CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(In millions, except per share data)

1. Basis of Presentation

The condensed consolidated balance sheets as of March 31, 2016 and December 31, 2015, the condensed consolidated statements of income and comprehensive income, cash flow and stockholders' equity for the three months ended March 31, 2016 and March 31, 2015 have been prepared by Church & Dwight Co., Inc. (the "Company"). In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position at March 31, 2016 and results of operations and cash flows for all periods presented have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles ("GAAP") in the United States have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 (the "Form 10-K"). The results of operations for the period ended March 31, 2016 are not necessarily indicative of the operating results for the full year.

The Company incurred research and development expenses in the first quarter of 2016 and 2015 of \$14.4 and \$13.8, respectively. These expenses are included in selling, general and administrative expenses.

2. New Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board (the "FASB") issued new lease accounting guidance, requiring lessees to recognize right-of-use lease assets and lease liabilities on the balance sheet for those leases previously classified as operating leases, with a term greater than a year. The new guidance also expands the required quantitative and qualitative disclosures surrounding leases. The guidance is effective for annual and interim periods beginning after December 15, 2018, and requires a modified retrospective adoption, with early adoption permitted. The Company is currently evaluating the impact that adoption of the guidance will have on its consolidated financial position, results of operations and cash flows.

In March 2016, the FASB issued new accounting guidance that makes several modifications to the accounting for forfeitures, employer tax withholding on share-based compensation and the financial statement presentation of excess tax benefits or deficiencies. The new guidance also clarifies the statement of cash flows presentation for certain components of share-based awards. The guidance is effective for annual and interim periods beginning after December 15, 2016, with early adoption permitted. The Company is currently evaluating the impact that adoption of the guidance will have on its consolidated financial position, results of operations and cash flows.

In March and in April 2016, the FASB issued amended guidance that clarifies the principles for recognizing revenue. The amendments clarify the guidance for identifying performance obligations, licensing arrangements and principal versus agent considerations. The guidance is effective for annual and interim periods beginning after

December 15, 2017, and allows companies to apply the requirements retrospectively, either to all prior periods presented or through a cumulative adjustment in the year of adoption. Early adoption is allowed for annual and interim periods beginning after December 15, 2016. The Company is currently evaluating the impact, if any, that adoption of the guidance will have on its consolidated financial position, results of operations or cash flows.

There have been no other accounting pronouncements issued but not yet adopted by the Company which are expected to have a material impact on the Company's consolidated financial position, results of operations or cash flows.

3. Inventories

Gross PP&E	1,153.3	1,145.0
Less accumulated depreciation and amortization	552.2	535.4
Net PP&E	\$601.1	\$ 609.6

	Three Months Ended	
	March 31, 2016	March 31, 2015
Depreciation and amortization on PP&E	\$ 16.0	\$ 14.6

5. Earnings Per Share (“EPS”)

Basic EPS is calculated based on income available to holders of the Company’s common stock (“Common Stock”) and the weighted average number of shares outstanding during the reported period. Diluted EPS includes additional dilution from potential Common Stock issuable pursuant to the exercise of outstanding stock options.

The following table sets forth a reconciliation of the weighted average number of shares of Common Stock outstanding to the weighted average number of shares outstanding on a diluted basis:

	Three Months Ended	
	March 31, 2016	March 31, 2015
Weighted average common shares outstanding - basic	129.4	132.0

Dilutive effect of stock options	2.4	2.6
Weighted average common shares outstanding - diluted	131.8	134.6
Antidilutive stock options outstanding	0.8	0.0

6. Stock Based Compensation Plans

The following table provides a summary of option activity during the three months ended March 31, 2016:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at December 31, 2015	8.6	\$ 51.77		
Granted	0.4	83.53		
Exercised	(0.4)	31.22		
Cancelled	(0.1)	70.79		
Outstanding at March 31, 2016	8.5	\$ 54.08	5.9	\$ 323.1
Exercisable at March 31, 2016	4.4	\$ 37.64	4.1	\$ 239.8

The following table provides information regarding the intrinsic value of stock options exercised and stock compensation expense related to stock option awards.

	Three Months Ended	
	March 31, 2016	March 31, 2015
Intrinsic Value of Stock Options Exercised	\$24.2	\$23.8
Stock Compensation Expense Related to Stock Option Awards	\$5.5	\$1.7

7. Share Repurchases

On January 28, 2015, the Board authorized a new share repurchase program, under which the Company may repurchase up to \$500 million in shares of Common Stock (the “2015 Share Repurchase Program”). The 2015 Share Repurchase Program replaced the 2014 Share Repurchase Program. The Company also continued its evergreen share repurchase program, authorized by the Board on January 29, 2014, under which the Company may repurchase, from time to time, Common Stock to reduce or eliminate dilution associated with issuances of Common Stock under the Company’s incentive plans.

