Your Board and management look forward to greeting those shareholders able to attend the meeting.

This year, we will again be using the “Notice and Access” method of providing proxy materials to shareholders via the Internet. We believe that this process provides shareholders with a convenient and quick way to access the proxy materials and vote, while allowing us to conserve natural resources and reduce the costs of printing and distributing the proxy materials. We will mail to most of our shareholders a Notice of Internet Availability of Proxy Materials containing instructions on how to access our proxy statement and the Form 10-K and vote electronically via the Internet. This notice will also contain instructions on how to receive a paper copy of the proxy materials. All shareholders who do not receive a notice will receive a paper copy of the proxy materials by mail or an electronic copy of the proxy materials by email.

The accompanying Notice of Annual Meeting of Shareholders and Proxy Statement describe proposals to be acted upon at the Annual Meeting. Please give these materials your prompt attention. Then, we ask that you vote by internet, telephone or by mail, as set forth in the voting instructions or proxy card that are included with these materials, to ensure that your shares are represented and voted at the meeting. Shareholders who attend the meeting may withdraw their proxy and vote in person if they wish to do so. Your vote is important, so please act at your earliest convenience.

We appreciate your continued interest in Central Pacific Financial Corp.

Sincerely,

ANNUAL MEETING OF SHAREHOLDERS
APRIL 29, 2016**

INTRODUCTION

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the “Board”) of Central Pacific Financial Corp. (the “Company”) for use at the 2016 Annual Meeting of Shareholders (the “Meeting”) of the Company to be held at Harbor Square, 4th Floor, Waikiki Room, 225 Queen Street, Honolulu, Hawaii 96813, on April 29, 2016, at 11:00 a.m., Hawaii time, and at any and all adjournments or postponements thereof. The Notice of Internet Availability of Proxy Materials, this Proxy Statement and accompanying form of proxy or voting instruction card, are first being made available to shareholders on or about March 11, 2016.

Proposals to be Considered

The proposals to be considered and voted upon at the Meeting will be:

(1) **Election of Directors.** To elect up to eleven (11) persons to the Board of Directors for a term of one (1) year and to serve until their successors are elected and qualified, as more fully described in this Proxy Statement.

(2) **Ratification of Appointment of Independent Registered Public Accounting Firm.** To ratify the appointment of KPMG LLP as the Company’s independent registered public accounting firm for the fiscal year ending December 31, 2016.

Executive Compensation. To approve, on a non-binding advisory basis, the compensation of the Company's named executive officers.

- (4) **Other Business.** To transact such other business as may properly come before the Meeting and at any and all adjournments or postponements thereof.

Record Date, Outstanding Securities and Voting Rights

The Board fixed the close of business on February 24, 2016 as the record date (the "Record Date") for the determination of the shareholders of the Company entitled to notice of and to vote at the Meeting. Only holders of record of shares of the Company's Common Stock ("Common Stock") at the close of business on the Record Date will be entitled to vote at the Meeting and at any adjournment or postponement of the Meeting. There were 31,331,481 shares of the Company's Common Stock, no par value, issued and outstanding on the Record Date, held by approximately 3,615 holders of record. There are no other classes of shares of the Company's capital stock outstanding.

Each holder of Common Stock will be entitled to one (1) vote, in person or by proxy, for each share of Common Stock standing in the holder's name on the books of the Company as of the Record Date on any matter submitted to the vote of the shareholders.

Quorum

The required quorum for the transaction of business at the Meeting is a majority of the total outstanding shares of Common Stock entitled to vote at the Meeting, either present in person or represented by proxy. Abstentions will be included in determining the number of shares present at the Meeting for the purpose of determining the presence of a quorum.

Broker Authority to Vote

Under the rules of the National Association of Securities Dealers, Inc., member brokers generally may not vote shares held by them in street name for customers unless they are permitted to do so under the rules of any national securities exchange of which they are a member. Under the rules of the New York Stock Exchange, Inc. (“NYSE”), a member broker who holds shares in street name for customers has the authority to vote on certain “routine” proposals if it has transmitted proxy soliciting materials to the beneficial owner but has not received instructions from that owner. NYSE rules permit member brokers that do not receive instructions from their customers, to vote on proposal number 2 as discussed above in their discretion. NYSE member brokers will not be permitted to vote on proposal numbers 1 or 3 unless they receive instructions from their customers.

Vote Required to Approve the Proposals

The following chart sets forth the required vote to approve each proposal to be considered and voted upon at the Meeting, and the effect of “Withhold” votes, abstentions, and broker non-votes.

Proposal	Required Vote	Effect of “Withhold” Votes, Abstentions, Broker Non-Votes
Proposal 1—Election of Directors	Affirmative vote of a plurality of the shares of Common Stock present in person or by proxy and entitled to vote.	“Withhold” votes will have the effect of a vote AGAINST the election of directors. Broker non-votes will have no effect on the voting for the election of directors.
Proposal 2—Ratification of the appointment of KPMG LLP as the Company’s independent registered public accounting firm for the fiscal year ending December 31, 2016.	Affirmative vote of a majority of the shares of Common Stock represented and voting on the matter.	Abstentions and broker non-votes will have no effect in calculating the votes on this matter.
Proposal 3—Proposal relating to an advisory (non-binding) vote on executive compensation	Affirmative vote of a majority of the shares of Common Stock represented and voting on the matter.	Abstentions and broker non-votes will have no effect in calculating the votes on this matter.

Additional information regarding each of these proposals is provided in the section titled DISCUSSION OF PROPOSALS RECOMMENDED BY THE BOARD OF DIRECTORS (for Proposals 1 through 3 above).

The following is the Board's recommendation with respect to each of the proposals to be considered and voted upon at the Meeting:

Proposal 1~~The Board recommends a vote "FOR" the election of all nominees as directors.~~

The Board recommends a vote "FOR" ratification of the appointment of KPMG LLP as the Proposal 2~~Company's independent registered public accounting firm for the fiscal year ending December 31, 2016.~~

Proposal 3~~The Board recommends a vote "FOR" the compensation of the Company's named executive officers.~~

It is not anticipated that any matters will be presented at the Meeting other than as set forth in the accompanying Notice of the Meeting and this Proxy Statement. If any other matters are presented properly at the Meeting, however, the proxy will be voted by the proxy holders in accordance with the recommendations of the Board.

Voting

You may vote by internet, telephone or by mail, as set forth in the voting instructions or proxy card that is provided to you.

Voting by Internet or Telephone. Voting by internet or telephone is fast and convenient and your vote is immediately confirmed and tabulated. The internet and telephone voting procedures are designed to authenticate votes cast by use of a personal identification number which is provided with your voting instructions. These procedures allow shareholders to appoint a proxy to vote their shares and to confirm that their instructions have been properly recorded. If you vote by internet or telephone, you do not have to mail in a proxy card, but your vote must be received by the voting deadline set forth in your voting instructions.

Voting by Mail. If you wish to vote by mail, you may request a paper copy of these materials which will include a proxy card. If you vote by proxy card, be sure to complete, sign, date and mail your proxy card in the accompanying postage-prepaid envelope by the voting deadline set forth on the proxy card.

If your shares are held by a bank, broker or other nominee, please follow the instructions provided with your proxy materials to determine if internet or telephone voting is available. If your bank or broker does make internet or telephone voting available, please follow the voting instructions provided by your bank or broker.

If you vote by internet or by telephone, you should not return a proxy card.

Revocability of Proxies

Any shareholder who executes and delivers a proxy has the right to revoke it at any time before it is exercised by filing with the Corporate Secretary of the Company an instrument revoking it or a duly executed proxy bearing a later date. A proxy may also be revoked by attending the Meeting and voting in person at the Meeting. Subject to such revocation, all shares represented by a properly executed proxy received in time for the Meeting will be voted by the proxy holders in accordance with the instructions on the proxy. If your shares are held in street name, you should follow the instructions of your broker, bank or nominee regarding the revocation of proxies.

Solicitation of Proxies

This solicitation of proxies is made on behalf of the Board and the Company will bear the costs of the preparation of proxy materials and the solicitation of proxies for the Meeting. It is contemplated that proxies will be solicited principally through the mail, but directors, officers and regular employees of the Company or its subsidiary, Central Pacific Bank (the "Bank"), may solicit proxies personally, by telephone, electronically or by other means of communication. Although there is no formal agreement to do so, the Company may reimburse banks, brokerage houses and other custodians, nominees and fiduciaries for their reasonable expenses in forwarding these proxy materials to beneficial owners.

