People's Utah Bancorp
Form 10-Q
November 10, 2016

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2016

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission file number 001-37416

PEOPLE'S UTAH BANCORP

(Exact name of registrant as specified in its charter)

UTAH 87-0622021 (State or other jurisdiction of incorporation or organization) Identification No.)

1 East Main Street, American Fork, Utah 84003 (Address of principal executive offices) (Zip Code)

(801) 642-3998

Registrant's telephone number, including area code

Not Applicable

(Former name, former address, and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by checkmark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company Indicate by checkmark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of Registrant's common stock outstanding on October 31, 2016 was 17,790,549. No preferred shares are issued or outstanding.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 — Basis of Presentation

People's Utah Bancorp, Inc. ("PUB" or the "Company") is a Utah corporation headquartered in American Fork, Utah. The Company's subsidiary is People's Intermountain Bank ("PIB" or the "Bank"), which includes two banking divisions doing business as ("dba") Bank of American Fork ("BAF") and Lewiston State Bank ("LSB") and an equipment leasing division dba GrowthFunding Equipment Finance. BAF and LSB have over 100 years of history and will continue to do business as registered names of PIB.

The interim consolidated financial statements include the accounts of the Company together with its subsidiary Bank. All intercompany transactions and balances have been eliminated.

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial information. In the opinion of management, the interim statements reflect all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows of the Company on a consolidated basis and all such adjustments are of a normal recurring nature. These financial statements and the accompanying notes should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2015 which are included in the Company's 2015 Form 10-K. Operating results for the nine months ended September 30, 2016 are not necessarily indicative of the results that may be expected for the year ending December 31, 2016 or any other period.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses, the valuation of real estate acquired through foreclosure, deferred tax assets, and share-based compensation.

Earnings per share — Basic earnings per common share represents income available to common shareholders divided by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflect additional common shares that would have been outstanding if dilutive potential common shares had been issued. Potential common shares includes shares that may be issued by the Company for outstanding stock options determined using the treasury stock method and for all outstanding restricted stock units ("RSU").

Earnings per common share have been computed based on the following:

	Three Months Ended September 30,				
(in thousands, except share and per share data)	2016	2015	2016	2015	
Numerator					
Net income	\$6,248	\$5,266	\$17,068	\$14,728	
Denominator					
Weighted-average number of common shares outstanding	17,764,647	17,467,161	17,711,899	15,821,403	

Incremental shares assumed for stock options and RSUs	483,361	638,605	470,154	552,631
Weighted-average number of dilutive shares outstanding	18,248,008	18,105,766	18,182,053	16,374,034
Basic earnings per common share	\$0.35	\$0.30	\$0.96	\$0.93
Diluted earnings per common share	\$0.34	\$0.29	\$0.94	\$0.90

PEOPLE'S UTAH BANCORP AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 1 — Basis of Presentation – Continued

Reclassifications — Certain amounts in the prior period's financial statements have been reclassified to conform to the current period's presentation.

Impact of Recent Authoritative Accounting Guidance — The Financial Accounting Standards Board issued Accounting Standards Codification ("ASC") 2016-13, Measurement of Credit Losses on Financial Instruments. The standard significantly changes how entities will measure credit losses for most financial assets and certain other instruments that are not measured at fair value through net income. The standard replaces today's "incurred loss" approach with an "expected loss" model for instruments such as loans and held-to-maturity securities that are measured at amortized cost. The standard requires credit losses relating to available-for-sale debt securities to be recorded through an allowance for credit losses rather than a reduction of the carrying amount. It also changes the accounting for purchased credit-impaired debt securities and loans. The standard retains many of the current disclosure requirements in current GAAP and expands certain disclosure requirements. While we expect this standard will have a material impact on the Company's financial statements, we are still in the process of conducting our evaluation. The standard will become effective for the Company in the first quarter of 2020.