In connection with the Company’s 2015 Share Repurchase Program and its evergreen repurchase program, the Company repurchased approximately 2.2 million shares in the first quarter of 2016 at a cost of \$200.0, of which approximately \$103.0 was purchased under the evergreen share repurchase program and approximately \$97.0 was purchased under the 2015 Share Repurchase Program.

8. Fair Value Measurements

Fair Value Hierarchy

Accounting guidance on fair value measurements and disclosures establishes a hierarchy that prioritizes the inputs used to measure fair value (generally, assumptions that market participants would use in pricing an asset or liability) based on the quality and reliability of the information provided by the inputs, as follows:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

Fair Values of Other Financial Instruments

The following table presents the carrying amounts and estimated fair values of the Company’s other financial instruments at March 31, 2016 and December 31, 2015:

		March 31, 2016		December 31, 2015	
	Input Level	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial Assets:					
Cash equivalents	Level 1	\$103.7	\$103.7	\$89.3	\$89.3
Financial Liabilities:					
Short-term borrowings	Level 2	451.3	451.3	357.2	357.2
2.875% Senior notes due October 1, 2022	Level 2	399.8	404.3	399.7	390.5
2.45% Senior notes due December 15, 2019	Level 2	299.9	302.6	299.9	296.0
Fair value adjustment asset (liability) related to hedged fixed rate debt instrument	Level 2	7.8	7.8	1.3	1.3

The Company recognizes transfers between input levels as of the actual date of the event. There were no transfers between input levels during the three months ended March 31, 2016.

Refer to Note 2 in the Form 10-K for a description of the methods and assumptions used to estimate the fair value of each class of financial instruments reflected in the condensed Consolidated Balance Sheets.

The carrying amounts of accounts receivable, and accounts payable and accrued expenses, approximated estimated fair values as of March 31, 2016 and December 31, 2015.

9. Derivative Instruments and Risk Management

Changes in interest rates, foreign exchange rates, the price of Common Stock and commodity prices expose the Company to market risk. The Company manages these risks through the use of derivative instruments, such as cash flow and fair value hedges, diesel hedge contracts, equity derivatives and foreign exchange forward contracts. The Company does not use derivatives for trading or speculative purposes. Refer to Note 3 in the Form 10-K for a discussion of each of the Company's derivative instruments.

The notional amount of a derivative instrument is the nominal or face amount used to calculate payments made on that instrument. Notional amounts are presented in the following table:

	Notional Amount March 31, 2016	Notional Amount December 31, 2015
Derivatives designated as hedging instruments		
Foreign exchange contracts	\$ 128.7	\$ 118.0
Interest rate swap	\$ 300.0	\$ 300.0
	1.5	2.0
Diesel fuel contracts	gallons	gallons
Derivatives not designated as hedging instruments		
Foreign exchange contracts	\$ 25.1	\$ 33.2
Equity derivatives	\$ 32.6	\$ 32.4

The fair values and amount of gain (loss) recognized in income and other comprehensive income associated with the derivative instruments disclosed above did not have a material impact on the Company's condensed consolidated financial statements.

10. Acquisition

On January 4, 2016, the Company acquired Spencer Forrest, Inc., the maker of TOPPIK, (the "Toppik Acquisition"), the leading brand of hair building fibers for people with thinning hair. The total purchase price was approximately \$175.0, which is subject to adjustment based on the closing working capital. The Company financed the acquisition with commercial paper. Toppik's annual sales are approximately \$30.0. This brand will be managed within the Consumer Domestic and Consumer International segments.

The preliminary fair values of net assets acquired are set forth below:

	Acquisition Date Preliminary Fair Value
Toppik Acquisition	
Inventory and other working capital assets	\$ 9.5
Property, plant and equipment and other long-term assets	0.2
Trade names and other intangibles	115.8
Goodwill	52.2
Current liabilities	(2.7)
Cash purchase price as of March 31, 2016 (net of cash acquired)	\$ 175.0

The life of the amortizable intangible assets recognized from the Toppik Acquisition ranges from 10 - 20 years. The goodwill is a result of expected synergies from combined operations of the acquisition and the Company. Pro forma results are not presented because the impact is not material to the Company's consolidated financial results.