Important Notice Regarding the Availability of Proxy Materials for the Shareholder Meeting to Be Held on April 29, 2016.

The Company's Proxy Statement and Annual Report on Form 10-K for the fiscal year ended December 31, 2015 are available free of charge at <https://www.centralpacificbank.com/2016proxy> and at <https://www.proxyvote.com>.

In addition, the Company will provide without charge, upon the written request of any shareholder, a copy of the Company's Annual Report on Form 10-K, including the financial statements and the financial statement schedules, required to be filed with the United States Securities and Exchange Commission (the "SEC") for the fiscal year ended December 31, 2015. The Company will also deliver promptly upon written or oral request a separate copy of the Company's Annual Report on Form 10-K and the Company's Proxy Statement, to any shareholder who shares an address with other shareholders and where only one (1) set of materials were sent to that address to be shared by all shareholders at that address.

We are furnishing materials to our shareholders primarily via the internet instead of mailing printed copies of those materials to our shareholder. Audit Committee

The Audit Committee held eight (8) meetings during 2015. The responsibilities of the Audit Committee are described below under the subheading “REPORT OF THE AUDIT COMMITTEE.” The Audit Committee operates under a Charter adopted by the Board. The Charter of the Audit Committee is available on the Company’s website (www.centralpacificbank.com). The current members of the Company’s Audit Committee are Earl E. Fry (Chair), Christine H. H. Camp and Wayne K. Kamitaki, each of whom is “independent” within the meaning of the listing standards of the NYSE and the rules of the SEC. The Board has also determined that each member is financially literate, as such qualification is defined under the rules of the NYSE, that each member has accounting or related financial management expertise, as such qualification is defined under the rules of the NYSE, and that Mr. Fry and Ms. Camp are each an “audit committee financial expert” within the meaning of the rules of the SEC. No member of the Audit Committee serves on the audit committee of any other publicly registered company.

Pursuant to the Company’s Audit Committee Charter, the Audit Committee reviews and evaluates all related party transactions that are material to the financial statements pursuant to the Company’s Policy Regarding Transactions with Related Persons, and determines conflicts of interest pursuant to the Company’s Code of Conduct & Ethics and pursuant to its Code of Conduct & Ethics for Senior Financial Officers. In addition, certain loans to directors and executive officers and their related interests are subject to the lending restrictions set forth in Federal Reserve Board Regulation O and the lending policies and procedures of the Bank. Each director and executive officer is required to report to the Company transactions with the Company in which they have an interest.

Compensation Committee

The Compensation Committee held four (4) meetings during 2015. The Compensation Committee’s primary purpose is to assist the Board in discharging the Board’s responsibilities relating to compensation of the Company’s executive officers by evaluating and recommending to the Board approval of executive officer benefit, bonus, incentive compensation, severance, equity-based or other compensation plans, policies and programs of the Company and providing all required disclosures on executive compensation for inclusion in the Company’s Proxy Statement. The functions of the Compensation Committee are further described in “COMPENSATION OF DIRECTORS AND EXECUTIVE OFFICERS” below, under the subheading “COMPENSATION DISCUSSION AND ANALYSIS.” The Charter of the Compensation Committee is available on the Company’s website (www.centralpacificbank.com). The current members of the Company’s Compensation Committee are Christine H.H. Camp (Chair), Earl E. Fry, Saedene K. Ota, and Crystal K. Rose, each of whom is “independent” within the meaning of the listing standards of the NYSE, is a “non-employee director” within the meaning of Rule 16b-3 of the Exchange Act and is an “outside director” within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended.

Interaction with Consultants

From time-to-time, the Compensation Committee seeks advice from outside experts in the compensation field. The Compensation Committee has historically engaged a compensation consultant to provide input on both Board and executive compensation issues. In 2015 the Committee retained McLagan, an AonHewitt Company. McLagan is a compensation consulting and performance benchmarking firm focused exclusively on the financial services sector.

In 2015, the Compensation Committee engaged McLagan to provide market benchmarking information and advisory services related to executive compensation plan design features, positioning to market, regulatory compliance, and with respect to the review and development of various incentive plans. McLagan was engaged directly by the Compensation Committee and McLagan consultants reported directly to the Compensation Committee for its services in these capacities. The Compensation Committee discusses, reviews, and approves all consulting projects performed by McLagan and periodically reviews the relationship with McLagan and considers competitive proposals from other firms.

The Compensation Committee considered the independence of McLagan in light of new SEC rules and NYSE listing standards. The Compensation Committee requested and received a report from McLagan addressing the independence of McLagan and its consultants, including the following factors: (1) other services provided to the Company by McLagan; (2) fees paid by the Company as a percentage of Aon's total revenue; (3) policies or procedures maintained by McLagan that are designed to prevent a conflict of interest; (4) any business or personal relationships between the consultants and a member of the Compensation Committee; (5) any Company Common Stock owned by the consultants; and (6) any business or personal relationships between our executive officers and the consultants. The Compensation Committee discussed these considerations as well as other considerations and concluded that the work performed by McLagan and its consultants involved in the engagement did not raise any conflict of interest.

Governance Committee

The Governance Committee held four (4) meetings during 2015. The Governance Committee is responsible for promoting the best interests of the Company and its shareholders through the implementation of sound corporate governance principles and practices, including identifying individuals qualified to become Board members, recommending nominees for directors of the Company, reviewing the qualifications and independence of the members of the Board and its committees, reviewing and monitoring the Company's Corporate Governance Guidelines, monitoring the Board's and the Company's compliance regarding changes in corporate governance practices and laws and leading the Board in its annual review of the performance of the Board. The Charter of the Governance Committee and the Company's Corporate Governance Guidelines are available on the Company's website (www.centralpacificbank.com). The current members of the Company's Governance Committee are Crystal K. Rose (Chair), Christine H. H. Camp, Wayne K. Kamitaki, Paul J. Kosasa, and Duane K. Kurisu, each of whom is "independent" within the meaning of the listing standards of the NYSE.

Director Resignation Policy

On January 28, 2009, the Board adopted a "Director Resignation Policy" which provides that at any shareholder meeting at which directors are subject to an uncontested election, any nominee for director who receives a greater number of votes "withheld" from his or her election than votes "for" such election shall tender a letter of resignation to the Board for consideration by the Governance Committee. The Governance Committee shall recommend to the Board the action to be taken with respect to such offer of resignation. The Board shall act promptly with respect to each such letter of resignation and shall notify the director concerned of its decision. Any director who tenders his or her resignation pursuant to this provision shall not participate in the Governance Committee or Board action regarding whether to accept his or her resignation offer.

Equity Grant Guidelines

The Company maintains Equity Grant Guidelines ("Equity Guidelines") which are to be considered in connection with grants of Company equity whether in the form of Company stock, stock options, or other forms of equity grants made by the Company to directors, officers or employees of the Company or any of its subsidiaries. The Equity Guidelines set forth guidelines regarding how and when grants may be made, including how grants are to be approved and documented.

Dean who is Executive Chair, A. Catherine Ngo who is President and Chief Executive Officer, and Lance A. Loans to Related Persons

These loans were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with persons not related to the Bank and do not involve more than the normal risk of collectibility or present other unfavorable features.

Policy Regarding Transactions with Related Persons

The Company has a Board approved written policy ("Policy Regarding Transactions with Related Persons") which sets forth the process and procedures for the review, approval, ratification and disclosure of any transaction with a related person ("transaction" and "related person" being as defined by Item 404 of SEC Regulation S-K). Transactions with related persons that affect a director's independence are reviewed by the Company's Governance Committee.

Transactions with related persons that involve loans are reviewed by the Bank's Board Directors Loan Committee. All other transactions with related persons that are material to the financial statements are reviewed by the Company's Audit Committee.

