(1) 36,945 shares issued to Oconee MHC at approximately \$18.95 per share for the acquisition of Stephens Federal Bank.

(2) Cash dividends declared on July 24, 2014 were paid on August 21, 2014. Cash dividends declared on October 23, 2014 were paid on November 20, 2014.

(3) Approximately \$99 of cash dividends paid on shares in the ESOP was used as additional principal reduction on the ESOP debt, resulting in the release of approximately 8,000 additional shares. The portion of the dividend paid on allocated shares of approximately \$25 was treated as a dividend. The remaining portion of the dividend payment and resulting release of approximately 8,000 shares was accounted for as additional compensation expense of

approximately \$74 for the six months ended December 31, 2014.

(4) 1,800 shares of treasury stock were purchased December 16, 2015 at \$18.34 per share. Treasury stock repurchases were accounted for using the par value method.

Approximately \$99 of cash dividends paid on shares in the ESOP was used as additional principal reduction on the ESOP debt, resulting in the release of approximately 8,500 additional shares. The portion of the dividend paid on (5) allocated shares of approximately \$18 was treated as a dividend. The remaining portion of the dividend payment and resulting release of approximately 8,500 shares was accounted for as additional compensation expense of approximately \$66 for the six months ended December 31, 2014.

(6) Cash dividends declared on July 30, 2015 were paid on August 27, 2015. Cash dividends declared on October 29, 2015 were paid on November 27, 2015.

OCONEE FEDERAL FINANCIAL CORP.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Amounts in thousands, except share and per share data)

(1) BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Oconee Federal Financial Corp., which include the accounts of its wholly owned subsidiary Oconee Federal Savings and Loan Association (the "Association") (referred to herein as "the Company," "we," "us," or "our") have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. Intercompany accounts and transactions are eliminated during consolidation. The Company is majority owned (70.82%) by Oconee Federal, MHC. These financial statements do not include the transactions and balances of Oconee Federal, MHC.

On December 1, 2014, the Company acquired Stephens Federal Bank. The consolidated financial statements at December 31, 2015 and June 30, 2015 and for the three and six months ended December 31, 2015 and 2014 are reflective of the addition of Stephens Federal Bank's assets and liabilities.

In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments (consisting only of normal recurring accruals) necessary to present fairly the Company's financial position as of December 31, 2015 and June 30, 2015 and the results of operations and cash flows for the interim periods ended December 31, 2015 and 2014. All interim amounts have not been audited, and the results of operations for the interim periods herein are not necessarily indicative of the results of operations to be expected for the year. These consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended June 30, 2015.

Certain amounts have been reclassified to conform to the current period presentation. The reclassifications had no effect on net income or shareholders' equity as previously reported.

(2) NEW ACCOUNTING STANDARDS

On January 5, 2016, the FASB issued ASU 2016-01, *Recognition and Measurement of Financial Assets and Financial Liabilities*, to address certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The ASU affects public and private companies, not-for-profit organizations, and employee benefit plans that hold financial assets or owe financial liabilities. This ASU is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company does not believe that this new guidance will have a material effect to the consolidated financial statements.

OCONEE FEDERAL FINANCIAL CORP.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Amounts in thousands, except share and per share data)

(3) EARNINGS PER SHARE (“EPS”)

Basic EPS is determined by dividing net earnings available to common shareholders by the weighted average number of common shares outstanding for the period. ESOP shares are considered outstanding for this calculation unless unearned. The factors used in the earnings per common share computation follow:

	Three Months Ended		Six Months Ended	
	December 31, 2015	December 31, 2014	December 31, 2015	December 31, 2014
Earnings per share				
Net income	\$949	\$ 1,047	\$2,391	\$ 2,134
Less: distributed earnings allocated to participating securities	(6)	(7)	(13)	(13)
Less: (undistributed income) dividends in excess of earnings allocated to participating securities	(4)	(5)	(12)	(11)
Net earnings available to common shareholders	\$939	\$ 1,035	\$2,366	\$ 2,110
Weighted average common shares outstanding including participating securities	5,881,847	5,846,442	5,881,993	5,840,419
Less: participating securities	(62,502)	(65,899)	(62,502)	(65,899)
Less: average unearned ESOP shares	(141,676)	(170,170)	(144,160)	(172,535)
Weighted average common shares outstanding	5,677,669	5,610,373	5,675,331	5,601,985
Basic earnings per share	\$0.17	\$ 0.18	\$0.42	\$ 0.38
Weighted average common shares outstanding	5,677,669	5,610,373	5,675,331	5,601,985
Add: dilutive effects of assumed exercises of stock options	71,507	68,961	71,221	57,822
Average shares and dilutive potential common shares	5,749,176	5,679,334	5,746,552	5,659,807
Diluted earnings per share	\$0.16	\$ 0.18	\$0.41	\$ 0.37

Edgar Filing: Oconee Federal Financial Corp. - Form 10-Q

During the three and six months ended December 31, 2015 and 2014, 15,400 and 7,700 shares, respectively, were considered anti-dilutive as the exercise price was below the average market price for the respective periods.

(1) Actual amounts.

The Company evaluates securities for other-than-temporary impairments (“OTTI”) at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. The Company considers the length of time and the extent to which the fair value has been less than cost and the financial condition and near-term prospects of the issuer. Additionally, the Company considers its intent to sell or whether it will be more likely than not it will be required to sell the security prior to the security's anticipated recovery in fair value. In analyzing an issuer's financial condition, the Company may consider whether the securities are issued by federal Government agencies, whether downgrades by bond rating agencies have occurred, and the results of reviews of the issuer's financial condition.

None of the unrealized losses at December 31, 2015 were recognized into net income for the three or six months ended December 31, 2015 because the issuers’ bonds are of high credit quality, management does not intend to sell and it is likely that management will not be required to sell the securities prior to their anticipated recovery, and the decline in fair value is largely due to changes in interest rates. The fair value of these securities is expected to recover as they approach their maturity date or reset date. None of the unrealized losses at June 30, 2015 were recognized as having OTTI during the three or six months ended December 31, 2015.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Amounts in thousands, except share and per share data)

The following table presents the amortized cost and fair value of debt securities classified as available-for-sale at December 31, 2015 and June 30, 2015 by contractual maturity. FHLMC common stock is not presented in this table.

	December 31, 2015		June 30, 2015	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Less than one year	\$996	\$998	\$1,244	\$1,249
Due from one to five years	18,015	17,990	22,156	22,042
Due from six to ten years	25,429	25,646	11,450	11,412
Due after ten years	7,918	7,979	9,912	9,876
Mortgage-backed securities ⁽¹⁾	71,636	71,423	66,426	66,408
Total	\$123,994	\$124,036	\$111,188	\$110,987

(1) Actual cash flows may differ from contractual maturities as borrowers may prepay obligations without prepayment penalty.

The following table presents the gross proceeds from sales of securities available-for-sale and gains or losses recognized for the three and six months ended December 31, 2015 and 2014:

	Three Months Ended		Six Months Ended	
	December 31, 2015	December 31, 2014	December 31, 2015	December 31, 2014
Proceeds	\$ -	\$ 4,508	\$ 1,164	\$ 6,421
Gross gains	-	24	9	29
Gross losses	-	-	-	-

The tax provision related to these net realized gains for the three and six months ended December 31, 2015 was \$0 and \$3, respectively, and for the three and six months ended December 31, 2014 was \$9 and \$11, respectively.

(5) LOANS

The components of loans at December 31, 2015 and June 30, 2015 were as follows:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Amounts in thousands, except share and per share data)

Income is not recognized on PCI loans if the Company cannot reasonably estimate cash flows expected to be collected. The carrying amount of such loans at December 31, 2015 is as follows:

	December 31, 2015	June 30, 2015
Balance at beginning of year	\$ 2,798	\$ 3,853
Additions	132	1,407
Reductions from payments and liquidations	(963)	(2,462)
Balance at end of period	\$ 1,967	\$ 2,798

No income was recognized for the three or six months ended December 31, 2015 and 2014 on the cost recovery basis for these loans.

The following tables present the aging of past due loans as well as nonaccrual loans. Nonaccrual loans and accruing loans past due 90 days or more include both smaller balance homogenous loans and larger balance loans that are evaluated both collectively and individually for impairment. Separate tables are presented to show the aging of total past due loans and the aging of past due PCI loans only.

Total past due loans and nonaccrual loans at December 31, 2015:

Total loans	\$ 251	\$ 313	\$ 2,040	\$ 2,604	\$ 4,841	\$ 7,445	\$ 2,798	\$ -

PCI loans for which the Company cannot reasonably estimate the amount and timing of future cash flows are classified as nonaccrual.