11. Goodwill and Other Intangibles, Net

The following table provides information related to the carrying value of all intangible assets, other than goodwill:

	March 31, 2016			Amortization Period (Years)	December 31, 2015		
	Gross Carrying Amount	Accumulated Amortization	Net		Gross Carrying Amount	Accumulated Amortization	Net
Amortizable intangible assets:

Indefinite lived intangible assets - Carrying value

	March 31, 2016	December 31, 2015
Trade names	\$861.3	\$ 860.0

Intangible amortization expense amounted to \$11.3 and \$10.7 for the first three months of 2016 and 2015, respectively. The Company estimates that intangible amortization expense will be approximately \$45.0 in 2016 and approximately \$40.0 to \$45.0 annually over the next five years.

The carrying amount of goodwill as of March 31, 2016 and December 31, 2015, respectively, is as follows:

	Consumer Domestic	Consumer International	Specialty Products	Total
Balance at December 31, 2015	\$ 1,242.2	\$ 62.6	\$ 50.1	\$1,354.9
Toppik acquired goodwill	39.2	13.0	0.0	52.2
Balance at March 31, 2016	\$ 1,281.4	\$ 75.6	\$ 50.1	\$1,407.1

12. Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consist of the following:

March 31,	December 31,

15. Commitments, Contingencies and Guarantees

Commitments

a. The Company has a partnership with a supplier of raw materials that mines and processes sodium-based mineral deposits. The Company purchases the majority of its sodium-based raw material requirements from the partnership. The partnership agreement for the partnership terminates upon two years' written notice by either partner. Under the partnership agreement, the Company has an annual commitment to purchase 240,000 tons of sodium-based raw materials at the prevailing market price. With the exception of the Natronx Technologies LLC ("Natronx") joint venture, in which the Company and the partner supplier are each one-third owners, the Company is not engaged in any other material transactions with the partnership or the partner supplier.

b. As of March 31, 2016, the Company had commitments of approximately \$248.7. These commitments include the purchase of raw materials, packaging supplies and services from its vendors at market prices to enable the Company to respond quickly to changes in customer orders or requirements, as well as costs associated with licensing and promotion agreements.

c. As of March 31, 2016, the Company had various guarantees and letters of credit of approximately \$24.0.

d. On November 8, 2011, the Company acquired a license for certain oral care technology for cash consideration of \$4.3. In addition to this initial payment, the Company was required to make advance royalty payments of up to \$5.5 upon the launch of a product utilizing the licensed technology, of which the entire \$5.5 has been paid as of December 31, 2015. As of March 31, 2016, no additional payments are required under the license agreement. However, upon the approval of certain New Drug Applications by the U.S. Food and Drug Administration for products incorporating the acquired technology, the Company would be required to make an additional \$7.0 license payment.

Legal proceedings

e. The Company has been named as a defendant in a breach of contract action filed by Scantibodies Laboratory, Inc. (the "Plaintiff") on April 1, 2014 in the U.S. District Court for the Southern District of New York.

The complaint alleges, among other things, that the Company (i) breached two agreements for the manufacture and supply of pregnancy and ovulation test kits by switching suppliers, (ii) failed to give Plaintiff the proper notice, (iii) failed to reimburse Plaintiff for costs and expenses under the agreements and (iv) misrepresented its future requirements. The complaint seeks compensatory and punitive damages of an amount in excess of \$20.0, as well as declaratory relief, statutory prejudgment interest and attorneys' fees and costs.

The Company is vigorously defending itself in this matter. On June 16, 2014, the Company filed an amended answer to the complaint denying all of the Plaintiff's material allegations. The parties have been engaged in fact discovery, which is ongoing.

In connection with this matter, the Company has reserved an amount that it does not believe is material. Although any damages ultimately paid by the Company may exceed this amount, it is not currently possible to estimate the amount of any such excess; however, any such excess could have a material adverse effect on the Company's business, financial condition, results of operations and cash flows.

f. In addition, in conjunction with the Company's acquisition and divestiture activities, the Company entered into select guarantees and indemnifications of performance with respect to the fulfillment of the Company's commitments under applicable purchase and sale agreements. The arrangements generally indemnify the buyer or seller for damages associated with breach of contract, inaccuracies in representations and warranties surviving the closing date and satisfaction of liabilities and commitments retained under the applicable contract. Representations and warranties that survive the closing date generally survive for periods up to five years or the expiration of the applicable statutes of limitations. Potential losses under the indemnifications are generally limited to a portion of the original transaction price, or to other lesser specific dollar amounts for select provisions. With respect to sale transactions, the Company also routinely enters into non-competition agreements for varying periods of time. Guarantees and indemnifications with respect to acquisition and divestiture activities, if triggered, could have a materially adverse impact on the Company's financial condition, results of operations and cash flows.

g. The Company, in the ordinary course of its business, is the subject of, or party to, various pending or threatened legal actions, government investigations and proceedings from time to time, including, without limitation, those relating to, intellectual property, commercial transactions, product liability, purported consumer class actions,

employment matters, antitrust, environmental, health, safety and other compliance related matters. Such proceedings are subject to many uncertainties and the outcome of certain pending or threatened legal actions may not be reasonably predictable and any related damages may not be estimable. Certain legal actions, including those described above, could result in an adverse outcome for the Company, and any such adverse outcome could have a material adverse effect on the Company's business, financial condition, results of operations and cash flows.

