Lower of Cost or Fair Value

RCS originates balances for both a line-of-credit and a credit-card product. The Bank sells 90% of the balances maintained through these products within two days of transactional activity and retains a 10% interest. The line-of-credit product represents the substantial majority of balances retained as consumer loans held for sale that are carried at the lower of cost or fair value. During the third quarter of 2018, the Bank and its third-party marketer/servicer reached an agreement in concept to sell 100% of the existing credit-card portfolio to an unrelated third party. As a result, the Bank reclassified its 10% interest into a held-for-sale category and charged the entire RCS credit-card portfolio down to its estimated net realizable value. Gains or losses on the sale of RCS products are reported as a component of “Program fees.”

The following is a rollforward of consumer loans held for sale and carried at the lower of cost or market value:

(in thousands)	Three Months Ended		Nine Months Ended	
	September 30, 2018	2017	September 30, 2018	2017
Balance, beginning of period	\$ 13,684	\$ 2,464	\$ 8,551	\$ 1,310

Warehouse lines of credit*	560,814	525,572
Total Core Banking	4,051,229	3,935,498
Republic Processing Group*:		
Tax Refund Solutions:		
Easy Advances	—	—
Other TRS loans	292	11,648
Republic Credit Solutions	84,674	66,888
Total Republic Processing Group	84,966	78,536
Total loans**	4,136,195	4,014,034
Allowance for loan and lease losses	(43,824)	(42,769)
Total loans, net	\$ 4,092,371	\$ 3,971,265

\*Identifies loans to borrowers located primarily outside of the Bank's market footprint.

\*\*Total loans are presented inclusive of premiums, discounts and net loan origination fees and costs. See table directly below for expanded detail.

The following table reconciles the contractually receivable and carrying amounts of loans at September 30, 2018 and December 31, 2017:

(in thousands)	September 30, 2018	December 31, 2017
Contractually receivable	\$ 4,135,623	\$ 4,014,673
Unearned income(1)	(1,164)	(1,157)
Unamortized premiums(2)	674	1,069
Unaccreted discounts(3)	(3,469)	(4,643)
Net unamortized deferred origination fees and costs(4)	4,531	4,092
Carrying value of loans	\$ 4,136,195	\$ 4,014,034

- 
- (1) Unearned income relates to lease financing receivables.
  - (2) Unamortized premiums predominately relate to loans acquired through the Bank's Correspondent Lending channel.
  - (3) Unaccreted discounts include accretable and non-accretable discounts and relate to loans acquired in the Bank's 2016 Cornerstone acquisition and its 2012 FDIC-assisted transactions.
  - (4) Primarily attributable to the Traditional Banking segment.

Table of Contents

## Purchased-Credit-Impaired (“PCI”) Loans

The following table reconciles the contractually required and carrying amounts of all PCI loans at September 30, 2018 and December 31, 2017:

(in thousands)	September 30, 2018	December 31, 2017
Contractually required principal	\$ 4,653	\$ 5,435
Non-accretable amount	(1,593)	(1,691)
Accretable amount	(100)	(140)
Carrying value of loans	\$ 2,960	\$ 3,604

The following table presents a rollforward of the accretable amount on all PCI loans for the three and nine months ended September 30, 2018 and 2017:

(in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Balance, beginning of period	\$ (100)	\$ (3,333)	\$ (140)	\$ (3,600)
Transfers between non-accretable and accretable*	(168)	(44)	(409)	31
Net accretion into interest income on loans, including loan fees	168	1,684	449	1,876
Balance, end of period	\$ (100)	\$ (1,693)	\$ (100)	\$ (1,693)

\*Transfers are primarily attributable to changes in estimated cash flows of the underlying loans.

Table of Contents

## Credit Quality Indicators

The following tables present loans by risk category based on the Bank's internal analyses performed as of September 30, 2018 and December 31, 2017. Risk categories are defined in the Company's Annual Report on Form 10-K for the year ended December 31, 2017:

\* Loans past due 90-days-or-more and still accruing consist of smaller-balance consumer loans.

Nonaccrual loans and loans past due 90-days-or-more and still on accrual include both smaller-balance, primarily retail, homogeneous loans that are collectively evaluated for impairment and individually classified impaired loans. Nonaccrual loans are typically returned to accrual status when all the principal and interest amounts contractually due are brought current and held current for six consecutive months and future contractual payments are reasonably assured. Troubled Debt Restructurings (“TDRs”) on nonaccrual status are reviewed for return to accrual status on an individual basis, with additional consideration given to performance under the modified terms.

## Impaired Loans

Information regarding the Bank's impaired loans follows:

(in thousands)	September 30, 2018	December 31, 2017
Loans with no allocated Allowance	\$ 20,134	\$ 18,540
Loans with allocated Allowance	25,104	27,076
Total recorded investment in impaired loans	\$ 45,238	\$ 45,616
Amount of the allocated Allowance	\$ 4,049	\$ 4,685

Approximately \$3 million and \$4 million of impaired loans at September 30, 2018 and December 31, 2017 were PCI loans. Approximately \$2 million and \$2 million of impaired loans at September 30, 2018 and December 31, 2017 were formerly PCI loans that became classified as "impaired" through a post-acquisition troubled debt restructuring.

Table of Contents

The following tables present the balance in the Allowance and the recorded investment in loans by portfolio class based on impairment method as of September 30, 2018 and December 31, 2017:

## Troubled Debt Restructurings

A TDR is a situation where, due to a borrower's financial difficulties, the Bank grants a concession to the borrower that the Bank would not otherwise have considered. In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of their debt in the foreseeable future without the modification. This evaluation is performed in accordance with the Bank's internal underwriting policy.

All TDRs are considered "Impaired," including PCI loans subsequently restructured. The majority of the Bank's commercial related and construction TDRs involve a restructuring of financing terms such as a reduction in the payment amount to require only interest and escrow (if required) and/or extending the maturity date of the debt. The substantial majority of the Bank's residential real estate TDR concessions involve reducing the client's loan payment through a rate reduction for a set period based on the borrower's ability to service the modified loan payment. Retail loans may also be classified as TDRs due to legal modifications, such as bankruptcies.

Nonaccrual loans modified as TDRs typically remain on nonaccrual status and continue to be reported as nonperforming loans for a minimum of six consecutive months. Accruing loans modified as TDRs are evaluated for nonaccrual status based on a current evaluation of the borrower's financial condition and ability and willingness to service the modified debt. At September 30, 2018 and December 31, 2017, \$10 million and \$6 million of TDRs were on nonaccrual status.

Detail of TDRs differentiated by loan type and accrual status follows:

	Troubled Debt Restructurings on Nonaccrual Status		Troubled Debt Restructurings on Accrual Status		Total Troubled Debt Restructurings

Table of Contents

As of September 30, 2018 and December 31, 2017, 83% and 89% of the Bank's TDRs were performing according to their modified terms. The Bank provided \$3 million and \$4 million of specific reserve allocations to clients whose loan terms have been modified in TDRs as of September 30, 2018 and December 31, 2017. The Bank had no commitments to lend any additional material amounts to its existing TDR relationships at September 30, 2018 or December 31, 2017.

A summary of the categories of TDR loan modifications by respective performance as of September 30, 2018 and 2017 that were modified during the three months ended September 30, 2018 and 2017 follows:

	Troubled Debt Restructurings Performing to Modified Terms		Troubled Debt Restructurings Not Performing to Modified Terms		Total Troubled Debt Restructurings

## Easy Advances

The Company's TRS segment offered its EA product during the first two months of 2018 and 2017. The Company based its estimated provision for EA losses on current year EA delinquency information and prior year IRS funding patterns. Each year, all unpaid EAs are charged-off by the end of the second quarter.