Troubled Debt Restructurings:

At December 31, 2015 and June 30, 2015, total loans that have been modified as troubled debt restructurings were \$469 and \$487, respectively, which consisted of one agricultural loan and one home equity line of credit. These loans were PCI loans recorded initially at fair value. No additional allowance has been specifically reserved for these loans. Additionally, there were no commitments to lend any additional amounts under either loan or any payment default on any loan after the modification. There were no troubled debt restructurings during the three or six months ended December 31, 2015.

Loan Grades:

The Company utilizes a grading system whereby all loans are assigned a grade based on the risk profile of each loan. Loan grades are determined based on an evaluation of relevant information about the ability of borrowers to service their debt such as current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. All loans, regardless of size, are analyzed and are given a grade based upon the management's assessment of the ability of borrowers to service their debts.

Pass: Loan assets of this grade conform to a preponderance of our underwriting criteria and are acceptable as a credit risk, based upon the current net worth and paying capacity of the obligor. Loans in this category also include loans secured by liquid assets and secured loans to borrowers with unblemished credit histories.

Pass-Watch: Loan assets of this grade represent our minimum level of acceptable credit risk. This grade may also represent obligations previously rated "Pass", but with significantly deteriorating trends or previously rated.

Special Mention: Loan assets of this grade have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of repayment prospects for the loan or of the institution's credit position at some future date.

Substandard: Loan assets of this grade are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful: Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Amounts in thousands, except share and per share data)

Portfolio Segments:

One-to-four family: One-to-four family residential loans consist primarily of loans secured by first or second deeds of trust on primary residences, and are originated as adjustable-rate or fixed-rate loans for the construction, purchase or refinancing of a mortgage. These loans are collateralized by owner-occupied properties located in the Company's market area. The Company currently originates residential mortgage loans for our portfolio with loan-to-value ratios of up to 80% for traditional owner-occupied homes.

For traditional homes, the Company may originate loans with loan-to-value ratios in excess of 80% if the borrower obtains mortgage insurance or provides readily marketable collateral. The Company may make exceptions for special loan programs that we offer. For example, the Company currently offers mortgages of up to \$95 with loan-to-value ratios of up to 95% to low- to moderate-income borrowers solely for the purchase of their primary residence. The Company also originates residential mortgage loans for non-owner-occupied homes with loan-to-value ratios of up to 80%.

The Company has historically originated residential mortgage loans with loan-to-value ratios of up to 75% for manufactured or modular homes. The Company no longer offers residential mortgage loans for manufactured or modular homes as of December 1, 2014. However, renewals of existing performing credits that meet the Company's underwriting requirements will be considered. The Company requires lower loan-to-value ratios for manufactured and modular homes because such homes tend to depreciate over time. Manufactured or modular homes must be permanently affixed to a lot to make them more difficult to move without the Company's permission. Such homes must be "de-titled" by the State of South Carolina or Georgia so that they are taxed and must be transferred as residential homes rather than vehicles. The Company also obtains a mortgage on the real estate to which such homes are affixed.

Multi-family: Multi-family real estate loans generally have a maximum term of five years with a 30 year amortization period and a final balloon payment and are secured by properties containing five or more units in the Company's market area. These loans are generally made in amounts of up to 75% of the lesser of the appraised value or the purchase price of the property with an appropriate projected debt service coverage ratio. The Company's underwriting

analysis includes considering the borrower's expertise and requires verification of the borrower's credit history, income and financial statements, banking relationships, independent appraisals, references and income projections for the property. The Company generally obtains personal guarantees on these loans.

Multi-family real estate loans generally present a higher level of risk than loans secured by one-to-four family residences. This greater risk is due to several factors, including the concentration of principal in a limited number of loans and borrowers, the effects of general economic conditions on income-producing properties and the increased difficulty of evaluating and monitoring these types of loans. Furthermore, the repayment of loans secured by multi-family residential real estate is typically dependent upon the successful operation of the related real estate project.

Home Equity: The Company offers home equity loans and lines of credit secured by first or second deeds of trust on primary residences in our market area. The Company's home equity loans and lines of credit are limited to an 80% loan-to-value ratio (including all prior liens). Standard residential mortgage underwriting requirements are used to evaluate these loans. The Company offers adjustable-rate and fixed-rate options for these loans with a maximum term of 10 years. The repayment terms on lines of credit are interest only monthly with principle due at maturity. Home equity loans have a more traditional repayment structure with principal and interest due monthly. The maximum term on home equity loans is 10 years with an amortization schedule not exceed 20 years.

Nonresidential Real Estate: Nonresidential loans include those secured by real estate mortgages on churches, owner-occupied and non-owner-occupied commercial buildings of various types, retail and office buildings, hotels, and other business and industrial properties. The nonresidential real estate loans that the Company originates generally have terms of five to 20 years with amortization periods up to 20 years. The maximum loan-to-value ratio of our nonresidential real estate loans is generally 75%.

Table of Contents

OCONEE FEDERAL FINANCIAL CORP.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Amounts in thousands, except share and per share data)

Loans secured by nonresidential real estate generally are larger than one-to-four family residential loans and involve greater credit risk. Nonresidential real estate loans often involve large loan balances to single borrowers or groups of related borrowers. Repayment of these loans depends to a large degree on the results of operations and management of the properties securing the loans or the businesses conducted on such property, and may be affected to a greater extent by adverse conditions in the real estate market or the economy in general, including the current adverse conditions. In addition, because a church's financial stability often depends on donations from congregation members rather than income from business operations, repayment may be affected by economic conditions that affect individuals located both in our market area and in other market areas with which we are not as familiar. In addition, due to the unique nature of church buildings and properties, the real estate securing church loans may be less marketable than other nonresidential real estate.

The Company considers a number of factors in originating nonresidential real estate loans. The Company evaluates the qualifications and financial condition of the borrower, including credit history, cash flows, the applicable business plan, the financial resources of the borrower, the borrower's experience in owning or managing similar property and the borrower's payment history with the Company and other financial institutions. In evaluating the property securing the loan, the factors the Company considers include the net operating income of the mortgaged property before debt service and depreciation, the ratio of the loan amount to the appraised value of the mortgaged property and the debt service coverage ratio (the ratio of net operating income to debt service). For church loans, the Company also considers the length of time the church has been in existence, the size and financial strength of the denomination with which it is affiliated, attendance figures and growth projections and current operating budgets. The collateral underlying all nonresidential real estate loans is appraised by outside independent appraisers approved by our board of directors. Personal guarantees may be obtained from the principals of nonresidential real estate borrowers, and in the case of church loans, guarantees from the applicable denomination may be obtained.

Agricultural: These loans are secured by farmland and related improvements in the Company's market area. These loans generally have terms of five to 20 years with amortization periods up to 20 years. The maximum loan-to-value ratio of these loans is generally 75%. The Company is managing a small number of these loans in our portfolio. We continue to closely monitor our existing relationships.

Loans secured by agricultural real estate generally are larger than one-to-four family residential loans and involve greater credit risk. Agricultural real estate loans often involve large loan balances to single borrowers or groups of

related borrowers. Repayment of these loans depends to a large degree on the results of operations and management of the properties securing the loans or the businesses conducted on such property, and may be affected to a greater extent by adverse conditions in the real estate market or the economy in general, including the current adverse conditions.

Construction and Land: The Company makes construction loans to individuals for the construction of their primary residences and to commercial businesses for their real estate needs. These loans generally have maximum terms of twelve months, and upon completion of construction convert to conventional amortizing mortgage loans. Residential construction loans have rates and terms comparable to one-to-four family residential mortgage loans that the Company originates. Commercial construction loans have rate and terms comparable to commercial loans that we originate. During the construction phase, the borrower generally pays interest only. Generally, the loan-to-value ratio of our owner-occupied construction loans is 80%. Residential construction loans are generally underwritten pursuant to the same guidelines used for originating permanent residential mortgage loans. Commercial construction loans are generally underwritten pursuant to the same guidelines used for originating commercial loans.

