Table of Contents

NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. Basis of Presentation

As used herein, the "Company," "we," "us," or "our" refers to Selective Insurance Group, Inc. (the "Parent"), and its subsidiaries, except as expressly indicated or unless the context otherwise requires. Our interim unaudited consolidated financial statements ("Financial Statements") have been prepared by us in conformity with U.S. generally accepted accounting principles ("GAAP") and the rules and regulations of the U.S. Securities and Exchange Commission ("SEC") regarding interim financial reporting. The preparation of the Financial Statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported financial statement balances, as well as the disclosure of contingent assets and liabilities. Actual results could differ from those estimates. All significant intercompany accounts and transactions between the Parent and its subsidiaries are eliminated in consolidation.

Certain amounts in the prior years' Financial Statements and related notes have been reclassified to conform to the 2015 presentation. Such reclassifications had no effect on our net income, stockholders' equity, or cash flows.

Our Financial Statements reflect all adjustments that, in our opinion, are normal, recurring, and necessary for a fair presentation of our results of operations and financial condition. Our Financial Statements cover the second quarters ended June 30, 2015 ("Second Quarter 2015") and June 30, 2014 ("Second Quarter 2014") and the six-month periods ended June 30, 2015 ("Six Months 2015") and June 30, 2014 ("Six Months 2014"). The Financial Statements do not include all of the information and disclosures required by GAAP and the SEC for audited annual financial statements. Results of operations for any interim period are not necessarily indicative of results for a full year. Consequently, our Financial Statements should be read in conjunction with the consolidated financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2014 ("2014 Annual Report") filed with the SEC.

NOTE 2. Accounting Pronouncements

In June 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-12, Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period ("ASU 2014-12"). ASU 2014-12 requires that performance targets that affect vesting and could be achieved after the requisite service period be treated as performance conditions. The effective date for ASU 2014-12 is for interim and annual periods beginning after December 15, 2015. The amendments in ASU 2014-12 may be applied either prospectively to all awards granted or modified after the effective date or retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented and all modified awards thereafter. The adoption of ASU 2014-12 will not affect us, as we are currently recording expense consistent with the requirements of this accounting update.

In August 2014, the FASB issued ASU 2014-15, Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern ("ASU 2014-15"). ASU 2014-15 is intended to define management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and provide related footnote disclosures. ASU 2014-15 is effective for annual periods ending after December 15, 2016, and interim periods within annual periods beginning after December 15, 2016. Early application is permitted. As the requirements of this literature are disclosure only, ASU 2014-15 will not impact our financial condition or results of operations.

In February 2015, the FASB issued ASU 2015-02, Amendments to the Consolidation Analysis ("ASU 2015-02"). ASU 2015-02 affects the following areas: (i) limited partnerships and similar legal entities; (ii) the evaluation of fees paid to a decision maker or a service provider as a variable interest; (iii) the effect of fee arrangements on the primary beneficiary determination; (iv) the effect of related parties on the primary beneficiary determination; and (v) certain investment funds. ASU 2015-02 is effective for interim and annual reporting periods beginning after December 15, 2015. The amendments in ASU 2015-02 may be applied either retrospectively or by applying a modified retrospective

approach, which would include recording a cumulative-effect adjustment to equity as of the beginning of the fiscal year of adoption. While we are currently evaluating ASU 2015-02, we do not expect a material impact on our financial condition or results of operations from the adoption of this guidance.

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs (“ASU 2015-03”). ASU 2015-03 requires debt issuance costs to be netted against the related debt liability in the balance sheet rather than presented as a separate asset. ASU 2015-03 is effective for interim and annual reporting periods beginning after December 15, 2015. Early adoption is permitted. The amendments in ASU 2015-03 should be applied on a retrospective basis. As the requirements of this literature are disclosure only, ASU 2015-03 will not impact our financial condition or results of operations.

Table of Contents

In April 2015, the FASB issued ASU 2015-05, Customer's Accounting for Fees Paid in a Cloud Computing Arrangement ("ASU 2015-05"). ASU 2015-05 provides guidance to customers with cloud computing arrangements that include a software license. If a cloud computing arrangement includes a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. ASU 2015-05 is effective for interim and annual reporting periods beginning after December 15, 2015. Early adoption is permitted. The amendments in ASU 2015-05 can be adopted either prospectively to all arrangements entered into or materially modified after the effective date or retrospectively. While we are currently evaluating ASU 2015-05, we do not expect a material impact on our financial condition or results of operations from the adoption of this guidance.

In May 2015, the FASB issued ASU 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) ("ASU 2015-07"). ASU 2015-07 provides guidance that investments for which the practical expedient is used to measure fair value at net asset value per share ("NAV") must be removed from the fair value hierarchy. Instead, those investments must be included as a reconciling line item so that the total fair value amount of investments in the disclosure is consistent with the amount on the balance sheet. ASU 2015-07 also includes disclosure requirements for investments for which the NAV practical expedient was used to determine fair value. ASU 2015-07 is effective for interim and annual reporting periods beginning after December 15, 2015. Early adoption is permitted. The amendments in ASU 2015-07 should be applied retrospectively to all periods presented. As the requirements of this literature are disclosure only, the application of this guidance will not impact our financial condition or results of operations.

In May 2015, the FASB issued ASU 2015-09, Disclosures about Short-Duration Contracts ("ASU 2015-09"). ASU 2015-09 requires companies that issue short duration contracts to disclose additional information, including: (i) incurred and paid claims development tables; (ii) frequency and severity of claims; and (iii) information about material changes in judgments made in calculating the liability for unpaid claim adjustment expenses, including reasons for the change and the effects on the financial statements. ASU 2015-09 is effective for annual periods beginning after December 15, 2015, and interim periods within annual periods beginning after December 15, 2016. The amendments in ASU 2015-09 should be applied retrospectively by providing comparative disclosures for each period presented, except for those requirements that apply only to the current period. As the requirements of this literature are disclosure only, the application of this guidance will not impact our financial condition or results of operations.

NOTE 3. Statements of Cash Flow

Supplemental cash flow information is as follows:

(\$ in thousands)	Six Months ended June 30,	
	2015	2014
Cash paid during the period for:		
Interest	\$ 10,947	11,113
Federal income tax	8,500	3,699
Non-cash items:		
Tax-free exchange of fixed income securities, available-for-sale ("AFS")	17,120	9,180
Tax-free exchange of fixed income securities, held-to-maturity ("HTM")	—	15
Corporate actions related to equity securities, AFS ¹	884	334
Assets acquired under capital lease arrangements	3,478	2,124

¹Examples of such corporate actions include non-cash acquisitions and stock splits.

Included in "Other assets" on the Consolidated Balance Sheet was \$5.2 million at June 30, 2015 and \$8.5 million at June 30, 2014 of cash received from the National Flood Insurance Program ("NFIP"), which is restricted to pay flood claims under the Write Your Own ("WYO") program.

NOTE 4. Investments

(a) The amortized cost, net unrealized gains and losses, carrying value, unrecognized holding gains and losses, and fair value of HTM fixed income securities as of June 30, 2015 and December 31, 2014 were as follows:

June 30, 2015

(\$ in thousands)	Amortized Cost	Net Unrealized Gains (Losses)	Carrying Value	Unrecognized Holding Gains	Unrecognized Holding Losses	Fair Value
Foreign government	\$5,292	3	5,295	—	(3) 5,292
Obligations of states and political subdivisions	216,870	1,395	218,265	8,441	—	226,706
Corporate securities	18,532	(265) 18,267	2,565	—	20,832
Asset-backed securities ("ABS")	1,976	(280) 1,696	285	—	1,981
Commercial mortgage-backed securities ("CMBS")	4,676	(340) 4,336	555	—	4,891
Total HTM fixed income securities	\$247,346	513	247,859	11,846	(3) 259,702

December 31, 2014

(\$ in thousands)	Amortized Cost	Net Unrealized Gains (Losses)	Carrying Value	Unrecognized Holding Gains	Unrecognized Holding Losses	Fair Value
Foreign government	\$5,292	47	5,339	55	—	5,394
Obligations of states and political subdivisions	285,301	2,071	287,372	11,760	—	299,132
Corporate securities	18,899	(273) 18,626	2,796	—	21,422
ABS	2,818	(455) 2,363	460	—	2,823
CMBS	4,869	(432) 4,437	753	—	5,190
Total HTM fixed income securities	\$317,179	958	318,137	15,824	—	333,961

Unrecognized holding gains and losses of HTM securities are not reflected in the Financial Statements, as they represent fair value fluctuations from the later of: (i) the date a security is designated as HTM; or (ii) the date that an other-than-temporary impairment ("OTTI") charge is recognized on an HTM security, through the date of the balance sheet. Our HTM securities had an average duration of 1.6 years as of June 30, 2015.

Table of Contents

(b) The cost/amortized cost, unrealized gains and losses, and fair value of AFS securities as of June 30, 2015 and December 31, 2014 were as follows:

June 30, 2015

(\$ in thousands)	Cost/ Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value
AFS fixed income securities:				
U.S. government and government agencies	\$ 109,506	6,420	(65) 115,861

Total AFS equity securities	159,011	32,725	(336) 191,400
Total AFS securities	\$4,134,797	133,303	(10,578) 4,257,522

¹ CMBS includes government guaranteed agency securities with a fair value of \$10.2 million at June 30, 2015 and \$13.2 million at December 31, 2014.

² RMBS includes government guaranteed agency securities with a fair value of \$25.7 million at June 30, 2015 and \$32.4 million at December 31, 2014.

Unrealized gains and losses of AFS securities represent fair value fluctuations from the later of: (i) the date a security is designated as AFS; or (ii) the date that an OTTI charge is recognized on an AFS security, through the date of the balance sheet. These unrealized gains and losses are recorded in Accumulated other comprehensive (loss) income ("AOCI") on the Consolidated Balance Sheets.

Table of Contents

(c) The following tables summarize, for all securities in a net unrealized/unrecognized loss position at June 30, 2015 and December 31, 2014, the fair value and pre-tax net unrealized/unrecognized loss by asset class and by length of time those securities have been in a net loss position:

June 30, 2015	Less than 12 months		12 months or longer

¹ Gross unrealized losses include non-OTTI unrealized amounts and OTTI losses recognized in AOCI. In addition, this column includes remaining unrealized gain or loss amounts on securities that were transferred to an HTM designation in the first quarter of 2009 for those securities that are in a net unrealized/unrecognized loss position.

² Unrecognized gains represent fair value fluctuations from the later of: (i) the date a security is designated as HTM; or (ii) the date that an OTTI charge is recognized on an HTM security.