Information regarding EAs follows:

(in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,			
	2018	2017	2018		2017	
Easy Advances originated	\$ —	\$ —	\$ 430,210		\$ 328,523	
Net Charge (Credit) to the Provision for Easy Advances	(1,036)	(840)	11,360		7,041

## 5. DEPOSITS

The following table presents ending deposit balances at September 30, 2018 and December 31, 2017:

(in thousands)	September 30, 2018	December 31, 2017
Core Bank:		
Demand	\$ 932,474	\$ 944,812

Edgar Filing: REPUBLIC BANCORP INC /KY/ - Form 10-Q

Money market accounts	662,122	546,998
Savings	191,619	182,800
Individual retirement accounts(1)	52,447	47,982
Time deposits, \$250 and over(1)	81,197	77,891
Other certificates of deposit(1)	229,074	189,661
Reciprocal money market and time deposits(1)(2)	292,103	373,242
Brokered deposits(1)	21,770	46,089
Total Core Bank interest-bearing deposits	2,462,806	2,409,475
Total Core Bank noninterest-bearing deposits	1,056,916	988,537
Total Core Bank deposits	3,519,722	3,398,012
Republic Processing Group ("RPG"):		
Money market accounts	418	1,641
Total RPG interest-bearing deposits	418	1,641
Brokered prepaid card deposits	4,207	1,509
Other noninterest-bearing deposits	42,338	31,996
Total RPG noninterest-bearing deposits	46,545	33,505
Total RPG deposits	46,963	35,146
Total deposits	\$ 3,566,685	\$ 3,433,158

(1) Represents a time deposit.

(2) Prior to June 2018, reciprocal deposits were classified as "brokered deposits." The Economic Growth, Regulatory Relief, and Consumer Protection Act, enacted in May 2018, provides that most reciprocal deposits are no longer classified as brokered deposits if the Bank meets certain regulatory criteria.

## 6. SECURITIES SOLD UNDER AGREEMENTS TO REPURCHASE AND OTHER SHORT-TERM BORROWINGS

Securities sold under agreements to repurchase consist of short-term excess funds from correspondent banks, repurchase agreements and overnight liabilities to deposit clients arising from the Bank's treasury management program. While comparable to deposits in their transactional nature, these overnight liabilities to clients are in the form of repurchase agreements. Repurchase agreements collateralized by securities are treated as financings; accordingly, the securities involved with the agreements are recorded as assets and are held by a safekeeping agent and the obligations to repurchase the securities are reflected as liabilities. Should the fair value of currently pledged securities fall below the associated repurchase agreements, the Bank would be required to pledge additional securities. To mitigate the risk of under collateralization, the Bank typically pledges at least two percent more in securities than the associated repurchase agreements. All such securities are under the Bank's control.

At September 30, 2018 and December 31, 2017, all securities sold under agreements to repurchase had overnight maturities. The following tables present additional information regarding securities sold under agreements to repurchase:

(dollars in thousands)	September 30, 2018		December 31, 2017	
Outstanding balance at end of period	\$	163,768	\$	204,021
Weighted average interest rate at end of period		0.74	%	0.31
Fair value of securities pledged:				
U.S. Treasury securities and U.S. Government agencies	\$	169,179	\$	71,824
Mortgage backed securities - residential		35,080		83,452
Collateralized mortgage obligations		22,506		84,693
Total securities pledged	\$	226,765	\$	239,969

(dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Average outstanding balance during the period	\$	213,195	\$	208,160
			\$	216,070
			\$	202,018

Edgar Filing: REPUBLIC BANCORP INC /KY/ - Form 10-Q

Average interest rate during the period	0.59	%	0.31	%	0.46	%	0.22	%
Maximum outstanding at any month end during the period	\$ 163,768		\$ 173,311		\$ 215,281		\$ 183,709	

7. FEDERAL HOME LOAN BANK ADVANCES

At September 30, 2018 and December 31, 2017, FHLB advances were as follows:

(dollars in thousands)	September 30, 2018	December 31, 2017
Overnight advances	\$ 395,000	\$ 330,000
Variable interest rate advance indexed to 3-Month LIBOR plus 0.14%	10,000	10,000
Fixed interest rate advances	310,000	397,500
Total FHLB advances	\$ 715,000	\$ 737,500

Table of Contents

Each FHLB advance is payable at its maturity date, with a prepayment penalty for fixed rate advances that are paid off earlier than maturity. FHLB advances are collateralized by a blanket pledge of eligible real estate loans. At September 30, 2018 and December 31, 2017, Republic had available borrowing capacity of \$347 million and \$347 million, respectively, from the FHLB. In addition to its borrowing capacity with the FHLB, Republic also had unsecured lines of credit totaling \$125 million and \$125 million available through various other financial institutions as of September 30, 2018 and December 31, 2017.

As of September 30, 2018, aggregate future principal payments on FHLB advances based on contractual maturity and the weighted average cost of such advances are detailed below:

Year (dollars in thousands)	Principal	Weighted Average Rate	
Remainder of 2018 (Overnight)	\$ 395,000	2.21	%
Remainder of 2018 (Term)	40,000	1.94	
2019	100,000	1.80	
2020	120,000	1.81	
2021	30,000	1.93	
2022	20,000	2.12	
2023	10,000	2.14	
Thereafter	—	—	
Total	\$ 715,000	2.05	%

Due to their short term, the Bank considers average balance information more meaningful than period-end balances for its overnight borrowings from the FHLB. Information regarding overnight FHLB advances follows:

(dollars in thousands)	September 30, 2018		December 31, 2017	
Outstanding balance at end of period	\$	395,000	\$	330,000
Weighted average interest rate at end of period		2.21	%	1.42
				%

  

(dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Average outstanding balance during the period	\$	229,185	\$	224,402
Average interest rate during the period		2.02	%	1.17
			%	1.84
			%	1.03
				%

Edgar Filing: REPUBLIC BANCORP INC /KY/ - Form 10-Q

Maximum outstanding at any month end during the period	\$ 395,000	\$ 350,000	\$ 560,000	\$ 625,000
--	------------	------------	------------	------------

The following table illustrates real estate loans pledged to collateralize advances and letters of credit with the FHLB:

(in thousands)	September 30, 2018	December 31, 2017
First lien, single family residential real estate	\$ 1,128,563	\$ 1,123,402
Home equity lines of credit	310,561	320,649

Table of Contents

## 8. OFF BALANCE SHEET RISKS, COMMITMENTS AND CONTINGENT LIABILITIES

The Company, in the normal course of business, is party to financial instruments with off balance sheet risk. These financial instruments primarily include commitments to extend credit and standby letters of credit. The contract or notional amounts of these instruments reflect the potential future obligations of the Company pursuant to those financial instruments. Creditworthiness for all instruments is evaluated on a case-by-case basis in accordance with the Company's credit policies. Collateral from the client may be required based on the Company's credit evaluation of the client and may include business assets of commercial clients, as well as personal property and real estate of individual clients or guarantors.

The Company also extends binding commitments to clients and prospective clients. Such commitments assure a borrower of financing for a specified period of time at a specified rate. Additionally, the Company makes binding purchase commitments to third-party loan correspondent originators. These commitments assure that the Company will purchase a loan from such correspondent originators at a specific price for a specific period of time. The risk to the Company under such loan commitments is limited by the terms of the contracts. For example, the Company may not be obligated to advance funds if the client's financial condition deteriorates or if the client fails to meet specific covenants.

An approved but unfunded loan commitment represents a potential credit risk and a liquidity risk, since the Company's client(s) may demand immediate cash that would require funding. In addition, unfunded loan commitments represent interest rate risk as market interest rates may rise above the rate committed to the Company's client. Since a portion of these loan commitments normally expire unused, the total amount of outstanding commitments at any point in time may not require future funding.