The Company also makes interim construction loans for nonresidential properties. In addition, the Company occasionally makes loans for the construction of homes "on speculation," but the Company generally permits a borrower to have only two such loans at a time. These loans generally have a maximum term of eight months, and upon completion of construction convert to conventional amortizing nonresidential real estate loans. These construction loans have rates and terms comparable to permanent loans secured by property of the type being constructed that we originate. Generally, the loan-to-value ratio of these construction loans is 85%.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Amounts in thousands, except share and per share data)

Commercial and Industrial Loans: As a result of the Stephens Federal Bank acquisition, the Company acquired commercial and industrial loans. These loans are offered to businesses and professionals in the Company's market area. These loans generally have short and medium terms on both a collateralized and uncollateralized basis. The structure of these loans are largely determined by the loan purpose and collateral. Sources of collateral can include a lien on furniture, fixtures, equipment, inventory, receivables and other assets of the company. A UCC-1 is typically filed to perfect our lien on these assets.

Commercial and industrial loans and leases typically are underwritten on the basis of the borrower's or lessee's ability to make repayment from the cash flow of its business and generally are collateralized by business assets. As a result, such loans and leases involve additional complexities, variables and risks and require more thorough underwriting and servicing than other types of loans and leases.

Consumer and Other Loans: The Company offers installment loans for various consumer purposes, including the purchase of automobiles, boats, and for other legitimate personal purposes. The maximum terms of consumer loans is 18 months for unsecured loans and 18 to 60 months for loans secured by a vehicle, depending on the age of the vehicle. The Company generally only extends consumer loans to existing customers or their immediate family members, and these loans generally have relatively low balances.

Consumer loans may entail greater credit risk than residential mortgage loans, particularly in the case of consumer loans that are unsecured or are secured by rapidly depreciable assets, such as automobiles. In addition, consumer loan collections are dependent on the borrower's continuing financial stability, and thus are more likely to be affected by adverse personal circumstances. Furthermore, the application of various federal and state laws, including bankruptcy and insolvency laws, may limit the amount which can be recovered on such loans.

Based on the most recent analysis performed, the risk grade of loans by portfolio segment are presented in the following tables. Separate tables are presented to show the risk grade of loans that have been acquired.

Edgar Filing: Oconee Federal Financial Corp. - Form 10-Q

Total loans by risk grade and portfolio segment at December 31, 2015:

December 31, 2015	Pass	Pass-Watch	Special Mention	Substandard	Doubtful	Total

At December 31, 2015, consumer mortgage loans secured by residential real estate properties totaling \$303 were in formal foreclosure proceedings.

(6) FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Investment Securities:

The fair values for investment securities are determined by quoted market prices, if available (Level 1). For securities where quoted prices are not available, fair values are calculated based on market prices of similar securities (Level 2). For securities where quoted prices or market prices of similar securities are not available, fair values are calculated using discounted cash flows or other market indicators (Level 3). The Company's preferred stock investments are not actively traded; therefore, management estimates the fair value of its preferred stock using estimations provided by external dealer quotes.

Impaired Loans:

The fair value of impaired loans with specific allocations of the allowance for loan losses is generally based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are typically significant and result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business, resulting in a Level 3 fair value classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

Table of Contents

OCONEE FEDERAL FINANCIAL CORP.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Amounts in thousands, except share and per share data)

Real estate owned:

Assets acquired through or instead of loan foreclosure are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair value is commonly based on recent real estate appraisals, which are updated no less frequently than annually. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Real estate owned properties are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

Appraisals for both collateral-dependent impaired loans and real estate owned are performed by certified general appraisers (for commercial properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed and verified by the Company. Once received, management reviews the assumptions and approaches utilized in the appraisal as well as the overall resulting fair value in comparison with independent data sources such as recent market data or industry-wide statistics. On an annual basis, the Company compares the actual selling price of collateral that has been sold to the most recent appraised value to determine what additional adjustment should be made to the appraisal value to arrive at fair value.

Loan Servicing Rights:

Fair value is determined based on a valuation model that calculates the present value of estimated future net servicing income. The valuation model utilizes assumptions that market participants would use in estimating future net servicing income and that can be validated against available market data and results in a Level 3 classification.

Edgar Filing: Oconee Federal Financial Corp. - Form 10-Q

Assets and liabilities measured at fair value on a recurring basis at December 31, 2015 and June 30, 2015 are summarized below:

	Fair Value Measurements			
	(Level 2)	(Level 3)	(Level 2)	(Level 3)
	December 31, 2015	June 30, 2015	June 30, 2015	June 30, 2015
Financial assets:				
Securities available-for-sale	\$124,036	\$ 132	\$110,987	\$ 180
Loan servicing rights	-	1,310	-	1,396
Total financial assets	\$124,036	\$ 1,442	\$110,987	\$ 1,576

Table of Contents

OCONEE FEDERAL FINANCIAL CORP.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Amounts in thousands, except share and per share data)

Presented in the table below are assets measured at fair value on a nonrecurring basis using level 3 inputs at December 31, 2015 and June 30, 2015:

	Fair Value Measurements	
	(Level 3)	(Level 3)
	December	June 30,
	31,	2015
	2015	
Impaired loans, with specific allocations:		
One-to-four family	\$ 1,414	\$ 1,839
Nonresidential	857	1,309
Construction and land	197	-
Consumer and other loans	1	-
Total financial assets	2,469	3,148
Non-financial assets:		
Real estate owned, net:		
One-to-four family	1,295	1,335
Nonresidential	454	365
Construction and land	169	392
Total non-financial assets	1,918	2,092
Total assets measured at fair value on a non-recurring basis	\$ 4,387	\$ 5,240

The Company's impaired loans at December 31, 2015 and June 30, 2015 were measured at fair value based primarily upon the estimated value of real estate collateral less costs to sell. The carrying amounts of these loans were \$2,469 and \$3,148, respectively, which consisted of valuation allowances of \$402 and \$220, respectively. Not shown in the table above, there were recorded investments at June 30, 2015 of consumer and other loans with a recorded investment amount of \$7 with a valuation allowance of \$7. The impact to the provision for loan losses from the change in the valuation allowance for the three and six months ended December 31, 2015 was an increase of \$262 and \$292 and for the three and six months ended December 31, 2014 was an increase of \$16 and \$9.

Real estate owned is carried at the lower of carrying value or fair value less costs to sell. The carrying value of real estate owned and their respective valuation allowances at December 31, 2015 and June 30, 2015 were \$1,918 and

\$2,092 and \$77 and \$84, respectively. The resulting write-downs for measuring real estate owned at the lower of carrying or fair value less costs to sell for the three and six months ended were \$15 and \$110, respectively. There were no write-downs for real estate owned for the three and six months ended December 31, 2014.

Financial liabilities					
Deposits	\$ 394,093	\$ 137,618	\$ 256,681	\$-	\$ 394,299

- (1) It is not practicable to determine fair value of restricted equity securities due to restrictions placed on transferability.
Loans held for sale are carried at the lower of cost or fair value, which is evaluated on a pool-level basis. The fair value of loans held for sale is determined using quoted prices for similar assets, adjusted for specific attributes of that loan or other observable market data, such as outstanding commitments from third party investors and result in a Level 2 classification.
- (2)

(7)EMPLOYEE STOCK OWNERSHIP PLAN

Employees participate in an Employee Stock Ownership Plan (“ESOP”). The ESOP borrowed from the Company to purchase 248,842 shares of the Company’s common stock at \$10 per share during 2011. The Company makes discretionary contributions to the ESOP and pays dividends on unallocated shares to the ESOP, and the ESOP uses funds it receives to repay the loan. When loan payments are made, ESOP shares are allocated to participants based on relative compensation and expense is recorded. Dividends on allocated shares increase participant accounts. Participants receive the shares at the end of employment.

No contributions to the ESOP were made during the three or six months ended December 31, 2015. The expense recognized for the three months ended December 31, 2015 and 2014 was \$251 and \$218, respectively. The expense recognized for the six months ended December 31, 2015 and 2014 was \$340 and \$294, respectively. An additional \$100 discretionary contribution was paid to the ESOP for additional debt retirement during the three months ended December 31, 2015, which resulted in the release of additional shares and recognition of additional compensation expense of \$160 for both the three and six months ended December 31, 2015.

Fair value of unearned shares	\$ 2,511	\$2,827

(8) STOCK BASED COMPENSATION

On April 5, 2012, the shareholders of Oconee Federal Financial Corp. approved the Oconee Federal Financial Corp. 2012 Equity Incentive Plan (the "Plan") for employees and directors of the Company. The Plan authorizes the issuance of up to 435,472 shares of the Company's common stock, with no more than 124,420 of shares as restricted stock awards and 311,052 as stock options, either incentive stock options or non-qualified stock options. The exercise price of options granted under the Plan may not be less than the fair market value on the date the stock option is granted. The compensation committee of the board of directors has sole discretion to determine the amount and to whom equity incentive awards are granted.