The table below provides our net unrealized/unrecognized loss positions by impairment severity as of June 30, 2015 compared to December 31, 2014:

(\$ in thousands)

June 30, 2015			December 31, 2014		
Number of Issues	% of Market/Book	Unrealized/Unrecognized Loss	Number of Issues	% of Market/Book	Unrealized/Unrecognized Loss
495	80% - 99%	\$20,483	350	80% - 99%	\$10,596
—	60% - 79%	—	—	60% - 79%	—
—	40% - 59%	—	—	40% - 59%	—
—	20% - 39%	—	—	20% - 39%	—
—	0% - 19%	—	—	0% - 19%	—
		\$20,483			\$10,596

The increase in the number of securities in a loss position in our portfolio as of June 30, 2015 compared to December 31, 2014, and the related loss amounts were mainly driven by a higher interest rate environment. During Six Months 2015, interest rates on the 10-year U.S. Treasury Note rose by 18 basis points. This interest rate movement had a negative impact on the valuation of our fixed income securities portfolio, thus increasing the number of securities in a loss position and the corresponding dollar amount of unrealized losses.

In addition, unrealized losses on our equity portfolio increased to \$4.4 million. These unrealized losses are related to 27 securities with an average impairment severity of 4% of cost, which reflects a temporary dislocation in market values that are expected to recover in the near term.

We do not intend to sell any of the securities in the tables above, nor do we believe we will be required to sell any of these securities. We have also reviewed these securities under our OTTI policy, as described in Note 2. "Summary of Significant Accounting Policies" within Item 8. "Financial Statements and Supplementary Data." of our 2014 Annual Report, and have concluded that they are temporarily impaired. This conclusion reflects our current judgment as to the financial position and future prospects of the entity that issued the investment security and underlying collateral. If our judgment about an individual security changes in the future, we may ultimately record a credit loss after having originally concluded that one did not exist, which could have a material impact on our net income and financial position in future periods.

Table of Contents

(d) Fixed income securities at June 30, 2015, by contractual maturity, are shown below. Mortgage-backed securities ("MBS") are included in the maturity tables using the estimated average life of each security. Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations, with or without call or prepayment penalties.

Listed below are the contractual maturities of HTM fixed income securities at June 30, 2015:

(\$ in thousands)	Carrying Value	Fair Value
Due in one year or less	\$87,104	88,688
Due after one year through five years	149,865	158,092
Due after five years through 10 years	10,890	12,922
Total HTM fixed income securities	\$247,859	259,702

Listed below are the contractual maturities of AFS fixed income securities at June 30, 2015:

(\$ in thousands)	Fair Value
Due in one year or less	\$447,462
Due after one year through five years	2,146,816
Due after five years through 10 years	1,504,185
Due after 10 years	94,355
Total AFS fixed income securities	\$4,192,818

(e) The following table summarizes our other investment portfolio by strategy and the remaining commitment amount associated with each strategy:

Other Investments (\$ in thousands)	Carrying Value		June 30, 2015 Remaining Commitment
	June 30, 2015	December 31, 2014	
Alternative Investments			
Secondary private equity	\$18,997	21,807	7,072
Private equity	16,027	20,126	8,823

Total alternative investments	74,188	92,968	62,261
Other securities	11,232	6,235	2,269
Total other investments	\$85,420	99,203	64,530

For a description of our seven alternative investment strategies, as well as information regarding redemption, restrictions, and fund liquidations, refer to Note 5. "Investments" in Item 8. "Financial Statements and Supplementary Data." of our 2014 Annual Report.

The following table sets forth gross summarized financial information for our other investments portfolio, including the portion not owned by us. The investments are carried under the equity method of accounting. The last line of the table below reflects our share of the aggregate income, which is the portion included in our Financial Statements. As the majority of these investments report results to us on a one quarter lag, the summarized financial statement information for the three and six-month periods ended March 31 is as follows:

Income Statement Information (\$ in millions)	Quarter ended March 31,		Six Months ended March 31,	
	2015	2014	2015	2014
Net investment income	\$8.5	22.8	\$95.6	85.7

Table of Contents

(f) We have pledged certain AFS fixed income securities as collateral related to: (i) our outstanding borrowing of \$60 million with the Federal Home Loan Bank of Indianapolis ("FHLBI"); and (ii) our reinsurance obligations related to our 2011 acquisition of our excess and surplus lines ("E&S") book of business. In addition, certain securities were on deposit with various state and regulatory agencies to comply with insurance laws. We retain all rights regarding all securities pledged as collateral.

The following table summarizes the market value of these securities at June 30, 2015:

(\$ in millions)	FHLBI Collateral	Reinsurance Collateral	State and Regulatory Deposits	Total
U.S. government and government agencies	\$7.7	—	24.7	32.4
Obligations of states and political subdivisions	—	4.9	—	4.9
Corporate securities	—	4.8	—	4.8
CMBS	1.5	—	—	1.5
RMBS	54.5	2.0	—	56.5
Total pledged as collateral	\$63.7	11.7	24.7	100.1

(g) The Company did not have exposure to any credit concentration risk of a single issuer greater than 10% of the Company's stockholders' equity, other than certain U.S. government agencies, as of June 30, 2015 or December 31, 2014.

(h) The components of pre-tax net investment income earned for the periods indicated were as follows:

(\$ in thousands)	Quarter ended June 30,		Six Months ended June 30,	
	2015	2014	2015	2014
Fixed income securities	\$30,659	33,781	\$61,626	\$64,809
Equity securities	2,384	1,736	4,176	3,185
Short-term investments	23	14	48	33
Other investments	1,422	3,553	(2,118)	8,771
Investment expenses	(2,258)	(2,310)	(4,585)	(4,490)
Net investment income earned	\$32,230	36,774	59,147	72,308

(i) The following tables summarize OTTI by asset type for the periods indicated:

Second Quarter 2015	Gross	Included in Other Comprehensive Income ("OCI")	Recognized in Earnings

Reductions for securities for which the amount previously recognized in OCI was recognized in earnings because of intention or potential requirement to sell before recovery of amortized cost	—	—
	—	—

Additional increases to the amount related to credit loss for which an OTTI was previously recognized		
Accretion of credit loss impairments previously recognized due to an increase in cash flows expected to be collected	—	—
Balance, end of period	\$1,013	5,534

Table of Contents

(j) The components of net realized gains, excluding OTTI charges, for the periods indicated were as follows:

(\$ in thousands)	Quarter ended June 30,		Six Months ended June 30,	
	2015	2014	2015	2014
HTM fixed income securities				
Gains	\$2	3	2	3
Losses	—	(3) (1) (14
AFS fixed income securities				
Gains	487	780	1,989	938
Losses	(18) (31) (130) (143
AFS equity securities				
Gains	830	4,362	22,148	12,679
Losses	(270) (153) (1,346) (324
Other investments				
Gains	—	—	—	—
Losses	—	—	(654) —
Total net realized gains (excluding OTTI charges)	\$1,031	4,958	22,008	13,139

Realized gains and losses on the sale of investments are determined on the basis of the cost of the specific investments sold. Proceeds from the sale of AFS securities were \$19.5 million and \$157.9 million in Second Quarter and Six Months 2015, respectively. The \$22.0 million in net realized gains for Six Months 2015 was primarily related to the sale of AFS equity securities due to a change in our dividend equity strategy from a quantitative, model-driven stock selection strategy to a fundamentally-based stock selection approach that incorporates an assessment of the sustainability and growth rate of a company's dividends and future cash flow.

The \$5.0 million and \$13.1 million in net realized gains in Second Quarter and Six Months 2014, respectively, were primarily related to the sale of AFS equity securities due to the quantitative rebalancing of our dividend yield strategy holdings within our equity portfolio.

NOTE 5. Indebtedness

Of our ten insurance subsidiaries ("Insurance Subsidiaries"), we have two domiciled in Indiana ("Indiana Subsidiaries") that are members of the FHLBI. In January 2015, the Indiana Subsidiaries borrowed \$15 million in the aggregate from the FHLBI for general corporate purposes. The unpaid principal amount accrues interest of 0.63%, which is paid on the 15th of every month. The principal amount is due on July 22, 2016. For a summary of the Indiana Subsidiaries' borrowings from the FHLBI, refer to Note 10. "Indebtedness" in Item 8. "Financial Statements and Supplementary Data." of our 2014 Annual Report.

Table of Contents

NOTE 6. Fair Value Measurements

The following table presents the carrying amounts and estimated fair values of our financial instruments as of June 30, 2015 and December 31, 2014:

(\$ in thousands)	June 30, 2015		December 31, 2014	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial Assets				
Fixed income securities:				
HTM	\$247,859	259,702	318,137	333,961
AFS	4,192,818	4,192,818	4,066,122	4,066,122
Equity securities, AFS	228,883	228,883	191,400	191,400
Short-term investments	168,349	168,349	131,972	131,972
Financial Liabilities				
Notes payable:				
0.63% borrowings from FHLBI	15,000	14,999	—	—
1.25% borrowings from FHLBI	45,000	45,290	45,000	45,244
7.25% Senior Notes	49,897	56,607	49,896	59,181
6.70% Senior Notes	99,408	109,656	99,401	114,845
5.875% Senior Notes	185,000	183,742	185,000	185,000
Total notes payable	\$394,305	410,294	379,297	404,270

The fair values of our financial assets and liabilities are generated using various valuation techniques and are placed into the fair value hierarchy considering the following: (i) the highest priority is given to quoted prices in active markets for identical assets (Level 1); (ii) the next highest priority is given to quoted prices in markets that are not active or inputs that are observable either directly or indirectly, including quoted prices for similar assets in markets that are not active and other inputs that can be derived principally from, or corroborated by, observable market data for substantially the full term of the assets (Level 2); and (iii) the lowest priority is given to unobservable inputs supported by little or no market activity and that reflect our assumptions about the exit price, including assumptions that market participants would use in pricing the asset (Level 3). An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation. Transfers between levels in the fair value hierarchy are recognized at the end of the reporting period.

For a discussion of the techniques used to value our financial assets and liabilities, refer to Note 2. "Summary of Significant Accounting Policies" in Item 8. "Financial Statements and Supplementary Data." of our 2014 Annual Report.

Table of Contents

The following tables provide quantitative disclosures of our financial assets that were measured at fair value at June 30, 2015 and December 31, 2014:

Table of Contents

The following table provides a summary of the changes in the fair value of securities measured using Level 3 inputs and related quantitative information for the six-month period ended June 30, 2015.

June 30, 2015 (\$ in thousands)	Common Stock
Fair value, December 31, 2014	\$2,900
Total net (losses) gains for the period included in:	
OCI	—
Net income	—
Purchases	—
Sales	(115)
Issuances	—
Settlements	—
Transfers into Level 3	—
Transfers out of Level 3	—
Fair value, June 30, 2015	\$2,785

The \$2.9 million in fair value of securities measured using Level 3 prices remained unchanged during the full year 2014. The price for the securities, which were measured using Level 3 inputs at June 30, 2015 and December 31, 2014, was obtained through statements provided by the issuer, which we review for reasonableness.

The following tables provide quantitative information regarding our financial assets and liabilities that were disclosed at fair value at June 30, 2015 and December 31, 2014:

June 30, 2015 (\$ in thousands)	Assets/ Liabilities Disclosed at Fair Value at 6/30/2015	Fair Value Measurements Using Quoted Prices in

Table of Contents

NOTE 8. Segment Information

Selective Insurance Group, Inc., through its Insurance Subsidiaries, offers property and casualty insurance products in the standard and E&S marketplaces. We classify our business into four reportable segments, which are as follows:

Standard Commercial Lines - comprised of insurance products and services provided in the standard marketplace to commercial enterprises, which are typically businesses, non-profit organizations, and local government agencies.