The following table presents the Company's commitments, exclusive of Mortgage Banking loan commitments, for each period ended:

(in thousands)	September 30, 2018	December 31, 2017
Unused warehouse lines of credit	\$ 451,686	\$ 525,328
Unused home equity lines of credit	380,320	367,887
Unused loan commitments - other	641,978	598,002
Standby letters of credit	6,813	12,643
FHLB letter of credit	10,000	10,000
Total commitments	\$ 1,490,797	\$ 1,513,860

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a client to a third party. The terms and risk of loss involved in issuing standby letters of credit are similar to those involved in issuing loan commitments and extending credit. In addition to credit risk, the Company also has liquidity risk associated with standby letters of credit because funding for these obligations could be required immediately. The Company does not deem this risk to be material.

Table of Contents

9. FAIR VALUE

Fair value represents the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Bank used the following methods and significant assumptions to estimate fair value:

Available-for-sale debt securities: Except for the Bank's private label mortgage backed security and its TRUP investment, the fair value of available-for-sale debt securities is typically determined by matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted prices for the specific securities, but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs).

The Bank's private label mortgage backed security remains illiquid, and as such, the Bank classifies this security as a Level 3 security in accordance with ASC Topic 820, Fair Value Measurement. Based on this determination, the Bank utilized an income valuation model (present value model) approach in determining the fair value of this security.

See in this section of the filing under Footnote 2 "Investment Securities" for additional discussion regarding the Bank's private label mortgage backed security.

The Company acquired its TRUP investment in 2015 and considered the most recent bid price for the same instrument to approximate market value at September 30, 2018. The Company's TRUP investment is considered highly illiquid and also valued using Level 3 inputs, as the most recent bid price for this instrument is not always considered generally observable.

Equity securities with readily determinable fair value: Quoted market prices in an active market are available for the Bank's Community Reinvestment Act ("CRA") mutual fund investment and fall within Level 1 of the fair value hierarchy.

The fair value of the Company's Freddie Mac preferred stock is determined by matrix pricing, as described above (Level 2 inputs).

Mortgage loans held for sale, at fair value: The fair value of mortgage loans held for sale is determined using quoted secondary market prices. Mortgage loans held for sale are classified as Level 2 in the fair value hierarchy.

Consumer loans held for investment/sale, at fair value: From the first quarter of 2016 through the first quarter of 2018, the Bank continued to pilot a consumer installment-loan product across the United States using a third-party marketer/service. As part of the program, the Bank sold 100% of the balances generated through the program back to the third-party marketer/servicer approximately 21 days after origination. The Bank carried all unsold loans under the program as "held for sale" on its balance sheet. At the initiation of this program in 2016, the Bank elected to carry these loans at fair value under a fair-value option, with the portfolio thereafter marked to market on a monthly basis.

During the second quarter of 2018, the Bank and its third-party marketer/service provider suspended the origination of any new loans, and the subsequent sale of all recently-originated loans under this program, while the two parties evaluate the future offering of this product due to changes in the applicable state law impacting the product. Concurrent with the suspension of this program, the Bank reclassified approximately \$2.2 million of these loans from held for sale on the balance sheet into the held for investment category and revalued these loans accordingly.

## Table of Contents

Through the first quarter of 2018, the fair value for these loans was based on contractual sales terms, which are classified as Level 3 inputs. As of September 30, 2018, the fair value of these loans was based on the discounted cash flows of the underlying loans, which are also classified as Level 3 inputs.

From the fourth quarter of 2015 through the first quarter of 2018, the Bank continued to pilot a credit-card product to generally subprime borrowers across the United States through one third-party marketer/servicer. For outstanding cards, RCS sold 90% of the balances generated within two business days of each transaction occurrence to its third-party marketer/servicer and retained the remaining 10% interest. During the second quarter of 2018, the Bank and its third-party marketer/servicer discontinued the marketing of the product to potential new clients, as the two parties deliberated the future direction of the program. During the third quarter of 2018, the Bank and its third-party marketer/servicer reached an agreement in concept to sell 100% of the existing portfolio to an unrelated third party. As a result, the Bank reclassified its 10% interest with a book value of \$3.5 million into a held-for-sale category and charged the entire RCS credit-card portfolio down to its estimated net realizable value of \$1.5 million.

**Mortgage Banking derivatives:** Mortgage Banking derivatives used in the ordinary course of business primarily consist of mandatory forward sales contracts (“forward contracts”) and interest rate lock loan commitments. The fair value of the Bank’s derivative instruments is primarily measured by obtaining pricing from broker-dealers recognized to be market participants. The pricing is derived from market observable inputs that can generally be verified and do not typically involve significant judgment by the Bank. Forward contracts and rate-lock loan commitments are classified as Level 2 in the fair value hierarchy.

**Interest rate swap agreements:** Interest rate swaps are recorded at fair value on a recurring basis. The Company values its interest rate swaps using a third-party valuation service and classifies such valuations as Level 2. Valuations of these interest rate swaps are also received from the relevant counterparty and validated against the Company’s calculations. The Company has considered counterparty credit risk in the valuation of its interest rate swap assets and has considered its own credit risk in the valuation of its interest rate swap liabilities.

**Impaired loans:** Collateral-dependent impaired loans generally reflect partial charge-downs to their respective fair value, which is commonly based on recent real estate appraisals or broker price opinions (“BPOs”). These appraisals or BPOs may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the process by the independent experts to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower’s financial statements or aging reports, adjusted or discounted based on management’s historical knowledge, changes in market conditions from the time of the valuation, and management’s expertise and knowledge of the client and client’s business, resulting in a Level 3 fair value classification. Collateral-dependent loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

Premises carried at fair value: Premises and equipment are accounted for at the lower of cost less accumulated depreciation or fair value less estimated costs to sell. The fair value of Bank premises is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches, including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments may be significant and typically result in a Level 3 classification of the inputs for determining fair value.

Other real estate owned: Assets acquired through or instead of loan foreclosure are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair value is commonly based on recent real estate appraisals or BPOs. These appraisals or BPOs may utilize a single approach or a combination of approaches, including comparable sales and the income approach. Adjustments are routinely made in the process by the independent experts to adjust for differences between the comparable sales and income data available. Such adjustments may be significant and typically result in a Level 3 classification of the inputs for determining fair value.

Appraisals for collateral-dependent impaired loans, impaired premises and other real estate owned are performed by certified general appraisers (for commercial properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed and verified by the Bank. Once the appraisal is received, a member of the Bank's Credit Administration Department reviews the assumptions and approaches utilized in the appraisal, as well as the overall resulting fair value in comparison with independent data sources, such as recent market data or industry-wide statistics. On at least an annual basis, the Bank performs a back test of collateral appraisals by comparing actual selling prices on recent collateral sales to the most recent appraisal of such collateral. Back tests are performed for each collateral class, e.g., residential real estate or commercial real estate, and may lead to additional adjustments to the value of unliquidated collateral of similar class.

Table of Contents

Mortgage servicing rights: On at least a quarterly basis, MSRs are evaluated for impairment based upon the fair value of the MSRs as compared to carrying amount. If the carrying amount of an individual tranche exceeds fair value, impairment is recorded, and the respective individual tranche is carried at fair value. If the carrying amount of an individual tranche does not exceed fair value, impairment is reversed if previously recognized and the carrying value of the individual tranche is based on the amortization method. The valuation model utilizes assumptions that market participants would use in estimating future net servicing income and can generally be validated against available market data (Level 2). There were no MSR tranches carried at fair value at September 30, 2018 and December 31, 2017.

Assets and liabilities measured at fair value on a recurring basis, including financial assets and liabilities for which the Bank has elected the fair value option, are summarized below:

(in thousands)	Fair Value Measurements at September 30, 2018 Using:

All transfers between levels are generally recognized at the end of each quarter. There were no transfers into or out of Level 1, 2 or 3 assets during the three and nine months ended September 30, 2018 and 2017.