The following table summarizes stock option activity for the six months ended December 31, 2015:

	Options	Weighted- Average Exercise Price/Share	Weighted- Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value ⁽¹⁾
Outstanding - July 1, 2015	248,686	\$ 12.02

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Amounts in thousands, except share and per share data)

The fair value for each option grant is estimated on the date of grant using the Black-Scholes-Merton option pricing model that uses the following assumptions. The Company uses the U.S. Treasury yield curve in effect at the time of the grant to determine the risk-free interest rate. The expected dividend yield is estimated using the projected annual dividend level and recent stock price of the Company's common stock at the date of grant. Expected stock volatility is based on historical volatilities of the SNL Financial Index of Thrifts. The expected life of the options is calculated based on the "simplified" method as provided for under generally accepted accounting principles.

The weighted-average fair value of options granted and assumptions used in the Black-Scholes-Merton option pricing model in the fiscal years granted are listed below:

	Fiscal Years Granted		
	2015	2014	2012
Risk-free interest rate	1.68%	2.32%	1.54%
Expected dividend yield	2.00%	2.33%	3.45%
Expected stock volatility	15.9	15.5	15.3
Expected life (years)	8	8	8
Fair value	\$2.86	\$2.46	\$1.00

Stock options are assumed to be earned ratably over their respective vesting periods and charged to compensation expense based upon their grant date fair value and the number of options assumed to be earned. There were 21,835 and 21,835 options that were earned during the six months ended December 31, 2015 and 2014, respectively. Stock-based compensation expense for stock options for the three and six months ended December 31, 2015 was \$12 and \$24, respectively, and for the three and six months ended December 31, 2014 was \$11 and \$22, respectively. Total unrecognized compensation cost related to stock options was \$107 at December 31, 2015 and is expected to be recognized over a weighted-average period of 2.1 years.

The following table summarizes non-vested restricted stock activity for the six months ended December 31, 2015:

Edgar Filing: Oconee Federal Financial Corp. - Form 10-Q

	December 31, 2015
Balance - beginning of year	62,502
Granted	-
Forfeited	-
Vested	(1,800)
Balance - end of period	60,702
Weighted average grant date fair value	\$ 13.15

The fair value of the restricted stock awards is amortized to compensation expense over their respective vesting periods and is based on the market price of the Company's common stock at the date of grant multiplied by the number of shares granted that are expected to vest. The weighted-average grant date fair value of restricted stock granted on April 27, 2012 was \$11.58 per share or \$1,009 in total. The weighted-average grant date fair value of restricted stock granted on November 13, 2013 was \$17.16 per share or \$216 in total. The weighted-average grant date fair value of restricted stock granted on January 23, 2015 was \$20.01 per share or \$252 in total. Stock-based compensation expense for restricted stock included in noninterest expense for the three and six months ended December 31, 2015 was \$64 and \$127 and for the three and six months ended December 31, 2014 was \$54 and \$109, respectively. Unrecognized compensation expense for nonvested restricted stock awards was \$682 at December 31, 2015 and is expected to be recognized over a weighted-average period of 2.6 years.

(Amounts in thousands, except share and per share data)

(9) LOAN SERVICING RIGHTS

Mortgage loans serviced for others are not reported as assets; however, the underlying mortgage servicing rights associated with servicing these mortgage loans serviced for others is recorded as an asset in the consolidated balance sheet.

The principal balances of those loans at December 31, 2015 and June 30, 2015 are as follows:

	December 31, 2015	June 30, 2015
Mortgage loan portfolio serviced for:		
FHLMC	\$ 133,134	\$ 141,195

Custodial escrow balances maintained in connection with serviced loans were \$426 and \$986 at December 31, 2015 and June 30, 2015.

Activity for loan servicing rights for the three and six months ended December 31, 2015 and 2014 is as follows:

	Three Months Ended		Six Months	
	December 31, 2015	December 31, 2014	December 31, 2015	December 31, 2014
Loan servicing rights:				
Beginning of period:	\$ 1,332	\$ -	\$ 1,396	\$ -
Additions	-	1,369	-	1,369
Change in fair value	(22)	(28)	(86)	(28)
End of period:	\$ 1,310	\$ 1,341	\$ 1,310	\$ 1,341

Fair value at December 31, 2015 was determined using a discount rate of 9.75%, prepayment speed assumptions ranging from 5.2% to 17.5% Conditional Prepayment Rate (“CPR”) depending on the loans coupon, term and seasoning, and a weighted average default rate of 0.61%. Fair value at December 31, 2014 was determined using a discount rate of 9.50%, prepayment speed assumptions ranging from 6.9% to 19.8% CPR depending on the loans’ coupon, term and seasoning, and a weighted average default rate of 0.61%.

(10) SUPPLEMENTAL CASH FLOW INFORMATION

Supplemental cash flow information for the six months ended December 31, 2015 and 2014 is as follows:

	December 31, 2015	December 31, 2014
Cash paid during the period for:		
Interest paid	\$ 591	\$ 316
Income taxes paid	\$ 117	\$ 1,240
Supplemental noncash disclosures:		
Transfers from loans to real estate owned	\$ 1,443	\$ 59
Acquisition:		
Assets acquired (excluding goodwill) \$2,593	\$ -	\$ 137,291
Liabilities assumed	\$ -	\$ 140,249
Acquisition price (common stock issued to OFED, MHC)	\$ -	\$ 700
Goodwill recorded	\$ -	\$ 3,658

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

This Quarterly Report contains forward-looking statements, which can be identified by the use of such words as estimate, project, believe, intend, anticipate, plan, seek, expect and similar expressions. These forward-looking statements include:

- statements of our goals, intentions and expectations;
- statements regarding our business plans and prospects and growth and operating strategies;
- statements regarding the asset quality of our loan and investment portfolios; and
- estimates of our risks and future costs and benefits.

These forward-looking statements are based on our current beliefs and expectations and are inherently subject to significant business, economic, and competitive uncertainties and contingencies, many of which are beyond our control. In addition, these forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. We are under no duty to and do not take any obligation to update any forward-looking statements after the date of this Quarterly Report.

The following factors, among others, could cause actual results to differ materially from the anticipated results or other expectations expressed in the forward-looking statements:

- our ability to manage our operations under the current adverse economic conditions (including real estate values, loan demand, inflation, commodity prices and employment levels) nationally and in our market areas;
- adverse changes in the financial industry, securities, credit and national and local real estate markets (including real estate values);
- significant increases in our delinquencies and loan losses, including as a result of our inability to resolve classified assets, changes in the underlying cash flows of our borrowers, and management's assumptions in determining the adequacy of the allowance for loan losses;

credit risks of lending activities, including changes in the level and trend of loan delinquencies and write-offs and in our allowance and provision for loan losses;

use of estimates for determining the fair value of certain of our assets, which may prove to be incorrect and result in significant declines in valuations;

· increased competition among depository and other financial institutions;

our ability to attract and maintain deposits, including attracting and maintaining deposits from former depositors of Stephens Federal Bank and introducing new deposit products;

changes in interest rates generally, including changes in the relative differences between short term and long term interest rates and in deposit interest rates, that may affect our net interest margin and funding sources;

fluctuations in the demand for loans, which may be affected by the number of unsold homes, land and other properties in our market areas and by declines in the value of real estate in our market area;

· declines in the yield on our assets resulting from the current low interest rate environment;

our ability to successfully implement our business strategies, including attracting and maintaining deposits and introducing new financial products;

· risks related to high concentration of loans secured by real estate located in our market areas;

· changes in the level of government support of housing finance;

Table of Contents

the results of examinations by our regulators, including the possibility that our regulators may, among other things, require us to increase our reserve for loan losses, write down assets, change our regulatory capital position, limit our ability to borrow funds or maintain or increase deposits, or prohibit us from paying dividends, which could adversely affect our dividends and earnings;

our ability to enter new markets successfully and capitalize on growth opportunities;

the integration of our business with that of Stephens Federal Bank may not be successful, or such integration may take longer to accomplish than expected;

the growth opportunities and cost savings from the acquisition of Stephens Federal Bank may not be fully realized or may take longer to realize than expected;

our ability to manage increased expenses following the acquisition of Stephens Federal Bank, including salary and employee benefit expenses, occupation expenses, additional provisions related to loans acquired from Stephens Federal Bank and expenses related to foreclosed real estate acquired from Stephens Federal Bank;

operating costs, customer losses and business disruption following the acquisition of Stephens Federal Bank, including adverse effects of relationships with employees, may be greater than expected;

changes in laws or government regulations or policies affecting financial institutions, including the Dodd-Frank Act and the JOBS Act, which could result in, among other things, increased deposit insurance premiums and assessments, capital requirements (particularly the new capital regulations), regulatory fees and compliance costs and the resources we have available to address such changes;

our reliance on a small executive staff;

changes in our compensation and benefit plans, and our ability to retain key members of our senior management team and to address staffing needs to implement our strategic plan;

changes in consumer spending, borrowing and savings habits;

changes in accounting policies and practices, as may be adopted by the bank regulatory agencies, the Financial Accounting Standards Board, the Securities and Exchange Commission and the Public Company Accounting Oversight Board;

- our ability to control costs and expenses, particularly those related to operating as a publicly traded company;
- other changes in our financial condition or results of operations that reduce capital available to pay dividends;

other changes in the financial condition or future prospects of issuers of securities that we own, including our stock in the FHLB of Atlanta; and

other economic, competitive, governmental, regulatory and operational factors affecting our operations, pricing, products and services.