16. Related Party Transactions

The following summarizes the balances and transactions between the Company and each of (i) Armand Products Company (“Armand”) and The ArmaKleen Company (“ArmaKleen”), in each of which the Company holds a 50% ownership interest, and (ii) Natronx, in which the Company holds a one-third ownership interest:

17. Segments

Segment Information

The Company operates three reportable segments: Consumer Domestic, Consumer International and SPD. These segments are determined based on differences in the nature of products and organizational and ownership structures. The Company also has a Corporate segment.

Segment revenues are derived from the sale of the following products:

Segment	Products
Consumer Domestic	Household and personal care products Primarily personal care products
Consumer International	care products
SPD	

Specialty
chemical
products

The Corporate segment income consists of equity in earnings (losses) of affiliates. As of March 31, 2016, the Company held 50% ownership interests in each of Armand and ArmaKleen, respectively, and a one-third ownership interest in Natronx. The Company's equity in earnings (losses) of Armand and ArmaKleen for the three months ended March 31, 2016 and Armand, ArmaKleen and Natronx for the three months ended March 31, 2015, respectively, are included in the Corporate segment.

Some of the subsidiaries that are included in the Consumer International segment manufacture and sell personal care products to the Consumer Domestic segment. These sales are eliminated from the Consumer International segment results set forth in the table below.

Segment Net Sales and Income before Income Taxes for the three months ended March 31, 2016 and March 31, 2015 respectively, are as follows:

	Consumer Domestic	Consumer International	SPD	Corporate ⁽³⁾	Total
Net Sales⁽¹⁾					
First Quarter 2016	\$ 647.8	\$ 127.4	\$73.8	\$ 0.0	\$849.0

First Quarter 2015	129.6	19.4	14.0	2.3	165.3

⁽¹⁾ Intersegment sales from Consumer International to Consumer Domestic, which are not reflected in the table, were \$1.0 and \$1.3 for the three months ended March 31, 2016 and March 31, 2015.

(2) In determining Income before Income Taxes, interest expense and investment earnings were allocated among segments based upon each segment's relative Income from Operations.

(3) Corporate consists of equity in earnings of affiliates from Armand and ArmaKleen in the first quarter 2016, and Armand, ArmaKleen and Natronx in the first quarter 2015.

Product line revenues from external customers are as follows:

	Three Months Ended

Net Sales increase	4.5%
--------------------	------

(1) On January 4, 2016, the Company acquired Spencer Forrest, Inc., the maker of TOPPIK, (the “Toppik Acquisition”). Net sales of this acquisition are included in the Company’s results since the date of acquisition. For the three months ended March 31, 2016, the volume change primarily reflects increased product sales in both the Consumer Domestic and Consumer International segments, with volume declines in Specialty Products (“SPD”).

Gross Profit / Gross Margin

The Company’s gross profit was \$379.0 for the quarter ended March 31, 2016, a \$23.5 increase as compared to the same period in 2015. Gross margin increased 80 basis points (“bps”) in the first quarter of 2016 compared to the same period in 2015 due to lower commodity costs of 120 bps, the impact of the higher margin acquired business of 20 bps and price/volume mix of 10 bps, partially offset by higher manufacturing costs (the net of higher fixed costs associated with the Company’s new vitamin manufacturing facility and productivity programs) of 30 bps and unfavorable foreign exchange rates of 40 bps.

Operating Expenses

Marketing expenses for the first quarter of 2016 were \$92.5, an increase of \$3.7 or 4.2% as compared to the same period in 2015. Marketing expenses as a percentage of net sales in the first quarter of both 2016 and 2015 were 10.9%.

Selling, general and administrative (“SG&A”) expenses were \$107.0 in the first quarter of 2016, an increase of \$12.4 or 13.1% as compared to the same period in 2015 primarily due to higher compensation costs including the timing of stock option grants to certain senior management employees related to the Company’s recent management transition, and both on-going and one-time costs associated with the Toppik Acquisition. SG&A as a percentage of net sales increased 90 bps to 12.6% in the first quarter of 2016 as compared to 11.7% in the same period in 2015. The increase is due to higher costs of 140 bps, partially offset by 50 bps of leverage associated with higher sales.