Standard Personal Lines - comprised of insurance products and services, including flood insurance coverage, provided primarily to individuals acquiring coverage in the standard marketplace.

E&S Lines - comprised of insurance products and services provided to customers who have not obtained coverage in the standard marketplace.

Investments - invests the premiums collected by our Standard Commercial Lines, Standard Personal Lines, and E&S Lines, as well as our earnings and amounts generated through our capital management strategies, which may include the issuance of debt and equity securities.

In the fourth quarter of 2014, we revised our reporting segments from our previously-reported Standard Insurance Operations segment to Standard Commercial Lines and Standard Personal Lines. For information regarding this change, see Note 11. "Segment Information" in Item 8. "Financial Statements and Supplementary Data." of our 2014 Annual Report.

In computing the results of each segment, we do not make adjustments for interest expense or net general corporate expenses. While we do not fully allocate taxes to all segments, we do allocate taxes to our Investments segment as we manage that segment on after-tax results. We do not maintain separate investment portfolios for the segments and therefore, do not allocate assets to the segments.

In the first quarter of 2014, we sold the renewal rights to our \$37 million self-insured group, or "SIG," book of business within the Standard Commercial Lines segment. We decided to opportunistically sell this small and specialized book of pooled business as a significant portion of the business was produced outside of our standard lines footprint, and proved difficult to grow. As this was a renewal rights sale, we will continue to service policies that were in force at the date of the sale. We continue to remain active in the municipal and public school marketplace for individual risks that procure traditional insurance programs rather than pooling arrangements. The proceeds from this sale, which amounted to \$8 million, are included in "Miscellaneous income" within the table below as a component of Standard Commercial Lines revenue.

Table of Contents

The following summaries present revenues (net investment income and net realized gains on investments in the case of the Investments segment) and pre-tax income for the individual segments:

Revenue by Segment (\$ in thousands)	Quarter ended June 30,		Six Months ended June 30,	
	2015	2014	2015	2014

Note 11. Litigation

In the ordinary course of conducting business, we are named as defendants in various legal proceedings. Most of these proceedings are claims litigation involving our Insurance Subsidiaries as either: (i) liability insurers defending or providing indemnity for third-party claims brought against our customers; or (ii) insurers defending first-party coverage claims brought against them. We account for such activity through the establishment of unpaid loss and loss expense reserves. We expect that the ultimate liability, if any, with respect to such ordinary course claims litigation, after consideration of provisions made for potential losses and costs of defense, will not be material to our consolidated financial condition, results of operations, or cash flows.

Our Insurance Subsidiaries are also from time to time involved in other legal actions, some of which assert claims for substantial amounts. These actions include, among others, putative class actions seeking certification of a state or national class. Such putative class actions have alleged, for example, improper reimbursement of medical providers paid under workers compensation and personal and commercial automobile insurance policies. Our Insurance Subsidiaries also are involved from time to time in individual actions in which extra-contractual damages, punitive damages, or penalties are sought, such as claims alleging bad faith in the handling of insurance claims. We believe that we have valid defenses to these cases. We expect that the ultimate liability, if any, with respect to such lawsuits, after consideration of provisions made for estimated losses, will not be material to our consolidated financial condition. Nonetheless, given the large or indeterminate amounts sought in certain of these actions, and the inherent unpredictability of litigation, an adverse outcome in certain matters could, from time to time, have a material adverse effect on our consolidated results of operations or cash flows in particular quarterly or annual periods. As of June 30, 2015, we do not believe the Company was involved in any legal action that could have a material adverse effect on our consolidated financial condition, results of operations, or cash flows.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Forward-Looking Statements

As used herein, the "Company," "we," "us," or "our" refers to Selective Insurance Group, Inc., and its subsidiaries, except as expressly indicated or unless the context otherwise requires. In this Quarterly Report on Form 10-Q, we discuss and make statements regarding our intentions, beliefs, current expectations, and projections regarding our company's future operations and performance. Such statements are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are often identified by words such as "anticipates," "believes," "expects," "will," "should," and "intends" and their negatives. We caution prospective investors that such forward-looking statements are not guarantees of future performance. Risks and uncertainties are inherent in our future performance. Factors that could cause actual results to differ materially from those indicated by such forward-looking statements include, but are not limited to, those discussed under Item 1A. "Risk Factors" below in Part II "Other Information." These risk factors may not be exhaustive. We operate in a continually changing business environment and new risk factors emerge from time to time. We can neither predict such new risk factors nor can we assess the impact, if any, of such new risk factors on our businesses or the extent to which any factor or combination of factors may cause actual results to differ materially from those expressed or implied in any forward-looking statements in this report. In light of these risks, uncertainties, and assumptions, the forward-looking events discussed in this report might not occur. We make forward-looking statements based on currently available information and assume no obligation to update these statements due to changes in underlying factors, new information, future developments, or otherwise.

Introduction

Selective Insurance Group, Inc., through its subsidiaries, offers property and casualty insurance products in the standard and excess and surplus ("E&S") marketplaces. We classify our business into four reportable segments, which are as follows:

Standard Commercial Lines - comprised of insurance products and services provided in the standard marketplace to commercial enterprises, which are typically businesses, non-profit organizations, and local government agencies.

Standard Personal Lines - comprised of insurance products and services, including flood insurance coverage, provided primarily to individuals acquiring coverage in the standard marketplace.

E&S Lines - comprised of insurance products and services provided to customers who have not obtained coverage in the standard marketplace.

Investments - invests the premiums collected by our Standard Commercial Lines, Standard Personal Lines, and E&S Lines, as well as our earnings and amounts generated through our capital management strategies, which may include the issuance of debt and equity securities.

Our Standard Commercial and Standard Personal Lines products and services are written through nine subsidiaries, some of which write flood business through the Write Your Own ("WYO") program of the National Flood Insurance Program ("NFIP").

Our E&S products and services are written through one subsidiary. This subsidiary, Mesa Underwriters Specialty Insurance Company ("MUSIC"), provides us with a nationally-authorized non-admitted platform to offer insurance products and services to customers who have not obtained coverage in the standard marketplace.

Our ten insurance subsidiaries are collectively referred to as the "Insurance Subsidiaries."

The following is Management's Discussion and Analysis ("MD&A") of the consolidated results of operations and financial condition, as well as known trends and uncertainties, that may have a material impact in future periods.

Consequently, investors should read the MD&A in conjunction with the consolidated financial statements in our 2014 Annual Report filed with the U.S. Securities and Exchange Commission ("SEC").

Table of Contents

In the MD&A, we will discuss and analyze the following:

• Critical Accounting Policies and Estimates;

Financial Highlights of Results for the second quarters ended June 30, 2015 ("Second Quarter 2015") and June 30, 2014 ("Second Quarter 2014") and the six-month periods ended June 30, 2015 ("Six Months 2015") and June 30, 2014 ("Six Months 2014");

• Results of Operations and Related Information by Segment;

• Federal Income Taxes;

• Financial Condition, Liquidity, Short-term Borrowings, and Capital Resources;

• Ratings;

• Off-Balance Sheet Arrangements; and

• Contractual Obligations, Contingent Liabilities, and Commitments.

Critical Accounting Policies and Estimates

Our unaudited interim consolidated financial statements include amounts based on our informed estimates and judgments for those transactions that are not yet complete. Such estimates and judgments affect the reported amounts in the consolidated financial statements. Those estimates and judgments most critical to the preparation of the consolidated financial statements involve the following: (i) reserves for loss and loss expenses; (ii) pension and post-retirement benefit plan actuarial assumptions; (iii) other-than-temporary investment impairments ("OTTI"); and (iv) reinsurance. These estimates and judgments require the use of assumptions about matters that are highly uncertain and, therefore, are subject to change as facts and circumstances develop. If different estimates and judgments had been applied, materially different amounts might have been reported in the financial statements. For additional information regarding our critical accounting policies, refer to pages 37 through 48 of our 2014 Annual Report.

Financial Highlights of Results for Second Quarter and Six Months 2015 and Second Quarter and Six Months 2014¹

(\$ and shares in thousands, except per share amounts)	Quarter ended June 30,			Six Months ended June 30,		
	2015	2014	Change % or Points	2015	2014	Change % or Points
Generally Accepted Accounting Principles ("GAAP") measures:						
Revenues	\$521,973	506,849	3 %	\$1,045,865	1,015,920	3 %
Net investment income earned	32,230	36,774	(12)	59,147	72,308	(18)
Income before federal income tax	46,765	39,521	18	103,055	64,605	60
Net income	33,768	29,341	15	73,476	47,315	55
Diluted net income per share	0.58	0.51	14	1.27	0.83	53
Diluted weighted-average outstanding shares	57,805	57,260	1	57,761	57,215	1
GAAP combined ratio	94.1	% 97.8	(3.7) pts	94.3	% 99.4	(5.1) pts
Statutory combined ratio	93.5	97.5	(4.0)	93.2	99.2	(6.0)
Invested assets per dollar of stockholders' equity	\$3.76	3.83	(1.8) %	\$3.76	3.83	(1.8) %
After-tax yield on investments	2.0	% 2.3	(0.3) pts	1.9	% 2.3	(0.4) pts
Return on average equity ("ROE")	10.3	9.7	0.6	11.4	7.9	3.5
Non-GAAP measures:						
Operating income ²	\$35,991	26,390	36 %	\$63,425	39,673	60 %
Diluted operating income per share ²	0.62	0.46	35	1.10	0.70	57
Operating ROE ²	11.0	% 8.7	2.3 pts	9.8	% 6.6	3.2 pts

¹ Refer to the Glossary of Terms attached to our 2014 Annual Report as Exhibit 99.1 for definitions of terms used in this Form 10-Q.

² Operating income is used as an important financial measure by us, analysts, and investors, because the realization of investment gains and losses on sales in any given period is largely discretionary as to timing. In addition, these realized investment gains and losses, as well as OTTI that are charged to earnings and the results of discontinued operations, could distort the analysis of trends. See below for a reconciliation of operating income to net income in accordance with GAAP. Operating ROE is calculated by dividing annualized operating income by average stockholders' equity.

Table of Contents

The following table reconciles operating income and net income for the periods presented above:

(\$ in thousands, except per share amounts)	Quarter ended June 30,		Six Months ended June 30,	
	2015	2014	2015	2014
Operating income	\$35,991	26,390	63,425	39,673
Net realized (losses) gains, net of tax	(2,223) 2,951	10,051	7,642
Net income	\$33,768	29,341	73,476	47,315
Diluted operating income per share	\$0.62	0.46	1.10	0.70
Diluted net realized (losses) gains per share	(0.04) 0.05	0.17	0.13
Diluted net income per share	\$0.58	0.51	1.27	0.83

We are currently targeting an operating ROE that is three points higher than our weighted-average cost of capital, or approximately 11.5%. Our ROE contributions by component are as follows:

ROE	Quarter ended June 30,		Six Months ended June 30,	
	2015	2014	2015	2014
Insurance Segments	5.8	% 2.2	5.5	0.5
Investment income ¹	7.5	9.1	7.1	9.0
Other	(2.3) (2.6) (2.8) (2.9
Operating ROE	11.0	8.7	9.8	6.6
Net realized (losses) gains ¹	(0.7) 1.0	1.6	1.3
ROE	10.3	% 9.7	11.4	7.9

¹ Investment segment results are the combination of Investment income and Net realized (losses) gains.