Note 2 — Investment Securities

Amortized cost and approximate fair values of investment securities available for sale are summarized as follows:

			Gross Ur	nrealized	
			Losses		
			Less	12	
		Gross	Than	Months	
	Amortized	Unrealized	12	or	Fair
(in thousands)	Cost	Gains	Months	Longer	Value

PEOPLE'S UTAH BANCORP AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2 — Investment Securities – continued

The amortized cost and estimated fair values of investment securities that are available-for-sale and held-to-maturity at September 30, 2016, by contractual maturity, are as follows:

	Available- Amortized		Held-to-r Amortize	•
(in thousands)	Cost	Value	Cost	Value
Securities maturing in:				
One year or less	\$21,055	\$21,140	\$10,767	\$10,772
After one year through five years	123,786	124,171	39,850	40,175
After five years through ten years	71,359	71,661	10,854	11,089
After ten years	108,303	109,124	_	_
	\$324,503	\$326,096	\$61,471	\$62,036

Expected maturities may differ from contractual maturities because issuers may have the right to call obligations with or without penalties.

As of September 30, 2016 and December 31, 2015, the Company held 131 and 234 investment securities, respectively, with fair values less than amortized cost. Management evaluated these investment securities and determined that the decline in value is temporary and related to the change in market interest rates since purchase. The decline in value is not related to any company or industry specific event. The Company anticipates full recovery of the amortized cost with respect to these securities at maturity, or sooner in the event of a more favorable market interest rate environment.

Note 3 — Loans and Allowance for Loan Losses

Loans are summarized as follows:

	September	December
	30,	31,
(in thousands)	2016	2015
Loans held for investment:		
Commercial real estate loans:		

Edgar Filing: People's Utah Bancorp - Form 10-Q

Edgar Filing: People's Utah Bancorp - Form 10-Q

	September	December
	30,	31,
(in thousands)	2016	2015
Accruing troubled debt restructured loans	\$ 6,006	\$ 7,049
Non-accrual troubled debt restructured loans	1,508	2,503
Total troubled debt restructured loans	\$ 7,514	\$ 9,552

A restructured loan is considered a troubled debt restructured loan ("TDR"), if the Company, for economic or legal reasons related to the debtor's financial difficulties, grants a concession in terms or a below-market interest rate to the debtor that it would not otherwise consider. Each TDR loan is separately negotiated with the borrower and includes terms and conditions that reflect the borrower's prospective ability to service the debt as modified.

Credit Quality Indicators:

In addition to past due and non-accrual criteria, the Company also analyzes loans using a loan grading system. Performance-based grading follows the Company's definitions of Pass, Special Mention, Substandard and Doubtful, which are consistent with published definitions of regulatory risk classifications.

Definitions of Pass, Special Mention, Substandard and Doubtful are summarized as follows:

Pass: A Pass asset is higher quality and does not fit any of the other categories described below. The likelihood of loss is considered remote.

Special Mention: A Special Mention asset has potential weaknesses that may be temporary or, if left uncorrected, may result in a loss. While concerns exist, the Company is currently protected and loss is considered unlikely and not imminent.

Substandard: A Substandard asset is inadequately protected by the current sound net worth and paying capacity of the obligor or of the collateral pledged, if any. Assets so classified have well defined weaknesses and are characterized by the distinct possibility that the Company may sustain some loss if deficiencies are not corrected.

Doubtful: A Doubtful asset has all the weaknesses inherent in a Substandard asset with the added characteristics that the weaknesses make collection or liquidation in full highly questionable.

For Consumer loans, the Company generally assigns internal risk grades similar to those described above based on payment performance.

Total \$21,755 \$ 705 \$25,241 \$ 785

Loans and Deposits to affiliates — The Company has entered into loan transactions with certain directors, affiliated companies and executive committee members ("affiliates"). Such transactions were made in the ordinary course of business on substantially the same terms and conditions, including interest rates and collateral, as those prevailing at the same time for comparable transactions with other customers, and did not, in the opinion of management, involve more than normal credit risk or present other unfavorable features. Total outstanding loans with affiliates were approximately \$336,000 and \$48,000 as of September 30, 2016 and December 31, 2015, respectively. Available lines of credit for loans and credit cards to affiliates were approximately \$533,000 as of September 30, 2016. Deposits held by affiliates were \$8.6 million and \$7.9 million as of September 30, 2016 and December 31, 2015, respectively.

Note 4 — Income Taxes

Income tax expense was \$9.8 million and \$7.8 million for the nine months ended September 30, 2016 and 2015, respectively. The Company's effective tax rate was 36.6% and 34.5% for the nine months ended September 30, 2016 and 2015, respectively.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 5 — Commitments and Contingencies

Litigation contingencies— The Company is involved in various claims, legal actions and complaints which arise in the ordinary course of business. In the Company's opinion, all such matters are adequately covered by insurance, are without merit or are of such kind, or involve such amounts, that unfavorable disposition would not have a material adverse effect on the financial condition or results of operations of the Company.