Other Income and Expenses

Equity in earnings of affiliates for the three month period ended March 31, 2016 decreased by \$0.6 as compared to the same period in 2015 primarily due to higher raw material and production costs associated with one of the Company's joint ventures.

Other expense for the three month period ended March 31, 2016 decreased \$0.3 compared to the same period in 2015 due to the effect of changes in foreign currency rates.

Interest expense for the three month period ended March 31, 2016 decreased \$0.8 compared to the same period in 2015 due to a lower amount of average debt outstanding.

Income Taxes

The effective tax rate in the first quarter ended March 31, 2016 was 34.7% compared to 35.1% in the same period in 2015.

Segment results

The Company operates three reportable segments: Consumer Domestic, Consumer International and SPD. These segments are determined based on differences in the nature of products and organizational and ownership structures. The Company also has a Corporate segment.

Segment	Products

The Company's equity in earnings of Armand and ArmaKleen for the three month periods ended March 31, 2016, and Armand, ArmaKleen and Natronx for the three month periods ended March 31, 2015 are included in the Corporate segment.

Some of the subsidiaries that are included in the Consumer International segment manufacture and sell personal care products to the Consumer Domestic segment. These sales are eliminated from the Consumer International segment results set forth below.

Segment net sales and income before income taxes for the three month periods ended March 31, 2016 and March 31, 2015 are as follows:

Total Consumer International	127.4	120.4
Total SPD	73.8	77.3
Total Consolidated Net Sales	\$849.0	\$812.3

Household Products include laundry, deodorizing, and cleaning products. Personal Care Products include condoms, pregnancy kits, oral care products, skin care and hair care products and gummy dietary supplements.

Consumer Domestic

Consumer Domestic net sales in the first quarter of 2016 were \$647.8, an increase of \$33.2 or 5.4% as compared to the same period in 2015. The components of the net sales change are the following:

	Three Months Ended March 31, 2016
Net Sales - Consumer Domestic	
Product volumes sold	5.7%
Pricing/Product mix	(1.2%)
Volume from acquired product lines ⁽¹⁾	0.9%
Net Sales increase	5.4%

⁽¹⁾ Includes net sales of the brands acquired in the Toppik Acquisition since the date of acquisition. The increase in net sales for the three month period ending March 31, 2016, reflects higher sales for the ARM & HAMMER liquid laundry detergent, VITAFUSION gummy vitamins, ARM & HAMMER cat litter product lines and BATISTE dry shampoo, partially offset by lower sales of L'IL CRITTERS gummy vitamins.

There continues to be significant product and price competition in the laundry detergent category. For example, the Procter & Gamble Company markets a premium line of unit dose products under the Tide Pods brand and a lower-priced line of laundry detergents that competes directly with the Company's core value laundry detergents. Henkel AG & Co. KGaA ("Henkel") has entered the U.S. market with Persil, its leading worldwide premium laundry detergent. It is too early to assess what impact these competitive actions will have on the premium laundry category or the Company's laundry detergent business. However, the unit dose laundry detergent segment is the fastest growing segment in the laundry detergent category, having grown to approximately 15% of the category since the introduction of this form in 2012, and the Company faces pressure to achieve its proportionate share of the segment with a potential adverse impact on its share of the laundry detergent category. Moreover, the introduction of Persil could precipitate greater price competition in the category and distribution pressure with a potential adverse

impact on OXICLEAN laundry detergent. The Company continues to evaluate and vigorously combat these pressures through, among other things, new product introductions and increased marketing and trade spending. Additionally, while the category grew 6.4% in the first quarter of 2016 and 1.6% in 2015, after experiencing declines in 2013 and 2014, there is no assurance the category will not decline in the future and that the Company will be able to offset any such decline.

Consumer Domestic income before income taxes for the first quarter of 2016 was \$139.9, a \$10.3 increase as compared to the first quarter of 2015. The increase is due primarily to the impact of higher sales volumes of \$23.3, favorable commodity and manufacturing costs of \$7.1, offset by higher SG&A costs of \$9.4, unfavorable price/mix of \$8.4 and higher marketing expenses of \$2.4.

Consumer International

Consumer International net sales were \$127.4 in the first quarter of 2016, an increase of \$7.0 or 5.8% as compared to the same period in 2015. The components of the net sales change are the following:

	Three Months Ended March 31, 2016
Net Sales - Consumer International	
Product volumes sold	9.6%
Pricing/Product mix	3.7%
Foreign exchange rate fluctuations / Other	(9.0%)
Volume from acquired product lines ⁽¹⁾	1.5%
Net Sales increase	5.8%

⁽¹⁾Includes net sales of the brands acquired in the Toppik Acquisition since the date of acquisition.