Insurance Segments

The key metric in understanding our insurance segments' contribution to operating ROE is the GAAP combined ratio. The following table provides a quantitative foundation for analyzing this ratio:

All Lines (\$ in thousands)	Quarter ended June 30,			Six Months ended June 30,		
	2015	2014	Change % or Points	2015	2014	Change % or Points
GAAP Insurance Operations Results:

29

Table of Contents

The improvements in our GAAP combined ratio in both the quarter and year-to-date periods were driven by the following factors:

Lower catastrophe and non-catastrophe property losses as a result of reduced severity in weather-related events in Second Quarter and Six Months 2015 compared to the same periods last year. Quantitative details are as follows:

(\$ in millions)	Second Quarter 2015			Second Quarter 2014		Change in	
	Losses Incurred	Impact on Loss Ratio		Losses Incurred	Impact on Loss Ratio	Ratio	
Catastrophe losses	\$24.0	4.9	pts	\$27.2	5.9	pts	(1.0) pts
Non-catastrophe property losses	70.5	14.4		73.0	15.7		(1.3)
(\$ in millions)	Six Months ended 2015			Six Months ended 2014		Change in	
	Losses Incurred	Impact on Loss Ratio		Losses Incurred	Impact on Loss Ratio	Ratio	
Catastrophe losses	\$49.3	5.1	pts	\$61.6	6.7	pts	(1.6) pts
Non-catastrophe property losses	141.5	14.6		164.4	17.9		(3.3)

Earned rate in excess of expected loss inflation in Second Quarter and Six Months 2015. Written renewal pure price increases were 3.8% in Six Months 2015 and 5.2% in the last six months of 2014, which provided earned rate of 4.4% in Second Quarter 2015 and 4.8% in Six Months 2015, both above our expected loss inflation of 3%. After taking into account the incremental expenses associated with the additional premium, the net benefit to the combined ratios was approximately 1.0 points in both periods.

Favorable prior year casualty reserve development of approximately \$20.0 million, or 4.1 points, in Second Quarter 2015, and \$40.0 million, or 4.1 points, in Six Months 2015, primarily driven by accident years 2013 and prior. The overall net favorable development was driven by the general liability and workers compensation lines of business. Refer to the table below for further details:

(Favorable)/Unfavorable Prior Year Casualty Reserve Development

(\$ in millions)	Quarter ended June 30,		Six months ended June 30,	
	2015	2014	2015	2014
General liability	\$(16.0)	(14.0)	(36.0)	(25.0)
Commercial automobile	2.0	(4.0)	3.0	(4.0)
Workers compensation	(8.0)	—	(13.0)	—
Businessowners' policies	1.0	2.5	4.0	1.5
Total Standard Commercial Lines	(21.0)	(15.5)	(42.0)	(27.5)
Personal automobile	—	(2.0)	—	(4.0)
Total Standard Personal Lines	—	(2.0)	—	(4.0)
E&S	1.0	—	2.0	—
Total (favorable) prior year casualty reserve development	\$(20.0)	(17.5)	(40.0)	(31.5)
(Favorable) impact on loss ratio	(4.1) pts	(3.8)	(4.1)	(3.5)

For a qualitative discussion of this reserve development, please refer to the respective insurance segment section below in "Results of Operations and Related Information by Segment."

Partially offsetting the improvements in the loss and loss expense ratios above were increases in the underwriting expense ratios of 0.9 points for Second Quarter 2015 and 2.4 points for Six Months 2015. The increases in both periods primarily related to the following factors:

Higher employee-related expenses driven by increases in annual incentive compensation expense to employees, as well as pension expense increases due to the accrual of service costs for eligible employees and the negative impact of declining interest rates last year; and

30

Table of Contents

Increases in commissions due to higher supplemental commission expense to our distribution partners and a change in our mix of business.

In addition, the underwriting expense ratio for Six Months 2014 included \$8.0 million, or 0.9 points, of a non-recurring benefit related to the sale of the renewal rights to our self-insured group, or "SIG", book of business in March 2014.

For additional information regarding: (i) the sale of our SIG book of business; and (ii) our Retirement Income Plan, see Note 8. "Segment Information" and Note 9. "Retirement Plans," respectively, in Item 1. "Financial Statements." of this Form 10-Q.

Investments Segment

The investment segment's operating ROE was negatively impacted by lower investment income from our alternative investment portfolio in Second Quarter and Six Months 2015, which was primarily driven by declining oil prices in energy-exposed limited partnerships in the fourth quarter of 2014 and the first quarter of 2015, the results of which are reported to us on a quarter lag. Additionally, lower yields on our fixed income securities continue to negatively impact investment income.

Net realized losses in Second Quarter 2015, compared to net realized gains in Second Quarter 2014, were driven by an increase in OTTI charges related almost entirely to securities in our equity portfolio. The increase in net realized gains in Six Months 2015 compared to Six Months 2014 was driven by the sale of available-for-sale ("AFS") equity securities, partially offset by OTTI charges primarily within our equity portfolio. The sale of AFS equity securities related to a change in our dividend equity strategy from a quantitative, model-driven stock selection strategy to a fundamentally-based stock selection approach. For further details, refer to the section below entitled "Investments."

Outlook

Based on its Review & Preview report issued in February 2015, A.M. Best Company, Inc. ("A.M. Best") expects the industry combined ratio to deteriorate almost 200 basis points in 2015 to 99.1%, compared to 97.2% in 2014, reflecting: (i) a reduction in the level of rate increases; (ii) a 0.5-point increase in their catastrophe loss estimate to a more normal level of approximately five points; and (iii) reductions in the level of favorable prior year development. They believe the main challenges facing the industry include: (i) low returns on fixed income investments; (ii) reserve shortfalls due to current accident year underestimations and prior accident year unfavorable development; (iii) developing, attracting, and maintaining underwriting talent; (iv) continuing the evolution of data analytics; and (v) addressing the uncertainties surrounding emerging risks such as terrorism, cyber risk, and infectious diseases. Considering these, among other factors, A.M. Best has a negative outlook on the commercial lines market and a stable outlook on the personal lines market. Additionally, after declining in each of the past two years, A.M. Best expects investment income to increase modestly in 2015, driven by growth in invested assets from positive cash flow, as yields will continue to be challenged.

Our Insurance Subsidiaries reported a statutory combined ratio, excluding catastrophes, of 88.1% for Six Months 2015, which is lower than our revised full-year 2015 guidance of 90% driven by favorable prior year casualty reserve development of 4.1 points, partially offset by non-catastrophe property losses that were higher by \$16.0 million, or 1.5 points. Compared to our full-year catastrophe loss expectation of 4.0 points, catastrophe losses of \$49.3 million added 5.1 points to our statutory combined ratio in Six Months 2015.

As noted above, A.M. Best projects a decline in investment yields, continuing a trend that has persisted over the past five years, with yields on new investments remaining significantly lower than those on investments that mature or are called. This is consistent with our experience in Six Months 2015, with bonds that we purchased having an average after-tax yield of 1.6% compared to our full year expectation of 2%, and bonds that were called, matured, or otherwise disposed of yielding an average of 2.7%, after tax.

While we expect the competitive market environment to continue, we believe that we have a strong foundation for further improvement in our underlying profitability considering:

- The size of our company and our field model that provides us with the ability to be agile and responsive to our customers' needs;
- Our reserve position that reflects the discipline we have always maintained in our reserving practices;
- Our customer-centric approach to our business with a focus on our policyholders and the service we bring to them;
- The utilization of our capabilities regarding data analytics; and
- Our deep bench of talent in the organization and our continuous cultivation of that talent.

Table of Contents

Given the performance of alternative investments related to energy, we lowered our 2015 after-tax investment income expectation to \$95 million to \$100 million from \$100 million. In addition, we have revised our expected 2015 ex-catastrophe combined ratio, which includes no additional prior year casualty reserve development, from 91% to 90%.

Otherwise, for 2015 we continue to expect to generate:

• Four points of catastrophe losses for the full year; and

• Weighted average shares of approximately 58 million.

On a longer-term basis, it is our goal to achieve an operating ROE of three points higher than our weighted-average cost of capital, or approximately 11.5%, which currently equates to a 94% combined ratio.

Results of Operations and Related Information by Segment

Standard Commercial Lines

Our Standard Commercial Lines, which represents 77% of our combined insurance segments' NPW, sells commercial lines

insurance products and services to businesses, non-profit organizations, and local government agencies located primarily in 22

states in the Eastern and Midwestern U.S. and the District of Columbia through 1,130 distribution partners in the standard marketplace.

(\$ in thousands)	Quarter ended June 30,			Six Months ended June 30,

Direct new business	\$89.9	64.7	\$178.4	133.6

NPE increases in Second Quarter and Six Months 2015 compared to Second Quarter and Six Months 2014 were consistent with the fluctuations in NPW for the twelve-month period ended June 30, 2015 compared to the twelve-month period ended June 30, 2014.

Table of Contents

The GAAP loss and loss expense ratio decreased by 5.4 points in Second Quarter 2015 compared to Second Quarter 2014, driven by: (i) lower non-catastrophe property losses; (ii) renewal pure price increases that averaged 3.3% in Six Months 2015 and 5.0% in the last six months of 2014, the earning of which exceeded our expected loss inflation and improved profitability by 0.8 points; and (iii) favorable prior year casualty reserve development. We believe a significant contributor to the favorable prior year casualty reserve development is the claims and underwriting initiatives we have undertaken, particularly in the workers compensation line of business. These initiatives are described in the "Reserves for Losses and Loss Expenses" section of "Critical Accounting Policies and Estimates" in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations." of our 2014 Annual Report.

Quantitative information regarding property losses and prior year development is as follows:

(\$ in millions)	Second Quarter 2015			Second Quarter 2014			Change in			
	Losses Incurred	Impact on Loss Ratio	pts	Losses Incurred	Impact on Loss Ratio	pts	Ratio	pts		
Catastrophe losses	\$13.6	3.6	pts	\$12.8	3.6	pts	—	pts		
Non-catastrophe property losses	42.4	11.2		43.6	12.3		(1.1)		
Favorable prior year casualty reserve development	(21.0)	(5.6)	(15.5)	(4.4)	(1.2)

The GAAP loss and loss expense ratio decreased by 9.2 points in Six Months 2015 compared to Six Months 2014, driven by: (i) decreases in catastrophe and non-catastrophe property losses; (ii) renewal pure price increases that averaged 3.3% in Six Months 2015 and 5.0% in the last six months of 2014, the earning of which exceeded our expected loss inflation and improved profitability by 1.0 points; and (iii) favorable prior year casualty reserve development, as discussed above.

