CAPITAL FINANCIAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2018 AND 2017

NOTE 1 - BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements of Capital Financial Holdings, Inc., a North Dakota corporation, and its subsidiary Capital Financial Services, Inc. ("CFS") (collectively, the "Company"), included herein have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the footnotes thereto contained in the Annual Report on Form 10-K for the year ended December 31, 2017, of Capital Financial Holdings, Inc., as filed with the SEC. The condensed consolidated balance sheet at December 31, 2017, contained herein, was derived from audited financial statements, but does not include all disclosures included in the Form 10-K and applicable under accounting principles generally accepted in the United States of America. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America, but not required for interim reporting purposes, have been condensed or omitted.

In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments (which are of a normal, recurring nature) necessary for a fair presentation of the financial statements. The results of operations for the nine months ended September 30, 2018, are not necessarily indicative of operating results for the entire year.

NOTE 2 – ACCOUNTING PRONOUNCEMENTS ISSUED BUT NOT YET EFFECTIVE

A summary of our significant accounting policies is included in Note 1 of our 2017 Form 10-K filed on April 18, 2018.

ASU 2014-15 —Presentation of Financial Statements—Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. The amendment requires that in connection with preparing financial statements for each annual and interim reporting period, an entity's management should evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued.

ASU 2016-02 – Leases (Topic 842): - The amendments in this update supersede nearly all existing lease guidance under GAAP. The amendment requires the recognition of lease assets and lease liabilities on the balance sheet by lessees for those leases currently classified as operating leases. Qualitative and quantitative disclosures are required. This update is effective for fiscal years beginning after December 15, 2018 including interim periods within those fiscal years. Early application is permitted. Entities are required to apply the amendments at the beginning of the earliest period presented using a modified retrospective approach.

NOTE 3 – BUSINESS VENTURES

On June 9, 2014, the Company launched a new wholly-owned operating subsidiary, Capital Natural Resources, Inc. ("CNR").

The Company did not reclassify its Statements of Cash Flows to reflect the various discontinued operations. Cash flows from 2017 are combined with the cash flows from continuing operations within each of the categories presented.

NOTE 5 - STOCK WARRANTS, STOCK SPLITS, AND STOCK OPTIONS

The Company measures and records compensation expense for all share-based payment awards made to employees and directors, including employee stock options, based on estimated fair values. There were no compensation costs or deferred tax benefits recognized for stock-based compensation awards for the nine months ended September 30, 2018 and 2017. Changes are due to the stock buyback and reverse stock split.

Option activity for the twelve months ended December 31, 2017 and the nine months ended September 30, 2018 was as follows:

	Number of Options	Weighted Average Exercise Price per Share	Weighted Average Grant Date Fair Value	Aggregate Intrinsic Value
Outstanding on January 1, 2017	207	\$8,692	\$4,435	\$-
Granted	-	-	-	
Exercised	-	-	-	
Canceled	39	-	-	
Outstanding on December 31, 2017	168	\$5,000	\$3,844	\$-
Granted		-	-	
Exercised		-	-	
Canceled		-	-	
Outstanding on September 30, 2018	167	\$4,538	\$4,190	\$-

Exercisable options totaled 168 at December 31, 2017 and totaled 167 at September 30, 2018.

NOTE 6 – INCOME TAXES

Deferred taxes arise because of different tax treatment between financial statement accounting and tax accounting, known as “temporary differences.” The Company records the tax effect of these temporary differences as “deferred tax assets” (generally items that can be used as a tax deduction or credit in future periods) and “deferred tax liabilities” (generally items for which the Company has received a tax deduction and has not yet been recorded in the consolidated statement of operations).

Management reviews and adjusts those estimates annually based upon the most current information available. However, because the recoverability of deferred taxes is directly dependent upon the future operating results of the Company, actual recoverability of deferred taxes may differ materially from management’s estimates.

At September 30, 2018, the Company has approximately 114,000 in federal net operation loss carry forward which begins to expire in 2036.

NOTE 7 - EARNINGS PER SHARE

Basic earnings per share are computed by dividing earnings available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflect per share amounts that would have resulted if dilutive potential common shares had been converted to common shares. The following reconciles amounts reported in the financial statements:

	Nine Months Ended September 30, 2018			Nine Months Ended September 30, 2017		
	Numerator	Denominator	Per Share Amount	Numerator	Denominator	Per Share Amount
Net (Loss) Income of continuing operations	\$173,257			\$(41,366)		
Less: Preferred Stock Dividends	–			–		
Income of Continuing Operations Available to Common Shareholders Basic and diluted Earnings per share	\$173,257	1,241	138	\$(41,366)	1,241	\$(33)

Options and warrants to purchase 377 common shares at exercise prices between \$3,500 and \$14,300 were outstanding at September 30, 2018, but were not included in the computation of diluted earnings per share for the quarter ending September 30, 2018 and September 30, 2017, because their effect was anti-dilutive.

NOTE 8 – RULE 4110 (c)(1)

The Company operates under the provision of FINRA Rule 4410 (c)(1) and, accordingly, the member is restricted from withdrawing equity capital for a period of one year from the date such equity capital is contributed, unless otherwise permitted by FINRA in writing. Subject to the requirements of paragraph (c)(2) of this Rule, this paragraph shall not preclude a member from withdrawing profits earned.