## Private Label Mortgage Backed Security

The following table presents a reconciliation of the Bank's private label mortgage backed security measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the periods ended September 30, 2018 and 2017:

(in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Balance, beginning of period	\$ 3,926	\$ 4,540	\$ 4,449	\$ 4,777
Total gains or losses included in earnings:				
Net change in unrealized gain	(2)	90	(19)	244
Recovery of actual losses previously recorded	39	—	114	—
Principal paydowns	(114)	(55)	(695)	(446)
Balance, end of period	\$ 3,849	\$ 4,575	\$ 3,849	\$ 4,575

The fair value of the Bank's single private label mortgage backed security is supported by analysis prepared by an independent third party. The third party's approach to determining fair value involved several steps: 1) detailed collateral analysis of the underlying mortgages, including consideration of geographic location, original loan-to-value and the weighted average FICO score of the borrowers; 2) collateral performance projections for each pool of mortgages underlying the security (probability of default, severity of default, and prepayment probabilities) and 3) discounted cash flow modeling.

The significant unobservable inputs in the fair value measurement of the Bank's single private label mortgage backed security are prepayment rates, probability of default and loss severity in the event of default. Significant fluctuations in any of those inputs in isolation would result in a significantly different fair value measurement.

Table of Contents

Quantitative information about recurring Level 3 fair value measurement inputs for the Bank's single private label mortgage backed security follows:

September 30, 2018 (dollars in thousands)	Fair	Valuation		
	Value	Technique	Unobservable Inputs	Range
Private label mortgage backed security	\$ 3,849	Discounted cash flow	(1) Constant prepayment rate	2.0% - 9.0%
			(2) Probability of default	1.8% - 4.0%
			(3) Loss severity	50% - 85%
December 31, 2017 (dollars in thousands)	Fair	Valuation		
	Value	Technique	Unobservable Inputs	Range
Private label mortgage backed security	\$ 4,449	Discounted cash flow	(1) Constant prepayment rate	3.5% - 6.5%
			(2) Probability of default	1.8% - 8.0%
			(3) Loss severity	60% - 85%

## Trust Preferred Security

The following table presents a reconciliation of the Company's TRUP measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the three and nine months ended September 30, 2018 and 2017:

Three Months Ended	Nine Months Ended
-----------------------	-------------------

Edgar Filing: REPUBLIC BANCORP INC /KY/ - Form 10-Q

(in thousands)	September 30,		September 30,	
	2018	2017	2018	2017
Balance, beginning of period	\$ 4,150	\$ 3,453	\$ 3,600	\$ 3,200
Total gains or losses included in earnings:				
Discount accretion	10	11	30	33
Net change in unrealized gain	90	36	620	267
Balance, end of period	\$ 4,250	\$ 3,500	\$ 4,250	\$ 3,500

The fair value of the Company's TRUP investment is based on the most recent bid price for this instrument, as provided by a third-party broker.

Table of Contents

## Mortgage Loans Held for Sale

The Bank has elected the fair value option for mortgage loans held for sale. These loans are intended for sale and the Bank believes that the fair value is the best indicator of the resolution of these loans. Interest income is recorded based on the contractual terms of the loans and in accordance with Bank policy for such instruments. None of these loans were past due 90-days-or-more or on nonaccrual as of September 30, 2018 and December 31, 2017.

As of September 30, 2018, and December 31, 2017, the aggregate fair value, contractual balance, and unrealized gain was as follows:

(in thousands)	September 30, 2018	December 31, 2017
Aggregate fair value	\$ 7,862	\$ 5,761
Contractual balance	7,736	5,668
Unrealized gain	126	93

The total amount of gains and losses from changes in fair value included in earnings for the three and nine months ended September 30, 2018 and 2017 for mortgage loans held for sale are presented in the following table:

(in thousands)	Three Months Ended		Nine Months	
	September 30, 2018	September 30, 2017	Ended September 30, 2018	Ended September 30, 2017
Interest income	\$ 133	\$ 102	\$ 308	\$ 255
Change in fair value	(110)	(102)	33	9
Total included in earnings	\$ 23	\$ —	\$ 341	\$ 264

## Consumer Loans Held for Investment/Sale

Prior to the second quarter of 2018, all consumer installment loans originated through RCS were originated with the intent to sale and carried at fair value. During the second quarter of 2018, approximately \$2 million of these loans were transferred from the held for sale category into the held for investment category and recorded at their fair market value as of the date of transfer. Interest income for these loans is recorded based on the contractual terms of the loan and in accordance with Bank policy for such instruments. None of these loans were past due 90-days-or-more or on

nonaccrual as of September 30, 2018 and December 31, 2017.

A reconciliation of the Company's consumer loans measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the three and nine months ended September 30, 2018 and 2017 is included in Footnote 3 of this section of the filing.

Prior to the second quarter of 2018, the significant unobservable inputs in the fair value measurement of the Bank's consumer loans were the net contractual premiums and level of loans sold at a discount price. As of September 30, 2018, the significant unobservable inputs in the fair value measurement of the Bank's consumer loans were the constant prepayment rate, probability of default, and loss severity for these loans under a discounted-cash-flow model. Significant fluctuations in any of these inputs in isolation would result in a significantly lower/higher fair value measurement.

Table of Contents

The following table presents quantitative information about recurring Level 3 fair value measurement inputs for consumer loans as of September 30, 2018 and December 31, 2017:

September 30, 2018 (dollars in thousands)	Fair Value	Valuation Technique	Unobservable Inputs	Rate
Consumer loans held for investment	\$ 2,097	Discounted Cash Flows	(1) Constant prepayment rate	15.0%
			(2) Probability of default	45.0%
			(3) Loss severity	11.5%
December 31, 2017 (dollars in thousands)	Fair Value	Valuation Technique	Unobservable Inputs	Rate
Consumer loans held for sale	\$ 2,677	Contractual Sales Terms	(1) Net Premium	0.9%
			(2) Discounted Sales	5.0%

As of September 30, 2018 and December 31, 2017, the aggregate fair value, contractual balance, and unrealized (loss) gain on consumer loans held for investment/sale, at fair value, were as follows:

(in thousands)	September 30, 2018	December 31, 2017
Aggregate fair value	\$ 2,097	\$ 2,677
Contractual balance	2,361	2,535
Unrealized (loss) gain	(264)	142

The total amount of net (losses) gains from changes in fair value included in earnings for the three and nine months ended September 30, 2018 and 2017 for consumer loans held for investment/sale, at fair value, are presented in the following table:

Nine Months Ended

Edgar Filing: REPUBLIC BANCORP INC /KY/ - Form 10-Q

Carrying amount of loans measured at fair value	\$ 3,592	\$ —
Estimated discount for loan losses	(2,073)	—
Total fair value	\$ 1,519	\$ —

## Impaired Loans

Collateral-dependent impaired loans are generally measured for impairment using the fair value for reasonable disposition of the underlying collateral. The Bank's practice is to obtain new or updated appraisals or BPOs on the loans subject to the initial impairment review and then to evaluate the need for an update to this value on an as-necessary or possibly annual basis thereafter (depending on the market conditions impacting the value of the collateral). The Bank may discount the valuation amount as necessary for selling costs and past due real estate taxes. If a new or updated appraisal or BPO is not available at the time of a loan's impairment review, the Bank may apply a discount to the existing value of an old valuation to reflect the property's current estimated value if it is believed to have deteriorated in either: (i) the physical or economic aspects of the subject property or (ii) material changes in market conditions. The impairment review generally results in a partial charge-off of the loan if fair value less selling costs are below the loan's carrying value. Impaired loans that are collateral dependent are classified within Level 3 of the fair value hierarchy when impairment is determined using the fair value method.

Impaired collateral-dependent loans are as follows:

Edgar Filing: REPUBLIC BANCORP INC /KY/ - Form 10-Q

(in thousands)	September 30, 2018	December 31, 2017
Carrying amount of loans measured at fair value	\$ 6,771	\$ 5,358
Estimated selling costs considered in carrying amount	709	752
Valuation allowance	(410)	(7)
Total fair value	\$ 7,070	\$ 6,103

(in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Provisions on collateral-dependent, impaired loans	\$ 117	\$ 59	\$ 901	\$ 281

Table of Contents

## Other Real Estate Owned

Other real estate owned, which is carried at the lower of cost or fair value, is periodically assessed for impairment based on fair value at the reporting date. Fair value is determined from external appraisals or BPOs using judgments and estimates of external professionals. Many of these inputs are not observable and, accordingly, these measurements are classified as Level 3.