Quantitative information is as follows:

(\$ in millions)	Six Months ended 2015			Six Months ended 2014			Change in			
	Losses Incurred	Impact on Loss Ratio	pts	Losses Incurred	Impact on Loss Ratio	pts	Ratio	pts		
Catastrophe losses	\$32.3	4.3	pts	\$38.7	5.5	pts	(1.2) pts		
Non-catastrophe property losses	82.9	11.2		102.4	14.5		(3.3)		
Favorable prior year casualty reserve development	(42.0)	(5.7)	(27.5)	(3.9)	(1.8)

Partially offsetting the improvements in the loss and loss expense ratio above was a 2.0-point increase in the underwriting expense ratio in Six Months 2015 compared to Six Months 2014. The prior year ratio included \$8.0 million, or 1.1 points, of non-recurring benefit related to the sale of the renewal rights to our SIG book of business in March 2014. Similar to the discussion contained in the "Financial Highlights of Results for Second Quarter and Six Months 2015 and Second Quarter and Six Months 2014" above, the remaining 0.9-point increase was primarily attributable to higher employee-related expenses and higher commission expenses.

For additional information regarding the sale of our SIG book of business, see Note 8. "Segment Information" in Item 1. "Financial Statements." of this Form 10-Q.

Table of Contents

The following is a discussion of our most significant standard Commercial Lines of business and their respective statutory results:

General Liability

(\$ in thousands)	Quarter ended June 30,			Six Months ended June 30,		
	2015	2014	Change % or Points	2015	2014	Change % or Points
Statutory NPW	\$ 134,636	118,176	14 %	\$ 265,118	237,680	12 %
Direct new business	27,176	19,839	37	52,405	39,674	32
Retention	83	% 82	1 pts	83	% 82	1 pts
Renewal pure price increases	2.8	7.2	(4.4)	3.1	7.4	(4.3)
Statutory NPE	\$ 119,207	111,591	7 %	\$ 234,178	220,409	6 %
Statutory combined ratio % of total statutory standard Commercial	77.6	% 80.7	(3.1)pts	75.3	% 80.7	(5.4)pts
Lines NPW	33	32		32	32	

The increases in NPW in Second Quarter and Six Months 2015 compared to the same periods last year were driven by: (i) increases in direct new business; (ii) renewal pure price increases; and (iii) strong retention.

NPE increases in Second Quarter and Six Months 2015 compared to Second Quarter and Six Months 2014 were consistent with the fluctuations in NPW for the twelve-month period ended June 30, 2015 compared to the twelve-month period ended June 30, 2014.

The decreases in the statutory combined ratio in Second Quarter and Six Months 2015 compared to the same prior year periods were due to the following:

(\$ in millions)	Second Quarter 2015			Second Quarter 2014		
	(Benefit) Expense	Impact on Combined Ratio		(Benefit) Expense	Impact on Combined Ratio	Change Points
Favorable prior year casualty reserve development	\$(16.0)) (13.4) pts	\$(14.0)) (12.5) pts (0.9) pts
(\$ in millions)	Six Months ended 2015			Six Months ended 2014		
	(Benefit) Expense	Impact on Combined Ratio		(Benefit) Expense	Impact on Combined Ratio	Change Points
Favorable prior year casualty reserve development	\$(36.0)) (15.4) pts	\$(25.0)) (11.3) pts (4.1) pts
Sale of SIG renewal rights	—	—		(2.1)) (0.9) 0.9

Favorable prior year casualty reserve development in Second Quarter and Six Months 2015 was driven by the 2009 through 2013 accident years, primarily due to continued lower frequencies in recent accident years. Favorable prior year casualty reserve development in Second Quarter and Six Months 2014 was driven by accident years 2012 and prior. In addition, renewal pure price increases were 3.1% in Six Months 2015 and 5.9% in the last six months of 2014, the earning of which exceeded our expected loss inflation and improved profitability by approximately 1.0 points and 1.4 points in the quarter and year-to-date periods, respectively.

Table of Contents

The increases in NPW in Second Quarter and Six Months 2015 compared to the same periods last year were driven by: (i) increases in direct new business; (ii) renewal pure price increases; and (iii) strong retention.

NPE increases in Second Quarter and Six Months 2015 compared to Second Quarter and Six Months 2014 were consistent with the fluctuations in NPW for the twelve-month period ended June 30, 2015 compared to the twelve-month period ended June 30, 2014.

The increases in the statutory combined ratio in Second Quarter and Six Months 2015 compared to the same prior year periods were due to the following: (i) higher non-catastrophe property losses; (ii) unfavorable prior year casualty reserve development; and (iii) higher expected loss costs for the current accident year that increased the combined ratio by 2.4 points in both periods.

These increases were partially offset by: (i) renewal pure price increases of 3.9% in Six Months 2015 and 4.9% in the last six months of 2014, the earning of which exceeded our expected loss inflation and improved profitability by approximately 1.0 points and 1.3 points in the quarter and year-to-date periods, respectively; and (ii) lower catastrophe losses.

Quantitative information regarding these items is as follows:

(\$ in millions)	Second Quarter 2015		Second Quarter 2014		Change in Ratio

The increases in NPW in Second Quarter and Six Months 2015 compared to the same periods last year were driven by: (i) increases in direct new business; (ii) renewal pure price increases; and (iii) strong retention.

NPE increases in Second Quarter and Six Months 2015 compared to Second Quarter and Six Months 2014 were consistent with the fluctuations in NPW for the twelve-month period ended June 30, 2015 compared to the twelve-month period ended June 30, 2014.

Table of Contents

The decrease in the statutory combined ratio in Second Quarter and Six Months 2015 compared to the same prior year periods was due to the following:

• Favorable prior year casualty reserve development of \$8.0 million, or 11.3 points, in Second Quarter 2015, related primarily to accident years 2013 and 2008 and prior, compared to no development in Second Quarter 2014; and

• Favorable prior year casualty reserve development of \$13.0 million, or 9.3 points, in Six Months 2015, related primarily to accident years 2008 and prior, compared to no development in Six Months 2014.

A 9.3-point decrease in Second Quarter and Six Months 2015 related to lower expected loss costs for the current accident year, which reflect our ongoing focus on improving this competitive line of business through underwriting, pricing, and claims initiatives as further discussed below.

Reductions in current and prior year loss costs in this line of business were primarily driven by continued lower frequencies and severities. We believe these trends are evidence of the significant claims and underwriting initiatives that we have undertaken on this line of business. These initiatives include:

• Centralizing all workers compensation claim handling in Charlotte, North Carolina;

• Managing non-complex workers compensation claims within our footprint through jurisdictionally-trained and aligned medical only and lost-time adjusters; and

• Referring claims with high exposure and/or significant escalation risk to our workers compensation strategic case management unit.

Standard Personal Lines

Our Standard Personal Lines segment, which includes our flood business, represents approximately 15% of our combined insurance segments' NPW and sells personal lines insurance products and services to individuals located primarily in 13 states through approximately 700 distribution partners in the standard marketplace. In addition, we have approximately 5,000 distribution partners selling our flood business.

Table of Contents

NPE decreases in Second Quarter and Six Months 2015 compared to Second Quarter and Six Months 2014 were consistent with the fluctuations in NPW for the twelve-month period ended June 30, 2015 compared to the twelve-month period ended June 30, 2014.

The GAAP loss and loss expense ratio improved 4.2 points in Second Quarter 2015 and 4.3 points in Six Months 2015 compared to the same periods a year ago. In addition to the quantitative information below, renewal pure price increases were 6.8% in Six Months 2015 and 6.8% in the last six months of 2014, the earnings of which exceeded our expected loss inflation and improved profitability by 2.8 points and 2.7 points in the quarter and year-to-date periods, respectively.

Flood claims handling fees	(1.2	(0.9)	(1.6	(1.0)	0.1	
Favorable prior year casualty development	—	—		(4.0	(2.7)	2.7	

Favorable prior year casualty reserve development in Second Quarter and Six Months 2014 was driven by the 2009 through 2013 accident years on our personal automobile line of business.

The increases in the GAAP underwriting expense ratio in both the quarter and year-to-date periods, compared to the prior year periods, were driven by an increase of approximately 2.5 points, primarily due to the following factors: Higher employee-related expenses driven by: (i) staffing additions, such as Standard Personal Lines marketing specialists, to support our growth initiatives; (ii) increases in annual incentive compensation expense to employees; and (iii) pension expense increases, both of which are discussed in "Financial Highlights of Results for Second Quarter and Six Months 2015 and Second Quarter and Six Months 2014" above.

Increased costs associated with capital improvements.

In addition, premiums declined in Second Quarter and Six Months 2015, compared to the prior year periods, driven by lower new business due to competition and the targeted non-renewal actions we have taken on this book of business that have put pressure on our underwriting expense ratio in the short-term.

Table of Contents

E&S Insurance Operations

Our E&S Lines segment, which represents 8% of our combined insurance segments' NPW, sells commercial lines insurance

products and services in all 50 states and the District of Columbia through approximately 90 distribution partners in the E&S marketplace. Insurance policies in this segment are sold to customers that typically have business risks with unique characteristics, such as the nature of the business or its claim history, that cannot obtain coverage in the standard marketplace. E&S insurers have more flexibility in coverage terms and rates compared to standard market insurers, generally resulting in policies with higher rates and terms and conditions that are customized for specific risks.

The increases in NPW for both the quarter and year-to-date periods, compared to the prior year periods, were primarily driven by direct new business increases of \$6.8 million, or 36%, and \$13.3 million, or 39%, respectively.

NPE decreases in Second Quarter and Six Months 2015 compared to Second Quarter and Six Months 2014 were consistent with the fluctuations in NPW for the twelve-month period ended June 30, 2015 compared to the twelve-month period ended June 30, 2014.

The GAAP loss and loss expense ratio increased by 2.3 points in Second Quarter 2015 and 4.2 points in Six Months 2015 compared to the same periods a year ago. These increases are driven by renewal pure price increases that are not sufficient to offset expected loss inflation on this segment of our business. Renewal pure price increases were 1.6% in Second Quarter 2015 and 1.5% in Six Months 2015. In addition, the following fluctuations impacted the ratio:

(\$ in millions)	Second Quarter 2015		Second Quarter 2014		Change in Ratio

Unfavorable prior year casualty development	2.0	2.6		—	—		2.6	

Table of Contents

Unfavorable prior year casualty reserve development in Second Quarter 2015 was driven by the 2012 accident year, and unfavorable prior year casualty reserve development in Six Months 2015 was driven by the 2012 through 2014 accident years.

The GAAP underwriting expense ratio increased by 1.2 points in Second Quarter 2015 and 1.0 points in Six Months 2015 reflecting immediate recognition of certain expenses in the current year periods in comparison to the level of NPE as this business is growing significantly and NPE continues to lag behind NPW. In addition, commissions to our distribution partners were higher in the Second Quarter and Six Months 2015 as compared to the prior periods.