Excluding the impact of unfavorable foreign exchange rates, higher sales in the first quarter of 2016 occurred in the United Kingdom, Mexico and Canada. U.S. exports also increased in the first quarter of 2016.

Consumer International income before income taxes was \$18.1 in the first quarter of 2016, a decrease of \$1.3 compared to the same period in 2015 due primarily to unfavorable foreign exchange rates of \$5.1, higher SG&A of \$3.9, marketing expense of \$2.4 and increased commodity and manufacturing costs of \$0.7, partially offset by higher volumes of \$7.0 and favorable price/mix of \$3.8.

Specialty Products (“SPD”)

SPD net sales were \$73.8 for the first quarter of 2016, a decrease of \$3.5 or 4.6% as compared to the same period in 2015. The components of the net sales change are the following:

	Three Months Ended March 31, 2016
Net Sales - SPD	
Product volumes sold	(1.4%)
Pricing/Product mix	(0.6%)
Foreign exchange rate fluctuations / Other	(2.6%)
Net Sales (decrease)	(4.6%)

The net sales decrease in the first quarter of 2016 reflects lower sales in the animal nutrition business driven by further declines in milk prices and a strong year ago results comparison.

SPD income before income taxes was \$13.3 in the first quarter of 2016, a decrease of \$0.7 as compared to the same period in 2015 due primarily to higher SG&A of \$0.9, unfavorable price/mix of \$0.4, lower volumes of \$0.7 and increased other expense of \$1.1, partially offset by lower manufacturing costs of \$1.3 and favorable foreign exchange rates of \$1.0.

Corporate

The administrative costs of the Company's production, planning and logistics functions are included in the SG&A expenses of each operating segment and as elements of cost of sales in the Company's Consolidated Statements of Income. The Corporate segment includes equity in earnings of affiliates from Armand and ArmaKleen in the first quarter of 2016, and Armand, ArmaKleen and Natronx in the first quarter of 2015. The Corporate segment income before income taxes was \$1.7 in the first quarter of 2016, a decrease of \$0.6 as compared to the same period in 2015 primarily due to higher raw material and production costs associated with one of the Company's joint ventures.

Liquidity and capital resources

As of March 31, 2016, the Company had \$194.3 in cash and cash equivalents, approximately \$551.0 available through the revolving facility under its principal credit agreement (the "Credit Agreement") and its commercial paper program, and a commitment increase feature under the Credit Agreement that enables the Company to borrow up to an additional \$600.0, subject to lending

commitments of the participating lenders and certain conditions as described in the Credit Agreement. To preserve its liquidity, the Company invests its cash primarily in prime money market funds and short term bank deposits.

The current economic environment presents risks that could have adverse consequences for the Company's liquidity. (See "Unfavorable economic conditions could adversely affect demand for the Company's products" under "Risk Factors" in Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015 (the "Form 10-K").) The Company does not anticipate that current economic conditions will adversely affect its ability to comply with the financial covenant in the Credit Agreement because the Company currently is, and anticipates that it will continue to be, in compliance with the maximum leverage ratio requirement under the Credit Agreement.

On February 2, 2016, the Board declared a 6% increase in the regular quarterly dividend from \$0.335 to \$0.355 per share, equivalent to an annual dividend of \$1.42 per share as of February 16, 2016. The decision raises the annual dividend payout from \$175.0 to approximately \$185.0, and maintains the Company's payout of dividends relative to net income at approximately 40%.

In connection with the Company's share repurchase program authorized by the Board in January of 2015 (the "2015 Share Repurchase Program") and its evergreen repurchase program, the Company repurchased approximately 2.2 million shares in the first quarter of 2016 at a cost of \$200.0, of which approximately \$103.0 was purchased under the evergreen share repurchase program and approximately \$97.0 was purchased under the 2015 Share Repurchase Program. As a result of these purchases, there remained approximately \$128.0 under the 2015 Share Repurchase Program as of March 31, 2016.

The Company anticipates that its cash from operations, together with its current borrowing capacity, will be sufficient to meet its capital expenditure program costs, which are expected to be a total of approximately \$55.0 in 2016, fund its share repurchase programs to the extent implemented by management and pay dividends at the latest approved rate. Cash, together with the Company's current borrowing capacity, may be used for acquisitions that would complement the Company's existing product lines or geographic markets. The Company does not have any mandatory fixed rate debt principal payments in 2016.