Commitments to extend credit — In the normal course of business, the Company has outstanding commitments and contingent liabilities, such as commitments to extend credit and unused credit card lines, which are not included in the accompanying consolidated financial statements. The Company's exposure to credit loss in the event of non-performance by other parties to the financial instruments for commitments to extend credit and unused credit card lines is represented by the contractual or notional amount of those instruments. The Company uses the same credit policies in making such commitments as it does for instruments that are included in the consolidated balance sheets.

Contractual amounts of off-balance sheet financial instruments were as follows:

(in thousands)	September 30, 2016	December 31, 2015
Commitments to extend credit, including unsecured		
, , ,		
commitments of \$13,419 and \$12,869 as of

•		
2015, respectively	33,322	36,333
Unused credit card lines, all unsecured	26,488	25,512

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The commitments to extend credit may expire without being drawn upon. Therefore, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if it is deemed necessary by the Company, is based on management's credit evaluation of the customer.

Unused credit card lines are commitments for possible future extensions of credit to existing customers. These lines of credit are uncollateralized and usually do not contain a specified maturity date and may not be drawn upon to the total extent to which the Company is committed.

Note 6 — Regulatory Capital Matters

The consolidated Tier 1 Leverage ratio increased from 13.42% at December 31, 2015 to 13.93% as of September 30, 2016. Federal Reserve Board Regulations require maintenance of certain minimum reserve balances based on certain average deposits which as of September 30, 2016 and December 31, 2015 were \$8.6 million and \$8.7 million, respectively. The Company's Board of Directors may declare a cash or stock dividend out of retained earnings provided the regulatory minimum capital ratios are met. The Company plans to maintain capital ratios that meet the well-capitalized standards per the regulatory capital ratios.

Note 7 — Shareholders' Equity

The Board of Directors began declaring quarterly dividends in April 2015. Dividends on quarterly earnings are generally declared and paid subsequent to the end of the quarter.

PEOPLE'S UTAH BANCORP AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 8 — Incentive Share-Based Plan and Other Employee Benefits

In June 2014, the Board of Directors ("Board") and shareholders of the Company approved a share-based incentive plan ("the Plan"). The Plan provides for various share-based incentive awards including incentive share-based options, non-qualified share-based options, restricted shares, and stock appreciation rights to be granted to officers, directors and other key employees. The maximum aggregate number of shares that may be issued under the Plan is 800,000 common shares. The share-based awards are granted to participants under the Plan at a price not less than the fair value on the date of grant and for terms of up to ten years. The Plan also allows for granting of share-based awards to directors and consultants who are not employees of the Company.

During the nine months ended September 30, 2016, the Company granted options for the purchase of 86,831 common shares, which have a weighted average exercise price of \$15.66 per share and a weighted average fair value as of the date of grant of \$2.26 per share. Additionally, the Company granted 3,866 restricted stock units ("RSU") at a weighted-average fair value of \$16.50 per unit. The options and RSU's generally vest over periods from one to three years. The Company recorded share-based compensation expense of \$410,000 and \$363,000 for the nine months ended September 30, 2016 and 2015, respectively.

Note 9 — Fair Value

Fair value measurements — Fair value represents the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. To measure fair value, GAAP has established a hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. This hierarchy uses three levels of inputs to measure the fair value of assets and liabilities as follows:

Level Quoted prices in active markets for identical assets or liabilities.

Level Observable inputs other than Level 1 including quoted prices for similar assets or liabilities, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data.

Level Unobservable inputs supported by little or no market activity for financial instruments whose value is

determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as
instruments for which the determination of fair value requires significant management judgment or estimation.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 9 — Fair Value – Continued

The following is a description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation methodology:

Investment securities, available for sale — Where quoted prices are available in an active market, securities are classified within Level 1 of the hierarchy. Level 1 includes securities that have quoted prices in an active market for identical assets. If quoted market prices are not available, then fair values are estimated using pricing models, quoted prices of securities with similar characteristics or discounted cash flows, and accordingly, are classified as Level 2 or 3. The Company has categorized its available-for-sale investment securities as Level 1 or 2.