Reinsurance

We have successfully completed negotiations of our July 1, 2015 excess of loss treaties, which now incorporate coverage for our E&S Lines insurance operations, as well as Standard Commercial Lines and Standard Personal Lines. The renewal of these treaties included some enhancements in terms and conditions and the same structure as the expiring treaties as follows:

Property Excess of Loss

The property excess of loss treaty ("Property Treaty") continues to provide \$38.0 million of coverage in excess of a \$2.0 million retention:

- The per occurrence cap on the total program is \$84.0 million.
- The first layer has unlimited reinstatements. The annual aggregate limit for the \$30.0 million in excess of \$10.0 million second layer is \$120.0 million.
- The Property Treaty excludes nuclear, biological, chemical, and radiological terrorism losses.

Casualty Excess of Loss

The casualty excess of loss treaty ("Casualty Treaty") continues to provide \$88.0 million of coverage in excess of a \$2.0 million retention:

- The first through sixth layers provide coverage for 100% of up to \$88.0 million in excess of a \$2.0 million retention.
- The Casualty Treaty excludes nuclear, biological, chemical, and radiological terrorism losses, with the annual aggregate terrorism limits remaining at \$208.0 million.

Table of Contents

Investments

Our investment philosophy includes certain return and risk objectives for the fixed income, equity, and other investment portfolios. Although yield and income generation remain the key drivers to our investment strategy, our overall philosophy is to invest with a long-term horizon along with predominantly a “buy-and-hold” approach. The primary fixed income portfolio return objective is to maximize after-tax investment yield and income while balancing risk. A secondary objective is to meet or exceed a weighted-average benchmark of public fixed income indices. Within the equity portfolio, a dividend-focused strategy is designed to generate consistent dividend income while maintaining a lower risk profile relative to the Standard & Poor's Ratings Services ("S&P") 500 Index. Additional equity strategies are focused on meeting or exceeding strategy-specific benchmarks of public equity indices. The return objective of the other investment portfolio, which includes alternative investments, is to meet or exceed the S&P 500 Index.

Total Invested Assets

(\$ in thousands)	June 30, 2015	December 31, 2014	Change % or Points
Total invested assets	\$4,923,329	4,806,834	2 %
Unrealized gain – before tax	70,853	123,682	(43)
Unrealized gain – after tax	46,054	80,394	(43)
Invested assets per dollar of stockholders' equity	3.76	3.77	—
Annualized after-tax yield on investment portfolio	1.9	2.2	(0.3) pts

The increase in our investment portfolio at June 30, 2015 compared to year-end 2014 was primarily driven by operating cash flow of \$165.6 million, partially offset by a decrease in unrealized gains during the year of \$52.8 million, which was driven by general interest rate movements as seen in the 10-year U.S. Treasury Note, which rose by 18 basis points during Six Months 2015.

We continue to structure our portfolio conservatively with a focus on: (i) asset diversification; (ii) investment quality; (iii) liquidity, particularly to meet the cash obligations of our insurance operations segments; (iv) consideration of taxes; and (v) preservation of capital. We believe that we have a high quality and liquid investment portfolio. The breakdown of our investment portfolio is as follows:

	June 30, 2015	December 31, 2014
Fixed income securities:		
U.S. government obligations	2	% 2
Foreign government obligations	1	1
State and municipal obligations	31	32
Corporate securities	37	38
Mortgage-backed securities (“MBS”)	15	14
Asset-backed securities (“ABS”)	4	4
Total fixed income securities	90	91
Equity securities:		
Common stock	5	4
Preferred stock ¹	—	—
Total equity securities	5	4
Short-term investments	3	3
Other investments	2	2
Total	100	% 100

¹Preferred stock represented less than 1% of our portfolio as of June 30, 2015. We did not hold any of these securities as of December 31, 2014.

Fixed Income Securities

The average duration of the fixed income securities portfolio as of June 30, 2015 was 3.7 years, including short-term investments, compared to the Insurance Subsidiaries' liability duration of approximately 4.2 years. The current duration of the fixed income securities portfolio is within our historical range, and is monitored and managed to maximize yield while managing interest rate risk at an acceptable level. We maintain a well-diversified portfolio across sectors, credit quality, and maturities that affords us ample liquidity. We typically have a long investment time horizon, and every purchase or sale is made with the intent of maximizing risk-adjusted investment returns in the current market environment while balancing capital preservation.

Table of Contents

Our fixed income securities portfolio had a weighted average credit rating of "AA-" as of June 30, 2015. The following table presents the credit ratings of this portfolio:

Fixed Income Security Rating	June 30, 2015	December 31, 2014
Aaa/AAA	18	% 17
Aa/AA	42	44
A/A	25	25

Total HTM portfolio	\$334.0	318.1	15.9	0.9	16.8	AA

The sector composition and credit quality of our major asset categories shown above did not significantly change from December 31, 2014. Our top 10 state exposures still represent approximately 55% of the total municipal portfolio and have an average rating of "AA." A portion of our municipal bond portfolio contains insurance enhancements; however, the ratings of the securities with and without insurance remained unchanged as we generally purchase securities based on their underlying credit quality. For details regarding this information, see Item 7A. "Quantitative and Qualitative Disclosures About Market Risk." of our 2014 Annual Report.

In addition, as of June 30, 2015 and December 31, 2014, we did not hold any securities in our fixed income or equity portfolios issued by Greece, Puerto Rico, or China.

Equity Securities

Our equity securities portfolio was \$228.9 million at June 30, 2015 and \$191.4 million at December 31, 2014, which was 5% and 4% of invested assets, respectively. During Six Months 2015, we generated purchases of \$182.9 million and sales of securities that had an original cost of \$117.7 million primarily as a result of a change in our dividend equity strategy from a quantitative, model-driven stock selection strategy to a fundamentally-based stock selection approach that incorporates an assessment of the sustainability and growth rate of a company's dividends and future cash flow.

Unrealized/Unrecognized Losses

The following table presents amortized cost and fair value information for our AFS fixed income securities that were in an unrealized loss position at June 30, 2015 by contractual maturity:

(\$ in thousands)	Amortized Cost	Fair Value	Unrealized Loss
One year or less	\$40,317	40,275	42
Due after one year through five years	509,759	506,193	3,566
Due after five years through ten years	732,903	720,802	12,101
Due after ten years	21,607	21,280	327
Total	\$1,304,586	1,288,550	16,036

The following table presents amortized cost and fair value information for our HTM fixed income securities that were in an unrealized/unrecognized loss position at June 30, 2015 by contractual maturity:

(\$ in thousands)	Amortized Cost	Fair Value	Unrecognized/Unrealized Loss
One year or less	\$182	180	2
Due after one year through five years	1,548	1,540	8

Total	\$1,730	1,720	10
-------	---------	-------	----

We have reviewed the securities in a loss position within our fixed income and equity portfolios, in accordance with our OTTI policy, which is discussed in Note 2. "Summary of Significant Accounting Policies" within Item 8. "Financial Statements and Supplementary Data." of our 2014 Annual Report. We have concluded that these securities were temporarily impaired as of June 30, 2015. For additional information regarding the unrealized/unrecognized losses in our AFS and HTM portfolios, see Note 4. "Investments" in Item 1. "Financial Statements." of this Form 10-Q.

Table of Contents

Other Investments

As of June 30, 2015, other investments of \$85.4 million represented 2% of our total invested assets. In addition to the capital that we have already invested to date, we are contractually obligated to invest up to an additional \$64.5 million in our other investments portfolio through commitments that currently expire at various dates through 2028. For a description of our seven alternative investment strategies, as well as redemption, restrictions, and fund liquidations, refer to Note 5. "Investments" in Item 8. "Financial Statements and Supplementary Data." of our 2014 Annual Report.

Net Investment Income

The components of net investment income earned for the indicated periods were as follows:

(\$ in thousands)	Quarter ended June 30,		Six Months ended June 30,	
	2015	2014	2015	2014
Fixed income securities	\$30,659	33,781	61,626	64,809
Equity securities	2,384	1,736	4,176	3,185
Short-term investments	23	14	48	33
Other investments	1,422	3,553	(2,118)) 8,771
Investment expenses	(2,258)) (2,310)) (4,585)) (4,490)
Net investment income earned – before tax	32,230	36,774	59,147	72,308
Net investment income tax expense	(7,451)) (9,353)) (13,160)) (18,401)
Net investment income earned – after tax	\$24,779	27,421	45,987	53,907
Effective tax rate	23.1	% 25.4	22.2	25.4
Annualized after-tax yield on fixed income securities	2.1	2.4	2.1	2.3
Annualized after-tax yield on investment portfolio	2.0	2.3	1.9	2.3

Net investment income before tax decreased in Second Quarter and Six Months 2015 compared to the same prior year periods. Net investment income was negatively impacted by lower income from the alternative investments within our other investments portfolio. In particular, our energy-related limited partnerships were negatively impacted by declining oil prices. Additionally, lower yields on our fixed income securities continue to put pressure on investment income.

Realized Gains and Losses

Our general philosophy for sales of securities is to reduce our exposure to securities and sectors based on economic evaluations and when the fundamentals for that security or sector have deteriorated, or to opportunistically trade out of securities to other securities with better economic return characteristics. We typically have a long investment time horizon, and every purchase or sale is made with the intent of maximizing risk-adjusted investment returns in the current market environment while balancing capital preservation. In Second Quarter 2015, net realized losses of \$3.4 million were driven by OTTI charges of \$4.5 million, almost entirely on securities in our equity portfolio. In Six Months 2015, net realized gains of \$15.5 million were driven by the sale of AFS equity securities due to a change in our dividend equity strategy from a quantitative, model-driven stock selection strategy to a fundamentally-based stock selection approach and were partially offset by OTTI charges of \$6.5 million. Total net realized gains amounted to \$4.5 million in Second Quarter 2014 and \$11.8 million for Six Months 2014. These amounts included OTTI charges of \$0.4 million and \$1.4 million, respectively.

We regularly review our entire investment portfolio for declines in fair value. If we believe that a decline in the value of a particular investment is other than temporary, we record it as an OTTI, through realized losses in earnings for the credit-related portion and through unrealized losses in other comprehensive income ("OCI") for the non-credit related

portion for fixed income securities. If there is a decline in fair value of an equity security that we do not intend to hold, or if we determine that the decline is other than temporary, we write down the cost of the investment to fair value and record the charge through earnings as a component of realized losses.

For further discussion of our realized gains and losses, as well as our OTTI methodology, see Note 2. "Summary of Significant Accounting Policies" in Item 8. "Financial Statements and Supplementary Data." of our 2014 Annual Report. For qualitative information about our OTTI charges, see Note 4. "Investments" in Item 1. "Financial Statements." of this Form 10-Q.

Table of Contents

Federal Income Taxes

The following table provides information regarding federal income taxes:

(\$ in million)	Quarter ended June 30,		Six Months ended June 30,	
	2015	2014	2015	2014
Federal income tax expense	\$13.0	10.2	29.6	17.3
Effective tax rate	28	% 26	29	27

Federal income tax expense increased in Second Quarter and Six Months 2015 compared to the same prior year periods due to higher pre-tax income, primarily driven by an improvement in our underwriting results. The effective tax rate for Second Quarter and Six Months 2015 compared to the same prior year periods increased slightly, as tax-advantaged income remained flat compared to the increase in overall pre-tax income. The majority of our differences from the statutory rate are from recurring nontaxable items, such as tax-advantaged interest and dividends received deductions.