Cash Flow Analysis

	Three Months Ended	
	March 31, 2016	March 31, 2015
Net cash provided by operating activities	\$ 177.8	\$ 144.2
Net cash used in investing activities	\$(184.1)	\$(97.9)
Net cash used in financing activities	\$(136.1)	\$(153.9)

Net Cash Provided by Operating Activities – The Company's primary source of liquidity is the strong cash flow provided by operating activities, which is dependent on the level of net income and changes in working capital. The Company's net cash provided by operating activities in the three months ended March 31, 2016 increased by \$33.6 to \$177.8 as compared to \$144.2 in the same period in 2015 due to lower working capital and higher cash earnings (net income plus non-cash expenses such as depreciation, amortization, non-cash compensation and asset impairment charges). The decrease in working capital is primarily due to lower accounts receivable as a result of factoring \$67.0 to a bank. The Company measures working capital effectiveness based on its cash conversion cycle. The following table presents the Company's cash conversion cycle information for the quarters ended March 31, 2016 and 2015:

	As of		
	March	March	
	31,	31,	Change
	2016	2015	
Days of sales outstanding in accounts receivable ("DSO")	29	37	(8)
Days of inventory outstanding ("DIO")	54	49	5
Days of accounts payable outstanding ("DPO")	57	57	0
Cash conversion cycle	26	29	(3)

The Company's cash conversion cycle (defined as the sum of DSO and DIO less DPO) which is calculated using a 2 period average method, improved 3 days from the prior year amount of 29 days to 26 days at March 31, 2016 due primarily to improved DSO of 8 days from 37 to 29 days due to factoring. DIO increased 5 days from 49 to 54 days. The improvement in the Company's cash conversion cycle reflects the Company's continued focus on reducing its average working capital requirements.

Net Cash Used in Investing Activities – Net cash used in investing activities during the first three months of 2016 was \$184.1, principally reflecting \$175.0 for the Toppik Acquisition and \$8.5 for property, plant and equipment expenditures. Net cash used in

investing activities during the first three months of 2015 was \$97.9, principally reflecting \$21.9 for property, plant and equipment expenditures, in large part due to the Company's new gummy vitamin manufacturing facility in York, Pennsylvania, and \$74.9 for the acquisition of assets of Varied Industries Corporation.

Net Cash Used in Financing Activities – Net cash used in financing activities during the first three months of 2016 was \$136.1, primarily reflecting \$200.0 of repurchases of the Company's common stock ("Common Stock") and \$46.1 of cash dividend payments, offset by \$90.5 of commercial paper borrowings, \$3.3 of short term borrowings at an international subsidiary and \$21.2 of proceeds and tax benefits from stock option exercises. Net cash used in financing activities during the first three months of 2015 was \$153.9, primarily reflecting \$256.2 of repurchases of Common Stock and \$43.7 of cash dividends, offset by an increase in short-term debt of \$127.1 and \$19.3 of proceeds and tax benefits from stock option exercises.

Financial Covenant

"Consolidated EBITDA" (referred to below as "Adjusted EBITDA" and defined in the Credit Agreement that was revised in December 2015) is a component of the financial covenant contained in the Credit Agreement. The financial covenant includes a leverage ratio (total debt to Adjusted EBITDA), which, if not met, could result in an event of default and trigger the early termination of the Credit Agreement. Adjusted EBITDA may not be comparable to similarly titled measures used by other entities and should not be considered as an alternative to cash flows from operating activities determined in accordance with accounting principles generally accepted in the U.S. The Company's leverage ratio for the twelve months ended March 31, 2016 was 1.5, which is below the maximum permitted under the Credit Agreement.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Market risk

For quantitative and qualitative disclosures about market risk affecting the Company, see "Quantitative and Qualitative Disclosures About Market Risk" in Item 7A of Part II of our Annual Report on Form 10-K for the fiscal year ended December 31, 2015. Our exposure to market risk has not changed materially since December 31, 2015.

ITEM 4. CONTROLS AND PROCEDURES

a) Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) at the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures, as of the end of the period covered by this report, are effective to provide reasonable assurance that the information required to be disclosed by the Company in reports filed under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the rules and forms of the United States Securities and Exchange Commission (the "Commission"), and (ii) accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding the disclosure.