Board Leadership Structure and Risk Oversight

The Company's Board has no policy with respect to the separation of the offices of Chairman, President and Chief Executive Officer. It is the Board's view that rather than having a rigid policy, the Board, with the advice and assistance of its Governance Committee, and upon consideration of all relevant factors and circumstances, will determine, as and when appropriate, whether the offices of Chairman, President and Chief Executive Officer should be separate. Crystal K. Rose currently serves as Lead Independent Director and as Chair of the Governance Committee of the Company's and the Bank's Board of Directors. Ms. Rose previously served as Chair of the Board of Directors of the Company and the Bank from April 20, 2011 through May 31, 2014. John C. Catherine Ngo currently serves as President and Chief Executive Officer for the Company and the Bank and also serves on the Company's and Bank's Board of Directors. Lance A. Mizumoto currently serves as President and Chief Banking Officer for the Company and the Bank and also serves on the Company's and Bank's Board of Directors. Eight (8) of the eleven (11) Company's and Bank's Board of Directors are independent outside (non-management) directors. As the Board's former Chair and now as its Lead Independent Director, Ms. Rose previously presided over and once again presides over all meetings of the non-management directors in executive sessions, acts as liaison and facilitates communications between the Board and the principal executive officer, and ensures independent Board governance and oversight of management. In addition, all members of the Board's Audit Committee, Compensation Committee, and Governance Committee are comprised of independent, non-management

directors. The Company believes that the current structure ensures sufficient Board independence from management while also optimizing the efficiency and effectiveness of the Board and management in the oversight of the Company and the Bank, and also supports and provides for orderly transition and succession.

The Company is a one-bank holding company, with the Bank being the Company's only bank subsidiary. All of the directors on the Company's Board also serve on the Bank's Board of Directors. In addition, all of the Company's directors who serve on the Company's Audit Committee, Compensation Committee and Governance Committee also serve on those same board level committees at the Bank. Ernst & Young, the Company's and Bank's internal auditor, reports directly to the Company's and Bank's respective Audit Committees. In addition, the Bank also has an additional board level Trust Committee and Directors' Loan Committee which provide board level oversight over the Bank's trust activities and lending activities, respectively. The Company's and Bank's Audit Committees perform the required and customary risk oversight functions of an Audit Committee, which include, overseeing accounting, auditing, internal controls, legal and regulatory matters, financial reporting and financial risk. The Company's and the Bank's Compensation Committees perform the required and customary risk oversight functions of a Compensation Committee, which include, overseeing the Company's and Bank's compliance with any laws, rules and regulations applicable to the Company's and Bank's compensation practices, plans and programs, and to ensure that compensation is not structured in a way which will encourage unnecessary or excessive risk taking. The Company's and Bank's Chief Financial Officer and Chief Legal Officer report regularly to the Company's and Bank's Audit Committees. The Company's and Bank's Chief Credit Officer is required to report regularly to the Bank's Directors' Loan Committee.

The Company has a Code of Conduct & Ethics applicable to all employees, officers and directors of the Company. In addition, the Company also has a supplemental Code of Conduct & Ethics for Senior Financial Officers, which is applicable to the Chief Executive Officer, President, Chief Financial Officer, Controller, any other principal financial officer or principal accounting officer and any other person fulfilling and/or performing any similar role, function or capacity. Both of the aforementioned Codes of Conduct & Ethics are available on the Company's website (www.centralpacificbank.com).

Director Nomination Process

Director Qualifications. The Governance Committee is responsible for reviewing the qualifications and independence of director nominees in accordance with the criteria set forth in the Company's Corporate Governance Guidelines. The general criteria considered include independence, diversity, age, skills, experience and other relevant considerations in the context of the needs of the Board. Diversity is considered and desired and is viewed in a broad context; we seek Board members from different professions, industries, backgrounds, experiences, cultures, ethnicities, races, and gender, who can represent Hawaii's multi-cultural, multi-ethnic, and multi-racial population and community.

Identifying and Evaluating Nominees. The Board seeks to identify candidates for director positions that are best qualified and suited to meet the needs of the Company and to present these candidates for shareholder approval, as and when director positions become open and available. The Governance Committee will first identify, review, evaluate and recommend to the Board, nominees for director positions. The Board will then vote whether or not to recommend such nominees to the Company's shareholders for election. In identifying potential director nominees, the Governance Committee will search within the State of Hawaii and may search outside the State of Hawaii for any potential director candidates, and in this regard, may utilize the services of a professional search firm. While the same general criteria set forth above shall be applied in evaluating a candidate's qualifications, it is difficult to enumerate all of the attributes, skills and qualities that the Governance Committee and/or Board may, at any given point in time, determine, consider and value in evaluating, selecting and recommending director nominees. Accordingly, the Governance Committee and the Board exercise their discretion and consider any circumstances, experiences, attributes, skills, qualities, and factors applicable to any director nominee with the intent and purpose of having the best qualified and suited directors serving on the Board at all times, as well as ensuring that the Board as a whole is diverse and well rounded. The Board may enlist the services of a third party to conduct a background check or other investigation in order to determine whether a candidate meets any criteria.

As executives of the Company, Directors A. Catherine Ngo and Lance A. Mizumoto were well known to the Governance Committee prior to their appointment as directors. Directors Wayne K. Kamitaki and Saedene K. Ota were identified to the Company through their business reputation and stature, and community involvement.

Shareholder Nominees. In accordance with the policies set forth in the Company's Corporate Governance Guidelines and the Company's Bylaws (as amended), the Governance Committee will consider properly submitted director nominees for election at the 2017 Annual Meeting of Shareholders recommended by shareholders if such recommendations are received in writing not less than ninety (90) calendar days nor more than one hundred twenty (120) calendar days prior to the first anniversary date of the annual meeting for the preceding year (such anniversary date, April 29, 2017), and comply with all other applicable requirements set forth in said Corporate Governance Guidelines and Bylaws (as amended). Shareholder recommendations should be addressed to the Company's Corporate Secretary, P.O. Box 3590, Honolulu, Hawaii 96811.

Communications with the Board

Shareholders of the Company and others may send written communications directly to the Board, addressed to: Board of Directors of Central Pacific Financial Corp., 220 South King Street, 22nd Floor, Honolulu, Hawaii 96813. Any such communication may be directed to the attention of the Chair of the Board or the Chair of any Board Committee (such as, for example, the Chair of the Audit Committee or the Chair of the Governance Committee) or to the Lead Independent Director or to the non-management or independent directors. Shareholders and others who wish to communicate anonymously with the Board or any group of the Board should refer to the Company's Complaint Policy available on the Company's website (www.centralpacificbank.com). However, nothing that is stated in this paragraph shall override any requirements imposed on any shareholder communications under the Company's Articles of Incorporation (as amended) or Bylaws (as amended) or other governing documents or by any law, rule or regulation.

REPORT OF THE AUDIT COMMITTEE

The following Report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filings under the United States Securities Act of 1933, as amended, or under the United States Securities Exchange Act of 1934, as amended, except to the extent we specifically incorporate this Report by reference.

As of February 24, 2016, the Audit Committee is comprised of three (3) independent directors and operates pursuant to a written charter that was readopted by our Board in January 2016. The charter is also available on our website at <https://www.centralpacificbank.com>. During 2015, the Audit Committee held eight (8) meetings, including two (2) private sessions with the independent auditors, one (1) private session with internal audit, three (3) private sessions with executive management, and five (5) executive sessions. The Audit Committee's primary purposes are to: (a) assist the Board in its oversight of (i) the integrity of the Company's financial statements, (ii) the Company's compliance with legal and regulatory requirements, (iii) the Company's independent auditors' qualifications and independence, and (iv) the performance of the Company's internal audit function and independent auditors; (b) decide whether to appoint, retain or terminate the Company's independent auditors and to pre-approve all audit, audit-related and other services, if any, to be provided by the independent auditors; and (c) prepare this Report. The Board has determined, upon the recommendation of the Governance Committee, that each member of the Audit Committee is "independent" within the meaning of the rules of the NYSE and the SEC. The Board has also determined that each member is financially literate and has accounting or related financial management expertise, as such qualifications are defined under the rules of the NYSE, and that two (2) members are "audit committee financial experts" within the meaning of the rules of the SEC, being Earl E. Fry, Chair of the Audit Committee, and Christine H. H. Camp. The Audit Committee is established in accordance with Section 3(a)(58)(A) of the United States Securities Exchange Act of 1934, as amended.