Details of other real estate owned carrying value and write downs follow:

(in thousands)	September 30, 2018	December 31, 2017
Other real estate owned carried at fair value	\$ —	\$ 83
Other real estate owned carried at cost	70	32
Total carrying value of other real estate owned	\$ 70	\$ 115

Monthly weighted average prepayment rate of unpaid principal balance*	167	%	200	%
Discount rate	10	%	10	%
Weighted average default rate	4	%	3.75	%
Weighted average life in years	6.15		5.49	

\* Rates are applied to individual tranches with similar characteristics.

Mortgage Banking derivatives used in the ordinary course of business primarily consist of mandatory forward sales contracts and interest rate lock loan commitments. Mandatory forward contracts represent future commitments to deliver loans at a specified price and date and are used to manage interest rate risk on loan commitments and mortgage loans held for sale. Interest rate lock loan commitments represent commitments to fund loans at a specific rate. These derivatives involve underlying items, such as interest rates, and are designed to transfer risk. Substantially all of these instruments expire within 90 days from the date of issuance. Notional amounts are amounts on which calculations and payments are based, but which do not represent credit exposure, as credit exposure is limited to the amounts required to be received or paid.

Mandatory forward contracts also contain an element of risk in that the counterparties may be unable to meet the terms of such agreements. In the event the counterparties fail to deliver commitments or are unable to fulfill their obligations, the Bank could potentially incur significant additional costs by replacing the positions at then current market rates. The Bank manages its risk of exposure by limiting counterparties to those banks and institutions deemed appropriate by management and the Board of Directors. The Bank does not expect any counterparty to default on their obligations and therefore, the Bank does not expect to incur any cost related to counterparty default.

The Bank is exposed to interest rate risk on loans held for sale and rate lock loan commitments. As market interest rates fluctuate, the fair value of mortgage loans held for sale and rate lock commitments will decline or increase. To offset this interest rate risk the Bank enters into derivatives, such as mandatory forward contracts to sell loans. The fair value of these mandatory forward contracts will fluctuate as market interest rates fluctuate, and the change in the value of these instruments is expected to largely, though not entirely, offset the change in fair value of loans held for sale and rate lock commitments. The objective of this activity is to minimize the exposure to losses on rate loan lock commitments and loans held for sale due to market interest rate fluctuations. The net effect of derivatives on earnings will depend on risk management activities and a variety of other factors, including: market interest rate volatility; the amount of rate lock commitments that close; the ability to fill the forward contracts before expiration; and the time period required to close and sell loans.

The following table includes the notional amounts and fair values of mortgage loans held for sale and mortgage banking derivatives as of the period ends presented:

(in thousands)	September 30, 2018		December 31, 2017	
	Notional Amount	Fair Value	Notional Amount	Fair Value
Included in Mortgage loans held for sale:

Mandatory forward contracts	22,989	113	—	—
Included in other liabilities:				
Mandatory forward contracts	\$ —	\$ —	\$ 17,159	\$ 9

Table of Contents

## 11. INTEREST RATE SWAPS

Interest rate swap derivatives are reported at fair value in other assets or other liabilities. The accounting for changes in the fair value of a derivative depends on whether it has been designated and qualifies as part of a cash flow hedging relationship. For a derivative designated as a cash flow hedge, the effective portion of the derivative's unrealized gain or loss is recorded as a component of other comprehensive income ("OCI"). For derivatives not designated as hedges, the gain or loss is recognized in current period earnings.

## Interest Rate Swaps Used as Cash Flow Hedges

The Bank entered into two interest rate swap agreements ("swaps") during 2013 as part of its interest rate risk management strategy. The Bank designated the swaps as cash flow hedges intended to reduce the variability in cash flows attributable to either FHLB advances tied to the 3-month LIBOR or the overall changes in cash flows on certain money market deposit accounts tied to 1-month LIBOR. The counterparty for both swaps met the Bank's credit standards and the Bank believes that the credit risk inherent in the swap contracts is not significant.

The swaps were determined to be fully effective during all periods presented; therefore, no amount of ineffectiveness was included in net income. The aggregate fair value of the swaps is recorded in other liabilities with changes in fair value recorded in OCI. The amount included in AOCI would be reclassified to current earnings should the hedge no longer be considered effective. The Bank expects the hedges to remain fully effective during the remaining term of the swaps.

The following table reflects information about swaps designated as cash flow hedges as of September 30, 2018 and December 31, 2017:

(dollars in thousands)	Notional Amount	Pay Rate	Receive Rate	Term	September 30, 2018		December 31, 2017	
					Assets / (Liabilities)	Unrealized Gain (Loss) AOCI	Assets / (Liabilities)	Unrealized Gain (Loss) in AOCI
Interest rate swap on money market deposits	\$ 10,000	2.17 %	1M LIBOR	12/2013 - 12/2020	\$ 139	\$ 110	\$ (60)	\$ (25)

Interest rate swap on FHLB advance	10,000	2.33 %	3M LIBOR	12/2013 -	12/2020	136	107	(31)	(48)
Total	\$ 20,000					\$ 275	\$ 217	\$ (91)	\$ (73)

The following table reflects the total interest expense recorded on these swap transactions in the consolidated statements of income for the three and nine months ended September 30, 2018 and 2017:

(in thousands)	Three Months Ended		Nine Months Ended	
	September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017
Interest rate swap on money market deposits	\$ (1)	\$ 27	\$ 22	\$ 87
Interest rate swap on FHLB advance	2	24	14	88
Total interest expense on swap transactions	\$ 1	\$ 51	\$ 36	\$ 175

The following table presents the net gains (losses) recorded in OCI and the consolidated statements of income relating to the swaps designated as cash flow hedges for the three and nine months ended September 30, 2018 and 2017:

(in thousands)	Three Months Ended		Nine Months Ended	
	September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017
Gains (losses) recognized in OCI on derivative (effective portion)	\$ 54	\$ 9	\$ 330	\$ (67)
Losses reclassified from OCI on derivative (effective portion)	(1)	(51)	(36)	(175)
Gains (losses) recognized in income on derivative (ineffective portion)	—	—	—	—

The estimated net amount of the existing losses reported in AOCI at September 30, 2018 expected to be reclassified into earnings within the next 12 months is considered immaterial.

Table of Contents

## Non-hedge Interest Rate Swaps

The Bank enters into interest rate swaps to facilitate client transactions and meet their financing needs. Upon entering into these instruments to meet client needs, the Bank enters into offsetting positions in order to minimize the Bank's interest rate risk. These swaps are derivatives, but are not designated as hedging instruments, and therefore changes in fair value are reported in current year earnings.

Interest rate swap contracts involve the risk of dealing with counterparties and their ability to meet contractual terms. When the fair value of a derivative instrument contract is positive, this generally indicates that the counter party or client owes the Bank, and results in credit risk to the Bank. When the fair value of a derivative instrument contract is negative, the Bank owes the client or counterparty, and therefore, has no credit risk.

The following table presents a summary of the Bank's interest rate swaps related to clients as of September 30, 2018 and December 31, 2017:

(in thousands)	Bank Position	September 30, 2018		December 31, 2017	
		Notional	Fair Value	Notional	Fair Value
Interest rate swaps with Bank clients - Assets	Pay variable/receive fixed	\$ 12,654	\$ 192	\$ 48,942	\$ 312
Interest rate swaps with Bank clients - Liabilities	Pay variable/receive fixed	60,132	(2,383)	12,477	(228)
Interest rate swaps with Bank clients - Total	Pay variable/receive fixed	\$ 72,786	\$ (2,191)	\$ 61,419	\$ 84
Offsetting interest rate swaps with institutional swap dealer	Pay fixed/receive variable	72,786	2,191	61,419	(84)
Total		\$ 145,572	\$ —	\$ 122,838	\$ —

The Bank is required to pledge securities as collateral when the Bank is in a net loss position for all swaps with dealer counterparties when such net loss positions exceed \$250,000. The fair value of cash or investment securities pledged as collateral by the Bank to cover such net loss positions totaled \$1.5 million at December 31, 2017, with no collateral pledged as of September 30, 2018.