b) Change in Internal Control over Financial Reporting

No change in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

CAUTIONARY NOTE ON FORWARD-LOOKING INFORMATION

This report contains forward-looking statements, including, among others, statements relating to net sales and earnings growth; gross margin changes; trade and marketing spending; marketing expense as a percentage of net sales; sufficiency of cash flows from operations; earnings per share; cost savings programs; consumer demand and spending; the effects of competition; the effect of product mix; volume growth; the impact of competitive laundry detergent products, including unit dose laundry detergent; the Company's hedge programs; the impact of foreign exchange and commodity price fluctuations; the Company's investments in joint ventures; the impact of acquisitions; capital expenditures; the Company's effective tax rate; the effect of the credit environment on the Company's liquidity and capital resources; the Company's fixed rate debt; compliance with covenants under the Company's debt instruments; the Company's commercial paper program; the Company's current and anticipated future borrowing capacity to meet

capital expenditure program costs; the Company's share repurchase programs; payment of dividends; environmental and regulatory matters; and the availability and adequacy of raw materials, including trona reserves. These statements represent the intentions, plans, expectations and beliefs of the Company, and are based on assumptions that the Company believes are reasonable but may prove to be incorrect. In addition, these statements are subject to risks, uncertainties and other factors, many of which are outside the Company's control and could cause actual results to differ materially from such forward-looking statements. Factors that could cause such differences include a decline in market growth, retailer distribution and consumer demand (as a result of, among other things, political, economic and marketplace conditions and events); unanticipated increases in raw material and energy prices; delays or other problems in manufacturing or distribution; adverse developments affecting the financial condition of major customers and suppliers; competition, including The Procter & Gamble Company's participation in the value laundry detergent category and Henkel's entry into the U.S. premium laundry detergent category; changes in marketing and promotional spending; growth or declines in various product categories and the impact of customer actions in response to changes in consumer demand and the economy, including increasing shelf space of private label products; consumer and competitor reaction to, and customer acceptance of, new product introductions and features; the Company's ability to maintain product quality and characteristics at a level acceptable to our customers and consumers; disruptions in the banking system and financial markets; foreign currency exchange rate fluctuations; issues relating to the Company's information technology and controls; the impact of natural disasters on the Company and its customers and suppliers, including third party information technology service providers; the acquisition or divestiture of assets; the outcome of contingencies, including litigation, pending regulatory proceedings and environmental matters; and changes in the regulatory environment.

The Company undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by the U. S. federal securities laws. You are advised, however, to consult any further disclosures the Company makes on related subjects in its filings with the Commission.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

General

The Company, in the ordinary course of its business, is the subject of, or party to, various pending or threatened legal actions. Litigation is subject to many uncertainties, and the outcome of certain individual litigated matters may not be reasonably predictable and any related damages may not be estimable. Certain legal actions, including those described below, could result in an adverse outcome for the Company, and any such adverse outcome could have a material adverse effect on the Company's business, financial condition, results of operations, and cash flows.

Scantibodies Laboratory, Inc.

The Company has been named as a defendant in a breach of contract action filed by Scantibodies Laboratory, Inc. (the "Plaintiff") on April 1, 2014, in the U.S. District Court for the Southern District of New York.

The complaint alleges, among other things, that the Company (i) breached two agreements for the manufacture and supply of pregnancy and ovulation test kits by switching suppliers, (ii) failed to give Plaintiff the proper notice, (iii) failed to reimburse Plaintiff for costs and expenses under the agreements and (iv) misrepresented its future requirements. The complaint seeks compensatory and punitive damages of an amount in excess of \$20 million, as well as declaratory relief, statutory prejudgment interest and attorneys' fees and costs.

The Company is vigorously defending itself in this matter. On June 16, 2014, the Company filed an amended answer to the complaint denying all of the Plaintiff's material allegations. The parties have been engaged in fact discovery, which is ongoing.

In connection with this matter, the Company has reserved an immaterial amount. Although any damages ultimately paid by the Company may exceed this amount, it is not currently possible to estimate the amount of any such excess; however, any such excess could have a material adverse effect on the Company's business, financial condition, results of operations and cash flows.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Item 1A, "Risk Factors" in the Form 10-K, which could materially affect the Company's business, financial condition or future results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The Company repurchases shares of its Common Stock from time to time pursuant to its publicly announced share repurchase programs. The following table contains information for shares repurchased during the first quarter of 2016.

Period	Total Number of Shares Purchased	Average Price Paid per Share ⁽¹⁾	Total Number of Shares Purchased	
			as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under All Programs ⁽²⁾
1/1/2016 to 1/31/2016	0	0.00	0	\$224,949,267
2/1/2016 to 2/29/2016	1,531,509	\$ 88.72	1,531,509	\$192,472,891
3/1/2016 to 3/31/2016	701,545	\$ 91.40	701,545	\$128,353,339
Total	2,233,054	\$ 89.56	2,233,054	

⁽¹⁾ Average price paid per share in the period includes commission.

⁽²⁾ During the quarter, approximately \$103.0 was repurchased under the Company's evergreen share repurchase program and approximately \$97.0 was repurchased under the 2015 Share Repurchase Program. The evergreen share repurchase program has no specified cap and therefore is not reflected in this column.