Management is responsible for the preparation, presentation and integrity of the Company's financial statements, accounting and financial reporting principles and the establishment and effectiveness of internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent auditors are responsible for performing an independent audit of the financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"), expressing an opinion as to the conformity of such financial statements with generally accepted accounting principles and auditing the effectiveness of internal control over financial reporting. The independent auditors have free access to the Audit Committee to discuss any matters they deem appropriate.

In performing its oversight role, the Audit Committee has considered and discussed the audited financial statements with management and the independent auditors. The Committee has also discussed with the independent auditors matters required to be discussed by the statement under PCAOB Auditing Standard No. 16, *Communications with Audit Committees*. The Committee has received the written disclosures and the letter from the independent accountants required by PCAOB Ethics and Independence Rule 3526, *Communication with Audit Committees Concerning Independence*, and has discussed with the independent accountant the independent accountant's independence. COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis (“CD&A”) discusses our 2015 executive compensation program as it relates to the individuals serving as the Company’s Chief Executive Officer (“CEO”), John C. Dean and A. Catherine Ngo, Chief Financial Officers (“CFO”), Denis K. Isono and David S. Morimoto and the three (3) other most highly paid executive officers, Lance A. Mizumoto, President and Chief Banking Officer, Lee Y. Moriwaki, Executive Vice President, Chief Information Officer and David W. Hudson, Executive Vice President, Division Manager, Community Banking. We refer to these executive positions as our Named Executive Officers (“NEOs”).

Executive Summary

Under the oversight of our Compensation Committee of the Board of Directors (the “Committee”), our executive compensation program is designed to attract, retain and incent talented individuals to lead our organization to achieve sustained growth and strong performance for the long term. It includes base pay set at or near the market median, while considering the breadth and scope of each position, with variable incentive opportunities that meet or exceed market based on achieving or exceeding key performance objectives. The performance measure used in 2015 to determine the funding level of the Annual Incentive Compensation Plan and the vesting of performance shares under the Annual Long Term Equity Grant Program were 2015 budgeted Net Income and 2017 Return on Assets, respectively.

2015 Executive Compensation Highlights

Planned CEO/CFO Succession Implemented. Effective July 1, 2015, based on Board approval, the Company implemented the CEO/CFO succession plan in which A. Catherine Ngo was appointed President & CEO of Central Pacific Financial Corp. and Central Pacific Bank, John C. Dean was appointed Executive Chair and David S. Morimoto was appointed EVP, Chief Financial Officer & Treasurer.

Strong incentive compensation with short and long term performance alignment. In 2015, our incentive compensation goal was shifted from Core Net Income to Net Income (GAAP) due to our continued progress toward more normalized earnings. Our Long Term Equity Grant target was changed from Net Income to a 2017 Return on Assets (ROA) target with two-thirds (2/3) of the grant subject to cliff vesting based on attainment of the ROA target and one-third (1/3) step vesting with time.

2015 Outcomes

	Type of Compensation	Earnings Opportunity	Relevant Performance Metric	
Cash	Annual Cash Incentive (“ICP”)	Executive Incentive Pool funding is subject to attainment of 85% of Net Income Goal at which the incentive pool will be funded at 50%. Maximum funding is 150% based on attainment of 110% of Net Income goal.	Net Income Compared to 2015 Budgeted Net Income	Pool funding based on Net Income achieved was calculated at 120% of target funding, however management recommended and the Compensation Committee approved, funding at 110% of target funding to normalize for non-recurring items. Our CEO pay is consistent with our Solid Financial Performance. The Company continued to realize solid growth on its balance sheet and ended the year with \$5.1 billion in assets, primarily due to a strong increase in loan balances. Net income also increased by 13.4%, year-over-year, which supported the successful execution of a stock repurchase program. In addition to an increase in the quarterly cash dividend in the fourth quarter, a special one-time dividend was paid. Other significant milestones were achieved in the Bank's business plan, including operational streamlining and automating the branch information processing platform. Key factors contributing to the Company's financial performance in 2015 included the improving economic and business conditions in the State of Hawaii, as well as a focused strategy on building and strengthening customer relationships. Significant highlights for the year ended December 31, 2015 were as follows:

· Net income was \$45.9 million compared to \$40.5 million in 2014

· Total loans and leases increased by \$279.3 million, or by 9.5%, over 2014

· Total deposits increased by \$323.1 million, or by 7.9%, over 2014

· Capital returned to shareholders through stock repurchases of approximately 4.1 million shares, or 11.7% of common shares outstanding as of 12/31/14

· Increase in quarterly cash dividend from \$0.12 to \$0.14 per share in the 4th quarter, and a special one-time cash dividend of \$0.32 per share

2013 Net Income excludes a non-cash income tax benefit of \$119.8 million related to a reversal of the valuation allowance against the Company's net deferred tax assets. All other non-recurring income and expense items are included in 2014 and 2015 net income figures.

Emphasis on variable pay for our CEO. A significant portion of our CEO's target compensation is comprised of variable short and long term pay. The exhibit below shows the target compensation for our newly appointed President & CEO, effective July 1, 2015 compared to compensation for CEOs in the peer group at the median.

1. Peer group data is of our Compensation Peer Group based on an analysis completed by McLagan in May 2015.

2. Fixed pay represents base salary.

3. Variable pay represents annual cash incentives and equity grants.

Key Areas of Focus and Results for 2015.

Focus on Process Improvement & Expense Reduction

Continue to focus on improving processes, upgrading systems and reducing expenses as evidenced by the continued improvement in the Efficiency Ratio

Compensation Governance

The Company's executive compensation program is supported by strong corporate governance and Board oversight. The Committee meets on a regular basis and routinely meets in executive sessions without management present.

Executive Compensation Governance and Practices

Oversight and Governance

Independent Oversight of Executive Compensation. The Board Compensation Committee (comprised of independent directors) oversees and makes recommendations to the Board of Directors on compensation matters as it relates to all NEO's. The Committee also evaluates and recommends to the Board, appropriate policies and decisions relative to executive officer compensation and benefits, including oversight design and administration of executive compensation programs and the Company's compensation policies, practices, and incentive plans for non-executives. It also oversees preparation of executive compensation disclosures for inclusion in our Proxy Statement.

Independent Board Members. Subject to the recommendation of the Board Compensation Committee, all of the independent directors of the Board review and approve the compensation for the President & CEO and Executive Chair.

Independent Compensation Consultant. The Committee has retained McLagan, an independent executive compensation consulting firm for the financial services industry, to provide advice and recommendations on Board and executive compensation matters under the oversight and responsibilities as defined by the Compensation Committee Charter. The Committee in its sole discretion selects the consultant, approves their fees and defines their scope of responsibilities.

Independent Legal Advisor. The Committee retains an independent legal advisor, Manatt Phelps & Phillips, to ensure executive compensation decisions comply with all legal and regulatory requirements.

Active Committee engagement. In 2015, the Committee held 5 meetings to discuss compensation matters.

Alignment with Shareholder Interests

Equity Ownership Guidelines. Our NEOs and Board members are subject to robust equity ownership guidelines, which require our President & CEO to retain and hold shares equivalent in value to four (4) times annual base salary.

Executive Compensation Governance and Practices

Compensation Management & Risk Mitigation

Compensation Risk Management. Committee oversight includes evaluating and monitoring the Company's compensation programs, policies, and practices, which could have a material adverse effect on the risk profile of the overall Company. Appropriate reviews would include at least semi-annual discussions with the Committee appointed senior risk officer to confirm all incentive and bonus compensation plans, structures and arrangement, including those for NEOs, do not have a reasonable likelihood to encourage excessive and unnecessary risk taking and do not pose a threat to the overall value of the Company and annual reviews with the independent compensation consultant and independent legal advisor. The overall finding from these reviews is that the Company's plans, policies and practices do not individually or in their entirety encourage unnecessary or excessive risks that were reasonably likely to have a material adverse effect on the Company or threaten the overall value of the Company.

Incentive Plan Risk Management. Our Annual Cash Incentive Plan is subject to threshold performance at which the incentive pool is funded at 50% of target funding level. At maximum performance, the incentive pool is capped at 150% of target funding level.

Long Term Equity Grant Risk Management. Cliff vesting applies to the performance share portion of the annual Long Term Equity Grant award, which comprises 2/3rds of the award. The award is capped at 150% of target grant.