Because of these and a wide variety of other uncertainties, our actual future results may be materially different from the results indicated by these forward-looking statements.

Critical Accounting Policies

There are no material changes to the critical accounting policies disclosed in the Annual Report on Form 10-K for Oconee Federal Financial Corp. for the year ended June 30, 2015, as filed with the Securities and Exchange Commission.

Table of Contents

Comparison of Financial Condition at December 31, 2015 and June 30, 2015

Our total assets increased by \$5.5 million, or 1.2%, to \$480.8 million at December 31, 2015 from \$475.3 million at June 30, 2015. The increase largely reflects the increase in our total deposits of \$3.1 million, or 0.79%, to \$397.2 million at December 31, 2015 from \$394.1 million at June 30, 2015 and net income less dividends paid for the six months ended December 31, 2015. Total cash and cash equivalents decreased \$2.0 million, or 7.6%, to \$24.2 million at December 31, 2015 from \$26.2 million at June 30, 2015. The decrease in cash and cash equivalents is reflective of net cash used in investing activities of \$13.2 million, net cash provided by a decrease in loans of \$11.3 million, the purchase of \$8.0 million in bank owned life insurance, and the increase in total deposits of \$3.1 million during the six months ended December 31, 2015. Bank owned life insurance increased \$8.3 million, or 92.2%, to \$17.3 million at December 31, 2015 from \$9.0 million at June 30, 2015. Securities available-for-sale increased to \$124.2 million at December 31, 2015 from \$111.2 million at June 30, 2015 due to new securities purchases and an increase in the unrealized gains on securities at December 31, 2015. New available-for-sale security purchases were funded by decreases in gross loans and increases in total deposits.

Total gross loans decreased by \$12.1 million, or 3.9%, to \$297.2 million at December 31, 2015 from \$309.3 million at June 30, 2015. A portion of this decrease, \$1.8 million, was from the liquidation and foreclosure of PCI loans during the six months ended December 31, 2015 that we acquired from the Stephens Federal Bank acquisition. An additional \$786 thousand in originated loans were foreclosed on during the six months ended December 31, 2015. The remaining \$9.5 million decrease in loans is reflective of the seasonally slower loan demand in our market area as well normal loan payment amortization.

Deposits increased \$3.1 million, or 0.79%, to \$397.2 million at December 31, 2015 from \$394.1 million at June 30, 2015. The increase in our deposits reflected an increase in money market and NOW and demand deposits of \$30.3 million, offset by a decrease of \$23.9 million in certificates of deposit. The increase in money market deposits is reflective of an increase in rate on certain money market accounts during the six months ended December 31, 2015. We believe the decline in our certificates of deposit is reflective of depositors moving their deposits into higher yielding investments in the market.

Oconee Federal, MHC's cash is held on deposit with the Company. We generally do not accept brokered deposits and no brokered deposits were accepted during the six months ended December 31, 2015.

We had no advances from the Federal Home Loan Bank of Atlanta as of December 31, 2015 or June 30, 2015. We have credit available under a loan agreement with the Federal Home Loan Bank of Atlanta in the amount of 11% of our total assets (as of December 31, 2015), or approximately \$52.9 million.

Total shareholders' equity increased \$1.9 million, or 2.4%, to \$82.7 million at December 31, 2015 compared to \$80.8 million at June 30, 2015. The increase in total shareholders' equity is primarily reflective of net income of \$2.4 million, net of dividends paid of \$1.1 million, and increases from other comprehensive income, stock based compensation expense and ESOP expense of \$124 thousand, \$151 thousand, and \$340 thousand, respectively, for the six months ended December 31, 2015.

Table of Contents**Nonperforming Assets**

The table below sets forth the amounts and categories of our nonperforming assets at the dates indicated.

	December 31, 2015	June 30, 2015		
	(Dollars in thousands)			
Nonaccrual loans:				
Real estate loans:				
One-to-four family	\$ 1,675	\$ 2,311		
Home equity	39	-		
Nonresidential	1,192	1,379		
Agricultural	469	487		
Construction and land	262	-		
Total real estate loans	3,637	4,177		
Consumer and other loans	2	-		
Total nonaccrual loans	\$ 3,639	\$ 4,177		
Accruing loans past due 90 days or more:				
Total accruing loans past due 90 days or more	\$ -	\$ -		
Total of nonaccrual and 90 days or more past due loans (1)	\$ 3,639	\$ 4,177		
Real estate owned, net:				
One-to-four family	\$ 1,295	\$ 1,335		
Nonresidential	454	365		
Construction and land	169	392		
Total nonperforming assets	\$ 5,557	\$ 6,269		
Troubled debt restructurings	\$ 469	\$ 487		
Troubled debt restructurings and total nonperforming assets	\$ 6,026	\$ 6,756		
Total nonperforming loans to total loans	1.22	%	1.35	%
Total nonperforming assets to total assets	1.25	%	1.42	%
Total nonperforming assets to loans and real estate owned	2.01	%	2.16	%

(1) There were no loans past due 90 days or more and still accruing at December 31, 2015 and June 30, 2015.

Interest income that would have been recorded had our non-accruing loans been current in accordance with their original terms was \$97 thousand and \$193 thousand for the six months ended December 31, 2015 and 2014, respectively. Interest of \$31 thousand and \$4 thousand, respectively, was recognized on these loans and is included in net income for the six months ended December 31, 2015 and 2014, respectively.

Interest income that would have been recorded had our trouble debt restructured loans been current in accordance with their original terms was \$37 thousand for the six months ended December 31, 2015. No interest was recognized on trouble debt restructured loans for the six months ended December 31, 2014.

The decrease in nonperforming loans to total loans is reflective of continued improvement in asset quality by the successful liquidation through sale or payoff of \$1.2 million in PCI loans that were nonperforming during the six months ended December 31, 2015. The net decline in our real estate owned of \$174 thousand, or 8.3%, to \$1.9 million at December 31, 2015 from \$2.1 million at June 30, 2015 improved our ratios of nonperforming assets to total assets and nonperforming assets to loans and real estate owned to 1.25% and 2.01%, respectively, at December 31, 2015 from 1.42% and 2.16%, respectively at June 30, 2015.

Table of Contents**Analysis of Net Interest Margin**

The following table sets forth average balance sheets, average annualized yields and rates, and certain other information at and for the periods indicated. No tax-equivalent yield adjustments were made, as the effect thereof was not material. All average balances are daily average balances. Nonaccrual loans were included in the computation of average balances, but have been reflected in the tables as loans carrying a zero yield. The yields set forth below include the effect of net deferred costs, discounts and premiums that are amortized or accreted to income.

Table of Contents**Comparison of Operating Results for the Three Months Ended December 31, 2015 and December 31, 2014**

General. We reported net income of \$949 thousand for the three months ended December 31, 2015 as compared to net income of \$1.0 million for the three months ended December 31, 2014. The decrease in net income is largely reflective of the increased provision for loan losses to \$277 thousand for the three months ended December 31, 2015 as compared to \$9 thousand for the three months ended December 31, 2014, and the increase in noninterest expenses of \$903 thousand, or 45.2%, to \$2.9 million from \$2.0 million for the same periods ended. The increases in the provision for loan losses and noninterest expense were offset, partially, by an increase in net interest income before the provision for loan losses and an increase in noninterest income. Net interest income before the provision for loan losses increased \$682 thousand, or 20.1%, to \$4.1 million from \$3.4 million. Noninterest income increased \$184 thousand, or 71.6%, to \$441 thousand from \$257 thousand.