NOTE 9 – REGULATORY MATTERS

The broker dealer (“BD”) segment of Capital Financial Services, Inc. is subject to periodic examinations by its regulators, the Financial Industry Regulatory Authority (“FINRA”) and the Securities Exchange Commission (“SEC”).

During the second quarter of 2018, FINRA conducted a routine examination of the broker dealer segment which was concluded October 9, 2018. The broker dealer is in the process of adopting recommendations and procedures ascertained from the examination process.

NOTE 10 – BUILDING PURCHASE

On November 16, 2016, the Company closed on the acquisition of a commercial office building and associated property (the “Office Building”) located at 1801 Burdick Expressway West, Minot, North Dakota from Evanmark Enterprises, LLC, an entity unrelated to the Company. The contract purchase price for the Office Building was \$975,000, exclusive of closing costs of \$9,091, with all built-in fixtures and other furniture, fixtures and equipment in the building remaining with the property. The Company paid \$509,091 at closing toward the purchase price of the Office Building with the remaining \$475,000 of the purchase price financed by a commercial real estate loan from American Bank Center (“American Bank”) in the principal amount of \$675,000, \$475,000 of which was applied to the purchase price of the Office Building and \$200,000 of which was utilized for renovations to the building. Renovations to the building were made in 2017 and 2018 to bring the total cost of the land and building to \$1,200,557 at September 30, 2018. The loan carries a fixed interest rate of 4.879% per annum for five (5) years with the rate to be adjusted at the end of the five (5) year period based on the Wall Street Journal Prime interest rate plus 1.759%. American Bank has a first priority mortgage on the Office Building.

NOTE 11 – SEGMENT REPORTING

The Company organizes its current business units into two reportable segments: broker dealer services and holding company. The broker-dealer services segment distributes securities and insurance products to retail investors through a network of registered representatives through its wholly-owned subsidiary, Capital Financial Services, Inc. (“CFS”), a Wisconsin corporation. The holding company encompasses cost associated with its office building, business development and acquisitions, dispositions of subsidiary entities and results of discontinued operations, dividend income and recognized gains or losses.

The Company's reportable segments are strategic business units that offer different products and services. They are managed separately because each business requires different technology and marketing strategies.

Segment assets of continued operations	\$1,529,349	\$3,639,515	\$5,168,864

NOTE 12 – LEGAL PROCEEDINGS

The Company operates in a legal and regulatory environment that exposes it to potentially significant litigation risks. Issuers of certain alternative products sold by the Company are in Bankruptcy or may have other financial difficulties. As a result of such alleged failings of alternative products and the uncertainty of client recovery from the various product issuers, the Company is subject to several legal and/or arbitration proceedings. These proceedings include customer suits, investments alleged to be unsuitable, and bankruptcies and other issues brought by claimants. The Company vigorously contests the allegations of the various proceedings and believes that there are multiple meritorious legal and fact based defenses in these matters. Such cases are subject to many uncertainties, and their outcome is often difficult to predict, including the impact on operations or on the financial statements, particularly in the earlier stages of a case. The Company makes provisions for cases brought against it when, in the opinion of management after seeking legal advice, it is probable that a liability exists, and the amount can be reasonably estimated. The current proceedings are subject to uncertainties and, as such, the Company is unable to estimate the possible loss or range of loss that may result from the outcome of these cases; however, results in these cases that are against the interests of the Company could have a severe negative impact on the financial position of the Company. As of September 30, 2018, the Company was a defendant in five on-going suits or arbitrations as discussed above.

ITEM 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Operating revenues

Total operating revenues for the nine months ended September 30, 2018 were \$11,472,761, an decrease of less than 1% from \$11,500,813 for the same period ended September 30, 2017. The increase for the nine-month period net revenue categories are listed below.

The increase is due to an increase in fee income received by the broker dealer segment as a result of higher values of client assets under management.

The Company earns investment advisory fees in connection with the broker dealer's registered investment advisor. The Company pays the registered representatives a portion of this fee income as commission expense and retains the balance. These fees constituted approximately 14% of the Company's consolidated revenues for the nine months ended September 30, 2018 and 13% of the Company's consolidated revenues for the nine months ended September 30, 2017. There is no fee income attributable to the other segment.

The decrease was due primarily to the decrease in commissions received by the broker dealer segment due to reductions in the number of registered representatives and increase in managed accounts generating fee income rather than commission income. Commission revenues constituted approximately 86% of the Company's consolidated revenues for the nine months ended September 30, 2018. There is no commission income attributable to the other segment.

Other fee income

Other operating fee income for the nine months ended September 30, 2018 was \$72,164, a decrease of 81% from \$384,269 for the same period ended September 30, 2017. The decrease was primarily due to a decrease in the income received related to alternative investment products. There is no other operating fee income attributable to the holding segment. Other operating fee income constituted less than 1% of the Company's consolidated revenues for the nine months ended September 30, 2018.

Rent income

The Company has historically relied upon sales of its equity securities and debt instruments, as well as bank loans, for liquidity and growth. Management believes that the Company's existing liquid assets, along with cash flow from operations, will provide the Company with sufficient resources to meet its ordinary operating expenses during the next twelve months. Significant, unforeseen or extraordinary expenses may require the Company to seek alternative financing sources, including common or preferred share issuance or additional debt financing.

In addition to the liabilities coming due in the next twelve months, management expects that the principal needs for cash may be broker recruitment, repurchase of shares of the Company's common stock, and debt service. Management also expects to realize increased compliance and legal costs with respect to its broker dealer subsidiary related to regulatory and litigation matters.