No Hedging or Pledging. Pursuant to our Insider Trading Policy,

Executive Compensation Features

Competitive Peer Analysis. Compensation decisions are made considering the compensation and performance data of our Compensation Peer Group. All components of executive compensation are reviewed at least annually with consultation of the Committee selected compensation consulting firm.

No Employment Agreements. None of the NEOs are covered under employment agreements that provide for any additional payments or benefits beyond what is generally available to all other employees if they terminate their employment for good reason, are terminated by the Company without cause, or they voluntarily resign, assuming no change-in-control occurred.

Executive Benefits. Our executives receive the same retirement, health and welfare and other benefits generally available to all employees. As noted in footnote (i) following the "Summary Compensation Table", certain NEOs have received company-provided transportation services, security services and spousal travel.

No 280G Excise Tax Gross-ups. Our executives are not entitled to any Section 280G excise tax gross-up payments.

No Special Executive Retirement Benefits. Our executives are eligible to participate in the same 401(k) Plan as all other employees and the same Non-Qualified Deferred Compensation Plan available to a select group of management and highly compensated employees and are subject to the same eligibility requirements. One NEO earned a benefit under the Central Pacific Financial Corp. Defined Benefit Retirement plan prior to the plan being frozen on December 31, 2002. Benefits under this plan were provided to all other employees eligible to participate in the plan prior to it being frozen.

Executive Compensation Philosophy and Objectives

The central principle of our compensation philosophy is that executive compensation should align with shareholders' interest, without encouraging excessive and unnecessary risk that could threaten the overall value of the Company. The executive compensation program is designed to:

· **Drive performance relative to our strategic plan** and goals, including financial performance.

· **Balance the risk of short-term operational objectives** with the need to build long-term sustainable value.

· **Align executives' long-term interests with those of shareholders** by placing a portion of total compensation at risk, contingent on the Company's performance, without encouraging unnecessary and excessive risks that threaten the overall value of the Company.

· **Attract and retain highly qualified executives** to achieve our goals and to maintain an executive management group that can provide success and stability in leadership.

· Deliver compensation effectively, **providing value to the executive** in an appropriately risk-controlled and cost efficient manner.

· **Allow flexibility** in responding to changing laws, accounting standards, and business needs, as well as the constraints and dynamic conditions in the markets in which we do business.

· Be supported by **strong corporate governance**, including oversight by the Company's Board.

Our compensation program has multiple pay components, including a fixed annual base salary, variable annual cash incentive pay, fixed and variable annual long-term equity grants, and other benefits. We believe that over the long term, a combination of pay components is essential to drive executives to achieve strategic operating and financial goals. There is no set formula to determine the mix of the various pay components and the use of the components may change from year to year based on the Company's circumstances, market conditions, and competitive market for executive talent. We discuss each of the pay components and the role they play in our overall compensation structure in the "Compensation Framework" section.

Say-on-Pay

The Company is required to hold a separate non-binding shareholder vote to approve the compensation of its NEO's, as disclosed pursuant to the compensation disclosure rules of the SEC. This proposal, commonly known as a "Say-On-Pay" proposal, permits shareholders to endorse or not endorse the Company's executive compensation program. Because the shareholders' vote is advisory, it is not binding on the Board. However, when setting compensation and in determining compensation policies, the Committee took into account the results of the April 2015 shareholder advisory vote on executive compensation and will continually consider the outcome of this vote each time.

Our shareholders approved the compensation of our NEOs as disclosed in the Proxy Statement for the 2015 annual meeting. 98.69% of our shareholders voted in favor of the Company's executive compensation program. The Committee believes that the result of this vote is evidence that the Company's compensation policies and decisions are in the best interests of its shareholders and expects to apply similar principles going forward.

Compensation Committee Activity and Key Initiatives During 2015

The Committee evaluates existing compensation program components on an ongoing basis to maintain the Company's competitive position to meet the goal of attracting, retaining, and motivating key executives without encouraging unnecessary and excessive risk that could pose a threat to the overall value of the Company.

Role of Executives in Compensation Committee Deliberations. The Committee may request that the Executive Chair and/or the President & CEO be present at Committee meetings to discuss executive compensation and evaluate the performance of both the Company and individual executives. Other executives may be requested to attend Committee meetings to provide pertinent financial, legal, or operational information. Executives in attendance may provide their insights and suggestions, but only independent Committee members may vote on decisions regarding executive compensation and other Company compensation matters for recommendation to the Board.

The President & CEO and Executive Chair do not provide recommendations for their own compensation. The Committee may discuss compensation with them, but the Committee makes final deliberations in an executive session. Based on these deliberations, the Committee submits its recommendations to the entire group of independent members of the Board for approval. Compensation decisions for the President & CEO and Executive Chair are based on a variety of factors including but not limited to, Company performance, regulatory restrictions and guidance, periodic market reviews, and recommendations from independent external executive compensation consultants and legal counsel. For all other executives, the Committee considers the President & CEO's proposals. For all of the NEOs, including the President & CEO and Executive Chair, the Committee obtains and considers input from outside advisors including review of market and peer compensation data and trends in making its recommendations to the Board.

In 2015, the Committee completed the following initiatives and actions related to executive compensation:

Incentive Plan Review. Reviewed and discussed the merits of the various compensation and incentive arrangements to confirm they do not encourage any unnecessary and excessive risk that may threaten the value of the Company. These reviews included analysis and feedback from the designated senior risk officer ("SRO"), our SVP, Director of Enterprise Risk Management & Internal Audit & Credit Review, as well as, consultation and perspective from Human Resources, Compliance, Corporate Legal, Credit and Risk, outside legal counsel and executive compensation consultants, where appropriate.

Executive Appointments & Compensation Actions. In connection with our planned CEO succession, the Committee retained McLagan to review our executive compensation as well as board compensation. Details on compensation actions taken by the Board are reflected in the "Director Compensation" section as well as the "2015 Executive Compensation" section.

Executive Incentive Plan Actions

Approved the 2015 Long Term Equity grant plan design for Managing Committee members, including NEOs. The plan target was changed from budgeted Net Income to long-term targeted ROA. Two-thirds of the grant cliff vests after the third year based on attainment of 2017 actual ROA to target. The remaining one-third vests ratably with time over three years. Performance equity opportunity is capped at 150% of target.

Approved the 2015 Annual Incentive Plan performance goals, which aligned with the Board approved 2015 Business Plan.

Approved the 2014 Annual Incentive Plan payments for Managing Committee members, including NEOs, based on the achievement of corporate, business plan and personal goals.

Reviewed the 2014 performance of the Chairman & CEO and determined an overall performance score used to determine his Annual Incentive Plan payment.

·Board and Committee Performance and Compensation Actions

·Reviewed result of the 2014 Compensation Committee Self-Assessment.

·Approved changes in Board composition and compensation at a combined Compensation and Governance Committee meeting based on guidance from McLagan.

·Other Committee Actions

·Approved the 2015 Equity Grant Budget.

·Updated and approved the Stock Ownership guidelines to align with new executive appointments.

·Received a 2016 regulatory update from McLagan.

Pay Level and Benchmarking

Benchmarking is an important part of our executive compensation review process. It includes an external review against peer companies and an internal review, based on pay equity, job scope, responsibility and experience. McLagan, an executive compensation consulting firm, is retained to provide consultation to the Committee on the Company's NEO compensation as compared to our peers.

The Committee retained McLagan in May 2015 to conduct a market analysis against our Compensation Peer Group in preparation for our CEO and CFO succession, effective July 1, 2015. McLagan was also asked to report market data for all other Managing Committee members. Target total compensation following the 7/1/2015 adjustments, including base pay, short-term cash incentives, long-term equity grant and other compensation for the top five CPB executives was 19% below the market median on average compared to the Compensation Peer Group. Details on the Compensation Peer Group are provided below in the section titled "Compensation Peer Group".

Compensation was evaluated based on target cash and equity award levels including the 2016 proposed Annual Long-Term Equity Program, with equity awards allocated over the relevant performance period for each NEO. Each of the NEOs fell within an appropriate range of the market median after taking into account each NEO's unique value and contribution to the Company, individual performance, experience, internal pay equity relationships, and individual roles versus the benchmark positions. The total compensation for the newly appointed President & CEO was positioned below peer median.