Table of Contents

## 12. EARNINGS PER SHARE

The Company calculates earnings per share under the two-class method. Under the two-class method, earnings available to common shareholders for the period are allocated between Class A Common Stock and Class B Common Stock according to dividends declared (or accumulated) and participation rights in undistributed earnings. The difference in earnings per share between the two classes of common stock results from the 10% per share cash dividend premium paid on Class A Common Stock over that paid on Class B Common Stock.

A reconciliation of the combined Class A and Class B Common Stock numerators and denominators of the earnings per share and diluted earnings per share computations is presented below:

(in thousands, except per share data)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Net income	\$ 17,411	\$ 10,706	\$ 60,546	\$ 40,794
Dividends declared on Common Stock:				
Class A Shares	(4,517)	(4,096)	(13,552)	(12,082)
Class B Shares	(487)	(448)	(1,468)	(1,324)
Undistributed net income for basic earnings per share	12,407	6,162	45,526	27,388
Weighted average potential dividends on Class A shares upon exercise of dilutive options	(38)	(18)	(103)	(51)
Undistributed net income for diluted earnings per share	\$ 12,369	\$ 6,144	\$ 45,423	\$ 27,337
Weighted average shares outstanding:				
Class A Shares	18,748	18,885	18,722	18,678
Class B Shares	2,214	2,268	2,228	2,243
Effect of dilutive securities on Class A Shares outstanding	158	83	143	79
Weighted average shares outstanding including dilutive securities	21,120	21,236	21,093	21,000
Basic earnings per share:				
Class A Common Stock:				
Per share dividends distributed	\$ 0.24	\$ 0.22	\$ 0.73	\$ 0.65
Undistributed earnings per share*	0.60	0.29	2.19	1.32
Total basic earnings per share - Class A Common Stock	\$ 0.84	\$ 0.51	\$ 2.92	\$ 1.97
Class B Common Stock				

Edgar Filing: REPUBLIC BANCORP INC /KY/ - Form 10-Q

Per share dividends distributed	\$ 0.22	\$ 0.20	\$ 0.66	\$ 0.59
Undistributed earnings per share*	0.54	0.27	1.99	1.20
Total basic earnings per share - Class B Common Stock	\$ 0.76	\$ 0.47	\$ 2.65	\$ 1.79
Diluted earnings per share:				
Class A Common Stock:				
Per share dividends distributed	\$ 0.24	\$ 0.22	\$ 0.73	\$ 0.65
Undistributed earnings per share*	0.59	0.29	2.17	1.31
Total diluted earnings per share - Class A Common Stock	\$ 0.83	\$ 0.51	\$ 2.90	\$ 1.96
Class B Common Stock:				
Per share dividends distributed	\$ 0.22	\$ 0.20	\$ 0.66	\$ 0.59
Undistributed earnings per share*	0.54	0.27	1.98	1.19
Total diluted earnings per share - Class B Common Stock	\$ 0.76	\$ 0.47	\$ 2.64	\$ 1.78

\*To arrive at undistributed earnings per share, undistributed net income is first pro rated between Class A and Class B Common Shares, with Class A Common Shares receiving a 10% premium. The resulting pro-rated, undistributed net income for each class is then divided by the weighted average shares for each class.

The following table presents stock options excluded from the detailed earnings per share calculation because their impact was antidilutive:

	Three Months Ended		Nine Months Ended	
	September 30, 2018	2017	September 30, 2018	2017
Antidilutive stock options	161,000	4,500	161,000	4,500
Average antidilutive stock options	29,033	3,833	9,811	1,667

Table of Contents

13. STOCK PLANS AND STOCK BASED COMPENSATION

In 2015, the Company's Board of Directors adopted the Republic Bancorp, Inc. 2015 Stock Incentive Plan (the "2015 Plan"), which became effective April 23, 2015 when the Company's shareholders approved the 2015 Plan. The 2015 Plan replaced the Company's 2005 Stock Incentive Plan, which expired on March 15, 2015.

The number of authorized shares under the 2015 Plan is fixed at 3,000,000, with such number subject to adjustment in the event of certain circumstances, such as stock dividends, stock splits, or the like. There is a minimum three-year vesting period for awards granted to employees under the 2015 Plan that vest based solely on the completion of a specified period of service, with options generally exercisable five to six years after the issue date. Stock options generally must be exercised within one year from the date the options become exercisable and have an exercise price that is at least equal to the fair market value of the Company's stock on their grant date.

All shares issued under the above-mentioned plans were from authorized and reserved unissued shares. The Company has a sufficient number of authorized and reserved unissued shares to satisfy all anticipated option exercises. There are no Class B stock options outstanding or available for exercise under the Company's plans.

Stock Options

The fair value of each stock option granted is estimated on the date of grant using the Black-Scholes based stock option valuation model. This model requires the input of subjective assumptions that will usually have a significant impact on the fair value estimate. Expected volatilities are based on historical volatility of Republic's stock and other factors. Expected dividends are based on dividend trends and the market price of Republic's stock price at grant. Republic uses historical data to estimate option exercises and employee terminations within the valuation model. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve at the time of grant.

All share-based payments to employees, including grants of employee stock options, are recognized as compensation expense over the service period (generally the vesting period) in the consolidated financial statements based on their fair values.

The fair value of stock options granted was determined using the following weighted average assumptions as of grant date:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Risk-free interest rate	3.00 %	NA	3.00 %	2.07 %
Expected dividend yield	2.01 %	NA	2.01 %	2.41 %
Expected stock price volatility	18.60 %	NA	18.60 %	20.36 %
Expected life of options (in years)	5	NA	5	5
Estimated fair value per share	\$ 8.13	\$ —	\$ 8.13	\$ 3.99

Exercisable (vested) at September 30, 2018	—	\$ —	—	\$ —

The following table presents information related to stock options:

(in thousands)	Three Months Ended September 30, 2018		Nine Months Ended September 30, 2018	
	2018	2017	2018	2017
Intrinsic value of options exercised	\$ 37	\$ —	\$ 79	\$ 44
Cash received from options exercised, net of shares redeemed	35	—	83	33

### Restricted Stock Awards

Restricted stock awards generally vest within six years after issue, with accelerated vesting due to “change in control” or “death or disability of a participant” as defined and outlined in the 2015 Plan.

The following table summarizes restricted stock awards activity from January 1, 2017 through September 30, 2018:

	Restricted Stock Awards	Weighted-Average Grant Date Fair Value
	Class A Shares	
Outstanding, January 1, 2017	77,000	\$ 20.02
Granted	7,413	35.77
Forfeited	(750)	19.85
Earned and issued	(42,053)	21.66
Outstanding, December 31, 2017	41,610	\$ 21.18
Outstanding, January 1, 2018	41,610	\$ 21.18
Granted	38,323	38.64
Forfeited	(1,500)	19.85
Earned and issued	(2,323)	43.60
Outstanding, September 30, 2018	76,110	\$ 29.31
Unvested	76,110	\$ 29.31

Performance Stock Units

Table of Contents

The Company first granted performance stock units (“PSUs”) under the 2015 Plan in January 2016. Shares of stock underlying the PSUs may be earned over a four-year performance period commencing on January 1, 2017 and ending on December 31, 2020 as follows:

- If the Company achieves a Return on Average Assets (“ROAA”), as defined in the award agreement, of 1.25% for a calendar year in the performance period, then between March 1st and March 15th of the following year, provided that the recipient is still employed in good standing on the payment date, the Company will issue shares of fully vested stock to the participant equal to 50% of the number of the PSUs initially granted to the participant; and
- If the ROAA of 1.25% is met again at the end of another calendar year during the remaining term of the performance period, the Company will similarly issue fully vested stock in an amount equal to the remaining 50% of the initial PSUs granted to the participant.
- The Compensation Committee (the “Committee”) makes all determinations regarding the achievement of ROAA based on the Company’s audited financial statements and average assets as reported in the Company’s Annual Report on Form 10-K with the Securities and Exchange Commission, and the determination of the Committee is final and binding on all parties. The Committee reserves the right, in its sole discretion, to adjust the calculation of ROAA downward for income or expense items that it considers to be infrequent or nonrecurring in nature.