Impaired loans and other real estate owned — Fair value applies to loans and other real estate owned measured for impairment. Impaired loans are measured at an observable market price (if available) or at the fair value of the loan's collateral (if collateral dependent). Fair value of the loan's collateral is determined by appraisals or independent valuation which is then adjusted for the cost related to liquidation of the collateral. The Company has categorized its impaired loans and other real estate owned as Level 2.

Assets measured at fair value are summarized as follows:

(in thousands)	Level	Level 2	Level Total
As of September 30, 2016			
Fair valued on a recurring basis:			
Investment securities available for sale	\$4,709	\$321,387	\$ — \$326,096
Fair valued on a non-recurring basis:			
Impaired loans		5,214	_ 5,214
Other real estate owned		407	— 407
As of December 31, 2015			
Fair valued on a recurring basis:			
Investment securities available for sale	\$2,017	\$330,719	\$ — \$332,736
Fair valued on a non-recurring basis:			
Impaired loans		5,580	_ 5,580
Other real estate owned	_	460	— 460

PEOPLE'S UTAH BANCORP AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 9 — Fair Value – Continued

Fair value of financial instruments — The following table summarizes carrying amounts, estimated fair values and assumptions used to estimate fair values of financial instruments:

	Carrying	Estimated
(in thousands)	Value	Fair Value
As of December 31, 2015		
Financial Assets:		
Net loans held for investment	\$1,032,418	\$1,029,540
Financial Liabilities:		
Interest bearing deposits	900,677	901,211

The fair values of financial assets and liabilities as of September 30, 2016 were not presented because the assumptions used to estimate fair values have not changed significantly from those used at December 31, 2015.

The above summary excludes financial assets and liabilities for which carrying value approximates fair value. For financial assets, these include cash and cash equivalents, held-to-maturity securities (see Note 2), loans held for sale, bank-owned life insurance, accrued interest receivable and FHLB stock. For financial liabilities, these include non-interest bearing deposits, short-term borrowings, and accrued interest payable. Also excluded from the summary are financial instruments recorded at fair value on a recurring basis, as previously described.

Fair values of off-balance sheet commitments such as lending commitments, standby letters of credit and guarantees are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standing. The fair value of the fees as of September 30, 2016 and December 31, 2015 were insignificant.

The following methods and assumptions were used to estimate the fair value of financial instruments:

Net loans — The fair value is estimated by discounting the future cash flows and estimated prepayments using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining term. Some loan types were valued at carrying value because of their floating rate or expected maturity characteristics.

Interest bearing deposits — The fair value of interest bearing deposits is estimated by discounting the estimated future cash flows using the rates currently offered for deposits with similar remaining maturities.

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. Fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in the above methodologies and assumptions could significantly affect the estimates. Further, certain financial instruments and all non-financial instruments are excluded from the applicable

disclosure requirements. Therefore, the fair value amounts shown in the table do not, by themselves, represent the underlying value of the Company as a whole.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion is intended to provide a more comprehensive review of People's Utah Bancorp's operating results and financial condition than can be obtained from reading the Unaudited Consolidated Financial Statements alone. The discussion should be read in conjunction with the Unaudited Consolidated Financial Statements and the notes thereto included in "Part I. Item 1. Financial Statements."

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10–O may contain certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements reflect our current views and are not historical facts. These statements can generally be identified by use of phrases such as "believe," "expect," "will," "seek," "should," "anticipate," "estimate," "intend," "plan," "target," "project," "commit" or other words of similar import. Similarly, statements that describe our future financial condition, results of operations, objectives, strategies, plans, goals or future performance and business are also forward-looking statements. These forward-looking statements include but are not limited to, (i) our plans to open new branches in the first half of 2017 and to pursue potential acquisitions, and (ii) statements concerning future growth trends in our residential mortgage business. Statements that project future financial conditions, results of operations and shareholder value are not guarantees of performance and many of the factors that will determine these results and values are beyond our ability to control or predict. For those statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. These are forward-looking statements and involve known and unknown risks, uncertainties and other factors, including, but not limited to, those described in the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections in this report and our Annual Report on Form 10-K for the year ended December 31, 2015 ("Form 10-K"), and other parts of this report that could cause our actual results to differ materially from those anticipated in these forward-looking statements. The following is a non-exclusive list of factors which could cause our actual results to differ materially from our forward-looking statements in this prospectus:

- changes in general economic conditions, either nationally or in our local market;
- inflation, interest rates, securities market volatility and monetary fluctuations;
- increases in competitive pressures among financial institutions and businesses offering similar products and services;
- higher defaults on our loan portfolio than we expect;
 - changes in management's estimate of the adequacy of the allowance for loan losses:
- risks associated with our growth and expansion strategy and related costs;
- increased lending risks associated with our high concentration of real estate loans;
- ability to successfully grow our business in Utah and neighboring states;
- degislative or regulatory changes or changes in accounting principles, policies or guidelines;
- technological changes;
- regulatory or judicial proceedings; and
- other factors and risks including those described under "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this report and our Annual Report on Form 10-K for the year ended December 31, 2015.

Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, expected, projected, intended, committed or believed.

Please take into account that forward-looking statements speak only as of the date of this Form 10-Q. We do not undertake any obligation to release publicly our revisions to such forward-looking statements to reflect events or

circumstances after the date of this Form 10-Q.

Overview

We are a bank holding company, formed in 1998 and headquartered in American Fork, Utah, which is located on the I-15 corridor between the cities of Salt Lake City and Provo. We have three divisions in our wholly-owned subsidiary, People's Intermountain Bank ("PIB" or the "Bank"). We have 18 banking locations operating through two banking divisions, dba, BAF and LSB, which began offering banking services in 1913 and 1905, respectively. Our third division is GrowthFunding Equipment Finance, an equipment leasing operation which originates direct equipment leasing products to businesses nationwide and to our banking customers. In the past we have acquired rental streams of payments from third-party leasing companies. We provide full-service retail banking in many of the leading population centers in the state of Utah, including a wide range of banking and related services to locally-owned businesses, professional firms, real estate developers, residential home builders, high net-worth individuals, investors and other customers. Our primary customers are small and medium-sized businesses that require highly personalized commercial banking products and services.

We believe our growth is a result of our ability to attract and retain high-quality associates, add branches in attractive markets and provide good customer service, as well as due to the expansion of our construction, land acquisition and development and commercial and industrial lending. The primary source of funding for our asset growth has been the generation of core deposits, which we accomplish through a combination of competitive pricing for local deposits coupled with expansion of our branch system. We plan to open two new branches in the first half of 2017. We had anticipated opening one of the branches at the end of this year, but permitting delays have moved the opening to next year.

Our results of operations are largely dependent on net interest income. Net interest income is the difference between interest income we earn on interest earning assets, which are comprised of loans, investment securities and short-term investments and the interest we pay on our interest bearing liabilities, which are primarily deposits, and, to a lesser extent, other borrowings. Deposits are our primary source of funding. Management strives to match the re-pricing characteristics of the interest earning assets and interest bearing liabilities to protect net interest income from changes in market interest rates and changes in the shape of the yield curve.

We measure our performance by calculating our net interest margin, return on average assets, and return on average equity. Net interest margin is calculated by dividing net interest income, which is the difference between interest income on interest earning assets and interest expense on interest bearing liabilities, by average interest earning assets. Net interest income is our largest source of revenue. Interest rate fluctuations, as well as changes in the amount and type of earning assets and liabilities, combine to affect net interest income. We also measure our performance by our efficiency ratio, which is calculated by dividing non-interest expense less merger-related costs, if applicable, by the sum of net interest income and non-interest income.

Key Factors in Evaluating Our Financial Condition and Results of Operations

As a bank holding company, we focus on a number of key factors in evaluating our financial condition and results of operations including:

Return on average equity;

- Return on average assets;
- Asset quality;
- Asset growth;
- Capital and liquidity;
- Net interest margin; and
- Operating efficiency.

The chart below shows these key financial measures:

	Year to Date September	Septembe	er
	30,	30,	.
(Dollars in thousands except per share amounts)	2016	2015	
Net income	\$17,068	\$14,728	
Basic earnings per share	0.96	0.93	
Diluted earnings per share	0.94	0.90	
Total assets	1,653,857	1,553,9	55
Total loans held for investment	1,105,398	993,464	ļ
Total deposits	1,411,839	1,332,8	73
Net interest margin	4.62	% 4.43	%
Efficiency ratio	56.85	⁶ 59.44	%
Return on average assets	1.45	% 1.37	%
Return on average equity	10.42	% 10.98	%
Average equity to average assets	13.91	% 12.48	%
Non-performing assets to total assets	0.32	% 0.64	%
Liquidity ratio (1)	31.19	% 34.35