In July 2015, commensurate with the CEO succession plan, John C. Dean was appointed Executive Chair and A. Catherine Ngo was appointed President & Chief Executive Officer. David S. Morimoto was appointed Chief Financial Officer & Treasurer succeeding Denis K. Isono, who assumed the position of Executive Vice President, Corporate Services.

Compensation Peer Group

The Committee reviews the Compensation Peer Group's composition on an annual basis and modifies the group as necessary to ensure alignment with the Company's compensation philosophy, structure, and targeted performance levels. For the 2015 analysis of executive compensation, the Compensation Peer Group was adjusted by eliminating banks that were no longer relevant for comparison based upon their asset size. The resulting group is comprised of 20 peers, with median assets of \$5 billion.

When benchmarking is used to help determine the actual pay levels of each NEO, the Committee compares comparable positions in the Peer Group and also considers issues of internal pay equity, scope of responsibilities and experience.

The criteria used to select the Peer Group were as follows:

1. Publicly-traded United States banks with executive compensation reported in public filings.
2. Focus on Western banks with assets ranging between \$2.5 billion and \$8 billion plus Territorial Bancorp Inc. and non-Western banks in major metropolitan areas with assets ranging between \$3 billion and \$8 billion.
3. Excludes TARP banks and Thrifts.
4. Excludes banks with currently outstanding severe enforcement actions.

The selection criteria resulted in a group of twenty (20) peers. CPF was positioned at the forty-fifth (45th) percentile in terms of asset size at the time of the most recent comprehensive review of the Peer Group members.

The Committee approved the following Peer Group for compensation benchmarking for 2015.

2015 Executive Compensation

Compensation Framework

Component and Purpose

2015 Highlights

Annual Cash Compensation

Base Salary

Fixed-based pay that reflects each executive's position, individual performance, experience, and expertise. In general, our compensation structure sets base pay at approximately the 50th percentile relative to peer banks.

Certain NEOs received an adjustment in his or her base salary due to promotions and/or changes in job responsibilities.

Annual Cash Incentives

Funding of the 2015 Annual Cash Incentive Plan ("ICP") Pool

No change in funding methodology from 2014 to 2015.

Provides variable compensation based on achievement of Company, Business Plan and Personal objectives.

Funding of the pool is determined and approved by the Committee and is subject to Net Income performance against our annual target (budget).

Based on the Company's Net Income performance against target, it was calculated that the pool should be funded at 120% of target funding.

Management, however, recommended and the Committee approved that the pool be funded at only 110% of target, based on normalizing attained Net Income for non-recurring items.

Individual ICP Awards.

Individual awards are determined based on pool funding, overall corporate, business plan and personal performance.

ICP payments are prorated for five (5) NEOs due to salary changes during 2015.

For 2015, incentive plan payments for NEOs ranged between 34% to 68% of base salary, (prorated for NEOs receiving base salary adjustments in 2015).

Long Term Equity Incentive Compensation

Performance Share Units (PSUs)

Provides incentives to motivate and retain executives and to reward for

Consistent with prior years, the Committee continued to use a mix of performance-based PSUs and time-based RSUs.

long term Return on Assets (ROA) performance against target. 2/3rds of the annual grant cliff vests after three years based on attainment of 2017 target ROA.

1/3rd of annual grant step vests with one-third vesting each year for three years.

Ms. Ngo and Messrs Mizumoto, Morimoto and Moriwaki received a special grant of RSU's at time of promotion. These grants step vest with time over a 5 year period.

Restricted Stock Units (RSUs)

Provides incentives for retention and long-term creation of shareholder value over the three year period.

Goal tied to longer performance period. To balance the use of Net Income, which is already used to fund the annual cash incentive plan, the long term incentive equity compensation performance metric was changed from the prior year metric of Net Income to Return on Assets, ("ROA"). In addition, while the Net Income goal in prior years had been tied to the plan year Net Income, the new ROA goal is tied to target ROA for the third year in the three year vesting period. (i.e. awards granted 2015 will vest based on 2017 ROA).

Benefits & Perks

Health, Welfare, Retirement Programs and Perquisites

Executives receive the same health, welfare and retirement benefits generally available to all other employees.

The company provided transportation services, security services and spousal travel benefits for certain NEOs in 2015.

Salary

We pay our executives cash salaries intended to be competitive and consider the executive's experience, performance, responsibilities, and past and potential contribution to the Company. The objective of paying salary is to provide a base level of compensation to fairly reflect the executive's job and scope of the role performed within the Company. There is no specific weighting applied to the factors considered in setting the level of base salaries, and the Committee uses its own judgment and expertise in determining appropriate salaries within the parameters of our compensation philosophy and objectives, with the guidance and support from an independent executive compensation consultant. While there continues to be a strong focus on collaboration and teamwork, modest adjustments have been made to base salaries over time to recognize the differences in the scope of the positions and individual contributions.

In making salary decisions, the Committee also considers the positioning of projected total compensation with target-level performance incentives. Because we set incentive opportunities as a percentage of salary, changes in salary have an effect on total compensation. Before recommending salary changes to the Board, the Committee reviews the projected total compensation based on the proposed salaries, considering both internal and external equity, and confirms that total compensation for the CEO and non-CEO NEOs are appropriately aligned with the market.

The base salaries of all NEOs were within acceptable range of the peer benchmarks. The table below shows the NEOs' annual base salaries at the beginning of 2015 and the change to annual base salaries throughout the year, if applicable.

Annual Variable Cash Compensation

We use annual variable cash compensation to focus executives' attention on current strategic priorities, drive achievement of short-term corporate objectives and to align their interests with our shareholders. Our NEOs participate in an Annual Incentive Compensation Plan under which the Committee approved an incentive pool with funding tied to threshold achievement of eighty-five percent (85%) of budgeted Net Income. At threshold, the incentive pool is funded at fifty percent (50%); funding increases based on the level of Net Income results and is capped at one hundred fifty percent (150%). Actual opportunity for each executive is based on a percentage of base pay. If the pool funding is in excess of the collective formula amounts for NEOs, the remaining balance may be provided as a funded discretionary distribution to NEOs based on performance and/or may be used to increase the incentive opportunity available to non-NEOs.

Budgeted Net Income for 2015 was set during the 2015 budgeting process and was determined with consideration of our continued improvement and outlook in financial performance, including loan and deposit growth, credit risk profile, operational efficiencies and capital position. Incentive pool funding based on actual results is summarized in the table below with maximum funding capped at one hundred fifty percent (150%) of target funding.

Description	Net Income	Pool Funding %³	Incentive Pool Funding
Threshold Funding @ 85% of Net Income Target	\$37,417,000	50%	\$ 563,625
Target Funding @ 100% of Net Income Target ¹	\$44,021,000	100%	\$1,127,250
Maximum Funding @ 110% of Net Income Target	\$48,420,000	150%	\$1,690,875
Actual 2015 Net Income @ 104% of Target Net Income	\$45,868,000	120%	\$1,352,700
Approved Incentive Pool Funding ²		110%	\$1,239,975

1. Target incentive pool funding is based on target incentive opportunity as a percentage of base pay for all participants in the Executive Annual Incentive Compensation Plan, including NEOs.

2. While the calculated pool funding was 120%, Management proposed and the Compensation Committee approved pool funding at 110% of target. This recommended adjustment is based on normalizing the net income results for non-recurring items.

3. The pool funding % is calculated using the following interpolation table:

% of Net Income Target	Pool Funding	% Spread Between Points
85% to 89%	50% to 70%	5.0%

90% to	99%	75% to	98%	2.5%
	100%		100%	NA
101% to	110%	105% to	150%	5.0%

Performance goals are focused on a common set of corporate and business plan goals aligned with the board approved budget, annual business plan, and a variety of personal performance goals, focused on financial results, leadership and development.

A summary of the incentive opportunities and goal weightings is as follows:

John C. Dean, A. Catherine Ngo, Lance A. Mizumoto, David S. Morimoto and Denis K. Isono received an e. adjustment in base pay effective 7/1/15. Lee Y. Moriwaki received an adjustment in base pay effective 2/1/15. All adjustments align with promotions and/or realignment due to the implementation of the executive succession plan.

f. Include changes in annual incentive opportunity commensurate with the adjustments noted in “e” above.

g. New incentive dollars based on changes in opportunity reflected in “f” above or if no change in ICP opportunity, reflects new salary multiplied by current ICP%, column “f”.

h. Prorated opportunity based on the timing of compensation and incentive plan changes in 2015.