The following table summarizes PSU activity from January 1, 2017 through September 30, 2018:

	Performance Stock Units	Weighted-Average Grant Date Fair Value
	Class A Shares	
Outstanding, January 1, 2017	55,000	\$ 23.13
Granted	—	—
Forfeited	(6,500)	23.48
Earned and issued	—	—
Outstanding, December 31, 2017	48,500	\$ 23.08
Outstanding, January 1, 2018	48,500	\$ 23.08
Granted	—	—
Forfeited	—	—
Earned and issued	—	—
Outstanding, September 30, 2018	48,500	\$ 23.08
Expected to vest	48,500	\$ 23.08

## Expense Related to the 2015 Stock Incentive Plan

All share-based payments to employees, including grants of employee stock options, are recognized as compensation expense over the service period (generally the vesting period) in the consolidated financial statements based on their fair values. Grants to non-employee directors are included within director fees, a component of other noninterest expense.

The Company recorded expense related to the 2015 Plan for the three and nine months ended September 30, 2018 and 2017 as follows:

(in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Stock option expense	\$ 56	\$ 65	\$ 174	\$ 191
Restricted stock award expense	132	81	450	373
Performance stock unit expense	53	127	106	364
Total expense	\$ 241	\$ 273	\$ 730	\$ 928

Table of Contents

As of September 30, 2018, unrecognized expenses related to unvested awards (net of estimated forfeitures) under the 2015 Plan are estimated as follows:

Year Ended (in thousands)	Stock Options	Restricted Stock Awards	Total
Remainder of 2018	\$ 132	\$ 65	\$ 197
2019	423	261	684
2020	323	261	584

## Deferred Compensation

On April 19, 2018, the shareholders of Republic approved an amendment and restatement of the Non-Employee Director and Key Employee Deferred Compensation Plan (the “Plan”). Prior to the Plan’s 2018 amendment and restatement, only directors participated in the plan, with the 2018 amendment and restatement initiating key-employee participation. The Plan provides non-employee directors and designated key employees the ability to defer compensation and have those deferred amounts paid later in the form of Company Class A Common shares based on the shares that could have been acquired as the deferrals were made. The Company maintains a bookkeeping account for each director or key-employee participant, and at the end of each fiscal quarter, deferred compensation is converted to “stock units” equal to the amount of compensation deferred during the quarter divided by the quarter-end fair market value of the Company’s Class A Common stock. Stock units for each participant’s account are also credited with an amount equal to the cash dividends that would have been paid on the number of stock units in the account if the stock units were deemed to be outstanding shares of stock. Any dividends credited are converted into additional stock units at the end of the fiscal quarter in which the dividends were paid.

## DIRECTORS

Members of the Board of Directors may defer board and committee fees from two to five years, with each director participant retaining a nonforfeitable interest in his or her deferred compensation account.

The following table presents information on director deferred compensation under the Plan for the periods presented:

	Outstanding Stock Units	Weighted-Average Market Price at Date of Deferral
Outstanding, January 1, 2017	64,155	\$ 22.94
Deferred fees and dividend equivalents converted to stock units	5,199	36.81
Stock units converted to Class A Common Shares	(5,456)	22.84
Outstanding, December 31, 2017	63,898	\$ 24.08
Outstanding, January 1, 2018	63,898	\$ 24.08
Deferred fees and dividend equivalents converted to stock units	3,757	42.91
Stock units converted to Class A Common Shares	(2,835)	23.94
Outstanding, September 30, 2018	64,820	\$ 25.18
Vested	64,820	\$ 25.18

#### KEY EMPLOYEES

Designated key employees may defer a portion of their base salaries on a pre-tax basis under the Plan, with the Company matching employee deferrals up to a prescribed limit. With limited exception, the Company match amount remains unvested until December 31st of the year that is five years from the beginning of the year that the Company match is made.

Table of Contents

The following table presents information on key employee deferred compensation under the Plan for the periods presented:

	Outstanding Stock Units	Weighted-Average Market Price at Date of Deferral
Outstanding, January 1, 2018	—	\$ —
Deferred base salaries and dividend equivalents converted to stock units	3,092	45.73
Matching stock units credited	3,092	45.73
Stock units converted to Class A Common Shares	—	—
Outstanding, September 30, 2018	6,184	\$ 45.73
Vested	3,092	\$ 45.73
Unvested	3,092	\$ 45.73

## 14. INCOME TAXES

The Tax Cuts and Jobs Act (“TCJA”) was enacted on December 22, 2017 and reduced the federal corporate tax rate from 35% to 21%, effective January 1, 2018. At December 31, 2017, except for a planned cost-segregation study, based on facts and circumstances known at that time, the Company believed it had substantially completed its accounting for the tax effects of the TCJA.

During the second quarter of 2018, however, the Company began its cost-segregation study that was completed during the third quarter of 2018. The Company’s cost-segregation study assigned revised tax lives and methods for select fixed assets resulting from a detailed engineering-based analysis. The more detailed classification of fixed assets allowed the Company a large one-time recognition of additional depreciation expense for its 2017 federal tax return at a 35% income tax rate, as opposed to the TCJA rate of 21% it previously expected to receive for these deductions in the future. The Company also made the decision to adopt an automatic tax-accounting-method change related to deferred loan costs during the third quarter of 2018, as it was preparing its 2017 federal tax return. The Company’s tax-accounting-method change related to the immediate recognition of loan origination costs for income tax purposes, as opposed to the amortization of those costs over the life of the loan. The cost-segregation study and the change in tax-accounting-method did result in a further impact from the TCJA, as they affected the Company’s final 2017 federal tax return due October 15, 2018.

In addition to the completed cost-segregation study and the change in the tax-accounting-method related to loan origination costs, the Company also completed a Research and Development (“R&D”) tax-credit study during the third quarter of 2018, which resulted in the recognition of R&D credits dating back to 2014. In total, these three tax-related items provided \$2.8 million in federal income tax benefits for the three and nine months ended September 30, 2018, of which \$2.6 million is considered nonrecurring in nature.

The following table illustrates the difference between the Company’s effective tax rate and the federal rates for the three and nine months ended September 30, 2018 and 2017:

	Three Months Ended September 30, 2018		September 30, 2017		Nine Months Ended September 30, 2018		September 30, 2017	
Federal rate times financial statement income	21.00	%	35.00	%	21.00	%	35.00	%
Effect of:								
SAB 118 related discrete items recorded during the third quarter of 2018*	(12.36)		—		(3.21)		—	
State taxes, net of federal benefit	1.59		1.41		1.55		0.64	
General business tax credits	(4.55)		—		(1.54)		—	
Nontaxable income	(0.86)		(2.54)		(0.92)		(1.55)	
Other, net	4.54		0.17		1.23		(0.45)	
Effective tax rate	9.36	%	34.04	%	18.11	%	33.64	%

\*Discrete items include the impact of a cost-segregation study and a tax-accounting-method change related to the immediate recognition of loan origination costs.