We believe that our future effective tax rate will continue to be impacted by similar items, assuming no significant changes to tax laws occur that would impact our tax-advantaged investments.

Financial Condition, Liquidity, Short-term Borrowings, and Capital Resources

Capital resources and liquidity reflect our ability to generate cash flows from business operations, borrow funds at competitive rates, and raise new capital to meet operating and growth needs.

Liquidity

We manage liquidity with a focus on generating sufficient cash flows to meet the short-term and long-term cash requirements of our business operations. Our cash and short-term investment position of \$169 million at June 30, 2015 was comprised of \$24 million at Selective Insurance Group, Inc. (the "Parent") and \$145 million at the Insurance Subsidiaries. Short-term investments are generally maintained in "AAA" rated money market funds approved by the National Association of Insurance Commissioners. The Parent continues to maintain a fixed income security investment portfolio containing high-quality, highly-liquid government and corporate fixed income securities to generate additional yield. This portfolio amounted to \$63 million at June 30, 2015 compared to \$50 million at December 31, 2014.

Sources of cash for the Parent have historically consisted of dividends from the Insurance Subsidiaries, borrowings under lines of credit and loan agreements with certain Insurance Subsidiaries, and the issuance of stock and debt securities. We continue to monitor these sources, giving consideration to our long-term liquidity and capital preservation strategies.

We currently anticipate the Insurance Subsidiaries will pay \$58 million in total dividends to the Parent in 2015. Cash dividends of \$28.9 million were paid during Six Months 2015. As of December 31, 2014, our allowable ordinary maximum dividend was \$162.0 million for 2015.

Any dividends to the Parent are subject to the approval and/or review of the insurance regulators in the respective domiciliary states and are generally payable only from earned surplus as reported in the statutory annual statements of those subsidiaries as of the preceding December 31. Although past dividends have historically been met with regulatory approval, there is no assurance that future dividends that may be declared will be approved. For additional information regarding dividend restrictions, refer to Note 20. "Statutory Financial Information, Capital Requirements, and Restrictions on Dividends and Transfers of Funds" in Item 8. "Financial Statements and Supplementary Data." of our 2014 Annual Report.

The Parent had no private or public issuances of stock or debt instruments during Six Months 2015 and there were no borrowings under its \$30 million line of credit ("Line of Credit").

We have two Insurance Subsidiaries domiciled in Indiana ("Indiana Subsidiaries") that are members of the FHLBI. These Insurance Subsidiaries are Selective Insurance Company of South Carolina ("SICSC") and Selective Insurance Company of the Southeast ("SICSE"). Membership in the FHLBI provides these subsidiaries with access to additional liquidity. The Indiana Subsidiaries' aggregate investment of \$2.8 million provides them with the ability to borrow approximately 20 times the total amount of the FHLBI common stock purchased, at comparatively low borrowing rates. All borrowings from the FHLBI are required to be secured by certain investments. For additional information regarding the required collateral, refer to Note 4. "Investments" in Item 1. "Financial Statements." of this Form 10-Q.

Table of Contents

The Parent's Line of Credit agreement permits collateralized borrowings by the Indiana Subsidiaries from the FHLBI so long as the aggregate amount borrowed does not exceed 10% of the respective Indiana Subsidiary's admitted assets from the preceding calendar year. Admitted assets amounted to \$564.3 million for SICSC and \$429.8 million for SICSE as of December 31, 2014, for a borrowing capacity of approximately \$99 million, of which \$60 million is currently outstanding (including \$15 million that was borrowed during the first quarter of 2015). Accordingly, the Indiana Subsidiaries have the ability to borrow an additional \$39 million before the Line of Credit borrowing limit is met. The Parent has the ability to borrow an additional \$47 million from the Indiana Subsidiaries under lending agreements approved by the Indiana Department of Insurance. Similar to the Line of Credit agreement, these lending agreements limit borrowings by the Parent from the Indiana Subsidiaries to 10% of the admitted assets of the respective Indiana Subsidiary. For additional information regarding the Parent's Line of Credit, refer to the section below entitled "Short-term Borrowings."

The Insurance Subsidiaries also generate liquidity through insurance float, which is created by collecting premiums and earning investment income before losses are paid. The period of the float can extend over many years. Our investment portfolio consists of maturity dates that continually provide a source of cash flows for claims payments in the ordinary course of business. The duration of the fixed income securities portfolio including short-term investments was 3.7 years as of June 30, 2015, while the liabilities of the Insurance Subsidiaries have a duration of 4.2 years. In addition, the Insurance Subsidiaries purchase reinsurance coverage for protection against any significantly large claims or catastrophes that may occur during the year.

The liquidity generated from the sources discussed above is used, among other things, to pay dividends to our shareholders. Dividends on shares of the Parent's common stock are declared and paid at the discretion of the Board of Directors based on our operating results, financial condition, capital requirements, contractual restrictions, and other relevant factors.

Our ability to meet our interest and principal repayment obligations on our debt, as well as our ability to continue to pay dividends to our stockholders, is dependent on liquidity at the Parent coupled with the ability of the Insurance Subsidiaries to pay dividends, if necessary, and/or the availability of other sources of liquidity to the Parent. Scheduled repayments of our FHLBI borrowings include \$15 million in July 2016 and \$45 million in December 2016. Subsequent to these payments, our next principal repayment is due in 2034. Restrictions on the ability of the Insurance Subsidiaries to declare and pay dividends, without alternative liquidity options, could materially affect our ability to service debt and pay dividends on common stock.

Short-term Borrowings

Our Line of Credit with Wells Fargo Bank, National Association, as administrative agent, and Branch Banking and Trust Company (BB&T), was renewed effective September 26, 2013 with a borrowing capacity of \$30 million, which can be increased to \$50 million with the approval of both lending partners.

The Line of Credit provides the Parent with an additional source of short-term liquidity. The interest rate on our Line of Credit varies and is based on, among other factors, the Parent's debt ratings. The Line of Credit expires on September 26, 2017. There were no balances outstanding under the Line of Credit at any time during Six Months 2015.

The Line of Credit agreement contains representations, warranties, and covenants that are customary for credit facilities of this type, including, without limitation, financial covenants under which we are obligated to maintain a minimum consolidated net worth, a minimum combined statutory surplus, and a maximum ratio of consolidated debt to total capitalization, as well as covenants limiting our ability to: (i) merge or liquidate; (ii) incur debt or liens; (iii) dispose of assets; (iv) make certain investments and acquisitions; and (v) engage in transactions with affiliates.

Edgar Filing: SELECTIVE INSURANCE GROUP INC - Form 10-Q

The table below outlines information regarding certain of the covenants in the Line of Credit:

	Required as of June 30, 2015	Actual as of June 30, 2015
Consolidated net worth	\$924 million	\$1.3 billion
Statutory surplus	Not less than \$750 million	\$1.3 billion
Debt-to-capitalization ratio ¹	Not to exceed 35%	23.5%
A.M. Best financial strength rating	Minimum of A-	A

¹ Calculated in accordance with the Line of Credit agreement.

Table of Contents

Capital Resources

Capital resources provide protection for policyholders, furnish the financial strength to support the business of underwriting insurance risks, and facilitate continued business growth. At June 30, 2015, we had statutory surplus of \$1.3 billion, GAAP stockholders' equity of \$1.3 billion, and total debt of \$394.3 million, which equates to a debt-to-capital ratio of approximately 23%.

Our cash requirements include, but are not limited to, principal and interest payments on various notes payable, dividends to stockholders, payment of claims, payment of commitments under limited partnership agreements and capital expenditures, as well as other operating expenses, which include commissions to our distribution partners, labor costs, premium taxes, general and administrative expenses, and income taxes. For further details regarding our cash requirements, refer to the section below entitled, "Contractual Obligations, Contingent Liabilities, and Commitments."

We continually monitor our cash requirements and the amount of capital resources that we maintain at the holding company and operating subsidiary levels. As part of our long-term capital strategy, we strive to maintain capital metrics, relative to the macroeconomic environment, that support our targeted financial strength. Based on our analysis and market conditions, we may take a variety of actions, including, but not limited to, contributing capital to the Insurance Subsidiaries in our insurance operations, issuing additional debt and/or equity securities, repurchasing shares of the Parent's common stock, and increasing stockholders' dividends.

Our capital management strategy is intended to protect the interests of the policyholders of the Insurance Subsidiaries and our stockholders, while enhancing our financial strength and underwriting capacity.

Book value per share increased to \$22.95 as of June 30, 2015, from \$22.54 as of December 31, 2014, due to \$1.29 in net income, partially offset by \$0.60 in unrealized losses in our investment portfolio and \$0.28 in dividends to our shareholders.

Ratings

We are rated by major rating agencies that issue opinions on our financial strength, operating performance, strategic position, and ability to meet policyholder obligations. We believe that our ability to write insurance business is most influenced by our rating from A.M. Best. In Second Quarter 2015, A.M. Best reaffirmed our rating of "A (Excellent)," their third highest of 13 financial strength ratings, with a "stable" outlook. The rating reflects A.M. Best's view that we have an excellent level of risk-adjusted capitalization, disciplined underwriting focus, targeted regional markets with strong distribution partner relationships, and consistently profitable operating performance. We have been rated "A" or higher by A.M. Best for the past 85 years. A downgrade from A.M. Best to a rating below "A-" is an event of default under our Line of Credit and could affect our ability to write new business with customers and/or distribution partners, some of whom are required (under various third-party agreements) to maintain insurance with a carrier that maintains a specified A.M. Best minimum rating.

Ratings by other major rating agencies are as follows:

Fitch Ratings ("Fitch") – Our "A+" rating was reaffirmed in July 2015 with a stable outlook. Fitch cited our improved underwriting results across all segments, solid capitalization with strong growth in shareholders' equity, and continued improvement in leverage and interest coverage metrics.

S&P's Ratings Services – During the fourth quarter of 2014, S&P reaffirmed our financial strength rating of "A-" and revised our outlook to positive from stable. The rating reflects S&P's view of our strong business risk profile, strong competitive position, and very strong capital and earnings. The positive outlook for the rating reflects S&P's view of our ongoing efforts to improve geographic and product diversification and reduce risk concentrations in catastrophe prone areas. In addition, the positive outlook reflects S&P's expectation that we will steadily improve our operating performance and that our capital adequacy will remain redundant at a very strong level.

Moody's Investor Service ("Moody's") – Our "A2" financial strength rating was reaffirmed in Second Quarter 2015 by Moody's, which cited our solid regional franchise with established independent agency support, solid risk adjusted capitalization, strong invested asset quality, and good underwriting profitability. The outlook was revised to stable from negative, reflecting Moody's view of our improved profitability as a result of our stronger price adequacy in commercial lines, re-underwriting initiatives, and claims processing improvements.

Our S&P, Moody's, and Fitch financial strength and associated credit ratings affect our ability to access capital markets. The interest rate on our Line of Credit varies and is based on, among other factors, the Parent's debt ratings. There can be no assurance that our ratings will continue for any given period of time or that they will not be changed. It is possible that positive or negative ratings actions by one or more of the rating agencies may occur in the future.