Target award based on achieving 104% of Net Income goal. Based on this result, funding of the incentive pool would be calculated as 120% of target funding, however, management recommended and the Compensation Committee approved funding at only 110% of target due to normalization of net income for non-recurring items.

i. Total calculated award based on goal weight and performance ratings.

The plan allows for discretionary adjustments as recommended by management and approved by the Compensation Committee. The adjustment for Mr. Hudson was in recognition of the work on the implementation of the automated teller and sales/service platform.

n. Final award payments. (l+m rounded to the nearest \$1,000)

Long-Term Incentives

We use long-term incentives (“LTIs”) to encourage ownership, foster retention, and align executives’ interests with the long-term interests of shareholders.

In 2015, the Committee recommended to the Board and the Board approved a long-term equity grant with both performance and time features. The incentive opportunity for each NEO as well as the plan design was developed in consultation with compensation consultants, McLagan. The amount of equity received by each NEO was determined as a percentage of base salary as follows:

Name	Equity Opportunity as a % of Base Pay
John C. Dean	65%
A. Catherine Ngo	65%
Lance A. Mizumoto	65%
David S. Morimoto	30%
Denis K. Isono	40%
Lee Y. Moriwaki	35%
David W. Hudson	35%

On February 17, 2015, the NEOs received a long-term equity grant of Restricted Stock Units (“RSUs”) under the 2013 Stock Compensation Plan, with a portion based on performance vesting and the other portion on time vesting. For the performance vested portion, the performance criteria was based on 2017 target return on assets (ROA), which upon attainment, shares will cliff-vest 100% on February 15, 2018. The performance criteria and target goal are described below.

With respect to two-thirds (66.67%) of the grant, vesting of shares is subject to attainment of 90% (threshold) of Board approved 2017 target ROA of 0.93%. If the threshold is not achieved, all shares will be forfeited. If the threshold is achieved, the actual number of shares earned will be based on the level of ROA achievement, with a stretch opportunity capped at 150% of target.

Name	Performance Shares at Threshold 90% of 2017 Target ROA	Performance Shares at 100% of 2017 Target ROA	Performance Shares at Maximum 150% of 2017 Target ROA
John C. Dean	4,873	5,415	8,122
A Catherine Ngo	4,873	5,415	8,122
Lance A. Mizumoto	4,873	5,415	8,122
David S. Morimoto	1,312	1,458	2,187
Denis K. Isono	2,699	2,999	4,498
Lee Y. Moriwaki	1,881	2,090	3,135
David W. Hudson	1,924	2,138	3,207

With respect to one-third (33.33%) of the grant, vesting is time-based, wherein one-third of the RSUs will vest on the anniversaries of the grant date for the first, second and third year, respectively. If the vest date falls on a weekend or holiday, the actual vest date will be the next business day.

Below are the number of RSUs granted on February 17, 2015, separated between performance vesting and time vesting. The performance vesting portion of the grant is shown at target. Actual attainment will be determined after year-end 2017, based on 2017 ROA results compared to the 2017 ROA target.

Name	Type of Grant	Grant Date	Fair Value	1/3rd of Shares Granted Time Vesting	2/3rd of Shares Granted @ Target Performance Vesting	Actual Performance Vested Shares Based on Attainment of Target

Other Compensation

NEOs are generally provided the same level of benefits as all other employees. As such, they are eligible to participate in the Company 401(k) Retirement Savings Plan which provides for a Company match, as well as standard health, life and disability policies. In addition NEOs receive certain perquisites such as transportation services, security services and spousal travel benefits.

The total amounts of these items are reflected in the “All Other Compensation” column of the Summary Compensation Table. The Committee believes that these items enhance the effectiveness of our key executives and are consistent with industry practices in comparable banking companies. The Committee regularly reviews the benefits and perquisites we provide.

Adjustment or Recovery of Awards

Our long-term incentive plan currently permits us to cancel or terminate outstanding awards for any reason (which would include misstated or restated financial results). In addition, Section 304 of the Sarbanes-Oxley Act mandates the recovery of incentive awards that would not have otherwise have been paid in the event we are required to restate our financial statements due to noncompliance with any financial reporting requirements as a result of misconduct. In that case, the CEO and CFO must reimburse us for (1) any bonus or other incentive- or equity-based compensation received during the twelve (12) months following the first public issuance of the non-complying document, and (2) any profits realized from the sale of our securities during those twelve (12) months. Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”) requires the Securities and Exchange Commission to direct national securities exchanges to prohibit the listing of any security that fails to adopt a compliant clawback policy for any current or former executive officer if the company is required to file a financial restatement as a result of material noncompliance with applicable securities laws. This clawback applies to incentive-based compensation during the 3-year period preceding the date on which the issuer is required to prepare an accounting restatement, based on the erroneous data, in excess of what would have been paid to the executive officer under the accounting restatement. The NYSE has proposed but has not yet finalized rules implementing Section 954 of the Dodd-Frank Act.

Timing of Equity Grants

On October 25, 2006, we adopted guidelines regarding the equity grant process and related controls. The guidelines, which were reviewed and readopted (with minor changes) on May 20, 2011, are to help ensure that all equity grants are reported and disclosed correctly and accurately, are properly accounted for, and receive proper tax treatment. The grant guidelines are designed to avoid making regular grants during a regularly scheduled Company blackout period, to avoid having the timing of grant dates be affected by material nonpublic information, and to confirm the use of no less than the closing price of our stock on the grant date. Grants take place on the fifteenth (15th) day of February, May, August and November or the next available trading day if the fifteenth falls on a holiday or weekend.

Stock Ownership Guidelines

On May 31, 2012, the Board reinstated stock ownership guidelines applicable to all Board members and executive officers of the Company and Bank. The purpose of the guidelines is to define ownership expectations for these individuals to more closely align with our shareholders. Commensurate with the executive realignment in July 2015, in February 2016, the Board approved a revision to the guidelines, in which the position of Executive Chair is expected to own shares at the same level as non-employee Directors and the President, Chief Banking Officer (CBO) is expected to own shares with a market value of two and one-half (2.5) times annual base salary. There was no change to the ownership guidelines for the President & CEO or Executive Vice Presidents.

The following is a summary of the Stock Ownership Guidelines:

Position	Multiple of Base Pay or # of Shares	Timeframe to Achieve Multiple
Executive Chair and Non-Employee Directors	25,000 Shares	5 years
President & CEO	50% of the after-tax net amount of shares granted and vested after 5/1/12 until such time as the amount of ownership has a market value of 4 times annual base salary	<i>Should the multiple not be achieved within the stated timeframe, 100% of the net, after-tax shares vested after the end of the timeframe, must be held until the multiple is achieved.</i>

Position	Multiple of Base Pay or # of Shares	Timeframe to Achieve Multiple
President & CBO	50% of the after-tax net amount of shares granted and vested after 5/1/12 until such time as the amount of ownership has a market value of 2 ½ times annual base salary	5 years <i>Should the multiple not be achieved within the stated timeframe, 100% of the net, after-tax shares vested after the end of the timeframe, must be held until the multiple is achieved.</i>
Executive Vice President	50% of the after-tax net amount of shares granted and vested after 5/1/12 until such time as the amount of ownership has a market value of 1 ½ times annual base salary	5 years <i>Should the multiple not be achieved within the stated timeframe, 100% of the net, after-tax shares vested after the end of the timeframe, must be held until the multiple is achieved.</i>

Employment Agreements

None of the current NEOs has an employment agreement with the Company and each is employed on an “at will” basis.

Change-In-Control Agreement

None of our NEOs has a Change-In-Control agreement. All NEOs hold unvested options or restricted stock units granted under the Company’s 2004 Stock Compensation Plan and the 2013 Stock Compensation Plan under which the vesting of certain outstanding awards will accelerate regardless of whether employment terminates. Certain other awards provide for accelerated vesting upon a change-in-control only in the event that employment also terminates in connection with the change-in-control. See the “Potential Payments Upon Change-in-Control” section later in this document.