Table of Contents

## 16. REVENUE FROM CONTRACTS WITH CUSTOMERS

On January 1, 2018, the Company adopted ASU 2014-09, Revenue from Contracts with Customers and all subsequent amendments to the ASU (collectively, "ASC 606"). While this update modified guidance for recognizing revenue, it did not have a material impact on the timing or presentation of the Company's revenue. The majority of Company's revenue comes from interest income and other sources, including loans, leases, securities, and derivatives, which are not subject to ASC 606. The Company's services that fall within the scope of ASC 606 are presented within noninterest income and are recognized as revenue as the Company satisfies its obligation to its client. The Company did elect a practical expedient permitted under this guidance which allows it to expense as-incurred incremental costs of obtaining a contract when the amortization period of those costs would be less than one year.

The following tables present the Company's net revenue by reportable segment for the three and nine months ended September 30, 2018 and 2017:

(dollars in thousands)	Three Months Ended September 30, 2018				Republic Processing Group ("RPG")

(2) Net revenue represents net interest income plus total noninterest income. Net-revenue concentration equals segment-level net revenue divided by total Company net revenue.

## Table of Contents

The following represents information for significant revenue streams subject to ASC 606:

**Service charges on deposits** – The Company earns revenue for account-based and event-driven services on its retail and commercial deposit accounts. Contracts for these services are generally in the form of deposit agreements, which disclose fees for deposit services. Revenue for event-driven services is recognized in close proximity or simultaneously with service performance. Revenue for certain account-based services may be recognized at a point in time or over the period the service is rendered, typically no longer than a month. Examples of account-based and event-driven service charges on deposits include per item fees, paper-statement fees, check-cashing fees, and analysis fees.

**Net refund transfer fees** – A Refund Transfer (“RT”) is a fee-based product offered by the Bank through third-party tax preparers located throughout the United States, as well as tax-preparation software providers (collectively, the “Tax Providers”), with the Bank acting as an independent contractor of the Tax Providers. An RT allows a taxpayer to pay any applicable tax preparation and filing related fees directly from his federal or state government tax refund, with the remainder of the tax refund disbursed directly to the taxpayer. RT fees and all applicable tax preparation, transmitter, audit, and any other taxpayer authorized amounts are deducted from the tax refund by either the Bank or the Bank’s service provider and automatically forwarded to the appropriate party as authorized by the taxpayer. RT fees generally receive first priority when applying fees against the taxpayer’s refund, with the Bank’s share of RT fees generally superior to the claims of other third-party service providers, including the Tax Providers. The remainder of the refund is disbursed to the taxpayer by a Bank check printed at a tax office, direct deposit to the taxpayer’s personal bank account, loaded to a Net Spend Visa® Prepaid Card or Walmart Direct2Cash.

The Company executes contracts with individual Tax Providers to offer RTs to their taxpayer customers. RT revenue is recognized by the Bank immediately after the taxpayer’s refund is disbursed in accordance with the RT contract with the taxpayer customer. The fee paid by the taxpayer for the RT is shared between the Bank and the Tax Providers based on contracts executed between the parties.

The Company presents RT revenue net of any amounts shared with the Tax Providers. The Bank’s share of RT revenue is generally based on the obligations undertaken by the Tax Provider for each individual RT program, with more obligations generally corresponding to higher RT revenue share. The significant majority of net RT revenue is recognized and obligations under RT contracts fulfilled by the Bank during the first half of each year. Incremental expenses associated with the fulfillment of RT contracts are generally expensed during the first half of the year.

**Interchange fee income** – As an “issuing bank” for card transactions, the Company earns interchange fee income on transactions executed by its cardholders with various third-party merchants. Through third-party intermediaries, merchants compensate the Company for each transaction for the ability to efficiently settle the transaction and for the Company’s willingness to accept certain risks inherent in the transaction. There is no written contract between the merchant and the Company, but a contract is implied between the two parties by customary business practices. Interchange fee income is recognized almost simultaneously by the Company upon the completion of a related card

transaction.

The Company compensates its cardholders by way of cash or other “rewards” for generating card transactions. These rewards are disclosed in cardholder agreements between the Company and its cardholders. Reward costs are accrued over time based on card transactions generated by the cardholder. Interchange fee income is presented net of reward costs within noninterest income.

Net gains/(losses) on other real estate – The Company routinely sells other real estate (“OREO”) it has acquired through loan foreclosure. Net gains/(losses) on OREO reflect both 1) the gain or loss recognized upon an executed deed and 2) mark-to-market write-downs the Company takes on its OREO inventory.

The Company generally recognizes gains or losses on OREO at the time of an executed deed, although gains may be recognized over a financing period if the Company finances the sale. For financed OREO sales, the Company assesses whether the buyer is committed to perform their obligations under the contract and whether collectability of the transaction price is probable. Once these criteria are met, the OREO asset is derecognized and the gain or loss on sale is recorded upon the transfer of control of the property to the buyer. In determining the gain or loss on sale, the Company adjusts the transaction price and related gain/(loss) on sale if a significant financing component is present.

Mark-to-market write-downs taken by the Company during the property’s holding period are generally at least 10% per year but may be higher based on updated real estate appraisals or BPOs. Incremental expenditures to bring OREO to salable condition are generally expensed as-incurred.

Table of Contents

Capital commitment fee – The Company received and recorded a \$1.0 million nonrefundable capital commitment fee during the first quarter of 2018. The fee was paid by a third party upon the Company’s completion of its contractual obligations to build the infrastructure and disburse funds for a new collaborative credit product offered to the third party’s customers through the Bank. The completion of the infrastructure and the first disbursement of funds were made for this new credit product during the first quarter of 2018. Incremental expenses incurred by the Company to fulfil its obligation under this contract were expensed as-incurred.

## 17. SEGMENT INFORMATION

Reportable segments are determined by the type of products and services offered and the level of information provided to the chief operating decision maker, who uses such information to review performance of various components of the business (such as banking centers and business units), which are then aggregated if operating performance, products/services, and clients are similar.

As of September 30, 2018, the Company was divided into five reportable segments: Traditional Banking, Warehouse Lending (“Warehouse”), Mortgage Banking, Tax Refund Solutions (“TRS”), and Republic Credit Solutions (“RCS”). Management considers the first three segments to collectively constitute “Core Bank” or “Core Banking” operations, while the last two segments collectively constitute Republic Processing Group (“RPG”) operations. The Bank’s Correspondent Lending channel and the Company’s national branchless banking platform, MemoryBank®, are considered part of the Traditional Banking segment.

The table below provides the nature of segment operations and the primary drivers of net revenues by reportable segment:

Reportable Segment:	Nature of Operations:	Primary Drivers of Net Revenue:
Core Banking:		
Traditional Banking	Provides traditional banking products to clients in its market footprint primarily via its network of banking centers and to clients outside of its market footprint primarily via its Digital and Correspondent Lending delivery channels.	Loans, investments, and deposits.
Warehouse Lending	Provides short-term, revolving credit facilities to mortgage bankers across the United States.	Mortgage warehouse lines of credit.

Edgar Filing: REPUBLIC BANCORP INC /KY/ - Form 10-Q

Mortgage Banking	Primarily originates, sells and services long-term, single family, first lien residential real estate loans primarily to clients in the Bank's market footprint.	Loan sales and servicing.
Republic Processing Group:		
Tax Refund Solutions	TRS offers tax-related credit products and facilitates the receipt and payment of federal and state tax refund products. The RPS division of TRS offers general-purpose reloadable cards. TRS and RPS products are primarily provided to clients outside of the Bank's market footprint.	Loans, refund transfers, and prepaid cards.
Republic Credit Solutions	Offers consumer credit products. RCS products are primarily provided to clients outside of the Bank's market footprint, with a substantial portion of RCS clients considered subprime or near-prime borrowers.	Unsecured, consumer loans.

The accounting policies used for Republic's reportable segments are the same as those described in the summary of significant accounting policies in the Company's 2017 Annual Report on Form 10-K. Republic evaluates segment performance using operating income.

The Company allocates goodwill to the Traditional Banking segment. Republic generally allocates income taxes based on income before income tax expense unless Republic can reasonably make specific segment allocations. The Company makes transactions among reportable segments at carrying value.