Table of Contents

Off-Balance Sheet Arrangements

At June 30, 2015 and December 31, 2014, we did not have any material relationships with unconsolidated entities or financial partnerships, also referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or for other contractually narrow or limited purposes. As such, we are not exposed to any material financing, liquidity, market, or credit risk that could arise if we had engaged in such relationships.

Contractual Obligations, Contingent Liabilities, and Commitments

Our future cash payments associated with: (i) loss and loss expense reserves; (ii) contractual obligations pursuant to operating leases for office space and equipment; (iii) notes payable; and (iv) contractual obligations related to our alternative and other investments portfolio have not materially changed since December 31, 2014. We expect to have the capacity to repay and/or refinance these obligations as they come due.

We have issued no material guarantees on behalf of others and have no trading activities involving non-exchange traded contracts accounted for at fair value. We have no material transactions with related parties other than those disclosed in Note 17. "Related Party Transactions" included in Item 8. "Financial Statements and Supplementary Data." of our 2014 Annual Report.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes in the information about market risk set forth in our 2014 Annual Report.

ITEM 4. CONTROLS AND PROCEDURES.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended ("Exchange Act")), as of the end of the period covered by this report. In performing this evaluation, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control – Integrated Framework ("COSO Framework") in 2013. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, our disclosure controls and procedures are: (i) effective in recording, processing, summarizing, and reporting information on a timely basis that we are required to disclose in the reports that we file or submit under the Exchange Act; and (ii) effective in ensuring that information that we are required to disclose in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. No changes in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) of the Exchange Act) occurred during Six Months 2015 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

In the ordinary course of conducting business, we are named as defendants in various legal proceedings. Most of these proceedings are claims litigation involving our Insurance Subsidiaries as either: (i) liability insurers defending or providing indemnity for third-party claims brought against our customers; or (ii) insurers defending first-party coverage claims brought against them. We account for such activity through the establishment of unpaid loss and loss expense reserves. We expect that the ultimate liability, if any, with respect to such ordinary course claims litigation, after consideration of provisions made for potential losses and costs of defense, will not be material to our consolidated financial condition, results of operations, or cash flows.

Our Insurance Subsidiaries are also from time to time involved in other legal actions, some of which assert claims for substantial amounts. These actions include, among others, putative class actions seeking certification of a state or national class. Such putative class actions have alleged, for example, improper reimbursement of medical providers paid under workers compensation and personal and commercial automobile insurance policies. Our Insurance Subsidiaries are also involved from time to time in individual actions in which extra-contractual damages, punitive damages, or penalties are sought, such as claims alleging bad faith in the handling of insurance claims. We believe that we have valid defenses to these cases. We expect that the ultimate liability, if any, with respect to such lawsuits, after consideration of provisions made for estimated losses, will not be material to our consolidated financial condition. Nonetheless, given the large or indeterminate amounts sought in certain of these actions, and the inherent unpredictability of litigation, an adverse outcome in certain matters could, from time to time, have a material adverse effect on our consolidated results of operations or cash flows in particular quarterly or annual periods. As of June 30, 2015, we do not believe the Company was involved in any legal action that could have a material adverse effect on our consolidated financial condition, results of operations, or cash flows.

ITEM 1A. RISK FACTORS.

Certain risk factors exist that can have a significant impact on our business, liquidity, capital resources, results of operations, financial condition, and debt ratings. The impact of these risk factors also could impact certain actions that we take as part of our long-term capital strategy, including but not limited to, contributing capital to any or all of the Insurance Subsidiaries, issuing additional debt and/or equity securities, repurchasing our equity securities, redeeming our fixed income securities, or increasing or decreasing stockholders dividends. We operate in a continually changing business environment and new risk factors emerge from time to time. Consequently, we can neither predict such new risk factors nor assess the potential future impact, if any, they might have on our business. There have been no material changes from the risk factors disclosed in Item 1A. "Risk Factors." in our 2014 Annual Report other than as discussed below.

We face risks regarding our flood business because of uncertainties regarding the NFIP.

We are the sixth largest insurance group participating in the WYO arrangement of the NFIP, which is managed by the Mitigation Division of Federal Emergency Management Agency ("FEMA") in the U.S. Department of Homeland Security. For WYO participation, we receive an expense allowance for policies written and a servicing fee for claims administered. Under the program, all losses are 100% reinsured by the Federal Government. Currently, the expense allowance is 30.8% of direct premiums written ("DPW"). The servicing fee is the combination of 0.9% of DPW and 1.5% of incurred losses.

The NFIP is funded by U.S Congress and in 2012, U.S. Congress passed, and the President signed, the Biggert-Waters Flood Insurance Reform Act of 2012 ("Biggert-Waters Act"). The Biggert-Waters Act: (i) extended NFIP funding to September 30, 2017; and (ii) moved the program to more market based rates for certain flood policyholders. FEMA implemented these rates throughout 2013, which created significant public discontent and Congressional concern over the impact of the new rates on NFIP customers.

Consequently, U.S Congress passed and, on March 21, 2014, the President signed into law, the Homeowner Flood Insurance Affordability Act of 2014 (“Flood Affordability Act”). The Flood Affordability Act substantially modifies certain provisions of the Biggert-Waters Act, including the reversal of certain rate increases resulting in premium refunds for many NFIP policyholders that began after October 1, 2014. Effective April 2015, the Flood Affordability Act effectuated certain changes to the NFIP, including: (i) an increase in the Reserve Fund Assessment; (ii) implementation of an annual surcharge on all new and renewal policies; (iii) an additional deductible option; and (iv) increases in the federal policy fee and basic rates.

As a WYO carrier, we are required to follow certain NFIP procedures when administering flood policies and claims. Some of these requirements may differ from our normal business practices and may present a reputational risk to our brand. Insurance companies are regulated by states; however, the NFIP is a federal program. Consequently, we have the risk that regulatory positions taken by the NFIP and a state regulator on the same issue may conflict.

Table of Contents

Despite the passage of the Flood Affordability Act, the role of the NFIP remains under scrutiny by policymakers. The uncertainty behind the public policy debate and politics of flood insurance reform make it difficult for us to predict the future of the NFIP and our continued participation in the program.

Changes in tax legislation initiatives could adversely affect our results of operations and financial condition.

We are subject to the tax laws and regulations of U.S. federal, state, and local governments, which may change in ways that adversely impact us. For example, federal tax legislation could be enacted that reduces the existing statutory U.S. federal corporate income tax rate from 35%, thereby reducing any deferred tax assets. This would require that we recognize, in full, a reduction of a previously-recognized federal tax benefit in the period when enacted, and, along with other changes in the tax rules that may increase our actual tax expense, could materially and adversely affect our results of operations.

In addition, our investment portfolio has benefited from tax exemptions and certain other tax laws, including, but not limited to, those governing dividends received deductions and tax-advantaged municipal bond interest. Federal and/or state tax legislation could be enacted that would lessen or eliminate some or all of the tax advantages currently benefiting us. This could negatively impact the value of our investment portfolio and, in turn, materially and adversely impact our results of operations.

We are subject to the risk that legislation will be passed that significantly changes insurance regulation and adversely impacts our business, financial condition, and/or the results of operations.

In 2013, the Department of Housing and Urban Development ("HUD") finalized a new "disparate impact" regulation that may adversely impact insurers' ability to differentiate pricing for homeowners policies using traditional risk selection analysis. Three insurance industry trade associations are challenging the regulation in two separate Federal lawsuits, one by the American Insurance Association ("AIA") and the National Association of Mutual Insurance Companies ("NAMIC") in the District of Columbia, and the other by Property Casualty Insurers Association of America ("PCI") in Illinois. In the PCI case, the Court ruled that HUD acted arbitrarily in failing to consider the industry's comments regarding the application of the McCarran-Ferguson Act and the Filed Rate Doctrine, and remanded the regulation back to HUD for review and reconsideration. Subsequently, the Court in the AIA and NAMIC case vacated the regulation on summary judgment. HUD filed an appeal of this ruling. On June 25, 2015, the United States Supreme Court, in *Texas Department of Housing and Community Affairs, et al. v. Inclusive Communities Projects, Inc. et al.* recognized disparate impact liability under the Fair Housing Act, permitting plaintiffs to use statistical analysis to allege discrimination unrelated to intent. This decision likely will favorably impact the HUD appeal in the AIA and NAMIC case, but it likely will not impact the requirement that HUD review and reconsider the regulation as a result of the PCI case. It is uncertain to what extent the application of this regulation will impact the property and casualty industry and underwriting practices, but it could increase litigation costs, force changes in underwriting practices, and impair our ability to write homeowners business profitably. The outcome of the litigations and potential rulemaking cannot be predicted at this time.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

The following table provides information regarding our purchases of our common stock in Second Quarter 2015:

Period	Total Number of Shares Purchased ¹	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Maximum Number of Shares that May Yet Be Purchased Under the Announced Programs
April 1 – 30, 2015	95	\$28.70	—	—
May 1 - 31, 2015	—	—	—	—
June 1 - 30, 2015	—	—	—	—
Total	95	\$28.70	—	—

¹During Second Quarter 2015, 95 shares were purchased from employees in connection with the vesting of restricted stock units. These repurchases were made to satisfy tax withholding obligations with respect to those employees. These shares were not purchased as part of any publicly announced program. The shares that were purchased in connection with the vesting of restricted stock units were purchased at fair market value as defined in the Selective Insurance Group, Inc. 2005 Omnibus Stock Plan As Amended and Restated Effective as of May 1, 2010.

ITEM 5. OTHER INFORMATION.

Amendment to By-Laws

Effective July 29, 2015, our Board of Directors approved an amendment to Section 7C of the Company's By-Laws to raise the eligibility age for election as a member of the Board of Directors from 72 years old to 75 years old. The preceding summary descriptive sentence is qualified in its entirety by reference to the By-Laws, a copy of which is filed as Exhibit 3.2 to this Quarterly Report on Form 10-Q and is incorporated herein by reference.

Appointment of Director

On July 29, 2015, our Board of Directors appointed A. David Brown as a director, effective immediately, to serve until the 2016 Annual Meeting of Stockholders. With this appointment, our Board of Directors now has eleven directors, nine of whom are independent.

Mr. Brown, who previously served as a director from 1996 to April 29, 2015, was nominated by the Board's Corporate Governance and Nominating Committee ("CGNC") because of: (i) the increased eligibility age for election to the Board of Directors; (ii) the recent unexpected departures of Board members Joan Lamm-Tenant and Annabelle Bexiga due to conflicts with new employment and the corresponding loss of institutional knowledge and expertise; and (iii) Mr. Brown's extensive expertise in Board succession planning and director recruitment, including serving as managing director of an executive search firm specializing in diversity.

An independent director, Mr. Brown has been appointed to serve on both the Salary and Employee Benefits Committee and the CGNC.

The CGNC is continuing to review the qualifications and skills of potential director candidates identified by independent search firms engaged by the CGNC pursuant to the processes detailed in the CGNC's Charter.