Interest Income. Interest income increased by \$662 thousand, or 17.4%, to \$4.4 million for the three months ended December 31, 2015 from \$3.8 million for the three months ended December 31, 2014. The increase reflected an increase in the average balance of interest-earning assets by \$67.8 million, or 18.2%, to \$440.3 million for the three months ended December 31, 2015 from \$372.5 million for the three months ended December 31, 2014, offset partially by a slight decrease in the yield on interest earning-assets of two basis points. The increase in the average balance of interest-earning assets was primarily the result of the acquisition of Stephens Federal Bank and the related addition of \$94.5 million in loans at fair value on December 1, 2014. The average balances of loans for the three months ended December 31, 2014 only included one month of these acquired assets.

Interest income on loans increased by \$513 thousand, or 15.5%, to \$3.9 million for the three months ended December 31, 2015 from \$3.3 million for the three months ended December 31, 2014. The increase reflected an increase of \$34.5 million, or 13.0%, in the average balance of loans to \$300.3 million for the three months ended December 31, 2015 from \$265.8 million for the three months ended December 31, 2014 and an increase of 11 basis points in the yield on loans to 5.13% from 5.02% for the same periods. The increase in the average balance of our loans is reflective of the aforementioned acquisition of Stephens Federal Bank, and as a result of the acquisition, we obtained loans with slightly higher coupon rates from ours, which had the positive effect of increasing our overall loan portfolio yield. Interest income on investment securities increased by \$139 thousand, or 33.9%, to \$549 thousand for the three months ended December 31, 2015 from \$410 thousand for the three months ended December 31, 2014. The increase reflected an increase in the average balance of securities of \$22.3 million, or 22.7%, to \$120.4 million for the three months ended December 31, 2015 from \$98.1 million for the three months ended December 31, 2014 and an increase of 15 basis points in the yield on securities to 1.82% from 1.67%. The increase in the average balances of our investment securities is reflective of our efforts to continue to invest in high-quality investment securities during this period of low loan demand. The increase in the yield on our investment securities is reflective of our efforts to shift our portfolio concentration to investments in municipal securities, which give us slightly higher yields.

Interest Expense. Interest expense decreased by \$20 thousand, or 6.3%, to \$295 thousand for the three months ended December 31, 2015 from \$315 thousand for the three months ended December 31, 2014. The decrease reflected a

decrease of nine basis points in the average rate paid on deposits for the three months ended December 31, 2015 to 0.31% from 0.40% for the three months ended December 31, 2014. The decrease in the average rate paid on deposits more than offset the increase of \$66.9 million, or 21.6%, in the average balances of interest-bearing deposits to \$376.0 million for the three months ended December 31, 2015 from \$309.1 million for the three months ended December 31, 2014. The largest decrease in interest expense related to expense on certificates of deposit, which decreased \$34 thousand, or 12.7%, to \$234 thousand for the three months ended December 31, 2015 from \$268 thousand for the three months ended December 31, 2014. The decrease is reflective of a decrease in the average rate paid on these deposits of nine basis points to 39 basis points for the three months ended December 31, 2015 compared to 48 basis points for the three months ended December 31, 2014, which more than offset the increase of \$17.4 million, or 7.8%, in the average balance of these deposits to \$239.5 million for the three months ended December 31, 2015 from \$222.1 million for the three months ended December 31, 2014. The increase in the average balance of all deposits is largely the result of only one month of the \$139.2 million in total deposits acquired from Stephens Federal Bank being in the three month average balances of deposits for the three months ended December 31, 2014, further aided by the increase in total deposits of \$3.1 million, or 0.8%, to \$397.2 million at December 31, 2015 compared to \$394.1 million at June 30, 2015. The decrease in the average rate paid on deposits is reflective of our efforts to keep our cost of funds as low as possible but still maintain our competitiveness in our market area among other banking institutions.

Net Interest Income. Net interest income before the provision for loan losses increased by \$682 thousand, or 20.1%, to \$4.1 million for the three months ended December 31, 2015 from \$3.4 million for the three months ended December 31, 2014. Our interest rate spread and net interest margin for the three months ended December 31, 2015 increased to 3.71% and 3.75%, respectively, from 3.64% and 3.70%, respectively, for the three months ended December 31, 2014. The increase in interest rate spread and net interest margin are reflective of our lower costs of funds on interest-bearing liabilities for the three months ended December 31, 2015.

Table of Contents

Provision for Loan Losses. We recorded a provision for loan losses of \$277 thousand for the three months ended December 31, 2015 compared with \$9 thousand for the three months ended December 31, 2014. Net charge-offs for the three months ended December 31, 2015 were \$140 thousand compared with no charge-offs for the three months ended December 31, 2014. The provision for specific valuation allowances on impaired loans was approximately \$267 thousand for the three months ended December 31, 2015. Our general valuation component of our allowance only increased by approximately \$10 thousand for the same period ended, which is due to the declines in our loan portfolio balances. Total loans evaluated collectively for impairment decreased \$10.2 million, or 3.4%, to \$290.1 million at December 31, 2015 compared to \$300.3 million at December 31, 2014. Of the \$267 thousand in provision for specific valuation allowances for the three months ended December 31, 2015, approximately \$31 thousand was related to specific valuation allowances needed on PCI loans. All of the charge-offs for the three months ended December 31, 2015 were related to loans we acquired.

Our total allowance for loan losses was \$1.1 million, or 0.38%, of total gross loans, at December 31, 2015 and \$1.0 million, or 0.32%, of total gross loans at June 30, 2015. The ending allowance for specifically identified impaired loans was \$402 thousand at December 31, 2015 compared to \$220 thousand at June 30, 2015. The general valuation allowance at December 31, 2015 and June 30, 2015 was \$746 thousand and \$788 thousand, respectively. The allowance for specifically identified impaired loans at December 31, 2015 and June 30, 2015 includes an allowance of \$48 thousand and \$16 thousand, respectively for PCI loans. No general valuation allowance has been recorded for the acquired portion of our loan portfolio that was not determined to be PCI.

To the best of our knowledge, we have recorded all losses that are both probable and reasonably estimable for the three months ended December 31, 2015 and 2014. There have been no changes to our allowance for loan loss methodology, and even though our policy with respect to identifying loans for individual impairment analysis does not require a review of every loan, we review all loans adversely classified as substandard or doubtful for impairment, regardless of size.

Noninterest Income. Noninterest income increased \$184 thousand, or 71.6%, to \$441 thousand for the three months ended December 31, 2015 from \$257 thousand for the three months ended December 31, 2014. The majority of this increase comes from an increase in service charges on deposit accounts, income on bank owned life insurance, mortgage banking income, and gain on disposition of purchase credit impaired loans. Service charges on deposit accounts increased \$40 thousand, or 49.4%, to \$121 thousand for the three months ended December 31, 2015 from \$81 thousand for the three months ended December 31, 2014. The significant factor contributing to the increase is that service charges on deposit accounts for the three months ended December 31, 2014 only included one month's service charges and other deposit related fee income related to the acquired deposits from Stephens Federal Bank. Income on bank owned life insurance increased \$60 thousand, or 83.3%, to \$132 thousand for the three months ended December 31, 2015 from \$72 thousand for the three months ended December 31, 2014, which is reflective of the purchase of \$8.0 million in bank owned life insurance during the three months ended September 30, 2015. Mortgage banking income increased \$61 thousand, or 179.4%, to \$95 thousand for the three months ended December 31, 2015 from \$34 thousand for the three months ended December 31, 2014. As with service charges on deposit accounts, the primary reason for the increase is the three months of mortgage banking income included in the three months ended December 31, 2015 as compared with one month for the three months ended December 31, 2014. Prior to the acquisition of

Stephens Federal Bank, we did not have a secondary mortgage platform or perform any servicing of loans outside of our own portfolio. These gains were offset slightly by a decrease in gain on sales of securities of \$24 thousand and a decrease in gain on sales of real estate owned of \$34 thousand, or 77.3%, to \$10 thousand for the three months ended December 31, 2015 from \$44 thousand for the three months ended December 31, 2014. There were no sales of available-for-sale securities during the three months ended December 31, 2015. Real estate owned is carried at the lower of its carrying value or fair value, less costs to sell. We typically do not experience large gains or losses on real estate properties sold.