Tax and Accounting Considerations

We consider tax and accounting implications in designing our compensation programs. For example, in selecting long-term incentive compensation elements, the Committee reviews the projected expense amounts and expense timing associated with alternative types of awards. Under current accounting rules (i.e., Financial Accounting Standard ASC Topic 718), we must expense the grant-date fair value of share-based grants such as restricted stock, restricted stock units, performance shares, and SARs settled in our stock. The grant-date fair value is amortized and expensed over the service period or vesting period of the grant. In contrast, awards that are not share-based (e.g., phantom stock) are expensed based on a value that may fluctuate widely over the vesting period and is not fixed at grant date. In selecting appropriate incentive devices, the Committee reviews extensive modeling analyses and considers the related tax and accounting issues. Section 162(m) of the Internal Revenue Code generally places a limit on the tax deduction for non-performance based compensation in excess of \$1 million paid to the chief executive officer and the other three most highly compensated executive officers (excluding the chief financial officer) in a taxable year. The Committee has retained the flexibility, however, to pay compensation which is not deductible for tax purposes because it believes that doing so permits it to take into consideration factors that are consistent with good corporate governance and the best interests of our shareholders.

Conclusion

The Committee and the Board believe that it is important to provide market-based compensation that will attract and retain highly talented executives with the appropriate competencies and skills necessary for the Company's continued success. Such compensation would include the full range of compensation components, including incentive awards that vary with financial performance, based on achieving our strategic plan and goals without encouraging excessive and unnecessary risk that could threaten the overall value of the Company. Equally important is the need to maintain shareholder confidence and to comply with regulatory executive compensation restrictions and guidance by developing appropriate compensation structures.

The Committee evaluates our compensation program and its related components on an ongoing basis. Adjustments are made to the compensation structure as appropriate to maintain the Company's competitive position for executive talent, consistent with our compensation philosophy and objectives, and within the parameters of regulatory restrictions and guidance. The Committee intends this Compensation Discussion and Analysis to provide full, transparent disclosure of what we believe to be a thoughtfully designed compensation structure which focuses on the achievement of short-term objectives, and affirms the philosophy for driving long-term shareholder value.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

As of December 31, 2015, the Committee of the Company was composed entirely of the following four (4) independent Directors: Christine H. H. Camp (Chair), Earl E. Fry, Saedene Ota and Crystal K. Rose. None of the Committee members were or are former officers or employees of the Company. Relationships that members of the Committee have had and/or maintain with the Company are described in the "Corporate Governance and Board Matters-Director Independence and Relationships" section.

EXECUTIVE COMPENSATION

The table below summarizes the total compensation earned by each of the NEOs for the fiscal year ended December 31, 2015, 2014 and 2013 to the extent such executives served during such periods. The material terms of compensation of the NEOs are discussed in the Compensation narrative following the "Options Exercised and Stock Vested" table.

(c) For year 2015, this column represents actual salary earned at year-end 2015.

(e) For year 2015, this column represents the value of Restricted Stock Units (RSUs), granted on February 17, 2015, at the closing share price of \$24.01. With respect to two-thirds of the grant, vesting is subject to attainment of 90% (threshold) of Board approved 2017 target return on assets (ROA). If threshold is not achieved, all shares will be forfeited. If threshold is achieved, shares will cliff vest at 100% on February 15, 2018. Actual shares earned will be based on 2017 target ROA results, with a stretch opportunity capped at 150% of target. The performance-vesting portion of the RSUs granted in 2015 were valued based on the probability that 2017 target ROA will be achieved at 100%. Based on the closing price of \$24.01 at the time of grant, the value of the performance-vested RSUs (66.67% of the total) that the NEOs are eligible to receive at the maximum performance level is as follows (in each case 150% of the amount included in the table): John C. Dean - \$195,009, A. Catherine Ngo - \$195,009, Lance A. Mizumoto - \$195,009, Denis K. Isono - \$107,997, David S. Morimoto - \$52,510, Lee Y. Moriwaki - \$75,271, David W. Hudson - \$77,000. With respect to the remaining one-third (33.33%) portion of the grant, vesting is time-based, whereby shares vest equally over a three-year period.

Commensurate with Lee Y. Moriwaki's appointment to Chief Information Officer in February 2015, this column also includes the value of RSUs granted to Mr. Moriwaki on February 17, 2015. Based on the closing share price of \$24.01 at the time of grant, the value of RSUs granted was \$124,996. Vesting of shares is time-based, whereby shares vest equally over a five- year period.

Commensurate with the executive realignment in July 2015, for Ms. Ngo and Messrs. Mizumoto and Morimoto, this column also includes the value of RSUs granted on August 17, 2015. Based on the closing share price of \$22.68 at the time of grant, the value of RSUs granted were as follows: A. Catherine Ngo - \$299,988, Lance A. Mizumoto - \$149,983, David S. Morimoto - \$124,989. Vesting of shares is time-based, whereby shares vest equally over a five- year period.

NON-QUALIFIED DEFERRED COMPENSATION

On July 1, 2008, the Company implemented a non-qualified deferred compensation plan that allows employees (including the NEOs) with an annual base salary of \$90,000 or greater to defer up to 80% of base pay and/or 100% of annual bonuses and commissions earned for a specified year on a pre-tax basis. The plan does not feature any matching or other contributions from the Company. John Dean elected to defer 15% of his salary, equivalent to \$39,844; Denis K. Isono elected to defer 30% of his 2014 annual incentive (paid in 2015), equivalent to \$37,500; and David W. Hudson elected to defer 50% of his 2014 annual incentive (paid in 2015), equivalent to \$50,000, under the Central Pacific Bank Deferred Compensation Plan in 2015.

A participant is always 100% vested in his or her deferred amounts. Deferred amounts under the Central Pacific Bank Deferred Compensation Plan are subject to adjustment for appreciation or depreciation in value based on hypothetical measurement funds in one or more of the available measurement funds chosen by the participant. The participant's deferred amounts are generally payable beginning on the earliest to occur of (a) a specified time chosen by the participant, (b) the participant's death, (c) the participant's disability, (d) a separation of service (either at the time of separation or six (6) months after the separation in the case of a key employee), or (e) an "unforeseeable emergency." For distributions due to a disability or upon a separation from service due to retirement, the participant may choose to receive deferred amounts as a lump-sum payment or in annual installments over a period not to exceed fifteen (15) years. Distributions for all other events will be made in the form of a lump sum.

The Bank's obligations with respect to the deferred amounts under the Central Pacific Bank Deferred Compensation Plan are payable from its general assets. The assets are at all times subject to the claims of the Company's general creditors.

Set forth below is information regarding the amounts deferred by or for the benefit of the NEOs in 2015.

The funding of the Annual Incentive Compensation Plan requires a minimum level of overall Company performance before any individual incentive award can be made. The incentive pool is funded upon achieving a minimum of 85% of budgeted Net Income. At threshold, the incentive pool is funded at fifty percent (50%); thereafter, funding increases based on the level of Net Income results and capped at one hundred fifty percent (150%).

In February 2016, the Committee approved the payment of cash incentives to NEOs. The Company achieved 104% of the performance Net Income target which equates to incentive pool funding at 120% of target. Management, however, proposed, and the Committee approved, the lowering of the pool funding to 110% of target to normalize the actual Net Income due to non-recurring items. Individual target incentives are based on a percentage of salary. Actual award payouts are reflected under “(e)”, “Target” and were calculated based on corporate, business plan, and personal performance results.

2. On February 17, 2015, the NEOs received a Board approved grant of RSUs, with the following features:

- One-third (33.33%) of RSUs vest based on time, in equal increments over a three-year period.

- Two-thirds (66.67%) of RSUs vest based on attainment of Board approved 2017 target ROA of 0.93% (target). If 90% of target (threshold) is not achieved, all shares will be forfeited. If threshold is achieved, the actual number of shares earned will be based on the level of ROA achievement, with a stretch opportunity capped at 150% of target shares.

3. Commensurate with the executive realignment in July 2015, on August 17, 2015, Ms. Ngo and Messrs. Mizumoto and Morimoto each received a Board approved grant of RSUs. The award vests equally over a five-year period on August 15 of each year.

Commensurate with Lee Y. Moriwaki's appointment to Chief Information Officer in February 2015, on February 17, 4.2015, Mr. Moriwaki received a Board approved grant of RSUs. The award vests equally over a five-year period on February 15 of each year.