Noninterest Expense. Noninterest expense for the three months ended December 31, 2015 increased by \$903 thousand, or 45.2%, to \$2.9 million from \$2.0 million for the same period in 2014. The increase in noninterest expenses is primarily reflective of increases in salaries and employee benefits of \$625 thousand, or 52.1%, to \$1.9 million for the three months ended December 31, 2015 from \$1.2 million for the three months ended December 31, 2014 and occupancy and equipment expenses of \$124 thousand, or 53.9%, to \$354 thousand for the three months ended December 31, 2015 from \$230 thousand for the three months ended December 31, 2014. The increase in salaries and employee benefits is primarily due to increases in salaries related to promotions and pay increases for supervisory and management personnel taking on more responsibilities resulting from the acquisition of Stephens Federal Bank, and the fact the total salaries and employee benefits for the three months ended December 31, 2014 only included one month of compensation and benefits expense for the employees of the former Stephens Federal Bank. We also accrued an additional \$100 thousand in December 2015 for a profit sharing match for all eligible employees' 401(k) accounts as a reward for our financial success and successful completion of the acquisition. This profit sharing match will be contributed to the 401(k) Plan during our third fiscal quarter. The increase in occupancy and equipment expenses is related to the increase in additional costs to maintain three newly added branch facilities as well as moderate increases in depreciation expense due to the addition of property and equipment, all as a result of the acquisition, and as with salaries and employee benefits, occupancy and equipment expenses for the three months ended December 31, 2014 only includes the additional costs for acquired Stephens Federal Bank properties for one month. These increases and other moderate increases in all other noninterest expenses were offset partially by a decrease in professional and supervisory fees of \$49 thousand, or 22.7%, to \$167 thousand for the three months ended December 31, 2015 from \$216 thousand for the three months ended December 31, 2014. This decline is primarily related to merger related costs of \$67 thousand for the three months ended December 31, 2014 but there were no merger related costs for the same period in 2015.

Table of Contents

Income Tax Expense. Income tax expense for the three months ended December 31, 2015 was \$452 thousand compared with \$659 thousand for the three months ended December 31, 2014. Our effective income tax rate was 32.3% and 38.6% for the same periods, respectively. The decrease in our effective tax rate is largely due to the increase in non-taxable bank owned life insurance, resulting from the purchase of \$8.0 million of bank owned life insurance during the three months ended December 31, 2015.

Comparison of Operating Results for the Six Months Ended December 31, 2015 and December 31, 2014

General. We reported net income of \$2.4 million for the six months ended December 31, 2015 as compared to net income of \$2.1 million for the six months ended December 31, 2014. The increase in net income is largely reflective of increases in net interest income before the provision for loan losses and in noninterest income, offset partially by an increase in noninterest expense for the six months ended December 31, 2015 as compared to amounts reported for the six months ended December 31, 2014. Net interest income before the provision for loan losses increased \$1.7 million, or 26.2%, to \$8.2 million from \$6.5 million. Noninterest income increased \$1.1 million, or 322.6%, to \$1.4 million from \$341 thousand. Noninterest expense increased by \$2.1 million, or 60.0%, to \$5.6 million from \$3.5 million.

Interest Income. Interest income increased by \$1.7 million, or 23.9%, to \$8.8 million for the six months ended December 31, 2015 from \$7.1 million for the six months ended December 31, 2014. The increase reflected an increase in average balance of interest-earning assets by \$78.1 million, or 21.8%, to \$436.6 million for the six months ended December 31, 2015 from \$358.5 million for the six months ended December 31, 2014 and a slight increase in the yield on interest earning assets of seven basis points. The increase in the average balance of interest-earning assets was primarily the result of the acquisition of Stephens Federal Bank and the related addition of \$94.5 million in loans at fair value on December 1, 2014. The average balances of loans for the six months ended December 31, 2014 only included one month of these acquired assets. The increase in the yield on earning assets reflects slightly higher loan yields on the acquired loan portfolio and a 12 basis point increase in the yield on total investment securities.

Interest income on loans increased by \$1.5 million, or 24.2%, to \$7.7 million for the six months ended December 31, 2015 from \$6.2 million for the six months ended December 31, 2014. The increase reflected an increase of \$54.6 million, or 21.9%, in the average balance of loans to \$303.4 million for the six months ended December 31, 2015 from \$248.8 million for the six months ended December 31, 2014 and an increase of ten basis points in the yield on loans to 5.10% from 5.00% for the same periods. The increase in the average balance of our loans is reflective of the aforementioned acquisition of Stephens Federal Bank, and as a result of the acquisition, we obtained loans with slightly higher coupon rates from ours, which had a positive effect of increasing our overall loan portfolio yield. Interest income on investment securities increased by \$201 thousand, or 24.3%, to \$1.0 million for the six months ended December 31, 2015 from \$827 thousand for the six months ended December 31, 2014. The increase reflected an increase in the average balance of securities of \$15.6 million, or 15.5%, to \$116.1 million for the six months ended December 31, 2015 from \$100.5 million for the six months ended December 31, 2014 and an increase of 12 basis points in the yield on securities to 1.77% from 1.65%. The increase in average balances of our investment securities is reflective of our efforts to continue to invest in high-quality investment securities during this period of low loan

demand. The increase in the yield on our investment securities is reflective of our efforts to shift our portfolio concentration to investments in municipal securities, which give us slightly higher yields.

Interest Expense. Interest expense decreased by \$39 thousand, or 6.3%, to \$584 thousand for the six months ended December 31, 2015 from \$623 thousand for the six months ended December 31, 2014. The decrease reflected a decrease of 12 basis points in the average rate paid on deposits for the six months ended December 31, 2015 to 0.31% from 0.43% for the six months ended December 31, 2014. The decrease in the average rate paid on deposits more than offset the increase of \$80.7 million, or 27.8%, in the average balances of interest-bearing deposits to \$371.2 million for the six months ended December 31, 2015 from \$290.5 million for the six months ended December 31, 2014. The largest decrease in interest expense came from certificates of deposit, which decreased \$39 thousand, or 7.4%, to \$489 thousand for the six months ended December 31, 2015 from \$528 thousand for the six months ended December 31, 2014. The decrease is reflective of a decrease in the average rate paid on these deposits of 10 basis points to 40 basis points for the six months ended December 31, 2015 compared to 50 basis points for the six months ended December 31, 2014, which more than offset the increase of \$34.6 million, or 16.4%, in the average balance of these deposits to \$245.1 million for the six months ended December 31, 2015 from \$210.5 million for the six months ended December 31, 2014. The increase in the average balance of all deposits is largely the result of only one month of the \$139.2 million in total deposits acquired from Stephens Federal Bank being in the six month average balances of deposits for the six months ended December 31, 2014, further aided by the increase in total deposits of \$3.1 million, or 0.8%, to \$397.2 million at December 31, 2015 compared to \$394.1 million at June 30, 2015. The decrease in the average rate paid on deposits is reflective of our efforts to keep our cost of funds as low as possible but still maintain our competitiveness in our market area among other banking institutions.

Table of Contents

Net Interest Income. Net interest income before the provision for loan losses increased \$1.7 million, or 26.2%, to \$8.2 million from \$6.5 million. Our interest rate spread and net interest margin for the six months ended December 31, 2015 increased to 3.72% and 3.77%, respectively, from 3.53% and 3.62%, respectively, for the six months ended December 31, 2014. The increase in interest rate spread and net interest margin are reflective of our lower costs of funds on interest-bearing liabilities for the six months ended December 31, 2015.

Provision for Loan Losses. We recorded a provision for loan losses of \$422 thousand for the six months ended December 31, 2015 compared with \$9 thousand for the six months ended December 31, 2014. Net charge-offs for the six months ended December 31, 2015 were \$282 thousand compared with no charge-offs for the six months ended December 31, 2014. The provision for specific valuation allowances on impaired loans was approximately \$297 thousand, and for our general valuation allowance, the provision was \$125 thousand. Total loans evaluated collectively for impairment decreased \$10.2, or 3.4%, to \$290.1 million at December 31, 2015 compared to \$300.3 million at December 31, 2014. Of the \$297 thousand in provision for specific valuation allowances for the six months ended December 31, 2015, approximately \$32 thousand was related to specific valuation allowances needed on PCI loans.

Our total allowance for loan losses was \$1.1 million, or 0.38%, of total gross loans, at December 31, 2015 and \$1.0 million, or 0.32%, of total gross loans at June 30, 2015. The ending allowance for specifically identified impaired loans was \$402 thousand at December 31, 2015 compared to \$220 thousand at June 30, 2015. The general valuation allowance at December 31, 2015 and June 30, 2015 was \$746 thousand and \$788 thousand, respectively. The allowance for specifically identified impaired loans at December 31, 2015 and June 30, 2015 includes an allowance of \$48 thousand and \$16 thousand, respectively for PCI loans. No general valuation allowance has been recorded for the acquired portion of our loan portfolio that was not determined to be PCI.

To the best of our knowledge, we have recorded all losses that are both probable and reasonably estimable for the six months ended December 31, 2015 and 2014. There have been no changes to our allowance for loan loss methodology, and even though our policy with respect to identifying loans for individual impairment analysis does not require a review of every loan, we review all loans adversely classified as substandard or doubtful for impairment, regardless of size.

Noninterest Income. Noninterest income increased \$1.1 million, or 322.6%, to \$1.4 million for the six months ended December 31, 2015 from \$341 thousand for the six months ended December 31, 2014. The majority of this increase comes from increases in service charges on deposit accounts, income on bank owned life insurance, mortgage banking income, and gain on disposition of purchase credit impaired loans. Service charges on deposit accounts increased \$140 thousand, or 140.0%, to \$240 thousand for the six months ended December 31, 2015 from \$100 thousand for the six months ended December 31, 2014. The significant factor contributing to the increase is that service charges on deposit accounts for the six months ended December 31, 2014 only included one month's service charges and other deposit related fee income related to acquired deposits from Stephens Federal Bank. Income on bank owned life insurance increased \$104 thousand, or 74.8%, to \$243 thousand for the six months ended December 31, 2015 from

\$139 thousand for the six months ended December 31, 2014, which is reflective of the purchase of \$8.0 million in bank owned life insurance during the three months ended September 30, 2015. Mortgage banking income increased \$157 thousand, or 461.8%, to \$191 thousand for the six months ended December 31, 2015 from \$34 thousand for the six months ended December 31, 2014. As with service charges on deposit accounts, the primary reason for the increase is the five additional months of mortgage banking income included in the six months ended December 31, 2015 as compared with one month for the six months ended December 31, 2014. Prior to the acquisition of Stephens Federal Bank, we did not have a secondary mortgage platform or perform any servicing of loans outside of our own portfolio. The increase in gain on disposition of purchased credit impaired loans represents the net total gains realized on the sale or disposition of purchased credit impaired loans during the six months ended December 31, 2015 of \$809 thousand. These gains to noninterest income were offset slightly by decreases in gain on sales of securities, gain on sales of real estate owned and in the value of our loan servicing asset. The gain on sales of securities decreased \$20 thousand, or 69.0%, to \$9 thousand for the six months ended December 31, 2015 from \$29 thousand for the six months ended December 31, 2014, and the gain on sales of real estate owned decreased \$36 thousand for the same periods ended. There were no gains realized on the sale of real estate owned real estate owned during the six months ended December 31, 2015, but we did realize a net loss on sales of real estate owned of \$59 thousand for the same period. Real estate owned is carried at the lower of its carrying value or fair value, less costs to sell. We typically do not experience large gains or losses on real estate properties sold. The net decline in the value of the loan servicing asset is mostly reflective of the decrease in the amount of loans serviced. The total loans serviced at December 31, 2015 was \$133.1 million at December 31, 2015 compared to \$141.2 million at June 30, 2015.

Table of Contents

Noninterest Expense. Noninterest expense for the six months ended December 31, 2015 increased by \$2.1 million, or 60.0%, to \$5.6 million from \$3.5 million for the same period in 2014. The increase in noninterest expenses is primarily reflective of increases in salaries and employee benefits of \$1.2 million, or 57.1%, to \$3.3 million for the six months ended December 31, 2015 from \$2.1 million for the six months ended December 31, 2014, occupancy and equipment expenses of \$317 thousand, or 79.8%, to \$714 thousand for the six months ended December 31, 2015 from \$397 thousand for the six months ended December 31, 2014, and an increase in the provision for real estate owned and related expenses of \$124 thousand, or 317.9%, to \$163 thousand for the six months ended December 31, 2015 from \$39 thousand for the six months ended December 31, 2014. The increase in salaries and employee benefits is primarily due to increases in salaries related to promotions and pay increases for supervisory and management personnel taking on more responsibilities resulting from the acquisition of Stephens Federal Bank, and the fact the total salaries and employee benefits for the six months ended December 31, 2014 only included one month of compensation and benefits expense for the employees of Stephens Federal Bank. We also accrued an additional \$100 thousand in December 2015 for a profit sharing match to all eligible employees' 401(k) accounts as reward for our financial success and successful completion of the acquisition. This profit sharing match will be contributed to the 401(k) Plan during our third fiscal quarter. The increase in occupancy and equipment expenses is related to the increase in additional costs to maintain three newly added branch facilities as well as moderate increases in depreciation expense due to the addition of property and equipment, all as a result of the acquisition, and as with salaries and employee benefits, occupancy and equipment expenses for the three months ended December 31, 2014 only includes the additional costs for acquired Stephens Federal Bank properties for one month. The increase in the provision for real estate owned and related expenses is primarily related to additional impairment losses taken on real estate properties due to declines in their fair market values less costs to sell below their carrying values.

Income Tax Expense. Income tax expense for the six months ended December 31, 2015 and December 31, 2014 was \$1.2 million. Our effective income tax rate was 34.1% and 36.3% for the same periods ended, respectively. The decrease in our effective tax rate is largely due to the increase in non-taxable bank owned life insurance, resulting from the purchase of \$8.0 million of bank owned life insurance during the six months ended December 31, 2015.

Liquidity and Capital Resources

Our primary sources of funds are deposits and the proceeds from principal and interest payments on loans and investment securities. While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit flows and mortgage prepayments are greatly influenced by general interest rates, economic conditions and competition. We generally manage the pricing of our deposits to be competitive within our market and to increase core deposit relationships.

Liquidity management is both a daily and long-term responsibility of management. We adjust our investments in liquid assets based upon management's assessment of (i) expected loan demand, (ii) expected deposit flows, (iii) yields available on interest-earning deposits and investment securities, and (iv) the objectives of our asset/liability management program. Excess liquid assets are invested generally in interest-earning overnight deposits, federal funds

sold, and short and intermediate-term U.S. Government sponsored agencies and mortgage-backed securities of short duration. If we require funds beyond our ability to generate them internally, we have credit available under a loan agreement with the Federal Home Loan Bank of Atlanta in the amount of 11% assets (as of December 31, 2015), or approximately \$52.9 million.

Common Stock Dividends. On August 27 and November 27, 2015, the Company paid a \$0.10 per share cash dividend on its common stock for a total of \$1.1 million.

Equity Compensation Plans. There were no issuances of restricted stock or stock options during the six months ended December 31, 2015.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Disclosures of quantitative and qualitative market risk are not required by smaller reporting companies, such as the Company.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) promulgated under the Securities and Exchange Act of 1934, as amended) as of December 31, 2015. Based on that evaluation, the Company's management, including the Chief Executive Officer and the Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective.

Table of Contents

During the quarter ended December 31, 2015, there have been no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Securities and Exchange Act of 1934, amended) that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

There are various claims and lawsuits in which the Company is periodically involved incidental to the Company's business. In the opinion of management, no material loss is expected from any of such pending claims or lawsuits.

ITEM 1A. RISK FACTORS

Disclosures of risk factors are not required of smaller reporting companies, such as the Company.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(a) None.

(b) Not applicable.

(c) **Issuer Repurchases.** On November 24, 2015, the Board of Directors authorized the repurchase of up to 175,000 of the Company's common stock, which represents approximately 10.2% of the Company's issued and outstanding shares (excluding shares that Oconee Federal, MHC currently holds).

In connection with the authorization of this stock repurchase program, the Board of Directors terminated the Company's existing stock repurchase program, which had authorized the Company to purchase up to 150,000 shares of its issued and outstanding common stock. The Company had previously purchased a total of 113,400 shares of its common stock at a weighted average price of \$16.04 per share under the existing stock repurchase program.

Edgar Filing: Oconee Federal Financial Corp. - Form 10-Q

The following table sets forth information in connection with repurchases of the Company's common stock for the period October 1, 2015 through December 31, 2015.

	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan	Approximate Maximum Dollar Value or Number of Shares That May Yet be Purchased Under Publicly Announced Plan
October 1 - October 31, 2015	-	\$ -	-	\$ -
November 1 - November 30, 2015	1,800	18.34	1,800	(1) 173,200 (2)
December 1 - December 31, 2015	-	-	-	-
Total	1,800	\$ 18.34	1,800	\$ 173,200

(1) All shares were purchased pursuant to a publicly announced repurchase program that was approved by the Board of Directors on November 24, 2015.

(2) Represents the maximum number of shares available for repurchase under the November 24, 2015 plan at December 31, 2015.
